### VEEP'S JOB HELPS

## President Lauds Agnew For Effort In Election

WASHINGTON (UPI)—President Nixon is happy with the way Vice President Spiro T. Agnew campaigned in the recent election, and feels Agnew's effort proved extremely worthwhile, according to the White House.

"He felt the vice president conducted himself extremely well and was a tremendous benefit," White House Press Secretary Ronald L. Ziegler said Thursday.

Ziegler also reaffirmed Nixon views the election as a Republican success because added conservative strength in the Senate will give him more support for domestic and foreign programs.

Senate Democratic Leader Mike Mansfield disagreed. "I think it's a stand-off," the Montanan said. "The status-quo will be maintained."

Mansfield also said Sen. Edmund S. Muskie, D-Maine, is "well in the lead" for the 1972 Democratic presidential nomination, but added Muskie has not yet outdistanced the field.

### Nixon Plans 10-Day Fla. Work-Vacation

WASHINGTON (UPI)—President Nixon planned to fly to Florida early this evening for 10 days of rest and work.

Aides said Nixon would concentrate on planning for the 1972 fiscal budget and would assemble his top domestic and foreign advisers to work on directions and programs for the next session of Congress.

"Much can happen in two years," Mansfield said. He also repeated a previous suggestion the Democrats should pick Sen. Daniel K. Inouye of Hawaii as their vice presidential candidate.

Another post-election assessment came from two conservative groups who claimed partial credit for the defeat of one governor and seven veteran House members, including Republican Gov. Don Samuelson of Idaho, defeated by Democratic State Sen. Cecil Andrus; Rep. George H. Fallon, D-Md., beaten in a Democratic primary by Paul S. Sarbanes, who went on to election Tuesday; and Rep. E. Ross Adair, R-Ind., defeated by former Rep. J. Edward Roush, a Democrat.

COMMISSIONERS TALLY ELECTION returns with Gray County Judge Sherman R. Lenning Jr., center, tabulating the votes while Joe Clarke, left, of Precinct One, Lefors, and James O. McCracken, Precinct Three, Grandview, read the county's precinct votes. After completing the election canvass, commissioners and Judge Lenning will mail their results to the Secretary of State in Austin for the official count. Nov. 20.

## Only Hours After US Initiated Cease-Fire

By United Press International

Terrorists struck in the center of Tel Aviv today, exploding two bombs near the main bus depot crowded with Israeli holiday-goers. The bold attack came only hours after the renewal of the U.S.-initiated cease-fire in the Middle East.

The Israeli state radio said at least 11 persons were injured in the explosions near the bus station in downtown Tel Aviv. A high-ranking police officer said the two bombs consisting of about half a pound of explosives each, exploded almost simultaneously.

The Arab-Israeli cease-fire lines, however, remained silent with both sides agreeing to an extension of the truce past the Thursday midnight deadline 5 p.m. EST. Israel has set no time limit, but said it will not shoot first.

Egypt said today it will not extend the cease-fire beyond Feb. 3. Jordan also said it will abide by the extension, recommended in an Afro-Asian resolution approved Wednesday by the U.N. General Assembly.

The high-ranking police officer in Tel Aviv said a delivery truck parked illegally near a movie house apparently prevented a heavier casualty toll in today's explosions because it acted as a shield against the flying shrapnel.

The bus station was crowded with workers leaving for the long Jewish weekend which begins at lunchtime on Friday. A similar bomb explosion at the same bus station about two years ago killed one person and injured several dozen more.

The terrorist attack came shortly before the return to Israel of Premier Golda Meir from visits to the United States, Canada and Britain.

Mrs. Meir told an airport news conference that what happens on the Egyptian side of the Suez Canal will decide whether Israel abides with the standstill clause in the renewed three-month cease-fire.

The semiofficial Cairo newspaper Al-Ahram said today "urgent instructions were sent from Cairo yesterday (Thursday) to Foreign Minister Mahmoud Riad in New York to inform all U.N. delegations unequivocally that the United Arab Republic has accepted an extension of the cease-fire for another 90 days on the basic condition that it will not accept a renewal for a third period under any circumstances."

There were no reports of clashes in the early hours of the extended cease-fire. Foreign pool correspondent Jimmy Lederer reported from the Israeli side of the Suez Canal front at El Qantara that only the clank and grind of Egyptian trucks and tractors moving on the other side of the canal could be heard.

No apparent measures were taken by Israeli commanders except that the Thursday night movie for troops along the canal was canceled.

### 'POSITION IMPROVED'

## Tower Thinks 92nd Congress Good Climate For Nixon

DALLAS (UPI)—Sen. John G. Tower, the Republican from Texas who was in charge of the GOP's national campaign committee, said Thursday President Nixon will be able to work much better with the 92nd Congress than the one in session during the first two years of his administration.

"The President's position is improved in the Senate and the election results were certainly no rebuff to his policies," Tower said.

"In my estimation, from national issues, the Republicans did well," Tower said. "We bucked the long trend of losses in off year elections by the party in the White House. It would seem to be a pretty good indication of the acceptance of the Nixon administration."

He said Republican candidates

"made the right pitch" in emphasizing law and order in their campaign. "We would have fared better had there not been such dissatisfaction with the national economy."

Tower said the overwhelming victories registered by Democrats in his own state did not discourage him from plans to seek re-election in 1972.

"I have given no thought to not running," Tower said.

"I'm in reason ably good shape. Let's say I'm not shaking in my boots."

Governor Preston Smith, who won his second term in the Texas Democratic sweep, said the election proved Tower was vulnerable in 1972.

"The governor is entitled to his opinions," Tower said. "My opponents said the same thing in 1964. I'm not concerned about such matters."

Nixon convinced Rep. George Bush, R-Tex., to give up his safe House seat and run for the Senate. Both Nixon and Vice President Spiro Agnew campaigned in Texas for Bush and Republican gubernatorial candidate Paul Eggers. Democrats said they picked up needed votes because of the Agnew-Nixon campaign.

But Tower said "We might not have done as well if they hadn't come."

He said the defeats of Bush and Eggers left Texas Republicans "nothing to be ashamed of. Eggers and Bush drew more than a million votes each and percentage-wise we fared better this year than in any governor's race. We're coming along as a party."

## Lach May Not Be Called To Testify In Murder Trial

FORT WORTH (UPI)—Benjamin Lach, charged with the slaying of a Texas Tech cleaning woman, probably will not take the stand at his murder trial.

The defense has indicated it will complete its case today and has notified Judge Byron Mathews it has no plans to have Lach testify.

The defense called nine witnesses to the stand Thursday including a woman who said Lach was with her the night the cleaning woman was killed and a psychiatrist who said Lach was a paranoid schizophrenic at the time of the murder.

Joan Dominick, 29, said she met Lach "by chance" in the Texas Tech student union building at 6:30 p.m. Dec. 4, 1967, the night someone slit Alice

## Morgan's Throat Cut With Scalpel

Morgan's throat with a scalpel and then tried to cut off the cleaning woman's head with a bone saw.

Mrs. Dominick, who separated from her husband four years ago and who is the mother of a 7-year-old girl, said Lach walked her home that night and they drank coffee and talked until 9 p.m.

The prosecution rested its case Wednesday by introducing a confession in which Lach admitted killing the woman. Lach said in the confession he surprised Mrs. Morgan, choked her, threw her on the floor and decided to "cut her up."

The defense called Dr. Robert Glen of the Southwestern Medical School to the stand to cast doubt on the truth of the confession.

## County Canvasses Ballots

Gray County Commissioners and County Judge Sherman R. Lenning canvassed the county's election returns today and reported a mix-up in vote tallies from one county precinct added 100 more votes to the Bill Nix-Phil Gates race for the 79th Legislative District.

A telephone report election night from McLean, Precinct 5, to the Gray County Clerk's office was 100 votes less than Phil Cates actually received in that precinct, Judge Lenning said.

The total reported Tuesday from Precinct 5 was Phil Cates, 229 and Bill Nix, 155. The figures should have been Cates, 329 and Nix, 155, according to Mrs. Wanda Carter, Gray County clerk.

"The actual total count from Gray County for this race should be Phil Cates, 4,345 and Bill Nix 3,434. The total vote from the seven counties in the 79th Legislative District was Cates 8, 272 and Nix, 8,021. This means Cates won the district by a margin of 251," Mrs. Carter said.

A breakdown of the district by counties shows Hansford voted 758 for Nix and 720 for Cates; Hemphill, 749, Nix and 307 Cates; Lipscomb, 746 Nix and 587 Cates; Ochiltree, 428 Nix and 968 Cates; Roberts, 255 Nix and 217 Cates; and Wheeler, 651, Nix and 1,128 Cates.

After commissioners canvass the returns today, their report and the returns will be mailed to the Secretary of State in Austin. The official canvass by Austin officials will be Nov. 20, Judge Lenning said.

## Amarilloans Ask Pampans To Game, Dinner

City, county, chamber of commerce and newspaper representatives from Pampa will go to Amarillo tomorrow to join a neighborhood get together being sponsored by the Amarillo Chamber of Commerce.

Attending from Pampa will be Mayor Milo Carleton, Chamber president Kay Fancher, chamber manager Red Wedgeworth, county judge elect Don Cain and Al Bassett the Pampa News publisher.

Members of the delegation and their wives will attend the West Texas-Western Michigan football game tomorrow afternoon as guests of WTSU.

Following the football game a reception will begin at 5:30 p.m. in Amarillo Civic Center and a dinner is scheduled for 6:30 p.m.

The Amarillo chamber will be assisted by the Amarillo City Commission and the Potter County Commissioners Court in hosting the affair which is expected to attract about 120 area dignitaries.

Purpose of the meeting, it was explained, is to develop what was described as "a real neighborhood atmosphere" for the Panhandle area.

## Bush Says Drink Proposal Brought Democrats To Polls

AUSTIN (UPI)—A Republican official says George Bush lost his Senate race to Democrat Lloyd M. Bentsen Jr. because the liquor by the drink proposal brought more Democrats to the polls.

The official, who asked not to be identified, said Bush would have won if the proposed amendment for liquor by the drink had not been on the ballot.

He said rural Democrats, who would not have voted if the amendment was not on the ballot, voted specifically against the amendment and then voted for Democratic candidates as an afterthought and through force of habit.

"It was clear as the nose on your face," the official said. "When the rural returns came in first, Bentsen jumped into the

## Boycott Of Salad Fixings Planned By Farm Workers

MCCALLEN, Tex. (UPI)—Cesar Chavez' United Farm Workers Organizing Committee is planning a boycott on tomatoes, lettuce and celery grown in the Rio Grande Valley.

Antonio Orendain, a spokesman for the UFWOC, said Thursday the target of the boycott will be the La Casita Farms of Starr County. The purpose of the boycott, he said, was to unionize field hands in the Lower Rio Grande Valley. An earlier attempt in 1966 and 1967 failed when a state judge issued a temporary injunction following reports of violence, bridge-burnings, mass picketing and tire slashings.

Orendain said union officials are in the process of calling for the boycott. He said the pro-

ducts the boycott was targeted for was announced last week but the specific farm was not announced until after the elections.

Orendain said the farm workers are relying on only the boycott because of the injunction. He said the boycott can be expanded to include products of other Rio Grand Valley farms.

The tomatoes, lettuce and celery to be boycotted are due in the market in 30 days.

When the Texas Supreme Court ruled recently the temporary injunction issued in the wake of the earlier unionizing attempts was still in force, Orendain said.

"Justice moves slow for poor people. But it moves fast against poor people."

## Cable Car Men In Frisco Go On Strike

SAN FRANCISCO (UPI)—Operators of the city's famous cable cars struck Thursday night after a brawl with police concerning a minor traffic accident.

A cable car operated by Robert Coates collided at Columbus Ave. and Taylor St. with a truck driven by Louis Knight, a Sausalito antique dealer.

Michael Wincoop, a Municipal Railways inspector, told patrolman Art Orrante, police weren't needed since there had been no injury and he was investigating.

Orrante called for assistance and police said Coates leaped from the cable car and assaulted Knight in the cab of his truck.

Muni men said Orrante and three other policemen jumped Coates.

## Newly-Elected Justice Of Peace Doesn't Plan To Change Avocation

LAWRENCE, Kan. (UPI)—Phillip C. Hill emerged from obscurity Thursday to claim election as justice of the peace. Chances are he'll never be obscure again.

Although he didn't tell either the voters or the politicians who he was or what he did before Tuesday's election, he has told them now. And they might not like it.

"Mainly I earn my living by peddling dope," Hill said, "and I suppose I'll keep on since you can't earn much as a J.P. around here."

Hill, 23, says he sells "all kinds of dope except heroin. I won't have anything to do with that stuff. But I sell LSD and mescaline and almost everything. There's not much money

in marijuana—too much of it growing around here."

"If he's a damn hippie, I don't know anything about it," the Douglas County Democratic chairman said. "I've never heard of him."

"Just make a mental note of his name," Attorney General-elect Vern Miller said Thursday, "and how long it is before you hear that he has been arrested."

"I'll put an undercover agent on him," said Miller, who before winning the attorney general election on a strict law-and-order campaign was the Sedgewick County sheriff.

"I got busted last summer," Hill said, "for breaking curfew."

Two justice of the peace positions were up in the general

## Heroin Candy Takes Life Of Boy

DETROIT (UPI)—A 5-year-old boy who ate Halloween candy laced with heroin Monday, died today without regaining consciousness.

Authorities at Children's Hospital ordered an autopsy to determine the exact cause of death of the victim, Kevin Tostin.

The boy fell into a coma early Tuesday after eating some candy he had collected last Saturday on his trick-or-treat rounds on Halloween.

Doctors said young Kevin had suffered an overdose of narcotics. Analysis of some of the candy the boy had eaten

showed that it contained heroin mixed with quinine in powder form that had been sprinkled over the candy.

The boy's mother, Mrs. Ida Foster, told police Kevin had spent Monday night at the home of her brother, Henry Coleman. While there he ate some of the Halloween candy he had collected. Several hours later, Kevin began sweating and breathing heavily.

He had failed to awaken by Tuesday afternoon, and he was taken to a clinic from where he was transferred immediately to Children's Hospital.

## Americans Urged To Honor Older People

WASHINGTON (UPI)—President Nixon has issued his annual Thanksgiving day proclamation, asking Americans to welcome older citizens into their homes to share the Nov. 26 observance. He added:

"Although some may see only strife, we give thanks that this nation moves closer each day to peace for all its citizens and the world. And we give thanks for God's strength and guidance, upon which we confidently rely today and every day."

## Cmdr. Robin Quigley To Head Waves Jan. 4

WASHINGTON (UPI)—The Navy has announced that Cmdr. Robin L. Quigley, a 16-year veteran, will take command of the Waves, the Navy's female corps, on Jan. 4.

Miss Quigley, 40, a native of Prescott, Ariz., is the daughter of retired Air Force Lt. Col. Patrick A. Quigley, Shingle Springs, Calif. She replaces Capt. Rita Lenihan, who is being reassigned to the Office of the Deputy Chief of Naval Operations for Fleet Operations and Readiness.

# GM, UAW Willing To Settle Strike

**DETROIT (UPI)**—Secrecy surrounds the auto contract talks. Indications mounted today that General Motors and the United Auto Workers were increasing the intensity of their negotiations to end the 53-day strike.

