

# Wayne Brushes Away Tear, Takes Oscar

**HOLLYWOOD** (UPI)—John Wayne, 62, brushing a tear from his eye, won the Oscar for best actor, Maggie Smith for best actress, and "Midnight Cowboy" the best picture of the year at the 42nd annual Academy Awards presentation Tuesday.

Wayne accepted the Oscar for his role as a hard-drinking, rough-riding lawman in "True Grit." He was a sentimental favorite for his 35 years of stardom in adventure and Western films.

Miss Smith was voted best actress for playing a pathetic but gallant spinster in "The

Prime of Miss Jean Brodie," a tragic-comedy set in an English girls school.

"Midnight Cowboy," the story of two down-and-out young men in contemporary New York City, won three Oscars in all, including best screenplay and best direction by John Schlesinger.

Best supporting actor was Gig Young for his difficult role as the jaded emcee of the depression days dance marathon in "They Shoot Horses, Don't They?"

**Surprise Winner**  
Surprise winner of the evening was television come-

dienne Goldie Hawn, a regular on "Rowan and Martin's Laugh-In," for best supporting actress in "Cactus Flower," playing a doting blonde.

The Los Angeles Music Center audience was primed when Wayne was announced as best actor.

The big man lumbered to the stage and told the crowd he was no stranger to the Oscar program. He had accepted statuettes for friends, including Gary Cooper, in the past.

Backstage he said, "You don't think that you'll get all excited and all gooey inside, but when it happens to you, you

do. When I heard my name called I didn't know whether to stand up or to run."

Only Wayne and Young among the top winners were present. It was the first award for each. Said Young, "This was definitely my best role."

**Wins Two Oscars**  
Composer Burt Bacharach won two Oscars, for his score of "Butch Cassidy and The Sundance Kid" and for the best song in films during the year, "Raindrops Keep Fallin' On My Head."

Presentations were made by the biggest names in Holly-

wood: Frank Sinatra, Raquel Welch, Candy Bergen, Cliff Robertson, Elizabeth Taylor, Barbara Streisand and others.

A tumultuous tribute was paid Cary Grant who has never won an Academy Award in his four decades in Hollywood motion pictures. He was presented an Oscar for his contribution to movies following a series of clips from his films going back to 1932.

The academy voted the Jean Hersholt Award for Humanitarianism to George Jessel.

Irresponsible Bob Hope quipped about the trend toward

nudity and sex on the screen and by prearrangement, coaxed Fred Astaire, 70, into dancing for the first time at an Academy Awards presentation.

**Best Costume Design**  
Best costume design went to Margaret Furse for the pageantry in "Anne of the Thousand Days."

"Z," filmed in Algeria and dealing with the recent Greek revolution, was voted best foreign film of the year. Banned in many countries, "Z" broke precedent by being the only picture in academy history to be nominated both best

picture and best foreign picture (with subtitles).

Celebrities arriving for the awards were jeered by demonstrators carrying placards asking for more film work by Mexican-American performers and craftsmen.

The show itself, however, was uninterrupted and ran more than two hours.

After the awards were announced and the show completed, the winners, losers and presenters drove 15 miles to Beverly Hills to celebrate Oscar's 42nd birthday at the academy's Governor's Ball.

"A man's own conscience is his sole tribunal and he should care no more for that phantom 'opinion' than he should fear the ghost, if he crosses the churchyard at dark."

# Senate Turns Thumbs Down On H. Carswell

## IN CITY ELECTION Some Fished, Some Golfed Some Worked Few Voted

By **TEX DEWEESE**  
News Staff Writer

In what city officials describe as one of the most lackluster elections in Pampa's history, a total of 94 out of approximately 10,000 eligible voters turned out yesterday and cast their ballots in two uncontested races for Ward 2 and 4 city commission posts.

Commissioner Hugh Burdette, running for re-election in Ward 2, received 81 votes. Arthur Rohde, making his first political bid, received 86 votes for the Ward 4 seat.

The balloting was city-wide. There were six write-in votes. L.P. Fort, a former city commissioner, got 4 votes and Shelby Ruff received 4 in Ward 2.

In Ward 3 Sam Mackey and Gene Lewis each received one vote.

Ward 1—Burdette 31, Rohde 25; Ward 2—Burdette 28, Rohde 12, and Ward 4—Burdette 10, Rohde 14.

City Hall officials declared yesterday marked the first time since Pampa stepped up to the city class of 10,000 or more population that fewer than 100 persons turned out for a municipal election.

There was a total of 189 votes cast in the April 1969 election when a mayor and two commissioners ran uncontested.

When an election was called in September of 1969 on the city's one-cent sales tax issue, 3,089 voters went to the polls.

One political observer conjectured that a real hot write-in candidate could have won either seat in yesterday's election by rounding up only 87 votes.

## Nixon Put Down By 51-45 Senate Vote

**WASHINGTON** (UPI) — The Senate defeated the nomination of Judge G. Harrold Carswell today, repudiating President Nixon a second time in his choice of a Supreme Court justice.

The vote against confirming Carswell was 51 to 45. Four and a half months ago the Senate rejected Nixon's nomination of another southern federal appeals judge, Clement F. Haynsworth Jr., by a margin of 55 to 45.

The tensely awaited showdown vote began in the Senate chamber at 1 p.m. EST with the issue in doubt almost to the last moment.

Nixon and administration forces had fought to the hilt for the 50-year-old Floridian and on Monday succeeded in defeating a move to recommit the nomination to the Senate Judiciary Committee.

But Carswell support eroded in the ensuing 48 hours with the opposition camp picking up pledged support from such young Republicans as Sens. Charles H. Percy of Illinois, Mark Hatfield of Oregon and Charles McC. Mathias of Maryland.

The rejection was the second direct setback for Nixon in the 11-month effort to fill the court vacancy created when Abe Fortas resigned under fire.

Critics convinced a majority of the Senate that Carswell was unfit to serve on the Supreme Court, alleging he lacked judicial stature, held white supremacist views and had been less than candid in testimony to the Senate Judiciary Committee at his confirmation hearing.

The rejection means that the court will continue to operate with eight justices for the remainder of the current term.

### GERMAN MEASLES???

## Little Red Splotches May Delay Blastoff

**CAPE KENNEDY** (UPI) — Convicted Apollo 13 commander with blastoff of America's third James A. Lovell is immune to moon landing mission only German measles.

Three days off a space medical. But they were so unsure team raced through new tests about command module pilot today to determine whether two Thomas K. Mattingly and lunar module pilot Fred W. Haise coming down with German that chief astronaut physician Dr. Charles A. Berry ordered new blood samples of these two

taken Tuesday night and rushed to the Manned Spacecraft Center Biomedical Laboratory in Houston.

A discrepancy in results of blood samples taken earlier of Mattingly and Haise left project officials concerned not only about the health of the astronauts, but also about the validity of the tests upon which they hoped to base a decision whether to launch Saturday or postpone the mission until May 9.

Berry learned Monday the prime Apollo 13 crewmen had been exposed to German measles through working closely with backup astronaut Charles Duke who came down with the disease last weekend.

Berry said if Lovell, Mattingly and Haise "have no antibodies to this virus at the present time, the odds are very high that they would get it."

If any of the astronauts show definite signs of contracting the measles, the Saturday takeoff on the 10-day mission would almost certainly be postponed until May 9, the next date on which the sun will be in position to provide proper lighting for the tricky touchdown on the moon.

Although their medical status was in doubt, the astronauts held to their pre-flight training schedule. They went through a final rehearsal of the moon landing with mission controllers monitoring them Tuesday, and today planned to practice docking the two spacecraft in lunar orbit and key phases of the moonwalks of Lovell and Haise.

## Sanity Hearing In Lubbock For Lab Slaying Of Cleaning Woman

**LUBBOCK** (UPI) — Attorneys questioned a jury panel 28 minutes today and picked 12 men to form a jury in a sanity hearing for Benjamin Lach, charged with murdering a Texas Tech cleaning woman.

The hearing was to continue immediately after a five-minute recess in hopes of ending it in one day.

Lach, dressed in a dark blue suit, appeared very alert and left with his lawyers when they retired to choose the jurors they wanted. His mother, Mrs. Herman Lach, leaned over and whispered to her son during the questioning period.

District Attorney Blair Cherry Jr. said he planned to present only one witness in the hearing in hopes of hurrying.

Court appointed defense attorneys Bill Gillespie and A. W. Salvary doubted the hearing would be completed so soon.

Lach, a 25-year-old Polish born graduate student at Tech allegedly killed the woman in a laboratory office Dec. 4, 1967.

Shipment Wool Yarn received, first come, first served. Duckwalls.

Ward 1 at City Hall registered the heaviest vote of the day with 35. Ward 2 at North Fire Station had a total of 32. Ward 3 at the Optimists Boys' Club had 13 and Ward 4 at the South Fire Station had a day-long total of 14 votes.

