## Food Saving **Plan Faces Delayed** Debut

Many a square meal of round today as the Lone Star State ex- eggs on Thursdays. perienced its first meatless Tuesday.

unduly alarmed, pointing out that Thanksgiving, Christmas and New Years Day all fall on Thursday. They said if the nation compiled with President Truman's request, and no poultry was eaten on that. day, it might seriously injure their big turkey industry.

Obviously they had not read that the program did not include holidays, as announced yesterday. Elsewhere in Texas, housewives and restaurant men expressed a ire to co-operate, but many restaurant operators said the President's self-denial plea caught them with their lockers full of meat. In most cases, menus had been printed for today, and the meatless program had to be delayed a week. However, most cafe men said

the success of the program depended on the consumer.

The majority of cafes were awaiting the outcome of the Thursday meeting of the state restaurant association in Texas in Austin. A policy will be adopted at that time, officials have said.

usion restaurants said they will serve meat today, but expect and as long as that condition preto conform with Truman's request as soon as possible. Louis Mar-chetta, president of the Houston "A fixed price will get the grain Hote: Men's Association, said his now, when it is so urgently neednal essociation but said "with-ount Houston hotels will com-A. Move Ushers In First Of Truman's

'Meatless Tuesdays' To Feed Europe

WASHINGTON, Oct. 7. (AP)—A hike in margins on the nation's big grain exchanges at the insistence of the gov-

ernment today ushered in the first of President Truman's "meatless Tuesdays" to save food for Europe. The markets at Chicago, Kansas City and Minneapolis

2. Representatives of the distilling industry gathered for day. In Cuero, poultry dealers were for a 60-day shutdown.

3. The Agriculture Department, seeking to head off a "meat famine" a year from now, talked of asking farmers to plan for a maximum hog pro-

duction and gamble that big crops next season will relieve

the feed grain shortage. 4. The United Nations food and agriclulture organization predicted that more people will die of hun-

ger next year than were killed in any year of the war, and that present shortages will continue beyond the 1948 harvests. 5. The agriculture department

disclosed it stepped up wheat purchases for export to 23.963,674 IB-One of the nation's largest bushels last week compared with grain producers proposed tod:r 9,089,880 bushels the week before. The big grain markets, which have contended all along that grain exports . pd not speculation caused high prices, fixed their new margins at 33 1-3 per crat.

The increased down payment was placed in force with the opening of trading this morning. Previous transactions are not affected. Directors of the Chicago and Minneapolis exchanges said they bowed to the government demand "against our better judgment" be-

## **Solons Disagree On Farm Conditions**

WASHINGTON, Oct. 7 Un-Rep., "accumulated wealth for genera-Gross (R-Pa) threw a joint sestions." "It seems to me." Poague shout-

sion of the House and Senate agriculture committees into an uproar today as he accused the agriculture department of "deliberate hoods, downright lies" in its description of the plight of the agerage American farm family. ...

Senator Elmer Thomas (D-Okla) culture policy. broke in to ask the agriculture department to explain why in view of the dire living conditions in rural areas, "the department now is trying to break the grain mar-

Thomas did not insist upon an immediate answer but said he would like to have the department explain. He did not amplify what he meant by the question.

Gross bitterly denounced this statement put into the record by Assistant Agriculture Secretary Charles F. Brannan, describing the "typical farm family."

They live in an old house, either in serious disrepair or perhaps unrepairable. They are without running water phones, central heat-ing or a bathtub. If they have electricity, it is still new enough to seem an innovation. The windows and doors are poorly screened. Flies attend every meal, spring and summer. There are mice in the kitchen and rats in the barn."

The statement was made as a part of a department presentation urging Congress to take steps toward improvement of rural living

Gross said "this is an untruthful, malicious indictment of farm families. It is an insult to every farmer. This indicates the farmer is just trash."

Rep. Hoeven (R-Iowa) said the statement is "an unwarranted indictment of the American farmer. If I made such a statement I would be driven out of my district."

Rep. Poague (D-Tex) argued With Ross, saying it is true that more than one half of rural people in some areas of the country live "in tumble-down shacks." He said the farmers of Gross' district, in Lancaster County, Pa., are not average farmers, that they have

Campbell said wheat has a loan value of approximately \$1.75 a shel, "which provides funds for

the farmers' needs." "Should the government take the ty price, which is \$2.75 in Chicago.

