Mundt Renews Demand For Cohn Probe

WASHINGTON, March 15—UP—Sen. Karl E. Mundt renewed his demand for "neutral" investigation of the Cohn affair Monday despite Sen. Joseph R. McCarthy's blunt warning that other Senate committees should keep their distance.

Mundt, No. 3 Republican on McCarthy's investigating subcommittee, said in an interview that "no body can quarrel with the Wisconsin senator's statement Sunday night that 'no other committee is going to investigate whom we hire and fire.'"

But he declared he still believes a "neutral committee" should go after the facts in the blaring controversy over Army charges that McCarthy and the subcommittee's chief counsel, Roy M. Cohn, sought favored treatment for Pvt. G. David Schine, a former McCarthy investigator.

Mundt (R-S.D.) proposed that the neutral committee "supply a factual report to both the Defense Department and our committee" and then "Both can make their decisions on the basis of the hard core of the facts."

"I am sure our committee will measure up to its responsibility," he added, "which is to suggest corrective measures as necessary on the basis of the report."

Although Mundt wields considerable influence on the subcommittee, McCarthy made it plain on his return from Wisconsin Sunday night that he will go all-out to prevent an outside inquiry. And he has powerful support in Senate GOP leader William F. Knowland and others who feel the subcommittee is the only group with sufficient authority.

Tornado Toll Climbs To 8

MACON, Ga., March 15—UP—Tornadoes which hit two major railroads, installations and a town slammed across middle Georgia Saturday night killed eight persons, injured 55 others and left \$28 million damage, officials reported Monday.

Two tornadoes bored into the "heartland," killing six persons, injuring 35, and leaving 75 families homeless in this city of 70,000 population and in five nearby communities.

The costliest damage, however, was estimated at \$20 million in adjoining Ft. Benning and Lawson Air Force Base where an airman and a baby girl died as a first tornado entered the state near Columbus. The wind was clocked at 115 miles per hour.

Pup Palace Costing \$1,200 Puts General In 'Doghouse'

WASHINGTON, March 15—UP—A general built a \$1,200 doghouse at the taxpayer's expense on the grounds it was the "best interest" of government security.

Comptroller General Lindsay C. Warren mentioned the project to some very interested congressmen recently. His testimony was released Sunday night.

FORT DEVENS, Mass., March 15—UP—Maj. Gen. Roderick Allen said Monday he had no idea the doghouse he had built at Fort Dix, N. J., cost \$1,200.

Judge Postpones Parr Trial Despite Prosecutor's Protest

ALICE, Tex., March 15—UP—Judge Wash Storm Jr. Monday postponed for one week the trial of political boss George B. Parr on a charge of illegal pistol possession.

County Attorney Sam Burris objected vigorously, but Judge Storm granted the postponement anyway. Defense attorney Ed Lloyd of Alice told the judge that he (Lloyd) had a case in district court which started a week ago and which he expects to continue most of this week.

Lloyd represents the Tex.-Mex Railroad, which is being sued jointly with the Texas and New Orleans Railroad by 21 persons. The 21 persons are asking for flood damages.

Burris said, "I would like an opportunity to controvert Mr. Lloyd's motion for a postponement."

Reviews History of Case
Burris reviewed the history of the Parr case. Parr is charged with brandishing a pistol last Jan. 16 at Manuel Marroquin, an ex-tortilla maker, and a leader in the Freedom Party, which opposes Parr.

Burris said the trial was originally set for Jan. 18, then reset for Feb. 15. He said it was continued until March 15 at Lloyd's request.

French-Rebel Truce Called

HANOI, Indo-China, March 15—UP—French and Communist troops called the first truce of the seven-year Indo-China war Monday to let medical teams remove wounded soldiers from the trench-filled battlefield around the French fortress of Dien Bien Phu.

The cease-fire lasted four hours, from 8 a. m. to noon.

Shortly after noon, Communist artillerymen trained in Red China opened fire on the strategic French position in North Viet Nam.

Pontiff Improves

VATICAN CITY, March 15—UP—Vatican sources reported Monday Pope Pius XII still was improving gradually on the 50th day of his illness.

The sources said the 75-year-old pope spent a restful night.

According to the sources, the illness that struck down the pope last Jan. 25 is being overcome progressively. They said he gains strength daily and increases by a small amount the time he spends in his study.

Ike Says GOP Goes Too Far On Tax Cuts

Judge Postpones Parr Trial Despite Prosecutor's Protest

ALICE, Tex., March 15—UP—Judge Wash Storm Jr. Monday postponed for one week the trial of political boss George B. Parr on a charge of illegal pistol possession.

County Attorney Sam Burris objected vigorously, but Judge Storm granted the postponement anyway. Defense attorney Ed Lloyd of Alice told the judge that he (Lloyd) had a case in district court which started a week ago and which he expects to continue most of this week.

Lloyd represents the Tex.-Mex Railroad, which is being sued jointly with the Texas and New Orleans Railroad by 21 persons. The 21 persons are asking for flood damages.

Burris said, "I would like an opportunity to controvert Mr. Lloyd's motion for a postponement."

Burris reviewed the history of the Parr case. Parr is charged with brandishing a pistol last Jan. 16 at Manuel Marroquin, an ex-tortilla maker, and a leader in the Freedom Party, which opposes Parr.

Burris said the trial was originally set for Jan. 18, then reset for Feb. 15. He said it was continued until March 15 at Lloyd's request.

Wilson Claims Military New Look Adequate

WASHINGTON, March 15—UP—Defense Secretary Charles E. Wilson said Monday the government's "new look" military program will provide "adequate" security under present world conditions but may be altered if conditions change.

He forecast further cuts in military and civilian manpower, reduced armament production, increased spending for planes, guided missiles and electronics, and "adequate support" to the "most promising and urgent" research projects.

Wilson testified before the Senate Appropriations committee as it opened hearings on President Eisenhower's \$37.6 billion spending request for the armed forces for the 12 months starting July 1.

Sen. Burnet R. Maybank (D-S.C.) said earlier that the administration's military budget "has been reduced too much" and that more funds are needed for the Air Force and Army.

And Sen. J. William Fulbright (D-Ark.) called for a "new look at the new look" because "only the most naive could believe that the reductions in military expenditures... have strengthened our defense."

In his prepared testimony, Wilson did not reply directly to questions about the "new look" raised by Adlai E. Stevenson, and other Democrats.

PAPER CHASE — Rep. Thomas M. Pelly (R-Wash.) has reported to the Joint Congressional Atomic Energy Committee that the AEC has admitted "substantial quantities" of secret papers are missing from the Hanford, Wash., atomic plant. Pelly says an AEC official has confirmed rumors that certain papers were "missing."

Russell Says Tax Bill Will Be Approved

DALLAS, March 15—UP—Sen. Richard B. Russell (D-Ga.) predicted Congress will cut income taxes this year by an increase in personal exemptions from \$600 to \$800.

The Senator, who won support of the Texas delegation in his bid for the Democratic presidential nomination in 1952, said he had "grave doubts" about reducing taxes before the national budget is balanced.

"I am inclined to believe the Congress will accept Sen. (Walter F.) George's proposal to increase exemptions to \$800," Russell added.

During a brief stopover Sunday in Dallas en route to Atlanta, the senator also said, "I don't believe the administration can pass its flexible farm price support program."

"He said the economic committee of the House and Senate opposed flexible farm price support because it will still further decrease farm income."

WASHINGTON, March 15—UP—Adlai E. Stevenson has challenged President Eisenhower to shed Sen. Joseph R. McCarthy "as a party spokesman" to prove he is the unquestioned leader of the Republican party.

Stevenson declared that Vice President Richard M. Nixon's speech Saturday night confirmed his belief that "McCarthyism was injuring the government, dividing the nation and diverting the attention from the real issues."

The vice president did not say so Saturday. But he clearly had the Wisconsin Republican in mind when he said that men who have done good work hunting Communists have "by reckless talk and questionable methods made themselves the issue rather than the cause they believe in so deeply."

Stevenson fired back late Sunday in a statement issued through the Democratic National committee here.

"Vice President Nixon... assured us that the President was the unquestioned leader of the Republican party. That is fine, as far as it goes. But will the Republican National committee continue to use Senator McCarthy as a party spokesman?"

Democrat Proposal Termed Even Worse

WASHINGTON, March 15—UP—President Eisenhower told congressional leaders Monday Republican congressional tax cutters have gone a little too far and Democratic tax reduction proposals would be too much.

Mr. Eisenhower gave his views to Republican congressional leaders at the White House who received a preview of the national radio and television speech he will make Monday at 8 p. m. (est.) on taxes.

House Speaker Joseph W. Martin Jr., told reporters Mr. Eisenhower thinks the House Ways and Means committee already has gone "a little too far" in making federal excise (sales) tax cuts.

