Nixon Removes Limits For Oil Import Quotas

WASHINGTON (AP) — President Nixon removed oil import limits today in a wide-ranging energy proposal designed to end fuel shortages that plagued consumers last winter and gasoline shortages that threaten this summer.

In his message to Congress, Nixon also proposed to end federal price regulations on new supplies of natural gas. He offered a variety of measures, all aimed at assuring U.S. energy supplies for the future and avoiding over-reliance on foreign sources.

Nixon said deregulation of natural gas would permit prices of new gas to rise. But the consumer, he said, would be

protected against sharp increases because existing supplies would remain at regulated levels until their contracts expire.

Nixon made no estimate, however, of the over-all consumer impact of his proposals, some of which would tend to increase prices while others would tend to decrease or stabilize them.

He warned that, if present trends continue unchecked with U.S. energy demand outracing new supplies, "we could face a genuine energy crisis."

But that crisis can and should be averted, he said, "for we have the capacity and the resources to meet our energy

needs if only we take the proper steps—and take them now."

The most immediate step taken was his removal, by proclamation, of present quotas limiting imports of foreign oil.

He said oil importers could bring in as much as permitted under current quotas without paying further tariffs. He said they may, however, import petroleum in addition to the 1973 quota levels upon payment of a fee.

He said the tariff-free imports will be phased out over seven years until all oil imports are governed by the fee schedule.

In other major points of his

message, Nixon asked Congress to deregulate the price control of new natural gas supplies on the interstate market by the Federal Power Commission.

The proposed legislation would authorize the secretary of the Interior to monitor natural gas prices and impose a ceiling on them if necessary.

Prices already dictated by the FPC would remain unchanged.

The President directed the Interior Department to triple by 1979 its leasing of federal offshore areas for oil and gas development by extending the leasing into new areas beyond an ocean depth of 200 meters (about 622 feet) and beyond the channel islands off Santa Barbara, Calif.

But he resubmitted his previous proposal to create an oil-free sanctuary off Santa Barbara in the area which suffered a major oil spill in 1969.

Nixon asked Congress to authorize the Interior Department to license the construction of deep water ports in federal waters beyond the three-mile limit.

Lebanon Seeking Censure

UNITED NATIONS, N.Y. (AP) — Security Council members sought a resolution today that would condemn Israel's raids into Lebanon and still survive the veto gavel of the United States, China and the Soviet Union.

British and French diplomats were reported working with Arab delegations to draw up a draft for submission to the council. A British spokesman said his delegation wanted it to include references to both the Israeli attack and to Palestinian guerrilla activities.

U.S. Ambassador John Scali made clear on Tuesday that he would veto any resolution that did not also condemn acts of terrorism by the Arab guerrillas.

"Violence by conventional forces and violence by terrorists are to be condemned equally," he said. "One is as ugly as the other."

But China and the Soviet Union have indicated they will veto any such double condemnation. Last fall, in a similar situation, both Communist countries voted against a resolution "deeply deploring" all acts of violence in the Middle East.

Lebanese Ambassador Edouard Ghorra, who brought the complaint against Israel, said his government "completely rejects the idea of a so-called balanced resolution putting on the same level violence by states and individuals."

RELIGIOUS ART — Mrs. Thelma Bray and Rev. Lloyd Hamilton, pastor of First United Methodist Church, view a mosaic of St. Teresa by Viola Doggett, one of the various art items on display at the church patio room from 1-5 p.m. daily through Easter Sunday. The show, billed as an Easter Festival of Religious Art, features paintings, drawings, wood carvings, metal sculpture, madonnas, jewelry, children's work and other religious art items, including originals and collected art works from all parts of the world owned by Pampa residents. Open to the public, the festival is expected to become an annual affair. (Photo by Terry Hanna)

ON STATE SPENDING BILL

House Members Plan Late Session Tonight

AUSTIN (AP) — House members refused today to chop \$4 million from the State Health Department's budget as they ground slowly through their second day of debate on the \$9.7 billion state spending bill.

House members also voted to stay in session tonight to finish the bulk of their work on the bill.

Rep. John Wilson, D-LaGrange, offered the amendment to remove \$4 million from a catch-all health department

item estimated at \$48 million for each of the next two fiscal years.

Any estimate, he said, is bound to include some mistakes, and one that big should have at least a four per cent margin of error.

"I'm going against the dictates of my conscience by giving them more money than they deserve," Wilson said.

His amendment was tabled 81-62.

The House added an amendment by Rep. Don Cavness, D-Austin, to restore the appropriation for the Texas Commission for the Deaf. Cavness' amendment took \$59,700 from the budget for comprehensive health planning and gave it to the commission.

The House Appropriations Committee removed the item because it believed other state agencies adequately cared for the needs of the deaf.

House members broke off discussion of the general appropriation bill Tuesday evening after considering 25 floor amendments out of a stack of more than 100 on Speaker Price Daniel Jr.'s desk.

Only one amendment was added Tuesday. But it did no violence to the plan of Gov. Dolph Briscoe and legislative leaders to avoid a bill that would require new or increased taxes to balance with anticipated state revenue.

The amendment, by Rep. Bill Hollowell, D-Grand Saline, removed \$10,000 per year for travel by district judges to the National College for State Trial Judges.

"Let them pay for their own vacations," he said.

Hollowell was on the losing end, however, of an 85-55 vote to table his amendment eliminating \$216,622 earmarked for rehabilitating alcoholic inmates of Texas prisons.

"We are talking about inmates in the penitentiary who are incarcerated, and that is the best cure they've ever had," said Hollowell, a militant teetotaler.

Sen. Bob Packwood of Oregon, signed the version finally approved.

In the Senate, maneuvering over a voter-registration bill dominates the floor calendar with the bill's manager, Sen. Gale McGee, D-Wyo., threatening to bring it up.

Democratic Whip Sen. Robert Byrd said the wage-price bill won't be brought up until the day the authority expires, the day that Congress returns.

Some congressmen saw the bill as an opportunity for Congress to override the President's approaches to controlling inflation and unemployment by impoundment and cutbacks in approved programs.

But in each chamber, they lost on a lengthy list of amendments calling for everything from rolling back food prices and the prime interest rate to six-month freezes across the board.

IN WATERGATE CASE

President Allows Aides To Testify

WASHINGTON (AP) — The Watergate investigation is gaining momentum after President Nixon abandoned the blanket claim of innocence for White House aides.

Nixon said Tuesday he will send his aides to testify publicly as demanded by Senate investigators preparing for hearings next month.

He said he launched a new presidential inquiry into the matter last month, about the time Watergate burglar James McCord began telling his story to a Senate committee and a federal grand jury.

This time the President's inquiry is being conducted by persons outside the White House staff, some of whose members reportedly have been implicated in McCord's secret testimony.

In a related development, Nixon's re-election committee was reported to have offered the Democratic party \$525,000 in damages to settle a multi-million-dollar package of lawsuits over the Watergate raid. But Democratic National Chairman Robert S. Strauss said he wouldn't accept any offer until it becomes clear that

the affair will be aired sufficiently in public inquiries.

Nixon disclosed his actions in a three-minute statement to newsmen at the White House. No questions were permitted.

He said he met Sunday with Atty. Gen. Richard G. Kleindienst and Asst. Atty. Gen. Henry Petersen who gets reports of grand jury testimony.

"I can report today that there have been major developments in the case," Nixon said. "Real progress has been made in finding the truth."

He wouldn't elaborate on the developments or name anyone who might be under suspicion. But he also said he has told investigators that no officials are exempt from prosecution, and said he'll suspend any government employee indicted in the case and fire anyone convicted.