Both sides maintained their week-old "news blackout" but there were new signs of activity and reliable sources indicated both sides were showing new willingness to move from their previous positions on the issues blocking settlement of the strike.

The Detroit Free Press in today's edition reported that General Motors has agreed to revise its stand on the cost-of-living allowance. GM had opposed the union's demand for removal of limitations on the cost-of-living increases, but it was not known how far the company was willing to go.

The negotiations at the main table on the fifth floor of the General Motors building have not gone into the round-the-clock meetings which traditionally signal an end is near, but

both sides met until shortly after 7 p.m. Thursday, the first long session since the strike began at midnight Sept. 14, idling more than 400,000 GM employees and thousands of others in related industries.

The pace of local contract settlements also has stepped up. Five agreements were reached Thursday—four of them at "key" plants needed for GM to resume normal production once the broader issues are settled.

The latest settlements brought to 71 out of 155 the number of local bargaining units in the United States which have achieved agreements. Two of seven local bargaining units in Canada also have resolved their local issues.

Sources close to the talks indicated the first break in the impasse might come on the wage issue. Before the strike began, the UAW had demanded a 61-cents-an-hour wage boost in the first year of the contract. The company countered by offering an average 38-cent hike. Those two positions have remained constant.

**WOMEN'S LIBERATION demonstrators in Japan challenge riot police arresting one of their group during a march in Tokyo. Screaming women, some wearing helmets demanded liberation in the movement's first Japanese street demonstration.**

# Mighty Military Rocket Launched As Super Spy

**CAPE KENNEDY (UPI)**—America's mightiest military rocket raced into space before dawn today carrying a secret superspy satellite equipped to flash an early warning of a missile or orbital bomb attack.

The 1,800-pound spacecraft is the first in a new generation of early warning satellites that, as a secondary role, also will perform general military surveillance and watch for nuclear tests on the Asian continent.

The Air Force classified the mission "secret" although the program has been discussed publicly by Defense Department officials and, has been detailed in U.S. trade publications.

The satellite's primary mission—relayed to the North American Air Defense Command, which in turn would alert U.S. strategic missile and bomber forces for a counter strike.

The satellite was launched at 5:35 a.m. EST on a triple-barreled Titan 3C rocket. The shot was not announced ahead of time, but it was common knowledge the launch was imminent. Floodlights illuminated the big booster on launch pad 40—several hours before the trajectory data to a new ground station in Australia. The reports would be quickly relayed to the North American Air Defense Command, which in turn would alert U.S. strategic missile and bomber forces for a counter strike.

The satellite is expected to be able to track a missile during the powered portion of its climb into space and beam

# GM Strikers Stop Food To Union

**PAN NUYS, Calif. (UPI)**—A group of General Motors strikers shouting obscenities refused to allow University of California at Santa Barbara students to deliver a truckload of food to their union-headquarters Thursday.

The students, responding to an appeal for food from United Auto Workers' union leaders, attempted to deliver the truckload of supplies to the

union headquarters. But about 100 strikers voted against permitting the truck into the headquarters parking lot.

They charged the students were part of a "Communist plot" to infiltrate UAW Local 645.

Other strikers accepted food when it was unloaded outside the lot, despite boos from their fellow strikers.

One striking GM employee, Frank Shaw, said, "We don't want any of their Communist food when they are over there killing our kids in Vietnam."

Rick Simmons, a student driving the truck, said the students had hoped their gesture "would ease some of the strains and help prove to some of the misleaders in the union that not all students are Communists."

Embarrassed union local leaders apologized to the students.

# Freedom Doesn't Last Long For City Prisoner

A city jail prisoner who had been placed on a work detail at City Hall yesterday decided to make a break for freedom but it didn't work.

Patrolman Roland McGill observed a man running across W. Francis St. from City Hall and gave chase to see what it was all about.

McGill caught up with the fleeing youth in the 100-block of Browning St. It turned out to be 18-year-old Thomas Sells of Pampa who had been made a trusty and given a chance to work out his fine.

Sells was returned to his jail cell where he will remain until his time is served out on an intoxication charge.

# Businessmen Plan To Set Up Bank To Serve Poor People

**EDINBURG, Tex. (UPI)**—Justice of the Peace James R. Wilson announced Thursday a group of businessmen have applied to charter a bank to serve the poor and break the banking monopoly in the Lower Rio Grande Valley.

Wilson said the Metropolitan National Bank will be "multi-purpose" and "bilingual" and will be operated as a "democratic bank—not one family can perpetuate a dynasty," in reference to Lloyd Bentsen Sr. and his brother Elmer, who along with V. F. "Doc" Neuhaus own major shares of nearly every bank in the area.

Wilson, acting as the spokesman for the businessmen, said the application was filed with the regional federal comptroller's office in Dallas Oct. 29. But the group decided to withhold its announcement of the charter until after the general elections.

Wilson said the bank is designed to give low-income families "a piece of the action" by setting aside 10 per cent of its stock for low-income persons and "by actively seeking to bring in depositors from the

**Mainly About People**

The News invites readers to phone in or mail items about the comings and goings of themselves or friends for inclusion in this column.

**3 In 1 Shots To Be Given At Clinic**

Two Pampa school nurses will operate the third immunization clinic Monday and Tuesday for children who have not had their smallpox, tetanus, diphtheria and whooping cough inoculations.

These inoculations will be given at Carver Center from 3 to 6 p.m. on those two days for any school child who is unable to get them through any other source. These are for booster shots or for first inoculations," Mrs. Marjorie Penn, R.N., said.

Mrs. Ruth Steger, R.N., another school nurse, will assist with the clinic and Dr. Joe Gates, Gray County health officer, will be on call, Mrs. Penn said.

"We had 41 children at the second clinic, and plan to make this series of three clinics an annual program to be sure all our school children receive these vaccinations," Mrs. Penn said. "Parents are asked to accompany their children to complete the health information cards."

**Ranch Employee Dies In Fall From Horse**

PANHANDLE (Staff)—cattle, according to Sheriff John Nunn of Carson County. He was dead on arrival at a Panhandle Physicians' office where he was taken for medical attention.

He was born in Groom July 22, 1949, and graduated from Pampa High School. He was working for his brother-in-law, Dennis Kotara, to earn tuition to return to Texas Tech University. He had attended the university two years.

Survivors are his mother, Mrs. Lois Baker of 7213 W. 34th St., Amarillo; one sister, Mrs. Dennis Kotara, of Panhandle and his grandparents, Mr. and Mrs. L.R. Wright of Pampa and Mrs. John Baggerman of Groom.

Funeral services will be held at 2 p.m. Saturday in the First Baptist Church with the Rev. Dan Cameron, pastor, officiating. Burial will be in Fairview Cemetery directed by Duenkel Funeral Home Directors.

**BBC Men Urged To Wear Evening Dress On Duty**

LEEDS, England (UPI)—Radio newsmen at the British Broadcasting Corp.'s (BBC) Leeds station are up in arms over an order to wear evening dress when doing newscasts after 5 p.m.

A special union meeting was called for today to discuss the problem.

Station manager Ray Bealy said one day a staff member enroute to a formal dinner jacket to work wearing a dinner jacket and he later decided the dress was a good idea to "raise the tone."

Angus Turner, deputy station manager, said "wearing the right clothes gives you a sense of occasion and definitely improves the news reading. We should create an image of stability and respectability."

**Deaths In Combat At Lowest Total**

SAIGON (UPI)—The U.S. military command announced Thursday 24 American servicemen were killed in combat last week, the lowest weekly death toll in more than five years.

U.S. headquarters spokesmen said the casualty level was the lowest since the week ending Oct. 23, 1965, when 14 U.S. troops were slain.

# New Orleans Court Decrees Hair Grooming Up To Youth

**NEW ORLEANS (UPI)**—The 5th U.S. Circuit Court of Appeals instructed a lower court Thursday to decide if male students at San Jacinto, Tex., Junior College have the right to wear long hair, beards and sideburns.

Student Carlos Cabillo challenged the college's regulations after he was expelled for refusing to shave his beard.

U.S. District Judge John J. Singleton Jr. of the Southern District of Texas granted a motion Nov. 17, 1969, restraining school officials from enforcing their regulation on hair styles.

However, since that time Cabillo has withdrawn from school and shaved his beard, so the case may be moot.

The circuit court remanded case to Singleton to consider

# Obituaries

**MRS ANNA CHAPMAN**

Funeral services for Mrs. Anna Blanche Chapman, 65, will be held at 10:30 a.m. Saturday in First Christian Church of Pampa. The Rev. Ra'oh T. Palmer, pastor, will officiate. Burial will be in Fairview Cemetery directed by Carmichael-Whately Funeral Directors.

Mrs. Chapman died Thursday in Highland General Hospital.

# City Manager In Amarillo For CRMWA

City Manager B. M. Wofford was in Amarillo today for a discussion with Amarillo and Borger city officials on procedure to be taken on the "neck of assessing operating and maintenance costs among member cities of the Canadian River Municipal Water Authorities."

Borger and Amarillo are opposing a recent change made at the suggestion of Lubbock. They claim the change will hike operating and maintenance costs to cities in the north and lower them for cities on the southern end of CRMWA pipe lines from Lake Meredith.

Wofford said today the proposed change apparently will not make much difference to Pampa but the city's attitude will be one of back-up support for Amarillo and Borger.

# Texas' Unemployment Increase May Have Affected Elections

**AUSTIN, Tex. (UPI)**—For the first time on record unemployment increased in Texas during September, a fact which could have had some bearing on the outcome of Tuesday's general elections.

The Texas Employment Commission reported Thursday the state's unemployment rate climbed from 3.7 per cent in August to 3.8 per cent in September. While the .1 per cent increase does not appear high on its face, it is usual for unemployment to drop drastically in September because of the return of student jobseekers to school.

The increase in the unemployment record could have had an effect in the race for U.S. Senator from Texas. The winner, Democrat Lloyd M. Bentsen Jr., said Republican economic policies were creating unemployment while defeated Republican candidate George Bush defended the administration's economic policies.

It was the first time a rise in unemployment was recorded for September since the commission began keeping records in 1947.

Commission officials said layoffs in the defense industry were to blame for the increase. However, the 3.8 per cent unemployment figure for Texas is short of the national average of 5.1 per cent.

The officials said the rise in unemployment signaled worsening economic conditions in the state.

# Italy Recognizes Communist China

**ROME (UPI)**—Italy extended diplomatic recognition to Communist China today. It was the second Western nation to do so within a month.

A statement issued by the cabinet after a one-hour meeting said:

"The cabinet has approved the procedures concluding negotiations for the recognition of the People's Republic of (Communist) China and for the establishment of diplomatic relations between the two countries."

The announcement culminated 20 months of negotiations between Italy and Communist China.

A formal statement was expected later in the day.

Nationalist Chinese Ambassador Hu Shiao-chang called a news conference for 4 p.m. and there were reports he would announce his government was breaking diplomatic ties with Italy.

Italy's recognition of Peking came less than one month after Canada established diplomatic ties with the Mao Tse-tung regime. Nationalist China promptly ended its relations with the Ottawa government.

Italy is the ninth West European government to recognize Communist China. Six West European governments maintain ties with the Taipei government of President Chiang Kai-shek.

# Pampa Men To Highway Meet In Amarillo

Pampa will be represented at the U.S. 60 Highway Association's board of directors meeting Saturday in Amarillo by Harold Barrett, Howard Buckingham, and E.O. Wedgeworth.

The meeting will be devoted to discussion of the distribution of the association's new brochure and an advertising program being considered to boost the use of U.S. 60.

Allen Early of Amarillo is national president. Buckingham and Barrett are members of the board representing Pampa.

The meeting will be at the Colonial Motor Hotel beginning at 9 a.m. tomorrow.

# Police Set Drive Against Traffic Violators

A new drive against traffic violations in Pampa has been launched due to a recent upturn in the number of accidents on city streets.

A notice to all police department personnel to increase their watch for traffic violators has been posted on the police bulletin board at City Hall.

The notice also lists places in Pampa where accidents are most frequent. They include the downtown area, W. Francis St. and the intersections of N. Hobart and Kentucky, N. Hobart and Corcoran Drive, N. Hobart and E. 23rd St.

More accidents happen in these locations than anywhere else in Pampa, according to George Wallace, assistant police chief.

# Evidences Of Glue Sniffing Found In House

A report that glue sniffers have been meeting in a couple of vacant houses was filed with Pampa police yesterday.

Frank Trisler, 936 E. Campbell, said he found plastic bags containing glue in two vacant rent houses at 1005 and 1013 Murphy St.

John McGuire, 1820 N. Zimmer, told police someone entered his parked automobile and stole a stereo while he was attending a football game in Harvester Stadium last night.

A report of vandalism in which glass was broken from a front storm door was filed by Mrs. A.A. McElrath, 1217 Garland. Police said the breakage was caused by pellets from a B-B gun.

# Tax Men Go To Regional Meeting

Tax Assessor Collector Aubrey Jones and his chief deputy, Bill Wagoner, went to Amarillo today to attend an afternoon meeting of Region 1 members of the Texas Association of Assessing Officers.

The session opened with a luncheon at the Villa Inn with city, school and county tax officials from practically all Texas Panhandle counties in attendance.

**JOB DISCRIMINATION**

PIBER, Austria (UPI)—The Piber fire brigade was disbanded today after insurance companies refused to insure buildings in the town. The brigade was Austria's only fire company composed entirely of women.

### Television In Review

**By RICK DU BROW**  
**HOLLYWOOD** (UPI)—Beth Brickell lives along high in the hills of Los Angeles, in a lush area known as Benedict Canyon, which is almost as famous for its celebrity residents as for its fire insurance rates.

right for herself. She did a two-year stretch as a sexy young mama in the children's show, "Gentle Ben," on CBS-TV. But that's well behind her now, and a good thing too, because a young lady with her looks and ability obviously is cut out for more adult and with-it roles. On her series, she wore her hair short—on CBS orders because the network wanted her to look more average, which is impossible in her case. Well, goodbye to all that type-casting. She now wears her hair long and blonde and natural, which seems to fit in with her penchant for playing folk songs on the guitar. Her television career has begun to shape up nicely too. She recently appeared on the

top-rated series "Marcus Welby, M.D.," as Gary Merrill's young fourth wife, a sort of female trophy. The same night, she turned up in the two-hour preview of NBC's new series "San Francisco International Airport," as Pernel Roberts' secretary. Also this season, she will appear on ABC-TV's police show "Dan August" as a sensitive, frustrated wife; on NBC's western "The Men from Shiloh"; on a two-hour NBC "World Premiere" called "The Great Man's Whiskers," which concerns Abe Lincoln.

**SECRET OF THE SEA** is given up after more than four centuries. After two years of excavation, archeologists working off the English coast uncovered this eight-foot-long iron gun from the Mary Rose, one of Henry VIII's finest fighting ships. The Mary Rose sank in 1545 while putting out to fight the French. It was the first warship to have complete batteries of siege guns as main armament and is considered by many the most important known shipwreck in northwest Europe.

### Couple Injured In Car Accident Reported Fine

**FORT WORTH** (UPI)—A couple injured and trapped for six hours in the wreckage of an automobile in near freezing weather was in fair condition in Fort Worth hospitals today.

