**MOD KICKOFF** in Gray County was marked by a meeting of chairmen in charge of the annual March of Dimes in its fight against birth defects. Pictured standing, left to right, are: Mrs. T. W. Williams, 700 E. 16, Mothers March chairman; Don Loshier, 1821 Fir, Gray County Chapter chairman; Terry Brown, 310 W. Brown, Gray County Campaign chairman; and seated, left to right, Charles R. Martin, 3009 Rosewood, Special Projects chairman; and Emmett Salzman, 1026 Duncan, City Campaign chairman. The MOD campaign will be conducted county-wide through January.

## Chairmen Named

# March Of Dimes Takes Wraps Off Campaign

As the wraps are taken off of the new year and decade, preparations are being made for the National Foundation, March of Dimes (MOD) Gray County campaign.

During the past holiday season chairmen were named to posts in this year's event.

Terry Brown was appointed Gray County campaign chairman for this year's effort. The city of Pampa, Emmett Salzman will be chairman with assistance from the following division chairmen: Mrs. T. W. Williams, Mothers March; Salzman, Bucket Brigade; Don Loshier, speakers and films; Cameron Marsh, Teenage; Charlie Martin, special projects.

No city chairmen in McLean and Lefors have been appointed yet, but their selection should be announced shortly, Brown said.

The month of January will see MOD workers in many activities as they work to raise the funds needed year-around in their fight against polio and birth defects. Emphasis shifted into birth defects after the discovery of the Salk vaccine against polio.

The National Foundation is now trying to cure the cause before it becomes an effect, said campaign chairman

## Staying Home Hardest Part

# Pampa Youth Faces Future Undaunted

By ALETHA DAVIS, News Staff Writer

Bobby Adair, 13-year-old Pampa boy, complained of pain above his left knee in late November. What was first thought to be a bad bruise was diagnosed by Amarillo doctors as a cancerous tumor.

In early December doctors advised immediate surgery for removal of his left leg.

Saturday the eighth grader at Robert E. Lee and son of Mr. and Mrs. Paul Adair, 2133 N. Christy, was a sideline spectator at a basketball workout at school. Less than a month after the Dec. 9 amputation, Bobby is eager to be up and around and is keeping up with sports activities in local schools.

## PHS To Host All-Region Choir

Twelve area schools will perform their annual All-Region Choir concert at 8 p.m. Saturday at Robert E. Lee Junior High School, Pampa. High School Choral Department, directed by Bill Davis, is host for the 44 schools' rehearsals and performance.

Lynn Whitten, music department instructor at the University of Colorado at Boulder, will direct rehearsals and the Saturday night concert. Whitten will work with 146 area high school singers who were selected from Region One during auditions in Pampa in November, 1969. Pampa High School Choral Department has 34 students. Whitten, Davis and the singers will rehearse from 8 to 9 p.m. Friday, 9 a.m. to noon and 1-3 p.m. Saturday. Their concert selections will

include "O Bella Fusa" by Di Lasso; "Let Nothing Ever Grieve Thee" by Brahms; "Evening Song to God" by Haydn; "Hodie Christus Natus Est" by Sweetinck; "With the Voice of Praise" arranged by McEwen; "The Christmas Cantata" by Daniel Pinkham; "Also 'Clchester Psalms' by Leonard Bernstein and 'Hymn of Our Time' by Beck.

The 12 schools represented are Canyon, Hereford, Borger, Dumas, Perryton, Spearman, Phillips, Pampa, and from Amarillo—Palo Duro, Tascosa, Caprock and Amarillo High. Nine choral students from Pampa who will sing in the All-Region Choir Saturday will compete Jan. 17 in Lubbock in the area event, Davis said.

Three regions, one, 16 and six, will be entered in area competition. Out of the 96 students singing, 48 will be

selected to perform at the state level. Their concert selections will

include "O Bella Fusa" by Di Lasso; "Let Nothing Ever Grieve Thee" by Brahms; "Evening Song to God" by Haydn; "Hodie Christus Natus Est" by Sweetinck; "With the Voice of Praise" arranged by McEwen; "The Christmas Cantata" by Daniel Pinkham; "Also 'Clchester Psalms' by Leonard Bernstein and 'Hymn of Our Time' by Beck.

The 12 schools represented are Canyon, Hereford, Borger, Dumas, Perryton, Spearman, Phillips, Pampa, and from Amarillo—Palo Duro, Tascosa, Caprock and Amarillo High. Nine choral students from Pampa who will sing in the All-Region Choir Saturday will compete Jan. 17 in Lubbock in the area event, Davis said.

## Kennedy At Kopechne Inquest

# Gives Verbatim Replay Of Talk

EDGERTOWN, Mass. (UPI)—Sen. Edward M. Kennedy told an inquest into the death of Mary Jo Kopechne he drank no alcoholic beverages at a party the night she drowned in his car.

Kennedy, during two hours of questioning at the secret inquest Monday, otherwise gave an almost verbatim replay of last summer's televised speech in which he tried to explain the circumstances surrounding the death of the pretty secretary.

Kennedy, UPI learned today, told the inquest he had two drinks with dinner the night of the accident and nothing at all to drink at a party which followed in a rented cottage on nearby Chappaquiddick Island. It has been widely speculated the 37-year-old Kennedy had been drinking heavily.

Only three other persons testified at the inquest opening Monday—two Kennedy friends and an accountant from the New England Telephone Co.

Kennedy Tells Story Under Boyle's questioning and that of District Attorney Edmund S. Dinis, Kennedy told how he and Miss Kopechne, 28, were driving on an unlighted road when his car plunged off a narrow plank bridge into a tidal pond. The senator failed to report the accident to police for nine hours.

When asked by Dinis Monday why he waited so long to report the crash, Kennedy replied he had intended to but became bewildered and so confused he didn't know what he was doing.

After the accident, Kennedy said he returned the half-mile from the bridge to the cottage and instructed his friend, Paul F. Markham, not to tell the other five young women attending the party about the accident for fear of upsetting them.

Markham was to testify today, as well as five young

women, all friends of Miss Kopechne and all former campaign aides for Sen. Robert F. Kennedy during his ill-fated 1968 presidential bid. Also to testify were Joseph F. Gargan, Kennedy's cousin; John Grimmins, a long-time family friend; and Charles Tretter, a sailing companion, all of whom were also at the party.

Tretter began his testimony Monday but was unable to complete it.

In a surprise development, it was learned Kennedy spoke out for the first time about the statement of Christopher Look, Jr., an Edgartown deputy sheriff who said he saw Kennedy's car with at least two persons in it more than an hour after the senator claimed the accident had occurred.

## Spacemen Grounded For Rule Violation

HOUSTON (UPI)—The space agency said today it had grounded Alan L. Bean, the fourth man to walk the moon, and two other astronauts for 30 days because they violated rules for safe flying.

The National Aeronautics and Space Administration (NASA) took the action against Bean, who strolled the lunar soil on the Apollo 12 moon mission, Apollo 7 pilot Walter Cunningham and scientist-astronaut Joseph P. Kerwin.

A space agency spokesman said the men were grounded in December but he said he was not sure what day the punitive action took place.

"NASA imposed this on them," the official said. He said it would have no permanent effect either on their licenses to pilot jet airplanes or their careers as astronauts.

The space agency spokesman said Bean's violation was taking off in unsafe weather conditions. He said he did not know the nature of the other pilots' violations.

Cunningham, 37, a civilian astronaut from Santa Monica, Calif., was a member of the first three-man Apollo crew which flew in earth orbit in Apollo 7 in October, 1968. He was navigator on that flight; the only one he has made in space.

Kerwin, 37, a medical doctor and Marine flight surgeon from Oak Park, Ill., was a member of the first group of scientist astronauts selected in 1965, and is in training for a flight expected in 1972 aboard America's first orbiting space station.

Space agency spokesman said the men were grounded in December and will return to flight status Jan. 27.

Light Fire At Local Cafe  
Pampa Fire Department answered a call to Johnson's Cafe, 504 W. Foster, at 10:32 a.m. today. A container of grease had ignited and resulted in light damage to the wall behind the stove and minor smoke damage throughout the business.

A spokesman at the cafe stated that business had resumed by 11:30 a.m.

## Accused Of Placing Bets With 'Bookies'

BILOXI, Miss. (UPI)—Baseball Hall of Fame pitcher Jerome "Dizzy" Dean has been accused of placing bets with local bookmakers for Lansing, Mich., businessmen in an affidavit filed in U.S. District Court here, it was learned today.

U.S. Commissioner Verta Swetnam, also clerk of court, said the affidavit was attached in support authorizing federal agents to search the 405 Club at Biloxi. The request was filed by Hebert Hiceman, an Internal Revenue investigator from Detroit.

Federal agents disclosed in Detroit Monday the arrest of three Biloxi men and another in New York City in an alleged nationwide sports betting ring that may have grossed "in the millions of dollars."

James H. Brickley, U.S. attorney at Detroit, identified the Biloxi men as Peter J. "PJ" Martino, 47, his brother, Warren L. Martino, 44, and Salvatore "Sammie" J. Sicuro, 64.

In New York, agents said David Miller, 61, was arrested in his Manhattan apartment. The four arrests brought to 14 the number of men picked up since New Year's Day in Michigan, Arizona and Nevada.

The affidavit filed in Biloxi alleged that Dean "placed bets for Howard Sober with these men known as Sammy, PJ, and Wimpy at the 405 Club." It also alleged that Sober regularly "called Dean at Dean's home in Wiggins, Miss." and that the calls concerned wager information or wagers Sober wanted Dean to place for him.

One incident alleged by the affidavit states that Sober purchased a cashier's check for more than \$6,000 last July at a bank in Lansing, Mich., and that Dean took the check to Mississippi, endorsed it and gave it to Sicuro or one of the Martinos.

Federal agents armed with a warrant searched Dean's hotel room in Las Vegas on New Year's Day. In Detroit Monday, Assistant U.S. Attorney James E. Ritchie, who is heading the Detroit-based investigation of the alleged gambling operation, said that Dean "has possibly been victimized by professional

JOHN E. DWYER  
...for Pct. 4 Commissioner

## McLean Rancher Files For Post

John E. Dwyer, a McLean rancher, has filed for the Gray County Commissioner, Pct. 4 spot, on the democrat's ticket now held by Truitt Johnson of McLean.

