CREAGER IS DRAFTED ON DEM TICKET

Committee Considers Cotton Marketing Branch Hen

Mexicans Give To Scenic Drive

Thanks of the committee was expressed Thursday through B. F. Robbins, chairman, for response accorded among Mexicans of the city to the appeal for funds to provide improvement of the Scenic Drive road. The following Mexicans contributed from fifty cents to three dollars, a total of \$53.80 in cash:

T. A. Gomez, V. A. Gomez, Mrs. J. M. Aleman, F. C. Hernandez, P. T. Gallardo, Pedro Hernandez, Jose Lopez, Leopold Salgado, A. H. Hernandez, Pedro Rodriguez, Apolinario Garcia, Jose Olivo, Valente Aquilar, Alberto Aleman, Ascension Chavez, Hipolito Chavez, Teleforo Ferro, Mariano Ferro, Gregorio Roldan, Antonio H. Marquez, Chon H. Marquez, Canuto Mancha, Manuel Javor, Alfonso Mendez, Pascual Garcia, Casimiro Vasquez, Francisco Soto, Mrs. Sostenez Aleman, Felix Mendez, Chon Rodriguez, F. M. Everett, Benito Paredes, P. V. Elizalde, Antonio Hinojosa, Catarino Vega, Juan Flores, Bartolito Paredes, J. M. Aleman, Iras Yanez, Jose Ariola, Hu Hinojosa, E. R. Martinez, Jesus Parra, A. V. Puente, J. V. Valdez, F. R. Mancha, Maximino Castruita, Juan Saigado Bonifacio Salazar.

The following donated one day of labor: Antonio Rangel, Antonio Lopez, Diego Olag, Eladio Zubieta, Teodoro Montelongo, Julian Diaz, Pio Suvia.

The following will furnish a man for one day's work: J. B. Garcia, V. S. Manch, Tony Castillo, Valentino Andrade, Francisco Marin.

OIL BRIEFS

TULSA, Okla., June 5 (AP)—Shell Petroleum Corporation's No. 1 Caesar, largest producer in the Konawa pool of southern Seminole county and believed to be the largest Cromwell sand oiler ever drilled, flowed 10,461 barrels of oil in 24 hours, pinched in. The location is NW SE 29-6-6. The same company's No. 2 Caesar, in NE SE 29-6-6, yielded 543 barrels of oil in 21 hours from sand drilled to 3,096 feet.

Hilton Phillips and others' No. 2 Burgess, in NW NE 29-6-6, Konawa field, produced 365 barrels of oil in 90 minutes Wednesday. Total depth is 2,861 feet.

Although Shell Petroleum Corporation's No. A-1 State in the Hobbs pool of New Mexico was brought under control without unexpected difficulty after flowing wild several hours, indications have pointed to delay in completing the well as rotary returns had not been obtained. Addition of cottonseed hulls to fill an apparent cavity may be necessary before drilling can be resumed.

Meanwhile interest began to shift north of production where Shell Petroleum Corporation's No. 1 McKinley, in the southwest corner of section 24 18-37 was being drilled near the expected deep pay at 3,911 feet.

Texas and Pacific Coal and Oil Company's No. 3 University was added to the list of producers in the Church-Fields pool in Crandall county by swabbing 80 barrels in 18 hours from pay topped at 3,000 feet and drilled to 3,800 feet.

DALLAS, Tex., June 5 (AP)—The Mook-Texas No. 11 Minnie Sibley, ten miles east of Eastland and near the village of Staff, yesterday made from 750 to 1,000 barrels a day from the top of the Ranger zone. The pay was reached at 3,420-21 feet. Drilling had not been completed.

A. P. Nicholson and others No. 1 Stinnett, located in block 20 W. L. Herring survey, abstract 168, in the extreme southeast part of Archer county has been completed at an estimated production of 80 barrels extending the Pridesaux field several miles to the northwest.

Demand

"The problem in agriculture is simple to understand, but hard to apply. The cotton mills need our cotton, but we need their money. What chance has the individual seller got, the buyer can wait."

"The government wants to see

FARMERS' CONDITIONS REVIEWED

Cooperative Leader Is Speaker Before Local Group

Before a crowd of Howard County farmers and agriculturists, C. O. Moser, vice-president of the American Cotton Cooperative Association, explained the nature of the organization, its advantages to farmers of the United States, and the workings of the branch office and national organization, Wednesday afternoon in district court room.

Moser was introduced by C. T. Watson, secretary of the Chamber of Commerce. T. N. Carswell, secretary of the Abilene Chamber of Commerce, and C. A. Barron, vice-president of the Texas organization, also spoke.

Review

Moser gave a brief review of the economic conditions in agriculture and all forms of industry. Before going into the subject of the organization, he gave a sketch of the agricultural business for the past 10 years.

The farming industry has had an increased indebtedness for one billion a year for ten years," he declared. "The farmer can't get ahead on account of the process of losing money. There is a reason for this. The farmers don't work together, don't think together, and as long as there are as many ideas about farming as there are now they never will. Once they agree they may be able to go somewhere."

Moser declared the farmers have the problem of production, one of the major ones in agriculture, fairly well under control. As a producer, the American farmer is the greatest, but as a marketer he is a miserable failure. Moser declared.

A large portion of Moser's address was centered about markets, the law of supply and demand, and the value of the cooperative spirit among farmers.

"They have formed a little Tammany out there," he declared. "Thomason is using the name of an ex-service men's organization in his campaign literature, trying to trick the ex-service men of this district into thinking he is endorsed by that body."

"Prohibition is a dead issue," he declared, "but if they want to make it an issue I am willing, because I am the only prohibitionist in the race. One of my opponents is running on a wet platform, the other is agout." Murphy pleaded for the right of the independent oil men, and declared the greatest need of the land today "to break the trusts."

