Political Hostages Still Alive

ON DESEGREGATION

Supreme Court Takes Look At '54 Ruling

WASHINGTON (UPI) — The Supreme Court turned today to its first major examination of school desegregation since its historic 1954 ruling against separate black and white schools. The issue now is whether children should be bused, district lines redrawn or other method used to integrate schools.

The nine justices opened two days of arguments on cases from Charlotte, N.C.; Mobile County, Ala., and Clarke County, Ga., in an attempt to resolve an issue which has brought the Nixon administration into conflict with the nation's civil rights leaders.

The eventual decisions were expected to give the nation's school districts the maximum steps they will be required to follow to bring about racially unified school systems. The court must decide if a particular black-white attendance ratio is necessary in the schools and, if so, how it should be attained.

The Nixon administration has taken the position every child should be allowed to attend the school in his neighborhood — even if that means some schools remain all black, and others all white. It has told the court the Constitution "does not require ... racial balance in all public schools or integration in every all-white or all-Negro school."

The NAACP Legal Defense Fund (LDF) has insisted, however, that every black student has a right to attend a school which cannot be identified as black. "Nothing less than total desegregation will suffice," the LDF said.

The court's new look at schools is its first major re-examination in public education. It attempted to plug some loopholes in two Virginia cases in 1964 and 1968, but for the most part it left enforcement of its judgment to lower courts until late 1969.

KNIGHT OF THE YEAR — Rev. Francis J. Hynes, C. M., left, presents the annual Knight of the Year Award of the Knights of Columbus, Frank Keim Council 2767 to Jasper McBride, 115 members and guests attended the presentation during the Annual Columbus Day Banquet Sunday at the Columbus Club Hall. Despite Deadlines Set For Execution

MONTREAL (UPI) — Two political hostages kidnaped by the terrorist Quebec Liberation Front were reported alive today by the FLQ, despite expiration of deadlines set for their execution.

The separatist organization apparently was responding to a plea Sunday night from the Quebec premier that the FLQ negotiate with the government rather than kill the hostages.

The FLQ forwarded a letter to Radio Station CKLM from British Trade Commissioner James Cross, kidnaped a week ago. It was the first communication from him since Friday.

In the letter, Cross thanked provincial Premier Robert Bourassa "for saving my life and that of Mr. LaPorte." The FLQ Saturday night kidnaped Pierre LaPorte, provincial minister of labor and immigration.

The deadline on Cross' life, set by earlier FLQ communiqués, was 6 p.m. (EDT) Saturday. LaPorte was to have been "executed" at 10 p.m. Sunday unless the FLQ's ransom demands were granted.

As the deadline for LaPorte passed Sunday night, Bourassa refused to concede the demands. But he broadcast an appeal to the kidnappers to provide proof LaPorte and Cross still were alive, and open negotiations with the government. He asked them to specify the "mechanisms" of how they intended to release the two hostages, and to clarify contradictions in their ransom demands.

The FLQ replied in its communiqué today that its basic demands were the minimum they had agreed to last week — an end to the police search for the kidnappers, freedom for 23 jailed separatists, and an airliner to carry them and their families to Cuba or Algeria.

But in a radical departure from their past practice the FLQ set no new deadline for compliance with its demands. The communiqué added however, "our patience is limited."

The communiqué and accompanying letter from Cross were found in a streetcorner telephone booth by a reporter from CKLM, tipped off by an anonymous caller.

Bourassa received a "Dear Robert" plea from LaPorte Sunday, in which LaPorte pleaded with him in "the most important letter I may ever write" to agree to FLQ demands. LaPorte urged Bourassa to keep in mind that "I am the head of a large family."

LaPorte said his captors were determined men who would not stop their deprivation until their demands were granted. He said that even if the government refused to yield, and he and Cross were executed the fight would just ahead, using the lives of other persons until their demand for the release of jailed comrades was granted.