Dwyer, born in McLean in 1926, graduated from high school there and attended Texas Tech College, where he received a bachelor of science degree in agriculture. For 17 years, he was employed as a vocational agriculture teacher at Groom and Samnorwood. In 1968, he moved back to McLean and became actively engaged in farming.

He is a member of McLeans Lions Club and the Church of Christ. He and his wife, Mary, have three children, Nelson, a sophomore at Texas Tech; Ray, a senior at McLean High and Rose Helen, a fifth grade elementary student.

In filing for the May 2 democratic primaries, Dwyer said: "I feel I am qualified and could do a good job. I would devote my full time to County business."

Two other McLean residents have come forward to seek the Pct. 4 commissioner's office. Joe D. Billingsley, 33, and Ted Simmons, 40, have filed.

## Youth...

(Continued From Page 1) who coached him in a Little League All-Star battle.

A total of \$609.28 has been collected in Bobby's behalf, according to Paul Keim, First National Bank representative in charge of the donations there.

This was presented to Bobby Monday along with best wishes from former teammates.

According to Mrs. Adair, Bobby will study through a teacher at home until he feels he is ready to return to his eighth grade homeroom schedule directed by Mrs. Sue Jones.

"It's up to Bobby now," stated his mother, "The doctor said he could go to school even on crutches if he wants to. He'll be the one to decide when he feels like it."

So far Bobby's hospital stay has corresponded with the Christmas holidays and he has not missed many regular classes.

Friends, neighbors and acquaintances have stayed in touch with Bobby throughout his ordeal offering support and gaining much inspiration themselves from the bright-eyed smiling young student.

Friends report that "his spirit is something else."

Persons wishing to contribute to the Bobby Adair Fund may still do so, according to Hunter. He stated that First National Bank will still accept contributions.

Bobby, worried about Fred Steinmark, University of Texas football star who underwent a similar surgery, wrote him an encouraging letter only days after his own experience.

"He'll do just fine," concluded Mrs. Adair.

## Chairmen...

(Continued From Page 1) lures of neglect and indifference, the fight against birth defects is taking on new dimensions.

Brown explained a new vaccine can eliminate the tragedies of Rh factor. "The rubella vaccine has the potential to mark the beginning of the end for afflictions traced to German measles when contracted during pregnancy. Pediatric surgery is another weapon in treating birth handicaps," he said.

Locher detailed events the Gray County chapter will conduct during this year's drive. "We will have a Mother's March Monday Jan. 19," said Locher. "Within the next few days, the Pampa Fire Department will distribute MOD coin canisters throughout the business district," he continued.

"On Saturday Jan. 24 the service clubs of the area will hold the annual 'Bucket Brigade' in Pampa, Lefors and McLean," he explained.

"There will be strong emphasis on a polio and measles vaccine for all children ages one to 10 years," said the Gray County Chairman. "The state will underwrite the program for all children of six to 10-year-old through the school nurses."

"In an effort to immunize those children ages one to five-year-old, it is stressed to take them to their local doctor and have the vaccination given," said Locher. "If parents can't afford to pay for the pre-schoolers' shots, then they can fill out one of the cards we've left there, have the doctor sign it and the Gray County Chapter of MOD will pick up the bill."

A campaign film, "A Visit With Jimmy Lee" is available for clubs to view. This 14-minute film was produced by the national headquarters. Anyone wishing to schedule it as a program may contact Don Locher at 669-2581.

An auction will also be held again this year with the date not set at this time.

## Demo Exec Group To Meet Today

The Gray County Democratic Executive Committee will meet at 7 p.m. today in the Gray County Court Room, according to Harold Comer, chairman.

The 1970 organizational meeting agenda will include appointments to fill posts vacated by resignations and cost factors in conducting the Democratic Primary.

Resignations have been filed by Marvin Webster, Precinct 8 and Elmer McLaughlin, Precinct 6.

The cost of the primary will be determined and the cost assessment among candidates set tonight.

A GAVEL EXCHANGE transferred the title of Toastmaster president from Curt Beck, right, to Dean Davis, while two illustrious guests watched the ceremony, Harry Bramblett, left, of Amarillo, lieutenant governor of Toastmasters' District 44 and Toastmaster Governor Bob Spikes, also of Amarillo. (Staff Photo)

## Agnew Gets Wild Welcome From Turbaned Afghans

KABUL, Afghanistan (UPI)—Agnew in both English and Vice President Spiro T. Agnew arrived in Kabul today on his Asian goodwill tour and received a wild welcome from turbaned and gaily robed Afghans while police held off 300 anti-Vietnam War demonstrators.

The demonstrators were both the tribal costumes of Afghanistan and the clothes of the West. Members of the U.S. Peace Corps in Afghanistan had threatened to protest against the war but some of the Westerners could have been hippies in this hippy haven of cut-rate marijuana.

The Agnew motorcade wound 10 miles into Kabul in bitter cold while police kept the antiwar groups from the path. But they waved banners at

him at the airport.

## Choir...

(Continued From Page 1) selected for All-State Choir events in Dallas Feb. 12, 13 and 14.

Pampa students entered in area competition Jan. 17 are Randy Cantrell, first tenor; Mark Turner, John Duggan, and Ricky Harris, baritone; Donna Matheny, Cynthia Carter, and Mimi Miller, second soprano; Jerce Pitts, first alto; Beverly Campbell, second alto; and alternates—Monty Joiner, first tenor, and Wyatt Earp, baritone. Mr. and Mrs. Davis will accompany the students to Lubbock.

## Pampa Home Burglarized

Ed Bryaa, 2329 Charles, reported to Pampa police Monday that sometime during the past four to six weeks his house was burglarized.

Bryaa told police that he was having construction work done on his home and that he was missing \$190 in cash, a clock valued at \$175 and 20 books of trading stamps.

Landing Zone Ross is near the Que Son Valley, where U.S. soldiers killed more than 1,000 North Vietnamese in a campaign last fall. Today's assault marked a continuation of stepped-up Communist attacks that began in the northern war zone during the weekend.

Military spokesmen said the eight-round mortar attack that killed 17 Vietnamese occurred farther down the coast near Quang Ngai City, not far from the site of the alleged My Lai massacre.

North Vietnamese troops in South Vietnam's northernmost province Monday ambushed a U.S. Army truck convoy southeast of Quang Tri City, killing two Americans and wounding nine while escaping without a loss.

Military spokesmen said five long-range Communist rockets fell near the northern Allied air base at Da Nang early today and that four Vietnamese were wounded—three soldiers and a civilian.

## Attorney Asks Army To Be Specific

FT. BENNING, Ga. (UPI)—The civilian attorney for Lt. William L. Calley Jr. has filed two motions asking the Army to be more specific in the murder charges against the 26-year-old officer in the alleged massacre of 109 South Vietnamese civilians at My Lai.

George Latimer filed the motions Monday with military judge Lt. Col. Red Kennedy, who did not immediately set a date for a hearing on them.

In one motion, Latimer asked that the Army name the times, dates, places and locations of each of the offenses alleged to have been committed by Calley.

The other requested dismissal of duplicating and multiple specifications in the case, or, as

## Investigation Asked Into DWL Charge

A 76-year-old Pampa man, Henry Seals, 736 S. Somerville, who police officers say resisted arrest and had to be sprayed with a mace, was to be charged in Pampa Municipal Court today with operating a motor vehicle without a valid Texas driver's license.

A Pampa businessman who has employed Seals for a long period of time, said he had asked Police Chief Jim Conner to investigate the incident to see if excessive force was used to subdue the 76-year-old Negro man.

Seals had bond of \$300 set on the charge by Justice of Peace Nat Lunsford and has been released from jail. Conner said charges would be filed today in Municipal Court.

According to arresting officer Stan Brown's report, he observed Seals in the 600 block of S. Cuyler nearly strike another vehicle. Brown said he tried to stop Seals. Chief Conner said Brown first used his spotlight, then his red lights and siren.

Brown said that Seals did not stop and finally pulled into his driveway, where the officer told him he was under arrest. Seals then cursed the officer, according to Brown, and refused to get in the patrol car.

Two other officers Roy Deenan and Sgt. Danny Honeycutt arrived on the scene. Brown stated that Seals continued to resist arrest and then was sprayed in the face with the chemical "Dell" a tear-gas chemical that makes the eyes water.

Brown said that Seals still had to be forcibly taken to the police car. The officer said in his report that he felt using the chemical was the best way to keep Seals from being injured.

## Property Damage From Accidents Shows Increase

Property damage from traffic accidents in Pampa during 1969 totaled \$27,665.19 an increase over 1968's \$13,000 total. Traffic accidents were up in the city also by 110 but there was only one more injury in 1969 than records showed in 1968.

Property damage in 1968 was estimated at \$213,839.27 which upped the 1969 increase to \$13,825.92.

Pampa police investigated 775 accidents in 1969 with one person killed and 132 persons injured. In 1968 city police investigated 665 accidents with one person killed and 131 persons injured.

There was a big increase in accidents during December 1969 compared to the same month in 1968. Police investigated 95 accidents last month and only 64 during December of 1968.

Injuries were down, however, with most of last month's accidents minor "fender benders." Only 10 persons were injured last month compared with 15 in the same month in 1968.

Police estimated the property damage from accidents last month at \$32,602.

The majority of the accidents occurred between the hours of 5 and 6 p.m. (11) with eight between the hours of 3 and 4 p.m. More accidents (24) happened on Monday than any other day with Wednesday being the second most dangerous day to drive. Police investigated 18 accidents on that day.

There were 30 drivers between the ages of 25 and 34 involved in accidents with 22 between the ages of 35 and 44 the next highest offender. More males, than females were drivers with 109 male drivers involved in the collisions and only 32 women drivers.

## Obituaries

### MRS. OPHELIA ROFF

Funeral services for Mrs. Ophelia Wither Roff, 88, of 529 N. Somerville, will be held at graveside at 2 p.m. Thursday at Greenwood Cemetery in Fort Worth directed by Carmichael-Whitley.

Mrs. Roff died Monday at Worley Hospital.

She was born Feb. 12, 1881, in Tarrant County. She was a member of the Christian Church. For the past four years, she had lived with her niece, Mrs. G.C. Parnell, 529 N. Somerville, and her son, Jack Roff, Houston.

