# Senate Faces Another HEW Battle

## FOR LIMITING FEES

### President Incurs Wrath Of AMA

WASHINGTON (UPI) — The Nixon administration has encountered opposition from the American Medical Association to its new plan to impose limits on the fees doctors and hospitals can collect for treating patients under Medicare.

The details of the plan were to be spelled out today by John G. Veneman, undersecretary of health, education and welfare (HEW), who announced it to the Senate Finance Committee Wednesday then hurried off to another meeting.

His departure drew fire from Sen. Abraham A. Ribicoff, D-Conn., who headed HEW in the Kennedy administration. He said he wanted to talk to "policy makers" not the "bureaucrats" Veneman left behind to answer questions.

Veneman carefully avoided calling the administration plan a "fee schedule" for doctors — always a controversial concept — but his plan amounted to that.

Under it, fees doctors collected for treating Medicare patients could be no more than the fees charged by 75 per cent

of doctors in 1969 in that area for the same services. The fees would rise only when wages and prices and "the physician's cost of doing business" rises.

Dr. Gerald D. Dorman, president of the AMA, called the administration's plan unrealistic.

"Physicians are disturbed by threats of additional federal controls," he said.

"Burdening these busy doctors with more red tape and restricting payments to unrealistically low levels may drive them away from participating in Medicare and Medicaid," he said in a statement. "Then the government will have discriminated against many people who need medical care."

Under the Medicare law, doctors are limited to "customary," "reasonable" or "prevailing" fees for the services they perform for the 19.5 million Americans over 65 who pay a \$4 monthly fee for the health insurance part of Medicare. The hospitalization part of Medicare is paid for under Social Security taxes.

The government defines "prevailing" fees as no more than those charged by 83 per cent of the doctors submitting bills to Medicare. So the Veneman plan represents a rollback.

Medicare has been more costly than anticipated and expenditure is now exceeding income at a rate which, if continued, would create a \$215 billion deficit in the Medicare trust fund in 25 years.

### Nixon, Pompidou Apart On Several Critical Issues

WASHINGTON (UPI) — President Nixon and French President Georges Pompidou today concluded their discussions in an air of cordiality which tended to obscure the fact that they were still considerably apart on a number of critical issues, particularly the Middle East.

Diplomats on both sides are grateful for the improved atmosphere between Washington and Paris during the past year because it makes it easier to discuss problems. However, they are aware the two countries view some issues differently.

Pompidou was scheduled to leave today for Cape Kennedy, Fla. after conferring late this morning with Nixon — the second extended talk they have had in two days.

On the Middle East, they agreed it was most important to work for peace because the conflict there always poses the peril of a Soviet-American confrontation which could explode into an East-West war.

However, behind the scenes, highly placed French and American informants made it clear the two countries differ on the exact status Israel should demand in the area and the extent of the peril rising from France's decision to ship 110 Mirage jet warplanes to Libya.

The U.S. government was successful in its effort to make the Pompidou visit a gala affair. Anti-French demonstra-

tions were of very minor proportions and Secretary of State William P. Rogers expressed the hope Wednesday "nothing happens" elsewhere on Pompidou's five-day U.S. tour that is "in any way unpleasant."

After a formal dinner at the French Embassy — broiled lobster from Maine was the appetizer and lamb from the south of France was the entrée — Nixon and Pompidou exchanged toasts Wednesday night.

Nixon said the discussions "will produce the results in terms of real progress on fundamental issues that we want," Pompidou said "I have been moved by the welcome which I have received from everybody — from all the American authorities, from congressmen and from all the people I have met."

Pompidou won applause for his declaration before Congress supporting Nixon's Vietnam policy. His praise was foreordained since the French steadfastly have urged the United States to pull out of what Paris regards as a hopeless affair.

The French President said "the end of the war in Vietnam, for the United States, will be the most precious of victories — a victory won first over oneself." Some congressmen felt this had the ring of advice to a drunk halfway to sobriety, but it appeared to be taken in good spirit.

### Judge Has New Formula For BP Hearings

NEW YORK (UPI) — State Supreme Court Justice John M. Murtagh unveiled a new "formula" Wednesday to maintain order in the pretrial hearings for 13 Black Panthers charged with a bombing conspiracy.

He recessed the proceedings "indefinitely" and said he would consider a written motion to resume the hearings only if it was accompanied by "an unequivocal assurance that the defendants are now prepared to participate in a trial under the American system of criminal justice."

Three weeks of continued disruption prompted the judge's action and the devising of his "formula" to deal with it. He warned the six defense lawyers Tuesday he had developed a formula which he said he would implement in about two weeks.

### Israelis Raid Missile Base

By United Press International

Israel said its warplanes made their first strike in nine days into Egypt's heartland today, raiding a surface-to-air missile base 19 miles west of Cairo.

It was only the second such raid since Israeli planes bombed a metal works outside the Egyptian capital Feb. 12. Egypt said 80 civilians were killed. Tel Aviv said it was an accident.

All of the planes on today's raid returned safely, according to the report from Israeli headquarters. The announcement did not pinpoint the location of the SAM base.

Most of the Israeli campaign around Cairo has been directed at army camps and air force installations but recently it turned to anti-aircraft defenses when the Soviets began moving in more missiles and ground guns.

The missiles hit today were described as SAM 2s, the same Soviet model the North Vietnamese used against American pilots in the Vietnam air war.

Israel sent the raiders deep into Egypt following Egyptian air raids across the Suez Canal against two Israeli outposts this morning. Tel Aviv said there was no damage or casualties.

Those strikes apparently served as retaliation for a 45-minute Israeli aerial bombardment of Egyptian positions in the same area before midnight in the unabated Middle East air war.

NEW FACES with the same last names at the Pampa Country Club are, left, new club president Elmer D. Wilson and new club manager, Bobby Wilson, formerly Coronado Inn assistant manager. Stockholders also named three new directors: Warren Mayo, Tom Price and Buz Tarpley. Goldie Hollingsworth will continue as assistant manager. President Wilson said club remodeling and other innovations are being planned. (Staff Photo)

### Scrap Over Money Could Cause Veto

WASHINGTON (UPI) — The Senate had double trouble today — a second battle on school integration in as many weeks and a political scrap over spending that could spark another veto by President Nixon.

Both issues were wrapped into a tardy appropriations bill for the Labor Department, Department of Health, Education and Welfare (HEW), Office of Economic Opportunity (OEO) and a dozen smaller agencies, covering the fiscal year that started nearly eight months ago.

In January, Congress passed the bill with \$19.7 billion in it but without antidesegregation amendments favored by Southerners. Nixon vetoed it as inflationary and demanded that \$945 million be cut.

Last Thursday, the House passed a substitute bill, reduced \$365 million but still \$380 million over Nixon's request. The House also added amendments to legalize "freedom of choice" school assignment systems and to prohibit HEW from requiring "busing" as part of desegregation plans.

Today, the Senate Appropriations Committee planned to send the bill to the floor for action Friday or Saturday.

HEW Secretary Robert H. Finch warned he would recommend another veto unless the Senate cuts more money or gives Nixon authority to withhold some of the spending.

