80,000 More Troops Called to Colors As French Virtually Face Civil War

Pampa News

VOL. 48, NO. 208 (10 Pages) PAMPA, TEXAS, FRIDAY, NOVEMBER 28, 1947 Price 5 Cents

Economic Life Of Land Beset By Strike Wave

PARIS — P — France called an additional 80,000 conscript troops to the colors today to help meet the emergency caused by an epidemic of strikes which slowly are strangling French economic life.

The cabinet's decision, reached in a session of more than four hours, brought to 15 divisions the total of military forces called up within a week to deal with the threat of civil strife arising from Communist-supported strikes involving 2,000,000 men.

A decision followed an announcement that 68 police commissioners, each of them in charge of a district, were fired by the government. There was no official explanation. The Communist newspaper, L'Humanite, called it a purge.

Premier Robert Schuman's new cabinet which met under the chairmanship of Socialist President Vincent Auriol announced that the second half of the 1947 class of conscripts was being called into uniform. Half the class of 1947 was called up last week. The Ministry of War refused to confirm a report that French troops on duty in occupied Germany were being brought back to Paris to reinforce local forces. Schuman is known to be afraid of letting the Communists gain control of the French police. The police abstained from voting last night when unions of government employees split on a motion to strike. Six unions rejected the strike call, but supported the Schuman cabinet with a fresh vote of confidence, met with his new cabinet under the chairmanship of President Auriol to consider means of fulfilling the promise of the French people to the Chamber of Deputies early this morning that "proofs of the government's energy" in combat.

Continued Stalemate Forecast On Subject of Enemy War Loot

LONDON — (P) — A Soviet source forecast today Russian rejection of a French compromise to break the four-power stalemate over what constitutes German assets in Austria.

Deputies of the foreign ministers of the United States, Russia, Great Britain and France worked on the narrowed differences between the West and East over writing an Austrian treaty while their superiors were to continue talks on the future of Germany and its boundaries.

The deputies have been stalled for four months on the issue of German assets in Austria. The French compromise avoided definition of assets. It called on all countries to list their reparations claims on Austria and say for how much they would settle.

The Soviet informant said Russia will await the outcome of the council deliberations about Germany before committing herself on Austria. Conclusion of a peace treaty with Austria would necessitate occupation troops leaving.

French Foreign Minister Georges Bidault had lunch with Secretary of State Marshall, French Ambassador Rene Massigli and U. S. Ambassador Lewis Douglas.

French informants said Bidault, presiding at the fourth session this afternoon, would ask his colleagues to get back to the items under discussion on the

procedure for writing a German peace treaty and the future of the Reich. He was said to have expressed the view that political irrelevancies had entered the discussions yesterday.

Bidault was represented as anxious to get a decision approving amputation of the Saar Valley from Germany in the belief that this would soothe internal French politics.

Frontiers of Poland had captured immediate attention in a dispute over the setting up of a commission to draft plans for Germany's final boundaries.

The United States, Britain, and France agreed at yesterday's meeting to the formation of a boundary commission, but Soviet Foreign Minister V. M. Molotov balked, saving priority must be given to formation of a unified central government.

ALL ARE OUT OF STPP EXCEPT MOSCOW — (P) — Izvestia in the strongest language it has used to date in reference to members of the U. S. Congress today accused Sen. Arthur H. Vandenberg (R-Mich.) of "anti-Sovietism, false indignation and lying."

The Soviet government organ also leveled strong words at Sen. Tom Connally (D-Tex.), whom it accused, with Vandenberg, of championing the cause of "American monopolists" who Izvestia said are seeking through the Marshall Plan to seize the economic resources of Europe.

Successful progress depends mainly on one thing, and that is whether all the Big Four really want progress, or rather whether all want the same kind of progress. On this score there is plenty of evidence of a wide and seemingly unbridgeable divergence of view between Russia and the democracies.

Unemployed laborers are urged to contact the office immediately, he said. The jobs open offer plenty of over time, with time and a half pay, Fort stated.

PIIONEER DIES AUSTIN — (P) — A pioneer Texas Linotype operator, Jeff Gilbert, died at his home here yesterday. He was 78. Gilbert had worked for the Austin American and Statesman for almost 50 years and also at one time for the Houston Post, San Antonio Express and Fort Worth Star-Telegram. He had been retired eight years. Survivors include his widow.

Political 'Cards' Of Taft, Dewey to Go on the Table

WASHINGTON — (P) — Gov. Thomas E. Dewey of New York and Senator Robert A. Taft of Ohio may collide head on in the April 13 Illinois primary in a contest for the 1948 Republican presidential nomination.

While neither has given any indication of his plans, friends of Taft said today he is almost certain to enter the Illinois list if Dewey decides to try openly for the state's 58 convention delegates.

Taft is an announced candidate, but Dewey hasn't said publicly that he is running again for the nomination he won in 1944.

Under Illinois law, the name of any candidate may be entered in a preferential primary with or without his consent. The results are merely "advisory" to the state's delegation but prestige is involved.

Dewey forces also are reported to be marshaling for a battle with Stassen, and probably Gen. Douglas MacArthur, in the Wisconsin primary April 6.

Taft previously had said he didn't intend to enter any primary except in Ohio, May 4.

A fresh indication that all is not serene with the GOP came meanwhile from Senator Aiken of Vermont.

Contending "there have been no constructive ideas from the party leadership in many months," the Vermont senator told a reporter this week he thinks there should be a "top-bottom" reorganization including a replacement for National Chairman Carroll Reece.

Molotov's note was in response to one from Chinese Foreign Minister Wang Shih-Chieh, delivered here Nov. 17.

Sun Oil Raises Crude Oil Price

PHILADELPHIA — (P) — The price Sun Oil Co., pays for crude oil is being increased 50 cents a barrel. Announcing this yesterday, Vice President John G. Pew said the action was taken "to meet the needs of its customers" and "to do its part in supplying the constantly expanding needs of the armed services for petroleum products."

Few explained that it had been increasingly difficult in recent months to obtain crude oil for the company's refineries because of what he described as ever-increasing premiums being paid, directly or indirectly, by many of the company's competitors.

The price increase will make an East Texas field price of \$2.65 a barrel. During the war East Texas crude was held at \$1.25.