Survivors are one son, Jack, Houston; one daughter, Mrs. Ed Westby, Seattle, Wash.; two nieces, Mrs. W.S. Tolbert, Mrs. G.C. Parnell, all of Pampa, and one great-niece, Mrs. Jeff Bearden, Pampa.

### MRS. MYRTLE BALL

McLEAN (Staff) — Funeral services for Mrs. Myrtle Pearl Ball, 75, Alameda, will be held at Alameda Baptist Church, at 2:30 p.m. Thursday with the Rev. M.B. Smith, pastor, officiating. Burial will be in Sayre-Dexey Cemetery in Sayre, Okla., directed by Lamb Funeral Home of McLean.

Mrs. Ball died Monday at her home in Alameda, after suffering a heart attack.

She was born Nov. 17, 1896, in Crawford County, Mo., and had moved from Sayre to Alameda where she was a member of Alameda Baptist Church.

Survivors are three sisters, Mrs. Ora Elwood, Carpenteria, Calif.; Mrs. Lillian Boswell, Fort Worth, and Mrs. Bea Ayer, Rockport, Ind.; three brothers, Elmer Rook, Cheyenne, Okla.; Charles T. Rook, Bushnell, Fla.; and Albert E. Rook, Jacksonville Beach, Fla.

## Moon's Surface Sculptured By Lengthy Period Of Volcanism

HOUSTON (UPI)—One of the nation's top lunar geologists says the evidence from Project Apollo is beginning to indicate the moon's surface was sculptured by a long period of volcanism after forming 4.6 billion years ago.

This, like most other lunar theories, is the subject of sharp debate among scientists attending a conference presenting the results from man's first moon landing expedition in July.

Dr. Eugene A. Shoemaker of the California Institute of Technology, said a report Monday that rocks returned from the Apollo 12 mission may be 1.5 billion years younger than those from Apollo 11 suggests that the moon has been active for much of its history.

If this turns out to be so, said Dr. Harold C. Urey, Nobel Prize-winning advocate of the cold moon theory which rules out extensive volcanic activity, "I will be dreadfully embarrassed."

Urey, Shoemaker and three other top moon scientists analyzed the results from the Apollo 11 lunar sample studies in a lively panel discussion Monday at the opening day of the unprecedented four-day moon rock meeting.

Dr. John O'Keefe, of the Goddard Spaceflight Center at Greenbelt, Md., said the evidence indicates to him the moon split off from the earth after earth's core formed and accumulated some of the metals that are rare in moon rocks.

But Dr. Edward Anders, of

No Trace

TAHLEQUAH—The Cherokee Co. office reported to find any traces of a meteorite was a member of Tahlequah, Okla.

Oscar Monnig, wholesaler and owner in Fort Wayne fireball was visible in the Texas.

"If any meteorite would be pretty quah," Monnig's guess pieces may or west of Tahlequah.

Hundreds of lights flash through a meteorite night.

## Invitations Out For March Livestock Show

Letters of invitation went into the mail today from the Chamber of Commerce to all Area Vocational Agriculture Departments to attend the Top of Texas FFA Livestock Judging Contest to be held in Pampa, March 10.

Areas I includes all Vocational Agriculture Departments in the Texas Panhandle north of Lubbock.

The judging contest will be held in conjunction with the Top of Texas Livestock Show, which annually attracts approximately 50 teams. Seven classes of livestock will be judged by teams entered in the contest, including one class of breeding cattle; one class of fat barrows; one class of sheep; a class of feeder cattle to be graded according to USDA grades, and one class of slaughter cattle to be graded according to USDA grades.

Contest awards consist of a trophy to the winning team, banners to the second and third high teams, ribbons to the five high men in beef cattle, hogs, and sheep; ribbons to five high men in judging in all classes of livestock, and the Frank M. Carter Scholarship Award to the contest's outstanding student picked by a special committee.

The contest gets underway with registration at 8:30 a.m. Tuesday, March 10, and concludes with a banquet in the High School Cafeteria at 5 p.m. sponsored by Pampa's banking institutions.

Quentin Williams is superintendent of the judging contest, assisted by J.P. Smith of Amarillo, Frank M. Carter, Pampa; Walter Labay, Area Vocational Agriculture Supervisor for the State Department of Education; and L.M. Hargrave of the Animal Husbandry Department of Texas Tech, are members of the contest committee.

## No Traces Found Of Meteor

TAHLEQUAH, Okla. (UPI)—The Cherokee County sheriff's office reported today no one has found any traces of what apparently was a meteor that fell near Tahlequah in northeast Oklahoma.

Oscar Monnig, a dry goods wholesaler and amateur astronomer in Fort Worth, said the fireball was visible 300 miles away in the Texas city.

"If any meteor fell pieces would be pretty near Tahlequah," Monnig said. "I would guess pieces may be to the east or west of Tahlequah."

Hundreds of Oklahomans saw lights flash through the sky during a meteor shower Saturday night.

Most of the reports were from northeastern Oklahoma and one of the witnesses was Brad Scheer, Tulsa's police and fire commissioner.

Scheer was in his back yard and saw an object burn itself out in a trail across the sky. The commissioner said he would not dispute the reports of other eyewitnesses who saw the meteor but the one he saw burned itself out before hitting the ground.

Oklahoma highway patrolman Don Fields was sitting beside the highway three miles west of Tahlequah working radar when he saw what appeared to be a meteor.

## Suggest Moon Began As Molten Liquid Ball

HOUSTON (UPI)—A team of geologists suggested today the moon began as a molten liquid ball and grew in a series of layers like skins on an onion as it cooled and solidified.

Dr. Joseph V. Smith of the University of Chicago proposed the idea of lunar evolution in a paper prepared for the opening session of an unprecedented conference on the scientific results of the Apollo 11 moon landing.

In another paper, Mitsuobu Tatsumoto of the U.S. Geological Survey at Denver, Colo., said radioactive dating methods showed some of the moon rocks hardened 4.6 billion years ago—about the time accepted for the birth of the solar system.

**Age Estimates Wrong**

Before Neil A. Armstrong and Edwin E. Aldrin landed on the moon in July, the age estimates for lunar surface rocks fell in the millions-of-years category—not billions. The oldest rocks known on earth are about 3.5 billion years old.

Smith, who developed the moon theory with the aid of two colleagues, Drs. A. T. Anderson and Robert Newton, said the lunar rock and mineral samples examined indicate that water and other volatile substances boiled away from the original glob of molten moon material.

Then, as time passed, Smith said, heavy liquids rich in iron sank toward the center to create a core. A thin crust then formed at the surface and the moon began to cool.

Heavier minerals crystallized and sank toward the moon's center forming a successive series of mineral shells, according to the theory, leaving a concentration of iron and titanium in the still molten portion. Feldspar minerals then solidified and since they were lighter than the liquid, they rose to form a thicker crust.

## Your Horoscope

**JEANE DIXON**

WEDNESDAY, JAN. 7

**Your birthday Wednesday:** The past is finished, the future now breaks into your patterns and habits. Almost none of your activities, nor your reasons for doing them, remain the same in the coming months. Your personal values shift rapidly. Intriguing new friendships evolve. Wednesday's natives are practical, work willingly in whatever field is most needed in their youth, and develop high skills as they mature.

**ARIES (March 21-April 19):** Wednesday you are ready for a fresh start, perhaps a stirring of emotional impulses. Whatever talent you may have for showmanship comes out.

**TAURUS (April 20-May 20):** Get out early and plan for an excursion Wednesday, if you can manage it. Put your best foot forward; express yourself vigorously.

**GEMINI (May 21-June 20):** A potentially profitable business deal is possible. Make a point of being seen in the right places, doing things that fit the mood of the times in your community. Buy furnishings for your home where needed.

**CANCER (June 21-July 22):** There is glamor about everything you do Wednesday, with more than a hint of sudden luck. Put forth good-humored effort; include a lunch break appointment with interesting conversation.

**LEO (July 23-Aug. 22):** Now is your chance to persuade doubters to come over to your way of seeing things. Children provide some cheerful incidents. Cash is easier to obtain; make that sale!

**VIRGO (Aug. 23-Sept. 22):** Your recent consideration of others now produces some reward. Bring newly developing skills to bear on your career efforts; see them begin to pay off at once.

**LIBRA (Sept. 23-Oct. 22):** Your home and loved ones come first Wednesday. Make the most of a passing high tide of cooperation; have the courage to express your feelings fully. The evening is for social gatherings, sports,

## Careful Drivers Put Fewer Cars In Icy Snowdrifts

**NEW YORK** — Careful drivers lessen their chances of ending up in an accident or snowdrift by preparing both themselves and cars for cold, slippery weather.

While hubby is getting the snow tires put on and having the car's cooling, electrical, fuel and exhaust systems checked and winterized, prepare a safety kit that will make winter driving easier and less dangerous.

It ought to contain: —A new spray product which the manufacturer says triples tire traction when applied to a wet or dry tire. Never decrease tire pressures for winter driving. This increases tire wear and also can make handling the car unnecessarily difficult. Check the car's instruction manual.

—An ice and snow scraper and brush to clear the windshield and windows. Some windshield spray de-icers come equipped with scraper top. Remember that all windows on the car ought to be free of ice and snow.

—A solution of windshield washer anti-freeze to add to the washer's reservoir so that the water will not freeze.

—Flashlight. Check to see that the bulb and batteries are fresh. The magnet flash with a red safety reflector is an excellent choice. It makes a useful warning device that will "stick" to any metallic surface on the car when needed for repair purposes.

# Dear Abby

By Abigail Van Buren

**DEAR ABBY:** I am a 17-year-old boy who has been reading your column for about two years. In that time, I have read several letters from girls asking how to politely say "no" to a boy without wounding him off permanently. However, I do not believe I've ever seen a letter from a boy asking the same question about girls, so here goes:

I am tall and considered good looking by most people. My problem is that on dates, girls sometimes want me to go farther than I know I should for the good of both of us.

How can I say "no" without making a fool of myself? Abby, I have discovered the boy is not always the aggressor, so how about lending a helping hand to the male sex by printing this letter and your answer?

**DEAR MALE:** You have answered your own question very intelligently. At the appropriate time, say, "We have gone as far as we are going — for the good of both of us." (And if you make a "fool" of yourself with that statement, I know a lot of fine young women who are looking for the kind of "fool" you are.)

**DEAR ABBY:** I saw another letter in your column from a wife who complained about her philandering husband, but went on to say that he was a "wonderful father." How can a cheating husband be a wonderful father?

