HEW Gets Congress' Blessing

BY SOVIETS

Prime Minister Believes USA Outfoxed

JERUSALEM (UPI)—Israeli Foreign Minister Abba Eban said today he believes the United States has been outmaneuvered by the Soviet Union in recent talks on the Middle East but that it is not too late for the United States to recover.

"After nearly a year (of Big Four talks) there has not been any positive movement," he said. "Surely the best thing now is to try another direction."

Eban, in an interview indicated the new direction should be to seek direct Arab-Israeli negotiations, using the good offices of U.N. negotiator Gunnar V. Jarring of Sweden, but without any prior conditions beyond his mandate to promote agreement.

"U.S. Lost Ground" Eban said the United States, in Israel's view, gave too much ground in its effort to find agreement with the Soviets on a negotiated peace between Israel and the Arabs. Recent talks involving Eritrea, France, the United States and the Soviet Union have found the Soviets more rigid than had been expected.

"The Soviets sat absolutely tight and kept saying 'come along now and come a little nearer' and when the United States came a little nearer the Soviets simply went back," Eban said.

"Thus the American negotiators ended up with an erosion of some of their own positions without any compensating advance in the Soviet position."

"Soviets Want Control" Eban said he believes control of the Mediterranean Sea is the key to the present Middle East problem. The foreign minister, who was recovering from a head cold, said the basic Soviet aim is to ensure its own

predominance in the Mediterranean in order to outflank the European defense system.

"Soviet penetration of the Mediterranean is carried out by exploiting the Arab-Israeli conflict. And, if that's true, it follows logically that the least hopeful way to try to solve the Arab-Israeli problem is through discussions with the Soviet Union."

He said he would not accept the idea there has been an erosion in relations between Israel and the United States, "but there has been an erosion in some of the attitudes taken by American representatives in talks with the Soviet Union and this has injured Israel's interests despite the undoubted goodwill and friendship of the United States."

"Nasser Main Foe" Eban stressed Israel regards Nasser as the main stumbling block to peace in the Middle East.

"Anybody new would have an ability to start again. I would say that if a new regime came in Egypt the first thing that we would do would be to make a very strong bid for peace negotiations to a regime which had not committed itself against it already.

"It might work. And it might not."

Eban said lands Israel captured in the 1967 six-day war are open to negotiation and agreement in peace talks.

"Boundaries Are Negotiable" "I don't see why there should be any question about that," he said.

"The establishment of final boundaries with each Arab state is open to negotiation and agreement... (but) when I say it is open I don't say there are no points on which we will not be obdurate."

FRB Boosts Ceiling On Interest Rate

WASHINGTON (UPI)—The Federal Reserve Board has increased the interest ceiling commercial banks may pay on passbook savings accounts from 4 to 4.5 per cent. The maximum for big depositors went up to 7.5 per cent.

It was the first such raise in six years on passbook accounts.

Rep. Wright Patman, D-Tex., a persistent foe of high interest rates, said the action was a "blatant disregard for the economic well being of the nation" and would force all interest rates up, thereby costing the government more to borrow money.

The board did not change the 5 per cent interest ceiling on deposits requiring at least 90-day notice for withdrawal but it authorized rates of 5.5 per cent for one-year certificate accounts and 5.75 per cent for two-year certificate accounts.

Conditions Aren't Pretty In Biafra

By JOHN PLATTER
OWERRI, Nigeria (UPI)—Rotting bodies by the thousand lie in the tropical sun in this eastern region that was once Biafra. There are children with bloated stomachs and there is hunger and despair and cruelty and rape.

A bony hand reaches for food but the Biafran money it holds is worthless and the plea goes unheeded. A middle aged woman bargains against rape and loss. The army private who raped her is shot in the ankle by a police officer and the soldier's companions complete the job by garroting him with wire.

This today was the skeletal, agonized face of the land that once proclaimed itself Biafra—the face of a would-be republic that lost a war and now faces the horror of that loss.

Biafra, after 30 months of fighting, gave up eight days ago.

I accompanied the first group of newsmen permitted to visit the postwar battlegrounds—and what I saw was unbelievable poverty, hungry men and women, girls fleeing deep into palm tree forests to evade their conquerors.

The people who once bore the name of Biafrans cannot possibly bury their millions of dead, and the rotting bodies pile up by the thousands in the scorching sun. You want to be sick from the stench.

We saw a military police lieutenant pull his Land Rover vehicle to a stop in front of an apparently drunken private.

"What are you doing, molesting that woman?" he screamed. "All in front of the world's press."

Shot Private "Stop, you bloody fool!"—and the lieutenant shot him in the ankle.

As we drove away, the private was being strangled with a wire rope by his buddies. These are scenes repeated and repeated throughout what (See BIAFRA, Page 2)

Viet Cong Shell Allied Targets During Night

SAIGON (UPI)—Viet Cong and North Vietnamese troops shelled 55 Allied targets during the night, their heaviest round of mortar and rocket attacks in six weeks, military spokesmen said today.

Two Americans were killed and 23 wounded in the barracks into such major U.S. bases as the Bien Hoa-Long Binh Air Force and Army complex 15 miles north of Saigon.

The salvos, following intelligence reports the guerrillas are gathering forces for an offensive, coincided with a terrorist bombing in Saigon and seven new B52 strikes along the Cambodian frontier.

A terrorist bomb Tuesday night shattered Saigon's second biggest theater, next door to an American servicemen's billet, but no one was hurt because of the nightly curfew that had already cleared the streets.

The theater was all but razed in what military sources described as the most destructive bombing in the capital in five months. The 36 servicemen in the Dai Nam enlisted men's quarters were rocked from their bunks but uninjured.

The Communist artillerymen concentrated their shelling at targets against Allied outposts just below the Demilitarized Zone and on approach routes toward Saigon from Cambodia.

APRIL DEADLINE

Early Inspection Is Getting Late

With approximately three months left until the April 15 deadline for obtaining inspection stickers, only 25 per cent of the registered vehicles in Gray County have been inspected," stated Major C.W. Brill, Regional Commander for the Texas Department of Public Safety.

"This will be the last year for an April 15 deadline as the Texas Motor Vehicle Inspection Program has gone to a year-round inspection program. The new stickers will display the number of the month in which the vehicle was inspected and will be valid through that month of the following year," added Major Brill.

Two items have been added to the inspection list — the exhaust system and the exhaust emission system. A car must now have a muffler and it must be free from leaks. All cars

manufactured in 1968 or later coming from the factory equipped with the emission system (commonly known as the smog device), still must have the device connected and in working order.

Gray County now has 19 official inspection stations that are ready and capable of handling the inspection of vehicles in this area if owners will not wait until a few days before the deadline.

JAPAN TEMBLOR

APPORO, Japan (UPI)—An earthquake shook buildings throughout Japan's northern-most island of Okkaido early today. The weather bureau said the quake was measured at 6.5 on the Richter scale but caused no serious damage or injury.

OEO Spending Holds Up Final Passage

WASHINGTON (UPI) Despite President Nixon's veto threat, a 74 to 17 Senate vote has bestowed Congress' blessing on a \$19.7 billion appropriations bill for health and education.

Final passage was delayed, however, pending a senate vote today at 1 p.m. EST on Sen. Gaylord Nelson's challenge to a provision he said was "slipped in late in the game with no notice."

It concerned the rules under which the Office of Economic Opportunity OEO will spend its \$1.948 billion budget. The provision did not involve the issues of inflation and domestic needs that prompted Nixon's veto threat and a drive by Democrats to make the bill an issue in the November elections.

Senate Republican Leader Hugh Scott predicted today that President Nixon's expected veto of a \$19.7 billion money bill for labor, health, and education would stand up in Congress.