The couple — James Goolsby, 26, of Glen Rose, and Sandra Shivers, 22, of Cleburne — was in a car that went out of control near Glen Rose in Somervell County, smashed through a fence and uprooted a mesquite tree. "The tree fell over on the car, partially covering it," Somervell County Sheriff C. M. Strawn said. "That's apparently why nobody noticed it." "The car was upside down. We had to use hacksaws to saw through the bottom of the car to get the girl out. The man's injuries kept him from crawling out of the car."

**FUND RAISER.** Gail Fisher, Emmy award-winning television star has been named Goodwill Ambassador for the 1971 National Easter Seal Campaign, March 1-April 11. Miss Fisher will play a leading role in raising funds to aid 250,000 handicapped children and adults.

Bentley's

You'll be in high fashion with this butter soft, smooth nylon turtle-neck T-Shirt with long sleeves. This beauty has a long back zipper, full cut finished hem and knit cuffs. A wide array of high fashion colors you won't believe. A definite must to highlight your winter wardrobe.

# Bentsen Jr. Attributes His Win To Liberal Demos

HOUSTON (UPI) — Sen. elect Lloyd M. Bentsen Jr. says he won his Senate race because he received support from the state's liberal Democrats.

Bentsen said Wednesday the persons who once supported Sen. Ralph W. Yarborough, D-Tex., supported him in the general elections. Bentsen retired Yarborough in the May Democratic primary.

"I couldn't have won without them," Bentsen said of the Yarborough supporters. "We had people working together in my campaign offices that didn't even walk on the same side of the street together in a general election for many, many years. I went to many, many people who supported Sen. Yarborough and extended my hand and asked them for help and they gave it."

Bentsen said he hopes to do as well unifying the Democratic party in the Senate as he said he has in Texas.

"I said after the primary I'd try to be a unifying force in the Democratic party," Bentsen said. "I think we've accomplished a great deal toward that. I'd like to be a unifying voice in the Senate like I was in this race."

Bentsen said he thought the visits of President Nixon and Vice President Agnew swung many liberals his way. He also

# Smith: Sen. Tower Can Be Beat In '72

AUSTIN, Tex. (UPI) — Gov. Preston Smith said Wednesday the Democrats in Texas did so well against the Republican challenge he thinks they can go on and defeat Sen. John Tower, R-Tex., in 1972.

He also said President Nixon and Vice President Agnew's campaign trips to Texas probably hurt the Republican cause.

"They probably lost more votes than they gained," Smith said. "It created more interest in the race, and that had to have helped the Democrats."

Bush himself hinted Nixon's visit may have cost him votes, although he said he could not

# Dance Hall Fire Cause Ascertained

ST. LAURENT-DU-PONT, France (UPI)—A commission investigating the dancehall fire that killed 145 youths said today a coroner's report revealed the blaze started when one of the victims threw a lighted match on a plastic-covered chair.

The investigating commission said coroner Andre Viossat also reported the plastic decorations in the "5-7" dancehall gave off "an important quantity of gas" when burned which "probably had a considerably devastating effect."

The coroner told the commission the boy who started the fire died and his identity was not known.

**HIGH-RISE AND FALL** in Buenos Aires. This apartment house complex in the Argentine capital's fashionable Belgrano district has been declared unsafe for occupancy. Police stand guard against return of evacuated tenants. In the last few months, at least two of Buenos Aires' modern skyscrapers have crumbled, killing 35 persons. Many other new buildings have been torn down after being condemned by the government. Nobody has yet determined or given an official explanation for the rash of collapsed buildings.

**The Lighter Side**

By DICK WEST  
WASHINGTON (UPI)—Election results are notoriously unreliable gauges of voter sentiments. In an election, you always have a lot of votes that are whimsical or born of confusion. In a poll, on the other hand, the participants are selected scientifically and are less likely to be subject to the distortions that creep into the electoral process.

Another good reason for conducting a post-election poll is the fact that many voters are more strongly swayed by post-election events than by the actual campaign. For example, you may have heard a dozen campaign speeches without being greatly influenced either for or against the candidates. It was only after hearing their victory statements or concessions of defeat that your feelings toward them crystallized. A good illustration is President Nixon's concession of defeat in the 1962 California gubernatorial election. It was far more impressive than anything he said during the campaign. For this reason, some political scientists are advocating that candidates be required to make their victory statements or concessions of defeat before the election. Based on these two points (the unreliability of election results and the impact of post-election statements) a post-election poll should take form somewhat along these lines:

- Questions for Poll**
1. If the election were held today would you: ( ) Vote the same way you did last Tuesday? ( ) Change your votes? ( ) still be undecided? ( ) Think something was wrong with your calendar?
  2. Did you actually vote the way you were planning to vote when you entered the voting booth? ( ) Yes. ( ) No. ( ) Yes and no. ( ) Undecided. ( ) Don't know.
  3. Did the winner's victory statement make you: ( ) Glad you voted for him? ( ) Wish you had voted for him? ( ) Wish you had voted for his opponent? ( ) Wish you hadn't voted at all?
  4. Did the loser's concession statement: ( ) Arouse your sympathy? ( ) Make your flesh crawl? ( ) Cause you to change your mind about him? ( ) Shake your faith in democracy?

**Miss Fonda Hates Jail Conditions**

CLEVELAND (UPI)—Actress Jane Fonda, arrested here earlier this week on charges of smuggling pills and assaulting an officer, says she doesn't like the county's jail. Miss Fonda held briefly in the jail Tuesday, complained to Cuyahoga County prosecutor John T. Corrigan Wednesday about conditions at the jail, saying, "I found it deplorable, criminal and violent." "The inmates are assaulted physically and psychologically and they all told me to tell them what it's like when I got out," she said. Corrigan told her the jail is due to be replaced in 1975. He promised to look into her complaint that a beating was inflicted upon an 18-year-old girl held in jail on a charge of disrupting a parade of hard hats. In Municipal Court here earlier Wednesday, Miss Fonda pleaded innocent to kicking and slapping a policeman at Cleveland Hopkins Airport who had been helping customs officials search her luggage Tuesday. A jury trial was set Jan. 6. Miss Fonda is to appear in court Monday on federal charges of smuggling pills into the United States from Toronto, Canada, and assaulting a customs official.

**GETTING NEW PLANE**  
WASHINGTON (UPI) — The Defense Department has announced the 149th Tactical Group of the Air National Guard in San Antonio will get the more modern F100 airplane to replace the F84s by next summer.

**CHARGED IN SLAYING**  
HOUSTON (UPI) — Francisco Barrientez, 31, and his brother Juan, 37, have been charged with Tuesday's shotgun slaying of a Houston bartender.

WASHINGTON—Mrs. Martha Mitchell, wife of the attorney general, when asked what she thought about the defeat of Sen. Charles E. Goodell, R-N.Y., and Albert Gore, D-Tenn.: "Want me to stand on my head?"

**Roberts County Democratic With Republican Tendencies**

MIAMI (Sp)—Roberts County voters showed Republican tendencies on the state level in their voting in Tuesday's general election, but elected Democratic candidates. In the senatorial contest, Lloyd Bentzen (D) garnered 215 votes to George Bush's (R) 257. Paul Eggers (R) nosed out incumbent Gov. Preston Smith (D) with a 258 to 219 margin. For lieutenant governor, Ben Barnes (D) racked up 304 votes to Byron Fullerton's (R) 161. Republican incumbent Bob Price, congressman from the 18th congressional district, tallied 312 votes. He was unopposed for his third term in the US House of Representatives. In the 79th senatorial district race, Republican Malouf Abraham's of Canadian 319 votes topped Democrat Max Sherman's of Amarillo 161. Democrat Phil Cates of Lefors

was defeated by Republican Nix of Canadian by 255 to 217. Democrat Grainger McIlhenny of Wheeler out-pollled Pampa attorney Bruce Parker (D) with 329 to 137. In the Roberts County races, County Judge Newton Cox (D) tallied 264 votes to Howard Morris (R) 217. For the county clerk's post, Jackie Jackson (D) received 324 votes to Lorene McCormick's (R) 157. Unopposed for county treasurer, Annie Keen received 393 votes. Incumbent Justice of the Peace Mildred Cunningham (D) outdistanced Sarah Gill (R) with 238 votes to 137. R. J. Bean (D) with 225 votes won over Frank Russell (R), who got 142 votes for the County Commissioner Precinct 1 job. In Precincts 2 and 4, respectively, Woods King (D) and Paul Caylor (D) were unopposed and were returned to their seats.

**Indiana To Recheck Senator Votes**

INDIANAPOLIS, Ind. (UPI)—A recount is likely in the Senate battle between Democratic Sen. Vance Hartke and Rep. Richard L. Roudebush following the impounding of voting machines and ballots in Indiana's 92 counties. The state election board, headed by Gov. Edgar D. Whitcomb, took the surprise action Wednesday after unofficial tabulations of Tuesday's election showed Hartke the winner in the closest U.S. Senate election in Indiana's history. Indiana state police impounded voting machines, paper ballots and absentee ballots, casting doubt also on the final outcome of other statewide races won, according to unofficial figures, by Democrats. The nearly complete tabulation by National Election

Service (NES) showed 865,397 votes for Hartke to 861,520 for his opponent. According to the Democrats, Roudebush was a stand-in for President Nixon in this Indiana campaign. The President had campaigned in Indiana for Roudebush, as did other members of the Nixon family and administration.

**HHH Urges Lindsay To Join Demo**

NEW YORK (UPI)—Former Vice President Hubert H. Humphrey, who will be returning to the Senate in January, has invited New York Mayor John V. Lindsay to become a Democrat. Humphrey was interviewed Wednesday on the CBS-TV program "Election '70, What Happened Last Night." Humphrey said that he had not talked to Lindsay about switching from the Republican to the Democratic party. "I'd like to see him in the Democratic party," Humphrey said. "I don't know what he's been waiting for, in the first place. He needs a weekend out of New York to do some clear thinking." "I think well of him. He doesn't belong in the Republican party. He got trapped early in life and he ought to break that bad habit." Lindsay endorsed the Democratic candidate, Arthur J. Goldberg, for New York governor instead of the Republican incumbent, Nelson A. Rockefeller. Lindsay, in London Wednesday, told newsmen he had no intention of switching parties.

**Device Developed To Prevent Birds From Causing Damages**

HOUSTON (UPI) — A California firm has developed an electronic circuit which attacks the hearing sense of birds and promises to save an estimated \$170 million in annual losses caused by birds. The technique, discovered by AV-Alarm Corp., was discussed Wednesday at the 80th meeting of the Acoustical Society of America. Every year in the United States, birds destroy an estimated \$100 million in crops, cost the military and commercial airlines about \$20 million in crashes and repair bills and cost cattle feedlot operators about \$50 million, said J. G. Crummett of Santa Clara, Calif., an AV-Alarm employee. The electronic circuit generates a specially-formed sound wave which jams and disrupts the animal's hearing and nervous systems thus preventing meaningful information about the

surroundings, other birds and danger from predators. About 400 installations now exist in the United States, Canada, Mexico, South America, Europe and Japan and the average system is reducing damages by 80 per cent, Crummett said. The discovery came after 10 years of research in the areas of human speech and hearing, speech jamming and the study of bird and insect hearing. The first large successful demonstration was the rerouting of millions of blackbirds around Moody Air Force Base in Georgia. The device, and more importantly, the theory and practice of information denial, has application in animal, insect and shark control, fish herding and fish farming, Crummett said. "When the world's economy depends as much as it does on agriculture, efficiency in maximizing crop yield is extremely

important, particularly in the financially depressed countries," he said.

## Orphans Get Feeling Of 'Family Village'

By BARBARA COOK

SAIGON — A young Vietnamese woman carrying a chubby baby clad in brown shorts with a matching cap shading his sad eyes entered the director's office and offered to give up her child as an orphan.

The director's Vietnamese assistants listened to the woman's story, took her name, then referred her to other agencies in Saigon which offer help to needy children.

"We get a lot of women who come in off the street with children, saying they have found them and can't take care of them," said Helmut Kutin, director of the SOS Kinderdorf International children's village here. "They don't say the child is theirs, but it usually is."

Kutin's village is a unique concept in raising orphans and he carefully screens the children to ensure they are truly without a family.

"We want them to stay permanently in the village and not have relatives claiming them in a few years before their education is finished," Kutin said.

The SOS (Save Our Souls) children's villages, now numbering 55 in 36 countries, bring

together orphaned and abandoned children to give them a lasting home with the upbringing as close as possible to that of a normal family.

The village idea was born after World War II in Austria. Hermann Gmeiner, the founder, saw a lot of suffering among children in the aftermath of the war and decided to seek support for an orphanage at Imst, Tyrol, Austria.

Gmeiner devised four principles to create a homelike atmosphere.

First, the children must be given a mother. "Children need someone from the hours of 8 to 12 and 3 to 5," Kutin said. "But rather someone who will live with them and take care of all their needs."

Brothers and sisters must be kept together as much as possible, Gmeiner decided. And each little "family" of 9 or 10 children should have a house of its own. Finally, 15 to 20 of these houses would constitute a village which would be integrated with the city near it.

"The children should go out to school and to church, not study among themselves in the village," Kutin said. "Integration is the most important thing for our village."

ground at the outer edge of Saigon. After returning to Europe, he began a fund-raising campaign to give the new village a start.

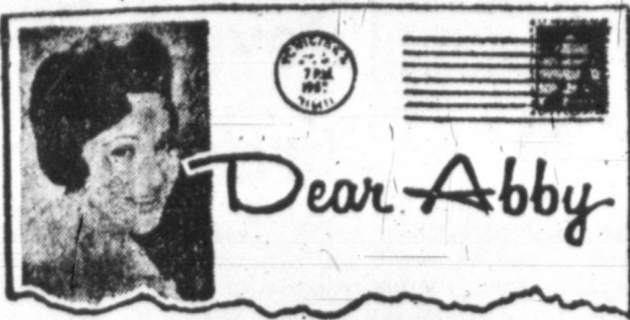

Kutin, 30, and a product of the original SOS village in Tyrol, was the natural choice for director.

In September, 1968, the first families moved in and in November 41 buildings were completed. The Saigon village now has 251 children, equally divided between boys and girls, with 185 of them in primary school and 20 in secondary school.

All "mothers" in the villages are single women between the ages of 24 and 40. Because the theory is to duplicate the age of a real mother, it is virtually impossible to have a husband and wife team in that age bracket who do not have a family of their own.

The only father-figures the children have are Kutin, two other European men staffing the village and two Vietnamese men who do maintenance work at the village.

Twenty-two women initially began the first course in learning how to be a mother, taking lessons for six weeks in child welfare, health, psychology, shopping and cooking.

## Dear Abby

By Abigail Van Buren

DEAR ABBY: I have a neighbor, a very beautiful woman who is a college graduate, very refined and has the reputation of being a perfect lady. I know for a fact that she is a downright cheat.

One night last week I couldn't sleep so I sat at the window, and at midnight I saw this woman come home. Fifteen minutes later she admitted a strange man into her home through the garage. He stayed exactly one hour and 50 minutes. I know for certain that her husband was out of town that night.

I told my husband about it, and said I thought her husband should be told the kind of woman he is married to. My husband said I should mind my own business. I'd like your opinion.

A NEIGHBOR

DEAR NEIGHBOR: I think you wasted a six-cent stamp. Your husband's advice was A.O.K.

