# Americans Fight Off Nazi Attacks

## GERMANY BOMBED AGAIN

## **SW Section Is Goal Of Forts And Liberators**

LONDON, March 2 (AP) U.S. Flying Fortresses and Liberators in strong force smashed at southwest Germany today hard on the heels of a 600-bomber assault by the RAF last night upon the important war center of

Stuttgart. The American target was not announced immediately, but the direction of the attack suggested a U.S.-RAF double night-and-day punch in the Stuttgart section like the ones highlighting last week's powerful aerial drive.

More than 600 RAF bombers participated in last night's operations with a record low proportional loss of only four planes. Mosquito bombers staged a diversionary raid on the shrine city of Munich, and other formations struck targets in France and the low countries. London newsppaers estimated 1,680 to 1,900 tons of bombs were

dumped on Stuttgart last night. The Allied daylight forma-4 tions headed out toward Europe at dawn, with Marauders of the U. S. Ninth Air Force bombing "military objectives" in northern France, perhaps on the Nazis' "rockef coast."

More Allied medium bombers flew over the strait this afternoon.

## **Stimson Gives Bombina Policy**

WASHINGTON, March 2 (A) The Allied military policy respecting Rome is to spare those portions of the city which the Germans themselves refrain from using for military purposes, Secretary of War Stimson said today. But he emphasized that 'American lives must be safeguarded, whatever the cost in material things."

"As in the question of the de-struction of the abbey of Monte Cassino," Stimson told a press forence the notice of t department is definite and clear; every possible precaution is to be taken against the destruction of cultural, historical and religious

"Should it become obvious, however, that the enemy is making use of such monuments for military purposes, and that the lives of American soldiers are thereby endangered, there can be no alternative, x x x"

## Narva, Vitebsk Are Threatened Lepke Confession By Power Drive

MOSCOW, March 2 (P)-Red army tommy-gunners have fought their way into the suburban streets of Pskov, while to the north, between Lake Pelpus and the Gulf of Finland, other Russian troops have badly outflanked the Estonian city of Narva, Soviet field dispatches said today.

LONDON, March 2 (AP) - Red rmy forces are closing in relentlessly on the three great German strongholds of Narva, Pskov and Vitebsk, key defense bases on the 350 - mile - long northern front, Moscow declared today,

In Estonia unitscof Gen. Leonid A. Govorov's Leningrad army threw a bridgehead across the Narova river south of Narva, cut the only German escape railway leading westward to Reyal, and are threatening the city from all four sides, a Russian communique announced.

One hundred and 10 miles to the south, another Russian army smashed closer to the Baltic gateway city of Pskov, capturing several heavily fortified strongpoints covering the approaches to the town, the Moscow bulletin said. More than 70 towns fell to the advancing Soviet troops. Other Red army forces previously had been reported less than six miles from Pskov on the north.

Two hundred miles southeast of Pskov, Gen. Ivan C. Bagramian's First Baltic army was marching on the White Russian base of Vitebsk. The Russians said they had captured more than 30 towns and villages in a converging movement which drew a noose tighter around the key German-held fort-

Moscow said that the Narova river crossing was made along a 22-mile front south of Narva and penetrated nine miles beyond to the rail station of Auvere, on the Narva - Reval trunk line. This placed Govorov's troops approximately 15 miles inside Estonia.

The Russians met powerful German resistance in the Narova crossing, the Moscow bulletin said, but Govorov's infantry and artillery smashed through, killing 1.200 Nazi troops and routing two regiments in the bridgehead battle and capturing 25 big guns, together with other abandoned war

Five submarine chasers shepherding a 7,000-ton Japanese aircraft carrier through Malacca Strait couldn't prevent a British submarine from sending torpedoes crashing into the flattop's and probably sinking her the British admiralty announced today

It is through Malacca Strait, which separates Malaya from the island of Sumatra, that most of the supplies to Japan's army in Burma must pass.

The admiralty also said other submarines scored torpedo hits on a Japanese cruiser in the same area, but not in the same action, and sank a medium-sized supply ship. A smaller supply ship was shelled into submission.

In the southwest Pacific war zone, Allied headquarters confidently predicted quickly-captured Momete airdrome of the invaded Admiralty Islands "will shortly be in full use by our air force," and reported the enemy's first major counter-attack against the American beachhead had been repulsed.

The airfield, located on Los Negros Island, is the larger of two in the Admiralties and the prize for which Sixth army forces battled when they swept ashore on the Bismarck sea islands Tuesday morning.