Few said "it is our belief that an increased price will prove incentive for stimulating increased production."

During the last days of OPA, a 10 cent increase in crude prices was granted. This was followed by a 25 cent increase, a 10 cent increase a second 25 cent and a 20 cent increase.

The last 20 cents a barrel hike came only six weeks ago and was initiated by Phillips Petroleum Company.

Increases in the price of retail gasoline in Texas in recent months generally have followed the ratio of a one-cent per gallon boost for each 25 cents per barrel oil increase.

Outside Aid Is Needed In Dog Mystery Case

Twelve-year-old Ann Jordan a daughter of Chief Deputy Rufe Jordan, has called out the entire Sheriff's Department on "The Case of the Brindle Bull Pup."

After giving the pup his weekly beauty bath, Ann carried him out in the sun to dry, leaving the harness off.

That was late Wednesday afternoon. Whether the pup is lost, strayed or stolen, Ann doesn't know, but by this time she says she is willing to call in outside help.

Humor around the Sheriff's office has it the pup has just learned of the recent challenge to a duel Jordan received from the owner of a badger.

Father of Local Resident Succumb Maurice Flavin, father of Mrs. L. L. Sore of Pampa, died at 9 a. m. yesterday at his home in Glenrock, Wyo.

Funeral rites will be held tomorrow at Glenrock.

He is survived by his daughter, and a granddaughter, Mrs. Estelene Lunsford of Pampa.

Bear front end alignment, complete brake service. Pampa Station, Lane 511 S. Ogden. Fr. 981-1100.

House Spokesman Hints More Officers to Be Investigated

WASHINGTON — (P) — The Congressional hunt for fraud in war contracting moves into the House wing of the Capitol next week with an advance hint that more uniformed purchasing officers may be called to account.

Rep. Bender (R-Ohio), chairman of an expenditure subcommittee in charge of the inquiry, told a reporter today he is not out to compete with the Senate War Investigating Committee but thinks his group will match the record of the Senate body.

It was a war investigating subcommittee which unearthed the story of Maj. Gen. Bennett E. Meyers' extra-curricular activities as an air force purchasing officer.

Those disclosures, including the secret ownership of a Dayton, Ohio, subcontracting firm, already have cost the retired general his \$50 a month pension and brought the threat of prosecution in both civil and military courts.

Bender declined to comment on any specific case. But he said investigators have been looking into the activities of several war-time purchasing officers with manufacturers later listed as having been highly overpaid by the government.

The committee's first session on Monday will be held behind closed doors. On Tuesday it will open hearings on a general war-currency office audit of the Reconstruction Finance Corporation.

While the grand jury which began looking into the Meyers case is in recess until Monday, the grand jury which President Truman has asked for a list of names of disabled veterans who have been given disability retirement armed service officers who were given V-J Day.

Meyers' name would be on any such list.

Club Will Enact Session of U.N.

In a recent poll, only one of three persons could tell what the United Nations aimed at, and only one out of five could explain what the veto was.

Lions Clubs over the nation are planning programs to be given at luncheons and before various assemblies to demonstrate the workings of the United Nations sessions.

The Pampa Lions Club plans such a program in the near future.

The club president will explain the purpose of the program, which will be given in much the same way and in the same atmosphere as an actual United Nations session, with re-enactment of scenes from actual meetings.

The preamble of the United Nations Charter will be read responsively by the president of the club and the audience, to be followed by the re-enactment of a Security Council meeting.

The invocation, music and other parts of the program will adhere as closely as possible to a "live" session, and the program will close with the reading of excerpts from President Truman's address at the closing of the plenary session of the United Nations Conference, San Francisco.

Disease Incidence Is Below State Normal

AUSTIN — (P) — Incidence of most communicable diseases in Texas is below normal, the State Department of Health says.

In its report for the week ended Nov. 22, the Health Department found chickenpox, diphtheria, malaria, measles, mumps, pneumonia, scarlet and typhoid fever were all below the median of incidence for the week.

Dysentery cases were above median, with 316 cases compared to the average of 282. Influenza incidence was average with 1,007 cases. There were 164 cases of whooping cough compared to the median of 119.

Unrest Rules, Italy Devalues Its Money

ROME — (P) — The Italian government in its fourth attempt since the armistice to bring official quotations of the national currency in line with its real value devalued the lire last night from 350 to 689 to the dollar.

The lire has been exchanged successively at 100, 275 and 350 to the dollar, since the armistice.

Meanwhile, unrest raged throughout the country, despite denials by the Communist-dominated Italian General Confederation of Labor that preparations were under way for a general strike in Italy.

Officials Point to Deadline Approach on Season Overseas Gifts

The Christmas mailing season is at hand, and Pampa post office officials this morning gave advice that will help speed that Christmas package on its way.

Overseas mailing should have already been taken care of, they said, and those sending gift packages overseas should get them out immediately.

A "special handling" endorsement on fourth-class matter will speed its handling and transportation. Special handling may be obtained by payment, in addition to regular postage, of the following charge: Up to 2 pounds, 10 cents; over 2 pounds, up to 10 pounds, 15 cents; over 10 pounds, 20 cents.

All articles should be packed carefully in strong, durable containers. Wrap parcels securely, bearing a printed endorsement, do not seal them except when reading: "Contents, merchandise—postmaster: This parcel may be opened for postal inspection if necessary as sealed parcels not so labeled or endorsed are subject to postage at letter rate."

"Do not open until Christmas" markings are permitted, and certain written enclosures are permitted, if they are of the nature of "Happy Christmas," "Happy New Year," and the like, although written messages subject the parcel to letter postage. Communications prepaid at the first-class rate may be sent with parcels prepared at third or fourth-class rates by securely attaching the envelope to the outside of the parcel.

Attention was called to the fact that Christmas and other greeting cards bearing glitter substances which are likely to rub off must be enclosed in envelopes tightly sealed to the corners, with postage prepaid at first-class.

Perishables must be so marked, and articles likely to spoil within the time reasonably required for transportation are not accepted, it was said.

8 Persons Dead in State Accidents

The toll of violent deaths over the Thanksgiving weekend had climbed to eight in Texas, with traffic accidents accounting for six lives.