A married man who sees other women, usually spends a good hunk of family income on them. And in case of an emergency he cannot be found. And what can a philandering husband say if his daughter takes up with a married man? And what if his sons follow his example? And what is his answer to the brat down the street who humiliates his children with, "Everybody knows about your father?"

"Wonderful father" can't very well help with the homework, chaperone school dances, or even carry on table conversation with his own children if he is out on a "date."

A man with only one fault is rare. If he's pleasant at home, keeps his family fed and clothed, is reasonably sober, and discreet, his philandering can be forgiven. But a "wonderful father?" Never!

**HAD ONE**  
**DEAR HAD:** What you say is true. But if a man's one vice is philandering, then the most

important virtue he can possess is discretion. (Then, at least his family will be spared humiliation.) Please don't interpret this to mean that I condone philandering. I do not. But nobody's perfect.

**DEAR ABBY:** The author of Ecclesiastes seems to have "missed the boat" when he wrote, "and there is nothing new under the sun." (1:9 R.S.V.)

Recently I received a beautifully engraved invitation to an anniversary party, and in the lower left hand corner of the card were the words: "Money Tree."

This is something new in my book. — Maybe we are old fashioned, but both my wife and I were amazed beyond measure. What is your opinion of this, please?

**NAMF WITHHELD**  
**DEAR NAME:** It is not "news" to me. But why people who are obviously not in need would request a gift of money from their guests, is a mystery to me.

Striped shades help to vary monotony of the average boxlike apartment.

## The Lighter Side

**By DICK WEST**  
WASHINGTON (UPI) — Today's assignment: Write a three-page essay on "What is wrong with January?"

This question has vexed, perplexed and otherwise troubled the mind of man ever since the days of Julius Caesar, during whose reign the month of January was discovered.

Which was the only blot on Julius' otherwise impeccable caesarship.

The ancients, steeped as they were in myths and superstitions, tended to blame January either on evil spirits or just plain bad luck. But in our age of scientific enlightenment we demand a more rational explanation.

**Has Five Major Defects**  
Scholars who have studied the month closely now agree that January has five major defects that turn people against it.

1. One serious flaw is January's nasty habit of making its appearance immediately after New Year's Eve. Invariably, that gets it off to a bad start.

People awoken on Jan. 1, find themselves in a shambles and, being unwilling to admit they have done this to themselves, look around for something to blame their condition on. January makes a convenient scapegoat.

The feeling of hostility and resentment directed against January at that moment may develop into blind hatred, depending on how quickly the aspirin takes effect. And often the grudge lasts for the full 31 days.

2. Another blemish is January's unfortunate trait of always being the first month of the year. Most of us spend the entire month writing the wrong date on our checks and otherwise trying to get adjusted to the change.

**Viruses Are Overlooked**  
Being thus preoccupied, we pay scant attention to January's many virtues. Which proves that the early bird doesn't always get the worm.

3. January suffers from being the month in which most people break their New Year's resolutions.

As a rule, we have no compunctions about breaking resolution in February. But the failure to keep them even a

month makes us feel guilty and we become outraged at January for lasting so long.

4. January makes the fatal mistake of succeeding December, which is a hard act to follow.

All of those bills that come due in January rightfully should be blamed on December. But we maintain a benevolent attitude toward December and unfairly holding January accountable.

5. And besides that, January is the month in which for millions of wage-earners Social Security tax withholding resumes.

**NOT A DRIVE-IN**  
HONOLULU (UPI)—David B. Lyman Jr., 56, faced a drunk driving charge Sunday for driving his car into Lum's Restaurant—which is not a drive-in.

Police said Lyman missed a turn and drove his car through a brick wall, leaving the entire hood inside the restaurant. The impact sent seven empty tables flying and splattered catsup on customers, but no one was injured.

**WRONG DOG**  
LINCOLN, England (UPI)—Charles Hall thought his pet poodle "Chikki" was behaving peculiarly after returning with a frilly new haircut from the local pet shop.

It was nearly 24 hours later that he realized what was wrong—the shop had given him the wrong dog.

**TWO-CENT "DETERRENT"**  
MINEHEAD, England (UPI)—A doctor asked a local social club to stop serving a cider drink because he claimed it had bad effects on two of his patients.

The club's directors decided against a ban, but boosted the cider price by two cents "as a deterrent to the people concerned."

**FLU EPIDEMIC**  
PRAGUE (UPI)—The Czechoslovak news agency CTK reported Sunday that more than 25,000 persons in the Slovak-speaking part of the nation are suffering from the flu. The Slovak capital of Bratislava was said to be hardest hit.

IF YOU THINK Pampa is getting the worse end of the winter season, witness the photos above, where Vermont has been declared a disaster area after a record-breaking snowstorm left blocked roads, rising rivers and extended power losses. In Burlington, bottom left,

a roof collapsed under weight of snow leaving a gaping hole over a trucking company vehicle. A motorist in Warren, top, digs his car out of more than 30 inches of snow. Getting a horse didn't help, top left, when a man tried to use the animal to free his snowbound car

in the vicinity of Albany, N.Y., where 22 inches of snow fell, recording the second worst storm in the Capital District's history. In Maine, top right and Boston, bottom, snow turned into rain, causing flooding normally seen in springtime.

## Foreign News Commentary

By PHIL NEWSOM and left them looking for scapegoats.

UPI Foreign News Analyst The beginning of the new year closed off a week that had been a disaster for the Arabs and an embarrassment to their good friend in the West, France.

The escape of the five Israeli gunboats from Cherbourg Harbor, a sort of Trojan Horse operation in reverse, embarrassed the French, threatened their relations with the Arabs

and left them looking for scapegoats. They found them in some military men friendly to the Israelis and a shipbuilding firm allegedly based in Norway but actually Panama-based.

The breakup of the Arab summit at Rabat, Morocco, illustrated the basic weakness of inter-Arab cooperation and left Palestine guerrilla leader Yasser Arafat complaining he had received lots of love and sympathy but no money.

Israeli commandos climaxed the week by striking at a new Soviet-built radar station on Egypt's Gulf of Suez coast and transporting the seven-ton installation back to the Sinai, maintaining control of the air as they did so.

The Cherbourg operation and the exploit against the radar station were of the stuff that legends and movies are made. Neither, however, seemed likely to be of material aid to the Israelis in forcing the Arabs to the peace conference table.

Of greater significance in the longer run could be the disclosure that France, under President Georges Pompidou,

was intensifying the campaign begun by former President Charles de Gaulle to take advantage of waning U.S. and British influence in the Mideast.

Into the opening stepped France with an offer to take over the abandoned air bases and to negotiate arms contracts with Libya said to be worth up to \$400 million.

The French Mideast arms embargo applies to Israel, Syria, Jordan and Egypt, but not to other revolutionary Arab states, including Iraq which this week is loading ammunition in Cherbourg Harbor.

with us," said Ronald McNeil, 35, Anchorage.

McNeil, the pilot, and Patrick Kilmurray, 28, his mechanic, walked into the tiny town of Umiat Saturday night as the temperature hovered at 34 below and casually asked for a shower, food and rest. They

had been missing since Dec. 23. A defective part in a jet helicopter was believed to have caused their ordeal.

## UCLA Returns To Top Spot In UPI Ratings

By United Press International  
UCLA is back in a familiar position—ranked as the top college basketball team in the nation.

The Bruins, a perennial powerhouse, today displaced Kentucky as the nation's No. 1 team in the fifth weekly balloting by the 35-member United Press International Board of Coaches.

UCLA, averaging over 100 points a game, received 28 first-place votes and 341 points to easily outdistance Kentucky, which dropped to second with seven first-place votes and 306 points.

South Carolina maintained third and St. Bonaventure, unbeaten in eight games, jumped up to fourth. North Carolina was

## The Poll

NEW YORK (UPI)—The United Press International top 20 major college basketball teams with first-place votes in parentheses:

Team	Points
1. UCLA (28)	341
2. Kentucky (7)	306
3. South Carolina	246
4. St. Bonaventure	217
5. North Carolina	144
6. New Mexico St.	133
7. Jacksonville	97
8. Houston	88
9. Ohio Univ.	66
10. Tennessee	49
11. Washington	41
12. North Car. St.	30
13. Marquette	27
14. Davidson	17
15. Columbia	14
16. Oklahoma	13
17. (Tie) Oregon	9
(Tie) Utah	9
19. (Tie) Santa Clara	8
(Tie) Wash. St.	8
(Tie) Wyoming	8

Others receiving five or more points: Pennsylvania, Niagara, Illinois, Louisville, Villanova, Baylor.

## Pirates Sweep Twinbill From Groom Cagers

LEFORS (Sp1) — Lefors was never headed, here Monday night, and kept the pressure on Groom the whole evening while winning two cage games from the Tigers.

Lefors girls team ripped Groom, 60-24, and the Pirates blitzed Groom, 54-32, on a cold night.

In the girls' contest Lefors raced to an easy, 15-6 first period lead, was ahead, 24-18, at halftime, 42-22 at intermission.

LeAnn Timmons paced Lefors scoring with 20 points while Linda Taylor and Susan Klein had 10 each; Sanders had 7; Shirley Eudey scored five; Sandra Calk, 4 and Pat Maxon and Paula Wall, two each.

For Groom Twilia Wade had 14, Meg West 8 and Laurel Krizen, 2.

The Pirates built up a 21-8 first period margin, increased it to, 33-19 at intermission and 48-26 after three periods. Lovelace paced Groom with 10 points. Clarke had five, Hall, Howerton and Ashford, 4 each; Blackwell 3 and Crowell, 2.

Lefors was paced by Mike Robbins with 18 points; David White and David Earles had nine each; Joe Don Elkins scored 8; Dalton Tarbet had 8 and Bill Eates, 4.

## Toomey Shooting For New Goal In Track

SANTA BARBARA, Calif. (UPI) — Bill Toomey has a world record to go with his gold medal now. But those accomplishments could be secondary to his next goal.

The No. 1 decathlete man in history wants to set a series of training centers for track and field athletes in the country.

"If we're (the United States) going to maintain ourselves as any kind of a track power," the veteran athlete said, "we're going to have to promote the concept of training centers."

"Our track people don't have the facilities to train after they get out of college. Training centers are needed."