Sen. Warren G. Magnuson, D-Wash., chairman of the HEW appropriations subcommittee, said he didn't plan to contest the Southern school amendments in committee, because a floor fight was inevitable whatever the committee did.

Sen. Norris Cotton, R-N.H., the subcommittee's ranking Republican, urged adoption of an amendment instructing Nixon to spend only 98 per cent of the bill's money, with the stipulation that presidential cuts could not take more than 25 per cent of the funds for any individual program.

"There is no sense bringing out a bill the President can't sign," Cotton said after briefing Senate Republicans at a meeting late Wednesday.

Some Democrats disagree, believing a veto would reinforce their election year argument that a Republican administration wants to spend billions on military gadgets but little on social programs.

Last week, the Senate adopted a different antibus amendment and another school amendment proposed by Southerners. They were attached to a different bill, one authorizing \$35 billion for school aid during the next four years.

### Sticky Business

PORT ISABEL, Tex. (UPI) — A 174-foot tanker with a cargo of molasses was bailed out and towed to shore Wednesday.

The crew of the Sally, a 900-ton vessel owned by Aqua Steamship Agency of Houston, radioed for help early Wednesday.

The Coast Guard dispatched a cutter, a utility boat and two planes to the scene four miles from shore. The Coast Guard pumped water from the boat to keep it from sinking.

No one was hurt. The Sally sailed from Tampico, Mexico, bound for Houston.

### All-White Jury Finds Algiers Defendants Innocent In Deaths

FLINT, Mich. (UPI) — Two mothers, one black and the other white, sat uneasily through the five-week Algiers Motel conspiracy trial. They did not speak. They did not look at each other.

Mrs. Genevieve August, pregnant with the third child of suspended white Patrolman Ronald August, felt the jury must believe what she believed — that he is innocent.

Mrs. Rebecca Pollard, mother of one of three black youths shot to death at the motel during the 1967 Detroit riot, feared there would be no convictions in circumstances she believed led to the death of her son.

An all-white jury reinforced the beliefs of both mothers Wednesday night for the second time in less than a year.

The federal jury of six men and six women deliberated nine hours before finding three white former policemen, including August, and a Negro private guard, innocent of conspiring to violate the civil rights of 10 persons at the motel. Three Negro youths, including Aubrey Pollard, 19, were shot to death at the motel the same night.

"I'm so happy I could cry," said August, 31. He was acquitted by an all-white jury last summer of first-degree murder charge in Pollard's death. Unlike the other defendants, there are no further criminal charges now pending against him.

Mrs. Pollard, bitter at seeing her fears once more confirmed, said: "That was the most unfair judge I ever saw. I want to see a black judge take care of it."

The other defendants acquitted, former Policemen David Senak, 25, and Robert Paille, 34, as well as former private guard Melvin Dismukes, a Negro, face similar conspiracy charges in Wayne County (Detroit). August is named as a co-conspirator but not a defendant. A motion to dismiss those charges is on appeal to the Michigan Supreme Court.

### Judge's Son Held For Selling Hashish

LUBBOCK, Tex. (UPI) — Lawrence Culver, 20, drew a six-year probation sentence Wednesday for selling hashish. Culver's mother is Midland County Judge Barbara Culver, who founded the Culver Detention Center for juveniles at Midland.

An undercover agent testified he bought hashish from Culver in January, 1969.

### AT PARIS TALKS

### Communists Urged To Give Prisoners' Names

PARIS (UPI) — Discarding his customary prepared speech for the second straight week, U.S. Ambassador Philip C. Habib today urged the Communists at the Vietnam peace talks to release the names of American prisoners.

"One of the most pressing aspects of the problem of men missing in action is that families on both sides are anxious to know whether their men are alive or not," Habib said.

"This, too, is a problem easily resolved through a system of immediate identification of prisoners held by each side. Our side has notified the International Committee of the Red Cross of the names of prisoners we hold," Habib said.

Before today's session Hanoi diplomats, for the first time, told a visiting American woman the fate of her missing husband-flyer. They told Mrs. John O'Grady of Las Vegas, Nev., that he was not in a prisoner of war camp.

Habib's remarks were relayed to newsmen in the form of a six-paragraph transcript. Before entering the session, Habib announced he had no prepared text "in the interests of seeking meaningful negotiations."

The Hanoi negotiator ignored the matter of prisoners in the text of his remarks released to newsmen. He said the key to peace in Vietnam is in Washington. He said the Nixon administration is seeking to impose "American-style peace" in Southeast Asia.

The statement came from Nguyen Minh Vy, third ranking member of the North Vietnamese delegation, who charged that President Nixon's policies as outlined in his State of the Union message Jan. 13 will further deadlock the Paris conference.

### Recipients On Welfare Get Payments

AUSTIN (UPI) — The State Welfare Department has authorized retroactive back payments to 131 persons who previously were denied state aid because they failed to meet the state's residency requirements.

The back payments total \$53,811.

The Welfare Department did not comment on how these latest payments would effect the department's financial problems. State funds, originally designated for medical school building funds, were diverted to the welfare department so it could avert cuts planned for persons already on the welfare rolls.

A three judge federal court in San Antonio dismissed the state's residency requirement last September. It gave the welfare department 120 days to investigate 414 cases to determine if back payments were due.

Herbert C. Wilson, deputy commissioner of welfare, said Wednesday the department tried to contact the 414 persons and determined 131 were eligible for back payments. Three cases were still pending, he said.

UNIVERSITY ORCHESTRA of West Texas State University will present a concert at 7:30 p.m. today in Robert E. Lee Junior High School under the direction of Dr. Donald Todd, associate professor of music at WT. The concert, which is free to the public, is being brought to Pampa under the auspices of the Pampa Fine Arts Association. Among the 40-member orchestra are three Pampa students Mike Collingsworth, Terry Williams and Danny Fennell. A portion of the orchestra, the string section, is pictured here in rehearsal with Dr. Todd.

## Chamber To Back Small Businessman

The smallest businessman in Pampa will have an opportunity to make a thorough study of his own business when the course, "Planning for Growth," is presented here next month.

Don Lane, chamber president, said today the Chamber of Commerce will sponsor the ten-hour course in business planning from 7:30 p.m. to 10 p.m. March 16 through March 19 at Lovett Memorial Library.

"Planning for Growth" is a new course designed to present a practical approach to future planning. It will be taught by James J. Kelly, planning specialist with the Distributive Education Department of the University of Texas.

Lane stated the chamber is sponsoring the course as a part of its continuing effort to expand business in Pampa.

"The best opportunity for economic growth," Lane said, "lies in providing programs which will help small businesses of all types to grow."

"This triggers the basic cycle of development in town. Expanded business leads to new employment which means more local income, more spending, and therefore business expansion. The real intent of planning for growth is to accelerate the cycle."

Reservations for the course now are being accepted by the Chamber of Commerce. The registration fee for the complete four-night course will be \$12.50.

Further details may be obtained by writing the chamber at P.O. Box 1942, Pampa, or by telephone 669-3241.

Prior to joining the University of Texas staff, Kelly, the man who will teach the course, was the assistant executive director of the Texas Industrial Commission. Before that he was managing editor of The Texas Business Review, monthly publication of business conditions in the state published by the Bureau of Business Research at the University of Texas.

