Provisional Government Is Out---Molotov

LONDON -(P) - Soviet Foreign Minister V. M. Molotov condemned in advance vesterday any attempt by the Western powers to cstablish a provisional German govover their occupation ernment areas. He indicated Russia would not allow such a government to speak at the peace table

An American source said Molotov told the Big Four Foreign Ministers Council: "If an ersatz government was set up for bizonia (the economically merged British and American zones), it would not be adequate to speak for Germany.

As the first week of the conference ended without agreement on any major issues. demanded that the establishment of a central German government be required before a peace con-ference is held. He met a solid of foreign ministers of the United States, Britain France who disagreed with him. informants said.

Officials present quoted U. S. Secretary George C. Marshall as saying:

"We regard both the question of a peace conference and establishment of a German government as important. I hope there will be an adequate German government before the peace conference gets under way, but neither should depend upon the otner."

British Foreign Secretary Ernest Bevin and French Foreign Minister Georges Bidault also It's Just GOP opposed Molotov.

"Look what we risk doing, Bidault exclaimed. "To proclaim that participation of a German government is necessary to the writing of the peace is to make a still unknown and perhaps in. possible German government the prior condition for peace. . . We are not here to make Germany the arbiter of our discussions.

thumbs down on the whole idea The reaction of the United States and Soviet Russia, which teamed to take the principal share in whipping together the partition plan before the United Nations Assembly, was cold toward the new Arab proposal.

The U. S. and Russian dele-

gates pointed out that federalization already had been dropped in the Assembly's 57-nation Special Palestine Complittee. Herschel V. Johnson, U. S. dele-gate, demanded that the Assembly vote immediately on the par-tition proposal. He rejected com-

pletely the new Arab move. The proposal for a federalized Palestine was the Arab answer to pleas of conciliation from several delegates which brought about a 25-hour adjournment of the Assembly Friday and averted 211 N. Ballard St. a vote then on partition.

France

"reactionary coup d'etat" was set for midnight last night, and calling upon Communist "militants" to rally to the defense of party office buildings and leaders.

Ce Soir said events were most exactly like those leading up to Napoleon III's coming to power on Dec. 2, 1851, and called on workers to "block the crime ordered by the exploiters and imperialists of New York."

PLATES ARE TAKEN The government acted against sembly was still debating the proposed law.

Eight trucks of security guards and policemen arrived at the building housing the two plants. Wearing steel helmets and carry ing rifles, they threw a cordon around the premises and invaded them. They confiscated the plates of the special editions and left.

The employes booed but offered no resistance. No arrests were made. Immediately after the raid, Ce Soir published a new edition.

An official who requested anonymity said the Cabinet met informally in the National As-sembly Building while Parlimentary debate was still go consider the General Confedera tion of Labor offer to call off strike. While the Cabinet met a delegation from the Confederation waited at the Labor

NEGOTIATION

The Cabinet was reported to have rejected the offer, but added that if the Confederation first called off the strike the government might then reconsider its decision and discuss the matter with the union leaders.

The union delegation then left The wildest GI dream came true the Labor Office, but in seemingly Saturday for Pfc. Gail F. Sedg-good spirits. Leon Jouhaux, anti-Communist co-secretary of the

Britain Probes for Oil in Playground

With gasoline supplies unavailable for private car owners in Great Britain, the English are exploring every conceivable avenue to replenish their petroleum supply. Above, a 94-foot derrick is boring through the chalk and clay of a London playground, where tests revealed the presence of oil. Whether it is available in quantity won't be known until the derrick drills 4000 feet down.

Commission Reports Filing Of Fifteen Intents to Drill

McCollum Is New Head Of Continental Oil

PONCA CITY, O'la. - Leonard McCollum, 45 years old, just been elected president of Continental Oil Company, effective December 1, succeeding Dan Moran, who has resigned because of ill health.

Born in Bradford, Tenn., in 1902, McCollum now becomes one of the youngest major executives of a fully integrated oil company in the United States. He launched his oil career following graduation from the University of Texas in 1925 by joining the Humble and Refining Company, an affiliate of Standard Oil Com-pany (New Jersey), as a geolo-In 1934 he became geologist and manager of exploration for the Carter Oil Company, another Jersey Standard affiliate, and later become president of the ter Company. He move

New York943 as assistant coordinator of producing activities for Standard Oil Company (New Jersey), and a year later advancto the position of coordinator, which assignment he held at the ime of his election to head Con-

New Manager Will **Take Over at Store**

Randy Mantooth will begin his duties here Monday as manager of McCartt Super Market, it was announced following the resigna-tion of Woodrow Harris, manager of the store here for the past 15 months, who has accepted a osition as manager of an A and P store in Dallas.

Mantooth, who has been with coartt's in Amarillo for the past seven months, was with that organization for two years, prior to military service. Mr. and Mrs. Mantooth and their two children will live in the Hughes-Pitts Addition, where they

are purchasing a home.

CLEVELAND -(P)- Here at the start of the Christmas rush is the story of six-year-old Patty Brady to prove that not all kids lost in the shopping shuffle end up eating candy with the cops. Separated from her parents, Mr. and Mrs. Firman A. Brady, in downtown store Friday, little first-grader trudged nine miles out Euclid Avenue—straight for home. It took her four hours.

England's tin mines and high on charges of beating his 65-grade iron ore mines have been year-old mother, Mrs. Ruby Stone,

The local Oil and Gas Office of the State Railroad Commission reported the filing of fifteen intentions to drill during the past week, according to proper officials.

There were no wells listed to be deepened in this week's report but one has been plussed. Three new gas wells were renorted.

one has been plugged. Three new gas wells were reported.

W. F. Simms Re-elected To Head Association

PANHANDLE -- (Special)-- W. '. Simms, was reelected president at the annual stockholder's meeting of the Panhandle-Claude National Farm Loan Association on Thursday afternoon. Alton McClure was unanimously reelected a director, and O. D. Smith was elected a director for three years to fill the expiring term of J. D. Bender. Others elected were Alfred I

Reck, vice-president; R. F. Surratt, director; L. E. Padget, secretary-treasurer, and Mrs. Lillian Sterling, office assistant.

Automatic Signal Controls Between Pampa and Canadian to Be Finished by End of the Year

Santa Fe Railway expects to finish by the end of this year the installation of centralized traffic control equipment between Pampa and Canadian, according to a public relations office state-

ment. This project, which covers a total of 40.6 miles of rail line, is part of 225.1 miles of track to receive this automatic signal equipment on Santa Fe between Canyon and Texico, N. M., is being improved also. The remainder is in Kansas.

Centralized traffic control, CTC, known to the trainman as the dispatcher's mechanical mind, is an intricate system of complete remote control of all switches and signals over extended distances. The company explains that the system eliminates train orders and time lost by trains "in the hole," and enables a single-track rail road to operate up to 75 percent of double-track capacity.

The time has come for us to ase to believe in this myth freedom of the press in Amer-

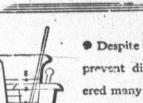

WORLD SOLIDARITY' -PARIS - (P)-The foreign ministry expressed France's thanks to the American people today for food due here from the Friendship Train, caming the movement "one of the finest examples of world solidarity in the history of relations between peoples."

It was Walker who scored two ouchdowns and 'kicked an extra point to give the Methodists a lead at the end of the hird period and it was Walker who's great kick-off return of in Bruising Game position to score that dramatic touchdown that kept the Mustangs unbeaten in 10 games.

The tie gave Southern Meth dist the undisputed Southwest Conference championship by onehalf of a game.

It was a battle between both teams. Southern Methodist oplays enn State in the Cotton Bow January 1 while Texas Christian meets Mississippi in the Delta Bowl at Memphis.

