Nine Injured When Motor Trouble Causes Plunge; Men From Winnipeg

NEODESHA, Kan. (AP)—A private airplane carrying the championship Canadian Toller basketball team of Winnipeg, fourteen in all, crashed near here Friday, killing five and injuring nine persons.

The ship, experiencing motor trouble, plunged to the ground on a sodded meadow, a twisted mass of wreckage. The party was enroute from Tulsa to Winnipeg. Confusion reigned around the wreckage when rescuers arrived.

Persons living nearby said the plane circled the meadow, apparently in distress and that upon striking the ground it turned end over end.

Three of the injured were reported dying.

Youngsters Stage Rodeo On Saturday

Sixteen Steers Ready To Be Mounted By Young Performers

High school students literally throw the bull Saturday afternoon, inaugurating it with a parade, an old time rodeo with only school pupils as entrants will be staged 2 p. m. on the grounds immediately north of Washington Place. Elmo Martin is general foreman of the affair.

Sixteen steers have been obtained for use in the rodeo. Nine come from the Coffee ranch while Denver Dunn made seven available.

The colorful parade will begin promptly at 1 p. m. with Miss Modesta Good and Sheriff Jess Slaughter in the van. Contestants will also rein their prancing steeds down the crowded Main street.

One hour later the first ambitious youth straddling a steer will be provided out of the pen to try his skill. Next event will be horse and mule riding, followed by calf roping. Then comes calf roping and break away. The cigar race is scheduled to create much excitement as is a novelty race. The cow girl horse race is hallooed as a program highlight and with it the rodeo will close. Martin was outspoken in saying the management would not assume responsibility for accidents.

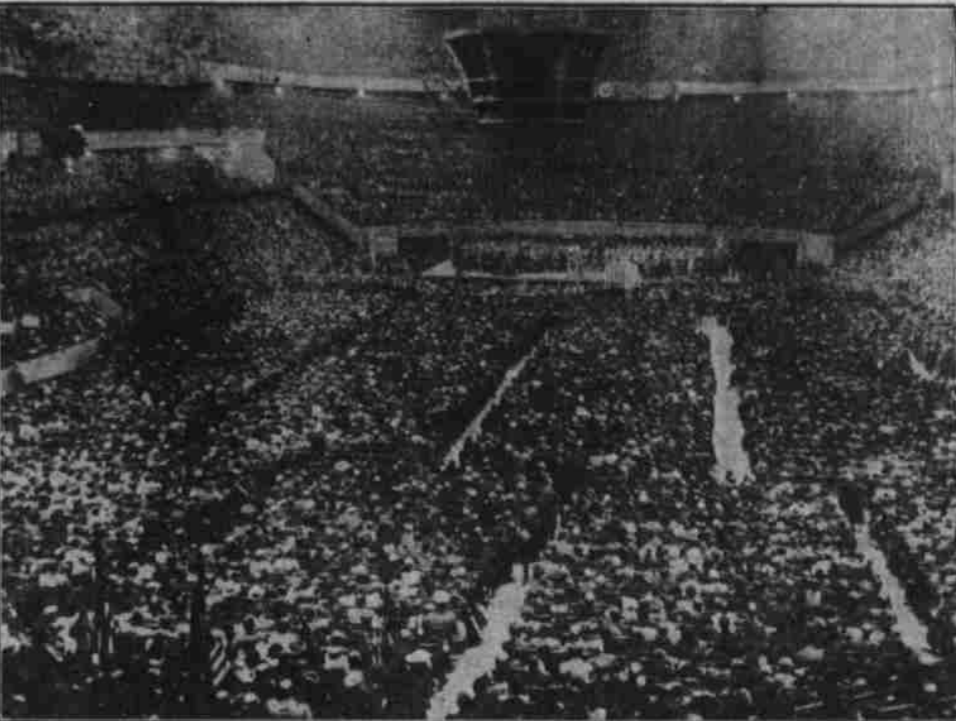

The affair is being staged to raise funds for the traditional junior-senior banquet.

Spectators and entrants from Coahoma, Vealmoor, and Forsan will be in attendance. Admittance fee is twenty five cents with a twenty-cent entrance fee to each contestant.

