Meeting Set On Drouth Aid For Gray

The Farm Home Administration Committee will meet Wednesday, probably in McLean, to consider 30 Gray County applications for drouth relief, according to Miss Evelyn Mason, secretary in ASC office.

Drouth relief for Gray and other Panhandle counties was approved recently by Secretary of Agriculture Ezra Taft Benson in Washington, D. C., following a request from Governor Allan Shivers. James Gouley, supervisor of the FHA office in Clarendon was in Pampa Monday to discuss the drouth relief program with local farmers.

Farmers and ranchers whose petitions are approved by the FHA committee will be issued a certificate by the ASC office here which will be honored by any grain dealer.

The program will allow a \$1.00 reduction per 100 pounds on grain sorghums, oats, barley and corn. On mixed feed a proportionate reduction will be allowed. On hay, a 50 per cent transportation reduction will be allowed.

Ike Squelches Talk Of A-Power Meet

WASHINGTON, Nov. 23 — President Eisenhower said Tuesday that the United States will not agree to hold four power talks with the Soviet Union until the West German freedom and rearmament agreements have been put into effect.

The President, in response to a question, said he could not look into the future and foresee when conditions would make such talks possible.

He said he could not conceive that a meeting of heads of state would be worth while to begin with. He said it would be necessary to have talks on diplomatic level first, and that he did not know what thereafter might follow.

The President announced that Secretary of State John Foster

Dulles will make an important foreign policy address next Monday night in Chicago. He said Dulles would give quite an explanation of where this government stands on four-power talks and over-all foreign policy.

Giving a preview of Dulles' speech, the President said that until the new records on West Germany are put into effect, we will not agree to such a conference. And, he continued, there should be some promise of real fruitfulness for talks with the east.

And thirdly, there must be a proper time for thorough preparation for an east-west conference. The President said there is no virtue in going into any quick conference for the purpose of promoting propaganda.

The President nevertheless repeated his long-held position that whenever this government has any reason to believe that anyone really wants to talk about peace, it will talk too.

M'Carthy Hospital Disagree

Shade Of Meaning Causes Variance

WASHINGTON, Nov. 23 — UP — The Bethesda naval hospital announced Tuesday "a small amount of fluid" has been removed from Sen. Joseph R. McCarthy's injured right elbow via a hypodermic needle but said "this is not considered technically to be an operation."

The hospital statement was issued after a photographer who visited McCarthy's room quoted the senator as saying doctors had "operated on the elbow to take out pieces of glass."

The photographer, Al Muto of International News Pictures, was admitted to McCarthy's hospital room Monday as a "pool" representative of all news services. He was the first press representative to see McCarthy since the senator entered the hospital last week for treatment of bursitis which was said to have resulted from banging his elbow against a glass-top table while shaking hands with admirers.

The report that McCarthy had undergone an "operation" drew from a hospital spokesman Monday night the brief statement that "no surgical operative procedure" had been performed on the senator.

This statement seemed to leave open the possibility that doctors had probed the elbow for pieces of glass but that they did not regard this as a "surgical procedure."

Hospital aides said that drawing out some of this fluid with a hypodermic needle is a recognized treatment for bursitis, which is a condition in which the bursa becomes inflamed from a blow or other cause.

One photograph of McCarthy taken Monday showed him in bed with his right arm swathed in bandages which extended from his wrist to his armpit.

Wichita Falls Fire Loss High

WICHITA FALLS, Nov. 23 — UP — Fire destroyed a downtown appliance store Monday night, causing damage estimated unofficially at \$150,000 to \$175,000 in Wichita Falls' fifth major fire in three months.

The building, housing the Monaghan Appliance Company was destroyed by the fire. The roof caved in an hour and a half after firemen arrived and it took them another hour and a half to bring it under control.

Firewalls kept the fire from spreading to other buildings. Fire Department Dispatcher A. J. Thorn said the alarm was turned in at 6:50 p. m., about 30 minutes after the last employee had left the store. Dense smoke billowed out broken windows of the store when firemen arrived.

Firemen went into the building to fight the fire, but the smoke was so dense they had to retreat. The clouds of smoke hampered their efforts even after they had moved back outside.

The unofficial estimate of \$150,000 to \$175,000 damage was made by Doyle Monaghan, owner of the store, who estimated damage to his stock and fixtures at \$100,000, and J. N. Prothro, the building owner, who estimated his loss at \$50,000 to \$75,000.

Borger Pair To Be Charged

Robbery charges will be filed today in the Justice of the Peace Court here against John Nolan Wise, 18, and Raymond V. Dailey, both of Borger, District Attorney Tom Braly said this morning.

The men are being held in connection with the stick-up Saturday night of Jim's Package Store, 838 S. Cuyler.

Braly said the pair are expected to make bond, and then be bound over for action by the grand jury.

State Opens Scientific Phase In Sheppard Trial For Murder

CLEVELAND, Nov. 23 — UP — The state opens the scientific phase of its wife-slaying case against Dr. Samuel H. Sheppard Tuesday with testimony from a fingerprint expert that the only clear print he found at the Sheppard home was that of their seven-year-old son.

There were smudges of prints found in various places, but none had the "uninterrupted flow of line" that is necessary for identification.

The witness was Detective Michael S. Grabowski, 40, a slender, fast-talking, six-year man in the fingerprint section of Cleveland's scientific identification bureau.

Grabowski was the first detective on the murder scene. He arrived at the Sheppard home be-

tween 8:15 and 8:30 a. m. last July 4, about half an hour after the coroner and half an hour before homicide Detective Robert Schottke, who first accused Dr. Sheppard of the crime.

Marilyn Reese Sheppard, 31, was bludgeoned to death between 3 and 4 a. m. that day, according to the medical estimate of Coroner Samuel R. Gerber. The state contends Dr. Sam, 30, killed his wife after a quarrel about his affairs with other women. The defendant says an intruder, who knocked him out twice, committed the murder.

The print identified as that of the Sheppards' son, Sam Jr., known as Chip, was of the boy's palm. It was found on the living room couch.

Malik To Replace Vishinsky At UN

Soviet Diplomat's Body Lies In State

LONDON, Nov. 23 — UP — The Soviet Union Tuesday ordered diplomat Jacob Malik to fly to New York Tuesday night and assume leadership of the Soviet delegation at the United Nations.

A spokesman for the Soviet embassy said he did not know whether Malik was replacing Andrei Vishinsky, who died Monday, temporarily or permanently.

Malik now is serving the Kremlin as its ambassador to the Court of St. James.

Malik was permanent Soviet delegate to the United Nations before he was dispatched to London after the death of Stalin. He was moved out of the United Nations to make way for Vishinsky, who had been demoted from foreign minister in the shakeup that followed the ascension to power of the new Soviet regime.

Malik's broad, expressionless face and athletic build are familiar to millions of American television viewers who watched him perform as Soviet top man at the United Nations.

NEW YORK, Nov. 23 — UP — The Soviet delegation to the United Nations opened the doors of its Park Avenue headquarters building Tuesday to permit diplomats and carefully screened "friends" to view the body of the late Andrei V. Vishinsky.

A delegation spokesman said Vishinsky would lie in state from 9 a. m. to 3 p. m. and that high government officials and acquaintances would be invited to file by the coffin.

Strangers Not Invited An earlier announcement from the delegation said "the public would be permitted 'in his respects' to the dead chief Soviet UN delegate but it was made known early Tuesday that strangers were not invited.

After the Iron Curtain again falls on that part of Park Avenue at 3 p. m. the Soviets will prepare for the solemn procession to Idlewild airport, scheduled to begin at 4 p. m.

'The Messiah' Is Cancelled There will be no performance of "The Messiah" this year in Pampa.

Only 27 persons showed up Monday night in the First Methodist Church for the "do-or-die" rehearsal, according to Roy Johnson, minister of music and education. "We needed 20 more than that."

The performance has been going on intermittently, since 1936. The 1954 show would have been the 15th.

Veterans of the show recalled today that, at one time, there were as many as 123 persons on the stage of the Pampa Junior High School Auditorium for the performance. They came from Borger, Phillips, Amarillo, Plainview and Hereford to take part. It has always been a non-sectarian performance.

Women Called On Amarillo Venire AMARILLO, Tex. Nov. 23 — UP — Mrs. Bonita Potter, a justice of the peace, called 10 women among a venire of 12 due to report Tuesday for a suit against an Amarillo attorney.

The case involves a complaint by the city of Amarillo health department against W. S. Birge concerning property Birge owns.

Mrs. Potter called women among a jury panel last week, but they didn't get to serve because the case was postponed and then settled out of court.

Cooper "took off" through a stop sign. So did Bond and Pullin who had been parked in a patrol car nearby. The race ended in a tie at the hospital steps.

"I didn't have time to stop and explain," Cooper said later.

Bond, Pullin and Mrs. Cooper, ushered in the 7-1-2 pound baby girl as Cooper dashed into the hospital for a doctor and a nurse.

Mrs. Cooper and the baby — her fourth — were reported "just fine."

French Chief Hails Europe Agreements

NEW YORK, Nov. 23 — UP — French Premier Pierre Mendes-France said Tuesday the London and Paris agreements formed the basis for a historic step toward true western-European union.

"The western European union which we agreed to establish is more than merely a military arrangement or a device permitting a German military contribution," he said. "It creates an organizational nucleus for a Europe moving toward unification."

HEY, KIDS... LOOK WHAT THE NEWS HAS FOR YOU!

Here's your big opportunity to win a free trip to New York, meet one of America's funniest comedians and appear on a big nationwide television show with him. That's the grand prize awaiting the national winner of The Little People's Christmas Coloring Contest.

The grand Prize winner will appear with Jackie Gleason on Gleason's CBS television show from New York on Saturday night, December 18.

A three-day holiday in New York is also part of the grand prize. The winner and one parent will stay at the luxurious Park Sheraton Hotel in New York City. They'll see the Broadway hit play, "Peter Pan," tour Radio City, see New York from the top of the Empire State Building and visit other sights of New York.

Walt Scott, creator of "The Little People" will also be on hand to congratulate the winner. And there's more fun, too, boys

and girls, when a big, full-sized bicycle, a record player and other special prizes will be awarded to the winner.

If you'd like to be the lucky winner of all these valuable prizes, just enter The Little People's Christmas Coloring Contest. All you have to do is color four special drawings by Walt Scott and send them into this paper. It's easy and it's fun.

If your entry is one of the two best in your area, it will be forwarded to Cleveland, Ohio, where it will be judged by a panel of experts, including such famous cartoonists as Les Turner, who draws Captain Easy; Al Vermeer, artist of Priscilla's Pop; Walt Scott, creator of The Little People; V. T. Hamlin, who is the artist for Alley Oop, and Edgar Martin, the artist of Boots and Her Buddies.

Plan now to enter this wonderful contest. Watch The Pampa Daily News for contest information and rules.

Moose To Discuss 'Show' That Wasn't

The officers of the Pampa Moose Lodge were scheduled to meet at 7:30 p. m. today in the lodge hall to discuss what happened to the "Play IX" that was supposed to have been held under their sponsorship Sunday afternoon on the Pampa Junior High School grounds.

Youngsters Wanted A large group of youngsters was seen standing around outside the school building in the cold weather. The children, reportedly were waiting for a show to begin.

But no show materialized. Dale Pinson, lodge governor, today said he could not recall what the name of the organization that was to have put on the show or whether the show was to have been held inside or outside the building. He said information on the show was in his office at the Moose Lodge and not available at the time he talked with News reporter by telephone.