Lindy Berry and Pete Stout combined to give Southern Methodist its hardest moments of the SMU made costly mistakes. The

A 58-vard drive resulted in the lists fumbled, dropped passes, let TCU pass receivers get third period and in the final ctween them and the goal line. quarter power plays, featured a And Berry and Stout 64-yard touchdown march, passes ready to take advantage of every gained 80 yards and another, and tally on a 59-yard drive that

The Frogs jumped to a 6-point lead midway of the first period began with recovery of a Baylor on a 50-yard drive with Berry's Don Anderson recovered Bobby pass to Morris Bailey that ate Griffin's fumble on the Baylor up 33 yards, the main punch in ouchdown. Carl Russ and John the surge. From the 13-yard line Kelly moved to the 3 from where Stout carried four times and crashed over to score. Wayne Pit-Tobin Rote, sparkplug in the Owls rout of Texas A and M cock missed the conversion.

The Horned Frogs increased their lead to 12 points early in the second quarter after Orein his 36-yard line and scatted to the Methodist eight. Berry gained six limbed over right guard for a touchdown. Pitcock's try for point was blocked by Sid Halliday. outhern Methodist's great end. Southern Methodist got back into the game late in the period on a 62-yard dash around right end by Walker. The Methodist Jacob picked up a first down on the Baylor 36 before Charlie star was back to pass, could find no receivers open so he cut to the right and, picking up blockers as he ran, scatted down the side lines to the score. Then Walker icked the extra point.

Southern Methodist took the lead on the last play of the third period and again it was Walker who got the job done. >It was 51-yard drive with Walker's passing gaining all the territory. From the Frog six, Walker rapped left tackle for three, then whipped around right end for the score. He missed the extra point but SMU led 13-12.

The third Texas Christian ouchdown was a thriller. TCU slated to tip-off at 7 o'clock. was on its 21-yard line apparently roing nowhere when Berry lofted mighty pass to Bailey, who took it from a couple of Methodists and ran to the SMU 20. Here he was tackled but as he ell he threw the ball backward. Randy Jackson picked it up and raced to the Methodist seven before Bobby Folsom downed him. Stout took a lateral and whirled around right end for the touchown with a minute and 35 conds to go. Pitcock converted.

The crowd figured the jig was p for the Methodists then but great Walker still had a lot fight left. He gathered in the k-off and raced from his nine more, forwards; and Davis, center the Frog 36. Gil Johnson tried wo passes over the goal line hat fell wild, then he passed to

leading ground gainers with 53 and 51 yards, respectively. Cal Walker who fought his way to the Horned Frog nine. Southern Methodist held a wide Rudy Camunez maneuvered bestatistical advantage with 330 hind Boyd Williams, Buffalo back, yards rushing and passing to 211 and accorded 39 yards similarly for the Frogs and the Methodists unmolested. Each pass play was rolled up 13 first downs to seven. good for 74 yards. Methodists really showed their defensive mettle in the third period when fumbles twice gave TCU the ball deep in their territory. The first time Rogers pounced on one Dick McKissack dropped on the 17. But the Methodists held Stout in his line lunges and Paul Page intercepted a Berry pass in the end zone to end the threat. But in two plays the Frogs had the ball again. McKissack made two at left tackle but a bad pass from center got away from Walker and Wayne Hogers fell on the ball on the SMU six. Three line tries netted only two yards and Carl Knox flipped a pass to Jackson in the end zone. But the great Walker dashed in and hit Jackson so hard he dropped the ball.

There are 40 or more active volcanoes under the American flag in Alaska and Hawaii.

Army Rings Down Season With 21 to 0 Win Over Midshipmen

PHILADELPHIA-A-Led by their brilliant 172pound fullback, Elwyn (Rip) Rowan of Memphis, Tenn, the Army Cadets rang down their season with a convincing 21 to 0 victory over Navy in a colorful spectacle before 101,500 fans at Municipal Stadium yesterday.

The vast throng, which included President Truman and scores of other notables, saw the West ATLANTA, Ga. -(P)- Georgia Pointers rack up touchdowns in each of the first three periods and expected to present a strong passompletely outclass the Midshipmen through the second nan.
The chief executive, sitting on Army's side of the field, stuck
To the end.

Elwyn "Rip" Rowan, Army full-back, sank the Navy. He passed 19 yards to Bill Kellum for a first period touchdown, then early in the second quarter he dashed yards through right tackie for a six-pointer which torpedoed Navy hopes almost completely.

Southern Methodist won the Southwest Conference title by a half-game margin, but tumbled from undefeated-untied status by rescuing a 19-19 tie with Texas Christian in the final 20 seconds

Mississippi, paced by statistical all-time forward passing king, Charlie Conerly, and his battery mate, End Barney Poole, clinched the Southeastern Conference title with a convincing 33-14 victory over Mississippi State.

Conerly completed 13 of 18 passes to give him a season rec-ord of 133 completions in 233 attempts. He threw for two touchdowns and ran for another. Poole caught four of Conerly's tosses to give him an all-time college record of 52 receptions in a season.

The Border Conference title

was decided when Texas Techunset favored Hardin - Simmons Cowboys, 14-6 to win automatically a bid to the Sun Bowl at El Paso, New Years Day. Texas Christian, which fought

the Southern Methodist champs to a standoff, will play Missis-sippi in the Delta Bowl at Memphis Jan. 1, while the Methodists will play undefeated-untied Penn State in the Cotton Bowl at Dallas.

The Southern Methodist deadlock left only Penn State, Notre Dame and Michigan as major unbeaten-untied teams. Michigan is through, until its Rose Bowl engagement with Southern California Jan. 1, while Notre Dame angles with undefeated but oncetied Southern Cal at Los Angeles next Saturday.

Another feature game in the South yesterday saw Georgia Tech squeeze by Georgia, 7-0. Georgia Tech is an Orange Bowl nominee against Kansas.

Maryland and North Carolina State fought to a 0-0 tie; Tennessee conquered Vanderbilt. 12-7; North Carolina, with Charlie Justice scoring two touchdowns, romped all over Virginia, 40-7, and Florida hung the 26th straight defeat on hapless Kansas State in an intersectional feature Gainesville, Fla., 25-7, in

other Southern contests. In the Southwest Rice, preseason favorite, wound up in
whird place in the Southwest Conference with a 34-6 win over
tail-end Baylor, and Oklahoma

Scrapping Vols Down Vanderbilt 12 to 7

KNOXVILLE, Tenn. —(P)— A scrapping Tennessee football team that had been defeated often, imply woldn't be beaten yesterday and came from behind to trample Vanderbilt, 12 to 7. A partisan throng of 35,000 cheered the Vols to their third straight victory and their fifth what has been the worst season in 16 years of coaching for Bob Neyland.

Tennessee's line, with seven senior forwards playing their last game for the Vols, spelled the lifference between the two highkeyed elevens. The Vol linerepeatedly outcharged the Often they spilled commodore passers before they could hurl the ball.

Oklahoma Alumni Approve Plans for **Future Texas Games**

NORMAN (P) The executive homa Alumni Association, and other groups, approved plans an-nounced last weekend for the Oklahoma-Texas football game. These plans call for playing the game during the Texas State Fair at the Dallas Cotton Bowl through 1950—as the contracts then switch to a home

and home basis.

After the game last October, which Oklahoma lost, there was a renewed demand either for cancelling the game or playing it at Norman and Austin on alternate years. Many Oklahomans objected to the officiating."

Longhorns Resume Vorkouts Dec. 8

AUSTIN —(P)— Relaxation will be the order of the day for the University of Texas Longhorns until Dec. 8. Then Coach Blair Cherry and his charges will ree workouts pointing for the 1 clash with Alabama in the gar Bowl at New Orleans.

North Texas State Places Seven Men on All-Conference Team

By the Associated Press Champion North Texas State placed seven men on the All-Lone Star Conference football team selected by vote of the 27 coaches. Southwest Texas State got two on the team, Trinity one and

His concept of defensive tactics and Richard Nutt, backs helped the Tigers complete the Gonzalo Garcia, guard, season with one of the nation's top defensive records as his team held the opposition to 117.5 yards per game in ten tests.

