Dr. And Mrs. Simms Celebrate Golden Wedding Anniversary

Dr. and Mrs. P. Marion Simms, who are celebrating their golden wedding anniversary, were honored at open house which was held in the G. S. True home, Tuesday evening from 7 to 10 o'clock. Tall baskets of golden calla lilies, Esther Reed daisies, shell pink gladioli and other spring flowers were placed at vantage points about the entertaining rooms. Refreshments were served from a table laid with an acru lace cloth and centered with a floral arrangement of gladioli and other spring flowers. A two tiered wedding cake iced with "1893-1943" centered the buffet.

Receiving guests at the door were Mrs. Hayden Griffiths, P. Marion Simms, Jr., Dr. and Mrs. P. Marion Simms, Dr. and Mrs. G. S. True. Serving at the refreshment table were Mrs. James E. Moore, Mrs. El Clyde Smith, Mrs. Jerome Lusk and Mrs. Rufus Miller. Others in the house party were Mrs. Sam Baker, Mrs. Pat Kenney, Mrs. C. L. Wasson, Mrs. N. W. McCleskey.

Mrs. Simms was attired in an ashes of roses formal and her shoulder corsage was of orchids. Mrs. True wore a black net gown with a corsage of pink roses. Other members of the houseparty were also attired in floor length gowns with corsages of spring flowers.

Around 100 guests called during the evening. Dr. P. Marion Simms and Edna Earl Johnson were united in marriage at Lewisburg, Tenn., June 18th, 1893. Both were natives of Tennessee. Dr. Simms was educated at Cumberland University, Lebanon, Tenn., where he received his A.B. degree in 1899; B.D. in 1902 and Ph.D. in 1907. Upon graduation from the Seminary in 1902, he was called to the University as Registrar and acting president for four years.

His pastorate was in the First Cumberland Presbyterian Church of St. Joseph, Mo. He was there at the time of the union of the Cumberland Church with the Presbyterian church in the United States, and had been a commissioner to the general assembly of the Cumberland Church for four consecutive years while problems of union were being worked out. At his next pastorate in Vinton, Iowa, he was one of the pioneers of the institutional church. He built and dedicated debt free in 1913, a \$100,000 edifice including an educational and social service unit and a swimming pool. Other pastorates have been held in Hebron, broken Bow, St. Edwards and Cozad, Nebraska, and Medicine Lodge, Kan. For several years, he was associated with the Near East Relief and the American Bible Society. Sixteen seasons were spent in lecturing in chautauques of the United States and Canada upon the subject of church union.

Downtown Stroller

Had a pleasant lunch downtown with SARA REIDY, TOMMIE McCRARY and JANICE SLAUGHTER, who were all in from Coaden for lunch during the noon hour. We chatted on about all the gals at their office who have gotten married or engaged in the last few months.

Visiting in town is Mrs. JAMES ATER, of Los Angeles, Calif., who is en route to Alexandria, La., to join her husband. Mrs. ATER is the former MARIE FAUBION who lived here several years. She is the guest of EDITH GAY, her former room mate.

CLARA SECREST returned Sunday from Lameza where she visited relatives and left Monday night for her home in Hamilton where she will spend the summer months.

IRA DRIVER was in the county clerk's office yesterday and still teasing LEE PORTER about his helping capture a fleeing man from the bank the other day whose check had been questioned. Seems that Lee's friends (?) gave him a citation for "heroism beyond call of duty" just to heckle him a little.

Just four years tomorrow the W. H. SCOTT'S arrived here with SCOTT as manager of the American Airlines station. Tomorrow they will leave here as SCOTT is to be on detached service for the airlines in New York and Mrs. SCOTT and daughter, LYNN, are to be in Atlanta, Ga., with her mother. They are a swell family and the town will really miss them.

Mrs. O'Brien Is Guest Speaker At Sorority Meeting

Members of the Beta Sigma Phi sorority met at the Settles hotel Tuesday evening for a semi-monthly business session and to hear a talk given by Mrs. Chester O'Brien entitled "Women of the Bible."

The social committee announced plans for a party which will be held soon. Those attending were Freda Bond, Nelda Booth, Mrs. Roy Black, Mrs. Hiram Brimber, Jane Clayton, Mrs. Paul Darrow, Marie Dunham, Mrs. Mary Knox, Mrs. Ben LeFever, Omega McClain, Elizabeth McCrary, Tommie McCrary, Nell Rhea McCrary, Evelyn Merrill.

Sara Reidy, Mrs. Lawrence Ross, Dorothy Sain, Clarinda Mary Sanders, Mattie Skiles, Janice Slaughter, Murlan Smith, Mrs. Choc Smith, Mary Stagg, Felton Walters, Mrs. Lloyd Wooten, Patsy Toops and Mrs. Barnes.

Fliers' Bodies Are Returned Home

LAREDO, June 9. (AP)—The bodies of two American army air forces fliers from Eler Field, Alexandria, La., who were killed Monday when their plane crashed near Villadama, Mexico, will be sent to their homes tonight.

William Kennedy, commander of the Laredo army air field, announced today.

They are: Second Lieut. Ernest R. Blakely, Woodbridge, Calif., pilot of the plane and Sgt. Charles V. Kane, Sterling, Ill.

Two officers who parachuted to safety were Capt. Carl Gesser, home address unknown, and a Corporal Bell, whose other name and address are unknown.

Club To Meet Thursday

The XYZ club will meet at the Settles hotel Thursday evening with Mrs. A. B. Apple and Mrs. C. L. Girdner as hostesses.

The meeting starts at 7:30 o'clock and all members are urged to attend.

W. H. Scott, who has been manager for the American Airlines station here for the past four years, will leave Thursday for New York where he will be on detached service for the airlines.

W. B. Marshall of Phoenix, Ariz., has arrived here to replace Scott. Scott came to Big Spring as manager of the station from Abilene where he was located for seven months. He has been with the company for 15 years and station manager at various airports for the past ten years.