Three persons died Thursday to add to five killed Wednesday. A. W. Orrell, a carnival concession operator from Waco, died in Smithville Thursday of burns suffered Wednesday night. The burns were believed received when a small gas stove in his trailer home exploded. Survivors include two daughters, Mrs. George A. Hibler of Austin and Mrs. S. F. Ratcliffe of Corpus Christi; two sisters, Mrs. Stella Pederson and Mrs. J. M. Arnold, both of Waco, and one brother, Fred B. Orrell of Waco.

A. D. Emerson, 51, former county attorney of Ellis County, was killed by a shotgun blast. His body was found Thursday at Ovilla Community, near Waxahachie. A coroner's verdict of accidental death was returned. The gun apparently discharged as he climbed through a fence while hunting alone. Survivors include his wife and a son.

Mrs. Mura Dunham, 59, died Thursday of injuries received Wednesday night when struck by an automobile at Dallas.

Sergeant Pays \$150 For \$1 Worth of Gas

HOUSTON — (P) — It was costly gasoline, an Army sergeant at Ellington Field found out, although witnesses said it was waste fuel.

A court martial fined him \$50 a month for three months for a total of \$150 and restricted him to the Army post for 25 days.

The Sergeant, Boyd O. Lambrecht of Seabrook, Texas, was convicted of taking five gallons of gasoline, valued at \$1.

One witness testified that the gasoline involved was waste gasoline and probably would have been burned on the ground or used as cleaning fluid.

UNCONQUERABLE? NEW YORK — (P) — Stanislaw Mikolajczyk, self-expelled leader of the Polish Peasant Party, yesterday described the country which he fled last month as "a pure totalitarian state," but said that the Communists "will never get the souls of the Polish people."

Aid Program Likely to Get Senate Changes

WASHINGTON — (P) — President Truman's message to Congress on the long-range European recovery plan likely will not be ready before Dec. 8.

Presidential Secretary Charles G. Ross told reporters today he thinks it is unlikely the message will be ready to send to Capitol Hill until after Mr. Truman returns from Florida.

The President is leaving Wednesday for a rest at Key West and a dedication speech at Everglades National Park Dec. 6. He will return to Washington Dec. 8.

Ross said the question as to whether the president will recommend a separate agency for administration of the long-range program, often called the Marshall Plan, is being considered now. He said other recommendations still are in the discussion stage, but he did not disclose what they are.

Senate supporters of the \$597 million emergency aid to Europe plan worked toward passage of the measure early next week, but at least four amendments are to be considered.

Although the chamber was scheduled to convene today, Senator Wherry of Nebraska, the Republican whip or assistant majority leader, said lack of a quorum of the 66 members might necessitate adjournment until Monday.

Chairman Vandenberg (R-Mich.) of the Foreign Relations Committee has predicted a passage "with a minimum of final opposition" for the measure authorizing winter relief for Italy, Greece and Austria. But before that vote can come, Wherry told a reporter:

"There are at least four amendments I know of. There may be more, those will all take time." Wherry said the four would be offered by Senators Chavez (D-See AID PROGRAM, Page 6)

Laborers Needed, Official States

Laborers are needed in the Pampa area, L. P. Fort of the Texas Employment Commission office here said this morning.

That office has had a number of jobs at \$1 per hour open since Wednesday morning.

Unemployed laborers are urged to contact the office immediately, he said. The jobs open offer plenty of over time, with time and a half pay, Fort stated.

Columnist Boyle Says Man Mixed Up, Needs Medicine to Show Right, Wrong

By HAL BOYLE NEW YORK (P) — One thing science has never built is a moral radar—something to tell modern man right from wrong.

Yet it is probably the one instrument the world needs most to keep from going to Hades in a bananawagon.

The devil always does a land-slide business after every war, because people get mixed up, confused and uncertain. A full belly comes more important to them than a good deed. They hesitate to cast their bread upon the water unless they see the next wave returning their cake.

Men who sacrificed their comfort and risked their lives upon the bloody altar of battle slowly lose their principles in a pinching peace, and moral dry rot spreads through all countries and all classes.

The old certainties fade. Right and wrong become as intermixed as a shuffled deck of cards, face down.

In lands of shortages the black market operator emerges as the hero of a new aristocracy. In Japan the widow of a high-minded judge who died of hunger rather than buy on the black

Arkansas Romps Over Tulsa 27-13

TULSA (AP)—The five-year supremacy of Tulsa University over the University of Arkansas was at an end today.

It was broken by the hard running and precision passing of Razorback halfbacks Aubrey Fowler and Ken Holland, who engineered their team to a 27-13 victory over the Golden Hurricane yesterday in Skelly Stadium here.

Holland threw two first half touchdowns and Fowler reeled off two second-half runs of 19 and 42 yards to give the Razorbacks their first victory since 1941 in the 46-year old rivalry.

College Football Has Pro Problem

STATE COLLEGE, Pa. (NEA)—College football isn't alone with its professional problem. Johnny Rusniko's decision to join the Wilkes-Barre Barons of the newly-organized professional American Basketball League is a blow to Penn State coach John Lauer. Rusniko withdrew from college after the start of the semester. He poured 181 points through the hoop in 18 games last winter.

SHALLOW AND SALTY

Great Salt Lake was created by settling of the earth's crust. Although it covers an area of 2000 square miles, it has an average depth of only 15 feet.

Army - Navy Grid Forces Meet Tomorrow

PHILADELPHIA (AP)—The football forces of Army and Navy reach the end of their 1947 campaigns in Philadelphia's huge Municipal Stadium tomorrow with the outcome as difficult to predict as in the days before "B, D and T" exploded for touchdowns.

The Army, although its unbeaten string of victories was halted at 32 by Columbia, will enter the fray with a much better season's record. But the cadets lack the scoring punch that carried them to victory the last three years when Doc Blanchard, Glenn Davis and Arnold Tucker—the "B, D and T"—roamed the gridiron for the Black Knights from West Point.

While the Middies have only a lone victory over Cornell and a tie with Duke to show for eight games, they are confident of scoring their first victory since 1942 over Earl Blaik's gold clad warriors who have won four, lost two (Columbia and Notre Dame) and tied Illinois and Pennsylvania.

The men have a great will to win and I think they have a great chance to do so," said Head Coach Tom Hamilton of the Middies.