IN 11 DAYS

Communists Down Third US Aircraft

By FRANK FROST
PHNOM PENH (UPI) — Communist gunners Sunday shot down the third U.S. observation aircraft over Cambodia in 11 days, Cambodian military sources said today. One American was killed in the crash and another is missing.

The sources inside the Cambodian High Command said the aircraft was shot down near the city of Samrong 210 miles northwest of Phnom Penh. It was identified as an OV10 Bronco.

According to the Cambodian sources three American OV10s rushed to the area where the plane was brought down but were driven off by gunfire. Cambodian military officers in the area told the high command immediate sweep operations were being carried out to recover the body of the dead American.

South Vietnamese troops discovered another cache in Tay Ninh Province 68 miles northwest of Saigon.

B-52 bombing raids were concentrated on the Ho Chi Minh Trail in Eastern Laos overnight, with no bombing in South Vietnam, spokesmen said. The U.S. Command also reported the loss of an American jet photo reconnaissance plane in the trail area and said two more helicopters

Communist losses were unknown.

There also was some Communist harassment at Moat Krasas Krao, a village six miles east of Phnom Penh, but at Tang Kauk, where a major Cambodian offensive is stalled, there was no action Sunday night for the first time in a week.

In South Vietnam, U.S. 1st turned up one of the largest arms caches seized near Saigon since the Allied drives into Communist sanctuaries in Cambodia last spring, military spokesmen reported today. GIS searching a cave complex found rifles, machine guns, pistols, mortars and spare parts and foodstuffs, the spokesmen said.

Knights Celebrate Columbus Day By Honoring J. McBride

Knights of Columbus, Frank Keim Council 2767, awarded the "Knight of the Year" plaque to Jasper McBride during the annual Columbus Day Banquet Sunday evening in Columbus Club Hall, Ward at Buckner. McBride joined the Knights of Columbus as a 3rd degree member in 1950. He has held most all offices from Guard to Grand Knight and served three years as district deputy of District 45. McBride became a 4th degree member of the Assembly of Borger in 1967. Rev. Frances J. Hynes, C.M., pastor of St. Vincent DePaul Church and Chaplain of Frank Keim Council made the presentation.

Ernest G. Brockman, state warden, as guest speaker challenged all members of the Knights of Columbus to step forward and lend their assistance to the clergy of the Catholic Church.

Huey Prater, general program chairman, was master of ceremonies. Jerry Braddock, council activities chairman, directed arrangements for the banquet which was attended by 115 members, from White Deer, Groom, Canadian and Pampa, and their wives and guests.

Attending as guests were Mr. A.A. Schuneman, chairman of the board of the First National Bank, and Jimmie Schuneman, Ernest Brockman, state warden of Nazareth and his wife Florence; Max Myers, district Deputy of Borger and his wife Donna; Jim Wolfe, district warden, of Borger and his wife Pat; Mr. and Mrs. Martin Kuhn of Warren, Kansas; Rev. Richard Lang, C.M. of Canadian and Rev. Wendelin Dunker, C.M. associate pastor of St. Vincent DePaul Church.

Joe Dickey, grand knight, commented that the banquet was a worthy commemoration to Christopher Columbus.

ON THEIR TERMS

Viet Cong Ready For Nixon's Cease-Fire

PARIS (UPI) — The head of Communist party newspaper L'Humanite, said Nixon's five-point proposal to end the war in Indochina was "not acceptable." But she did not use the word "reject" in referring to it.

"We have analyzed with care the speech of Mr. Nixon and we see his so-called peace plan is destined neither to give progress to the Paris conference nor to aid in a peaceful settlement. That is why we consider it is not acceptable."

Both the Viet Cong and North Vietnam criticized the Nixon proposals in similar language at Thursday's meeting of the Vietnam talks.

"We wish a cease-fire, Mme. Binh said, "but only as a first step towards lasting peace, that is, a cease-fire which would be founded on a correct political settlement, on the guarantee of the fundamental national rights of the Vietnamese people."