## City Employees Complete First Aid Course

Twenty-five city employees today were issued certificates showing they had completed a ten-hour Red Cross standard first aid to the injured course.

R.B. Cooke, public works director, said today the 25 employees were from various city departments. It marks the first time, he said, that city workers outside the fire and police departments had taken a course for first aid to the injured.

All firemen and policemen are qualified to give first aid as part of their training.

The current class of city employees received instructions at North Fire Station during the past two weeks.

Ray Fisher, a city fireman and a Red Cross first aid chairman, was instructor for class members who took the course on their own time for two hours nightly.

In addition to actual first aid to the injured instructions, those attending the class viewed a Red Cross film on the subject.

## PIF Conducts Manpower Survey

The Pampa Industrial Foundation's third annual manpower survey will get underway when letters go into the mail next week to all local business and industrial firms.

The letters will contain questionnaires seeking to determine the number of available jobs that now exist in the community with job descriptions, salary ranges and other pertinent information.

Decision to make the manpower survey came following its successful use in the last two years.

Fred Neslage, chairman of the survey committee for the PIF, stated when the survey is completed it will be followed up with an advertising campaign in a search to fill existing vacant jobs.

The survey is being financed by the Industrial Foundation.

Neslage appealed to businessmen and industrialists to answer the survey questionnaires and return them as soon as possible.

## Killer Slides On Rampage Throughout European Alps

GENEVA (UPI)—Swiss authorities warned today that the danger of avalanches in the Alps was greater than at any time over the past 30 years. A general avalanche alarm went out through the Swiss, Austrian, Italian and French Alps.

Two avalanches Tuesday at Reckingen, Switzerland, and Lanslevillard, France, killed at least 21 persons and left 19 missing. Four persons were rescued alive today 24 hours after the Lanslevillard avalanche struck.

An avalanche today in the Tyrol struck the Piz Buin Hotel in the winter resort of Zuers, 40 miles west of Innsbruck, and buried an Argentine couple, M. AND Mrs. Juan Szaszak. Mrs. Szaszak, 24, was in critical condition but her Hungarian-born husband was unhurt.

Police in Innsbruck said 14,000 tourists were stranded in winter. This froze into a slippery icy surface and then very heavy snow fell on this natural sliding board.

"There is a very grave danger because of new snow and stormy west winds," another research spokesman said.

**By LOUIS CASSELS**  
UPI Senior Editor

WASHINGTON (UPI)—The student revolution on American college campuses is petering out and by next year will be only a memory.

That's the view of Dr. Robert Nisbet, a member of the University of California faculty at Riverside.

In an article written for a British magazine, Encounter, Nisbet says the student revolution is collapsing because most American college students are children of the middle class.

"The American middle class has many virtues," he says. "It is not, however, very good at spawning revolutionaries... nothing in the family life from which American college students overwhelmingly derive is likely to fit them for the dedicated, disciplined and demanding life of the hard-core revolutionary."

Nisbet continues: "The American university student is, and has been for many years, one of the freest—and, at the same time, most carefully nurtured and cherished—beings in Western history."

In many cases, he charges, campus revolts were simply a power grab by bright but cynical adolescents who had been thoroughly spoiled by the pampering of a middle-class upbringing, and who wanted some kind of "action" to inject a little excitement into their lives.

Nisbet says the "chief casualty" of student uprisings has been academic freedom, adding that the reputation of the American university, and its relation to society, have been "grievously and perhaps irreparably damaged."

Faculty members now realize this fact, he says, and it has totally changed the attitude of "colossal permissiveness" they previously took toward campus disorders. Henceforth, the over-

whelming majority of college teachers and administrators will regard student insurrection "with undiluted hostility." And the young revolutionists "have neither the self-discipline nor the dedication to cope with firm adult resistance."

That's one professor's opinion. Others may see the whole thing in a quite different light.

### The Lighter Side

**By DICK WEST**

WASHINGTON (UPI)—Recent senate hearings indicated that the celebrity franchise business in this country is getting badly overcrowded, but I'm sure there are room for a few more.

The secret of success lies in getting the right celebrity to lend his name to the right type of enterprise.

Too often, a celebrity will become the franchisee for a business with which his name had no previous association.

For example, a baseball star who couldn't steer a tortilla around the block may franchise a chain of drive-in Mexican restaurants. And those who invest will be courting bankruptcy.

**Franchise Will Prosper**  
But if an effort is made to achieve a measure of congruence, I'm convinced that a celebrity franchise will prosper.

One of the faster growing businesses in America right now is that of tax consultant. Two things have combined to make it boom.

### Rotary Club To Offer Scholarship

Jimmy Thompson, chairman of the Rotary foundation committee for the Pampa Rotary International Club, announced that a undergraduate scholarship will be given to an interested college student from this Rotary district.

The scholarship will be for study in another country for the purpose of contributing to international understanding through study abroad by outstanding students. It is not for the purpose of earning a degree, academic credit can be however arranged.

The scholarship will cover roundtrip transportation, registration, tuition, laboratory and other fees, books and supplies, meals, lodging and if needed language training in the country of study. Rotary International has granted some 4,000 such awards worth \$9,300,000 for study in 94 countries.

Qualifications for the scholarship included:

- Be unmarried and between the ages of 18 and 24 inclusive as of July 1, 1971.
- Possess the ability to speak in public to enable him to make effective contacts abroad and at home.
- Have completed two years or more of university level work, but not have received a bachelor's degree or the equivalent by the time he commences his scholarship year.
- Demonstrate high scholastic ability and attainment. Anyone that is interested in receiving this scholarship is asked to contact Jimmy Thompson or Kay Fancher, president of the Pampa Rotary Club. The deadline is March 14.

### Hollywood In Review

**HOLLYWOOD (UPI)**—Notes to watch television by:

The Programs: Video's current absorption with matters concerning the environmental crisis is indicated by NBC-TV's announcement of a whole layout of broadcasts on the subject... a new half-hour Sunday series, "In Which We Live," is one example, and begins May 3 with Edwin Newman as host.

In addition, the network will offer an hour special on the topic April 7, and the "Today" series will devote the entire week of April 20-24 to a study of the environment.

Furthermore, NBC-TV's "Frontiers of Faith" series will present a series of four discussions about "The Quality of Life" starting March 8... And, with all the networks giving considerable time to the state of the environment, NBC-TV adds that "our regularly scheduled news programs will continue to place heavy emphasis on the subject as they have in recent months."

At ABC-TV, meanwhile, there will be an hour March 10 special, "Those Incredible Diving Machines," that examines man's efforts to "probe the ocean's depths" through the centuries... This hour is part of the distinguished occasional series entitled "The Undersea World of Jacques Cousteau."

And from CBS-TV comes precautions offered by the Eastman Kodak Co. on how persons interested in the March 7 total solar eclipse should watch the remarkable event if they insist on seeing it in person rather than on the broadcasts of all three networks... Says Eastman Kodak:

"Looking at the sun, either directly or through the viewfinder on your camera, can burn your eyes and cause blindness. Never look at the sun without adequate protection... Always use a filter that will absorb equally and sufficiently the

ultra-violet, visible, and infrared energy of the sun... "Medical authorities indicate that a neutral density filter of metallic silver, such as developed photographic film, of at least 6.0 density will provide adequate protection for visual use only. Such filters are not suitable for photographic use. Place the filter in front of your eyes before facing the sun. Such a filter can be made with two thicknesses of black-and-white (not color) photographic film which has been completely exposed and developed to maximum density."

