R. T. (BOB) SHINDLER

... Grew up with Perryton

He Picked A Town To Grow Up With

By JIM DEAN
Pampa News Managing Editor

PERRYTON — When the Santa Fe railroad pushed its track through this Panhandle area in 1918 it missed Old Ochiltree by about seven miles. That put Old Ochiltree out of business, so everybody moved to Perryton where life started anew and where enthusiasm was high.

One of the folks who moved with the town was R. T. (Bob) Shindler, who had been a chauffeur for a railroad promoter and an auto mechanic in Old Ochiltree, but

World Church Rally Opens

CHICAGO, Aug. 16 — UP — More than 125,000 persons crowded into Chicago's huge Soldier Field to help open the World Council of Churches, one of the most important meetings in religious history.

The huge "festival of faith" under the stars Sunday night was a solemn and dramatic opening to the theme "Christ — The Hope of the World."

About 1,500 delegates representing 161 Christian and orthodox faiths from 48 nations have gathered for the 17-day meeting in suburban Evanston. Their purpose is to unite the many denominations on the basis of the faiths they hold in common.

Distinguished Churchmen
The delegates, including some of the world's most distinguished churchmen, Monday began the detailed work of framing and considering the resolutions that will be the fruit of the conference.

The Rev. Dr. W. S. Vissler, general secretary, and the bishop of Chichester, England, were to deliver reports at plenary sessions.

The council's official opening Sunday was a simple, but colorful, service in the First Methodist Church of Evanston. The delegates, many clad in flowing vestments, filed into the church to hear Methodist Bishop G. Bromley (See RALLY, Page 2)

San Antonio Mayor To Quit

SAN ANTONIO, Aug. 16 — UP — Mayor A. C. (Jack) White, the principal subject of a recall movement, will resign Monday, he says.

The recall campaign, also aimed at four members of city council who support White, will continue, his sponsors said.
White announced Sunday night that his doctor, vacationing in New Mexico, had telegraphed him, ordering him to resign as mayor immediately and to quit politics immediately because of a bad heart.

Man 'Flips' At Sight Of Dog

A White Deer man "dodged a dog" early Sunday morning 150-200 yards west of the Carson County line and flipped his car over once.

Cordell Pugh, 20, was uninjured in the 3 a.m. mishap, the highway patrol reported. His car, a 1950 model, is considered a total loss. No citation was filed against him.

Wind-Up Of Congress Set Friday

WASHINGTON, Aug. 16 — UP — Republican congressional leaders announced after a meeting with President Eisenhower Monday that they will try to wind up the legislative work of the 83rd Congress by Friday.

BULLETIN

WASHINGTON, Aug. 16 — UP — President Eisenhower won another major victory on farm legislation Monday when House-Senate conferees tentatively rejected a House-passed proposal to raise dairy support prices.

Speaker Joseph W. Martin Jr. (Mass.) and Chairman Homer Ferguson (R-Mich.) of the Senate Republican Policy committee discussed the highly tentative adjustment plans after the weekly House-Senate conferees.

Both sides hoped for a clean-up of legislative business by the end of the week. But in almost the same breath, they expressed doubt that every loose end can be tied up before some time next week.

The House will quit for the year when the legislative docket is cleared up. The Senate plans to recess and return later to act on a report by a special committee studying censure charges against Sen. Joseph R. McCarthy.

Airline Lays Off Workers

American Airlines Studies Mass Action If Strike Continues

NEW YORK, Aug. 16 — UP — American Airlines, the nation's largest domestic air carrier, laid off 1,591 non-striking employees Monday and prepared to dismiss 13,821 others if striking pilots refuse to return to work within two weeks.

C. R. Smith, president of American, said he also would remove himself and other company executives from the payroll if the pilots refuse to end the strike, which has grounded the line's 970 daily flights since July 31.

Despite the company's action, no end to the strike was in sight. The two sides have not met since the 16-day walkout began and both company and union officials said no meetings have been scheduled.

The 1,243 pilots quit work in protest over three of the line's daily transcontinental flights that require more than eight hours flying time.

Federal authorities have approved non-stop transcontinental flights but the pilots, members of the Airline Pilots Association, AFL, maintain American's flights from New York to Los Angeles are unsafe because they require eight hours and 35 minutes of continuous flying.

The union has authorized strikes against Trans-World Airlines and United Airlines over the same issue but no strikes have been called against the two lines. TWA cancelled all non-stop transcontinental flights after the pilots struck American Airlines.

Dismissed outright Monday by American were 957 stewardesses, 367 flight engineers and 567 probationary employees.

Tax Reform Bill Signed Into Law

Britain Eases Red Trade Restrictions

LONDON, Aug. 16 — UP — Britain eased controls Monday on trade with Russia and Communist European satellite governments.

Orders totaling \$120 million already have poured into Britain and Soviet bids to buy \$28 million worth of steel rolling plants are being studied.

The relaxation of restriction on Iron Curtain trade, agreed to by the United States and other North Atlantic treaty powers after long conferences in Washington and Paris, went into effect in Britain Monday.

The new ruling will enable Britain to proceed immediately with orders received from Moscow earlier this year, although not all of them will be sanctioned by the board of trade.

In relaxing restrictions, the West has shortened its list of embargoed goods from a total of 400 items to about 230.

"Strategic items" still are barred from export to the Communist bloc, but the interpretation of what is "strategic" has been relaxed.

Stricken off the "strategic" list were a textile machinery, some types of machine tools and certain agricultural machinery.

ONE GOOD PROMOTION STUNT ALWAYS DESERVES ANOTHER

MILWAUKEE, Wis., Aug. 16 — UP — Two lively supermarkets in suburban Milwaukee did a rush business over the week end.

The Kroger Co. sent local residents coupons worth 25 cents in trade.

The rival Krambo Food Stores, Inc., capitalized on the move by posting a large sign that read: "We redeem all Kroger coupons at 30 cents."

Both stores reported a land office business, and sell the capsules at \$7.50 apiece.

Police watched the house for three weeks and closed in Sunday night after an undercover agent went in and bought some heroin.

McMahon said the surprised dentist dropped an ounce of heroin on the floor as police walked in.

McMahon said that during the police "stakeout" a "steady stream of juveniles frequented the house from 2 p. m. to 11 p. m. every day."

"Any kid who came up to their house could buy the stuff," McMahon said.

A 37-year-old Mexican and his 25-year-old wife, both of San Antonio, were arrested along with the dentist and his wife. McMahon said they supplied heroin to the dentist would buy the heroin in wholesale lots, put it in capsules

First Such Re-Writing In 50 Years

WASHINGTON, Aug. 16 — UP — President Eisenhower Monday signed into law the tax reform bill which will save taxpayers an estimated \$1,363,000,000 this year and give individuals an extra month to file returns.

Mr. Eisenhower signed the 990-page document, the first comprehensive re-writing of federal tax laws in more than 50 years, at a White House ceremony attended by Treasury officials and congressional tax-writing leaders.

Most of the act's provisions, particularly those affecting individual taxpayers, are effective as of last Jan. 1.

Much of the individual tax relief goes to persons with income from dividends, to persons with high medical expenses, to elderly taxpayers living on retirement income, and to working widows, widowers, divorced persons or low-income couples who hire a baby-sitter or nursemaid to care for children while they work.

Individual taxpayers will have until April 15 instead of March 15 to hand in their returns.

Some 1 million taxpayers who have been obliged to file estimates on the amount of taxes they owed will be relieved of this requirement by the new law.

It provides that a single person will not have to file tax estimates if his income is covered by withholding and is not more than \$3,000 a year. Married couples are exempt if their joint income does not exceed \$10,000 and if most of all of it is covered by withholding.

Corporations will benefit from the new law through more liberal depreciation allowances and the methods required for computing and filing tax returns. On the other hand, corporations will continue to pay a maximum income tax rate of 52 per cent until next April 1. Their tax rate had dropped to 47 per cent under provisions of the old law.

Phillips Well To Be Cased

Oilmen late this morning were planning to run a seven-inch casing on the Gray County wildcat well which blew in Saturday morning with 80 barrels of oil in 75 minutes.

It was the Phillips No. 1 Delph in Sec. 119, Blk. M-2, B&W Survey — some 18 miles northeast of Pampa. It is about six miles east of the Phillips No. 1 Jackson "C."

Over the week end a core was made from 9,560 feet to 9,565 feet. Recovered were 3 1/2 feet of granite wash, six inches of shale and another foot of granite wash.

A Schlumberger survey was run. The casing was to be run in today, informed sources said.

Preceding Saturday's blow-in of the wildcat, labelled by oilmen as "one of the best shows ever in the Texas part of the Anadarko Basin," was a drill stem test from 9,548 feet to 9,560 feet. Open for two hours, gas surfaced in 19 minutes and oil, in 28 minutes.

Bar Gets Preview Of Campaign Fight

CHICAGO, Aug. 16 — UP — The national chairmen of the Democratic and Republican parties indicated how the fall congressional campaigns will be fought as they exchanged political charges before the opening of the American Bar Association convention Monday.

Leonard W. Hall of the Republicans and Stephen A. Mitchell of the Democrats gave directly opposite versions of the Eisenhower administration's record.

Rioting Cons Wreck Prison

KINGSTON, Ont., Aug. 16 — UP — Convicts working under the guns of prison guards Monday cleaned up the shambles left by the worst riot in the history of Kingston penitentiary. Damage was estimated at more than \$1 million.

Between 100 and 125 of Canada's most deadly convicts went on a five-hour rampage of arson and destruction Sunday until they were quelled by 400 guards and the bayonets of 200 soldiers with orders to shoot to kill if necessary.