White House Press Secretary Ronald L. Ziegler said that supersedes Nixon's longstanding claim that administration officials have been cleared because the latest statements stem from "serious charges" that Nixon said first reached him March 21.

The President's original

claim was made more than seven months ago on Aug. 29 at a California news conference. Nixon said then that presidential counsel John W. Dean III had concluded an independent investigation of the burglary and wiretapping of Democratic offices at the Watergate building.

Nixon said then "categorically" that Dean's probe indicated nobody then in the White House or the administration was involved. However, reliable sources say McCord has testified that another conspirator, G. Gordon Liddy, told him that Dean himself helped plan illegal bugging and related activities.

Nixon now has abandoned his attempts to keep Dean and other White House aides off the Senate witness stand.

Militants Wounded

WOUNDED KNEE, S.D. (AP) — Government reinforcements circled Wounded Knee today following a heavy exchange of gunfire that wounded at least two and possibly six of the militant Indians who have held this village 51 days.

A border patrolman from Montana said he and about 25 colleagues had been brought in to aid the 300 U.S. marshals and FBI agents around the village after the 90-minute gunfire exchange Tuesday morning and sporadic shooting the rest of the day.

An unidentified member of the estimated 150 Indians occupying Wounded Knee was listed in very critical condition this morning after undergoing brain surgery in a Rapid City hospital. A supervisor at the hospital said the man had suffered a gunshot wound in the head.

A government spokesman said at least one other Indian had been wounded during the exchange and no federal lawman had been hit. Sources on the Pine Ridge Reservation said four other militants were wounded but the five had been treated in the village.

The shooting was the first verified violation of a 3-week-old cease-fire.

House members broke off discussion of the general appropriation bill Tuesday evening after considering 25 floor amendments out of a stack of more than 100 on Speaker Price Daniel Jr.'s desk.

Only one amendment was added Tuesday. But it did no violence to the plan of Gov. Dolph Briscoe and legislative leaders to avoid a bill that would require new or increased taxes to balance with anticipated state revenue.

But in each chamber, they lost on a lengthy list of amendments calling for everything from rolling back food prices and the prime interest rate to six-month freezes across the board.

House Republicans refused to sign the compromise version, citing one provision that gives the president authority to allocate petroleum products. This is seen as working in favor of independent distributors against the big oil companies.

"This makes the president a czar over the oil industry," said Rep. Garry Brown, R-Mich., "the House will never accept this."

Sen. John Tower, R-Tex., did not sign the report either.

Head Coach Barry Switzer said he had assured Dr. Paul Sharp, the university president, that no other member of his staff was involved in the incident.

Walker also said that Jackson had stayed in the athletic dormitory during two visits to the OU campus when he was a high school senior.

Both the transcript tampering and the dorm stays are violations of Big Eight Conference regulations, and the conference is investigating, Walker said.

Oklahoma Sooners To Forfeit 9 Wins

NORMAN, Okla. (AP) — The University of Oklahoma Sooners, the nation's No. 2 ranked football team last year, will forfeit nine of its wins, including its Sugar Bowl victory over Penn State, because of recruiting irregularities.

Athletic Director Wade Walker told a press conference the school would forfeit every game in which freshman Kerry Jackson of Houston, Tex., the top quarterback this spring played. That will mean Oklahoma will retain victories over only Kansas State, Iowa State and Nebraska.

In addition, Walker said, the resignation of offensive line coach Bill Michael had been asked for and received.

Walker said the high school transcripts of both Jackson and Mike Phillips, also of Houston, had been tampered with. He said Michael had admitted he had knowledge of the transcript irregularities.

Head Coach Barry Switzer said he had assured Dr. Paul Sharp, the university president, that no other member of his staff was involved in the incident.

Walker also said that Jackson had stayed in the athletic dormitory during two visits to the OU campus when he was a high school senior.

Both the transcript tampering and the dorm stays are violations of Big Eight Conference regulations, and the conference is investigating, Walker said.

Seale Gets Runoff Spot

OAKLAND, Calif. (AP) — Black Panther Bobby Seale ran a distant second in his race for mayor of Oakland, but won a runoff with incumbent John Reading, who fell only 41 votes short of a majority in unofficial returns from the nine-way race.

In nearby Berkeley, a moderate-liberal coalition came from behind to lead radicals in a race for four council seats and control of city government.

The final, unofficial total in Oakland's election Tuesday was Reading 55,342 to 21,314 for Seale. Reading needed more than 50 per cent to avoid a May 15 runoff. His final unofficial total was 49,92 per cent. Seale had 19.26 per cent of the 110,851 votes cast. Seven other candidates got the remaining votes.

Seale, chairman of the Black Panther party, had predicted he would win by a landslide.

A spokesman said Seale would have no immediate comment, but Reading told a news conference he was surprised he hadn't done better against the Panther chairman.

"Frankly, I felt that I'd make it in the primary by a narrow margin," Reading said. He attributed Seale's showing to his organization.

A radical slate, which needed two of four council seats to take control in Berkeley, picked up only one. With all votes from the city's 169 precincts counted, the moderate-liberal coalition had elected three of its slate.

In early Berkeley returns, four radical candidates held the four top spots in a field of 22 candidates, with four members of the moderate-liberal "Berkeley 4" slate running fifth to eighth.

But the "Berkeley 4" gained throughout the night and had first, second and fourth spots with 91 per cent of the vote counted.

Group To Decide Dates For Cleanup

Dates and plans for Pampa's annual city-wide cleanup campaign will be discussed at a meeting of the Chamber of Commerce Fire Prevention and Safety Committee at 10 a.m. next Wednesday in the chamber conference room.

Paul Payne, committee chairman, has called the meeting with R.B. Cooke, city public works director, and other city officials.

The cleanup drive is conducted each year with the chamber assisting in plans and city sanitation department employees and trucks making the trash pickups.

The drive usually lasts four weeks with city trucks operating one week in each of Pampa's four wards.

Educational Revision Bill Under Study

AUSTIN (AP) — A bill totally revising Texas' system of public school financing to give poor communities a better break was approved today by a House subcommittee.

The full House Education Committee plans to act on the measure Thursday morning, according to Chairman Dan Kubiak, D-Rockdale.

Kubiak said the bill was revised Wednesday night after he conferred with Gov. Dolph Briscoe.

Besides revamping the school finance system, the bill also would require greater state expenditures on education—an increase of \$91 million over the next two years.

Kubiak quoted Briscoe as saying he was sticking with his insistence on no new state taxes but "would try to do everything possible to try to find some additional funds somewhere."

"This is not a whole lot of money to solve a problem as complex as this. I appreciate the cooperation of the governor and his true understanding of what the problem is," Kubiak said.

He gave the measure a 50-50 chance of passage, maybe better, Kubiak said.

The "problem" to which Kubiak referred is the discrepancy between the kind of money rich and poor districts now have for schools. A federal district court in San Antonio said this was unconstitutional, but the U.S. Supreme Court overruled that decision.

Kubiak's bill would do away with the present system that bases a district's financial responsibility on a complicated "economic index," with the state-making up the difference. Instead, a district's taxing capacity would be measured solely on the market value of real estate within its boundaries.

"Starting with the 1975-76 school year, state and local taxpayers would provide an average of \$700 per school child annually, compared with about \$600 now."

All this would be for a basic educational program for each child.

Local school districts also would have the option of "enriching" their pupils' education beyond the minimum program.

By 1976-77, a district could spend up to \$300 per pupil for enrichment. The first \$100 could be obtained with a property tax of 10 cents per \$100 of market value of real estate. If a district's real estate values were so low—or its enrollment so high—that this rate would not

produce \$100 per pupil, the state would make up the difference.