Mrs. Scott and daughter, Lynn, will go to Atlanta, Ga., where they will make their home with her mother until his return.

Negro Named In Robbery Charge

Melvin Owens, negro, was named in robbery by assault charges filed in justice court Tuesday as an aftermath of an altercation with a negro soldier, who claimed he was beaten and robbed of \$140.

Owens is being held in county jail and will be brought before the grand jury. No bond has been posted on his account.

Trinity Still Out Of Banks

By The Associated Press

The Trinity river was out of banks from Dallas south today and was continuing to rise near Trinidad, A. M. Hamrick, Dallas weather observer, said.

Hamrick said that cessation of last weekend's rains would prevent any further flood damage to crops in the Trinity basin.

In Austin, lower Colorado river authority officials said there were no flood developments on the Colorado.

At Trinidad, the Trinity was clogged at 33.5 feet. No further rises were reported at Rosser, 20 miles south of Dallas, where the river was four feet above bank level yesterday.

The crest of the Trinity's high waters at Dallas was 80.2 feet late Monday afternoon, Hamrick said.

The rest-pause that refreshes

Welcome in peace... more welcome in war work

WAR plant managers will tell you that anything that contributes to contented workers makes better workers. In plant after plant it has been found that a rest-pause breaks monotony, lessens tiredness and tension.

When you add refreshment to a rest-pause, you not only have a pause that rests, but refreshes, too. A moment for ice-cold Coca-Cola makes a rest-pause take on more meaning... promoting contentment that leads to more work and better work. Yes, contentment comes when you connect with a Coke.

Close work brings the need to pause. Ice-cold Coca-Cola brings tingling refreshment to make any pause the pause that refreshes.

The best is always the better buy!

Man Is Sought In Eastex Holdups

DALLAS, June 9—Officers were on the lookout today for a man reported to have staged several holdups in Hill and Ellis counties yesterday. Detective Inspector Will Frits said he believed from descriptions given him by Ellis county officials that the man was Robert McEachern, 23, of Lubbock, who escaped from Retrieve prison farm June 1.

Frits said the man reportedly held up several persons in Ellis county and took their automobiles, and robbed a service station in

FD Gives New Warning On Poison Gas

WASHINGTON, June 9 (AP)—A possibility that Allied troops might have to fight their way into Europe through poison gas was emphasized today by assurances from the chemical warfare service that effective protective devices have been developed.

President Roosevelt said yesterday that evidence that the axis was making "significant preparations" indicating an intention to use gas warfare was being reported "with increasing frequency from a variety of sources."

He spoke of the possibility that the enemy would resort to what he called "such terrible and inhuman weapons" and promised the axis armies and peoples, in both Europe and Asia, that once they loose poison gas there will be "full and swift retaliation in kind."

Use of gas "against any one of the United Nations will be regarded as having been committed against the United States itself and will be treated accordingly," Mr. Roosevelt declared.

Gen. William N. Porter, chief of the U. S. chemical warfare service, said last May that if the enemy starts using war gases "we have plenty to give back and they'll probably get more than they give out."

Japs Told They Must Destroy U. S., Britain

By The Associated Press
Tadahiko Okada, speaker of the Japanese house of representatives, told a mass meeting in Tokyo today that Japan must utterly destroy the United States and Britain or be destroyed herself, the Tokyo radio reported in a broadcast recorded by the Associated Press.

The grim nature of the global war, Okada was quoted as saying, "will permit no half-baked distinction between the victor and the vanquished." Instead, he declared, it is a question of "the survival of the fittest—eat or be eaten."

Okada spoke at a "crush Britain and the United States rally" in the municipal auditorium, the broadcast said.

"There is absolutely no room for the co-existence of Japan on the one side and Britain and the United States on the other," he declared. "We must crush and overthrow those two countries, which are cruelty and craftiness incarnate."

They Call It Pacific

by CLARK LEE

Chapter 9
Toward the end of the first week there was a brief lull in air attacks. We thought maybe the Japs were concentrating on Hong Kong, intending to knock it out before tackling Manila; but later we learned that they had been moving their planes from Formosa down to bases on northern Luzon, at Aparri and other points. We kept asking each other, "Why doesn't our Air Force knock them out?" Even after hearing the stories of Clark Field, I still thought we had planes at other fields—and so did our soldiers.

When they got their bases set up the Japs came back to Manila again. They came almost every day, usually at noon when the sun was directly overhead and their targets were unshadowed. Their bombing was erratic. Sometimes they hit their targets on the nose as they did at Cavite. Other times they would miss by as much as a couple of miles. They concentrated on Nichols Field and Fort McKinley, which was the barracks for American troops in Manila, on Zablan Field where the midjet Philippine Air Force was based, and on the dock area. They didn't waste bombs on hospitals, churches, or schools.

One day at Nichols Field we were stopped at the gate and then escorted around by a sea-berked sergeant of the Air Corps. From the city it had looked as if Nichols was badly hit, but the flames and smoke were from a single gasoline truck and from an officer's home and a corner of the barracks.

The sergeant was still shaking from the excitement of battle. He'd been firing a .30-caliber machine gun at the enemy planes.

"For Christ's sake," he said, "you people are reporters; tell the people back home to send us some anti-aircraft guns and some airplanes that'll fight those Jap fighters and climb high enough to knock down those bombers. All we can do now is sit here and take it and

The Americans in the hotel adopted the anti-aircraft men of the 200th New Mexico National Guard. They would load their arms with sandwiches and soft drinks and stumble through the darkness across the Lunetta to the gun emplacements. Then they would chat for several hours with the gun crews, recalling their own experiences in the last war and passing around cigarettes and listening while the youngsters told stories of their own homes. When busy firing at Jap planes they would come into the hotel to get their hair cut or have a coke or a sandwich.