The vote by Wards went this way:

## Search Is On For Small Pup

Darla Jewett, 14-year-old daughter of Mr. and Mrs. Earl Jewett, 105 N. Dwight, will have to take a series of 21 rabies for her Good Samaritan act unless a small, eight-week old puppy is found by Monday.

Darla and her sister, Nancy, were riding their bikes late Monday at the corner of 21st and Nelson St., Mrs. Jewett said. "When Darla saw the puppy whimpering from a hole beside a water faucet, she lifted him out. She was then bitten by the dog; just two small tooth punctures on each side of her finger," her mother stated.

"It bit a little, but that's all it takes for her to have to have those shots, because we don't know if the puppy had rabies or not. The doctor said the shots are very painful, and since there's no cure for rabies, we can only prevent it. If we don't find the puppy by Monday, she'll have to start the shots," she said.

Mrs. Jewett described the puppy as "small, about eight weeks old, with long dark hair in several shades of brown, with black on its face, and no collar or other identification."

## Teamsters Idle Thousands

By **United Press International**

Wildcat strikes by Teamsters unhappy with a proposed national wage settlement tied up freight movement in the Midwest and in California today, idling thousands of industrial workers.

Drivers were expected to go back to their jobs in Minneapolis-St. Paul, Minn., hoping for a chance to vote on the nationally negotiated \$1.10-an-hour wage hike.

Chicago Teamsters Local 701 and the independent Chicago Truck Drivers Union, which bargain separately, struck another six cartage firms Tuesday, bringing the total of companies hit by selective walkouts to at least 16.

The Chicago unions have been urging 1,200 area cartage companies to sign a three-year contract providing \$1.70-an-hour raise.

An all-but-total shutdown by 9,500 St. Louis Mo. Teamsters forced the closing of Chevrolet, Fisher Body and Chrysler truck plants, idling 12,300 workers, and hampered area express operations dependent upon piggyback trailers.

Twelve hundred Whirlpool Corp. workers were idled during the walkout by St. Paul teamsters; 3,000 Motorola Corp. workers in Illinois were without work and 300 Ford Motor Co. employees were idled in Lima, Ohio.

Larger terminals in San Francisco's East Bay Area were shut by continued walkouts. A temporary court order against a strike was made a temporary injunction without noticeable effect. Trucking company officials said their next move would probably be seeking contempt citations against the strikers.

Nineteen-thousand drivers re-

## Action Due Today On Rail Threat

**WASHINGTON** (UPI) — With Congress exasperated by widespread labor strike, President Nixon was assured today of House and Senate approval of his plan to force a contract settlement on railroad shopcraft unions and end the threat of a weekend nationwide strike.

The Senate scheduled action today on the bill. An almost identical measure was rushed to the House Rules Committee for floor action Thursday. This would beat the midnight Friday expiration of a congressionally-imposed strike moratorium.

Nixon's plan would make binding on four shopcraft unions a contract agreement tentatively approved by three of them in December but rejected by the Sheet Metal Workers Association.

Whether dissident union members will accept an imposed settlement remained to be seen. Leaders said there was no guarantee wildcat strikes might not result from "bitter disappointment" over such a solution.

## Overdue Hearings Put Back On Court Docket

**WASHINGTON** (UPI) — The Supreme Court has restored to its hearing calendar for the week of April 27 five cases that have been pending since the departing almost one year ago of former Justice Abe Fortas.

The appeals, which deal with criminal anarchy and other state laws, originally were rescheduled for the first week of the current term in October. They were removed when it

## Stalin's Kin Weds

**PHOENIX, Ariz.** (UPI) — Svetlana Alliluyeva, youngest daughter of Soviet dictator Josef Stalin, and architect William Wesley Peters were married Tuesday in a secret ceremony.

The wedding, attended only by a few friends and associates was conducted at Tallies West, the residence of Mrs. Frank Lloyd Wright, widow of the famous architect, and headquarters of the Wright Foundation.

# Informative Film On Cancer Slated Here

Doors of the Capri Theater will open at 9:30 a.m. tomorrow for the free showing of "Time and Two Women," an educational movie of the American Cancer Society.

The film shows how and why the cell examination for uterine cancer could lead to the virtual elimination of uterine cancer as a major cause of cancer death among women.

For those women unable to attend the morning showing of the film, a second free showing will be held in the evening at 7:30 p.m. at the Carver Educational Center.

Mrs. Kermit Lawson, ACS spokesman here, says the cell examination for uterine cancer is the key to the earliest possible diagnosis of uterine cancer.

"Our aim in showing this new film," she said today, "is to convince every Gray County woman over 21 to have an annual check-up that includes the cell examination for uterine cancer."

"I can't emphasize too strongly how important this film is to women. It explains clearly and simply what uterine cancer is and how vital the cell examination for uterine cancer is to life and health."

Featured in the film is Doctor Joe V. Meigs, one of the nation's most prominent gynecologists.

Dr. Royce Laycock will be available at the morning showing at the Capri Theater to answer questions from the audience. Dr. Wilbur Whittell Jr. will be present at the Carver Educational Center showing in the evening.

Mrs. Sam Milusey said the film was available for screening before clubs and organizations. For information please call her at 669-669.

Uterine cancer, the second most common form of cancer in women, now claims the lives of 14,000 American women annually. Although ACS statistics also show that 55 per cent of all uterine cancers are now being cured, medical authorities say the disease is practically 100 per cent curable if it is detected and treated in its earliest stages.

The film is part of the Society's current ten-point campaign against uterine cancer.

JAYCEES installed these new officers at its dinner dance Saturday evening in the Pampa Country Club. Heading up Jaycees many civic projects are, front row from the left, Jack Potter, second vice president; Buzz Shelton, president; Milton Saltzman, first vice president; Emmett Saltzman, secretary; second row from left, Roscoe Sealy, treasurer; Gene Hinds, Don Williams, Turner, inter-club director; back row, from left, Woody son, Joe Sutton, Nathan Lancaster, directors; Dwight Crawshaw, director and John Warner, parliamentary. (Staff Photo)

## PATCO Puff Up Worsens Project Plans

WASHINGTON (UPI)—A ruling the Professional Air Traffic Controllers Organization is in contempt of court may worsen—rather than relieve—the current airport tieups, according to PATCO Executive Director F. Lee Bailey.

U.S. District Judge George L. Hart ruled Tuesday the "sick-out" involving about 2,000 controllers represented a strike against the federal government—something barred by law.

Hart said PATCO "instigated" the walkout and he "reluctantly" concluded the group must be held in contempt for violating an earlier court order against the move.

Bailey, the Boston criminal lawyer whose avid interest in flying brought him to PATCO, said immediately after Hart's decision the dispute was not likely to be settled soon.

The judge scheduled a hearing Saturday to discuss what action should be taken on the contempt finding. He urged all the controllers now out sick to return to work before then.

## Pill Takers Will Now Be Warned

WASHINGTON (UPI)—The government has disclosed a 100-word warning statement it will require in every package of oral contraceptives.

A spokesman said the warning is shorter than the originally proposed 800-word statement to ensure that more women will take time to read it. The new statement says:

"The oral contraceptives are powerful, effective drugs. Do not take these drugs without your doctor's continued supervision. As with all effective drugs they may cause side effects in some cases and should not be taken at all by some. Rare instances of abnormal blood clotting are the most important known complications of the oral contraceptives. These points were discussed with you when you chose this method of contraception."

"While you are taking this drug, you should have periodic examinations at intervals set by your doctor. Tell your doctor if you notice any of the following: 1. Severe headache; 2. blurred vision; 3. pain in the legs; 4. pain in the chest or unexplained cough, irregular or missed periods."

## Mainly About People

The News invites readers to phone in or mail items about the comings and goings of their selves or friends for inclusion in this column.

Phi Epsilon Beta of Beta Sigma Phi is conducting a stamp contest to assist Happy Haven Children's Home. To enter the contest, call 5-8332 or 5-8879, according to Mrs. Harold Taylor, Chapter president.

Going out of Business Sale. Dykes, 120 W. Foster.

Lamar PTA will meet at 2:15 p.m. Thursday in the school auditorium for a program by the Lamar Band under the direction of David Robertson. An executive meeting is slated for 1:45 p.m.

## Senate Doesn't Go Along With Nixon's Proposed Stamp Raise

WASHINGTON (UPI)—Senate Democrats have advised President Nixon to finance a 14 per cent postal pay raise without his proposed dime stamp for a letter.

Prodded by labor disputes, the Senate scheduled action today on both a \$2.5 billion pay increase for federal workers and imposition of a negotiated settlement on four railroad shopcraft unions. The rail and House this week to avert a nationwide strike at midnight Saturday.

The pay raises, retroactive to Dec. 27, would add 6 per cent to the salaries of 5.6 million federal employees, including 700,000 postal workers and 3.5 million servicemen.

The raises would cost \$2.5 billion a year, and a proposed 8 per cent additional raise for postal workers would cost another \$720 million.