Misses Alta Mary Staleup and Dorothy Rockhold will be in charge of the chuck wagon, where cold drinks and refreshments may be obtained during the rodeo.

WASHINGTON By Paul Mallon

Farm Relief—

It may be denied for political reasons but it is nevertheless true that two Democratic Congressional leaders tried to talk Mr. Roosevelt out of the Farm Bill a few days back.

Senate Leader Robinson and his lieutenant Pat Harrison called at the White House for that purpose. Later they were followed by Republican Leader McNary. They all warned of the dangers of price-fixing legislation. They urged him to espouse a farm mortgage relief bill and let it go at that.

Mr. Roosevelt consulted his farm advisers. They were half-willing but the organization farm leaders were not. They insisted that the President go through with his original plan of trial and error.

That is the reason you have the Farm Bill in its present shape.

You can bank on the measure being given a conservative administration.

Agriculture Secretary Wallace has already passed that word down the line to the boys in the Congressional trenches. The authentic whisper is that what he has in mind is use of the Allotment Plan on wheat and cotton; use of the Acreage Leasing Plan on corn. If those work other stunts will be tried later.

Interior—

The Democrats are secretly scouting for scandal in the Interior Department. Employees have been warned to hold their tongues. Verbal orders were issued to permit no resignations until the files can be completely checked.

Interior Secretary Ickes will not say what he is up to.

Insiders there noted that investigators were concentrating on the Indian Bureau files relating to power sites. They think they have something that will make Page One news shortly.

Wallace—

No one will say so publicly, but one of the main Congressional objections to the Farm Bill originally was Agriculture Secretary Wallace. The boys were not certain he was a big enough man to be dictator of farming.

They have changed their minds since. His personal appearances before House and Senate Committees won them over. He showed he was not a wild man and knew plenty about agriculture.

Leader—
There were no shenanigans connected with the graceful way those congressional revolvers was ed out on their fight against the farm bill and reforestation.
No prizes were offered; no throats cut.
It was simply a case of too much Roosevelt. The boys could not

TODAY and TOMORROW

By WALTER LIPPMANN
Whither Away

SANTA MONICA, Calif., March 28.—Perhaps the most representative thing one hears said these days is that the President has done marvelously, but can he keep it up? This note of doubt arises not only because his two latest proposals, the farm bill and the scheme to organize a labor corps, go strongly against the grain of many American political habits, but also because the speculative rally has subsided and the deflation continues to run. The first three measures, dealing with the banks, with reduction of Federal expenditure, and with beer—had the quality of being so necessary or so clearly desirable that they seemed like three shots squarely on the bullseye. Obviously that kind of thing can not be kept up for the simple reason that there are not many more simple, definite and dramatic things to be done.

There is bound, therefore, to be some sense of anticlimax as time passes. The state of public feeling will from now on depend less and less upon spectacular political successes and more and more upon an understanding of the long and intricate adjustments which reconstruction requires.

The idea which gives order and significance to the task that lies ahead is that we are engaged in a struggle to arrest the fall of prices, in other words, the deflation, and to bring about a moderate rise in prices, in other words, a controlled inflation. Looked at in these terms, we may say that the policy of reopening only the sounder banks, the policy of reducing expenditures of veterans, and the coming measures to reorganize farm mortgages, to reorganize the capital structure of railroads and other corporations, are an attempt to prune away dead and diseased wood in order that the tree may be permitted to grow. The question whether these measures of reduction are liquidation or deflationary or not can be answered only if we know whether they are to be accompanied by general policies which make for a rise or a fall in prices.

Thus, if the forces of deflation which are bearing down upon American producers are not dealt with, all these measures of budget balancing and capital reorganization will clearly be quite ineffective. Unless prices rise and incomes increase the new budget will soon again be out of balance and the reduced mortgages of farmers and the scaled down bonds of railroads will soon again be intolerable. It is possible to adjust debts and fixed charges down to a new level only if the new level is at least stable. It is probably practically impossible

Orgy Of Heavy Hitting Due Fans Of Eight American League Teams

Batting Power More Evenly Balanced This Season Correspondents Who Have Watched Clubs Declare

By JACK CUDDY
 United Press Staff Correspondent.
 NEW YORK, (UP)—American League fans will be treated to an orgy of heavy hitting and more evenly balanced offensive among the eight clubs this season, according to correspondents who have reconnoitered with the clubs.