Phone Solicitation Those who contributed money toward the tickets said today that women who identified themselves as women of the Moose had called them on the phone. The money was supposed to go for the benefit of youngsters.

Warplane Fires On Jap Patrol Boat TOKYO, Nov. 23 — UP — An unidentified warplane strafed a Japanese patrol boat Tuesday near Nationalist China's besieged Tachen Island where two Japanese fishing vessels were sunk Sunday.

The plane, fired about 50 shots at the No. 16 Taiyo Maru about 40 miles northeast of the Nationalist outpost island which has been bombed by Communist Chinese planes.

The "speeder" was William L. Cooper, 32, a machinist. Patrolmen B. G. Bond and James D. Pullin found out later he was just an anxious father-to-be.

"We thought first he was a crazy speeder," the officers said.

Cooper was en route to the hospital with 29-year-old Mrs. Cooper when she told him "you'd better takeoff—the baby's coming!"

Cooper "took off" through a stop sign. So did Bond and Pullin who had been parked in a patrol car nearby. The race ended in a tie at the hospital steps.

"I didn't have time to stop and explain," Cooper said later.

Bond, Pullin and Mrs. Cooper, ushered in the 7-1-2 pound baby girl as Cooper dashed into the hospital for a doctor and a nurse.

Mrs. Cooper and the baby — her fourth — were reported "just fine."

**HOLLYWOOD** —(NEA)—Behind the Screen: Hollywood's all-time most glamorous movie queen? Ricardo Cortez, who's seen them all and acted opposite most of them in 350 movies during the past 35 years, said he would have to name two—Joan Crawford and Irene Dunne.

Skipping the names of Garbo, Negri, Bow, Harlow and other great feminine stars with whom he's clinched, the top lover boy of silents and early talkies told me:

"At the peak of their careers Joan Crawford and Irene Dunne were the most glamorous of all—Joan the tigress and Irene for her spiritual quality. There's never been anyone else like them."

The only actor ever billed over Garbo—in 1926's "The Torrent"—smooth, Vienna-born Ricardo now lives off fat Hollywood real estate holdings and plays an occasional role like his appearance on Jack Carson's new NBC-TV show "Just for the fun of it."

He was stopped by the NBC studio receptionist when reporting for the first rehearsal. "You new here, mister?" he was asked.

"No," said Ricardo, "but it's changed a little."

Thirty years ago the NBC Hollywood studios was the site of the Famous Players-Lasky film studio where there was a star on Cortez' dressing-room door.

### Methodists Nix Military Training

CHICAGO, Nov. 23 — UP—Leaders of Methodism were warned Monday that Christianity must "inaugurate a bold world-wide spiritual offensive."

The warning was sounded by Bishop Arthur J. Moore of Atlanta, Ga., at the opening session of a conference of Methodist district superintendents at the Palmer House.

The Methodist church's council of bishops Sunday stopped a message condemning universal military training.

The 60 bishops, winding up a four-day meeting, endorsed the U. S. Supreme Court's anti-segregation ruling and praised President Eisenhower for his attempts to foster "international co-operation and understanding."

The message is intended to set policy for the church's 9 million members.

### Petroleum Board Checks Ability

WASHINGTON, Nov. 23 — UP—The National Petroleum Council appointed a committee Monday to determine how much the government can depend on the nation's tank trucks to carry fuel in case of war.

Council chairman Walter A. Hallanan said the census of over-the-road transportation is being made in answer to a request from H. A. Stewart, director of the oil and gas division of the Interior Department.

Stewart asked for "a complete census of tank trucks used in and by the petroleum industry" to help in "the analysis of estimated wartime problems."

Among the members of the committee is W. W. Keeler, chairman of the Military Petroleum Advisory Board, Phillips Petroleum Corp., Bartlesville, Okla.

### Texas, Mexico To Talk Park

AUSTIN, Nov. 23 — UP—Texas officials will go to Mexico City this week to confer on proposed establishment of a Mexican counterpart to Texas' Big Bend national park, it was announced Monday.

The state parks board announced Chairman Frank D. Quinn of Austin will leave Tuesday afternoon for San Angelo, to join Assistant Secretary of the Interior Orm Lee, vice president of the university and director of the defense research laboratory, to the meeting.

Many of the scientists remained here after attending the 48th meeting of the Acoustical Society of America which closed Saturday.

Establishment of the international park was endorsed at the Monterey meeting.

## Defendant Wants Women On Jury Venire Thrown Out

HOUSTON, Nov. 23 — UP—Three women stood up for criminal court jury service here Monday as the new law allowing women to serve went into effect and a woman defendant in a murder case immediately tried to have the jury venire thrown out.

Mrs. Anna Lee Jackson, awaiting trial charged with killing Clifford A. Clark last Dec. 12, said since the jury wheel contained only a handful of women's names placed in it by accident, she could not be tried "by a jury of my peers."

Criminal District Judge A. C. Winborn overruled the motion and Mrs. Jackson went to trial.

Mrs. Ray A. Shepherd, a buyer

was on the panel called to try Mrs. Jackson. She was immediately sworn in and was waiting her turn to be questioned. However, it was improbable that she would be called since she was listed last on the 175-member panel.

The other two women who appeared for jury duty at the criminal courts were Mrs. W. J. Parré, a housewife, and Mrs. Guadalupe Galindo. Mrs. Galindo was excused immediately because she did not speak English.

Women became eligible to serve on juries in Texas last Friday when a constitutional amendment became operative by an official canvass of voters in the last general election. As of Monday women can legally serve on juries.

District Court Clerk R. J. Lindley said he had no intention of adding the names of women jurors to the jury wheel until next August when the wheel is refilled.

"The women whose names are now in the wheel were placed there by accident," he said, "because the clerks were unable to tell whether they were men or women."

Mrs. Parra, a prominent club woman with the given name of Bertrand, was eager to serve.

## TEC Fills 181 Jobs

With November not quite over, some 181 jobs have been filled, 19 of them in agriculture, by the Texas Employment Commission here, according to Bill Ragsdale, manager.

"It's the best record in many months."

In October there were 158 jobs filled, 41 of which were in agriculture, November, 1953, with 144 jobs, fell behind the present month of November which for reporting purposes closes on the 25th, Ragsdale said.

"We had a good week last week, with 40 jobs filled."

Presently there are 16 openings at the employment office, but many more are expected before the week is out. Job openings are for salesmen, salesladies, stenographer, maid, carhops and general labor.

## Coffee Price Rises 3 Cents

WHITE PLAINS, N. Y., Nov. 23 — UP—General Foods Corp. Monday raised the wholesale price of its Maxwell House coffee by three cents a pound.

The company said the higher cost of green coffee was the main reason for the price increase.

ADMITS KILLING

Thurman Priest, right center, Grand Prairie, is shown in jail at Mount Vernon, Mo., after he admitted killing his 11-year-old niece, Jeannette Earnest, of Fort Worth, left, hiding her body off a country road near Mount Vernon. Priest took officers to the scene of slaying. With Priest are Lawrence County Sheriff Vernon Smith, left, and Fort Worth investigator E. N. Buie. (NEA Telephoto)

# Priest Murder Trial Set For February

MARSHFIELD, Mo., Nov. 23 — Thurman Priest, facing trial for first-degree murder in the admitted kidnap-killing of his 11-year-old niece, arose in "fairly good spirits" Tuesday and ate a hearty breakfast, Webster County Sheriff E. I. Cunningham reported. The mild-mannered Texan was brought here Monday night following his arraignment at Lebanon, Mo., where his trial for the slaying of Jeannette Earnest was set for the February term of the Laclede county circuit court. Charges of violating the federal Lindbergh anti-kidnap law were expected to be filed, probably Tuesday, at Fort Worth. "Full Security Measures" Cunningham said "full security measures" would be observed as long as Priest is held here. He was placed in a cell by himself, and was given only a spoon with which to eat. He was transferred here because several successful escapes have been made from the old jail at Lebanon. The man who said he fired a bullet into his niece's head "because I couldn't have her, no one else could," was calm but slept little, Cunningham said. He complained that he had lost his glasses. Priest Sunday led officers on a 350-mile search that ended in the finding of Jeannette's body in a wood near Lebanon. Previously he had maintained through more than two days of questioning that he could recall nothing of what had happened to the girl. Declines Counsel Priest was arraigned before Magistrate W. I. Mayfield. He remained calm throughout the proceedings and said he did not want counsel. He objected only to the words "premeditated murder" in the charge. Jeannette's body was found near Lebanon late Monday night. Authorities believe she was slain about 9 a. m. last Wednesday, the day after she was kidnaped in Fort Worth. Tests to determine if Jeannette was raped were "inconclusive," Coroner Stanleigh Palmer Jr. said. Priest insisted he did not molest the child, who was described as "a woman at the age of 11." The search for the murder weapon, which authorities said was a .32 caliber pistol, continued. But leaves were piled so thickly in the wooded region around Lebanon that police planned to call on near-by Fort Leonard Wood for mine-detector crews.

# Parole Jumper Arrested In Houston Court

HOUSTON, Nov. 23 — The third time wasn't a charm for Ray Miller Harrison, a 38-year-old parole violator from Lilly, La. It worked the other way around. Harrison, who owes the state of Louisiana 14 years on a prison sentence and is wanted in two forged cases, was captured here Monday on his third visit to a tourist court by the court's resourceful manager. M. E. Tiffin, the manager, told officers he was suspicious of Harrison "for no reason at all" when Harrison stayed at his court last Nov. 8. He asked his friend, Sheriff's Clerk Carl Minton, to check Minton just happened to have a warrant for one "Ray Harris" from Farmersville, La., for felony theft. Harrison stopped by one day last week to say "hello" and left before Tiffin could call Minton. But he returned again Monday and Tiffin was waiting for him. Tiffin drove a truck across the driveway to block Harrison's exit, and then went to call the sheriff. When he looked up Harrison had shoved the truck aside and was driving out. Tiffin—a marine veteran, grabbed a pistol and shot out a tire on Harrison's car. Harrison decided not to leave. Minton said Harrison was paroled a year ago after serving a year of a 15-year sentence for forgery and later passed a hot check for \$235, cancelling the parole.

# Humphrey Predicts Farm Plan Change

WASHINGTON, Nov. 23 — UP — Sen. Hubert H. Humphrey (D-Minn.) predicted Tuesday that Democratic leaders of the new Congress will push for legislation to stop "administration interference with the grass roots operation of the farm program." The proposed legislation would cancel year-old regulations which administration officials say have promoted "efficiency" and "democracy" in local farm program operations. The legislation probably will run into opposition from Secretary of Agriculture Ezra T. Benson's Republican backers in Congress. Humphrey told a reporter Democratic leaders have indicated they will give "some priority" to a bill he will introduce in January to cancel Agriculture Department regulations which: 1. Require the 3,000 farmer-elected county committees which manage the farm program locally to restrict their work to policy-making and hire a manager to do the actual administrative work. This regulation has reduced the amount of supplemental federal pay committees can earn by selecting to do all the work themselves, a practice common in Minnesota and other north central states. 2. Prohibit farmers serving on the 37,000 township, or community, committees from being elected to more than three successive terms. Benson's aides contend this rotation of office makes for greater democracy and brings "fresh blood" into the operation. Humphrey said it amounts "to Washington telling farmers who they can vote for."