The Senate approved the bill, 74 to 17, Tuesday but because of a challenge of a section concerning a \$1.9 billion budget for the office of economic opportunity, final passage was delayed. A vote on the question of rules for OEO spending was set for this afternoon.

Scott said 120 to 130 House Republicans were ready to back a veto. A pickup of "25 anti-inflation Democrats" would be enough to sustain it, he said. A two-thirds vote is needed to override a presidential veto.

Even should the House—which would act first on an override move—fail to sustain the President, Scott said 30 Republicans in the Senate were ready to vote with Nixon and that they would need the votes of only four Democrats.

Senate Democratic leader Mike Mansfield said he hoped the unanimous vote of Democrats in Tuesday's vote would hold on a veto ballot.

All 53 Democrats present voted for the bill Tuesday. So did 21 Republicans, although some indicated they might switch and vote to sustain Nixon's veto if necessary.

Seventeen Republicans voted against it. But one of them, Sen. John Sherman Cooper, R-Ky., urged Nixon to back down on the spending increase he criticized the most — an additional \$398 million for "impacted" schools serving many offspring of federal employes.

Nixon has promised to veto the bill as inflationary, saying Congress added \$1.3 billion too much, including the \$398 million.

The measure finances a year's operation of the Labor Department, Department of Health, Education and Welfare

Grounded Astros Are Back In Air

SPACE CENTER, Houston (UPI)—Apollo 12 moon walker Alan L. Bean and two other astronauts, grounded last month by space officials, are back in the air.

The 30-day grounding period imposed by National Aeronautics and Space Administration officials because of minor flight rule violations, ended Monday for Bean, Apollo 7 pilot Walter Cunningham and scientist astronaut Joseph Kerwin, who has never flown in space.

All three immediately took off on local flights in their white, sweeping T38 jets.

The tentative grounding took effect Dec. 19 for all three on the verbal orders of chief astronaut Donald K. Slayton. The space agency originally said Bean, Cunningham and Kerwin would be grounded until Friday, but a spokesman later said that was "in error."

Slayton followed his orders with a letter Dec. 23, and the date of the letter led to the mistake.

Bean was grounded for taking off from Ellington Air Force Base near the space center Dec. 16 without first getting clearance because of a "communications mixup."

It was his first flight since his November trip to the moon.

Cunningham and Kerwin took off Dec. 17 in separate planes without listing an alternate airport in their flight plans.

Israel Spearheads Attack On Jordan

By United Press International
Israel invaded Jordan with a spearhead of tanks and troops supported by artillery and divebombers Tuesday night and battling raged into this afternoon.

By 1 p.m. Jordan time (5 a.m. EST), the fighting had been in progress 18 hours, making it the longest battle the two nations have fought since the 1967 Middle East war.

Spokesmen for the Israeli command called the drive a "combing operation" in retaliation for Arab guerrilla attacks and said the troops would leave Jordan when their mission is completed.

Jordan said the Israeli troops, with dozens of tanks, armored vehicles and artillery pieces, crossed the cease-fire line just below the Dead Sea at 7 p.m. Tuesday and ran into heavy resistance immediately.

Smith Announces For Second Term

AUSTIN (UPI)—Gov. Preston Smith today announced for a second term on the merits of his first full year in office.

The announcement came on the anniversary of Smith's inaugural as the 38th governor of Texas.

Admitting that his first year in office "has not been easy," Smith said his campaign leading up to the May 2 Democratic primary and the November general election will be based on what we have done, what we are trying to do and what we propose to do in 1971-72.

Smith, 57, said he would continue his promise of the 1968 campaign "to be a working governor, to be an available governor, to be a responsive governor and to make my decisions and take action as governor with full regard to the recommendations and requests of others, but with an independent mind."

The governor said he had (See SMITH, Page 2)

Ice Takes Over City Landscape

Liquid windshield defrosters were ineffective for early-morning motorists in today's frigid temperatures as a new mass of cold air drifted into Texas today bringing a threat of more rough weather with it.

The state enjoyed a day of pleasant, if chill, weather Tuesday. It was quite a contrast to the ice storms earlier in the week.

The Weather Bureau said the front pushed toward the Texas coast overnight taking 20 and 30-degree readings along with it. Forecasters predicted cloudy and cold conditions were to continue through tonight.

Two More Politicos Seek Jobs

Two more Democratic candidates for the Commissioner's post in Precinct 4 have tossed their hats into the political ring, according to Bob Baker, Democratic chairman of Gray County.

Truitt Johnson, the present commissioner has filed for reelection subject to the May 2 Democratic primary.

The seventh candidate to file for the post is H.E. "Red" Easton, Lefors, Rt. Alarreed.

Others filing for the Precinct 4 commissioner's slot are: Fred Simmons, Joe Billingsley, John Dwyer, O.W. Stapp, and Chester Bohler.

FOR PUBLIC OPINIONS

Chamber Sets Open Meetings

The 1970 work program of the Pampa Chamber of Commerce will be carried to the community in three public meetings with an appeal for active participation by chamber members and all citizens interested in the area economy.

That was the message of president Don Lane and executive officers at yesterday's monthly meeting of chamber directors in Coronado Inn.

First of the three public meetings will be the January membership luncheon Monday noon in the Coronado Inn Starlight Room where chairmen and members of the chamber's 18 committees will outline and discuss work progress for the year.

Plans and hopes of the chamber for the coming year will be carried to the public in the south section of the city at a 7:30 p.m. Monday meeting in Lamar School and to the north section at 7:30 p.m. Tuesday in Robert E. Lee Junior High School.

All three meetings will be open to the public and chamber officials today issued a special invitation to citizens to attend any of the three meetings and share the work program discussion. Chamber members and citizens also are urged to offer suggestions and ideas for projects in the year ahead.

Chamber officials report that new approaches are being taken to the work program for the year with the one idea in mind of improving the commercial, industrial, civic, cultural and general image of Pampa and the surrounding area.

Directors at their meeting yesterday reviewed the slide presentation and preliminary outline of President Lane which will be presented at Monday's luncheon meeting and at the two school seminars on Monday and Tuesday nights.

Lane said he hoped for a large attendance at all three meetings. Reservations for the Monday luncheon meeting may be made up until 10 a.m. Monday.

"It is our purpose," Lane

said, "to make the entire membership of the chamber and the people of Pampa acquainted with chamber officials and what the chamber hopes to accomplish."

In other business at yesterday's board session:

The Legislative and National Affairs Committee was asked to make a study of the effect the city's one-cent sales tax will have on businesses in the city that must compete in the same line of products with businesses just outside the city limits.

Wayne Kenyon and Elvin Scofield of the Southwestern Public Service Company's Amarillo office presented an illustrated talk on the "Land of Coronado" program, being developed to attract tourists to the Texas Panhandle. The Pampa chamber's cost of erecting some 60 new billboards in the area would be \$700. The matter was referred to the Tourist Committee for recommendation.

Two new committee chairmen were approved for appointment.

They were Foster Whaley, Agriculture & Livestock Committee, and Ralph Prock, Aviation Committee.

Arthur Altgert was named by a vote of directors to fill a vacancy on the board left by David Fatheree who has moved from the city.

Directors also accepted an offer of the University of Texas Extension Department to make available a 4-day course on Distributive Education. The dates will be announced later.

The Pampa Chamber of Commerce currently has 700 members, 16 separate committees and 24 directors.

The 1970 budget has been set at \$40,000. A minimum business membership is \$36 a year. The minimum individual membership is \$25.

Current chamber officers are Don Lane, president; Kay Pancher, vice president; Veri Hazegan, finance director; and E.O. Wedgworth, general manager.

Demos Charge Nixon Underestimates Welfare Program

WASHINGTON (UPI)—House Democrats charged today President Nixon has "grossly underestimated" the \$4.4 billion additional yearly costs for starting his family assistance welfare program.

