Arabs Vow Revenge On Israelis

DESPITE ECONOMIC SLOWDOWN

Inflation To Keep Rearing Ugly Head

WASHINGTON (UPI)—A group of the nation's leading private economists expect inflation to be troublesome again this year despite a slowing in economic growth to the lowest pace since the 1958 recession.

The panel of 20 consultants to the prestigious Business Council predicted Thursday inflation would be about 4.5 per cent this year—down slightly from 4.7 per cent in 1969. But the real growth of the economy would be "no more than 1 per cent."

The report was slightly less optimistic than President Nixon's economic message earlier this month, although both predicted a Gross National Product (GNP) of \$985 billion this year.

The administration report anticipated about 4.3 per cent inflation this year coupled with a little more than 1 per cent real economic growth.

Maurice Mann, assistant budget director, agreed the economy will be sluggish this year. But, in a speech prepared for the Mississippi Bankers Association, he said a year of slow growth "is really a minimal price to pay to subdue and then contain inflation."

The Business Council is a

group of top corporate executives that advises the government. Its consultants predicted "economic growth will deflate to slightly down in the first half of 1970, followed by a slight improvement in the second half of the year."

The Commerce Department said economic activity the last three months of last year was even slower than originally reported.

The department said that during the fourth quarter, the GNP, which measures the total value of the nation's output of goods and services, increased at an annual rate of 9.5 billion, about \$1 billion slower than

indicated by a preliminary report last month.

There was no real economic growth. In fact, the physical production of goods and services declined 0.1 per cent. The original report indicated no change in the volume during the October-through-December period.

The report said inflation pushed up prices at an annual rate of 4.5 per cent. In other words, there was less to buy during the three months and it cost more.

The Business Council economists predicted "some easing of credit in the next few months." But the report indicated interest rates will remain relatively high.

IN JANUARY

Personal Income Shrinks To New Low Level

WASHINGTON (UPI)—Personal income registered its smallest increase in almost two years last month, adding to evidence that the economy cooling, the government reported today.

Commerce Department figures placed personal income at a seasonally adjusted annual rate of \$773 billion in January, an increase of \$2.4 billion over December.

Almost half of the monthly advance, \$900 million, was in transfer payments, which includes Social Security, unemployment compensation, veterans' benefits, and other such income not directly earned through employment.

Payrolls increased only \$1.25 billion and factory payrolls declined by \$500 million.

The January increase in total

personal income was the smallest since a \$2.3 billion advance recorded in April, 1968.

Government economists cited the small gain, which was lower than an average \$3 billion advance recorded in the past five months and a \$5 billion average monthly increase in the first eight months of last year, as an additional indication the fight against inflation is being won.

They said they look for a slowdown in price increases later this year.

Although the income report indicated a cooling of inflation, some leading private economists expect inflation to continue troublesome this year. At the same time, they foresee the slowest pace of economic growth since 1958.

Cattleboat Haven For Volunteers

SAINT JOHN, N.B. (UPI)—The "Venceremos Brigade," 500 American volunteers on their way to cut sugar cane in Cuba, spent the first night of their voyage Thursday aboard a converted cattleboat tied up in Saint John Harbor.

The volunteers, ranging in age from Joe Griffith, 13, of Newton, Mass., to Mrs. Jane Wood, 61, of New York City, are headed toward six weeks of work in the sugarfields of Castro's Cuba.

The Cuban ship, Luis Arcos Bergnes which Thursday unloaded 216 volunteers from a previous trip, was expected to leave Saint John this afternoon, after fueling and replenishing its stores.

The returnees and the new Venceremos gathered on Pier 14 shouting, slapping backs and singing "Cuba si, Yanqui no," mingling as they moved between their buses and the ship.

Griffith, the youngest volunteer, said he was going because "I think it is a very strong political thing. It's very good for finding out about the revolution. Most of my friends and I agree that a revolution is necessary in our country. There are some things worth saving, but..."

Influenza Taking Its Toll Of Victims All Over Nation

ATLANTA (UPI)—The National Communicable Disease Center (NCDC) today reported influenza has spread over most of the nation and predicted the outbreak would continue into April.

NCDC said influenza or influenza-like illnesses were reported in 45 states, a drastic increase over the 16 states reporting the disease a week ago.

The federal health agency, conducting a special telephone survey of all 30 state Health Departments earlier this week to determine the extent of the

disease, said it was widespread in the states of Louisiana, Rhode Island and Maine. Over 50 per cent of the counties in these states were hit by the flu bug.

Eleven other states reported regional outbreaks which meant the disease was present in more than 20 neighboring counties. Twenty-four states listed localized outbreaks and seven states reported only isolated cases.

Only the states of Delaware, South Dakota, Arkansas, Wyoming and Nevada reported no influenza activity. The NCDC said there were 244 deaths attributed to flu, most of it the Hong Kong variety, across the nation for the week ended Feb. 7.

Dr. Michael Gregg, chief of the NCDC's Viral Disease Section, said "not anywhere near as many people are affected with the Hong Kong flu this year as there was last year," when an estimated 30 million Americans came down with the disease.

Gregg termed the current outbreak "the second wave" or "backwash" from last year's Hong Kong flu epidemic.

He predicted the disease will continue for three or four more weeks and finally die down in April.

Hirt's Split Lip Healing

NEW ORLEANS (UPI)—Al Hirt, who spent 47 years building his lip, learned Thursday he will be able to use it again.

Someone tossed a chunk of jagged concrete at Hirt while he was riding a Mardi Gras carnival float Sunday night. It took 16 stitches to close the wound in Hirt's powerful upper lip, and Hirt said he feared his career was in jeopardy.

The stitches were removed Thursday and Dr. Fred Meyer told Hirt, "I'm sure the lip is going to be all right."

"It will be approximately two weeks before you should play the horn," Meyer told Hirt.

Tech Students Hurt In Blast

LUBBOCK (UPI)—A tear gas canister exploded in a hallway of a Texas Tech University men's dorm Thursday, sending two students to the hospital.

Hundreds jammed the exits and smoke poured from the building. Someone called the Lubbock Fire Department and minutes later five fire trucks wheeled up.

Donald Salm, a senior, and Philip Sterrett, a freshman, were treated for tear gas inhalation and released from Methodist Hospital.

"Big Outfits" Targets For Pollution Team

USTIN, Tex. (UPI)—A Texas Air Control Board official said Thursday "some big outfits" in Houston are going to be surprised by court action for air pollution detected by a six-man investigating team last week.