"It is in that sense that we made our proposals Sept. 17."

The Communists at that time demanded all American troops be withdrawn from South Vietnam by June 30, 1971.

Mme. Binh repeated that demand and said "immediately we will cease attacking American troops in the process of withdrawing. Immediately we will discuss liberation of all the captured soldiers—a problem which Nixon uses all the time to mislead opinion and to cover the crimes committed by the United States."

Of Nixon's proposal for an international peace conference on Indochina, Mme. Binh said, "It is not changing the form of the conference which will settle the Vietnam problem, it is the policy of the U.S. government which must change."

IN WYOMING

Supreme Court Dismisses Appeal On Abortion Law

WASHINGTON (UPI) — The Supreme Court today dismissed an appeal by Wisconsin from a ruling striking down the state's abortion law which—like those in 30 other states—permits abortion only to save the mother's life.

The court acted in a brief order without opinion. Last term it agreed to examine the District of Columbia abortion law which provides even broader grounds. No date for hearing in that case has been set.

In each case lower courts struck down the abortion laws as unconstitutional.

The District of Columbia statute was declared too vague. But in the Wisconsin case, a special three-judge federal court went much further. It ruled last March 5 that "the mother's interests are superior to that of an unquickened embryo, whether the embryo is mere protoplasm ... or a except in cases of therapeutic abortions "as necessary to save the life of the mother."

Nineteen states and the District of Columbia have laws providing additional grounds for abortion than only saving the life of the mother. Newly enacted laws in Alaska, Hawaii and New York do not specify any required grounds. New York does not even have a residency requirement.

The three-judge court held that "a woman's right to refuse to carry an embryo during the early months of pregnancy may not be invaded by the state without a more compelling public necessity than is reflected" in the Wisconsin law.

The law provides criminal penalties of three years in prison or a \$5,000 fine for anyone, other than the mother, who performs an abortion

Texan Killed In Air Crash

—Morris B. Gary of Quitman, Tex., was killed Sunday when the car he was driving collided with an airplane.

The plane, with a pilot and one passenger on board, struck the car carrying seven other persons besides the driver as the plane attempted to land in bad weather on U. S. Highway 80.

Thomas Medrey Hollis of Longview, Tex., the pilot, escaped injuries and Mabel Jane Hollis, 54, of Longview, the passenger, was treated and released from a Grand Saline Hospital.

Linda Elizabeth Gary, 44, the wife of the victim, received head and facial injuries and is reported in fair condition. Her 17-year-old daughter was in fair condition. Five other children of the Garys were treated and released.

Highway patrolmen investigating the accident said the pilot flew into the bad weather and, fearing he might crash, attempted to land on the highway 1.3 miles west of Grand Saline. A wing of the plane struck the windshield of the car traveling in the opposite direction. The car left the highway and struck a fence. The plane traveled 230 feet after hitting the car and overturned in a ditch.

No charges were filed.

Hollywood In Review

By VERNON SCOTT

UPI Hollywood Correspondent

HOLLYWOOD (UPI)—Fourteen years ago Diana Dors, buxom, blonde and sexy, came to Hollywood billed as England's answer to Marilyn Monroe.

This month she returned on a visit, unheralded, with her third husband and—if anything—might be considered England's answer to Shelley Winters.

That is no easy transposition. Diana, however, has gained at least a pound for each year since her first landing on these shores.

And while she is no longer a sex kitten, neither are many of her contemporaries keeping Raquel Welch awake at night.

Sex Appeal Has Limited Span

"Sex appeal has a limited career span and professional future," Diana admitted. Her husband, Alan Lake, nine years her junior, nodded agreement.

"No one takes a sex symbol seriously. You're insulted and arrows are shot at you from all directions."

Lake again agreed. The two of them will star this year on a new British television series, "Queenie's Castle." Diana will play the title role, the mother of three rowdy teen-age sons.