The greatest offensive improvement should be in the Boston Red Sox and Chicago White Sox.

Chicago, which ranked seventh both in standing and in club batting, with .267, last season, should display the greatest increase of power at the plate because of the addition of Al Simmons, Mule Haas and Jimmy Dykes.

Boston is reinforced by the acquisition of Hodapp, Fothergill, Winslet and Seed. The league's leading hitter, Dale Alexander, is slated to continue in his stride, as is Smead Jolley, who joined during last season.

The world champion New York Yankees with Babe Ruth, Lou Gehrig, Bill Dickey, Earle Combs and Tony Lazzeri are tabbed as due for bigger and better batting performances.

The Athletics will continue their 1932 pace despite the absence of Al Simmons.

With the Washington Senators, First Baseman Joe Kuhel is showing decided batting improvement and will bolster the efforts of Manush, Cronin, Bolton, Golin and Sculte. Roger Peckinpaugh of the Cleveland Indians is described as "actually ahead" over the style in which his big gun, Porter, Averill, Cissell, Vosmik and Morgan are hitting.

Primed by younger players, the St. Louis Browns are swinging in to a better hitting stride than last season. A formidable offensive is expected from Carl Reynolds, Bruce Campbell, Jack Burns, Arthur Scharrin and Ham West.

Manager Buckey Harris of Detroit is concentrating on hitting during his training period. Geringer, Stone, Walker, Owen and Davis are his strong men.

France May Pay War Debt Installment

Government Finds Reason To Believe 19 Millions May Be Received

By JOSEPH H. BAIRD
 United Press Staff Correspondent
 WASHINGTON, (UP)—The administration has found reason to believe that France's defaulted war debt installment of \$19,000,000 will be paid soon.

Diplomats planning the world economic conference are discussing transfer of its meeting place from London to Washington. June 1 is being mentioned as a tentative date.

Positive predictions on either point are impossible now because the Anglo-American-French debt and economic conversations are in a tentative and exploratory stage.

An international "comedy of errors" is resulting from the efforts of statesmen to prevent the crystallization of public opinion on the dynamic subject of war debts. Thus when foreign minister Paul-Boncour of France asked the Chamber of Deputies to defer debate on the debts because negotiations about them were proceeding in a "friendly" spirit, the state department said it knew of no negotiations.

In a strict diplomatic sense this is true. No notes, it is understood, are being exchanged, but there is a constant stream of informal talk between America and France about the debt.

The present expectation of the Roosevelt administration is that France will pay and thus put itself into position for revision of its \$4,000,000,000 war debt, but there are psychological and political barriers to be overcome. The Chamber of Deputies, having once gone on record for default, is finding a reversal embarrassing.

Value Of Advertising

Henry C. Lytton, veteran Chicago merchant, remarks that 1933 is of all years a year in which business men should make full use of advertising.

Forty-six years ago Mr. Lytton launched his business. He had, as he points out, just \$12,000 capital, but he did not hesitate to spend between \$3500 and \$4000 of it on newspaper advertising before he even opened his doors.

His business recently was valued at approximately \$7,000,000.

As a testimonial to the work that a wise advertising program can do for a business his experience speaks volumes. Skipping on the advertising appropriation can be false economy of the most expensive kind.

'Madame Queen' Worries Over How To Get 'Gator From Under Her House

DALLAS, (UP)—A persistent alligator continued to defy efforts of those who would induce him to come out from beneath the house of Queen Stubblefield, dusky servant woman known to her friends as "Madame Queen."

For "Madame Queen" fear today was being closely revealed by disgust as the intruding alligator maintained his continual thump against the floor of her house.

The alligator, about three feet long and a smaller companion were discovered under "Madame Queen's" house Wednesday. The smaller intruder was removed and taken to a local zoo. From whence they came is a complete mystery.

