IS IT EVER RIGHT TO TELL WHITE LIES?

RICK FOSTER, 307 E. Browning: "Well, it depends on how big the white lie is and who you tell it to."

BILL SLAUGHTER, 435 N. Starweather: "They're as fast as long as they don't catch up."

JOE GRISSOM, 2412 Navajo: "I really don't know, but I will tell one if I have to."

JOE FOSTER, 2216 Zimmer: "Yes, of course, sometimes things work out better when you tell one."

LARRY DANIELS, 522 Magnolia: "No. Because if it can turn into big ones."

"The spirit and soul of all reformation is free discussion." —Campbell

WEATHER
PAMPA AND VICINITY—Considerable cloudiness today and tonight with a chance of showers this afternoon. Showers likely tonight. Cooler Tuesday. High this afternoon lower 70's. Low tonight mid 70's. High Tuesday upper 50's. Southwest winds 20 to 30 and gusty, shifting southwest. Probability of rain 60 percent this afternoon and 80 per cent tonight.

US Fishboat Seized By Cubans

MIAMI (UPI)—A converted U.S. fishing vessel reportedly seeking sunken treasure in the Caribbean remained in Cuban custody today after it was seized by the Cuban coast guard near Cay Lobos.

A State Department spokesman in Washington confirmed the boat, skippered by the Jocelyn C. Skipped by Sten Carlson, 37, of Chatham, Mass., was in Cuban hands.

Asked if the boat was on a

U.S. government mission, he replied: "Absolutely and unequivocally no."

The State Department was making inquiries about the boat through the Swiss Embassy in Havana, he said. The Swiss act as intermediaries for the United States in diplomatic negotiations with the Fidel Castro government.

Not Know If Boat Strayed
It was not known whether the American vessel had strayed

within Cuban territorial waters, he said, adding that the Havana government has been "fairly gentlemanly" in dealing with such navigational errors in the past.

A radio report Sunday from the boat, which carried a crew of five including underwater photographer William Crockett, said it was seized about 20 miles off Cuba's north coast near Cay Lobos.

Ruth Kern of Weatherand Sea

News said she monitored a radio broadcast from Carlson's boat to the U.S. Coast Guard cutter Steadfast that said: "We are being escorted to Port La Isabella. There are two Cubans aboard."

The Cuban port is 90 miles from Cay Lobos.

Cutter Intercepts Vessels
The Steadfast, a 210-foot medium endurance cutter armed with one three-inch gun, intercepted the American and

Cuban vessels at about 7:30 p.m. EST Sunday. A Coast Guard spokesman said the cutter would "take the two boats 'under surveillance' but would not pursue them if they sailed within Cuba's three-mile territorial limit."

Mrs. Kern said a British ship, the Arethusa, witnessed the capture and radioed the U.S. Coast Guard.

Carlson's wife, contacted in Chatham, said Carlson and

Crockett had formed a partnership to hunt for sunken treasure.

Mrs. Carlson said her husband called Thursday night from Miami to say the crew was going "somewhere off the coast and look around." Their next port was to be Kingston, Jamaica, she said.

The treasure-seeking venture was understood to have been contracted by Sub-Mar, Inc., a Washington firm.

Pompidou Plans Meeting With Jewish Leaders

WHITE PLAINS, N.Y. (UPI)—French President Georges Pompidou, picketed in Chicago and booed in Westchester County, agreed to meet today with a delegation of Jewish leaders to discuss France's sale of 110 Mirage jets to Libya while refusing arms to Israel.

"At the same time, officials in the French delegation squashed rumors that Pompidou would cancel the final 48 hours of his trip in anger over demonstrations along the route of his state visit to the United States.

Pompidou was to meet at 11 a.m. EST today at the Waldorf Astoria Hotel with a six-man delegation from the Conference of Presidents of Major American Jewish Organizations which represents 24 nationwide Jewish groups.

The French chief of state later was to meet U.N. Secretary General Thant, attend a reception at the French Consulate and speak tonight at a dinner at the Waldorf.

Pompidou is scheduled to hold a meeting with business leaders Tuesday and hold a news conference before departing for Paris. He met with President Nixon and addressed a joint session of Congress at the beginning of his eight-day visit last week.

Mayor John V. Lindsay, who has declined to receive Pompidou formally, issued a statement Sunday urging New Yorkers to avoid "any discourtesy or other behavior that would mar this city's devotion to the lawful, peaceful resolution of all difficulties." Lindsay was scheduled to be in Washington today.

Pompidou and his blonde wife, Claude, spent Sunday night at the home of U.S. Chief of Protocol Emil "Bus" Mosbacher, the millionaire yachtsman. They were greeted by some 1,000 boozing, but orderly pro-Israeli demonstrators at Westchester County Airport on their arrival from Chicago. The Pompidous shook hands with some 50 French residents of Westchester also at the airport.

Maddox Can't Run For Gov.

WASHINGTON (UPI)—The Supreme Court today rejected an appeal of Lester Maddox for the right to run for a second successive term as Georgia governor. The state's constitution now forbids this.

The court said it has no jurisdiction over the dispute. Maddox appealed from a Georgia Supreme Court ruling that the no succession provision does not violate the equal protection clause of the federal constitution.

Maddox filed an appeal Feb. 13 in hopes of being able to enter Georgia's Democratic primary race in September.

Maddox contended that the provision of the state constitution ratified in 1945 disenfranchises voters and discriminates against him "individually."

Tourists Snowbound

CONTRACTING THE \$39,000-plus services of a Dallas appraisal firm to re-evaluate all county property reached a stalemate at today's Gray County Commissioner's meeting, when Pampa businessman John Gikas appeared before the court with a counter proposal that "the job be done locally without going outside for help." No definite decision had been made at press time. Pictured here are Precinct Two Commissioner Vernon Watkins, left and County Judge S. R. Lenning Jr. locking over the proposed contract with the Dallas firm. (Staff Photo)

Snow Plows Rescue Stranded Motorists

GRAND CANYON, Ariz. (UPI)— Snow plows cleared the main highway into the Grand Canyon early today where nearly 600 tourists were snowbound by a massive storm which blanketed the area to three feet deep.

Authorities said snow continued to fall and chains were required to pass on the highway. None of the tourists attempted to leave immediately, according to a park ranger.

"We'll have plows moving throughout the night and we'll make sweeps in the morning of the roadways," said Dick Rayner, management assistant for the Grand Canyon National Park.

Most of the stranded tourists were taken to the Bright Angel Lodge, which was quickly filled to capacity. The El Tovar Hotel, normally closed in the winter, was opened and 10 parties spent the night at the visitors center, which houses historical exhibits on the canyon.

"We've got people in places where they can stay reasonably comfortable," said Chief Ranger George Vonderlippe.

"We've brought campers out of the camping areas, got people who were stuck along the east rim drive and rounded up those in travel trailers."

Vonderlippe said the only major road out of the national park, State Route 64, was impassable but state plows had been called in to attempt to clear it.

Roy H. Deardorff, 50, Garden Grove, Calif., was one of those taken to the center.

"The reason we were taken out of the camp ground was because it was no longer safe. The weight of the snow on the trees was breaking the limbs, endangering people in the campsite and when the rangers were notified of this they dug us out right away," Deardorff said.

Pfe Charles Graham of Springdale, Ark., stationed at Camp Pendleton Marine Base, Calif., also was staying at the center.

"Right now we're singing and having a little party of our own. Someone has a guitar. Most of the people have sleeping bags, but I don't think there will be any sleeping because it's pretty thrilling the way it's going right now," Graham said.

AHS Students Must Find New Place To Study

AMARILLO, Tex. (UPI)— The Amarillo School Board meets tonight to find a place for 1,800 students to attend school following Sunday's destruction by fire of Amarillo High School.

School Principal Ross H. Larson said today three buildings on the campus withstood the fire and classes could meet in those buildings. They included two gymnasiums not connected to the main building and an armory across the street from the main building.

All classes except band, choir and athletics were suspended until Wednesday. It was not expected many students would attend those classes anyway.

Copies Available
Only a fraction of the school's records were known to be destroyed in the fire. Bill Larson said copies of all records were on microfilm at the downtown academic center.

Larson said the school board met Sunday to authorize one of its members to find space for the students in area churches. But the school board was scheduled to meet tonight to decide exactly where all students would go to attend classes.

"Most of the students will be back in class by Wednesday," Larson said. "All classes will be back in operation by next Monday."

Well Gutted
He said the school building was "pretty well gutted," but firemen "did salvage a good deal of equipment," including typewriters, library books, "art originals," and filing cabinets.

The fire apparently started in the 50-year-old school's boiler room. It was still smoldering early today.

"The walls are still standing," said fireman Doug Wood. "It's a shell."

"The building was built around 1920 and had been remodeled several times so it had lots of airways and several sub ceilings," Wood said. "That fire really spread through these horizontal and vertical openings."

Wind Fans Fire
"It started in the boiler room area on the southwest corner and the wind was coming from the southwest so the wind was blowing it toward the rest of the building," he said.

The only injury during the day occurred when a fireman working inside the building was overcome by smoke. He was hospitalized and reported in good condition.