"It's a character role and a long way from my sex symbol parts, I'm happy to say it."

"The show will probably never be seen in America because our situation comedies are more realistic than in this country. Our situations are plausible, in fact taken from life. Yours are fairy tales."

People Can't Comprehend

"I don't think an American would enjoy watching a working class English family involved in its day-to-day problems. Everyday life in England is so realistic and grim that people here can't comprehend it."

"Our longest running series is 'Coronation Street.' It would have been sold to an American network long ago but it has no entertainment value over here. The accents and the situations are so thick they simply wouldn't be understood."

"No English situation comedy is not for Americans. What we consider funny, Americans interpret as grim."

Her husband nodded grimly.

He is trying to earn Money of his own

That's why The Pampa Daily News is changing to **ADVANCE COLLECTION!**

WHAT WILL THIS MEAN ...

To You, As A Subscriber?

It will mean that your Carrier will knock on your door only once a month and collect a steady \$1.75 instead of a varying price of \$1.60 to \$2.00 depending on the number of weeks in the month. It will make every subscriber feel better knowing that he is helping his carrier realize the full profit from his route. For most boys, this is their first business venture.

To The NEWSPAPER BOY?

It will mean he will have time to do the things a boy is supposed to do. 52 weeks a year your newspaper carrier has to spend Thursday and Friday nights collecting and then Saturday he comes to the office to pay for the papers that he has received during the last week. He will now have 40 "free" Saturdays under the new system of collection.

THE CHANGE WILL BE EFFECTIVE NOVEMBER 1, 1970. WILL YOU HELP YOUR CARRIER BE A SUCCESS IN THIS?

Foreign News Commentary

By PHIL NEWSOM

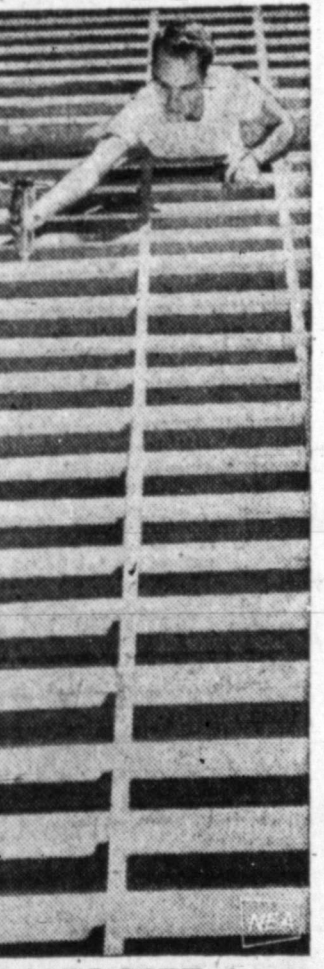

UPI Foreign News Analyst

Window on the world: Pressure on Egyptians:

The Russians are understood to be bringing the utmost pressure on Cairo against any pronounced pro-Westerner winning a key role in the post-Nasser regime. Premier Alexei Kosygin and Moscow's top military men lost no time in making themselves clear in their contacts with Egyptian leaders on the eve of Nasser's funeral. Further Russian moves are expected to make sure of continued Soviet dominance.

The nuclear club:

The French expected to have all their missiles equipped with hydrogen warheads in 1976, when they also expect to have four nuclear submarines in service, according to a confidential report made by Defense Minister Michel Debre to the National Assembly Finance Commission. The government plans to slow down construction of warships except aircraft and helicopter carriers

URGES FDA RULE

WASHINGTON (UPI)—A House committee has urged the Food and Drug Administration to prohibit trains from dumping untreated sewage on railroad tracks.

The House Government Operations Committee, in a report following hearings, suggested a ban on all waste dumping by December, 1974, with a requirement that all new toilet-equipped railroad cars constructed after March 31, 1971, be provided with facilities to treat wastes.