Angelo Credit Bank Continues To Pay Out More Than Other 2 State Units Combined

Branch Has Disbursed \$3,604,999 To 370 Borrowers, Including Five From Howard County For \$33,735; Lamb And Calf Crop Due To Increase Disbursements

The San Angelo branch of the Regional Agricultural Credit Corporation continued to maintain its record of disbursing and approving a total of more loans than the combined totals of the Fort Worth and Houston offices of the corporation. At the close of business Friday, March 24, the San Angelo branch had actually paid out \$3,604,999 to 370 borrowers had approved, subject to inspection, 502 loans for a total of \$5,248,850.07 and had finally approved, but had not paid out 462 loans for a total of \$4,844,347.65. The 92 loans, totaling \$1,289,347.79 represents the loans finally approved but which can not be paid off until borrowers have perfected legal requirements. It sometimes takes a couple of weeks for ranchers to get releases recorded and into the San Angelo office so that the loan can actually be accomplished.

Authorization had been made final for seven loans to Howard county residents for a total of \$46,814. Five of these amounting to \$33,735, had actually been paid.

Agricultural loans are coming in rapidly, a score or so a day, according to reports from San Angelo. But not nearly so many of these are expected as at Ft. Worth and Houston banks. These loans are practically made by the loan committees set up in the various counties of the district. While all these applications must be formally approved by the board of the agricultural credit corporation, the approval of the county loan committee, which is familiar with the loan, is practically tantamount to approval, subject to inspection. Ranchmen are too busy with shearing, lambing and other ranch work right at this time to make application for loans, but it is expected that at least a thousand applications for another seven million dollars will be made to the San Angelo branch as soon as wool is sold and lambs and calves are counted.

With 15 cent wool as an excellent prospect, and the largest calf and lamb crop in years already a reality, many loans which could not meet the requirements of the bank last fall on account of the fear of feed bills and a lower wool market, are expected to get the approval of the board before July first.

Fifteen-cent wool will give the loans in the sheep country a fine start toward liquidation this spring. Fine grasses all winter and reduced feed bills cut the cost of ranch operation in this section far below the average of the last 10 years.

The Fort Worth regional credit corporation reported Saturday night that there have been 3,248 applications, amounting to \$1,507,452, made for farm loans since money for this purpose became available several weeks ago. Live stock loans are not being requested as often as they were. There have been 1,120 requests for a total of \$7,164,872 of this type of loan. Of the total of 4,968 requests received, 361 applicants have received a total of \$1,442,733.

Detailed report of the operations of the San Angelo branch through Friday, March 24, shows that on actual loans received Crockett leads the list with \$277,596.93, Presidio county, on the border, comes second with \$203,357.16, and Tom Green is third with \$205,259.09. The report follows:

- Says CARDUI Seemed To Stop Cramping**
"Several years ago, when I was younger, I was advised to take Cardui for cramping and irregular trouble," writes Mrs. Esther L. Dodson, of Lowry City, Mo. "It helped me and stopped the cramping. Before the birth of my baby, I felt I needed a tonic to give me strength and appetite. Knowing that Cardui was a good tonic, I decided to take it again. I took it for nine months. I feel that my good health is due to Cardui."
Take Cardui to build up against the nagging symptoms of ordinary womanly ailments. It has been in use for over 30 years. So many women praise CARDUI, it must be good to have the widespread use that it has today. Sold at drug stores.

One I Love

By LAURA LOU BRIDGMAN

CHAPTER XXII

Once that day when Janet was sitting at her desk typing she looked up to find Hamilton watching her. Her cheeks colored. Hamilton said, "Miss Hill, how old are you?"

"Twenty-four," Janet told him. She had been 24 for just about a week now.

The man smiled. "Twenty-four," he repeated. "Getting on, aren't you?"

It was intended as a joke but it did not seem a joke to Janet. Twenty-four was getting on. She was getting on and there was so little to look forward to except day after day of sitting at a typewriter or scribbling curves and dots and potboos in a notebook. "Twenty-four she was, and life and happiness and the beautiful things she had dreamed about were rushing past. All this flashed through her mind but she said, "Yes," to Mr. Hamilton and smiled and wondered why in the world he should have asked such a question.

He saw that she had taken him seriously and laughed. "Twenty-four is a wonderful age," he told her. "Wonderful! I wish I could be 24 again! I wish there was any way to manage it."

Janet didn't know if she should go on typing or if there was something more he wanted to say. She hesitated and as he did so the man leaned forward.