The Way

"They have talked prosperity for the last ten years now. None of that prosperity trickled in the direction of the farmer. Why? Because the farmer wouldn't take his cue from other lines of business."

The farmer went ahead producing cotton when cotton wasn't in demand, and as a result they received the lowest price possible.

You can't violate the supreme law of the business world—supply and demand—and make a success in any business where a margin of profit is necessary.

The large industries group their marketing. The farmers don't.

Those major industries saw prosperity as a result, the farmer faced poverty."

Moser told of the method of group production and group marketing in Denmark, the condition of the agricultural business there, and how the cooperative system had paid huge dividends. He discussed the citrus business in California, and how cooperative marketing put the business on a paying standard. He told how the organization increased the demand, increased the price, and boosted the consumption.

Marketing and production together mean a prosperous business; separated they created a demoralized industry," he declared.

The problem in agriculture is simple to understand, but hard to apply. The cotton mills need our cotton, but we need their money. What chance has the individual seller got, the buyer can wait."

"The government wants to see

MURPHY'S PLATFORM PRESENTED

State's Rights Chief Plea Of San Angelo Man

Centering his speech around an attack on "the monopolistic tendencies of our government," E. E. (Pat) Murphy, San Angelo, candidate for Congress from the 16th district of Texas, spoke Wednesday night in the district court room in the interest of his candidacy. Mr. Murphy was introduced by James T. Brooks, attorney.

Murphy let loose a verbal barrage in the direction of his opponent, R. E. Thompson, El Paso, declaring "there is a political ring in El Paso which has as its purpose control of power in the sixteenth district."

"They have formed a little Tammany out there," he declared. "Thomason is using the name of an ex-service men's organization in his campaign literature, trying to trick the ex-service men of this district into thinking he is endorsed by that body."

"Prohibition is a dead issue," he declared, "but if they want to make it an issue I am willing, because I am the only prohibitionist in the race. One of my opponents is running on a wet platform, the other is agout." Murphy pleaded for the right of the independent oil men, and declared the greatest need of the land today "to break the trusts."

Railway Law

"I am in favor of the repeal of certain provisions of the railway law that forces Texas to go to Washington for permission to operate its own railroads. I am against the certificate of necessity clause of the law and want to return the God given state rights to control our own railroads in Texas."

He declared he was in favor of a tariff on products of farm and ranch that need protection, and tariff on crude oil. In the course of his address he declared he would always stand for a square deal for all ex-service men and their dependents." He is in favor of dating by law all adjusted service certificates 1918 instead of 1923 or later, he said.

He declared his belief in restricted immigration, opposition to gambling in the products of the soil, favored the universal draft act, declaring profit should be taken out of war; wealth should be drafted as well as men power in the event of war," he declared.

This year's chautauqua offers the premier program available on any circuit. The program is as follows:

Saturday evening: The side-splitting comedy, "Other People's Business," a story of real life filled with speedy action, hilarious laughter and tense dramatic movements.

Monday afternoon: The popular Bisson's Filipino Collegians, direct from tour of five time vaudeville, Native and popular songs and dances will be offered.

Monday evening: A costumed course of island music by "The Filipino Collegians," with special scenes and settings.

"The Potter and the Clay," by Smith Damron. This is an interesting and entertaining demonstration of the art of making pottery and a

PIPE LINE CONFAB IS TO BE HELD

Houston Place For First Rally By Committee

DALLAS, Tex., June 5 (AP)—A personnel of the committee of six authorized to make recommendations to the Texas Railroad Commission concerning the enforcement of the new pipe line law, was announced today.

The group, authorized at an oil meeting here yesterday, consists of Charles Moser of Fort Worth and Warner Clark of Dallas, from the Mid Continent Oil and Gas Association; John Suman and A. M. Donoughue, both of Houston, representing the pipe line companies, and George Calvert of Fort Worth and Rupert Becker of San Angelo, representing the independents.

The first meeting will be held at Houston tomorrow.

Ft. Worth Oil Man Dies In St. Louis

FORT WORTH, June 5 (AP)—R. S. King, 48, Fort Worth oil man and former president of the Exchange Club here, died in St. Louis last night after a two-day illness, will be buried in Pittsburgh, Pa., friends here were advised today.

Stricken in the lobby of a St. Louis Hotel Monday night as he was preparing to leave for Chicago, King never regained consciousness.

King came here four or five years ago from Thurber where he had been an official of the Texas Pacific Coal and Oil Company. At his death he was president of the Blackstone Oil Company, the King Properties Company and the Keystone Royalty Oil Company.

A letter from Ranger said that a duchess would be chosen there in a few days and that a large number of oil operators and others would attend from that city.

Duchesses already are being chosen by Fort Worth, San Angelo and other cities. Stanton chose Miss Willie Epley.

The pageant, "Texas Under Six Flags," to be presented in a huge amphitheatre, will employ a cast of several hundred.

The coronation ceremonies, when the Queen of the Jubilee, whose identity will be kept in silence, will be crowned, is being planned on a scale that will mark them as one of the outstanding features of the entire program.

AEROLOGICAL POST

DALLAS, June 5 (AP)—Contesting hourly weather reports by radio and teletype to guide flyers and observers in "flying along" areas over the entire Southwest, an aerological station at Love Field here will open July 3. Dr. J. L. Cline, government weather observer, announced last night Auxiliary stations will continue to be maintained at Houston, Fort Worth, San Antonio and Galveston.

Miss Marguerite Boldin will be duchess of Lamesa at the Oil Men's Jubilee here July 3, 4 and 5, according to a message received by Chris Ming, who is in charge of the coronation and of the pageants to be given as part of the pretentious program.