To get the additional \$200, a district could impose a tax of up to 30 cents per \$100. Again, the state would supplement the local funds if that rate would not raise \$200 per pupil.

The enrichment system—or "leeway funds"—would be phased in, starting with \$50 per pupil in 1974-75, another \$50 in 1975-76, and the other \$200 in 1976-77.

With knowledge of market value of real estate the key to the new system, Kubiak endorsed a bill imposing a state documentary stamp tax on real estate transfers. That bill, which the real estate lobby is working hard to defeat, is pending in the House Revenue and Taxation Committee.

Kubiak's bill also makes numerous increases in state support for basic educational program, including:

—An increase in the teacher pupil ratio from 1-to-25 now to 1-to-24 in 1974 and 1-to-23 in 1975.

Allocations of other staff would be increased.

The operating allowance for schools—which includes some things now labeled as enrichment—would be increased from an average of \$30 per pupil now to \$40 in 1974 and \$50 in 1975.

Transportation funds would be raised 28 per cent or \$800 per bus route in 1975.

A new compensatory program for educationally disadvantaged children would be set up, costing \$75 per qualified child each year.

Public kindergarten, providing a half day of school for each 3-year-old, would go into operation this fall.

Briscoe's press secretary said the governor believes the bill deserves "very thorough, careful consideration." He said Briscoe would be "in a better position" to analyze it after he receives a computer analysis of the bill's impact on each school district from the Texas Education Agency by the end of the week.

YOUNG BOOZERS INCREASE
TORONTO (AP) — Student use of alcohol is on the rise here, says an Addiction Research Foundation report. A survey of more than 5,600 public and high school students showed alcohol users had increased from 46.3 per cent in 1968 to 70.6 per cent in 1972.

Area Doctor Named Head Of TB Group

Bill Mackey of Pampa today announced that an Amarillo physician, Dr. Ted M. Nicklaus, was installed at the annual meeting of the Texas Tuberculosis and Respiratory Disease Association as president of the Texas Thoracic Society, an organization of physicians concerned particularly with chest disease, in Dallas.

He also announced that the board voted to change the name of the Christmas Seal organization to the American Lung Association of Texas.

Panhandle area residents attending the state meeting were Mrs. Cora McNair of Miami, Glynn B. Roland, Dr. Ted Nicklaus, and Charles McIntosh, area executive of Amarillo.

The Top of Texas Division was presented the program award for its activities in combating cigarette smoking among the student population in the Texas Panhandle.

Newfoundland has no snakes, skunks, poison ivy or hay fever.

HEW Cites 19 School Districts

WASHINGTON (AP) — Nineteen school districts, including five in Texas, were cited Tuesday by the Department of Health, Education and Welfare for desegregation hearings that could lead to loss of federal aid.

The department was acting on orders from a U.S. district court.

The government lost in its third attempt Monday to stay a sweeping desegregation ruling two months ago by District Court Judge John H. Pratt.

The director of HEW's Office for Civil Rights, Peter E. Holmes, said the new wave of letters sent to the districts "carries no immediate threat of the federal fund cutoff," and he said hearings would not begin until mid-June at the earliest. Holmes stated that proceedings would be dropped whenever a school district comes into compliance.

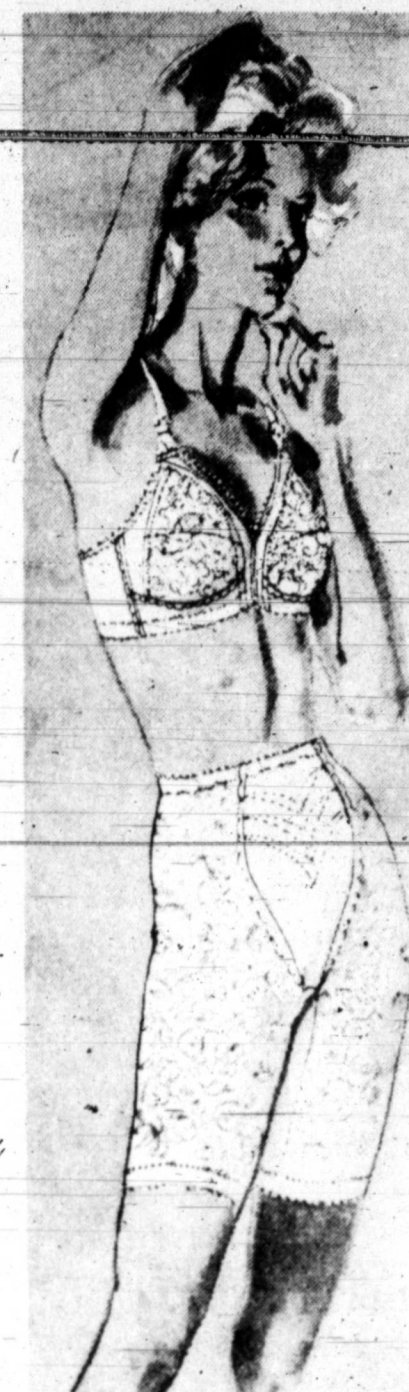

The Texas districts involved are Big Spring, Corsicana, Marshall, and Victoria. Other districts are Owensboro, Ky.; Kingston City and Tarboro, N.C.; Sumter, No. 17 and York No. 3, S.C.

Another ten districts which recently have "indicated a possibility of complying" will be given two more days before the freeze on new fund applications takes effect.

They are Goose Creek, Tex.; Marion County, Fla.; Griffin Spalding, Ga.; Tupelo and Warren County, Miss.; Ardmore, Okla.; Beaufort County, S.C.; Clarksville, Montgomery and Lauderdale County, Tenn.; and Alexandria, Va.

The districts of Capital, Del.; Anne Arundel County, Md.; De Soto County, Miss.; Montgome-

Dear Abby

Afflicted? Try the power of the press

By Abigail Van Buren

DEAR ABBY: Concerning that woman in Twin Falls, Idaho, who wrote complaining that no doctors in that town would deliver her baby without full payment in advance: she said a neighbor of hers who had been seeing a doctor all along suddenly found that he refused to deliver until he was paid in full.

It surprised that she hadn't gone to the newspaper, a newspaper is the public watchdog. It is the obligation of newsmen to bark when the general welfare of the public is endangered.

Sounds like a weak bunch of money-hungry newsmen up there who are afraid to let anything in their paper that may make an advertiser unhappy. The advertisers then become the controlling element of the press.

This situation should be fully covered in stories and editorials. Each doctor in the town should be contacted by a reporter and his story put into print. In this action it is likely that one or more will turn up that do not subscribe to the mercenary policy described.

What is our society coming to if money, or the lack of it, determines if you have the right to live or die? Nowadays, the colleges that give these doctors their education and the hospitals in which they get their experience are lavishly supported by our tax dollar.

If the newsmen in that area lack the intestinal fortitude to get this story in and get it accurately, they have no right to call themselves newsmen. They lack commitment to the profession and to the public they serve. They are an insult to the professionals in the field.

That woman should camp on the managing editor's desk until he puts one or more competent reporters on the story and either proves her wrong or exposes the situation for what it is. This is the obligation of the paper to the community.

AN OLD SCHOOL MANAGING EDITOR

DEAR OLD: Hold it! The TIMES-NEWS in Twin Falls did exactly that. With no prompting from me or anyone else.

DEAR ABBY: Our son, Ronny, will be 5 on Dec. 27, 1973. According to the laws of this state, a child who is 5 years old by Jan. 1, 1974, is eligible for kindergarten in September.

I'm afraid if we start Ronny in kindergarten in September he will not only be the youngest, but the smallest child in his class.