Washington Window

WASHINGTON (UPI)—Under "Foley's Law," the Republicans need issues worth about 30 House seats just to hold their own in the congressional elections Nov. 3.

Their campaign oratory suggests that they think they have found these issues in crime, campus disorders, drug abuse combination that they are blaming on the "permissive" attitude of liberal Democrats. And they will hope that President Nixon's Southeast Asia peace plan will generate more votes for GOP candidates.

But Foley's law, proclaimed in the April issue of the monthly publication of the Pipon Society, a liberal Republican group, points to rising unemployment as a drag on the GOP ticket at election time.

Employment Rates

The author was Duncan K. Foley, an economist at the Massachusetts Institute of Technology, who measured the Republican membership of the House against the October unemployment index just before each of the last 10 elections. He concluded that the GOP needed an unemployment rate of about 2 per cent just to win a bare majority of the 434 House seats and that each increase of one percentage point cost the Republicans about 13 seats.

Foley acknowledged that issues other than unemployment affected the congressional election results, but he held that a high jobless rate must be the GOP.

The September unemployment rate announced Oct. 2 was 1.5 per cent. Chairman Paul W. McCracken of the Council of Economic Advisers said the economic outlook still was favorable but that the unemployment rate might go higher before it fell.

Post Disaster

Foley's charts and graphs showed that the October rate was as high as 5.5 per cent only once in the last 10 national election years. That was in 1958, a year of Republican disaster, when the GOP won only 154 House seats.

NEW YORK (UPI)—Over the short-term, a period of market consolidation would not be appropriate, says Abraham & Co., with the Dow meeting "support" no lower than the mid-1960's. Potential support would come from those who recently rushed to sell short into a rising market and who may have helped keep the market from becoming seriously overbought. More important, there are still huge amounts of sidelined buying power in the hands of both institutional and non-institutional investors waiting for a "normal" market reaction before commitment, the firm said.

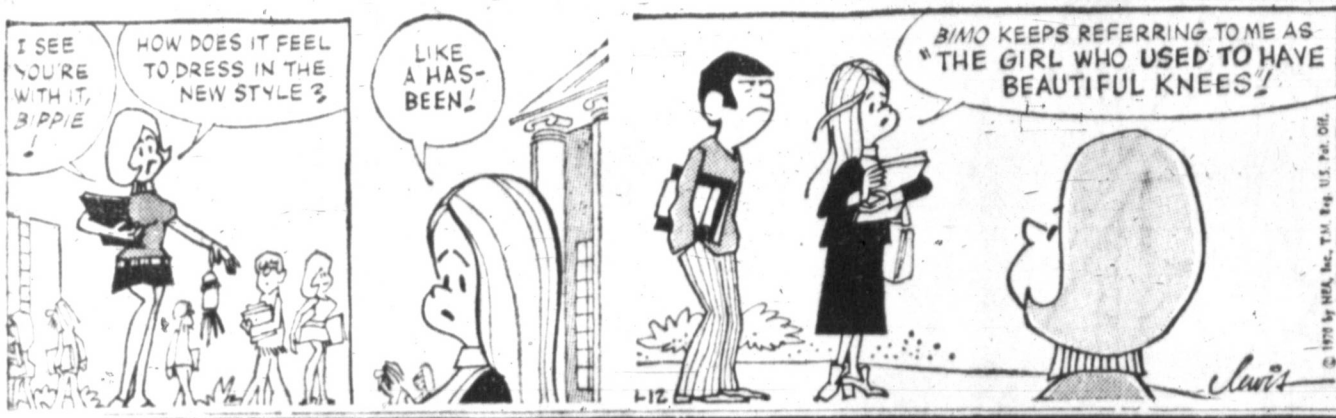

This could be a good time to accept profits in those stocks which have enjoyed recent sharp advances and then wait for the dust to settle, says Hoppin, Watson & Co. Market damage was so great earlier this year that investors have been either overhungry or overcautious. Consequently rallies and market reactions can be expected to be overly sharp for a while.