# Christian Scientists Plan Service

Christian Scientists, not only in the United States, but in many parts of the world, hold special church services Thanksgiving Day each year. The service is devoted entirely to the theme of gratitude and thanksgiving to God. The specially-prepared lesson-sermon is entitled, "Thanksgiving," and is made up of selected passages from the Bible and from "Science and Health with Key to the Scriptures" by Mary Baker Eddy. The golden text of the lesson to be read at the 11 a. m. service this Thanksgiving is from Psalms (50: 14): "Offer unto God thanksgiving; and pay thy vows unto the most High." The following will be included among the passages to be read from the Christian Science textbook: "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more" (page 3). A portion of the service is set aside for audible expressions from the congregation of gratitude, including testimonies of healing, guidance and protection through prayer.

# Ministerial Alliance To Hold Service

A Thanksgiving service, sponsored by the Ministerial Alliance, will be held at 8 a. m. Thursday in the First Christian Church. "Christian Gratitude" is the title of the sermon to be presented by Rev. W. W. Adcock of the First Methodist Church. Also participating in the service will be Rev. Dick Crews of the First Christian Church, Rev. W. F. Vanderburg of Hobart Street Baptist Church, Rev. Ronald Hubbard of the First Presbyterian Church, Rev. C. H. Lowe of the Seventh Day Adventist Church, and Rev. E. Douglas Carver of the First Baptist Church. A free-will offering for the Christian Rural Overseas Program will be taken.

# City Discusses Unit Repairs

City officials were out in full force this morning for the weekly meeting of the Pampa City Commission. But there was nothing on the agenda except the reading and approval of the minutes from the last meeting and the "call on visitors," of which there was none. On hand were the mayor, four commissioners, city secretary, city attorney, director of public works and assistant city engineer. City Mgr. Fred Brook, however, did bring up one point — what to do about the city's ditching machine, (a 1928 model) which broke down Monday afternoon on Hazel St. It will probably cost \$500 to repair the ditcher which the city bought in 1949. A new one would cost probably \$20,000 and a two-year-old one, some \$14,000-\$15,000. City Director of Public Works James Cowan told the commission. No action was taken.

# Another Boat Uncovered In Pyramid

CAIRO, Nov. 23 — UP — A team of scientists and engineers Tuesday carefully opened a great limestone-sealed gallery of the Cheops Pyramid, exposing to view the bow of a cedarwood boat in which Egypt's ancient ruler hoped to journey to paradise. A musty odor spread upward from the boat pit which had been sealed 5,000 years ago, preserving Cheops' solar boat against time, weather and marauders. The long-closed gallery was opened with the removal of a huge limestone slab from the forward end of the sand-buried, rock-cut drydock in which the boat of the pharaoh lies. For the first time it became possible to see the full length of the gracefully fashioned craft, one of a type in which Egypt's ancient rulers believed their soul would be borne through the heavens to the kingdom of the gods. The bow of the craft was directly beneath the opening from which the first stone was removed. It was gently rounded in an upward curve and finely carved. At its extremity, the bow was ornamented with a carved lotus blossom—the floral emblem of ancient Egypt.

# DIPLOMAT

(Continued from Page One) Paris and Prague, with Vishinsky's body at 6 p. m. His widow and daughter Zinaida will accompany the body. Vishinsky's \$8,000 copper-lined casket was wheeled to his lying-in-state place on the second floor of the headquarters building, one floor beneath the living quarters where he was found dead of a heart attack Monday. Embalming Delayed Police red tape held up the embalming of Vishinsky's body for almost 10 hours. A Soviet physician, identified only as Dr. Kosov, said Vishinsky died at 9:30 a. m. of stenocardia, an excruciatingly painful heart ailment known more familiarly as angina pectoris. But New York embalmers refused to touch the body because Dr. Kosov was not licensed to practice in New York state. It was not until Dr. Milton Helpern, New York deputy medical examiner, signed the death certificate at 7:15 p. m. that permission was given to proceed with the embalming. Vishinsky's shroud was not the familiar blue serge suit which he wore while delivering vitriolic speeches against the United States. Instead his remains were clothed in a black suit, white shirt and dark tie. His horned-rim eyeglasses were placed among his personal effects. A crowd milled outside the headquarters building Monday night but a police detail kept it orderly. Photographers were permitted to enter the building, however, and found Georgi Zarubin, Soviet ambassador to the United States; Kurma Kiselev, Russian delegate to the United Nations, and two members of the Soviet delegation—Arkady Bobolev and Amvar Kuchkasov, standing at attention beside the casket.

# RC Workers Commended

Three Red Cross production service women were commended by the field director at William Beaumont General Hospital, El Paso, for three layettes made for the obstetrical ward, according to a letter received by Mrs. Harry Hoyler, chairman. The women cited for service were Mrs. Z. H. Mundy, Mrs. Claud Byrd and Mrs. A. C. Long. Five layettes were made by the production group including a dozen diapers, two shirts, three nightgowns, three receiving blankets and three jackets. In her letter to the Pampa chapter, Miss Margaret Allee, field director at the army hospital said, "You can assure your production group that their interest and work on such projects is sorely needed and greatly appreciated."

# Sen. Knowland Tightens Grip On Leadership

WASHINGTON, Nov. 23 — UP — Sen. William F. Knowland's latest collision with administration foreign policy appeared Tuesday to have strengthened rather than weakened his grip on the Senate Republican leadership. Knowland kicked up a storm last week by calling for a full-dress review of U. S. policies on the grounds that "peaceful co-existence" with Russia would lead eventually to a Communist victory. The statement, in a Senate speech, put him at odds with administration policy and there were suggestions in some circles that this might be inconsistent with his position as the Republican leader in the Senate. But Friends said Knowland has no intention of resigning and is willing to defend his position in the Senate GOP caucus if he is challenged. The possibility of any such challenge is considered remote, however. Any demand for a change in leadership would be less likely to come from pro-administration senators than from those administration critics who were once closely allied with the late Sen. Robert A. Taft. Knowland has strengthened his position with these GOP critics of the administration by his show of independence. There is a sizable body of Senate opinion which holds that the administration floor leader in the Senate is not a White House agent but the spokesman for the Senate in dealing with the White House.

# Cold Front Due In Area Tonight

By UNITED PRESS A new cold front aimed its punch at Texas Tuesday and forecasters said it will move into the Panhandle Tuesday night and over the rest of the state Wednesday. It will bring still lower temperatures to Texas, forecasters said. Although temperatures weren't expected to drop below 30 degrees in the Panhandle and South Plains, usually the coldest part of the state. Meteorologists said it would be a little warmer Tuesday before the new cold front moves in. The new front is moving so fast, they said it will bring clear over Texas Tuesday. # Bohlen Back From Russia

WASHINGTON, Nov. 23 — UP — Charles E. Bohlen, U. S. ambassador to Russia, returns here Tuesday from Moscow for a major review of U. S. strategy for dealing with a possibly long period of uneasy but peaceful coexistence with communism. Bohlen's first-hand report on new developments behind the Iron Curtain was expected to emphasize that the free world must place heavy new attention on an economic offensive to counter the lure of communism. He will meet during the next two weeks with President Eisenhower, Secretary of State John Foster Dulles, other top American officials, and some congressmen.

# FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEREETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEREETH at any drug counter.

# M'CARTHY

(Continued from Page One) admitted to the hospital last Wednesday causing the Senate to call an 11-day halt in its McCarthy censure debate. His first bedside report came amid these other developments: 1. NBC Monday night rejected McCarthy's request for 15 minutes of television time Thanksgiving Day to answer the censure charges against him. It gave no reasons. McCarthy had no comment either on the nature of his request or his reaction to the rejection. 2. A McCarthy supporter said that in a bid for votes the latest censure compromise formula has been changed to eliminate any praise of McCarthy. He also reported that McCarthy's name has been dropped since some of his supporters refused to go along with any compromise containing criticism of the Wisconsin Republican.

## Dixon-Yates

In order to cast some light on the confused Dixon-Yates power contract now before a committee of Congress, we are publishing, in three installments, a review of the case by Robert M. Bleiberg, writing in Barron's magazine.

In yesterday's installment, Mr. Bleiberg outlined the power situation in the Tennessee Valley, where additional Atomic Energy Commission demand required either costly steam plant additions by the Tennessee Valley Authority or by private industry.

The administration chose to make a contract with private industry and ran head-on into the advocates of public power.

Mr. Bleiberg continues:

After a two-week filibuster in July, the Administration position was finally upheld. Congress approved an amendment to the Atomic Energy Act, specifically authorizing the AEC to enter into contracts such as Dixon-Yates. Gordon Clapp's post on TVA was filled by Brig. Gen. Herbert D. Vogel, a middle-of-the-roader who appears to subscribe to the Administration's conservative power philosophy.

But the public power bloc wasn't ready to quit. One of its fiercest partisans, Senator Langer (R-N.D.), without Senate approval began holding hearings on Dixon-Yates before a Senate Monopoly sub-committee which he heads. These hearings provided a perfect forum for anyone who ever had a grievance against Middle South or Southern Co. The wild charges made by such witnesses have been repudiated by various regulatory bodies, including the SEC and FCC, which sent a special task force of investigators to audit the books. However, the din they raised helped to frighten the Republican high command into tabling the issue until after the election.

Actually, it is not too hard to break the issue down into comprehensible terms. Through all the smoke of controversy two questions emerge — the first relating to what the companies are going to get out of the deal, and the second relating to what the Government is going to get. As to the companies, the record badly needs to be set straight in a number of particulars. For one thing, the proposed capitalization of Mississippi Valley Generating Corp. — \$5.5 million in stock and \$102 million in debt securities — has been widely criticized for the thinness of the equity. But the fact is that it is by no means out of line for an investment of this kind. For example, Electric Energy, Inc., the private utility group which is supplying power to AEC at Paducah (and which, incidentally, is 10 per cent owned by Middle South) has a capitalization consisting of some \$195 million in bonds and only \$6.2 million in common stock. Ohio Valley Electric Corp., the other big AEC utility project, will when complete boast an equity of only \$20 million and a total indebtedness that may reach as high as \$360 million.

Similarly, the profits which the Middle South-Southern Co. combine can expect to earn are scarcely as lish as they have been painted. Mississippi Valley Generating Corp. will receive revenues of little more than \$20 million per year from its contract with AEC. On this sum, if its estimates of construction and operating costs are accurate, it will earn \$495,000 annually after taxes. These figures aren't small potatoes, but they should be kept in perspective. Middle South, in a recent 12-month period, reported total operating revenues of \$139 million and net income of \$16 million. In the same period, Southern Co. took in \$190 million in revenues and earned \$23.3 million after taxes.

In terms of dollars and cents, then, the Dixon-Yates project doesn't add up to any great windfall for its sponsors. This is equally true of the rate of return. The two companies are shooting for a net profit of 9 per cent on their equity capital, a figure which has been contrasted unfavorably with the 6 per cent return permitted most regulated private utilities. This comparison happens to be the sheerest nonsense. For utilities earn 6 per cent on their total investment, including those facilities which have been financed with low-rate instruments such as bonds and preferred stock. On the equity alone they frequently earn more than 10 per cent (in 1953 all U. S. private utilities netted 9.9 per cent). On its total investment Mississippi Valley Generating Corp. expects to earn not 9 per cent, or even 6 per cent, but an estimated 3.75 per cent.

