

# Trustees Nix Going To Seven

By WANDA MAE HUFF  
News Staff Writer

The 10-year old question of calling an election to form a seven-man school board died for a lack of a second Monday night when Pampa's five school trustees considered the question for the third time this year.

After John Gikas submitted his motion to call the election for a seven-man board, he defended his motion on the grounds, "every trustee is an ambassador for the school. We're public relations agents for the school. For us to remain a five member board is selfish on our part to those we serve."

Of the other four trustees, two, Jimmy Thompson and Bob Carmichel, didn't say if they did or did not favor a seven man board. One, Warren Hasse, stated he "had no objections to a seven-man board, but not at this time." The fourth, Dr. R. M. Hampton said "I don't think we ought to change. I think we're doing a good job."

Explaining his motion, Gikas said, "I think if we're sincere in our belief seven men could do a better job than five men, we should do it now and not put it off any longer. We've been told we might consolidate any time, and consolidation would require a seven man board by law, but we're as far from that as we've ever been. With seven men we'd have better representation for our teachers, children and taxpayers than we have with five."

When Dr. Hampton questioned Gikas on the disadvantages of a seven-man board, Gikas said, "It would probably take longer meetings for more discussion. The greatest disadvantage is that we would all have to resign and if we wanted to serve again, we'd have to submit our names as candidates for reelection. I think it's for our own personal reasons that we don't."

Dr. Hampton, commenting that the district's 294 teachers are also ambassadors, asked "do you think two more ambassadors would enhance our public image?" "With seven men it would be more difficult to have all of them at a meeting. The attendance probably would be unwieldy and it would be difficult to have a majority. I can't be sure seven people would be smarter than five. This year we've always had at least four members here, and most of the time, all five," Dr. Hampton said.

Hasse, stating he "would be glad to spread the complaining phone calls among seven trustees, said he "had no objections with seven, but we function well as five, and most

## Mac Wofford Named To City Manager's Position

**MEN AT WORK** — Shown here, left to right, are Pampa's Mayor Milo Carlson and City Manager B. M. Wofford as they met this morning with other city officials to dispose of several major projects including awarding of bids for the city's water treatment plant. Other

ers in the photo seated at the table on the right are R. B. Cooke, public works director; Commissioners Arthur J. Rohde and Leo Braswell, and Wayland Merri-man, consultant engineer for the city.

### Steps From City Engineer's Slot

By TEX DeWESE  
News Staff Writer

B. M. (Mac) Wofford, acting city manager since the recent resignation of Charles Hill, today was named city manager by action of the Pampa City Commission.

Wofford, 34, a former city manager at Hillsboro, Texas, had been city engineer here since 1966.

Mayor Milo Carlson made the announcement at today's commission meeting and it was confirmed with adoption of a resolution that had unanimous approval by the mayor and Commissioners Arthur J. Rohde and Leo Braswell.

Commissioners George B. Cree Jr. and Hugh Burdette were absent. Wofford was employed at a salary of \$16,500 a year with \$1,500 automobile expense and \$1,500 for other expense allowance, making a total of \$19,500 annually.

City Manager Hill, who resigned Sept. 1 to take a similar post in Beaumont, received \$22,000 a year.

Wofford's agreement with the city was made retroactive to Sept. 1.

Several other major items were on the commission agenda today.

Contracts were awarded to A.E. Mitchell and Co. of Dallas for construction of Pampa's water treatment plant on a low bid of \$1,302,550 and for construction of a transmission line from the plant into the city's water distribution mains on the low bid of \$13,907.90 by Foran Construction Co. of Amarillo.

A contract was awarded to E.W. James of Pampa for completion of the Hike and Bike Trail along Red Deer Creek from Charles to Evergreen streets. His low bid was \$3,649.50 for the paving with the city agreeing to haul all materials.

Western Industrial Supply Co. of Amarillo was awarded the contract on a low bid of \$16,824.

**B. M. (Mac) WOFFORD**  
... named city manager

\$5,680.89 for water utilities supplies to be used in connection with the U.S. Hwy 60 improvement through the city.

Authorization was given to advertise for bids to be received Oct. 27 for purchase of a one and one-half ton truck chassis, one hydraulic aerial beam and one utility body.

The firm of Brasher, Coyette & Rapier of Lubbock was employed as architects and City Atty. Bob Gordon and the firm of Dumas, Huguenin and Booth of Dallas were named as bond attorneys for Pampa's proposed civic auditorium.

Jack R. Hood, 2336 Duncan, was appointed to the City Planning and Zoning Board to fill the unexpired term of Luke McClelland, resigned. The term expires Dec. 31.

Commissioners approved an annual schedule of payments to the Canadian River Municipal Water Authority of approximately \$27,000 for the fiscal year beginning Oct. 1.

Salary changes for city employees as set up in the 1970-71 budget were approved and an okay was given for payment of monthly bills in the amount of \$16,824.

### Auditorium Group Looks At Model

Preliminary plans with a miniature model of Pampa's proposed civic auditorium were studied late this forenoon by city officials and members of the M.K. Brown Memorial Auditorium Committee in a meeting at City Hall.

The model presented today by architect Herbert Brasher of Lubbock provides for a 1,500-

seat theater and a dining area with a seating capacity of 750 persons.

Brasher said it could be built for around the \$1,000,000 figure originally suggested.

No definite decision on the building plans was made today and Mayor Milo Carlson said other plans would be studied with the architect.

It was agreed, however, that a bond issue of \$800,000 would be sought from Pampa voters to go along with the immediate gift of \$400,000 in cash from the Brown Foundation.

Date for the election is expected to be called soon at a special meeting of the city commission.

The city's contract with the Foundation calls for the bonds to be paid off with income from Brown Estate property and royalties.

### Tito Gives Up Rule After 25 Years

**BELGRADE (UPI)**—Yugoslavia's aging President Tito, who has guided his nation through a quarter-century of increasingly liberal Communist rule, says a collective leadership will replace him at the head of the government when he is gone.

Tito, still hale and hearty at 78, spoke to a meeting of Zagreb social and political workers Monday night.

"It is true that I have been on this post a long time and I would like to have more possibilities to deal with some other matters," he said.

The announcement followed a resembled in overall shape—Tito's 18-month-old plan for the future rule of the Communist party.

Under the Yugoslav constitution, Tito now heads both party and government. But at the ninth party congress in March, 1969, he announced formation of a 14-man executive at the head of the party composed of two top Communists from each of Yugoslavia's six republics and one each from the two autonomous provinces of Kosovo and Vojvodina. It contained the party's ranking ideological, theoretical and political minds.

The new governmental unit, Tito said Monday, would be similarly composed—two or three men from each republic plus representatives from "all major social and political organizations," including the party.

He rejected any speculation that such leadership might constitute return to the old Soviet-type politburo style of government.

The 25-member International Executive Board of the UAW was to meet this morning to map strategy for its negotia-

### HEAVY TANKS IN ISRAEL

## Palestinian Guerrillas Reject Cease Fire, Vow To Fight On

**By United Press International**  
The Jordanian army eased its "shoot-to-kill" curfew in Amman today, but the Palestinian guerrillas rejected a government cease-fire and vowed to fight on. There was growing speculation of possible outside intervention to help King Hussein.

Reliable reports reaching London said there were heavy tank movements in Israel Monday night, but it could not be determined whether they were maneuvers or deployment for possible action in the Jordanian civil war. Israel has said it would intervene only if its security were endangered, but a senior military commentator in Israel said Monday night the situation was "serious."

In Washington, the Nixon administration is considering a request from King Hussein for assistance. The 34-year-old monarch was understood to have made similar appeals to Britain, France and the Soviet Union.

American forces in Ft. Bragg, N.C., and Stuttgart, Germany, have been alerted to stand by for possible action to evacuate some 400 American citizens in Jordan. The U.S. 6th Fleet in the Mediterranean already is on alert.

Yasser Arafat, leader of the guerrillas, said in a broadcast over Damascus Radio today about 8,000 Palestinians have been killed and "tens of thousands" wounded during the six days of fighting. He termed the cease-fire called by Hussein "a trick aimed at misleading our Arab masses and the Arab public opinion."

There still was no official confirmation that Syrian troops which invaded Jordan were in control of Irbid, Jordan's second largest city. Syrian Information Minister Hammoudi el-Kabbani denied any Syrian military intervention and Damascus Radio warned of an impending invasion, probably from the United States.

In Israel, Prime Minister Golda Meir returned from her U.S. visit Monday night and Maj. Gen. (Ret.) Haim Herzog, former intelligence chief of the Israeli army and now a senior military commentator, said in a radio interview "I don't think that Israel can sit back and view with equanimity a radical change in borders within the area."

He said the Syrian invasion of Jordan is "very serious so far as Israel is concerned."

### GM, UAW Huddle In Talks With 372,000 Persons Idle

**DETROIT (UPI)**—For the first time since it struck giant General Motors Corp. a week ago, negotiators for the United Auto Workers meet today for face-to-face bargaining with GM officials, no quick settlement was likely.

The strike has idled nearly 370,000 American and Canadian employees of the world's largest manufacturer, and was beginning to affect the already shaky national economy.

The 25-member International Executive Board of the UAW was to meet this morning to map strategy for its negotia-

tions session with the company. Union spokesmen said it was not known whether UAW President Leonard Woodcock for Irving Bluestone, the codirectors of the union's GM Department, would participate in today's bargaining.

Both Woodcock and Bluestone made pessimistic weakened statements concerning the duration of the walkout.

While the national negotiations were in recess, Woodcock, Bluestone and other top UAW officials traveled around the country meeting with local union leaders on direct negotiations since the strike began.

### Manson's Bizarre Family Rides Black Bus To Take Over Ranch

**LOS ANGELES (UPI)**—Charles Manson drove into the Spain Ranch in a black bus in 1968 with his bizarre family and took the place over, never doing a bit of work himself.

Ruby Pear, a wizened woman in her 60s, testified Monday at the Tate-Bianca murder trial that Manson gave the orders to the few men and numerous girls who accompanied him.

Miss Pearl, who was stable manager for the ranch for 20 years, said the group called themselves "The Family." She said the blind, 83-year-old owner of the old western movie

lot let them do what they liked. Manson, 35, and three young women followers, Susan Atkins, Leslie Van Houten, and Patricia Krenwinkel, are on trial for the slayings of actress Sharon Tate and six other persons in August, 1969.

The state contends they were living at the ranch when the slayings occurred. Police Sgt. William Lee testified shell casings found at the ranch were fired from the same pistol used in the slayings.

Lee, a ballistics expert, previously had testified slugs taken from the bodies of three

victims at the Tate estate were fired from a long-barreled revolver.

### WEATHER

**PAMPA AND VICINITY**—Intermittent rain and cooler today, tonight and Wednesday. High today near 66, low tonight near 50. High Wed., upper 60s. Northerly winds 15-25 mph and gusty. Probability of rain 80 today, tonight, and 50 per cent Wednesday. High yesterday, 92, low today, 58. Moisture, 2.17.

### Balloonists' Fate Remains Doubtful

**EAST-HAMPTON, N.Y.** (UPI)—The fate of two men and one woman aboard a 10-story helium-filled balloon remained in doubt Monday night after the crew reported they were going down in rain and rough weather one day out on an epic cross-Atlantic voyage.

The Coast Guard said at first the balloon "was ditching," but later relayed a report from one of the rescue cutters headed toward the scene that it had sighted "a bright object" hovering just above the ocean's surface at the approximate point the balloon radioed it was going down, 400 miles southeast of St. John's, Newfoundland.

A Coast Guard spokesman here said it was not known if the craft had actually struck the water or was hovering just above it after sinking rapidly when it ran into rain and strong winds in a cold front.

The Coast Guard said it had lost radio contact with the balloonists, who had reported at 7:05 p.m. the ship was in trouble and was sinking.

Three Coast Guard cutters were headed toward the scene. The U.S. CGC Duane had reported the bright object, the Coast Guard said, but did not know if it had maintained visual contact. The Duane was less than 50 miles away, but the Coast Guard did not know how long it would take to reach the scene because the exact sea conditions in the area were not known.

**Edie Adams, Hubby, Announce 'Split'**  
**HOLLYWOOD (UPI)**—Actress Edie Adams and her husband, Marty Mills, a photographer, have jointly announced they are separating.

The couple, married in 1964 and the parents of a 2-year-old son, said there were no plans for divorce.

### This Week's Grid Contest Winner Proves Femmes Can Pick 'Em

It was a close race in last week's Football Contest sponsored by The Pampa Daily News and 17 local merchants.

Four entries tied by selecting 13 out of 15 winning teams. First, second and third place had to be decided by the tie-breaker.

Mrs. John Lyle, Jr., 2122 Hamilton, Pampa, was declared first place winner; Julian P. Carlson, 112 N. Nelson, second place winner; and R.A. Herring, 418 Yeager, third place winner. Wilburn Nail, 737 Deane Drive, was nosed out of third place

by giving Odessa High too many points.

Mrs. Lyle won first place by predicting Pampa would make it two wins in a row, which it did by defeating Odessa High 14-7. Mrs. Lyle picked Pampa to win by a score of 24 to 15.

The other leaders picked Odessa to win.

This week's contest page is to be found elsewhere in this issue. Study the games, pick the teams you think will win and you may be one of this week's winners.

### Two Pampans Hurt In Two Car Accident

Two Pampa residents were reported in either satisfactory or good condition at Highland General Hospital after a two-car crash Monday night on Farm-to Market Road 749.

R.C. Brown is listed as satisfactory and Ted Reeves is said to be in good condition today. Mrs. Brown, carried to the hospital at the same time was treated and released.

Investigators said the Brown car was struck in the side as it slowed to turn into their driveway south of town. The Reeves vehicle, they said, apparently struck the Brown car, overturned once and sheared off a utility pole.

# Mainly About People

Entire Cup collection. Some antiques and odds. 705 N. Gray.