Meantime, Sen. George S. McGovern, D-S.D., sharply critical of the President's program, outlined welfare changes of his own today he estimated would cost \$35 billion a year by 1976.

In a speech prepared for the Citizens Committee for Children in New York City, McGovern suggested a four-point program—children's allowances; guaranteed employment; larger and broader benefits for elderly and disabled under Social Security; and a special public assistance plan for those who would still need additional income.

Nixon's proposal, sent to Congress in October, estimated that the first year cost for adding poor working families to welfare rolls would be \$4.2 billion—in addition to the existing \$4 billion annual welfare payments.

As closed committee sessions opened Monday, Deputy Health Secretary John G. Veneman upped that first year costs to \$4.4 billion. Sources said a spokesman for the Social Security Administration testified, however, the costs would be more than \$5.5 billion.

Later, Rep. Al Ullman, D-Ore., said "the administration's statement that its welfare plan would cost an additional 4.4 billion in the first year is grossly underestimated."

Ullman, whose view was shared by others interviewed, said the \$300 million administrative costs also were underestimated. Ullman predicted they would be double that.

Under the Nixon proposal, minimum annual payments would be given to working families for the first time. A family of four, for example, would get \$1,600 a year in federal payments, and income from working would decrease the payment only gradually. The payment would be phased out completely when earnings from work reached \$3,920.

Families Ask Food Be Sent To Prisoners

DALLAS (UPI)—Billionaire H. Ross Perot said Monday families of U.S. prisoners of war have asked that he send 26 tons of food and supplies to prisoners held by the South Vietnamese.

The supplies, valued at \$400,000 are the same ones Perot tried to deliver last month to Americans being held in North Vietnam.

"We received a lot of telegrams and letters from prisoners families asking that we do this," said a Perot spokesman.

The goods are being stored at a warehouse at Dallas' Love Field. The spokesman said the goods were repackaged to remove personal items such as pictures and letters.

Hollywood In Review

United Press International
 Suppose you are a big television sponsor, and you don't want to pay the steep network prices any more than you have to, and you have the means and people to devise an alternative. What do you do?

Well, you might do what one large manufacturer of household products did. Through its agency, the company came up with a syndicated game show, and here are some of the financial results:

The show is placed on numerous (up to 40) local, off-network stations, most of them in key urban areas, which means that—with the current population flow—it can be seen by most people in the nation, duplicating the availability of most top network outlets.

In one very big city, a 60-minute commercial on an network station costs a sponsor only \$50. The total cost of the sponsor for advertising this way on the show around the country each week is about \$30,000. This means it can of its products for that amount five half-hour shows each week in all those markets.

"Or," said a representative of the agency, "we could spend the same \$30,000 for maybe a minute commercial on a network show. Which way you think is the best bargain? We're very happy with the results so far. Since the criterion of advertising success on television is the cost-per-thousand viewers, we don't know how we can do much better."

Television In Review

HOLLYWOOD (UPI)—That beautiful girl you see in "Hello, Dolly!" playing Irene Molloy is not Barbra Streisand.

Barbra portrays Dolly.

For contrast 20th Century-Fox cast Marianne McAndrew in the role of the strikingly beautiful milliner.

As was the case with Streisand and Anne Francis in "Funny Girl," Barbra has few scenes with Marianne in the new hit musical. For whatever reason, presumably the script, Barbra rarely appears in a two-shot with a stunning female.

Classic Beauty
 Miss McAndrew is tall, slender and endowed with flawless skin, enormous brown eyes and tumbling dark hair; classical Irish configuration.

One is rather more apt to notice her than anyone else in a scene.

Still in her 20s and with a promising career ahead of her, Marianne has an aristocratic appearance about her that would indicate she is most suited for the sort of roles played by Deborah Kerr and Vivian Leigh.

"Barbra and I have only two major scenes together, and both of them were easy. They went well," she said.

"We were seven months in that picture and I can't say Barbra and I became friends. After our scenes we'd go our own ways. Barbra is a big star protected by the various people around her.

"I wasn't sure if attempting a friendship would be precarious for me. So I didn't."

"Two women appearing in the same picture is somewhat difficult anyhow. It's competitive and hard to explain."

It seems two females—one a great beauty, the other a huge talent—could safely become friends in that one would not threaten the other. Marianne is not without talent, and there are those who think of Streisand as another Cleopatra—excepting, of course, the Egyptians.

It is enough that "Hello, Dolly!" has launched Marianne McAndrew on a motion picture career. A graduate of Northwestern's School of Drama, the actress now seeks a contemporary role in a modern picture.

She must, however, overcome her appearance. In an era in which Liza Minnelli, Mia Farrow, Jane Fonda and Maggie Smith are in ascendancy, few pictures require a young actress with high-born qualities.

But keep an eye out for Marianne. Producers may one day return to beauties who can act.

TRC Sets Oil Allowable

AUSTIN (UPI)—Citing declining crude stocks, the Texas Railroad Commission set the state's oil production allowable at a record 68 per cent for the second consecutive month.

The allowable will permit maximum February production of 3,732,913 barrels daily, and estimated actual production of 3,250,500 barrels per day.

Railroad Commission chairman Ben Ramsey said the state's crude oil stocks as of the week ending Jan. 9 stood at 95.6 million barrels, down 2.5 million from the previous month and down 5.8 million barrels from the same period a year ago.

Of the 14 major crude purchasers, 10 asked the commission to leave the allowable unchanged from the record January level. Four purchasers asked that it be reduced.

Total nominations by purchasers was 3,226,192 barrels per day, a decline of 27,452 barrels daily from the January nominations.

However, the U.S. Bureau of Mines had forecast that the demand for Texas crude in February would climb by 90,000 barrels daily to 3,420,000 barrels per day.

"In view of the decrease in stocks and the bureau of mines estimate, the commission is leaving the allowable at 68 per cent," Ramsey said.

Nominations by major purchasers included Atlantic Richfield 200,000, Cities Service 84,100, Continental 32,000, Diamond Shamrock 33,000, Gulf 229,000, Pan American 435,000, Phillips 124,000, Shell 146,500, Standard of Texas 54,500, Sun 143,000, Texaco 180,000, and Union of California 66,050.

Highlights And Sidelights From The State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN, Tex.—Skyrocketing welfare costs may hit the \$1 billion a year mark in Texas within a decade, a State Welfare Board member predicts.

Burton G. Hackney, Welfare Commissioner, sees a very real possibility that his budget for the important "Aid to Families with Dependent Children" program may be exhausted this biennium. If that happens, another cut in AFDC benefits may be necessary.

"The \$60 million a year welfare ceiling (approved by Texas voters only five months ago) now seems completely unrealistic (in view of the demands we will have to face within the next four to five years," said Louis R. Sarazan of Fort Worth, Welfare Board secretary.

Sarazan's comments followed reports by Hackney of rising costs in all the major state assistance programs.

Total public assistance payments during the past fiscal year came to \$364.3 million, some 25 per cent of which was paid with state funds.

Welfare rolls have increased at the rate of 10,282 a month in AFDC since August. Federal court cases and agency rulings relaxing eligibility requirements, together with increased population, account for most of the growth.

AIRPORT AID — Texas Aeronautics Commission granted five requests for airport construction and improvement grants, each to be matched at least 50-50 by the local entities.

Granted were the applications from:

Brenham—for construction of an additional apron and taxiways and extension of the runway, \$27,500 (the maximum

allowable grant under the appropriation);

Dumas—acquisition of additional land and removal of a power line, \$9,900;

Marshall—restoration of runway lighting and acquisition of additional land for runway extension, \$13,200;

Rockwall—acquisition of an additional clear-zone easement and resurfacing of the existing runway, \$9,600; and

White Bluff (Hill County Water Control and Improvement District)—construction of a new airport, \$27,500.