### LONG SENTENCE

**DALLAS (UPI)**—Joseph Franklin Sils, 49, convicted of robbing a Dallas dry cleaners, was sentenced Tuesday by Criminal District Court Judge Jerome Chamberlain to 1,000 years in prison. Sils had served previous sentences for similar offenses.

### MASSIVE REDUCTIONS

**WASHINGTON (UPI)**—The Defense Department plans to reveal "massive base reductions and force reductions" at more than 100 military installations in the United States.

Defense Secretary Melvin R. Laird said Tuesday the announcement would be made within 30 days. In most cases, he said, the bases would be reduced in size of force or activity rather than closed.

### 14th FOR CARSWELL

**WASHINGTON (UPI)**—Sen. Gordon Allott, R-Colo., has become the 14th senator to announce he will vote for the Supreme Court nomination of Judge G. Harrold Carswell. Seventeen other senators have said they will vote against the Florida judge.

### Wall Street Chatter

**NEW YORK (UPI)**—An "important myth" which arose during the late bull market—that large amounts of money overhanging the market not only sustained the advance but would prevent an extensive decline—now needs re-examining, Business and Investment Service says. It is now clear that record cash holdings alone cannot sustain the market, if earnings are not favorable and the cost of money continues to rise. Once there are indications that fundamentals are improving, these large cash reserves can be expected to reenter the market, the firm feels.

The "crash of '69" is an historically old bear market, the Dines Letter notes. On a long-term basis the market is deeply overvalued and would probably benefit from a sharp selling climax on heavy volume. Meanwhile, bear market rallies are designed to snare and should be avoided, the analyst adds.

## TV in Review

By RICK DU BROW  
HOLLYWOOD (UPI)—One of the most spectacular and rare happenings of nature, a total eclipse of the sun, will be covered live and at length by the three commercial television networks March 7.

The daytime Saturday broadcast of the eclipse, which will cut a path over Mexico across the Gulf and up the Eastern Coast of the United States, will be seen in color.

NBC-TV, which plans to originate its coverage from near the small village of Minahatlan in the southern coastal part of Mexico, has scheduled a 90-minute broadcast, starting at noon EST. ABC-TV and CBS-TV will present one-hour programs, beginning at 1 p.m. EST.

Charles Kuralt will be the anchorman for CBS-TV, Frank McGee will serve the same function for NBC-TV, and Jules Bergman and Frank Reynolds are set to handle the chore for ABC-TV.

**Moon Casts Shadow**  
The rarity of the phenomenon to be covered is indicated by the fact that it will be roughly another half century before another major eclipse is visible from the United States. A solar eclipse occurs when the moon passes directly in front of the sun and casts its shadow on the earth.

On this particular upcoming occasion, nearly all areas of the continental United States will be able to see a partial eclipse. But on the East Coast will be total or near that.

New York City, for example, is expected to experience a 96 per cent eclipse. In Savannah, Ga., and Norfolk, Va., it will be 100 per cent. But in Portland, Ore., will be about 19 per cent. For those who watch an eclipse in person rather than on video, there can be the danger of injury to one's eyes unless precautions are taken. Very dark filters, for instance, are considered the kind of minimum requirement to help avoid harm.

**There Is Beauty Too**  
But there is beauty too in this awesome event. Robert Wussler, executive producer of CBS-TV's eclipse program, observes: "When the moon comes between the sun and the earth, sunlight vanishes for a few seconds. Birds and animals become suddenly quiet. A brilliant red ring surrounds the moon, and the brightest stars and planets appear in the sky. It's a breathtaking sight."

## Gov. Maddox Takes Ax Handles Along To Capitol Hill Lunch

WASHINGTON (UPI)—Gov. Lester Maddox of Georgia went to lunch in the House dining room Tuesday with 30 or 40 of the pick and ax handles he made famous as a symbol of his opposition to racial integration.

The one-time Atlanta restaurateur and the Georgia patrolman with him passed out a few of the full-size hickory handles, including some to persons who are black.

"I was sitting there enjoying my broiled salmon steak when a member identified to me as Congressman Diggs threatened to throw me out," Maddox said later.

"I challenged him to go ahead and do it. I told him he was acting more like an ass and a baloon than a member of Congress."

The account of Rep. Charles C. Diggs, D-Mich., chairman of the caucus of the nine black congressmen in the House and an undertaker from Detroit's East Side, differed only in detail. He said that when he heard what Maddox was doing he got restaurant manager Kermit Cowan and Rep. John C. Kluczynski, D-Ill., chairman of the House Restaurant Committee, to accompany him to Maddox' table.

"I told him he was the guest of the House, and obligated to abide by its rules of decorum. He said he had as much right here as I did. I said I was a member and he wasn't and he had no right here at all. Then things started heating up. He got red in the face, threw down the money for his lunch, and got up."

About then a District of Columbia plainclothes officer assigned to the capitol, moved in to make sure no blows were exchanged.

Turnpike Authorities Study Four New Texas Toll Roads

By ROLAND LINDSEY AUSTIN (UPI)—Texas Turnpike Authority officials said Tuesday they wanted to build the Dallas-Fort Worth area and four new toll roads servicing the Dallas-Fort Worth area and would like to study the possibility of constructing turnpikes in San Antonio and Houston. D.C. Greer, chairman of the Texas Highway Commission, said the commission would formally answer the authority's request in 30 days. Legislation passed by the 61st Legislature permits the Turnpike Authority to spend money investigating the feasibility of new toll road projects. But the law requires the authority to get permission from the Highway Commission for the studies.

Experiment In Motherhood Causes Growing Controversy

LONDON (UPI)—For Sylvia Allen, 34, childless after seven years of marriage, there is no moral issue involved in her attempt to give birth to a baby conceived in a test tube. "All I want in the world is to be a mother," she said. Mrs. Allen cannot conceive normally because the Fallopian tubes that carry sperm cells to her womb are blocked. Despite her feelings, a controversy is growing over the experiment. Two doctors plan to implant a fertilized egg in her womb sometime in the next two to six weeks. The egg was taken from Mrs. Allen's womb and was later fertilized in a laboratory by Mrs. Allen's husband, Kenneth, 39.

Experiment In Motherhood Causes Growing Controversy

about going ahead," she said. "This is our last chance of having a child of our own." The Allens went into seclusion to avoid any more publicity. The limelight was forced on them when the experiment was first made public Monday on television. Religious leaders, doctors and numerous public figures expressed reaction ranging from opposition to apprehension. "It is too early to comment on medical aspects, but it is plain that on ethical grounds alone, we Catholics must oppose it," said Dr. George Beck, Roman Catholic archbishop of Liverpool. Dr. Douglas Bevis, a Sheffield University lecturer who has conducted experiments with life development in test tubes, said the Allen experiment was not good news. "It fills me with gloom," about the number of patients Bevis said. "I am terrified about the number of patients who are going to come up and will be disappointed."