DEAR ABBY: My son is getting married and the bride's people are having a reception for 150 guests, out of which they are allowing us to invite only 40! I felt this was unfair, but I accepted it.

On our side is a nine-year-old nephew, and when the bride's mother heard he was invited, she called me up and said no children at the reception, so I had to cancel out my nephew. Now I hear the bride's side is having two children in the wedding party and I am sure they will attend the reception. My son says no, but I am betting they will be there.

Abby if after we get to the reception, we see one child there my whole family plans to walk out. Do you think we would be wrong to do this?

MAD

DEAR MAD: Yes. Put your own feelings aside for this one day. If you were to walk out for any reason, it would spoil your son's wedding day. (You will find something else to be mad at his in-laws for later. From the way you describe them, you'll have many opportunities.)

DEAR ABBY: That woman who got jealous because she saw her husband with his arms around his secretary must be a real dope. He said he was showing his appreciation to a good secretary, and I believe him.

That woman should know what it is to see real trouble,

like paralysis, cancer, arthritis. I see it every day as I am a therapist, and I'm thrilled to pieces when one of the doctors meets me in the corridor, puts his arm around me and gives me a little hug and says, "Gee, girl, you're wonderful — we got him walking again, didn't we?"

If that doctor were to pass me in the hall with only a cold, "Good morning," everyone in the hospital would be sure we were sleeping together.

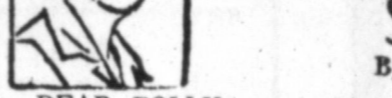

Very Truly Yours  
APPRECIATED

CONFIDENTIAL TO "HUGGED IN HOLLAND": Speak for yourself, maybe you'd rather have your boss put his arms around you to show his appreciation for your services. But you're out-numbered 50 to one. The others prefer a "raise."

Women Celebrate World Community Day For Churches

Church Women United celebrated World Community Day today at St. Matthews Episcopal Church with a coffee and business meeting at 9:30 a.m.

The program was co-ordinated by Mrs. Henry Gunter, 1910 Grape, on the theme "Use a Key For Tomorrow-Education." The women's special offering was given to continue education of women and children around the world, Mrs. Gunter said.

## POLLY'S POINTERS

Old Dress Shirts Make Shorty Pajama Tops

By POLLY CRAMER

DEAR POLLY and Mrs. H.B.—When the collars and cuffs on my husband's dress shirts are worn out, I cut off the collars, cut out the sleeves, bind around the neck and armholes with colored bias tape and have very cute, comfortable nightgowns for myself. When the tape is applied to the neck, I leave long-enough ends to tie a bow in front.—NINA

DEAR POLLY—I want to tell Mrs. H. B. that I make tops for shorty pajamas for my teenagers out of dress shirts with worn-out collars and cuffs. Remove collar, cut off the sleeves just above the cuff opening, then trim around the neck, up the front and around the sleeves edges and the pocket top with a fancy stitch made with the sewing machine, using different colors. Insert elastic in the sleeve so it will make a ruffle at the bottom. From old sheets, I salvage enough material to make short bloomers with elastic put in the legs to have ruffles at the bottom and trim as the shirt. My teen-agers love these shorty pajamas and their girl friends also enjoy them when we have overnight PJ parties. Mine are polyester and cotton and require no ironing.—RUTH

DEAR POLLY—I have found an inexpensive way to put flowers on my glass sliding doors so no one runs into them. Buy adhesive-backed shelf paper that has a design of flowers on anything that appeals to you. Cut out the designs and stick them on as you like.—TERRI

Polly's Problem  
DEAR POLLY—I would like some suggestions on how to

display some very old sheet music and also some unique and inexpensive way to frame or display glossy 8x10 gag pictures and campaign buttons.—MRS. D.N.

DEAR POLLY—To keep my toddler's suspenders up and neat at the same time, I use one of the clips that was bought to secure his mittens to his coat sleeves. Clip the straps together in the back, near the top, and they will stay up without messy knots and twisting.—CAROL ANN

DEAR POLLY—Wrap several coat hangers with adhesive tape to use for hanging wet, permanent-press clothes or sweaters and the tape prevents rust marks or unsightly creases in the dry clothes.—KAREN

You will receive a dollar if Polly uses your favorite homemaking idea, Polly's Problem or solution to a problem. Write Polly in care of this newspaper.

These three designs were shown at the 19th International Ready-to-Wear showings in Paris. "Chanel" tweed long two-piece ensemble (left) is in black wool and has gold metal belt. Beige wool long two-piece ensemble (center) has knitted sleeves and scarf. Boots are by Francois Villon. White wool coat (right) has white fox fur trim.

## French Designs Make Fashionable History

PARIS (NEA)—The recent 19th International Ready-to-Wear Salon held at the rambling Porte de Versailles exhibition hall was a mammoth happening in fashion history. It covered 43,000 square yards, grouped 700 exhibitors, including Great Britain, Ireland and Germany, and drew over 150,000 visitors.

Thousands of garments were shown, ranging from the mass-produced to the more expensive lines, as well as furs. Over at the Hilton Hotel, now part of the Paris landscape like the nearby Eiffel Tower, 60 exhibitors of "de luxe" boutiques spread out in 200 rooms. Both centers were open for business during six days, including Sunday. The Hilton reported more foreign buyers—American, Italian, Scandinavian.

Once the orphan child of the clothing industry French ready-to-wear has made such tremendous strides in modernizing production that for 1969 statistics show it had climbed to third position in France's exports, close to \$120 million. Largest buyer was Germany with \$30 million.

American interest was so high that for the first time a group of 17 manufacturers was invited to the U.S.A. for a week in New York and California.

The difference between the

Ready-to-Wear week and the High Fashion bi-annual showings is that the former is strictly without chichi. No gilt chairs, no jockeying for front seats, no champagne and petit fours. People come for business and have no time to waste on social graces. There is, of course, the popping of a bottle of champagne or a whisky and soda for the important buyer but the atmosphere is strictly business.

Fashionwise the 1970-71 exhibition, beamed at the coming Winter season definitely said goodbye to the thigh. Not only to the thigh but to knees, too. So much so that Courreges, the father of the micro skirt, who for the first time joined the "de luxe" boutique group, showed a collection of 25 models in the longer mood. These, for the time being, will be distributed only in the French provinces, and the designer obviously is aiming at a wider, if not mass, market with prices around \$50 to \$60 wholesale.

Come from the originator of the "how high can a hem go," it convinced even the diehard supporters of the mini that this coming Spring and Summer would witness its swan song. Buyers swarmed to Courreges in such numbers that he was obliged to close the doors of his somewhat cramped quarters several times during the day.

Midi and maxi were therefore highlighted everywhere. Midi, for daytime dresses which cling to every rippling inch from neck to wrist, to ankle in sheerest wools and gauzes. Many are reminiscent of the styles of the 1930s worn in the film, "The Damned" (a documentary on the birth of the Nazi movement in Germany which is still showing to full houses all over Paris).

As for the maxis, here in Paris they never beat and swished around the heels as they did in New York and London's King Road and their hems stop just short of the ankle or a little higher.

The verdict, therefore, is that come Fall 1970 knees are no longer acceptable. Next Winter's line is LONG—long and slender and supple. It will be up to the individual woman to hit upon "her" length. Some—those over 35—will have to realize that a short hem, say knee-length, will prove more old-making than one which stops somewhere above the ankle. It's all a question of proportion. And the right accessories.

The general silhouette is slender, figure-hugging from shoulder to waist. From there on, everything goes.

# Local Church News

## First Baptist Church

The pastor, Dan B. Cameron, will be in the pulpit for both services of worship Sunday in the First Baptist Church. In the eleven o'clock morning worship, he will continue preaching the series of sermons from the book of Hebrews.

David, Campbell, minister of music, will direct the sanctuary in the choral worship as they sing the anthem, "Jesus, I Love Thee," arranged by Williams. Mrs. Robert Allen will sing a

soprano solo, "The Hands of Jesus" by Roger C. Wilson. Miss Eloise Lane, organist, has chosen "Deo Gracias" and English Hymn for the offertory.

Training Union begins at 5 p.m. and the Evening Worship follows at 7 p.m. The Ordinance of the Lords Supper will be observed in this hour with the pastor in charge. A men's quartet will furnish music in keeping with the Lord's Supper.

"Mercies Numberless" by Handel is the organ offertory selection.

Visitation begins at 9:30 Tuesday morning for the ladies and 7 p.m. for the men. The Wednesday evening Prayer Meeting begins at 6:15 with the pastor in charge. He will continue teaching the Book of Matthew. The fellowship precedes the prayer meeting from 5:30 until 6:15.

## First Christian Church

Rev. Ralph Palmer will be in the pulpit for the morning message at 10:50 a.m. Sunday. The choir under the direction of Miss Rosemary Lawlor and accompanied by Mrs. John Gill will present the Anthem.

There will be a reception for the new minister and his family this Sunday evening beginning

at 5 p.m. There will not be a snack supper so young people may attend. The regular evening youth groups will be held at 6 p.m. Each member of the congregation is invited to the reception in the church parlor, 5 p.m. to 7 p.m.

Saturday morning, Nov. 7, at 7 a.m., the men of the Church

will have their regular Church Breakfast in the Church Fellowship Hall.

J. Stanley, chairman, Christian Men's Fellowship, presiding.

Wednesday, Nov. 11, at 8 p.m., there will be a meeting of the Education Committee, Mrs. Robert LaFon, chairman.

## Hobart Street Baptist Church

The week of Nov. 8-15 has been set aside for revival at Hobart Baptist Church. Rev. Jack Boyett will be in the pulpit the night of the 8th through the morning service of the 11th.

Rev. Boyett, pastor of the Bell Avenue Baptist Church of Amarillo, has served in pastorate in Masterson, Canyon, and Big Spring, Texas, before coming to Amarillo. He is a graduate of West Texas State University, holding a Bachelor's and a Master of Arts degree.

Rev. Boyett is a God-called man with a genuine love for lost men. He preaches the Word of God simply and forcefully.

He expresses the love of God through the love for others that he displays in his own life.

Bob Trout, music director of South Georgia Baptist Church in Amarillo, will direct the choir, sing special music, and work with the booster band and Junior choir.

We will have noon services each day, Monday through Friday, beginning promptly at 12 o'clock and ending at 12:45. This meal will be provided by various Sunday School departments and classes of the church. On Friday each one is urged to bring a dish for the noon meal. All students are

urged to come Friday at noon.

Evening services will be at 7:30 Monday through Saturday. Sunday School begins at 9:45 Sunday morning with worship at 11 a.m. Church Training is at six o'clock Sunday evening with evening worship at seven o'clock. The church nursery will be open for all services.

Monday night there will be a Youth Fellowship after church for all Junior and Senior High students. Thursday night at 6:30, the Juniors will have a hot-dog supper.

We are offering something special for every age — and hope that everyone will attend.

## Pampa Chapel Of Apostolic Faith

Rev. John D. Ray of Anchorage, Alaska will begin revival services Nov. 11, at Pampa Chapel at 711 E. Harvester. Rev. Ray attended Pampa Schools, John Brown University and The Apostolic

Faith Bible School. Since 1953 he has lived in Anchorage, youth director for Youth For Christ, and full time pastor the past 11 years.

There will be Special Singing, and Colored Slides shown of

Alaska. (64 Earthquake, Eskimo Life and Wild Life.)

A Nursery will be provided for each Service.

A cordial invitation is extended to all according to Rev. Amos Harris, pastor.

## Church Of Christ, Scientist

Spiritual discernment is needed to understand man's essential nature, according to the Lesson Sermon to be read at Christian Science church services Sunday.

"As mortals begin to un-

derstand Spirit, they give up the belief that there is any true existence apart from God," a passage to be read from Science and Health with Key to the Scriptures by Mary Baker Eddy states.

One of the Scriptural citations in the Lesson-Sermon "Adam and Fallen Man" is from Genesis, "God created man in His own image, in the image of God Created He him; male and female created He them."

## First Church Of Nazarene

The morning worship hour will begin at 10:45 at the Church Of The Nazarene. Rev. John Frazier the pastor will be continuing with the second sermon of a series from the 10 commandments. The subject

is "Vain Speaking."

In the Sunday night service Rev. Frazier will be speaking on the subject "Man's Motivation."

The public is invited to attend each of the services. We have

a nursery where the small children can be taken care of and you can enjoy the services.

The pastor will be happy to counsel with you on any Spiritual matter. Call 669-3144.

## Jewish, Christian Scholars Meet To Talk Relationships

By LOUIS CASSELS  
UPI Religion Writer

Jewish and Christian scholars from several nations met a few days ago at Seton Hall University, South Orange, N.J., to discuss how things stand between these two faiths which history has placed in a close but often strained relationship.

The military-diplomatic crisis in the Middle East is a serious and continuing source of tension between Jews and Christians. Jews feel that Christians should give Israel strong and unqualified support in her hour of peril, and they resent what they perceive as neutralist or even pro-Arab sentiments on the part of some Christians. The resentment is reciprocated by some Christians, who feel that Jews have no right to pressure Christians, in the name of interfaith amity, to take a particular position on an international political question.

Few See Early Solution

Few if any participants in the Seton Hall dialogue saw much hope of early solution of this difficulty. But many were inclined to view it as a temporary setback to a long-term development that is exceedingly hopeful.

The long-term development was described by Rabbi Marc H. Tanenbaum, director of interreligious affairs for the American Jewish Committee. Reviewing progress of recent years, Rabbi Tanenbaum said: "Meaningful first steps have been taken to create an emergent new Christian culture within which anti-Semitism can no longer find official church sanction, and in which Judaism is beginning to be appreciated as a permanent source of truth

and value for the Jewish people."

The last part of that statement is loaded with significance. For centuries, Catholic and Protestant teaching has depicted Judaism as a fossil religion, of interest only because it was the context in which the Christian revelation took place. Jews have been treated as potential converts to Christianity rather than adherents of a living faith which may have much to teach, as well as something to learn, in dialogue with Christianity.

View Has Been Modified

Within the past five years

partly as a result of the work of the Catholic Vatican Council and partly as a result of initiatives by the Protestant and Orthodox Communions affiliated with the World Council of Churches, this patronizing Christian view of Judaism has been radically modified.

This new awareness of Judaism has been accompanied by a growing willingness on the part of Christians to acknowledge that God's spirit may be at work. His truth glimpsed and His will manifested in more than one religion.

### BERRY'S WORLD

"I can lick any PINKO troublemaker in the place!"

## The Weekly Message of Inspiration...

### Oklahoma Street Church Of Christ

THE CHURCH  
Scripture Matthew 16: 13-20  
Text: Verse 18

In this reading we have the first appearance of the word (CHURCH) meaning. The called out, the Lords family, the band of Christian believers. In the language of the text the Master points OUT:

#### 1—THE FOUNDATION OF THE CHURCH

Upon this rock, etc. The Church was not built upon the man (Peter). But upon Christ. He, Christ is the Solid Rock (Isa. 28:16) (1: Cor. 10: 1-4) (Eph: 2:19-20).