"Tell me," he said, "do you like cats?"

It was preposterous! Janet couldn't believe her ears and yet she knew that was what he had said.

"Why—yes," she answered slowly. "That is, some cats. I don't like them when they bite and scratch—"

Hamilton laughed again. So he had only been joking! Janet was accustomed to quick changes of mood on the part of her employer but she had never seen him quite like this.

"Do you like cats?" she countered.

"They're all right," he nodded. "Except, as you say, when they bite and scratch. Or serenade when you want to sleep. Yes, cats are all right. Some people though, hate 'em. Have a sort of obsession about 'em. Afraid of 'em! Won't go near 'em! You've never felt like that?"

Janet said no, she had never felt like that.

For the rest of the day Mr. Hamilton made no more astounding remarks. The conversation in that office was, as it always had been, concerned with the regular routine of duties. Whatever the reason may have been for Mr. Hamilton to wonder about Janet's age and whether or not she liked Persian cats, he did not discuss it.

The next day, Friday, and Saturday morning passed uneventfully. Janet slept with Pauline Saturday afternoon, went to dinner at a new tea room and then went home to press a dress and write some letters.

She had just finished the dress and was putting the iron away when there was a knock at the door. Janet called out, "Who is it?" and went to the door to open it.

Jeff Grant stood before her. "I was wondering," he said, "if you'd like to go for a drive out in the country tomorrow? We could pick up Tommy and Rosie and take them along. We can have a lunch packed at the delicatessen on the corner—"

"Why, I'd love it!" Janet told him eagerly. "It's been a long time since I've been in the country. We can make it a real picnic!"

"Sure. Would 10:30 be too early to start? Have to stop for the kids, you know. There's a place out east of town I'd like to show you. Dogwood's in bloom now and it's a pretty sight."

Janet promised to be ready at 10:30 and when Jeff rapped at her door next morning she was waiting for him, wearing a crimson sweater over her blue skirt and a crimson beret pulled down over her head.

Jeff laughed. "In that outfit you don't look much older than Rosie," he told her.

It was so unusual to hear compliments from him that the color came in her cheeks. "I don't feel much older," she admitted, laughing. "Did you ever see a more wonderful morning?"

It was a wonderful morning. The clear, yellow sunshine made up in brilliance what it lacked in warmth. The air was crisp and fresh. "As though it had been washed," Janet said. The bright sunlight made the little patches of grass before the rooming house a brilliant emerald and the trees beside the walk flaunted their small, fresh leaves bravely.

Janet and Jeff climbed into the roadster and drove to the delicatessen shop. The lunch had already been ordered but to it they added marshmallows to be toasted on long sticks and lollipops because they were Rosie's favorite candy and dill pickles because

Mayor Jailed In Strike-Torn Town

SEIGLER, III. (UP)—Mayor Murphy Smith and two other city officials were jailed by Sheriff's deputies after a fire which the sheriff's forces claimed was an incident of the bitter coal mines strike here.

The incident came after an appeal to Governor Henry Horner by Mayor Smith for state militia. He claimed the county forces had ousted the municipal government. The sheriff's deputies have mounted machine guns in the city hall and trained them on headquarters of the Progressive Miners' Union across the street.

City authorities have dismissed all schools with the announcement they feared children might be injured in a possible outbreak.

County officers said they had come into the city because local government "broke down completely."

Alplanes circled over the mines again showering leaflets to the ground calling on miners to join a strike called by Progressives.

Water Commissioner A. C. Barr and Fire Chief Walter Kroski were arrested with the mayor after fire destroyed the home of Ray Edmondson and John Moulton, leaders of the United Mine Workers' Union, which is resisting an attempt by the Progressive Miners' Union to organize local mines.

Benton police revealed Moulton and Charles Harris, West Frankfort Garage owner, were secretly arrested in connection with the slaying of John Ward, Progressive Miners leader and Elmer Donaldson, United Mine worker, at West Frankfort Monday.

An information was filed charging Moulton with slaying Ward. Harris was held as a material witness.