IN THREE AREAS

Congress Facing Tough Civil Rights Decisions

WASHINGTON (UPI)—Congress this week again faces tough decisions involving civil rights in at least three areas:

—The Senate begins debate on President Nixon's proposal to extend the law against racial discrimination at the polls to all 50 states. Liberals from both parties contend the law's emphasis should remain on the seven Southern states where it now applies.

—Southern senators may try to force a vote this week on the Supreme Court nomination of Judge G. Harrold Carswell, fearing it will otherwise be delayed by the voting rights debate. Carswell is under fire from civil rights groups which say his record is sympathetic to dehard segregation.

—Both the House and the Senate must solve their differences on the long-delayed and once-vetoed money bill for the Departments of Labor and Health, Education and Welfare. During the weekend the Senate put itself at odds with the House by slashing more money from the measure after crippling three Southern-backed amendments aimed at slowing the governments' involvement in school desegregation.

Senate Democratic Leader Mike Mansfield said the debate on whether to extend the 1965 Voting Rights Act as it would last "at least a week." Sen. Sam J. Ervin, D-N.C., who wants the law to apply nationwide, plans to address the Senate at length on his views.

Hoping to avoid a Southern filibuster on the Voting Rights

Act, Mansfield has promised to set a vote on the Carswell nomination as soon as the polling discrimination matter is settled. GOP Leader Hugh Scott warned that a parliamentary move might be made to push Carswell in ahead of the voting rights debate, but Mansfield predicted any such move would be unsuccessful.

The House-Senate conferees will argue over whether to spend \$19.4 billion on the Labor-HEW matter, as passed by the

House or \$19 billion as approved by the Senate. The bill, eight months behind schedule, was vetoed in its original form by Nixon because he said the then \$19.7 billion figure was inflationary.

The bill was passed by the Senate 68 to 0 in an unusual Saturday session after three Southern proposals to prohibit busing or pupil transfer were reworded to make them meaningless.

Rain Showers Dampen Ardor Of Campus Riot

SANTA BARBARA, Calif. (UPI)—Brief rain showers cooled the tense University of California campus and adjacent community of Isla Vista during the weekend. But 1,200 National Guardsmen and law officers remained in the area to squelch any new disturbances.

Five persons were arrested Sunday night, although there were no outbreaks of violence. Four of the five were charged with curfew violations and the other on possession of a deadly weapon, a knife.

The Isla Vista business district was calm following last week's violence, which included the burning of a \$275,000 Bank of America branch, scattered window breaking and scuffling with law officers.

Thirty-four officers have been injured since the trouble began and 10 demonstrators suffered injuries. A university employe was shot in the shoulder by a campus guard who believed he was trying to run a roadblock.

The National Guard moved 1,000 men into the area Friday night after Gov. Ronald Reagan declared a state of emergency. Santa Barbara County supervisors ordered a dusk-to-dawn curfew and it was extended to the school campus.

Stewart Slavin, a United Press International newsmen, was released Saturday by sheriff's deputies with no charges filed against him after he was arrested Friday night for allegedly violating the loitering law.

TO RULE TODAY

Rail Strike Retainers Expire At Midnight

WASHINGTON (UPI)—U.S. District Judge Howard Corcoran withheld a ruling today on whether to continue blocking a nationwide rail shutdown pending outcome of an afternoon meeting between management and union negotiators.

The bargainers were meeting 10 hours before expiration of temporary restraining orders prohibiting four shopcraft unions from striking and barring the railroads from locking out employes in retaliation.

The meeting was set for 2 p.m. EST. The retainers expire at midnight.

Sources said Corcoran had reached a decision on whether to issue preliminary injunctions that would extend the no-strike, no-lockout period.

But an aide of the judge said Corcoran would withhold announcing the decision while waiting to see if the negotiating session produced an agreement.

negotiating session would be held with the railroads.

The four unions struck the Union Pacific Railroad Jan. 31, and the railroads scheduled a nationwide shutdown of service for 10 p.m. that day to protect themselves against "whipsaw" strikes aimed at one or a few carriers at a time.

But U.S. District Judge John J. Sirica in Washington that afternoon issued temporary restraining orders ending the strike and blocking the lockout.

Three of the four unions ratified a tentative contract agreement last year but they decided in advance that all would have to go along before it would be accepted.

The sheet metal workers rejected it because of a work rule change that would permit limited crossing of craft lines for incidental work. The sheet metal workers contended that would lead to a reduction of their craft.

Mainly About People

The News Service reports on the people in or near Pampa. The contents of this column are subject to change without notice.

Mrs. W. H. Barden, 1601 Charles, has announced that a meeting of the Council of Clubs will be held Thursday in the city club room.

VFW Auxiliary will meet at 3 p.m. Tuesday in VFW Hall. Select officers in a regular business meeting.

Parent Teacher Association City Council will meet at 10 a.m. Tuesday at Carver Educational Services Center. Floya Sackett, Baker Elementary School Principal and his fifth grade choir will present a patriotic program. Mrs. Doris Friend will give a program on "The Special Child." The public is invited to attend these programs.

Pampa Chapter No. 70, P.I. Delta Pi, Junior Order, Knight of Pythias, will meet in a stated meeting at 8 p.m. today at the Pythian Hall, 315 N. Nelson. Mark Watkins, chapter regent of the Chapter, and J. C. Hopkins, Knight advisor, invites all members to be present. Plans for the "Father and Son" banquet in the near future will be announced at this meeting.

City firemen extinguished a fire in a vacant house at 731 Oklahoma Sunday at 11 p.m. Firemen reported damage to the bedroom closet only. Cause of the blaze was unknown. The house belongs to Clyde Durham.

Fireman also extinguished three grass fires Sunday. These occurred at 8:10 a.m. at Fir and Harvester; 11:57, 23rd and Hobart; 7:07 p.m. 120 S. Hobart. No damage was reported from these fires, and the causes are unknown.

At 2:05 p.m. Sunday firemen extinguished a trash fire at the city dump. The cause of the fire was unknown. An auto belonging to Lin Engel, 1053 Varion Dr., was seriously damaged by fire about 7 a.m. Saturday. City firemen said the seats and upholstery were burned.

At 12 noon Saturday V. W. Hall lost control of a trash fire and firemen reported that some grass burned about 2 miles west of Pampa. There was a minor trash fire on city property at 4 p.m. Saturday in the 1400 blk. of Farr.

Obituaries

McDougal, pastor of Pampa Baptist Temple, officiating. Burial will be in Fairview Cemetery.

CPO Gage was killed in action in Vietnam Feb. 23.

ELMER PRITCHARD
Funeral services for Elmer Floyd Pritchard, 57, will be held at 2 p.m. Tuesday in Pentecostal Holiness Church, with the Rev. Albert Maggard, pastor, officiating. Burial will be in Memory Gardens Cemetery by Carmichael-Whitley Funeral Directors. The Rev. Elbert Savage conference superintendent of Pentecostal Holiness Church, Amarillo, will assist.

Mrs. Mary Ellen Harris Dies Sunday
Funeral services for Mrs. Mary Ellen Harris, the former Mary Ellen Cary, will be held at 10:30 a.m. Tuesday in Carmichael-Whitley Colonial Chapel with the Rev. Dan Cameron, pastor of First Baptist Church, officiating. Burial will be in Fairview Cemetery.

NORMAN GAGE
Funeral services for Norman Glen Gage, 32, will be held at 2 p.m. Wednesday in Carmichael-Whitley Colonial Chapel with the Rev. Cliff A.

House, Grass Fires Keep Firemen Busy
City firemen extinguished a fire in a vacant house at 731 Oklahoma Sunday at 11 p.m. Firemen reported damage to the bedroom closet only. Cause of the blaze was unknown. The house belongs to Clyde Durham.

Fireman also extinguished three grass fires Sunday. These occurred at 8:10 a.m. at Fir and Harvester; 11:57, 23rd and Hobart; 7:07 p.m. 120 S. Hobart. No damage was reported from these fires, and the causes are unknown.

At 12 noon Saturday V. W. Hall lost control of a trash fire and firemen reported that some grass burned about 2 miles west of Pampa. There was a minor trash fire on city property at 4 p.m. Saturday in the 1400 blk. of Farr.

Stolen Motorcycles Recovered Under London Bridge Sunday

Eddie Blair, 612 N. Zimmers and a playmate found two brand-new motorcycles under the London Bridge on Summer street last Sunday morning.

Blair reported the matter to police. Investigation led to the fact a rear window of Sharp's Honda Sales, 313 N. Hobart, had been forced open and the motorcycles had been stolen from the front part of that building.

Police said a pool of oil outside the window revealed clues to how the theft was accomplished. Apparently one person entered the building and made two trips to the front to bring the motorcycles back to the rear where another person was waiting. Police did not speculate on why the motorcycles had been abandoned.

Winners Told In Miami Jr. Stock Show
The twenty-third annual Roberts County Junior Livestock Show was held Saturday in Miami at Roberts County Barn.

Pat Roberts, Canadian, vocational-agricultural teacher, was judge. In the Black Angus steer division Scotty Hoffer took first prize with steer bred by Willis Clark. The first prize hereford was Joe Lunsford's and that animal was bred by R. A. Flowers.

JEWELL T. MOORE
Funeral services for Jewell T. Moore, 44, who died Feb. 25 in Lubbock, were held Saturday at City of Lubbock Cemetery.