He further believes the Democratic drive to boost individual tax exemptions by \$100 would be "too much."

Would Lose \$2.5 Billion
The Democratic proposal would mean a loss to the treasury of about \$2.5 billion a year.

In addition, the tax-writing House Ways and Means committee has approved a general tax revision bill which means a further cut of \$1.3 billion.

Martin said these proposals, plus a \$3 billion cut in individual income taxes which went into effect Jan. 1, and a \$2 billion cut in excess profits taxes on corporations would represent a total of more than \$7 billion in tax relief this year.

Expresses Grave Concern
The Massachusetts Republican said grave concern was expressed in the White House conference that if they went beyond that figure it would endanger the administration's program and delay a balanced budget for several years.

Sen. Walter F. George (D-Ga.), who has proposed an increase of \$200 in personal income tax exemptions, predicted in an interview that Mr. Eisenhower will abandon the fight against the excise slash.

He said he knows Republican congressional leaders have advised the administration the battle is quite lost. And a Republican leader confided that he is convinced the administration is now reconciled to this.

The President, who spent part of his vacation weekend working on his talk, gave his congressional lieutenants a preview at his regular legislative meeting at the White House Monday morning.

The 15-minute speech will be carried at 8 p. m. on Monday by all major television and the ABC and CBS radio networks. Television and radio broadcasts will be carried later Monday night.

Mr. Eisenhower told his news conference last week that his talk would be a discussion of tax policies in relation to the administration's overall program. Basically, he is opposed to sharp tax cuts while the government still is trying to get out of the red.

Adlai Calls On Ike To Shed McCarthy

WASHINGTON, March 15—UP—Adlai E. Stevenson has challenged President Eisenhower to shed Sen. Joseph R. McCarthy "as a party spokesman" to prove he is the unquestioned leader of the Republican party.

Stevenson declared that Vice President Richard M. Nixon's speech Saturday night confirmed his belief that "McCarthyism was injuring the government, dividing the nation and diverting the attention from the real issues."

The vice president did not say so Saturday. But he clearly had the Wisconsin Republican in mind when he said that men who have done good work hunting Communists have "by reckless talk and questionable methods made themselves the issue rather than the cause they believe in so deeply."

Stevenson fired back late Sunday in a statement issued through the Democratic National committee here.

"Vice President Nixon... assured us that the President was the unquestioned leader of the Republican party. That is fine, as far as it goes. But will the Republican National committee continue to use Senator McCarthy as a party spokesman?"

Stevenson, who is vacationing at Hobe Sound, Fla., also accused Nixon of giving out "misleading information about the number of subversives ousted in the administration's security program so that 'we don't know yet how many Communists, if any, they have caught and dismissed'."

WASHINGTON, March 15—UP—A posse aided by planes combed the brushy desert countryside near the Mexican border Monday in a search for a murder suspect and two other fugitives involved in a daring daylight jail break.

Lordsburg, N. M., Police Chief Lalo Sanchez said state and county officers were trying "to fence them off from the Mexican border before they can slip across."

Marvin H. Vaughan, 30, charged with first-degree murder in the cold-blooded slaying of a hitchhiker, was the prime target of the manhunt. He escaped from his cell in the Lordsburg jail about noon Sunday in what police said appeared to be a well-laid plot.

Carl Franklin Martin, 27, who himself was jailed Thursday apparently as part of the plot, returned Sunday and claimed he had left a jacket in the county jail.

Martin then overpowered jailer Bill Wynn, 71, and Wynn's wife and freed both Vaughan and Charles Caldwell, 22, who was being held for Buffalo, N. Y., authorities on a child desertion charge.

The three then fled in Wynn's car, police said, after locking the jailer and his wife in a cell. Officers found the car out of gas near here and spotted the three hitchhiking toward the Mexican border.

Oil Found on Battleground
HOUSTON, March 15—UP—Oil derricks may blossom soon with the San Jacinto monument as a background. Olympia Oil and Gas Co. has announced oil showings in three separate sands at a wildcat in the battleground area and has filed application to drill three more wildcats.

From convicted Texas Reds, Shivers wants not money but, if he had his way, their lives.

It appeared unlikely, however, that Shivers' "death for Communists" proposal in speeches in Texas and outside the state actually would be enacted by the Legislature; even that the governor would request such a law.

But Shivers did charge the Legislature, in his formal proclamation summoning it into special session, to provide "suitable punishment" for convicted Communists.

More Dust Predicted
More blowing dust is expected for Gray county and the Panhandle this afternoon.

Forecasters said that shifting winds would cause some blowing dust today throughout West Texas.

The mercury tonight is expected to dip below freezing in this area. Temperatures early today dipped below the freezing mark here, with a low reading of 25 degrees being reported by Radio Station KPDM. Amarillo reported a low of 25 degrees.

If it comes from a hardware store, we have it. Look Hardware, 414 S. 4th.

WASHINGTON, March 15—UP—Monday is the day when 60 million American taxpayers must make their peace with the Internal Revenue service—or else.

Their income taxes for 1953 must be in the Treasury's coffers before midnight. And there is no escaping a penalty if this isn't so.

There is an interest charge figured at six per cent per year for late payment. And if there is no good reason for the delay there are more penalties. These can run as high as 25 per cent of the total tax.

Refunds will be a little late this year. There is no use sitting in the tax director's office as a Baltimore woman did to wait for a refund claim to be filed.

Refunds never did come last year and this year the Internal Revenue service has adopted an official slow-down to fire agents more time to check claims.

Most Internal Revenue service offices will be open late Monday night to help settle tax problems in person or by telephone.

This may be the last time for the March 15 deadline. Congress is considering a tax bill which would shift T-day from the 15th of March to the 15th of April. But this wouldn't have any effect until next year at the earliest. And it doesn't shave anything off the bill.

Collections for 1953 are expected to set a record since it was the biggest boom year in U.S. history. But a late dip in production and employment raises some doubt about whether tax revenue will be quite as high as the \$75 billion estimated in President Eisenhower's budget message last January.

Job Opportunities Continue Seasonal Upswing In Pampa

It was still the same old story today — a gradual increase — in the matter of the Pampa employment situation. Bill Ragdale, manager of the Pampa Texas Employment Commission office, late this morning commented that there had been no "significant" change in the job picture from a week ago, but emphasized that it was about normal for this time of year.

The rate of increase of local job activity is pretty much the same as a year ago at this time, Ragdale pointed out, but the difference lies in the fact that it began from a lower base.

"We are expecting" some jobs in construction in the near future, the TECman continued, but added it was "still too early" to expect much activity.

On top late this morning in the local TEC office were jobs for stenographer, waitress, typist, clerk, service man, salesman, clerk-typist, electric motor repairman, insurance salesman and credit manager — a total of 21.

Mainly About People

Pampa League of Women Voters members were to have held their annual election of officers meeting at noon today in the basement of the First Methodist church. Three new officers and three new directors were to have been elected.

Pampa's proposed Optimist club will meet at 6 p. m. today in the Pine Room of the Schneider hotel, according to acting chairman Buck Francis.

Mr. and Mrs. Billie Wright, 1644 S. Faulkner, became the parents of a 7 lb. 8 oz. boy at 8:17 a. m.

today in Highland General hospital, Sheriff Susan, a 7 lb. 14 oz. girl, was born to Mr. and Mrs. A. C. Sanders of Lefors at 2:30 a. m. Sunday in Highland General Hospital.

Mrs. Lena Willis, former Pampa now living in Pittsburgh, Pa. is visiting friends and relatives in Pampa and vicinity.

Mr. and Mrs. H. T. Hampton, 1035 E. Fisher, have had as their house guest, their daughter, Mrs. Preston Mapez of Bartlesville, Okla.

Scared Of A Cat
BOSTON, March 13—Officials of New England school-boy basketball tournament turned thumbs down on a request by the Nashua, N. H., high school team to bring its mascot to Boston Garden next week. The mascot is a live panther.

Plains Stock Show Opens
LUBBOCK, Tex., March 13—UP—The South Plains Junior Fat Stock Show opens Monday and continues through Wednesday.

Lights Are Wrong Color
HOUSTON, March 13—UP—Traffic officer T. L. Parker said Monday a University of Houston student had his speed adjusted right for 10 synchronized stop-go lights on Pease Ave. But Parker gave the student a ticket anyway, charging the student went through all 10 lights when they were red.

Navy to Unveil Two Fighters
WASHINGTON, March 13—UP—The Navy this week will announce the development of two experimental fighter planes which can take off and land vertically and thus need neither runways nor carrier decks to operate.

Jordan Border Incident
JERUSALEM, March 13—UP—An Israeli force penetrated about four miles into Jordan Monday and attacked the Yehad police station near Jenin with automatic weapons and bombs. Jordan authorities charged. Reports said the Israelis failed to get into the state but killed two Arabs while retreating to Israel.

