

Named In Hoover Letter To Vaughan

The names of Victor Perlo, left, Dr. Gregory Silvermaster, center, and Laughlin Currie, right, are mentioned in J. Edgar Hoover's letter to Brig. Gen. Harry Vaughan made public by Attorney General Herbert Brownell in his testimony in the Harry Dexter White case. Hoover's letter said the three were participants in or were utilized by principals in espionage activities. (AP Wirephoto).

### Greek Royal Couple Happy Over Texas Visit Despite Rainy Day

HOUSTON (AP)—Queen Frederika of Greece says she is especially happy to have visited in Texas. The attractive queen and King Paul were in New Orleans today after a western-styled Houston visit that was marked by informality and a three-inch rain. The royal couple's first chance to see a rodeo was washed away yesterday afternoon but they received gifts of cowboy and cowgirl regalia—which they promptly donned—and were treated to such rarities as barbecue, ranch-style beefs, hot dogs and hamburgers. They also took brief rides—in-rain—on palomino horses. They summed up the 14-hour visit this way: It was Mrs. Roy Hofheinz, wife of Houston's mayor, who had told reporters why the queen was particularly happy over her chance to visit Texas. Mrs. Hofheinz explained that the queen had said many Texans have visited Athens and many Athenians who have visited Texas talk about it all the time. "The queen said that now she could tell them that she, too, had been to Texas," Mrs. Hofheinz said. Hofheinz had wanted to make the Houston visit as informal as possible. The king and queen apparently wanted it that way, too, and the weather came in for an assist. Both the royal visitors went out of their way to greet the people who had come to see them. After the rodeo had been flooded out, the queen insisted the royal cavalcade go by the rodeo site. "There may be some people there who would be disappointed if we failed to come by," she said. The queen was right. Over 200 people had waited in the chilly, pelting rain. The king was disappointed when the rodeo was called off. "I have never seen a rodeo and I was looking forward to seeing this very much," he said. He and the queen personally expressed their regrets to each of the cowboys who was to have performed. One of the cowboys talked the queen into taking the horseback ride. "Wanta take a ride?" asked Johnny Wells of Houston. "Aw, come on," he added, when the queen made no immediate reply. Queen Frederika accepted and didn't seem a bit bothered when her new boots fell by six inches to reach the stirrups. By the time they reached their hotel, both the king and the queen were splattered with mud. Two hours later they appeared at the Hofheinz home for a farewell buffet supper before their 10 p.m. departure.

### State P-TA Head To Be Named Today

By DAVE CHEAVENS  
SAN ANTONIO (AP)—Delegates of the Texas Congress of Parents and Teachers marched to the polls today to settle one of the few controversial presidential elections in its history. The opponents are Mrs. Leon Price of Dallas, the "official" candidate named by its nominating committee and Mrs. C. R. Latimer of Houston, nominated from the floor during a sometimes tense business session yesterday. The result will be announced at a banquet tonight at which Robert D. Murphy, assistant secretary of state for the United Nations will speak. The congress last night heard a warning against "penny-pinching" policies in operating the public schools. "I know some school systems are patching the patches on the roof," said W. A. Early of Savannah, Ga., head of the NEA. He said there were some people in the United States who don't believe in public education. "They believe in a sturdy peasantry, ignorant and easy to control. They have lost sight of the fact that our greatest resource is the trained intelligence of our children. These people are going to use every weapon at their disposal to weaken education. Guard against it." The under currents of dissension in the usually-placid affair of the state P-TA subsided today as the association broke up into groups for program demonstrations and workshops to be used as models for back-home activity. There was no overt electioneering as delegates went to voting machines to cast their ballots for the two presidential candidates, both of whom are veterans of parent teacher work. Both are vice presidents of the state organization. The convention voted down an effort to put Mrs. Price and Mrs. Larimer on the platform for speeches. That ended a turbulent nominating hour during which those who tried to bring the reasons back of the conflict out into the open were ruled out of order. P-TA rules prohibit personalities in nominating a second candidate. The president, Mrs. H.G. Stinnett of Plainview strictly enforced them. Pre-convention talk was that a group opposed to P-TA endorsement of the United Nations backed Mrs. Larimer. This was never mentioned on the convention floor. Mrs. Larimer told newsmen that a report that she opposed the U. N. was "ridiculous." Mrs. Stinnett also punctured a rumor that Murphy would not speak if Mrs. Larimer was elected. She said it was absolutely unfounded, and that Murphy's appearance had no connection with the election.