The rioters set the second fire in three days in the 121-year-old structure, Canada's second largest prison, but made no serious effort to escape. No one was badly hurt.

McCarthy Censure Report Due Oct. 1

WASHINGTON, Aug. 16 — UP — Chairman Arthur W. Watkins (R-Utah) said Monday a "reasonably sure" his special Senate committee is ready to file its report.

Watkins' six-man Senate "jury" is scheduled to begin public hearings Aug. 30 on moves to reprimand McCarthy. The Senate will recess when it cleans up its legislative business, probably by the end of this week, until the special committee is ready to file its report.

Parr Lawyer To Seek Post

RIO GRANDE CITY, Tex., Aug. 16 — UP — One of George Parr's personal lawyers said Monday he will run for district attorney of the 79th district as an "independent" candidate.

The lawyer, Gerald Weatherly of Rio Grande City, will oppose Sam Burris of Alice, who vigorously opposes Parr. Burris defeated incumbent District Attorney Raeburn Norris in the Democratic primary.

"I think what our district needs is independent, non-partisan officials," Weatherly said. "I am tired of the partisan mud-slinging mess things have gotten into."

He said a group of attorneys, including Norris, had suggested he run.

"I told these gentlemen I was and am delighted with the idea," he said.

Weatherly, asked if Parr had originated the idea, said: "I don't know, but I suppose George Parr is behind this move. I hope he is. I want his support and everybody's support."

It will be the second time in four years that Parr's forces have tried to prove that the Democratic nomination is not equivalent to election in the stormy 79th District.

Smashup Kills 46 Refugees

SAIGON, Aug. 16 — UP — A British-made airplane flying in Viet Nam's "freedom airift" crashed Saturday, killing 46 Indo-Chinese refugees from communism, it was announced Monday.

The Viet Nam plane, crippled by engine trouble, crashed off a house, plunged into the Se Don River and exploded while attempting an emergency landing at Pakse in Laos.

Five or six persons — reports varied — were thrown clear of the wreckage and picked up by riverboats, but most of those who survived the crash drowned in the river.

Cities Service Work To Resume

Partial operation of the Cities Service Gas Company plant, two miles southeast of Pampa, was scheduled to get underway this morning despite the Saturday blast that ripped open a by-pass line.

But C. D. Anderson, plant superintendent, could not be reached for comment by late this morning.

No one was injured in the Saturday afternoon explosion which reopened the line that was bypassing the high-pressure gas pipeline undisturbed by the failure of his which blew up the morning of marchers to capture the tiny but June 23 and almost destroyed the rich parcel of Portuguese property.

28 Register At Tax Hearings

Twenty-eight Gray County residents had registered by late this morning for the next to last day of public hearings by County Commissioners Court, serving as the county board of equalization. Tuesday will be the last day, it was reported.

Presidential Portrait

O. K. Gaylor, acting postmaster, gazes at the recently acquired portrait of President Eisenhower hanging in the lobby of the post office. The color lithograph of the President hangs directly above the general delivery window.

Birth Certificate Only Requirement For School Entry

When parents of this year's crop of first graders take their offspring to school Aug. 31 for registration, they will need only a birth certificate.

Pampa Public Schools Supt. Knox Kinard late this morning pointed out the only requirement, but added that the "semi-roundup blank" — which includes evidence of a medical check-up, operations and vaccination — must be turned in by Dec. 1 to school authorities.

By law a child must be 6 years old by Sept. 1 in order to begin school this year.

Chuckle Corner

By HAL COCHRAN
A smart man discharges his duties promptly and gets out of them.

People who know it all are the ones who know so many things about which they are mistaken.

An Ohio teen-ager was arrested for cutting off some of his girlfriend's hair. Strange what those snips will do.

Autos are as thick during rush hours as the heads of some of the drivers.

The railroad and the double are two of the most dangerous crossings.

The Audrey Hepburn Story

Half Sprite--Half Woman?

(First of Five) By DICK KLEINER NEA Staff Correspondent NEW YORK — (NEA) — This is Audrey Hepburn...

screen, many of her fans have reached the conclusion that she is something, supernatural, half sprite, half woman.

But, basically, they all say the same thing: she is a nice, normal, ambitious, hard-working young actress.

HALF WOMAN: Audrey Hepburn's fans have come to believe she's almost super-human -- half sprite, half woman. But she isn't.

Compromise Legislation On Red Outlaw Bill Effected

WASHINGTON, Aug. 16—UP—President Eisenhower and Republican congressional leaders agreed Monday on compromise legislation which would take away the rights and privileges of the Communist party.

These two stories illustrate one basic part of Audrey Hepburn's make-up that many people nowadays overlook — she's a human being, with good features and bad.

Water Safety Class Reaches Halfway Point

Forty per cent of our beginners in the water safety program are about ready to swim across the city pool, Mrs. Sallie Holcomb, supervisor of the Red Cross program, said Monday.

Jane Talk

By JANE KADINGO
Pampa News Women's Editor

(Editor's note: White Women's Page Editor Jane Kadingo is on vacation. This column will be written by guest authors. Today's column is by Mariene Kolb, Pampa News staff writer.)

IT HAS BEEN SAID that knick-knacks, perhaps an heirloom or two, a special gift, or detailed matching in color or theme are the things that make a home yours — distinctive from anyone else's.

Take for instance Mrs. Bob Allford's trays of inlaid wood, brought to her from Brazil by son Bob, Jr. Each tray is a map of South America, with each country inlaid in a different kind of wood. Sounds beautiful, doesn't it?

And as for the detailed matching in color scheme, notice something how Mrs. Calvin Wheatley's metal TV snack tables exactly match her drapes. The background of both is olive green, and on the tables are pink roses just like the tiny ones in the drapes.

Another "this is all mine" is the nut "bucket" which stands in the TED McGUIRE living room. It looks like a larger model of the small old-fashioned wooden ice buckets. Of natural finish and standing on legs, it is not only an eye-catcher but a boon to family enjoyment.

Mrs. McGuire keeps it full of an assortment of nuts, ready to be shelled.

A special feature in the CECIL SHIRLEY home, 1822 N. Russell, are the paintings by daughter Deanne which hang one on each side of the fireplace in the den. Kay Sherwood, NEA Staff Writer, tells how to make a cushion that might become a special bright feature in your home. Here is what she says:

"Need an extra cushion that is bright, but practical? Perhaps the outdoor swing or chair rates a face-lifting or the top of bench or window seat could be made more comfortable if it had were used.

"In either case you might consider one of the new, brightly-colored plastic fabrics for the covering. Cutting and sewing the smooth nonwoven material isn't as baffling or as difficult as you might suppose, if you bear in mind a few basic points.

"A practical-minded interior decorator, Pat Harvey, often uses plastic fabrics, particularly where ease of maintenance and provision for strenuous use are important. I admired a bright-red topping on a black, wrought-iron bench, and Miss Harvey told me how she did it. Local sewing center experts can give you detailed help if you need it.

"First, remember that plastic fabrics are usually firm and heavy, so they lend themselves best to tailored effects. They have no grain and may be cut in any direction. Strips for a corded edge are cut from the straight of the material, since there is no bias.

"Second, the smallest hole will encourage a rip. Never pin or past elastic pieces. Mark seam lines with chalk. Baste with tape. Don't try to press out wrinkles; the iron's heat may melt the fabric. Hang the fabric over a door to remove wrinkles. When cutting the plastic, hold pattern pieces in place with a weight.

Third, when stitching plastic on the machine use a fine needle, mercerized thread, light tension, light pressure and a long stitch.

"Sewing center teachers assure us machine attachments may be used. To use the hemmer, thread

a hand needle and draw the point of the plastic into the scroll, pulling with the thread. No need to fold edges under when using the binder, as plastic doesn't fray. Sprinkling fabric surface with talcum powder gives the gatherer or ruffer a better grip.

"In the case of the cushion, however, the cording foot is the only attachment needed, and this is used as if you were stitching ordinary fabrics.

"Miss Harvey's cushion has a four-inch-thick stuffing of foam rubber, made by gluing two pieces two inches thick together. The cushion is 24 inches square so that two pieces of plastic 25 inches square were cut to allow for seams. The boxing strip is 96 inches long (you may need to piece to get the necessary length), and five inches wide.

"Enough cording for top and bottom is assembled from straight strips of the fabric.

"Stitch cording to top and boxing strips on all four sides. Attach bottom section to three sides of boxing strip. Trim seam allowance to one-fourth inch and trim corners. Turn right-side-out, gently poking out corners. Sew on a strip of snaps on each edge of the opening, and insert the foam rubber-cushion. Snap together."

Women Claim Victory In UN

NEW YORK — UP Chalk up one United Nations victory for the distant side.

Men squirmed visitors around the tall, modernistic glass and marble UN headquarters when it first opened to the public in the fall of 1952. But the women moved in gradually, and now there are 75 conducting sightseeing tours.

Collectively, the tour leaders speak 20 languages besides English. About one-third of them were born outside the United States.