Moreover, despite what has been said, this profit is not guaranteed. The fact is that the Dixon-Yates proposal contains no small element of risk. It arises principally out of the provision in the contract concerning construction costs. If the cost of building the plant at West Memphis should exceed the estimated cost of \$107 1/2 million, Dixon-Yates would have to bear both the additional expense, up to \$117 million, at which point it would assume the entire burden. The carrying charges on the extra capital that would be required if the project cost exceeded its estimates would quickly begin eating into earnings. At \$117 million the return would shrink to less than 4 per cent. At \$120 million and above it would completely disappear.

These risk provisions aren't just window dressing. Other big utility construction jobs in the past have wound up well beyond their original estimates. For example, the installations built for Electric Energy, Inc. at Joopa, Ill., which were designed to cost around \$140 million, are now expected to cost \$193 million.

## BETTER JOBS

By R. C. HOILES

United Nations Magazine

I take the magazine called "United Nations Review," which is published by the United Nations Department of Public Information. I take it simply to find out what means the United Nations proposes to use to bring about its proclaimed objective. Its claimed objective, of course, is peace. Its methods, however, will never promote peace. Its method of promoting peace is to establish more state socialism on a world-wide basis.

The writers of this magazine are perturbed about the difference of standards of living in the different nations. They think it is the government's business to take care of people. One of the ways they believe that the government should take care of people is to furnish them houses for less than cost. They print a lot of pictures of slums and poverty and then give a lot of pictures of beautiful buildings financed by governments. They don't explain of course that these buildings that are built to be sold or leased for less than cost make it more difficult for the rest of the people to get desirable housing. They seem to think that state socialism that is based on no moral principle is good. They seem to believe that taxation that takes from one to give to another, which is an evil, will result in good.

On page 25 of the November issue of "United Nations Review" under the heading of "Attacking the Housing Problem" the editors have a sub-heading that says: "In their efforts to solve this serious problem, many countries use the resources of the United Nations and its specialized agencies."

In the first paragraph of this article this statement is made: "Increasing industrialization has made for a perpetuation and an aggravation of squalid conditions in city slums."

That is an old, socialistic argument. Industrialization that adds to the wealth of the world does not increase slums as this article contends; it reduces slums. Slums cannot be reduced without more capital, and if we did not have industry and we were dependent on agriculture without good tools, we would have more slums instead of less.

**Gain Of One Gain Of All**  
The members of the Secretariat group of the UN that issue this magazine do not seem to realize the truism that in production the gain of one is the gain of all. They seem to think that the gain in production is like it is in taxation, or gifts, or gambling—where when one man gains the other man loses.

**"By-Passing" Criticized**  
The United Nations seems to want a monopoly. It objects to any nation settling its differences with another nation without going through the UN. Mr. Popovic of Yugoslavia said he joined with those who criticized the tendency to solve some of the most important international problems outside the UN. He contended:

"Co-existence, to be lasting, MUST be transformed into active international cooperation."  
Note the word "must." People are not free, according to Mr. Popovic, to make agreements that are voluntarily satisfactory to both sides without the consent of the bureaucrats at the head of the UN.

Guerin de Beaumont, of France, contended that the practice of making agreements outside of the UN was a short-sighted view.

In the United Nations' effort to solve the housing problems it advocates that cooperatives get loans from governments at a low rate than they could get from private investors. The advocates of this scheme do not explain where the governments, which are all paupers, can get this money unless they print it, or borrow it from people who have created wealth, or get it by taxation.

In an article entitled "Responsibility of Individuals for Success of United Nations" statements are quoted from the Assembly's President and the Secretary-General on Charter's Anniversary. Secretary-General Dag Hammarskjöld called for "a deeper awareness of the realities" which bind one's nation to all the other nations of the world.

Yes, we need to know more about reality, but we need to know about a different kind of reality from what the United Nations is talking about. The United Nations is based on aggression against the private individual and not voluntary agreements.

Dr. Van Kleeffens, President of the General Assembly, on the ninth anniversary of the United Nations said:

"It is fitting and necessary that we renew our pledge to uphold its purposes and principles."  
The professed purpose of the UN is peace, but I do not know what principles UN proposes to use. Principles are eternal and do not change, but majorities might change with time and place.

"The people of the world continue to cherish the hope that a just application of the Charter will bring about great improvement in both respects."

When the President of the Assembly says "both respects he is referring to a new pledge to uphold the purpose of the UN and the other is to reduce the economic gap between the highly developed countries and the less developed countries. They, of course, propose to do this by taxation. They are constantly complaining about their lack of finances to do what they want to do by way of the governments.

### Builders Think Capehart Wants To Be President

By RAY TUCKER

WASHINGTON, Nov. 23 — The construction of houses and apartments for rent — the nation's greatest need in a growing population's hunt for homes — has fallen off tremendously as a direct result of the Capehart investigation of the building industry, according to official statistics.

Builders flatly refuse to subject themselves to the Indiana Senator's "smears," especially as they entered this field with considerable reluctance in the first instance. They charge that the Senate investigator is motivated solely by personal politics, and their indignation is borne out by Hoosier State politicians.

Strange as it may seem, they suspect that Capehart is "White House mad," believing that he has an outside chance to become the Republican Presidential nominee in 1956 as the offering of anti-Eisenhower Conservatives in the Middle West. In their opinion, he wants to be the "Joe McCarthy of the home-building field." He is an enthusiastic supporter of the Wisconsin Senator.

Capehart admittedly needs a headline issue in his political business. He has many enemies in his politics-ridden state.

Governor George N. Craig has seized control of the machine, and the former national commander of the American Legion is believed to aspire to Capehart's seat. His colleague, Senator William E. Jenner, is making a solid reputation as Chairman of the Senate Security Committee.

Capehart's one-man show has several significant aspects. He has received almost no support from Senate or Party GOP-ers. Indeed, GOP headquarters holds him responsible for the fact that normally Republican builders did not kick through with their usually generous contributions in the recent campaign. In fact, many of them sat on the fence or helped the round up Democratic votes.

Whatever Capehart's motives may be, he has singlehandedly stopped the building of homes and apartments for rental purposes.

Undersecretary of Commerce Walter Williams said recently that Americans' net personal income during this summer was "at a rate of 253 billion dollars a year, the highest ever achieved."

He said he expected the U. S. output of goods and services to go on growing 3 percent each year. So far, so good. But the very next day the Census Bureau reported that National, State, and local governments spent nearly 111 billion dollars in 1953. AN INCREASE OF 9 PERCENT OVER THE PREVIOUS YEAR.

As you can see, 111 billion dollars is nearly half of 253 billion dollars. If government spending continues to increase at the rate of 9 percent annually while private income grows only 3 percent each year, how long will it be before government will be spending two-thirds of the fourths — and then all — of our income?

## The Doctor Says

By EDWIN J. JORDAN, M. D.

"I have had to take laxatives every night for years," a correspondent writes, "and I am desperately uncomfortable a good deal of the time in spite of this. What do you think can be done?"

Certainly one of the prime causes of constipation is the abuse of laxatives. A great many people have the idea that if they clean themselves out once a week with a good strong purge it will be good for them. If they do, however, the normal rhythm of bowel evacuation is disturbed and usually re-established for several days. And the regular or inadvised use of laxatives tends to set up a bad habit of the bowel so that laxatives have to be relied on more and more.

**IMPROPER TRAINING** and neglect, especially in childhood, have a great deal to do with the condition in most cases. Much trouble comes from failure to set aside a regular time of day for a bowel movement. Also many people get into trouble because they do not yield at once to nature's call which may occur any time of day.

True constipation means that fecal matter is retained in the intestinal tract longer than it should be so that there is excessive delay in discharge of intestinal waste. A great deal of expert study has been given to constipation and the causes are well known.

**DIET**, of course, has a great deal to do with constipation. Too many people gulp their food down without allowing enough time for their meals, just as if they were the tank of a car. Furthermore, many of the foods which we eat are so highly refined that they do not contain the bulk necessary to assist in proper movement of the bowels.

In some parts of the world and at some times of the year there are not enough fresh fruits and vegetables in the diet. These foods not only supply a large part of the needed bulk but also aid in peristalsis of the wave-like movements of the intestine which carries the waste down through the intestinal tract.

### God Was On Our Side, Kept Wallace Out Of White House

By WESTBROOK PEGLER

Some people think I belabor a dead plug when I pile proof upon proof of the perfidy of the Roosevelt regime. To be sure, Our Leader is gone and we have the privilege of paying taxes to maintain a political mosque where pilgrims venerate their deity, and luckless victims of diplomatic pressure, such as the Queen Mother, have to bite their tongues to restrain themselves. But the relic is still barnstorming up and down the country and out-drawing any other attraction you could name except Joe McCarthy, who can hang them from the rafters wherever he goes.

Her menace is by no means extinguished or even seriously abated, however ardently one might wish things otherwise. Moreover, new information is constantly coming to light which should frighten us not only with a horrible realization of dangers we escaped by God's generous indulgence but with a realization of the idiotic folly that people can achieve in the exercise of the franchise.

We elect slavery Wallace vice president in 1940 when we certainly were on warning and I am going to inform you today of something else about this out of staid four years within a heartbeat of the highest secular office on earth and in time of war at that. I wish it were possible to exaggerate the madness of that demonstration of the incapacity of our people to express their will in presidential elections, but the ghastly fact is that we couldn't have done worse, the fact that we didn't get this dribbling object for president, and he obsessed with an infatuation for Russia, is no credit to our judgment but evidence that God was on our side.

Recently the New York Times printed an excellent series on articles by Harrison E. Salisbury, its Moscow correspondent who has finally returned after five years. The Soviet government, for some inscrutable reason, decided to let this journalist travel widely and if the Russians thought they were investing in a man who would give them a good report they certainly were disappointed.

Mr. Salisbury explored a vast area in which whole races such as the Cosacks and "elements" such as the Russian Germans and the Ukrainians were shifted from their ancient territories into terrible frontiers as pioneer slaves, and was permitted to take photographs which augment his graphic text.

Hark: "The last two Americans to see Yakutsk before this correspondent were Wendell L. Willkie and Henry A. Wallace. Both were favorably impressed. Ten years later, in which time it may be judged that such changes as occurred were for the better, this correspondent got a decidedly unfavorable impression. Wallace's trip to Siberia in 1944 was one of the most unusual

down in it to make it a bit more comfortable, the horsehair came right out of the cover and poked you. But it kept you alert. You never dozed in a seat like that. I decided to write about the automobile seat while Mary and I were looking at the 1955 model. We were in complete agreement on a certain car as to color, style, horsepower, spark plugs, trade-in value, monthly payments, wheelbase, and the pressure, but we had a fight about the seats.

She wanted the car with a seat that said "Excuse me, please," when it went over a bump. I held out for the car that had an ejection seat like an airplane. Say a cop stops you for speeding. He leans against the side of the car and starts writing a ticket. You press a button, and off you go in the ejection seat to another country where his ticket is no good. We decided to wait until the 1956 model seats come out. We figured that next year you will be able to buy a seat without a car wrapped around it — just a cushion with a mess of buttons and a strip of chrome to dress it up. It should get about 30 miles to a gallon at normal speed.

#### Yank In Florida Contributes A New Pumpkin Pie Recipe

By GAYNOR MADDOX  
NEA Food and Markets Editor  
When a Yankee cook is transplanted to the Florida citrus belt, flavorful things can happen.

Mrs. L. G. MacDowell of Lake Wales, Florida, is a transplanted Yankee. Nevertheless she still wants lots of pumpkin pie for Thanksgiving. So to her northern pumpkin pie recipe she adds Florida orange juice and rind. The result is delicious.