#### 2—THE BUILDER OF THE CHURCH

(Christ) will build. The Church is spoken of in the Bible as an edifice, we read of stones, workmen, temple, etc. Zecharia predicted that the Messiah should build the temple of the Lord and bear its glory (Zech 6-13) Jesus claimed this prophecy as having been spoken of Him. He is at once the Foundation and the Builder—the Divine Carpenter. No longer the Carpenter of Nazareth.

#### 3—THE POSSESSOR OF THE CHURCH

I will build my (Christ) Church, if Christ is the foundation and builder of the Church, which He is (Matt. 16: 18) it follows that the church is His. And wear his Name. The Church Of Christ (Col: 1-18. Verse 24) (Rom. 16:16) (Paul says in (1 Cor: 12:12.) For as the Church is one, and hath many members, and all the members of that one church, being many are one church so also is Christ. (Verse 20) But now are they many members, yet but one church. THE CHURCH IS A—Christ's Bride (Rev. 21:9)—It is the bearer of Christ's name (Rom. 16:16. Acts. 4:11-12). C—It is the flock of God. Bought with His own precious blood, Acts. 20:28.

#### 4—THE SAFETY AND SECURITY OF THE CHURCH

And the gates of Hades shall not prevail against it. Death is the Entrance into Hades, the abode of the dead. Therefore gates denote death itself.

The death of Christ did not hinder the establishment of the church. The crucifixion of Christ did not thwart the plan and purpose of God. The death of the members of the church did not hinder its wonderful growth and expansion in spite of the ravages of death among Christ's people, the Church thrives.

Death shall not take from the members of the glorious body the bliss of Eternity, Rev. 4:13.

Rev. Wayne Lemons

# The Pampa Daily News

A Watchful Newspaper  
**EVER STRIVING FOR THE TOP O' TEXAS  
 TO BE AN EVEN BETTER PLACE TO LIVE/  
 Our Capsule Policy**

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

## Refrain From Meddling

If one deliberately set out to formulate a policy calculated to bankrupt and destroy the economy of a nation one would be hard put to surpass the policy of foreign intervention followed by our government beginning with the administration of Franklin D. Roosevelt. As a result, we have been involved in one war, "police action," and "brush fire" conflict after another, never seeming to be able to completely disengage, militarily or economically, after overhostilities have ended.

We intervened in other people's quarrels in both Europe and the Far East during World War II and, to this very day, we still have troops in both Europe and Asia—as well as countless other far-flung outposts around the world—maintained there at great expense in human lives as well as money.

Korea, with its so-called police action, was a repeat of the same old story; military hostilities were finally brought to a halt, but U.S. troops remain, along with the economic drain of maintaining them there, and "aid" to the South Korean government.

Then came Vietnam, which started with a few "military advisers" and escalated to a full scale and bloody war, together with the expenditure of untold billions of American tax dollars.

Sick unto death of politically generated wars, disgusted and appalled at the drain on human life and resources, the American people finally began to rebel. Crossing party lines and ideological persuasions, they demanded that the U.S. government end the carnage, disengage, bring the troops home, and abolish the draft.

And, for a while, it appeared that the government was listening. Some troops were brought home with promises of others to follow. People, once again, began to hope. That hope was short-lived.

For, at approximately the same rate that our government

seems to be disengaging in Vietnam, steps are being taken to insure that we will always have another war in reserve, just in case peace might be approaching too near.

Never was our government's commitment to a policy of "perpetual war for perpetual peace" made more clear than by its policy with respect to, and growing involvement in, the Middle East. Amid repeated assurances of its determination not to get involved, the fact remains that we are moving closer every day to the commitment of troops to the squabble between Israel and the Arab states.

And never was the hypocrisy of politicians made more evident than by the fact that the very same "doves" who were demanding withdrawal from Vietnam and the ending of the war there just short weeks ago are becoming more "hawkish" with every passing day in their enthusiasm for intervention in the Middle East.

The question at this point is: Who ordained the political figures inhabiting Washington, D.C. to draft American youth to act as policemen to the world, or the American tax payers as the donors of a perpetual international war?

If the peoples of Israel and the Arab states are so foolish as to permit their governments to involve them in bloody conflicts, let them. That is their business, not ours. And if the people of the Soviet Union are so foolish as to let their government waste their resources in "aid" to belligerents in the Middle East, let them. We know of no policy better calculated to finish wrecking the economy of the Soviets and to complete the job of bringing world communism to its knees, just as our own government's policy of intervention has almost succeeded in wrecking our nation.

Our government says it wants peace, as does that of the Soviet Union. Let them both prove it by refraining from meddling in other peoples' scraps.

## 'System' Is Not All Bad

We live in a time of slogans, of labels and catch phrases designed to arouse our emotions but which do little to stimulate reflective thought.

Perhaps the most overworked of these words is the "system," sometimes used interchangeably with the "Establishment."

The "system" is rotten, we are told. The "system" stands in the way of all meaningful social reform, and not until the "system" is completely done away with or radically transformed can there be any hope of solving our problems.

When one gets down to examining specific cases, however, the "system" appears to be less often a conspiracy by a small group of evil men or a plot of selfish interests than something that is built into the very nature of things—like Newton's Third Law of Motion, which states that for every action there is an equal and opposite reaction.

And sometimes the reaction is entirely unforeseen.

There is a consumer group encouraging women to buy meat in paper board trays at the supermarket, notes "Forecast for Home Economics," a Scholastic publication.

The reason is that paperboard is more easily destroyed than plastic and contributes less to pollution.

But another consumer group in New York City has persuaded the city to pass a law requiring all fresh meat to be packaged in clear plastic trays so that shoppers can see both sides. Only a lobby by pulp manufacturers has so far prevented this from becoming a statewide law.

Thus two consumer groups, each with a worthy goal, are working against each other and the "system" is caught in the middle.

Another example: Since glass can be recycled many times, its use is being

urged by some ecology advocates in place of metal cans. But suppose all fruits and vegetables were packed in bottles instead of cans.

The extra cost for retooling, breakage and added shipping weight (glass jars are heavier) would have to be passed on to the consumer and would fall most heavily on the consumer who can afford it least—THE low income person.

There is another campaign to have everyone leave a light on somewhere about the house at night to help combat crime. The cost, it is said, is about two cents a night, or a measly \$7 a year.

But multiply 17 a year by tens of millions of households and translate that into kilowatts. How many tons of irreplaceable fossil fuel would be required to generate that power? How much atmospheric pollution would be caused by their burning?

These are petty examples, of course, but they do serve to illustrate how "solutions" can often create more problems than they solve.

Those who say we have to work within the "system" are speaking a truth with more universal application than they realize.

## Wit And Whimsy

The only fellow who enjoys being down in the mouth constantly is a dentist.

Happiness is difficult with little, and impossible, with much.

The rocking chair is purely an American invention.

## H. L. Hunt Writes

**PORNOGRAPHY COMMISSION**  
 The "findings" of the Presidential Commission on Pornography would be almost laughable if it were not for the fact that many persons will take them seriously and act on them. The Commission concluded that pornography is harmless and that all pornography laws relating to adults should be abolished while those relating to children should be revised.

These conclusions were quickly and rightly disputed. Dr. Victor Cline, professor of psychology at the University of Utah, called the Commission's report "a gross mixture of truth and error, part science fiction, and certainly a travesty as a scientific document."

Father Morton Hill, a member of the Commission itself, took strong objection to the views of his fellow-members, whom he accused of ignoring moral questions involved in the sale and use of pornography.

Sound-thinking parents, clergymen, teachers, and other citizens well know the harm that pornography can do. The position taken by the Commission will make their task of protecting our nation's children from this evil much harder, especially if laws are revised in accordance with the Commission's recommendations.

Our society is afflicted with many moral ills. Pornography is itself one of these ills, and also an important cause of others. The last thing our country needed was a \$2 million commission which is so blind or deceived as to see no real harm in pornography.

Concerned citizens should try to counteract the influence of this Commission's inexcusable conclusions by communicating their outrage to their lawmakers, at federal, state, and local levels, and by writing letters to the editor pointing out the very real evils of pornography.

## Question Box

**QUESTION:** Who is the establishment? Is it everyone over 30? Just those in control? If it is the latter, then where does that place the silent majority?

**ANSWER:** The term "the establishment" probably means something different to every group.

The young people who desire to destroy the "system" in many instances have referred to the over-30 group as not to be trusted, presumably as members of the establishment. However, many of these seem to trust the aging revolutionaries such as Marxist Herbert Marcuse.

Some of them seem to believe the "establishment" consists of the so-called military-industrial complex. According to the critics of the military-industrial group, there is a combination seeking to promote military activities in order to profit from the militarily-related industrial activities.

There are people, many of them calling themselves conservatives, who see the establishment as a group of international bankers, who control governments in order to control the money of the world and thus to control the world.

Others consider the establishment as the bureaucracy which has gained control over most of government. We are more inclined to view the bureaucracy which seeks to increase its power over the lives of the people as the more dangerous. If this is the true establishment, then the so-called silent majority, which is becoming increasingly vociferous lately, is left in the position of attempting to roll back the tentacles of bureaucracy, usually through the ballot box.

But as the late Frank Chodorov, one of the greatest students of liberty pointed out in "Out of Step," his 1962 book: A people can vote themselves into slavery, though they cannot vote themselves out of it.

### Hanoi Running Into Real Trouble With Cambodia

By RAY CROMLEY  
**Washington Correspondent**  
 WASHINGTON (NEA)— Persistent reports from contacts in several Far East countries suggest that Hanoi is in real trouble in Cambodia.

It's not military weakness. There's still a general belief Hanoi can take Cambodia militarily any time it wants to pay the price in men and material moved down the land and river routes through Laos.

Hanoi's problem is strategic.

If North Vietnam doesn't take Cambodia, its armies face continuous battles from the rear which eat up hard-to-come-by ammunition, arms and supplies and tie down a sizable proportion of Hanoi's expeditionary troops fending off the Cambodians on one side while fighting the South Vietnamese on the other.

If Hanoi does take Cambodia, its armies must use even more supplies and the northerners are then faced with occupying and policing a hostile nation. For the North Vietnamese do not have the trained Cambodian cadre to govern this land peacefully. There is no trained underground political organization such as Ho Chi Minh had slowly and carefully built up in South Vietnam before attempting a take-over.

Hanoi's major problem is that her agents have not been able to win over any important part of the population.

The North Vietnamese, even with Prince Sihanouk's help, have not attracted more than a handful of men with top-level leadership experience, and most of these few are not of the highest quality.

Likewise, Hanoi and Sihanouk have attracted almost none of the upper and middle level (or lower level) bureaucracy, military or business management, except within the large resident North Vietnamese population there.

And there is dissension within their own ranks.

The North Vietnamese mistrust Sihanouk. He doesn't get along well with the rebel tribesmen he's supposed to be heading. There are reports through French sources that the Red Khmers at a meeting in China in August had refused flatly to accept Sihanouk's leadership.

In any event, the Red Khmers, who are the base for whatever indigenous support Sihanouk and North Vietnam have in Cambodia, probably number less than 1,000 activists.

Neither North Vietnam nor Sihanouk are getting any ap-

## Fair Trial For Unfair People

By PAUL HARVEY  
**The American Bar Assn. is investigating the "disruptive trial," seeking to define the proper function of a trial judge when confronted with improper courtroom disturbances.**

I have seen the ABA's preliminary report. The men to whom the law is a second religion cite reasons that an unquestionably fair trial is especially important for unfair people.

When you and I see, hear or read that a courtroom has been profaned with shouted obscenities, verbal or physical attacks on the judge, our first impulse is to throw the troublemakers in jail and leave them there.

Then when we hear the judge further criticized by respected members of his own profession, we are confused, confounded, impatient with hypercautious jurisprudence.

Yet to a member of the judiciary or the bar, when a court contest explodes on the front pages, it becomes more than a trial of a defendant. Suddenly "the system" itself is being tested.

And with young people watching with intense interest—young people who will reshape our nation's future for better or worse—it is of utmost importance that "the system" prove itself both equitable and workable.

And so, altogether as important as whether a defendant is treated fairly is whether the public believes he is being treated fairly; the public must never lose confidence in the fairness of the rule of law.

All men have an inherent passion for justice. And it is precisely because we do have a passion—an emotion—about justice that the emotional judgment which the public will make about whether a matter is being fairly heard is almost as important as whether the matter is fairly heard.

Thus an important consideration is whether the abused jurist should disqualify himself, lest he become both judge and prosecutor.

If this sounds like hairsplitting to those who prefer simplistic formulas for adjudging right and wrong, let me add that the ABA is not unmindful that the judge has some "rights," also.

It is recommending that the trial judge prescribe courtroom ground rules before the trial begins, that he remove from the courtroom any defendant whose conduct is too disruptive, and so forth.

But the sense of all this preoccupation with the rights of wrongdoers is this: In any much publicized trial—and especially where the emotional issue of "rights" is involved—not only are we seeking to determine the guilt or innocence of a specific defendant, but the American system of justice is itself on trial—for its life.

## With Some Reservation

By INJUN WOODY  
 The function of government once was to "protect." Today, the legislators think the function is to "spend, spend."

Even Mr. Richard has been hoodwinked into following the socialistic path to financial destruction with his proposal of a "guaranteed wage" for every walking parasite in the country.

Half of the American people today were born before 1942 and have lived to see the dollar shrink from one full valued dollar to 42 cents. The reason for the shrinkage is simply deficit federal spending.

And yet, the balloon—heads who are running for office keep shouting, "more programmes, more wasteful spending."

If, in just 28 years this policy has caused a shrinkage of the dollar in spending value to 42 cents, then another 28 years will certainly bring us to the 18 cent dollar—unless there is a great turnover in congress.

At this rate of inflation, and nobody seems to want to stop it, your food bill will jump, using the 18 cent dollar, from a weekly cost of \$38 to \$89; housing from \$43 to \$100; clothing, \$25 to \$38 and transportation from \$17 to \$40.

Then, with the federal spending running at about \$907 billion, the debt will go up to almost \$1.7 trillion.

You know who these vote-interested high-flyers are. Will you vote for your own country's collapse?

JOHN GOLDSMITH

ROBERT ALLEN

## Inside Washington

Italy Plans Relations With Red China

ROME.—Sooner or later—more soon than late—the Italian government is going to follow the lead of Canada and establish formal diplomatic relations with the Communist government of mainland China.

Negotiations to this end are not yet complete, and no formal notification of the action has yet been given. Stripped of these diplomatic niceties, however, it is fair to say that the Italians are going to recognize Peking and that our government knows it.

The Italians have been talking with the Chinese government for some time about an exchange of ambassadors. Those talks, at the ambassadorial level in Paris, are reported here to have paralleled the Canadian-Chinese talks, but to be somewhat less advanced.

The prediction is that the negotiations between Italy and China will reach the same conclusion, a recognition agreement, some time soon—and on the basis of what is now being called the "Canadian formula" in diplomatic circles.

The talks between Canada and Communist China were stalled for some time on the question of whether Canada would recognize Peking's claim to jurisdiction over Taiwan—seat of the Nationalist Chinese government. The final agreement between Canada and China, announced earlier this month, hedged on that point.

In a joint communique, China restated its view that Taiwan (Formosa) is "an inalienable part" of its territory. Canada said only that it "takes note" of that Peking claim. The Canadian parliament was later told that it was not appropriate for Canada to endorse or challenge the claim.