REFLECTIVE—Dr. Albert Einstein, originator of the theory of relativity, relaxes in his Princeton, N. J., study. The world-famous scientist will celebrate his 75th birthday on March 14.

Rogers Discusses Hidden Taxes In Weekly Epistle

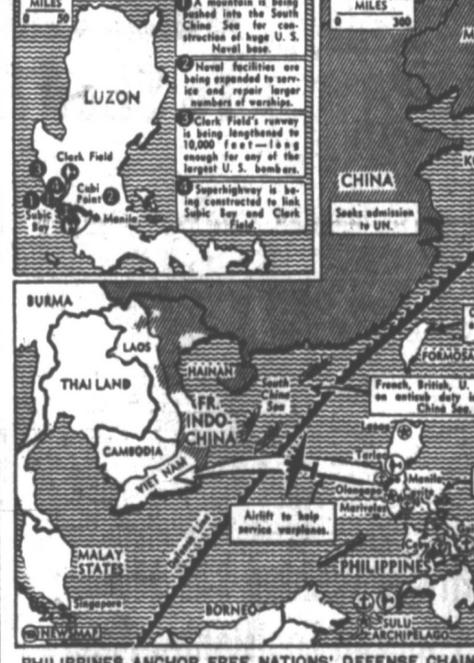

Today is the Idea of March, the deadline for paying income taxes and the day Rep. Walter Rogers likes to discuss — taxes. Devoting most of his weekly newsletter to a bill on the reduction of taxes, which passed the House of Representatives last week, the Pampa congressman points out that they are federal sales taxes, sometimes . . . called the hidden tax that you pay but do not know.

Items in the House-passed bill in which taxes have been reduced to 10 per cent. Rogers states, include furs, jewelry, luggage, toilet preparations, sporting goods, mechanical pens, pens and lighters, electric light bulbs and tubes, pistols and revolvers, firearms, shells and cartridges, cameras, lenses and film, telephone, telegraph, radio and cable, local telephone, transportation of persons, leases of safe, deposit boxes, admissions, general and cabarets, club dues and initiation fees.

BABY NEEDS THIS SHOE—Mothers all over will welcome the news that a Dutch factory has started mass production of a new baby shoe that grows with the child's feet. It's pictured above as displayed in Amsterdam. Gimmick is a detachable back piece that fastens on with snaps. Between the inside heel and the outside heel there's a strip of leather. Remove this and the shoe becomes a half size larger. Remove both the strip and the inside heel and shoe is a full size larger.

Dumpy Rice's Store Burns In Oklahoma

A former Pampa who was in business in Altus, Okla., today was surveying the ruins of his drug store.

Gordon (Dumpy) Rice, former manager of Creney's drug store in Pampa, early Sunday morning watched the Altus drug store of which he was co-owner burn to the ground, it was learned here today.

Gas Debate Delegates Undecided

Who would represent the Pampa City Commission and the local office of Empire Southern Gas Company at this week's hearing in Austin was a matter of conjecture late this morning.

A hearing for a suit filed by Empire, which seeks to have a Texas Railroad Commission fixing new municipal gas rates in Pampa set aside, is scheduled for 10 a. m. Thursday in 12th District Court, Austin.

Mayor Tom Rose, the four city commissioners, Texas Atty. Gen. John Ben Shepperd and the three-member TRRC have been served with citations on the matter.

But City Atty. Bob Gordon today said that, though it would not be necessary for all the commission to be present, he would like at least some of them on hand.

Who will go will probably be decided at Tuesday morning's commission meeting.

Erwin Thompson, local Empire manager, today said he didn't think anyone from the Pampa office would be present. James A. Davis, Fort Worth, Empire president, and others in the home office would represent the company, he thought.

The TRRC handed down a compromise decision, effective Feb. 15.

Mining Engineers to Meet
ODESSA, Tex., March 13—UP—A meeting of the Permian Basin section of the American Institute of Mining and Metallurgical Engineers will be held at the Odessa Petroleum Club Monday night.

HE'D BETTER BEHAVE—Don't rub your eyes—it's true. Pretty Elvie Paulsen lifts her 150-pound husband, Pilon, above her head with the greatest of ease, during a musical act in Hamburg, Germany. The muscle-packed glamor girl also seems to be taking things in stride as she carries on a telephone call while balancing her husband on her lower leg. Elvie claims she gets her strength by eating three spoons of chopped shark's tail for breakfast. However, she's not strong, or fast enough, to be in two places at once. This is a composite picture of two of her most difficult poses.

Committee Heads Of Cancer Society Will Meet Tonight

The committee chairman of the Gray County chapter of the American Cancer Society will meet at 7:30 p. m. today in the home of Rev. Porter Brooks, 2109 Hamilton.

Purpose of the meeting will be to set-up a timetable for the April Cancer Crusade. "Many people think Cancer society was included in the United Fund as it was listed on some of their literature," Rev. Brook pointed out. "But the Cancer society was not the recipient of any of its funds." The Cancer society anticipates being in the UP at sometime, he added, but will follow its own campaign this year.

Plans will also be made at the meeting for the distribution of educational pamphlets and the showing in cancer films. Already Joe Cantrell, industry committee chairman, has shown the cancer film "Warning Shadow" three times at the Coliseum plant. Rev. Brook advised.

The Gray County chapter has just recently organized. Officers include Rev. Brooks, chairman; Dr. Raymond Laycock, vice-chairman; Mrs. Walter Spangenberg, secretary; and B. D. Robison, treasurer.

Osborne Services Set For Tuesday

Funeral services for L. H. Osborne, 81, who died Friday in Alpine, will be held at 2:30 p. m. Tuesday in the Duane-Carmichael Funeral Home chapel. Dr. E. Douglas Carver, of the First Baptist Church here will officiate, and burial will be in the White Deer cemetery.

Palbearers will be Mr. Osborne's nephews and include Bob Higgins, Tom Higgins, Jack Osborne, Jake Osborne, Tandy Smoot, and Clarence Anderson.

Mr. Osborne was a prospector in the gold rush in the Alaskan Klondike region. He had lived in Alpine for about 12 years. He is survived by one daughter, Mrs. Adele Watson of Buffalo, N. Y.; four brothers, J. P. Osborne of Pampa, J. H. Osborne of Miami, N. R. Osborne of Amarillo, and J. three sisters, Mrs. D. I. Anderson of Pampa, Mrs. Jennie Smoot of Lubbock, and Mrs. Margaret Wells of White Deer; and two grandsons of Buffalo, N. Y.

Senior Play Begins Tonight

The annual senior class play will be presented tonight and Tuesday night in the Pampa high school auditorium, beginning at 8 o'clock. The three-act comedy, entitled "January Thaw," was written by William Roos and was adapted from a novel by Bellamy Partridge.

Board Seeks Grid Coach

A special session of the Pampa school board, it is "pretty sure," will be held sometime this week for the purpose of selecting a successor to Harvester Football Coach Tom Tipps who resigned a week ago today.

Pampa Schools Superintendent Knox Kinard late this morning admitted the likelihood of such a session, pointing out that the next scheduled board meeting is not till a week from tonight.

Tipps resigned to take an assistant football coach's spot at Texas A & M, Aubra Nooncaster, assistant Harvester football coach for seven years, the same length of time that Tipps had been in Pampa, has been prominently mentioned to take over the head coach reins.

The first U. S. postage stamps were placed on sale July 1, 1847, at New York City.

Survey Head

Dr. Henry St. Winston is chairman of an eight-man committee named to study ways of increasing the effectiveness of career government employees. At present he is president of Brown College, in Providence, R. I.

Almost one-third of all radio sets produced in the United States are used in automobiles.

CLARENCE DYE, 43, of Fed. W. Va., alias "Jockey Dye," and "Jock." WANTED for unlawful flight to avoid prosecution for armed robbery. He has been convicted previously for breaking and entering, burglary and snags. Dye is five feet, ten inches tall, weighs 140 pounds, has brown hair and blue eyes. He has small pit scars on his face, scar over both eyebrows, and tattoo on initials "C. D." on right forearm. He is a neat dresser, is fond of gambling, and enjoys reading detective story magazines. In the past he has worked as a waiter, cook, bartender, shipfitter, welder and laborer. He reportedly enjoys cooking and might seek employment in a restaurant. CAUTION: He is probably armed and should be considered extremely dangerous. Dye has reportedly stated that he will not be taken into custody alive and will attempt to kill any officer arresting him. If you can help locate him NOTIFY the Federal Bureau of Investigation, Department of Justice, Washington, D. C., or FBI agent in your city.

New Furniture Fits Traditional Decor

By KAY SHERWOOD
NEA Staff Writer

What's your taste in furniture? Most of us enjoy several different styles, but when we plunk the dollar down our tastes are usually tempered by what we already have.