One evening, a week after the war had started, we sat around a table in the hotel and talked things over. Most of them thought the Japs would go for Singapore and not attempt a major invasion of the Philippines. They were optimists.

The General Motors man had the best news of all. "This is confidential, but it comes from a high source. There are two American aircraft carriers off Corregidor. They'll be here within a few days."

C. C. "Chappie" Chapman of Mackay Radio had heard that the Japs had been drinking for the crowd that the reports were true. I said, "Look you fellows, this may be fifth columnism. But here's the way I've got it figured out and I've been talking to everybody in town. You all heard Sayre's frantic appeal for help today in which he said 'Time is of the essence' Pearl Harbor has stunned us. Wake Island is the tip-off. We have planes that can fly easily from Midway to Wake to give those Marines a hand. Our ships could have reached there by now to fight off those Japs."

"But we're back on our heels, now. Most of our admirals are punch drunk. We have lost our old rash and recklessness. The U. S. is going to play this thing slowly and cautiously and take no chances. This means they are going to let us go out there."

Chappie laughed at me. He was a fountain of rumors and optimistic reports in those days. "The Lexington is off the coast," he said. "We are getting planes tomorrow."

After I saw MacArthur for the first time I tried to force myself to believe that maybe, after all, the Lexington was on the way. I hadn't seen him before because I was constantly on the move getting first-hand stories of the bombing, and he didn't have time to attend the press meetings. MacArthur didn't speak. He just walked along with long strides through the room at No. 1 Victoria where we were waiting for the press communique, and up the stairs to his office.

He nodded confidently to us on the way past. His gold-braided cap was tilted jauntily. His shoulders were bare. He was smoking a cigarette in a long holder, and swinging a cane.

He looked so young that I nearly asked, "Is that MacArthur or his chief of staff, General Sutherland?"

Then I saw the four silver stars gleaming on the shoulder of his neatly pressed shirt.

He looked completely sure of himself. He looked like a man who wouldn't lose.

You Need To Know New Numbers— Branch Offices Set Up To Speed Mail In Nation's Larger Cities

Postal service in urban centers has been expedited materially by the adoption of unit numbers for all mail to be handled through branch offices.

Over the nation, according to a survey by postal authorities, the plan has been received enthusiastically and hailed as one of the blessings to come out of wartime operation. It was conceived as a means of circumventing the obstacle of inexperienced personnel.

When corresponding with firms or individuals in large cities, it is now proper to include the branch office number after the city. For instance, John Smith may get his mail at 222 Mattapan Ave., Boston, Mass. In reality, the letter must first be referred to a branch office for distribution.

Inexperienced help probably would have to study a map to ascertain in which territory Mattapan Ave. is located. However, when the letter comes addressed to John Smith, 222 Mattapan Ave., Boston 5, Mass., clerks methodically toss it into the correct hopper for branch office distribution.

Those who have occasion to write to persons or concerns in large cities are urged to ask for the addressee's correct branch number. In Texas, cities having this service are Dallas, Fort Worth, Austin, Houston, San Antonio and Waco.

All's Quiet For Time Being On Zoot-Suit Front

LOS ANGELES, June 9 (AP)—Anthropologists ultimately may dope out the cultural quirk that nurtured the blossoming zoot suit, with its neat, draped shape and stiff cuffs—badge of street gangs engaged in recent clashes with service men.

But for the conservative and puzzled citizen of today here is a theory or two:

Hollywood film studio research authorities say they believe the impetus toward the extreme garb sprang from the full coat of Prince Albert type and trousers of peg top design that Clark Gable wore in "Gone With the Wind."

The currentfad started, they add, in Harlem, and spread to other sections of the country.

Another theory is that jitterbugs inspired tailoring of tight

ers were a definite trip-and-fracture were a definite trip-and-fracture hazard in their rug cutting. The origin of the long watch chain looping almost to the ankles is still something of a mystery.

Advocates of this garish garb were relatively quiet last night after four nights of disturbances, in which service men unfrocked at least 50.

Downtown streets, heavily patrolled by civil police, navy shore patrolmen and military police, were virtually free of rioters—and sailors. Few arrests were made and few clashes occurred. The 11th naval district, embracing Southern California, Arizona, New Mexico and part of Nevada, barred sailors, marines and coast guardsmen from Los Angeles after a seaman, Donald J. Jackson, 20, was stung and knifed here yesterday.

One sailor was beaten last night, and among zoot suiters arrested was one carrying a 18-inch butcher knife.

Mrs. Mary Essell, who has been visiting with her daughter, Mrs. Sam Peak, in Houston, has returned.

Later General Brett's pilot took off from a highway in the Besscraft and landed safely in Mindanao. Then the general got a bomber to the Netherlands East Indies where he served as Air Force commander before going to Australia.

The Americans in Manila were beginning to sense that something was wrong. The USAFFE communications were worded optimistically, but not much fighting seemed to be going on. If the Asiatic Fleet was in action, we didn't know it, and the Army didn't seem to be doing anything to chase the Japs out of their air bases on Luzon.

In the Manila Hotel there were still nightly dances in the blacked-out, air-conditioned dining room. Lunch was served in the big outdoor restaurant right on the water front and the more carefree of the guests could sit there, eating and drinking, and watch the bombs falling around Pier 7, only a couple of hundred yards away.

Many preferred to sit out the raids in the small, low-ceilinged, dark-paneled taproom. There was so much noise inside that even with the bombers overhead it was difficult to hear them. Bombs falling within a quarter of a mile made only a faint whomph inside.

To the Americans and English people living in the Manila Hotel the greatest annoyance was the nervous watchman assigned to enforce the blackout. If you lit a cigarette in your rooms a bullet from a .45 revolver or a .30-30 carbine might come whistling through the window and plunk into the ceiling. The only light in the rooms was a dim blue bulb in the bathroom. Even when the whole city was lighted by fires from oil tanks or burning ignited by Jap bombs, the blackout guards at the hotel discharged their duties—and their guns—conscientiously.