Application from Beeville for a \$16,000 grant to construct a taxiway and grade a crosswind landing strip was delayed until the town assures the Commission it will eliminate a power line crossing the end of one runway.

APPOINTMENTS — Gov. Preston Smith designated Dallas attorney Manuel DeBusk chairman of the Coordinating Board, Texas College and University System. He succeeds Tom Seely, Midland.

Smith re-established the Governor's Commission on Status of Women in Texas and named Mrs. Margaret Brand Smith, a Dallas attorney, chairman of the 120-member body.

Governor also made these appointments:

Judge of new Harris County juvenile court—Sen. Criss Cole of Houston.

Committee on State and Local Tax Policy—Hulen Marshall of Houston, John McKee, Dallas, and Hugh H. Loewenstern Sr. of Amarillo.

60th District Judge—Former State Sen. Jop S. Fuller of Port Arthur.

Governor's Committee on Aging—Mrs. Louise Massey of Monahan, L. G. Vawter of

Houston and Carl D. Levy of Beaumont.

Brazos River Authority Board—Hugh (Jack) W. Dobbs of Hillsboro.

State Board of Tuberculosis Nurse Examiners—Miss Mildred L. Blair of Cisco (reappointment).

Fine Arts Commission—Gilbert M. Denman Jr. of San Antonio, Mrs. Mary Lou Braymore of San Angelo, Russell R. Waterhouse of El Paso, Harold J. Elias of Longview, Dr. John Biggers of Houston and Mrs. Frances M. Holden of Lubbock (reappointment).

Chairman, Joint Interim Water Study Committee—Rep. John Allen of Longview.

Upper Colorado River Authority—Guy C. Jackson, Clyde Parker and Arthur Lochte of Kerrville and Jasper Moore of Ingram.

Crime and Narcotics Advisory Commission—Dr. Bobby Gene Smith of Arlington, James M. Ray of Austin and J. Wonne Hande of Dallas.

State Board of Podiatry Examiners—Dr. Bernard J. Hersh of Dallas and Dr. Joseph Ordile of Fort Worth.

Canadian River Compact Commissioner—William Andrew Clifford of Lubbock.

Judge, Domestic Relations Court No. 1 for Harris County—Wells Stewart of Houston.

OIL PRODUCTION HELD STEADY—Railroad Commission set the statewide oil allowable for February at 68 percent of potential, highest for the month since 1953.

Figure is the same as for January. It will permit a maximum production of 3,732,919 barrels a day. Actual production is estimated at 3,550,500 a day.

None of the 14 major purchasers of crude asked for an increased allowable. Ten

recommended the same factor and four saw a declining need for the month. Big buyers suggested a daily allocation of 3,226,192 barrels.

COURTS SPEAK — State Supreme Court set February 11 to hear arguments in a court case testing whether governmental units (Brownsville Navigation District) are immune from lawsuits for breach of contract.

High court held that a Jefferson County woman who claimed she got scalp blisters from using "New Dawn" hair coloring was not entitled to damages.

Also set for February 11 review is the appeal of a Marshall theater operator from a \$31,250 damage verdict awarded a girl who was hit by a liquor bottle thrown from a movie house balcony at a midnight show.

District Judge Herman Jones of Austin denied an injunction to prevent construction of a golf course at Meridian State Park. Federal court earlier dismissed the suit.

Third Court of Civil Appeals upheld a lower court decision that a Houston bus company must get a Railroad Commission certificate for space center tours and other routes outside the city. All three judges wrote their own opinions, one dissenting.

ATTORNEY GENERAL RULES — Fraternal veterans organizations do not have to collect sales taxes on mixed drinks served to members. Atty. Gen. Crawford Martin ruled in a new opinion.

Martin also said that a new law requiring free kindergarten programs during the 1970's did not allow for all "practical problems" and may need adjustments.

In other recent opinions,

State Board of Insurance is required to fix and maintain fair, reasonable and just insurance premium rates, and auditing may become a means of enforcement, even where the agency obligation under law extends only to approval of forms.

Majority of the members of Burnet County Hospital Authority Board of directors must be appointed by the board and remaining members by the Burnet County Commissioners.

Architects are excluded from provisions of the Texas Professional Corporation Act but may incorporate under the Texas Business Corporation Act.

An application for registration as a professional engineer in the state meets legal requirements of the Engineering Practice Act when the applicant changes the affidavit by marking out the words "sworn upon oath" and writes in "affirmed".

CAR INSPECTION DEADLINE — April 15 is the deadline for motor vehicle inspections.

Texas adopted the annual inspection program September 1. Vehicles inspected in January will bear stickers with "No. 1" and won't be up for reinspection before January, 1971. All cars which still have old stickers on the right side of the windshield have not been reinspected in compliance with the new law, and owners have until April 15 to visit an approved inspection station.

DRAFT CALL — February draft call for Texas is 929. No man will be ordered for induction with a random sequence number higher than 60, says Col. Morris S. Schwartz, state Selective Service director.

February quota is an increase

of 573 from January, which will be filled January 16-30 with men who have random sequence numbers no higher than 30.

State quota for pre-induction physical and mental examinations in February is 9,339, up from 5,800 in January. In filling the call for examination, draft boards will order I-A and I-A-O men of 1970 random selection sequence group before men born in 1951. The 1970 group contains men born 1944-1950. National call for February is 19,000.

SHORT SNORTS — Governor Smith and Lieutenant Governor Ben Barnes will head the delegation of Texas Democrats flying to Miami Beach, Fla., Feb. 5 to participate in the Nationwide Democratic Fund-Raising Gala.

State Comptroller Robert S. Calvert, 77, has filed for reelection.

Department of Public Safety

completed the first phase of its war on dangerous drugs when 61 officers and officials finished an intensive course on combating the problem in their areas.

Republican Congressman George Bush of Houston announced for U.S. Senate pegging crime, fiscal policy and the Vietnam war as foremost issues.

Governor Smith has approved a \$218,540 community action grant for Starr County, a \$218,826 grant for Hidalgo County, a \$48,893 grant for Jim Wells county (anti-poverty projects) and a regional planning assistance grant of \$106,610 for the Houston-Galveston Area Council (an eight-county area).

Lt. Gov. Barnes named Sens. A. M. Aldin Jr. of Paris and Tom Creighton of Mineral Wells to Legislative Budget Board.

Attorney General Martin

deposited \$161,000 in anti-trust suit collections in the state treasury last week.

Shriners Name Two Officers

Two vacancies have been filled among officers and directors of the Pampa Shrine Association, Travis McMillan, president, announced Tuesday.

C.B. Reece was elevated from second to first vice president. W. Byron Hash was elected second vice president and A.N. King was elected to fill a vacancy on the board.

Aubrey Jones, chairman of the Masonic Crippled Children's Services Committee, gave a financial report on the year's activities at Friday night's Shrine meeting.

The Lighter Side

By DICK WEST
WASHINGTON (UPI)

Things go badly for awhile and you begin to doubt that this country can ever master all of its many problems, and then something happens that sort of restores your faith in America.

Like, as in my case, you learn that Edmund Scientific Co., of Barrington, N.J., has gone into the production of synthetic moon dust. Cheered me up immensely, that did.

Made me realize that the old free enterprise system is still viable and capable of moving along with the times. Or, as in this instance, plunging wildly ahead of the times.

I mean, here is accompany that is all set to meet the need for ersatz moon dust even before the need arises.

And a need will arise. Make no mistake about that.

Industry Doesn't Wait

If American industry waited until there was a need for something before they started to produce it, we would all still be driving ox carts.

You may recall that there was no big need for silly putty when it first came out. But the stuff sold like crazy.