An investigation was underway to determine if the fire was of incendiary origin.

plan of the board's disbelief of the condemned woman's self-defense story, "that at one time she had told one of her lawyers that she killed Mrs. Lerol in bed; that when the shot was fired Miss Samulson was in the bathroom; that Miss Samulson opened the bathroom door and that she (Ruth Judd) fired the first shot into the body of Miss Samulson at or near the bathroom door, and that Miss Samulson retreated to the kitchen where she received the second shot, the muzzle of the gun being held at or near the surface of the skin."

Husband's Testimony In regard to testimony of Dr. William C. Judd, the blonde young woman's 50-year-old husband, in which the board had expressed great interest, the brief said the physician-husband had declared "that in consultation with Mrs. Judd's lawyers the matter of her defense was considered at great length, that it was deemed 'inadvisable' by him and the lawyers to present the self-defense plea for the reason that they were afraid that Mrs. Judd, upon cross-examination, might admit, or say, that she had killed Mrs. Lerol in the bed, and had dismembered the body of Miss Samulson in the bathtub."

Dr. Judd testified at length before the board in secret, at the board's invitation, after hearings on the case formally had been closed.

In her story, told the board members at the Arizona state prison at Florence two weeks ago, Mrs. Judd had having any part in dismemberment of the body of Miss Samulson, which had been secured when it was found in a Los Angeles railway station, packed baggage, three days after the slayings.

Accompaning the letter to the governor was a proclamation for reprieve ready for the governor's signature.

One Case Not Tried Mrs. Judd is sentenced to be hanged for the murder of Agnes Anne Lerol. For the slaying of Hedvig Samulson she has not been tried. An attempt made yesterday to have a date set immediately for trial on that charge failed when Superior Judge Howard C. Speakman refused the long-pending murder information.

In her plea to the board of pardons and paroles Mrs. Judd declared she killed both women in defense of her own life in a fight in which they were the aggressors.

"A thorough and thoughtful consideration of all the testimony and Ruth Judd's own statements to the board," a formal brief setting forth the board's findings said, "together with a careful review of all the facts and circumstances attendant upon the tragedy, compels the board to believe that Ruth Judd shot Agnes Anne Lerol through the temple while she was in bed, the muzzle of the gun being held at or near the surface of the skin, and that Mrs. Lerol was not killed in self defense.

Supreme Court Ruling "The supreme court of the state of Arizona has held that she had a fair and impartial trial and the board knows of no reason, fact or circumstance that has been offered or disclosed, before or subsequent to the trial, why it should interfere with the verdict and judgments of the court.

"Therefore the board of pardons and paroles declines to recommend to the governor of the State of Arizona a commutation of the sentence and judgment pronounced upon Ruth Judd."

The decision of the board was unanimous being signed by Lin B. Orme, Sr., chairman, Arthur T. Laprade, attorney general and Herman Hendrix, superintendent of public instruction.

Word From Warden From Florence came word that Warden A. G. Walker of the state penitentiary had notified Howard G. Richardson, one of the condemned women's counsel, that she would be told of the board's decision by anyone except a member of her legal staff.

"Mrs. Judd voluntarily admitted to the board," the brief said, in ex-

Good Roads Association Begins Work

Chairman LeFever Leads Local Appeal Of State-Wide Organization

Starting of a campaign in Big Spring and Howard county to enlist motor vehicle owners as members of the Texas Good Roads association was announced Friday by Ben F. LeFever, chairman of the Howard county committee of the highway organization.

All citizens favoring continuation of the state program of permanently improving highways in the designated highways of Texas as quickly as funds are available from the gasoline tax and motor registration fees for such work and of the existing roads being properly maintained, are urged to affiliate with the association, LeFever said.

The principal efforts of the organization at this time are being exerted toward preventing any diversion of the gasoline tax from the highway fund, the Howard county chairman declared. Only two cents of each four cents per gallon collected by the state when gasoline is consumed is now allocated to the highway fund.

Attempts are being made to have the legislature divert that revenue to other funds.

LeFever pointed out that taking any more of the two cents away from the road fund would curtail maintenance and stop all new construction. Memberships are being sold in the Texas Good Roads Association at a very low fee and the money derived from them is used to carry on the educational work of the body.

In addition to Chairman LeFever, other members of the Howard County Good Roads association committee are Otis Chalk, M. H. Morrison, Joseph Edwards, R. L. Cook, Travis Reed, E. T. Mary, R. L. Price, W. B. Currie, Victor Flewelling, Leslie White, Shina Phillips, Loy Acuff, Charles Corley, S. T. Eason, E. A. Kelley and G. C. Dunham.