Speaking of letters, Braden King, who is in the U.S. Navy, recently hit the jackpot. He had been on a ship until mid-winter when he was ordered into base at San Diego for some special installation. For a long time he received no communications at all. Then his ship put in—and Braden got 71 letters at one whack!

Then I saw the four silver stars gleaming on the shoulder of his neatly pressed shirt.

He looked completely sure of himself. He looked like a man who wouldn't lose.

Churchill Has Praise For US Leaders

LONDON, June 8, (AP)—Prime Minister Churchill paid glowing tributes today to the United States, its president, its congress and its army chief of staff.

He told the House of Commons in his war review that the United States is "The most powerful community in the world."

He called President Roosevelt "illustrious."

Congress, he said is an "august assembly."

He referred to Gen. George C. Marshall, U. S. chief of staff who accompanied him to North Africa, as "a man of singular eminence of mind and character."

At the close of his 35-minute, 3,500-word speech to Commons, the prime minister apologized for the brevity of his review, saying: "The reason why I have not to make a longer speech today is that I have already given to the joint sessions of the congress of the United States the statement (May 19) which I should have made to this house on the victories in Tunisia had I been in this country. That, I think is the valid explanation."

"Certainly when I found myself walking into that august assembly, the free congress of the most powerful community in the world, and when I gave them, exactly as I would do in this house, a business like stock-taking survey of the war and of our joint interests, even touching upon controversial matters of domestic controversy over there, and when I thought of our common history and if the hopes that lie between us, I felt that this was an age of memorable importance to mankind."

He said his relations "with the illustrious president of the United States have become in these years of war those of a personal friendship and regard, and nothing will ever happen to separate us in the comradeship and partnership of thought while we remain responsible for the conduct of affairs."

Food Situation Will Be Worse By Next Year

WASHINGTON, June 8, (AP)—Unless things look up, be ready to pull in your belt, come 1944.

The Agriculture department is concerned about the situation in some foods.

Its bureau of economics, in a review, said today there are enough rationed foods on hand, together with expected production, to maintain present eating levels for the remainder of 1943. But here's the rub—rationed foods. The peach crop in southern states are not so plentiful and the anticipated supplies for the fall months are not too favorable. That goes for eggs, cereals, fruits and vegetables.

Vegetable output is running about 13 percent below last year. Early frosts have cut crops of apricots, cherries, peaches, plums and prunes materially below 1942, may be half of its normal size.

Supplies of eggs in the fall and winter "will be considerably below current levels."

Livestock may be affected adversely. Unless there are extraordinary grain yields, the present level of production cannot be maintained beyond 1943. Consumption of feed grains now threatens to exceed production.

The potato supply for the year was calculated at 155 pounds per capita, a total crop of about 400,000,000 bushels. The bureau said the expected winter crop would not be big enough to permit a rate of consumption as high as the first quarter of this year.

Butter and cheese stocks are plentiful for this year.

Alaska Highway! for Your After-War Trip?

U. S. Army Engineers couldn't be told that it couldn't be done. Like Superman, they cut and smoothed the wilds to Alaska. The Al-Can highway leads nearer to Victory Day, when you can hope to head your car north . . . or to the Rio Grande—or where you choose—leaving war worries in your wake. But will you have a car?

Not a new one; not soon after Peace, experts agree. Your best bet is to preserve your present car for the future. At the same time you'll preserve it for your essential driving today, by recognizing its ruthless enemy—engine acid!

More normal combustion has always left acid in any engine after it has stopped. But in running often, driving long, and heating the engine well, you mostly dispersed this acid. Then along came rationing and limited driving. Plenty of time now for acid to gnaw and corrode inner parts that you cannot easily replace. But what familiar thing bars corrosion? Good metal plating!

And your engine's insides can have anti-corrosive OIL-PLATING—attached as closely as any fine plating, by Conoco Nth motor oil. It's patented. It includes the modern synthetic that behaves almost "magnet-like" to maintain OIL-PLATING—even for days—where acid could otherwise freely attack. Block it! OIL-PLATE today. Indians Back Home To Try For A Big Comeback

Browns Are First On Schedule

By JUDSON BAILEY
Associated Press Sports Writer

One of the questions to be taken up for settlement as the major leagues swing back into action today is whether the Cleveland Indians can become contenders in the American league again now that they are back on their own reservation.

The Indians never have been much of a threat while traveling and their recent invasion of the east was particularly disastrous. They had moved into first place on May 28 to climax a successful home stand and then they proceeded to lose 11 out of 18 games on the road to tumble into sixth place. It was the biggest fall any of the major league clubs took in the recent interseasonal competition.

Now the schedule is going to slope in favor of the Tribe. Of the next 26 games for the Indians, 27 of them will be played in Cleveland.

The Indians are not trusting entirely in this, however for they have reached into the minor leagues in the last few days in an effort to strengthen the club — getting first baseman Mike Rocco from Buffalo for Otto Danning and rookie Eddie Turchin and buying outfielder Pat Seery from Wilkes-Barre for reserve duty. The latter move was made necessary by an injury to Hank Edwards.

Cleveland's first series at home will be five games with the staggering St. Louis Browns.

Besides St. Louis at Cleveland, today's resumption of activities in the major calls for Chicago at Detroit in a twilight affair and Washington at Boston in the American league as well as Boston at Brooklyn (twilight), Philadelphia at New York and Pittsburgh at St. Louis in the National league.

Western Football Program Is In The 'Unknown' Stage

(This is another of a series dealing with the prospects for intercollegiate football this fall.)
By Russ Newland

SAN FRANCISCO, June 9 (AP)—College football will be played in the far west next fall, save for a national emergency, but the quality, quantity and whether it will even approach the "big business" aspect of the past is as indefinite now as the algebraic symbol "x."