I can admire the interesting concoctions of string and metal, but it would be hard to find a suitable setting for them in an old-fashioned midwestern home.

That's one reason why new furniture which blends traditional design with modern ideas of performance is deservedly popular. Store this spring have a wide selection for homemakers who like traditional decor and are thinking of adding a new piece or two to an existing array of Americana.

One new line, named for an old Virginia grist mill, looks as sturdy as early American as its name, but the designs are strictly up to date in function. A tall, hutch headboard for a bed in solid cherry, for example, looks as though it might have been lifted from the top of an old cabinet.

But underneath the edges of the scrolls for bedding readers. Open shelves and twin-closed cupboards provide enough space to accommodate the need for night tables.

Noteworthy, too, in this line is a serving cart which has drop leaves to expand it to table size. There's a drawer that pulls out to make a serving tray. A hutch-topped chest, dining table, chairs and secretaries are other handsome additions which incorporate traditional design in modern sizes.

Another interesting combination of old and new is Early American styling used for a double dresser with a vanity table suspended between the units. The Windsor chair, with lovely graceful spokes pegged into a curving back, is the direct inspiration for another new headboard. This is in

Decorative and useful new serving cart in cherry has slip-up leaves that expand the cart to table size. Hutch sideboard in background is also in cherry and is ornamented with an antique sunburst design.

solid cherry in a warm, medium-toned finish.

A companion piece is chest of drawers reminiscent of the old apothecary chest with eight small upper drawers and four large and roomy lower drawers. The new mahogany tables are faithful to traditional designs, except they

are made smaller and lower to the floor to accommodate smaller rooms with lower ceilings.

And a nest of three American cherry tables boasts a modern touch in black plastic tops which, as you know, resist a good deal of abuse.

Lee-Troop Wedding Vows Exchanged At Double-Ring Cotulla Ceremony

Mr. and Mrs. A. C. Troop, 923 Rhoad, were among guests at the recent wedding of their son, Lee, to Miss Dorothy Jean Lee, daughter of Mr. and Mrs. C. B. Lee of Cotulla, in the Cotulla First Baptist Church.

Mrs. Sarah Mathews, organist, played traditional nuptial music at the organ and accompanied soloist, Mrs. Hardy W. Reese, who sang "Because" and "Always." Rev. Hardy W. Reese of the First Baptist Church, officiated at the double ring ceremony which took place before a background of green maidenhair fern interspersed with white gladiolus, flanked by white lilies in cathedral candelabra.

The bride, who was given in marriage by her father, wore a gown of white tulle and net over white satin. The fitted lace bodice was fashioned with a high neckline and long sleeves. Her train was of white tulle and feathered with white and pink accessories. She also wore a white carnation corsage.

The bride's table was covered with a white madder cloth and held a centerpiece of white gladiolus and candelabra. Maline and white satin ribbon completed the arrangement. The three-tiered cake was embossed in pink rosebuds and held a miniature bride and groom at the top.

For travel the bride wore a teal blue suit with rhinestone trim at the neckline. Her accessories were navy blue and she wore a white orchid from her bridal bouquet.

Following a honeymoon trip to Oklahoma City and Mr. Troop's tour of duty with the navy, the couple plan to make their home in Kingsville.

Lefors Methodists-Serve Dinner To Wives, Daughters

LEFORS — (Special) — The Methodist men's group sponsored a mothers' and daughters' banquet Wednesday evening in the Fellowship Hall.

Approximately 25 men cooked and served dinner to the 96 mothers and daughters who attended. Mrs. I. T. Hückel, mistress of ceremony, introduced the mothers and daughters. Mrs. Walter Pfus gave the invocation and Mrs. Alfred Bennett was toast mistress and gave the welcoming address. Pat Carpenter gave the response.

The program for evening consisted of a duet by Carol Graver and Gwen Thurmond and a piano solo by Margaret Cobb. Miss Sylvia Bradford sang a vocal number.

Mrs. Otis Nace of Pampa, guest speaker, gave a reading and spoke on "Gathering Flowers Instead of Thorns."

Mrs. Edmond Kirby, was also a guest and gave the benediction. The cooks and waiters were called in from the kitchen and given thanks for the dinner. All were dressed in white aprons and chef's caps.

Table decorations were white and green candelabras, bouquets of jonquils and placed down the length of the tables were packages of Tums.

- TUESDAY
- 7:00—Deborah Class Has Business Meeting

The Deborah Class of the First Baptist Church held its monthly business meeting recently in the home of Mrs. Ted Atwood, 409 Magnolia.

Mrs. Harvey Downs opened the meeting with prayer. Besides the regular business, new officers were voted on. New officers elected were president, Mrs. Walter Routh; vice president, Mrs. Emil Wilson; secretaries, Mrs. Leonard Husted and Mrs. Bryan Buck; group captains, Mrs. Wayne Denney, Pernal Scoggin, Mike Shepic, and Orville Lewis.

Members present were Mrs. Wayne Denney, John Gikas, Mike Shepic, Jack Atwood, Margie Crouse, Orville Lewis, Harvey Downs and the hostess, Mrs. Atwood. There was one guest, Mrs. Oscar Downs.

Eggs And Salmon Good Lenten Fare

NEW YORK — UP — Egg dishes are a tradition for Lenten meals. Combined with salmon in this dish, the results are hearty enough for lunch or supper. Here is the recipe:

Melt 2 tablespoons margarine or butter in a skillet. Stir in a 1-pound can of salmon, do not drain; 3 unpeeled eggs; 1 tablespoon dry fine bread crumbs; 2 teaspoons cider vinegar; ¼ teaspoon ground thyme; and salt and ground black pepper to taste.

Cook over medium low heat until the mixture is of the consistency of scrambled eggs, 5 to 10 minutes, stirring constantly. Yield, 6 servings. To complete the meal, serve with grits or pan-fried potatoes and a mixed green salad.

Your Own Spread

NEW YORK — UP — You can easily make your own honey spread.

Just add gradually 1 cup of strained honey to 1 cup softened margarine. Beat until smooth. Spread on toast for breakfast or on untoasted bread for snacks. Stir the mixture each time before using. The spread can be stored in a covered jar in the refrigerator.

Patty Sue White Celebrates Seventh Birthday With Party

A birthday party was given for Patty Sue White Friday afternoon in the home of her parents, Mr. and Mrs. John B. White, 1314 Christine, to celebrate her seventh birthday. Shamrock name cards were pinned on each guest as they entered. Little guests played musical chairs with Mickey Joe Beard winning. Claire Ann Alford won the clay molding contest. The children held a mock television program, "For Kids Only," complete with Cagney, Aunt Phyllis Uncle Pat and Pete the Pirate. Pictures were taken and gifts opened by the honoree. Refreshments of green punch and birthday cake were served.

Guests were Carol Rice, Jane Boyd, Kerrick Warner, Dean Evans, Sherry Dooler, Joy Ann Schultz, Karle Warner, Mickey Beard, Sandra Beard, Mickey Barrett, Claire Ann Alford, Jim Brumley, Michael Jay, Christie Converse, and the honoree, Mrs. Paul Barrett assisted Mrs. White with games and refreshments.

Try Tasty Dressing For Fish Fillets

NEW YORK — UP — For protein content, eggs, cheese and seafood are among the best substitutes for meat during Lenten meals.

Little touches such as a tangy sauce for the fish or a new way of serving eggs help make a meal one of which everyone calls for seconds.

Condensed tomato soup, for instance, makes a tasty dressing for fish fillets. Here is the recipe:

1½ pounds fillet of flounder or other white fish or 6 fillets; melted butter or margarine; salt and pepper; crushed marjoram optional; 1 can (1½ cups) tomato soup; 2 tablespoons lemon juice; and 2 tablespoons prepared mustard.

Brush fillets with butter and sprinkle with salt, pepper and marjoram; broil about 15 min., or until well browned. Do not turn the fish. Meanwhile, blend the soup, lemon juice and mustard in a saucepan and heat. Arrange fillets on platter, and pour on the sauce. Yield, 6 servings.

Two United States postage stamps have been issued honoring the Red Cross in 1931 and 1935, and a third, in 1948, commemorated Clara Barton, founder of the American Red Cross.

MATURE PARENT

By MRS. MURIAL LAWRENCE

Peggy was eight the summer her parents sent her and her brother to camp and went to South America. Before they left, they told the children why they were going.

Peggy's mother explained how daddy's business required him to go. Then her father reminded the children that their mother needed a rest and a change.

That was eight years ago.

The other day, Peggy came home from school very grumpy. Asked why, she burst into a wail of woe.

"Mr. Hughes didn't give me a card for my birthday!" she said. "Ethel cried when she told me. Honestly, I think it's awful the way parents don't care about anybody but themselves!"