A letter from Ranger said that a

LAMESA'S DUCHESS IS SELECTED

Miss Boldin Named: Pageant To Be Stupendous

His mother was coming today to see him; his routine was all the same. Breakfast in silence; lunch in silence; dinner tonight—that "last dinner" where the state gives man whatever he wants, "even to chicken," probably in silence, too.

Pruitt has been here in his cubicle for a bit more than a month.

One man he has seen precede him in the early morning procession.

"Dagger" Pruitt has been a "quiet prisoner" here, but two years ago in Dallas he was a different boy. There the police called him "The One Man Crime Wave," and they arrested him only after storming a house where he had barricaded himself and had loosed a pistol upon them.

Special invitation has been issued and the Chamber of Commerce to visit and inspect the new store at 2 p.m. The store will then remain open for the convenience of all visitors who care to come and look over the new establishment in a leisurely manner. All members of the local store's organization will be on hand to greet and serve visitors. This will also give the local salespeople an opportunity to acquaint themselves with the merchandise and prices in preparation for the usual Saturday rush.

Ready To Open

Several carloads of merchandise have been unloaded during the past few weeks and the store is now stocked with more than fourteen hundred lines of merchandise. All of the decorating and construction work has been completed and the new walnut finished fixtures have been installed. The store will have 25 people in attendance during the opening days and will have a permanent sales force of 10 people

We are riding a high horse.

We're Riding A High Horse With Our Tariff Bill, Says Will Rogers, But We're Liable To Get A Bad Kick Back

By WILL ROGERS

All I know is just what I read in the papers. I just been reading the weekly paper. That's all I know about the last thing out there. That's all I know about the week before. What happened and they may have a break up to date bunch of young fellows. Those that are you real live down. I was just talking to that night.

Well now that is the way we are able to become. We are known as the wealthiest Nation of all time. Well in the first place we are not. The differences between our rich and poor shows greater every year. Our subscription of wealth is getting more uneven all the time. We are always getting. He's man from over a million dollars income tax". But we never read about "How many there is that are not eating regular". A man can make a million over night and he's on every front page in the morning. Not it never tells who ate up the million that he got. You can get money without taking it from somebody. They do not eat out new money. What you get tonight, that you didn't have last night, must have come from somebody.

I believe that the President been doing that week and night the Senate and the House. Once most of these are short, but that's the then fault. Now for instance the Senate they signed on the Senate well that been in ever since Mr. Hoover was inaugurated and called, that in special session.

Mr. Foyce's statement last

said that this new tariff bill if passed will be the worse thing in the world to all of us. You see a lot of manufacturing establish-

ments try to cover up in their own back yards by buying the Government offices there. Said some

that handle their business better than they do. They said as says half a cheap labor. But the cost of transportation in this country more than makes up for that.

Every little industry that can make a living must do so.

We want see the real effects of this bill. We have all those other countries to look after. Tariffs

now. You can stop the one you want from stopping his goods as well as him along something else. Some of the important and most representative men in our business life have been driven on us to do something. The next

thing is to do a little bit of our opinion based on a long study. All the men don't agree on it. So the men that are in the business for them are not the ones that are in the business for themselves.

So we are liable to get a bad kick back from a lot of this high minded stuff we are pulling. We are going to high horses at this time. As it takes a pretty smart man to tinker with this tariff we are liable to go do something here we went too down very soon.

It's all right to help out the folks back home and bring every voter a card of relief, but you want to be mighty careful at where you put it. It does look like we ought to be able to manage our affairs so that we could get along and still serve the friends with lots of fun. But this tariff thing is a lot of two sides to it and they are not political sides either. It's a small man business, it's not just for more politicians.

So we are liable to get a bad kick back from a lot of this high minded stuff we are pulling. We are going to high horses at this time. As it takes a pretty smart man to tinker with this tariff we are liable to go do something here we went too down very soon.

LEGION TO HELP WITH EXPOSITION

Sham Battle Added To Program; Publicity Arranged

OIL BELT LOOP TEAM CLAIMS FORFEIT GAME

Claiming a victory via the forfeit route, Merrick and Bristow today maintained that when the Barbers, City League team, picked their tent and vanished without completing the game Sunday, they automatically gave up the ghost.

The Barbers had been credited with a 16 to 15 victory.

The game, according to reports trickling out of the field, saw more of a controversy over umpire's decisions than a baseball game. In the third inning Tinsley Barber, batter, was found guilty of interfering with the catcher. He was called out and later the runner was called out. This seemed to start the ball traveling and protest followed.

The local legion members will be assisted by a national guard artillery unit stationed at Abilene, it was announced.

The publicity committee, in a session Monday afternoon, awarded the official decorations contract to the Western Advertising company of Big Spring and San Angelo. This concern will sell decorations for stores fronts to merchants wishing them, and at prices stipulated in the contract with the Jubilee committee. It will also string banners and flags across the principal business streets in a fashion similar to the decorations program used during the Airport Opening last summer. This committee held the contract for that event.

In the ninth the tally was tied 16 all. After a hectic two innings, with the Barbers holding a one-run margin, the same Barbers gathered up bats and equipment and walked off the field without completing the eleventh frame. The exodus was caused by an umpire's decision at the Jubilee.

Merrick and Bristow is credited with the winning of the tray.

New Aggregation

A team representing the American Maracaibo Co. has joined the Oil Belt League, it was announced yesterday by top officials.

The new team will replace the Continental Oil Co., which withdrew from the league.

The second half will open June 10. Magnolia having clinched the initial split.