Bee Plentiful For Weekend Shoppers

WASHINGTON (UPI)—The Consumer and Marketing Service reports that food stores and supermarkets will spotlight a variety of meat and produce for weekend food shoppers. Top featured beef items are ground beef, beef roasts and steaks, and pork chops. Broiler-fryers are also a good selection. Fish buys to look for are fish sticks and portions, canned tuna, and Maine sardines. Fresh vegetables in best supply include carrots, lettuce, onions, potatoes, and tomatoes. Fresh fruit values are apples, grapefruit, and oranges. Other foods on plentiful foods list for February are canned tomatoes and tomato products and canned and frozen corn.

New Jersey Couple Are Busy Thinking Up Five Baby Names

By MICHAEL BARRETT NEW YORK (UPI)—A 27-year-old New Jersey mother, using fertility drugs gave birth to quintuplets Tuesday night. Doctors said today the three girls and two boys, delivered in only 10 minutes, were in "good" condition. Parents of the as-yet unnamed babies were Mrs. Margaret Kienast and husband, William, 38, a salesman for the Nixon Baldwin Division of Teneco, Inc., and a resident of Far Hills, N.J. They have two other children, a daughter, 4, and a son, 1 1/2, both born after Mrs. Kienast took fertility drugs. The quint, six weeks premature, were put in incubators a matter of "routine," according to doctors at Columbia Presbyterian Medical Center where they were delivered in normal birth—not Caesarian section. A spokesman said "chemical laboratory tests indicate that for the first three hours of life they are making normal, post-natal adaptation." He later said they are in "good" condition. Kienast said doctors had known it would be a multiple birth and he and his wife were expecting it. "You wouldn't happen to have five new names handy?" he joked. "I can tell you one thing, we're going to be needing a lot more house pretty soon."

Newspapers Have To Tell It Like It Is

LUBBOCK, Tex. (UPI)—The public does not like what it reads in the newspapers these days so "the next step" is to say that what it doesn't like "isn't so," according to newspaper publisher Edward H. Harte. Harte, publisher of the Corpus Christi Caller Times, says the public's distaste for the times is causing pressures against freedom of the press. Harte said the job of newspapers is "to tell it like it is." "Because the public does not like what it is, the next thing to say is that it isn't so," Harte said. "The news is not in balance. The newspaper is not factual." "But that would not be true. We don't like the tempo and trend of our times. For the first time in a long time we are having to tell our children that things are not going to be as good for them as they are for us." Harte concluded two days Tuesday at Texas Tech University as an editor-in-residence.

Earlier this year, editors visited from the Denver Post, Long Island's Newsday, the Mexico, Mo., Ledger and the Wall Street Journal. W. E. Baker, editor of the Kansas City Star, and Edwin D. Hunter, managing editor of the Houston Post, are scheduled to take part in the program later.

AIRLINE DEATHS

WASHINGTON (UPI)—One hundred fifty-eight persons died in commercial airline accidents in the United States last year, the lowest death toll for one year since 1957, according to the National Transportation Safety Board. The general aviation category, which includes private and business flying, however saw an increase in deaths. There were 1,385 deaths in general aviation last year compared with 1,374 the year before.

HEAD START

DES MOINES, Iowa (UPI)—The Iowa House got off to a head start Tuesday when Speaker William Harbor gavelled in the afternoon session. The head of the mallet flew off and struck Chief Clerk William Kendrick on the head. The chamber dissolved in laughter and both Harbor and Kendrick were red-faced. Kendrick, rubbing his head, said he might designate the speaker's podium as a "hard hat area."

# Dear Abby

By Abigail Van Buren

DEAR ABBY: I have never seen a problem like mine in your column, but I hope you won't take this as a joke because this is a very serious problem to me.

I am 19 and go steady with a girl who is studying to be a beautician. She told me that I would look a lot better with my hair dyed, and she offered to do it for me, so I said, "O. K. go ahead."

Well, she did, and I must admit that I look much better this way. Naturally, it was quite noticeable, so all my friends kidded me about it. My problem is that I would like to keep my hair this color, but I don't want to be kidded. Do you think it is so bad for a guy to dye his hair if he really thinks it looks better that way?

DEAR GUY: Fly under any color you wish, Buddy. Just be sure you keep the roots covered because if there's anything that looks worse than a gal who needs a dye job, it's a guy.

DEAR ABBY: My brother brought his family from California to Texas to see his wife's folks and some of his.

I usually make friends with children easily. In fact I have had strange children come right up to me and make friends with me.

Though I tried my best, I couldn't seem to make friends with my little 6-year-old niece. She wouldn't even let me touch

her hand to say good-bye to her. She just frowned when I went near her. I once heard a preacher say that he could tell what a family thought of him by the way the children acted toward him. Would I go wrong to apply the preacher's rule to my brother's case?

DEAR HURT: Yes. Preachers can be wrong occasionally, too.

DEAR ABBY: What wise advice you gave "Hungry for Love," that stupid 22-year-old whose young husband is withholding his favors until she loses 50 pounds! Her excuses and self-pity left me cold, since in two years she could have lost 150 pounds, let alone 50. All she needs is a doctor, a diet — and determination.

Although her obvious ignorance of proper diet hardly recommends her as a wife and mother, her letter reveals a much more shocking ignorance of the value of physical attractiveness to sex, and of sex to marriage. The mystery to me is why it took her so long to miss his attentions — and why her husband is coming home at all! The fact that he is only proves that he loves her.

Before marriage, my husband said to me, "Stay in shape for me, Baby." I took the hint, and at 48, with a little effort, I still weigh 112. If HUNGRY FOR LOVE could only see how that

small effort pays off in fun, health, and romance.

STILL SLIM IN SUNNYVALE

DEAR SLIM: "A little effort," you so glibly say. Perhaps for you, you lucky lady. But for many of your sisters, the toughest of all battles is the battle of the bulge.

HURT

DEAR HURT: Yes. Preachers can be wrong occasionally, too.

DEAR ABBY: What wise advice you gave "Hungry for Love," that stupid 22-year-old whose young husband is withholding his favors until she loses 50 pounds! ## Superintendent Speaks To B&PW Club Members

Supt. Dr. James F. Malone explained "Education Around the World," in his address to Pampa Business and Professional Women's Club World Affairs Banquet Tuesday in the First United Methodist Church.

Dr. Malone is serving as one of three directors for Texas on the National Education Board, which has a membership of 1,100,000. Dr. Malone summarized the NEA convention last summer held in Abijon, Africa, and discussed the World Conference of Teachers in Seoul, Korea held two years ago.

"Three years ago the World Conference of Teachers was held in Santiago, Chile. Another meeting was held in New Zealand and on the North American continent to determine the goals of education for the future," Dr. Malone said.

"The greatest need is to develop vocational, agricultural and technical skills and for boys and girls to be alert to the possibilities and opportunities for learning," he said.

Mr. and Mrs. James Shelton, accompanied by John Reynolds, pianist, presented vocal selections, "Around the World in 80 Days," "Time and Again," and "Somewhere My Love."