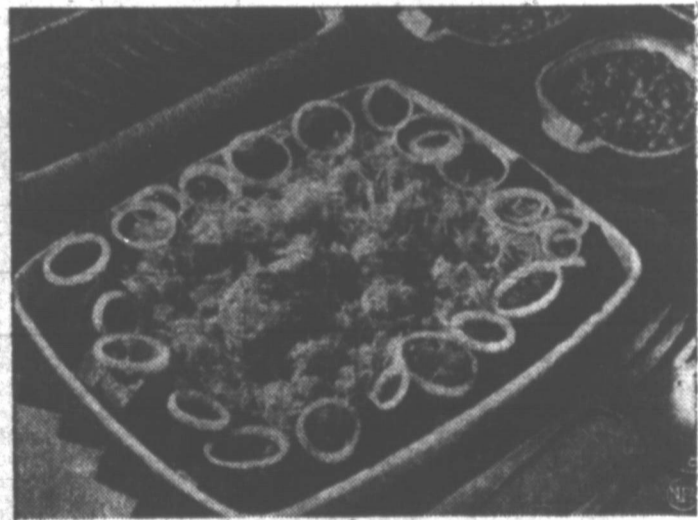

Most of the others have lived abroad long enough to become fluent in several languages.

Missionary Circle Meets For Study

The Darlene Elliott Circle of the First Baptist Church Women's Missionary Union met in the home of Mrs. L. H. Simpson, 621 Magnolia.

Mrs. Louis Tarpley taught the Bible study on the Old Testament heroine, Esther. Opening prayer was led by Mrs. J. H. Richey.

Present at the meeting were Mrs. Charlie Miller, Doshia Anderson, J. G. Ramsey, J. H. Richey, Louis Tarpley, and L. H. Simpson. **Read The News Classified Ads**

MOST OF THE MAKINGS of this "quickie" meal, kraut jewel salad, tomato aspic, baked beans and brown bread, come in cans.

Cook's Nook

'Quickie' Meal Is Kraut Jewel Salad

By GAYNOR MADDOX
NEA Foods & Markets Editor
In the Midwest, where the latch-string is always out, people are quick to invite folks to stay to supper. That means most people have a few "quickie" pantry shelf recipes.

We asked Mrs. Ruth Bohan of Elmhurst, Ill., mother of two, and very hospitable, for some ideas on "quickie" hospitality. She gave us these two sauerkraut recipes, saying not only her husband but also her friends like them very much.

KRAUT JEWEL SALAD
(Makes 6 servings)
One No. 2's can sauerkraut, 1/2 cup chopped celery, 1/2 cup chopped green pepper, 1/2 cup sour cream, dash garlic salt, paprika, 1 13-ounce can tomato aspic, cubed, 1 medium-sized onion, thinly sliced.
Drain kraut and reserve 2 tablespoons kraut juice. Combine sauerkraut, celery and green pepper. Combine sour cream, 2 tablespoons

sauerkraut juice and garlic salt. Add to kraut mixture and mix well; use with paprika. Chill. Turn chilled kraut slaw into a serving dish and surround with cubes of tomato aspic, garnish with onion rings and serve.

FRUITED KRAUT AND CUCUMBER SALAD
(Makes 4-6 servings)
One 3-ounce package lemon-flavored gelatin, cup cold water, 1 No. 2 can sauerkraut, drained, 1 cup drained canned pineapple tidbits, 1/2 cup chopped walnuts, 1/2 cup diced cucumber, crisp salad greens.
Dissolve gelatin in hot water; add cold water and mix well. Chill until gelatin begins to thicken. Cut kraut into short lengths. Add kraut, pineapple, walnuts and cucumber to thickened gelatin and pour into an 8-inch square pan. Chill until firm. Unmold, cut into squares and serve on crisp salad greens.

MRS. JAMES KIRKWOOD

Marilyn Bagley And James Kirkwood Are Married In Double-Ring Service

Miss Marilyn Bagley, daughter of Mr. and Mrs. George Bagley, became the bride of James Kenneth Kirkwood, son of Mr. and Mrs. Arthur Kirkwood, in a double-ring ceremony recently in the first Baptist Church, White Deer. Rev. L. V. Ratliff, Jr., pastor, read the service before a background of white gladiolas and candelabra with white tapers.

Given in marriage by her father, the bride wore a white gown of lace and tulle. The fitted bodice was laced with a Peter Pan collar. Long sleeves tapered to petal points over her hands. The bouffant skirt of tulle over white satin was ballerina length. Her shoulder-length veil fell from a sweetheart shape crown edged with seed pearls. The bride carried a white Bible topped with white carnations, stephanotis and satin streamers.

The bride followed the tradition of something old, new, borrowed, blue and carried a penny in her shoe.

Miss Ruth Bagley, sister of the bride, was maid of honor. Her ballerina length dress was of yellow tulle over yellow satin. She carried a colonial bouquet of yellow carnations.

Best man was Wayne Anderson, Pampa, cousin of the bridegroom.

Ushers were George Bagley, Jr., brother of the bride and Harice Jay Preston, Skellytown.

Miss Barbara Bentley and Miss Barbara Lewis were candlelighters. They wore identical ballerina length blue dotted swiss dresses and yellow carnation wrist corsages.

For the wedding, Mrs. Bagley and Mrs. Kirkwood chose navy dresses with white accessories and white carnation corsages.

Miss Bette Fern Roles, White Deer, organist, played a prelude of nuptial music. Mrs. Lowell McIl Broom, Hereford, sang "I Love You Truly" and "Because." "The Lord's Prayer" was played after the vows were exchanged.

A reception was held in the church parlor following the ceremony. The serving table was covered with a lace tablecloth over yellow. The center piece was a bouquet of yellow and white daisies.

Mrs. Ruth McCaw, Pampa, served. **(Paid Political Advertisement)**

GRACE FRIEND

Dear Grace Friend

I am a widow of 45, I am planning to be married in October and hope you can help me with some information.

My employer once asked me to marry him. Although I refused, he has been very nice to me except for saying that he'd fire me if I ever married any one else.

Now I'd like to work for about a year after I get married so that I can pay off my personal debts myself and since I know my work so well and really am a help to my employer, I'd like to keep my present job.

What I'd like to know is how I'd manage my income tax if my withholding tax is paid under my present name. I thought we could be married in another county and my boss wouldn't need to know about it for a while. It is really none of his business after all.

Also do we have to get our blood tests in the same county in California where we are married? Will our own doctor here, make tests that will be acceptable? Can we get a license and get married the same day? Are any county offices open on Saturday?

I have been alone for 11 years and hate for anything to spoil this chance for happiness. My husband-to-be is a fine understanding person and would pay my bills but I just don't believe it is fair. I had an operation and still owe \$350 to doctor and hospital bills, also owe about \$200 on my car. So you see why I want to work for a while and it isn't easy for a woman my age to get a good paying job.

My boss never comes to my home and we do not go out in the same circle so I believe my secret would be safe. Please help me if you can. Thank you.

Mrs. J. B.

Your problem isn't so much your income tax as your social security tax. You are required to notify the nearest social security office immediately of any change of name and of course this would mean that your salary would be payable to you under your new name.

In California you can get your license and, of course, your blood test in any county and then be married in another county if you wish. The blood test must be taken within 30 days of application for the marriage license. There is no other waiting period.

I don't believe that marriage licenses are open on Saturday but it might be possible to arrange with an employee you know to have your license issued on Saturday.

MISS PHYLLIS SHUMAN

Shuman, Wells To Be Married

WHITE DEER — (Special) — Mr. and Mrs. E. C. Shuman of White Deer announce the engagement and approaching marriage of their daughter, Phyllis, to Robert C. Wells, son of Mr. and Mrs. Claude H. Wells of Casa Grande, Ariz.

They will be married October 2 in the First Presbyterian Church, White Deer.

The bride-elect is a graduate of Colorado Women's College and Texas University. She did graduate work at McCormick Theological Seminary in Chicago. At present she is working in the Migrant Ministry of the National Council of Churches at Casa Grande, Ariz.

Mr. Wells attended Arizona University and served for two years in the United States Army Air Corps.

The couple plan to make their home in Arizona where Mr. Wells is engaged in farming.

Esther Is Subject Of Circle Lesson

The Bible character Esther, was the subject of the Geraldine Lawton Circle's Bible lesson this week.

This circle of the First Baptist Women's Missionary Union opened their meeting by singing "Jesus Saves," followed by prayer led by Mrs. Lee Garrison. Mrs. Fred

Hinkley led the closing prayer. In addition to those on the program, present were Mrs. J. M. Mullins, Parker Mangham, O. D. Burba, L. H. Norman, W. B. Vandover, and T. H. Tarrant.

HD Demonstration In Dress Making

Miss Helen Dunlap, county home demonstration agent, gave a demonstration on making a child's dress at the recent meeting of the Merten Home Demonstration Club in the home of Mrs. John Brandon, Sinclair Merten Lease.

Miss Dunlap is teaching the Bishop Method of sewing in which she showed many short cuts.

In this method, unit construction is the main point rather than basing or the use of pins unless necessary.

She showed how to make the sleeves and shrink out the extra fullness. Then she attached them.

Miss Dunlap stated that in sewing the shoulder seam, you should start at the neck edge and sew toward the sleeve.

The collar should be seamed, then trimmed to leave a one-fourth inch seam. The curves should be clipped at two inch intervals. It should then be understitched.

After the collar is basted to the garment, the facing should be placed on top and stitched through all thicknesses at the same time.

The skirt seam should be sewn from the bottom to the waist, making sure that the notches match.

Miss Dunlap completed the demonstration by showing how to put in a hem on the machine without the aid of a special attachment.

Mrs. John Brandon presided over a short business meeting. The group made plans for a family steak-fry which was to be held Saturday at 6:30 p.m. in the home of Mrs. V. Day.

Mrs. Jack Prather conducted recreation for the group.

Next meeting will be in the home of Mrs. O. A. Huffines, 505 Lowry, at 1:45 p.m., September 7.