Toomey, who will be 31 on Jan. 10, will always remember December of 1969. He set a world record of 8,417 points and then gave up his single life, marrying Britisher Mary Rand, 1964 Olympic women's long jump champion.

Toomey, who set an Olympic record of 8,193 points in winning his gold medal at Mexico City in 1968, would like America to have a national training center at South Lake Tahoe, Calif., the U.S. training site for the Mexico Olympics.

BILL TOOMEY  
... new goal

"Oh, we do okay," Toomey said. But we don't represent ourselves as well as we could. There have been so many developments in the last five years in this country to set track back.

"While we won a lot of gold medals at Mexico City, we didn't have the depth we used to have."

"We may do all right in the 1972 Olympics but it will only be because of our population and economy. Just take a look at some of the little countries like East Germany. They put us to shame."

The National AAU-NCAA fight has hurt track in this country more than most people realize, according to Toomey.

"I can't pretend to understand their problems. But if the AAU and the NCAA would use the money they do fighting each other and promote the sport as they should, it would be a great thing."

The rugged athlete, originally from Laguna Beach, Calif., doesn't think the federal government should get involved in track and field in the United States.

## Gamecocks In Rout Over North Carolina

By United Press International  
North Carolina Coach Dean Smith had a plan for his team's game against South Carolina Monday night.

Unfortunately, for the Tar Heels, South Carolina Coach Frank McGuire countered with a better plan and his third-ranked Gamecocks came away with a 65-52 decision over their northern neighbors, currently ranked fifth.

"Our plan was to play a control game and set the tempo for the first 30 minutes and then play our normal game," Smith revealed after his team suffered only its second loss in 11 games.

McGuire, sensing a possible slowdown, had his players patiently wait for only good shots and not force any attempts and his strategy paid off.

The Tar Heels and Gamecocks meet again in Feb. 21 and Smith was quick to reveal, "We will not use this strategy when South Carolina comes to Chapel Hill."

Second-ranked Kentucky, replaced only hours earlier by UCLA as the top team in the country, took out their anger on poor Mississippi State, thumping the Bulldogs, 111-76, for the unbeaten Wildcats' 10th victory. Dan Issel scored 31 points and Mike Pratt had 21 for the winners who used most of their reserves after taking a 62-37 halftime lead.

Sixth-ranked New Mexico State had to overcome a 38-34 halftime deficit before downing stubborn Texas, El Paso, 75-66, for its 13th triumph against only one loss. Jimmy Collins paced the Aggies with 23 points to share scoring honors with the Miners' Nate Archibald.

Steve Bilsky's 25 points helped Pennsylvania beat Princeton, 75-69. Villanova used Chris Ford's 29 points to down Detroit, 87-78; Baylor tripped Texas, 81-59, behind Larry Gatewood's 24 points, and Florida State beat Arizona, 87-78.

Elsewhere, Georgia Tech whipped Southern Illinois, 100-71; Seattle blasted Portland, 100-72; Cincinnati edged Tulsa, 78-74; Duquesne walloped American University, 103-64; Miami (Fla.) defeated Rhode Island, 105-95; Kansas State topped Oklahoma State, 72-56; Missouri got by Kansas, 56-53; Drake downed Memphis State, 72-62; Vanderbilt overcame Florida, 90-79; Georgia got past Auburn, 68-64, and Texas Tech nipped Santa Barbara, 59-57.

## New 'Super Joe' Not At All Like Old One

NEW ORLEANS (UPI)—The nation's newest Super Joe isn't at all like the old one.

Joe Kapp is a fighter, not a lover.

That's just for openers. He doesn't have that quick release either, nor is he the classic passer or classic leader. All he does is move a ball club and if you have to ask how you must have missed seeing him move the Minnesota Vikings into the Super Bowl Sunday with a ridiculously easy 27-7 win over the Cleveland Browns in frigid Minneapolis.

Does Nothing Right  
"The guy doesn't do anything right," says one NFLer. "He rolls out when he should stay in the pocket; he throws the ball with his right foot forward instead of his left, and he makes far more physical contact than any sensible quarterback should, but it all seems to come out all right." And then some.

The triumphant Vikings, al-

## SPORTS PARADE

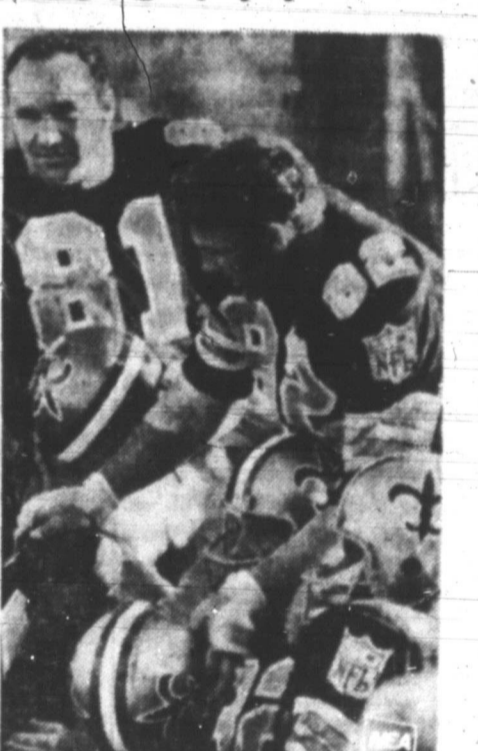

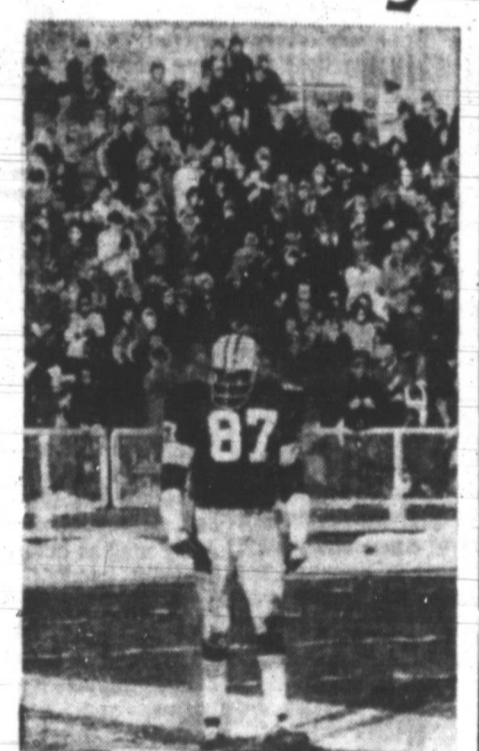

ready established favorites over the AFL champion Kansas City Chiefs for Sunday's Super Bowl showdown, are due here tomorrow but don't expect the same kind of pre-game predictions from the new Super Joe as you got from that other one.

There is an occasional similarity between them. Like you can get Joe Kapp to talk about love if you press him a bit. The way to do it is tell him how everyone underrates the Vikings offensive line.

"They may be underrated, but I love 'em all," he says.

Has One Thing in Common  
Joe Kapp does have one thing in common with the other Joe: he tells it like it is. Watching

## Parting Shots . . .

PLAYING IN THEIR last games, Willie Davis, left, of Green Bay Packers and Doug Atkins, right, of New Orleans Saints received some unexpected tributes. Packers fans gave Davis standing ovation at Lambeau Field, while Atkins' teammates carried him off the field. Both were also honored at halftime ceremonies.

## Minnesota, Kansas City Both Have Young Professional Teams

NEW ORLEANS (UPI)—Notes from the Viking scrapbook:

The Minnesota Vikings, the first NFL expansion team to make the Super Bowl, are actually a year younger than the "upstart" AFL entry—the Kansas City Chiefs. The Vikings were formed in 1961 while the Chiefs—then the Dallas Texans—began in 1960 when the AFL came into existence.

Ironically, the NFL gave the city of Minneapolis a franchise in the first place to keep the AFL from getting a foothold in the northern metropolis.

The Vikings became formal members of the league on April 12, 1961 and lost to the Dallas Cowboys, 38-13, in their first exhibition that fall before just 4,954 fans in Sioux Falls.

But they beat the Chicago Bears, 37-13, in their first regular season NFL game.

The two men who played the biggest role in the Vikings' development — Norm Van Brocklin and Fran Tarkenton—

are no longer with the club. Van Brocklin coached the first six seasons, reaching a high point of 8-5-1 in 1964 and slipping to 4-9-1 in 1966 before quitting for the second and last time in February of 1967.

The volatile Van Brocklin, now coaching the Atlanta Falcons, left a solid nucleus behind, including 15 of the present 22 starters.

Tarkenton quarterbacked for the first six seasons before he asked to be traded and the Vikings got four high draft picks for him from the New York Giants to help build the club.

Coach Bud Grant played pro basketball for two seasons with the old Minneapolis Lakers before joining the Philadelphia Eagles, who drafted him No. 1 in 1956. He played four years in Canadian ball with Winnipeg before becoming head coach of the team in 1957 when Allie Sherman resigned to become an assistant with the New York Giants.

## Alcindor Named Post On East All-Stars

NEW YORK (UPI)—Lew Alcindor, the young buck who turned Milwaukee from dorm to title contender in his rookie season, today was selected to one of the East's center posts for the National Basketball Association All-Star Game in Philadelphia, Tuesday night, Jan. 20.

Alcindor, a three-time All America at UCLA, drew 10,106 points of a possible 14 from a panel of sports writers and sportscasters who picked the eight-man team announced by league Commissioner Walter Kennedy. The panel represented each of the league's participating cities.

The New York Knicks and Philadelphia 76ers each gained two berths in the balloting, while Milwaukee, the Boston Celtics, Baltimore Bullets and Cincinnati Royals were accorded one apiece. Detroit was shut out by the panel, but under league rules a Piston player must be in the game to assure representation of all clubs.

The league's 14 coaches will wait until the eight-man West squad is chosen later this week and then vote for an additional four players to each team.

Willis Reed of the Knicks received 13,250 points as the other east pivotman. Billy Cunningham of Philadelphia, with a high of 13,625, John Havlicek of Boston with 12,092, and Gus Johnson of Baltimore with 7,648 points were named to the forward posts.

Walt Frazier of New York, 13,431; Oscar Robertson of Cincinnati, 12,481, and Hal Greer of Philadelphia, 7,992, were picked as guards. Two forwards and two guards remain to be chosen.