That compromise they fix it up for Labor on the Reformation Bill was no compromise at all. It was merely a face-saving device so nobody's feelings would be hurt.

If you peek behind the curtains on that subject will find Labor or had to back down for the same reason the congressmen did. The country let them know in obvious ways that it wanted the President to have a chance to try out his ideas unhampered.

The only alterations made in the bill were changing the word "wages" to "compensation" and details were eliminated.

There was nothing else for Labor to do. One of its strongest supporters is the local newspaper of a national chain. This newspaper has never been against anything Labor wanted in all the history of its existence.

But when the A. F. of L. protested against the Reformation Bill it ran a leading editorial urging caution. It criticized Labor and approved the bill.

Even the relief bill is a dictatorial measure. Hidden in the middle of it is a provision that no notes or debentures will be issued except at such times and in such amounts as the President may prescribe.

If he can ever get rid of congress Mr. Roosevelt will be able to run this country for a few months just about as he likes. There is no question but what we are approaching the realm of benevolent autocracy—dictators for the farmers, for the railroads, arbitrary powers over banks and relief.

Perhaps that is best. What was being done before we got this was not so good.

Tennessean Asks For Carlot Of The Burros He Has Heard Grow Up Out Here.

A man in Knoxville, Tenn., wants a carload of burros (just plain jackasses to you, Archibald).

No fooling. The Chamber of Commerce here received a letter Friday morning from a man in the University of Tennessee's home town asking whether arrangements could be made here to gather enough burros to fill a freight car.

Anyone interested in filling this order should see Manager Watson at the Chamber of Commerce offices.

No, the Tennessean didn't say what he wanted with them.

Nor was Manager Watson exactly certain whether the request reflected upon Big Spring or Knoxville.

Friday Last Day To Buy Licenses For Automobiles

Today is the last day to register automobiles without incurring a twenty per cent penalty.

Tax Collector Loy Acuff said Friday morning that scores were engaging in a last minute rush to register their vehicles before the extension of time granted by the Texas legislature expired.

If affidavit is presented the tax collector showing that the car has not been run since the first of the year, fees for only nine months will be charged, Acuff declared. However, if the car has been operated, full twelve months fees must be paid.

Trucks, passenger cars, buses, trailers, motorcycles fees must be paid today as well as chauffeur licenses. Highway patrolmen have been making an extensive list of cars seen on the road during the past three months and persons making false affidavits will be prosecuted, it was stated.

Acuff said his office would remain open until late if the demand occasioned it.

Interest To Be Paid On School Warrants

First interest payments on the warrants issued in 1932 by the Big Spring independent school district will be paid Saturday, Superintendent W. C. Blankenship said Friday.

Holders of the warrants must file their warrants at the West Texas National bank in order to get interest payments, he declared. Record of payment must be entered on the back of each warrant. Check for interest will be attached and returned with the instrument.

Nine thousand dollars of the warrants have already been paid off, Blankenship stated.

Many Original And Clever Costumes Appear At Firemen Social

en, attended the Tacky Party given by the Drill Team of the Ladies Society to the Brotherhood of Locomotive Firemen and Enginemen Wednesday night at the Woodman Hall.

Most of the guests were specially costumed for the occasion. It is impossible to mention them all but the following outstanding costumes called for special notice.

The committee, Mrs. Roy Jones wore a stunning crocheted wrap over her dress. Mrs. George Sims added chic to her old-fashioned frock with an ancient enormous purse that drew much attention.

Mrs. N. R. Smith drew all eyes with a very expensive hat. Mrs. Max Wiesner was attired in a shirt-waist costume topped with a Merry Widow hat whose claim to style was a gorgeous feather plume.

Mrs. S. M. Barbee's hat and socks were unusual features of her appearance. Mmes. Martin, Buzz and Casey were charmingly attired in styles once very popular.

Mrs. A. C. Hart was so disgusted that it was necessary to introduce intimate friends to her. Miss Pauline Schubert came as Rastus.