FARM BOARD COTTON PLAN HEARD

MARKETING MACHINERY IS DETAILED

C. O. Moser Delivers Addresses In Big Spring

History, machinery, resources and aims of the Federal Farm Board toward the cotton industry, which is represented in the board's plan by the American Cotton Cooperative Association, of which he is vice president, were reviewed here Wednesday morning before directors of the Chamber of Commerce, and a few interested citizens by C. O. Moser.

Little Progress

He was joined here by Director E. G. Simms of the Kobe, Japan, office of the Texas Farm Bureau Association, which has been designated the Texas cooperative subsidiary of the American Cotton Cooperative.

"Unlike other industries, there has been little progress in the agriculture industry within the past century," he declared. "Part of their problems are beyond the control of farmers. A considerable portion

WILLIAMS IN TEXAS.

CORPUS CHRISTI, Tex., June 4 (UPI)—Carl Williams, cotton member of the Federal Farm Board, declared here yesterday it's foolishness, downright foolishness. This over-production of cotton is the item which can defeat the purpose of the farm board's act."

He had been for an airplane ride over Nueces county and viewed farms which last year produced 125,000 bales of cotton. Returning here to address several hundred farmers and business men from 41 South Texas counties, comprising District 5 of the new Texas Cotton Cooperative Association, he declared he "never knew there was so much cotton in the world."

"Stabilization boards can acquire surpluses and cooperatives can aid in marketing," he said, "but acreage in these crops must be reduced."

tion of their problems have been created out of legislation. You cannot make new wealth by legislation but you may transfer wealth from one group to another by legislation."

Mr. Moser declared the federal marketing act under which the farm board operates is not a farm relief but a farm aid measure. The board is charged with minimizing speculation, eliminating waste, improving efficiency of distribution through farmer-owned and controlled organizations and prevention and control of surpluses.

Speculations he pointed out, is the object of considerable difference of opinion. Until marketing processes are changed only so much of speculation may be stopped. However, he said, wide fluctuations due to speculation may be prevented.

Cooperative marketing is agreed upon by all the government boards and commission as being the only way to solve the farmer's problem. Farmers have little or no capital but they can assemble their products and market through cooperatives, which are as sound as capital stock corporations, he continued.

No Politics

Farmers have been opposed to employing men in competition with other industries. The most successful cotton man in the world recently told me he had three men in his organization whom he paid \$100,000 annually. The farm board has received 10,000 applications for jobs and has hired two of them. They're not looking for men out of jobs. They have hired one man to handle the cotton part of the board's operations and, on a per bale basis, he will receive a maximum of \$75,000 annually. This has no place in the employment of men for this work."

The government has determined that the average farmer's annual income is \$400. He needs, according to American living standards, to make \$1,000 a year.

The board has divided its activity, according to principal commodities. For cotton, \$30,000,000 has been set aside. The state is divided into districts. This section likely will be in District Seven, with some point out here as headquarters, determined by the members themselves at the proper time.

Branches

District headquarters have branch offices where there is enough cotton to justify it. It is necessary to have \$7,500 to finance a branch office. Federal licensed men will be provided to handle cotton in these branch offices. Whenever a local man is qualified

and farmers and business men wish him to be employed that will be done. Branch offices make advances on local banks on cotton according to grade, staple, lustre and color. Cotton is graded and stapled for non-members as well as members. I believe where these branch offices are located real cotton markets will be created. Under ordinary conditions cotton will be assembled at the branch office, which will be in touch with our sales offices throughout the world. In case the local market at any time is better than others the machinery will be reversed and cotton sold locally instead of in other parts of the nation or abroad.

"Approximately 15,000 bales of cotton will be necessary to justify a branch. Not more than 50 cents per bale can be spent for local service. We cannot spend more than three per cent of the market value of a bale for handling it."

Those who have ever paid dues as members of the Texas Farm Bureau Cotton Association will be eligible as members without a fee. Others will pay a fee of \$2.50.

"We have no intention of high-powering anyone to get a branch established. If you should give unqualified support and show that you wanted a branch we would then decide whether local conditions justify locating it."

SCENIC DRIVE WORKERS TO MEET THURSDAY

Scenic Drive fund campaign committee chairmen are called to meet at 9 a.m. Thursday at the Chamber of Commerce to begin a final solicitation of funds for improving the roadway on Scenic Mountain. B. F. Robbins, chairman, announced.

KOBE, JAPAN MAN HEARD

Farm Board Plans Threaten Middleman, He Says

J. G. Simms, Kobe, Japan, representative of the American Cotton Cooperative Association, was the principal speaker at the regular meeting of the Business Men's Luncheon Club, held Wednesday noon.

Mr. Simms divided his discussion into two parts—the organization as represented in Japan, and a short sketch of the country, its conditions at the present in every line.

Mr. Simms has been a resident of Japan for 15 and one-half years going there as a professor in eco-

nomics and finance in a university at Tokyo, later entering the cotton business for an American firm, and eight years ago joining a American cotton cooperative association as its Japan representative.

He discussed the importance of educating the farmer as to the advantages offered by the organization. He predicted the collapse of the middleman in the cotton business, pointing out it was one of the duties of the organization to grade and staple the farmer's cotton for twenty-five cents a bale, and inform the farmer as to its worth.

"We can't help the farmer," he declared, "without interfering with someone's livelihood. The middleman is in a serious position if the plans of this organization are successful. We expect to be fought, but not because we are offering aid to every farmer in the state."

He declared the organization is on a sounder basis now than ever before, and predicted a greater success in the future. He spoke of new

policies adopted which were framed with the future of the farmer in view.

"But the farmer," he said, "has to be educated. He must be told of the advantages offered him by the cotton association. He must learn to rely upon it as a marketing body."

According to Mr. Simms 45,000 bales of Texas cotton were marketed in Japan this season.