At Fort Worth, a spot cherk of Wheat at \$2.75 in Chicago does not process from all parts of Fort represent much speculation when at Lake Superior ports."

ball to be kicked about by gamblers in grain."

The White House went on the no-meat-for-Tuesday standard by substituting cheese souffle for the President's luncheon today and broiled salmon steak for dinner. The idea is to conserve on meat recers from all parts of Fort represent much speculation when and thus, eventually, on grain fed on the expected delcarations by to animals.

MORE GHOST BOMBS SEEN?

STOCKHOLM, Oct. 7. UP-The newspaper Aftonbladet declared mysterious cigar-shaped missiles were seen flying high over the city of Hudiksvall, in northern Sweden, at noon today.

The objects emitted a sound similar to a motor noise and streaks of fire from the tail, Aftonbladet said. They came from the north, it reported, and disappeared at slow speed in the southwest.

(Reports of "ghost bombs" over southern Sweden developed ed, "if conditions on the farm are during the summer of 1946, but as good as the Pennsylvania gentleofficial Swedish sources discountman describes them, we now have ed them after investigation. Obthe millenium and we might as servers suggested a possibility well adjourn these hearings now." that meteors were responsible The House and Senate commitfor some of the reports.) tees are studying long range agri-

would not take an official stand on the plan to partition the Holy Land. These disclosures came as the

assembly's 57-nation Palestine comresume the first round of national policy statements.

The main interest still centered in the week, probably Thursday.

The delegates were generally agreed that the success of any plan would depend largely on whether the big powers, particularly the United States, were prepared to provide force to imple-

ment it. Meanwhile, the assembly's fight over the Greek-Balkan question broadened into what some delegates saw as the beginning of

wide open ideological struggle in the United Nations between Russia and the western powers. Russia's deputy Foreign Minister Andrei Y. Vishinsky brought the fight into the open late yesterday with a bitter attack on he

capitalist system. **Wiley Strikers** 

### Win Their Point MARSHALL, Oct. 7. UP-A fiveday strike of students at Wiley College here ended in victory today

for the Negro students, as three faculty members they had criticized resigned.

Classes were resurned this morning, ending the walkcut.

H. J. Mason, public relations director, said the three whose resignations were accepted by the general trustee board are Dean Irving E. Scott: R. G. Lloyd, head of the social science department; and J. H. Dixon, head of the physical education department. Scott's resignation is effective at

the end of the quarter, but the other two are effective immediately.

Dixon's name had not been injected into the controversy previously. Mason said all charges against R. A. Edmondson, head of the math department and a faculty

member for 22 years, were dropped by the trustees.

### **Red Blood Cells Must Be Kept Up** If You Want To **Feel Alive**

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Every Muscle, Fibre, Cell Overwork, undue worry, and lack of cer-tain foods often reduces the red-blood strength -- and starved, weak, puny blood just hasn't the power to keep up your energy and drive. Thy red-blood-cells must pour forth from the marrow of your bones to re-place those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and diseas. To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by posi-tive proof shown that 588 Tonle is smaingly effective in building up low-blood strength in non-organic nutri-tional anemia. This is due to the 859 Tonle formula which containg special and poent activating ingredients. Also, 585 Tonle helps you enjoy the ford you eat by increasing the sustriv-ally too little & canty-thus the stom-ally too little & canty-thus the stom-ally too little or ecanty-thus the stom-ally too little or acanty-thus the stom-ally too little or scanty-thus the stom-ally too little or scanty or body with steh, red-blood Start on S85 Tonic now.

food taste. Don't wait! Energize your body with fich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you est better, sleep better, feel better, work better, play better, have a healthy color glow in your skin-dim flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonis bottle from your drug store. St helps Build Sturdy Health.

Remembering 1942 when very late returns from outlying precincts gave O'Daniel his first full term after he was apparently beaten, one local sage said he knew where to locate the Senslaughtering cattle to prevent its ator. ## Big Job And A Piercing Thought

Herbert Hoover has accepted his last public assignment in assuming the chairmanship of the President's commission on the reorganization of the executive branch of the government.