In the neighborhood of 100,000 persons, including President Truman and men high in the political and military life of the nation, will ring the gridiron for the game scheduled to get under way at 12:30 p.m., Central Standard Time.

Last season the Navy came close to whipping Army in one of the most thrilling games of all their 47 contests. The final score was 21-18 with the Middies only four yards away from the goal when the clock ran out.

Both teams are in fine physical condition. The Middle mentor has not decided on two of his starting backfield men but it'll be either Bob Horne or Reeves Baysinger at the quarterback post and either Bill Hawley or Myron Gerber in the fullback slot.

Horne, a 175-pounder, is from Plainview, Tex. The probable starting lineup for Army includes 260-pound Right Tackle, Goble Borne of Dallas.

Home Ownership Is a Temporary Joy

RAPID CITY, S. D. (AP)—William I. Wilson, a 329 pilot at the army air field here, spent six months hunting a house. Meanwhile, he and Mrs. Wilson lived in tourist cabins.

At last they found and bought a house. In triumph they had their friends in for a housewarming.

The next day Wilson was transferred to Spokane.

Longhorns Roll to Sugar Bowl By Crushing the Aggies 32-13

COLLEGE STATION—AP—The Texas Longhorns rolled on toward the Sugar Bowl today while Texas A. and M. picked up the pieces from one of its most disastrous seasons, made doubly bitter by a crushing 32-13 defeat administered by the rival state school.

Completely dominating the first half of play the Harvesters never completely out of danger. Going into the second half, the Bulldogs trailing 21-6, they scored one touchdown and were marching for their third score when a Berger pass was intercepted by Derrell Davis on the Harvester 37. From this point the Texas and Gold team marched to the Berger four yard marker where the ball game ended.

Taking over on their own 49-yard line on their first play of the ball game the Harvesters scored a touchdown on a 61-yard run by Jimmy Wilson only to have the play nullified and the Harvesters penalized 15 yards for clipping. Two plays later on the same play, a handoff from Laffoon, Wilson raced 24 yards to the Berger 17 to set up the first Pampa score. Wilson scored from the one foot line seven plays later. Anderson converted.

The Harvester's second tally came in the second quarter on a 72 yard sustained march with Jackie Williams carrying the ball into paydirt from the one yard line. Anderson converted.

In the second period, Berger took to the airways to score their first touchdown. A pass from Erown to Hill was good for 38 yards to the Pampa 12, from where Brown, the time passing to Hill for the Bulldog score. Marching from their own 20 after the kickoff the Harvesters surged the remaining 80 yards for a touchdown with Laffoon racing the final 13 yards for the score. Anderson again converted to end a perfect day in the conversion department kicking three extra points in three attempts.

Borger's final tally came in the third period; again scoring via the airways. Jerry Glass passed 30 yards to Dick Hill to make the score Pampa 21, Borger 12.

During the first half the Harvesters ran up a total of 15 first downs to Borger's four, while in the Bulldog-dominated second half the Bulldogs made eight first downs to the Harvesters five.

One player from each team sparked the field's defensive play. Carl Hayes, Green and Gold fullback, high-point in a n. n. During the first half of the game turned in one of his best defensive games of the season. While on the Borger line it was Howard Hurt, 185 pound tackle who led the Borger defensive play.

This was the 16th meeting of the two teams. The Harvesters have won 15, suffering their only defeat at the hands of a Borger team last year at Harvester Park by the score of 34 to 7.

Szasz Pins Parker In Last Night's Wrestling Feature

Al Szasz of St. Louis, Missouri, pinned Sailor Parker, of Jacksonville, Fla., and Hank O'Dowdy of Big Spring, Texas, conquered Cyclone Burns of Miami, Florida, last night at the Sportatorium in two of the best matches seen in the arena since the return of wrestling to the Pampa arena five weeks ago.

Szasz won the second bout on the evening's card coming back after Parker had won the first fall, to win the second and third falls, the second in five minutes and the third in 12 minutes, pinning Parker in both instances with a series of Irish whips and then an arm bar. Parker won the first fall in 13 minutes with a step-over toe hold.

This was the first time in Parker's five appearances in the local ring that an opponent has broken Parker by winning the best falls of three falls. Parker lost his opening match being disqualified by the referee in the last fall of the event for unnecessary roughness.

The first event of the night's brought together two newcomers to the Big Spring arena and Hank O'Dowdy, Burns, after taking the first fall in 17 minutes with a series of head twists and then a body press, was unable to cope with O'Dowdy's arm stops and won the second and third falls in 17 minutes and one minute with this hold.

The black walnut tree of North America grows as high as 150 feet with a 20-foot girth.

DiMaggio Voted AL's Most Valuable Player

NEW YORK—AP—Joe DiMaggio, star centerfielder of the world champion New York Yankees, today joined Jimmy Foxx, former great slugger of the Philadelphia Athletics and Boston Red Sox as the only three-time winners when he was named the most valuable player of American League for 1947.

In the closest race in the history of the award, DiMaggio compiled a total of 202 points in the vote of the 24-man committee of the Baseball Writers Association of America to nose out Ted Williams of the Boston Red Sox by one point.

Williams, who gained the triple crown by leading the league in batting (.345), runs batted in (114) and home runs (32) as well as in runs scored, total bases and bases on balls, polled 201 votes to gain the runner-up spot. It was the second time he finished second to DiMaggio.

The Red Sox slugging outfielder, who won the award hands down last year with 224 votes, finished second to DiMag in 1941. DiMag also won in 1938. Foxx gained the honor in 1933 and '33 with the Athletics and in '38 with the Red Sox.

The balloting for third place also was decided by one point with Lou Boudreau, shortstop-manager of the Cleveland Indians, beating out Joe Page, the Yankees' great left-handed relief pitcher, 168 votes to 167. George Kell, outstanding Detroit third baseman, was fifth with 132 points and George McQuinn, the Yankees' bargain basement first baseman, was sixth with 77 points.

Joe Gordon, acquired by the Indians in a winter deal with the Yankees for Pitcher Allie Reynolds, beat out Bob Feller, his famous pitching teammate, by one point for seventh place, 59 points to 58. Phil Marchildon, Canadian right-hander of the Athletics who won 19 games for a second division club, landed ninth position with 47 points, four more than Luke Appling, shortstop of the Chicago White Sox, got for the 10th spot.