In his talk on Japan he told of the condition of various industries, especially the rayon and cotton mills, discussed the government, education, religion, habits, and customs of the Japanese race.

Miss Hortense Reed, representative of the Chautauqua, spoke briefly on the five day program to be given here June 7 to 12 inclusive, and urged members of the luncheon club to purchase season tickets. Cecil Collings was program chairman for the day.

PROMINENT MEN TO SPEAK AT MEETING HERE FRIDAY OF INDEPENDENT OIL ASSOCIATION

Business men, royalty and land ty, will be the topic of Mr. Crill, prominent independent oil dealer. "Why The Independent" will be Mr. Wild's subject.

Relation of the Land and Royalty Owner to the Independent Movement" is the theme for Mr. Ford. Mr. Morgan will discuss transportation. He was very instrumental in having the new pipeline law, which will become effective June 19, passed by the called session of the legislature.

This will be the first meeting West Texas to present the plans ideals of the independent oil m organization, which is affiliated with the American Independence association, headed by Wirt Franklin of Oklahoma.

a new enjoyment in ice cream.....

and protected purity, for health's sake

MAGINE a totally new ice cream—richer, smoother, finer-flavored—more delicious than any you have ever known before. That's Sunfreeze!

Sunfreeze is richer—with the sweet richness of pure, fresh whipping cream. It is smooth—smoother and finer textured than you have thought ice cream could be. Truly, it brings you a new enjoyment from ice cream. Your first taste of Sunfreeze will be a revelation.

You are particular about the purity of food products. It pays you to be. You will be interested in the way Sunfreeze is made.

Back of Sunfreeze stand the physical resources, the skill and experience, of one of the outstanding dairy products organiza-

tions of the west. It is made in a plant that is utterly spotless.

Sunfreeze is produced under the constant supervision and inspection of federal, county and city health authorities. Its purity is protected by detailed laboratory analyses made by college-trained biologists. It is made throughout of the finest and costliest ingredients money can buy. No finer or purer food product can be made at any price.

Sunfreeze costs far more to make than ordinary ice cream, yet its cost to you is only a little more. How wonderfully it is worth the difference!

Will you give yourself the pleasure of trying Sunfreeze—just once? A wholly new and delightful experience awaits you.

YOU cannot miss a Sunfreeze store. In front there is a red, white and gold electric sign. Another electric sign glows red and inviting at the fountain. These signs direct you to a new enjoyment in ice cream. They mark the store that is glad and willing to pay a higher price for ice cream, so you may have the best.

Collins Brothers' stores are your Sunfreeze in Big Spring. They are good stores to patronize—for everything. They have proved they want you to have the best by buying this supreme ice cream for you.

Sunfreeze is endorsed by physicians because of its protected purity.

NINE TABLES OF GUESTS ENJOY ENTERTAINMENT FOR DALLAS VISITOR

Mrs. C. K. Bivings, Miss Clara Pool And Mrs. Steve Ford Win High Score And And Cut Prizes

In honor of her daughter, Mrs. A. S. Barnett of Dallas, Mrs. A. L. Wasson entertained nine tables of guests with a big party at her home south of town.

The house was decorated with garden flowers and the scheme carried out was pink and green.

Mrs. C. K. Bivings won high score and was awarded a dy jar.

Second high was won by Miss Clara Pool, who was third in handicrafts.

Steve Ford won cut prize.

Salad and an ice course was served. The following guests: names: L. S. McDowell, Fred Hart, Frank Pool, Ralph Kirby, Wilcox, James Brooks, J. J. Homer McNew, Charles K. Kings, Seth Parsons, Albert Fisher, Julius Eckhaus, Joyce Fisher, Mrs. Wasson, Fred Stephens, Robert W. Midkiff, Ira Thurman, Ford, A. M. Evans, Eddie J. D. Biles, Joe Copeland, C. Cunningham, Harvey Williams, Travis Reid, Eb Hatch, Garwood, Robert Currie, W. Inkman, W. G. Green, John Baker, H. H. Bennett, John Estes, and Misses Schlesinger, A. Pool, and Ada Lingo.

ARRIAGE OF COUPLE IS SURPRISE

Frances McNew, Waller Glenn Marry In Midland

Frances McNew and Waller Glenn were married at Midland yesterday afternoon at 6:30. The wedding was a surprise to friends and relatives of both McNew and Mr. Glenn. It was known here by wire late last night.

Mr. Glenn, who is the daughter of Mr. and Mrs. G. E. McNew of this city, has lived in Big Spring since her graduation from T. C. U. and has taught here in Rotan since her graduation.

Mr. Glenn is with Western Union and is the son of Mr. and Mrs. Glenn of this city. He is a graduate of North Texas Agricultural College at Arlington and has been here for the past three years.

A couple will return today and to take their honeymoon sometime later in the summer.

PIONEERS HAVE DINNER AND BRIDGE

Strain, Hilliard, Cunningham, Fisher Are Hostesses

Members of the Pioneer Bridge and their husbands were entertained with an evening dinner bridge party Thursday night. Hostesses were Mesdames Cunningham, R. C. Strain, Hilliard and Joyce Fisher.

A group met at the Crawford ad dinner. The dining room decorated with large baskets of peacock feathers.

At the dinner the group went home of Mr. and Mrs. R. C. for bridge.

W. W. Inkman won high for the women and Mrs. E. Ingman won low.

Mr. McNew won high for the and W. W. Inkman low.

Guests were Mr. and Mrs. W. W. Inkman, J. D. Biles, C. Cunningham, E. O. Ellington, Fisher, Bernard Fisher, Joe Homer McNew, R. C. and Mrs. H. D. Hilliard and Lee Hanson of Lamesa.