Both were negotiated in the wake of wildcat postal strikes as part of a package that also includes postal reforms going part way toward Nixon's postal corporation plan. The corporation proposal itself appeared dead.

The Senate Democratic Policy Committee voted unanimous opposition Tuesday to Nixon's "pay as you go" proposal, which would increase the price of a first class stamp from 6 to 10 cents.

## County Solons Set Meeting

The office of County Judge S.R. Lenning Jr. has announced the agenda for Friday's meeting of County Commissioner's Court.

Commissioners are scheduled to appoint a trustee to accept property from the estate of Katie Beverly who died in 1962 to settle hospital debts. The property is a house at 429 N. Cuyler.

Commissioners will also discuss a \$200 fee for the use of facilities at Perry Lefors Field by crop-spraying operations.

Also on the agenda is the discussion of workman's compensation and reports from the county welfare department and treasurer.

## Amarillo Prisoner Still Free

AMARILLO — Three prisoners sawed their way out of a Potter County jail cell early today, dropped two stories to a ledge and escaped through a courthouse office.

Two of the men, Fred Cherb of Amarillo and Robert Wayne Carter, 31, were caught within 90 minutes of the break. Cherb was caught near the courthouse. Carter was caught at the local bus station.

A third prisoner, James Lee Walkers Jr., 18, of Amarillo remained at large.

"They sawed out of them fool-proof bars," said Potter County Sheriff Paul Gaitner. "It's the first jail break I've had since Nov. 23, 1949."

Gaitner said the prisoners sawed through several cell bars and through two window bars with a saw blade he believed had been slipped to them by visitors.

"These damned jails. They could build a damned machine-gun up there if they wanted to," Gaitner said. "We just have one jailer up there and these visitors or trustees can go there and slip them saw blades."

Gaitner said the men were housed in a 7th floor cell. After sawing out the window they dropped two stories to a 15-foot wide ledge outside the district attorney's office. They then broke through the office and walked out the front door.

"There's no telling where Walters went," Gaitner said. "We've got an all-points bulletin out on him."

## Rear-End Collision Damages Car

Two automobiles collided this morning in the 200 block of west Kentucky street.

According to police reports, a car driven by Robert Frank Henderson, 60, of 1405 N. Hobart St. was stopped for traffic when his vehicle was hit from the rear by a car driven by Mrs. Gloria Daniel Kidwell, 27, of 1137 N. Starkweather St.

Damages were estimated at \$150 to Mrs. Kidwell's auto and \$75 to the car driven by Henderson.

Mrs. Kidwell was cited for failure to control speed to avoid an accident.

## Fine Levied For SWWC

Mrs. Jerry Thomas, of Canadian, entered a plea of guilty in county court Tuesday to charges of swindling by worthless check and was fined \$5 plus costs by Judge S.R. Lenning Jr.

In other court action, Arthur J. White, of Rosenberg, Texas, entered a plea of nolo contendere to charges of driving while intoxicated and was fined \$50 plus costs, given a 30 day suspended jail sentence and placed on six months probation.

LANCASTER, Pa.—Craig W. Moodie, vice president for advertising of the Armstrong Cork Co., while speaking at the National Convention of Building Products Distributors about his company's decision to drop television advertising.

"Absolute power corrupts and network television as we know it today is corrupting itself."

## Obituaries

**EARL WALLIN**  
Graveside rites will be held at 10:30 a.m. Saturday at St. Joseph Cemetery at Silver Lake, Minn.

Mr. Buske died at 1 p.m. Tuesday at Highland General Hospital.

He was born April 2, 1912, at Glencoe, Minn., and moved here in 1942 from Silver Lake, Minn. He was a construction foreman for a well service the past 15 years. He was a member of St. George Catholic Church of Glencoe.

Survivors are his widow, Mrs. Mildred Buske of the home; one son, Terry, San Antonio; one daughter, Mrs. Anita French, Hutchinson, Minn.; one sister, Mrs. Ethel Sherman, Glencoe, Minn.; and four grandchildren.

**BILL PATTON**  
Funeral services for Bill Patton, 71, will be held at 2 p.m. Thursday in Duenkel Funeral Home Chapel with the Rev. Shelby Anglemeyer, interim pastor of First Christian Church, officiating. Burial will be in Fairview Cemetery.

Mr. Patton died in Highland General Hospital, after a lengthy illness.

He was born Dec. 20, 1898, in Parker County and moved to Pampa in 1907, from Laketon. He was a retired employe of the City of Pampa, after 20 years service.

Survivors are two brothers, Kivel, and Fred, both of Pampa.

**ALLEN BUSKE**  
Funeral services for Allen George Buske, 58, of 413 Pitts, will be held at 10:30 a.m. Thursday in Carmichael-Whitley Colonial Chapel with the Rev. Francis J. Hyner, C.M. of St. Vincent de Paul Catholic Church, officiating.

## Koepchne Inquest Transcript Can Be Released In Few Days

EDGARTOWN, Mass. (UPI)—A fourth investigation into the death of Mary Jo Koepchne lasted only three hours and 15 minutes. It added nothing to the public knowledge of what happened on Chappaquiddick Island the night of July 18, 1969, but did open the way for the release of the secret inquest into Miss Koepchne's death.

The Dukes County Grand Jury questioned four persons peripherally connected with the Koepchne case Tuesday, then announced it had no action to take.

District Attorney Edmund Dimis said this meant the case was closed and he would notify the Superior Court clerk there was no proposed prosecution. This would allow release of the impounded inquest transcript under state Supreme Court rules.

It should be made public in a few days.

Miss Koepchne, 28, drowned in Sen. Edward M. Kennedy's car. Twenty grand jurors sat Monday and one hour Tuesday, at standard pay of \$14 per day, to question the four persons.

Was it, in effect, a tok-investigation? The special session was requested March 17 by the jury foreman, and Dimis on March 24 concurred in the request. Shortly before 11 a.m. Tuesday, the foreman, Leslie H. Leland, reported to the judge: "The grand jury has no presentments (indictments)."

It was reported the grand jury had asked for the locked-up transcript and the judge's report of the secret inquest here in January—764 pages covering four days of testimony by 27 prime witnesses—and had been denied it.

If that report was correct, why didn't the grand jury, a powerful body, go ahead and call in those same witnesses, launch its own investigation of the case?

Some court observers suggested that it may have turned out when the jurors were convened that a majority did not feel like getting involved in an investigation and that the four minor witnesses were called to satisfy personal curiosity.

When the grand jury wound up Tuesday, those of the general public who had nagging questions in July were no nearer to the answers.

## Tunney's Daughter Still Jailed

CHESHAM, England (UPI)—A judge ordered the daughter of former world heavyweight boxing champion Gene Tunney held in jail another week today at the request of authorities gathering evidence to support charge she murdered her husband.

Joan Tunney Wilkinson took the order of Magistrate C. G. Rickett without emotion, appearing calm and subdued in the dock, her tan leather jacket hanging casually open.

The two-minute hearing was the second in the case of Mrs. Wilkinson, a 30-year-old mother of two who was arrested March 29 after the body of her husband, Lyn Carter Wilkinson, was found in their cottage with head injuries.

In her first hearing, March 31, the murder charge was formally filed and she was ordered held in custody until today's hearing, when authorities were supposed to have reported whether they had enough evidence to support the murder charge.

Gene Tunney Jr. and Jonathan Tunney, Mrs. Wilkinson's brothers, had flown to Britain for the first hearing last week but did not attend this morning's session. They were reported in London.

## Kennedy Hopes Sad Chapter Concluded

WASHINGTON (UPI)—Sen. Edward M. Kennedy, showing relief, says he hopes the grand jury's decision to end its investigation into the death of Mary Jo Koepchne will bring the case to a close.

"I'm obviously very much satisfied that the district attorney and the attorney general and the grand jury didn't feel that there were matters that should be pursued," Kennedy told reporters Tuesday after learning that the Dukes County Grand Jury in Edgartown, Mass., had voted no indictments after a two-day inquiry.

"I'm hopeful that we're reaching the end of this for the sake of all the people involved," he said. "It's been a very difficult time and it's a great tragedy."

It was almost nine months ago—last July 18—that Kennedy's car ran off a bridge into a tidal pond on Chappaquiddick Island, causing Miss Koepchne's death.

The senator said he would now devote his time to winning reelection.

"I expect to run in Massachusetts for the U.S. Senate and I expect to serve the full six years," Kennedy said, again disclaiming any intentions to seek the presidency in 1972.

Kennedy said he would release a statement when District Attorney Edmund S. Denis files a formal report on the grand jury's action.

**IRENE SMITH**  
Pampan Heads Photog Group At Convention

Mrs. Irl M. Smith, 1008 N. Somerville, president of the Southwestern Photographers Association, will preside during the fiftieth anniversary convention, which will convene Apr. 11-14 in the Sheraton Hotel, Fort Worth.