Jacobs, an Oklahoman, is three quarters Indian. He proved it by not cracking a smile when the award was made.

City College, which figures to be the best New York City basketball team this season, gets off to a rough start tomorrow against American U., which aroused considerable wrath in the South by accepting transfers Bob Negley from North Carolina State and Don Hillock and Reggie Crockett from Washington and Lee.

When the Dodger-Pirate deal finally is made, it should be a dilly—but don't ask us what players are involved. Boss Branch Rickey says: "I never have seen the market as jumpy as it is now. It looks like anybody is willing to trade anybody... and everybody apparently has cash." Don't look this way when you say that, Branch.

Kimbrough to Speak At Coaches Banquet Here December 8

The Plains Football Coaches and Officials Association will hold its annual banquet in the Palm Room of the City Hall, Monday night December 8, with Frank Kimbrough, head football coach from West Texas State College, scheduled to be the principal speaker.

The public is invited to this banquet and reservations can be made by calling Phil Harvey at 9023-E-2 or 160. Reservations should be made immediately, stated Harvey.

Abraham Lincoln was born in that part of Kentucky which is now LaRue County.

Police, Families Have Festivities

Members of the City Police and their families celebrated Thanksgiving yesterday in the Palm Room, City Hall.

Preparing the dinner themselves, members of the Police Auxiliary met early in the morning in the Palm Room kitchen to feed their husbands.

The table, shaped in a horse-shoe, was decorated with flowers and centered with an early Pilgrim Thanksgiving scene. Apples, cut in halves, served as candlestick holders.

Vote Tomorrow On Wheeler Co. Soil Program

SHAMROCK —(Special)—Moving pictures depicting what soil erosion is doing to the farming lands of Wheeler County were shown by County Agent W. K. Frey at a meeting held in the High School Auditorium Monday night.

The meeting, one of a series being held throughout the county, was to impress upon landowners the importance of establishing a soil conservation district in Wheeler County.

Talks were made by County Agent Frey, Howard Weatherly, vocational agriculture teacher, and Guy Hill, secretary-manager of the Shamrock Chamber of Commerce.

In answer to a petition signed by more than 200 landowners, the State Soil Conservation Board will hold a hearing at 2 o'clock tomorrow afternoon, in the courthouse in Wheeler. The hearing will be to determine whether this county needs, and wants, a soil conservatio district.

INSTALLMENT PLAN BUTTE, MONT.—(P)—A rural woman handed the county treasurer 17 cents in paying property tax for the first half of the year on a small parcel of unimproved farmland.

The second half payments will be easier, she said, because it will be only 16 cents.

Hot Tamale, icesa daily at Allen's Cafe 415 Maple St.

In Nevada you can drive 50 miles or so without seeing a house, a ranch, an animal, or even a tree. I had done just this last July when I stopped to pick up a man walking along the road. "I got a little place five miles off the highway," he said. "Lived there thirty years. Greatest country in the world."

I suppose I looked dubious as I gazed at the jumbled desolation baking in the fantastic heat. "Well you call her a little dry," my companion admitted. "But did you ever see a place where so many people you don't like ain't livin'?"—Reader's Digest.

Atomic Energy Research May Offer Many Solutions to Farm Problems

By LOUIS FRANK Extension Editor Texas A&M College With prices of most things getting higher and higher, it's a comfort to know that there's no inflation in isotopes.

The USDA has announced that the Atomic Energy Commission is now supplying isotopes from the Oak Ridge Plant for use in agricultural research.

Research workers of the Texas Agricultural Experiment Station say the thing that makes isotopes so valuable to science is that they can be diluted down to almost nothing, but it's still possible to trace them with suitable detectors.

Geiger counters are used as detectors and the physics department of Texas A & M has recently installed an X-ray spectrometer which will also be available for research purposes.

This isotope business is pretty complicated. It's kind of like Dutch Hohn—now director of the Lower Colorado River Authority's conservation program—used to explain vitamins when he was county agent at Brenham.

The way I get it, an isotope is a by-product of atomic bomb production. It seems every atom has a center made up of a positive electrical charge called a proton and another particle with no electrical charge called a neutron.

Says Killing All Infected Cattle SACRAMENTO, Calif. — (AP) — Agreement was expressed here on the substitution of a program of vaccination and isolation instead of one of slaughter—to combat Mexico's infestation of foot and mouth disease.

"I have always felt that the Republic of Mexico could not withstand the economic disruption resulting from killing all cattle in the infected areas," said Dr. C. U. Duckworth, assistant director of the State Department of Agriculture.

The official served on a national advisory committee to the secretary of agriculture on the control and eradication of the malady which the U. S. has sought to control, lest it spread north across the border.

Texas Supreme Court Clarifies Question Of Cattle at Large

AUSTIN — (AP) — The Texas Supreme Court Wednesday clarified the question of when livestock is illegally at large, in a case involving the death of a cow valued at \$135.

The court had accepted jurisdiction on a pleading that there have been conflicting appellate decisions on the matter.

It sustained rulings that an animal is not illegally "at large" when it has escaped through no fault of the owner.

Charles Schumacher had sued the city of Caldwell to recover the value of a cow that had been electrocuted by a high tension wire blown down during a storm.

He claimed the city was negligent in permitting the wire to remain in the street for two or three days. He also claimed his cow had been broken free from her tether during a second windstorm.

The city's position was that the cow was at large in violation of a city ordinance. The trial court upheld Schumacher, awarding him \$135 damages, and the Court of Civil Appeals reversed the judgment. The Supreme Court said the trial court was right.

Cattle Raisers Denounce Proposed

AUSTIN — (AP) — The Texas and Southwestern Cattle Raisers Association has expressed its strenuous opposition to termination of the American-Mexican program of slaughtering cattle infected with foot and mouth disease in Mexico.

Meeting in Austin this week, the association's Board of Directors lambasted the Bureau of Animal Industry of the United States Department of Agriculture for failure to stop spread of the disease after pouring millions of dollars into the joint control program.

The directors denounced proposals of the Mexican government to replace the slaughter plan with a vaccination campaign, declaring that vaccination is "not a proper means of eradication" of the foot and mouth disease.