"Daddy and I are not divorced," her mother remarked. "And so far we have always remembered your birthdays."

And right then, out of the blue sky, Peggy attacked her mother for the South American holiday she had almost forgotten. "You didn't care about Brother and me when you dumped us in camp that summer!" she charged. "All you wanted was to get rid of us so you could go with daddy!"

Her mother was not aroused to

AAUW Will Meet To Elect Officers

The Pampa branch of American Association of University Women will elect two new officers Tuesday evening at the meeting in the City Club Room at 7:30. The president and a secretary will be voted on for a two-year term. Outgoing president is Miss Evelyn Milam and secretary, Mrs. Jim Thompson. The vice-president, Mrs. Walter C. Bowen and treasurer, Miss Oleta Marlin, now in office, will serve one more year.

Miss Ruby Trusty, chairman of location committee, has arranged a program, "Special Education." Hostesses for the evening will be Miss Virginia Vaughan, chairman, Misses Mary Gordon and Madge Rusk.

anger, hurt or defensiveness by the unreasonableness of this reproach. Instead, she said mildly, "You must have missed us more than I thought you did. We missed you terribly. Why was the camp so awful? Tell me what happened."

And so, because Peggy's mother possessed enough self-approval to make it possible to ignore her child's disapproval, she was able to evoke and comfort a jealous hurt that Peggy herself didn't know she still felt.

If we have proper self-approval, we will never allow this kind of retroactive anger to depress us. If we haven't, its revelation may appeal to us.

We don't have to defend ourselves at all. We don't have to accept anybody's unreasonable insistence that we had no right to ever make any mistake — or take that hard-earned vacation.

Like Peggy's mother, let's not ask our critical child for reason in these situations. For she can't give it to us. We are under attack, not by our 16-year-old daughter at all, but by a little 8-year-old girl incapable of reason.

To deal with her, we have to ask for feelings instead of reason — the still unconfined feelings that belong to a lonely, dead-and-gone summer we thought she had forgotten.

And like Peggy's mother, go back in time to our angry little girl with the interest and sympathy she didn't dare know she wanted at the time, lest she disappoint and displease us.

Lucky 36

DETROIT — UP — Thirty-six is a lucky number for Detroit lawyers with an eye on a judgeship. The 36th floor of the Cadillac Tower office building here has produced three members of the bench in recent months. Probate Judge George Edwards, Common Pleas Judge Nate Kaufman, and Recorder's Court Judge John Ricca all had law offices on that floor prior to their appointments.

Small fry will walk in the Easter parade this year wearing fashions patterned closely after mother's. For little sister (left), there's a navy rayon faille redingote with deep open neckline and soft roll collar. Box jacket suit (right) for big sister is in slate blue rayon flannel. Princess coat for little sister has striped rayon-and-acetate taffeta lining that matches her Easter dress.

Jack Spratt Diet: No. 7 Dual Diet Has Allowance For Normal Eating Habits

EDITOR'S NOTE: Here's the last of seven articles in a unique unique two-way diet plan for the whole family—the ones who can eat no fat and the ones who can eat no lean, as the Jack Spratt rhyme goes. The big-star man and wife who tell their experience with the diet are the Jose Ferrers (she's Rosemary Clooney). Along with their story, Adeline Garner, a top nutrition expert for business results.

By ROSEMARY CLOONEY (Written for NEA Service)

One of the nicest features of the diet plan that Jose and I have been using is that it makes allowances for normal eating habits. Neither of us has had to drastically re-amp his ways.

As I have pointed out, in addition to enjoying three regular meals each day, we both can have the between-meal snacks that most people in this country like. And, like most people, too, our Sunday menu is quite different from the menu for the rest of the week. Breakfast and lunch are combined into one large meal, re-

placing lunch. Supper also is larger than usual.

Instead of three snacks, only two are allowed, but these are a little larger than the weekday ones. For example, in place of my usual carrot stick or celery stalk, I may have a glass of skim milk and a fruit.

Consequently the program has not seemed a burden to either of us. Yet we have been able to achieve the weights that the doctor told us would be desirable. The results weren't achieved overnight, but then, we needn't fear that we will slip back into our old food habits.

By ADELINE GARNER (Written for NEA Service)

Cheese Complements Fresh Asparagus

NEW YORK — UP — Fresh asparagus with cheese is a tasty springtime combination and fits in with Lenten meals.

Here is one way to prepare the combination. Heat 4½ pound processed American cheese and 1-3 cup milk in the top of a double boiler, over hot — not boiling — water. Stir occasionally until the cheese is melted. Season with 1-16

teaspoon ground black pepper and ¼ teaspoon salt. Cook 2 pounds fresh asparagus until tender, 12 to 15 minutes in a covered saucepan, containing 1 inch of boiling water and ½ teaspoon salt. Place stalks on toast and pour cheese sauce over the asparagus. Yield, 6 servings.

So, ask for a library copy of Wards big, new Catalog, today, and phone your orders to our Catalog Department.

The Pampa Daily News

One of Texas Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa News, Atchison at Somerville Pampa, Texas. Phone 4-2535, all departments. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES

By CARRIER in Pampa 30c per week. Paid in advance (at office) \$3.90 per 3 months, \$7.80 per six months, \$11.60 per year. By mail \$10.00 per year in retail trading zone, \$11.00 per year outside retail trading zone. Price for single copy 5 cents. No mail orders accepted in localities served by carrier.

War Formulas

It is not only fitting but vital that the so-called "new look" in American military planning be subjected to the most searching public discussion. The safety of the nation is at stake. The raising of sincere questions cannot be dismissed as "cheap politics."

A lot of Democrats and some Republicans have posed questions about the "new look" and it must be said that most inquiries are in far soberer vein than has characterized a great deal of the political jousting in 1954 to now.

And yet, the basic question that is being asked tends to give the public a strongly misleading impression about the nature of the "new look" and its possible alternatives. The "new look" stresses the air arm as the principal element in our military policy. Planes equipped to deliver A-bombs and H-bombs would be our great offensive reliance. Emphasis on such a striking force would, at the same time, reduce (but not eliminate) our dependence on ground armies.

The basic question raised about this policy is: "How does this prepare us to fight the little aggressions like those in Korea, Indo-China and Malaya? If a new 'little aggression' develops, do we meet it by dropping the H-bomb on Moscow?"

Now, whether it is intentional or not, there is implicit in this question the assumption that the "old look" somehow DID afford a successful answer to little aggressions. But did it?

In Korea, we fought an action which ended in limited triumph. We stopped the Communists from conquering South Korea, and bit off a thin slice of North Korean soil. But we did not drive the Reds from all North Korea, nor destroy their armies, so that we might then unify Korea and produce a lasting settlement satisfactory to the free nations.

In Indo-China, we have greatly assisted the French with material and money. We have enabled them to hang onto key strong points doggedly over a weary eight years, but we have not given them the punch they need to win.

In simple words, we have had a policy up to now which produces little better than military stalemate in the small wars fought on the outer fringe of the Communist tide. No fair-minded man can pretend that this is a "successful" policy. It is merely better than a totally unsuccessful one which would lead to military defeat.

So, while the "new look" lacks a method for dealing with small wars, so did the "old look." And those who raise the question ought to show they understand this. Certainly anyone should be free to discuss how to meet the small-war problem; but there ought to be no implication that we have met it outstandingly in the past.

We did not smash the Communists in Korea because we were not willing to pay the price in men, material and money that it would have cost. We have not pitched in harder in Indo-China for the same reason.

Whatever shouting to the contrary they may do on the surface, Democrats and Republicans actually are agreed that this country shall not undertake such large-scale fighting for such small stakes. Neither wants to do what would have to be done to score a resounding victory in a little war, because both know the people don't want it.

True, we desperately need a formula for dealing with secondary aggression. But let no one argue that we had one until the day before yesterday and gave it up for something cheaper but less satisfactory. We have never had one.

Make TVA Pay

Tennessee Valley Authority may be "creeping Socialism," as President Eisenhower described it, or it may be the noblest experiment since Prohibition, as its more rabid followers seem to contend. We have our own opinion and nobility is hardly the word! But whatever it is, the U. S. Chamber of Commerce argues, the super public power agency ought to pay it own way.

In an exhaustive report of TVA financing since 1933, the Chamber reveals that revenues from the sale of below-cost electric power are insufficient to return the taxpayers' multi-billion dollar investment in the project. In order to place TVA on a paying basis, the Chamber, among other proposals, urges that TVA be required to pay interest to the U. S. Treasury on the government's investment, that TVA pay state and local taxes equivalent to the rates paid by private utilities, and that TVA pay the U. S. Treasury a suitable percentage of its gross revenue in lieu of federal income taxes.