Others participating on the program were Mrs. Ruth Sewell, invocation; Mrs. B. York, club collect; and Mrs. Charles Ford, chairman of the World Affairs Committee with Mrs. Sewell as co-chairman.

# Your Horoscope Jeane Dixon

FRIDAY, FEB. 27, 1970

Your birthday Friday: Inventions, new technical methods, more understanding of your own best interests characterize your coming year's career. You must take the initiative alone at times, and trust that others will follow and join forces after you have made the early breakthrough.

ARIES (March 21-April 19): You are so busy getting started that you may leave somebody or something essential behind. Make a list, count noses, and master your eagerness for progress.

TAURUS (April 20-May 20): Pay attention mainly to your work and the promotion of your career. Other matters recede into the background for later review. Your perspective improves as the day advances.

GEMINI (May 21-June 20): You are well commended and reported. Carry on as though nothing is unusual. Take the time and trouble to check your health-maintenance program.

CANCER (June 21-July 21): Purposeful use of your time for aesthetic, balanced work pays off beyond immediate financial reward. Your money has wings and takes off at the sight of luxuries or in answer to emotional pleadings. Avoid installment buying.

LEO (July 23-Aug. 22): It is your turn to ask favors wherever anybody has

benefitted from your cooperation. Just make sure you really want whatever it is and can put the results to immediate use in conjunction with other factors.

VIRGO (Aug. 23-Sept. 22): Check any deliveries for errors or damage in shipping before signing. Incidents lack the precision and clarity needed to satisfy your standards, but there's little to be done about it. Short cuts are of no avail.

LIBRA (Sept. 23-Oct. 22): Trust your luck with finances, moderately speculative investments. Competition is a bit easier to cope with. Tidy up your work so that next week will get off to a smooth start.

SCORPIO (Oct. 23-Nov. 21): Accept and carry responsibility gracefully. Authority that goes with it is on the way. Increase your savings rate; set some sort of pattern.

SAGITTARIUS (Nov. 22-Dec. 21): Windfalls, fringe benefits, other extra money seems headed your way. As it arrives put it to good use without fanfare or excitement.

CAPRICORN (Dec. 22-Jan. 19): Select your company rather carefully so as to avoid gossip or being a subject of idle talk. Business travels and entertaining promise well. Take brief rest-breaks beyond normal habit.

AQUARIUS (Jan. 20-Feb. 18): Your reward for recent efforts

arrives. Try to adjust quickly and expansively. The feeling of competence may be more important than learning skills.

PISCES (Feb. 19-March 20): The temptation is toward excessive activity. Make sure travel is essential to your immediate goals, and if so, cover the whole repertory of issues on a single trip. The evening finds you saying too much, in all likelihood.

## Gavel Club Has Dinner Meeting

Past Matrons Gavel Club meeting in Southwestern Public Service Reddy Room, with Emma Lee Gray, Hestia Hestand and Rosalie Wedge as hostesses, participated in a covered dish supper.

Katie Vincent gave the invocation, with Marie Bohlander, president, conducting the business program.

A treat—Rock Lobster Alexander.

## Perk Up Lunch Boxes With Sandwich Tricks

Sandwich variations perk up a school or work lunch box while keeping within the food budget.

Hearty submarine rolls filled with liverwurst spread, cheese, bacon, onion rings and raw spinach, or chopped eggs and green pepper and chicken spread stop lunchtime grumbling in a hurry.

### HUMDIGERS

- 2 submarine rolls
- 1 3/4-oz. can liverwurst spread
- 4 slices Muenster cheese
- 8 slices cooked bacon, halved
- Raw onion rings
- Raw fresh spinach, washed, or lettuce...

Spread bottom half of rolls with liverwurst spread. Layer with cheese, bacon, onion rings, then spinach or lettuce. Cut in half. Makes 4 sandwiches.

### RED DEVIL DOGS

- 4 frankfurter rolls
- 1 (4 1/2-oz.) can dev-

## Critic Objects To Longer Hems Of Pre-War Era

NEW YORK (UPI)—Say it ain't so, Yves. And Jimmy, Marc, Bill, Oscar and Chester. Say that as leading fashion designers you really are putting us girls on when you haul daytime skirt lengths down to midcalf and put us women back into styles reminiscent of the 1940s. We're living in the space age, remember. This is 1970, man has walked on the moon twice, and midcalf hemlines look about as much with it today as a poodle haircut, the Annette Kellerman swimsuit and the side saddle riding habit.

I don't care, Marc Bohan of Paris, that you say, "The long length is now."

"I'm more in agreement with Mrs. Richard Harris, a chic New York lady who says, "The midi makes someone my height look as though one were standing in a manhole." Bravo Mrs. Harris.

Yes, I know, as designers you have to go on creating.

I'm also aware that retailers want to keep selling.

But couldn't designers create something for the stores that looks forward instead of evoking a past that this reporter of the fashion scene for several years considers one of the least flattering fashions born since women started clothing themselves with the fig leaf?

Yes, I know, fashion threw us women into a panic of sorts in post-war 1947 when Dior's "new look" brought knee high skirts down to midcalf. That had some reason behind it—Dior knew that women were tired, even if they wouldn't admit it, of the wartime restrictions on use of fabric, the mannish look to clothes, and wanted small waists and curves again.

Even then, Dior evoked world-wide protests. Now in 1970, there is more militancy among us dames than there was three decades ago. We organize, we picket, we act. So watch it, Yves St. Laurent, Jimmy Galanos, Bill Blass, Chester Weinberg, Marc Bohan, Oscar de la Renta and others who advocate what one garment industry publication has dubbed the "longuette."

## Meatless Meals Require New Ideas To Satisfy Family's Hunger Pangs

For meatless meals, here is another suggestion—a rich salad of new potatoes, eggs, onions and fresh celery and ripe olives made with a special dressing of anchovy paste and eggs, oil and powdered mustard. Served with a hot soup first and a tempting dessert, it makes a filling meal for any hungry man.

### NEW POTATO SALAD

- 1 qt. sliced, cooked new potatoes
- 2 tablespoons salad oil
- 1 tablespoon fresh lemon juice
- 1 teaspoon salt
- 1-3 cup diced fresh onions
- 1 1/2 cups diced fresh celery
- 1/4 cup sliced ripe olives
- 2 hard-cooked egg whites, diced
- 1-3 cup Anchovy-Egg dressing

- 2 tablespoons mayonnaise
- Romaine lettuce
- Ripe olives...

Combine potatoes, salad oil, lemon juice, salt and onions. Cover and marinate in refrigerator at least one hour. Just before serving, add celery, olives, hard-cooked egg whites, Anchovy-Egg Dressing and mayonnaise. Mix lightly. Serve on salad greens. Garnish with ripe olives. Eight to 10 servings.

### ANCHOVY-EGG DRESSING

- 1 teaspoon powdered mustard
- 2 teaspoons water
- 2 hard-cooked egg yolks
- 1/2 teaspoon ground black pepper
- 1 teaspoon minced fresh garlic
- 2 tablespoons anchovy paste
- 1 egg white, unbeaten
- 1/4 cup salad oil
- 1 tablespoon wine

## Tasty Salad Helps Wait For Spring

It's that unique time of the year: Christmas and all of its excitement are over, but Spring has yet to break through. While the temperature outside is still chilly, try these "HOT" ideas for a zesty addition to your wintertime cooking.