OUR CAPSULE POLICY  
EVER STRIVING FOR THE TEXAS PANHANDLE  
TO BE AN EVEN BETTER PLACE TO LIVE  
Let Peace Begin With Me!

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands freedom and is free to control himself and all he produces can he develop his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guide expressed in the Coveting Commandment.

(Permission is hereby granted to reproduce in whole or in part any editorials originated by the News and appearing in these columns, provided proper credit is given.)

## Depends On Who's Hurt

Did you ever notice how people change their minds about the merits of certain government programs in proportion to how much inconvenience it may cost them personally?

For instance, there was a young mother who professed her conservatism for one and all to hear. She hollered loud and about the increase in taxes and the enormity of government spending. Her complaints abruptly changed when the President's cut in certain areas cost her husband his job. She forgot that part of the campaign promises of Mr. Nixon included spending cuts. She thought that all of the cuts would be where she specifically wanted them to be.

Folks want the government to be exactly what they expect it to be. A prime example is the complaining being heard from the direction of the Mexican border. People returning from south of the border are currently subjected to irritating waits at the border while searches are conducted to uncover smuggled narcotics. This is the program, formerly known as "Operation Intercept," now called "Operation Cooperation." The title was changed due to the indication that the Mexican authorities intend to join our own in search of personal effects. Inate travelers are criticizing the border patrols for doing that which the law says they are supposed to do. But the results of the program

are being felt by the drug dealers and their enslaved clientele. Supplies are being made more difficult to come by. Prices are soaring from 20 percent to 100 percent in some areas; and crime committed by addicts in order to get the increased price of a "fix," may be expected to increase.

In New York a small bag of marijuana is going for ten dollars, which is double the normal price. And this is what the junkies term poor quality containing roots, sticks and assorted weeds, according to one report.

According to the Justice Department, in the two weeks ending Oct. 18, there were 60 smuggling arrests and 4,077 pounds of marijuana, 3.5 pounds of heroin and 81 pounds of hashish were seized. This was a marked increase in arrests and seizures over previous records. The figures for the first two weeks were: 44 arrests, 1,830 pounds of marijuana seized, 14.5 ounces of heroin confiscated and five pounds of hashish seized.

It seems that the lessons taught by the "great experiment" with "Prohibition" either didn't sink in or have been forgotten. So long as there is a demand, a way will be found to supply it. Governmental intervention just makes the profits more lucrative, that's all.

## Had Your Winter Cold Yet?

There should be a more imposing designation for it, since everybody has it at intervals. But, even in medical circles, it still is called "the common cold."

Right now it is very common indeed. News from an information bureau is to the effect that the common cold begins its visitations in earnest in September, and usually continues until April. The nation's average is four to five colds per person each season. It seems about half the News staff has had colds of late.

Families with children and adults who work with them are particularly susceptible, according to this medical authority, and a recently conducted study shows that children between the ages of 1 and 5 have more colds than any other group. They also are the greatest spreaders of the common cold. However, anyone with a cold is a potential germ spreader.

Practically everyone has a pet theory on the subject, and tradition has fostered many of them. Hot lemonade, a shot (or more) of brandy, large amounts of vitamin C, garlic capsules, vinegar pickles, hot beer with camphor, and a poultice of hot mashed onions on the chest are but a few.

In the winter 'of 1968, hot

chicken soup, long a favorite in many homes, attained official recognition as being helpful for flu victims, and undoubtedly can be adapted for use by the common cold victim. Members of the staff of New York City health department added the soup to the list of remedies recommended to make the unpleasant symptoms of the respiratory disease more bearable.

But the treatment most physicians continue to recommend to make colds more tolerable and to help prevent complications such as secondary infections is aspirin and rest in bed, with lots of fruit juice and other liquids. Older readers may remember the saying "Feed a cold and starve a fever." Physicians recommend the patient with a cold to eat normally, but avoid anything hard to digest. A physician should be consulted whenever fever is present, when cold symptoms are severe, or when they do not subside within a few days.

Intensive investigation in this country and England has resulted in the discovery of viruses which cause colds and similar illnesses. However, the results of this research, are inconclusive.

The common cold still is with

## Washington--City Of Fear

The crime problem in Washington continues to become worse. Each day so many crimes are committed there that the Washington Post has taken to listing them in a column by category. All but the most violent crimes have become so commonplace that they no longer rate separate stories.

In the month of August, a total of 714 armed robberies in Washington set an all-time record for the District. Of these, 332 were street robberies. So far this month, 375 robberies have occurred, with 137 of them being categorized as street

robberies. Early this month, two homicides brought the 1968 homicidal total to 190. The record homicide figure of 209 murders, set last year, is expected to be broken before the end of 1968. The number of reported rapes also has shown a great increase.

The Post calls the increase in street robberies "dramatic." It is more than dramatic; it is an appalling indication of the extent of decay in the nation's capital. The growing crime rate, especially in violent crimes, also offers a significant clue to why Washington has become known as a city of fear.

## SSIC Levels Charge At Congress

NASHVILLE, TENN. — A charge of fiscal irresponsibility has been leveled at the 91st Congress by the Southern States Industrial Council, which said the actions taken to increase government spending and cut taxes in a period of serious inflation were a "shameful spectacle."

"At a time when the overheated economy demanded restraint in spending, and industry and labor had been asked to hold the line on prices and wages, Congress set an example in profligacy," the SSIC declared. "While the stability of the nation was being threatened by inflation approaching crisis proportions and the highest order of statesmanship was needed to cope with the situation, it was politics as usual on Capitol Hill."

The SSIC, representing 3,000 business and industrial firms and headquartered in Nashville, Tennessee, said it is urging not only its members but all citizens to get in touch with their U.S. Senators and Representatives while they are home between sessions and demand substantial cuts in federal spending.

Among the actions of Congress singled out by the SSIC for criticism was that of the Senate in adding provisions to the tax bill that would reduce revenues by \$1.6 billion in the current fiscal year. "The sight of the U.S. Senate trying to play Santa Claus and loading up the tax bill with 'goodies' for everyone has greatly lowered the esteem of that body in the eyes of the American people," the SSIC said.

"The time for plain speaking and facing up to harsh facts is long overdue," the SSIC statement continued. "Back in February we called upon Congress to face the truth that excessive Government spending was fueling the fires of inflation, and to dampen these fires by cutting spending. That call has gone unheeded. While some Representatives and Senators have opposed increased spending, the majority has gone along, the Senate being the worst offender."

Targets for SSIC criticism included Senate action in voting to increase the appropriation for HEW and labor by \$3.9 billion over the House-approved figure; the 15 per cent increase in Social Security payments voted by both houses; and Federal pay raises costing an additional \$3.2 billion approved by the Senate Post Office and Civil Service Committee.

"Bigger Social Security benefits and fatter paychecks have a great deal of political appeal," the SSIC said "But the harsh truth is that the recipients of this Congressional largesse are worse off than they were before because the additional dollars buy less and less. The same principle applies to the benefits in the form of tax reduction spread around so lavishly by Senators more interested in the ballot box than in the future of their country. If these Senators were honest, they would tell their constituents that the tax reductions will be more than offset by the shrink in the value of their dollars resulting from such fiscal irresponsibility."

The Nixon Administration did not escape criticism from the Southern States Industrial Council. "While the Administration has called upon the Congress to practice economy, it has recommended a welfare program with a guaranteed annual income that would add billions to the total of federal spending. At the same time the Administration was asking Congress to exercise the most stringent economies, it was recommending a \$40 million appropriation for the National Foundation for Arts and Humanities — almost double the previous appropriation."

"The American people if summoned by their leaders will take whatever bitter medicine they have to swallow to preserve the well-being of our nation," the SSIC asserted. "But they expect both the Congress and the Administration to point the way, and the leadership so badly needed seems sadly lacking at this point."

## WASHINGTON

### Allies' Naivete Gave Ho His Big Boost To Power

By RAY CROMLEY  
Washington Correspondent  
WASHINGTON (NEA)—One of the ironies of history is that the Vietnam war might never have been had it not been for the political ignorance of a number of American military and civilian officials during and immediately after World War II.

Ho's initial strength was built on U.S. and other allied aid made available by Americans in such great hurry to get the war over (or the Japanese surrender over with quickly after the war was won) that little or no attention was paid to the future political implications of what they were doing in favoring one underground group over another. The handiest groups were helped and Ho's men were handy.

First, Ho acquired considerable amounts of arms from American forces. Ho said he needed the weapons to fight the Japanese. Actually, Ho's

operations against the Japanese were minimal though you could never have guessed this from his operational reports to the Americans. He used the arms to build the strength of his forces and to oppose the Vietnamese underground nationalist groups.

Second, immediately on Japan's defeat, Ho and his men were allowed first access to Hanoi, Haiphong and the other major business-commercial areas of northern Vietnam. The Vietnamese nationalist groups engaged in fighting the Japanese were held back, partly because they were required for intelligence and clean-up operations and partly, it is guessed, because someone did not want two competing groups in Hanoi. Ho's men were available and handy.

Nationalist Chinese army units furnished trucks to bring Ho's men into Hanoi. Ho and his forces thus arrived in Hanoi and were entrenched before the non-Communist nationalists arrived. And thereby hangs a little known secret of Ho's success.

By being first in Hanoi and Haiphong, Ho's men captured control of the taxation system for the richest areas of the country. At a time when all underground parties were poor and hungry, Ho's Communists had funds.

They used this money to build their strength, operate their organizational and terrorist operations and to acquire more weapons.

One way and another, through the co-operation of some Allied officers, sizable quantities of the weapons and equipment surrendered by the Japanese in northern French Indochina ended up in the hands of Ho's men.

Moreover, Ho, by being there first, through Allied co-operation, was able to picture himself as a co-worker with the allies and the savior of Vietnam against the Japanese. This was, of course, no small political advantage.

Note that the Vietnamese nationalist parties, when the Americans and British did allow them freedom of movement into Hanoi and Haiphong, found the way blocked by the Communists. They were thus forced into the economically poorer areas of the country. They had little money, little access to captured Japanese arms.

The edge the Communists thus acquired led the nationalist parties in the north to agree to a coalition government with Ho.

From this they never recovered.

Many women go straight from saying "I DO!" to "YOU'D BETTER!"