Other guests whose costumes deserve honorable mention were: Mmes. Harry Weeg, Paul Corcoran, J. P. Norris, M. D. Davis, W. V. Rose, J. F. Skalkley, F. G. Sholtz, F. E. Wilson, Ralph Smith, S. Mottier, C. T. Arnold, Gibson, Misses Edith Hatchett and Miss Dawson.

Many out of town guests were present. The official drill team dressed in various kinds of frocks put on a comedy drill that was never seen before.

Several interesting games filled the evening.

A change of the whole party before the judges, Mmes. E. L. Dawson, I. Slusser and Allison of Abilene, to decide the tackiest costumes terminated in the selection of Mrs. Loy Smith and Mrs. J. H. Johnson as the tackiest women and Mr. Roy Jones and Mr. R. L. Rogers as the tackiest men.

They drew for the prize and Mrs. Smith and Mr. Rogers were the winners. Little Miss Maxine Gackle, of Fort Worth, pulled out the lucky numbers for the winners.

The music for the evening was furnished by the Stutville and Adkins String Band. Mrs. J. E. Hendrix was awarded the quilt. All-day suckers and tea water were the dainty refreshments served at the close of this enjoyable and uproariously funny evening.

Bogus \$10 Bills Passed In City

Look before you leap might well be changed to "leap before you take a ten dollar bill on the First National Bank of Longview."

More than five bogus ten dollar bills have been passed here recently, it was learned from a good source Friday.

The imitations can be passed readily unless closely examined. They are done on paper slightly thicker than United States certificates.

The photograph on the bills is poorly done, being blurred. Signatures are out of place and printing is irregular in places. The reverse side of the bills are cleverly counterfeited.

Officers here are not inclined to connect distribution of the bogus bills with counterfeit half dollar pieces passed here some time ago.

Temporary Leniency In School Affiliation Requirements Urged By Big Spring Special Committee

Temporary leniency in affiliation requirements by colleges and universities and stress on fundamental subjects were recommended Wednesday by the Chamber of Commerce special education committee.

Because of the more financial condition of schools, the committee went on record as favoring less strict requirements for recognition of school credits by institutions of higher learning. This recommendation did not propose the move as a permanent change.

Stress on fundamental subjects was interpreted as meaning more attention generally to "the three Rs." The recommendation was aimed at courses built up by professional pedagogues from their own perspective. That courses be chosen to best fit a child for its life work was suggested by the committee. It saw little wisdom in stressing courses wholly foreign to an anticipated career.

Additional material affecting the local school situation was passed to committee members to be considered before another meeting of the body.

R. Stephens' daughter, Mrs. W. V. Rose, they left for their home Wednesday.

Mrs. J. A. Boykin left today for Fort Worth to spend the week-end with her daughter, Miss Peggy, and other relatives and to attend the meeting being conducted at the Travis Avenue Baptist Church by Rev. C. E. Mathews.

Sports Parade

By HENRY McLEMORE
United Press Staff Correspondent
NEW YORK (UP)—Despite the debacle at Seloto in 1931 when Walter Hagen's bloomed young men won by some nine matches to three, England has strong hopes of winning the Ryder Cup competition this year.

This was learned in a letter from our London golf observer, Harry Percy.

"While the oldest member is definitely of the opinion the United States Ryder Cup team is formidable with a capital F," writes Harry, "there is a strong feeling the trophy will stay on this side this year."

Percy pointed out that while English players respect the ability of the new men added to the American side, they are counting on their inexperience to lessen the power of their games.

"On their performances in the United States Dutra, Shute, Craig Wood and Paul Runyan are definitely good, but past experience has shown that on their first visit to British golf courses, American players are usually failures," he said. "Hagen was a great disappointment when making his debut at Deal; Bobby Jones shot so poorly he tore up his card at St. Andrews, and Gene Sarazen failed to qualify at Troon.

"English golfers still hold Hagen in high esteem. They never will forget his work in 1929, his last visit to this country. In winning the open for the fourth time that year he gave a magnificent exhibition of scientific golf in weather conditions which found out the weak spots in the play of every other competitor.

"If Hagen wins the title this year he will equal the feat of those old masters James Braid and J. H. Taylor, in having won it five times. Only Harry Vardon has won it six times."

Much oblige, Harry.