CENSUS FIGURES

SHINGTOM, June 2 (UPI)—According to their present estimation, Texas cities of from 15,000 to 20,000, compiled by the American Press from the 1930 census, in the list which follows.

Some of this class have not reported figures as official as an-estimated by the census supervisors subject to revision.

1930 Percentage
City Population Increase
Abilene 23,129 12.5
Brownsville 22,060 8.7
Lubbock 20,612 40.8
Tyler 17,089 41.4
Texarkana 16,602 41.6
Marshall 16,280 13.4
Sherman 15,836 4.6
Paris 15,406 2.4
Temple 15,333 38.0
Corsicana 15,196 33.5

Paul, Minnesota, 27,083, in 35.5% and 15.41 per cent.

ADIAN—Fire-resistant addition to Bader's Pharmacy com-

Three Operations Hold Hobbs Stage

Three major operations now hold the spotlight of attention in the Hobbs, N. M., area. The Humble No. 1 Bowers, in section 30-38; the Tidal Oil Company No. 1 Grimes, in section 29-18-38 and the Hobbs High Inc., No. 1 Tatum, in section 35-18-38, now are being watched with a great deal of interest by members of the oil fraternity throughout this section of West Texas and in New Mexico.

The Humble No. 1 Bowers, elevation 3897 feet, topped first gas at 2772 feet with an estimated oil show of 25 barrels per hour at 3-143. The well is now flowing about 7500 barrels.

Tidal Tops Gas

Tidal Oil Company No. 1 Grimes, located one mile east of the Humble well, elevation 3646 feet, topped first gas at 2792 feet or about 30 feet lower structurally on gas, whereas it was 134 feet lower on anhydrite than the Humble well. This fact, according to geologists, shows a thinning of salt beds of over 100 feet. Saturday a show of oil was encountered at 3115 feet which makes it about 30 feet higher than the first oil show in the Humble well further thinning in evidence.

This thinning off of the salt series beds above the line from the Humble well eastward makes the Hobbs field widen to the east and makes the Hobbs High Inc. No. 1 Tatum look promising for a producer.

Miss Willie Epley will be duchess of Stanton at the Big Spring Oil Men's Jubilee, July 3-4 and 5. The coronation committee has been informed by the Martin County Chamber of Commerce.

Names of the Fort Worth and San Angelo duchesses, who are to be named soon, have not yet been received.

Chris Ming, who represents a group of local business men who have underwritten the special amusement attractions to the Jubilee, including a pageant, tur- devoir, carnival and other features, has returned from Fort Worth, where he arranged for a large stadium with bleacher seats to accommodate several thousands.

Fred Olmstead, daddy of the renowned Turtle Betty staged nationally at Ponca City, Okla., by the Miller Brothers' 101 Ranch, has agreed to act as official starter of the local races.

Big Spring people are urged to call at the Chamber of Commerce offices or at Jubilee headquarters, fourth floor of the Petroleum building, for windshields stickers advertising the Jubilee.

Ten large posters to be placed on strategically located billboards are to arrive in a day or two and will be posted immediately.

The publicity committee was to meet Monday afternoon to decide on further advertising plans and to let a contract for decorations during the week.

131 Texas Counties Increase 754,898

AUSTIN, Tex., June 2 (UPI)—The first 131 Texas counties reporting their 1930 census figures showed an aggregate increase of 754,898 over 1920, according to a compilation made by the Austin Sunday American Statesman. The 1930 aggregate population of the counties was 3,179,274 against 2,424,376 ten years ago.

Regulations Governing Milk And Meat Sold In City Are Reviewed

There are on the statute books of the city of Big Spring, ordinances which comprehensively cover regulation of the production, preparation and distribution of milk and meats in the city.

The new city sanitary inspector, J. M. Williams, formerly foods inspector for the city of Waco, is charged with the enforcement of these ordinances.

Milk is classified certified milk, grade A raw milk, grade B raw, grades A, B, and C pasteurized and ungraded milk. The law provides that cans or other containers, including bottles, containing milk must be labeled plainly to show what grade milk they hold.

Here are some of the chief provisions of the standard milk ordinance, which is that used in practically all of the cities of the country:

Milk must contain not less than 8.12 per cent of solids not fat and not less than 3.14 per cent of milk fat, or butter fat.

Fermits

It is unlawful for any person, firm, association or corporation to bring or receive into the city for sale or to offer for sale or to have on hand any milk or milk product excepting evaporated milk, condensed milk, skinned milk, powdered whole or powdered skimmed milk who has not paid his license fee in advance and who does not possess an unexpired permit from the health officer of the city and on whose place of business there does not appear in a conspicuous place a placard showing that the permit has been obtained.

Containers

Bottles, cans, packages and other containers enclosing milk or any milk products and sold or served shall be plainly labeled or marked with the name of the contents as classified in the ordinance, as well as the grade of the product according to the provisions of the ordinance. If pasteurized that word must appear. If it is raw milk the percentage of milk fat may be shown. Every grocery store, restaurant, cafe, soda fountain or similar establishment selling or serving milk shall display in a place designated by the inspector a card furnished by him, stating the grade of the milk at the time it is delivered and whether it is raw or pasteurized.

At least once during each grading period, which in no case shall exceed six months, the sanitary inspector shall inspect every dairy farm producing milk or cream for consumption in the city and all milk products or cream intended for consumption in the city. In case he discovers violation of any item of sanitation he shall make a second inspection after a lapse of such time as he deems necessary for the defect to be remedied but not before the lapse of three days and the second inspection shall be used in determining the grade of milk or cream.

Reports

One copy of the inspection report shall be posted by the health officer in a conspicuous place upon an inside wall of the dairy farm or milk plant buildings, and it shall be removed by no person except the inspector. Another copy shall be filed with the records of the health department. In addition a written notice shall be mailed to or left with the owner or manager in the case of violations.