Texas State's contributions. Batchelor was East Texas State's lone representative. The line of the all-star team

Offensively Levermann averaged 3.9 yards carrying the ball and followed Jim (Cargo) Batchelor of East Texas State in total offense, earning 1,035 yards— which was half of Trinity's net gain. Batchelor's total offense was 1,228.
North Texas State players land-

The only unanimous choice was Gerald Levermann, Trinity's willowy quarterback from McAllen.

North Texas State players land Southwest Texas, and B. Robert ing on the team were: Joe Abbey, son, Stephen F. Austin (tied); McCain, North Texas guards, R. W. Thompson, East Dinkle, North Texas Grad Levermann, Trinity's willowy quarterback from McAllen.

North Texas State players land Southwest Texas, and B. Robert ing on the team were: Joe Abbey, son, Stephen F. Austin (tied); McCain, North Texas guards, R. W. Lower Prices on Meat, Steel and Lumber Soughi

Commerce Harriman said Fri day lower prices for meats, steel and lumber are "hopes" from President Truman's 10-point "an-

ti-inflation" program.
The cabinet member, testifying before the Senate House Economic Committee, mentioned these low-er price goals in response to a series of questions by Senator Watkins (D-Utah) about the 'overall plans' of the administra

Earlier, Harriman and Senator Taft (R-Ohio), had clashed over whether the administration is actallocation controls.

Taft said he thought it was not—that the administration is

'talking about limited authority' but actually seeking "unlimited Harriman protested that there was quite a difference between

limited authority and complete

Secretary of the Treasury Snyder, who followed Harriman to the witness chair, opposed a suggestion that banks be required to set aside special reserves, thus reducing the amount of money they have available for lending.

Marriner Eccles, chairman of the Federal Reserve Board, sugthe Federal Reserve Board, suggested this a week ago.

Snyder expressed doubt the Eccles proposal would accomplish its objective. He said the banks' lending ability could best be cut by keeping tax revenues higher than government spending and using the surplus to pay off government securities owned by

Watkins asked Harriman if the administration hopes to "roll back prices of meat." Harriman said that was a question for Secretary of Ag-

iculture Anderson.

But Harriman said that prices for lumber and certain steel products are "unbalanced" and it was hoped to use the requested powers to reduce prices or at least stabilize them.

Cruelty Is Ground For Three Divorces

Three divorces were granted Friday in 31st District Court by Judge Lewis M. Goodrich. J. R. Allee vs. Winnie Allee, married in August of 1947, separated in September of 1947; ated in September of 1947; grounds, cruelty.

Billie Louise Ellis vs. Harold Wood Ellis, married in September of 1944, separated in April, 1947; grounds, cruelty.

Betty Marilyn Garris McClung

vs. Robert P. McClung, married in Nov., 1946, separated in Jan., 1947; grounds, cruelty.

Hal Boyle Reminisces On Experiences, From Youth to War Front

By HAL BOYLE
NEW YORK —(P)— The past
is a mirror of many faces, and these are coming back. . . The old Arab guide at the Egyptian pyramids who said, Money is nothing, but a good name shines all the time live the full moon". . .the numbing terror of the first man I ever saw hanged, a cop-killer whose into second later. . .

The cautious relief my father showed when my mother let me ruit taking piano lessons after three noisy months. . the resig-nation of an overworked horse that fell in the street one day as I was going to school. . .he lay there and knew he would never get up again, and was too old and tired to care. . .the puzzled look of our bulldog pup, poisoned by a neighbor, as death eeped up his useless limbs.

The expression of the druggist worked for as a delivery boy the snowy night a man phoned up and asked him to send over a three-cent stamp, a two-cent newspaper—and change for a 5 dollar bill. . .the terror of a schoolmate caught stealing from another boy's locker. .

The bland look of my first high school date when I nervously suggested we sit on a park bench for a moment on the way home and look at the moon. she asked, and I couldn't give her an answer. . .the history professor who broke down and cried on Armistice Day as he told us of things he had seen in France during the war that then wasn't yet known as "The wirst World War.". . . he was the first of many grown men I was to see in tears. .

The sick loneliness of the boy in the assault boat nearing the Moroccan Coast, just before he vomited. . . the cheerful way Gen. George S. Patton said, "battle wounds aren't painful, except liver wounds, and if they get vou in the liver you won't live long anyway" . . and the day his own blue eyes overflowed with sorrow after a bomb killed his young aide in Tunisia. . .

The amazement of a captured general when Maj. Gen. Ernie Harmon overruled his objections against riding to the rear in a truckful of Nazi enlisted prisoners with the blunt command: "Climb in or I'll kick you in!". . . the Kentucky rifleman drinking coffee made with cold rainwater scooped from Tunisian hill rocks and saying, 'Don't write about how we have to live—it'll just worry our folks back home, and

they can't help it none". The happy hysteria in every face when war ended, and each soldier thought of the heaven of home and felt no worry for the days that lay ahead. . .peaceful days, he was sure, and happy days he hoped.

Local Men Receive Military Promotions

BOONVILLE, MO., - Cadet E. M. Keller, Jr., son of Mrs. E. M. Keller, 1905 Ripley, Pampa, Texas, was recently appointed to the rank of cadet corporal in the Kemper Military School R. O. T. C. battalion. Cadet Keller received his promotion on Special Order 2 recently released by Major Russell M. Comrie, pro-fessor of military science and tactics at Kemper.

Gangster Pictures Get 'Macbeth' Label

SAN ANTONIO —(A)— Gangster films which "glorify crime and encourage juvenile delinquency" were compared to such classics as "Macbeth" in an argument before the Texas State Teacher Association ruling body here Fri-

Opponents to the resolution con-tended that "Macbeth" could be condemned on the same grounds as the films. The resolution was finally adopted by members of the of Delegates.

What's in a Title: Governor Warns Of Tree Hazards

H. Jester Saturday cautioned Texans against the hazards of Christmas tree fires and asked the 225 statewide fire prevention committeemen to publicize this type of fire threat.

"In hundreds of homes and in

community gatherings for Christ-mas trees each year, a sacred and happy occasion is suddenly turned into tragedy," the Governor warned.

"This obvious fire hazard is not new to any of us, but with families and friends gathered and the spirit of Christmas abroad, we are apt to be less cautious than we would be in our every-day lives," he added.

Collision, Explosion Cause \$100,000 Loss

MORGAN CITY -(P)- Damrine men at about \$100,000 resulted from a collision Friday be-tween two oil barge tows, which was followed by a loud explosion

The fire has been extinguished by the Coast Guard, but a final estimate of the damage could not be made until the vessels have Persons who witnessed the ex-

plosion said the tugs Dispatch and Leo scraped sides in attempting to pass in Bayou Bouef and the explosion followed. The Dispatch was loaded with high octane gasoline while the Leo was pulling three empty

barges.
The Coast Guard said that the explosion apparently was set off by a spark from the minor col-lision. The Dispatch first caught fire and the blaze then spread to

To be of the utmost usefulness, a car must be capable of doing many things. And owners say that Pontiac is the greatest "all-purpose" car

It is big and beautiful—which means that it can be driven anywhere, even on the most formal occasions, with pride and confidence. It is rugged, strong and dependable—which means it can be put to the hardest daily usage,

with a minimum of upkeep expense. It is safe, comfortable and easy to handlewhich means it is an ideal car for touring and long distance driving.

And it is remarkably economical. In fact, all things considered, no car is easier on the pocketbook of the owner.

Since you can get this amazing combination of virtues in a single automobile—it is something you ought to consider in your next car.