As the nation's elder statesman and a man who has held the highest office of the land, he should be ideally equipped to make recommendations for the reorganization of a vast machinery which has become unwieldly. The report should have added significance in that it will be made after (and not before) the next presidential election.

This does not mean that its findings will be welcomed. On the contrary, the real crux of the fight will then be at hand. Everyone gives lip service to economy-unless and except when it affects a department or bureau in which they have a particular or personal interest. So the battle over what to cut and what to combine will be one with no holds barred.

In accepting the chairmanship, Mr. Hoover made one statement worth remembering long and well:

"Imagine that any computation would show that more citizens are employed trying to guide the relations of other citizens with the Government than are actually employed by the Government itself."

So if and when we get down to the long delayed business of trimming federal payrolls, we need to remember the elder statesman's words. There ought to be a companion responsibility on the part of the public in trimming their payrolls for people who are hired to put pressure on the Government.

## Fires Make Absolutely No Sense

. .

We are now in the midst of Fire Prevention week. Mayor G. W. Dahney has called upon the citizens to observe the occasion by self-appraisal of conditions in their own private areas. He pointed out that a loss now is apt to be especially keen in view of high replacement costs.

This is undoubtedly true. While many have raised insurance coverage to narrow the gap between normal and present day values, many have not done so, and of course there is always a large bloc who do not hedge against possible loss at all.

Regardless of whether individuals are in sound position in reference to being able to replace, there is no reason at all to permit fires. It has been established beyond any shadow of doubt that the big factor in starting fires is carelessness.

There is scarcely a home or a firm

The Nation Today-James Marlow-

ingly permits to exist. There are few but who will take chances feeling that odds are in their favor and that probably they will get by. If there were any way of knowing just how close we come to fires and the potential damage they could exact along with injury and loss of life, it would make us gasp. But these are unseen and we go right on being careless.

which does not have hazards that it know-

The fruits of carelessness are waste. The fellow that bemoans his luck after a fire but happily is able to say "I was covered" is not on solid ground. He has permitted a dissipation of property that did no one good. The material and machinery is gone beyond recall, and thousands of man hours put into its production are gone. So fires make absolutely no sense at all.

## Labor Law May Go Before Judge

WASHINGTON, UB-The new labor law may have to go before a judge pretty soon to see what ome of it means.

That's because of a difference of opinion between the people who have been appointed to carry out that new law, the Taft-Hartley Labor Act.

They are, on one side, the members of the five man National Labor Relations Board (NLRB) and, on the other, the board's general counsel.

The difference between the and the counsel.

WASH! GTON .- When popular French Foreign Minister Georges Bid sult came to Washington tast week he saw his old friend Jimmie Byrnes for the first time since the much-loved Jimmie retired as secretary of state. Their meeting recalled to men in it. Bidault a conversation he had with Byrnes about a year before in Paris. .propos of loans to France, Byrnes had complained: "Mr. Minister, the trouble with

France is that Frenchmen won't work." Bidault challenged this state-

ment and Byrnes went on to explain: "Look at your barbershops.

They're not open all day Monday.'

"Mr. Secretary," replied the French foreign minister, "We Frenchmen like to be clean-shaven at least one day a week, and for that reason our barbershops stay open all day Sunday. That is why you couldn't get a shave on Monday."

Note-In 1937 Byrnes went to Europe as a delegate to the Interparliamentary Union. Stopping in France en route he was impressed with the fact that the French closed their stores and offices at 11:30 a. m. Saturday and didn't open them again until Tuesday. In Germany, on the other hand, everyone was working hard, with large placards proclaiming "joy in work." Brynes went back and reported to FDR that in the eventual European war, France would be defeated.

"When I come back to this ture. earth in a reincarnation," says call "The One More Club." he Jammie Byrnes, "I would like to be a Parisian. ## Reds Are Out To Rule World

Well, now do the doubters fi-, nally understand that the Bolshevist world revolution for the establishment of communism is really under way?

If not, let them study Moscow's announcement of the Red conference in Poland and the establishment of a headquarters in Yugoslavia for coordination of the Bolshevist drive against American "imperialism." Call that organization by any name you will, and you still have the old Comintern - the Third International or general staff for -which Moscow world revolution in 1943 trumpeted had been abolished, thereby quieting the fears of a lot of ill-informed wishful thinkers abroad.