So the Canadian terms, accepted by the Mao Tse-tung government, do not really come to grips with the long-controversial question of who controls Taiwan—and whether there are two Chinese governments or only one.

U. N. ENTREPRENEUR?—What is important is that a formula has now been devised to crumble the old wall of opposition to Chinese diplomatic initiatives. Over the years, that wall has been patched and filled and kept intact mostly by the efforts of the United States.

Now Canada, literally the closest of U.S. allies, has opened a hole and Italy, one of the NATO allies, is about to follow suit. The advantages of normal trade and commercial relationships with mainland China have apparently come to outweigh a desire to accommodate the United States in this regard.

This change in attitudes has serious implications for the old controversy over China's representation in the United Nations. Diplomats used to say

that the question was not really important—that China did not really want to be a member of the United Nations. Recently, however, there have been diplomatic indications that Communist China does want to be admitted.

In the wake of the Canadian-Chinese agreement, it was reported in Washington that Peking had withdrawn its demand for endorsement of its Taiwan claim in return for a Canadian pledge to vote for admission of Communist China to the United Nations. Unspecified Canadian diplomats were quoted as saying that Canada would probably vote in the UN "consistently" with the new recognition agreement.

Informed sources here report that there is hope that Italy will not make any pre-commitment on the UN matter. In any event, however, a recognition step by Italy will certainly be a new invitation—a second notice—for reconsideration by others who have long held that the government of mainland China has not shown that it is entitled to membership in the "family of nations."

A showdown could come rather quickly. The General Assembly is expected to reconsider the question of Chinese membership during the United Nations session which began with much anniversary fanfare last week.

SOFTER STAND?—Against this background, there have been occasional faint hints that the United States might be preparing to alter, somewhat, its stand against recognition of China and China's admission to the United Nations "at this time." Mr. Nixon said he did not rule out those steps when and if Chinese leaders changed their policies. The President recently restated the view that closer ties to China must come eventually.

After the President met at the White House earlier this week with Nationalist Premier C.K. Yen, press secretary Ron Ziegler intrigued newsmen by saying that the United States would oppose any plan which admitted the Communist Government to the United Nations "at the expense of" the Nationalist government of Chiang Kai-shek. Ziegler would not elaborate.

With defections clearly in the offing, it is possible that Mr. Nixon has concluded that the United States can no longer fashion a coalition of nations which will flatter and wholly rebuff Communist China. Ziegler's unexplained comments were certainly subject to the interpretation that the United States might not go all out against a policy of two Chinas represented at the United Nations.

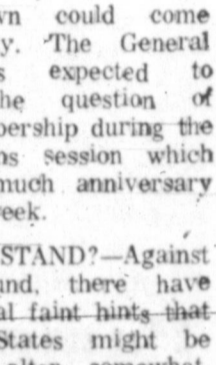

## PATRICIA YOUNG SAYS

**Red China's Program To Communize World**  
 By PATRICIA YOUNG

VANCOUVER, B.C.— On Sept. 8, 1970, the Vancouver Sun carried a wire service story from Tokyo which quoted Japanese government sources as saying that Canada was likely to establish diplomatic relations with Red China in October 1970. The story in Tokyo's Shimbun added that it was believed Canada would call for the ousting of Nationalist China from the U.N. at the current General Assembly meeting in New York.

So much for the Trudeau government's stand on "recognizing" Red China and replacing Canada's friendly Nationalist Chinese consuls and embassy with a network of communist Chinese consuls and embassy in Ottawa. So much for the hypocrisy of condemning the "illegal regime" of Ian Smith's Rhodesia (which was a duly elected by constitutional means) while embracing a communist dictatorship which grabbed its power by force and which has never had a democratic election; which continues its aggression in North Vietnam and which on Sept. 30, 1965, went on record as supporting the Arab states in their fight against Israel.

These native souls who believe that we must cooperate

SOMETHING NEW in Christmas decorations. These cookies look good enough to eat, but they're only to look at. Susan Woodward of Philadelphia created a new kind of Christmas ornament—painted cookies, made of special dough which hardens so they'll last for generations.

### Mrs. Smith Tells Hubby's Desire

LUBBOCK (UPI)—The first lady of Texas says Gov. Preston Smith has no intentions of going to Washington, Rhode Island, maybe.

"I'm just not interested in the national capital," Ima Smith said Wednesday. "And I don't think Preston is interested in any race that would take him there."

It was a day of relaxation for the wife of the man who had won his second two year term as governor and was about to enter his 21st year in an elected office in Texas.

"I've suggested several times jokingly that we should move to Rhode Island or some smaller state—Texas is just too big," Mrs. Smith said. "It takes so much time to cover all of it, and you are always booked months in advance. You just can't get any time to yourself."

Mrs. Smith watched Tuesday night's election returns with her husband and 500 close friends at their Lubbock home.

"There is no way I can get that man to relax," she said. "He enjoys campaigning, he enjoys politics that is his life. It always has been and it always will be. There's just no way you can change him after 20 years."

As for herself, she says she dreads the thought of another upcoming campaign.

"But once I get started I enjoy it," she said. "Maybe that's what Preston likes, too. The people of Texas are just so great to you."

### Notebook Scribbles Clue To Bloody Scribbles At Scene

LOS ANGELES (UPI)—The prosecution sought today to introduce in evidence a notebook on which one of the female defendants had been scribbling at the Tate murder trial to prove that she was the one who daubed words in blood at the LaBianca home.

Deputy District Attorney Vincent Bugliosi argued that the yellow pad taken from Patricia Krenwinkel was circumstantial evidence which might show that her writing was similar to that found at the murder site and that she also spelled the word "skelter" as it was written at the scene.

Superior Court Judge Charles H. Older refused to permit the notebook to be shown to the jury, ruling that its "probity value is far outweighed by its prejudicial effect."

Dianne Lake, 17, resumed the witness stand outside the presence of the jury at the opening of the day's session.

Defense Attorney Ronald Hughes questioned her about her previous statement that another of the young women, Leslie van Houten, stabbed the people after they were dead at the LaBianca residence.

"Did she say why she stabbed the dead bodies?" Hughes asked.

"She said she was told to."

"Did she say who told her to?"

"Tex."

She referred to Charles "Tex" Watson whose trial has been delayed after psychiatrists found him to be presently insane.

### Kansas Student Held For 2nd Degree Murder

LAWRENCE, Kan. (UPI)—A University of Kansas student was held without bond today on a second degree murder charge in the shooting of another student who occupied an adjoining apartment.

A woman companion of the slain man was wounded.

Bruce A. Douglas, 21, Texarkana, Tex., a senior, was dead on arrival at a Lawrence hospital where Miss Paul George, 21, Hiawatha, Kan., was treated for a gunshot wound in the shoulder. Byron Saunders, Silver Springs, Md., identified as Douglas' roommate, escaped in jury.

Andrew L. Hill, 25, Chicago, Ill., a freshman, was arrested shortly after the shooting, which occurred at mid-morning Wednesday.

Officers believed 13 shots from a .22-caliber rifle were fired into Douglas' apartment. They said they recovered such a weapon from Hill's apartment.

### FTC Charges 5 Largest Firms With Violating Antitrust Laws

WASHINGTON (UPI)—The Federal Trade Commission (FTC) today accused the nation's five largest tire companies of violating antitrust laws through a \$20 million-a-year system of leasing tires to bus companies.

In a proposed consent order, the FTC said the leasing operations eliminate competition. According to the commission, the companies refuse to sell rather than lease the "special mileage tires" used on most buses and the leasing contracts have the effect of binding a bus firm to the same tire maker year after year.

The complaint named Good-year Tire & Rubber Co., the Firestone Tire & Rubber Co., the B.F. Goodrich Co., the General Tire and Rubber Co., all of Akron, Ohio, and Uniroyal, Inc., New York.

The proposed FTC order would ban the leasing arrangements and require the companies to sell bus tires competitively with published price lists.

The tire firms can sign the order, agreeing to its terms without admitting any guilt, or contest the accusation before an FTC hearing examiner.

The FTC said the leasing arrangements cover "virtually every transit company in the United States."

John Ferguson, an FTC antitrust lawyer, said the agency had indications that the price is somewhat higher under the leasing deals than it would be through competitive sales.

### VOE Talks Plans At Tuesday Meet

The Vocational Office Education Club of Pampa High School met at 6:30 p.m. Tuesday in the new school library for a discussion of projects and contest trips.

Plans were also discussed to have a float in the homecoming parade Friday.

The guests for the night were the Future Farmers of America chapter presenting their parliamentary procedures team. The team, consisting of Lewis Davis, Tommy Watson, Ted Reeves, Kelley Everson, Keith Penn, Randall Taylor, along with Bob Skaggs, their sponsor presented a short program on proper parliamentary procedures.

### Unemployment Rate Up in September

AUSTIN (UPI)—The normal seasonal upsurge in employment was not enough to offset growing unemployment and the jobless rate among Texans increased for the first time on record during September.

A report released by the Texas Employment Commission today showed unemployment rose one tenth of 1 per cent during September. The jobless rate of 3.8 per cent compared with the September, 1969 level of 2.5 per cent.

### Police: New York Coeds Shot To Death By Youth

MCCONNELLSBURG, Pa. (UPI)—Autopsies disclosed today two New York City college coeds whose bodies were found near here were shot to death, one in the mouth and one in the back of the head.

State police said the victims, tentatively identified as June B. Eberlin and Mary Ellen Lenihan, both 19 and both students at Queens Community College, were "killed elsewhere" and their bodies dumped down an embankment off Interstate 70, two miles from the Maryland border.

Families of the two girls were en route to nearby Chambersburg, Pa., to identify the bodies.

The autopsies, performed at Chambersburg Hospital by pathologist W.E.B. Hall, made no mention of whether the victims were criminally assaulted, state police said.

The two girls had left their homes Oct. 24 en route to Washington, where it was believed they were to have attended a meeting of a "peace group." The "Revolutionary Peoples Constitutional Convention," which had met at Philadelphia in September, was to convene again in Washington this weekend.

Hall's report on the autopsies said further tests would be made in an effort to determine a time of death. Hall said the bodies, one of them nude and the other fully clothed, had been exposed to cold, rainy weather.

The fatal bullet wounds were caused by a small-caliber weapon, Hall's report said.

Police issued an alert for a man in his early 20s, with long brown hair and wearing a light buckskin coat, believed to have been traveling with the victims in a maroon-colored automobile.

The bodies were found early Wednesday by Otis Shives, a caretaker for the Pennsylvania Department of Highways.

### Superdome To Be Built On Schedule

NEW ORLEANS (UPI)—The head of the Louisiana Stadium and Exposition District said today the \$93.7 million superdome "will be built and probably right on schedule," despite voter rejection of a constitutional amendment to help sell stadium bonds.

Executive Director Dave Dixon said "our financial advisors have told us all along that our bonds will be marketable, and they are saying the same thing right now. The dome will be built."

However, the district's chief financial advisor, Herman S. Kohlmeier Sr., said the marketability of \$66 million in stadium bonds would depend on the bond market "the first week of April, 1971."

Argus Research Corp. says "investment policies should be set with the expectation of a sizable improvement in profits by mid-1971." It adds that monetary and fiscal policy "will be more expansive" over the next two years, adding that the 1972 elections "are for all the marbles."

### Wall Street Chatter

NEW YORK (UPI)—The recent burst of speculative enthusiasm on Wall Street still does not justify the resumption of a bull market, according to Burnham and Co. It believes the trend will be higher over the long-term and will be characterized by a "series of short bursts of speculative enthusiasm followed by long periods of apathy."

### Firemen Answer Two Flame Calls

The Pampa Fire Department answered two calls Wednesday night.

The first unit went out at 6:10 p.m. to 716 Prairie Center. A small fire had started in a dryer in a laundry at that address. The machine, owned by Wynne Ivey, suffered heavy damage, according to a fire department spokesman. Cause of the fire was unknown.

The second call came at 6:40 p.m. A small fire had started in some junk on the Fort Worth and Denver Railroad right-of-way 1 1/2 miles south of Pampa. The cause of the fire was unknown and there was no damage.

### Schoolgirls May Wear Pant Suits

WICHITA FALLS, Tex. (UPI)—The principals of Wichita Falls schools announced that all schoolgirls, from the first grade on, may wear pants suits to classes.

The decision to allow pants suits followed a conference Wednesday between the principals and School Superintendent G. H. Kirby.

A number of petitions for pants suits had been circulated and the principals had received requests to allow them to be worn.

**ONLY ZENITH HAS CHROMACOLOR...**  
a revolutionary color television system featuring a patented color picture tube that outcolors... outbrightens... outcontrasts... and outdazzles... every other giant-screen color picture tube.

Zenith Chromacolor is a total system featuring a brighter color picture tube with true colors, sharper detail, and greater contrast than any other giant-screen color picture tube. The heart of the Chromacolor system is the Zenith patented Chromacolor picture tube, incorporating Zenith's patented black-surround principle. Where giant-screen color picture tubes before Chromacolor have been made up of thousands of tiny red, green, and blue dots on a gray background, Zenith found a way to reduce the dots in size, surround them with jet black, and for the first time, fully illuminate every dot.

**Exclusive Zenith COLOR COMMANDER CONTROL**  
makes it easy to compensate for changing room light conditions—by letting you adjust contrast, color level and brightness, instantly, with one simple control instead of three.

**Zenith Titan 80 Handcrafted Chassis** combines Zenith Handcrafted dependability with solid state advances.

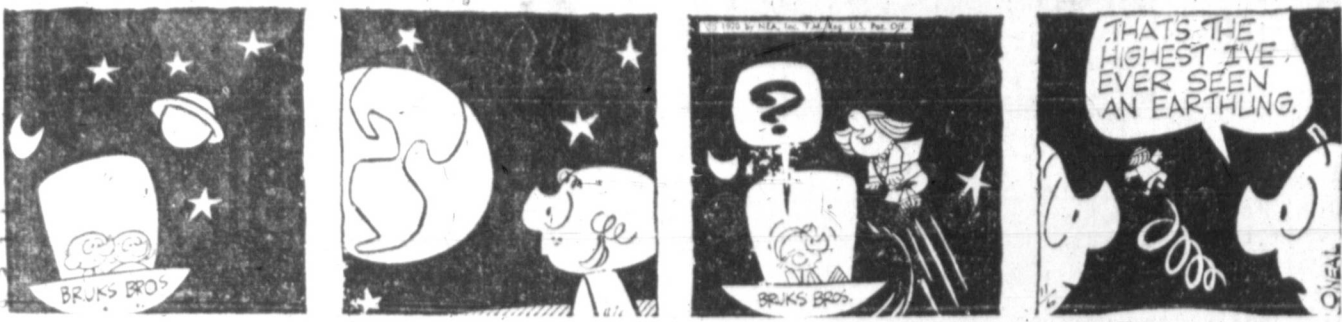

**Exclusive Zenith Chromatic Brain** with the first integrated circuit ever used to produce a color picture. Zenith patented AFG electronically tunes Color TV instantly—even perfects your UHF fine-tuning automatically.

**Super Gold Video Guard Tuning System** for longer TV life.

# Harvesters Square Off Against Palo Duro Dons

The 1970 Pampa Harvesters have provided quite a few surprises in District 3-AAAA competition.