Garage sale: Tuesday until 7:12 Coffee.

Trash and Treasure rummage. 321 S. Cuyler, Wednesday.

## Thieves Go To Lot Of Trouble For Nothing

Using pry bars, key hole saws, hammers and an axe, thieves broke into Mitchell's Grocery and Market, 638 S. Cuyler, before midnight Monday and got very little for their trouble, according to Frank Morrison, store manager.

Using all their tools, the burglars cut a hole in the roof above the office and dropped to a countertop four feet below. Police Sgt. Dan Honeycutt reported, Honeycutt said the burglary was before the rain which wet everything in the office.

Morrison said the place was ransacked, both files and drawers in what appears to have been a search for money. None was found and Morrison said, "very little, if anything, was taken."

Officers said the culprits are believed to have been wearing gloves.

## Hollywood Goes To Moundsville

MOUNDSVILLE, W.Va. (UPI)—Hollywood came to Moundsville this week.

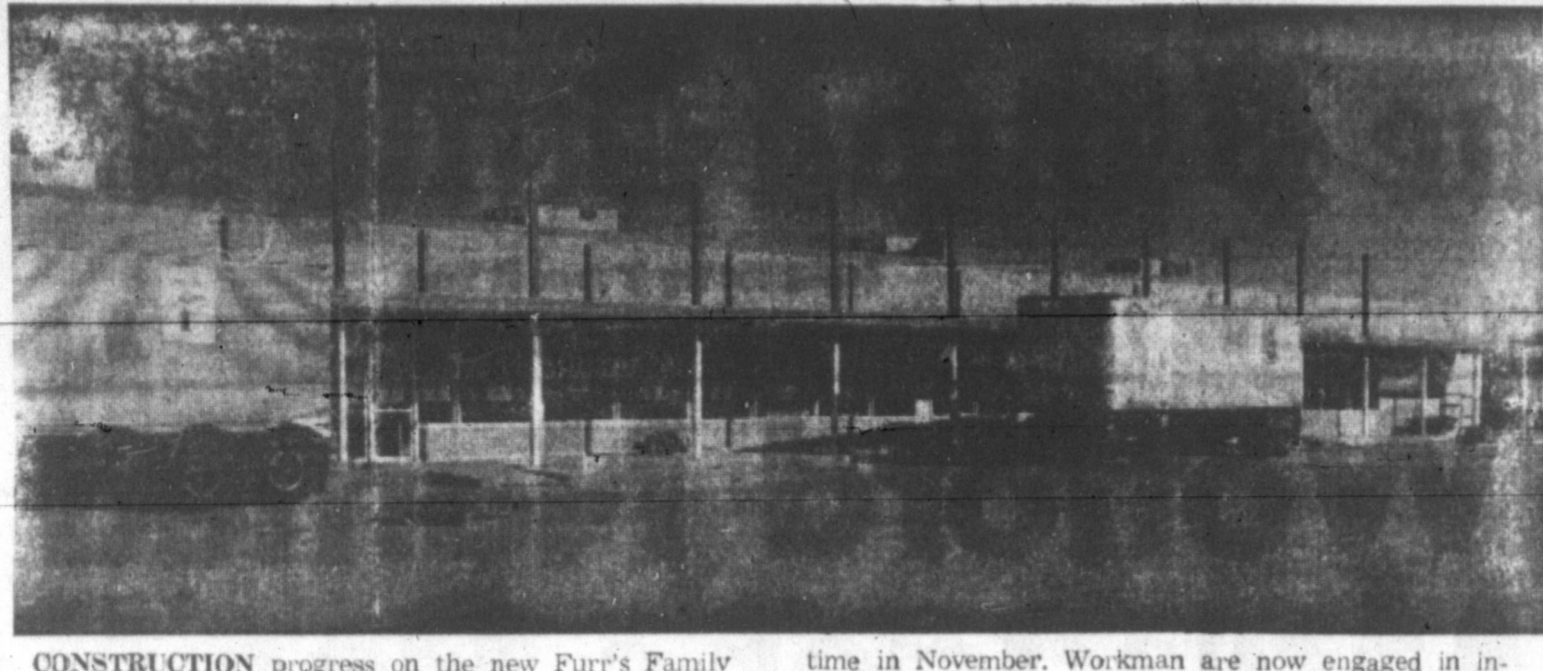

Actor James Stewart and George Kennedy, and dozens of technicians, stand-ins, stuntmen and antique cars descended on the mountain town to film "Fog's Parade."

The film crew said the city was selected because the Moundsville penitentiary requires no retouching to simulate the 1930s.

## Obituaries

### MRS. CLYDE A. MOORE SR.

Funeral services for former Pampa, Mrs. Clyde A. Moore Sr. of Euless were to be held today in the First Methodist Church in Bedford.

Mr. Moore, who was wire chief for Southwestern Bell Telephone Co. in the Pampa area before retiring, preceded her in death in 1969.

Survivors in this area are Clyde A. Moore Jr. of Borger, formerly of Pampa, and Mrs. Lloyd McClain of Borger.

Attending funeral services from Pampa are Mr. and Mrs. Tommy Stall.

### BRYON LILLY

Private funeral services for Bryon O. Lilly, 71, will be held Thursday at Duenkel Funeral Home Chapel with the Rev. Martin Hager, pastor of Presbyterian Church, officiating. Burial will be in Fairview Cemetery.

Mr. Lilly died Sunday at his home in Santa Anna, Calif.

The family requests memorials be sent to Boys' Town.

Survivors are his widow, Eunice of Santa Anna; one daughter, Mrs. Gail Clever of Santa Anna; one son, E. Kim of Pasarobles, Calif.; his mother, Mrs. Inez Lilly of Amarillo; two sisters, Mrs. Elizabeth Heising of Albuquerque, N.M., and Mrs. Lorene Whittington of Amarillo; two brothers, John D., of Amarillo and Otis L., of Austin.

### CLARENCE HAYNES

Funeral services for Clarence Aubrey Haynes, 62, of 789 N. Faulkner, will be held at 2 p.m. Wednesday at Carmichael-Whitley Colonial Chapel with the Rev. Ed. Boyte, pastor of Calvary Baptist Church, officiating. Burial will be in Memory Gardens Cemetery.

Mr. Haynes was dead on arrival at Highland General Hospital after suffering an apparent heart attack Monday afternoon.

He was born in 1907 in Concho County. He was a member of the Baptist Church and was a veteran of World War II, serving in the Navy. He was employed as a welder for Cabot for 18 years, and retired in 1969.

Survivors are his widow, Edna, of the home; one son, Don, of Yukon, Okla.; one brother, J.C. of Winters and four grandchildren.

## Scene

### Spinningling, spectacular electrical and thunder storm kept lots of Pampans sitting on the edges of their beds last night.

sounded almost like the thunderstorm recording played at every performance of "Texas" in Palo Duro Canyon.

Jack Feltis carrying a portfolio of United Fund information. Jack Hood bringing good tidings of Wayne Jones being named Optimist of the Year.

Newt Secret explaining the club, not he, received the Boys' Work Award at the Optimist Club's district meeting in Fort Worth recently.

### A LITTLE LATE

HOUSTON (UPI)—Charles V. Hopkins received a letter Monday from his local draft board in Fort Wayne, Ind., wanting to know his whereabouts and his draft eligibility.

Hopkins, an Army sergeant serving as the enlistment adviser at the Army Reserve Training Center, enlisted 15 years ago.

"I joined the Army before I was old enough to register," he said. "You don't think they'll take me away from this job to."

## Party Labels Passe For Texans, Bush Tells Houston Audience

EDITOR'S NOTE: Rep. George Bush, R-Tex., candidate for US Senate, will be in Pampa Monday for a Hamburger Supper at 6:30 p.m. in Hobart Street Park. Tickets are available at GOP Headquarters, 125 W. Kingsmill.

By United Press International

The subject of Rep. George Bush's, R-Tex., voting record was the topic for both Senate candidates Monday.

Bush claimed his record as a congressman is the reason he should be elected. Democratic candidate Lloyd M. Bentsen Jr. said it was the reason he should win.

Bush said in Houston his record in the House of Representatives "is a new record."

He said he was worked for a strong partnership between federal, state and local governments on environmental problems, has supported sharing of federal funds with the states and has voted for draft reforms. He also mentioned his sponsorship of a bill designed to reform the post office and said his views on other issues are well known.

"The people of Texas are no longer interested in just a party label," Bush said at the University of Houston. "Only the man can solve the problems—not his party label. If there is one sure way to turn off the concerned young people in our state today, it's by trying to sell them the idea that you have to pull the one-party level like it's always been done. In 1970, I'm afraid that old dog just won't hunt in Texas."

Registered Democrats easily outnumber registered Republicans in Texas even though Sen. John G. Tower, R-Tex., has won two terms. But Tower is the first Republican senator from Texas since Reconstruction and the state has never had a Republican governor in this century.

Bentsen criticized Bush's voting record because he said it followed too closely the inflationary dictates of the Nixon administration. Bentsen told a Dallas luncheon meeting Republicans "have utterly failed to keep this country on the move and to straighten out the economy" and Bush's voting record amounts to an endorsement of the Nixon economic policies.

Later in Fort Worth Bentsen blamed the Nixon administration for announced cutbacks in Texas highway contracts. He said Nixon was diverting money earmarked for state highway funds.

"The Highway Trust Fund was created in 1956 for the sole purpose of building highways," Bentsen said. "Now, for the first time since its creation, the Texas Highway Department has had to cancel the scheduled awarding of contracts in December. This is due to the Nixon administration's robbing Peter to pay Paul—its permitting federal agencies to borrow money from the Highway Trust Fund to finance their own operations. At a time when transportation is becoming more and more of a problem, it is especially unwise to permit these raids on highway funds."

Bentsen's remarks echoed those made last month by Gov. Preston Smith at the National Governors Conference in Lake-of-the-Ozarks, Mo.

## FOR AFS Summer Program Chairmen Named

Mr. and Mrs. Howard Graham were named co-chairmen of the American Field Service's Americans Abroad program at a meeting Monday night in the home of AFS president and Mrs. James E. Massa, 1000 Christine.

The Americans Abroad Program, sponsored by the AFS, will be presented to members of the Pampa High School junior and senior classes on Tuesday, Sept. 29.

Special guests at Monday night's meeting were Regina Stuchli, AFS student from Campinas, Sao Paulo, Brazil, who is making her home this school term with Mr. and Mrs. R.W. Stowers.

An announcement was made of an area meeting of AFS to be held Oct. 7 in the home of Mrs. J.L. Prendergast, 801 Park, Panhandle.

A pot-luck supper will precede the general discussion period conducted by Mrs. Christie Barber, regional supervisor of AFS and Miss Gail Hadley, area AFS supervisor for Texas.

Chapter presidents and members, AFS students and host families, past host families, American Abroad students and officials, teachers and school officials are invited.

Attending the local meeting Monday night in the Massa home were Mr. and Mrs. R.W. Stowers, Mr. and Mrs. W.D. Price Jr., E.L. Henderson, Mrs. Bruce Riehart, Mrs. Julian Key, M.B. Smith, Mr. and Mrs. Joe Daniel and student representatives, Paula Homer, Mary Hasse, Jim Burnham, John McCarroll.

## McAllen Boasts Of Low City Tax

MCALLEN — The 65 cents per \$100 based on 60 per cent of the real value recommended in the budget of city manager Bill Schupp of McAllen is believed to be the lowest in Texas.

The \$3.18 million budget forecast its collection of \$940,000 in sales tax, \$400,000 from tolls on McAllen's bridge to Mexico, \$108,000 from oil and gas royalties on parks, streets, alleys and public building lands and the remainder from franchises, fees, fines, and rentals.

## Fire Prevention Week Group Slates Wednesday Meeting

Members of the Fire Prevention and Safety Committee of the Chamber of Commerce, will meet at 10 a.m. Wednesday in the Chamber of Commerce office. Arrangements will be made for observance of Fire Prevention Week, Oct. 4-10.

Fire prevention is one of the most important programs engaged in by the Chamber of Commerce as it means dollars saved to every citizen of the community, Fatheree said.

The committee has just completed a successful Yard and Alley beautification program, with awards to be made at the Chamber of Commerce membership luncheon Monday, Sept. 28. In commenting on the yard contest this year, Fatheree said interest was keener than in previous years and he felt the program was definitely having an effect on the beautification of our town and community.

Members of the Fire Prevention and Safety Committee are:

### GETS REVENGE

STEYNING, England (UPI)—Police traced a fishy smell to a three-foot long dead shark under a courtroom floor. An anonymous telephone caller told a newspaper he had placed it there and named it Ronald after a policeman who had prosecuted him.

## Optimists Single Out Member For Special Honor Award

Wayne Jones, 1017 S. Banks, was named Optimist of the Year during the officer installation banquet Saturday in the Optimist Boys' Club.

Although he has not had a boy in the Optimist Boys' Work program, Jones has been active for a number of years.

He coached the baseball and football programs. During the current year, he served as president of the Pampa Babe Ruth League, vice president of the Tiger League Football program and was director of the Southwest Regional Babe Ruth Baseball Tournament held in Pampa this summer.

Optimist Club officers installed Saturday included Jack R. Hood, president; Larry Andrus and Robert R. Jones, vice presidents; Newt Secret, executive secretary-treasurer; Joe Skinner, Lee Fraser and Tom Cox, directors.

WAYNE JONES honored Holdover directors are Paul Adair, Bill Stephens, and Ralph Tyler. E.W. "Bud" Hogan is immediate past president.

## SWBTC Issues UF Challenge

The United Fund Team Southwestern Bell Telephone Co. has issued a challenge to should make other organizations sit up and take notice.

Headed by Mary Cook, Paul Wilhelm, Bill Wright and Rand Phillips, telephone employees have tossed the gauntlet. "We will average more per employee on a yearly basis and will increase our giving to the United Fund more or a percentage than any other company in town that has 50 employees or more."