Charles R. Barden, board executive secretary, said one definite case will be turned over by next week to the State Attorney General with a request for a lawsuit. Another four firms could face court action.

The four accused polluters are being notified they will face suits unless they comply immediately with state regulations.

"They can achieve this only by closing down or severely curtailing their operations," he said.

Fines of up to \$1,000 a day could be levied on the convicted polluters.

"They include some big outfits. It's going to surprise a lot of people," said Barden, declining to name the firms.

The unprecedented investigation team actually found 19 of 35 companies checked to be exceeding state regulations for air emissions.

"But a number of these companies are still under variances and thus are not polluting illegally — at least not yet," he said.

He said about 15 plants checked "apparently knew we were coming and had just shut down or else curtailed operations until they were putting out practically nothing."

FRIDAY THE 13th holds no mysterious qualms for two Pampa brothers, Wayland, standing on the ladder, just as his brother walks under and dodges a tipping can of paint because today is their birthday. They are the sons of Mrs. Martha McPherson, 316 Warren and grandsons of Mr. and Mrs. Isiah Phillips, 819 E. Scott. Wayland is 16 and Garland 12 today. (Staff Photo)

Deliberation In Chicago Trial Starts

CHICAGO (UPI)—Chicago Seven defense attorneys have told the jurors "History will hold its breath" while they reach a verdict in the conspiracy to riot trial.

"This case is more than just the defense of seven men," defense attorney Leonard Weinglass told the jury Thursday in closing argument.

His voice broke and tears welled in his eyes. He paused for several seconds.

"It involves a more basic issue of whether people can stand up and hold to their principles. While you deliberate, history will hold its breath until you can right this wrong by acquitting these men."

The defense was expected to conclude its summation today. The prosecution, which began first, conserved two hours for rebuttal, after which the judge was to charge the jury.

Tons Of New Snow Threaten Resort

VAL D'ISERE, France (UPI)—Thousands of tourists stranded since Tuesday's avalanche disaster streamed out of this Alpine ski resort today over the only cleared road.

Officials said perhaps 2,000 of the 6,000 skiers at the resort managed to leave Thursday before a series of new avalanches sent thousands of tons of snow over Route 202 to Bourg St. Maurice.

The new avalanches claimed the life of an 8-month-old girl, hit an auto convoy of departing tourists and smashed six chalets. Several persons in the convoy were injured. The infant was found beneath four feet of snow.

Officials said temperatures had dropped to below freezing, greatly lessening the chance of more avalanches. The one Tuesday killed 39 people in a youth hostel.

One of the slides Thursday piled into a column of automobiles wending their way to Bourg St. Maurice.

Thousands of tourists, some as many as four days late for work, were ready to leave when Mayor Noel Machet called off further departures because of Thursday's slides. The tourists unpacked, moved back into the resort and spent the night.

Before dawn today, police and hotel officials moved through the village awakening tourists and notifying them the road was again clear for the drive to Bourg St. Maurice.

All ski runs at Val d'Isere have been closed since the wall of snow thundered down and smashed into two hotels Tuesday. But officials said perhaps 2,500 persons were waiting for conditions to improve enough so they could resume skiing.

Court Martial Ordered For My Lai Deaths

FT. BENNING, Ga. (UPI)—Lt. William L. Calley Jr. has been ordered to stand court-martial May 18 for the alleged massacre of 102 Vietnamese civilians at My Lai.

Lt. Col. Reid Kennedy set the date Thursday after hearing four days of testimony by nine military witnesses called by the defense in an attempt to show Calley could not get a fair trial.

Defense attorneys contended widespread publicity and "command influence" by high military officers and the White House had rendered a fair trial impossible. Kennedy acknowledged publicity had been extensive, but added, "It has had no effect upon this court and this court can provide a fair trial for Lt. Calley."

Massive Missile Hoisted Away

BRENNHAM, Tex. (UPI)—After bathing in potentially dangerous diesel fuel for 24 hours, a massive booster rocket was hoisted from the shoulder of a major highway today and hauled away to an Air Force base.

The missile lay strapped to a truck which overturned Thursday on a trip from California to South Carolina.

Air Force officials guarding the missile refused to touch it until two Lockheed Corp. representatives from Washington arrived to supervise the rocket's handling.

The Air Force had closed the area where the rocket lay on the shoulder of the highway. Bob Morehead of the Brenham police said "The air police are in charge and they are keeping everyone away. The missile is government property and they're guarding it."

The booster was unbound, extreme heat

Implicates U.S.A. For War Supplies

By United Press International
Cairo Radio vowed today "Israel will not escape punishment" for the air raid that killed 70 civilians outside the Egyptian capital Thursday. The Arab press cried for revenge.

"Israel is the tool of murder in the hands of the imperialist killers of the United States," Cairo Radio said in leading the outcry against Washington for supplying warplanes and bombs to the Israelis.

The State Department in Washington said it "deplored" the Israeli attack on the civilian target. It was understood President Nixon almost certainly will now delay a decision on Israel's request for more planes.

"We appeal to both sides to adhere scrupulously to the cease-fire resolutions of the United Nations Security Council," the U.S. statement said, also condemning Arab guerrilla acts against civilians.

Reports from Cairo said the Israeli warplanes used bombs, rockets and napalm in their attack against the Abu Zabal metal works just north of the Cairo, killing 70 of the 1,300 employees and wounding 49.

Egyptian authorities looted the area and were still searching this morning for bombs Israel said were timed to explode today. The Cairo press waxed furious.

"If Israel thinks that American protection will save her from paying a dear price, then it is mistaken," proclaimed the newspaper Al Akhbar.

Israel's air attacks into the Egyptian heartland became a point of contention in Jerusalem, where Israeli Premier Golda Meir denied press reports her cabinet has put down advocates of stopping the bombing.

Her defense minister, Moshe Dayan, told Jewish leaders in Kfar Ruppin, Israel, that this month is "of decisive importance" in the Middle East conflict because, he said, "the Big Four" powers will clarify their policy in our region.

The Big Four met in New York for almost four hours Thursday, with the United States urging a return to the 1967 Arab-Israeli cease-fire. The proposal was tabled for study.

From Moscow, the Soviets accused the United States of rejecting an earlier bid for restraint in the Middle East from Premier Alexei N. Kosygin, saying Washington was not interested in peace.