Bands To Present Public Concert
Four Pampa bands will present a public concert at 7:30 p.m. Tuesday at Robert E. Lee Junior High School Auditorium to observe Texas Public School Week.

Thieves Take \$100 From Roberto's
Approximately \$100 was taken in a burglary discovered at Roberto's Flower Shop shortly after employees arrived at work today.

JEANE DIXON

TUESDAY, MARCH 3
Your birthday Tuesday. You must become more adaptable in the coming year. Conditions which led you to form your present habits and goals now change — sometimes dramatically or suddenly — and require re-evaluation and re-direction.

ARIES (March 21-April 19): Profitable business offers hover just around the corner. Your own headstrong enthusiasm could lead you into premature deals. Confer with family and associates before involving yourself.

TAURUS (April 20-May 20): Hold to regular routines Tuesday instead of experimenting. If you must do things differently, do so in some significant area. Nobody quite understands what you want or why.

GEMINI (May 21-June 20): Your judgment about money is not at its best now—wait a couple of weeks on major decisions. Personal relations tend to be turbulent, and may involve changes.

CANCER (June 21-July 22): Seek backing for your project, interviews for career matters. File your petition Tuesday.

LEO (July 23-Aug. 22): Put forth your heartiest endeavor early to take advantage of improved cooperation among business associates. An unorthodox approach causes a breakthrough. Your home will benefit from re-arrangement, redecoration now.

VIRGO (Aug. 23-Sept. 22): People around you shift their attitudes, offering several puzzles to think through. Delay any financial matters until full discussion with consultants and others involved is finished. Hobbies and pastimes do not hold their

usual appeal.

LIBRA (Sept. 23-Oct. 22): Mysteries in emotional matters open up to understanding and explanation according to how well you listen, how gently you react. Friends and family are late, impatient, or ready for a squabble. Gadgets are tricky to handle.

SCORPIO (Oct. 23-Nov. 21): Short journeys produce more results than just staying put with previous spots and assignments. If physical movement is not feasible, then do it symbolically with new ideas, expressed in correspondence.

SAGITTARIUS (Nov. 22-Dec. 21): Put yourself to whatever inconvenience is necessary to be on time or a bit early for all of Tuesday's doings. Deal personally with important matters and get things settled. Hobbies and pastimes may yield an unexpectedly high return, if properly shown in the afternoon.

CAPRICORN (Dec. 22-Jan. 19): Your intuition comes to the foreground to lead you in assuming greater responsibilities. Group and family ventures favor improved earnings. A bright idea leads to a better home situation.

AQUARIUS (Jan. 20-Feb. 18): Attend to financial dealings, but keep them confidential. New projects begun Tuesday are almost certain to be difficult to complete, many times delayed. It is better to clear up existing loose ends.

PISCES (Feb. 19-March 20): Now that you are in good, expansive mood with more energy available, do not forget to take counsel on old issues when the opportunity to talk with an old friend arises.

WEIGH ANCHOR FOR SPRING in the fashion-right comfort of a pantsuit. This short-sleeved knit with contrast insert is designed for a pleasant cruise. Note the new longer jacket, and pocket-interest...and the shoes, fashionable, yet sure to take rolling seas in stride. "Traveling with movie camera in hand, she stands ready to film her sea-faring adventures. Always in focus, it is instant loading and has an electric eye that sets the correct exposure.

Dear Abby

By Abigail Van Buren

DEAR ABBY: The letter from "The People Upstairs" who complained about the embarrassing sounds of love-making from the people downstairs struck me as being pretty ridiculous. Even in the filsiest of constructed apartment buildings, I can't imagine anyone being able to hear such noises without straining their ears.

It reminded me of a story I heard years ago: A little old lady called the landlady of her apartment building to come up to hear her complaint.

"Why, it's positively disgraceful the way that man across the courtyard parades around in front of his window without a stitch of clothing on!" she said.

The landlady looked at her with disbelief and replied, "You can't possibly see into his window, madame. It's much too high." "Well, just you climb up here on top of this bureau, and you'll see plenty!" she said.

JOHN INKSTER, MICH.

Saturday night. We should be so lucky as to have lovers for neighbors.

THE PEOPLE NEXT DOOR

DEAR ABBY: Will you please tell us if the letter signed "The People Upstairs" came from Berkeley, Calif? This is very important.

B AND P IN BERKELEY

DEAR B AND P: It didn't. Relax.

DEAR ABBY: We found the letter in your column about the noisy newlyweds whose ill-timed lovemaking kept the neighbors awake, carefully marked and slipped under our front door.

We don't know whether someone was attempting to play a prank on us, or if it was put under the wrong door by mistake, but it certainly could not have been meant for us. I am 78 and my wife is 77. We have been married for 58 years, and it has been so quiet down here for the past 20 years that you could have heard day break.

Very truly yours,
"THE PEOPLE DOWNSTAIRS"
TROY, N.Y.

Upstairs. Tell them to rent a tape recorder if they do not own one, and make tape recordings of the "noise" they hear from the people downstairs. Then invite the people downstairs to come upstairs and listen to it over a friendly cocktail.

I promise you, that will be the end of any more such "noises." And if the people downstairs are good sports, present them with the tapes, which they can play back in about 35 years. They can be titled, "When You And I Were Young, Maggie," or, "Those Were The Days" or, "Thanks For The Memories."

MA

in ALLENTOWN, PA.

DEAR ABBY: The word has spread through this building that we are the people who wrote that letter signed "The People Upstairs." We most certainly are not! Will you please print this to remove the suspicion. Mahalo nui.

MR. AND MRS. C.C. HONOLULU

DEAR MR. AND MRS. C.C.: You can bet your sweet pikaki I will.

DEAR ABBY: "The People upstairs" don't know how lucky they are. We have neighbors who make noise, too. But it's far from the lovemaking kind. This couple has a knock down drag out fight nearly every

DEAR ABBY: I have a suggestion for The People

DEAR ABBY: We would not expect you to betray a confidence, but did that letter from The People Upstairs come from New Bedford, Mass?

"CURIOUS" in NEW BEDFORD

DEAR CURIOUS: No, neither from New Bedford nor Old Bedford.

Members of Brownie Troop 230, with Mrs. L.A. Sober as leader and Mrs. Robert Walker and Mrs. Tommy Hill as assistants, recently completed a home project. Several girls in the troop memorized Matthew 6:9-13 which is The Lord's Prayer.

DEAR ABBY: Thank you for printing that letter from The People Upstairs. In the future we shall be more quiet.

THE COUPLE DOWNSTAIRS: SANTA BARBARA, CAL.

Those completing this passage included Dequita Belote, Brenja Burns, Gay Lynn Davis, Vicki Hathaway, Theresa Hon, Anne Lewis, Tamie Lowe, Kathie Sober, Teresa Story, Tina Buckley, Sherry Davis, Donna Dickerson, Beth Hill, Andrea Lewis, Pamela Looper, Cindy Pryor, Terri Sober, Lynda Stroud, and Jana Vaughn. These girls received a gold star and a prize upon completion of the passage.

Highland Neighborhood held its Juliette Low Event Feb. 28 in the First Christian Church. The troops held a Father-Daughter Box Supper for their event.

What's your problem? You'll feel better if you get it off your chest. Write to Abby, Box 69700, Los Angeles, Cal., 90069. For a personal reply, enclose stamped, addressed envelope.

Introverts With Money Run Away To Sea In Private Submarines

NEW YORK (UPI)—For any well-heeled introverts of the land—you can get away from it all by going to sea in a personal submarine.

Yes, the era of a submarine for each and every affluent one is at hand.

One such submersible at the 60th National Boat Show in New York goes down to 250 feet. The price: \$14,750.

But since that's a bit much for most of us, another means

for getting away from cloying types is to settle for a fiberglass dinghy and row to the middle of a lake, pond or river.

This teeny-tiny floatable, six feet, six inches long, is the smallest boat at the show. At \$129, it's for folks who, like me, want to move up from their humble fleets of inner-tubes.

Houseboats in the show range from plain to fancy. The simplest is a 24 foot outboard powered floating platform with canopy cover. This lists at \$1,490. You spruce up the platform any way you like.

The luxury houseboats, costing upwards of \$50,000, have bars, stereo, air conditioning, lavish carpeting and staterooms fit for royalty.

The luxury touches extend to other kinds of boats. Manufacturers say the soft life afloat is in response to women's interest in all kinds of boating.

Consider:

The three-burner countertop stove now is the norm where once a two-burner installation was standard.

Refrigerators, once a cheese-and-beer proposition, are bigger, fully lined and, of course, color-coordinated.

A garbage disposal, electrically operated, on some of the luxury cruisers.

Color-coordinated lined draperies and slipcovers, fluorescent-lit vanities with dressers.

Air-conditioning.

Most of these features and many more were standard on a three cabin, three head (toilet) boat 44 feet and eight inches long.

And then, of course, there are always the rowboats for hire in the park.

There are 51,000 Girl Scout members in the state of Washington; 445,000 in the Pacific area — California, Washington, Oregon, Alaska and Hawaii; close to four million in the U.S.A.