SWBTC general manager George Newberry said: "Last year we collected \$2,950.00 for an average of \$28.73 per person. We're going to beat that by 10 per cent or more."

Newberry said the inner-plant drive is more than 90 per cent complete. "We'll wrap it up by Friday. We have some people out of town in Corpus Christi and other places. We want to give them a chance to participate, too!"

## Yarborough Calls For Ousting Of Demo Committee Treasure

WACO, Tex. (UPI) — Sen. Ralph Yarborough, D-Tex., called Robert Strauss "an exponent of crooked politics" Monday and urged his resignation as treasurer of the Democratic National Committee.

Yarborough criticized Strauss for opposing a resolution calling for voter registration by party. The resolution was proposed last week at the Democratic state convention.

"A person opposed to basic honesty in politics can do the Democratic party no good in the key and sensitive position of party treasurer," Yarborough said.

"By Strauss' exhibition of his true colors on Sept. 15, as an exponent of crooked politics he forfeited the respect of Democrats over the nation and ought to resign as national treasurer."

Speaking at an appreciation banquet in his honor, Yarborough said a great flaw in the Texas law governing political parties is its failure to protect one party from the deliberate raiding of its election by another.

The treasurer of the Democratic party's national committee should be in the forefront of moves for political honesty and for laws and rules to permit a party to protect itself, Yarborough said.

The state convention's committee on platform and resolutions first approved a section in the platform calling on election law changes requiring persons to register their party preference when they register to vote.

But state Sen. Oscar Mauzy, D-Dallas, came back to the platform committee after meeting with Gov. Preston Smith and others and said he was told "there will be a bitter floor fight" unless the section was removed. It was taken out over strong protest by some liberals on the committee.

Yarborough said, "at least 200,000 Republicans" voted in the May 2 Democratic primary to help defeat him. He lost the primary race to Lloyd M. Bentsen Jr. by 50,000 votes.

Yarborough said the Republicans nominated a person in the Democratic primary "who had supported Republican candidates in other elections."

He said the most urgent political reform before the Texas Legislature next year will be "a bill for honest political conventions and honest political primaries."

## Minister Protests B&C&T&A Movie

WILLIAMSON, W.Va. (UPI)—Calling on "thousands of people to lift a voice for God and conscience," a minister and three members of his congregation Monday stood in a downtown outside a movie theatre to protest the showing of "Bob and Carol and Ted and Alice."

The Rev. Richard Heather of the Calvary Baptist Church said the R-rated film "portrays wife swapping and free love and makes fun of decency." He said he feared theatres here might eventually turn "to that Swedish stuff."

## Nader Charges Some Americans Ill-Fed

WASHINGTON (UPI)—An associate of consumer advocate Ralph Nader charged Saturday that food manufacturers devote much advertising to non-nutritious food with the result that many Americans, poor and rich, suffer from malnutrition.

James Turner, a consultant with Nader's Center for the Study of Responsive Law, spoke at a hearing on nutrition that was sponsored by the Democratic Study Group, an organization of liberal House Democrats. Reps. Thomas S. Foley, D-Wash., and Benjamin S. Rosenthal, D-N.Y., the organizers and Paul J. McCloskey, R-Calif., attend.

Turner listed several advertised brand name food products that he said are seriously deficient in nutritional value. A pancake syrup, he said, "contains only 6 per cent maple syrup," while a popular grape drink advertised as "pure" includes "water, sugar, fumeric acid and artificial color." An orange juice drink, he said,

contained only 28 per cent juice.

A cheese spread contained 50 per cent water, a 17 ounce can of whole kernel sweet corn had only 11 ounces of corn, "the remainder is liquid," Bacon, Turner said, shrinks to less than 1-3 its original weight and "thus, cooked bacon may cost over \$3 per pound."

"White bread, which has more than 20 nutrients removed during processing, is called enriched when only four nutrients are returned," said Turner.

"Over 95 different ingredients and chemicals can be added to bread by the manufacturer as he desires without adding them to the label," Turner said.

## Agnew To Run Bulldozer

MEMPHIS, Tenn. (UPI)—Vice President Spiro T. Agnew will join a labor union and break ground for a new Internal Revenue Service computer center Tuesday, according to state Republican officials.

A spokesman said Sunday Agnew had agreed to drive a bulldozer instead of using the traditional ceremonial shovel to break ground for the multimillion dollar center.

To conform with contract specifications, the vice president will be awarded an honorary membership in the international union of operating engineers by a union representative before he boards the earth mover.

HENDERSON, Tex. (UPI)—A 17-year-old youth who ran out of his cell in the Rusk County jail when the door was opened to release another prisoner, was recaptured early Saturday in the sheriff's office. The youth got no further than the short flight of stairs leading from the office to the jail cells.

## Family Still Unable To Use Home Blasted By Tear Gas

PASADENA, Tex. (UPI)—It's been three weeks since the police mistakenly teargassed the home of T. J. Cromeens. But the family still hasn't been able to live in their house.

They moved into a motel immediately after the Aug. 31 incident and from there into a \$200-a-month apartment.

"We still can't move into that place," Mrs. Cromeens said Sunday. "It not only smells, the atmosphere burns your eyes and skin."

The family has also had to pay for the repairs to their home, cleaning their clothes, medical bills resulting from treatments for the effects of gas plus their regular house payment. Houston Police Chief Herman Short has said his department would pay all the family's expenses.

"They told us that when we get all of the expenses, they will have the City Council to al-

lot them so much money to pay us," Mrs. Cromeens said. She said she has not totaled the family's extra expenses so far.

"Chief Short is just a prince of a man," she said. "But they're just like us. They don't have a fund set aside. We don't have a fund set aside, either. But we have every ounce of faith and trust that they will reimburse us."

Two informants, who said two men suspected of shooting a deputy sheriff were hiding inside, led police to the house. The officers surrounded the house, hit it with floodlights and through a bullhorn ordered everyone outside.

Inside were Cromeens, his wife—and their two sons: Norman, 17, and Danny, 10.

When no one came outside the police shot tear gas through a window.

"Reports were that we were cowering in the rear of the

house when we heard the command," Mrs. Cromeens said. "Oh, no. We were screaming at each other, and I was on the phone calling the Pasadena police for help."

"My husband was trying to yell to the officers that we had done nothing wrong and to back off. Norman actually started toward the door with a rifle, but my husband stopped him."

"Think of the consequences if he had gone out that door."

## Pat Re-Doing Room Colors

WASHINGTON (UPI)—Pat Nixon is doing some redecorating at the White House. The Red Room will become more crimson and the Blue Room more blue.

The Green Room will stay the same.

Mrs. Nixon's staff director, Connie Stuart, told newsmen today about the First Lady's redecoration plans, which will be submitted to a committee in November.

Mrs. Stuart said the walls of the Red Room will be made more crimson in order to enhance the background of the Dolly Madison portrait.

She said the Blue Room will be changed to become more like it looked 100 years ago. Under Mrs. John F. Kennedy, the Blue Room became a combination of white on white.

Mrs. Stuart said the First Lady may decide to switch from silk fabrics in the White House to cotton and wool in order to give the rooms a more authentic appearance of the colonial era.

## Some Doctors Remiss In Telling Income

WASHINGTON (UPI)—The Internal Revenue Service said today that about half of 3,000 doctors who received \$25,000 or more in government medicare or Medicaid payments in 1968 failed to report a substantial amount of their income.

Meade Whitaker, tax legislative counsel for the Treasury Department, said in some cases the "omission" exceeded \$100,000.

Whitaker gave the Senate Finance Committee preliminary results of audits of doctors' tax returns. The audits were ordered after the committee said there was widespread tax evasion by doctors treating medicare and Medicaid patients.

The committee turned over to the IRS names of 11,000 doctors that it said received medicare or Medicaid payments exceeding \$25,000 in 1968. Whitaker reported on preliminary results of the first 3,000 audits.

"About half of the 3,000 we audited will come up with substantial deficiencies," he said.

He added that "preliminary results indicate a number of instances of substantial, unreported income, including some where the omission exceeded \$100,000."

**DEAR ABBY:** My sister has a beach front Summer place on a lake. She also has two boys, ages 8 and 10, and two girls, 9 and 12. When the weather permits, she lets the boys play on the beach and in the water completely nude. However, she has the girls wear swimsuits.

We have two children, a boy 9 and a girl 11, who would enjoy a vacation at the lake, but I don't like this nude boy bit. My husband says I am wrong.

When I discussed it with my sister, she said it was good to bring up boys without secrets from their sisters, and I should do the same. I half jokingly asked her if she thought Dear Abby would agree with her and she bet you would because you had a pliant sense of fundamental realities. I agreed to write to you and show her your answer. I also agreed to concur with it. What do you say?

**MASS. MRS.** — I'm sorry to disappoint your sister, but my sense of fundamental realities isn't as "pliant" as she thinks it is. Ask your sister how come if it's "good" to bring up boys without secrets from their sisters, it isn't equally good to bring up girls without secrets from their brothers.

**DEAR ABBY:** You advised "New Yorker" who picked up a \$5 bill on the street, to give her companion half, since they spotted it together and she had promised to do so. That may have been socially correct, but it was legally wrong.

I don't know how it is in the other states, but in Utah, one who finds lost property and keeps it, or diverts it to his own use, is subject to arrest. Found property must be turned over to the police who make an attempt to locate the owner. If after a reasonable amount of time, the owner can't be located, the property is then turned over to the finder who then becomes the legal owner. This law is found in the larceny statutes, and is called larceny by finder.

**DEAR ABBY:** I laughed with tears in my eyes when I read that letter from the girl who unhooked her bra to let her premed boy friend give her a backrub. Many years ago, when I was a pre-med student, I used that old backrub technique. I soon learned that if I could get a girl to unhook her bra, even though she was lying on her face, I'd have no trouble after that.

**OLD BACKRUBBER.** (MINNESOTA '29)

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069.

### Senior Center Corner

By LINNIE CHANDLER

Senior Citizens met Thursday afternoon at Lovett Memorial Library with 69 members present. Two visitors, Mrs. Fannie Meredith of Lefors and F.C. Campbell of Austin, were welcomed.

Sponsoring Altruists present were Jay Flanagan, Mrs. Lora Dunn, Mrs. Louise Sewell and Mr. Geneva Tidwell.

Red Cross Volunteers were Mrs. Libby Shotwell, Arthur Rankin and Mrs. Jess Baird. Door prizes were awarded to Mr. and Mrs. George B. Higgins.

Mrs. Ruby Stovall visited her daughter, Mrs. Joye Malicoste and family in Amarillo recently. Van Hamilton of Fort Worth visited his mother, Mrs. Grace Hamilton last week.

Visiting in the home of Mr. and Mrs. Pete Marak are Mr. and Mrs. J.W. Reed of Norco, Calif.

Mr. and Mrs. J.J. Heaton of Killeen visited their mother Mrs. Ada Olsen and sister, Mrs. Bob Canin recently.

Visiting in the home of Mrs. Katie Vincent last week were Mr. and Mrs. Oscar Hise and family of Dumas, Mr. and Mrs. Joe Wiley of Calif., Mr. and Mrs. Roger Van Bose of El Paso, and Mr. and Mrs. Jack Vincent Jr. and sons of Amarillo.

Mrs. Jessie Vanhuse returned Saturday from Wichita Falls.

# Fashion-Right Short Coats Make Fall Knitted Season

By JUDY LOVE

It's the year of the knit. No question about it. Lucky for you, there's a world of choice in fashions to knit quickly and easily. Take toppers, for instance. Before you snuggle down into one of those mid-calf coats, set your needles to work and turn out a shortcoat that was never meant to be long.

Here are two shortcoat toppers designed in the flattering "a-length" — above your knee, no question. Knit either the long line jacket-coat or the timeless Chanel-type shortcoat. They're perfect for now because no matter where your skirt or dress stops the topper makes your hemline look smarter. Each is great with pants, of course.

The double-breasted, half-belted coat-jacket is knit in supersoft mohair on No. 8 needles. Line it or not, as you prefer. This little shortcoat has the look of tailoring, yet knit in soft-textured mohair it's marvelously feminine. Incidentally, the coat for sizes 8 to 18, is planned for an 18-inch finished length to start of armhole. If you want it longer, simply work more rows before start of armhole shaping.

The second great little coat has a French flair, with great individuality. Full-fashioned raglan, it has a small stand-up collar, worked in sleek stitches, as is the front band on both left and right sides of the coat closing. You'll knit this classic in no time on No. 10 and No. 13 needles. The yarn is richly textured. This also is available for sizes 8 to 18.

So stop worrying about lengths and get your needles going. For directions for both versatile, becoming toppers, send 50 cents to *Stitch 'n Time*, Newspaper Enterprise Association, Radio City Station, Box 503, New York, N.Y. 10020. Ask for leaflet No. S300 and include your name, address and zip code.

**KNIT KNACKS**  
DEAR JUDY — When I was beginning to knit, some time ago, you advised me to keep a close watch on my gauge — to check it every few inches, and I thought this a little silly. I'm afraid I decided I knew what I was doing. My first effort, a pull-down cap, became "Sally's silly." Not even I would wear it.

Many sweaters, hats and dresses later, I want to tell you now check my gauge periodically. My mood even affects tension. I find, so if new knitters can learn from my mistake, I'd like to pass on your advice. Check your gauge every few inches, no matter how skilled a knitter you think you are. Your finished work will look a lot more professional.

**MRS. SALLY B.**  
DEAR SALLY: Thank you. Now you're the one who's right! Follow her good advice, you knitters. If you find you have too few stitches in an inch, use a smaller-size needle to get the proper gauge. Too many stitches means your work is too tight (mad as someone?) So use a larger-size needle to get the right gauge.

Most of all, just keep knitting. It's a beautiful hobby.