At present, Edmund is packaging simulated moon dust in 1 and 4 ounce bottles. The firm says "it appears so much like the real thing that it would take a chemical analysis to identify it as synthetic."

Which brings up the question of what you do with a bottle of artificial moon dust once you get it.

In its rush to cash in on the imitation moon dust market, the company apparently didn't have time to give much thought to that question.

"Run it through your fingers," a promotional leaflet suggests. "Show it to your friends. Or it can be examined under a microscope to show

what the real thing would look like highly magnified."

Sounds Like Fun

That sounds like fun, but it hardly puts mock moon dust in the same class with the yo-yo as an entertainment medium.

Nor does the notation that manmade moon dust makes "an extremely timely conversation item" have much sales appeal. I showed a little packet of the stuff to a number of people and the ensuing discussions could hardly have been less scintillating.

In short, simulated moon dust won't make it on curiosity value alone. It should have some practical application, as in the case of silly putty, which you could bounce on the floor, stretch into thin strands or smash with a hammer.

As an experiment, I took a dab and mixed it with water, thus creating a little glob of artificial moon mud. More tests are needed, but my preliminary evaluation is that it makes an ideal mud pack.

So this could be the key to commercial success. A moon dust beauty treatment would be well nigh irresistible.

Motion Filed To Change Square Name

NEW YORK (UPI)—A bill to change the name of Manhattan's Herald Square to Robert F. Kennedy Square has been filed in the New York City Council.

Council Vice President Thomas J. Cuite said he filed the measure to show that "New Yorkers have a special place in their heart for the late senator."

Herald Square, the center of one of America's largest retail shopping areas, was named for the old New York Herald which was housed in a building facing the square late in the 19th century.

Wall Street Chatter

NEW YORK (UPI)—The Dow-Jones Industrial Average is very close to a major bottom, says the Dines Letter.

The firm expects the "beginning of a very important new bull market not later than the second half of 1976." Consumers are retrenching, providing

a latent demand for the future, and bad news on fundamentals now means that "the road is being paved for a tremendous upturn."

Fresh signs of an economic recession should help to hasten an easing in the administra-

tion's tight money policies, says Alexander Hamilton Institute. Until this happens, the market will probably "continue its lackluster course." However, for the long-term investor the present market, as measured by the Dow-Jones Industrial Average, is as a bargain level.

Rarely have we witnessed such a dichotomy in the

market, says Spear and Staff. The strong are getting stronger and the weak weaker. This represents a continuing breakaway pattern from which bull markets emerge, in which "low-multiple blue chips and "other conservative bastions of fiscal sanity" lead the way, followed by better-quality secondaries and glamor issues.

Less stringent monetary controls and lower interest rates are just around the corner, Dean Witter & Co. believes. Any change, however, is apt to be modest, as the "disastrous lessons of the first six months which followed the 'credit crunch' of 1966 are too recent to be forgotten." The firm

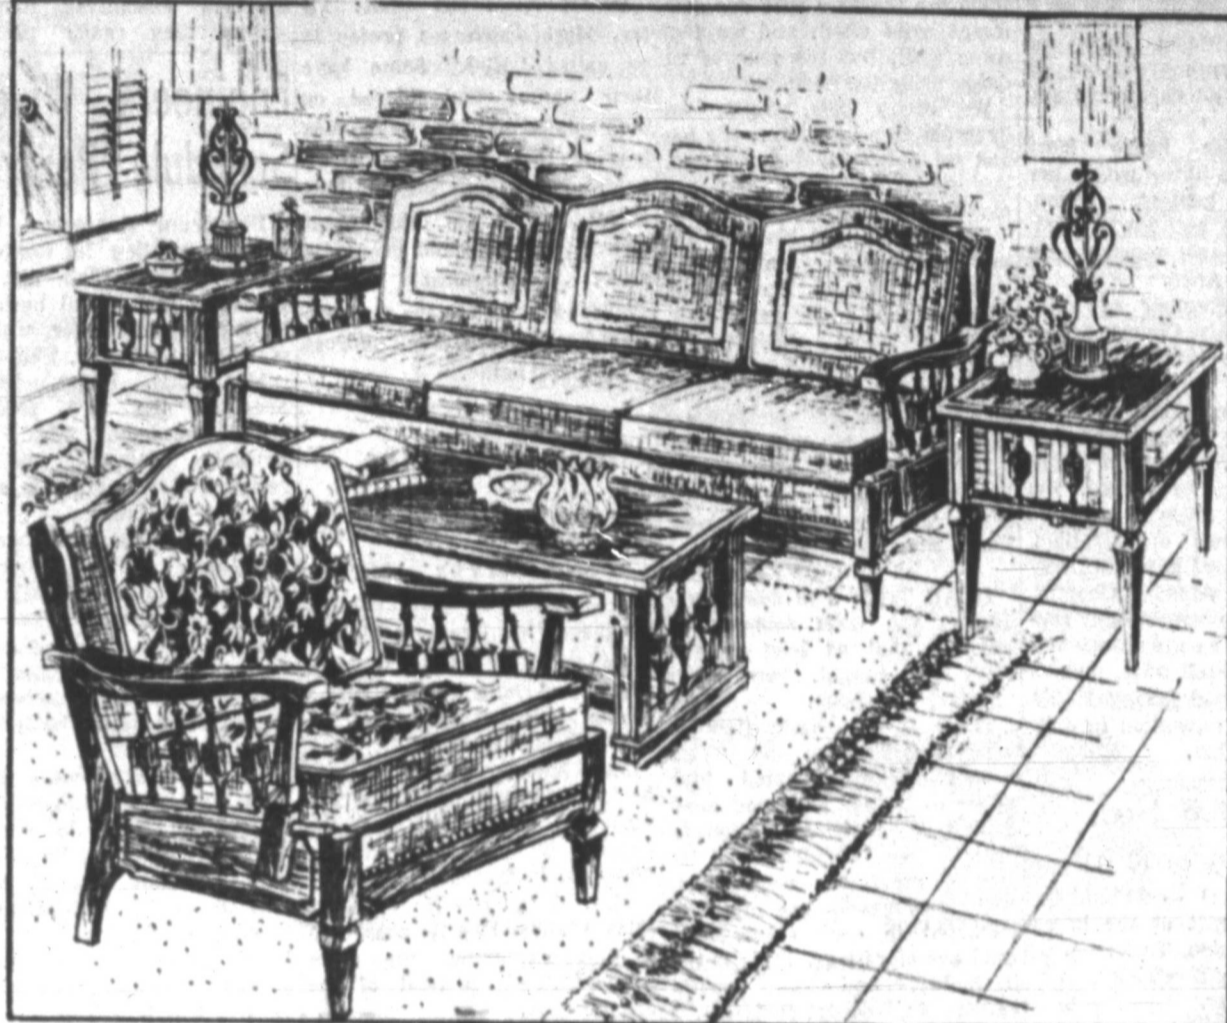

recommends a prudent investment policy, preserving the possibility of participating in any market rise that might occur.

FOR DIANA LIST

Sorority Nominates Mrs. Walker As Candidate For Annual Award

MRS. ELBERT WALKER
... third nominee

Mrs. Jewel Walker, the third Pampa nominee for Epsilon Sigma Alpha Sorority's DIANA Award, believes in promoting interest in the performing arts and in encouraging children to be individualists.

She and her husband, Elbert, 1812 Evergreen, have one son, David, 25, a Dallas resident, employed as a stock broker. Her education includes private schools in Dallas, New York, Chicago and California.

She is a kindergarten teacher and speech therapist who "believes strongly in individualism for children as well as adults." She directed a Brownie Scout Troop three years, and is a sustaining member and past patron of Quivira Girl Scout Council.

She is a member of Delta

Kappa Gamma Sorority, Golden Spread Kindergarten Association, and serves on the Gray County Association for Mentally Retarded Children.