Refreshments were served to Mrs. V. Day, V. Smith, L. F. Watt, George Dick, J. O. Hollar, D. A. Rife, Jack Howard, R. N. Brandon, Archie Meness, Jack Prather, T. G. Groves and Miss Dunlap.

MANNERS MAKE FRIENDS

Even though you have lived next door to the groom since he was knee high to a grasshopper, and have never even met the girl who is going to marry, the gift he sent to the bride-to-be.

All you give the groom is congratulations.

Sock The Suds Soak The Socks

To rate an extra appreciative squeeze from that husband or so don't squeeze, scrub or drop his favorite pair of argyle sock. Or, any socks for that matter. Instead of washing them in blanket of suds and wearing you self out trying to rinse them, wash them the new, easy way.

Soak his socks from 15 to 30 minutes in a wash basin of lukewarm water and a tablespoon of controlled suds detergent.

Swish them around in the basin a few times and rinse them on under running water. His army will be as clean as a whist and he'll compliment you for saving their original nap and lust.

How To Select A Fine Mirror

When selecting a mirror, start off at an acute angle and let the reflection. High quality plate glass will give a life-like reflection even when viewed from an angle while inferior glass will not pass the test.

Fiery Itching of COMMON RASH

Don't stand such torment any longer! Just smooth Resinol Ointment on your irritated skin at once. See how quickly it's active medication—combined with a soothing—bring relief, lingering relief.

NOW for a limited time you get

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa News, Attention at Somerville, Pampa, Texas. Phone 4-2525. All departments. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES

By CARRIER in Pampa, 30c per week. Paid in advance (at office) \$2.90 per 3 months, \$7.80 per six months, \$15.00 per year. By mail \$1.50 per year in retail trading zone, \$2.00 per year outside retail trading zone. Price for single copy, 4 cents. No mail orders accepted in localities served by carrier.

Individualism

Samuel B. Pettengill, ex-congressman from Indiana, likes to talk about individualism; he himself stands as a monument to the word. He has a way of talking turkey to workers that makes them stop and think.

Here's what he told some steelworkers once. The ideas he used in telling them what would happen if they were to take over the steel mills and run them, have been reprinted in a hard-hitting essay called "Where Karl Marx Went Wrong" put out by the Foundation for Economic Education.

Here's Sam's argument:
By investing \$10 a week apiece . . . the employees of U. S. Steel could buy all of the outstanding common stock in less than seven years . . . our employees would then be entitled to receive all of those so-called "bloated profits" they have heard so much about . . .

Of the total sum which the employees and the owners of U. S. Steel divided between them last year, more than 92 per cent went to the employees, while less than 8 per cent went to the owners.

Yet that small share which went to the owners was the total "rent" we paid them for all of the billions of dollars worth of plants and furnaces and facilities we used in making steel. And without these facilities, of course, our men could not have made any steel at all.

Suppose the workers take everything the owners receive for the use of these tools — suppose they wipe out all of the dividends completely and forever — what would each get?

Less than a dollar a day!
And meanwhile this process would destroy the company, destroy our jobs, work infinite harm upon a vast segment of our national economy, and wipe out the savings which more than 275,000 of our fellow Americans have invested in our business.

And for what?
For the price of about three cartons of cigarettes a week, apiece!

American workers will never improve their standard of living by grabbing the meager share which the owners get.

They will improve their position only by producing more; for if we produce more goods, we shall have more goods to divide among ourselves.

If we produce fewer goods, we shall have less to divide and less to live on.

And there we have the simple economic truth of the matter. To live better, we must produce more; but production is the result of teamwork, not of conflict.

We cannot produce by fighting and hating each other; for by doing that, we destroy ourselves.

And we shall only achieve our fullest measure of production when we begin to understand that the interests of worker and owner are NOT antagonistic, but identical — that under our American system of enterprise, it is impossible over a period of time for one to prosper while the other suffers.

HENRY McLEMORE

There Should Have Been Poets, Artists At Moscow Meeting

What a shame that Renoir was not alive to paint it!

I speak of that graceful scene in Moscow last week when Malenkov entertained former British Prime Minister Clement Attlee and Laborite Aneurin Bevan, and their attendants, at that great, old country house, Moshaisk.

I speak particularly of that moment — and here I quote a press association report — "When Malenkov took Dr. Edith Summerskill out into the garden and personally picked her a bouquet of phlox and gladioli while the amazed delegation watched."

I wish Lord Alfred Tennyson could have been there, too. The poet laureate might well have struck off another poem beginning: "Come into the garden, Dr. Edith," that would be as well known to schoolboys a hundred years from now as is his one that opens: "Come into the garden, Maud."

What a pretty picture it must have made!
Malenkov, light as a feather on his feet, languidly fanning himself with a list of the Korean war dead. Dr. Edith, her long fingers caressing a locket containing a picture and a lock of hair of Dr. Klaus Fuchs, smiling up into the double chin of Britain's benefactor.

"How gracious of you, Dr. Edith," I can picture that flatterer, Malenkov, saying, "to fly to Moscow in a Soviet military plane. Dependable ships, you know, thanks to your fine-country lifting us to have Rolls-Royce motor designs years ago. Here, have a phlox. And a few glads. Perhaps when your mission reaches China you

would like to place them on the graves of the British subjects who were shot down between Bangkok and Hong Kong." I feel quite sure that Malenkov, gracious gentleman that he is, asked Dr. Edith to come with him to his rooms in the Kremlin, to see his etchings. I can almost hear him saying: "The etching of the Siberian concentration camps is especially fine. So stark, so cold, so — how shall I say it? — ruthlessly severe. And I have a pastel that is especially fine. Done in an entirely new medium — blood, sweat, and tears. It shows human dignity being crucified. Another phlox? And another glad, please? You know, gladioli are a Russian invention. Created, I believe, by the same scientist who thought up the stars, the murmur of wind, the roar of the ocean, television, and the brainwash."

I wonder what toasts were offered at the happy meeting of Britain and Russia? There were many. Indeed, Labor Party Secretary Phillips is quoted as saying, "There were so many toasts, I can't remember what was said." Could one of them have been something like this:
"There'll always be an England, 'On that we all agree."
"But let's not ask one question — 'What kind of an England will it be?'"
Or like this:
"Here's to the Union Jack,
"Of which there'll be no lack,
"As long as the dear, old U.S.A.
"Is willing to pay, and pay,
"For the toasts we're drinking here today."

BETTER JOBS

By R. C. HOILES

A Common Sense Means Of Fighting Communism

Most everyone will agree that he is opposed to communism — especially state communism. And since we are opposed to it, we should consider carefully the best way to combat it.

I recently read a speech made by Clarence Manion, former Dean of Notre Dame University Law School, over the Mutual Broadcasting Network. Dean Manion is co-chairman with Gen. Robert E. Woods, of Sears, Roebuck & Co., of "For America," a new organization that seems to be preaching a lot of common sense if it is speech represents the manner they propose to combat communism.

The address of "For America" is 208 South La Salle St., Chicago 4, Illinois. Anyone who wants extra copies of this address undoubtedly can get them by writing to "For America" at the above address.

I think Clarence Manion has presented the practical method of combating communism, so I want to reproduce his speech in the next two issues. From here on I am quoting Dean Manion:
"As Co-Chairman of FOR AMERICA the first phone call I received was from a mother. Here is what she said. 'I have a son who graduates next month. He's certain to be drafted right away. We lost our other boy in Korea, Mr. Manion — now comes this Indochina business—My husband and I are just little unimportant people, but how long must . . . That was far as she could go. Let me finish the sentence for her. How long must this go on? And what is this that goes on and on, to break the hearts of American fathers and mothers year in and year out. What is this that goes on and on, regenerating our boys — thinking our hard earned dollars with the deficit spending of billions that we do not have — breaking our backs with taxation the power of governmental bureaucrats — making our once free, peaceful United States over into the image and likeness of an armed camp where limited constitutional government is, now, all but suspended in the interest of military necessity? What is this — and how long must it go on?'"

"We are told that this is the menace of Communist aggression all over the world. We are told, upon the highest authority, that this may continue for forty years. There is now in the Congressional Record what purports to be a blue print of the step by step progress of this Communist aggression . . . from Indochina to Thailand to Malaya—Burma, North Africa, and beyond."
"Our officially proclaimed policy is to resist this aggression by agreements between so-called 'Free Nations'—These agreements, graciously, permit us to furnish 90 per cent of the cost and casualties of these 'police actions.' There were 142,000 American casualties in Korea and 31,000 of these American boys were killed. Nevertheless — we would be shooting it out in Indochina now if we could have persuaded some of the 'Free Nations'—to go along with us, even nominally. We have been spared the Indochina blood bath thus far only by the suddenly developed isolationist sentiments of our previous partners in these enterprises. To date—thank God—we have not developed the official nerve to go it alone, but that decision may come at any moment. 'Collective Security' may come to life, too, when British interests are threatened in Malaya, or elsewhere. Perhaps, that is the reason for Mr. Churchill's visit to President Eisenhower. Make no mistake about it, my friends, we have an official, open offer to send our sailors and soldiers, shooting into every rice paddy on earth, in spite of the fact that not a single Foreign soldier has been sent, or will be sent into any one of these 'Communist Aggressions.' The curious Kremlin conspirators will call these shots, but neither they, nor their red soldiers, will be exposed to any one of them. Malenkov and company have gleefully set these deadly traps for us all over the world. They expect to spring them, one at a time. Their very practical purpose is to bleed us white, by the lavish expenditure of our boys and our money all over the world. Thus, they will weaken our resistance at home, by the accelerated inflation of our already debauched currency and by the communist subversion and infiltration of our ever more tightly concentrated Federal Government.