Florida Orange Pumpkin Pie (Yield: 1 9-inch pie)  
One and three-quarters cups canned pumpkin, 1/2 cup brown sugar, 1/2 cup granulated sugar, 1/2

grated orange rind, 1/4 cup orange juice, 1/2 cup evaporated milk, 2 eggs, slightly beaten, 1 9-inch un-baked pastry shell.  
Combine pumpkin, sugars, salt, spices, unsulphured molasses, orange rind, orange juice and evaporated milk. Stir eggs; turn into pastry shell. Bake in a hot oven (425 degrees F.) 15 minutes; reduce heat to moderate (350 degrees F.) and bake 35 minutes longer, or until top of knife inserted in center comes out clean.

If you prefer a light dessert to end the Thanksgiving feast, Mrs. MacDowell has a refreshing an-grar. 1/2 cup granulated sugar, 1/2

teaspoon salt, 1/2 teaspoons cinnamon, 1/2 teaspoon un-sulphured molasses, 1 tablespoon

Florida Grapefruit Jubilee (Yield: 6 servings)  
One can (16 ounces) Bing cherries, pitted, 1/4 cup sugar, 1/2 teaspoon cinnamon, 2 teaspoons rum flavoring, 3 grapefruit.

Drain cherries. Measure liquid; add enough water to make 1 cup. Combine with sugar and cinnamon in saucepan. Cook over low heat, stirring until sugar is dissolved. Simmer 5 minutes. Remove from heat; stir in cherries and rum flavoring; chill.

To prepare grapefruit halves, cut fruit in half; remove core. Cut around each section, loosening fruit from membrane. Do not cut around entire outer edge of fruit. When ready to serve, fill centers with chilled cherry mixture.

Miami Club Meets  
MIAMI — (Special) — The 40th club met in the home of Mrs. Ford Cowan, with Mrs. Roy McHone presiding in the absence of Mrs. Ray Carlisle. Mrs. Frank Heare was leader and presented Mrs. J. Clyde Loper, who gave a program on mental health. Mrs. Frederick Gordon conducted a game, with Mrs. Loper and Mrs. Ed Talley receiving prizes.

Refreshments were served. Two guests were Mrs. Stewart Gordon and Mrs. Loper. Members present were Mrs. Melvin McCulliston, Troy Hopkins, Bob Duniven, Lloyd Wilkens, Ed Talley, Frederick Gordon, Muri Tennant, Frank Heare, Cecil Gill, Rene R. Ratliff, Cecil Smyth, Robert Howard, Roy McHone, L. D. Gill, and Ford Cowan.

And as we recognize and give thanks for what each of our children is — forgetting for a while what he is NOT — let's make an effort to let the child know of some of the ways in which what he IS gives us reason to be proud.

Of necessity we parents are forever after our children to do better. And because we are sometimes forgetful how much they have learned and accomplished and become in their young lives. This Thanksgiving let's not just be thankful for our children — but for what they ARE.

### June Talk

By JANE KADINGO  
Pampa News Women's Editor

I HEARD THE OTHER DAY that the big news is that men's ties will be in pastel shades, to go with the trend in shirts. So you men had better fortify yourselves for the inevitable, since most men are deluged with ties at Christmas. I, personally, do not especially like the ultra-conservative ties, but let's hope the pastel trend doesn't become too drastic... just so they're not too bright. I'm more in favor of the subdued pastels. It takes a certain type to be able to wear the blenders and pinks.

IN KEEPING with the Thanksgiving theme, here's an article on what to give thanks for in fashion. "Harvest Leathers" are something to give thanks for when you go shopping for new shoes, handbags, belts and other accessories. "Harvest Leathers" designates the new colors and textures of leathers, not just variations on a familiar theme — but really new. Here is a brief run-down on what you can expect to find:

Reids, from the suburban to the deep-mulberry or winey shades; Blues, the brilliant cornflower blue (a completely new note in fall colorings) to the dark flight or aubergine blue; Browns, mainly in the taupe color, greyed but still young; Green, in the exciting yellow-toned avocado and palmiste shades; Greys, in the deep dark graphite tones, as well as the pewter shades.

Leather shoe textures for all occasions: The smooth leathers in high-polished calf and kid, the luster leathers — also in calf and kid, reptiles in alligator, lizard or snakeskin, iridescent kid leathers, metallic snakeskins, velvety suedes, crushed calf and side leathers, and shiny patent leathers.

The closed look in shoes is once again the most popular silhouette — after several seasons spent in the shade of the "nude look." The opera pump for fall and winter is cut high around the entire foot giving the long slender silhouette.

There is a shoe for every climate and every activity — each shoe "chrome-plated" to each occasion — the smooth leathers with the nubby textures, the textured leathers with the smooth flowing jerseys, satins and velvets. Each shoe is heeled to suit the hour.

Flats have emerged into the high-fashion picture. Especially those done in the textured leathers such as snakeskin, lizard and alligator. They are built on wedges or just flat leather heels, and although they have no stiffness and are as softly constructed as a leather glove they support you like a fond parent. Shoe designers have gone all-out to dress up your flat heels and to create intriguing

new slants on pumps with a little "reach heel." Evening and formal shoes present a bold, beautiful and bewitching front in a modern backless setting. Most of the mule type sandals come in glittering iridescent kidskins, luster calfskins or metallic snakeskins. They are made with magic leather inner soles that never show but hold the shoe gently and comfortably on the foot. The same textures and brilliant leather colors are seen in stripping sandals that outline and slenderize the foot line.

AROUND THE WORLD

**TAKES TWO TO TACKLE**—Rutgers' Steve Johnson, in white helmet, made a six-yard gain before he was tackled by Princeton back Sidney Pinch, in foreground, and Dick Frye on an end run in the second quarter of their game at Princeton. Running up in the background are Princeton's Wendell In-hoffer (61) and Ben Spinelli. Princeton won, 10-8.

**SWEET DREAM**—A gleam, that could only come from the prospect of satisfying youth's ever-desirous appetite, enters the eyes of this lad in Berlin as he surveys a replica of the famed Avus auto racing track. The track, cars and decorations are made of marzipan; a delicious confection which probably accounts for the wishful thinking on the part of the boy.

**GENTLE GLITTER**—Tiny dots of gold give a touch of glitter to the cloth used in making these cocktail shoes and matching hat in London. The smart accessories are on display at a Bond Street shoe show and are being greatly admired.

**EATING HER REWARD**—Flo, the Nation's Dog Research Heroine for 1954, is daintily nibbling on a special steak being served to her in Philadelphia by Dr. Russell E. Teague, State Secretary of Health, as waiter Melvin Williams assists. The 10-year-old, white-haired lady dog of dubious ancestry has lived in a medical research laboratory for nine years and has contributed to more than 15 research projects.

**A MODERN MIRACLE**—A faithful woman kneels in the cathedral at Naples, Italy, to kiss a golden case containing the miraculously liquefied blood of St. Januarius, who was beheaded 1649 years ago, under Emperor Diocletianus. Twice a year, Neapolitans gather in the cathedral and call upon their patron saint with fervent yells to liquefy the sanctified blood. In this case, the miraculous happened.

**FROM THE PAST**—Part-time oil prospector Matthew Ramage at 90 has an almost priceless collection of rare violins in Washington, D. C. He is shown playing one he claims was played by Abraham Lincoln and other distinguished residents of the White House. Ramage and his wife, Grace, 83, have more than 50 violins, each of which is appraised for \$10,000 at least. Ramage takes time off every month to go prospecting in nearby Charles County, Md., where he has drilling operations.

**THREE OF A KIND**—Joni James, left, young songstress who recently rose to fame, visited the Hollywood movie set where Jane Powell and Vic Damone are starring in "Hit the Deck." The musical threesome indulged in an impromptu song fest and Joni was escorted throughout the studio. She'll probably be facing the Hollywood cameras one day soon.

**NOT VERY DANGEROUS**—Italian actress Luisa Rivelli isn't afraid of that movie monster at a film studio in Rome. Both Rivelli and the papier-mache beast are working in the film version of a science-fiction type picture, so they got well acquainted for this chummy pose.

**LADY AT WORK**—Glamorous singing star Libby Holman is shown rehearsing in her Manhattan apartment for the series of concerts she's giving in New York. Her throaty renditions of blues and ballads are something to hear and she's just finished a long concert tour of the U.S. and Europe.

**PEEK-A-BOO**—Well, it's not exactly that because Irving Cookson of Wayland, Mass., is actually trying to coax some ducks out of his dog house as flood water rose in the neighborhood. The ducks were playing it safe, however; they refused to leave this shelter because muskrats were swarming the area.

**FOR SNOW TIME**—With the advent of milder winters, a new type of snowsuit makes its appearance for tots. Made of nylon on the outside, it's insulated with 100% virgin dacron. The suit will be introduced for the first time this season and the new insulation, although unbelievably light, provides a tremendous amount of warmth.

**BENT FOR SPEED**—Dramatically swept-back wings give a speedy appearance to this experimental British jet plane. Called the Short SB5, the plane was on exhibit at an air show in Farnborough, England, and attracted much attention.

By BUCK FRANCIS  
Pampa News Sports Editor

**IN ALL PROBABILITY**, there will be some revisions made around the country in selecting teams for New Year's Day football games when current contracts expire.

Every since the major bowls have been tying up with various conferences, the bowl situation has been a mess.

No longer do unbeaten teams meet in the bowl games which used to be a "must." Now, teams who have been beaten four or five times are landing bowl berths.

The latter, however, has been brought about by various restrictions set up by the "bowl" conferences, and not by choice of the bowl officials themselves.

Three conferences who have bowl tieups have passed rules that bans any team going to the bowl game two years in a row. Until these restrictions are lifted or until the bowl tieups are done away with entirely, the bowl situation will be in a mess.

And the three conferences we're referring to, the Pacific, Big 10 and Big 7 and bans any team going to a bowl game other than the one the conference is tied up with.

In other words, if one team wins a title two years in a row in these conferences, then they have to sit out the second year because of the above restriction.

This restriction has hit two teams this year, UCLA of the Pacific Coast Conference; and Oklahoma of the Big 7.

UCLA and Oklahoma are unbeaten this season. The UCLA's would have won a berth in the Rose Bowl and Oklahoma in the Orange except for the conference rulings.

As result, Southern California, who was beaten badly by UCLA last week, will get the PCC's berth in the Rose. And Nebraska, who lost by a much wider margin, 35-7, to Oklahoma, will represent the Big 7 loop in the Orange, USC and Nebraska finished second in their respective races.

## Ho-Hum! Phillips Grabs 1-AA Flag

It was the same old story in the District 1-AA circles this season — the Phillips Blackhawks are the champions.

Coach Chesty Walker's Blackhawks have won the title every year since District 1-AA's organization four years ago.

Although the "Hawks have come up with some outstanding teams in the past, this year's outfit has been acclaimed as possibly the best. The Blackhawks advanced to the quarter-finals of the state play-off last year before losing to Ballinger, the state runnerup.

Phillips will journey to Floydada Friday to meet the Floydada Wildcats in a bi-district game. Floydada is the District 2-AA champion.

The only other Canyon suffered came at the hands of Phillips, 58-0.

Phillips rolled up 462 points this season for an average of 46.2 points per game.

One of Phillips' prize wins this season came in a non-conference game. The "Hawks defeated Levelland, a Triple-A club, 32-26. Lev-

and USC lost a non-conference game to TCU, the No. 6 team in the Southwestern Conference. Nebraska has been beaten four times this season.