Public power zealots who have promoted TVA over the years long have argued that such projects provide a "yardstick" to keep the rates charged by private utilities in line. It would be interesting, should the Chamber of Commerce proposals to make TVA pay its way be adopted, to observe what would happen to the TVA yardstick.

BETTER JOBS

By R. C. HOILES

Unwanted Production

People usually spend what they have ability to spend for what they want most. They do not need the government to give them a subsidy in order to help them choose what they want to buy.

In Paul Polrot's booklet on "Public Housing" under the heading of "Unwanted Production" he remarks:

"People being what they are, the most efficient method of increasing the total supply of the things they really want is to allow every person to produce what pleases him, and then let him trade it, if he can, for anything which might please him more."

"If people really want houses, let new ones be built or bought by those most able and anxious to build or buy. This is the most rapid and economical method of providing the total supply of adequate housing which free people want. There is no other way to make 'adequate' housing available to the poorest among us without at the same time cutting back the supply of other things which we, as free people, would consider more important. To build new houses for families who couldn't possibly afford them, and who wouldn't try to pay for them as a matter of personal choice, is the kind of thing which has to be done by force — by the government — if it's to be done at all. There isn't any other way to get people to produce what they don't want. . . ."

Creating Slums By Force

"When such a thing happens to any community, the tendency will be for the present residents to look elsewhere for homes. Homes and grounds which had been tended with pride will begin to show signs of neglect. The community will deteriorate by reason of the added burden of government which is imposed upon it. This is the manner in which new slums are created — by force. What the government takes from an individual as taxes is no longer available to that individual for use as he might please toward the care and improvement of his own home and his own family."

It is true, of course, that a new housing project might afford a growing volume of trade to merchants and others who serve a community in a business sense. Local salesmen of building materials and workmen in construction industries may look upon the project as a source of new revenue. But except for those tradesmen who hold some grant of special privilege, such as the powers of exclusion of a closed or union shop and various other monopolies, the possibility of new customers will attract competing owners and operators of business enterprises into the community. And what might have seemed to a businessman to be a good idea when he was plugging for a public housing project — for his community may turn out to be the cause of his own downfall as the deterioration of the community follows its natural course.

"Any individual who would live beyond his means, voting himself into a home which he cannot afford, is not a desirable neighbor for those who adhere to the concept of private ownership and control of property. A person who will swallow his self-respect in order to live in subsidized housing may be expected to evade his other obligations and responsibilities in a similar manner. . . ."

The Government Monopoly

"In other words, the government — which so concerns itself with the maintenance of 'fair' competition in the world of business and trade — conducts its own operations in a monopolistic fashion. It does not compete for a man's services or for his savings; it levies a tax and allows no alternative. The government is not guided by the market method of price determination; it sets prices or exchange rates quite arbitrarily. The government is not subject to the profit and loss method of measuring success or failure; if it operates at a deficit, the taxpayer is held responsible and must pay for the government's failure. As long as those who want new homes are in the majority over those who realize that they will be forced to pay for them, the government probably will carry on its socialized housing operations. And the dollars-and-cents costs of such interference with the freedom of individuals can never be measured precisely. The market would provide the only means of such measurement, but the government does not allow the market to function."

"Out of the market place the government draws the materials and services which go into 'the construction of such things as public housing projects. But unlike the private builder of homes, the government does not put back into the market enough to entice anyone to make the trade voluntarily. Anyone who really believes that it might be profitable or useful or desirable to replace the 'slums' with new dwellings need not be forced by the government to undertake the task. Nor should the risk of failure be saddled upon those who honestly doubt the wisdom of such an undertaking. To do so is compulsory socialization at the expense of every individual who might otherwise claim an inalienable right to his own life and to his own private property."

"The pretty teen-ager held up a leaf of bread, and asked the grocer, 'Teen-ager — How much for this? Grocer — Just one kiss. Teen-Ager — That's just fine, (as she headed for the door) Grandma said to tell you she would be in tomorrow to pay for this."

National Whirligig...

'Liberal' Democrats Unhappy Over Activities Of Stevenson

By RAY TUCKER

WASHINGTON — Adlai E. Stevenson's apparent candidacy for the Democratic presidential nomination in 1956 has run into heavy opposition from the very faction of Roosevelt-Truman "liberals" who supported him at the Chicago convention. It is an amazing political shift.

Despite his cynicism, Representative Franklin D. Roosevelt, Jr. is an avowed candidate for the nomination for New York governor, and his friends are confident that a victory over Gov. Thomas E. Dewey is a matter of time. The road for his selection by the Democrats for the top honor two years hence.

They do not want to buck such a popular figure as Stevenson. Another remote possibility is Averell Harriman. Besides being an outside possibility for the New York gubernatorial nomination, if "Junior" cannot make the grade, he may try to succeed Sen. Herbert H. Lehman when the latter's term expires in 1956.

Although a close personal friend of the Chicagoan, Harriman tried to persuade him to withdraw from the convention contest in favor of Sen. Estes Kefauver of Tennessee.

KEFAUVER HARKS BACK — Kefauver is another "liberal" who is not entirely happy over Stevenson's continued political activity. Although his famous crime investigation in the way of enforcement legislation, Kefauver cannot forget that he pulled a large number of dissenters from the first ballot at Chicago.

In short, Stevenson's re-entry on the political stage has stirred personal and factional rivalries at a time when the Democrats have justly recovered from their 1952 disaster in which they lost four Southern states and carried two others by the slimmest of majorities.

But the defeated candidate, with the support of his personally selected national chairman, Stephen A. Mitchell, means to continue with his speech-making at various sectional rallies.

Another oddity of the Stevenson comeback is that it was partially inspired and welcomed by the very "liberal" Democrats on and off Capitol Hill, who credit the likable and attractive Stevenson with having stimulated interest and activity in the Party's affairs and possibilities.

BID FOR A SMILE

The teacher had asked her pupil to list, in their opinions, the great Americans. As they were writing, she stopped at one desk. Teacher — Have you finished your list, Bobby? Bobby — Not quite, I can't decide on the fullback.

The Doctor Says

By EDWIN J. JORDAN, M. D.

Mrs. K. has been in the hospital twice recently because of amebic infection and ulceration, she writes, and she would like some discussion of this subject.

This is an important health hazard since it is said that nearly one person in every ten is believed to be afflicted with the tiny animal parasite which produces this disorder. The only fortunate thing is that all those who harbor the parasite are not made seriously ill, though many of them are.

The principal symptom caused by the parasite endameba histolytica is dysentery, though this sign may not be constant, and sometimes people's resistance is just enough to keep the ameba under control without getting rid of it entirely.

In many patients the disease develops suddenly with pain and tenderness over the abdomen and frequent and often bloody bowel movements. The majority recover after a stormy and severe illness. A few victims die and others pass over into a chronic stage or a stage in which symptoms are absent though the parasites may remain.

Whenever a sudden illness of this kind develops, or in the chronic stage, when alternating periods of constipation and diarrhea occur, amebic dysentery must be considered as one of the possible causes. The definite diagnosis can be made only by finding the parasite in the intestinal waste with the aid of a microscope.

Powerful drugs are available to combat amebic infection. Nevertheless, it is important to treat amebic dysentery just as soon as possible. Even more important is avoiding the ameba altogether. Even with expert treatment it is discouraging how often the symptoms recur as seems to have happened in Mrs. K.'s case.

INFECTION IS CARRIED

The infection can be carried by

There was a rich friend of the management living in Southern Pines in the winter. Mr. Flynn says, "who always insisted that we mail down to him the remainder of our office copy of the Wall Street Journal. He said it made no sense to waste a nickel on another whole copy, and the postage was only 2 cents. It usually looked like one of those old-fashioned, screen-door fly-swatters by the time we got through with it, but he was content so the arrangement was not unpleasant."

Fair Enough...

Editors And Publishers Don't Always Concur On Everything

By WESTBROOK FEGLER (Copyright, 1954, King Features Syndicate, Inc.)

NEW YORK — I never worked on a New England paper, but I have clattered through so many of those pretty mill-towns with their staid, white steeples presiding over village greens that I know the region as well as almost any Yankee does. They sent down many fine reporters and writers to the New York papers and, of course, Boston journalism is practically all Down East.

A notable exception that I think of is Bill Cunningham, who belted a hundred pianos to kindling in bistros and YMCAs behind the lines in the First One, went to Dartmouth, made Walter Camp's all America, married Doris and went native. Bill writes as long as a hackdrivers dream and that comment, coming from Fegler, will give you an idea that here is a fellow who really has trouble getting his flaps down. Bill comes from a wide spot in a side road in Texas, but I have always suspected carpet-baggery in his ancestry because he speaks with the accent of a Bowdoin Don.