DUE TO OUR UNFILLED ORDERS ON HAND, you may experience some delay in getting a new Pontiac. Place your order now to avoid further delay. In the meantime, let us keep your present car operating at top efficiency.

Tune in HENRY J. TAYLOR on the air twice weekly.

Church Support Asked For Silent Guest Plan

AUSTIN —(IP)— All churches in Texas have been asked by Gov. Beauford H. Jester to give support in Sunday sermons to the American silent guest plan.

The plan was inaugurated in Texas as a part of a nationwide campaign to relieve the distressed peoples in war-devastated Europe Jester asked Texans to mail a check or money order for the price of an extra meal-for a silent guest across the sea-made out to the American Silent Guest Committee and sent in care of

the Governor's office, Austin. The money is to be used to purchase food packages on a nonprofit basis to be sent to hungry

persons in Europe.
The Governor asked that all The Governor asked that all can immediately recognize it, and members of the ministry of all do something about it. But a man can be hungry, very hungry, short message in their sermon to remind the people that as Europe remind the people that as Europe have a starvation this would necessarily be visible, even if you saw him every day at his work. There was a teletype operator come when he will not really feel many the come when he will not really feel many the come when he will not really feel deply feiling at the machine.

Condition of Europe Today

By RELMAN MORIN

remind the people that as Europe nears starvation this winter, it will be necessary for Americans, with relative plenty, to share with their fellow men.

Without showing it. A time will not really feel in Paris, last winter, who sudhungry, nor be aware of what denly fainted at the machine. She looked sturdy, and she was so vivid, with her flashing brown his memory was failing, and that

ing cloudy. The physical weakness a heart attack. Doctor revived her.

The girl didn't die, but there was a man who did. His wife operated a "pension," a boarding house, on a side street near the Gare St. Lazare. He was a man

is enough. So it took him a long time to die. But one afternoon he came home with a fever. "I believed him when he said he wasn't hungry," the woman said, through

Starvation Basis'? That's

ous than starvation. Starvation is acute, and you that, either.

Hunger is much more danger-than starvation. could creep over him so slowly that he wouldn't be aware of

None of this would necessarily

the mirror of his mind was turn- all surprised. We thought it was "She's hungry," he said. "If she catches a cold, it will turn into pneumonia and she will die

in a few hours."

He shrugged. "Of course, we're all like that. Good day, sir." of stern principle and he refused to let her buy in the black mar-ket. "Anyway," he said, "we have enough to eat. The ration is enough."

her tears. "I wish I hadn't obeyed

Last sumer, a great many American congressen went to Europe to study hunger. They came back confused, with mixed mpressions, and with greatly differing reactions. One said he "didn't see anybody starving." Others were perplexed by restau nts in Paris Rome where the menu frequently is longer and more varied than anything you could see in New

The statistics, too, were of little help to our congressmen.
The hospital statistics would show starvation, but they would not show continuing hunger. They might show, as they do in Ger-many, approximately the number of people who had died of actual undernourishment. But there is no way that they can record that the real cause was hunger when, according to the certificate, death came from pneumonia or tuber-

At a news conference recently,

Solons Studying Export Controls Question Again

By JAMES MARLOW WASHINGTON —(P)— In Congress now there's a lot of talk, and there'll be more, on export

What are they and what's be hind the talk? Simple, the controls mean this: the government says only so much out of the United States, and

it can say to what country. In 1940, with war in Europe and some things getting scarcer here, Congress voted the government power to control exports. Congress has renewed that pow er from time to time since

The law giving the government power runs out Feb. 29, 1948

President Truman has asked Congress to renew the control power so it won't end then. Why? Because some important things like grain and steel, are not too plentiful and other nations need them badly.

Since there are not enough of the scarce goods to fill all needs, Truman wants the govern ment to have power to say who gets what and how much.

The Commerce Department does the controlling, and this is how: Not all exported items are controlled. About one in eight is, altogether they total about 350

Here are some controlled items Meat, fats and oils; grains, lumber, petroleum, steel, and so on. steel as an example:

The department decides there's not enough steel to fill all the gemands for it here and abroad. It says only so much steel can be shipped overseas. And it figures out how much steel it will let go to any one country

or any one exporter. Suppose the department decides only 100,000 tons of steel can be exported to France this year. And suppose there are 1,000 ex-porters, each wanting to ship 1,000 tons to France. That would be 1,000,000 tons instead of the quota of 100,000.

In that case, the department might decide to limit each of the 1,000 exporters to 100 tons, the total shipped would be 100,000 tons. (Actually it never divides up

uotas equally among exporters that way.) Before an exporter can ship a controlled item overseas, he must

get an export license from the

department.

President Truman used the phrase 'starvation basis," in describing conditions in Europe. It was more accurate than perhaps he realized. Except in Germany and Austria, will not find very many people who are actually starving. You do not see such sights as we saw in India, in 1944, when terribly emaciated bodies simply dropped in the streets, or

famine in China. It is not like that, It is a creeping thing, a slow death and confronts millions in

fast and obscene horror of

More than 61 percent of U. S farms now have electricity

a success. Robert Taylor has been seen in only one film since he got out of the Navy, and it was no world-beater. Nor was there much distinction in the returning Morris, George Montgomery, Ronald Reagan, and others.

A reason for all this was oftered recently by a well-known actress. She told me:

'The trouble is that the studio don't realize that men like Gable and Stewart and Taylor have changed. They are put into the

same roles, but they are not | CORPORATION COURT

"They have been gone three or four years and they have be-come more mature. And, I be-live, better actors." Some hopeful signs for the returned stars are on the horizon.

Gable, Stewart, Taylor and others are reported to have more suit able vehicles in the offing, which measure up better to their new stature. And some of the male film favorites of the wartime variety, who shall be nameless, are reported to be falling fast in public fancy.

So that rosy postwar world may pano ut for some Hollywood veterans after all.

PHONES 200-201

By TEX EASLEY P Special Washington Service WASHINGTON — Rep. Ed. Gost of Wichita Falls plans to

ress next year for enactment of his proposed law to change the way of electing the president of the United States.

**Under his plan, which would have to be ratified by three-fourths of the states since it would amend the Constitution, the people would water directly for a president and vote directly for a president and not for electors.

A House Judiciary subcommittee conducted hearing several months ago on Gossett's bill calling for submission of such an amendment the states. seven of the eight committee members favor his bill, the Texan says, and he believes the full committee will approve it early next year.

The Gossett measure would bolish the present electoral col-ege system. The voting strength a state would remain unhanged, a vote for each resentative and each senator. If to percept of the people in a state should vote for the Republican nominee, then he would percent of he votes to which that state is entitled. At the hearing on the measure, frequent reference was made to the 1944 election in Texas because of the fight there between the anti-Roosevelt Democrats, who organized as the "Texas Regulars,

line with the party's national Uncertainty arose then as to which faction would cast Texas' 23 electoral votes. Two slates of Democratic electors appeared on the ballot, and the Roosevelt group emerged victorious.

and the faction which stayed in

KeFauver (D-Tenn), testifying before the subcommittee on behalf of the proposed change,

"The chaos existing in Texas during the 1944 campaign brings us face to face with the real that the mandate people might not be carried by the electors they have

'Any wholesale refusal to vote for the nominees of the party's choice on the part of the electors would certainly lead to much confusion and might precipitate a

It is not Gossett's idea that he president be elected by a straight popular vote, with no regard for state lines. He points out that such a system would of necessity force adoption of a federal standard of qualification for voters, a right which, is vested with the states.

Georgia has an 18-year voting age." Gossett reminded the sub-"Other states would have to lower their voting age to 18 to

be on a parity with Georgia. Then again, it would aggravate sectional

build have to pile up 4,000,000 5,000,000 down in Texas or they would be outvoting us. We would be accusing them of voting their dogs and cats and dead grandmothers and them would be accusing them of the world and dead grandmothers and them would be supported by the world and the worl ng us of the same thing. That, he continued, is why the present electoral voting strength hased on Congressional represen-tation should be retained.