Homemakers Club Honors 3 Members

SKELLYTOWN (Sp) — Skellytown Homemakers Club, meeting recently in Mrs. Bob Lawrence's home, honored members who celebrated birthdays in January and February. Those honored were Mmes. John Simmons, Bob Lawrence and Miles Pearson.

The club's next meeting will be in Mrs. Floyd McCoy's home March 3.

Those winning awards at the meeting at Mrs. Lawrence's were Mrs. Simmons, door prize; Mrs. Pearson, house guessing game and Mrs. Earl Looper, game prize.

Others attending were Mmes. Bob Heaton, John Kenney, W.S. Berry, Oscar Gould, Ethel Hunt and two guests, Mrs. Diana Duncan and Mrs. Florence Duncan.

MANY OLD TIMERS ARE STILL AROUND

New and powerful miracle drugs form the basis for most of the news we hear about advances in health care. But, there are still a great many medicines being prescribed that have withstood the passage of time. Penicillin, digitalis, sulfur and ephedrine are just a few that are frequently prescribed by physicians.

These drugs, day in and day out, are saving lives, curing illnesses and alleviating pain. As long as they are considered effective they will continue to occupy a prominent place in our prescription laboratory.

YOU OR YOUR DOCTOR CAN PHONE US when you need delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for service and charge accounts.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, or your waistline is larger than 36 inches, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A feather-stitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such stunning strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim" in both girdle and panty versions, is the peak achievement of the California designer-genius, Olga. They are available at

Wright FASHIONS

POLLY'S POINTERS

Use Plastic Bags For Children's Boots

By POLLY CRAMER

DEAR POLLY—Emergency boots for children playing in the snow can be made by using plastic bread bags. To make them more durable and not as slippery on the bottom, pull old stretchy nylon hose over the bags. Make mittens somewhat the same way by first covering the hands with warm socks, then with smaller plastic bags and pulling the nylons on and up as far as they will reach over their coat sleeves. This helps eliminate the nuisance of snow getting up sleeves and pants legs.

Expedite the drying of mittens and gloves which cannot go into the dryer by grasping the two ends of a wire coat hanger and squeezing as you force the ends upward. Invert mittens over these ends and hang in a warm place to dry.

—MRS. J.E. H.

DEAR POLLY—An elderly person in our home was sick for about three months and she had difficulty drinking from a glass. We solved the problem by using a small jar with a hole in the lid just large enough for a straw to go through it.

RUTH

Polly's Problem

DEAR POLLY—We want to get a dog but cannot figure out a way for one to get in and out alone. Our only wood door is the front door. In our former home we just cut a small square out of a door, replaced the piece with hinges and the dog could come and go at will. Our present home is joined to the neighbor's with a common wall so all doors and windows are to the front and back and other doors are sliding glass ones. Does anyone know of a way to make a "dog entrance" with sliding glass doors?

LAVERNE

GETTING UP NIK ITS MAKES MANY FEEL OLD

Common Kidney or Bladder irritations make many men and women feel tense and nervous from frequent, burning, or itching urination night and day. Secondly, you may lose sleep and have headache, backache and feel older, tired, depressed. In such cases, CISTEX usually brings relaxing comfort by soothing irritated glands. In 2-3 days and quickly easing pain. Get CISTEX at drugstore.

PAMPA Business News...

UNWARY MOTORISTS take heed. Wornout shock absorbers could cost you your life. Leymond Hall of Hall Tire Service, 700 W. Foster, displays his line of Delco Pleasurizer "shocks" that can restore lost driving comfort and good handling qualities to your car. Best of all, it doesn't take all day to get your new Delco Pleasurizers installed at Halls. New "shocks" can also cut down tire wear. (Staff Photo)

Dangers Of Wornout 'Shocks' Not Known To Many Drivers

Ever wonder why your auto has lost that "new car feel"? How about those big cup-shaped worn spots on your tires? Have you been wondering why your car no longer has that reassuring stability on highway curves and wants to yield rather than fight back at those strong prairie crosswinds? If so, chances are very strong that the family buggy or sleek sports model needs only a new set of Delco Pleasurizer shock absorbers from Hall Tire Co., 700 W. Foster.

Delco Pleasurizers can take out that tired body sag, set your car back on its feet tall and straight, and bring back some of that lost riding comfort.

No doubt, those unnecessarily worn tires are making serious inroads into your pocketbook and that queasy feeling you get when the old buggy starts to drift on a turn can most likely be cured by Delco Pleasurizers.

It is true that auto safety experts (check with Ralph Nader if you like), agree that wornout shock absorbers can turn a manageable driving emergency into a critical life-taking hazard.

Oddly, most drivers are unaware of the important part that shock absorbers play in the comfort and driving character. "Shocks" are the most neglected mechanical features when it comes to service.

Because wornout "shocks" do not signal the driver with an abrupt change in handling qualities—such as a flat tire or broken axle—the condition tends to creep up. But if one stops a moment to reflect on how an automobile handles today compared with when the car was new he may gain insight into the important role of this too-often neglected and most important device.

And safety isn't the only

consideration. Delco Pleasurizers can help eliminate some of the teeth-rattling when you drive across railroad tracks and bumpy roads.

Hall's Tire Service has, in stock, sets of Delco Pleasurizer shock absorbers designed and manufactured exclusively for each and every make and model of automobile. And best of all, installation doesn't take all day. In less than an hour, you can be driving away with new car comfort and safety.

For years Hall's has been satisfying Pampanos with complete and reliable tire and auto fronted service as well as seat cover renewal and installation, tire truing and balancing, and wheel alignment.

This fine service continues at Hall's along with the company's tradition of superb quality and fine workmanship.

PAT HOWELL, right, and her assistant Pat Hargus are ready to lend expert advice to Pampa area hobbyists at the Hobby Shop, 112 E. Francis. Visit the Hobby Shop and find out how you can make your leisure hours more enjoyable with an exciting new hobby. (Staff Photo)

Many New Hobbies Available For All

According to Pat Howell of The Hobby Shop, 112 E. Francis, one of the coming hobby rages will be black light poster art. The Pampa Daily News saw a demonstration today and it is really sensational. You can purchase ready-made posters or paint your own in colors ranging from subdued shades to psychedelic. The black light projector comes at only \$19.95 and the posters are \$2 each.

Also of much interest to hobbyists is the new "Fantasy Fur" artificial flower technique. The "Fantasy Fur" medium permits many interesting new styles and provides opportunity for unlimited color mixtures.

Wood pursebox decorating is also a very interesting craft, and all you lady hobbyists can now match any outfit. The varied pursebox designs are as tasteful as well as clever as the high quality of the wood lends itself well to stains or coloring materials.

Picture framing has also become one of those crafts which allows the hobbyist to create works of professional quality and The Hobby Shop stocks a complete line of necessary materials.

And decoupage. This fascinating art is almost unlimited. It's products can complement any design motif or decor. For the creative person, decoupage is especially fascinating.

Kids and teenagers are certainly not forgotten at The Hobby Shop. Everything of hobby interest, including a complete selection of airplane and automobile models is available along with all the other amusing items.

Also for those wanting to set up their own science laboratory or enlarge the capabilities of one already existing they can find all the equipment necessary. The Hobby Shop stocks apparatus from crucible tongs, bunsen burners and gas generating bottles to culture dishes. And lest all you budding

Einsteins and Pasteurs forget, a complete line of chemicals is on hand to aid you in that new experiment you are working on.

Indeed, The Hobby Shop challenges us to name a hobby for which they cannot supply materials and expert instruction.

Pat Howell and her staff are not only anxious to provide basic and advanced instruction in all the arts and crafts but they are also happy to cater advice to individuals seeking out-of-the-ordinary approaches to the more conventional mediums and to those looking for a new outlet for their creative urges.

Everyone is invited to drop in and browse around. Who knows? One just might come up with the answer to that bare dining room wall or discover just exactly what might look nice on the knock-knock shelf.

The results can be high quality, practical, and above all—original.

ANNOUNCEMENT... We Have A New Name! Effective January 1, 1970 The Panhandle Packing Co., Inc. will be changed to: **WESTERN BEEF PACKERS, Inc.** A DIVISION OF WESTERN BEEF, INC. East Frederic (Highway 60) P.O. Box 701 Pampa, Texas 79065 Please Correct Your Records To Reflect This Change

New Oil Hits

AUSTIN, Tex. (UPI)—Texas oil wildcaters had 15 oil and 12 gas discoveries in the state last week.

The new finds bring the total for the year to 69 oil and 83 gas discoveries compared with 47 oil and 115 gas finds for the same period in 1969.

Four of the oil discoveries were in Southwest Texas, three were in the Gulf Coast, three were in East Texas, three were in West Texas, and two were in West Texas.

Also for those wanting to set up their own science laboratory or enlarge the capabilities of one already existing they can find all the equipment necessary. The Hobby Shop stocks apparatus from crucible tongs, bunsen burners and gas generating bottles to culture dishes. And lest all you budding

THESE SMILING gents display the new Kirby home sanitation units which are now available thru the local Kirby branch office at 512 S. Cuyler. Phone 669-2990 today to learn how you can become eligible to win one of these little beauties free. Dale Hunt, local area manager is flanked by Jim Jones, sales manager, who says repairing those reliable Kirbys doesn't keep him very busy. (Staff Photo)

Kirby Announces New Vacuum Cleaner Model Improvements

For the first time in thirty years the Kirby Vacuum Cleaner Company has made major model changes in their "Home Sanitation Systems." Although a complete vacuum cleaner unit still converts into eight different machines, smooth simplicity of handling and operation are the keystones of the new models.