IN WORLD MESSAGE

Nixon Expected To Sidestep War Issues

KEY BISCAYNE, Fla. (UPI)—President Nixon is expected to sidestep decisions on arms to Israel and new troop withdrawals from Vietnam when he delivers his "state of the world" message to Congress next week.

Informed sources said he would deal in detail with the world's troublespots—the Middle East and Southeast Asia—in the unique bulky document he will submit to lawmakers on Wednesday.

Standing by to confer with Nixon was Dr. Henry A. Kissinger, chief White House foreign policy adviser, on phases of the message which has been likened to a national "white paper."

Presidential Press Secretary Ronald L. Ziegler said Nixon has not yet decided whether to approve an Israeli request for purchase of a new supply of Phantom and Skyhawk jets. It was likely the President would reinforce his appeal for an arms embargo in the area and call again for renewal of the cease-fire.

Other sources indicated Nixon has made a decision to sell the jets to Israel.

Ziegler said the Southeast Asia phase of the message does not await the return of Secretary of Defense Melvin R. Laird from his Vietnam fact-finding trip. A Kissinger study panel alpha has just made a survey trip to the war zone.

The President was concentrating on foreign affairs during his relaxed working vacation on his seaside compound. But he did take the occasion of Lincoln's Birthday Thursday to make known his "thinking" about two Southern-backed proposals on school desegregation.

Ziegler said Nixon supports uniform integration policies in the South and the North "to the maximum extent possible" and is opposed to lusing school children to achieve racial balance.

But he stopped short of endorsing amendments by Sen. John Stennis, D-Miss., pursuing these goals.

Ziegler said Nixon would announce next week establishment of a Cabinet-level committee headed by Vice President Spiro T. Agnew to help states having difficulty complying with court desegregation orders.

Former Tech Student Can Stand Trial

RUSK, Tex. (UPI)—A Rusk State Hospital doctor said Thursday as far as he is concerned Benjamin Lach is mentally competent to be tried for the scalpel murder of a Texas Tech cleaning woman three years ago.

The doctor's decision must be approved by hospital supervisor Dr. Arch Connolly before Lach can be tried. District Attorney Blair Cherry and defense attorney Bill Gillespie said the final decision could be made anywhere from a week to six months from now.

"He's been here over a year," Dr. J. A. Hunter said. "I believe he is now mentally competent."

Lach confessed to the Dec. 4, 1967, killing of Alice Morgan, 54, in an isolated room on the Texas Tech campus. He was a premedical student at the time of the crime.

A Lubbock court ruled in Dec. 1968, he was mentally unable to stand trial.

OCCULTISM

Astrology Big On Scene Today

LOS ANGELES (NEA)—Neptune, you see, is going into Sagittarius. And that, to an astrologer, explains the amazing surge of interest in the stars, planets and such.

"Neptune had been in Scorpio," says Joan Quigley, a working, writing astrologer. "Criminals were at large. In Sagittarius, things are more spiritual."

There is also the coming Age of Aquarius to think about. Aquarius is ruled by the planet Uranus, which, as everybody knows, is the astrologers' planet. So that, too, presages the boom in astrology.

Whatever causes it—Neptune going into Sagittarius or the Age of Aquarius or whatever—it seems to be definitely here. Astrology has never had it so big.

Manifestations are all around. Wander through any department store. You'll see the signs of the zodiac on glasses, towels, pillows, knickknacks of all kinds.

They even have booths in many of them where you can get your computerized horoscope while you wait.

There are newspaper columns. Books. Magazines. And here in southern California, which is a bit unbalanced to begin with, it's worse than anywhere. One Hollywood agent even lists his clients in his ads in the movie trade papers in astrological order.

Southern California may have been the spawning ground of the astrological boom. Much of it is traceable to the hippies, who reached their zenith in this area, along the Sunset Strip. The theory is that they renounced religion but, perhaps subconsciously, felt a hunger for something supernatural. They satisfied that hunger, somewhat, with astrology.

Here in Los Angeles, a theater was renamed 'The Aquarius.' "Hair"—the hippies' senior class play—is showing there. And the hit song from that extravaganza, "The Age of Aquarius," has become the hippies' national anthem.

But astrology has burgeoned far beyond the hairy ones. Today many respected and respectable businessmen, scientists, government officials, actors and lawyers sneak surreptitious looks at their

morning horoscope in the newspapers. Joan Quigley doesn't believe that such sneaks are of any value.

Miss Quigley, a beautiful, blond, Vassar-educated astrologer, says that a true horoscope cannot be cast in a paragraph.

"That only tells you," she says, "what your sun sign says. But your life is also influenced by the moon and eight planets. Each of them have something to say."

She has written a book, "Astrology For Adults," which shows you how to cast your own horoscope. Her previous book, "Astrology For Teens," was written under a pseudonym—Angel Star—because her very proper San Francisco father disapproved of her profession. And still does.

Miss Quigley believes she can counter every nonbeliever's argument about her "science"—and she thinks the day will come soon when astrology is recognized as a true science and taught in colleges as such.

To the argument that astrology cannot be true, because how is it possible for every person born within a 30-day span to be alike, she answers: "Of course, it is absurd to believe all Scorpios, for example, are alike. But the sun sign is only one of 10 influences, you see."

To the argument that twins, born only minutes apart, can be completely different: "People born two minutes apart can have different influences—they can fall under a different aspect."

To the argument that the messages of different planets may be contradictory: "Of course, but people are contradictory. We all have, within us, contrasting traits."

To the argument that two

TRAUMATIC EXPERIENCE
NORWICH, England (UPI)—Department store detective Pauline Colgate thought Lionel Downing was acting suspicious and grabbed him by the arm as he left the store where she worked. The arm came off in her hand.

A court was told Downing used an artificial left arm to cover the fact that his real arm was holding a bagful of stolen goods under his overcoat.

Television In Review

HOLLYWOOD (UPI)—I can think of another television series that had the consummate success of the children's entry "Sesame Street"—from critical notices to popular acceptance to word-of-mouth praise.

It is very gratifying that this steadily increasing acclaim should center on a series of the National Educational Television Network, which is non-commercial.

The program, which arrived only this season, already is a household name. In television, where hardly anyone talks about series in an admiring way week in and week out, the achievement of "Sesame Street" is altogether remarkable.

In our own home, my daughter, who soon will be five years old, is hooked on the show. Not only does she watch it every day, but she tunes in each Sunday.