To be continued

Governor Goodwin V. Knight will be opposed by Richard Graves, a former Republican, in the California gubernatorial contest because of his anger over Vice-President Richard M. Nixon's speech-making endorsement of the McCarthy-Truman regime amounted to "twenty years of treason." The former President will also ridicule Nixon's reported ambition to succeed President Eisenhower in 1956, or in 1960.
Truman, who delights in political intrigue and excitement, will deliberately seek to antagonize and divide the two Republican factions in the coastal state — the Nixon-Knight group and the Warren-Knowland-Kuchel organization.

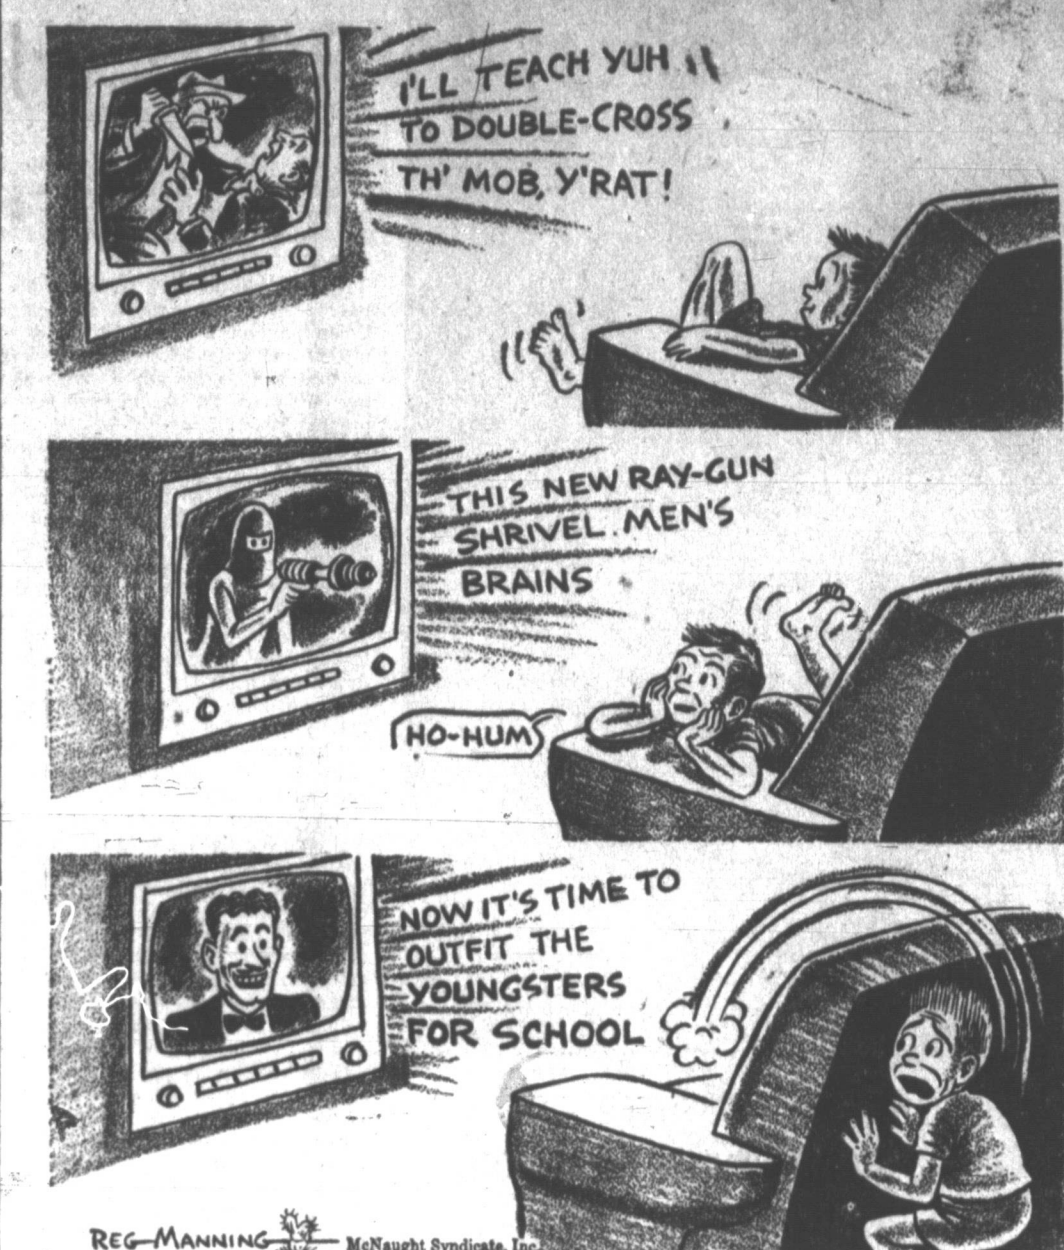

He has been informed by Sam Rayburn, House Minority Leader, that Nixon and Senator William F. Knowland, Senate Majority Boss, are eager for the Republican Presidential nomination in 1956, if like does not run again, and in 1960, if like is re-elected, or if a Democrat should win in 1956.
The clashing Nixon-Knowland factions are generally recognized by their colleagues on Capitol Hill. But, as politicians on the same Eisenhower team at the moment, it is not considered gentlemanly to mention it publicly.
That, however, is exactly what Truman intends to do within the next few months. As he said when he embarked on his first 1948 campaign trip, he will "give 'em hell."

The problem will boil even more furiously in the next few weeks, when Treasury revises the regulations under which lawyers or accountants may "practice" in tax matters.

A busy man, much engrossed with his newspaper, when leaving a streetcar one morning absent-mindedly picked up an umbrella belonging to a man sitting next to him. The latter protested, and our friend, greatly mortified, apologized earnestly. On his way home from business that evening he called, at his wife's request, for three umbrellas she had left at a store to be mended. Now Fate decreed that the umbrella owner of the morning should be his nearest neighbor on the homeward car. He eyed the first man and his umbrella keenly, and at last said quietly, but conspicuously, "I see you have had a successful day!"

Truman To Take A Hand In California Governor Race

By RAY TUCKER

WASHINGTON — The easily exasperated Harry S. Truman will campaign actively in the California gubernatorial contest because of his anger over Vice-President Richard M. Nixon's speech-making endorsement of the McCarthy-Truman regime amounted to "twenty years of treason." The former President will also ridicule Nixon's reported ambition to succeed President Eisenhower in 1956, or in 1960.
Truman, who delights in political intrigue and excitement, will deliberately seek to antagonize and divide the two Republican factions in the coastal state — the Nixon-Knight group and the Warren-Knowland-Kuchel organization.

He has been informed by Sam Rayburn, House Minority Leader, that Nixon and Senator William F. Knowland, Senate Majority Boss, are eager for the Republican Presidential nomination in 1956, if like does not run again, and in 1960, if like is re-elected, or if a Democrat should win in 1956.
The clashing Nixon-Knowland factions are generally recognized by their colleagues on Capitol Hill. But, as politicians on the same Eisenhower team at the moment, it is not considered gentlemanly to mention it publicly.
That, however, is exactly what Truman intends to do within the next few months. As he said when he embarked on his first 1948 campaign trip, he will "give 'em hell."

Should Knight be elected governor, and thereby control the vast state patronage, he might be in a position to exalt Nixon's chances for presidential preference. It would be a blow to the Knowland candidacy. Indeed, there are reports that some California Republicans would prefer the election of Graves to the ascendancy of a Nixon-Knight dynasty.

Graves recently visited Washington to obtain national support for his candidacy in this extremely important political area. At that time the writer reported on the possibility of Truman's intervention, but the details had not been worked out. During the writer's absence from the country, Graves had numerous huddles with House Minority Leader Rayburn.
The Texan placed the matter before Truman, and the former President immediately saw the prospect for the sort of politicking he revels in. If his health permits, he will deliver his anti-Nixon and

The Doctor Says

By EDWIN J. JORDAN, M. D.

As a start to a brief discussion of angina pectoris I should like to answer a question asked by Mrs. F. M. "Can one," she asks, "have normal electrocardiogram after a coronary thrombosis, and is this the same as angina pectoris?"

The answer to the first part of the question is yes. The electrocardiogram can be, but is not necessarily, normal some time after a coronary thrombosis.

A coronary thrombosis is a blocking of one of the blood vessels supplying the heart completely and is not the same, therefore, as angina pectoris, though some people who have had a coronary thrombosis will also have symptoms of angina.

Now the meaning of angina pectoris is simply pain in the chest, but it is applied by physicians to a condition in which insufficient amounts of blood are flowing through the coronary arteries to the heart muscle.

If these vessels develop spasms, or more commonly if the passageways are partly narrowed, there will be times when not enough blood passes through them. The needs of the heart muscle for blood are not satisfied, therefore, and the pain of angina pectoris develops.

In typical instances the pain is likely to be absent when the person with angina is resting. It is likely to be noticed the first time when the heart is pumping rapidly as happens when exercising (climbing stairs or running for a bus, for example).

Under such circumstances, the heart needs larger quantities of blood than it does when at rest. In addition to pain, the symptoms often include a feeling of anxiety, shortness of breath and cold, clammy sweating. A person who has angina pectoris must, therefore, learn how much exercise can be taken without producing symptoms.

Many victims of angina learn how to live with their hearts and have little or no discomfort.