Local Kirby manager Dale Hunt says you can win a brand new upright model. Kirby will hold a drawing on April 1, and all one has to do to be eligible for the drawing is look at the new machines. Call now to make arrangements to register. The Phone Number is 9-2990.

The new Kirby hand portable is sensational. Now one can take the power of a main unit into those hard-to-get-to places where only an attachment device would work in the past.

And when it comes to rug renovation, Kirby is the champ. Local sales manager Jim Jones says that the new shampooing system allows your carpets to

dry within thirty minutes after cleaning and he adds that Kirby has the only model on the market with a fluffer device which combs and re-piles rugs and carpets during the cleaning operation.

Also, Pampanos who have been victimized in the past by short-lived rivals of the Kirby company will feel assured to know that Kirby has been at the same location at 512 S. Cuyler in Pampa for the last 17 years.

The local branch of the 55 year old Kirby Co. maintains a full time qualified service manager in the person of Earl Kerr. So if you ladies remember what it's like to be without the

aid of one of your important appliances while you suffer exasperating delays awaiting arrival of a part or complete appliance to be sent or returned through the mail, you can appreciate the value of complete local service.

Don't overlook those used models either. The local Kirby store stocks many values in prior owned units which can still furnish many years of reliable cleaning service.

Moving To New York No Longer Attracts Business Executive

NEW YORK (UPI)—Moving to company headquarters in New York once was a career dream come true for business executives. Today, according to a recent report by the National Industrial Conference Board (NICB), it can be the first stage of a nightmare.

Corporations are finding it increasingly difficult to lure top men to New York "where the action is," according to the NICB. Mortgage rates, soaring living costs, crime, pollution and commuting problems cause many key employees to turn down assignments and even promotions to many big cities.

The problem is especially acute in New York where 13 the nation's 500 largest corporations have headquarters.

The high cost of living and the harrowing transportation difficulties top the list of complaints many transferred executives have about the big town.

"If I were to go back to Detroit," said an automotive executive who has been here for two years, "it would be the equivalent of getting a \$4,000 a year raise."

He noted that he now pays "\$23 a month (in tolls) just to cross bridges" in traveling to and from his home in northern

New Jersey to New York City every day. "My heating bill in Detroit averaged \$21 a month," he said. "Now it's \$90." It now takes him three hours a day traveling time—an hour and a half each way. "In Detroit it took me about 20 minutes each way."

Leonard Dalquest, a General Electric executive recently transferred here from St. Louis, will never forget his first riding on the New Haven Railroad, a one-and-a-quarter hour trip from New Canaan, Conn.

"The shock was pretty great when I had to stand all the in to New York on my first day," he recalled.

Most major corporations go to great lengths to entice good young executives to move to New York.

New Forms A Tax Problem

NEW YORK (UPI)—An Atlanta representative of national tax preparation service says business was up 60 per cent in January from one year ago. Florida offices of one company reported many more taxpayers turning to consultants for help.

President Ed Horowitz of Programmed Tax Systems, Inc., of New York, which operates in more than 100 cities, said business has doubled over last year "because of the new form."

PAIRINGS FOR FIRST ROUND

Championships Start Saturday In NCAA

By United Press International
The first-round pairings for Saturday's opening of the 1970 NCAA basketball championships were completed after UCLA, Iowa, Davidson, Rice, Temple, U. of Texas at El Paso and Ohio University clinched conference titles.

The Eastern Regionals pit Southern Conference champion Davidson against fourth-ranked St. Bonaventure at the home court of St. John's University in New York; Temple, the Middle Atlantic Conference champ, against Villanova in Philadelphia, and seventh-rated Penn. the Ivy League titlist, against Niagara at Princeton, N.J.

A Midwest Regional double-header at Dayton, Ohio, pairs

Ohio University, Mid-American Conference king, opposite Notre Dame and Western Kentucky with Jacksonville.

In the Midwest Regionals at Houston and Rice against fifth-ranked New Mexico State. The Western Regionals at Brigham Young places UTEP vs. Utah State and Weber State against Long Beach State.

Top-ranked UCLA, seeking its fourth straight NCAA title, routed California, 109-95, Saturday night for its fourth consecutive Pacific Eight crown. The Bruins, with a first-round bye, meet the Long Beach State-Weber State winner at Seattle, Wash., March 12.

Iowa withstood a spectacular 61-point effort by Rick Mount hand Purdue its first home court loss in 30 games, 106-107, and clinch the Big 10 title.

Davidson earned a post-season berth in the NCAA by beating Richmond, 81-61, for the Southern Conference tourney title.

Rice won its first Southwest Conference title in 16 years with an 82-73 victory over Texas Christian, UTEP edged Utah, 83-82, for the Western Athletic Conference crown and Temple gained its tourney berth by nipping St. Joseph's, 63-59.

Second-ranked Kentucky, which faces Ohio U.-Notre Dame winner in a second-round Midwest Regional game at Columbus, Ohio, March 12 averaged its only loss of the season by opping Vanderbilt, 90-86.

Third-ranked South Carolina overpowered North Carolina State, 85-69, with the help of John Roche's 31 points. The Gamecocks, undefeated in regular Atlantic Coast Conference play, must do it all over again in the AOC tourney if it intends meeting the Davidson-St. Bonaventure survivor in the second-round Eastern Regional at Columbia, S.C.

Bonnie Boost Record
St. Bonaventure, ranked No. 4, boosted its record to 21-1 by crushing Niagara, 104-66, Sunday.

No. 5 New Mexico State exacted 15 turnovers from Utah State en route to a 104-92 triumph.

Seventh-ranked Pennsylvania tied the Ivy League record of 14-4 for a season with 197-43 decision over Cornell.

NIT-bound Marquette, led by Dean Meminger's 27 points, whipped a strong Creighton team, 76-66, and ran its home court winning string to 41 games.

Eleventh-rated Houston mauled South Alabama, 128-90; Drake, No. 14, moved closer to the Missouri Valley Conference crown with a 79-63 win over Louisville; Duke surprised 16th-ranked North Carolina, 91-83, and Oklahoma beat 20th-rated Kansas State, the Big Eight Conference champ, 80-73.

More NIT Bids Expected Today

NEW YORK (UPI)—The selection committee for the National Invitation basketball tournament was expected to name two, or possibly three, more teams today for the 33rd annual tourney scheduled for March 13-21 at Madison Square Garden.

Four teams, Louisiana State, Georgia Tech, Marquette and St. John's already have accepted invitations, leaving 12 berths to be filled to complete the 16-team field.

Hoping to receive bids today were Army, the nation's top defensive club, Wyoming, tied for second place in the Western Athletic Conference, and possibly Kansas, the likely second place finisher in the Big Eight.

Mike Hill Earns First Pro Victory

MIAMI (UPI)—When Mike Hill drove a beer truck and worked construction he worked harder than he does now, and didn't make nearly as much money.

Two years ago he told himself there's got to be a better way to make a living, joined his older brother on the pro golf tour and this weekend pocketed \$30,000 for winning the \$150,000 Doral Eastern Open golf tournament—his first tour victory.

"Even if they recognize you as Dave, they still recognize you," he said, referring to his more famous older brother, who finished 14 strokes behind Mike's pace-setting 279. "I think Dave is as happy for my win as I am myself."

The younger Hill's nine-under-par total, finished by his one-under-par round of 71 Sunday, was four strokes better than second place Jim Colbert, who shot a par 72 on the windy, Doral "blue monster" course for a five-under-par 283.

Tied for third were Larry Hinson, British Ryder Cup team member, Brian Barnes and transplanted Australian Bruce Devlin, who were two-under-par at 296.

Jack McGowan was eight strokes back at 287 after tying Hill momentarily on the front nine.

Arnold Palmer shot a 75 Sunday to finish at four-over-par 292, a dozen strokes back. Defending U.S. Open champion Orville Moody scored a 74 for four-round total of 293.

par total, finished by his one-under-par round of 71 Sunday, was four strokes better than second place Jim Colbert, who shot a par 72 on the windy, Doral "blue monster" course for a five-under-par 283.

Tied for third were Larry Hinson, British Ryder Cup team member, Brian Barnes and transplanted Australian Bruce Devlin, who were two-under-par at 296.

Jack McGowan was eight strokes back at 287 after tying Hill momentarily on the front nine.

Arnold Palmer shot a 75 Sunday to finish at four-over-par 292, a dozen strokes back. Defending U.S. Open champion Orville Moody scored a 74 for four-round total of 293.

Suns Head For Showdown With Atlanta And Lakers

By United Press International
The two faces of Connie Hawkins points toward a National Basketball Association playoff for the Phoenix Suns.

Hawkins is intent on awarding Phoenix with its first playoff berth. He scored 30 points against Atlanta Sunday as the third-place Sun beat the Hawks, 109-96.

The defeat left first place Atlanta only a half-game ahead of the Los Angeles Lakers, who beat Boston, 120-114. In other games, Milwaukee topped Cincinnati, 120-114; Detroit defeated San Francisco, 116-99; Philadelphia whipped Baltimore, 104-99, and San Diego stopped Chicago, 135-122.