What happens, of course, is that I also wind up watching bits and pieces of it, and the constant civility and ingenuity of the show is a pleasure. I'm pleased, of course, by some of the particulars my daughter gets from the program, but most of all it is comforting to know she is watching a show that is not full of obnoxious commercials and morose hosts taking advantage of her.

But that's just one home, of course. What has amazed me of late has been almost daily contact with persons who offer unsolicited testimonials to "Sesame Street."

I was, for example, buying some stereo equipment the other day when the salesman, who knew I wrote about television, told me how his child loved the series. The salesman, a very bright, intellectual and modern young fellow, said he hardly ever tunes in video himself, but "Sesame Street" had made its impact on him.

Several nights before, I was at a dinner party at the home of a successful, 40-ish producer-director who has several children. Actually, his children are either too young or too old for the series, which is geared for those between three and five. But he has been spending some time at home lately, reading scripts to choose his next assignment, and he happened to tune in "Sesame Street" one day by accident, and loved it.

As a daily producing and directing accomplishment, it is really terrific," he said. "But above all it is so intelligent and disarming. You get the feeling through all the information and fun it offers to kids that it really cares about them. And don't think that children can't sense that. If you ask me, I think that's what really hooks them."

Your Horoscope

JEANE DIXON

SATURDAY, FEB. 14
 Your birthday Saturday: — Changes in your home life and vocational efforts take you on a new course during the year ahead. Increased responsibility, closer cooperation are definitely developing. Group efforts are more worthwhile than ever.

ARIES (March 21-Apr. 19): — If you go through Friday's fuster unscathed, today can be a lark. Do the least you can get by with in serious work and have fun with the rest of the time.

TAURUS (Apr. 20-May 20): — Get started early putting matters to rights. Make peace where necessary. Gather your family and close friends

Couple To Mark Anniversary Date

Mr. and Mrs. Lewis A. Baxter, 515 Short, will be honored with a reception Sunday, celebrating their 30th wedding anniversary. Open house hours are from 3 to 5 p.m. in the Flame Room of Pioneer Natural Gas Co.

Forty of their 50 years of married life were spent in Pampa. He came to this city in July, 1928, to be associated with a brother in an automobile dealership. He was also employed with a trucking contractor and with the pipeline division of Humble Oil and Refining Co., serving from 1933 until his retirement.

The Baxters are members of Central Baptist Church in Pampa. A veteran of World War I, he is a member of the Veterans of Foreign Wars.

They have two children, Mrs. Aubrey Pollock, Lovington, N.M., and Raymond Baxter, a Baptist minister who has served churches in Texas, Missouri and Florida.

Forecast last Fall, here it comes! Purple!

Little girls like jackets over dresses—they like them with long sleeves or no sleeves at all in single or double-breasted versions.

Then the Parson might preach, and drink, and sing and we'd be as happy as birds in the spring. . .

Minister Offers Teens Alternate 'Trip', Tuning In On Life By Christian Living

NEW YORK (UPI)—Contemporary teen-agers tripping on drugs—or tempted to—have this alternative: getting high on God.

Dr. Norman Vincent Peale tells them how in a new book—"Tune In On Life."

The minister of Marble Collegiate Church in New York and author of "The Power of Positive Thinking" suggests this prayer:

A balance of power exists when a feminine crocheted polyester top and skirt is contrasted with a man's bold, wide, black-straped wrist watch and strappy shoes with clunky heels (left). But the feminine power wins out after all with the chiffon maxi scarf. Gianni Ferri of Banf thinks that's what it's all about. Natural color stringy-looking crochet (right) does the most to cover the least. Sweater Bee crochets the short-sleeved drawstring bare midriff top and the matching little skirt in linen and cotton.

Instant Crocheting Is Traffic Stopper

NEW YORK (NEA)—The word crochet once meant getting out the needles, untangling the yarn and many months of handwork.

Often by the time whatever was being made reached the complete stage it was out of season or no longer fit. And often the garment never did get finished due to a distinct lessening of enthusiasm on the part of the maker.

Now it's time to welcome in the new era of instant crochet. The crochet clothes of today look as authentic as though loving hands had mastered the job. And best of all, when the desire for a crocheted outfit hits, the dress or whatever can be a reality rather than an idea that same day.

Smart new designs satisfy each and every whim for crochet. If the occasion calls for a tunic-and-pants combo, you'll find it in pretty pastels and white. There is an assortment of crochet dresses with simple detailing—shaped though the bodice and flared gently at the skirt.

Ponchos, now so big on the fashion scene, can be found in interesting crocheted designs.

The timing for the popularity of crocheted clothes couldn't be better now that nude-color body stockings and bra slips are the norm in lingerie departments. There is no problem of what to wear under any of these open-air clothes.

Many stores have set up "Body Shops" where they sell nothing but unconstructed nude-color lingerie.

Wool, acrylic and linen—cotton are some of the fibers used for crochet clothes. One of the newest effects is the linen-cotton combination which actually looks similar to string.

One manufacturer has come up with a super bare midriff short-sleeved top and matching skirt that slopes mid-thigh in the string-type crochet in natural color. It's an eye-catching traffic stopper.

WOOLEN BLENDS

S. synthetics mixed with worsted and wool for smooth, lightweight fabrics. Fur mixed with wool for silky blends. Mohair, blended or alone for cloudy mixtures. On the move, dynamic. . .woolens that drape, cling and shape to the body contour.

"Lord, turn me on. Help me to tune in on life."

A "God high," according to Dr. Peale, sends one on a spiritual trip. It doesn't harm psyche or body.

"This stupid thing about the whole drug phenomena," he says, "is an effort to come into a higher awareness through the psychedelic methodology known as the trip."

"The only trouble about such a trip is that you go and you come back, and you are what you were before, only less so. With each succeeding trip your consciousness takes a beating."