Discussed but yet to be acted upon is the possible geographical partitioning of the ten-school Pacific Coast conference, one of the major leagues in the country's gridiron activity.

This problem will be thrashed out next Monday and Tuesday at the conference meeting in San Francisco. Graduate managers of the four California universities—California, Southern California, Stanford and California at Los Angeles—have proposed the north-south division. The northern schools oppose the idea, mainly from a financial standpoint.

The important money games, with few exceptions, take place in the southern end of the circuit. If the split is conceived, the four California members plan a home and home series with each other, the California-Stanford classic excepted, and would pad out their schedule with strong independent colleges and service teams.

The theory is that transportation difficulties will be reduced considerably. This is disputed by the northern schools who point out that while the mileage north is slightly greater than south, either trip entails an overnight ride.

The universities of Southern California, California and Washington appear to be in the most favorable spots—designated for Navy training programs. Washington, for instance, expects 1200 men from this windfall. Southern California has the nucleus for an outstanding team.

Stanford's outlook is bleak, with a 4F fullback and a 17-year-old, both newcomers, as the only certainties. Things are blacker at Washington State college, where one 4F, was on hand at the last check and still darker at the University of Idaho and Montana, where apparently it is now impossible to flush out a whole, able bodied player. Montana, in fact, hasn't even a coach.

St. Mary's, Santa Clara, Loyola and University of San Francisco are making plans to play, so is the University of Nevada.

Although the state's two teaching universities of Arizona and California, Flagstaff and Tempe, have quit for the duration.

League Polled On 'Part-Time' Coaching

AUSTIN, June 9 (AP)—Ballots are going out this week to members of the Texas interscholastic league in a referendum on the question of abolishing the rule against use of "part-time" coaches.

Under the present rule a football or basketball team is not eligible whose head coach or assistant coach is not a full-time employee of the school board which the team represents. "Full time" means full time for the whole scholastic or calendar year.

Due to the present emergency it is difficult to obtain coaches who are full-time employees of the schools. Should the rule be abolished it would be only for the duration.

Another referendum is expected to be submitted to the schools. It would enable schools to either hold spring football training for one month or abolish spring training but start fall training fifteen days earlier than usual. However, this question will be considered by the advisory board of the league before being submitted to a referendum.

Morgan, Curtis To Coach 'West' Football Team

LUBBOCK, June 9 (AP)—Dell Morgan, head football coach at Texas Tech, will direct the West team in the annual Oil Bowl football game at Wichita Falls Sept. 1.

Morgan has accepted an invitation to coach one of the squads in the high school grid classic promoted by Maskat Temple.

Assisting the Tech mentor will be Eck Curtis, coach of Breckenridge high school.

Homer Norton of Texas A. and M. and Ted Jefferies of Wichita Falls high are expected to accept invitations to coach the north squad.

Coach Morgan has been advised that each squad is to have 22 boys selected by coaches from Class A and AA high schools in North and West Texas.

Players and coaches are to start training August 25.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.
NEW YORK, June 9 (AP)—Don't know who rounded up the bidders for that war bond auction of baseball players yesterday, but there was so much Brooklyn money in the place that the buyers from across the river were even bidding for Giants before the finish. . . .

When they put the first bunch of Horace Stoneham's hired hands on the block, though, a gent arose and solemnly announced, "The Brooklyn Junior Chamber of Commerce bids 25 cents for the entire Giant team." . . . And the first time someone offered a million for a player, the non-buying speculators at one table emptied their pockets and found they had less than ten bucks among them. . . . Elsie the cow bought Bobo Newsum, for \$3,575,000 and the company publicity man promptly sent him a wire: "For years I have been giving plenty of milk and cream and now for the first time I have a pitcher of my own. Elsie."

1-MINUTE SPORTS PAGE

Charley Parker, the kid sprinter from Texas, won't be able to run in the AAU championships, but his entry inspired another kid to make a try. . . . Just after Parker announced he'd run only for the senior title, Dan Ferris received a letter from T. J. McGuire of St. Louis, who said he wasn't as ambitious as Charley so he'd like to race in the Junior 800. His best time is just under two minutes, which won't win any medals. . . . Jimmy Conzelman's explanation of the Browns' being in the American league cellar: "We're just setting up a mousetrap play."

TODAY'S GUEST STAR

Henry Vance, Birmingham (Ala.) Age-Herald: "There's a vast difference between being level-headed and being flat-headed. Johnny Riddle, Birmingham manager, comes under the former category."

SERVICE DEPT.

Lieut. Joe Kilgrow, former Alabama halfback, received his commission in the field for "outstanding leadership displayed under fire in New Guinea." In one Jap raid Kilgrow's anti-aircraft platoon accounted for four Zeros. . . . Ensign Johnny Roberts, Kilgrow's teammate on the 1937 Alabama team, is missing in action in the Pacific. He was a Navy flier. . . . Two WAAAs, Sally Quigley of Farmington, Conn., and Edith Dewitt of Aberdeen, Wash., reached the quarter-finals of the Fort Sheridan, Ill., tennis tournament competing against the men.

Houses Floated Across The Bay

CORPUS CHRISTI, June 9 (AP)—For the duration anyway, more houses than yachts will dock at the new yacht basins here.

Six-room residences from thinly populated areas are being floated on barges across choppy Corpus Christi bay to provide homes for war workers.

Two houses have made the trip safely and C. P. Kirby, who heads the enterprise, said he plans to move whole fleets.

Across the bay on the old Taft ranch near Gregory, Texas, Kirby bought a number of homes, intending to transport them to Corpus Christi by truck.

But the state highway department refused to grant permission to haul the houses over the highways.

"Besides," Kirby explained, "I learned some bridges along the way were too small. I felt like the man who built a boat in his basement and couldn't get it out."