— JUDY LOVE

Knitwear turns up in all the new trends for fall. Red with bold blue and yellow horizontal-striped gaucho skirt in the mid-length (left) plays a feature role on the fall scene. The high-rise waist is belted with a blue suede sash. Leopard leaps into fall (center) in a hooded jacket and matching pantsuit. The outfit captures the feline feeling in all-nylon leopard print. The hood-hugger can be worn up or in a languid cowl. The full flair of country is captured with the charming poncho and gaucho pants outfit (right), both with self-fringe in shades of yellow, green and beige. Also part of the group is a matching midskirt which converts to a mini by snapping off the lower panel.

# PAMPA Business News...

## Flip Makes Promises Good To Be Funny

**HOLLYWOOD (UPI)**—Flip Wilson is black, funny, bright and a television star—not necessarily in that order. Blacks have been successful in dramatic and situation comedy shows—i.e. Bill Cosby, Diahann Carroll. But the late Nat King Cole, Leslie Uggams and Sammy Davis bombed as hosts of variety shows.

Whether they failed because of skin pigmentation or low quality shows is moot.

Wilson, a compact, dark, incisive man thinks they weren't equipped.

"The others had acts or routines," Flip said. "They were out of their bags as hosts."

"In the beginning when I decided to be an entertainer I knew I was funny. I also knew I couldn't sing or dance. I had to use words to sustain interest."

"All these years I've been preparing myself. I'm a story teller rather than a comedian because story-tellers last longer."

**Studied Other Comedians**  
Wilson read everything he could on comedy and comedians, studying the professional comedians from the time he was a youngster. He learned that it took 15 years for most of them to become successful funny men.

"I also learned to hold my club performances to 45 minutes and never do an encore," the new NBC star said.

TO KEEP ants out of the house, brush No-Roach on cabinets, window and door sills. Ants will not cross the coating. And the air in your home is as clean as you like it. No-Roach is available at several stores.

## Bugs Can Pollute Anyone's Residence

Don't kid yourself! Thousands of housewives, in an effort to make their homes cockroach free, are polluting the air their families breathe. BUT, you don't have to let cockroaches (or ants, or silverfish, or any crawling insects) be the cause of polluting your home environment. Thanks to Johnston's No-Roach, No-Roach is a brush-on product and contains no DDT.

When you think about it, what could make more sense. These days we hear a lot about adding pollutants to the air, creating respiratory problems and undesirable odors. If you were presented never gets into the air, one that with a product that leaves no odor...and, most important, one that does the job of effectively eliminating your cockroach or ant problem for months at a time...you'd probably grab at it. So grab a bottle of Johnston's No-Roach, the product that does all those things...and more. No-Roach is so easy to apply! Just brush it on baseboards, window sills, door sills and in cabinets. You don't even have to move dishes. Just brush around them. Once applied, No-Roach continues to kill every insect that crawls across it...while it's safe for children and pets.

A record player, 243 records, 12 record albums, a radio, 24 pairs of pants, 18 shirts and 3 pieces of luggage.

## Two Big Banks Cut Prime Rate

**NEW YORK (UPI)**—Two big New York banks forced a major breach today in the wall of resistance to a cut in the commercial bank prime interest rate that has been under pressure since late in August.

Morgan Guaranty Trust Co. led the New York banks with a half-point cut to 7½ per cent, followed quickly by Chemical Bank, New York Trust Co. The two banks, fifth and sixth largest in the nation, respectively, sent other New York bankers into hasty conferences and sparked a rash of similar cuts around the country.

While the prime rate cuts will make loans obtained by big business borrowers a bit cheaper, the interest rates being paid by the man on the street for automobile and personal loans aren't likely to go down, at least not as a direct result of the prime rate cuts.

However, a spillover reduction in the consumer side of the credit market can't be ruled out. An official of one New York bank said demand for car loans has weakened and, an interest rate cut might be possible. The current rate on new car discounted and including life insurance, which works out to 12.74 per cent on a simple interest basis for a three-year loan.

Mortgage rates, like consumer loan rates, move in a separate market and are not directly or automatically affected by changes in the business prime rate.

## First Texas Bank Indicates Rate Decrease

**AUSTIN, Tex. (UPI)**—The Capital National Bank of Austin today announced it is cutting its prime interest rates effective Tuesday from 8 to 7.5 per cent.

The action was believed to be the first of a major Texas bank and was followed closely by similar action in Dallas by the First National Bank. The Texas moves came after the first interest decrease by the Morgan Guaranty Trust and Chemical Bank of New York.

Announcement of the lower interest rate was made in a joint statement by Edward Clark, chairman of the board, and bank president Robert Present. "In further recognition of our desire to do the best possible job for our customers in Austin and Central Texas, are our lowering the prime interest rate from 8 to 7.5 per cent," Present said. "The lower rate will be effective Tuesday morning, Sept. 22."

Trends in the money markets during the past few months along with the improved liquidity position of banks in general have made it evident that the lower level of interest which everyone has been seeking is now justified."

Capital National is Austin's second largest bank.

OGDEN AND SONS advise getting tires and exhaust systems in perfect working order before the Panhandle winter sets in. Defective tires and motors are often the cause of available accidents.

## Cold Weather Calls For Complete Auto Checkup

The cold winter months are creeping up on area residents and with them come the increased need for sound tires and tight exhaust systems.

Ogden and Son, 501 W. Foster, are able to meet the demand for good tires and tight exhausts through quality merchandise and qualified personnel.

According to LeRoi Ogden and Ben Ogden, owners of Ogden and Son, "Winter always causes an increase in tire needs. Ice, snow and slush cause a great loss of traction and one way to prevent some of this loss is to replace worn or damaged tires before you have to rely upon them in an emergency situation."

Ogden and Son offer a complete winter check-up and a complete line of Dunlop and Goodyear tires for your selection. According to LeRoi, the most popular type of tire they have in stock is the polyglass. A polyglass tire consists of layers of polyester cord and fiberglass cord to give the customer longer tire life and a better ride.

Wheel balancing with electronic balancers isn't a cure-all to tire wear but it does increase tire life remarkably. Ogden and Son have the latest in electronic equipment and specialists to fulfill the demand for satisfied customers.

Tune-ups and mechanical work are under the supervision of Bill Lee, who, according to Ogden, is the best in the south-west. "Lee is more than just capable," said Ogden. "He is good."

Ogden and Son are not limited to tires but carry mufflers, shock absorbers, brakes, air conditioning units, batteries and fishing equipment.

For the fishing enthusiast, there is a complete line of tackle and fishing supplies from a small gold hook to a new Astrocraft boat with an Evinrude motor.

Faulty exhaust systems cause many deaths in the state. Ogden and Son are specialists in trouble-shooting, finding not only the squeaks and rattles but the dangerous fumes leaking from a worn-out muffler or tail pipe. They have a muffler with a life-time guarantee in the price range of most mufflers with 90-day warranties.

The next time you are in need of any automotive assistance look to Ogden and Son where the customer's needs are

## Davis Named To Program To Deter Hijack

**WASHINGTON (UPI)**—President Nixon today appointed retired Air Force Lt. Gen. Benjamin O. Davis to head the administration's new program to deter airline hijacking.

At the same time, administration officials asked Congress to increase the tax on domestic international airline tickets to help pay for a 2,500-man force of sky marshals.

Offered to make available government-backed insurance coverage to American air carriers where insurance is not available at reasonable rates from commercial insurers.

Davis, 57, the highest ranking Negro in the armed forces before his retirement, resigned as Cleveland's public safety director earlier this summer after a dispute with Mayor Carl B. Stokes, another black. He will have the title of director of civilian aviation security for the Transportation Department.

Transportation Secretary John A. Volpe said Davis will advise him on the anti-hijacking program and will coordinate the functions of the airport and airborne security force, now composed of Federal Aviation Administration peace officers and other federal agency guards.

Volpe appeared at a House Ways and Means committee hearing to urge prompt approval of the financing plan for the guard force.

Television In Review

By RICK DU BROW HOLLYWOOD (UPI) — There have been a lot of wisecracks that "The Young Rebels," a new hour series that bowed in on ABC-TV Sunday night and deals with youthful Americans in the Revolutionary War, is a sort of 1777 "Mod Squad."

SERVING AS officers and directors of the Panhandle Chapter, American Institute of Metallurgical Engineers are, pictured above, at a recent dinner meeting, from the left, J. C. Smith, director; Clarence E. Kirby, secretary; Harry L. Allen, director; Don Degeer, chairman; Billy W. Dunn, director; W. R. Chafin, second vice chairman, Gary W. Tibbitts, first vice chairman. (Staff Photo)

Crossing Signal Fails To Warn Driver

COPPELL, Tex. (UPI) — Officials from the Dallas County sheriff's office said Sunday they believe a warning signal at the railroad crossing where four persons were killed in a truck-train collision was not working at the time of the accident.

The signal does malfunction it is designed to go continuously rather than not at all. The signal failed on Sunday night in the collision. They were identified Sunday as: Locomotive engineer Robert Algine Hood, 62, of Commerce; engineer Harry L. Sims, 57, of Commerce; brakeman Gordon Haywood Thomas, 56, of Texas; and truck driver L. E. Broglin, 50, of Springfield, Mo.

Quotes In The News

HUNTSVILLE, Tex. (UPI) — The National Science Foundation awarded Dr. Terrell R. Hoage of the Sam Houston University biology department a \$10,300 grant, it was announced Saturday. Hoage's research will be to determine how a disease organism penetrates the honey bee cell membrane.

The front locomotive severed the semi tractor from its trailer and smashed it on the steel rails. The train traveled another 50 feet before the truck's metal under the wheels caused it to derail. The engine plunged into a shallow ravine.

Washington Window

By LOUIS CASSELS UPI Senior Editor WASHINGTON (UPI) — Col. X saw combat duty in two wars, was wounded twice, and decorated for heroism three times. He retired at the age of 50 after 30 years of service. At 55, he died of a heart attack.

His widow thought she'd continue receiving checks from the government for a portion of his retirement pay as it is paid to her. But she found herself out without a cent. Military retirees are the only...

'Dry Look' To Be Fall Fashion Feature

WASHINGTON (UPI) — By this time I suppose that most people have read 40 articles about the new fall fashions. But in case there are still some folks around who have been out of touch, here is a synthesis: The "dry look" — Thanks to a new "miracle" fiber synthetically developed by the Dow Chemical Co., many of the smart new fabrics this fall feature the smart new "dry look."

"Midi" ties — the big question in fashion circles this fall is whether American men will accept the new "midi" length in neckties. Leading designers are touting the midi-tie, which terminates just below the breastbone, as being more chic than either the maxi-tie, which reaches to the navel, or the mini-tie, which barely covers the Adam's apple.

Emmy's To Be Streamlined

NEW YORK (UPI) — There will be two streamlined Emmy award telecasts this year instead of one because critics have found past awards programs tedious for viewers.

Galveston, Tex. (UPI) — The U.S. Army Engineer District at Galveston has announced appointment of Ernest H. Wittig III as chief of the district's new environmental resources section.

STEPHENVILLE, Tex. (UPI) — Former newspaper publisher Rufus F. Higgs Jr., appointed director of public information for Tarleton State College, will assume his duties Monday. Higgs was publisher of the Stephenville Daily Empire and Empire Tribune.

Ford As Recall 4 Milli

WASHINGTON — Ford has announced a recall of 4 million 1968 Ford Mustangs. The cars were built between May 1967 and May 1968. The recall is because of a problem with the power windows. Ford says that the cars are safe to drive, but the windows may not work properly.

Nixon Colleg At Sch

WASHINGTON — A student at a college in California has been convicted of espionage for providing information to a foreign country. The student is said to have provided information about the country's military and defense capabilities. The conviction is the latest in a series of cases involving students and espionage.

Labor Unem Ease

WASHINGTON — The unemployment rate has fallen slightly to 7.8 percent, according to the Bureau of Labor Statistics. This is the lowest rate since last July. The fall in unemployment is attributed to a combination of factors, including a decline in the number of people entering the labor force and a modest recovery in hiring.

## Ford Asked To Recall Some 4 Million Cars

WASHINGTON (UPI) — Consumer champion Ralph Nader asked the Transportation Department Monday to order Ford Co. to recall 4 million cars made between 1965 and 1969 and replace lower control arms on them. He said the arms were potentially unsafe.

Ford pulled back 85,000 cars used by police departments after the National Highway Safety Bureau recently found cracks in the lower control arms.

Several police agencies reported cars losing a front wheel when the part failed.

The Safety Bureau's Aug. 19 order said the cracks probably resulted from the abnormal stress of police driving and said regular passenger cars were safe.

Nader, however, wrote Transportation Secretary John A. Volpe Monday that the bureau's testing was inadequate and that Ford had cases in its files where cars not subject to abuse of police work also had experienced lower control arm failure.

## Nixon Lays College Unrest At School Doors

WASHINGTON (UPI) — President Nixon has reaffirmed his conviction that college administrators and faculty members are responsible for "order and discipline on campuses" and that those who use force have no place in college.

With the start of the academic year, Nixon sent letters to 900 university administrators, trustees and others in academic life. He enclosed a copy of an article by Dr. Sydney Hook, professor of philosophy at New York University.

Hook says the academic community has the primary responsibility for maintaining a climate for free discussion and inquiry on campus, Nixon said. Hook's views, expressed in an article in the Los Angeles Times were " cogent and compelling."

Nixon said he was concerned "the growing tendency of college administrators to place the primary blame of campus violence and disruption on the failure of government to solve all our major problems at home and abroad."

"I recognize that many deeply concerned faculties and students disagree on governmental positions on the national, state and local level, but while government can and must carry out its responsibilities in connection with policies which may be unpopular on college and university campuses," Nixon said, "there can be no substitute for the acceptance of responsibility for order and discipline on campuses by college administrators and faculty."

He added: "those who cannot accept the rule of reason, those who resort to the rule of force have no place on a college campus."