A former teacher of ballet, tap and ballroom dancing, she is chairman of the Pampa Fine Arts Association Theatrical Arts Division and is drama chairman of the Performing Arts in Amarillo, for dance, poetry and art.

Her hobbies range from building furniture with her husband to hunting, fishing, outdoor life activities and caring for beagle puppies and her cat, Miss Alice.

She is a member of First United Methodist Church and of the Winsome Sunday School Class.

Your Horoscope

JEANE DIXON

THURSDAY, JAN. 22
Your birthday Thursday: Confrontation with natural and social limitations challenge you to reformulate your ideas of life and your pattern of career activities. These factors lead to sweeping changes all through the coming year. The opportunity to change your affiliations comes early. A chance to do something significant for your community is probable somewhat later.

ARIES (Mar. 21-Apr. 19): — Your talent speaks for itself Thursday. A spur of the moment expedient pays off, particularly in selling or advertising. A casual word from you may set off an unexpected explosion or confrontation. Be kind and mind your own business.

TAURUS (Apr. 20-May 20): — Use your most confident manner and press forward in your work. Skipping a meal may be very helpful if Wednesday's tensions still bother you. You have active competition Thursday, and should proceed accordingly. Evening meditation brings forth inspiration.

GEMINI (May 21-June 20): — Aside from receiving practical jokes or misleading stories you are in very good form Thursday. Haste and impatience are the easiest responses to various aspects, and you need not give in to them.

CANCER (June 21-July 22): — Anything experimental seems bizarre or impractical to your associates. Pick a better time, test your theories privately before putting them into practice. Bear with temporary upsets in your schedules. Leave the problems in your workplace; keeping your home life peaceful and simple.

LEO (July 23-Aug. 22): — Thursday's influences are mixed, contradictory. This gives you the chance to select which phase or side you'd rather see prevail, and focus

your energy accordingly. Wait for better knowledge before career changes.

VIRGO (Aug. 23-Sept. 22): — Some expenses are impossible to avoid. Thursday is a likely time for official fees, etc., to come due. Amusing distractions lead to little lapses in your work and possible future confusion if you do not keep careful notes or records.

LIBRA (Sept. 23-Oct. 22): — Both nostalgia and doubt exist over whether you could have done a better with past problems and the people involved. Since it's past and beyond correction, learn from your reverie and go on to a more hopeful future.

SCORPIO (Oct. 23-Nov. 21): — Proceed with your determined effort to put your life on a new basis. There's progress, but little comment or report available. Have faith. Study of materials relating to your new plans should fill the evening.

SAGITTARIUS (Nov. 22-Dec. 21): — Take more initiative in family life and partnerships. The morning is important to your work. Later make plans for improving your dwelling place, perhaps a move to better quarters.

CAPRICORN (Dec. 22-Jan. 19): — This is not a propitious day for starting new projects. A positive social approach has rewards. Your physical system should be given a rest through restricted diet.

AQUARIUS (Jan. 20-Feb. 18): — Public attention comes your way so make the most of it with an early start and the right attire. This type of conformity is most profitable and allows for more freedom where it counts.

PISCES (Feb. 19-Mar. 20): — Spending as a palliative for tension achieves nothing but the decrease of your funds. People talk, but you need not adopt their rancorous views or repeat their gossip. Leave new contacts alone for another day or two.

By Abigail Van Buren

DEAR ABBY: How can a man have a habit which is not only annoying but downright embarrassing. When we are out, he calls the waitresses, "Dear," or "Honey." I am sure he doesn't intend this to be endearing, at least he assures me that he doesn't, but it still bothers me.

Since he reads your column, perhaps you can make him realize how inconsiderate he is, since he knows I object to it so strongly.

"HONEY NUMBER ONE"
DEAR NUMBER ONE: I'll try. Most waitresses prefer to be called "Miss." Some have their names embroidered on their uniforms, or wear pins bearing their names — which I think is the most sensible idea of all. But if you really want to help your husband overcome this embarrassing habit, suggest that he ask the waitress what her name is. Then address her by her name.

Theta Delta Has Report On Greece

Mrs. Calvin Murray, Panhandle, presented the program "It's Greek to Me" to members of Theta Delta Chapter of Delta Kappa Gamma at the Methodist Church parlor, White Deer, recently.

Mrs. Murray showed film of her summer trip to Greece and discussed the flavor of the country by playing music indigenous to that country.

Mrs. Marguerite Hudgins and Miss Claudia Everly presented a skit explaining the state scholarship fund of the organization.

Hostesses served members from a lace covered table appointed with silver and a centerpiece of pink and silver flowers. Hostesses were Mmes. Marguerite Hudgins, C. E. Kelly, Joan Morris, and Miss Evelyn Chamberlain, all of White Deer.

Engineers' Wives Schedule Party

Petroleum Engineers' Wives Society meeting in Borger at Huber Country Club, discussed plans for the annual husbands' night party in Borger, which is scheduled for 7 p.m. Feb. 13.

Mrs. C.E. Kirby, Pampa, accepted the vice president office succeeding Mrs. Chris Prickett, Pampa, who has resigned to assume a school teaching position.

Hostesses for the meeting were Mmes. Adrian Gilbert and Joe Rives, Borger, with Mrs. Ivan Hull, Borger, as guest speaker. Mrs. Hull discussed "Antiques in the Kitchen," and displayed several kitchen antiques, some dating back to the 18th Century.

Those attending were Mmes. S. A. John Macht, Joseph Kirk, man, John Macht, Joseph Kirk, Adrian E. Gilbert, Ben Setliff, V.M. Lumpkin, Joe F. Rives, Don DeGeer, P.M. McLaughlin, Lawrence Wilson, Mrs. Hull, Dale Neff, James Knight, James Weisman, Kenneth D. Ehlers, and Mrs. Lou Wary, all of Borger; Mrs. M.L. Russell, Louisville, Ky.; Mmes. C.E. Kirby, E.L. Hudson, Phillip Tucker, Doyle Henson and Jerry Guyton, all of Pampa.

Luncheon decorations for the serving table were of silver and a centerpiece flanked with greenery.

NEW YORK (UPI)—All you females who travel on planes, take a bow.

An all-male flight between Newark, N.J. and Chicago has been grounded recently — after 17 years. One reason: Males prefer traveling with "sophisticated women" rather than flying in an all-male atmosphere.

When the flights first started the executive plane boasted load factors of 80 to 90 per cent. Two years ago an airlines Executive Flight went into a load factor spin, dropping down to 40 per cent.

The airline did the next most natural thing, ordering up a survey to determine the causes. That's when many young business executives told the airline they really preferred having sophisticated women on the plane.

The study also indicated a change in executive attitudes since the first successful years of the male-only flight. Young business executives, it was found, these days do not want to be identified with the old image of an "executive."

They are more independent than the executives of yesterday. Exercising this independence, they shun men's clubs and special services, such as the flight represented.

There was something else. Even when the load factors were high, rumblings of discontent came from some females — writers, politicians and businesswomen who objected to this special treatment for men.

Several women's rights advocates wrote letters protesting the "Discrimination." No law suits were filed, however, and the flights continued — until males started avoiding them.

The "executive" flight logged eight million miles during its 10,500 trips. While it lasted, it was dreamy. The businessman was encouraged to take off his coat, loosen his tie, doff his shoes and even puff on a pipe or cigar.

Sewing Club Has Meeting In Groom

GROOM (Sp.) — Thimble Needle Club met at the home of Mrs. Rudolph Tucker with Mrs. Meredith Kendrick as co-hostess recently.

Those attending were one guest, Mrs. Richard Hall and Mmes. Lee Kirk, Glyn Kirby, J.L. Witt, Charley Fields, Bob Newton, Velma Evans, Bill Hammers, George Eschle, Robert Milton, Jake Lacy and the two hostesses, Mrs. Tucker and Mrs. Kendrick.