Some of Dr. Peale's suggestions for a spiritual trip include:

- "Want it. Go for it."
- "Commit your whole self to Jesus Christ, asking him to take you over and make you over. Since you cannot do this for yourself, let go and let God do it."
- "Forget yourself and practice love toward people you don't like. Help them in any way you can."
- "Do something to help the person standing next to you in need, the disadvantaged, the lonely, the victims of injustice."
- "Forgive everybody. Love everybody. Don't hate anybody."
- "Have some ideals and have the guts to stand up for them. When you win a few victories, man, are you happy?"
- "Find a group of like-minded people, or if you can't find one, form one and share with each other spiritual experience."
- "Spend three minutes every day talking to Christ like a friend. He'll become more real to you than your best friend."
- "It was said of the early Christians that they would out-love, out-laugh and out-live everybody." Dr. Peale reminds, "Being high on God will not make you strange or different from the crowd."
- "The booklet with a psychedelic cover ought to be one that the under 30 crowd trusts. The Foundation for Christian Living isn't over 30 years of age."
- "For parents and teen-agers, it also covers sex and other problems of adolescence. It's \$1 for four copies or \$6 for 50 copies—from the Foundation for Christian Living at Rawling, N.Y."
- "Reproduced in the booklet is a drug talk with Cecily C. Selby, head mistress of the Lenox School in New York. Among things she told her students:
- "We do not yet know what effect on adult life and behavior is caused by casual social use of marijuana in school and college years. The studies have not been made."
- "Your generation is the guinea pig."

Conclave Sponsors Valentine Party

Alpha Iota Conclave of the Kappa Kappa Iota sponsored a Valentine party recently in the home of Mrs. Ernest Hawkins with Mrs. Dennis Wyatt and Mrs. Cecil Shirley serving as co-hostesses.

A Valentine motif was carried out in the decorations and refreshments. Games of Name-O and Charades were played. Mrs. Jerry Peurifoy presided at the short business meeting.

Guests attending were Mmes. Jay Boettner, Glen Cox, Tom Graham, and Chris Prickett. Other members attending were Mmes. Frank Anderson, John Best, Carl Brugger, Billy Davis, Juan deLeon, Albert Drinovsky, Joe Duncan, Don Hulstedler, John Rosenberg, Frank Schaffer, and Jack Williams.

Dear Abby

By Abigail Van Buren

DEAR ABBY: I would like to answer that man who said, "I would rather stare at the TV than talk to the idiot I married." A mature and intelligent man who sees that his wife is not growing intellectually can help her if he really wants to.

He can present current events to her in an interesting manner and subtly arouse her interest in world affairs and politics. He can encourage her to improve her mind by seeing to it that she has the time to do "mind-improving" things, either by sitting with the children himself, or providing her with a sitter.

Most women have a greater desire to improve their minds than men. The man who says that his wife is an "idiot," likes her that way. She is no challenge to him, and the contrast only makes him look better. This kind of man is afraid that his wife will develop into an intelligent, mind-improved, informed woman, and show him up. He'd rather go around calling her an idiot to her face, and to his friends. Then he feels smarter.

Statistics show that when a woman gets a higher paying job than her husband, his ego can't take it, and the marriage falls apart.

Okay, "Mr. Married-An-Idiot," put up or shut up!

Mrs. Heaton Fetes Skellytown Group

SKELLYTOWN (Sp) — Mrs. Bob Heaton, Skellytown sponsored a Valentine salad supper for women of the Community Church. She carried out the Valentine motif in her table decorations. The invocation was given by Mrs. Helen Burdett. After the supper in her home, the devotional was given by Mrs. Helen Burdett on "Love."

Attending were Mmes. Ethel Hunt, Ellen Cofer, Betty Crawford, Bob Fritziemier, and his mother, Mrs. Alvina Fritziemier, John Simmons, B.N. Porter, Hardy Boyd, Emmett Saxon, Helen Burdett, Leroy Snodgrass, W.S. Berry, Tom Veale, B.B. Hamilton, Kate Enoch, Silas Paul, Miss Billie Woodward and hostess, Mrs. Bob Heaton.

GLOVE INTEREST: A contrast of fabrics—cotton for the palm, leather for the back. . . and it's a contrast of colors. A true, patriotic red and navy.

Local Church News

Hobart Baptist

Reverend Lee Hillon, former pastor of Barrett Baptist Church, will fill the pulpit for both services this Sunday. Rev. Hillon left Barrett to pastor a church in Alaska for seven years. After that he was pastor in Florence, Colo. He returned to Pampa and resides at 2206 Williston. He is available for supply or other church related work. He may be reached at telephone number 669-2991. Rev. Hillon is a sound preacher of the gospel and a soul-winner.

Christian Science Church

"Soul" is the subject of the Lesson-Sermon to be read in all Christian Science churches this Sunday, with the Golden Text from Psalms, "Truly my soul waiteth upon God: from him cometh my salvation." Passages from Science and Health with Key to the Scriptures by Mary Baker Eddy include the following: "We can't deny that Life is self-sustained, and we should never deny the everlasting harmony of Soul, simply because, to the mortal senses, then is seeming discord. It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony." (P. 390).

United Methodist Church

Dr. Marshall Rhew, Seymour, will be featured in a Preaching Mission to be held at First United Methodist Church Feb. 15-20. Services Sunday will be at 8:45 and 11 a.m., and at 8 p.m. Beginning on Monday and continuing through Friday, Dr. Rhew will hold services in the mornings at 7 a.m. and 10 a.m. These services will be brief and will feature a discussion on prayer. The topics chosen by Dr. Rhew are: "How To Spend Fifteen Minutes In A Private Prayer Time," "Learning To Pray All the Time," "Prayer for Others," "The Prayer of Confession," "The Prayer of Self Surrender" and "How God Speaks to Us." The public is cordially invited to attend these services. The Sunday morning service at 8:45 will feature the children's Carol Choir singing two numbers, "O God For This Another Day" and "Little Children, Come To Jesus." The Youth Choir will assist at this service. At 11 a.m. the Sanctuary Choir will sing "The Lord Is My Shepherd" by Schubert. Dr. Rhew will preach at the three Sunday services. Tracy Cary will play the organ prelude, offertory and postlude.

Church Of God

An old fashioned revival is now in progress at the Church of God, corner of Gwendolyn and Sumner. The evangelist is Rev. Lenzy Evans of Mississippi. Rev. Evans will be a blessing to those attending the services and the special singings that will be conducted each night. An invitation is extended to the public to attend by the pastor, Rev. Waller.