The Cotton Bowl has the best bowl set-up among the major bowls. The Southwest Conference champion each year automatically nails down one berth. The SWC does not ban a team going to the Cotton Bowl on successive years.

Then the other half of the Cotton Bowl is open to any team that is available.

Then, too, the SWC allows any other member of the conference to go to another bowl if they warrant an invite.

It's very possible the SWC will be represented in three bowls this season, Arkansas in the Cotton; Baylor in the Sugar; and SMU in the Gator.

Arkansas, of course, is already assured of the Cotton Bowl. Baylor will stand a good chance of going to the Sugar by beating Rice Saturday and SMU, if she beats TCU Saturday, would likely get an invite to the Gator Bowl.

**THE OLYMPIC FUND RAISING** committee could do well if she could persuade UCLA and Oklahoma to meet one another in a post-season game next month, say at Soldier's Field in Chicago.

Soldier's Field seats 120,000 or so and there's no doubt the game would be a complete sellout!

**BY ACCIDENT** — Janie Agri-janian points to his size seven right foot with the kicking toe. Losing four toes in an elevator mishap 13 years ago made Agri-janian, now 35 and with the professional New York Giants, a kicking specialist racking up points with field goals and conversions. The left shoe is size 10. (NEA)

# Harvesters Climb To 26th UCLA Again Tops In Williamson Grid Poll

## McLean 9th, Lefors 17th In Class A

The Fighting Pampa Harvesters jumped to 26th place in the Williamson System football poll according to this week's release.

It was the first time this season that the Green and Gold clad Pampans had been rated above 30th by Williamson.

Lubbock, the team that edged out the Harvesters in a hard fought game Saturday, 14-7, is rated one notch above the PHSians in 26th place.

Tickets to the Harvester-Borger game Thursday are available at the school business office in the City Hall.

Roy McMillen, school business manager, reports that his office will be open Thursday morning from 9-11 for fans wishing to purchase tickets to the game.

Thursday's game with Borger will wind up the 1954 season for the Fighting Harvesters.

The game will be the feature attraction of the 1st annual Pampa High School Homecoming.

**SOPHOMORE FLASH** — Dickie Mauldin, above, has been doing a creditable job for the Fighting Harvesters this season despite his lack of experience. Mauldin, who played junior high ball last year, has earned a regular halfback position for the Green and Golders. He is shown in a new role — punting — which he took over from the injured Buddy Sharp in last week's game with Lubbock. (News Photo)

## Abilene 2nd In Dallas Poll

DALLAS, Nov. 23-UP—Three newcomers forced their way into the Dallas News' top 10 Class AAAA schoolboy football rankings Tuesday, but Galveston, Abilene and Waco held onto their top three spots in that order.

Houston S. F. Austin, which ousted defending state champion Lamar in District 7, boomed into seventh place; South Oak Cliff, which stands to get the District 4 playoff spot if it can beat Adamson this week, made it into ninth place, and Fort Worth Poly, which has clinched the District 3 berth, got 10th place.

Galveston's edge over its two closest rivals dwindled to nearly nothing as the Tora wound up with 112 points to 109 for Abilene and 103 for Waco.

Pasadena, which finished second to Galveston in District 8, was ranked fourth, with Corpus Christi Ray and its cross-town rival, Miller, getting fifth and sixth spots. They meet this week for the District 6 berth.

Midland, runnerup to Abilene in District 1, was eighth.

Port Arthur, Lamar and Baytown dropped out of the top 10 to make room for the newcomers.

game Saturday, 14-7, is rated one notch above the PHSians in 26th place.

Galveston, Pasadena and Abilene are rated 1-2-3 in the Class 4A rankings.

Other leaders are Lufkin in 2A; Phillips in 2A- and Paducah in 1A.

McLean, champion of District 1-A, is ranked ninth while Lefors, the 1-A runnerup, ranks 17th.

## NM Mittmen Here Saturday

The Pampa Optimist Boys Club will be host to the boxing team from Tucumcari, N. M., Saturday night at the Top of Texas Sportsman's Arena.

Fight time is set at 7:45 with an even dozen fights on the card. The Pampa boxing team traveled to Tucumcari last year and this is a return match since Tucumcari couldn't return the matches last year.

It is expected that most of the bouts will be very close and should provide a good two-hour entertainment. Admission prices are 50 cents for school age and 75 cents for adults.

The arena is located on the Lemora highway across from the Pampa Drive-in Theater. The same arena in which the wrestling is held.

## Tigers Carry 1-A Colors In Playoffs

Seven of the eight schools comprising District 1-A have hung up their football regalia following last week's season finals.

Only McLean, the newly-crowned champion, will continue its grid-iron wars this week, Coach Hap Roger's McLean Tiger eleven will take on Dimmitt at Canyon Thursday afternoon in a bi-district game.

Dimmitt is the District 2-A champion.

Thursday's game will start at 2:30.

McLean was tied by Memphis, the defending champion, in last week's regular season finals but the Tigers were awarded the victory on first downs, 12-10, after 20-yard penetrations were even at four each.

This gave McLean a perfect season, 10-0, rolling up 419 points in the process for a 41.9 points per game.

Second place in the final 1-A standings was won by the Lefors Pirates. Lefors lost only one game all year, a 27-6 decision to the champion McLean eleven.

Lefors owned the best defensive record for both full season and district play. The Pirates allowed only 89 points over the entire season on 10 games, less than a touchdown per game. In district play, Lefors allowed 52 points, with McLean accounting for better 51.9 than half of this amount.

Last week's season finals saw Canadian taking over sole possession of third place by defeating Gruver, 21-7.

Three teams wound up in a tie for fourth place, White Deer, Clarendon and Memphis. Panhandle and Gruver shared the cellar spot.

White Deer pulled up to a tie for fourth last week by downing Panhandle, 32-19.

Lefors, although she had already clinched the runner-up spot, finished the season Friday with a 27-6 win over Clarendon.

Following is the District 1-A scoreboard:

**QB Meeting At 7:15 Tonight**  
The next to last meeting of the Pampa Quarterback Club will be held tonight at the Sam Houston Auditorium.

## UCLA Again Tops UP Football Poll

By UNITED PRESS  
NEW YORK, Nov. 23-UP—UCLA, having completed the first perfect record season in its football history, topped the United Press ratings Tuesday for the fifth straight week, and now awaits next weekend's wrap-up games for approval as 1954 national champion.

After finishing their season with a resounding 34 to 0 victory over Southern California to clinch the Pacific Coast Conference title for the second year in a row, the Bruins were chosen No. 1 by 22 coaches on the 35-man United Press rating board.

That gave Coach Henry (Red) Sanders' men a 25-point margin over Ohio State and 43 over Oklahoma, both of which have been dogging UCLA in the ratings for the past four weeks. Ohio State, which wound up an unbeaten and untied season and won a bid to the Rose Bowl, was the first-place choice of eight coaches, while Oklahoma, with a 9-0 record and one game left to play, was the top pick of four.

Notre Dame, which retained fourth place, attracted the only other first-place vote in this week's ratings.

Final Ratings: Next Week

The coaches will vote on the final 1954 ratings after next Saturday's games, which involve seven teams among this week's top 10.

UCLA swept through its nine-game 1954 schedule with a scoring average of nearly 41 points per game. Despite its impressive record, however, the Bruins are ineligible for the Rose Bowl because they played last year. The Rose Bowl berth went to Southern California, which dropped from sixth to 15th in the ratings after being trimmed by UCLA.

Army, which meets Navy in the annual classic at Philadelphia Saturday, ranked fifth once again, keeping the order of the top five teams exactly the same as last week. Navy and Mississippi each moved up one notch to sixth and seventh, respectively, followed in order by Wisconsin, Arkansas and Miami (Fla.).

Wisconsin and Miami were the week's newcomers among the top 10, both returning after an absence of a few weeks. Both advanced five places from the previous week, Arkansas moved up one place, even though it was upset 7 to 6 by Louisiana State last Saturday.

SMU Drops Down  
Southern Methodist, like Southern California, dropped out of the top 10.

With points distributed on a 17, 9, 8, 7, 6, 5, 4, 3, 2, 1 scale for votes from first to 10th place, here is how the top 10 lined up: UCLA 332, Ohio State 304, Oklahoma 289, Notre Dame 236, Army 136, Navy 126, Mississippi 109, Wisconsin 82, Arkansas 45 and Miami 40.

Baylor headed the second 10 teams, followed in order by Michigan, Southern California, Maryland, Penn State, Duke and Southern Methodist. Rice and West Virginia were tied for 18th, and Georgia Tech and Wichita were tied for 20th.

Denver, LSU, Auburn, Texas Tech and Virginia Tech were other teams that received points in this week's voting.

NEW YORK, Nov. 23-UP—The United Press college football ratings (with first-place votes and other first-place vote in parentheses):

Team Pts.

1. UCLA (23) (9-0) 332

2. Ohio State (4) (9-0) 304

3. Oklahoma (4) (9-0) 289

4. Notre Dame (1) (7-1) 236

5. Army (7-1) 136

6. Navy (6-2) 126

7. Mississippi (9-1) 109

8. Wisconsin (7-2) 82

9. Arkansas (7-2) 45

10. Miami (Fla.) (7-1) 40

Second Ten: Baylor 33, Michigan 29, Southern California 29, Maryland 18, Penn State 15, Duke 14, Southern Methodist 12, Rice and West Virginia 9 each, Georgia Tech and Wichita 6 each.

Others: Denver 5, Louisiana State 4, Auburn 2, Texas Tech and Virginia Tech 1 each.

Allison Joins West Squad  
SAN FRANCISCO, Nov. 23-UP—Carl Allison, Oklahoma end, Tuesday was added to the West squad for the annual Shrine East-West football game on New Year's Day.

## SWC Elevens Prep For 'Big' Games As Season Nears End

By UNITED PRESS  
Southwest Conference football teams, all but one of which wind up its regular season this week, were in the midst of practice Tuesday for the season's "big" game.

For Texas and Texas A&M, which will get the week's activity underway at Austin Thanksgiving Day with their traditional battle, workouts were at the tapering off stage, but on the other campuses Tuesday and Wednesday will be the week's hardest drills.

The Texas Longhorns, out of the title fight for the first time in three years and facing their poorest season since 1933, worked on their offense Monday.

Coach Ed Price sent his charges through a long dummy scrimmage, touching running, passing, blocking and other offensive assignments to tune the Texas squad for the Aggies.

At College Station, A&M Coach Paul Bryant also called for a dummy scrimmage, after observing the Texas game "will be battling the 16th toughest one of the season for us."

Tackle George Johnson twisted an ankle in the workout, but it was believed he would be able to play Thursday.

Heavy work was on the schedule for Southern Methodist Tuesday, as to visit Waco this year, where Baylor prepare the Mustangs for their most bitter foe, Texas Christian.

SMU hasn't beaten the Horned Frogs since 1948, although the Horned Frogs ended in ties. A Cowboy and fullback Jerry Hall victory over TCU would give the "Horns" some consolation for being George Sauer said the Bears came

knocked out of the Cotton Bowl by Baylor last Saturday, 23 to 21, and also put them in a winning frame of mind for the Notre Dame game Dec. 4, the last game of the year for any conference eleven.

Two Injured Players  
Woodard reported two more injured players, but it was hoped Ed Leighton Stewart would be able to play against TCU. Center Bill Livingston was believed definitely out. Co-Captain Raymond Berry, a regular end who missed the Arkansas and Baylor games because of an ankle injury, probably will play.