Phoenix, trailing Atlanta by 13 points in the first half, finally took the lead at 76-74 after three quarters.

The Hawks countered with Lou Hudson's 30 points and Joe Caldwell's 29, but couldn't match the Suns' second-half spurt keyed by Hawkins.

Jerry West scored 33 points and Elgin Baylor added 29 as Los Angeles drew away from a meager 102-99 lead after Boston nearly overcame a 17-point deficit. Don Nelson continued his brilliant outside shooting for

the Celtics and led the club with 30 points.

Milwaukee went on a 14-1 surge early in the fourth quarter to beat the Royals. Lew Alcindor paced the Bucks' attack with 32 points and 17 rebounds. A sound Oscar Robertson contributed 25 points as Cincinnati's losing cause.

Dave Bing and Terry Dischinger combined for 59 points in pinning the fifth straight loss on San Francisco. Bing was deadly from the field with 13 baskets en route to a 31-point night. Dischinger connected on 12 floor shots. Clyde Lee paced San Francisco with 23 points.

Philadelphia continued to protect its four-place spot in the East with a come-from-behind triumph over the injury-riddled Bullets. Hal Greer was the spirit of the 76ers with 38 points, making good on nine of his last 10 field goal attempts. Jack Marin paced Baltimore with 31 points.

San Diego mounted a 33-point second-period rally and had five players score in double figures to beat Chicago. Elvin Hayes led the Rockets' scoring with 36 while Tom Borwick and Clem Haskins scored 26 apiece for the Bulls.

Rockets Rip Caps But Barry Blasts 55

By United Press International
Rick Barry scored 55 points, setting a record for the Denver Arena, but the Denver Rockets offset Barry's performance by hitting 82.3 per cent of their field goals and downed the Washington Caps, 137-126, Sunday.

In other American Basketball Association action, Los Angeles trimmed Indiana, 108-105, Pittsburgh edged Kentucky, 119-109, Miami beat Carolina, 109-99, and New York defeated Dallas, 128-111.

Larry Jones led the Rockets with 34 points and Spencer Haywood added 31 as their team finally prevailed in a game in which the lead changed hands eight times.

Tom Washington, who finished with only seven points, scored twice on rebounds within the final 78 seconds to give the Los Angeles Stars their third straight win as they struggle for a Western Division playoff berth.

The last-place Stars are four games behind New Orleans, which must stay in fourth place to be eligible for the playoffs.

The Pittsburgh Pipers handed Kentucky its 10th loss in its last 13 starts as Stew Johnson, who put Pittsburgh ahead for good with 5:10 remaining, paced his team with 25 points. Lou Dampier led the Colonels with 33.

Miami's Don Freeman scored

33 points and Don Sidle scored 25 to help the Floridians turn back Carolina's late rally, which was ignited by Doug Moe, who finished with 19 points.

New York, with a 38-point performance from Lovern Taut, used a third-period spurt to put victory was the Nets' 13th in Dallas away quickly. The victory was the Nets' 13th in their last 18 games.

Former Greats Fill In For Holdouts

By United Press International
Stan Musial and Mickey Vernon, who played the outfield during most of their illustrious careers, finished up their playing days at first base and Hank Aaron and Al Kaline, with a total of 33 years of major league experience between them, may follow suit.

Aaron, the perennial All-Star outfielder for the Atlanta Braves, worked out at first base again Sunday in the absence of holdout Orlando Cepeda. The slugger Cepeda is seeking a raise to \$90,000 but the Braves have offered him even less than the \$83,000 he earned last season when he helped lead the Braves to the National League's Western Division crown with 22 homers and 88 runs batted in.

Kaline has been splitting his time this spring between right field and first base, but the 17-year veteran of the Detroit Tigers missed Sunday's workout at Lakeland after complaining of not feeling well. Another absentee from the Tigers drills was utility infielder Dalton Jones who was suffering from an upset stomach.

The Orioles will hold their first intrasquad game today minus the services of first baseman Boog Powell, second baseman Dave Johnson and left pitcher Dave McNally, all of whom became official holdouts Sunday.

Also facing holdout problems are the Cincinnati Reds who are still unable to satisfy second baseman Tommy Helms, pitcher Jim Maloney and third baseman Tony Perez.

The Los Angeles Dodgers signed 20-game winner Bill Singer for an estimated \$45,000 while Al Campanis, the club's director of player personnel, said he and 17-game winner Don Sutton "are very close to agreement." Other Dodger holdouts include catchers Tom Haller and Jeff Torborg.

Al Oliver drove in both runs with a single and an infield out as the Willie Stargells beat the Bill Mazeroski, 2-1, in the Pittsburgh Pirates' intrasquad game; Pat Kelly's two-run triple and a run-scoring double by Amos Otis highlighted a three-run third inning which carried the Schultz 7-4 to a 4-2 victory over the Dunlops in a Kansas City Royals' intrasquad game; and Dave Nelson was the star of the Washington Senators' intrasquad game with a homer, double and single.

The San Diego Padres whipped the Mexico City Tigers 9-1, as rookie outfielder Julio Morales hit a homer for the winners and the Ozzie Virgil-coached team downed the Wes Westrum's, 3-2, as the San Francisco Giants held their first intrasquad game.

3-Detroit, AL East

By MART YRALBOVSKY, NEA Sports Writer

PROSPECTUS—Tigers never recovered from slow start last year and Mayo Smith is promising a quicker departure from the gate this time. Team made only two off-season trades, but has some fresh faces up from its farm system. Tigers still have some fluttering personalities, McLean and Horton the most obvious, and the cohesion of '68 needs duplicating.

PITCHING—Denny McLain was 24-9 with 2.90 ERA last season, but it's questionable whether off-field problems will affect him. Mickey Lolich was 19-1 last season but lefties in game. Mike Killeen is No. 301 8-4 season and either Earl Wilson or Joe Niekro (acquired from San Diego) will be No. 4. Ballpen sound with John Hiller, Fred Lasher, Darrell Patterson and Jerry Robertson, from Montreal. Rating—B plus.

CATCHING—Bill Freehan hit .282 last year and his durability remains unquestioned. Jim Price backs him up. Rating—B.

INFIELD—Norm Cash (.280, 22HR's) may split job this year with Al Kaline. Platooning is a possibility. Dick McAuliffe, sound again after serious knee injury, returns to second. Rest of infield not too imposing. Short might go to rookie Cesar Gutierrez, who was acquired from Giants system. He'll get

CUTFIELD—Willie Horton had some problems last year (he jumped the club but still hit 26 HR's and drove in 91 runs. He'll be back in left field. Micky Stanley has center sewed up and it looks as if Jim Northrup (.295) will finally supplant Al Kaline in right. Kaline probably will alternate between first and right, on platoon basis. Gates Brown will do much pinch-hitting, little outfielding. Rating—B plus.

TOP ROOKIES—Elliott Maddox, with only two minors years, has chance to stick at third, if all others fail. Pitches Bill Gilbert, Bob Reed, Fred Sherman and Gary Taylor will also get looks. Gilbert, a lefty, has the best chance.

Prediction: 3rd in AL East. (Newspaper Enterprise Assn.)

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE
Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Computer Trains Dropouts

When computers first came on the scene after World War II, there were dire prognostications that the electronic "brains" would eventually cause widespread unemployment, particularly among unskilled and semiskilled workers. Already in the design stage, for instance, were complete steel mills that could be operated by one man pushing buttons. Others predicted that what had been true for every other technological innovation would be true for computers — that while some old jobs undoubtedly would be abolished by automation, new and better paying jobs would be created.

Thus far the optimists seem to have been right. One of the most critically labor-short areas is in the very field of computers, where an estimated nationwide shortage of 300,000 programmers currently exists. To perform its data-processing functions, a computer "speaks" and "listens" to any of a number of special languages with such exotic names as COBOL, FORTRAN, PL-1 and RPG. Training of a

human programmer in these languages normally takes as long as two years.

In a recent and successful pilot program, however, Commonwealth Computing, Inc., of Lexington, Mass., trained school dropouts from Boston's Roxbury section to qualify as computer programmers in only eight weeks. The youths, including one with only an 8th grade schooling, were paid \$125 a week during training before stepping into jobs in the \$7,500 to \$9,000 range.

The Commonwealth program utilized a simplified language called ADPAC, coupled with new training methods. In co-operation with Equal Opportunity companies in private industry, the program is to be expanded to upgrade 50 more young men and women.

A program such as this has broad national implications, extending to prisons, schools and other institutions. Rather than being a menace, the computer in this instance at least is creating useful employment for people who might otherwise be not just unemployed but unemployable.

The Cost Of Government

How much per hour do you pay Uncle Sam out of your weekly or monthly paycheck? He insists on the 40-hour week and an hourly wage for you. So, as a free citizen, it's not a bad idea for you, as his employer, to evaluate him on the same basis. It gives you a better idea of what his service is costing.

For instance, you probably are paying Uncle Sam between 25 cents and \$1 an hour on a 40-hour a week basis. You can figure your own rate of pay to Uncle Sam by dividing your weekly withholding tax by 40. This is the amount of money you never get to handle. It is taken out of your check. When this and your social security and other levies are deducted you get your take-home pay. Which is quite a different sum from the total amount of your earnings.