Many Ways To Understand And Observe Lenten Days

Lent, which began Wednesday and will continue until Easter Sunday (March 29), may be observed and understood in several different ways. On one level, it can be regarded as an archaic survival of the medieval custom of "mortifying the flesh" to keep the body in subjection to the spirit. When Lent is so regarded, it is not very congenial to the temperament of our time. It strikes a wrong note, not merely because we are addicted to our creature comforts, but more importantly because it is a very self-centered approach to religion. There are plenty of people around today, both young and old, who are ready to sacrifice ease and pleasure for the sake of others or in the service of a cause. Such people, whether they realize it or not, are religious in the sense to which Jesus Christ attached the greatest significance. First, there is the possibility of making Lenten sacrifices for a specific unselfish purpose. Instead of fasting just to teach the body a lesson, one could skip lunch, or give up desserts, and contribute the money thus saved to relief on the starving children in Biafra. Thus fasting would become a concrete way of loving others. A second possibility is suggested by the Rev. Richard John Neuhaus, Lutheran clergyman and editor of *Una Sancta* magazine. Lent may be regarded as "a radical call to new dimensions of discipleship." The question the would-be disciple should ask himself is not whether he is living a fairly decent life, but whether he is doing all that Christ has commanded. A Roman Catholic theologian, Fr. Andrew Auer, C.P., suggests a third approach to Lent. It is profoundly spiritual and should appeal to all—Protestants as well as Catholics—who sense there is more to reality than can be encompassed by the short arms of human logic. As voluntarily accepted sacrifice, he says, penance is an emulation of the gift of self which Christ made on the cross. Whenever Christians suffer willingly for the sake of others, in addition to any immediate "practical" results, they accomplish "something very real and very powerful" on the spiritual or mystical plane, where all explanations cease and understanding proceeds solely by the heart's intuition that love is never wasted and never futile. John Earl Seelig, public relations director of Southwestern, said Tuesday the board of trustees made the home's true cost public to squelch rumors the home would cost as much as \$500,000. The board voted in December to build the home for school president Dr. Robert E. Naylor. But when the Baptist Standard magazine announced the decision this week, it received 40 letters to the editor protesting. "It seems sadly absurd," wrote an Irving housewife, Naomi Lawrence, "that the Southwestern Seminary trustees approved a \$125,000 for a home for the seminary president. Quite a sizeable amount compared to the day when our Lord had not a place to rest his head." Seelig said the cost of the home "is not high in today's market."

Lord's Supper To Be Observed

The Ordinance of the Lord's Supper will be observed in the First Baptist Church, Pampa, at the eleven o'clock Morning Worship with the pastor, Rev. Dan B. Cameron, in charge of the service. The Sanctuary Choir, under the direction of Mr. David Campbell, Minister of Music, will sing "Here at Thy Table, Lord" by Sherwin, and other special music will be presented by Mr. and Mrs. James Shelton. Miss Eloise Lane, Organist, will play "Beneath the Cross of Jesus" by Duro for the offertory.

Laymen, Pastors Objecting To Home Expenses

FORT WORTH (UPI)—Baptist pastors and laymen in North Texas have mounted a protest against the Southwestern Baptist Theological Seminary's plan to build a \$125,000 home for its president. "How are we pastors to explain to our people such an extravagant waste as this in the face of so much genuine need?" the Rev. Ade D. Johnson, of Bynum, Tex., wrote.

Recommendations For TV Diet Made By Lutherans

Children can acquire "false standards, false values, false images of reality" and a propensity for violence by watching television. Or they can be exposed to "stimulating, informative and educational TV fare. It's up to parents to decide, in each home, which way it will be. That's what the American Lutheran Church is telling its 2.5 million members. Recommendations Circulated—After months of studying the impact of television on youthful minds, an ALC research commission drew up a commendably brief set of findings and recommendations, which are being circulated this month to the denomination's 5,000 local congregations. The Lutheran Commission did not ignore the possibilities of raising the level of TV programming through group action. It endorsed the idea of a national citizens commission, or public. This agency, it said, should work through Congress, the Federal Communications Commission and the television industry to "reduce portrayals of violence" and encourage production of better programs for family viewing. In the meantime, there's plenty an individual family can do to improve the quality of the television diet consumed in its home, the commission said. The first step is to make use of the "various sources of advance information" about upcoming TV programs—including the previews published by newspapers, TV Guide, the Saturday Review of Literature and the Television Information Office. Some programs which might be harmful for children to watch alone "could become helpful vehicles of moral instruction if viewed by the entire family and subjected to 'discussion on evaluation and interpretation.'"

The Weekly Message of Inspiration...

BETHEL ASSEMBLY OF GOD CHURCH

Rev. J. F. BEEBE
Bethel Assembly of God Church

TEXT: Hebrews 9:27-28:
And as it is appointed unto men once to die but after this the judgement: So Christ was once offered to bear the sins of many and

were them that look for Him shall He appear the second time without sin unto salvation.

I like to think of this as an appointment that all of us shall make. There is not a one that will escape this meeting with the Lord. There was a young man of 18 years of age that had been in a car wreck and died with a concussion of the brain. At the funeral I happened to be seated directly behind his parents. His mother, in grief, said: "No, No — John you can't go!" But the father of this boy, with all the hurt and love that he showed so deeply simply said, "But Mommy, he'll have to go this time." Yes, we will all come to this door and will have to step through.

The amazing thing we will meet Him stripped of all of our excuses, and stripped of all the things that had at one time seemed important: selfish desires, wrong dress, lack of faith, selfish motivation and lack of consecration. Paul said, "Ye are bought with a price: Be not the servants of men. (1 Cor. 7:23) And ye are not your own. (1 Cor. 6:20) . . .

There is hope, as our text stated, "Christ was once offered to bear the sins of many." Mister, He loves you. Matt. 11:28 — "Come unto me Me all ye that labor and are heavy laden and I will give you rest."

Let us therefore walk in the well-marked path of love and separation, loving our Lord and separating ourselves from all worldly things. . . This is the path home.

Niagara Stops Fordham While UT El Paso Dumps Wyoming

By United Press International
Calvin Murphy's double vision doesn't stem from eyeing the pro basketball leagues, but his reaction to this ailment could bring him a step closer to a contract.

Murphy, ever alert despite getting smacked in the eye, stole the ball three times in the last six minutes to rally Niagara to a 77-68 victory over Fordham Thursday.

Bothered by the double

vision, Murphy still managed to tie the score at 58-all on a three-point play with 5:49 left and put Niagara in front for good at 64-62, with 4:08 to go, when he stole the ball in backcourt and drove in for the layup.

Howard Porter of Villanova completed the long and short of the night's action at Madison Square Garden when the 6-8 Wildcat center set an arena

record of 32 rebounds and scored 37 points in leading his team to a 108-91 triumph over St. Peter's College (N.J.).