## H. L. Hunt Writes

TAKING A STAND  
Recently a group of patriots organized Voices in Vital America (VIVA) to provide information to college students about communism and the far left. This group is an excellent example of how the ordinary citizen can take a stand against subversion in this country.

One of the Southern California leaders of VIVA, a veteran of both world wars, said: "Our educational institutions have been successfully invaded by the far left revolutionaries who would destroy this great nation from within."

He went on: "VIVA-Campus Studies has the answer by employing a student approach to the problem that no amount of legislation and government can accomplish."

One of VIVA's projects is a "freedom caravan," a group of knowledgeable speakers who would tour the country, speaking to college and high school students. The caravan could also make use of movies and recordings to communicate its message of patriotism and freedom.

Another project is to provide information about the far left to school libraries. Although much of this information is already available, not nearly enough of it is found in school libraries, where it is most needed. VIVA will see that schools obtain copies of such documents as FBI reports on subversion.

Plans are also underway for parades and rallies to be held on Independence Day. VIVA hopes to revive the custom of patriotic observances on this day.

The need to counteract far left influence in higher education is obvious. The organizers of VIVA have devised one way of meeting this need. Groups of this kind can be invaluable in helping our young people to learn the truth about their country and the world.

## The Doctor Says

By DR. W. G. BRANSTADT

### Follow Sensible Regime To Avoid Frostbite

When the mercury falls people should be on guard against frostbite. According to Dr. Edward J. Stam, a podiatrist or foot specialist, the feet are especially vulnerable because of their distance from the heart and thus the greater difficulty in maintaining adequate circulation. Near-freezing temperatures combined with moisture in the air and high winds are fully as dangerous as subzero readings.

Women are more susceptible to frostbite than men because of their tendency to follow fashion and wear shoes that expose the feet to the cold; shoes that are too tight impair the circulation and this, too, increases the danger of cold injury.

In the early stages, frostbitten toes become red and tingly. This is followed by itching and often by blistering. Once frostbitten, the feet will always have an increased vulnerability. To prevent frostbite you should wear woolen socks, put on galoshes when going outdoors and remove them indoors to permit air to circulate around your feet. Dry your feet thoroughly after exposure to dampness and cold.

Q — What are the symptoms of mastoiditis? What happens if I frostbite than men because of by ear wax or ear infections? Will not applications bring relief? What is the best treatment?

A — The symptoms of acute mastoiditis include a feeling of fullness in the ear, pain and tenderness behind the ear and fever. It is not caused by ear wax but is usually the result of a middle ear infection (otitis media) since the mastoid cells drain into the middle ear. Local heat may give temporary relief but will not cure the disease. Most victims now are cured by antibiotics but in cases of long standing the temporal bone may have to be opened and the mastoid cells scraped out.

Q — I have been taking Meniram for six months. Is this a hormone? What does it do? Is there any anger in taking it for a long time?

A — This drug is a combination of female hormones and a minor tranquilizer. It is given chiefly to counteract the unpleasant symptoms of the menopause. It should not be taken by women with cancer of the breast or uterus. Side effects include drowsiness, mental confusion, waterlogging, rash and nausea. These are controlled by lowering the dosage.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

## STRAIGHT TALK:

### Congressional Capers And Liberal Press Statements

By TOM ANDERSON

The indictment of ex-Senator Brewster of Maryland on bribery charges spotlighted the use by a number of congressmen of similar dodges to cover up embarrassing "donations." Seven Senators and House members—and there are unquestionably many other culprits—have also received "donations" from Spiegel, Inc., the Chicago mail order house indicted with Brewster. How do they work it? Our Statesmen set up so-called "D.C. Committees," often consisting of only one member, a treasurer, and using a post office box address, to accept political "contributions." The Grand Jury's indictment of Brewster charged that \$14,500 of the \$25,500 he allegedly received from Spiegel to influence his vote on postal-rate legislation went through such a "Committee."

The seven statesmen named so far in this alleged payoff or purchase, as the case may be, are: Senator Frank Moss (D-Utah); Senator Birch Bayh (D-Ind.); and Haysneworth (assassin); and Rep. John Gilligan (D-Ohio, and a real fink).

The government of Japan is investing \$366 million in a search for better ways to dispose of garbage. Let us hope they will show us the way and that the study will include hippies and yuppies. The Japanese, incidentally, are one of the world's most enlightened, progressive and productive world powers. These are the same Japanese who were called "little yellow-bellied bastards" by our "liberal press in the 1939-46 era during which we were fighting to make the

world safe for Communism-Socialism.

The "liberal press" helped get us into world War II—the wrong war, at the wrong time against the wrong enemy—in order to make the world safe for Collectivism. They demanded that we desert our great ally, Chiang Kai Chek, and turn China over to that "agrarian reformer," Mao Tse Tung. They promoted and sanctioned the delivrance of eastern Europe to the Russian criminals through the Yalta agreement, etc. ad nauseum.

As the authoritative, cap-sulated weekly, Review of the News, has pointed out, "Here are a few of literally thousands of statements made by the American press just prior to the fall of Cuba:

"We can thank our lucky stars Castro was no Communist... William Attwood, Look Magazine—March 3, 1959. "All the evidence seems to indicate Castro is not a Communist... Dale Francis, Our Sunday Visitor—February 15, 1959.

"It should be obvious that Fidel has no intention of going Communist... Ralph McGill, Atlanta Constitution—January 8, 1959.

"This is not a Communist revolution in any sense of the word and there are no Communists in positions of control... The only power worth considering in Cuba is in the hands of Premier Castro, who is not only not Communist but decidedly Anti-Communist—Herbert L. Matthews, New York Times—July, 1959.

"Fantastic, you say? Incredible? Not really; when you realize that without working control of a nation's news media, no conspiracy could ever flourish."—American Way Features

## The Manion Forum

By MARILYN MANION

(SONGMY—PART 1)  
Reports of an alleged massacre of Vietnamese civilians by American troops have shocked and horrified the nation. And well they should; no one can possibly condone the deliberate murder of innocent people.

But the story of Songmy has been blown up out of all proportion. First of all, the atrocities remain alleged. Conflicting reports have led to no definite conclusions. How many persons were killed, and under what circumstances, depends up on whose story you believe.

Secondly, if the murders did indeed take place, they were the acts of individuals, rather than a part of American policy. It is the enemy in Vietnam, not we, who slaughters civilians as

a matter of course as a deliberate tactic. Long before the first American advisors arrived in Vietnam, the Viet Cong were capturing, torturing, and murdering civilians. "For shocked Americans," said an article in Time, "what happened at My Lai seems an awful aberration. For the Communists in Vietnam, the murder of civilians is routine, purposeful policy. Terror is part of the guerrilla's arsenal of intimidation, to be used whenever other methods of persuasion have failed to rally a village or province round the Viet Cong flag."

A case in point is the massacre that took place in the ancient capital of Hue in 1968, a few months before the alleged Songmy incident. More than 3,000 civilians—were killed in cold blood by the Viet Cong. Favorite VC bombing targets include movie theatres, school buses, and similar civilian enclaves. Village chiefs and other leaders have been brutally tortured to death in public in order—to terrorize the local population.

There is also the ticklish question of just who is a "civilian." Women and children may have been noncombatants in other wars, but in Vietnam, ten-year-olds can be enemy soldiers, and women are recruited to the ranks of the Viet Cong as well as men. No one can defend the killing of babies, or of able-bodied civilian men, for that matter. But not everyone pretending to be an innocent bystander in Vietnam is a harmless "civilian."

If indeed American soldiers deliberately gunned down persons they knew to be innocent, then these individuals should be brought to court and punished. But it is nonsense to proclaim that the United States should hang its head in shame and withdraw from the war because of Songmy.

Senator William Fulbright came forth with a predictable comment on the affair. "This incident," he said, "can cause grave concern all over the world as to what kind of country we are."

Hogwash, Senator. And if you won't take it from us, read it from the New York Times:

"... the fundamental difference between atrocities committed by the totalitarians of this century and the acts now charged against some American troops is exactly that the former were usually the result of national policy, express or implied, while the latter violate the laws of the United States and the will of its people."

## WORLD ALMANAC FACTS

The guillotine, official instrument of execution in France, was originally envisioned as a humane invention. The World Almanac says its name is traced to Dr. Joseph Guillotin, who proposed the method to the French National Assembly in 1789. The doctor said that he sought a form of capital punishment which would kill swiftly, with a minimum of physical suffering and which would be used on all condemned persons regardless of station.

## WIT AND WHIMSY

When government officials who wished to secure the transfer of control over certain funds from other hands into their own, approached President Lincoln with this request, he met them with this story: "You are very much like a man in Illinois whose cabin was burped down, and according to the kindly custom of early days in the West, his neighbors all contributed something to start him again. In his case they had been so liberal that he soon found himself better off than before the fire, and got proud. One day a neighbor brought him a bag of oats, but the fellow refused it with scorn, and said: 'I am not taking oats now; I take nothing but money.'"

# Highlights And Sidelights From The State Capitol

AUSTIN, Tex. — Here's a happy thought to start the New Year! As an auto owner you'll have an easier time than ever before getting your new license tags in 1970. This, thanks to a revised registration system which becomes effective in January.

Texas Highway Department, which devised the new system, predicts that registrations will pass the even million mark.

For the first time, registration renewal applications will be mailed to every vehicle owner in the state. This will be done during the month of January. However, the registration period does not begin until February 1.

Be on the lookout for your application. It will arrive in a slender envelope marked "Important—This is your license plate renewal application." Don't throw it away as junk mail. It's very important!

Your application is a three-part form which should not be torn apart. Instructions are included in the form.

At the start of the registration period, you may take your application and fee to your county tax office — or order by mail.

If no longer will be necessary to present certificates of title or last year's registration

receipt when you have the application.

Waiting lines at the tax office or substation should be shorter. All the clerks need to do is take your money, slap a sticker on the application form—showing your registration number and other data—and hand over the 1970 plates.

April 1 is the registration deadline, but mail applications cut off on March 1. Those who want plates sent by mail should send the application form to the county tax collector along with the registration fee (plus \$1 for handling and postage). Be sure your correct address is shown on the renewal form!

This new system is the result of extensive computerization of highway department vehicle records. It gives Texas one of the most efficient methods of registration. And even the color scheme is new — light blue on a reflective white background.

**NARCOTICS CHECKS** — Student involvement and elimination of "misinformation" about drugs and drug usage were factors discussed at the organizational meeting of the interim House Narcotics Investigating Committee.