Then he decided to use trucks and barges.

The seagoing homes remain perched atop the huge trucks during the trip over the water and the landings at the yacht basins draw crowds.

Kirby said he intends to entertain friends while making the trips.

"We'll get in a house and have a dinner. You might call it a floating house party."

80 Pct. Of Medical Graduates Going Into The Army

CHICAGO, June 9 (AP)—Only 20 per cent of the medical graduates each year can now be spared for care of civilians. The others will go into the military medical corps as long as the war lasts.

This prospect was sketched to the house of delegates of the American Medical association here last night by Dr. James E. Paulin, of Atlanta, the association's new president.

The yearly total of new civilian physicians he estimated at about 1,200. To this he added about 600 who are being retired each year from military service. Against this the doctors who are left, mostly men over 45, are dying at the rate of 2,500 a year.

This leaves a deficit of about 700 a year. To meet this, and the big shortage due to nearly half the active doctors already in military service, Dr. Paulin said plans should be made now for better use of the older physicians who have not been very active in medical practice.

It is the hope of organized medicine to have one doctor for each 1,500 persons in the United States. This compares with an average of 2 to 4 per thousand in many areas, and is much better than some rural communities which have seldom or never had more than one doctor for 2,500 to 3,000 persons.

Doubles Title Won By San Antonians

SAN ANTONIO, June 9 (AP)—In the last match on the state tennis tournament schedule, John Hickman and Harold Folks, both of San Antonio, won the men's doubles championship from Bryan (Bituy) Grant and Karl Kamrath yesterday.

The score was 6-4, 6-6, 7-5, 7-5.

erage of 2 to 4 per thousand in many areas, and is much better than some rural communities which have seldom or never had more than one doctor for 2,500 to 3,000 persons.

Fans Remember Their Heroes In Sponsoring Them In War Bonds

By SID FEDER
NEW YORK, June 9 (AP)—There's obviously a lot of the elephant in the sports fan in general and the baseball bug in particular, even when it hits him where he feels it most—in the b.r.

The b.r., naturally, is the bank-roll, and the rubber band was peddled all the way off yesterday as the faithful of all shapes and sizes—from corporations down to just plain Gus—got together to "bid in" their favorite New York and Brooklyn ball players for just under \$124,000,000 in the biggest one-day bond sale super-duper the treasury department has ever known.

And what was most notable about the "auction" was that the fellows who are over the peak now, but who'll always be the big guys to Gus Fan, were the ones who got the hottest play in this "sale," in which buyers bid millions as if they were two-bit pieces for the privilege of sponsoring various players the rest of the season.

Yesterday 1,800 fans were on hand for the bond-selling stunt in which the successful bidder not only put cash on the line for the original "investment," but pledged the " upkeep" in bonds for his hero's performance the rest of the season.

And up on the block, getting the most attention as "auctioneer" Jimmy Walker worked, were the three top guys—King Carl Hubbell, Selling Bill Dickey and Dixie the deaser Walker.

They were the "favorites" of their respective teams. Dixie, the "people's share" in Brooklyn in spite of years of the front office "brink-off," drew the top bid of the day—\$11,500,000 — from the Brooklyn Club, a social organization.

Hubbell "went" for \$3,000,000. And about the neatest gesture of all was a bid for \$2,000,000 by a group who called themselves the "Bronx Syndicate." In order to get Dickey, it turned out they were just neighbors of Yankee stadium.

All told, 87 players were "bid in"—a dozen each from the Yanks and Giants and 13 from the Bums. For each single a player makes the rest of the season, his sponsor agreed to buy a \$2,500 bond; for each double a \$5,000; for each triple, \$7,500, and for a homer, \$10,000. If he's a pitcher, a win calls for a \$25,000 subscription and a shut-out for \$50,000.

HOW CAN you take steps to make sure your car will last through the duration?

The simple way is to treat your car as if it would have to last a lifetime! As if you never would be able to get another!

Keep your engine properly tuned! Change oil promptly—and no fooling! Watch plugs—brakes—batteries—carburetor! Really DO the things you know SHOULD be done, but have found you can "let slide" under peacetime practices of trading in every two or three years.

It isn't as much bother as you think. Because we'll take over the job of making your car last if you'll give us the chance and work with us.

We've got the men, got the equipment, got the know-how to do it. How about coming in to talk it over?

No Cut Planned In Meat Output

CHICAGO, June 9 (AP)—The War Food Administration has on intention to make "drastic cuts" in output of animal products and replace them in large part in the American diet with vegetable foods, the war meat board and the WFA cattle and beef industry advisory committee were assured yesterday.

Such assurance, "direct" from WFA Administrator Chester C. Davis, was given at a joint meeting of the two groups by L. Col. Jay L. Taylor, deputy administrator of WFA. Davis also promised the newly created war meat board that the WFA would "extend full support within the limitations of our authority and broad policies."

Asserting that "we have to adjust our producing and eating habits to the requirements of war," Col. Taylor asserted that "while there will not be enough meat to answer all demands, there will be no drastic change in civilian diet. x x x We will produce and market much more meat in the next 12 months than in the past 12 months."

He said that "since it is impossible to meet all the requirements with animal products, even though we maintain or increase output, we shall have to step up output of bread grains, dried beans and peas, potatoes, and the oilseeds. That is the only way to provide adequate nourishment for all the people who have to get it from us in order to produce and fight most effectively."

Correspondent Is Returning To The Pacific

DALLAS, June 9 (AP)—Olen Clements, who has traveled 150,000 miles as an Associated Press war correspondent, leaves again for the Pacific war zone today after a brief visit with relatives in Texas.

Clements returned to Texas a few days ago because of the illness of his mother at Temple. He had been in the Pacific zone since the fall of last year and spent months on Guadalcanal.

In an interview here last month, the correspondent predicted the war with Japan would be a long one.