New England journalism on the whole was so dreary for so long that there is little lore in this gaunt and bloodless breed outside Boston, New Haven, Providence and Bridgeport. This is a way of sidling up to an episode of Yankee journalism comparable to the normal rill-dries of the wild scamps of Denver from the time of Gene Field down to the day that Damon Runyon left town.

John T. Flynn, a professional Angry Man of high renown, was city editor of the New Haven Register, an afternoon paper, about the time of World War I and one of the gentry of the trade. For John Day Jackson, the proprietor, a business man as distinguished as any in the city, four to eight. However, a reporter was expected to line up a clientele of candidates for the city council, the legislature and the county offices and keep their names plenty in print for honoraria of \$2 to \$5 a week. This traffic would hoist the income of a not-too-beautiful scribe up to \$30 and nobody thought any the less of anyone. In Minneapolis, reporters and desk-men got cases of beer, sweat and groceries by a straight process and thousands of miles of railroad passes or "mileage" which had a discount value with the scalpers down near the stations.

The American Way

NO SOCIALISM AT NIAGARA FALLS!

BY GEORGE PECK
The battle which has been going on for three years as to who is to develop additional power at Niagara Falls doesn't only concern the people of New York State—it is of vital interest to all the citizens of the other 47 states.

Three agencies have been scrapping for the right to develop this extra power at Niagara Falls: the Federal Government, the State of New York and a group of five New York State privately-owned electric companies.

At the last session of Congress, that body had practically decided to award the job to the five companies, but Governor Dewey of New York threw a monkey wrench into the proceedings by making a strong plea for the Empire State to be given the assignment.

The matter is now up again before the 2nd Session of the 83rd Congress. It seems to be a foregone conclusion that Federal Government has abandoned the idea of undertaking the job and that the battle is now reduced to two participants — New York State and the five companies. Here is the way I see the picture:

A New York State-owned power authority would be exempt from state, local and federal taxes. In addition to not paying taxes, the state authority could not be subject to regulation and would erect a public debt of \$400 million.

On the other hand, the five New York State electric companies are ready to develop this new power swiftly and efficiently in the public interest—at no cost to a single taxpayer. Further, producing electricity at Niagara by private enterprise will create an entirely new source of tax revenue. It has been carefully estimated that the five companies who now pay over \$180 million in taxes, will pay an additional \$23 million yearly in taxes on this new development.

Nature lovers need have no fear that the scenic beauty of Niagara will be diminished. On the contrary it will be preserved and enhanced under the supervision of the International Joint Commission.

The Niagara project does not involve flood control, reclamation, irrigation or navigation which have been used to justify other government power projects. This first attempt by Government to move directly into the power business, if successful, would establish a dangerous precedent—it could open the doors to Government ownership of any or all other enterprises.

Power development by the State of New York would be just as socialistic as if Federal Government were to undertake it. Just as the citizens of this nation have said "no" to Governor Dewey upon two occasions when he has asked them to send him to the White House, they must say "no" to him in his attempt to socialize the development of power in New York State.

Clearly, this extra power development is a job for private enterprise — there is no justification for the creation of a government-owned electric power agency.

By the treaty entered into in 1950 between Canada and the United States, the former is also given permission to divert an equal additional amount of water from Niagara Falls for power development. While we have been talking, Canada has acted, has gone ahead on her side of the river. It is my understanding that she has the project three-quarters completed. Under the treaty, when our Northern Neighbor has completed the job, she will be able to use the water allocated to the United States in addition to her own until such time as we have quit talking, have gone to work and have our project ready to go into operation.

So, time seems to be of the essence. If you agree that Niagara electric power should be developed by the five private enterprise companies — if you are against socialistic power development — then I suggest you get busy. The issue is now before the Senate. The Caphart-Martin-Miller Bill for development by private enterprise, already has passed the House by 262 to 120. In this non-partisan vote, New York's own Congressman overwhelmingly endorsed it 39 to 9.

This bill must now be reported out of the Senate Public Works Committee and passed by the Senate. Write this committee expressing your support of it. Let its members know that you want no socialistic power development at Niagara and that you want the extra power to be developed there by the five private companies who will do the job in the shortest possible time, once they get the green light. If you are a resident of New York State, you can advance the further argument that the power will be produced at a lower cost to you, both as a taxpayer and user of electric service, if the job is awarded to the five companies.

food, water, or flies. It is never possible to tell in advance whether an infected person will develop serious symptoms, mild symptoms, or none at all.

People who are not being seriously harmed by the amebas, which are present in their intestines, can pass the parasites on to other people. This is especially true if they have anything to do with handling food. Also, if anything goes wrong with the plumbing in buildings in which infected people live, serious epidemics of amebic dysentery can develop.

EASTER GREETING CARDS NOW AVAILABLE

Enjoy Power Of Leadership With The New 1954 Chrysler

There is a lot of happiness and pleasure in the knowledge that, behind the wheel of a Chrysler, the points of leadership are yours. Leadership in beauty and style. Leadership in performance, in comfort, in safety and leadership in the prestige that comes with the ownership of anything superlatively fine, and eagerly desired, both by those who can, and those who cannot, unfortunately, afford to do so.

The Chrysler for 1954 are superlatively fine, beautiful to look at, thrilling to drive, comfortable to ride in and safe beyond comparison, and they uphold with pride and dignity, the tradition of those who have long known the power of leadership.

You can see these fine cars and even try them at the Cortlandt Motor Co., located at 325 W. Foster. They want to make you feel welcome to come in at anytime and see these truly beautiful new cars that will give many years of fine and economical service. See them right away and you'll know that the Chrysler is the car for you and your family.

The Chrysler New Yorker and New Yorker Deluxe Models for 1954 are superlatively fine — beautiful to look at, thrilling to drive, comfortable to ride in, safe beyond comparison, and they uphold with pride and dignity, the tradition of those who have long known power of leadership.

Shop And Save At Your Courteous Electric Supply

For a complete electrical wiring job, always call the Electric Supply, located at 836 W. Foster. They offer a complete servicing department plus top quality materials and dependable workmanship. You can't go wrong when you call 4-6892 for efficient work. They specialize in oil field electrification and home or business office wiring.

As you know, overloaded circuits can be dangerous to you and your family, besides being very expensive. If your home lacks adequate wire outlets, let a courteous employee of Electric Supply go over your home thoroughly for wiring difficulties. He will give you a free estimate on costs at no obligation to you, and you'll know that you are getting a quality job because they guarantee every job at Electric Supply, located at 836 W. Foster.

Ruds Southard, owner and operator of the Electric Supply, has been in the electrical business for years and he hires only capable, efficient workmen to give you the best. The materials used on the jobs are inspected and will give lots of wear in the years to come.

At Electric Supply, too, you will find a complete display of fine appliances and beautiful lighting fixtures. These fixtures can be had in various styles and prices to fit any budget. You can get a set of complete fixtures for an entire house. No matter what interior decorating theme you are carrying out, let a courteous employee show you the lovely lighting fixtures at Electric Supply, because after you have selected your fixtures, you can have them installed by dependable workmen from the same place.

There's no doubt about it, you save all the way around when you patronize a business firm where you are given efficient service and complete, dependable materials.

RIGHT... from end to end! From tail light to bumper, your car is RIGHT and ready to roll, when our top-light mechanics complete their work. Our men are the best in the business. That's why they're here.

Cornelius Motor JOHANNY Ph. 4-6639

Since 1924, Chrysler has built some great cars, history making cars that have paced the industry, and have inspired other manufacturers to greater efforts, with the result that all car owners have, to a degree, benefited from the initiative, the ingenuity, and the success of Chrysler engineering. For 1954 our thirtieth anniversary, Chrysler again presents an outstanding car — the New Yorker Deluxe Model. This most desirable car has the 235 horsepower Firepower V-8 engine, with the Hemispherical Combustion Chamber. It is most advanced design, the only truly modern engine in the industry today, with a performance of unexcelled excellence throughout its entire power range.

Movies' Own Censor Defies Howard Hughes

By ALINE MOBBY HOLLYWOOD, March 15 — Joseph Breen, movieland's own "censor," said Monday the rebellion against him by Jane Russell's curves and producer Samuel Goldwyn has made his position stronger than ever.

Breen heads the department of the Motion Picture Producers Association that blueprints overlong kisses, scanty costumes or touchy subjects out of movies in accordance with the production code set up by the studios themselves.

Recently producer Howard Hughes defied Breen and released Miss Russell in "French Lines" minus Breen's seal of approval. Goldwyn also stirred up a controversy by insisting the code be revised.

But Breen said the sniping only brought more supporters to the code.

"After the events of the past 10 months—" French Lines," "The Moon Is Blue," and Goldwyn—the code is more entrenched than ever before," he declared. "Those events brought tremendous support from groups all over the country."

"Recently I was sent two statements in favor of the code made on the floor of the U.S. Senate," he said, waving pamphlets.