He is very bright, but his father and I are both small, and Ronny is very small for his age. Do you think he will feel handicapped if he's the shortest boy in his class?

My husband thinks we should wait a year. Then Ronny will have an extra year to grow, and maybe he won't be so much smaller than his classmates. One problem is that all of his playmates in the neighborhood will be starting kindergarten this September and he wants to start, too.

What do you advise?

RONNY'S MOM

DEAR MOM: Let Ronny start school with his friends. His mental growth is more important than his physical growth. And stop making an issue of how small he is. It may not occur to Ronny to feel handicapped because of his size unless you suggest it.

DEAR ABBY: Two years ago I wanted to end my life so I took an overdose of sleeping pills. My father came home and found me unconscious and rushed me to a hospital.

In order to save my life, they stuck a long tube down my throat and in so doing they impaired my vocal chords. Now I can scarcely speak above a whisper. People are always asking me if I have laryngitis.

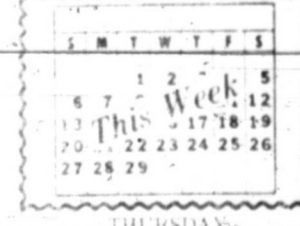

Sometimes I say yes, but sometimes it gets so annoying I just tell them to mind their own business. What should I tell people?

ANNOYED

DEAR ANNOYED: It's not necessary to explain. Simply say, "It's a chronic condition." That should suffice.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY: Box No. 69700, L. A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 69700, Los Angeles, Cal. 90069.

EHRLING TO JULIARD
NEW YORK (AP) - Sixteen Ehrling will join the Juliard School as head of the orchestral department beginning in October.

At present, the Swedish born Ehrling is music director of the Detroit Symphony, a position he has held since 1963 and which he is relinquishing at the end of the current season.

At Juliard, Ehrling will conduct the Concert Orchestra and supervise the training of student conductors. Juliard has three orchestras.

Lee-Gamble Vows Said In Church Of Christ

Miss Jenny Etta Lee became the bride of Donnie Ralph Gamble at 7 p.m. Saturday, April 7 in the Pampa Church of Christ.

Mr. and Mrs. Lacy Lee, 1204 S. Faulkner are parents of the bride and the bridegroom is the son of Mr. and Mrs. Harry S. Gamble, Old Hickory, Tenn.

CEREMONY

Charles Goodnight, minister of the Church of Christ in High Rolls Mountain Park, N.M., officiated for the ceremony before an altar flanked with baskets of yellow gladiolus and candelabra holding candles and fern.

THE BRIDE

The bride, given in marriage by her father, wore a formal gown of peau de Soie and re-embroidered lace over bridal taffeta designed with a high neckline, empire waist, long camelot sleeves and semi-A-line silhouette with full back. Insets of lace enhanced the neckline, bodice and sleeves of the gown. The full back ended in a sweeping chapel length train. Her veil of imported illusion fell from a coil, and she carried a bouquet of yellow roses atop a white Bible. She carried out the tradition of something old, new, borrowed and blue.

ATTENDANTS

The bride's attendants included Miss Mary Davis, maid of honor, and Miss Yvonna Lee and Miss Susie Jordan, bridesmaids. They wore blue, floor length gowns of different designs and matching corsages of blue carnations. Miss Linda Rose Lee.

Club News

MRS. DONNIE RALPH GAMBLE, nee Miss Jenny Etta Lee

Robin Lee, sister and brother of the bride, lighted the tapered candelabra. Miss Lee wore a formal gown of lace over yellow and her flowers were yellow carnations. Miss Audrey Rawls and Melissa Paddock were flower girls. They wore blue and yellow, floor-length gowns and carried baskets of yellow rose petals.

MOTHERS

The bride's mother wore a floor-length blue velvet gown trimmed in white lace and a yellow carnation corsage. The bridegroom's sister wore a floor-length pink gown.

Doug Lee, brother of the bride, served as best man. Ushers were Mickey Lee, brother of the bride and John Lee, cousin of the bride.

RECEPTION

A reception, immediately following the ceremony, was held in the bride's grandparents' home, Mr. and Mrs. J.C. Steward, 811 E. Kingsmill. The serving table was covered with a hand crocheted cloth. The three-tiered wedding cake was served by Mrs. Dan Rawls, aunt of the bride.

Mrs. Foy Barrett served punch. For the wedding trip to Lubbock, the bride wore a floor-length pink dress.

AFFILIATIONS

The bride is a 1971 graduate of Pampa High School. She attended Lubbock Christian College where her major was elementary education. She was a member of the Kajo Kai and the choir.

The bridegroom is a 1970 graduate of Lewisville High School, Lewisville, Tex. He also attended LCC, majoring in Bible, and was a member of Thmo Dachi and chorale.

The couple plan to make their home at 1514 McCullough. They plan to attend the Sunset School of preaching in the near future.

OUT-OF-TOWN GUESTS

Out-of-town guests were Mr. and Mrs. Arnold Lee and family, Hugaton, Kan.; Mrs. and Mrs. Dan Rawls and family, Euleess, Tex.; Mr. and Mrs. John Jordan and family, San Angelo; and Mr. and Mrs. Richard Paddock and family, Lewisville.

Your Horoscope

By Jeanne Dixon

THURSDAY, APRIL 19

Your birthday today: Progress this year requires serious thought and patience. Any changes now are temporary phases on the way to some more advanced development. Today's natives seek responsibility, but are often impractical.

Aries [March 21-April 19]: De-clutter your working place. Review your wardrobe and plan replacements. Defer new ventures a few days more.

Taurus [April 20-May 20]: Help comes in disguise today. The trick is to recognize and make use of it.

Gemini [May 21-June 20]: Get out and away from it all for a while. Note that problems are not as big as you thought.

Leo [July 23-Aug. 22]: Take a long moment for a look at the past. Recent insights may put history into a different perspective for you.

Virgo [Aug. 23-Sept. 22]: You're ahead of the crowd by simply bucking down to work and clearing off unfinished business.

Libra [Sept. 23-Oct. 22]: Recovery is today's theme. Collect whatever is owed you. Sell or give away any surplus items.

Scorpio [Oct. 23-Nov. 21]: Self-possession attracts support and confidence even from strangers. Vigorously attempt some long-postponed creative or corrective action.

Sagittarius [Nov. 22-Dec. 21]: Do not let the quiet quality of today lull you into laziness. Stir yourself, attend neglected chores.

Capricorn [Dec. 22-Jan. 19]: Your projects bring rewards proportionate to what you put into them: It's better to go it alone today.

Aquarius [Jan. 20-Feb. 18]: Set things right early at work; later hours are just as well spent taking a fresh look at your home.

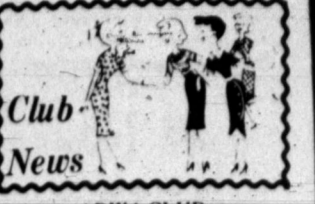

Pisces [Feb. 19-March 20]: It's a day for reconsideration. Meditation opens the way. Reach out to make amends wherever needed.

Lipstick Choices

Never choose a lipstick because it's the latest fashion color. Before you purchase lipstick be sure it goes with your skin tones.

Almond Eyes

To accentuate almond-shaped eyes, emphasize the inner corner with a pencil or thin eyeliner brush.

Club News

ABWA CLUB
Pampa Charter Chapter of the American Business Women's Association met recently in the dining room of the Lampliter-Restaurant for their regular monthly meeting. John Warner presented the program on the filming of "Time to Run" that is showing in Pampa now.

After the program, plans were made for the ABWA Scholarship Month which is the month of May.