Texas Christian had the usual practice Monday drill after hearing Scout Fred Taylor's report and watching the movies of the Frogs 6 to 9 loss to Rice.

All but tackle Norman Hamilton and fullback Buddy Dike, both injured several weeks ago, probably will be able to play against SMU.

Trainer Elmer Brown said, "Battle for Bowl Bid  
Baylor and Rice, who'll wind up at Waco Saturday, will be battling for a possible bowl bid. Baylor, with a 7-2 record to Rice's 6-3, was favored by seven points in the "official" line.

But Baylor Scout Jim Crow warned the Bears Monday the Owls would be the roughest team to visit Waco this year, where Baylor is unbeaten. He said halfback Dicky Moegele would be especially dangerous.

Crow also thought tackle Eddie Brooks since 1948, although the Horned Frogs ended in ties. A Cowboy and fullback Jerry Hall victory over TCU would give the "Horns" some consolation for being George Sauer said the Bears came

out of the SMU game without any new injuries.

At Houston, Scout Red Bale warned the Owls, in turn, about Baylor's toughness. Coach Jess Neely said tackle Eddie Rayburn, and backs Morris Stone and Gordon Kellogg were injured in the TCU game, but would probably be able to play against Baylor.

Series Is Tied  
The Rice-Baylor series, which opened in 1916, is tied now, with 18 wins each.

At Fayetteville, Coach Bowden Wyatt planned a hard drill Tuesday to snap his Arkansas Razorbacks out of the doldrums in which they have lost on successive Saturdays to SMU and Louisiana State. The Hogs, tackling Houston in a non-conference game in the Texas City, are assured of the Cotton Bowl berth and only Baylor, should it beat Rice, can tie them for the title.

A title tie, incidentally, would be the closest to conference honors the Bears have come since 1924, when they won their third and last title.

Stadium Sale Negotiated  
COLUMBUS, Nov. 20-UP—The Columbus City Council and the Chamber of Commerce are negotiating with the St. Louis Cardinals for the purchase of Red Bird Stadium because of the local groups' fear that the Cardinals may transfer their Class AAA Columbus minor league franchise to another city. The move was launched in an effort to keep minor league ball in Columbus.

# Leonard's Service Features Efficiency, Free Parking Lot

It's the service that counts. Especially in a service station. You get SERVICE at Leonard's Conoco Service, 500 W. Foster (telephone 4-8642).

Bob Leonard, owner and operator of Leonard's Conoco Service, stresses service — the accuracy, the quality of his work, and the quality of his products.

Bob also stresses one of the outstanding features of his service station, parking space in the busy, crowded downtown area.

Bob operates his station on the belief that skilled, conscientious men service your car with quality products that will help your car deliver extra miles of pleasant driving. To do that the service men must have "know-how"; they must know which products to use, and they must know how to use those products in your automobile.

To be sure, to add miles to the life of your car, to keep down your operating costs — Bob actually does or supervises most of the lubricating work, the tune ups.

Leonard's Conoco Service. Of course Bob knows that any one of his employees has the know-how to lubricate all automobiles. Bob selects his co-workers for their ability, reliability, courtesy. If you, and he, can not depend on them they will not be at Bob's.

Bob also believes in making your stops at Leonard's Conoco Service as convenient as possible. So he has installed a convenient parking area for his patrons. Drive into Bob's parking lot, tell him to wash, lubricate, tune up or gas up your car while you step into Pampa's downtown stores or movies. When you return your car will be ready to go.

Or just stop at Bob's parking lot and tell him you are going to leave your car there while you are in the city. He knows you will remember him the next time you have your car serviced.

Remember Bob carries many parts for your car — parts which can cause much trouble if they are allowed to get too long. In these first snaps of winter cold how about the anti-freeze in your car, and the hose that keeps the anti-freeze in the cooling system of your car? How about the fan belt?

Of course Bob offers road service, a service you will want to remember if anything goes wrong with your automobile outside or inside the city. Just call 4-8642 (an easy number to remember) for quick service. A tire change, gasoline, anti-freeze, oil, a fan belt, radiator hose, battery.

Conoco Products  
You know all the products Bob handles are good. There are Conoco N-Tane and TCP Gasolines, both powerful, both add that extra zip to your car. You get even more power and mileage with TCP.

He recommends Conoco 10-W-30 Oil, a double duty lubricant that cleans as it lubricates, and doesn't thicken in winter. It's the oil motorists use in winter as well as in summer.

Bob has B. F. Goodrich Tires and Batteries. The heavy duty tires will give thousands of miles of service. The powerful batteries carry long guarantees of satisfactory service.

Leonard's has the equipment to recharge your present battery almost to please your time schedule.

Drive in for a car wash, and while it is there have Bob polish and wax it. Bob cleans the underside of your automobile as well as the parts you see most easily. Why not have the car polished and waxed to preserve the finish and good appearance? A good polish and wax job means a lot to the appeal of the car, and to the car's ability to resist rust.

For all automobile servicing, come to Leonard's Conoco Service 500 W. Foster, telephone 4-8642.

**Twin Trouble**

PROVIDENCE, R. I. — UP-Patrolman Raymond F. Bagley tried for more than a year to bring John Harrison to court on a speeding charge. But Harrison's twin brother kept getting in the way. The patrolman never could be sure he was contacting the right twin. Then he won. Harrison's twin brother joined the armed forces.

SCOOTING ALONG—Lovely Christine Lodge lifts the seat to show the gas tank of the first all-British motor scooter to be made in London. Named the "Albatross," it is big and very fast. Designed primarily as a runabout, it can be used comfortably as a long-distance two-seat tourer with a high cruising speed.

### Seat Covers Add New Life, Beauty To Your Automobile

Seat Covers... those combination beauty aids and preservatives for your automobile. They come to Hall & Pinson, 700 W. Foster, in the right size for your car — so they fit "skin tight" as if they "grew" there. They come in wide varieties of colors and patterns to match the color scheme of your automobile and to please the taste of the driver.

They come like that to Hall & Pinson because this firm carries the largest stock of seat covers in the entire Panhandle and one of the largest stocks in the State of Texas.

Because Hall & Pinson carries

such a large stock of Seat Covers the firm has a variety of Seat Covers to fit your car. That means you can choose the colors, patterns, you like in Seat Covers from the stock on hand.

Select the Covers you like, have them fitted to your car. It takes only a short time at Hall & Pinson.

Hall & Pinson has just received its large stock of new 1955 patterns in Nycar, the miracle fabric that is burn-proof, shock-proof and virtually wear-proof.

This new stock of Nycar patterns is added to the dozens of new patterns in the latest Seat Covers. There are all prices to please the budget minded and the quality minded.

Hall & Pinson specializes in Seat Cover work. Their workers are specialists in fitting Seat Covers. They know the right way to install Covers to give you the longest wear — to make your car look better, serve you better — and longer.

You always get better work from a specialist than from a handy man. That is just one of the reasons you get better Seat Covers at fittings from Hall & Pinson.

Leymond Hall, owner and operator of Hall & Pinson, said "It takes skill and experience to fit a Seat Cover correctly. We insist on the right fit. If the Covers are not fitted properly motorists do not get all the wear they are buying.

"We guarantee our fit because we want the motorist to get all the wear that the manufacturer put in the Seat Covers.

Motorists are interested only in the Seat Covers that fit his car. That is why Hall & Pinson carries the largest stock of Covers in the Panhandle — to give motorists a good selection of Covers that do fit his car.

Come in to Hall & Pinson. Look over the large stock. Tell Leymond Hall, or one of his assistants, that you want to see Seat Covers to fit your make and model of car. He will show you a variety. Then you select the Covers you like. He will fit them to your car right away.

Hall & Pinson also has its special order department from which motorists can order Seat Covers from a variety of 100 different pattern combinations — combinations to please every style and taste.

Hall & Pinson also provides all the features of a service station: Mobil gasoline, oil; tire service; lubricating, washing and polishing.

Now, while the first cold weather makes nights and mornings snappy, is the right time to prepare your car for winter driving.

Drive into Hall & Pinson. Have your car winterized for fast starts, fast acceleration, steady driving in cold weather. Protect your car from cold now, be sure of your transportation. Come in to Hall & Pinson.

### U.S. Indicts Four Professors

WASHINGTON, Nov. 23 — UP—Eight persons, including four college professors and a high school teacher, were indicted by a federal grand jury Monday for contempt of Congress for refusing to answer questions of the House Un-American Activities committee.

One of the educators in the group was Barrows Dunham, former head of the philosophy department at Temple University in Philadelphia. The university suspended him from the faculty last March.

**SHE'S FIRST**—First in the Arizona State Fair contest for a state beauty queen and first of 1955's contestants for the Miss America title is blonde Beth Andre, of Phoenix. A Phoenix Junior College sophomore, she's 18, is 5 feet, 3 1/2 inches tall, weighs 121. Circumferences: 34-23-35.

### Skellytown Personals

By MRS. CLIFTON HANNA  
Pampa News Correspondent

Mrs. Raymond Davis and son, Kenney, Mr. and Mrs. Ray Davis, and children, J. R. and Edith, have returned from Gladewater and parts of Louisiana, where they visited Mr. Raymond Davis' father, who is ill.

Cpl. and Mrs. Taylor Skaggs and daughter, Laura Kay, left last week for El Paso, where Skaggs will be stationed until March, when he will receive his discharge from the Army. He has just returned from Alaska where he spent a year in the Army.

Mrs. Annie Loyd had as her guests Sunday, Mr. and Mrs. Walter Forbes of Borger. She returned to Borger with them to spend a few days.

Mr. and Mrs. Guy McKenney and children, Raymond and Mary, have returned from Asteo, N. M., where they attended the funeral of Gene McKenney, his brother, who was killed in a car accident.

Mr. and Mrs. Johnny Carpenter, former Skellytown residents who now reside in Bushton, Kans., are planning to move to Waterloo, Ia., next week. Mrs. Carpenter is the former Mariliss Crawford. Carpenter is employed by the Northern Natural Gas Company.

A tea will be held in the Christian Church in Panhandle at 3 p. m. Nov. 30th, to honor the 4-H Clubs of Carson County.

Mr. and Mrs. Jim Rush and children were Thursday guests in the home of Rush's sister and family, Mr. and Mrs. George Porter. Mr. and Mrs. R. E. McAllister and children, Mack, Rosalie and Rita, of the Skelly Schaffer Camp, left Saturday for a ten-day vacation. They will visit McAllister's mother, Mrs. Rebecca McAllister and his brothers, Don and Allen McAllister, all of Gainesville, Mo.

### Ex-Houston Cop Guilty

HOUSTON, Nov. 23—UP—Former Detective Sidney Smith, undercover ace narcotics agent of the Houston police department, was found guilty Monday of violating the drug laws while wearing a badge.

Federal Judge Allan E. Hannay found Smith, 31, "guilty as charged" shortly before noon. Smith was tried last week without a jury on charges he forged prescriptions and forced underworld characters to use them to obtain narcotics.

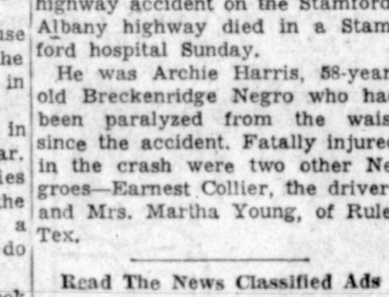

Smith still faces a second charge of possession of heroin. He is scheduled to go to trial Dec. 6. Judge Hannay allowed Smith to remain free under his present \$5,000 bond and said he would not sentence the ex-detective until after the second trial.