"Under our present system," says Gossett, "the votes of mil-lions of our citizens do not count the final tally. "We elect the most important fficer of our government through a hocus-pocus method called the electoral college, We vote for electors, who in turn, through a dubious, confused and technical

edure, vote for one of the andidates for president.
"The candidate who receives the greatest number of popular votes in a particular state gets all of electoral votes of that par-

ticular state.' The founding fathers who wrote the Constitution envisioned elec-tors as men of great wisdom and ntelligence who would meet to-gether and select the best fitted dividuals in the country to be e president and vice president, ett adds. They did not foresee the creation and growth of po-

Twelve times the president of the United States has been elected with an actual minority of the popular votes, and on three oc-cusions the man who became president had fewer popular votes than did their leading opponents— Adams in 1842, Hayes in 1876 and

Life's train sweeps away on its mis-Glding swiftly along thru the years. Bearing hopes and ambitions the highest Which are sweetened by joys and which are sweetened by joys and tears: It travels along o'er life's highways Past green fields of youth with a scream. Which awakens the sleeper who which awarens the steeper who
shimbers
From life's ever beautiful dream.
Life's train stops only at stations
Where the Master who signals on
high
Has provided a welcome for him
Which the train takes as it passes
by.
His hand tho unseen is on the

throttle,
His wisdom and compass is best,
And His love is supreme as He points To life's beautiful Station of Rest. Life's train for Paul is over. On time it has reached the shore Where others are waiting to greet

who only were called home before; And the headlight that pierces t And the headlight that pierces the darkness Soothes the sorrow in each weary breast, And with glory brightens the por-tals Of his beautiful Station of Rest. Then out thru the gloom, see the sunshine And the face of the Pilot ashore Who has called from a happy hor circle.
Our loved one to mansions above
There were life's storm sweeps

never Safe in the realms of "the blest He'll be waiting for us at the sta tion The beautiful Station of Rest.

Thus, one by one, we are passing, Passing on as life's train goes by, And as friends remaining we offer Our tribute with tear moistened eye, As son and brother and comrade He proved faithful in every test, He is worthy of life's crown eternal in life's beautiful Station of Rest. PAUL TOLER

IT PAYS ME TO ADVERTISE . . .

Talk about a work-house I've had it . . . You know last Sunday I said I needed some money . . . Well I've made it . . . I've been hitting on all four . . . I don't know just how long I can stand up to this punishing drive that I'm putting on just before Xmas, but I hope to stand up to it just as long as I can . . . of course time will tell . . . I've sold so many houses this week that if told you, you prob-

ably wouldn't believe it . . . but it's the truth, so help me . . . It seems like every body takes a notion all at the same time to buy a house . . . Farms are not moving with me. right now, but when they do start to move, everybody will want to buy farms . . . must be some kind of mass philosophy I guess (if you know what I mean).

Anyway I've got my trading clothes on, and here's one that will move right out . .

It's a 2 bed room home, and a good one . . good garage . . fenced in back yard . . . and we want to sell it furnished . . the furniture is extra good, most of it practically new . . . here's just a few items that go . 2 bed-room suites . . living room suite . breakfast suite . . . kitchen range . . . electric box . . deep freeze box vacuum cleaner . . . rugs, carpets, drapes, curtains, washing machine, matrresses and springs . . In fact all you would have to do would be move in and start cooking . . . This is a bargain for 6850 dollars and you can have possession when you sign the sales contract.

I got talked into this . . . Mrs. J. P. Carlson called me up, and wanted to know what I would charge her for seling her Easy Spin Washing Machine . . . I'd just sold a high priced house and was feeling pretty good, so I said I would take it for 5 percent . . . she didn't want to pay that much so I said just buy me a cigar . . . so if you want a good washing machine worth the money go out and look it over . . . she lives at 309 East Browning in Apt. 4 . . And while I'm or eigars I'd like to remind Mrs. Allbright that I've never got the cigar she promised me about 3 months ago . . .

And here's a listing that just came in . . . It's a four room house and the owner has just built a room on it for a bath . . has all the bath fixtures that would go with the place, but you would have to put them in and it's on the pavement . . .

And now I've located some prestone . . . an old boy called me up and said he had 10 gallons, and would sell it for \$8.00 a gallon . . . I'm not making a dime on this . . . merely helping some of you people out that called about locating some . . . that's cheaper than you can buy it in Amarillo.

Here's another good listing that just came in . . . A two bed room home . . . located in the north part of town . . . all the rooms are extra large, and its nice . . . take 7250 for this one, and there is a loan balance now of around 5400 dollars that could be assumed . . . it wouldn't take much to handle this one . . .

I've just traded for Roy Sullivans house out at 1320 Mary Ellen, and of course I am going to have to sell it . . . so if you would be interested in this house I would be glad to show it to you . . . I'm going to sell it cheaper than any house has sold for out on the hill in the last 2 years if you like it make me a bid. It's really a nice home with a lot of good yard, both front and back . . .

Just one more word about this big money that I've made this week, before I close this little ad . . . It's not all coming in, in one big lump . . It will be scattered over a period of several weeks, as it takes time to close up each trade . . . so I would like for all of you Merchants, Doctors, Bankers, Promoters, Pampa News, etc etc here in Pampa not to get in to big a hurry . . , your time will come sometime, I hope.

When you read this-Go to Church-You'll feel better

"WINDWAGON SMITH AND OTHER YARNS" is a book of tall tales, symbols of Americana, and for delightful extravaganza it is tops. Wilbur Schramm is a wonderful story-teller, and there is a maxture of the Paul Bunyon, David Crockett and Mark Twain legend in his stories. There are no dull moments in playing around with Wind-wagon Smith, who almost turned Westport, Missouri, upside down with his prairie schooner and its full rigging of sail, Dan Peters, the old engageer who ran his train on the highway, Grandpa Hopewell whose homemade clder was better tractor and jeep fuel man me best gasoline, and Professor Feathers who was dead and didn't know it. this book of extravagant lore and boastful logic you meet the horse that played third base for Brooklyn (a favorite story of a Pampa physician) and other characters and suuations that go along with rau Bunyan and his blue ox in American folklore. There are eleven tales in the book and each one is a masterpiece. It has been said that America has no important folklore, that we are too young a nation to be steeped in folk-tradition. Wilbur Schramm's stories help prove that we do have a folklore that is American to the core.

PAMPA PANORAMA: Four chaps belonging to the city's elite provided vast entertainment to patrons of Six's recently, we understand . . . Pleasant, fun-loving four-some Alice and Gus Howard and Miriam and Carl Lueduers were seen in the tap-room at the Schneider . . . and I heard that Gus was accused of writing the words of a tune re vival, but wouldn't join in the singing of it... Saw merry, light-hearted Ruth Ann keys strolling Gown Cuyler... Representative members of a dual personality... the Thompson brothers of 'Inompson Hardware... Vivacious Fern Goldston was in town a few days ago... Saw slim, sophisticated Sylvia Conley in a beautiful gray broadcloth dressmaker suit trimmed in fox at the movie one night several weeks ago and the next Learner size had been expendity van ed eral weeks ago, and the next I heard she had her appendix yanked doing very nicely now . . . Heard she told a good one about the egotistical nurse wno always deducted two degrees from her patients temperature reading to allow for her personality . . . Thought I had missed Donna Conley on her blcycle in the neighborhood followed by an airedale and a cocker . . . she tells me the cocker had puppies a Sunday or two ago, with an M. D. in consultation, but 1 won't give him away . . . Talk of the town: the girl football player in Stinnett . . . Saw Johnny Sue Hart looking darling in a reu outit . . . 'The congenia. Gene Sluwells are always received with exhibitanted hospitality . . . All the members of the Charlie Duenkel family are flying entnusiasts, except the second grader, Equie Lynn . . . Mrs. Jeannette hutchinson . . . pretty white-naired grandmother and a good pal to have . . . a rare combination . . . We saw scores of happy faces at the regular monthly dinner dance at the Country Club a week ago, yes, and on Saturday night following, when Messrs. and Mesdames J. Howard Buckingham, Sr., Mark A. Heath and Ralph M. Juillard were co-hosts at a supper dance. Why is it people always look happier at this time of year? . . . Country Club is a busy place these days.