## WT Coed Has No Objection To Women In Military Service

CANYON — A coed at West Texas State University says she feels women should serve their country in military service.

The statement was made by Pam Wright, Pampa senior, during a debate on women's liberation this week.

The issue was informally debated by two female students and two male students during a regular meeting of Associated Women Students (AWS), an organization composed of all coeds on campus.

Speaking for women's liberation with Miss Wright was Lou Ann Mickey, Channing senior and president of AWS.

Taking the other side of the issue were Gary Story, Hereford senior, president of the WTSU Student Association, and James Sharp of Seagraves, associate editor of Le Mirage, the school's annual publication.

Miss Wright and Miss Mickey argued that women were discriminated against economically. Miss Mickey presented statistics showing salary averages of women were \$3,000 a year below those of the nation's men.

From an economic standpoint, Story said, "I see no reason why women should not gain the same pay as a man. From a

## FBI To Alert Lawmen On Bomb Threats

J. Gordon Shanklin, Special Agent in Charge of the Dallas Office of the FBI, announced that "Bombings and Bomb Threats" will be the subject of a special law enforcement conference to be sponsored by the FBI at Holiday Inn, 1911 I-40 East, Amarillo, on Sept. 24.

In an announcement concerning similar conferences being held throughout the U.S., FBI Director J. Edgar Hoover said this topic was chosen because of the great concern of law enforcement and the general public over the prevalence today of a wave of menacing bomb threats and senseless bombings, including the unwarranted attacks on police officers in which explosive and incendiary devices are used. He commented although most bombing matters are local in nature from a jurisdictional standpoint, the

full facilities of the FBI's Laboratory and Identification Divisions have been offered in the past to local agencies.

The FBI Director indicated bombings and threats of bombings have increased considerably over the past few years and noted the principal targets of these insane attacks have been educational institutions, Federal, state, and municipal Government facilities, chain-type department stores, corporate enterprises and banks, churches and temples and police facilities. Attesting to the seriousness of the situation, Hoover noted during 1969 the New York City Police Department Bomb Squad recorded 93 explosions and 3,191 false bomb scares in New York City alone. Other areas of the country have also experienced a wave of actual explosions or bomb scares.

## Martha Mitchell Calls Educators "Bunch Of Sidewalk Diplomats"

WASHINGTON (UPI) — Martha Mitchell, wife of the attorney general, says American professors and educators are a bunch of "sidewalk diplomats" who are destroying the country.

That and other comments on the education community came in the course of a weekend telephone call to a UPI reporter — a call Mrs. Mitchell made to express her irritation over a story about her husband published last week by Women's Wear Daily.

She described as "ridiculous" the dispatch, which quoted Attorney General John N. Mitchell as calling educators the "stupid bastards who are ruining our educational institutions."

The blonde and voluble Mrs. Mitchell then voiced her own comments on the academic world:

"The academic society is responsible for all of our troubles in this country. These are people that are destroying our country."

Asked if she was referring to any particular educators, she said "the whole academic society is to blame ... the professors in every institution of learning."

"It makes me sick at my stomach. They're a bunch of sidewalk diplomats that don't know the score," she declared. "The don't know what's going on. They don't have the right talk."

"They are the sidewalk diplomats, who do not know and have no right to express an opinion on diplomacy," she said. "Why, some of 'em can't talk as well as I can and I can't talk very well."

"There are more repercussions in our society today because of them," she said. "They are totally responsible for the sins of our children. The academicians have not taken care of our children. They are at fault for a whole generation of children."

Mrs. Mitchell said she was calling from the telephone in her upstairs bathroom at their plush Watergate apartment on the Potomac "so John won't hear me talking to you."

## Hollywood In Review

HOLLYWOOD (UPI) — The television networks, using this week to warm up viewers for the new season that starts Sunday, offered a number of specials Thursday night. They included an amiable variety show with Gene Kelly, a quietly intelligent documentary on Eskimos and a rather awkward contemporary musical hour called "America," inexplicably hosted by good old Glenn Ford.

Kelly's contribution was as host of an ABC-TV hour called "Changing Scene," which apparently is the first of four such fast-paced musical-comedy shows with a sort of modern minstrel tone. And the opener was, if not quite in the class of those great Kelly movie musicals, at least a lively surprise — one of the few recent variety outings to combine new and old sounds with good taste and some style.

There are few performers, of course, who can bring such instant amiability to a show as Kelly, one of Hollywood's genuine gentlemen. And his top-name guests Thursday — James Garner, Arte Johnson and Barbara Eden — are all very pleasant performers themselves. So the mood was set in part by the simple process of casting, not to mention the handiwork of producer-director Robert Scheerer.

## TENSION?

## Top Convict Riders, Performers To Participate In Prison Rodeo

HUNTSVILLE — The month of October belongs to Huntsville where the Annual Texas Prison Rodeo attracts countless visitors from all corners of the earth to witness what has been termed one of the world's greatest entertainment features.

In addition to rodeo contests highlighting the top convict riders from all units of the Texas department of Corrections, there will be four Country Singing Stars on the program each Sunday in October in the prison's 30,000-seat \$1 million stadium. The rodeo begins at 2 p.m. and lasts two hours.

Guest stars will be Conway Twitty on Oct. 4; Willie Nelson on Oct. 11; Jerry Lee Lewis on Oct. 18; and Faron Young on Oct. 25.

Prior to the opening of the actual rodeo, talented inmates will perform in the prison stadium from 1-2 p.m. Inmates also will be in the limelight on the midway in front of the Huntsville prison, beginning at 9 a.m.

To help round out the fast-moving two-hour extravaganza, the Prison Rodeo management will present thrilling Chuck Wagon Races each Sunday in addition to other specialty acts.

Texas Prison Rodeo, now in its 39th year, makes it possible for the state's penal system to fund its accepted rehabilitation program which gives 13,000 inmates services not provided by state funds.

Reserved seat tickets, priced from \$3-\$5.50, may be obtained by writing Texas Prison Rodeo, Box 99, Huntsville, Texas 77340. A check or money order must accompany ticket orders.

## Border Control Methods Need Updating

WASHINGTON (UPI) — Rep. Kika de la Garza, D-Tex., said Monday methods of controlling the border between the United States and Mexico need updating.

"The Immigration Border Patrol, the U. S. Customs Service and the concepts of border control, both as to wetbacks and contraband, are for the most part today products of the 1920s and 1930s," the South Texas congressman said in a Senate speech.

"There have been no basic changes in four decades and the 1970s demand something better than that," he said.

De la Garza denied the fact that the Border Patrol "seems to be a neglected instrument of the government, no matter what administration occupies the seats of authority in Washington."

He said the number of Border Patrolmen on the border now is only slightly higher than it was 30 years ago.

"Surely if we intend to cope with a problem which is disturbing to many conscientious people because they see the impact of the illegal alien on the economy, something should be done to augment and support the men who are charged under law with responsibility for the security of our order," De la Garza said.

He warned that control on the border is not solely the product of a border police function.

"The problem will not respond to purely a police operation," he said. "It is a job which cannot be done without a blending of border police operations, employment concepts and adjustments in our country and, where possible, the achievement of economic balances between our country and Mexico."

## October Draft Quota 704

AUSTIN — The October draft call for Texas is 674, and no man will be selected and ordered for induction with a random sequence number higher than 195, Colonel Charles M. Duncan, acting state Selective Service director, said Wednesday.

The October quota is down from 704 in September.

The Texas October draft quota of 674 is the state's share of a national quota for 12,000 men, all for the army.

The state quota for pre-induction physical and mental examinations will be limited to 4,285, down from 7,171 in September. Men sent for these examinations will be limited to those with random sequence numbers 1 through 195 from the drawing in December, 1969 and numbers 1 through 100, from the July 1970 drawing for those born in 1951. Colonel Duncan said that approximately 4,100 men of the 1951 age group will be examined along with 185 older men.

In filling this call for examination, draft boards will order I-A, I-A-O, and I-O men of the 1970 Random selection group before men born in 1951.

No registrant who is maintaining a bona fide family relationship with a child or children, and who qualifies for class III-A, will be ordered to report for examination.

All volunteers at the draft boards must be inducted ahead of the non-volunteers selected and ordered to report for induction by random sequence number.

Local board quotas for induction and pre-induction examination in October were mailed to the state's 159 boards Wednesday, Sept. 9.

## ASCS News

Farmers and ranchers of Gray County have elected a total of 12 ASC community committeemen and 8 alternates in a mail election conducted this month. Ballots were counted on Sept. 15.

A total of 383 eligible farm voters cast ballots — an increase of 7 over last year's balloting when 376 voted for committee.

Some 30 per cent of the eligible to vote.

ASC community committee assist the county committee administering farm programs the county, such as wheat, cotton allotments, and farm grain bases. Also a agricultural conservati program cost-sharing measure. They also keep local farmers informed of farm program provisions and regulations.

In addition, the newly elect ASC community committee have an important responsibility in the near future in fill vacancies on the county A committee and determining chairman and vice-chairman of the coming year. The new A community committeemen convene on Friday, September 25, 1970 to elect one our committeeman to serve a three year term and two alternates to serve one-year terms. After this is done, the community committee will determine which of the three regular members of the county ASC committee will be Chairman and Vice Chairman.

Each of the 4 ASC community committees are made up of three members and two alternates, who serve for a year period. The candidate each ASC community received the largest number of votes is the committee chairman. Second highest is vice chairman, third is regular committee member; fourth and fifth are alternates. Following are the newly-elected ASC Community Committee men Gray County listed in the order of chairman vice-chairman member, first alternate and second alternate.

Grandview community: Kei Davis, Frank Babcock, Eunge Wehmer, Dean Burger and Donald Ritter.

McLean community: B. Shaw, Everett Watson, J. Brown, Leroy Williams and Frank Herod.

Laketon community: Ray McLaughlin, Samuel Bower, George Ingram, Lloyd Harv and Buddy Cockrell.

Pampa community: J. Greene, Donald Walberg, Joe Spearman, Donald Maul and Lawrence Kurtz.

## Miami Politics Promise Interest

MIAMI — The November 3 elections in Rober's County will be contested in four offices marking the first serious bid Republicans have made in Rober's County races. The Democratic slate will have only one incumbent in contest for reelection.

Mrs. Mildred Cunningham, veteran justice of the Peace, will face Republican Sarah Gill in a Precinct One race. Democratic Candidate Newt Cox resigned his position, as County Commissioner to bid for County Judge. His Republican opponent is Howard B. Morris.

In the County Clerk's race, Mrs. Lorene McCormick, a businesswoman, will be the Republican candidate running against Jackie Jackson, a present employe of the County Clerk's Office. Former Mayor of Miami, R.J. Bean is the Democratic choice to compete with rancher, Republican Frank Russell for the Precinct One county commissioner seat vacated in January.

## Whooping Cranes Are Increasing

CORPUS CHRISTI, Tex. (UPI) — The director of the Aransas National Wildlife Refuge predicted today the population of the last band of wild whooping cranes might have risen to 60 during the summer — an increase of four over the last spring count.

Gordon Hansen said while he cannot be sure that all the 56 birds who flew south last winter will return, surveys in Canada indicate the total should be near 60. The average loss per year of adult cranes is about four.

LEEDS, England (UPI) — Harry Ward, 90, has made the bet of his lifetime. His bookie friend, Jim Windsor, gave him 100,000-1 odds he will not live to be 100. If Ward reaches the century mark, he will get \$12,000 for his 12 cents.

"They are the biggest odds I've ever given anyone on anything," Windsor said. "I'll be more than happy to pay up if Harry lives to be 100. It will mean I'll be 83 for one thing."

# Pirates Face Expos In National League Division Title Push

By United Press International  
The Pittsburgh Pirates begin their final push for the National League East Division title tonight with Dock Ellis (12-9) and Bob Veale (9-15) opposing the Montreal Expos in a two-night doubleheader at Pittsburgh. The Expos, a surprising 9-7 against the Pirates this season, are sending Bill Stoneman (5-15) and Mike Wegener (3-5) to the mound.

The Cubs, who play all their remaining 11 games on the road, open a three-game series

with the St. Louis Cardinals with Bill Hands (17-13) slated to oppose Bob Gibson (22-6) on the mound.

The Mets, limping toward the finish line with five losses in their last six games and all but desperate because of the late-season slump of Tom Seaver, start a two-game series with the Phillies in Philadelphia with Jim McAndrew (10-12) facing Jim Bunning (10-14).

The Cincinnati Reds defeated the Houston Astros, 2-0, and the San Francisco Giants blanked

the Los Angeles Dodgers, 7-0, in the only NL games scheduled Monday.

In the American League, 21-year old Vida Blue pitched a no-hitter that gave the Oakland Athletics a 6-0 victory over Minnesota and prevented the Twins from clinching the Western Division title. Other scores were Chicago 3, Kansas City 4, and Kansas City 8, Chicago 2, New York 5, Washington 2, Boston 2, Cleveland 1, Baltimore 4, Detroit 3, and California 7, Milwaukee 6.

# Browns Rip Jets 31-21 In AFL Monday Night Debut

CLEVELAND (UPI)—Twenty years ago the Cleveland Browns entered the National Football League with an opening victory and Monday night the Browns made their debut in the American Football League a winning one.

Homer Jones sparked the Browns to a 31-21 victory over the New York Jets by racing 96 yards with the second half kick-off and Bill Nelsen hit 12 of 27 passes good for 145 yards including one touchdown to lead the Browns' attack, before 85,703 fans, the largest in Browns' history.

The Jets were penalized 161 yards.

The Browns took advantage of a few New York penalties to push across two touchdowns in the first quarter.

After a Jet punt hit a New York player, the Browns took the ball from their own 45-yard line and marched 55 yards in nine plays, with Nelsen hitting Gary Collins for the final eight yards for a touchdown.