Now do some adding. Take the sum you pay your state for income and sales and other taxes, add what you pay the

city and the county for real estate taxes, add the extra levies for school districts and sewer, water and other districts, estimate what you pay in sales taxes and excise taxes, add your social security and withholding taxes. Deduct these from your total earnings.

If you have average earnings and an average number of dependents, you'll probably be surprised to learn that you are paying between 34 and 37 per cent of your total income in taxes. If your earned income is considerably above average, your taxes will be increased more than proportionately because of the graduated income tax which alone consumes as much as 70 per cent of earnings in higher brackets.

The question now arises: Are you getting your money's worth? Or, as one observer commented wryly: Aren't you glad you're not getting all the government you're paying for?

Real Pollution Control

With all of the nationwide furor over air pollution, survival and ecology, nearly everyone is saying, "There ought to be a law," and demanding that some city, county, state or federal official "do something." As we have commented before, not many individuals take into consideration that they just might be part of the problem. Pollution, and its solution, begins with individuals, but most of the people want a law to stop the other fellow.

As San Jose State College, in California, a group of students, faculty and staff have established "Survival Faire." Add they are riding their bicycles to the campus "to dramatize the need for ecologically safe transportation." Instead of row after row

of smog creating gas burners, the parking lot is being filled with bicycles. The slogan is, "Ride a Bicycle for Clean Air."

Granted that a group of students, teachers and staff members riding bicycles for one week is not going to do much to cut down air pollution. But if the folks really mean it, and continue to use bikes instead of cars when they can, they will be setting an example, that may bring more improvement, more than all the laws will.

If everyone who could do so, would walk or ride instead of driving his auto and would do everything he personally could to reduce the amount of pollutants in the air, conditions would be greatly improved. We commend the people of "Survival Faire."

Justice's Blindfold In Place

The theft and forgery of tickets is assuming the proportions of a major headache for the airline industry.

An estimate by Franklin Oelschlager, top security officer for the Air Transport Association of America, places the loss to the airlines in 1969 to \$500,000 — double the total of the previous year. In Cleveland recently, a

former employe of one airline was arrested for stealing 2,000 blank tickets, potentially worth many thousands of dollars. The arrainging judge, however, reduced the offense to petty larceny on the ground that the man could only be charged with having stolen the actual value of the paper stock.

There's one crook whose wrist won't soon stop smarting.

Cure Begins At Home

Pollution bemoaners noisily beseech one level of government or another for an end to our

befouled environment. Cure for pollution, like charity, begins at home.

Sensing The News By THURMAN SENSING

The NLRB's Lack Of Balance
President Nixon's nomination of Edward B. Miller of Illinois as new chairman of the National Labor Relations Board is a step towards restoring the fairness that has been absent from that controversial federal agency since its founding. Mr. Miller is a Chicago attorney who in years past has represented management in labor disputes.

The vacancy Mr. Miller will fill, if confirmed by the Senate, occurred when Sam Zagoria's five-year term expired in January. Mr. Zagoria is a liberal Republican, a former assistant to Sen. Clifford Case of New Jersey, and one-time reporter for The Washington Post, and member of the American Newspaper Guild, an AFL-CIO union.

Mr. Zagoria, like other members of the board appointed by Democratic administrations, was strongly sympathetic to unions in disputes before the board. U.S. Rep. Albert Watson (R-SC), in a protest voiced last December, charged that Mr. Zagoria was "an extreme activist on the board who has contributed mightily to the breakdown in labor-management relations because of his participation in decisions which thwart the letter and spirit of labor law enacted by Congress."

Rep. Watson also asserted that "the NLRB was not created to make labor policy, only to help resolve labor-management disputes and enforce labor law. But Mr. Zagoria has served in an era in which we have witnessed untold labor law abuses by the board."

James J. Kilpatrick, the highly respected syndicated columnist, is among the writers who has cited the lack of balance on the NLRB. He recently observed that there is not a single member of the board who "has observed industrial relations from the management side of a table." Obviously, this is an experience gap that is intolerable if fairness is to be a characteristic of the board's work.

American business has never suggested that the NLRB should be devoid of representatives with understanding of the position of unions in industrial disputes. But the unions bitterly resist any nominee to the board who is understanding of management. No sooner was Mr. Miller's nomination announced than George Meany, president of the AFL-CIO, declared that his organization will oppose Mr. Miller being seated on the board.

Hopefully, the nomination of Mr. Miller will be approved and that other fair-minded men will be nominated and seated when vacancies occur on the board. The NLRB's obvious bias toward unions deprive American employes of a fair shake when disputes arise. In other words, employes can not obtain justice from the NLRB.

Ideally, of course, the overhaul of the NLRB's membership should be the prelude to a thorough revision of procedures for handling major labor-management disputes. Rep. Watson, cited above, also is the author of a bill that would replace the NLRB with a 15-judge U.S. Labor Court. The judges would be appointed by the President with the advice and consent of the Senate. NLRB trial examiners, who wield excessive power, would be replaced by 90 commissioners appointed by the Labor Court.

One reason why the NLRB's functions should be turned over to a court, in Mr. Watson's judgment, is that the board has failed to protect individual union members from coercion by national union leaders.

The Johnson administration bitterly opposed the Labor Court bill, but the Nixon administration presents a new opportunity for thorough overhaul of labor disputes procedures — especially if Mr. Nixon has a stronger base in Congress after next Fall's elections.

Over the years, many members of Congress have pointed to the prejudiced character of the NLRB. U.S. Rep. L. Mendel Rivers (D-SC) is on record as saying of the NLRB: "This board is a disgrace to our people. It should be abolished. We need a labor court to protect both labor and management."

CAPITOL EYE

Objectives Difficult In Korea And Viet-type War

By BRUCE BLOSSAT
Washington Correspondent

WASHINGTON (NEA) — Guam doctrine and "lowered U.S. profile" notwithstanding, President Nixon really cannot be totally sure that this country can avoid limited wars like those in Korea and Vietnam. But the prospect of avoidance may be quite good.

He is telling us again, of course, that he wants "no more Vietnams." And it is hard to imagine any successor president saying he approves such involvement.

If we are truly set upon such a course, a strong enforcing element may be disillusioned.

War breeds many sorts of disillusionment. I am talking here of just one kind — the realization that it is difficult if not impossible to gain even the limited objectives a nation fixes for itself in limited war.

In Korea we had a very close call. When Chinese Red armies in late 1950 and early 1951 drove U.S.-U.N. forces out of North Korea and deep into South Korea, our highest leaders gravely weighed the possibility of getting out and leaving the South Koreans to a sad fate.

One of this century's great military commanders, Gen. Matthew B. Ridgway, largely saved the day. He rallied our demoralized forces and led them back northward to a tough defense line, most of it well into North Korea, which pretty much marks the armistice demarcation today.

WORLD ALMANAC FACTS

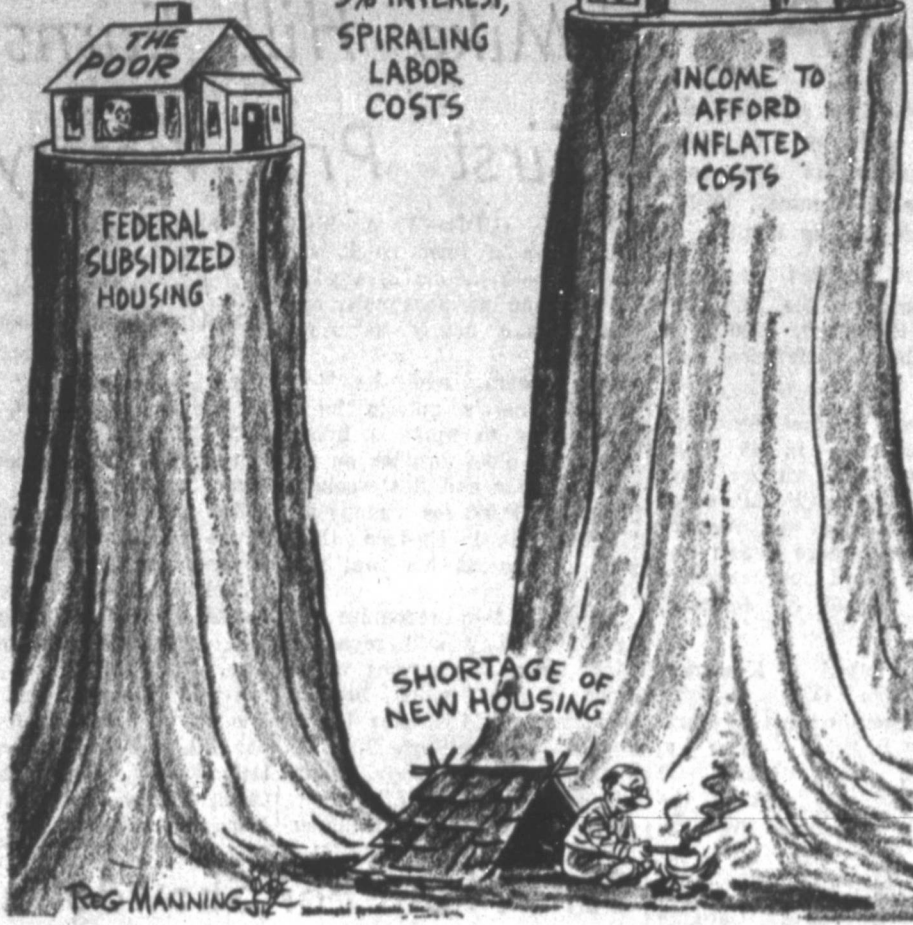

The laser ray, invented about a decade ago, is revolutionizing the scientific and industrial world. The World Almanac notes that the laser can be used for such diverse tasks as boring holes through diamonds or performing bloodless surgery. Scientists have predicted that the laser will revolutionize communications, as it has the ability to carry innumerable radio, television and telephone messages.