Mrs. Smith is the second woman to serve as president of the five-state Association since its founding in 1920.

Mrs. Smith has served as director since 1962, secretary, vice-president and is serving as president for 1969-70.

It's been her responsibility to arrange for the program talent and other activities of the convention.

Mrs. Smith is a member of the Professional Photographers of America, Texas Professional Photographers Association, Panhandle Photographers Association, Photographic Artist Guild and Winona School Alumni.

Locally she is past president of the Altrusa Club; past president of the Wesleyan Service Guild, vice president of the Treble Clef Club, member of the Chamber of Commerce, Fine Arts Association, Community Concert Association and the United Methodist Church where she sings in the Sanctuary Choir.

Mrs. Smith and her husband, Irl M. Smith, have operated the Smith Studio in Pampa for more than 35 years.

The Smiths have two children: Duayne Smith of Spearman, Mrs. Rochelle Wilkins and three grandchildren of Pampa.

# Television In Review

By RICK DU BROW

HOLLYWOOD (UPI)—Television's ratings system has long been a favorite target of persons who belittle the industry's concern with statistics at the expense of quality.

As for myself, I have always believed the ratings actually give a pretty fair general idea of the popularity of shows in the mass sense.

Ratings, however, are a pretty exhausted nemesis. But statistics of a different kind may well be the video industry's next problem. I am talking about the new drive to

appeal to young viewers—"young" being a very variable age depending on which network is trying to impress you. The notion of attempting to interest young viewers is, of course, admirable—and, in view of the urban flow and more sophisticated public, makes good sense. The problem, however, is that network television, being a wholly mass medium, is really all things to all people, and most continue to be that way to be a success. Therefore, it must almost automatically forfeit a very definite image of any kind if it

doesn't want to alienate certain segments.

I don't believe that any single show, or even group of shows, is going to persuade the discerning, sophisticated young persons that the whole system—or an entire network—is taking on an image very much different than before.

But there is one way to beat the problem easily. And it is, and always has been, the simplest solution. And that is not to worry about how to construct shows too specifically for people—but just to put on the most excellent programs one can. That will change an image faster than anything.

It is amazing how the word gets around on genuinely

excellent programs, especially among young persons. It should be obvious by now that corporate solutions represent establishment solutions to young people, and they not only are indifferent to such tactics, but see them as a challenge. They don't want to be sold with tales about what one is trying to do. Like the rest of us, they want proof. They want to respond to something specific and notable.

WANDA MAE HUFF, WOMEN'S EDITOR

PAMPA DAILY NEWS PAMPA, TEXAS 83rd Year  
Wednesday, April 9, 1958

**THURSDAY, APRIL 9**  
**YOUR BIRTHDAY THURSDAY:** The year ahead leads you into some service beyond what is usually expected of you. Much of what you must do depends on your fair and trust in yourself and your relationships. For some the experience will have mystical qualities, for others theatrical.

**ARIES (March 21-Apr. 19):** — News and helpful figures come from strange places and peculiar people. Original ideas may lead you into being different or out of line with what is expected of you. Just be sure of your facts.

**TAURUS (Apr. 20-May 20):** — Steady work and some new ideas pay off better than speculation. It may be somewhat difficult to distinguish which of several paths to take.

**GEMINI (May 21-June 20):** — Go full speed ahead; bring your most persuasive powers to bear.

**CANCER (June 21-July 22):** — If some of your work can be done alone, out of public view, focus on that part of it. Confidential deals with institutions work out readily and more permanently now.

**LEO (July 23-Aug. 22):** — In this relatively inactive day some new and intriguing friendships may develop. Old problems yield to fresh ideas.

**VIRGO (Aug. 23-Sept. 22):** —

The news is generally advantageous to your interests Thursday. Put in a steady effort and include your fresh views; much can be achieved.

**LIBRA (Sept. 23-Oct. 22):** — Self-improvement studies, consultations and experts and technical advisers are all under good aspects today. Take care of correspondence and the needs of people located at considerable distances.

**SCORPIO (Oct. 23-Nov. 21):** — Seek out obscure information. Look and listen to learn who is really pulling the strings.

**SAGITTARIUS (Nov. 22-Dec. 21):** — Teamwork is easier. Put in a reasonable effort; leave something for the others to decide or be amenable to compromise.

**CAPRICORN (Dec. 22-Jan. 19):** — Your special skills and knowledge show readily Thursday. Press forward, make a strong impression. Novel methods or new tools help to produce very good results.

**AQUARIUS (Jan. 20-Feb. 18):** — Use your most conciliatory manners since what seems to you simple candor may rub others the wrong way. The logical thing is not always the human thing to do.

**PISCES (Feb. 19-Mar. 20):** — You're a lot freer from pressures than you might assume. Try your limits; see your personal world as a bit larger and more rewarding.

STATE-WIDE

**Hospital Dietitian To Attend Meeting**

Mrs. Veward Hayter, Case Western Reserve registered dietitian for Highland General Hospital and dietetic consultant for Worley Hospital, will attend the 35th annual Texas Dietetic Association meeting in Lubbock Thursday, Friday and Saturday.

Mrs. Hayter, a member of the American Dietetic Association, will be among the 1,000 dietitians and nutritionists of Texas who will represent 11 districts.

Frances E. Fischer, American Dietetic Association national president, and featured speaker for the meeting, is assistant professor of nutrition at Case Western Reserve University in Cleveland. She has the special assignment as coordinator of the Dietetic Internship Master's Degree Program, involving Mt. Sinai Hospital, the Veterans Administration Hospital, University Hospitals and the Department of Nutrition at

Dr. S.P. Yang, chairman, department of food and nutrition, Texas Tech university, will speak on "Plant Protection in Human Nutrition." Dr. Henry Shine, chairman, Texas Tech department of chemistry, has selected "Chemical Knowledge in Dietetics" for his program. Program theme is "Preparedness in the 70's."

**Dear Abby**

By Abigail Van Buren

DEAR ABBY: I've been in the newspaper advertisement: "When the doctor lifts the mama doll's skirt, a baby doll will slide out. On the baby doll's chest is written, 'I am the result of love.'"

It says in the ad that a child psychologist approves of this doll.

Abby, this is about the worst thing I have ever heard of! When they made dolls that walked, talked, and danced, that was fine, because the whole idea of a doll is to give a child something to play with, but I really thought they went a little too far when they made a doll who could wet her pants. And now this! I think the idea of making a doll who can "give birth" is sick!

I would like your opinion.

DEAR ABBY: I have five children, three are away at college. The two at home are boys, 11 and 15. I want to put the boys in a very fine Summer camp and go to visit my mother for six weeks this Summer. I have never done this before and my husband is having a fit! He says I can do it only over his dead body. (What a temptation!)

Every vacation we visit his mother, and that's where he wants to go again. The boys say they don't want to go to visit Grandmother (his mother) again this Summer and I can't blame them—there is nothing for them to do there.

Only one Summer since I've been married have I visited my mother. I have no objection to my husband's spending his Summer vacation with his mother, but I want to spend mine with my mother. How can I persuade my husband to let me go?

**POLLY'S POINTERS**

Two Methods To Whiten Gray Bathtub Caulking

DEAR POLLY—Mrs. W. T. wrote about the rubberized caulking around the bathtub turning gray. I had the same problem. I used an artist's brush, a good white enamel and painted this caulking. This solved the problem completely.—MRS. R.S.E.

DEAR POLLY—I solved the problem of caulking turning gray around my tub by using bleach and a toothbrush. After a few minutes it turns white and can be wiped clean. Of course, it will turn again, so repeat when needed.—MRS. T.V.A.

DEAR GIRLS—Of course, we all know that all things do not work in all situations. I have to admit the bleach did not work on the caulking I tried to whiten but I am sure there is merit to it as so many, many of you sent in the same solution. It is certainly worth a try.—POLLY

DEAR POLLY—Today I was shredding cabbage to make slaw for a church dinner and the little tin can with a sharp edge that I had been using for that purpose just folded down. While rooting through the cabinet drawer full of gadgets, my hand fell on a three-inch putty knife. I tried it and it worked like a charm. It is really the best vegetable cutter I have ever used. The slaw was perfect. Should this idea win a

**Grow Green Lawns With Tender Care**

This year go all out for a great green lawn. You'll be the envy of the neighborhood.

You can assure a healthy lawn by following a sound and simple program of turf grass care and maintenance. It need not take great effort.

First, remove accumulations of dead grass, leaves and other debris that chokes off sunlight and water. Remove dead grass with a rotary mower that cuts, vacuums and bags clippings, leaves and debris. If you have a reel mower, rake after mowing with a broom-type rake to avoid pulling up grass.

Aerate the soil with power or hand aerators. You can rent them in most areas or swap with neighbors. Aeration corrects compaction, lets water and nutrients penetrate to grass roots.