During each grading period at least four samples of milk or cream from each dairy farm and each milk plant shall be tested by the health officer. Samples of milk and cream from stores, cafes, soda fountains, restaurants, and other places where milk products are sold shall be tested as often as the inspector shall require. These tests shall include the determination of the bacterial count made in conformity with the standards and methods recommended by the American Public Health Association and may include other chemical and physical determinations as the health officer may deem necessary. Notices of bacterial count shall be given to interested persons on request. If market value of any sample exceeds 25 cents the city shall pay for it.

Public Announcement

At least once every six months the health officer shall announce through the daily press the grades of milk and cream supplies delivered by all producers or distributors and ultimately consumed within the city of Big Spring. These grades shall be based upon the following standards: the grading of cream may be identical with the grading of milk except that the permissible bacterial limits shall be multiplied five fold in the case of cream.

Certified milk is that conforming to the requirements of the American Association of Medical Milk Commissions and produced under the supervision of the medical milk commission of the Medical Society of Howard County.

Grade B raw milk is that the average bacterial count of which at no time prior to delivery exceeds 200,000 per cubic centimeter, which is produced under conditions outlined in the ordinance except that in no case shall cleanliness of the barnyard be omitted and changing the cooling system to provide 60 degrees Fahrenheit and substituting boiling water for steam in

cleansing vessels.

Grade B pasteurized milk is A or B raw milk which has been pasteurized, cooled and bottled in a milk plant conforming to all items of sanitation required for grade A pasteurized milk except that the average bacterial count at no time after pasteurization shall exceed 100,000.

Grade C pasteurized milk is that which does not meet the requirements of A or B pasteurized milk and the average bacterial count of which at no time prior to delivery exceeds 300,000. It shall be sold for manufacturing purposes only and every container shall be so marked.

Fees

A license fee for sale or delivery of milk or products acquired from or distributed by milk plants shall be \$30.

An annual license fee for sale or delivery of milk or milk products acquired from or produced or delivered by each dairy shall be a minimum of \$3 plus \$2 per cow, heifer or bull up to and including ten head and \$1 per head for additional ones. In no case shall the maximum fee exceed \$90 for one dairy.

Penalty for violation of this ordinance shall not exceed a fine of \$100.

The ordinance has been amended to allow sale of ungraded milk provided it is so labeled, and all plants selling ungraded milk or drinks containing it shall display these words "We sell ungraded milk here" or "We use ungraded milk in our drinks."

Meats

Another ordinance provides that diseased animals may not be brought into the city. It prescribes manner of constructing slaughter houses, provides for certificates of the health of workers, that no part of the plant used to house heating or power equipment or for storage of fuel shall be used for handling meat or rendering lard or tallow. Slaughter houses shall not be located within any pens used for feeding or retarding of livestock. At any establishment were an article that has been condemned is kept more than a day subsequent to condemnation it shall be kept under lock and key with the key in the inspector's possession. No living quarters shall be directly opening upon slaughtering establishments.

Farmers May Sell

During November, December, January, February, farmers may sell carcasses of animals in the city provided the animals have been slaughtered in houses approved and handled in sanitary fashion until the meat is sold.

The houses for killing animals may be arranged according to the mutual interest and convenience of the inspector and the owner of the building, or the proprietor.

It is unlawful to transport any meat unless it is securely wrapped in paper or tightly woven cloth unless the vehicle has a tight cover and is kept closed.

SAUCES ADD ZEST TO FOODS THAT ARE MOST COMMONPLACE TRY FOR THIS WEEK'S PRIZE

Mrs. J. A. Hambrick And Mrs. P. N. Allen Are Weekly Winners For "Spaghetti Dishes For Hungry Husbands"

"Many a cook's renown rests upon her sauces."

The success of the French as cooks may be based to a large extent upon their excellent sauces. They use the sauce with almost every dish.

Roughly divided, sauces are as follows: those for meat, fish, vegetable and egg dishes and those specially suited for puddings and deserts.

So next week send in your recipes for sauces—chocolate, tomato, butterscotch—sauces for meats—sauces for ice cream—sauces for vegetables. We will pay two women \$1.50 for the best sauces submitted. These sauces will be tested for practicality, general usefulness and expense in preparation.

Winners

The winners for this week are Mrs. J. A. Hambrick, Route 1, Big Spring and Mrs. P. N. Allen, Box 442, Big Spring.

Mrs. Hambrick came up this time with a very fine recipe for Spanish Casserole, the main ingredient being spaghetti, and Mrs. Allen offered the interesting recipe for Spaghetti with Crab Meat.

Honorable mention goes to Messes R. F. Jenkins, David Waldo Jones and Mrs. Hazel Latham.

The recipes are as follows:

SPANISH CASSEROLE

Mrs. J. A. Hambrick, Route 1

2 cups spaghetti
2 lb round steak cut in cubes
2 onions sliced
1 clove garlic, minced
2 green peppers, shredded
3 cups tomatoes, canned or fresh
2 ts salt
1-2 ts pepper
2 ts sugar
the butter

1-2 cup sliced stuffed olives
2 ts grapejelly (optional)

Cook spaghetti in boiling salted water until tender, drain. Put butter or oil in frying pan, add onion, pepper and garlic. Heat and add meat rolled in flour. Add tomatoes and sugar, salt and pepper. Transfer to a casserole or roasting pan, cover and bake slowly two hours.

Arganze on platter with meat in center. Garnish with sliced olives. Heat spaghetti around the meat.

This is delicious served with the following cole-slaw. My family have named it "Babe Ruth's Home Run Cole-Slaw."