POINTED PARAGRAPHS: Unsolicited advice is the least appresuccess... A new idea on general education belongs to a kindergarien in Los Angeles for ages three to six, but for little girls only... the idea is that girls develop spontaneously along much different lines of play than boys and should be given a chance to play cooking, dishes, doils, etc., much in the company of other girls... This school says they'll make their general social adjustment all right because of going home to play with little boys all atternoon... I see no evil: I shows home to play with little boys all atternoon . . . I see no evil; I speak no evil; I hear no evil, Boy—am I a sissy! . . . Don't take life too seriously . . . You will never get out of it alive anyway . . . Thank heavens this is still a free country where a man can do as his wife pleases. Hubby: "What's this check stub—'Puilover \$25?'" Wifey: "That's what it cost when the cop said to." . . . Mother said as sweet a compliment as came to her, late years or early, was when little man, presided over a short bush-hands patted her cheeks, and baby said, "I love your face—it's curly." ness session in which plans were

the vicinity of after-dance gatherings in various 'n sundry eating places Made of crusty long roll, split and lined heavily with spicy sum-sausages and salami . . . wrapped inside were tomstore and

mer sausages and salami . . . wrapped inside were tomatoes and pickles, peppers and onions, with an olive dressing—sound good?

KNICK-KNACKS: Interesting, if not downright heartening and inspiring, to see so many Pampa fans let the turkey get cold to be present for the football game with the Borger Bulldogs at Borger. a postscript says that not all those at the game let the turkey get cold: they had it prepared for them at some of the eating places about town.) HERE'S AN old toast, not good alone for Thanksgiving and Christ-

'Here's a health to you and yours who have done such things for us and ours; and when we and ours have it in our powers to do for you and yours what you and yours have done for us and ours, then we and ours will do for you and yours what you and yours have done for

and ours."

New Microscope Gets in Hair

By the Associated Press ST. LOUIS - Some puzzles bout human hair are being tackled in a new way by Dr. Mil-dred Trotter at Washington Uni-

versity Medical School.
Dr. Trotter, professor of gross anatomy, wants to learn just what changes occur in a person's hair from birth to maturity. Her subjects are 16 boys and giris, ranging in age from a few hours to 17 years old. She has taken samples of their hair every month and is examining them under the

She doesn't expect to find any answers to such problems as why some people get bald. This is a project to learn some fun-damental facts about hair.

The work might lead, however, to some way of examining hair and telling whether it belonged to a boy or girl, and about how old the child was, in a kind of a "fingerprint" system for hair an-

This is the first time, Dr. Trotter said, that hair of the same persons will be studied over a long period of time.

Previously, analysis of hairs from different individuals of different ages has shown gradual changes in the structure of hair occurring with age. The new study may permit exact tracing of these changes, what they may mean, and why hair grows darker

Hair fluoresces under ultraviolet or sun-tan light. Dr. Trotter is interested in whether the degree of fluorescence changes, and what this might indicate.

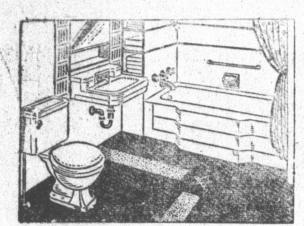

Hair research so far has demconstrated that hair grows coarser with age — that the individual hairs get thicker in diameter. It also indicates that there are only slight differences if any, between the hair of males and females. Cutting hair does not make it coarser. Cutting or exposure to sun does not appear to have any effect upon the rate or amount of growth of hair, Dr. Trotter

There is evidence, she added, that plucking hairs, as in eye-brows, over a long period of time tends to reduce hair growth.

Santa Fills His List At McCarley's

THIS IS KEIS KRINGLE REPORTING

I've been doing a little private investigating on my own, incognito of course, preparatory to my debut before you on Dec. 5 at the big Santa parade. Folks here in Pampa have been very kind to me this year, even setting aside a whole day and naming it in my honor. To repay their tribute, I've agreed to appear personally in their parade to be held at 3 o'clock on Dec. 5, and I want all of you to come down and see me. Eands will be playing, floats have been prepared, and they tell me they even have huge giants to delight the kiddles. I'll see all of you then, but right now I just had to tell you about some of the things McCarley's have assembled so that you and I could cooperate to make this like happiest Christmas ever.

Well, old Kris Kringle just doesn't know where to begin! My eyes are positively dazzied by the beautiful things they've seen! Of course I can't tell you about everything I saw that delighted me, but the people down there at McCarley's told me privately they would be more than happy to show each and every one of you everything in their big store.

Over in the Gift Department, Old Santa saw a collection of figures in porcelain depicting the "Mountain Boys." You know those goofy people in the Esquire cartoons? Well, they've been captured and made to go through their paces on ash trays, cigarette boxes, and vases. I'll tell you, I just had to laugh out loud at their silly posen? Something else caught my eye that I'm sure you'll want to see. Do you remember that colorful pottery the Italians made before the war? Well, McCarley's were able to get some of it for you this year, and it's as beautiful as ever. Baskets woven of white rounds of glazed china, vases with real-as-life flowers on their sides, and a very, very colorful cake set of six dishes and a service plate. Tell you a secret . . . the prices tickled me too!

china, vases with real-as-life flowers on their sides, and a very, very colorful cake set of six dishes and a service plate. Tell you a secret . . . the prices tickled me too!

Of course I usually travel overland, on snow, and hardly ever do any writing under water, but I saw a Sheaffer ball pen that sure is a honey! Wouldn't mind having it myself. It's a long tube of glistening gold enclosing one of the slickest writing instruments ever. They call it a "Stratowriter," and say it writes for ages witnout filling. And listen to this, men . . . Parker has brought out their famous "51" pen and pencil in a size for ladies! Sure would tickle Mom to have one of these in her Christmas stocking! If you've a boss you'd like to please, old Santa saw some of the slickest desk sets ever. They're mounted on handsome onyx, and you'll be remembered every time the boss writes a letter!

You know I'm getting pretty old, guess around several thous . . . hold on there! Almost told by age! Anyhow, I't resting for my labors, and so I sat down at McCarley's silver case and just looked around at the silver. Goodness, I don't believe I've ever seen so much before! Thirty some odd patterns of the prettiest tableware ever! Now that's something I'm really interested in . . . something to go on the Christmas table. I'll bet that turkey will taste twice as good to some lucky man when his wife puts the act of silver he gave her for Christmas out on the table.

Let old Santa give you a tip right now, young man. If you give her a set of glasses, that would put you up in pretty good shape with your wife or mother. And for the first time, the good people at Imperial Glass Co. have sent McCarley's their three best patterns, "Candlewick," "riam candlewick" and "Lape Coll." Yes, there's old pieces available in these three patterns, too. Of course, Fostoria is well represented, as are Hawkes, Sharpe and Tiffin.

While I think about it, does your girl friend ever travel? Now I only take a trip once a year, and then I use a bag which is really only a sack tied at the neck. But goodness, they tell me I'm the only one who can get around using something like that! So don't forget to take a look at McCarley's luggage department. And take a good look at their Dresner "Fitted Miss 1948." It's the nicest fitted make-up kit I believe I've ever seen.

Ice and snow, ice and snow . . . the prettiest ice ever man made is that by Eisenberg. Glittery hand cut stones set in solid silver in designs that put your eye out. Necklaces, pins, earrings, bracelets . . honest, they look like real platinum and diamonds! Her eyes will really sparkle when they reflect the sight of an Lisenberg piece in her Christmas stocking.