"Out where I have been we know we have a big job to do," he said. "This is principally our war out there and we will have to carry the ball. From what I have seen I believe we will have to fight in the streets of Tokyo to eliminate the Japs because so far they have shown no signs of giving up until they have been killed or utterly routed."

Congressman Lindley Beckett, of Gladewater, bringing the matter up; "I have received," he said, "several letters from leading ministers of my district on this same question."

Victory gardens, says Congressman Wright Patman, will do more for men in their "fat fittles" than golf.

"In the war effort," Congressman Dick Kleberg, speaking of reciprocal trade treaties, "we are saddled unquestionably and inescapably with the job of doing our part toward the rehabilitation of the world; we ought to do that job soundly, not as Santa Claus."

Pigs To Market Will Be 'Streamlined'

WASHINGTON, June 9 (AP)—Trim, streamlined hogs soon will replace roly-poly porkers at the marketplace.

Such was the forecast made by the agriculture department today in reporting that prospective supplies of corn and other livestock feeds will be insufficient during the coming feeding season to fatten hogs to extra heavy weights.

night and blasted the Sicilian ferry port of Messina, across from Reggio Calabria.

Gen. Dwight D. Eisenhower's communique said the British warships accomplished "satisfactory" results in their sixth bombardment of Pantelleria in 10 days, and although they encountered some answering fire from the garrison's coastal batteries the cruisers and destroyers again avoided either damage or casualties.

Public relations office at the Big Spring Bombardier School announced today the arrival of Lieut. James L. Madden of Little Falls, Minn., who reports for assignment from Randolph Field, and Lieut. Robert E. Stradford of Kennewick, Wash., who has been transferred from Victoria for assignment at the local field as a pilot.

Promotion of two men from the rank of technical sergeant to master sergeant was also announced. They are Sgt. Wilbur Rogers of the 812th bombardier training squadron who resides at 901 Scury and Sgt. Lloyd G. Franks of the 365th base headquarters at Air base squadron, who lives on State street.

New volley ball courts are being erected between the gymnasium and enlisted men's recreational buildings at the Big Spring Bombardier School and are so arranged as to provide three courts instead of two in former use.

Kenneth Fallon has been visiting with his parents, Mr. and Mrs. Claude Fallon. Kenneth is employed in the steel mills at Spanish Fork, Utah. Another son, Lt. Berlie Fallon, has finished his military training at Ft. Benning, Ga., and is to be transferred to California for more schooling and now for the past two weeks has been stationed at Clovis, N. M., as a radio communications officer.

No Scrapping Of Navy After War, Knox Declares

ANNAPOLIS, Md., June 9 (AP)—Declaring that the country will not consent to post-war scrapping of its naval strength, Secretary of the Navy Knox today voiced a fresh warning to the axis that the United States this year would build thousands of landing barges, "and you can be sure we know why we are building them."

Knox said American shipyards were turning out six ships a day. Numerical strength of our fleet will be more than doubled this year, he said, and its tonnage will be increased by two-thirds.

"America is wide awake," he told approximately 760 midshipmen in an address prepared for delivery at the U. S. Naval Academy's graduation. "You who leave here today are going to get every drop of backing that a resourceful nation can bring out."

"The United States is in this war with a clear conscience. Although a great and growing sea power, we laid our strength upon the block after the last war. We voluntarily scrapped 800,000 tons of the best fighting ships built or building in the illusory hope that in disarmament there was security and peace."

"We realize now what a mistake that was x x x" Knox continued. "The people of this country do not intend to scrap again the fleet that we are building."

Recalling he had spoken here in 1941 shortly after returning from an inspection trip to Pearl Harbor when "I was much worried," Knox told the largest graduating class in academy history he could speak more confidently today.

"Since last I stood before you, I have seen the miracle of modern American production step up to full speed ahead," he said. "I have witnessed the revival of the old American 'Don't tread on me' spirit—as compelling, as devastating as it was when our forefathers coined the phrase."

Farm Manpower Schedules Go To Draft Board

Manpower tables are being furnished the Howard county selective service board by County Agent O. P. Griffin as a basis for action in classification cases.

To date, only farms on which the tables have been prepared are those on which a registrant, up for classification or possible deferment, is working.

These facts, reported Griffin, include first all the cropping program of the farm, the number of acres and the type of crop. Secondly, the livestock program enters in with cattle, hogs, brood sows, chickens, horses, mules, sheep, etc., all entering into the picture.

In one typical case, the cropping program added up to 71 units and the livestock program to 11 units, or a total of 82 units. The manpower units, however, stood at only 32, considerably less than half.

Denver Dunn, deputy sheriff, is in Colorado City today to appear as a witness in a theft case being heard in Mitchell county court.

Jim Currie has had word from his son, Lieut. Robert P. Currie, that he is now in India. Lieut. Currie is an army air force bombardier.

The barber shop at the Big Spring Bombardier School has been moved from the post exchange to the post restaurant.

Darrell Davis is getting along great in his boot training at San Diego, Calif., his mother, Mrs. E. J. Davis, has been informed. Although only in the navy since May 1, Darrell now has two stripes.

REHEARING DENIED
AUSTIN, June 9 (AP)—The court of criminal appeals today denied a second motion for re-hearing in the case of Rex Beard, known in West Texas as the "paper sack" bandit, under sentence of death in the slaying of Deputy Sheriff Wade Willis during an attempted break from the Taylor county jail in February, 1942.