SKELLYTOWN (Sp) — TOPS Skellytown Slimmer Club held a regular meeting recently in the Library, with the weight recorder, Mrs. Sadie Lane recording the weights as members were weighed in. Meeting was conducted by the Leader, Mrs. Gladys Simmons. Mrs. Margaret Fox was crowned weekly queen and received the fruit basket for a loss of 2½ lbs. A total of 43 lbs. was reported lost for the month of March.

New officers will be installed by the leader, Mrs. Gladys Simmons at the next meeting.

On April 14, the Skellytown Club will entertain the Lefors TOPS Club at the Community Hall in White Deer.

Attending were Meses. Martha Nichol, Gloria Frank, Margaret Simmons, Jo Skaggs, Margaret Fox, Naomi Fox, Odell Hassler, Fannie Coleman, Gladys Simmons, Juanita McCarthy, Sadie Lane and Rama Watson.

# Highlights And Sidelights From The State Capitol

**By VERN SANFORD**  
**Texas Press Association**  
**AUSTIN** — "Things are going to get worse, unless we plan and fight a war against drug abuse in Texas," Gov. Preston Smith told the Conference on Public Health and Drugs.  
 Noting that in the past 10 years, "arrests of teenagers for drug abuse increased 600 per cent," Smith urged the conference to come up with new means of controlling and preventing drug problems, as well as reviewing what is being done.  
 "We need to examine penalties," he said.  
 "The drug offender who is

caught is often very young. He may have been pressured into experimentation with drugs.  
 "Yet, within the legal machinery, his punishment can be as severe as that of a dope pusher, or seller."  
 "Is this fair? Or is it out of proportion with the crime?" Smith asked.  
 Earlier, Lt. Gov. Pen Barnes — accompanied by newsmen, law officers and government officials — toured drug treatment and mental health facilities over the state. On the trip, Barnes proposed a State drug center near a medical school for treatment, rehabilitation and research.

Later, Barnes joined Atty. Gen. Crawford Martin at the meeting of the Crime and Narcotics Advisory Committee with the Texas Education Agency to hear what plans the agency has developed for teaching a course on the dangers of drugs and crime, as required by the last Legislature.  
 Speaking to the meeting, Martin expressed concern over the increasing use of heroin, which, he said, is becoming a major problem.

Involving young people in the program will be necessary. It is successful, the Attorney General said, because "no program of narcotics control can ever be effective unless the young people themselves want it to be effective."  
**Registration**  
 A record total of 4,190,645 Texans are qualified to vote during the primary and general elections this year. Secretary of State Martin Dies Jr. reported that count as the State Chief Election officer.

Statewide total is almost 80,000 more than in the 1968 residential year.  
 Metropolitan area county registrations rose dramatically from 1969. Harris County (Houston) alone accounted for 650,612 of the votes, Dallas 406,925 and Bexar (San Antonio) 260,225.  
 Dies said he is confident new procedures for registration and various drives by groups introduced the record sign-up, which he had predicted, even though 1970 is a non-presidential year.

limited English-speaking ability one who may have been an accomplice can be used alone to sustain a conviction for possession of marijuana, Court of Criminal Appeals held.  
**One-Million Park**  
 State officials took deed to the 4,800-acre scenic Wheatley Ranch for a state park, after Gov. Smith handed a \$930,469 check to Mrs. C.A. Wheatley of San Antonio.  
 The major park development, with anticipated federal aid, is in the planning stage. Reporters could not help pointing out that the state could have had the entire Wheatley property — with wild game, river frontage, waterfalls, fish and stands of trees — absolutely free eight years ago. Deal fell through when the legislature failed to provide the requested \$250,000 for development.  
 Meanwhile, the Governor has requested federal study of possible release of the Matagorda Island military installation in Calhoun County for recreational purposes.

Uncorroborated testimony of the nearby governor's mansion, state capitol and other structures in the capitol complex. It also must include the old Lundberg Bakery, an Austin landmark which actually will be a part of the new building, serving as a tourist information center.  
 Estimated design and construction will take about three years.

**SHORT SNORTS**  
 Texas has 18,096 summer Neighborhood Youth Corps positions for needy.  
 Secretary of State may administratively forfeit corporate charters for failure to pay franchise taxes, Attorney General Martin has held.  
 Consumer complaints jumped from 53 in 1967 to 2,757 in 1968 with creation of the new attorney general's consumer protection division and credit code enactment.  
 State's first public auction of surplus property (cars, outboard motors, two-way radios, etc.) will be held here Apr. 25.  
 National Highway Safety program grants went to McKinney and Port Arthur for breath testing devices.  
 Marlin L. Brockette, a key executive on the Texas Education Agency staff since 1968, has been appointed deputy commissioner of education, succeeding the late J. Warren Hitt in the number two post.

## Wall Street Chatter

**NEW YORK (UPI)**—The market still is not on firm enough ground to allow investors to throw caution to the winds, observers Shearson, Hammill & Co. Most recent buying has been concentrated in conventional issues that were statistically cheap and whose short-term earnings had been pretty well marked down already, the firm notes. At the same time, "sellers continue to zero in on stocks that suddenly incur new disappointments."

A continuation of the market's recent uneven performance appears in the cards, "with a general uptrend in the period just ahead, it feels.

The market should climb in a slow and orderly fashion over the coming months, says Filor, Bullard & Smyth, but investor confidence won't be rebuilt overnight. "There are a number of good quality, reasonably priced stocks available," the firm says.

**Impala '400' Sale.**

**You save when you buy it. You save when you drive it.**

When you buy any Impala V8 model during our "400" Sale, here's how you can get two popular extras at no extra charge.

You order your Impala equipped with a Turbo Hydra-matic transmission, radio, comfort steering wheel, front and rear bumper guards and white stripe tires. Items you'd probably order anyway.

Then we add our big 400-cubic-inch V8 at 265 hp that runs on regular gas, along with dual exhausts—both at no charge. (The manufacturer's suggested retail price including Federal excise tax for the regular fuel 400 V8 and dual exhausts is \$93,750.)

But that's only the beginning. Because your Chevrolet dealer is really anxious to deal these days.

And the Impala you're buying, of course, got to be America's No. 1 car, because of all the value features built right in. Features like flush-and-dry rocker panels that fight rust. Inner fenders to protect the outer fenders. Long lasting bias belted ply tires, steel guard beams in every door for added protection, an acrylic lacquer finish over its solid Body by Fisher.

All of which contributes to Impala's traditionally high resale value, too.

You're getting America's No. 1 car on sale. The car more people buy—year after year after year.

How can you beat that?

# Pampa Belts 11-2 Triumph

By DAN PACKARD  
Sports Editor

Pampa High's Harvesters were once again plagued with less-than-desirable weather Tuesday as strong southerly winds raked Optimist Park where the Harvesters, getting their first chance to play in more than a week due to the distemperment of Mother Nature, swept over Caprock, 11-

6-3. Monterey downed Coronado, 2-1; Plainview defeated Lubbock, 3-2; and Taososa thumped Palo Duro, 10-6. Pampa's victory enabled the Harvesters to retain a share of the loop lead with a district record of 2-0. Monterey (4-0) also stayed atop the pack.

SLIDING SAFELY. Pampa's Vernon Johnston scores the second run for the Harvesters after reaching base with a single in the second inning.

Sammy Heasley gave up five hits and walked only one Longhorn hitter in winning the District 4-AAAA baseball battle which boosted his season record to 3-0. Kenneth Cole, who left the game in the last of the third after giving up six hits and issuing three free passes, absorbed the loss.

Dale Ammons' three singles in as many times to the plate resulted in four Harvesters runs. The Pampa leftfielder drove in Ross Hoffman in the first to give the Harvesters a lead they were to keep the rest of the way. The rest of the club took it from there with 10 collective safeties.

Pampa erupted for four runs in the second on the strength of Vernon Johnston's single, walks to Jimmy Hawkins and Heasley, a sacrifice fly to Ross Holman and Ammons' second single.

The winners added three in a wild and woolly third inning with only one base hit. A costly throwing error and two hotly disputed calls at the plate kept the Pampa rally going. Caprock catcher James Hurst was ejected following a disagreement with the plate umpire.

Earp's single with one out in the fourth added two more for Pampa and a throwing error in the sixth brought the final Harvesters run.

Heasley kept the Longhorns in check through three innings, allowing only one safety, but leftfielder Kerry Morgan's homerun over the right field wall with one out and one on posted the first and only runs for Caprock.

In other district action, Eorger clipped Amarillo High-

Lubbock Coronado will entertain Coach Buddy Williams' charges Friday and the club will be at Plainview Saturday.

# Mets Post 5-3 Win Over Pirates

By United Press International  
The New York Mets have finally run out of "firsts". The Mets, who astounded the baseball world with their improbable rise to the world championship last season, erased one of the last links to their laughable days Tuesday. They finally won an opening day game.