After the Browns' kick-off, Namath moved the Jets 61 yards in eight plays with Emerson Boozer going the final two yards and the Browns took a 14-7 lead at halftime.

Jones' overland jaunt made it 21-7 and Boozer climaxed an 80-yard ten-play drive by scoring from 10 yards out to make it 21-14 with 9:22 left in the third quarter.

Namath moved the New York eleven 80 yards in four plays with a 33-yard pass to George Sauer cutting the Cleveland lead to three points with 3:22 left in the game.

Brown linebacker Bill Andrews put the game out of reach with 35 seconds left when he picked off a Namath pass and scampered 25 yards for the final Cleveland score.

Don Gullett, Clay Carroll and Wayne Granger teamed up on a four-hitter for the Reds with the 19-year old Gullett pitching two-hit ball for five innings and receiving credit for his fourth victory.

Willie Mays drove in four runs with his 28th homer of the season and two singles and Juan Marichal pitched a six-hitter for his first shutout of the year in the Giants' victory over the Dodgers. The triumph pulled San Francisco into a tie with Los Angeles in the NL West.

# James Earns Back Of Week Honors In Aggie Win

By MIKE RABUN  
UPI Sports Writer

It was one of those typically steamy nights in Baton Rouge. More than 60,000 people were noisily expressing themselves like they always do in Tiger Stadium, rising to a crescendo that probably could be heard in the northern outskirts of New Orleans.

It was as good a place for a miracle as any, so Les James and Hugh McElroy pulled one off.

That James to McElroy 7-3 yard touchdown pass with 13 seconds to go that beat LSU 20-18 last Saturday sent shock waves through the Southwest Conference, and earned James United Press International conference back of the week honors.

Seldom has a group of youngsters risen from such depression to the heights of happiness so suddenly.

But James, a plucky sophomore who reminds one more and more of Texas Longhorn ex-James Street, tells it best. LSU had just gone ahead 15-13, and A&M was trying to get back on top.

"On that set of downs after LSU scored we were third and ten deep in our end and we tried two passes. But we couldn't get anything going. It seemed like that was it. The people in the stands started to get up and go."

"Everybody was dejected, what with us going ahead 13-12 and them making that fantastic drive. Everybody was down, a few people were going up and down the sidelines saying we could still do it, but I felt bad, and everybody felt bad."

LSU took over deep in A&M's end of the field, and promptly kicked another field goal, boosting the score to 18-13, and with the clock dying the Aggies got one last chance.

"The coach gave Brad Dusek (the Aggie tailback) this play," James said. "Homer May was the primary receiver. When I went back I saw Hugh running in back of Homer, and I said, 'Well, here goes.' It was just a desperation thing. Then I got knocked down and didn't see Hugh catch it."

McElroy did catch it. He took it out of the hands of an LSU defender and outraced another defensive back to the goal line.

"I got up," James said, "and saw Hugh going for the score. I didn't really realize what had happened. Everybody was going wild—Coach (Gene) Stallings ran halfway onto the field, I had to lead him off."

"And in the dressing room he was so happy. He was crying and he told us how proud he was."

The Aggie's giant upset did not begin to take shape until the second half.

"In the first half we just played terrible," James said. "LSU has a terrific front line. But in the second half we found this pattern—a circle pattern to the split end or the split back. It was continuously open."

James Earns Back Of Week Honors In Aggie Win

## THIRD RACE TODAY

# Intrepid's Protest Gives U.S. 2-0 Lead

NEWPORT, R.I. (UPI)—Gretel crewmen went after their first official America's Cup victory today, burdened by the knowledge they must gain a clear-cut triumph to whittle Intrepid's commanding 2-0 lead.

Australians thought they had tied the series at 1-1 Sunday, when Gretel beat the U.S. defender by a minute and seven seconds in the second straight protest race.

The triumph was denied the Aussies however, when the New York Yacht Club disqualified them for rules infractions and awarded the race to Intrepid. The club's race committee, after hearing evidence and viewing photos of the race, ruled that Gretel fouled Intrepid at the start by impeding her progress.

"We have to win every race now without any shadows being cast on our victories," said Martin Visser, Gretel's cohelmsman. "And if we get caught in a situation like Sunday's race again, we'll just go home."

Visser argued that Intrepid was the culprit during the

starting maneuvers that resulted in a collision and caused slight damage to both 12-meter yachts. Gretel lost a two-foot furring strip from her bow and Intrepid suffered a dent in her polished wooden topside just abaft the chain plates on the port side.

The Dutch-born yacht designer ran up a protest flag Sunday, signifying Intrepid had violated Gretel's right of way after the starting signal.

The second protest in two completed races has the host NYYC committee in a bind. Several members have agreed that America's Cup races should be handled by an international committee. They realized their action in disqualifying a challenging yacht created some hard feelings with the visiting Australians.

Collectively, though, they were adamant in the belief that disqualifying Gretel was the right decision.

"Prior to the start there was no obligation for Gretel to allow Intrepid to pass inside the committee boat," said Committee Chairman Dev Barker.

"After the starting signal, Gretel had to give Intrepid room to pass. The facts show the starting gun had indeed been fired and hence the committee disqualified Gretel for violation of the pertinent rule."

Intrepid won last Tuesday's opening race by 5:52, but slumped badly on the downwind and final two windward legs Sunday.

# Longhorns Lead Top Ten First Week Ballot, Ohio St. Second

NEW YORK (UPI)—The Texas Longhorns, last year's national college champion, got a head start on this year's title leading Ohio State by 70 points in the first week's balloting by the United Press International Coaches Board.

Texas, which defeated California, 56-15, behind fullback Steve Worster's three-touchdown outburst in a season-opener, picked up 341 points, including 22 first place votes, from the 35 coaches on the board while Ohio State, which opens this week against Texas A&M, got 271 points and 11 No. 1 ballots.

State had 202 points, Stanford 201.

Southern Cal, which had its record blemished by a tie against Nebraska last week, was fifth with 191, and Missouri sixth at 162.

The rest of the top 10 included Mississippi (1-0) with 156 points, Nebraska (1-0-1) at 147; Notre Dame (1-0) at 136 and Michigan (1-0) at 47.

Here, by sections, are the coaches who comprise the 1970 board:

- East**  
Bob Blackman, Dartmouth; Tom Cahill, Army; Rock Forzano, Navy; Ben Schwartzwalder, Syracuse; Joe Yukica, Boston College.
- Midlands**  
Bob Devaney, Nebraska; Dan Devine, Missouri; Church Fairbanks, Oklahoma; Frank "Pep" Rodgers, Kansas; Rod Rust, North Texas State.
- South**  
Paul Bryant, Alabama; Paul Dietzel, South Carolina; Vince Dooley, Georgia; Charles Tate, Miami, Fla.; Johnny Vaught, Mississippi.
- Midwest**  
Alex Agase, Northwestern; Duffy Daugherty, Michigan State; Woody Hayes, Ohio State; Ara Parseghian, Notre Dame; Murray Warmath, Minnesota.
- Pacific Coast**  
John McKay, Southern California; Jim Owens, Washington; Tommy Prothro, UCLA; John Ralston, Stanford; Jim Sweeney, Washington St.
- Rockies**

# Number One Rating Counts Most In December, Says Darrell Royal

AUSTIN, Tex. (UPI)—Darrell Royal says it's very nice and all to be No. 1 again, but come see us in December please. That's when the alumni remember.

Royal and his Texas Longhorns have once again been picked as best in the land by UPI's board of head coaches, but there is only one ballot that counts, Ohio State says in the song by heart.

"The only time that counts is when the season is over," Royal said today on hearing the results of the poll. "My philosophy, and I've said this so many times, is for us to win our games and let the polls take care of themselves."

"Of course it's good to be chosen at the top. If I were entering a beauty contest I would want to be voted the prettiest one there."

And even though Texas looked like a world beater in demolishing California 56-15 last Saturday in their season opener, Royal is not about to compare this year's team with last year's national champions.

"We've won only one game is all," he said. "Last year's team won 11. We'll just have to wait until this one wins 10 or 11, and maybe then we can do some comparing."

Royal, however, could not hide his enthusiasm for his Longhorns' showing against the Golden Bears.

"That was the sharpest opening game we've ever had," he said. "I certainly didn't expect us to have that kind of poise in the opening game."

"I thought playing the game without any fumble, or major penalties or interceptions was most unusual."

The game marked the debut as a starting quarterback for Eddie Phillips, replacing James Street as the Longhorn leader. And Royal paid Phillips a poetic compliment.

"I thought it was an artistic job Eddie did against the California defense," said Royal. "Texas dips into conference play this weekend, taking on Texas Tech in Lubbock, the scene of the Longhorns' last loss two years ago. A Tex. victory

would be No. 22 in a row and tie a conference winning streak record.

"They have their minds made up about that they want to do," Royal said of the Red Raiders. "They have a pattern, and they stick to it."

Tech has won its two games thus far (against Tulane and Kansas), and "they showed great improvement last week even over their opening game."

Their quarterback (Charles Napper) has hit 20 of 30, and that is enough to give you some concern. And Tech has a good set of running backs, and they substitute freely. Their backs run hard. They are north and south runners, not rural runners."

That's Royal's way of saying Tech's runners go straight ahead, a direction Royal wants to travel until that last ballot.

GROS RELESED  
NEW ORLEANS (UPI)—Veteran running back Earl Gros, picked up by the New Orleans Saints several weeks ago, was released Monday. The club obtained Gary Lewis from San Francisco in exchange for an undisclosed draft choice.

MATHEWS TO COACH  
MILWAUKEE (UPI)—Eddie Mathews, the home-run hitter who played for the Braves in Boston, Milwaukee and Atlanta from 1952 through 1967, will join the team next season as a coach. Mathews played with the Detroit Tigers in 1968.

ROCKETS TRIM ROSTER  
SAN DIEGO (UPI)—The San Diego Rockets of the National Basketball Association trimmed their roster to 12 players Monday by dropping Ron Belton, 6-7 forward from Ballermine, and Dennis 6-6 guard from Azusa-Pacific. The Rockets play the Los Angeles Lakers in Honolulu Thursday.

# Ratings

NEW YORK (UPI)—The top 20 major college football teams as selected by the 35-member United Press International Board of Coaches with first place votes and won-loss records in parentheses: (First week)

Team	Points
1. Texas (22) (1-0)	341
2. Ohio St. (1) (0-0)	271
3. Penn St. (1-0)	202
4. Stanford (1) (2-0)	201
5. Sou. Cal. (1) (1-0-1)	191
6. Missouri (1) (2-0)	162
7. Mississippi (1-0)	156
8. Nebraska (1-0-1)	147
9. Notre Dame (1-0)	136
10. Michigan (1-0)	47

(Tie) West Virginia (2-0)	3

Other teams (receiving votes):  
Air Force, Arizona State, Georgia Tech, San Diego State, South Carolina, Texas A&M.

# Pro Charts

By Murray Olderman

## Miami Dolphins

PROSPECTUS — New deal can only mean good things for Dolphins. Don Shula, new coach, is strong leader who can make players respond. Several years of good drafting beginning to show results. It's not out of question for them to get in division race.

OFFENSE  
PASSING — Shula starts off with one commodity every coach likes — top young quarterback. Bob Griese's credentials are sound. He missed last six games of '69 with knee injury, but that injury is sound, too. Without Namath's flair, he's en route to recognition as one of best. Rating — B PLUS.

RECEIVING — Tremendous coup in landing Paul Warfield from Cleveland for draft choice. The racehorse receiver has great moves, great hands, great speed — and affinity for the end zone. Almost as good was acquisition of Marv Fleming from Green Bay to play tight end. Team them with either Howard Twilley or Karl Noonan as the other wide receiver. All-American Jim Mandich is tight end backup. Rating — B PLUS.

RUNNING — On first glance (at films) Shula liked what he saw — in Larry Csonka, Jim Kiick. They feature size, power. Mercury Morris should be good for spot duty. Stan Mitchell also helps. The key is full season from Csonka, who was bothered periodically by head injury. Rating — B.

DEFENSE  
LINE — Another case of a lot of bodies and only one outstanding specimen — Bill Stanfill at left end. Dave Campbell, a rookie, could work in if he's not used as inebriated. Jim Urbanek, out last year, has impressive physique and no track record. Manny Fernandez showed promise last year. Rating — B MINUS.

LINEBACKING — Hub of entire defense is irrepressible Nick Buoniconti, who revived all-pro form after switch from Boston to Miami. Randall Edmunds is fine sidekick on one corner. Ed Weisacosky will round out trio until someone else comes along. Rating — B.

SECONDARY — Obvious that Shula's going to do some juggling here also because second and third draftees were Tim Foley (Purdue), Curtis Johnson (Toledo). Time's running out on vets such as Jim Warren, Dick Anderson, after good rookie year, tallspinned in '69. Rating — C.

KICKING — Larry Seiple, who doubles as tight end, handles the punting. Karl Krenser, soccer stylist, boots field goals. Both average. Rating — B.

PREDICTION  
THIRD IN EASTERN DIV. (And that's only predicted on Shula's strength as an organizer).

(Newspaper Enterprise Assn.)

# Pampa-Odessa Game Films Tonight

The Pampa Harvester Club will meet tonight at 7:30 p.m. in the Pampa High School cafeteria, according to Bud Hogan, publicity chairman.

Head Coach "Suede" Lee will present the game film of the Pampa-Odessa game last Friday night.

## The Lighter Side

By DICK WEST  
WASHINGTON (UPI) — Eyes firmly fixed on the bylaws, hand steady on the gravel and wallet awash with membership cards, the organization man in America has arrived at his finest hour.

A new edition of the Encyclopedia of Associations, just published by Gale Research Co. of Detroit, shows there are now 15,000 national organizations in this country, give or take the American Guppy Association.

This means that 1,100 new groups have been formed since the last edition was published two years ago. Which clearly ranks as a quantum jump in coalescence despite the loss of the Embalming Chemical Manufacturers Association, now listed as "defunct."