If you want to, you can leave me a new Buxton or Prince Gardner billfold. I'll take the one of imported pigskin, with a removable inner fold, by Buxton. And Mrs. Kringle wouldn't mind having Princess Gardner's snake and calf billfold herself.

Well, I've got to go feed my reindeer . . . Blitzen is chaffing at the bit out front, and they've got to go to work pretty soon themselves. But take my suggestion . . . shop McCarley's first this year, and get up Christmas morning certain of pleasing everyone concerned. See you in the parade the 5th of December!

KRIS KRINGLE.

Home is really a collection of the things two people love the most—little things, often enough. Things like sterling silver—that cherished and gracious possession that sets your standard of living. And you can start your service of Reed & Barton solid silver by purchasing one place-setting at a time—six lovely, gleaming pieces of solid silver: knife, fork, teaspoon, butter spreader, salad fork, and cream soup spoon—at \$22.88 to \$25.24, including the Federal tax.

By that time, Beck probably will

opposition was helpless. In voting on one amendment, oseph Casey and Anthony Canilla, of San Francisco, and Martin Lacey, of New York, fought hard to defeat a proposal to increase the arbitrary powers of the old man and his executive junto. A vocal vote was challenged by Cancilla. Tobin, with show of patience, asked for a count of hands. When the hands vere raised, Tobin asked: "Does mybody wish me to count?" "I do," Casey yelled from the

steamrell the opposition.

Beck's ambition to take Tobin's lace has been recognized by both his following and his opponents for several years. But last winter smoked him out with a dispatch predicting that he would try by flattery to persuade Tobin retire on an extravagant penon and arrange for his, Beck's, election or appointment through some trick, to succeed him. The ambition to become president is legitimate but you would have hought I had accused Beck of felony. He said this innocent statement that he aspired to the presidency of his union was an evil slander, uncontaminated by

This retort was published in the Washington Teamster, which carries Beck's name on the mast-head, as president. But after all, merely said Beck would not a candidate unless Tobin, himelf, should nominate him. Speaking of himself, in his own

not know how double-cross; his word is never

As a condition of their membership in the union, thousands of intelligent, self-respecting Americans are required to pay for such evolting garbage.

The premature revelation of his scheme forced Beck to change his plan slightly. A vain old bumbler, Tobin wanted the final compliment of a single term as president of the A. F. of L. He conected in that case, to turn over all his duties and

ower, to Beck and devote his rear as president of the A. F. of to speeches about his own and great services to "labor." But political troubles intervened the A. F. of L. and Tobin was thwarted. Therefore, Beck in the constitutional amendment creating the position executive vice president with plenary powers, subject only to Tobin's veto.

It is expected that Tobin will name Beck to the job on Dec. 1. The salary is up to Tobin. It probably will be \$25,000 and liberal, but limited expenses. Beck's amendment does not even require that the new sub-dictator shall by a member of the union.

If Tobin pulls a surprise and names somebody else, Beck can pull out of the union about 250 thousand subjects under his reign in 11 western states. In that case, the Taft-Hartley law would protect him by forbidding the old king to declare a boycott and a

her. Camellia?

THE STORY: Cam and Joel go canceing on the river after the fire. Just confiden his worries and his dreams. Cam is blissful. She wants nothing more than to share Joel's dreams

XVII COR one moment, as she opened her eyes to her tamiliar bedroom, Cam couldn't recall what it was that made this new day so

Then she remembered and the memory curved her lips untilstill suspended in that undersea world between sleeping and waking, where motion and thought slowed to the heavy grace of

Oh, he hadn't said it in so many words-last night on the river. But surely his heart must know

shadows in a coral cave-she was

smiling. It was because Joel loved

it to be true. Cam slithered purringly out of bed and sang in her shower. She was knotting the wide sash of her breakfast coat as she skimmed down the stairs ten .ninutes later. Her father was finishing his breakfast egg. Floating past him on her way to her own chair. Cam bestowed a feather of a kiss upon the bald spot at the peak of the Dean's dignified and scholarly head. With the delayed reaction which seemed as much a part of him as his rimless spectacles. he looked up only after a full mo-ment's silence from his spread-

"Good morning, Cammie." "Good morning. Dad." She reached for the toast rack, smil-

ing.
"Terrible thing, eh, that business last night?" She beamed back at him. "I thought last night was perfect!" "Perfect?" Dean Austin's compressed features altered in that place at the table.

He said the NTEA has raised huge sums in an effort "to impose death tax upon cooperatives." ative to its members belong to the "A list of the contributors to the NTEA," he said, "will doubtless disclose that the na-"will in the hands of its members."

2. It would be "a penalty or ional corporate chains are furnishing a large part of the money

o fight cooperatives."

Patman said "it is proposed and I consider this question the major one involved—that patro-nage dividends or refunds that are made by a cooperative to its members be taxed to the cooperative for federal income tax purposes." He told the committee he is opposed to this proposal for these reasons: is opposed to this proposal bers are liable for federal inr these reasons:, come taxes.
"It would be unconstitutional 4. To impose the co-op divi-

She was carrying a sheaf of the curve of her arm.

"Look!" she demanded, burying her face in the blooms with such naive joy that it almost carried conviction. "From Joel!" Cam was on her feet now.

reaching out eagerly "For me?" thing outside himself had actually "Of course not, silly! They're or me. And with the dearest little note of apology tucked into 'A fire destroys a Carter landmark them!" She drew the single folded six decades old, and you say 'persheet from its envelope. "I'll read Belatedly, Cam recalled that there had been another blaze last it to you both! Wasn't it just too cute of him to spend his money night than the one which had on such a big bouquet?'

burst out like sudden springtime CAM sank back into her chair, in her heart. There was no headline, naturally, to announce to the getting a fresh grip on herself. world that Camellia Austin and For heaven's sake, what was the Joel Conroy were in love with matter with her anyway? That each other.

"I—I didn't mean about the a physical wrench and it had left Cage. That was awful, of course."
"No one seriously hurt, thank her breathless. And all because Joel had been decent enough to goodness. Although your cousin do the polite thing and send a gesdid say that you'd come within an ture of apology! Even Maurine ace of severe burns. You're certain had admitted it was no more than

that. So why on earth-?
"-sorry I couldn't get back to finish our glamsur date. But it just didn't work out that way." Reading what Joel had written, behind his bifocals. "Maurine the voice across the asters flowed seemed very much put out about something. I fhought, when Her-bert fetched her home. She went light and swift as a shallow brook. "Since untoward circumstances kept me from apologizing in person, last night, let these say all the rueful things I couldn't. And how about a jukebox whirl tonight, to make it up to me?"

Untoward circumstances? The words struck out at Cam as though they had been an open hand brought suddenly and stunningly against her cheek.

Maurine was giggling guilelessmad at Joel Conroy, isn t it. Cam? Her dark eyes sparkled. "I couldn't possibly refuse to go out with him again tonight, after he's begged me so adorably, could I?" In the little silence which closed in like a period at the end of Maurine's sentence. Cam realized ing the stairs. "I'll get it!" her gay young voice shouted from the

that her father was watching her. And with such wise, such comprehending eyes!
(To Be Continued)

since refunds by a farmers' buy-ing organization to its members unmercifully oppressing a large are not income but are savings; group of our population who are help institution and as an effective means of improving their lot and manner of living."
5. It would be "favoring big

interest, big wealth and monopolies and discriminating against the poor people of our country.' The ways and Means Committee investigation of co-ops is part of a study looking toward a general overhauling of the tax are concerned. A partnership, as an entity, does not pay taxes, but the earnings of the partner-ship when distributed to its memstructure. The group has not indicated what change, if any, might be made in the co-op tax status.

