Hull Ignores Critics In London Speech

Whirligig

WASHINGTON

President Roosevelt has a neat way of making a defeat appear to be a victory. That is the kind of be a victory. That is the kind of generalship he exercised on the veterans cuts and tariff revision.

From the public announcements

ou would judge the president had again compromised congress into submission. The true seriousness of the revolt was glossed over by both sides. They were both afraid untry would be disturbed at that congress at last was

out of hand.
So's deal was worked out inside whereby Mr. Roosevelt got credit or winning and congress got largewhat it wanted.

Mr. Roosevelt was largely re-sponsible for his veterans troubles. He had won a victory in the senate when they limited him to 25 per cent reductions instead of 15 per cent. He thought he could do better than that. When he tried he found how deep-rooted was the

congressional opposition.

The storm had been gathering for weeks. For some reason the veterans held congress and not the president responsible for their reductions. Few wrote to the presi-dent to protest his stand. Everyone apparently tol diffe congress men what was going to happen to them at the next election because they permitted Mr. Rossevelt make the cuts

The tariff readjustions programs as handled off stage without get ting into the headlines. A better

Mr. Roosevelt canually announce ed he would not ask for power to adjust tariffs because he wanted to get congress out of town as

on as possible.
The fact is that house told Mr. Roosevelt he had better not bring up that subject. They whispered in the presidential ear that they could NOT promise pas-sage of any kind of a tariff resolution. They thought the odds were against them

Mr. Roosevelt therefore made graceful virtue of the necessity and Commissions- Orders- Reforgot the matter.

You may recall that is the same thing which happened on war debts. The president was to have asked authority from congress to

as a basis. Apparently rines have little to do with the final decision. He is a republican hold-over.

The natural thing to do now would 's to throw most of the blame on Hines and gently case him out. That may be done.

The vete situation may provide the constant of the lone Star's transmission properties sarving nearly 300.

The vete situation may provide sion properties sarving nearly 300.

The increased receipts more than offset the decline in income the hearing began last November.

The increased receipts more than offset the decline in income tax collections. In the current fiscal year from July 1, 1932, to June 8, 1933, the government collected 4790,704,611 in miscellaneous intermediate which includes beer.

Identity Of Victim Bein g Investigated

Initials In Ring Practically Only Clue To Name Of Deceased

Decomposed body of a half elad youth was found here Wednesday morning in a re frigerator car.

No marks of identification other than a class ring were found on the body youth had apparently been dead a week or ten days.

Discovery of the body came after men riding in the empty car were oppressed near Abilene, by odors emenating from one of the vents-They notified officers when the

train stopped here. So decomposed had the body be-ome that only the hair proved it

to be that of a white person.

A hole in the skull over the left ear led officers to believe the lad had met with foul play and his body subsequently crammed into Trousers had been taken from him but his top coat, sweater, vest

and underclothing were on his of violence evidenced on the body, Only clew as to the boy's identi-fication lay in the class ring Mounted on a spreading eagle was the letter "C" in bold relief. Flanking it were the letters "H" and "S" presumably standing for 'high school." It was a 1932 class

ianapolis, Indiana, manufacturers Ferguson, of the ring. They believed it would The government be two or three days before they to permit the state prison system (Continued On Page 5)

ernment already is advertising for bids on the first projects of the \$3,300,000,000 public works prog-ram designed to create jobs for Texas Sells

A COMPANY THIRTY YEARS OLD

This week Friday the Ford Motor Company completes 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Pat Suit-which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.

Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.

Of course, there is one thing we cannot share-everyone must get it for himself---and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.

But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead,

Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive-their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear.

That is the outlook for this young thirty-year old Company of ours.

Mrs. Housewife:

Your Husband Married You "for Better Or For Worse"

Of course he knows how lovely you are . . . how you are skimping here and there to make both ends meet and have a little for that savings account . . . but it really is hard to tell whether or not you are "better or worse" than you really could be. Are you sure just what that normally efficient self of yours really could be? Unless you are a consistent and diligent reader of the advertisements that appear in The Big Spring Daily Herald you are really overlooking a good bet in becoming one of the "better housewives". Of course, the intelligent purchasing of supplies for your family and household is only one of the things that add to your true worth to your family . . . but it is really one of the biggest and most important of the many.

Approximately 75 per cent of the housewives in Big Spring who have been married three or more years read and study The Daily Herald advertisements. They save time, money and energy in doing their shopping. In nine cases out of ten they make up their shopping list before leaving home. They buy their groceries, wearing a pparel, household needs and little personal luxuries from the advertising columns of The Herald. If you are one of the 25 per cent who haven't yet learned this simple lesson in thrift we urge you to try it for just two weeks... then compare the quality merchandise you have bought and the money you have saved with the two weeks shopping you did before starting to read Herald a dvertise ments!

MOSCOW, OP-Jimmie Matte nearny he will take off early Thurs-day on a second attempt to fly non-stop to Alanka.

"WELL! BILL PERKINS!!"

HAVE you ever walked along a street in a strange city strange faces passing you Then, a face you knew . . . recognized lumn diately? "Bill Perkins!" you exclaimed, "Gee, I'm glad to see you."

Have you ever shopped in a store in a strange city . . . a score of local products stared you in the face, all good, perhaps all reliable. Then you saw a familiar advertised brand of what you wanted. "Good, I'll take that," you said. Right then you subconsciously were glad for advertising. You felt an immediate warmness, closeness, confidence—the reliability of old friendships.

Advertising is one of the greatest public benefits ever invented by business. It enforces quality, full value, honest statement of afet. For, when a manufacturer advertises his product, calling attention to it risks his very business existence—if it is less than he states.

This paper is constantly presenting advertised products for your attention. Many of them are old friends. But, many of them perhaps greet you for the first time. Read the advertisements, get acquainted with new friends you'll be glad to know now, and later-