WIT AND WHIMSY

A stranger accosted the happy character in a hotel lobby. Mr. Smith — Pardon me, sir, but you are wearing a button that reads, B.A.I.K. What do those letters stand for? Mr. Jones (the happy character immediately) — Boy, am I confused. Mr. Smith — But 'confused' is spelled with a 'c.' Mr. Jones — Oh, that just shows you how confused I really am.

Clearing House

Get something you would like to "get off your chest"? That's what the "Clearing House" is for. It has been suggested there should be more letters to the Editor, that people should speak their mind, go in the public interest, write to the Editor and "get it off your chest."

Editor:

How many home owners in this area received notices from their loan company that house payments were being increased? The reason given was "due to a possible increase in taxes and insurance."

We received a notice our payments were jumping \$12. Our payments have increased steadily since the year we bought our home to a total of \$27 a month just for taxes and insurance. Our home will be paid for in 1972.

In checking with friends who have loans with the same loan company, one friend's payments were increased \$20 and he owes \$150. Another was increased \$9 and he owes \$500. I also found out one couple who took early retirement is having to sell their home because they can't pay the increase. Another lady due to retire soon who bought a home she thought she could afford is having to sell. I'm sure there are lots of people in this state who have had their payments increased.

The reason for this increase was in last week's Amarillo paper and the Pampa Daily News Wednesday (Feb. 26) The insurance board in Austin has recommended these increases: Statewide extended average, 6.9 percent; fire insurance, 17 percent, and homeowners policies 18 percent.

(The Amarillo paper stated 13.17).

Also recommended was a \$250 deductible on all claims. Who can afford that kind of insurance?

They claim the reason was hailstorms in Amarillo and Dallas last year. Hailstorms and hurricanes don't occur every year in the same place nor every year. For that matter, besides, look at the premiums paid for years before the storm. In fact, homeowners had probably paid enough to pay for their damages. Now they're asking homeowners to pay now or (pay twice).

Please write your protest of this high rate increase to Preston Smith, Ben Barnes, Grady Hazlewood and Mahoff Abraham. The more who write, the more our state officials will listen.

Mrs. Dewey Palmitier
1508 Hamilton

HOW TO ADDRESS OUR LAWMAKERS

You may want to write your opinion and representatives in Washington and Austin. Here are their addresses:

STATE
Rep. Malou Abraham, Chandler, Texas
Sen. Grady Hazlewood, Canyon, Texas

FEDERAL
Rep. Bob Cramm, 297 Cabinet House Office Bldg., Washington, D.C. 20512
Sen. John Tower, Senate Office Bldg., Washington, D.C. 20525
Sen. Ralph Scarborough, Senate Office Bldg., Washington, D.C. 20524

PAUL HARVEY NEWS

Court's Discriminating: The Law Should Be Color-Blind

By PAUL HARVEY

If you were to misbehave in a courtroom — shout obscenities at a judge, profane the judicial process with vehemence, violence and violence — you'd be thrown out and locked up for contempt within minutes.

How come some accused professional disturbers of the peace are able to get away with it day after day after day?

Page two. Maybe it was once true that there were two standards of justice in the United States, one for the rich who could afford highfalutin lawyers, and another for the poor wretch who just took his lumps and went summarily to jail.

Then came a series of Earl Warren Court decisions intended to protect the rights of the poor wretch but the court overran its headlines and now we find our courts protecting the rights of wrongdoers at the expense of society generally.

Today crime is increasing 12 times faster than our population is increasing. In Washington, D.C., crimes of violence increased 26 per cent in just the past year.

Chicago courts are so hamstringing and — or lenient that its locked-up juries are now serving more time than are its criminals.

Similarly, in our race to erase racial wrongs in the area of school segregation, we've gone so far in the opposite direction that we are hurting the blacks we'd meant to help.

In Monroe, La., Carroll High School in an all-black neighborhood has an all-black faculty and student body. Carroll High is academically excellent and athletically superlative; its teams have clobbered everybody.

So there is much race pride

and school pride in Carroll High.

But the new law says "integrate," mix-up the races however necessary. And Carroll students were court-ordered to transfer to other schools.

The mayor of Monroe, W.L. Howard, much respected by both races, went to Carroll High and told an assembly of 600 students that they did not have to leave their school if they did not want to. He promised that no policemen would arrest anybody for attending Carroll High if he or she wanted to attend Carroll High and the mayor got a standing, cheering ovation.

A federal court order from a federal court in Shreveport to "show cause" why he should not be cited for "willful interference with a court order." What is it we're seeking, Americans? Are we demanding homogenized integration with blacks sprinkled among whites, at a ratio of one-to-10 wherever, and by coercion if necessary?

Or are we seeking, in the American tradition which allowed us to assimilate and absorb all other ethnic groups, legal equality and cultural pluralism?

The law should be color-blind. In New York State, school students, quite properly, are allowed to choose which school they wish to attend. Presumably they usually choose the one nearest home. The law says they may.

But the law which our federal government is seeking to enforce on the citizens of four Southern states says "If you are black you have to move over there; if you're white you have to move over there..."

The courts are, in effect, discriminating. The law should be color-blind!

Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)

QUESTION: — With 41 per cent of Nixon's total budget going to education, health, welfare, job training programs, income security and veterans' programs, is this simply a form of the welfare state? If so, was Henry Hazlitt right in his brochure, "Life and Death of the Welfare State" when he said, "Only if the modern state can be held within a strictly limited agenda of duties and powers can it be prevented from regimenting, conquering and ultimately devouring the society which gave it birth?"

ANSWER: — Government was only intended to protect people in their rights to life and property. When it gets into doing anything for people that it was not intended to do, it is in the welfare state category. As soon as political means are used to enable the state to

exercise power over some people for the benefit of others, then that society has started on the road to self-destruction. There will be an ever increasing clamor from people for the benefits the state hands out. And since the state has nothing except what it seizes from the people, the state, to meet the demands of those who want its benefits, must take more and more away from the people. In this way the state eventually eats up the seed corn, or capital, and everybody suffers.

History shows, if you read about the rise and fall of different civilizations, that any society always goes to pieces by the state confiscating production and regulating the producers to the point where each individual or family tries to scratch a living for itself out of the earth without producing any surplus to exchange with others. This happened at the fall of the Roman civilization, and the ensuing Dark Ages lasted nearly a thousand years.

With Some Reservation

By INJUN WOODY

You know about those Tennessee Walking Horses? Mostly, they are raised and trained in the Atlantic and Southeast states. A good careful trainer can train a horse to perform with the Tennessee Gait over a period of time.

But all is not as it seems at least not all the time. There are a bunch of lazy unscrupulous owners who don't take the time or effort to train the gaiters. Instead they put chemicals on the horse's leg to blister it.

This is known as the "soreing" process. They put chemicals such as oil of mustard to the forefeet, and attach chains which beat on the sore area until the pain makes the horse "gait."

It is what "sportsman" means to these geeks.

After 20 years, it seems some legislation is about to come out of congress to prevent such cruelly treated animals from being shown in a horse show under penalties of \$3000 fines and six months imprisonment.

That ain't the right kind of punishment. These offenders should have their shin-bones blistered and made to perform in the showing for six months with a Tennessee Walker leading them by a ring in their noses.

The Lighter Side

By DICK WEST
WASHINGTON (UPI)—New political labels are being fabricated with unprecedented frequency these days. Which is causing a lot of confusion among the electorate.

Many people are uncertain as to which label applies to them. They can't tell whether they are "effete snobs," "pseudo-intellectuals" or "supercilious sophisticates."

Well, things are bad enough without having an identity problem. Therefore, as a public service, I have prepared a little scorecard that may help you identify yourself.

Listed below are a number of national issues. Check where you stand on each and then look at the bottom of the column to find the label that fits.

1. Next to Garrett A. Hobart, Levi P. Morton and James S. Sherman, Spiro Agnew is my all-time favorite vice president. () Agree () Disagree () Undecided.

2. Given a choice between liberty and death, I would not hesitate to choose the former. () Agree () Disagree () Undecided.

3. Never trust anyone over six months old. () Agree () Disagree () Undecided.

4. Busing children across town to achieve integration is wrong. The kids should have to walk to school the way I did. () Agree () Disagree () Undecided.

5. Best way to improve the quality of education in America is to burn down the schools. () Agree () Disagree () Undecided.

6. The best way to end the war in Vietnam would be to change the name of that country back to Indo-China. () Agree () Disagree () Undecided.