Unranked University of Texas at El Paso bombed 14th-ranked Wyoming, 88-80, with 61 per cent accuracy from the floor. Nate Archibald scored 25 points for the winning Miners, who kept the Cowboys in control despite a 26-point effort by Wyoming's Carl Ashley in the second half.

Louisville and Drake remained in a tie for the Missouri Valley Conference lead with 10-1 records. Larry Carter's 18 points paced Louisville to a 77-67 triumph over Tulsa and Al Williams' 19 points led Drake to a 68-65 verdict over Bradley. Rick Wanamaker's tip-in with a half-minute to go broke a 65-all tie for Drake.

Dwight Davis and Ollie Taylor each scored 24 points for 13th-ranked Houston as the Cougars stopped Hardin-Simmons 109-11 and raised their record to 17-3. Cliff Harris had a game high 31 points for the Cowboys.

In other games, Cincinnati's Jim Ard and John Fraley each scored 17 points in pinning an 83-57 defeat on Wichita State; Marquette held St. Louis without a field goal for 15 minutes in the second half and ran off a 66-54 triumph behind Dean Meminger's 27 points; Mike Newlin netted 32 points in Utah's 92-75 win over Arizona and Georgetown used Don Weber's 24 points to beat New York University, 94-72.

Haywood, gunning for the ABA scoring and rebounding titles, hit for 14 points after Coach Joe Belmont reinsered him into the lineup when

Indiana smothered Pittsburgh, 119-106, and Washington whipped Miami, 138-122, in other American Basketball Association games.

Haywood, gunning for the ABA scoring and rebounding titles, hit for 14 points after Coach Joe Belmont reinsered him into the lineup when

Indiana smothered Pittsburgh, 119-106, and Washington whipped Miami, 138-122, in other American Basketball Association games.

Indiana smothered Pittsburgh, 119-106, and Washington whipped Miami, 138-122, in other American Basketball Association games.

ENDING ON A HAPPY NOTE—Slagers Dean Martin, left, and Glen Campbell complete a day on the links with smiles—no doubt, their last putts have done 'em (or maybe come close?).

Pampa Cagers Face Tascosa Tonight

By JIM BURNHAM
News Sports Correspondent
The Harvesters grapple with the Tascosa Rebels here tonight. A win will give the Harvesters a chance to get out of the district cellar which they are presently sharing with Caprock and Coronado.

With a 1-4 second half district standing, Pampa will be trying for its eleventh win of the season. Tascosa is 2-3 in district play and a loss will put them on an equal foothold with Pampa. It would also even their overall season to 14-14.

Tascosa was the winner of the Amarillo City Tournament. Although both Amarillo High and Palo Duro High have better records, Tascosa has good quality in its team also.

Last year, Tascosa beat Pampa out of the district title

in a 65-60 game in the West Texas State College Field House.

Tascosa surged past the player averaging in double season by a score of 51-48. Last year's district crown winners are paced by their 6'9" center, Les Cundiff averaging 13.6 points per outing. Donnell Fuller for the Red-and-Gray averages 11.

Pampa's 6'6" post man, Jim Gallman leads Pampa in scoring and places second in district statistics with an 18 average. He is the only Pampa player averaging in double figures.

Starting for the Harvesters in Tuesday's contest against Caprock were Gallman, Mike Edgar, Doug Thompson, Mike Jordan, and Richard Burton. They got off to a fast scoring start and led by ten at the close of the first quarter.

This is Pampa's twenty-fifth game this season with four more to follow.

Mullins Sidelined
SAN FRANCISCO (UPI)—The San Francisco Warriors said Thursday that high-scoring Jeff Mullins will be sidelined for two weeks because of a knee injury. Mullins started this week as the National Basketball Association's seventh leading scorer with a 23.6 average.

Flu And Kentucky Can't Stop Haywood And Denver

By United Press International
That sickly feeling Kentucky experienced Thursday night was Spencer Haywood scoring 34 points and gathering 29 rebounds despite the Denver star's bout with the flu.

Haywood was benched for part of the game because of his weakened condition, but found that action was the best medicine as he led Denver to a 125-111 victory over the Colonels.

Indiana smothered Pittsburgh, 119-106, and Washington whipped Miami, 138-122, in other American Basketball Association games.

Haywood, gunning for the ABA scoring and rebounding titles, hit for 14 points after Coach Joe Belmont reinsered him into the lineup when

Kentucky presented a mild threat in the third quarter. The first quarter Denver defense that limited the Colonels to 14 points was the key to the game. The Rockets scored 28 in the period and that 14-point margin prevailed at the finish.

Louis Dampier tallied 29 points for Kentucky, which dropped 12 games back of first place Indiana in the East. Denver now trails Western Division-leading New Orleans by a single game.

Bob Netolicky connected on 12 of 18 field goal attempts to lead the Indiana victory over

Pittsburgh. Roger Brown added 26 and John Barnhill 25 against poor Pittsburgh, now 23 games off the Eastern pace in fifth place. John Brisker's 20 points was high for the Pacers.

The veteran and the rookie spelled double trouble for Miami as Rick Barry netted 40 points and Mike Barrett scored 35 for Washington. Miami held a 34-26 first period lead, but couldn't cope with the Caps' power as they turned a one-point margin into a 15-point spread during a third period rally. Don Freeman led the Floridians with 36 points.

Calif. Games Match Many Track Champs

INGLEWOOD, Calif. (UPI)—Olympic champions and world record holders dominate athletes from 15 nations as an international field competes tonight in the 11th annual Times Indoor Games.

Records will be in jeopardy from the opening contest of the 26-event program which gets under way with the pole vault in which Olympic champion Bob Seagren will make another effort to crack the 18-foot barrier.

But the feature event of the program will be the 600-yard run, in which three world champions will battle for victory and a new record. The race throws together Ralph Doubell of Australia, Olympic 400-meter champion Lee Evans and 600-yard record holder Martin McGrady. To round out the field, Len Van Hofwegen of the Southern California Striders also is in the race.

The parade of Olympic champions is headed by Bill Toomey, holder of the world decathlon record and winner of the Sullivan Award as the top amateur athlete in the United States. Toomey competes in the long jump and is honorary referee of the meet.

Other Olympic and world record champions include Randy Matson in the shot put, Willie Davenport in the high hurdles, John Carlos in the sprints, Chi Cheng of Nationalist China in the women's events, Ron Clarke of Australia in the distance events, and Barbara Ferrell in the women's middle distance races.