Members present were: President Ellen Malone, Kathleen Dulaney, Marilee Elledge, Bessie Franklin, Joy Click, Helen Graham, Dorothy Herd, Mellonee Jennings, Betty King, Vivian Locke, Babe Martin, Clara Quary, Nina Nichols, Clara Quary, Nina Richmond, Doyce Shelton, Betty Mounce and one guest, T.A. Mastin.

Subtle Eye Shades

If you decide to match your eye shadow with what you're wearing, at least keep the touch subtle. It's best to keep the shades as close to natural as possible.

YEAGER HEARING AID

Repair on all models can be handled through this office. Serving The Golden Spread 8 yrs. Is Now Located in The B&B Pharmacy. Will be in Office Each Tues. & Thurs. Those With Hearing Problems are Invited in For a Free Audiometric Test Without Obligation.

Season's Final Concert Set For Saturday Night

The duo piano team of Arthur Whitmore and Jack Lowe will appear Saturday night in the M. K. Brown Memorial Auditorium as the fourth and final attraction of the Pampa Community Concert Association's 1972-73 concert season.

Whitmore and Lowe have just celebrated their 25th anniversary as performing artists on the concert stages of the world.

The year was marked with numerous festivities in cities on their itinerary highlighted with a lavish party in New York given by Baldwin Piano Co., which was attended by such distinguished personalities as Robert Merrill, Morton Gould, Virgil Thomson, Ethel Merman and Eleanor Steber. In addition,

they were the subject of many newspaper and magazine stories throughout the country.

With the excitement of their anniversary still fresh, Whitmore and Lowe are now embarked on a 1972-73 season which is one of the most eventful in their long and successful associations with Columbia Artists Management.

Universally acknowledged as music's foremost two-piano team, they have run up a record of achievement that may never be paralleled in the field of music.

Whitmore and Lowe were the first duo-pianists to appear at the White House, to introduce popular music on the concert stage and to have averaged over 70 concerts a year. At their performances standing ovations are the rule rather than the exception.

Curtain time for the PCAA's final concert of the current season will be 8 p.m. Saturday.

The first concert of the 1973-74 season will be Guy Lombardo and His Royal Canadians Oct. 16.

DUO PIANISTS — Whitmore and Lowe, internationally known piano team, will be on stage Saturday night at the M. K. Brown Memorial Auditorium. It will be the final concert of the Pampa Community Concert Association's 1972-73 season.

The Bible has been translated into nearly 1,500 languages and dialects, and linguists around the world are working on 500 new versions.

A snail may generate about 1/25-millionth of a horsepower to maintain its pace, calculated to be an average of .000033 miles an hour.

Ex-Con Now State Senator In Arizona

PHOENIX, Ariz. (AP) — Ten years ago, John Scott Ulm walked out of the Colorado State Reformatory at Buena Vista and flaunted tradition.

"I broke an old rule which says if you look back you'll go back," Ulm recalls. "But I looked back at the place and vowed I would never go back."

He had \$15 in his pocket and a train ticket to his home in Independence, Kan.

Today, the 30-year-old Democrat from Tucson is serving his first term as an Arizona state senator.

An outspoken legislator, Ulm fought unsuccessfully against Senate passage of a bill to restore capital punishment, describing it as "a move to return to barbarism."

But he says he has no special grievance against law and order legislation.

"The same laws that got me

into trouble also protect me, but I'm not willing to hand over all power to the police," he said during an interview on Monday.

Ulm said he was forced into marriage at the age of 18 while still a senior in high school at Independence and had to combine his studies with a job to support his family.

Ulm went on to the University of Kansas, but the marriage broke up by the time he finished his sophomore year.

He moved to Greeley, Colo., and ran afoul of the law there while working as a disc jockey, Ulm said.

"During that period of emotional pressures I wrote checks that bounced and then wrote more to cover them," he said.

Sentenced to a term of 1-20 years, he was released after serving nine months.

Independence, he moved to Topeka.

Ulm met his second wife, Jeanette, there while attending night classes at Washburn University. They moved on to Tucson and now have a son, Mark.

Ulm met his second wife, Jeanette, there while attending night classes at Washburn University. They moved on to Tucson and now have a son, Mark.

Xmas Lights
Martin Luther was perhaps the first man to use lights on a Christmas tree. Luther put lights on his tree to represent the glory and beauty of the stars above Bethlehem on the night of Christ's birth.

KENTUCKY RULES ON BLACK RETIREMENT
FRANKFORT, Ky. (AP) — The attorney general's office says retired black teachers in Kentucky can't be paid higher retirement benefits to make up for past inequities in their pay.

Jane's shocking idea may not seem so radical if you consider both sides of the question. Contrast her dad's death at 61, with the senility of 78-year-old Martha in Monday's case. Which leads to the most happiness for everybody?

CASE W 581: Jane D., aged 27, may startle many readers. "Dr. Crane," she said, "my father was a chain smoker. His blood pressure rose above the 200-mark, so our physician told him he'd either die of cancer or a coronary attack."

"Well, it was a coronary attack. It struck him in the middle of the night and he was unconscious—almost instantly. He died before we got him to the hospital. Yet he was only 61, and had always been such a dynamic personality!"

"My two sisters and I felt terrible and so did Mother. But as I consider such cases as that of Martha, who became a victim of senile dementia and thus was reduced to the intelligence of only a toddler, I have begun to wonder."

"Maybe it would be wise if we let our older folks die early! For then we'd remember them while their brains were alert and they had not driven their families into an irritable state, due to their childish behavior."

"Instead of trying to lengthen the lifespan of Americans, perhaps we should encourage them to overeat and smoke excessively!"

"For don't those bad habits tend to produce earlier deaths from coronary attacks? I know that my sister and I would much prefer to remember Dad while he was in full control of his mental faculties, than to see him degenerate into a human vegetable, who might live to be 90."

Don't Burn Them
DAYTON, Ohio (AP) — Plastic throw-away bottles now being test marketed by several large soft drink firms give off poisonous fumes when burned, according to a University of Dayton research report.

The company manufacturing the bottles denies the claim. Don Duvall, a research chemist at Dayton, said, "The main conclusion to be drawn from our investigation is that significant quantities of highly-toxic substances can be produced when these plastic materials are burned or heated."

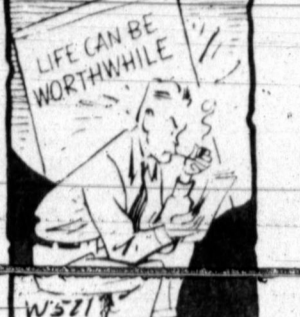

Duvall made his comments Monday at the Combustion Institute meeting in Tempe, Ariz. "Since people will find the bottles burn readily, it will be a big temptation to burn them in the trash," he said.

If a person inhales enough of these toxic gases, "it can result in death by cyanide poisoning."

HUMAN VEGETABLES

To appreciate what Jane means by a "human vegetable" you should visit the "Rest Homes" where many Senior Citizens spend their final years. In many cases (fortunately not all), men and women hardly 70 years of age don't even know their own names!

They may grab food in their fists and eat it without benefit of spoons or forks, much as babies in a high chair!

They often deteriorate into the diaper stage, where they don't even look after their own toilet functions!

Disoriented, they may not even recognize their own children.

It is thus pitiful to see this decline of intelligence in what were once alert men and women, formerly successful business leaders, doctors and lawyers, teachers or clergymen.

Throughout the ages, our ancestors realized the truth of the adage:

"Once a man but twice a child!"

"Our second childhood," is likely to confront everybody, despite all the modern miracles that medicine and chemistry have to offer.