Get busy and give a party! Invite your friends over for lunch and serve this savory salad.

### CHICKEN PICNIC SANDWICH

- 1 small loaf French bread
- 2 (4 1/2-oz.) cans chicken spread
- 2 hard-cooked eggs, chopped
- 4 slices crisply cooked bacon, crumbled
- 1/2 cup chopped green pepper
- 1-3 cup mayonnaise
- Salt
- Pepper
- Melted butter...

Split bread down the center but don't cut all the way through. Scoop out a little of the center and put mixture of chicken spread, eggs, bacon, green pepper, mayonnaise and seasonings into the cavity. Makes 4 servings.

### TASTEMAKERS, SALAD

- 1/2 cup margarine
- lobster or shrimp
- ... or crab
- potato chips
- celery
- onion
- dressing
- tomatoes
- lettuce

After melting the margarine, thoroughly coat the seafood and then roll each piece in potato chip meal. Let stand until firmly set and then add celery, onion, and dressing. Serve on tomato slices in lettuce cups.

This serves four and is guaranteed to impress! Be sure to give your friends something to talk about at your next after-the-game buffet, with a butcher's scale (!!!) as a combination centerpiece and conversation piece. Its pleasing eye appeal will match the spirited taste of the fresh chips and bits of cheese which balance it and which make the perfect "go-withs" for piping hot soup served in colorful mugs.

## Lobster Alexander Is Lent Treat

Looking for a delicious meatless treat? Then try this rock lobster stuffed with an easy-to-prepare filling.

### ROCK LOBSTER ALEXANDER

- 2 pkgs. (9 ozs. ea.) frozen South African rock lobster tails
- 2 hard-cooked eggs, sieved
- 1 teaspoon prepared mustard
- 2 tablespoons wine
- 1/2 cup vinegar
- 1/4 teaspoon Worcestershire sauce

Mix mustard with water and let stand 10 minutes. Mash egg yolks in small mixing bowl. Add pepper, garlic, anchovy paste and egg white. Beat until sauce thickens. Gradually beat in oil and vinegar. Mix with potato salad. Store remaining dressing in refrigerator. Makes two-thirds-cup.

Canned meats are base for variety in submarine sandwiches.

- 1/2 cup olive oil
- 1 tablespoon chopped parsley
- 1 tablespoon frozen chopped chives...

Drain, drench with cold water. With scissors, cut away underside membrane. Remove meat in one piece and cut into 1/2-inch crosswise slices. Reserve shells. Combine remaining ingredients and beat until thick and well-blended. Put lobster slices into shells. Spoon some of the sauce over the slices and serve the remaining sauce as a dip. Six servings.

## For Season Of Penitence, Try Deviled Fish Fillets

Lent begins Saturday, Feb. 28, but times have changed.

No longer must Catholics abstain from eating meat on Fridays during Lent, with two exceptions. According to the new rules, Ash-Wednesday and Good Friday are the only two days in Lent when Catholics must not indulge in meat. On all other Fridays and fast days, they are encouraged but not compelled to abstain from animal flesh.

Many Protestants, also, frequently go without meat at times during Lent. So for Catholics and Protestants who welcome good fish recipes during the lenten season, here's an easy-to-prepare dish. It tastes equally good, also, to those not concerned with the season of penitence.

### DEVILED FISH FILLETS

- 2 pounds fish fillets (thaw if frozen fish is used)
- 1/4 cup chili sauce
- 1/4 cup corn oil
- 1 tablespoon lemon juice
- 1/4 teaspoon salt
- 1/4 teaspoon Worcestershire sauce
- 1/4 cup finely chopped tomato
- dash pepper
- chopped parsley

Arrange fish fillets on oiled rack in broiler pan. Mix chili sauce, corn oil, lemon juice, salt, Worcestershire sauce, tomato and pepper. Spoon mixture over fish. Broil five inches from source of heat until fish flakes easily with fork, about 8 to 10 minutes. Serve sprinkled with chopped parsley. Six servings.

during our **ZENITH** value 70 spectacular

giant-screen 23" console for just... **\$549.95** With Trade

full Zenith handcrafted quality

**ONLY ZENITH HAS CHROMACOLOR...** a revolutionary color television system featuring a patented color picture tube that outcolors... outbrightens... outcontrasts... and outdetails... every other giant-screen color picture tube.

Zenith Chromacolor is a total system featuring a brighter color picture tube with finer colors, sharper detail, and greater contrast than any other giant-screen color picture tube. The heart of the Chromacolor system is the Zenith patented Chromacolor picture tube, incorporating Zenith's patented back-bombing principle. Where other color picture tubes before Chromacolor have been made up of thousands of tiny red, green, and blue dots on a gray background, Zenith found a way to reduce the dots in size, surround them with jet black, and for the first time, fully illuminate every dot.

Exclusive Zenith COLOR COMMANDER CONTROL makes it easy to compensate for changing room light conditions—by letting you adjust contrast, color level and brightness, instantly, with one simple control instead of three.

Zenith Titan 80 Handcrafted Chassis combines Zenith Handcrafted dependability with solid-state advances.

Exclusive Zenith Chromatic-Brain with the first integrated circuit ever used to produce a color picture.

Zenith patented AFC electronically fine-tunes Color TV instantly—even perfects your UHF-line-tuning automaticity.

Super Gold Video Guard Tuning System for longer TV life.

GOLF COACH DECK WOLDT shows his 1970 Harvester golf team some of the finer points in using a driver prior to their first match which will be held Friday and Saturday at Andrews. From left to right are: front row; Doug White, Sherwin Cox, Joe Foster, David Hall, Dudley Warner, Gregory White, second row; Bruce Brown, Stephen Rogers, Jackie Gindorf, John Garren, Chip Taylor, and Leslie Harris. There are seven golf tournaments scheduled for the team this year. (Staff Photo)

## Pampa Linksmen Off To Andrews Tourney

Deck Woladt's 1970 Pampa Andrews. The tournament is an invitational one and will be the first of two the team will play tournament of the year at Andrews.

The Harvester team has played at Amarillo, Lubbock, Plainview and Borger in the past few weeks getting ready for the tourney. This will be the first time the team has played in competition.

### Sports Summary

#### CAPS MAY REPEAT

A rose by any other name... The Washington Caps, who won the American Basketball Association title last season as the Oakland Oaks, could be the first team in pro basketball to win back-to-back championships from opposite ends of the United States.

#### CAREER HIGH

The halcyon days of playing on three Boston Celtic championship teams may be over for Don Nelson, but the flavor lingers. The Hub City star scored a career high of 40 points Wednesday night in leading Boston to a 147-124 victory over the San Diego Rockets.

#### LANGER WILL PLAY

NEW YORK (UPI)—The National Collegiate Athletic Association may not like it, and the Eastern College Athletic Conference may not like it, but Jack Langer is going to go right on playing basketball for Yale.

Perturbed and possibly annoyed by the probations dealt it by the NCAA and now by the ECAC for permitting Langer to play, Yale nevertheless insisted Wednesday that Langer, who played in the Maccabiah Games in Tel Aviv last summer, would continue on the Yale squad.