"There's a tremendous voice for what I call common decency in this country."

He said he doesn't think producers will leap to making seal-less movies now that theaters, divorced from studios by anti-trust edict, are free to play them.

"They know you can make a fast buck once in a while with a picture like 'The Moon Is Blue' but they know for the long run it's not good," he said.

Breen, who began as the late film czar Will Hays' assistant 21 years ago, has a staff of ten. Last year they read 1,125 scripts. Breen also watches filming of controversial scenes and checks costumes. He views the first "rough cut" of pictures and his staff sits in on the story conferences. He objects to being called a "censor." He merely enforces the industry's own code, he said.

"I am against censorship," he said. "We've been fighting it for 25 years."

"The state censor boards cost the studios several million dollars a year in prints and fees. There's no need for their censorship on pictures we've already honey-combed."

Breen answers Goldwyn's complaint by pointing out the code often has been revised when producers think it necessary. Goldwyn blasted the ban against films on narcotics, but Breen said the federal government itself requested the ban.

Despite the departure of Mr. Truman from the White House, the executive mansion is not without the services of an accomplished pianist—Sherman Adams, the assistant to the President.

Adams is a musical sparkplug at any relatively small and informal party. He not only plays the piano, but loves nothing better than to start the crowd singing nostalgic songs. He sings a great song on "Loves Old Sweet Song."

The President was quite a quipster the other day when he received six national 4-H Club award winners.

The youngsters were arranged in formation in front of his desk.

Why not come in and visit the Pampa Office Supply and select your cards real soon while there are plenty of cards to select from.

'New Deal' In Poker Not For Ike

By MERRIMAN SMITH WASHINGTON, March 15 — Backstairs at the White House: President Eisenhower likes to play bridge, but quite unlike his White House predecessor, ex-President Truman, he is not too keen about poker.

One of Mr. Eisenhower's friends explains the aversion to poker this way: "You see, in any poker game, someone is always calling for a new deal."

Signs of the times—not far from Camp David, the President's retreat in the Catoctin Mountains of western Maryland, there is a roadside restaurant labeled quite prominently "Ike's Place."

The best time for trout fishing in the icy streams near Camp David is from April 15, the start of the season, until about the middle of June. Look for the President to fit a number of Maryland mountain weekends into his schedule during that period.

A recent White House visitor was Jules Rodier who was a White House telegrapher for 49 years. Rodier, now in his late 70s, retired last year and now is devoting a lot of time to showing his grandchildren the sights of the capital city.

When the resident came into the picture set-up from the side, "Can I get in on this?" he inquired.

While the photographers were yelling at the President to stand this way and shake hands that way, he confided to one of the 4-H Club girls, "You know what these fellows are—they're my directors."

The President recently had lunch with a group of Republicans representatives who signed a joint letter in 1952, asking him to make the race for the presidency.

The guests, after the dessert dishes were cleaned away, began harking back to the highly active days of the 1952 campaign.

"Let's not look back," the President interjected, "let's look forward. And by all means let's make this an annual affair. All of which sounded somewhat significant since many of the GOP brains are convinced that Mr. Eisenhower won't offer for re-election."

Jefferson Standard Has Its Greatest Year In History

Jefferson Standard Life Insurance Co., completed its greatest year in the business with more than \$188 Million new life insurance, according to O. T. "Ottie" Shewmaker, the Company's Representative in Pampa.

Total insurance in force is now more than \$1 Billion 200 Million, and the Company's assets are in excess of \$385 Million.

Mr. Shewmaker, in reviewing his Company's Annual Report, said: "Direct payments to policyholders and beneficiaries during the year amounted to \$15,428,907. Total amount credited to policyholders and beneficiaries, including the policy reserve, was \$42,800,000, the largest amount in the history of the company."

The Jefferson Standard, with Home Office in Greensboro, N. C., has sales and service offices in 29 states, the District of Columbia, and Puerto Rico and boasts more than 385,000 policyholders.

Jefferson Standard's local representative says that he is particularly proud of the fact that his Company while guaranteeing 2 1/2 per cent on policies currently issued, has never paid less than 4 per cent interest on dividend accumulations and policy proceeds left with the Company at interest in the 41-year history of the Company. "Four per cent is the highest rate of interest paid by any major life insurance company in America," he said.

"This means extra income to Jefferson Standard policyholders and beneficiaries who take advantage of 4 per cent interest by leaving dividends and policy proceeds with the Company to accumulate at interest."

Mr. Shewmaker, whose office is located at 308 Rose Building, has been associated with Jefferson Standard for 4 years.

Wild Animal Dealers Say Biz Stagnant

WASHINGTON, March 15 — UP — There is hardly such a thing as a new animal in the world; that is, one that hasn't been seen by modern man.

It certainly has wild animal dealers fretting particularly Henry Trefflich of New York, who is billed as the largest wholesale dealer in the world.

Trefflich dropped around and was telling that the jungles of the world have been raked so well that there is nothing new to be discovered.

"Leo, the lion, used to be the king of the beasts," the dealer said, "but today he can be bought by the dozens. The same could be said of monkeys, leopards, chimps, and the others. They still sell but they have to be pretty rare to bring a fat price. What I wouldn't give to run across a dinosaur! I could peddle him in 10 minutes and retire for life. A man can dream, can't he?"

Authority on Animals Trefflich speaks with considerable authority when it comes to animals. He was born in a zoo in Germany and has spent his whole life among the snakes and elephants and is co-author of an animal book called "They Never Talk Back."

He likes most animals but has an abiding respect for those that bite. The one brute he particularly detests, though, is the polar bear.

When Trefflich was a young man in the animal gathering business he set up camp on the fourth floor of a building. One Wednesday a character walked in and said he would like to have delivered a pair of polar bears by Saturday.

The dealer called his "client" and was informed by the "landlady" that the customer had just "died."

"Well, the bear arrived. It was the week-end and the elevator was not operating. So Trefflich and his assistant somehow escaped death by clawing as they prodded and pushed those critters up four flights of stairs."

"They started to sweat and pant," the animal man recalled. "They looked about to die. What they needed was ice. I went out and borrowed some money and came back with two 250-pound bags of ice. I finally gave the bears away to a nearby zoo."

Sometime later, Trefflich learned that the circus that had gone broke was owned by the man who had frantically wanted to "buy" two polar bears.

"The bears I had bought were his," he said. "A lawyer friend told me that the only illegal thing about the deal was the fact that somebody had told me the man was dead. The fellow just wanted to get rid of a couple of polar bears. I learned something."

Former Canadian Mayor Seeks Post

CANADIAN — J. B. (Jess) Lindley, former Canadian mayor, has announced his candidacy for the office of county commissioner of Hemphill county from Precinct 1.

A resident of the county for 44 years, Lindley said that "if elected, I will serve to the best of my ability and work for the best interests of the county as a whole."

Like Topsy, She Grew

LAS VEGAS, Nev., March 15 — UP — A local theater received a \$18 check from a Los Angeles woman who said she attended the movies at juvenile prices here long after she passed the 13-year age limit.

"I don't know exactly how much I owe you," her letter said, "but I think this will more than cover the amount. Please forgive me."

Mr. Shewmaker, in reviewing his Company's Annual Report, said: "Direct payments to policyholders and beneficiaries during the year amounted to \$15,428,907. Total amount credited to policyholders and beneficiaries, including the policy reserve, was \$42,800,000, the largest amount in the history of the company."

The Jefferson Standard, with Home Office in Greensboro, N. C., has sales and service offices in 29 states, the District of Columbia, and Puerto Rico and boasts more than 385,000 policyholders.

"Four per cent is the highest rate of interest paid by any major life insurance company in America," he said.

"This means extra income to Jefferson Standard policyholders and beneficiaries who take advantage of 4 per cent interest by leaving dividends and policy proceeds with the Company to accumulate at interest."

Mr. Shewmaker, whose office is located at 308 Rose Building, has been associated with Jefferson Standard for 4 years.

Hemphill County Seeks Right-Of-Way

CANADIAN — The Hemphill county commissioners court has officially offered to open negotiations with the Public Service Corporation for a right-of-way for the Public Service gas lines on the pier of the old Canadian river bridge.

County Judge E. C. Fisher has been instructed by the commissioners to write the corporation, at the request of O. B. Reames who has contracted to purchase the superstructure of the bridge, to the effect that the court is ready to negotiate a right-of-way agreement.

The sale to Reames is being blocked by a suit filed by the corporation for permanent injunction in Federal Circuit Court of Appeals.

Okay, Murph CHICAGO, March 15 — UP — A member of a certain family has this to report on the eve of St. Patrick's Day:

A check of Irish names in the Chicago telephone book reveals that the Murphys lead the Kellys, O'Briens, Sullivan, Ryan, O'Connors and Maloneys with 1,465 listings.