"To abandon the eradication program in Mexico means the saddling of the disease on that country forever, a situation which is intolerable and will remain a constant threat to all agriculture in this country," said C. E. Weymouth of Amarillo, president of the association.

Vaccination to Supplant Slaughter In Foot and Mouth Control Program

MEXICO CITY — (AP) — The Mexican and United States governments in a joint announcement said today slaughter of infected cattle in Mexico's foot and mouth disease zone will be stopped immediately and that a program of vaccination will be put into effect.

The United States will continue active in the campaign for control of the disease, but there will be no more slaughtering in the central affected area.

A control line of vaccinated cattle will be maintained in the northern states of Jalisco, Guanajuato, Zacatecas, Aguascalientes, Queretaro and the northern part of Veracruz.

A southern control line protecting the Guatemalan border will pass through the states of Oaxaca and southern Veracruz.

The United States Department of Agriculture has accepted a proposal by Mexican officials through the Mexican-United States commission for the eradication of foot and mouth disease to change the present program in Mexico, an official U. S. government bulletin said.

"The plan of operations as revised from the present slaughtering program will include vaccination, the continuation of quarantine and when necessary, slaughter of infected and exposed animals."

"The proposal to change the program was prompted by the fact that it is now apparent that the ultimate destruction of the great number of susceptible animals in the infected zone would mean a tremendous economic and social impact upon Mexico."

"At the request of the Mexican government the United States cooperates actively in a campaign in that country."

"However because of the many inherent adverse conditions in the infected areas, it has not been possible to achieve fully satisfactory results under the present slaughter program."

Officials of the joint commission in Mexico said they were uncertain just how soon the vaccination program could be put into effect. They said vaccine, for type A virus, is not available in sufficient quantities to vaccinate all the animals in the north and south control zones. They explained "an enormous quantity of this vaccine is needed for effective control inasmuch as the cattle must be revaccinated every three or four months."

He Means That It Will All Come Out in the 'Wash' By GERALD BUTLER News Tellypewriter Operator

While most of the people of these United States were engrossed in the festivities of Thanksgiving yesterday, "deep, stark tragedy" was being enacted in one Pampa home.

Yes, while most other persons were giving humble thanks for all the good things of life, this young mother thought her entire world had crashed around her, that all the beautiful things of life had been crushed into nothingness.

How does this writer know about this heart-breaking incident? Simple, to witness which. Have you ever seen a mother when she first discovered her child's hair had been "cut" by one of the neighbor's children?

Although it has been my misfortune to witness people's reaction to various degrees of horror, I must say I have never seen such agony expressed by anyone. The shock of having her baby's hair "ruined" by childhood play—which must have happened to most of us when we were children—created the most tearful display of anguish by my wife I have ever witnessed.

In consoling her, I believe myself to have witnessed one of the greatest tests that comes in fatherhood—that of convincing a mother that her child, like all others, would, in not too long a time, have a normal head of hair by due process of nature.

NO SUGAR RATION. NEW YORK—Despite rumors that give Truman the rationing authority he asked for, sugar would not be on the ration list.

There's 95 lbs. per capita of sugar in the U. S. this year vs. 73 lbs. last year," the magazine reports, "and even if Congress were to give Truman the rationing authority he asked for, sugar would not be on the ration list."

Sentence Passed On J. L. Crawford

Jessie Lee Crawford stood calmly before Judge Lewis M. Goodrich this morning in 31st District Court as a sentence of two years in the state penitentiary was pronounced.

After having been found guilty of murder without malice in the slaying of Bertha Lee Crawford last July 4, an appeal was filed, but the district court withdrew the appeal a few days ago.

Crawford was accompanied into the courtroom by Aaron Sturgeson, one of the three defense attorneys. Crawford is charged in the slaying of Bertha Lee's husband, Leonard C. Bostick, at the same time, but trial date has not been set.

CORPORATION COURT
One man charged with speeding was fined \$10 this morning in Corporation Court, while two other men paid fines of \$10 each on charges of intoxication.

ECONOMIC

The ominous wave of strikes could be displayed before the day is ended.

His government, less than a week old, won a narrow victory in the Chamber at 4:15 a. m., the final count showing 322 for him and 186 against him, with 100 absent.

His Popular Front government, including secret votes by workers of the issuance of a strike call. A decree in today's official journal gave the force of law to a government decision to have 11 workers in private industry paid a 1,500 franc (\$12) cost-of-living bonus every month. Strike leaders already have said they will not meet their demands for higher pay.

Informers said the cabinet would work on a plan by Schuman calling for some relaxation of the right to strike, including secret votes by workers of the issuance of a strike call. A decree in today's official journal gave the force of law to a government decision to have 11 workers in private industry paid a 1,500 franc (\$12) cost-of-living bonus every month. Strike leaders already have said they will not meet their demands for higher pay.

Informers who are confronted with a Russian government demand that 19 Soviet citizens—those arrested was reported Tuesday on charges of interfering in French labor affairs—be brought to the Soviet embassy at once, in the assembly in the final stages of debate this morning, but with regard to the above, this day will not pass without our getting some and effective words of the government's economic policy.

The increase in U.S. population in the 1930s was less than half as great as in any previous decade.

PROGRAM

Page 1
N.M., Taylor (D-Idaho) Kem (R-Mo) and Ferguson (R-Mich.).

The Chavez amendment would enable the United States to send industrial goods to South America in exchange for commodities which would then be sent to Europe.

The Taylor amendment would forbid arms purchases by countries receiving aid.

Ferguson wants to provide for Congressional observation of the way the aid is distributed.

None of these, however, appeared likely to touch off anything like the flurry which upset earlier plans to have the stop-gap measure out of the Senate's way by Thanksgiving.

That resulted from a drive by eight Republicans to pare \$197 million from the authorization bill. It was beaten back, 66 to 30, but the debate consumed so much time Wednesday a final vote was put off until Monday.

While the Senate was shaping up its bill in about the fashion asked by President Truman, the House Foreign Affairs Committee has voted to chop \$108 million from the total for the three European countries and add \$99 million to help China. The House bill will not be ready for debate, however, until some time next week.

B Picture Coming Back Into Its Own
By BOB THOMAS
HOLLYWOOD — (AP) — The B picture is coming back into its own. Now MGM is reportedly mulling the return of lower budget films to its production schedule.