## Mopup Squad Makes Certain The Day sof Plentiful Jap Defenders Of Eniwetok Die

By WILLIAM L. WORDEN AP War Correspondent

ENIWETOK ISLAND, Marshalls, Feb. 20 (Delayed) - The enemy are dying tonight on Eniwetok, alone in lonesome holes. The Americans who come past after they are dead throw in more grehades-just to be certain.

The once proud Japanese troops, who carried with them numerous pictures of their bright-bayoneted. smartly-uniformed reviews among the rolling hills of Manchuria, never were given a chance. Planes have blasted them.

Other planes sought out their food supplies, burning them so that the enemy would starve. They sought out water tanks, leaving the enemy to thirst.

The enemy on Eniwetok is tens-

cious. There were foxholes under There were concrete pillboxes. There were caves in the beaches, deep, lateral caves with several entrances.

The mopup squad comes past. A rifleman finds an entrance to a cave, with a dead Japanese half out of it. The rifleman fires his gun a few times into the body, to be sure the man is dead. He peers into the cave's darkness. sees nothing But he empties a elip from his rifle down the ennce. Then he listens.

If he hears anything or if he feels only that queer prickling sensation which seasoned sol-diers trust more than their eyes, he signals to a man with grenades. The grenade is thrown easily down into the cave. The squad stays at a distance until it explodes.

The mopup squad confers Sometimes the men decide that

## Meat Long Way Off

WASHINGTON, March 1 (AP)-The day when you again can buy all the chops, steaks, and other meat you want are still a long way off despite temporary easing of restrictions on civilian con-sumption in this country and in Cânada.

As the officials size up prosmeat experts today of this coun-try's war food administration and representatives of the United Nations combined food board a body representing the United States, Canada and the nUited Kingdom.

As these offiicals size up prospects, civilians in all the United Nations may have to do quite a bit more belt tightening as far as meat is concerned before the

This point was emphasized by Price Administrator Chester Bowles who said:

"The higher point values we have been expecting seem sure to come next month."

Bowles saw "no likelihood that this country could follow Canada's lead and suspend meat ime, declaring "the supply situation just doesn't warrant it.'

The lowering of meat ration values in this country, starting Sunday, and the temporary sus-pesion of rationing in Canada effective immediately, merely reflect, officials said, a momentary glue of marketing and storage facilities in both countries.

This period of extra supplies may last only a few weeks. Livestock marketings, particularly of beef cattle, are expected to decline in the spring and summer Such a decline would make it necessary to raise ration values and here and to resume rationing in Canada

## Pressure Reported Applied To Turkey

ANKARA, March 2 (AP)-Reorts were current here today that Britain has halted the delivery of both military and civilian supplies to Turkey as a result of the recent collapse of British-Turkish nilitary talks.

While there was no confirmation rom Turkish officials, it was obvious that they were disturbed by the reports, which were interpreted in some quarters as part of Keesler Flied in Bilox, Miss. Upcampaign to high-pressure Turkey into entering the war on the side of the Allies.

It also was reported without confirmation that American lendlease material was included in the

## City Dads Call Special Session

City commissioners were due to meet in special session Thursday afternoon to make a further study of juvenile matters, City Manager

J. McDaniel announced. The parley followed on the heels of a joint meeting at the city hall between city, county, and Big

Spring school officials.

McDaniel said that the meeting asted for more than two hours, but that it was pruely in the discussion stage and that although ideas were exchanged no policies had been formulated.

Out of the meeting Thursday afternoon might come a more definite agreement on the part of city commissioners, the manager thought.

Earlier in the week the meeting had been held in the commissioners courtroom.

## Of Texas Feeling

WASHINGTON

Today Texas celebrates the 108th anniversary declaration of her independence from Mex-

Many people, and particularly those from other states, are puzzled and sometimes amused or amnoyed by the goings-on in Texas and by the talk by and of Texans over the world today. This is understandable, for they do not understand the rich history of Texas, which, thanks to a continuing state pride, is still drilled into the heads of each new generation through our schools.

It might help a lot of folks to consider that Texans come from the good old stock from Tennessee, Alabama, Georgia, and many other states, that these people migrated to Texas out of choice and eager for a new adventure in living. Instead, they ultimately found false promises and then tyranny.

They fought back, and to this good day it has been a tradition of the state never to be pushed around. It is somewhat characteristic of individual Texans and certainly it is true collectively as withess the record of men and women who, not only are but have been fighting in great volume since even before the United States was drawn into

Our rugged forefathers are proud of their liberties, and they valued them more than a compromised life. Thus, on March 2, 1836 in a partly built blacksmith shop down in the lower Brazos country, they solomnly declared their independence-and what is more important, after a series of critical set-backs, they kept on until they delivered the blow which 'on it at San Jacinto, a

Texas then became a republic, and this is a fact which many outsiders fail to comprehend in their analysis of Texans. That young republic again protected its liberties from another treacherous thrust from Mexico, thus establishing its right to an existence as a republic.