Judge Hannay said it was unusual to allow a convicted man to remain free in bond in a narcotics case but Mrs. Smith was expecting the couple's third child in a few weeks. He said also that Smith's "splendid record" in making narcotics arrests entered into his decision.

### Crash Takes Third Victim

STAMFORD, Tex., Nov. 23 — UP—The third victim of a Nov. 15 highway accident on the Stamford-Albany highway died in a Stamford hospital Sunday.

He was Archie Harris, 68-year-old Breckenridge Negro who had been paralyzed from the waist since the accident. Fatally injured in the crash were two other Negroes—Earnest Collier, the driver; and Mrs. Mariba Young, of Rule, Tex.

**GET ME OUTTA HERE**

"Stuffy," the heifer, was a picture of dejection as she was caught in the sewer system at Decatur, Ill. But thanks to some construction workers, the 500-pound animal was freed after a two-day imprisonment. The men entered the sewer from a manhole and, using a shield of boards, nudged her to an opening where a winch lifted Stuffy to safety.

### Texas GOP Committeeman Calls for All-Out Fight In 1956

AUSTIN, Nov. 23 — UP—Republican National Committeeman J.H. (Jack) Porter of Houston Monday called for an "all-out" GOP battle to carry Texas in 1956, including a fight for the governorship.

Porter, speaking at a meeting of the Republican state executive committee, urged that Republican primaries be held in 1956 and that a committee be named immediately to choose a candidate for the governorship.

"The Republicans must go all out to carry Texas, Florida, Virginia and Tennessee in 1956," Porter said. Those four southern states voted Republican in 1952.

Porter suggested the committee be composed of himself, Mrs. John R. Black of Dallas, Republican national committeewoman; John Q. Adams, Harlingen, state chairman; W. H. Francis Jr., Houston, state finance chairman, and Mrs. Miles Hastings Jr., Waxahachie, state vice chairman.

### AF Calls New Jet 'Voodoo'

WASHINGTON, Nov. 23 — UP—The Air Force Monday unveiled a new supersonic fighter plane designed to escort Strategic Air Command atomic bombers or deliver atomic weapons itself deep in enemy territory.

The "strategic fighter" is the F-101 Voodoo which made its first public appearance on rolling from the McDonnell Aircraft Corp. plant at St. Louis, Mo.

The Air Force refused to give any performance or other statistics about the Voodoo except to say that "it is in the supersonic class and is capable of carrying atomic weapons."

The plane is being assigned to Gen. Curtis E. LeMay's Strategic Air Command to meet "requirements for a long range fighter."

The plane obviously is very large for a jet fighter, possibly weighing as much as 40,000 pounds.

The Air Force's guarded announcement indicated that the Voodoo could escort 600-mile-an-hour B-47 and B-52 bombers on long range missions, evidently by in-flight refueling.

Public Relations BLOCK ISLAND, R. I. -- Residents of this isolated island 10 miles off the Rhode Island coast know which side their bread is buttered on. They honored at a dinner the skippers of the two small steamers that maintain the principal contact between the island and the mainland.

IN A COUPLE of days it will be Thanksgiving, the day set aside each year for just that. . . . The holiday has been going on for quite a while — 333 years. In 1821, the Pilgrims had their first feast and what they did might well be a good example for us to follow. They invited Massachusetts and 90 Indians to join in a feast. . . . Perhaps, if we give a thought to the other fellow this Thanksgiving Day, we might understand better Thanksgiving's real meaning, the idea that man does not "rate" everything he gets in this world, that he ought to recognize the things that are done for him — he ought to give thanks.

OF COURSE, there is another side to Thanksgiving. . . . Jeneane Price, a high school sophomore, sums it up very briefly: "Dirty dishes after a big Thanksgiving meal. . . . Dolores Bonham waxes poetic when thinking of that part of Thanksgiving: "I stuff myself with turkey "To grant my hopes and wishes "That afterwards I'll be too sick "To wash the dirty dishes."

## Dallas Cancels Alleged Red Author's Talk

SAN FRANCISCO, Nov. 23—UP—Dr. Harry Overstreet, noted lecturer and author, was denied the right to speak in Dallas because of alleged Communist affiliation, the San Francisco Chronicle learned Tuesday.

Author of the "Mature Mind" and other psychological works, Overstreet had been scheduled to speak before the Dallas mental health museum last Friday, but was abruptly notified his talk was cancelled.

Overstreet's wife, Bonaro, told the Chronicle her husband was told unofficially that if he forgot the incident there would be no publicity.

But the author returned to Dallas and called a special meeting Monday night to defend his loyalty, she said.

He said he had contributed to several of the others, thinking at the time they sounded like worthy causes.

Mrs. Overstreet told the Chronicle that as a whole, "the museum group is not responsible for this. Apparently a few people in the museum made the decision to cancel the lecture and failed to tell even a majority of the board members," she said.

## THE MARQUEE BY DICK KLEINER

A current source of merriment along Broadway is the sad plight of the importer of foreign films. This gentleman is well aware of the fact that some Italian films are pretty sexy, and get much publicity — and therefore do well at the box office — because they are often censored.

So he brought over a movie that he was sure would cause trouble. It had lots of good, raw entertainment. And he submitted it to all the boards of censorship, gleefully certain they'd turn it down. But everyone approved it, gave it seals, licenses, and so on. Now he's stuck with it, and he thinks he got a raw deal because it wasn't censored.

Sheldon Reynolds, star of the plane, train and auf wiedersehen, is back in the U. S. again. Or at least he was here a few days ago. By now he's probably in London or Stockholm or Upper Tegucigalpa. This, as you've probably gathered, is a traveling man.

He travels with a purpose, however. He's one of the busiest and most successful producers of television film series. His "Foreign Intrigue" has been intriguing viewers for three years. His latest, "Sherlock Holmes," is a crackjack. And he has a few other ideas up his sleeve, which is a strange place to hatch ideas, indeed.

He does all his producing overseas, mainly to get unique backgrounds, and, sub-mainly, to save a little lool. This, of course, keeps him hoping. He films some in London, mostly in Paris and Stockholm, and he bounces over there every so often to see how the sales are going. (Fine, incidentally.)

"I am," he said, "probably the world's leading authority on airport waiting rooms. Anything you want to know about an airport waiting room, just ask me."

Since I wasn't particularly interested in airport waiting rooms, we proceeded to talk about feature films. Reynolds is going to produce at least three, probably four, full-length features in Europe. The first will almost certainly be a "Foreign Intrigue." It will include American stars, otherwise his own company and players.

One of the curiosities of Reynolds' operation is that he is filming "Sherlock Holmes" in Paris. He's using English players, and he shot some outside footage in London, but he shuttles the actors over to Paris for studio scenes. They fly back and forth as required.

Turns out it's a union matter. The English film unions won't let American directors, cutters and other technicians get a foot inside the blooming door. They insist that these people, key men in production as Reynolds sees it, be English.

This, Reynolds says, has cost England \$5,000,000 worth of his business. Not counting what he might spend in airport waiting rooms.

When the mid-time vaudeville comics, Smith and Dale, appeared on a recent TV show, they were booked to do their great "Dr. Cronkheit" skit. The producer asked them how long it ran.

"Well," said Smith, "it'll run anywhere from eight minutes to 35 minutes."

That was a little vague for an industry that measures in seconds.

They arranged that the director would flash them a "One Minute" sign, and then they'd cut off within one minute.

Came the show and at the proper moment, up went the sign, and Smith gave Dale the cue: "Well, doctor, how much do I owe you?" From that signal on, their act ran precisely one minute.

David Seltznick showed how television can happily unite live performance and filmed performance in the excellent "Light's Diamond Jubilee." Combining bits of both, his all-network salute to the electrical industry was entertaining for two full hours — well, almost two hours. The last half-hour things bogged down somewhat, but the show did prove that both live and film have their points, both are legitimate TV tools.

The high spots of the show — curiously, they were live — were George Gobel and Dorothy Dandridge. Gobel, a comic sort of half-way between Herb Shriner and an ear of corn, is the find of the year.

## Texas GOPs Still Amazed Over Victory

AUSTIN, Nov. 23—UP—Texas Republicans still pinching themselves to make sure that winning a congressional election isn't a dream, are laying plans for a two-year campaign to carry the state in the presidential year of 1956.

The State Republican Committee held a post-election meeting Monday in a spirit of optimism brought about by the Nov. 2 victory of Bruce Alger in the 5th district (Dallas) congressional election.

Alger beat Wallace Savage, a former Dallas mayor, who resigned as state Democratic chairman to run for the seat left vacant by retiring Rep. J. Frank Wilson, a Democrat like all but a handful of Texas congressmen since the Reconstruction following the Civil War.

"Texas voted Republican in the 1952 presidential race, but the GOP couldn't claim sole credit for that victory. Gov. Allan Shivers, Savage and most other conservative Democrats broke with their party's national leadership to support Mr. Eisenhower."

"Texas is again going to be the battleground in 1956," National Committee Chairman H. J. (Jack) Porter of Houston told the state committee Monday. "It is up to the Republican party now to begin selecting candidates — notably a candidate for governor — who can lead the battle through 1955, looking toward the presidential election in 1956."

"We ought not, from here on out, have any token candidates," said John R. Brown of Houston. "We should have candidates running to win."

## A CHRISTMAS CAROL

BY CHARLES DICKENS

The place, a street in London. The time, the afternoon of Christmas Eve, 1843. The prevailing greeting, "Merry Christmas!"

But there was no sound of "Merry Christmas" at Scrooge and Marley's counting-house.

Although the firm kept the old name, Jacob Marley had been dead seven years this day. The surviving partner, Ebenezer Scrooge, had a heart unsullied by the milk of human kindness.

## Grind And Bump Classes Not Like School Of Hard Knocks

NEWARK, N. J., Nov. 23—UP—Forty students from the new school for social research held class in a burlesque theater Monday night and learned, among other things, that a strip tease dancer can earn enough by the time she is 21 to buy her own home.

The students, male and female and aged from 20 to past 60, took part in a burlesque theater Monday night and learned, among other things, that a strip tease dancer can earn enough by the time she is 21 to buy her own home.

The students, male and female and aged from 20 to past 60, took part in a burlesque theater Monday night and learned, among other things, that a strip tease dancer can earn enough by the time she is 21 to buy her own home.

Notes in hand, the students from New York then clambered over the footlights to get a more intimate view of the bump and grind profession.

Miss Star and 12 other girls of generous natural endowment were sitting around catching their breath. Harold Minsky, the impresario himself, was on hand to answer questions, too.

A young man in a crew cut wanted to know exactly to what extent a young lady was permitted to disrobe upon the stage.

"There is no set rule," Minsky advised. "We just keep our show within the bounds of decency. We have someone look at each new number to make sure it's all right."

Connie James, a brunette dancer in the chorus, told a student she makes \$87.50 a week for a seven-day week four shows a day, plus rehearsals. "It's a job," she shrugged.

Miss Star, who gets top billing, draws \$500 a week. She said she has been working the burlesque circuit for four years ("I'm only 21 now, honest") and has just bought her own home at Gardena, Calif., where she lives with her mother.

"Actually I've been on the stage since I was five. I used to sing in an act with my mother, but when I grew up I lost my voice," she said.

The backstage class session was part of the "show business" course at the new school. Since it