Press Box Views

By BUCK FRANCIS Pampa News Sports Editor

MAN, WE'RE GLAD to be back in "cool" Pampa after several days of "melting" down Dallas way.

It (the weather) reminded us of our South Pacific days in the past war. And I'm not sure that the SP was cooler.

Well, anyway, despite the heat we did enjoy our association with all the hundreds of coaches and sports writers attending the gigantic coaching school.

Some say the coaches go to these clinics just to have a good time. But I do not believe that's so.

The coaches do have a good time, mind you, since they see excellent class mates and others they have associated with in the coaching field. But, a big majority of these coaches mix their fun with a little learnin'.

Several lectures by the four big-time coaches at the clinic, Jess Neely of Rice and Bobby Dodd of Georgia Tech in football, and Dudley Moore of Duquesne and Eddie Hickey of St. Louis-in basketball, were held during the week-long school and there was "standing room only" at practically every session.

These coaches took down lots of notes which will be put in to use this coming fall.

DON'T BELIEVE THE all-star selection committee for the two all-star games played during the school could have picked more evenly matched teams if they "had tried."

The one-point difference in the score in both games bears out this fact, the South winning the basketball game 62-61, and the North taking the grid tilt, 7-6.

But I'm not sure that I agree with the method which is used for picking the all-star team. The selection committee is requested to put an equal number of players from each of the five classes in the schoolboy setup.

For instance, I believe Allen Simpson of Berger could have bolstered the North basketball team immensely but he couldn't be picked ahead of Harvester Jimmy Bond and one player from 1-AAAA.

Big Week Coming Up In Local Sports Circles

HERE ON THE HOME FRONT there is a lot of activity slated this week in the sporting world, Little League and PONY League playoffs and the Oilers opening a crucial four-day homestand.

The Oilers homestand starts tonight with none other than Grover Seitz's Clovis Pioneers as the guests.

Need we tell you more. The stands should be packed for this series, a doubleheader tonight and a single affair tomorrow.

Actually, there'll be a doubleheader tomorrow night, too. The opening game of the Little League playoff between the Eastern and Western Leagues will be unrelieved tomorrow's game. Hoffman of the Eastern champ and Spokesman of the Western.

STANDINGS

Table with 5 columns: Team, W, L, Pct., GB. Includes West Texas-New Mexico, National League, and American League.

Table with 5 columns: Team, W, L, Pct., GB. Includes Pacific Coast League and Texas League.

Pioneers Edge Hubs To Tie For Loop Lead

By UNITED PRESS

Clovis took advantage of a Pampa open date to move into a first-place tie in the West Texas-New Mexico League with the Oilers by virtue of a 4 to 3 win over last-place Lubbock.

Plainview smashed Albuquerque 11 to 1 and Abilene edged Amarillo 4 to 3 in other Sunday games.

Monday night's games open a new series, with Albuquerque at Abilene, Clovis at Pampa and Amarillo at Plainview.

Ernie Sadler pitched seven-hit ball to net his 14th win of the season for Clovis, as the NuMexers gained a series split. Jim Lewis hit a home run for Clovis off loser Harry Wise.

Bill Abelheim, Plainview first sacker, hit a pair of three-run homers to pace Plainview to a one-sided win over Albuquerque. Max Simmons threw seven-hit ball to get credit for his seventh win for the Ponies.

Abilene moved back into fourth place in the league standings with a one-run win over Amarillo, that broke Amarillo's five-game winning streak. Oscar Rueguera took his 14th win of the year with a neat seven hitter. Goose Goff hit a solo homer for Amarillo in the seventh inning.

Score by innings: Plainview 000 001 100-2 7 1; Albuquerque 005 041 01X-11 13 1.

Abilene 130 000 00X-4 7 1; Amarillo 000 001 200-3 7 2; Lubbock 000 000 012-3 7 2.

Winning pitchers: Sadler and Warren; Wise and Benites.

Toski Grabs Big Tam Pot

CHICAGO, Aug. 16 - UP - Bob Toski, a golf gambler with every stroke, stood out Monday as the most logical successor to the former names in the game, with a \$50,000 tourney victory racked up as his stepping stone.

Toski scrambled all the way to a final round par 72 in Tam O'Shanter's "World" tournament, but the 127-pound better from Livingston, N. J., made that stand up for top prize, which also includes a contract for exhibitions at \$1,000 each with a 14 under par 72 hole of 247.

Toski said he was thinking "of that \$50,000" all the way around the course.

He earned the money with an eight-foot putt on the 18th and last green for a birdie three.

"When I hit that putt," he said, "I hit so well, man, I was gone. I knew if I made that I'd at least tie, and I said to myself 'now don't hit it too easy. Get it up there.'"

It dropped, and the leader after 54 holes, Earl Stewart of Dallas, couldn't sink a 10 footer on the same hole to tie. Thus Stewart finished deadlocked with Jackie Burke, Kiamasha Lake, N. Y., with 75, and each earned \$7,500.

Toski's victory lifted him far ahead of the field in the race for top money winning honors in pro golf in 1954. Earlier he had been in third place, but the big payoff gave him \$64,938 for this season, more now than the runner-up probably will total for the entire season.

Patty Berg won her second straight title in the women's pro division with a total of 288 for \$5,000, while Louise Suggs, Atlanta, Ga., was second with 301 for \$1,500.

Frank Stranahan, Toledo, Ohio, posted a 284 for his fifth straight men's amateur crown, while Mickey Wright, La Jolla, Calif., won the women's amateur with a 309 count.

Academy Makes Change GREAT NECK, N. Y., Aug. 14 - UP - Candidates who pass the entrance examinations for the United States merchant marine academy will be able to play football and other varsity sports in their plebe year, Commander James W. Liebertz, academy athletic director, announced Saturday.

Oilers-Pioneers Open Crucial Series Here

Teams Meet In Twinbill Tonight

The Oilers and Clovis Pioneers, currently in a two-way tie for first place in the heated West Texas-New Mexico League, open a crucial three-game series tonight at Oiler Park.

The two leaders will clash in a doubleheader tonight with the first game to start at 7:30. A single game will be played tomorrow night between the two clubs.

Tonight has also been declared "Elks Night" at Oiler Park with a portion of the proceeds to go to the Elks Club. The Elks Club Night tonight will be the first of four "special" nights on the current Oiler homestand.

Tomorrow night will be "Little League Night," Wednesday will be "bucket night," and Thursday will be "Kiwanis Club Night."

Tuesday's Little League Night will be spiced by a playoff game between the two Little League champions of the city, Hoffman Oil in the Eastern League and Spokesman in the Western.

It will be the first of a three-game playoff series. The second game will be played at the Eastern League Park Thursday night and if a third game is necessary, it will be unrelieved on the Western League diamond.

"Bucket Night" Wednesday The "bucket night" Wednesday will be used for the first time in Oiler Park this season. There will

Here in brief is the Oiler homestand slate that starts tonight: Monday - Oilers vs. Clovis (2 games) - "Elks Night." Tuesday - Oilers vs. Clovis - "Little League Night." Wednesday - Oilers vs. Amarillo - "Bucket Night." Thursday - Oilers vs. Amarillo - "Kiwanis Club Night."

There will be no ticket takers at Wednesday's game but a bucket will be placed at the entrance and the fans may drop anything they so desire as an admission to the game.

The "bucket night" was used at Amarillo last week with good success. More than 2,500 fans were in the stands and the amount taken in was over \$900. The Oilers were the Amarillo foes that night. Ironically, Amarillo will be the Oilers' foe for Wednesday's "bucket night" here.

Then Thursday night the Oilers will wind up their homestand with the annual "Kiwanis Night" on tap.

Clovis, tonight's Oiler opponent moved into a two-way tie with the Oilers for first place by defeating Lubbock Sunday, 4-7. The Oilers and Pioneers both own 63-47 win-loss records for the season.

The Oiler-Pioneer series will be the most crucial series of the W.T.-N.M. League season this year.

Several Oiler pitchers will be ready for starting assignments tonight. Vibert Clarke (14-6) and Jose Valesquez (11-6) have been named by Manager Hershel Martin to hurl for the Oilers in tonight's twinbill with Valesquez scheduled for the first game.

Clovis is expected to counter with the ace, Red Dial (20-10) and Jack Venable (8-11).

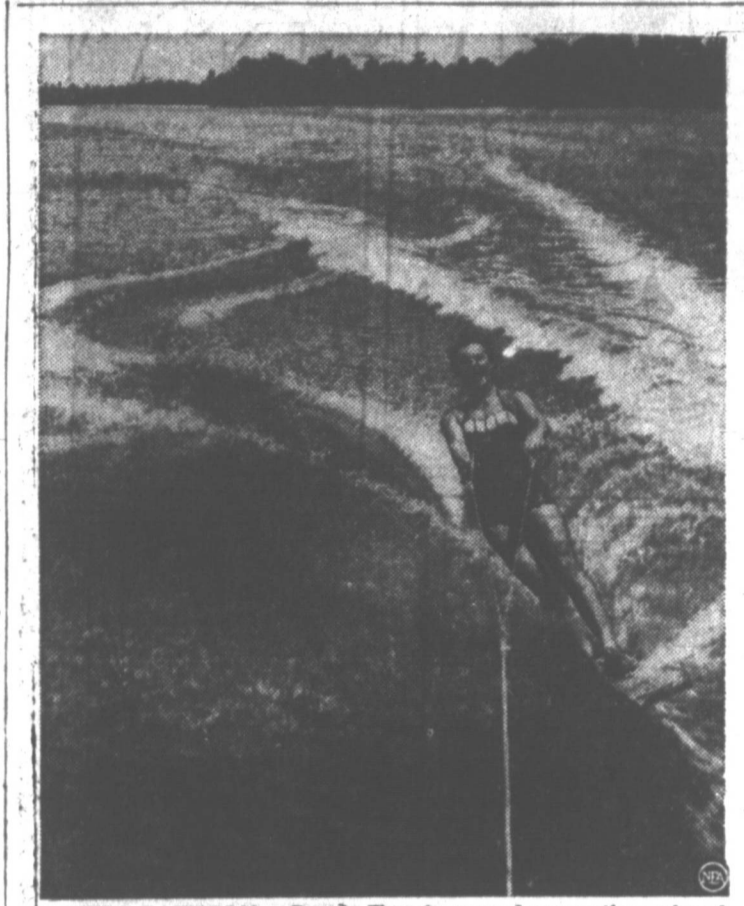

Seek Outfielder Oiler business manager Jimmy Hamilton revealed this morning that he expects to get a promising rookie outfielder, Slick Johnson, from the Pittsburgh Pirates in the next day or so.