The surprises started coming way back in the beginning of the season when the Green and Gold defeated the Hereford Whitefaces by a two point margin, 24-22. Those who were there remember the clutch field goal by Dale Ammons in the last three seconds that won the game for Pampa.

That win didn't really mean much because Hereford, in its first year in 4A, wasn't supposed to do much anyway.

The season progressed and Pampa won over Odessa High and Perryton.

The Green and Gold's first test came last Oct. 2 against Lawton. The Harvesters showed some scoring potential when they scored on an 80 yard pass play on the first play from scrimmage. Pampa lost the game 14-9. Lawton, by the way, is still undefeated and has moved from number two in the state up to number one.

Pampa's greatest scoring output of the season came in the next game when they rolled over the Canyon Eagles, 26-3.

The following week the Harvesters took on Caprock in the first district contest of the year. We won 25-15.

The next week, the second district game, saw the Harvesters lose their second game

of the year to Bucky Sams and crew from Tascosa. The final score, 18-8, was pretty well indicative of the playing. Alvin Ferguson provided Pampa's only real thrill of the game when he stole the ball out of Sams' arms and ran for the touchdown.

Pampa played the Borger Bulldogs last week and won 14-6.

Sad to say the Harvesters were beaten almost everywhere offensively except on the scoreboard. We won the game because of the efforts of the Pampa defense, some good breaks, and the strong Pampa kicking game.

That brings the season up to the Pampa Palo Duro Don game.

Palo Duro has a strong team. They've won five of eight games. The Dons losses of the season were to state-ranked Dumas, to Hobbs, New Mexico, and the Tascosa Rebels. Palo Duro lost to the Rebels 20-14.

The Pampa Daily News has been on active backer of the Harvesters all through the season. True, it is our job to support the home town team. The actual reasons why we do actively support them might shake a few people up, number one we believe in our team.

The 1970 Pampa Harvesters are the best Harvesters team in 17 years. After watching the B-team Shockers, Robert E. Lee

Jr. High, Pampa Jr. High, and the eighth grade teams all play, we predict that the Pampa Harvesters in years to come will be the team to beat. There is enough young talent coming up to fill the roster year after year with good, balanced teams.

The Pampa coaching staff should be commended for their job. As Palo Duro's head coach George Kirk said, "Swede Lee is doing a fine, fine job."

One thing about the 1970 grid season is really bad. The attendance at the Harvesters and Shocker games has really been poor. Looking at the stands, a visitor in Pampa would never know that this is the first winning season that Pampa has had in 17 long years. Two district games remain on the calendar.

The Harvesters play the Palo Duro Dons at 7:30 tonight in Dick Bivins Stadium in Amarillo. Next week the Fighting Green and Gold play the Amarillo Sangies here in the Pampa Homecoming game. Next week's game could decide the district championship.

Incidentally, about the game tonight. Even though the Harvesters are under dogs, we might achieve the "impossible" and win. The key word for the game, as far as Pampa is concerned, is "Desire." Sports staff predictions are 18-14 and 16-14, PAMPA. Why don't you go and see.

PAMPA SHOCKER Leon Garza (82) chases a Tascosa Raider into the end zone on this go ahead touchdown in the fourth quarter during the Shockers' 36-14 loss to the Raiders.

# Shocker's Second Half Shaken Up By Tascosa

The Tascosa Raiders dumped the Pampa Shockers for a 36-14 loss in Harvester Stadium Thursday night. The Raiders are composed mainly of juniors as the Amarillo school systems field a Sophomore Team, a Junior Varsity and the Varsity Squad. Pampa is a two team system with the Shockers and Harvesters sharing talents.

The outstanding player of the game was Tascosa's Tony Jackson, who persistently ran over the Pampa defensive, and offensive lines making many key plays for the Raiders.

In the first quarter Tascosa's defense met the Shockers on their 39 yard line. Pampa drove down to the Tascosa four when they fumbled. Jim Pepper, a Shocker tackle recovered the loose ball in the end zone with Rick Musgrave kicking the extra point.

Kim Lindsey was the carrier on this end zone play and the ball was shaken loose by the tough Raider defense.

On the kickoff Tascosa's return ended up on the Raider 41. The Raiders lost the ball five plays later to an alert Pampa defense, which recovered a fumble.

Unable to move the ball the Shockers were forced to punt giving Tascosa possession on the 47 yard line. On a fantastic winding, zig-zag, twisting-turning run by Jackson the

Raiders moved into position to score. On a 28 yard pass the Raiders violated the Shocker end zone for the first of many times. A two point conversion was successful giving the Raiders a one-point lead.

Pampa by holding the Raiders to short gains bounced back with a scoring effort. The Raiders managed to move out to their 30 yard line before having to give the ball up on an interception by Musgrave.

The Shockers were backed up eight yards on the next play making it a second and eighteen for the first from the Raider 38. Musgrave then attempted to hit Carson Watt on the eight when Jackson intercepted racing into the Tascosa end zone. The ball was not downed and the Raider ace went untackled making the safety impossible. The referees spotted the ball on the Tascosa one, with a first and ten for the Raiders.

The Raiders moving the ball against the left defensive line of Pampa lost control when Jackson bobbled on the Tascosa 12. Musgrave recovered the fumble and in the process the Raiders drew a personal foul giving Pampa additional distance halfway to the goal. The ball then rested on the Tascosa six with the Shockers first and goal to go. Two line plunges moved the

ball to the Raider two when Lindsey on a second effort attempt slid over the tackle into paydirt. Musgrave added the extra point giving the Shockers a 14-8 lead going into the second half.

Scoring started with a winding run by Jackson from the Raider ten to the Pampa 27 on kickoff in the second half. Ten minutes and thirty-nine seconds remained in the third quarter when Spencer plunged through the Pampa defensive unit from the 20 yard line and scored for the Raiders. The conversion attempt failed making it a tie ballgame at 14-14.

The third quarter ended with no further scoring by either team. A sliding backside catch highlighted the third quarter. Ricky King running a sideline pattern lost his footing and fell as a Tascosa defender tipped a pass from Musgrave. King reaching up grabbed the ball completing the pass while laying on his back.

The fourth quarter was Tascosa's. The Raiders scored a total of 22-points giving them a Shocker finish.

# West Texas State To Meet A Mighty Foe In West Michigan

CANYON, TEX.—West Texas State University's Buffaloes, minus running back Olan Thompson, started to work Monday preparing for rugged Western Michigan University.

The Buffaloes face Western Michigan's Broncos at 2 p.m. Saturday in Buffalo Bowl.

Thompson injured a knee Saturday night in the Buffaloes 33-8 victory over the University of Texas at Arlington and will be lost for the year. He picked up 49 yards rushing and caught two passes for 34 yards before being injured while on punt coverage in the third quarter.

"There is no way to describe how the loss of Olan will affect the Buffaloes for our final three games," said head coach Joe Kerbel. "Not only is he a standout football player, he is one of our team leaders."

Thompson, who underwent an operation to correct the damage Monday, had rushed for 319 yards this season on 74 carries and caught six passes for 84

yards. He had scored 24 points.

Both the Buffaloes and the Broncos will bring 5-2 records into Saturday afternoon's game. West Texas fell in its opener to Lamar Tech and lost three games ago to North Texas State. The Buffaloes hold wins over Carolina, Northern Illinois, New over Wichita State, East Carolina, Northern Illinois, New Mexico State and U. T. Arlington.

The Broncos have fallen to Miami, 23-12, and to Toledo, 20-0. They have wins over Central Michigan, Brigham Young, Bowling Green, Marshall and Ohio University.

The bulk of the halfback play for West Texas will be taken over by Ralph "Rocky" Thompson, the Buff's leading ground gainer. He and Olan Thompson had been sharing the running back duties. Ralph (No relation to Olan) has 650 rushing yards and has caught 11 passes for 101 yards. The 200-pound senior leads the Buffs in scoring with 66 points.

Doyle Miller 175-pound junior college transfer, played for the first time this season in the latter stages of the U. T. Arlington game. He rushed three times for 13 yards. Jim Albracht, 6-2, 210-pound sophomore from Amarillo, will be switched to halfback this week and could see action at that berth Saturday.

Martias Garza, the 140-pound "Mini-Toe" from Alamo, Tex., had his second straight big scoring night Saturday and extended his streak on field goals to six in a row.

Garza finished the night with nine points, giving him 22 for the last two games. He had 13 against New Mexico State. Garza converted on field goal attempts of 25 and 31 yards, against Arlington. He attempted a 56-yarder which fell short, but that play was rubbed from the books when Arlington was charged with roughing the kicker.

# Clay Is Making Up For The Past

NEW YORK (UPI)—Cassius Clay is making up for 3½ years of lost time.

Only 10 days after stopping Jerry Quarry in three rounds on a cut eye, Clay signed Thursday to meet Oscar Bonavena of Argentina in a 15-round bout on Dec. 7 in Madison Square Garden.

If there is still time left, a bout with Joe Frazier, who emerged as Clay's successor to the heavyweight title, looms in the future.

But it has become a race to crowd as many fights as possible into as short a time as possible. Clay was stripped of the title and banned from boxing in 1967 for refusing to go into the Army, and for 3½ years he was unable to fight.

Eight weeks ago Atlanta was the first city to grant him a license to fight—for the bout with Quarry—and then a federal court ordered the New York State Athletic Commission to grant him a license. But for Cassius Clay, there might not be much time left to enjoy being back in the ring, because the U.S. Supreme Court is ready to hand down a decision in December on the appeal of his draft evasion conviction, which carried a five-year prison sentence and a \$10,000 fine.

Clay's paydays from the Quarry and Bonavena fights are impressive to read about in the papers more than \$700,000 for Quarry and a \$200,000

guarantee or 42½ per cent of the total receipts for Bonavena. Both Frazier and Clay could receive the biggest purses in the boxing history if their "battle of unbeaten heavyweight champions" ever happens.

But much of that money has already gone for debts incurred by Clay during his 3 year absence from the ring. When asked about the purses, Clay simply said, "I'd rather not talk about money."

The comeback of Clay also has provided an unexpected windfall for Bonavena, the No. 2 contender. Before Clay's return, no big pay days were in sight for the rugged, awkward brawler from Argentina. Bonavena already had lost twice to Frazier, but ironically those losses are his most impressive credentials. He managed to go the full distance twice, a total of 25 rounds, and had Frazier on the deck twice and on the verge of a knockout in their first bout.

For the meeting with Clay, Bonavena will receive \$100,000 against 20 per cent of the receipts, and the whole thing will probably turn out to be the largest purse in his spotty six-year career, which includes 46 victories against six losses and a draw. Bonavena might be the last man to fight Clay, and certainly no gimmicks are needed to attract fans to that.

# Egad! The Major Would Pay To See Ohio St.-Notre Dame Game

By MAJOR AMOS B. HOOPLE, Peerless Predictor

Egar, friends, almost quicker than Woody Hayes can say Ara Parseghian we've passed the half-way point of the pigskin season. And, say wouldn't it be nice if Woody could say to Ara, "Let's my Buckeyes and your Irish get together for charity the first Saturday in December!"

What a donnybrook that would be! But, alas the schedules are all set for this year and next year and probably the year after. Notre Dame vs. Ohio State, dear readers, is one game I'd — ahem — pay to see! (Ed. Note: Careful, Major, that's your money you're talking about spending!)

**Eighth In District Tie**

The Fighting Robert E. Lee Razorbacks tied with a tough Perryton 8th grade team Thursday afternoon giving them a 6-0-1 season and a tie for the district title.

The young hopefuls played an outstanding game with an almost victory so close the coaches were smiling as they left the field. Tim Thornberg scored the TD necessary for the tie on a 30 yard run.

The Razorback played an outstanding defensive game with Thornberg making 13 assisted tackles and 5 unassisted.

The Razorbacks had an early TD called back due to a penalty on the play. Coach Newberger has hopes of getting a play-off game with Perryton.

Oh well, back to business as we head down the home stretch of the 1970 season. Both the Bucks and the Irish will see action this week, and each should win handily. For Ohio State (6-0) it will be another step on the road to the Rose Bowl as they bowl over the Wisconsin Badgers, 28-6.

The Irish (6-0) will entertain troublesome Pittsburgh at South Bend. The Hoople System sees a Notre Dame triumph, 32-6. Keep your eyes on Joe Theismann as he presses his claim for the 1970 Heisman Award. The Irish magician has compiled an amazing passing average of 635 with 80 completions in 126 attempts, accounting for 11 TDs and 1198 yards in six games! Jovel! The lad has some sterling credentials going for him in the award voting!

Texas, the third member of the nation's premier collegiate trio along with Ohio State and Notre Dame, will roll to its 27th consecutive victory as they thrash Baylor's Bears, 36-6.

There are several important conference clashes on tap — notably LSU-Alabama in the Southeastern, Stanford-Washington in the Pacific Eight, Nebraska-Iowa State in the Big Eight, and Dartmouth-Columbia in the Ivy League.

Your Peerless Predictor confidently casts his ballots for LSU, Stanford, Nebraska and Dartmouth-har-rumph.

Now go on with the forecast. LSU 28, Alabama 15 Arizona State 30, San Jose St. 6 (N) Arkansas 42, Rice 10 Syracuse 27, Army 7 Auburn 35, Miss. State 25 (N) Texas 36, Baylor 6 Boston Col. 40, Buffalo 12 Ohio U.-17, Bowling Green 16 Cornell 13, Brown 7 Colgate 25, Bucknell 0 Kansas 22, Colorado 14 Dartmouth 39, Columbia 12 Duke 36, Wake Forest 7 West Va. 22, East Carolina 14 Florida 24, Georgia 21 Florida State 42, Clemson 3 (N) Georgia Tech 21, Navy 7 Massachusetts 14, Holy Cross 7 Indiana 21, Iowa 15 Nebraska 27, Iowa State 20 Kansas 31, Okla. # Former Baseball Star Dies After Three Week Illness

By United Press International HOLLISTER, Calif. (UPI)—Charlie Root, the Chicago Cubs pitcher who threw the home run pitch Babe Ruth "called" beforehand, died here Thursday after a three-week illness. He was 71.

It was in the third game of the 1932 World Series when Ruth—as legend had it—pointed to the centerfield fence before blasting Root's pitch into the stands, right where he pointed.

Root always maintained the immortal Babe never called it. "If he had pointed toward the stands, he'd have gone down on his fanny," Root once said. "I'd have loosened him up... I took my pitching too seriously to

have anybody facing me do that."

Although he is best remembered for that one pitch, Root won 201 games in 16 years in the majors and helped the Cubs win four National League pennants. At the age of 43, he returned to the minor leagues, but continued to pitch until 1948 when he retired at the age of 49. In recent years, he operated a cattle ranch in Paicines, near Hollister.

MRS. MITCHELL CALLING WASHINGTON (UPI) Martha Mitchell, who has used telephones in out-of-the-way places so her husband couldn't hear her calls to news reporters, has people believing she'll call from anywhere. She told reporters Thursday she telephoned her husband, Attorney General John N. Mitchell, at his office and jokingly told the secretary she was calling from the Washington Monument. The secretary broke into a meeting Mitchell was holding at the Justice Department and told him. "Mrs. Mitchell is on top of the Washington Monument telephoning."

WORLD'S LARGEST tug-barge is combination of one of America's biggest and most powerful tugboats firmly nestled in notched stern of huge 532-foot tanker barge. Built of special high-strength Armo steel, combo will travel ocean paths never before attempted by tug and barge. Artist's drawing shows how it will look in operation next year.