Some modern writers have thus suggested the "shocking idea of euthanasia, (peaceful putting to sleep) of these human vegetables, both for their own sake, plus that of their children (and the taxpayers).

At first thought, this sounds harsh and unfeeling.

But if you ever had to work in a Nursing Home for a short time, you'd realize why many kindly attendants are quite sincere in their support of euthanasia.

We doctors, however, swear the Hippocratic Oath when we graduate from Medical College, so we have vowed to prolong life and fight the Grim Reaper to the finish.

But many times I've seen obstetricians let severely deformed new babies, die in the delivery room at hospitals so the mothers wouldn't be shocked at seeing the monsters they had borne.

For such monsters often start life as total idiots and remain human vegetables as long as they live.

Always write to Dr. Crane in care of The Worry Clinic, Hopkins Bldg., Majors, Indiana 47801. Enclose a long stamped, addressed envelope and 25 cents in cover typing and printing costs when you send for one of his booklets.

Mainly About Skellytown

Mr. and Mrs. John Kramer Sr. were in Oklahoma City recently to attend the wedding of a nephew, Jerry King, and Miss Josephine Braden at First Assembly of God Church.

Mr. and Mrs. Miles Pearson have returned from a vacation trip to Chula Vista, Calif., where they visited their son, David and two grandchildren, Dawn and Donnie David is a policeman on the San Diego force.

Rev. and Mrs. Murie Rogers, Shamrock, former pastor of First Baptist Church here, were recent dinner guests in the home of Mr. and Mrs. Irvin Brown, Cabot Camp.

Mrs. Bob (Grace) Rhodes has been dismissed from Highland General Hospital following major surgery.

Men attending a Shell Oil Co.

safety meeting and dinner in Elk City, Okla., were Gene Pace, Don St. Clair, J.R. DeLos Santos, Dan Lane, Clyde Ellis, Burl Williams and Emmett Saxon.

Mrs. Clifford Coleman and Mrs. J.M. Grange were in Pampa recently, where they attended the Pampa News Press Coffee at the Country Club.

Mr. and Mrs. Sam Elliott were in Amarillo Tuesday where they visited their daughter, Linda, employed at the Amarillo Public Library.

Mrs. Kate Enoch visited Mrs. Eva Richardson and Mrs. Ersel Wright in Pampa, Friday and Saturday.

Mr. and Mrs. Charley Coleman and children of Spearman, spent the weekend with his parents, Mr. and Mrs.

Clifford Coleman. Mrs. Earl Lane accompanied her sister Mrs. A.R. Clawson and husband of McLean to Bunivista Sunday where they visited Mr. and Mrs. Buck McLemore and new son, Patrick, a great grandson of Mr. and Mrs. Clawson.

Mr. and Mrs. Bob Heaton had as weekend guests their son David and wife, Teresa and children, Dalhart.

Mr. and Mrs. John Kenney had as weekend guests, his sister Mrs. Ray Wooley and husband, Fort Worth. The Kennes and Wooleys spent Tuesday in Stinnett where they visited relatives.

Mr. and Mrs. Randy Blumer and son, Chris, Woodward, Okla., spent the weekend with her parents, Mr. and Mrs. Lerby Snodgrass and

daughters. Mr. and Mrs. R.C. Rhodes, Fairview, Okla., spent the weekend with his sister, Mrs. Gertrude Huckins.

Mrs. Eula Berry spent the weekend with her friend, Mrs. Darlene Russell in Amarillo.

Mr. and Mrs. Jim Hutchinson and son, Freddy, Morris, Ill.

spent the past weekend with their parents, Mr. and Mrs. Paul Sangster and family and Mr. and Mrs. Jack Hutchinson and son Ernie.

Mr. and Mrs. Clarence Kaiser had as dinner guests Thursday their son, Arlin, and family, White Deer.

CHRYSLER FULL-LINE--Pampa Chrysler-Dodge Inc., 821 W. Wilks, now offers the complete line of Chrysler products--Chrysler, Plymouth, Dodge, and Dodge trucks. If you are in need of a new automobile or pickup, the place to go is Pampa Chrysler-Dodge.

(Staff Photo)

Doug Boyd Is Now Offering Full-Line Chrysler Products

Since the first of this year, Doug Boyd, car dealer in Pampa for over 13 years, has had the Chrysler Products dealership for Pampa. Pampa Chrysler-Dodge Inc., the first dealership in Pampa to offer the entire line of Chrysler automobiles and trucks -- Chrysler, Plymouth, Dodge and Dodge trucks. Located at 821 W. Wilks, the motor company features a four-car showroom and a half-block area completely full of cars for your selection. Chrysler now offers an electronic ignition system as standard equipment on all of its vehicles. It is a feature only available on Chrysler products. Eliminated as an area of concern in a Chrysler vehicle is the replacement of points and the condenser -- they have been eliminated from the system. With no points to replace the car needs no distributor timing adjustments. Also, in a Chrysler product automobile or pickup there are fewer spark plug replacements. Chrysler recommends replacement at 18,000 miles.

Most other manufacturers recommend that the plugs be changed after 12,000 miles. There is also virtually no voltage regulator replacement. The Chrysler regulator replacement. The Chrysler regulator is a solid-state with no moving parts. Practically everything that causes car tuning problems has been eliminated from the ignition system of the 1973 Chrysler line. Among other advantages in buying a Chrysler product this year, fewer fuel system filter replacements, no normal transmission service needed, fewer front-end lube and fewer air cleaner replacements. For full details on these and other good reasons for buying Chrysler, come by the

showroom and talk to the sales personnel there. Besides Boyd, Harold Starbuck, L.D. Boyd, Wallace Jouett and Tom Ammons are on hand to show you the cars on hand at Pampa Chrysler-Dodge Inc. They feel that the car you are looking for is right there. Pampa Chrysler-Dodge also has an experienced service department. Gale Sanders is the service manager. Mechanics are Roy Hunter, Jimmy Gilliam and Terry Jennings. Carl Baumgardner heads the clean-up department. Opal Stevens is the office manager and Gaylene Winborne is her assistant. If you are in the market for a new car, Doug Boyd and his staff think that your best bet is at Pampa Chrysler-Dodge.

PRICING SOME PARTS -- Ronnie Patton, partsman at Pampa Parts and Supply, is looking in the price list for a phone customer. At Pampa Parts and Supply you don't even have to be present to get a good deal. (Staff Photo)

Three Of Four Own A Home

NEW YORK (AP) -- Three out of four heads of household between ages 35 and 54 own their own homes today, and few will ever forget the day they signed the mortgage and closed the deal. It was a day of ignorance, confusion and surprise compounded by legalese of papers signed and checks slid across the table -- all choreographed by legal and lending experts who had practiced the routine for years. It was a day on which the buyer's naivete was exposed to the lender's expertise. Nobody prepared them adequately for the ordeal and if they left the table happy to have a home they left with a bundle of insecurities.

While the scene is still repeated every business day, the consumer movement has now provoked lenders and lawyers to better prepare their customers for what lies ahead, to offer help instead of maintaining the needless mystery. One of the latest efforts at clarification -- "Your Guide to a Savings and Loan Mortgage," is now being readied for distribution to the nation's savings and loan associations. It assumes that no question is too simple to answer. For example, what are the kinds of mortgages? There are three kinds, the booklet relates.

1. Conventional mortgage. The most common type. A private transaction between buyer and lender. 2. Mortgages insured by the Federal Housing Administration. 3. Mortgages guaranteed by the Veterans Administration. FHA and VA mortgages are government backed but are obtained through the lender, who is assured of reimbursement by the government if the borrower fails to pay. Simple of course, but how many present homeowners could not have benefited from an ABC when they first began looking? And who wasn't surprised to some extent by the fees lumped under the heading of closing costs? Among those that may or may not apply: property survey charge, title examination fee, title insurance premium, attorney fee, mortgage origination service fee, transfer taxes.