Johnson has been with Lexington, Ky., in the Mountain States League this season but that league folded last week. The Pirates ordered Johnson back to Pittsburgh to await further assignment.

The Oilers will be shy an outfielder in about another week as Dub Wright will be leaving the club to return to his football coaching job at Laverne, Okla.

If the deal for Johnson materializes, the outfield problem for the stretch drive will be solved.

NL Pennant Race In 3-Way Battle

By FRED DOWN

United Press Sports Writer General Manager John Quinn, who's been ducking brickbats most of the year for trading Johnny Antonelli, was entitled to take a few bows Monday for his "bargain basement buy" of the two slug-gers who are leading the Milwaukee Braves' "miracle drive" on the National League pennant.

For it's been Joe Adcock and Andy Pafko, a couple of castoffs, who have been swinging the big sticks as the Braves roared to 220 victories in 72 games since July 21. The Braves made it nine straight with a 2 to 1 triumph over the Chicago Cubs Sunday while the Brooklyn Dodgers routed the New York Giants 9 to 4.

As a result, the Giants' once-massive seven-game lead over the Dodgers was cut to a half game with the on-rushing Braves only 3 1-2 from the lead.

With Adcock and Pafko showing the way, the Braves have compiled a .301 team batting average during the 22-game period to climb from seventh to third in the league's team batting figures.

Conley Gets 15th Victory Adcock collected two singles and a double while Pafko contributed a triple and a single to the Braves' eight-hit attack Sunday which enabled Gene Conley to score his 12th victory with a seven-hit performance.

Duke Snider and Gil Hodges hit home runs to lead the Dodgers to their third straight over the flourishing Giants, who now have lost seven of their last eight games.

Billy Loeb survived a bases-filled, none-out situation in the second inning to win his sixth straight game and his eighth of the year while Jim Hearn suffered the loss to even his record at 8-5. Willie Mays hit his 37th homer for the Giants.

Sunday's Star Gene Conley, who pitched the Milwaukee Braves to a 2 to 1 triumph over the Chicago Cubs.

Amarillo Wins Shamrock Tourney

SHAMROCK, Aug. 16 - (Special) - James Smith, Jr., Amarillo, captured the 2nd Annual Shamrock Invitational golf tourney title here Sunday with a 1-up victory over T. A. Brooks of Shamrock in the finals.

It was the second straight year that an Amarillo golfer won the title here. Rex Baxter, Jr., won the first tourney last year. Baxter, however, wasn't on hand this year to defend his title.

Smith reached the finals with a 1-up win in a 19-hole thriller over Billy Holmes of Shamrock in the semi-finals Sunday morning. Brooks advanced to the championship match with a 3-2 win over fellow townsmen Billy Ryan in the semi-finals.

Richard Beck of McLean won the

Pill Rollers, Bankers Open Playoff Series Today For PONY League Crown

First National Bank and Pampa Druggists will clash in the first of a three-game playoff series for the 1954 Pampa PONY League baseball title today, starting at 5:30.

The Bankers won the second half title after the Pill Rollers had grabbed the first half crown.

First National wound up in a two-way tie for first in the second half with Kists but then won a one-game "sudden death" playoff last Friday to take the title. The Bankers and Kists both compiled 6-3 records over the regular second half schedule.

The second game of the playoff series will be played Thursday and a third, if necessary, will be played Friday.

Pampa Druggists are managed by Dr. Nick Kadango and Ab Conway while Deck Woldt and Jerald Sims manage the Bankers.

All PONY League playoff games will begin at 5:30.

Over in the Little League, the city championship playoff series between Hoffman Oil of the East-

ern and Spokesman of the Western will get underway tomorrow night at Oiler Park, starting at 6 p.m.

The Little League playoff opener will be held as a preliminary tilt to the Oiler-Clovis game tomorrow night.

Second game of the Little League playoff series will be unrelieved on the Eastern League diamond Thursday and a third, if necessary, will be played on the Western League field Friday.

Lloyd Hoffman and Bob Bailey manage Hoffman Oil while Joe Fortin and Bill Garrett manage Spokesman.

Fortin is currently on a five-day look with Plainview but he will leave the Plainview club Tuesday to be on hand for the Little League playoff tilt that night.

Hoffman won the second half title in the Eastern League and then captured the season crown by defeating Cabot, the first half champs, in a playoff.

The Spokesman won both halves in the Western League.

Both Hoffman and Spokesman will carry eight-game winning streaks into their playoff series.

HOME OF YOUR FRIEND — Service Cleaners at 312 S. Cuyler is the friend of many persons in Pampa who appreciate smart, well cleaned and well pressed clothes. Phone 4-9751. (News Photo).

Let Service Cleaners Help You Prepare For School

Now is the time — for all students to have their "back to school" clothes cleaned, pressed, ready to look good, feel good the first days of the new school year.

Cleaners has been at the same location. It has been kept here at 312 S. Cuyler by the steady business of patrons who prefer Service Cleaners' quality work at low prices.

For more than 12 of those years Jonas has been associated with the firm. Jonas suggested that all students prepare now to have their school day wardrobe cleaned and pressed.

Quality Work Service Cleaners features: First — the high quality of cleaning and pressing by skilled, conscientious workers.

Then it is very important to have all clothes ready to wear, looking well. It can be a great disappointment to find that a suit or a dress "just won't do."

"Clothes don't make the man," Jonas pointed out, "but they help him make a favorable impression by being clean, pressed, neat."

SUITS and PLAIN DRESSES 75¢ We Give Gunn Bros. Stamps Free Delivery Service Cleaners 312 S. Cuyler Ph. 4-9751

Let A. L. 'Red' Weathered Sand Blast, Paint It Right

"It costs less in the end to have it done right in the beginning." That's why it costs less to have A. L. "Red" Weathered do your sand blasting and painting. You can reach Weathered at 1322 Charles. Telephone 4-3532.

A painting contractor in Pampa for the past 19 years, Weathered is in Pampa to stay, and guarantees satisfaction on his work.

Red has established this policy: to work only with top painters of the Pampa area. He adopted the policy to be sure every job he does just as well as man can do it.

More For \$\$ Because top painters do top work, Weathered explained, home owners and businessmen get a really good job. And the quality of work these men do means the owner gets more for his money — the job lasts longer.

A previous occupation has given Weathered the background for another phase of his business — oil field work. For seven years before he went into contracting, he worked in Panhandle oil fields.

Sand Blasting From that he knows just what is needed to sand blast, clean, treat tanks — oil, gasoline, gas and water tanks.

He cleans tanks, treats them to resist corrosion, rust. He can apply a new scientific miracle: a special paint developed to protect the interior of water tanks, a paint that will not give the water a "taste" or harm it!

Weathered has the know-how and equipment for sand blasting,

tank treating, spray and brush painting. He can clean stone, steel, brick buildings. Some people believe that once a brick building is painted it must always be painted. That's wrong. Weathered can clean a brick building so that it looks like new!

Roof Spraying Call Weathered to have a large building or roof spray painted quickly and well. He gets the "corners" and doesn't paint the countryside! Red protects the parts not to be painted with covers. Call Red to paint your fence quickly, neatly.

Red does excellent work brush painting: homes, interiors, "close work." His know-how, the way to treat surfaces before applying paint, how to apply paint for both appearance and protection of the painted material — all that is your protection, your assurance that you are getting the most for your money.

For painting homes, refineries, office buildings, for sand blasting, for treating tanks — Call Weathered, 4-3532. Get the most for your money!

Boat Plan Changed MEXICO CITY, Aug. 16 —UP— It was reported Saturday the Mexican government has given up plans to buy fishing boats from Japan.

The newspaper "Excelsior" said the Navy ministry would build shipyards with the money originally intended for the Japanese boats. The newspaper calculated the imported boats would have cost about \$2,000 (U. S.) each, and they could be built for half that in Mexico.

Small Auto Makers Face Struggle Of Competition

DETROIT, Aug. 16 —UP— The Studebaker - union wrangle over wages was another sign of the desperate struggle smaller automobile companies are waging to survive in the industry's tightening competitive fight.

The smaller companies have been getting less and less of the shrinking automobile market. The big three — General Motors, Ford and Chrysler — have been turning out up to 97 per cent of the nation's cars. This has pushed the smaller companies to the wall.

The smaller independents have turned to mergers in an attempt to meet the competition. They believe the mergers will help them cut costs and get back in the competitive fight.