Texas Today

By JACK RUTLEDGE Associated Press Staff The saga of rags to riches is always good, but the saga of movie star to cattle rancher is both good and different. find both in the Moss you'll find both family of Odessa.

The movie star is beautiful Tane Withers, who married Wil-Moss of Odessa and who, with her husband, will operate the cattle industry of the big Moss Ranch.

They were married not long ago and she is in the process of becoming Texanized. The rags to riches story belongs to Judge Paul Moss, author of two well-known books, cattle rancher, lawyer, and oil man. He is Jane's father-in-law.

Born in North Carolina, he came to Texas in 1912 and found the end of his rainbow in a what was at that time a for lorn bit of territory. He arrived broke. He borrowed a law book from John Buchanan and set up

There were about 600 people in Ector County at the time, and Crane County, attached to Ector for administative purposes,

had 35 votes.

The area was dry—so dry that once when a tourist asked Judge Moss if it ever rained out there, he replied: "Yes, it rains sometimes. In fact, it rained Wednesday about 30 miles from here, but I was busy and couldn't go.' Like other business and pro-fessional men, he bought land, which was cheap. He began ranching as a hobby.

Then, of course, oil was discovered. The Permian Basin became a big name in oil — and

Judge Moss was rich. He bought more land, including 120 sections in New Mexico near Alamagordo.

He wrote "Shadow of the Potrock" and "The Rock Was Free." He developed his ranches. His

law practice grew. He has not retired in any sense of the word, but is gradually turning over a lot of his work to his family and staff. The cattle industry, for example is now the job of his son, William, and actress daughter-in-law

Jane Withers.

Jane ought to be good at her job. After all, actresses know quite a bit about calves.

FACTS **About Permatone**

Permatone is a permanent type anti-freeze, with a magnesium chemical base, containing specially developed rust and corrosion inhibitors.

NON-EVAPORATING NON-CORROSIVE

NON-INFLAMMABLE

For satisfactory results it is necessary that the entire cooling system be thoroughly cleaned and in good working order. It is necessary that all HEAD BOLTS, HOSE CONNECTIONS, WATER PUMP, and all other connections be checked and tightened.

PERMATONE Anti-Freeze, like all other leading anti-freeze solutions, weighs considerably more than water, therefore will naturally seep out through any loose connections.

When leaks are present it will be noticed that a white substance is left on the surfaces. This is a result of the water and other liquids having evaporated leaving the Magnesium Chemical as a residue. There is no danger of damage from this residue. You will find this substance is an aid in discovering leaks in the cooling system which should be corrected. This substance may be removed by rubbing with a cloth or light brush.

When the cooling system of all liquid cooled automotive equipment have been in use for several years, many of them become badly rusted and corroded from hard waters and lack of regular cleaning and flushing. Many times it is found that leaks have developed but become clogged from rust flakes, dirt, and other foreign substances. In such cases it is found that when PER-MATONE ANTI-FREEZE is added, the Inhibitors will disolve these foreign substances thus revealing, BUT NOT CAUSING, the leaks. Upon using PERMATONE ANTI-FREEZE you will find that instead of it causing rust and corros ion, it will act as a cleansing agent in that it helps to cleanse the inside walls of the cooling system thus bringing rust and mineral deposits on the surface of the metal into solution This results in the water in the cooling system becoming slightly dirty and rusty looking. It is suggested that your radiator be thoroughly FLUSHED of the end of the winter in order to remove this from your cooling system.

It is recognized that many erroneous rumors have been started and spread about PERMATONE ANTI-FREEZE and THE PERMA TONE CORPORATION. If you are in doubt about the product or the organization, kindly write direct to the above address, YOUR NEIGHBOR MAY NOT KNOW AS MUCH ABOUT THIS PRODUCT AS HE PRETENDS TO.

PERMATONE ANTI-FREEZE is postively quaranteed to protect cooling systems against freezing. to cause no damage to any part of the cooling system, and to fulfill all claims made for it when used in accordance with manufacturer's instructions.

were that the veterans had knowl-L. P. Fort, manager of the edge of the forgery and apparently had acled in collusion ployment Commission, said that with the individuals who cashed he had received word from Austin the checks. If evidence supports Pampa merchants and banks that at least 50 Texas veterans collusion, the veterans themselves had been the victims of theft will also be subject to prosecu-

By TEX EASLEY Special Washington Service WASHINGTON — (P)— Eight now are giving ROTC training, only these eight are classified by the Arnay as invaluable cogs in the national defense organization.

Maj. Gen. Willard S. Paul.

While more than 150 colleges now are giving ROTC training, only these eight are classified by the Army as "MC" or "military college" institutions. The standards set by the Army in determining an "MC" rating are described, officially, as follows: "Military colleges and universe."

Maj. Gen. Willard S. Paul, army personnel chief says that for an "indefinite" period civilian colleges must constitute a prime source of officer material.

Point itself can no longer provide us with all or even most of our officer material. More and more

Besides Texas A and M, the "Civilian West Points" are Nor-wich University at Northfield, Vt.; wich University at Northfield, Vt.; Pennsylvania Military College, Chester, Pa.; Virginia Military Institute, Lexington, Va.; Virginia Polytechnic Institute, student. Elacksburg, Va.; Clemson College, Clemson, S.C.: The Citadel, Charleston, S.C.: and North Georgia College, Dahlonega, Ga.

wich and Pennsylvania Military allowance provided by the G. I. Bill of Rights. Malefactors not tions of the G. I. Bill.

affidavits from veterans that they to join the regulars. did not get the allowance checks sent them. But investigations reveal that the same checks bearing commissions in the Army, a plan spurious endorsements have been which has been under discussion cleared through Texas banks to here lately by officials of the Austin for payments. Such checks college may lead eventually to the necessarily are dishonored by the government and returned to the banks sending them in.

The TEC representative said by the Veterans Administration and that he had been informed that the 50 cases had been turned Station as a part of the ROTC over to the chief attorneys of the regional VA office. Prosecution, he said, will be in either state or federal courts.

Conversation, Avoid Shop Talk, Says Writer

The lost art of conversation can be revived, says Gelett Burgess in The Reader's Digest, if the principle which is the basis of all good manners be applied to talk. "This principle is the avoidance, in social contacts, of emotional friction caused by irritation, boredom, envy, egotism."

The ideal number for good dingers and the dull spots for revision." ritation, boredom, envy, egotism or ridicule." Burgess deplores all purely sub-

jective talk, such as that centering apt to break up into separate on your health, troubles, domestic side dialogues." If each of the on your health, troubles, domestic concerns, wife or husband six is engaged in a different "Streams of personal gossip destroy all objective discussion of art, science, history, the day's

Monopolizing the conversation is uinous; occasional "flashes of sidelightful. make it state a fact with finality is to force an opinion on another, but to qualify the statement with "it eems to me'' leaves the subject for the next speaker to enlarge

Differences of opinion may exof views, but flat contradiction is a conversation-stopper, Burgess says. While interruption puts the train of conversation off the track, an occasional "grace note," such s "How wonderful!" is a good way to urge the speaker on. Good listening, essential to good but your eyes, hands, and even site of Wall Street.

The ideal number for good din ner talk is six, Burgess holds. With more, "the conversation is pursuit, so much the better, for

SCOTLAND TO THEM Scotland is called "Sotimaa" in Magyar language, "Skotsho" in Czechoslovakian, "Iskocya" in Turkish, and "Szkocja" in Polish.

LINCOLN, THE INVENTOR Abraham Lincoln was an inventor. He patented a device to lift boats over shoals in shallow rivers in 1849, and his keen interest in the U. S. patent system inspired the immortal words carved in stone above the patent office door.

DEFENSE WALL Wall Street, New York City takes its name for a wall, built Good listening, essential to good in 1633, as a defense against the talk, requires "not only your ears British. It stood on the present