BOTANICAL GARDEN IN PRAGUE IS 75 PRAGUE (AP) -- Prague's Botanical Garden, harboring some 10,000 plants on a 3.5-hectare plot, will celebrate its 75th anniversary this year.

Annual Meeting Time Tests The Patience Of Executives

NEW YORK (AP) -- This is a time of year that tests executive patience, a period on the corporate calendar that falls between issuance of the annual report and plans for a summer vacation. It is annual meeting time. The number of affairs increases this week and reaches a peak in the third and fourth weeks of the month when, by one count, the stockholders of at least 145 companies listed on the New York or American exchanges gather on April 24. As usual, only a tiny percentage of shareholders will attend most meetings, just as only a relative few will do much with the annual report except use it to stir the air in the stuffy auditorium. The number who will ask a question from the floor will constitute an even more infinitesimal fraction. Almost no business will be conducted that has not because of planning and legal requirements, been agreed upon in advance. If a fired-up stockholder mistakenly assumes he can sound off as he pleases in this world of corporate democracy he is soon disabused of the notion when he finds his microphone turned off on orders of the chairman. What purpose then, other than to observe a traditional rite of spring, is served by the annual meeting? Very little, say some corporate leaders, except to irritate them, use up their time, and appease some windy discontents. Too often, they say, a professional meeting-goer seeking publicity can distract from the best laid plans, which usually include a little executive boasting about performance or the

introduction of a great new product. J.B. Fuqua, chairman of an Atlanta-based conglomerate by that name, has been conducting a personal battle against having meetings at all, arguing that they are a costly nuisance whose purpose cannot even be explained. Never, says the head of this 18,000-worker company, has even one in a thousand stockholders attended a meeting. Fuqua says that when polled, 99 per cent of them agreed that the meetings should be dropped. It would be much more edifying, he insists, if he were to communicate by mail with his shareholders, thus saving them the futility of a trip to Atlanta from the far corners of the country. If the annual meeting were to be effective, he suggests, it

would require active participation by individual shareholders. But then, he asks, how in the world -- not alone in Atlanta -- could you accommodate all of them? Vancouver Island experiences a maritime climate with heavy precipitation, prolonged cloudiness and little variation in temperature.

PERSONAL FINANCE Get Punctured, You Get Paid

By CARLTON SMITH

A state insurance commissioner has needed health insurance underwriters by ruling that policyholders are covered for treatment by the ancient Chinese medical art of acupuncture. Since acupuncture is not specifically excluded in the policies, says Pennsylvania's commissioner Herbert S. Denenberg, "it would be covered just like any other expense, if a doctor uses it for treatment or for anesthesia." Denenberg has run into some flack from a few insurers, who simply say they won't pay off on acupuncture claims.

The medical profession itself was highly skeptical of the needle twirling when accounts of its use first began to appear in medical journals a few years ago. The skepticism began to dissolve after visits to China by American doctors, including some highly distinguished members of the profession, who witnessed acupuncture in hospitals there and reported that they could scarcely credit what they saw, but had to believe their eyes.

Today, though its use could hardly be called widespread, acupuncture is being used by an increasing number of practitioners, while researchers have been trying to come up with an explanation of how and why it works that will satisfy the minds of Western scientists. Meanwhile, the Health Insurance Institute announced that the number of Americans covered by some form of private health insurance soared last year to a record high of 185 million.

It was an increase of five million over the previous year, and benefit payments reached a record \$21.4 billion, exceeding 1971's all-time high by \$2.5 billion. (NEWSPAPER ENTERPRISE ASSN.)

those procedures done by a licensed practitioner as a specific medical procedure. Denenberg said that was what he was talking about, too, and that when it was used by a licensed practitioner there was no reason why acupuncture shouldn't be covered. That position has now been strengthened by the Internal Revenue Service, which has just ruled that the cost of acupuncture, used by a licensed practitioner, is a deductible medical expense. The medical profession itself was highly skeptical of the needle twirling when accounts of its use first began to appear in medical journals a few years ago. The skepticism began to dissolve after visits to China by American doctors, including some highly distinguished members of the profession, who witnessed acupuncture in hospitals there and reported that they could scarcely credit what they saw, but had to believe their eyes.

QUALITY AND CONVENIENCE--Gibson's Discount Pharmacy has a selection of approximately 15,000 medicines to help their customers get the service they need. Three registered pharmacists are available to fill prescriptions efficiently and promptly. (Staff Photo)

Gibson's Discount Pharmacy Offers Convenient Service

Realizing that illness hits most people at sometime in their lives, Gibson's Discount Pharmacy strives to maintain a high quality standard of service and yet provide the medicines inexpensively. A full staff of registered pharmacists are always on hand to aid the customer in filling his prescription needs as they arise. And this service is available even outside of normal store hours. At least one pharmacist is ready 24 hours a day, seven days a week, to help the customer obtain medicines that may be needed quickly to combat sickness. Several clerks are on hand to take orders and to help provide

fast and efficient service for the customer. This eliminates some of the time a pharmacist would have to spend on paper work, freeing him to spend more time with filling the prescriptions. Dean Copeland, pharmacist in charge, says all the personnel in the pharmacy work together in an effort to give the customer the fast and efficient service that has become a trademark of Gibson's. And yet the low prices are maintained. Working with Copeland are David Burns, who has been a member of the Gibson staff for over a year, and Dick Wilson, who joined Gibson's Discount Pharmacy last year. Filling prescriptions for the customers, all three work

promptly to keep the prices down without sacrificing any of the service. And only any of the service. And only the finest of medicines are used. The medicines are obtained from reputable pharmacy companies at less cost and without the high overhead encountered by many smaller pharmacies. Gibson's Discount Pharmacy carries approximately 15,000 medicines to more than meet the needs of most illnesses. Another special feature of the pharmacy is the stock of vitamins they keep in supply. Many doctors believe many illnesses could be avoided or at least cut down if vitamins were used to supplement the regular diet. Gibson's keeps an outstanding supply, whether its for children or for adults or for special diets. And with the season for colds and sniffles just around the corner, vitamins should be a part of the regular diet. Customers suffering from allergies can also find a complete line of medicines to help control difficulties. For people with sensitive skin, a full line of Allercream cosmetics are in stock. A registered pharmacist since 1957, Copland invites customers to come by and check Gibson's Discount Pharmacy and compare for quality and service at low prices.

Today In History

By THE ASSOCIATED PRESS Today is Wednesday, April 18, the 108th day of 1973. There are 257 days left in the year. Today's highlight in history: On this date in 1775, Paul Revere made his famous ride from Boston to warn "The British are coming."

On this date, in 1847, U.S. forces under Gen. Winfield Scott captured Cerro Gordo Hill, the first point of resistance on Scott's march on Mexico City. In 1906, San Francisco was hit by an earthquake. The quake and fires destroyed half the city. In 1942, in World War II, an air squadron led by Lt. Gen. James Doolittle took off from the aircraft carrier Hornet and attacked Tokyo and other Japanese cities. In 1945, war correspondent Ernie Pyle was killed during fighting on an island off Okinawa. In 1946, the League of Nations officially went out of existence. In 1955, physicist Albert Einstein died in Princeton, N.J. He was 76. One year ago, U.S. Secretary of Defense Melvin Laird said the mining of North Vietnam's Haiphong harbor could not be ruled out as long as the North Vietnamese carried out offensive operations in South Vietnam.