### Two Teenagers Will Be Fined For Violations

PHILLIPS, Tex. (UPI) — It appeared that the two Phillips teenagers highway patrolman Tom Wicker arrested had allowed for everything but a tie at a football game.

Wicker said he stopped the teenagers Tuesday for a traffic violation. They had taken up a collection from at least 11 schoolmates and gone to Liberal, Kans., for a supply of beer.

Wicker, who stopped the teenagers a 19-year-old boy and a 17 year old boy as they returned to Phillips, found three cases of beer in quarters on the back seat and two 16-gallon kegs and another case of quarters in the trunk.

The beer was to be used for a "victory party" or a "drown your sorrows" party, depending upon who won, after the Phillips-Dalhart football game Saturday.

They had not allowed for a tie. But Justice of the Peace Sam Watson eliminated that as a problem by fining the 19-year-old \$150 and the 17-year-old \$100.

### New Monster Found Roaming In Scottish Lake

LONDON (UPI)—Nessie, oft-sought but seldom seen "monster" of Loch Ness, may not be the only creature of its breed roaming the depths of Scottish highland lakes, a researcher said Thursday.

Mrs. Elizabeth Montgomery-Campbell said a team of scientists from London University found evidence of another, similar beast this summer in Loch Morar, 30 miles from Loch Ness.

Their findings will be released later this month in a report to the London Zoological Society, she said.

Mrs. Montgomery-Campbell, coordinator for several expeditions both in Loch Ness and to Loch Morar, said the report presents evidence of "a large, unidentified species" of animal living in the icy waters of the Lochs.

### London Garbage Collectors End 6-Week Strike

LONDON (UPI)—More than 65,000 British garbage collectors, street sweepers and other laborers today ended a six-week strike by accepting a pay increase offer 60 cents short of the demands which sent them off the job.

Union representatives backing the strikers said settlement was reached on the basis of a report submitted to management and workers by an independent inquiry board headed by industrial trouble shooter Sir Jack Scamp.

It proposed boosts of \$6.00 a week for 290,000 municipal laborers across the country, to be paid in two installments. The first, a raise of \$4.80, was to go into effect next Monday.

The workers have been off the job for six weeks, letting garbage pile up and tempers flare while they waited out their demands for a "living wage" in the form of a \$6.60 weekly increase.

The second installment of the Scamp plan, an additional \$1.20 a week, was to go into effect early next year.

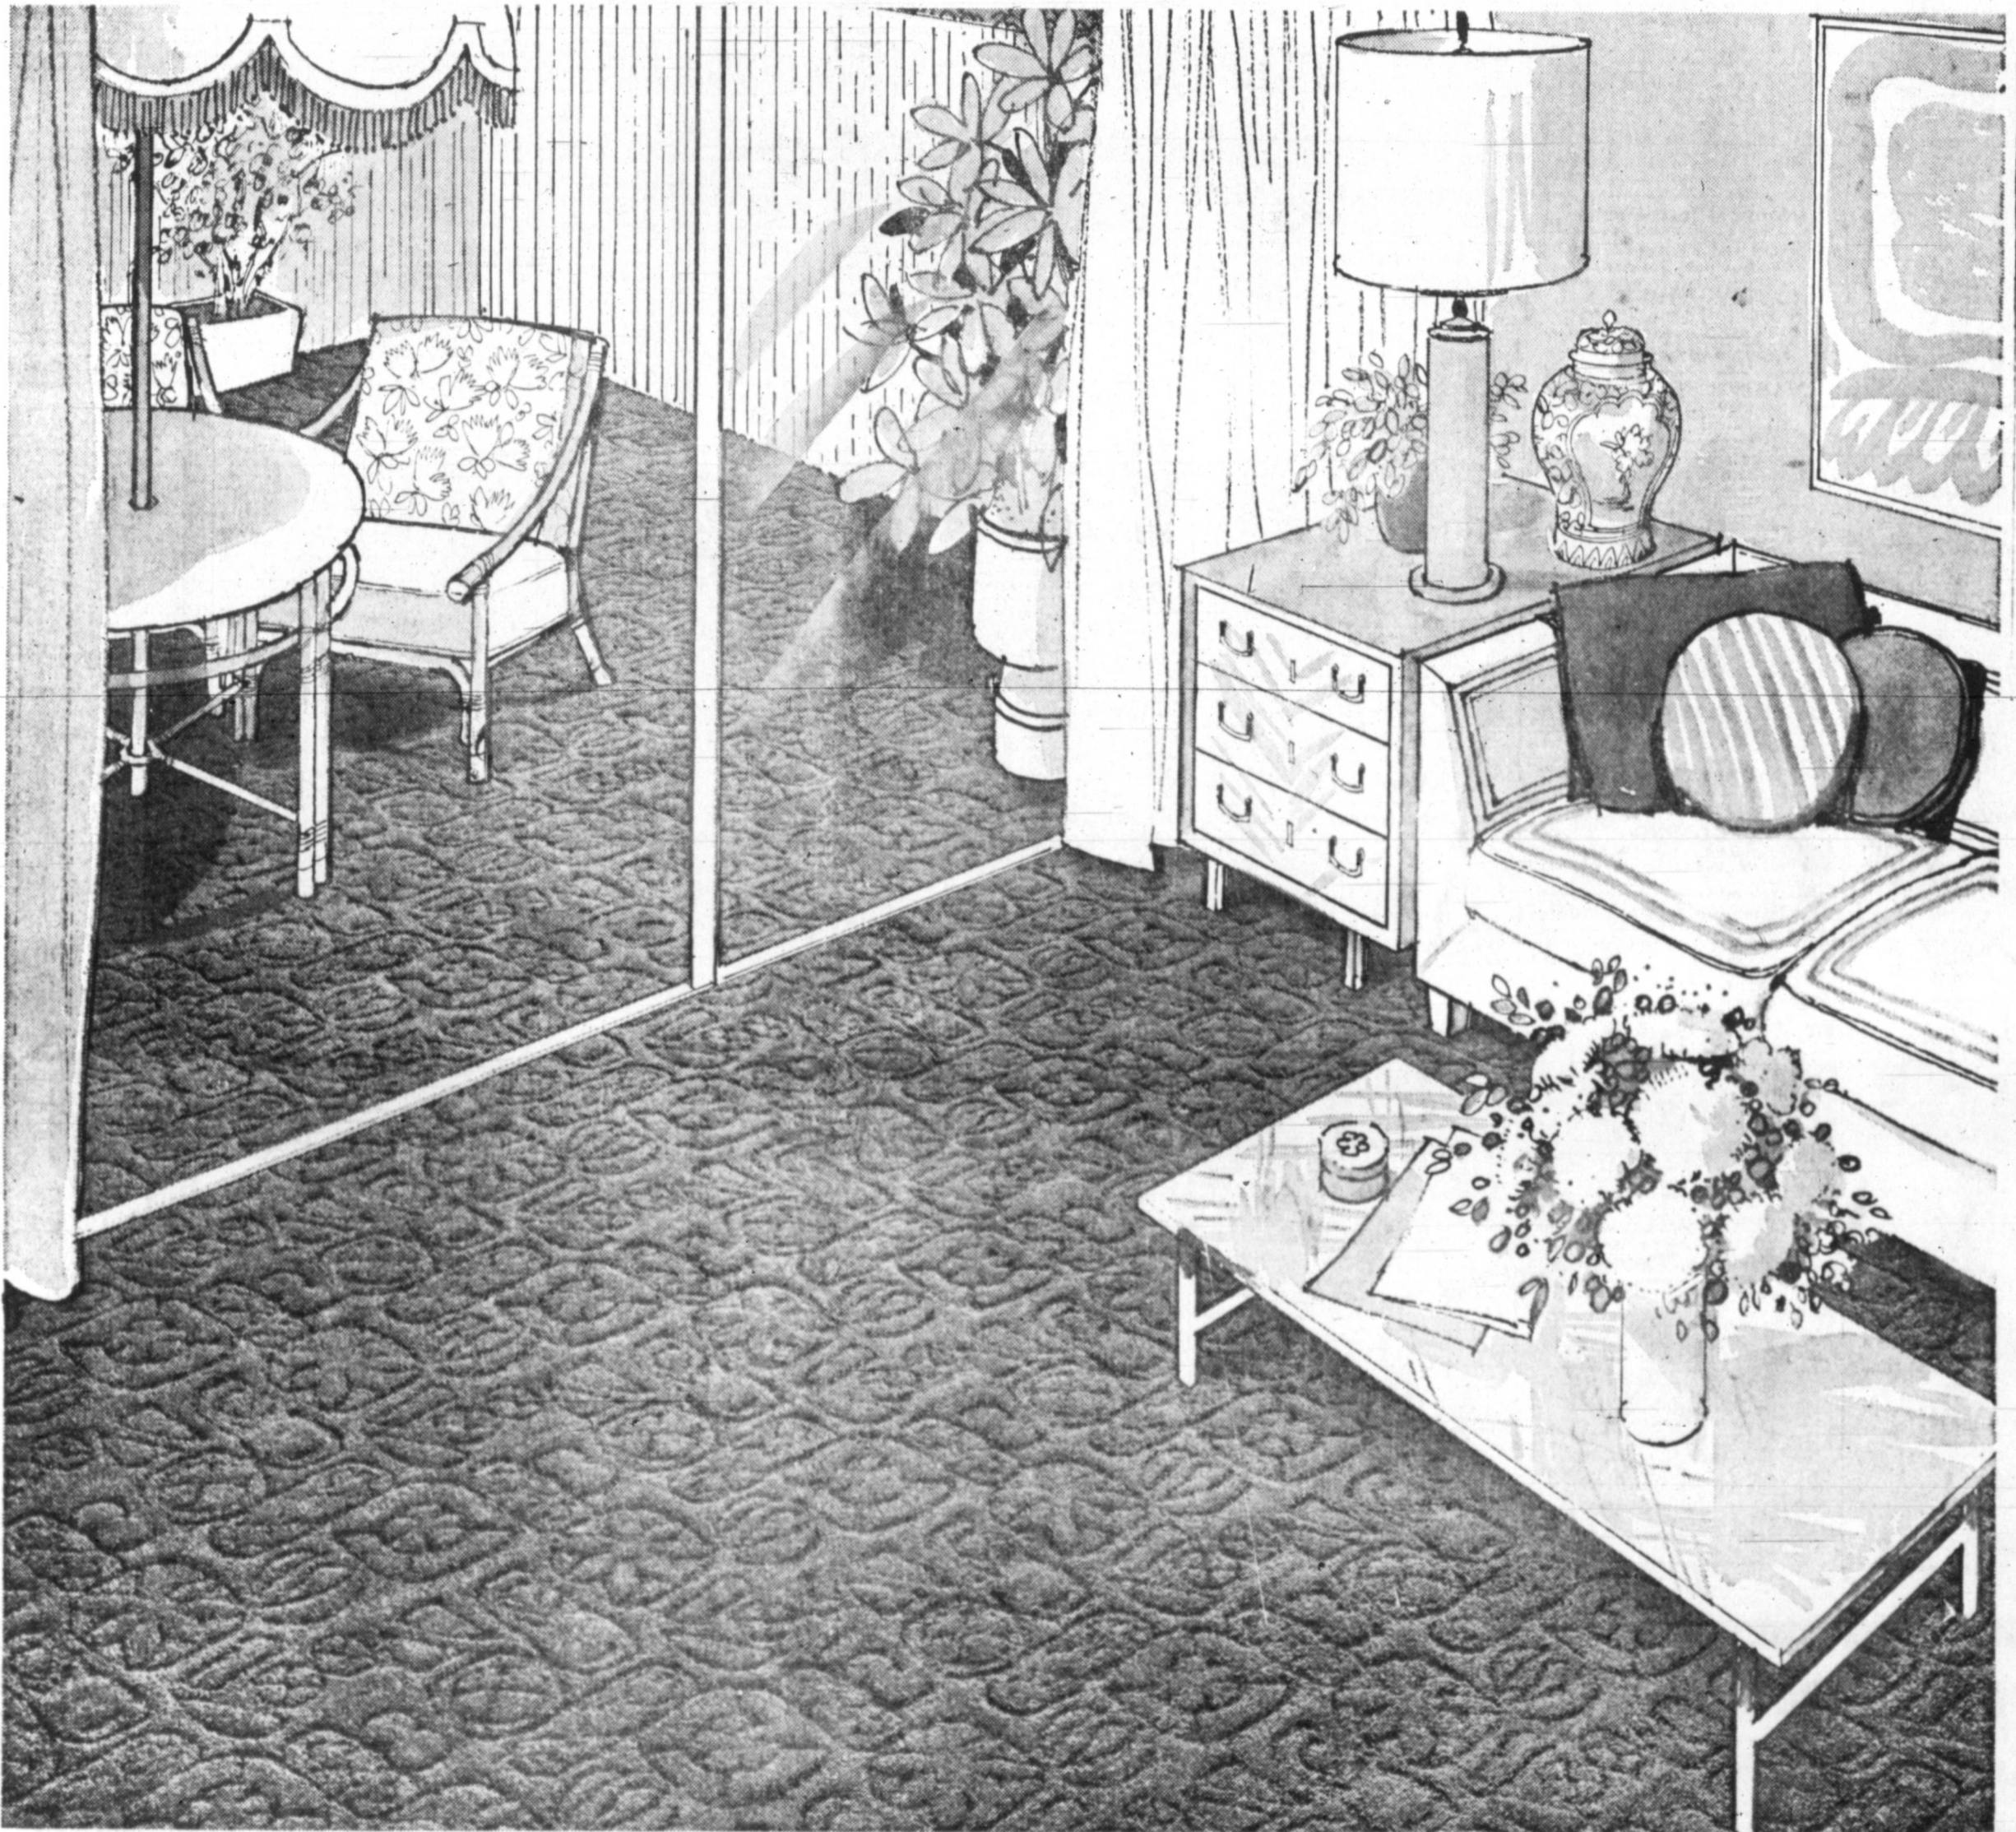

### WORLD ALMANAC FACTS

Dr. Crawford W. Long was the first surgeon to use an anesthetic to render a patient unconscious. The World Almanac recalls that on March 30, 1842, Dr. Long used sulphuric ether gas during an operation on James Venable in Jefferson, Ga.

# THE BEAUTIFUL CARPET YOU NEVER HAVE TO WORRY ABOUT!

## Mohawk's fade-free, stain-free "Hickory Hill" with solution-dyed Acrilan® acrylic carpet fiber pile

- Dampness won't bother it
- Stains won't mar it
- Sun won't change the color
- Loktuft polypropylene back lies flat
- Can be laid over cement
- Mildew proof
- Ideal for room sized rugs
- *and it's beautiful!*

A Mohawk carpet can take it—we know "Hickory Hill" can take living-room company, family-room, patio sun wear better than any other. Mohawk gave it solution-dyed Acrilan® acrylic fiber pile. Solution dyed means color is part of the fiber—can't fade out, wash out or wear away. And it gives bright or quiet colors special beauty. The all new high-low pattern will revive every setting. "Hickory Hill," the no worry carpet. Come see it today.

If you've shopped you know this double-duty indoor/outdoor carpet is priced way below others! only