Double features are apparently here to stay and producers and theater owners are finding it increasingly difficult to make a profit by showing two expensive films on the same bill. The answer to the problem seems to be a return to B production.

Tightening its belt another notch, MGM is planning to bring back the B's to the Culver City lot next year. The new films will be created at a cost of less than \$700,000.

Maureen O'Hara hears she is to play a Russian countess in John Ford's "The Family." "So far I have been Spanish, English, German and American in pictures—everything but Irish," said Maureen, who is now a U. S. housewife in "Singing Freeway." She'll finally play her own nationality in Ford's "The Quiet Man."

Gary Cooper starts his new deal with Warners this January. His first film will be "Copper Hill," a western adventure drama by Stephen Longstreet.

Ray Rogers may be trying to get his release from Republic, but headman Herbert Yates doesn't appear worried. Yates says he elevated Rogers and his Sons of the Desert from "a bunch of singing cowboys" to their present position, "and we can find another bunch."

Did you know that Robert Young's salary for "Crossfire" amounted to about one-fifth of the film's cost. The picture was made for \$822,000, and not one set was built for it. Scenes were shot on starting sets or ones borrowed from other pictures.

Ruth Hussey, out of pictures for two years because of stage and story appearances, is now working in "I, Jane Doe" at the Republic.

Judge Gray Named to Civil Appeals Bench

AUSTIN — (AP) — Gov. Beauford H. Jester has appointed Judge Raymond Gray of San Saba as associate justice of the important Third Court of Civil Appeals, to succeed the late James Harvey Baugh.

Jester simultaneously announced appointment of Tom Ferguson of Burnet, former member of the legislature, as judge of the 33rd District Court, to succeed Judge Gray.

Counties in the 33rd judicial district are San Saba, Blanco, Burnet, Gillespie, Llano, Mason, and Menard.

Judge Gray was born Jan. 9, 1891 and was graduated from the law school of the University of Texas in the class of 1915. From 1926 to 1932 he was county attorney of San Saba county.

He took office as district judge Jan. 1, 1937, and has served continuously since that time. Judge Gray is married and has three children, one girl and two boys. He is a veteran of World War I.

DISORDER IN LONDON
LONDON — (AP) — Three persons were summoned to appear in court today as the result of fighting which broke out in London's East End last night when Sir Oswald Mosley, pre-war Fascist leader, held a Jew baiting rally in the Bethnal Green District, where many Jews live.

October Road Death Figures Below 1946's

AUSTIN — (AP) — Fewer persons were killed in Texas automobile accidents in October than in the same month last year. For the year's total to date it still is 10 per cent below 1946 figures.

The Department of Public Safety reports that 125 persons lost their lives in October motor vehicle accidents, compared with 33 in the same month last year. For the first ten months of 1947, the total dead was 1,575, in 1946, the ten-month toll was 2,065.

The annual report on driver's license suspensions for the fiscal year ending Aug. 31 showed 5,737 Texas-issued licenses and 287 issued by other states were suspended.

Of those issued in Texas, 4,450 were suspended for drunken driving and out-of-state licenses canceled for the same reason totaled 283.

The number of U. S. people living on farms decreased from 31,359,000 in 1920 to 20,400,000 in 1940.

Burglars Are Finicky About Housekeeping
BILLINGS, Mont. — (AP) — Burglars who stole a rifle, two pipes and a can of tobacco from Joe Wersal's house took time to cook themselves a snack and coffee.

Wersal was a bit less put out when he found the men had also stayed long enough to rinse off their dirty dishes and sweep the floor.

If fertilizer for a tobacco crop contains too much nitrogen, the crop may be large but the leaf may be rough and of poor quality.

B Picture Coming Back Into Its Own

Maureen O'Hara hears she is to play a Russian countess in John Ford's "The Family." "So far I have been Spanish, English, German and American in pictures—everything but Irish," said Maureen, who is now a U. S. housewife in "Singing Freeway." She'll finally play her own nationality in Ford's "The Quiet Man."

Gary Cooper starts his new deal with Warners this January. His first film will be "Copper Hill," a western adventure drama by Stephen Longstreet.

Ray Rogers may be trying to get his release from Republic, but headman Herbert Yates doesn't appear worried. Yates says he elevated Rogers and his Sons of the Desert from "a bunch of singing cowboys" to their present position, "and we can find another bunch."

Did you know that Robert Young's salary for "Crossfire" amounted to about one-fifth of the film's cost. The picture was made for \$822,000, and not one set was built for it. Scenes were shot on starting sets or ones borrowed from other pictures.

Ruth Hussey, out of pictures for two years because of stage and story appearances, is now working in "I, Jane Doe" at the Republic.

FAIR ENOUGH

By WESTBROOK PEGLER
(Copyright, 1947)

NEW YORK — If the working people, the wage-earners, of the United States, have suffered any loss through the adoption of the Taft-Hartley law, the blame must lie with the greedy bosses of the union movement. They had the power to reform the unions, to stop the persecution of individuals, and the harassment of communities by unnecessary and oppressive strikes. They could have abated the robbery of millions of workers through assessments for causes in which they had no interest, for expensive insurance and for undignified rackets. But, throughout the Roosevelt administration, they refused to drop their selfish politics

and answered every criticism and warning with the monotonous cry of "labor-baiter."

Actually, the only important battles of labor during those years was not the National Association of Manufacturers, nor any of the journalists or candidates, but some of the presidents and vice-presidents of unions. Jimmy Petriello by now has convinced himself that he actually does serve his "boys" but, a few years ago, he openly smirked about his holy mission and the enormous proportion of Saturday night saxophonists in his American Federation of Musicians. The union did nothing for them. It merely preyed upon them, compelling these clerks, students and carpenters, men of a hundred occupations, to buy membership under him and pay their dues and fines and submit to his tyrannical discipline so that they might earn a few extra dollars on weekends. Jimmy's powers are really terrible. Other union bosses have the same powers, but Jimmy's are written out for him in an article of his constitution which permits him to rule ab-

solutely by whim, subject to no challenge or appeal. The cruel gangsters of the Hodcarriers' and the Operating Engineers' Unions and some of the machine politicians of the teamsters exercised practically the same despotic authority, but they had to go in for subterfuge and terror, not that this embarrassed those who ruled by these methods.