The meeting in Poland was attended by representatives of the communist parties of the Soviet Union, Yugoslavia, Bulgaria, Romania, Hungary, Poland, Czech-

In Hollywood-Bob Thomas

rialism and the crushing of deoslovakia, Italy and France. There you have the nations mocracy, and on the other, the which either are communized anti-imperialist and democratic and consequently are dominated camp, whose essential aim conby Russia or have strong Bolsists in undermining imperialshevist parties. The new headism, reinforcing democracy, and

quarters is being established in Belgrade, capital of Marshal Tito who breathes, eats and sleeps as Moscow directs.

Andrei A. Zhdanov of Russia's powerful politburo presented the international situation as seen through Moscow's eyes. At the conclusion of the conference the delegates-inspired by Zhdanov's pronouncement-issued a joint statement which pointed out that two camps have been formed in the world, and then went on to define them thus:

"On the one side the imperialist and anti-democratic camp. which has for its essential aim the establishment of the world domination of American impe-

liquidating the remains of fasc-"The struggle between these two camps-between the imperialist camp and the anti-imperialist camp-is developing under conditions of the continued accentuation of the general captialistic crisis, the weakening of the forces of capitalism , and the strengthening of the forces of

socialism and democracy." That's talking turkey. There's no subterfuge. It's a declaration of ideological war to a finishand that means a continuation of the strong-arm methods which Bolshevism has been exhibiting in eastern Europe.

## Fontaine Will Work For Herself

conflicted. All of the performers

HOLLYWOOD, UB-Joan Fontaine, free for the first time from film contracts, announces that hereafter she'll work only for herself.

"I'm going to be my own David O. Selznick," she told me. She is now making "Letters From An Unknown Woman" for her Rampart Productions and will either make pictures for that company or be loaned out by it. She is happy with the new set-up after years of working for Selznick. For instance, on her last loan-out, "Ivy," the producer received six times as much money as she did.

Olivia De Havilland, who just finished "The Snake Pit," wants to do another film right away. "But it's got to be good," she says. That's the trouble with Academy Award winners-they want to keep topping their previous efforts. So they don't work as often ...

Bette Davis tells me the Hollywood canteen foundation has found a worthy use for its large fund. As soon as a location can be found, the foundation will be a veterans' housing center with apartments to rent at \$65. The foundation has discovered that veterans don't want charity, but a helping hand in housing would fill the bill. . .

Charles Boyer wanted to be in "Joan" but was turned down, and for an interesting reason.

**Game Simplified** PHILADELPHIA, Oct. 7. in -/ Ray Morrison, offensive-minded

plex and there ought to be a major rules change compelling the defensive team to keep aix men on

URGES RULE CHANGE

the line. Kerr, the mighty mite who turned going to Lebanon Valley (Pa) College, told the Maxwell Memorial Football Club yesterday that teaching the game was becoming worse defenses employed. Unless there is simplification,

he warned that football is going to

George Munger, successful young coach at Pennsylvania, agreed with him about the game's complexity. He said: "I have a great deal of respect for Andy Kerr, and I'm all for simplification. But I don't believe six men at the line will simplify ft."

He explained that six men on a line could still overshift, undershift, loop right and left, and charge straight ahead. Here, he thought, is where things would have to be simplified.

Football, in the opinion of Andy grid tutor at Temple University. Kerr, is becoming entirely too com- wasn't quite as receptive to the proposed rules change.

"All these crazy defenses," he said, "are very aggravating to us

Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate in-

\$468,000,000 To Non-Operating Employes

In addition to this, an Arbitration Board has just granted a wage increase of 1514 cents an hour to the million employes represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

**Railroads Do Not Run For Employes** Alone

crease. No other course is open.

Railroads are operated for the benefit of not one, but several groups-shippers, passengers, employes, stockholders, and the general public. The interest of all must be served-and that cannot be done unless the railroads can operate efficiently and ecenomically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

## On top of these "rules" changes, the

For sheer feather-bedding, this mock

work proposal takes the cake. But it

is only one of 44 "rules" demands filed

by the leaders of the operating unions.

If all these demands were granted,

they would cost the railroads an added

BILLION DOLLARS & YEAR.