The foreign contingent, in addition to the Australian stars, includes athletes from Italy, Poland, South Africa, Sweden, Trinidad, Jamaica, Japan, India and Ethiopia.

LA Narrows Gap To Less Than One

By United Press International
Baylor and West and the best from the rest keeps Los Angeles in tight contention for the National Basketball Association's top rung.

Elgin Baylor scored 17 points in the second quarter as Los Angeles mounted an easy 136-114 decision over Atlanta Thursday night and moved within a half game of the first place Hawks in the Western Division.

Baylor finished with 32 points, making his effort a fine balance for Jerry West's 42 points. The five Los Angeles starters scored all but three of the Lakers' point total. Happy Hairston netted 24, Dick Garrett scored 18 and Rick Robertson 17.

West contributed 14 assists on his 18 points in the final period was just too much for the sired Hawks. Walt Bellamy led Atlanta with 31 points.

Chicago edged Phoenix, 122-121, in the only other league game as the Bulls moved within a game of the third-place Suns in the Western Sector. Odet Walker scored 18 of his 30 points for Chicago in the second half to offset Connie Hawkins' 37 points for Phoenix. The Suns enjoyed a six-point lead on five occasions in the fourth quarter, but couldn't contain the Bulls as Shaler Halimon netted the last four Chicago points to clinch the victory.

Shaving Strokes

13-Sand And Snow

By FRANK BEARD
Most people don't understand it but the easiest type of sand to play out of is wet sand. The other two types—fine and coarse—are prevalent under normal conditions but, when it rains or snows, traps take on a harder, easier quality.

Sand compacted by snow and

Dallas Back In Court Today

HOUSTON (UPI)—Dallas Cowboy rookie cornerback Otto Brown goes to court today to ask to be readmitted to Prairie View A&M College.

Brown, 22, won a temporary court order to be readmitted to the East Texas school pending today's hearing. But he was not readmitted Tuesday because, a Prairie View registrar said, he had not "paid fees that were assessed."

Brown was one of 20 Prairie View football players suspended in March after a campus disruption following the knife killing of halfback Wesley Davidson, 20, of Bay City, Tex. Several campus buildings were burned. Herbert Lee Thompson of Beaumont, Tex., was charged in the killing.

Murphy, Trevino Share Lead In Tucson Open

TUCSON, Ariz. (UPI)—Bob Murphy and Lee Trevino, a pair of roly-poly pros, share the lead going into the second round of the \$100,000 Tucson Open today because they know how to putt a golf ball.

"This is a putter's golf course," said Murphy, the former U.S. amateur champion after he carded a 34-32-66, seven under par, to match Trevino's total Thursday in the first round.

Right behind the Murphy-Trevino duet were Billy Casper and Dudley Wysong, both with 33-34-67.

Nine pros were bunched at 68—Fred Marti, J. C. Snead (nephew of the great Sam), Homero Blancas, Tom Shaw, Joe Porter III, Chuck Courtney, Mason Rudolph, Richard Martinez, and Julius Boros.

CONTRACTS SIGNED
NEW YORK (UPI)—Pitcher Joe Verbanic, who spent all of 1969 on the disabled list, has signed a contract with the New York Yankees for the new season.

The Yankees also signed pitchers Doug Hansen, Lloyd Colson and Terry Bongiovanni and outfielder Jim Lytle.

The Lighter Side

By DICK WEST
WASHINGTON (UPI)—Now that former President Johnson in a television interview has given us his version of American involvement in Vietnam, it is time to get to the real heart of the matter.
As I have pointed out before, the person chiefly responsible for the presence of U.S. troops in Southeast Asia was former President Millard Fillmore. It was Fillmore who ordered Commodore Matthew C. Perry to visit Japan with an American fleet in 1853.
The immediate effect was the establishment of trade relations with Japan. But, more important, the Perry mission established a precedent for sending U.S. military forces to the Far East.

'Instant Hindsight'
Thanks to a new television technique known as "instant hindsight," I have been able to interview Fillmore for his version of events leading up to that controversial decision.
Q. "Mr. President, it has been reported that you received conflicting advice from within your own cabinet on the issue of sending Commodore Perry to Japan."
A. "Your Secretary of State, Edward Everett, who was considered a hawk, is said to have favored the action, whereas Charles M. Conrad, your Secretary of War, is reputed to have opposed it. Are these reports substantially true?"

Truth Muddled By History
A. "Those reports are totally inaccurate. It was Conrad who advised sending the fleet to Japan. Everett didn't even know about it."
Q. "It also has been alleged that you were less than candid with leaders of the U.S. senate in seeking their approval of the Perry mission."
A. "Some senators apparently did not foresee that you would construe their approval as

authority for sending military forces to Asia."
A. "They were just sore because I didn't ask them to approve the Perry mission until after Perry got back home."
Q. "Looking back, do you believe you made the right decision?"
A. "It was the right decision under the conditions that prevailed in 1853. How was I to know that Japan eventually would flood this country with transistor radios?"

today's FUNNY

VIOLATES CONSTITUTION
BOSTON (UPI)—U.S. District Judge Charles E. Wyzanski Jr. ruled Wednesday the dress code at Abington High School violated the U.S. Constitution because it permitted a principal to suspend a student who would not cut his hair.
The judge ordered the school to reinstate David Hamilton White, 18, of Abington, suspended Feb. 2 because his "Beattle-style" hair violated the dress code.

Wall Street Chatter

NEW YORK (UPI)—Corporate bonds and interest-sensitive stocks offer attractive opportunities for capital gains over the next six to 12 months. Argus Research Corp. believes. Heavy demand for long-term money may keep bond rates high for the time being, but the softening economy, together with the coming shift in monetary policy, should bring a significant drop in long-term rates before too long, the firm says.

A genuine turn in the market will require some decisive move on the part of the Federal Reserve, but it is quite likely that between now and then "the market can find fairly solid footing at or not far below current levels," Shearson, Hammill & Co. says. The peak is past in the flow of fourth quarter earnings reports, the firm notes, and many stocks have stabilized nicely after initial harsh treatment.

most of its equilibrium and not fall apart at the seams, even during periods when the background news was blackest, is quite surprising and quite gratifying from a psychological and technical standpoint, Hayden, Stone Inc. says. Nevertheless, "there is still nothing to suggest the bears have relinquished final control of the situation." The firm advises patience, caution and selectivity.