Jimmy's was the only union whose founding fathers had the gall to spell out the proposition that unionism was a totalitarian racket, and it was significant that his most alarming excesses began after he hired Joseph Padway as his general counsel. I paid my respects to this counselor of American Labor when he died a few weeks ago, but I have always been willing to add that the most arrogant of the dictatorial profiteers in American unionism was also the clearest slyster in union law. Padway was not necessarily a fine lawyer, although he did have his points. He handled a class of clients who always had a great advantage under law and could pay off judgments, if they lost, by the painful process of levying assessments on the feeless people who carried the cards and did the work. This gave Padway an advantage over lawyers for the other side. I say it was significant that Jimmy really started to go to town only after he hired Padway, because Padway was the legal adviser of the entire American Federation of Labor. His ruthless thinking directed the great A. F. of L. in many of its policies throughout this time and his guidance was that of a man with absolutely no regard for the community. So, in the end, and in time for him to see

what he had done, the Taft-Hartley law was adopted. Padway collapsed in the seizure that took his life as he followed to the convention of his misguided client, the A. F. of L., that the law meant slavery.

There is no question that Padway and William Green, John Lewis, Philip Murray, Dan Tobin, Petriello, Reuther and Fay, the merciless thugs now securely filed away in prison at last, were strong men in unionism. The criticism of these bosses is that they either misused their strength meaning their force of character as well as their following in goons, to oppress the real workers of the United States, or failed to use it in the interests of reform. Green could have been a great American by now, or Murray, or any of the others, who had been wise and honest enough to say, five or six years ago, "the union movement must make peace with the people and the law of the United States and serve the community in which it lives."

But they missed their opportunity and now the whole lot of them are reduced to howling to the rank and file worker that he is a slave in chains and bleeding from blows of the knout. But the worker looks at his wrists and sees no bands and he takes inventory and finds no wounds.

On the contrary, he is beginning to realize that he can now appeal to the government to protect him from his union. This is a new freedom that already has stirred in many men of the Teamsters' Union a spirit of revolution against Dan Tobin, president for more than 30 years, a longer reign than most kings have enjoyed. It is dawning on the rank and file that they have rights under unionism which they never even dreamed of in the days of Franklin D. Roosevelt under the Wagner Act, unmitigated. The majority of the union members are of such an age that they began working under Roose-

Program Will Give Facts on U. S. Business

A nationwide information and advertising program "to give the people of the country the facts they want" regarding the true size and significance of corporate profits and other fundamentals of the American system of business and free enterprise is being sponsored by the National Association of Manufacturers.

Announcement of the program came here today from R. E. Clements, president of Superior Manufacturing Company, Amarillo, and member of the Board of

Directors of NAM. "In every recent public opinion poll about business," the announcement said, "a vast majority of those polled said they want, and are eager to know, more about how our business system works."

"Most Americans stated that they believe between 10-15 percent is a fair profit for business to make, but they have a belief that corporations are currently making far in excess of this figure. However, according to government figures, the net profit on all sales for all manufacturing concerns in 1946, for example, was only 5 percent, and over a period of the last 15 years was slightly less than 4 percent."

"The National Association of Manufacturers is undertaking this information and advertising program," the announcement continued, "to present in dramatic form the real facts about American free enterprise. The advertisements, to appear in leading magazines of national circulation, and newspapers, including newspapers in this and other areas, will spell out in every-day language the ABC's of our business economics."

"Although each will deal with specific factors of our economy, overall the program will cover: the truth about corporate profits; the story of production; how competition works to protect the consumer; the stories of opportunity and individual freedom; the part played by stockholders, managers and workers in the business picture; and other essentials of the American enterprise structure. Primary basic facts will be told in terms of the benefits they make possible for the public," the announcement added.

Soil Conservationist Is Leaving Canadian

CANADIAN (Special)—L. R. Short, district conservationist with the Soil Conservation Service here, is being transferred to Miles City, Mont., December 1.

Short's new post comes as a promotion. His new office will be that of superintendent of pasture studies at the U. S. Range Livestock Experiment Station.

Short came to Canadian in January, 1945. His district includes the Miami, Stinnett, and Canadian offices of the Soil Conservation Service.

Mrs. Short, and the children, Stan, Joan and Janet, will remain in Canadian until a later date so as not to interrupt the school work of the children.

To date, no successor has been named for the office Short is leaving here.

There is no hope for the future in an international WPA.

—Sen. Robert A. Taft (R) of Ohio.

GRANDPA'S FULL OF PEP

Now He's Found Fast Help From Getting Up Nights

Here's good news for you folks who have to get up at night to pass water, have backache, too, because of minor functional kidney disorders.

Three generations ago, a famous doctor developed a medicine for this very trouble. Now millions have used it, often with amazingly fast, effective results. The medicine is Dr. Kilmer's Swamp-Root, made of 16 herbs, roots, vegetables, and balsams — truly nature's own way to relief. Instantly you take it, it starts to work. It flushes out kidneys — increases the flow of urine, helping to relieve excess acidity — so irritated bladder gets a good flushing out, too. Caution: Take as directed. You'll say it's marvelous.

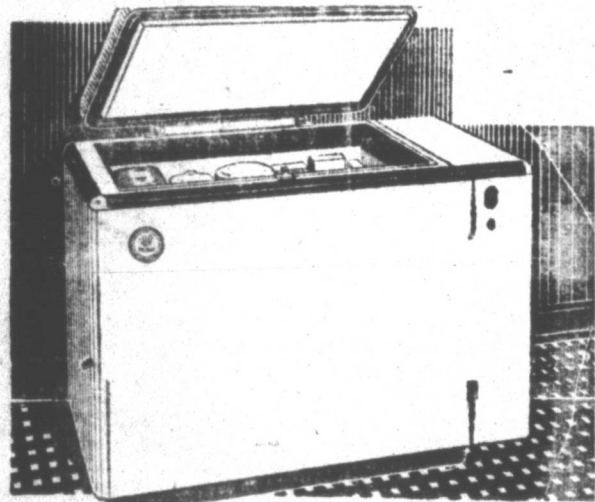

For free trial supply, write Dept. F, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or — get full-sized bottle of Swamp-Root today at your druggist.