BOMB HITS
OUT AT THE
BIG SPRING BOMBARDIER SCHOOL

812th Squadron
The line is humming with great activity. With long hours, hard work and plenty of perspiration, we're keeping the Air Corps motto, "Keep 'Em Flying" well in use. There've been some changes made here and there, but we still carry on "as of old."...Gas alert days are "Is That You?" days around the area. It's amazing how much these gas masks enhance the appearance of some of 'em boys. Frankly speaking, however, we cannot see too much difference with or without them...Sgt. Sehon isn't worrying about how he is going to make his next visit to Arkansas now that G.I.'s are in "full style." The sergeant thinks they would even make good boats should the flood waters still be raging. "The question foremost in my mind," says Sehon, "is how am I gonna get the gal back home to start wearing shoes at all..."Pfc. Bredemeyer, one of our prominent softball hurlers, desires to become even more proficient in the sport, as he is hoping to get a chance to toss a few "pineapples" at some Japs that he has heard so much about. Observers of Bredemeyer's style think that he could really "mop up"...Congratulations are in order for Pfc. Piasecki, another Yank that wants to give the Japs a lot of h... He was married May 22, while home on furlough...Cpl. Forkey, who hails from Mound, Minn., and Pfc. Daniel of Florence, Tex., are others of our organization who were married recently. Congratulations, and the best of luck to you fellows...How are the gals treating you at headquarters, Cpl. Johnson?...On a furlough, a certain corporal visited in the vicinity of Little Rock, Ark. Something must have happened. Someone noticed the Corporal trying to find a safe place for some jewelry the other night... Due to some of the recent changes, a certain group of boys have acquired more work, even to the point of losing their top foliage, which of course includes Sgt. W. G. Hammond...Sgt. John B. Ezell is now working in a maintenance crew and proving to be a first class mechanic. How about that pardner?... "We all" think it about time for Private E. J. Greene to get another haircut...Little is heard about the order to be strictly G.I. At least the boys are alike now, if only in manner of dress...After watching the boys washing the windows on the North Hangar, we wonder how many of them will become accomplished window-washers after the war. At least it is a clean profession.

Rent Office Speeds Cases

Operating as an independent office and under the Lubbock regional office rather than the Fort Worth office, the local Rent Control office is giving speedier service to its clients than in the past.

Since the first of June, Charlie Sullivan, who had been attorney-examiner, with J. W. Stovall of San Angelo as area director, has been in full charge of the Big Spring office as director.

Formerly petitions which were acted on here had to be sent to the San Angelo office for approval or wait on the arrival of the area director. Now Sullivan makes the final decisions on all cases.

June has brought an increase in business to the office with a large volume of cases handled so far this month than was usual in the past.

The office has handled 14 landlord's petitions for rent adjustment, mostly due to added services and increased occupancy. Seven petitions for certificates of eviction and three notices of eviction have also been considered. Of the ten petitions, nine evictions have been made for the government conversion program which is gaining momentum in Big Spring.

Twelve new registrations of rental units have also been received so far and personal interviews and calls are above normal for this time of the month.

Recruiting Labor For Navy Yard

Russell Peterson, representative of the Mare Island navy yard, and Lizzie Mae Allen, civil service representative, were at the United States Employment Service office Wednesday seeking to recruit skilled tradesmen, helpers and laborers for service in the navy yard at Vallejo, Calif.

They were to remain at the USES through the day to interview all persons who might qualify. Almost any sort of skilled or semi-skilled worker, or an ordinary laborer, might be eligible. Those essential work will require a statement of availability if they have been in essential work during the past 30 days.

Target Practice For Defense Guard

Texas Defense Guard members are learning to shoot to hit as Captain Hudson L. Bohannon puts them through target practice these days.

The first session came Sunday when part of company E, 34th battalion fired something less than a thousand rounds of .22 calibre shells. Each soldier shot five rounds at eight targets.

Despite the small calibre of the rifles and the variety of accuracy of the sighting mechanism, some good scores were made, the captain reported.

"We are going to repeat these sessions until all have got in practice with the .22 rifle," said Capt. Bohannon. "Then we are going to take up the Thompson sub-machine gun and have practice sessions with it until all become familiar with its firing."

The company has two of these guns. In addition, it has more than 50 shotguns, all 12-gauge but ranging in models from single barrels to automatics.

Move Pigs Out Of The City, Chief Says

Police Chief J. E. Bruton said Wednesday that his department had been notified that pigs were being kept within the city limits.

This, he said, was an out and out violation of the city ordinance passed Nov. 24, 1934 in which the keeping of pigs or hogs within the corporate limits was declared a menace to public health. A fine of not less than \$5 and nor more than \$25 was prescribed for those found guilty. Each day of possession would constitute a separate offense.

The chief urged those who have unknowingly brought pigs within the city limits to arrange for their speedy removal. Charges will have to be filed against those who do not comply with the law, he said.

Another city ordinance prohibits persons from permitting chickens or other fowls from running at large within the city limits. The fine for being found guilty on this charge is up to \$10.

Still another ordinance requires that dogs be annually vaccinated, shall wear a license tag, and that "no dog shall be allowed to run at large within the city limits unless accompanied by the owner or person in charge of the dog. This, in a later ordinance, was held to mean on leash and/or with muzzle.

Mrs. Dempsey Ill When Woodall With Her, Witness Says

NEW YORK, June 9 (AP)—Testimony that Mrs. Jack Dempsey was sick in bed last Nov. 22 when a raiding party surprised her and Benny Woodall in her Los Angeles apartment was presented in a deposition today as Mrs. Dempsey answered her husband's suit for divorce.

Mrs. Jackie Griffin, a sister of Woodall, a fight trainer whom Dempsey has named as co-respondent, said in the deposition that the raiding party found only Benny and Hannah there because Mrs. Griffin had been called away by the illness of one of Woodall's daughters.

Mrs. Griffin said that Mrs. Dempsey suggested that Woodall leave with her sister, saying "you and Benny go on, I'll be all right."

"I told Benny, you'd better stay till Dot comes home," Mrs. Griffin said. She referred to Dorothy Gomez, Hannah's sister who she said left the apartment earlier.

Sometime after she returned to her own apartment, Mrs. Griffin said, Woodall and Mrs. Dempsey came to her home.