Finely shred enough cabbage (crisp) to make 2 cups; 3 large apples, chopped; diced pimento; diced carrots; a few chopped nuts. Moisten with plain French dressing; on cooked salad dressing. This day competes the Spanish Casserole in to a balanced meal.

SPAGHETTI AND CRAB MEAT

Mrs. P. N. Allen, Box 442

2 lbs. the chopped green pepper
2 ts butter

2 ts flour

1 ts mustard

1-2 ts salt

1-2 ts Worcestershire sauce

Dash of cayenne pepper

1 cup sliced spaghetti

1 cup grated cheese

1 egg slightly beaten

2 cup milk

1 cup crab meat

Cook green pepper in butter five minutes. Blend in flour, add seasonings—spaghetti, cheese and eggs. Cook a few minutes. Beat the milk before adding other ingredients. Then the crab meat. Serve in pretty shells or on rounds of toast. Serve with cheese sprinkled on top.

Mrs. C. E. Talbot Has Friday Sewing Club

Mrs. C. E. Talbot entertained members of the Friday Sewing Club at her home in Washington Place Friday afternoon.

After some time spent sewing a few games of Rook were played. The hostess was assisted by Mrs. Peter Johnson, and refreshments were served to the following members and guests: Mrs. Maxine E. H. Setters, G. B. Tom, John Davis, Tim W. H. Ward, Fox Manning, Joe Steele, Sam Evans, Doc Johnson, J. P. Neal and Maxine Angell Bell and Catherine Smith.

The next meeting will be June 28.

Brew Salesman Hits A Foul; Sells Beer To Constable

Road Mishap Injures Two

J. T. Osborne received a badly cut hand and severe body bruises, and M. F. Magnhag was slightly injured late Tuesday afternoon when the car in which they were riding turned over on the Bankhead highway, west of Big Spring.

A wheel of the car crumpled causing the machine to turn over. Neither is seriously injured.

BACH FROM SAN MARCOS

Cecil McDonald, son of Mr. and Mrs. W. D. McDonald, returned home yesterday to spend the summer with his parents.

THE BIG SPRING HERALD

HOBBS TEST RUNS WILD; DAM BUILT

Shell Al State Makes 2,000 Barrels, Fifty Million Feet

HOBBS, Okla., June 5.— Coming in unexpectedly at ten o'clock this morning Shell's No. A-1 State, section 32-18-38, was making an estimated fifty million cubic feet of gas and 2,000 barrels of oil daily, from total depth of 4,300 feet.

The well was out of control. Holes were being thrown up to care for the oil, which was sprayed over the countryside by a brisk wind.

Mile From Bowers

The well is a mile southeast of Bowers, which is produced from 4,100 feet and has been estimated as good as a 7,000 barrel well.

Holes for two miles north of the well have been shut down due to the fire hazard created by the oil spray.

Just 100 yards south of the well is a perfectly formed natural basin large enough to hold approximately 250,000 barrels of oil. This completion indicates an extensive pool within two miles of New Hobbs.

VAN LARGEST

VAN, Tex., June 5 (AP)— Estimated to have a daily production of 6,000 barrels, the largest well brought in in the Van field, the Pure Oil Company's L. W. Thompson No. 1, an offset to one location east of the 50,000 barrel Murphy well, spouted free today.

Mr. Thompson's well was brought in from a depth of about 2,900 feet, the oil sand being encountered 100 feet higher than in the Murphy well and measuring fully 300 feet in thickness, according to the log.

SCHLICHER

PHILLIPS-INTERSTATE'S No. 1 Well, Schleicher county, which for more than a week has been masking 750,000 cubic feet of wet sweet gas and a bather of over 500-barrel oil hourly from sand at 6,300-56 feet, has drilled to 6,370 feet in blue shale unchanged.

Blenheim, by Blenford from Malina, won by a length. There were two lengths between second and third.

The odds were 15 to 1 against Blenheim, and 25 to 1 and 11 to 4 respectively on second and third.

Blenheim, ridden by H. Wrangell, had been well regarded in the betting although not one of the first three favorites.

Smoky Valley, T. W. Southland, ran third.

The odds were 15 to 1 against Blenheim, and 25 to 1 and 11 to 4 respectively on second and third.

Blenheim, ridden by H. Wrangell, had been well regarded in the betting although not one of the first three favorites.

To Speak Here

Her Subscription
Paid Dividends In
Most Unique Way

Just to show that it pays to take the Herald here is a note from Mrs. J. A. Hambick, Route 1.

Note of Thanks: I want to tell the recipe editor about my growing monument to the Herald and also to thank you for recipe prizes awarded me.

I keep the first dollar as a souvenir for a good while awarded for best recipe on the market page. Friday—then when I won another I began to look for a safe investment.

I bought 12 T-bird Buff Orpington chicks and raised 11 almost flocks. Then I won two more dollars and bought 50 chicks and now have 34 almost broilers—all in all. And seventeen pullets being \$17. The cockrels will more than pay expenses.

This is a pretty good monument for \$4. I think so and will remember you in watermelons of time.

At about the same time will be the issue of the Longhorns' weekly luncheon at the Crawford Hotel.

It evidently shows that Mr. Small believes in the pledge which he is willing to take it himself or as long as his conscience demands. It's a good idea since a considerable part of his race appears to be based on the pledge of Mr. H. women workers in buildings for him and the pledges of Julians to cast their ballots for Mr. W.

We see women workers as world's greatest largely are those caused by the efforts of prohibitory temperance organizations.

Those who were hostile to the Inks of Alfred E. Smith, though he is general are those who

will defeat the democratic party in two years ago.

Antiquated campaign which even turn a hole in his pocket book, has arisen in the Valley country to contest the veteran Archie Potts as