DEAR TWO: You don't want advice, you want someone to tell you that as long as you don't get caught, you aren't "hurting" anybody.

There is one basic flaw in your thinking. You say, "This wasn't a premeditated love affair — it just happened accidentally." Not true. Nobody falls in love "accidentally." He has to break the door down. When two people are mutually attracted to each other, they send out vibrations. (This is the beginning, and it's usually called "an innocent flirtation.") If one, or the other rejects these vibrations — no "love affair" develops.

So far you've gotten away with "murder," (or without it) which makes you two of the luckier ones. Knock it off before your luck runs out.

DEAR ABBY: My husband

Skellytown News

SKELLYTOWN (Spl) — Mrs. Jack Cornwell and son Terry Don spent a few days recently at Tyler, where they visited her uncle, Leland Bateman, who is a patient at the Medical Center Hospital. They were accompanied by an aunt, Mrs. Elvy Simpson of Wichita Falls and also visited relatives in Canto and Wells Point.

Mr. and Mrs. Everett Huffines have returned home from Lubbock where they spent a week with their daughter Barbara and her husband Jimmy Evans and three children.

Mrs. Tempest Adams has returned home from Dallas where she has visited her daughter and family, the Tom Lyons and two daughters. Mrs. Adams' two sisters and their husbands, Mr. and Mrs. W.B. Morrison and Mr. and Mrs. Lee Stankard, of Oklahoma City, and Amarillo, are visiting in the Adams' home. They were called here by the illness of their mother, Mrs. Elizabeth Tinsley who is a patient in Worley Hospital.

Mrs. Bruce Evans and sons, Lindsey, Okla., have returned to their home after being called here by the death of her father L.E. "Noisy" Jordan.

Mrs. Kate Enoch spent a day in Sayre, Okla., where she was a guest in the home of a niece and family the Rev. and Mrs. Gordon Patterson and son.

Mr. and Mrs. O.A. Fike were called to Wellington last week by the death of her aunt, Mrs. Ila Graham.

Mrs. Ron McCarthy, Cub Scout den mother for Den 1, and her den of boys visited the Library recently to find materials for their achievements. The boys are working for their Wolf Badges. Attending were Mrs. McCarthy, her son Jamie and two daughters, Jani and Cherry, Dennis Tollison, Ralph, Randall and David Chapman, Marvin Kramer and Alvin Smith.

Ralph Fox Sr. is visiting his daughter and her husband the George Holloway's at Santa Rosa, Calif.

Mr. and Mrs. Don Holloway have as guests in their home their daughter (Patsy) Mrs. Daryal Jones and twin daughters, Sabrina Ann and Kristina Lee, Alamogordo, N.M.

Mr. and Mrs. Mark Miller, Oklahoma City, Okla., were called here Thursday by the death of her mother, Mrs. Clara Brown.

Mrs. Jack Cornwell was admitted to Worley Hospital recently.

Mr. and Mrs. Amos Cook and Beverly and Dennis spent a few days recently with her parents, Mr. and Mrs. J.L. Mills at Fritch.

HEALTH COSTS MORE

WASHINGTON (UPI) — Only 26 per cent of consumer health expenses are being paid by health insurance, according to the Committee for National Health Insurance. The other 64 per cent is coming mostly out of the consumer's pocket.

The committee said that although the Consumer Price Index rose less than 25 per cent during the 1960s, Americans are paying nearly twice as much for health care — \$128 per person in 1960 and \$238 in 1968.

ASKS GLOBAL EFFORT

WASHINGTON (UPI) — The head of the U.S. foreign aid program says the United States should give top priority during the 1970s "to improving the quality of human life everywhere on this earth."

Dr. John A. Hannah, former president of Michigan State University, told the Foreign Economics Club Monday that unless this is done "our era could be regarded by future historians as the period when mankind missed its best first chance, no matter what technological progress we make."

Distaff Golfer Didn't Qualify With Casper

Scouting the golf front in the middle of the week... There has been, from time to time, those who believed that the distaff golfers, the top ones, could hold their own on the men's tour.

You Don't Say... By RON CROSS

The late Babe Zaharias, in her prime, did embarrass a good many club professionals by outdriving them and outscoring them in exhibition tours.

Her purpose apparently was to prove to Joe Dey, commissioner of the PGA's Tournament Players Division, that he should have accepted her entry and permitted her to attempt to qualify for the recent Los Angeles Open.

The fair sex didn't do so well on the other side of the Atlantic, either. Barbara Dixon, England's amateur champion, wanted to win a two-week visit to the United States which would have been hers if she had been chosen Britain's most beautiful as well as its most skilled lady golfer.

There was one who tried a couple of weeks ago in Buena Park, Calif., however, bubbly Shirley Englehorn, the Idaho sweet potato, didn't fare too well.

But the Royal & Ancient Club of St. Andrews warned Barbara that if she won, the costly prize would make her a professional. So she packed up her 36-36-36 figure and with drew from the list.

At Buena Park, Shirley didn't really get a fair go. She was not a woman competing for position in a field of 150 men, which is the only way a fair test could be made.

There will be one fewer tournaments on the men's tour this year but more prize money, approximately \$800,000 more than last year for a total of \$6,854,997.

Miss Englehorn went at it head to head with Billy Casper, no distaff supporter and was beaten 70-79 on a course shortened from 7,100 yards to 6,500 in a concession to Miss Englehorn's fair sex.

The added loot, or most of it, stems from the new Dow Jones Open, August 27-30 in Clifton, N.J., which carries a \$300,000 prize pot. There will be 43 regulation tour events with prizes of

\$100,000 or more. . . . One satellite can't get off the ground. That's the young pros golf satellite tour. Only eight satellite events are scheduled, although as many as 25 are in the works for next year. The satellite program lost one prize event.

The missing tournament on the '70 schedule is the Michigan Golf Classic, which reneged on its \$100,000 prize last September. Dey expects to announce a replacement event by mid-year. . . . Although it doesn't seem like it to us poor souls chipping 'ice from the car windows but another golf season is rapidly approaching.

Any day now, the Augusta National Golf Club will announce it already has sold out of tickets for the Masters (April 9-12). And the United States Golf Association already has announced its preliminary list of totally exempt players for the U.S. Open, June 18-21 at Chaska, Minn.

The list is based for the first time on points rather than money and is headed by Dave Hill. Frank Beard would have been the leader under the old cash system, which still spends better than points. . . .

RECORD EVENED AT 9-9

Coronado Halts Pampa, 56-45

By RON CROSS Sports Editor
LUBBOCK — Pampa had trouble making baskets again and Lubbock Coronado didn't and sent the Harvesters reeling to their third straight loss, evening their season record at 9-9 and plummeting the Pampa district record to 2-6.

41. Amarillo stayed one game back with a 60-36 victory over Caprock and Palo Duro upset Borger, 65-63 in overtime. Pampa hit only 41 per cent from the field (16 of 36) but suffered through several last half scoring droughts, one of which saw them miss their first six shots in the fourth quarter, make one then miss five more in a row. Lubbock hit only 45 per cent (22 of 48) but pumped in 12 of 16 from the free shot line while Pampa managed only 13 of 24 charity tosses.