I was especially pleased to note that the Man Will Never Fly Memorial Society Internationale is still on the active roster. The "never flies," whose 324 members have dedicated their lives to debunking the Wright brothers-myth, have fallen on hard times recently.

Despite repeated demonstrations that the whole idea of manned flight is absurd, the society has never completely succeeded in routing the cult of aviation. As a result, its members have become dispirited and have taken to quarreling among themselves. Some have also taken to drink.

I had feared the society might be following the Embalming Chemical Manufacturers Association into defunctness. But that alarm was groundless.

It was, however, distressing to find that the encyclopedia had downgraded the society by identifying it as a "hobby and a vocational" organization rather than putting it in the "scientific, engineering and technical" category where it rightfully belongs.

Since the never-fly society obviously needs new blood and a fresh outlook in order to regain prestige and carry on its work, it might do well to consider a merger with the Fairy Investigation Society.

The latter group, according to the encyclopedia, is composed of "persons who sincerely hold the fairy faith." Among other exciting and worthwhile activities, the organization "publishes occasional newsletters describing recent fairy sightings."

By combining their resources, these two groups might be able to shed new light on what really happened that day in Kill Devil Hills when the Wright brothers allegedly made their first flight.

Investigation might disclose that what bystanders assumed was an airplane flitting over the sand dune actually was a fairy testing its wings. If so, it will be another splendid triumph for the organization man.

## Washington Window

WASHINGTON (UPI) — Sen. Robert J. Dole, R-Kans., who attacked a senatorial fundraising drive to drum up support for the Vietnam War, is busy conducting a fund-raising drive of his own to "eliminate communism."

Dole spearheaded the 1970 campaign of Radio of Free Asia, a Korean-based propaganda organization which is the Asian equivalent of Radio Free Europe. The organization's tax-exempt status is under review by the Internal Revenue Service, and the State Department says "we do not consider this a very good operation."

Dole distributed letters across the country last January urging contributions to the organization, which broadcasts anti-Communist messages into North Korea and Red China from powerful transmitters in South Korea.

In the letter, he blamed Communist China for the flow of drugs and pornography into the United States, claiming it captures the hearts and minds of our young people. "The only way to eliminate communism is to stop it at its source," Dole wrote.

"If communism can be defeated in Red China and North Korea, it will have suffered a devastating and probably fatal blow to its goal of world conquest."

It was Dole who, this summer, attacked Sen. George McGovern, D-S.D., and other sponsors of the "Amendment to End the War" for their summer-long television advertising campaign on behalf of the measure.

Dole maintained that senators should not be out raising money to lobby for passage of legislation.

Radio of Free Asia is a project of the Korean Cultural and Freedom Foundation, Inc., founded in 1964. The foundation's membership has reached 50,000 and its income for 1969 was \$588,634—almost all of it raised by mail contributions which have been granted tax exemption by the IRS.

The organization's stated purpose is to "provide the truth about the free world for the isolated masses of Asians behind the Bamboo Curtain." But it spends more money providing the "truth" to Americans.

## Hollywood In Review

By VERNON SCOTT  
HOLLYWOOD (UPI) — The ads read: "Actors wanted. We can place you in a feature movie, television show or commercial."

They can be read in Southern California newspapers, in the trade press or seen on television.

"It's a racket," Charles Heston, president of the Screen Actors Guild, has taken action to have the Los Angeles district attorney's office investigate and prosecute the guilty.

"Our membership isn't directly involved," Heston explained, "because professional actors know better." "But naive young people and the mothers of children are the ones who fall prey to these sucksters. One mother of two children spent \$800, which she could ill afford, registering the youngsters with one of these phony agencies."

An Epidemic of Outfits  
There is an epidemic of fly-by-night outfits which identify themselves as casting services, production companies and employment agencies.

Non-professionals are assured there is a future awaiting them, perhaps stardom, for a fee.

An angry Heston said, "The fees range from \$40 to \$100, for which the agency undertakes to carry your name on their books and see it is circulated to casting offices and producers." "Some actually do this, but rarely does the newcomer find work. If they do work it is in public films or non-union productions."

"We sent one of our members to one of these agencies, pretending he was an out-of-

town neophyte. He was given a long pitch," Heston said, "assuring him the organization would act as his agency and manager."

Guild Franchises Agencies  
"That in itself is illegal. Legitimate agencies are franchised by the guild. Yet state laws at present permit some of these people to operate."

"We are trying to change the laws, and have the district attorney investigating a number of them. He's convinced that indictments will follow."

"Most of these operators sail pretty close to the wind, and some of them have crossed over."

Heston advises would-be actors in California and other parts of the country to check with the Screen Actors Guild before paying a fee to an outfit to represent them.

"The big catch is that these operators don't take a percentage of the client's salary if he does find work," the actor explained. "Therefore the newcomer is no good to them after the fee is paid."

"Legitimate agents work on a percentage basis—not for a fee."

HENDERSON, Tex. (UPI) — Department of Public Safety director Col. Wilson E. Speir Saturday was presented an honorary masonic lodge membership when he appeared in Henderson on the last day of Law Appreciation Week. Speir was a guest of the Rusk County Peace Officers Association.

### Panhandle Water

By FELIX W. RYALS

Two fine meetings were held on the south end of the High Plains last week on Thursday September 10 the High Plains Research Foundation held its annual field day at the experiment station at Half-Way about 12 miles west of Plainview.

The Half-Way Experiment Station has become a tremendous asset to the agriculture of West Texas. One of the finest agricultural research staffs in the country has been assembled at Half-Way. The experiment station has come up with some valuable assets to dryland farmers in recent year. The irrigation research is tops.

On September 11 the Board of Directors of Water, Inc. held its monthly meeting in Lubbock. Bill Clayton the Executive Director of Water, Inc. told of plans to keep the public interested in water needs in an off year for water legislation. He reminded the board members that the Texas Water Plan is still the law. He stressed the current efforts of Governor Preston Smith to move the Texas part of the plan ahead although it will probably be 1973 before he voters of Texas get another opportunity to vote on a bond amendment plan to finance the over all plan.

The state effort to get things moving were enhanced when Governor Smith announced on September 1, that John Simmons the Manager of the Sabine River Authority, would become his consultant on water affairs. The Governor stated that Simmons would coordinate Federal-state-local efforts towards programs the development of intrastate water resources first. He has been disturbed about the ho-hum attitude taken by many people in an out of the water effort. The governor is firmly convinced that we must make every effort to develop all of the local resources at our disposal to meet our needs, and let imported water take the back seat it must take as a very long-range project. The governor is keenly aware of the long period of years it took to get the California Water Plan moving toward completion. The dedication of the giant lifts at the southern end of the San Joaquin Valley occurred on May 1, 1970. This dedication came 43 years after the effort began. Governor Smith knows that the Texas Water Plan is a larger one than that of California and that it is going to be a long hard struggle. In taking stock of the defeat of the Water bond amendment in August of 1969 the governor is convinced that the Mississippi River import plan was so huge that if started, many Texas jobs voting against the \$3.5 billion issue.

He wants John Simmons to come up with programs and plans for full development of river basin projects and connecting lines or canals so the water within the state can be moved to where it is needed.

These closest to the governor indicate that the short term result may have to be a modified financing plan to handle both water development and wastewater treatment. The governor had gone on record earlier this year of desiring a statewide water resources management system which would permit all sections of the state to utilize effectively and efficiently the abundant capabilities we now have.

Tom McFarland who has been on the governor's staff since January will team up with Simmons. Their staff will operate out of the Westgate Building. In the new operation they will be working closely with the Water Rights Commission and the Water Development Board as well as the federal water agencies.

On Wednesday of the past week Governor Smith spoke at a conference he had personally called in Houston. In his address to the group he spoke on the "Goals in the Coastal Zone and Sea". The governor had invited 300 people to the two-day conference. He requested that the conferees roomand goals and possibl action programs for the coastal region.

Texas A&M University and the Texas Industrial Development Council sponsored a conference on Thursday and Friday of the past week at College Station. The industry-seekers for cities and companies were briefed on environmental considerations to be considered in locating various types of plants and industries. One of the prime topics of the conference was panel type discussion on "How Environmentalists Cost Us New or Expanded Plants". The speakers for this panel was James Covell of the New Mexico Development Department. Speakers on the program also included those giving the Federal, State and industry viewpoints.

### Wheeler Research Program Expected To Draw Big Crowd

By MAX HOTTER  
Wheeler County Agent

Farmers, ranchers and businessmen will turn out Tuesday night, for the annual Wheeler County Northwest Texas Research Demonstration Program. A free barbecue will be served at Kilton School at 7 p.m. courtesy of the Wheeler County Farm Bureau and the Wheeler and Shamrock Chambers of Commerce.

A grazing management conference will be conducted after the barbecue. Results of the grazing management study with heifer calves stocked on Ermelo Weeping Lovegrass will be aired. In addition, Frank Tidwell, Agricultural representative from the Security State Bank in Cuyenne, Oklahoma will talk on "Carrying over 200-cow units on 480 acres of Weeping Lovegrass."

All farmers, ranchers and businessmen in Wheeler County are encouraged to attend. Presidents of Wheeler and Shamrock Chambers of Commerce indicated they were looking forward to expressing their appreciation to their farmer and rancher customers in the county who have traded with them over the past year.

N.D. Ware, Ware Chevrolet Company is President of the Wheeler Chamber of Commerce while Glen Clifton, C & H Supply, heads up the Agricultural Committee of the Shamrock Chamber of Commerce. Charles Shields, Shamrock Coop, is incoming Chairman. John Hodges is President of the and the Wheeler County Farm Bureau. Max Hatter, Wheeler County Agricultural Agent who coordinates the Northwest Texas Research Demonstration Program, encourages those who are planning to attend the free barbecue and program to return their postcards or give him a call as soon as possible, so he will know how many to prepare barbecue for.

The on-the-farm research demonstration program is conducted through the Texas Agricultural Extension Service and the TEAS Agricultural Experiment Station. Dwane Scott, Wellington, is Farm Demonstration Assistant. Cattle and land for this year's grazing study were furnished by Verbon Smith of Wheeler. The initial fertilizer was sponsored by Reneau Seed Co. of Shamrock. Fences, scales, top-dress fertilizer, corrals and watering trough were supplied by the Texas Agricultural Experiment Station. The purpose of bringing together this type of information is to local farmers and ranchmen in making management decisions on their own farms and ranches. This demonstration drew interest across the state. Data on stocking rates, rotation schedules, and pounds of beef produced per acre on this often controversial grass was not available.

Commenting on future studies, Hatter said, "Much more information is needed on this and other grasses. THIS IS just the beginning. However we do feel like this is going to be a useful grass, as many producers have found out, especially in a drought year when grasses with shallow root systems are not available. Basically, what everyone wants is a grass that will produce more beef to the acre."

PRICE, Tex. (UPI)—A post office employe Saturday discovered a burglary which netted thieves \$2,200 in stamps. The door of the safe was opened with a sledge hammer after the burglars entered through a side window. A mail carrier entering the post office of the small East Texas town discovered the burglary.

## Whipping Crime For Profit

While serious crime throughout the nation, according to the latest FBI report, has risen 148 per cent in the past ten years as compared with a population increase during the same period of only 13 per cent, crime in a 23-block section of midtown Manhattan, according to the Wall Street Journal, has dropped an unprecedented 80 per cent just since last April.

Why? And, how? If the merchants and residents of a 22-block section of New York City, long noted for its criminal activity, have found a way to combat crime with such phenomenal success, it behooves the rest of us, facing ever rising taxes for the beefing up of law enforcement agencies, to sit up and pay attention.

Shaken by a series of holdups, including the murder of a tailor, merchants of the Manhattan neighborhood, roughly along Madison Avenue between 63rd and 70th streets, banded together and hired a private crime fighting firm called Interstate Security Services Inc. Initially only 20 businessmen participated and a single uniformed guard from Interstate with a blackjack patrolled the areas around their stores. This proved so successful that, today, 100 stores in the section are purchasing the same protection — at a cost of about \$1 a day — and five interstate guards patrol the neighborhood residential streets.

"We finally are having peace of mind," Martin Weiner, who owns an ad agency in the area, was quoted by the Journal as saying.

Business is booming elsewhere for Interstate, too, noted the Journal, as it is for other private enterprise companies around the nation in the burgeoning field of protection. Private crime fighters, the Journal said, took in more than \$3 billion last year, nearly double the figure of only seven years ago and this figure is expected to double again within the next eight years if the rising crime rate continues to grow.

Indeed, said the New York paper, the only activity which seems to be out-growing the private enterprise protection business is crime itself, "which is why both companies and

## Far From Settled

Employing the fruits of American technology under the umbrella of the free enterprise system, the United States farmer has become the most productive on earth.

Ordinarily the least efficient of the farmers would have fallen by the economic wayside, but problems developed when the national government, attempting to cancel out the laws of supply and demand, entered the picture more than three decades ago. It enacted a program of agricultural subsidies intended to keep the people on the farm and to assure survival of the family-sized agriculture operation.

The subsidy program has done neither. To the contrary, the \$3.5 billion in farm subsidies approved by Congress each year have become a social and political force that continues of its own momentum. All of the abuses and distortions present in the early days of the program now are entrenched and growing larger.

It now appears Congress will continue the distortions with a farm program of an historic pattern for the next few years. The major exception which has gained attention may be a limit of \$20,000 or \$25,000 in subsidy payments on any single farm.

Major growers, deprived of an unexpected income, may sever their relationship with the government altogether and plant crops at will to make up in crop volume the money they would otherwise lose.

If they choose to do this, one of the effects would be to drive more marginal farmers out of business. It just could cause such a problem in a few years that Congress will be forced to step back and consider, at long last, an overall program that phases government out of agriculture entirely.