Pampa Parts Means Quality

It doesn't matter what kind of car you have, whether it is big and beautiful or small and economical, it is going to have some kind of trouble. That is a simple fact so why burden yourself with a sky-high parts bill when Pampa Parts and Supply Co., Inc. is in town. Pampa Parts has parts for your car if it is major engine problems that plague you or a rough windshield wiper blade. Just a minute sample of the products at Pampa Parts are: Monroe shocks, Delco batteries and products, Fram and AC oil filters, Black Hawk tools, Black & Decker tools, Gates hoses and belts, AC Autolite and Champion plugs, Victor seals and gaskets. They have parts for most foreign cars besides all American-made autos. Added to their new parts they have rebuilt under-brand names of Texas Rebuilt, Grayrock and Borg Warner. These fine rebuilt parts include brake shoes and clutch plates. If Pampa Parts doesn't have what you need in stock, they can special order it for you and have it in a short period of time. The do-it-yourself mechanics who have saving money in mind should drop by Pampa Parts and Supply at 525 W. Brown and get a helping hand from owners Winford Swain and Bob Burrows today.

God Moves In Many, Many Ways

A lawyer came to his client and said he could not prosecute a certain claim. The client wanted to know the reason. The lawyer told him of a visit he had made.

BRUCE BLOSSAT

Nixon-Haldeman Watergate Could Have Been a Slip

WASHINGTON (UPI) — Haldeman's acknowledgment of his role in the administration's "surveillance" operation against the Democrats without looking upward to President Nixon as well as downward to those who acted on the orders.

Haldeman's widely held view of his role in Washington is that of the doggedly loyal servant to the President. Everything we know suggests this judgment is accurate.

Your Health

Cancerous Foods Can't Be Sold

Dear Dr. Lamb — Recently I was listening to a nutritionist speaking on the radio. She said the coloring in margarine causes cancer.

H. L. Hunt Writes

CENSORSHIP IN RED RUSSIA

Most citizens in the West are aware that the works of anti-Soviet literary figures such as Pasternak and Solzhenitsyn are censored by the Soviet government.

The big question at Haldeman's level is what got him started. While he must of necessity make a steady practice of guessing what the President wants to read, who he wants to talk to, and would inevitably act faithfully on what Mr. Nixon wants done.

Abraham, Oil And Us

With Jews and Arabs date their ancestry to Abraham according to their Biblical faith. Abraham's older son was Ishmael. The same was born to him by an Egyptian concubine Hagar.

What does this mean to us? Copy News Service, which does more than most press services to analyze global events, put the answer to that question this way.

We believe that paragraph certainly the interlocking of well-financed environmentalist agitation, our country's energy needs, and the objectives of foreign interests merit prolonged meditation by every serious-minded inhabitant of this country.

Paying For Crime

well with some money. But characteristically, they do not offer to spend their own money, but to jolt the poor long suffering tax payers.

BERRY'S WORLD. It's part of the new inspection procedures! Pioneering, '73, having to use a hand can opener when the electric breaks down. Police are apt to frown on people taking taxis.

Inside Washington

Attempt at Pay Grab Cut Off at the Pass. By ROBERT S. ALLEN

WASHINGTON — There is a bill lurking in the secrecy-shrouded shadows of the House Post Office and Civil Service Committee that is a slick gambit for a juicy pay grab by the top leaders of Congress.

Actually, a real author of the legislation is Speaker Carl Albert, D-Okl. It was at his personal request that it was introduced by Udall with the endorsement of Dulski and Henderson.

Rep. H.R. Gross, Iowa, ranking Republican committee member, militant economist and vigilant foe of another congressional pay hike was on hand.

Looking at the brief, legalistic bill, you would never know what it really is up to. It is couched in official terminology which hides its actual intent.

The speaker now gets \$62,500 plus \$10,000 for expenses, the president pro tem and the majority and minority leaders \$49,500 and all have chauffeur-driven limosines.

The testimony of history is that the Roman people finally welcomed the mounds of the barbarians as a lesser evil than the continuance of their tax system.

Television And Radio

By JAY SHARBUTT
AP-Television Writer
NEW YORK (AP) — Mainland China's great leap forward also is going on, sideways and through hoops tonight in an astounding 90-minute show on the ABC television network.

The program, modestly called "The Greatest Show on the Other Side of the Earth," stars Red China's Shenyang Acrobatic Troupe, which made a four-city tour of the United States last December and January.

The tour, which drew considerable acclaim, is part of the gradual thaw in relations between the United States and mainland China that followed President Nixon's historic trip to Peking early last year.

The troupe kept the thaw going during its tour by unveiling at the start of its show a huge red banner that said, "Long Live the Friendship Between the Peoples."

At the end of the performance, another large red banner was unfurled. It was more specific. It said, "Long Live the Friendship Between the Chinese

and American Peoples."

Those were the only commercials. In between, as those who watch the show tonight may feel, there was a display of physical agility, endurance and grace that was downright mind-boggling.

The troupe, whose art form is more than 2,000 years old, starts off with "plate spinning," involving long sticks on which the performers each spin up to eight dinner plates while doing somersaults, handstands and getting their heads together the hard way.

For my dough, the best of the 12-part program comes at the end in the segment called "hoop diving," once called the swallow game because the hoop-divers seem to imitate the flight of swallows.

They put two hoops, one atop the other, on a stand. The idea is to leap through the hoop without knocking it over. They do it time and again, even with a second set of hoops. Don't ask me how.

Although some may find the show too long—and I'm among them—the pace is strikingly close to that of the old vaudeville shows, with the high spots carefully positioned to let the audience catch its breath.

Ice Capades Provide Varied Entertainment

There's entertainment for every age group in the all-new Ice Capades, now at the Amarillo Civic Center Coliseum six show engagement thru Easter Sunday, April 22.

Ice Capades' recipe for a success is based on quality, variety and family appeal. In addition to an outstanding cast of skating stars, the ice spectacular presents an unusual blend of talents throughout the show, creating a totally different and new dimension in ice entertainment.

In "The Three Wheels," the Romano family, consisting of Tony, Helene and their 9-year-old son Patrick, peddle through amazing body-balancing and bicycle tricks, ingeniously designed and constructed by Tony, the bikes vary in size from a standard one to a "micro-mini" only 3 1/2 inches high.

The ice antics of popular

pantomimist Mans Leiter spice the show with laughter. The handsome Viennese bachelor, whose comical career spans fifteen years, presents hilarious portrayals of George Washington and a Women's Lib crusader.

British comic Terry Head portrays his funny version of a

"Scotch-Guard" in "The World of Highland Games" and John LaBrecque and Bob Mac will delight you as two "Sailors" on leave. This new Canadian team presents an act that's terrifically fast, full of lots of near misses and near falls, presented with an acute and brilliant sense of timing.

In addition to the outstanding array of comedy talent, you'll find this year's Ice Capades resplendent with lavish production numbers and international skating champions.

New stars being introduced this year are the vivacious Julie Holmes, member of the 1972 U.S. Olympic team, and the dynamic Richard Ewell, first black skater to win the U.S. National Junior Men's Championship in 1970. He and his partner, Michelle McCladdie, also recently captured the 1972 U.S. National Pair's

Championship, another first for their race.

This new Ice Capades is a family affair with entertainment for everyone—it's the happiest show in town!

Tickets are on sale at Civic Center Coliseum and Sears-Sunset Center.

Youths, 18 and under, are half price on all tickets for all performances except Saturday at 8 p.m. For special prices for groups and scouts call 373-6891 for information.

Shows are daily at 8 p.m., with Saturday and Sunday matinees at 2 p.m.