Vote Due Tuesday Nash and Hudson combined and then Kaiser and Willys. Stockholders of the last two independents, Packard and Studebaker, vote next Tuesday on whether to merge those firms.

The mergers are just part of the fight to find ways to cut costs. Studebaker's move to get union workers to take lower hourly pay was part of the drive.

Studebaker's work force has been cut in half in the past year. Production of the company fell from 128,424 cars and trucks in the first six months a year ago to 54,106 this year.

Major factor in this decrease has been the higher prices we have had to ask for our cars and trucks," the company said.

Mergers can help turn sick firms into one healthy firm in several ways. Costs can be shaved if parts like clutches and transmissions can be used interchangeably.

If basic styling can be the same for more than one model, big savings can be realized. It has been estimated it takes something in the neighborhood of \$20 million to design, engineer and

tool-up for a single new basic passenger car body shell. Unless this big investment can be used to build a lot of automobiles the unit cost gets pretty high.

With the "big three" getting a bigger and bigger share of the market, that is what has happened to the smaller companies.

GM Spreads Cost This On the other hand, General Motors, which turns out over half the nation's automobiles in its five divisions of Chevrolet, Pontiac, Buick, Oldsmobile and Cadillac — spreads this per unit cost pretty thin. Two or more of its divisions often use the same basic body shell. In combinations from its basic bodies it can produce many models of hard-tops, convertibles and sedans, thereby making its products more attractive to buyers.

The council will discuss the state of Christianity in the modern world on the theme of "Christ—the Hope of the World" and six sub-themes. Faith and Order — our unity in Christ and our disunity as churches; Evangelism — the mission of the church to those outside her life; Social Questions — the responsible society in a world perspective; International Affairs — Christians in the struggle for world community; Intergroup Relations — the church amid racial and ethnic tensions; The Laity — the Christian in his vocation.

Portrait of Solon Sam Reynolds with caption: SOLON — Sam Reynolds, of Omaha, is the new senator from Nebraska. He will fill the seat vacated by the death of Sen. Hugh Butler. The 63-year-old Republican has long been active in state politics.

McLean Personals

By J. M. PAYNE Pampa News Correspondent Mr. and Mrs. O. R. Gray of Abilene are visiting Mrs. Gray's parents, Mr. and Mrs. W. W. Shadid.

Mr. and Mrs. Bobby Myatt are visiting Mr. and Mrs. C. A. Myatt. Bobby has just been discharged after four years in the U. S. Navy and is making arrangements to enter Hardin-Simmons University at Abilene this fall.

Miss Sarah McClellan and Donald Cunningham are to be married August 20 at the Methodist parsonage. Miss McClellan is the daughter of Mr. and Mrs. J. L. McClellan. Cunningham is the son of Mr. and Mrs. R. O. Cunningham and is employed at the American National Bank.

Mr. and Mrs. Bill Eudy have returned to McLean from California where Bill was recently discharged from the U. S. Navy. Minister Harold McCullum of the Church of Christ has announced

that a series of gospel meetings will be held at the church beginning Aug. 15. Speaker for the meetings will be Minister Curtis Camp of Amarillo and two services will be held daily, at 10 a. m. and 8 p. m. The meetings will continue through Aug. 25.

Don Howard of Lefors will fill the pulpit, both morning and evening, at the First Baptist Church Aug. 15, in the absence of the pastor, Dr. Buel T. Wells. Howard is the son of Mr. and Mrs. Robert Howard, now of Lefors and former residents of the McLean community.

Miss Sue Glass and Larry Fuller will conduct senior life-saving classes at the Window Pool beginning Monday, Aug. 16. Both are holders of certificates for water safety instruction, issued by the school for such instructors at Lake Murray, Okla.

Mrs. June Day Story, a member of the McLean High School faculty, will receive her M.S. degree in education Aug. 20 at West Texas State College. Mrs. Story is science instructor in the high school.

Available at Furra Super Markets, Creney's Clyde's and Perkins Drugs.

Jet Air Age May Hurt Land Values

WASHINGTON, Aug. 16 —UP— The jet air age may destroy property values in an ever increasing circle around city airports, according to one of the nation's leading real estate appraisers.

Channing C. Beeth of St. Paul, Minn., president of the International Association of Residential Appraisers, made the statement after a preliminary survey of the effects of airports on property values in their vicinities.

Beeth outlined the problems raised by airports in an article, "Do Airports Create Obsolescence?" in Correlator, the magazine of the National Association of Home Builders. Appraisers are sharply divided on whether airports now have any detrimental effect on property value.

Larger Area Affected He said present propeller-driven commercial airliners on scheduled runs use a 40 to 1 "glide angle" in landing. This brings the big planes below the 1,000-foot "fence"

MORE TEXAS TRADE WITH HAWAII-FAR EAST

The first shipment of Hawaiian raw sugar into Texas in 16 years is shown being unloaded at Galveston for Imperial Sugar Company at Sugar Land, Texas' only sugar refinery. The cargo represents a significant upturn in the state's import-export activity with Hawaii and the Far East. Imperial is one of Texas' largest single importers, paying nearly \$3,000,000 annually in duties on raw sugars from Cuba and Puerto Rico.

World Council Of Churches Opens Chicago Meet Today

CHICAGO, Aug. 16 —UP— The second assembly of the World Council of Churches opens Sunday evening with a festival of faith expected to draw 120,000 persons from throughout the Midwest.

The assembly, one of the most important meetings in the history of Christianity, will begin its official sessions Monday on the campus of Northwestern University in suburban Evanston.

One of the highlights of the assembly will be an address by President Eisenhower Thursday evening, Aug. 19. The President will travel to Evanston from Springfield, Ill., where he will deliver an address at the state fair earlier in the day.

Delegates and other dignitaries will represent 161 denominations and churches of the Protestant, Anglican, Orthodox, and old Catholic communions as well as such ancient faiths as the Church of Syria, Coptic Church of Egypt, the Nestorian Church of the Middle East, and the Mar Thoma Syrian Church of India.

Roman Catholics Not Members The Roman Catholic Church is not a member of the world council and its followers have been enjoined by Samuel Cardinal Stritch, archbishop of Chicago, from participating in the assembly and its sessions.

The council will discuss the state of Christianity in the modern world on the theme of "Christ—the Hope of the World" and six sub-themes. Faith and Order — our unity in Christ and our disunity as churches; Evangelism — the mission of the church to those outside her life; Social Questions — the responsible society in a world perspective; International Affairs — Christians in the struggle for world community; Intergroup Relations — the church amid racial and ethnic tensions; The Laity — the Christian in his vocation.

A group of eminent theologians and clergymen participated in writing two voluminous reports on the main and sub-themes which probably will be accepted by delegates to guide the council and member churches during the five years until the next assembly.

A Critical Report One phase of the report criticizes both capitalism and communism — capitalism for teaching men to put too much reliance upon

Trucks carry three-fourth of the freight tonnage in the United States, but in ton-mileage, trucks carry only 12 per cent of the freight.

pass" ceiling 7 1/2 miles from the airport and below the 500-foot mark at 3 1/2 miles away. Jet airliners use a 50 to 1 landing angle approach, he said. "Their trespass is therefore greater," Beeth said. "It will occur when they are 10 miles from the airport and they will dip below 500 feet about five miles away."

The approach pattern of commercial airlines, he said, is only one of many ways airports affect property in their areas. Two other important factors are noise — "unwanted sound" — and danger.

Beeth conceded that the actual danger of an airplane crash in a given community is very small, but he said "the psychological effect is sizeable when there has been a plane crash."

A Doolittle Report Beeth cited the recent report and recommendations made by a special commission, headed by Gen. James H. Doolittle, as the aftermath of three airliner crashes in Elizabeth, N.J. Each of the planes was using the Newark, N.J., airport.

Doolittle's group recommended special zoning — land should be cleared completely for one-half mile at each end of runways and special limits on heights and types of buildings should be imposed for another two miles.

Beeth noted that Doolittle recommended prohibition of churches, schools, hospitals and other places of public meeting in the airport approach zones.

"If there were no appreciable element of danger, why wouldn't it be feasible to build churches, schools and hospitals in the approach zone?" Beeth asked. "And if public places should be protected from the hazard, is this an acceptable location for a home?"

He also said that the Federal Housing Administration and the Veterans Administration "avoid" home-loan insurance commitments in the approach zones, "and penalize the properties close by."

Tolerance Develops Beeth said persons living near airports build up "a tolerance to the noise, vibration and psychological danger."

"These are tensions, however, and we know that they can be cumulative," he said. "Whether we are aware of them or not, they may be injurious to our health, particularly for families with children or older folks, or in cases of chronic illness, it may be highly undesirable to live within the approach zone."

He added, however, that those who own homes in these areas "now have a proprietary interest that would influence them to discount the effect of the noise and vibration, even while the dishes are rattling in the kitchen cabinets."

Railroad Cooperating In Safety Commission Drive

By T. J. ANDERSON Santa Fe Plains Superintendent Traffic signs and signals truly are the signs of life.

The Santa Fe Railroad is very happy to cooperate in this public service program sponsored by the Pampa Citizens Safety Commission and the National Safety Council.

Railroads are particularly conscious of the importance of signs of life to traffic safety, because we must of necessity rely heavily upon these signs to help us prevent accidents at highway-rail intersections.

It's important that drivers develop the habit of recognizing and obeying all the traffic signs and signals that are designed to regulate, guide and protect them. If a motorist is in the habit of obeying all the signs of life, it will help him keep safe at highway-rail intersections and everywhere else he drives. If every