A final decision on the specific areas of investigation by the committee will wait until Committee Chairman Tom Bass

of Houston has a chance to meet with the Governor, Lieutenant Governor and Speaker. Each of those three is conducting a study of his own.

Bass said that "Everyone has his ideas about drugs, but very few people know, in reality, what drugs do what." He suggested that other members of the committee establish contacts with students in their areas.

"If nothing else," said Bass, "I hope this Committee will separate fact from fiction, and will deal with the intelligence and intellect rather than emotion, and will come up with recommendations on the basis of reasoned research rather than popular politics." If research indicates that present penalties for drug use are too stiff, he added, they should be reduced or eliminated.

**REAPPOINTMENT ORDERED** — Texas' 21-member Court concluded that the board be reappointed says the three-judge federal court.

However, judges set June 1, 1971, as the deadline, thus averting the need for a special legislative session on the issue. Court concluded that the

must avoid discrimination against urban residents. U.S. Supreme Court's one-man, one-vote principle thus was applied to the state elected body with

**APPOINTMENTS** — Governor Smith has reappointed Tommy V. Smith of Austin as Commissioner of Labor Statistics. The two-year term expires Feb. 1, 1971.

Other appointments include: Board of Regents, Lamar State College of Technology — William Samuel Monroe of Port Arthur and John Luther Smith of San Augustine; Cecil Randolph Beeson of Orange was reappointed.

**Board of Directors** — Texas Arts and Industries University — Mrs. Mary Lewis Kieberg of Kingsville, Laurence A. McNeil of Corpus Christi and Hesiquio Rodriguez of Harlingen.

**Texas Youth Council** — Forrest Smith of Dallas.

**State Board of Control** — Charles S. Coates Sr. of Houston (reappointment).

**Animal Health Commission** — George William Apple of McKinney.

**State Board of Plumbing Examiners** — Arthur D. Goodman of Beaumont. Gulf Coast Waste Disposal Authority

— Dr. Frank Lamon Jennings of Galveston.

**State Board of Registration for Public Surveyors** — Kirby Hillin of Dallas (reappointment). Oliver R. McElya of Dallas and Clarence Joseph Montgomery Jr. of Houston.

**Special assistant to governor for conservation and water development** — Tom McFarland of Hereford.

**Upper Colorado River Authority** — Jack Douthitt of Sterling City, Dale Leddy of San Angelo and L.T. Youngblood of Bronis (all reappointments).

**OIL SLICK SPREADS** — Chairman of a senate committee on pipeline studies reported an oil slick covered at least five square miles in Trinity Bay near Baytown.

**State agencies**, reported Sen. D. Roy Harrington of Port Arthur, had no comprehensive map of pipelines in submerged lands which makes it difficult to find the company at fault.

**Texas Water Quality Board** said that unless it can find the company at fault there are no funds available for the state to clean up the pollution.

Governor Smith dispatched a four-man team to make an on-the-spot investigation of the oil

slick. He asked that a detailed report be made to him.

Assigned to the investigating team were John Shanahan Jr., State-local relations division of the governor's office; Jim Herring, hearing examiner for Texas Railroad Commission; Terry Leary, coordinator of coastal fisheries for Texas Parks and Wildlife Department; and Joe Teller, deputy director of Texas Water Quality Board.

**HANDICAPPED** — Texas International Airlines, the old Trans Texas, will fly 70 to 80 handicapped persons to Austin from the Texas Rehabilitation and Research Institute in Houston to take part in Sen. Chris Coles governor for a day celebration on Jan. 10.

The Harris County senator, who was blinded while a Marine in World War II, said the theme of his celebration will be the accomplishments and potential of the state's handicapped persons.

Over 65 exhibits — ranging from a special Medi-car for the handicapped to amputees demonstrating the use of artificial limbs — will be displayed around the capitol.

**GOING, GOING, GONE** —

Blake Moore of Paris, Texas, is a pretty good salesman. In fact, he peddled \$1,736,500 worth of goods just recently. Moore is the auctioneer for the University of Texas mineral lease sales under the General Land Office.

Sale involved 37,914 acres of land in far West Texas—in Andrews, Gaines, Ward, Winkler, Terrell, Pecos, Reagan, Hudspeth and Crockett counties. Lease sales brought an average price of \$45.58 an acre.

**SHORT SNORTS** — District Judge David Brown of Sherman announced he is a "probable" candidate for attorney general against incumbent Crawford Martin.

Governor Smith announced that the North Central Texas Council of Governments will receive a \$51,619 U.S. Department of Health, Education and Welfare grant for its areawide health planning program.

**Texas Employment Commission** reports the Harvesting of vegetables and fruits, mostly in the Lower Rio Grande Valley and the Rio Grande Plains, provided over 4,000 more farm job openings during November than in October while non-farm placements dipped almost 6,000 from October.

**Agriculture Commissioner John C. White** has announced that he will be a candidate for reelection.

It is estimated by the Texas Safety Association that 1969 will be the first year in the State's history when more than 50,000 persons will be killed and injured on Texas roads.

Texas Professional Corporation Act does not apply to corporations organized for the purpose of performing professional engineering services, says Attorney General Martin.

Western State Bank at Midland is seeking a state charter.

More than 400 Texas cities which levy one per cent local option municipal sales taxes received over \$9.4 million from this source for the quarter. Comptroller Robert S. Calvert reports.

Texas Liquor Control Board reports more than \$50.4 million were paid in alcoholic beverage excise taxes in Texas last fiscal year — beer accounted for \$29.4 million; distilled spirits nearly \$19 million; wine, \$1.4 million, and malt liquor, \$553,511.

**FLU PRECAUTIONS** —

MOSCOW (UPI) — The Soviet Union announced Saturday it has started a program to inoculate 30 million persons against influenza. The Communist party newspaper Pravda reported there had been no unusual outbreaks of flu in the Soviet Union so far but that health authorities were girding to prevent any possible epidemics.

## Backstairs At The Whitehouse

SAN CLEMENTE, Calif. (UPI) — Backstairs at the White House:

The somewhat surprising continued reaction to former President Lyndon B. Johnson's recent hour on television cannot but add to the sensitivity of the tall Texan.

He left the White House nearly a year ago bearing a truly harsh and heavy burden of criticism. He had reached the point of being unable to do virtually anything that would placate millions of his fellow countrymen except by getting out.

Then came the healing solitude of his beloved Texas ranch. As he told Walter Cronkite of CBS News: "For the first time that I can remember, I am doing exactly what I want to do."

He told of how he watched his successor, President Nixon, take the oath of office last Jan. 20. At that moment, Johnson realized:

"No Longer in Fear"

"I no longer had the fear that I was the man that could make the mistake of involving the works in war; that I was no longer the man that would have to carry the terrifying responsibility of protecting the lives of this country and maybe the entire world, unleashing the horrors of some of our great power if I felt that was required."

When LBJ was in the White House, he seemed to relish the perquisites of the nation's highest office as, perhaps, no man before him in relatively modern times. Yet, he now refers to the "real horror" of being president, particularly when he was awakened during the night with bad news from

the Pentagon.

Back at the ranch, his profile lowered considerably. No longer was he the target of cruelly barbed criticism. No longer did pickets parade before the place where he dwelled roaring the ugly chant, "Hey-hey, LBJ, how many kids did you kill today?"

Now, for reasons best known to himself, Johnson stands tall again on the national target range. His severest critics are encouraged to take more pot shots and the target he offers is exceedingly broad for the same reasons which attracted their shafts during his White House days.

**Makes No Exceptions**

For example, he says now "the press media"—and he makes no exceptions—"twisted and imagined and built and magnified things I did not think were true at all." This practice of tarring everybody with the same Texas-sized brush cannot help but produce second thoughts in the minds of some who felt they reported Johnson's White House years rather fairly.

He says generally of the press:

"I never thought it was the President's credibility gap, I thought it was their credibility gap. But they owned the papers and the networks. I didn't. And they come out every day. And they could talk about my credibility, but there wasn't much I could do about their credibility."

Who was it then who called various reporters, broadcasters and editors by telephone during the sixties, identified himself as President Johnson and pointed out rather firmly how wrong they were?

## Television In Review

**HOLLYWOOD** (UPI) — The Disney people share Mother Nature's compulsion to fill a vacuum and will do so spectacularly this year.

A task force from Disney land and Disney Studios discovered that there are 35 arenas (maybe more) around the country with capacities running from 5,000 to 20,000 seats.

These showcases, alas, are dark and empty much of the year.

A light bulb flashed above the heads of Disney's corporate leaders. Why not fill the arenas with colorful, entertaining, eye-popping, profitable roadshow from Disney.

And so it came to pass—"Disney on Parade."

It is a touring arena and coliseum show starring all the Disney characters along with some new ones. The show includes motion pictures, live performers, a majority of them in Disney character costumes, music and comedy.

Robert Maxwell, general manager of "Disney on Parade," said the show has a cast of 110 performers and a staff of 35. NBC is working in conjunction with the Disney people.

According to Maxwell, arenas

around the country will be filled with Snow White and the Seven Dwarfs, Cinderella, Dumbo, Pinocchio, Peter Pan, Mickey Mouse as master of ceremonies, Donald Duck, Goofy, Pluto, Alice in Wonderland and the characters from "Jungle Book."

"In addition to our own characters we have variety acts which will be integrated into various acts and Disney-fied," Maxwell said.

**Musical Is Combined**

"What we'll be doing is presenting a musical show combined with Disney characters and stories. Each of the cartoon groups are introduced by filmed footage from the classic cartoons on a screen at one end of the arena.

"Then it comes to life on the arena floor in lavish production numbers. We probably have the largest number of sets carried by any arena show in the world today."

Fifteen enormous trucks haul the sets from city to city while the cast travels by charter airplane.

With the Disney magic touch, backed by NBC's know-how, "Disney on Parade" may become as much a part of the American scene as Barnum & Bailey once were.

Christmas is over, but Security Federal is still giving gifts!

Your choice of these wonderful gifts, FREE, just for opening or adding to your account with \$250 or more — now through January 12

**FREE Royal Rest Chatham Blanket**

A Chatham blanket stands for quality, beauty, and long life. Choose pink, blue, green, or beige, with matching satin binding. In machine-washable rayon/polyester, 72" x 90", for single or double beds.

**FREE**