When Texas came into the union in 1845, she came as one sovereign nation joining another. She was no territory being annexed or one state being carved out of another. Although the much lesser partner in power and size, she was infused into the union in the spirit of ally as well as partner.

Hearking back to their history, Texans never quite get away from an unconscious feeling that theirs is just a little more than state pride.

All this talk about how big we are as a state, of our seemingly limitless variety of resources, of our beautiful girls, etc. somehow stems down from the spirit of that group, which 108 years ago today declared that we would be an independent people And somehow, no matter if it does sometime rub the fur of out-of-staters a bit the wrong way, we hope that that Texas feeling will continue to be handed down from fathers to sons and from mothers to daughters.

## The War Today

by DeWitt Mackenzie Associated Press War Analyst

The Finnish press today was taking a hostile view of Moscow's armistice terms, and Finns in Stockholm expressed the opinion that their country wasn't likely to accept the Red proposals, mainly because she couldn't afford to withdraw her troops from their present positions as a preliminary to further talks,

However, Helsinki presumably is sparring for position. Finland's alternative to making peace now is to invite disaster by continuing as an aily of the Hitlerites. America, giving friendly advice, has warned the Finns that they must quit or their blood will be on their own heads. o

It's an anxious moment not only for harassed little Finland but for all the United Nations, since her submission undoubtedly would set in motion great events favorable to the Allied cause. As the signs read, capitulation by the Finns might impel Bulgaria also to desert the Axis. "Realizing all this, you get an added significance from Marshal Stalin's statement to President Roosevelt that he believes the final defeat of Hitler is near.

Stalin's Red armies have set the Hitlerian battle line in Russia rocking until even its extreme flanks are being shaken. Those flanks are Finland in the north and Bulgaria in the south,

There certainly is a strong possibility that both countries would become temporary battle grounds, until the Germans were cleared out by force, or were threatened with being cut off and annihilated. It would be too much to expect Hitler to abandon these positions voluntarily.

Getting Finland out of the war and clearing to take the job of one of the sion of the largest bibliographic that country of Germans would help to make the world's great scholars, Dr. Israel establishment on earth is a life-Baltic states untenable for the Nazis and expedite the Red advance in this territory.

It would release the Red navy into the Baltic It would relieve the German menace which Schapiro is the Semitic division, around your neighborhood, tell long has hung over Russia's great Arctic port of Murmansk, and permit a free flow of supplies into the Soviet from the north. It would in due course release large numbers of Red troops from the Finnish war and permit of their use elsewhere,

Bulgaria's desertion of the Axis would be to the Balkans what a lighted match would be to a key of gun-powder. The whole peninsula probably would blow up in Hitler's face, for Rumania and Hungary couldn't long stand the strain.

Mr. Breen's, watchful crew helped the kissers some by holding a figurative stop-watch on their embraces, but this does nothing about the number of times a kisser must kiss before all other parties are satisfied. In ordinary life kisser and kissee have only themselves to please. In the movies the kissers are generally the pair least intimately concerned in the proceedings-and get it in the neck.

These sympathetic reflections were prompted by witnessing to-day the kissing of Joan Leslie by Robert Alda for a "Cinderella Jones" scene-and the realization that on scores of stages around Hollywood the same artistic suffering was in progress.

Joan, putting down her book, was all ready for the kiss, lips puckered, head thrown back at an attractive angle, eyes ready to close when Bob enfolded her in his arms. But Sol Polito, the head cameraman, discovered that Bob's nose was throwing a shadow over

## Solons Would Lift **Meat Rationing**

WASHINGTON, March 2 (47)-Suspension of meat rationing in Canada evoked some congressional agitation today for a similar step in this country but most legislators adhered to the official view that the meat surplus is temporary and that lowering of ration point values is all that is justified.

Commenting on testimony yesterday of Philip R. O'Brien, president of the Chicago board of trade, that government grain price policies had led to an oversupply of livestock, Senator Wheeler (D-Mont) said it seemed "inconsistent for this government to continue strict rationing when we have so much livestock that the markets have been glutted."

"It just doesn't make sense to the average person," he added. But Senator McClellan (D-Ark), member of a committee which recently considered legislation to force a suspension of meat rationng, said the peak of the hog man

keting season has now passed "I don't know that we could justify a complete rationing suspension," McClellan said, "but I do think the War Food Administraion and the Office of Price Administration have been too rfgid in their point value rules. Their policy in the past hasn't been elastic enough. They have been sMffeared to arguments about the meat