#### MARAVICH ADDS TO

NEW YORK (UPI)—Pete Maravich can make or break the 33rd National Invitation Tournament.

The floppy-haired sharpshooter from Louisiana State University, the leading scorer in college basketball history, is the only "name" player guaranteed to sell tickets and television exposure for the NIT this year.

The NIT Selection Committee Wednesday named four of the 16 teams—LSU, St. John's, Marquette and Georgia Tech—for this year's tournament, but LSU and Maravich are the main attraction.

Versus  
THE JOE PYNE SHOW  
Hear This Exciting Interview  
at 12:30 Friday on  
**KGRO**

In high school golf each team has five members, but only the top four player's scores count toward the team score. Pampa will have both an A and B team in all the meets.

Doug White, Dudley Warner, Bruce Brown, John Garren and Chip Taylor will make up the B team in the tourney.

The golf teams will play in five district meets this year and the teams with the total low score for all five tournaments will be the district winners. Also

the low individuals will go on as medalist players.

In each of the regular matches three individual players will be allowed to go along with the two teams. Their scores will not count but the three will be able to pick up the experience of playing in competition.

Those that coach Woladt will pick from for the extra positions are: David Hall, Dick Baily, Mike Cummings, Terry Washington, Jerry George, Charles Combs, Malt Hampton, Ken Weaver and Paul Phillips.

The 1970 schedule is as follows:

- Feb. 27-28 Andrews, (36 Holes)
- March 6-7, Vernon, (36 Holes)
- March 13, Lubbock, (18 Holes)\*
- March 20, Plainview, (18 Holes)\*
- March 25 Borger (18 Holes)\*
- April 3-4 Amarillo, (36 Holes)
- April 10 Pampa (18 Holes)\*
- April 17 Amarillo (18 Holes)\*

\* Denotes District Games

The teams in Pampa's district are the four Amarillo schools, the three Lubbock schools, Plainview and Borger.

## Denny McLain Goes Down In History

# Scars Of Scandal To Span "Scores"

By FRED DOWN  
UPI Sports Writer

NEW YORK (UPI)—Denny McLain's sentence will be for life—no matter what baseball Commissioner Bowie Kuhn decides.

The suspended Detroit Tiger pitcher may be reinstated in the near future and told that he can resume his baseball career "free of taint." Not so, Denny will carry the scars of the current scandal as long as he lives. Nor will time lessen the wounds he has inflicted on himself.

At 25, Denny could pitch another 10 to 15 years. He could win 30 games again and wind up his career with 200, 300 or even 400 victories.

But life in baseball will never be the same again for Denny because he committed the one sin which has peers will never forgive. He dragged baseball's good name into the gutter from which it was lifted 50 years ago. He linked baseball to a gambling scandal.

Every sport has its own "thing." Pro football thrives on its organized violence. Hockey players have their love affair with pain. Boxing's code is that a real champion loses his title face down. Baseball's "thing" is that no touch of gambling scandal should touch it.

Will Never Forget  
Relatively disinterested observers may scoff at it but Denny will learn over the years that baseball men will not forget. They will remember just as they have remembered Joe Jackson, Chick Gandil, Ed Cicotte, Claude Williams, Buck Weaver, Swede Risberg, Happy Felsch and Fred McMullin for a half century.

These were the members of the Chicago White Sox who were charged with a conspiracy

to fix the 1919 World Series with the Cincinnati Reds. They were tried by a federal grand jury in Chicago and acquitted but that made no difference to Judge Kenesaw Mountain Landis, baseball's first commissioner. On the very night of their acquittal, Judge Landis banned them from baseball.

But that was only the beginning of the lifetime sentence. Long past an age when their playing careers would have ended, the eight were still paying the price for their alleged involvement with gamblers. Their names were stricken from many of baseball's "official" record books. They were never invited to Old Timers' Day celebrations. None can ever be elected to the Hall of Fame although two or three may have been good enough to be elected.

Years later when both were old men, Ty Cobb walked into a liquor store operated by Jackson. Cobb walked around the shop for 15 minutes without any recognition from Jackson. Then he asked his old rival if he hadn't recognized him.

Insists on Innocence  
"Sure, I did," said Jackson, who battled 375 in the 1919 World Series and insisted he was innocent of any wrongdoing. "But I didn't think you would want to talk to me."

How big an offense has Denny committed against the baseball establishment?

Well, in 1965 when Fred Frick retired after 15 years as commissioner he was asked the event or thing of which he was most proud. Frick had been a good executive from the baseball establishment's point of view, and could have given any number of answers.

"The thing that makes me most proud," said Frick, "is

that there never was a hint of scandal during my term of office."

McLain's sentence—that of his peers—will become more severe as time goes by. Now Denny wants to clear up his debts and resume his career as a super star. He may be reinstated by Kuhn. But he will be hounded for the rest of his life. Newsmen, TV men and radio broadcasters will mark the fifth, the 10th, the 20th, the 30th, etc., anniversaries of Denny's suspension and tell the story all over again for new generations of baseball fans.

Had So Much  
Poor Denny, you had so much. No one resents a young businessman ballplayer making all he can on the side. No one resents that you played the organ in Las Vegas night spots or that you ran a paint company. No one resents that you fly your own airplane or were forming an advertising agency. No one even cares much about the unpaid bills.

But, along the way, how could you forget that primary responsibility to the game? How could you let yourself and baseball become involved in that shadowland which it had avoided for so long? How could a smart guy like you play such a fool?

You have shown baseball three faces—that of the fireball, that of the flake and that of the fool. You have thrilled us with your fireball career on the field and amused us with your flaky remarks and attitudes.

OPENING DATE  
FAYETTEVILLE, Ark. (UPI)—The University of Arkansas and Stanford will open their 11-game football season with a night contest on Sept. 12 at Little Rock.

But it's that third face, the face of the man who involved baseball in its first gambling scandal in a half century, which will never be forgotten.

## Odds Against Shaw Repeating Doral Eastern

MIAMI (UPI)—Returning champ Tom Shaw could learn today the truth of the adage "uneasy lies the head that wears a crown" when he and 143 other golfers tee off in the \$150,000 Doral Eastern.

Shaw will be trying to do what no golfer has ever done in the eight-year history of the Doral Eastern—win it twice in succession. Billy Casper and Doug Sanders have won it twice, but never back-to-back.

The garrulous Shaw, 27, of Golf, Ill., said Wednesday he would rather take the \$30,000 top money at the Doral Country Club than win the Masters or the U.S. Open.

Favored to win the title from Shaw are Tommy Aaron, who has won only one tourney in the last 10 years, but has been consistent this year—and the ubiquitous Arnold Palmer.

Use Turf Magic Lawn Food with Chlordane  
A pretty lawn comes easier

Grass flourishes, turf-damaging insects perish

Once over your lawn with this double-duty lawn food does two big jobs for you. As it feeds grasses, it protects against soil insects that so frequently damage turf. Contains valuable high nitrogen organic-castor meal, blood meal, bone meal, cotton seed meal—combined with chelated iron and Chlordane. Really effective, and the effectiveness lasts and lasts.