SPORTS

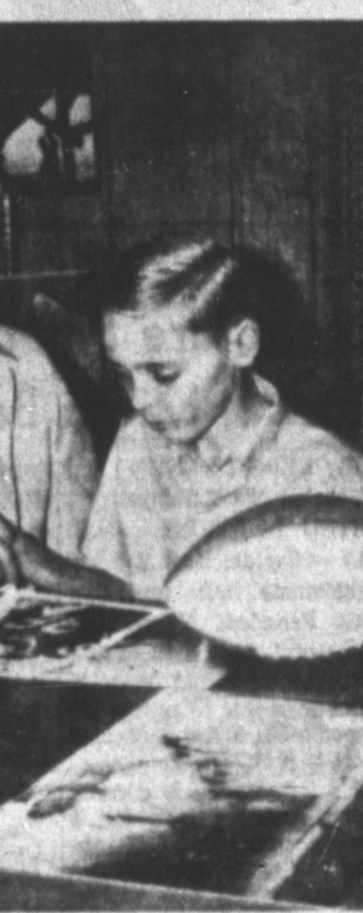

The Pampa Daily News
Pampa led only four times in the game, at 12-10 shortly before the first quarter ended in a 14-14 tie, then at 17-16, 19-16 and the last lead came at 21-20 with 4:44 before halftime. Donny Malone added 13 for the Mustangs. Pampa led only four times in the game, at 12-10 shortly before the first quarter ended in a 14-14 tie, then at 17-16, 19-16 and the last lead came at 21-20 with 4:44 before halftime. Donny Malone added 13 for the Mustangs. Shockers Win 2nd Straight, 86-43

LUBBOCK — The Pampa Shockers put everything together and won their second straight game, their eighth in 12 outings and evened their B team conference record at 4-4. Marsh Gambill pumped in 16 points, almost all of them from long range, as the Shockers rolled past Lubbock Coronado Junior Varsity, 86-43, here Tuesday night.

Knison and Larry Yearwood, four each and Roy Hendricks and Smith, two each. The Shockers have now beaten Phillips, 78-49; Borger Junior Varsity, 56-50; Phillips B 70-66; Palo Duro 52-41; lost to Plainview 60-44; Monterey, 42-31; Amarillo, 51-47 and Tascosa, 53-40; other wins have been over Perryton, 60-35; Caprock, 60-48; Lubbock, 60-55. The Shockers play the Borger JV's here Friday night starting at 6 p.m.

Pampa, Lee Junior Highs Split Basketball Contests

Pampa and Lee Junior Highs split a pair of games Tuesday with Pampa ninth continuing its winning ways with its ninth victory in 10 outings and the Pampa eighth losing its first game of the season.

Fred Wilson led the Reapers with 23 points while Lemmons hit 13. Dan Nickelberry had 5, Tim Holt, Clay Reeves, Richard McCampbell all had 4; Don Proctor 6 and Smith and Jess Honeycutt, two each.

Pampa ninth rolled to a 42-21 halftime lead and went on to a 63-42 victory over Lee. Pampa ninth is now 9-1 for the season. Lee eighth held Pampa eighth scoreless in the fourth quarter and won a 23-15 decision. Pampa ninth is now 7-1 for the year.

Ricky Musgrave hit 13. A.J. Brewer 9, Simon 8, Richardson 5, McGuire 4, Edwards 3 and Farrell 1.

In the ninth grade game Pampa led 18-6 after one period and 52-34 after three periods.

Davis paced Lee with nine. Clark had 6, Farrell 4, Beesley 3 and Cain 1. For Pampa eighth Ricky Smith had 5, Sim Snell 4, Bob Hendricks, Steve Mathis and David Nipp had two each.

Williams Has 12 In Victory

LUBBOCK — Texas Tech won its first Southwest Conference game of the season, here Tuesday night by smashing Southern Methodist, 90-60. Former Pampa Harvester cager Steve Williams continued his double figure scoring with 12 points, 10 of them in the first half. The "Redhead" sat out the last seven minutes of the contest.

Rocky Wins Computer Fight

NEW YORK (UPI)—Rocky Marciano, a computer in his corner and his toupee in place, is the all-time computer champion today, but in thousands of bars across the land they're still wondering what would have happened if he'd really met Cassius Clay.

Lefors Takes Briscoe Twice

Lefors continued its basketball power in District 3-B with a twin victory over Briscoe Tuesday night in Lefors.

The Lefors girls ran its record to 5-2 with its fourth straight victory, 36-35 and the Pirates punted Briscoe boys, 69-58.

In the boys game the Pirates rolled to an almost uncatchable, 21-3 first quarter lead, increased it to 33-12 at halftime and 43-30 after three periods.

White led Lefors with 19, Elkins had 16, Robbins 14, Quarles 10, Tarbet 6 and Bates 4. For Briscoe, Hefley had 27. Childress and Atherton 8 each; Frances 7, P. Hefley 4, S. Frances and Zybach, two each.

In the girls game Lefors led 11-4 after one period of play but Briscoe trailed by just one, 17-16 after halftime and jumped to a 30-27 third quarter lead before Lefors won.

Three former Pampans toil for LCC, the leaders of their conference. Johnny Epperson, Edward Moultrie and Jim Hollis are all former Pampa cagers. Hollis, the team's leading scorer who played with a injured elbow still managed to hit in double figures.

Pampans Star In LCC Victory

LUBBOCK — Texas Tech freshmen ran into a buzz-saw here Tuesday night in the form of Lubbock Christian College, who beat the Tech frosh, 64-62 in overtime.

TOURNEY SKEGGED KANSAS CITY, Mo. (UPI)—Lake Superior State College in Sault Ste. Marie will host the third annual NARA National Ice Hockey Tournament March 6-7. NARA Executive Secretary A.O. Duer announced Tuesday. It will be the second straight year the tournament has been held at Lake Superior State.

Randall County Rejects Federal Food Program

CANYON, Tex. (UPI) — Randall County commissioners voted unanimously Monday to reject federal food programs in the Texas Panhandle county, saying they could take care of their own problems.

Commissioners denied that the county, which has one of the highest per capita incomes in the state, has a poverty problem.

The U.S. Agriculture Department has estimated there are 37 "desperately" in need and another 600 potential persons in need of either the federal food stamp or commodity distribution programs.

Last Dec. 30, U. S. District Judge W. M. Taylor of Dallas ordered the Agriculture Department and the Department of Health, Education and Welfare to have food programs in operation in 60 days in 89 Texas counties without them.

Ruling on Appeal
 The Department of Agriculture appealed Taylor's ruling Dec. 12.

Burton Hackney, Texas welfare commissioner, said it would be "almost impossible" for his department to set up the food commodity programs in the 89 counties in the 60 days set by Taylor.

"We have 165 counties operating the program with their own money and now we'll have 89 counties operating it with federal funds," Hackney said. "I don't know what the USDA might do if these 165 counties started dropping out."

The USDA transferred \$840,000 to the state for operation of the programs, but Hackney said last week the mechanics involved in starting the programs would carry past Taylor's deadline.

A thought for the day: Adam Smith said, "The real price of everything, what everything really costs the man who wants to acquire it, is the toil and trouble of acquiring it."

Washington Window

WASHINGTON (UPI) — The idea may be a bit startling at first, but President Nixon's chief adviser on food, nutrition and health may be pointing his finger at some of the chief executive's best friends when he assigns blame for pollution.

Dr. Jean Mayer in a recent interview with the publication Psychology Today, said among other things that it was "the spread of wealth that threatens the environment."

Mayer's reasoning was that the rich are increasing in number and they thus occupy more space and move around much more than less affluent folks.

To follow Mayer's projection, the increasing number of rich are responsible for increasing pollution of water, air and land—apparently as the magnates and their little yachts, jet planes and high-powered automobiles.

By this reasoning, a poor guy in a one-bedroom apartment is far less a pollution threat than a millionaire with a large estate, four cars and a private plane.

Obviously the White House health and nutrition expert is thinking far ahead and dealing in rather upper-level theory.

Measured by his projected fears for the future, however, who would be a greater pollution villain than the President of the United States?

The president, of course, does not ride around throwing beer cans and sandwich wrappers from the window of his limousine. Chief executives,