And they did it in "Mets" fashion. Their ace pitcher, Tom Seaver, was rocked for nine hits including two triples and two doubles—one each by Little Mitty Alou, of all people. And they twice blew leads as the game went into extra innings. But Manager Gil Hodges used a former Pirate, Donn Clendenon, as a pinch-hitter for a

pinch-hitter in the 11th inning. And Clendenon responded to the boos from the Pirate fans with a two-run single that gave the Mets a 5-3 win over Pittsburgh. In the other National League games, Philadelphia blanked Chicago, 2-0, Houston downed San Francisco, 8-5, Cincinnati shut out Los Angeles, 4-0, and San Diego routed Atlanta, 8-3.

In the American League, Baltimore beat Cleveland, 8-2, Minnesota routed Chicago, 12-0, Boston nipped New York, 3-3, California whipped Milwaukee, 12-0, Oakland beat Kansas City, 6-4, and Washington blasted Detroit, 14-4. Tommie Agee collected three hits for the Mets and scored a pair of runs.

**"LOOK WHAT FIRESTONE DID ...they took America's favorite high performance tire and made it BETTER THAN EVER!"**

All New for 1970  
**Firestone "500"**  
with the new  
**WIDE LOOK**  
of the 70's

Read what Mario Andretti says about the new, wide Firestone "500"

"They gave you more mileage... yet retained all the high performance capabilities!"  
"Most people don't buy '500s' for mileage alone. They buy them because they're strong... ready to stand up to all types of punishing side roads and take the abuse of sustained long-distance runs at superhighway speeds. But you'll be happy to know the new wide '500' will deliver great mileage. If you're a sensible driver—use good judgement in braking, cornering and accelerating, rotate tires and check alignment regularly—you get even more mileage."

"They improved the traction on wet and dry pavement."

"That's important! Your high-powered car has a good braking system... but your tires actually stop your car. Your tires grab the road when you apply the brakes. The new wide '500' is nearly one inch wider and concave molded so that the entire tread 'footprint' is in contact with the road when the tire is inflated. This bigger 'footprint' allows you to stop faster... up to 30% faster on wet pavement than the previous '500'."

"They restyled the sidewall to give you the sportiest tire of them all!"

"Tires have come of age. They're no longer round and black... period. You want a great looking tire as well as a great performing tire. The new wide '500' is for you! The sidewall treatment on this tire is unique... just like the tire itself. It has two raised white stripes... plus raised white '500' numerals. This tire really stands out in a crowd and gives your car real class."

### 104-93 Laker Victory Ties Western Series

PHOENIX (UPI) — Jerry whatever the reason the Los Angeles Lakers suddenly have thrust themselves back into the NBA playoff picture.

With Atlanta, New York and Milwaukee sitting back and relaxing, the Lakers evened their Western Division series with the Phoenix Suns at 3-3 Tuesday night with a 104-93 victory.

"We are concentrating more," West said following his 35-point performance in Los Angeles' second straight win.

"We may have taken Phoenix too lightly and have been too lackadaisical in the first four games. Phoenix is a good ball club. But we made less mistakes and played better team defense tonight."

Wilt Chamberlain was the Lakers' defensive star as Phoenix was held to its lowest point total of the series. He scored only 12 points but picked off 26 rebounds.

Los Angeles Coach Joe Mullaney couldn't predict a Laker victory Thursday night.

"Of course we have the home court advantage but I expect both teams to come in more relaxed than they were tonight," he said.

The Lakers hit 12 per cent of their field goal attempts while the Suns made only 2 per cent. The Suns won't make any adjustments for the seventh game. "We have been doing all right this far and I see no reason to change," Coach Jerry Colangelo declared.

Rick Barry poured in 19 of his game-high 44 points in the fourth quarter. Tuesday night to lead Washington to victory over New Orleans. The Caps outscored New Orleans 38-22 in the final quarter in the come-from-behind victory, dropping the Bucs into last place in the West.

Los Angeles managed to move out of last place as Frank Card came off the bench in the second half to score 10 points and contribute key defensive plays against hapless Miami.

Kentucky trailed, 80-77, going into the final quarter, but Louie Dampier, Gene Moore and Dale Carrier led a surge that carried the Colonels over Dallas. During the spurt Kentucky outscored Dallas, 16-3, to grab the lead, 96-84. Carrier finished with 38 points while Dampier and Moore had 27 apiece.

## Shaving Strokes by Frank Beard

4—Practice First

Before you play that first round of the new season, hit some practice balls, even if you think your muscles are supple and ready for 36 holes. Go to

a driving range or an open field and work with a short iron, so that you don't over-extend yourself. Thirty minutes is plenty. You

may think you're in top shape, but be sure. You'll know the next morning on your way from the bed to the shower whether you were right.

Be sure to wear a goodfitting glove practicing, so that you don't wear blisters on your hands. A bad blister can sneak up on you before you feel any pain, and it can bother you for a month. Moderation is the only preventive.

When I was young and fired up I'd start the season by hitting 200 balls at a time and never feel any ill effects. Today I wouldn't dare do that. I suspect that it has something to do with being on the far side of 30.

# The Pampa Daily News

A Watchful Newspaper  
EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE

### Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

## Adult Boom Of '70s

Peering into the coming decade, one business writer recently observed:

"One of the great promises of the '70s stems from the spectacular baby boom of the 1950s. Presently this bumper crop of babies will be turning into a bumper crop of young adults, who soon will be getting married and raising families."

"They will be spending generously for housing, autos, TV sets, appliances and everything else that a home and family require. This is a long-lasting plus for the economy."

The truth is that this baby-adult boom may only be a short-lasting plus for the economy and a much, much longer lasting minus in many other ways. The 1970s may be the last decade in which we may be permitted to view an ever-accelerating population growth through rose-colored glasses, secure in the belief that as long as the business curve continues to soar toward heaven all's right with the world.

How can population growth in the United States be said to be accelerating when the birth rate has actually fallen steadily in the past few years?

Simply because population does not grow arithmetically — two plus two plus two — but geometrically — two plus four plus eight. The larger a population base, the larger will be the absolute number of babies born in the next generation even with a low birthrate.

Even should the Americans who were born in the 1950s and who will marry in the 1970s have but two children per couple, it is a tactical certainty that the U.S. population will climb above 250 million by the end of the century. The

actual forecast is for 300 million.

The family-building couples of the 1970s will indeed be spending generously for housing, autos, TV sets, appliances and everything else that a home and family require.

But they will also see growing percentages of their incomes being taken in taxes to pay for schools and welfare services and the increasingly urgent effort to make our cities livable.

The prices they pay for autos, TV sets and appliances will reflect the surcharge imposed by the cost of pollution control in the factories that make these products and by the higher cost of scarcer raw materials.

They will not only pay more for their homes but the cost of the remaining undeveloped land within reasonable distance of the cities will soar even more. Already a home is out of the reach of many who a few years ago would have been considered fairly well-off.

And they will have to pay more for the transportation networks which will enable the family's breadwinner to commute from his home to his place of employment.

But a family requires more than material things. Such values as privacy, open space in which to loaf and invite the soul, clean air to breathe, will become increasingly difficult to obtain and hence increasingly precious.

A family needs recreation and opportunities to escape the stresses and strains of everyday living. Yet even today many of our state and national parks are taxed to capacity each summer. This is only a beginning list of the real "promises" of the baby boom of the 1950s.

## Too Much Flourish

Say it isn't so Mr. President. We've almost gotten accustomed to, if not exactly taken to our hearts, the new spirit of Central Europe uniforms of the White House police.

Now comes word that yet another new flourish is contemplated in presidential pomp and circumstance — a quartet of Marine buglers equipped with long silver trumpets trailing corps banners and poised to deliver a piercing fanfare to herald the Chief Executive's appearance on state occasions.

Too much, too much — even for visiting chiefs of state, we suspect, says Newspaper Enterprise Ass'n.

Comics in the press and elsewhere have been having their more or less innocent fun with the current White House predilection for fancy dress, but the joke does contain the germ of a serious thought.

At its birth, the United States publicly renounced titles class privileges and other feudal trappings of the European regimes of the day. But, privately, commitment to the egalitarian ideal has always been something less than 100 per cent.

From the earliest days, the visiting dukes and princes have

been royally welcome by the American public. Heiresses, actresses and girls from little Colorado mining towns have palpitated at the prospect of marrying titles. And the changing of the guard at Buckingham is a must for the Americanist.

It should not be so surprising, then, that the baroque posturings of another world — and time — exert an appeal on even the highest level of the republic. We may all be democrats, lower case and after a fashion, but we are also all human.

It is not however, necessary, Gold braid and all the ceremonial of East and West combined cannot make a commanding figure out of a Farouk. A Lincoln is impressive alone and in-homespun.

Former presidential press secretary George Reedy, in his gloomily-entitled book, "The Twilight of the Presidency," comments on the "aura of reverence" that surrounds a president in the White House.

History has made the American presidency what it is. It can easily, and quite seriously, do without the ruffles and flourishes. They detract from, rather than add to, the aura.

## HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives at Washington and Austin. Here are their addresses:

**STATE**  
Rep. Masouf Abraham, Canadian, Texas  
Rep. Grady Haselwood, Canyon, Texas

**FEDERAL**  
Rep. Bob Price, 599 Cannon House Office Bldg., Washington, D.C. 20515  
Sen. John Tower, Senate Office Bldg., Washington, D.C. 20525  
Sen. Ralph Yarborough, Senate Office Bldg., Washington, D.C. 20525

## With Some Reservation

By INJUN WOODY

Well, the Army had to take over the N.Y. postoffice. It wasn't too much of a switch for the soldier. All he had to do was transpose the sorter's conjecture into a trajectory.

The biggest trouble he had was getting used to the equipment that handles packages and bulk mail.

"This here is a dish Cracker," said the instructor, "whenever you get hold of a package of breakables still in one piece you run them thru this. It got only stamps 'em, it wrecks 'em."

The instructor goes on to explain —

"This is a Magazine Twister. We don't cancel mags, you see. But we run them thru the Twister. See the Claw at the other end? That rakes down the cover and usually does a good job of tearing off the address so the boys in the Dead Letter office is kept in reading material. Heh, heh."

"Now here you see a Clothes Chewer. This is for soft-goods only, understand? It mashes and chews boxes of clothing that are mailed from catalog houses. Now take this here box. What machine would you say it goes thru?"

The soldier looks it over then replies, "The Dish Cracker?"

"That's right!", the instructor exults, "you're learning fast."

The soldier runs the box through the machine and is rewarded with a crunching tinkling sound.

"Now where does it go? What is the address?"

"It says St. Louis. Here is the St. Louis cart right here in front of me."

The soldier gently lays the box in the bottom of the cart.

"No, no, no," shouts the instructor, wringing his hands "never do that!"

The soldier watches in awe as the instructor picks the box from the cart, walks across the room, and from 20 feet away heaves the box so that it bounces across several rails and finally lands with a thud in the St. Louis cart.

"That's the way you do it. It is gonna take a little time, but just remember, never treat packages gently or you'll ruin your image!"

That's the trouble with inexperienced help. They would never have called in the Army except that the Welfare Checks had to go thru. Business and production can wait, but not Welfare. This proves the government places a higher priority on laziness than it does on ambition.

## WORLD ALMANAC FACTS

The Mechanical Age has raised the noise level of today's cities to almost unbearable heights. At the opposite extreme, the Bell Telephone System Laboratory at Murray Hill, N.J., has constructed the quietest place in the world. The World Almanac notes that the "dead room" which the laboratory designed eliminates 99.98 per cent of all reflected sound.

## Wit And Whimsy

The pedestrian had been standing on the corner for hours, while the cars and trucks streamed by continuously. He couldn't get up enough nerve to risk a crossing, but finally spied a man on the other side of the street and called to him:

"Mr. King—Hullo, how in the world did you get over there?"

The other man cupped his hands to his mouth and shouted back:

"Mr. Keys—I was born over here."

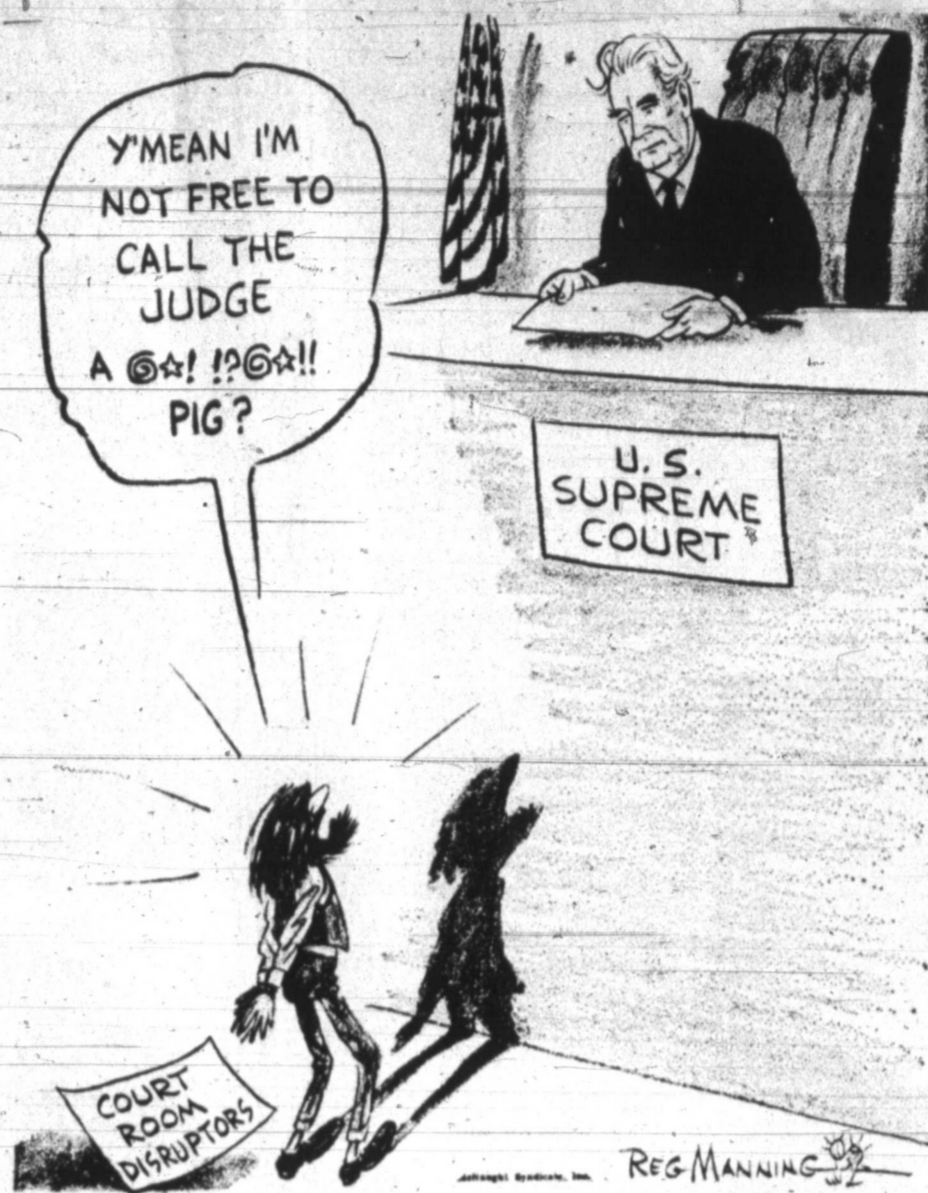

An elderly man, married to an actress, remarked on the passing of time.

Mr. Blank (to a friend) — You know, it's terrible to grow old alone.

Mr. Black — But you're not alone. You've got a wife.

Mr. Blank — Are you kidding? My wife hasn't had a birthday in eight years.

## There Goes Your Ol' Freedom Of Speech!

## THE GLOBAL VIEW

### Kremlin Hoping To Exploit Lenin As Soviet Cult Hero

By LEON DEYEN, Foreign News Analyst

NEW YORK (NEA) — As preparations for the 100th anniversary of Lenin's birth (April 22) approach their climax, Russians are engulfed by propaganda glorifying the founder of the Soviet state.

The campaign to rescue Lenin from Stalin's shadow and elevate him to a cult figure has actually been going on for two years. The Kremlin's uneasy rulers obviously hope to exploit the Lenin Centenary in their effort to regain Russia's grip on the world Communist movement.

Their chances of success appear remote. Lenin's ideological heritage has been subjected to such widely differing interpretations by Communist parties, which have adapted it to local conditions, that the Kremlin's efforts are doomed.

Gone are the days when the ears of the world's Reds were attuned to Moscow. Rival variants of "Marxism-Leninism" now claim the attention of leftist intellectuals and revolutionary students abroad. In the Soviet Union itself young writers, scientists and students, disillusioned with an ossified ideology, look increasingly westward for inspiration.

The demise of Leninism has become generally apparent — except to "progressives" for whom recognition of this fact would represent admission of self-delusion.

What still creates the impression that his ideology retains some vitality is this: Several totalitarian regimes in East Europe and Asia — including Fidel Castro's Cuba in the Western Hemisphere — base their legitimacy on flamboyant maintenance of the Leninist fiction.

As a pseudoscientific theory, Leninism (or Marxism-Leninism as it is popularly known) was for a long time a powerful force in human thought and, particularly, in political organization.

However, in the last decade a series of mortal wounds were inflicted on the Kremlin's version of Leninism.

This is largely due to: The degeneration of the world Communist movement and ideology following the Russian-Chinese schism.

The rise in some of the Communist countries, including Russia, of a new technological class (or middle class) which is too sophisticated to accept the unsentimental fallacies of Leninism.

The appearance of a new generation which is in revolt against the Communist dictators.