## Down To Earth

Our esteem, already high, for astronaut James Lovell and Jack Swigert rose still another notch with the disclosure that they had walked out on a performance of the New York shocker, "Hair," in protest

## H. L. Hunt Writes

### THE YEAR 2000

Thirty-one years from now a historian will record for history our 20th Century. If the present trend continues, he will record that an experiment in democracy did not quite last 200 years, with a footnote that it was really a republic form of government, but was misnamed. Scholars will argue that the highest tax burden in history, moral decay, apathy, and subversion from within all contributed to Republic USA's demise.

The historian will recall that we gave away much, only to make enemies, fought two costly world wars, and were drawn into seven limited wars which killed our best manhood. While possessing the most sophisticated weaponry and the most brilliant military minds, we never used them to make our position secure.

Shortly before the nation's 200th birthday, the Socialist-Marxist nations appeared to be getting stronger militarily, but had promised peace. When the showdown came, the nation's leaders decided they could not risk total war and the United States surrendered its sovereignty. Those who resisted were quickly eliminated and suffered the least.

If you have read this far, you have read your own obituary. If you do not like what you have read, it is time to do something about it. If you cannot determine what you as one person can do to save Republic USA, then the time is growing short. Crusades, large or small, are necessary in order to reverse the deadly trend.

The turn to the right currently being experienced will slow and reverse if not supported, and it must be continued in order for our Republic to continue.

## With Some Reservation

By INJUN WOODY

I am afraid that a lot of these women who are joining up with the new Women's Lib Movement don't realize what they are getting into. There are probably any number of them who would be shocked to think they are falling in line with Communist schedules for taking over the country.

For any of those innocents, here is what the recently published book, "New Program for the Communist Party U.S.A." has to say about it.

"In the labor market, women encounter varied forms of discrimination. Women are virtually excluded from leadership in unions. Their struggle for equality, for equality in participation as equal partners at all levels of union leadership and for defense of children, home, family and community is the fight of all labor... for its increased strength against the capitalist enemy."

In the same book we find this passage: "...In sum, the Communist Party is essential in negotiating the revolutionary passage from capitalism to communism."

I wonder if these Libs are really interested in becoming Communists? I doubt it, but should investigate the leaders before they jump on the band wagon. It has been said that the leader of the band is one who always has to face the music. In this case, it may be the other way around.

## WORLD ALMANAC FACTS

The barracuda is a predatory saltwater fish with razorlike teeth. The World Almanac notes that many swimming tragedies attributed to sharks have later been credited to the barracuda. Barracudas fearlessly approach anything that moves in the water and can swim at high speeds for short distances.

### Muskie Acting Like A Real '72 Presidential Candidate

By RAY CROMLEY

Washington Correspondent  
WILKES-BARRE, Pa. (NEA) — Sen. Edmund Muskie of Maine has found a nice, loose-paced style that suits a man who has put himself on the long trail that leads toward the next Democratic presidential nomination.

Any formal decision to jump into the 1972 race may be months away, but it is a significant fact that he alone among Democrats is doing all the things — a prospective presidential nominee has to do.

On a short swing into northeastern Pennsylvania to lend a hand to Milton Shapp, his party's nominee for governor this year, Muskie performed with easy, confident grace — though practically nothing went according to exact plan.

The aging DC-3 sent to pick him up in Washington sat in a traffic backup for nearly an hour before getting off. En route to Philadelphia to get Shapp, Muskie wanted to change his shirt and shave. When he found there was no water aboard, he boomed out with a laugh: "I may have to shave with Coke!"

For awhile on the way, he talked over a written speech, but he never got to deliver it. By the time the Shapp-Muskie group reached this area, the delay had stretched into two hours and the people gathered for receptions near here and in Scranton had either drifted away or were showing heavy interest in the liquid trimmings on hand.

At Scranton, indeed, Muskie was so engulfed with noisy politicians that he gave up trying to talk for three or four minutes. Borne on a tide of local leaders and candidates, he popped into a paneled hotel room to satisfy their clamor for group pictures.

Amid the showing and hollering everybody seemed to be named Eddie), Muskie and Shapp were photographed in rigid postures that would have fit an album from the 1890s.

The room's burden of smoke and alcoholic fumes gave the senator's antipollution proposals fresh urgency. Advocates of the "new politics" would have been horrified at this standard replay of the old.

The whole thing worked only to relax Muskie more and more. On the plane ride back south, his way brown hair showing just the right amount of toule for a viable candidate, he held an impromptu press conference with Philadelphia reporters, crouching in the aisle, chatted with Shapp, read aloud with gusto from a current best-seller, talked about the excess of nudity and sex in movies.

Yet while he stretched his long legs comfortably as the carnival and chaos of modern campaigning swirled about him, Muskie plainly had his eye on serious business.

At his elbow was a thick black book of loose-leaf sheets laying out the political, economic and social patterns of Pennsylvania. He has 49 others like it (one for every state). The contents reflect hard work

## The Doctor Says

By DR. W. G. BRANDSTADT

### Take Pressure Off Bone Spur With Heel Pad

Q—An X-ray shows a bone spur on my heel. It is very painful. Can it be dissolved or must it be cut out?

A—These spurs are seen most often in heavy men who are over 50. Poorly-fitted shoes and arthritis will aggravate the condition. The spur cannot be dissolved. Injections of hydrocortisone or surgical removal are usually followed by a recurrence. The best treatment is to wear a heel pad so shaped that it will take the pressure of the tender spot.

Q—By what diagnostic methods are osteoporosis and osteomyelitis differentiated, especially in their early stages? What causes them?

A—In osteoporosis there is a diffuse loss of calcium from the bones, especially those of the spine. When a vertebra becomes sufficiently weakened it may collapse. Osteomyelitis is an infection of the bone marrow that may affect any bone. It causes an increase in the white blood cell count. The bone in the infected area dies after which it acts as a foreign body and must be removed.

Osteoporosis is painless in its early stages but osteomyelitis is acutely painful. The X-ray changes are different and distinctive. Osteoporosis may be caused by a diet deficient in flourine, calcium and phosphorus or prolonged use of drugs of the cortisone group. It is especially common in women who have passed the menopause. Osteomyelitis is usually caused by staphylococci which may reach the marrow through a fracture or through the blood stream.

Q—My husband has a low grade osteomyelitis in his right knee. He was put on penicillin for a couple of weeks, then switched to Unipen. Now he is taking Lincoxin but, after four months, he is no better. Why does it take so long to stop the pain and heal the disease? Will he ever recover? Could this lead to cancer?

A—Before the advent of antibiotics osteomyelitis was almost impossible to cure. Today the situation is not so hopeless, but special techniques are required to get a sufficient concentration of the drug in the place where the infection is.

This necessitates opening the marrow canal and scraping out all the devitalized bone and irrigating the wound with the antibiotic. The risk of bone cancer is not increased by the infection.

## HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives in Washington and Austin. Here are their addresses:  
**STATE**  
Rep. Malouf Abraham, Canadian, Texas.  
Sen. Grady Haslewood, Canyon, Texas.  
**FEDERAL**  
Sen. Ralph Yarborough, Senate Office Bldg., Washington, D.C. 20521.  
Rep. Bob Price, 977 Cannon House Office Bldg., Washington, D.C. 20515.  
Sen. John Tower, Senate Office Bldg., Washington, D.C. 20511.

## Inside Washington

JOHN GOLDSMITH

WASHINGTON — College students can safely relax as far as any changes being made in draft deferment this academic year.

There will positively be none. There isn't the remotest likelihood of this Congress, which expires at the close of this election year, doing anything about the highly controversial draft law.

That terminates next June 30. But legislation on this dynamite-loaded issue is being left to the new Congress (92nd) that convenes early in January.

What it is likely to do is wholly conjectural. It all depends on the make-up of the new Congress, the mood and temper of the country, what the Nixon Administration will propose, and other factors.

So college students are definitely assured of unchanged draft deferment throughout this academic year.

After that it is in the lap of the gods.

President Nixon does have authority under the existing act to halt deferments for college students. But there is utterly no chance of his using the power. If he didn't invoke it before the start of the academic year, he will emphatically not do so now.

As far as this Congress is concerned, what is in the works on the draft is a series of closed door hearings by the House Armed Services subcommittee on the draft, headed by Rep. F. Edward Hebert, D-La.

They are slated to start Sept. 21. The avowed purpose is to "gather" data and information for serious legislation next year. Only members of Congress and Pentagon authorities dealing with military manpower will be heard by the Hebert

ROBERT ALLEN

### College Students: Relax on Draft

The panel is seeking the views and recommendations of fellow legislators and Pentagon experts who have specific regarding the draft.

All others are being expressly excluded.

"Next year," said a committee spokesman, "wide open hearings will be conducted. The public as well as officials will be heard. But these private hearings are for the benefit of committee members. The hearings are in the nature of soundings of official sentiment on the draft and changes to be made — if any. They are strictly preparatory for full-scale proceedings next year."

Still undecided is whether the subcommittee will make a public report on its upcoming closed door hearings.

Senator John Stennis, D-Miss., chairman of the Senate Armed Services Committee, told his column he still hopes to hold some hearings on the draft this year. But he could not say when.

He also conceded the chance for such hearings are doubtful. "I want to hold hearings," said Stennis, "but the Senate is so far behind on urgent legislation that it is very questionable when we can find the time for hearings. It is extremely difficult to get senators to attend such sessions under conditions that now prevail. They just have too many other more pressing matters to take care of."

Uppermost among these is the November 3 election. Until that is out of the way, neither the House nor the Senate is going to do anything about the draft. And that means nothing will be done to tamper in any way with deferment for college students.

## CAPITOL EYE

### 'Sick Agents Of Violence Spread Fear Around World

By BRUCE BLOSSAT

Washington Correspondent  
WASHINGTON (NEA) — The selective terrorism of the airplane hijacker, the kidnaper of diplomats, the bomber, the sniper and the guerrilla menaces the rule of law at home and abroad as has nothing before in these recent troubled years.

By definition the terrorist is a fanatic, which means he does not operate rationally. That in turn means he has lost the capacity to measure the consequences, to him and to others, of his behavior.

Most of that behavior is cowardly. Some that has a surface air of bravery is at root just as cowardly.

It requires no courage for faceless men and women to plant bombs, to snipe at the police from rooftops or passing cars, to abduct unarmed diplomats, to ambush the unsuspecting, or to wave weapons about the cabin of a plane loaded with innocent travelers.

They simply elevate criminal blackmail, in its most virulent forms, into the political realm — and by that fact translate into unmitigated evil whatever worthy elements their "cause" may have.

Selective terrorism is, of course devilishly ingenious, since its perpetrators spring out from the anonymous mass, exact their toll and too often slip back, unidentified, into the protective numbers of the crowd.

They can simulate boldness because they know the authorities cannot move against the enfolding mass without violating the human rights of countless innocent folk. That ingenuity, so difficult to deal with, is at once their ultimate cowardice.

Fanatics may wear idealistic slogans on their banners. But it is idealism gone wrong. They are sick, lost people. So are their sympathizers in many lands, including clusters of deranged American students who are openly fawning on the Arab commandos, the kidnaping Tupamaros of Uruguay, and the white and black Americans who make, murder and destruction their creed.

fanatics are the real recruiting agents of the "repression" they profess to fear. But if they could understand that, they would not be fanatics or sympathizers.

Steeped in the incurable romanticism of the emotionally and mentally immature, they dramatize themselves as "revolutionaries." They evidently have not read of the rarity of real revolution, its shattering cost in blood and its totally unpredictable aftermath. The regimes, which follow revolution usually are worse than those they displace.

Their defensive cries against "repression" can hardly cloak the fact that they are themselves active practitioners of repression. They have already limited human freedom and they may limit it more. Aside from the physical and psychic damage visited upon their direct victims, they have spread eroding fear among millions yet untouched.

Must we now move to take key Arab lands out of international air commerce to cope with the hijacking menace? Must we place armed guards aboard aircraft and painstakingly search millions of innocent passengers in quest of the cowardly terrorist hiding among them?

The fanatics naturally think, on the basis of past willowy performance, that the responsible world community will not have the firmness. Or that if it now musters "it, the outcry from the inconvenienced innocent will weaken any new resolves. In a tragically funny piece of upside-down logic, a Palestinian guerrilla spokesman in Lebanon dared to brand as a "gross violation of international law" Israel's placing of armed guards on its own planes. Their presence caused the only failure among four planned hijackings in the Arabs' Sept. 6 air blitz.

The deranged agents of selective violence have had it incredibly easy so far. The saddest thing is that if rational leaders now move to curb this varied terror, we in the same world community shall all lose a little more of the freedom the fanatics already have stolen. The price of idealism gone berserk is monumentally high for humanity.

EVERYDAY LOW, LOW DISCOUNT PRICES PLUS WEEKLY SPECIALS

SMU vs. N.M. State

1. Find the fifteen games listed on the 15 sponsor's ads on this page. Circle the team you think will win the game. In case of a tie score, the game will not be counted.
2. Print your name and address in the coupon below along with your estimate of the scores of the Pampa Harvesters and their opponent and WTSU and their opponent.
3. Mail this entire page to: CONTEST EDITOR, PAMPA DAILY NEWS, P.O. Box 2198, Pampa, Texas 79065, or bring this page to the News office prior to 5:00 p.m. this Friday.
4. In the event more than one entrant guesses the same number of games correctly, the "Tie-Breaker" scores will be used to determine the order of the winners.
5. Everyone is eligible to enter except employees of THE PAMPA DAILY NEWS and members of their immediate families.
6. All entries become the property of the Pampa Daily News and none can be returned.
7. Winners of each week's contest will be announced in the Tuesday's edition of The Pampa Daily News.

Mail or Bring Entire Page to:  
Contest Editor  
Pampa Daily News  
P.O. Box 2198  
Pampa, Texas 79065

In case of ties, the scores of these two games will be used as tie-breakers.