The market rally is unlikely to break up until after the General Motors strike has been settled, but in the meantime it will develop extreme vulnerability to the consequences of that settlement, the Janeway Service believes. Downgrading of market leadership points in this direction, as does "the sustained resurgence of record volume which is straining the sources of liquidity on which a big and violent bear market rally such as this depends."

6 PAMPA DAILY NEWS
PAMPA, TEXAS 63rd Year
Monday, October 13, 1970

JEANE DIXON
Your Horoscope

FOR TUESDAY, OCT. 13, 1970
Your birthday Tuesday: Excitement, challenge, change characterize this year. You turn out to have more determination, patience, willingness to learn than previously had realized. Material problems are not nearly so important as spiritual growth. Some relationships are dimmed, others strengthened; new contacts are vivid, meaningful. Tuesday's natives are subject to ups and downs in their fortunes, usually because of their own impulsive whims. They are intense personalities, who often make a sort of service of their professional careers. ARIES (March 21-April 19): The usual period is normal for this eventful day. Those opposed to your plans lack rational explanation. Avoid rash reactions, use intuition and psychology. TAURUS (April 20-May 20): Discussions get out of hand all too easily and lead to misunderstanding. Think first of your own welfare. Check facts and figures carefully. GEMINI (May 21-June 20): Persuading friends into any particular program seems impossible, likely to bring complicated responses. Let people follow their whims unhindered. CANCER (June 21-July 22): Unexpected incidents cause family interests to conflict with your other interests. Exceptional care on the road and in public places is essential. There is little time to explain decisions. LEO (July 23-Aug. 22): Many distractions interfere with concentration. Stay on the surface, avoid deep involvement in the ventures of others. Home life improves markedly. VIRGO (Aug. 23-Sept. 22): Equipment is to be used with caution Tuesday. People move suddenly, sometimes with little advance notice. Decisions about money need further checking. LIBRA (Sept. 23-Oct. 22): Think before speaking in turmoil and the wreckage of plans. Take it in stride; help bring things to a balance. Get essential chores done first. SCORPIO (Oct. 23-Nov. 21): Resist casual pressures toward change. Your main temptation is toward hot action, drastic decisions of direction. Avoid fatigue, take a break wherever possible. SAGITTARIUS (Nov. 22-Dec. 21): Friendships are susceptible to your sudden impulsive moves. Surprises turn out to be very helpful later if you are not extreme in your reactions now. CAPRICORN (Dec. 22-Jan. 19): Business affairs take up time you planned to give your family. Explain briefly, then ahead with the new course you must follow. Do little alone or unaided. AQUARIUS (Jan. 20-Feb. 18): Your theories are tested and whatever flaws exist are more visible. Resulting confusion should be used as an opportunity to learn. Evening offers advice in sharing experiences with old friends. PISCES (Feb. 19-March 20): Back away from discussions of money. Past folly shows up Tuesday--better write off a losing speculation than try to shore it up with added investments.

ELECTROCUTED GUITARIST
STAFFORD, England (UPI)—Kevin Green, 23-year-old lead guitarist with the Seesaw, a British pop group, was electrocuted by his instrument during a concert Friday evening at a school.

An official at the school said Green had just plugged his guitar into an amplifying unit and was tuning up "when his guitar seemed to touch a microphone. There was a flash."
Ambulance personnel who arrived on the scene within minutes tried to revive him but the musician already was dead, the official said.

NO MONEY TO BURN
WASHINGTON (UPI)—The Treasury Department says that in the interests of clean air, it will no longer burn worn out, and counterfeit money—about \$9 billion worth each year. Instead of being able to breathe that 2,500 tons of bills, Americans can use it as housing insulation after the money is fed through whirling blades and pulverized into unrecognizable pulp.

AUSTIN, Tex. (UPI)—Texas officials have approved \$307,408 in federal grants for head start programs in Odessa, Marshall and Hillsboro.