The increasing discrepancy between reality and Lenin's vision of a world revolution.

Russia is a mighty imperialist nation with enough nuclear weapons to threaten the free world.

But Moscow's official Leninist dogma has lost its pre-eminence. Its influence has

## The Doctor Says

By DR. W. G. BRANDSTADT

### Removal of Spleen Normal Purpura Control

Q — My sister has idiopathic thrombocytopenic purpura. Her spleen was removed many years ago. That helped at first, then the trouble came back. Now, after taking cortisone for several years, she is the victim of its side effects. What can be done for her?

A — In this disease bleeding occurs under the skin with little or no trauma. In most persons whose purpura is not controlled by cortisone or removal of the spleen, azathioprine (Imuran), a prescription drug, has proved successful.

Q — My daughter, 23, gets blue marks on her body at the slightest knock. This has happened only in the last year. What could cause it? Is there any cure for it?

A — She may have purpura, but of a different type from that referred to in the preceding query. It may be caused by a sensitivity to any of a number of drugs — the sulfonamides, streptomycin, quinacrine, streptomycin, quinacrine, pyrimethamine, trimethoprim, several of the tranquilizers, triptelenamine, potassium chlorate, digitoxin, gold salts, phenylbutazone, colchicine and many others. The only effective treatment is to find and eliminate the drug or other allergen responsible.

Q — What causes pinpoint red spots to appear all over my body?

A — A few scattered spots may be seen in persons who are over 40 and are in good health. They are of no significance. You should, however, have an examination to rule out a vitamin C deficiency, anemia or purpura caused by taking any of the drugs listed above.

Q — Has medical science found a way to build up muscles that have become atrophied following poliomyelitis?

A — Muscles weakened by poliomyelitis must be maintained in as good condition as possible throughout the course of the disease. Because the extent of the damage varies widely, the results cannot be predicted but physiotherapy should be continued for at least two years.

Q — What are Mylicon and Chardonna given for?

A — Mylicon, a defoaming agent, reduces the amount of gas in the intestines. Chardonna, a combination of phenobarbital, extract of belladonna and activated charcoal, has a similar action but, if taken regularly, may be habit forming.

## Question Box

(We invite questions on economic and the proper function of government, which will not injure anyone.)

QUESTION: — Is the statement in Galatians 6:7 "Whatsoever a man sows that shall he also reap" being demonstrated today in the United States? If so, how?

ANSWER: It is certainly being demonstrated because we are disregarding the coveting commandment and the stealing commandment and we are reaping the fruits of getting things on an involuntary basis, that is force or coercion, and we are in one war after another. Everybody is suffering because they do not believe that men as individuals or as groups reap what they sow.

And we are certainly sowing dangerous seeds when we sanction things which are not moral. No individual would claim that he had the moral right to force a man to pay for something he doesn't want. Yet we turn right around and give a group of men called the state the right to do the very thing which no individual has a moral right to do.

It certainly is no wonder that our dollar is getting worth less, crime is increasing and that we are having a slump in business. As a nation we have been violating moral principles in trying to gain our goals by coercion. Nature always exacts a penalty for any violation of her principles, moral or physical. The troubles we have multiplying all around us are merely the result of our violating nature's moral principles. We are reaping what we have sown.

The way to rectify it is to return to the moral principles of "Thou shalt not covet" and "Thou shalt not steal." Then we will be on the road to better life spiritually, intellectually and materially.

JOHN GOLDSMITH

## Inside Washington

Humphrey Fiddles As DFL Party Splits

ROBERT ALLEN

WASHINGTON — Former Vice President Hubert Humphrey is acting as if he is having second thoughts about trying to return to the Senate.

For the third time the Minnesotan is delaying announcing his candidacy.

Last fall Humphrey indicated he would formally declare soon after the first of the New Year. But in February he let it be known he had decided to wait until the mid-term university recess. Now he is saying he will hold off until June, at the close of the school year.

Humphrey intimates he has every intention of seeking the seat being vacated by poetry-spouting "peacenik" Sen. Eugene McCarthy. They claim to have unequivocal assurances on that. At the same time, they admit —

Humphrey's prolonged coy silence is not promoting unity in and the election prospects of the dissension-rent Democratic Farmer-Labor Party (DFL).

He and DFL candidates for state office face formidable Republican opposition in the November election. The GOP are highly organized, well-heeled and certain to field a strong ticket headed by Representative Clark MacGregor, influential member of the House Judiciary Committee, as the senatorial candidate.

In the DFL, bitter factionalism is still as rampant as it was in 1968 when Humphrey barely captured the state delegation to the Chicago presidential convention.

Assorted McCarthyites, New Lefters and other discordant elements are continuing their warring against DFL Leaders and candidates.

The dissidents are bent on nominating their own slate for state offices — thus forcing Humphrey and his supporters to run on a ticket of far-outragers.

A number of aspirants are scrambling for the DFL nomination for governor and other state offices. But none are outstanding — a factor playing into the leftists' hands with Humphrey standing superiorly aloof on the sidelines and keeping hands-off the faction-torn melee.

That's why there is considerable backstage muttering about Humphrey's attitude, and the feeling he ought to get off his pedestal and either "fish or cut bait."

CONTRASTING PICTURE — In direct contrast, Minnesota Republicans are free of dissension-breeding factionalism.

There are rivals for the gubernatorial and other state nominations, but not on ideological grounds. Party unity is an impelling force among the GOP. The Republican slate is sure to be harmonious and in full accord with the moderate stance of Representative MacGregor — the unopposed candidate for the Senate.

Also like him, the other GOP selections will be young, personable, articulate and potentially financed. The Republicans will have ample campaign funds.

One significant illustration: Some \$800,000 was raised for the party recently at a St. Paul-Minneapolis dinner addressed by Vice President Agnew.

In contrast, the DFL is still paying off 1968 campaign debts, and long-time contributors have become soured by the continued

He unexpectedly acquired one pointed lesson while still in Paris.

It was imparted by David Mixner, young coordinator for the Moratorium Committee to End the War in Vietnam. Although only 24, he boasts of having engaged in organizing for "many years." In 1968 he was an ardent McCarthyite, is now a member of Sen. George McGovern's commission to "reform" the Democratic party.

Last Christmas some 40 of Mixner's friends and admirers presented him with a gift consisting of an all-expenses-paid week in Paris. Upon his arrival, to his surprise, he got a phone call from Shriver inviting him to a cocktail party.

This affair was in honor of Mrs. Martin Luther King, who was in the French capital to promote her book. Apparently someone had informed Shriver about Mixner and advised that it would be worthwhile to cultivate the young political activist with considerable experience and extensive ties in "peacenik" McCarthyite and Kennedy circles.

Shriver greeted Mixner with open arms and like a long-lost friend.

"Why, David," exclaimed the mod Kennedy-in-law, "How delightful to see you again. It was so good of you to come. How are you and how are you enjoying your trip?"

Mixner was not impressed. Looking Shriver squarely in the eye, he said:

"There must be some mistake. Mr. Ambassador. I never met you before. It is nice of you to invite me, but I never saw you before."

Shriver was a bit taken aback by this blunt candor, but smoothly passed it off, offering Mixner a drink and expressing an earnest desire to have a talk with him. In this chat, the one-time head of the Peace Corps and a d anti-poverty program quickly got down to business.

"David," he said, "I'm thinking seriously of getting back into the battle again. I've been away too long. I want to pick up Bobby's fallen standard. These are extremely critical and difficult times, and I feel strongly that I should devote my time and energies to fighting for the things that Bobby and Jack stood for and gave their lives for."

Again, young Mixner was skeptically unmoved.

"These certainly are critical times," he agreed, "and there is no question that Bobby's fallen standard should be raised again. But the time for you to have picked it up was in June 1968 when he was killed. It's pretty late to think of doing that now after you've been over here in Paris for two years as the Ambassador of Lyndon Johnson and Richard Nixon."

"Frankly, I think you'll have quite a bit of trouble putting over the idea that you're the man to pick up Bobby's fallen standard. Somehow, that just doesn't ring right."

Again Shriver took his young visitor's outspokenness in stride. He pleasantly asked Mixner to stay for dinner — which he did. Relates Mixner.

"There was no great animosity between us. My visit was very nice. The ambassador was a perfect host. But I doubt my opinions will change his mind."

In the closing days of the Maryland legislature, the House of Delegates unanimously passed a resolution proclaiming that "There is no time for Sargents" in the state this year. The resolution, sponsored by Delegate William J. Goodman, D-Prince George's County, was whipped through the House in a voice vote by Speaker Thomas Hunter Lowe.

A number of members were unaware of what was being rushed through. The resolution, citing the Bible declared:

"For every purpose under the heavens, there is a season. For some purposes this time and season would be inappropriate. Therefore we do declare that in this season there is no time for Sargents."

Most Democratic members of the House have declared themselves in favor of Governor Marylin Mandel — whom Shriver would oppose if he decides to run.