### Demo Leader Pledges Fight On AF Funds

By CHARLES F. BARRETT  
WASHINGTON (AP)—Rep. John W. McCormack (D-Mass.) said today Democrats will fight in the next session of Congress for a two-billion-dollar increase in air defense funds to provide "adequate protection for American cities and American people." McCormack, assistant Democratic leader in the House, said such a program could provide radar, interceptor planes and other devices to knock out all but 10 per cent of enemy bombers in any sudden attack. Currently, he added, "it is a disgraceful situation—in case of a sneak attack our defenses are such that 70 per cent of the attacking planes can get through." Rep. Winstead (D-Miss.), a member of the House Armed Forces Committee who returned last week from an eight-week inspection tour of American military bases abroad said in a separate interview he is convinced "we certainly must strengthen our air defenses at home as rapidly as possible." He added that two billion dollars to finance such a program "could be saved easily" from foreign aid. "We have been spending money recklessly in some countries which are contributing little to the free world defense," he said. "We must concentrate our aid in the key countries which are cooperating with us." Rep. Fisher (D-Tex.), another committee member, said he would favor increased air power, a complete radar screen, and all-out development of guided missiles. The Eisenhower administration has indicated it favors boosting air defense funds, but by a much smaller amount than urged by McCormack. Secretary of Defense Wilson has suggested perhaps half a billion dollars.

### Civil Service Board Rulings Sadden GOP

By JOE HALL  
WASHINGTON (AP)—Sen. Carlson (R-Kan.) said today the Senate Civil Service Committee he heads has been urged to look into complaints the Civil Service Commission is failing to open up policy-making jobs to Republicans. The Kansas said many complaints and requests for such an inquiry had come in, some from GOP senators. But he declined to say whether the committee would undertake such an investigation when Congress comes back in January. "There is a feeling," he said in an interview, "that the commission has not permitted the new administration to put its own people into policy-making positions. "Those who have asked us to make an investigation say that the result has been that government policy has not always been in the direction intended by the President." Last week Rep. A. L. Miller (R-Neb.) called upon Philip Young to resign as chairman of the Civil Service Commission, citing the same reason Carlson said had been raised. Young gave no indication then of intent to resign. He said, "I feel perfectly satisfied that the Civil Service Commission has followed a middle-of-the-road policy in respect to placing key jobs under the administration's control." It is an open secret that there is continued Republican discontent over patronage. Some senators have said privately they hated to go back to their home states because they had been able to obtain relatively few jobs for constituents. Much of this dissatisfaction has centered on Young. The Civil Service Commission has turned down about 850 requests of Republican department heads that jobs be transferred to schedule "C" while granting about 770. The schedule "C" jobs are those held to be policy-making or confidential. They can be filled politically. Young reportedly has voted with Frederick J. Lawton, Democratic member of the commission, in a number of cases in which schedule "C" applications were rejected. Young is a Republican. This has left George M. Moore, the second GOP member, in the minority in these cases.

### Decision Awaited On Houston College Campus Altercation

HOUSTON (AP)—A decision is expected today from the Houston University investigation concerning the campus fight in which three Texas A&M students were injured last Friday night. Dr. Charles F. Hiller, university vice president, said "appropriate action" will be taken. An investigating committee has made its report and a decision will be reached today, said Dr. Terrell Spencer, vice president in charge of student services. A story published in yesterday's A&M College newspaper, The Battalion, said the three students were attacked by more than 30 University of Houston students while returning their dates to a girls' dormitory. A spokesman in the university's public relations office said statements taken so far in the investigation indicate only six university students were involved directly, and one of these became involved when he tried to stop the fight.

### Binion May Share Casino Ownership

CARSON CITY, Nev. (AP)—Gambler Benny Binion, a former Texas gambler facing sentencing there for income tax evasion, may share ownership of his big Horseshoe Casino in Las Vegas with two New Orleans men. Joe W. Brown of New Orleans wants to buy 45 per cent of Binion's club and William C. Dorsett wants to buy 5 per cent. They applied yesterday for state approval to go into partnership with Binion, who would retain 47 1/2 per cent of the club. Robert F. (Doby Doc) Caudill would keep the 2 1/2 per cent he has held for some time.

### Pipeline Firm Given Building Go-Ahead

WASHINGTON (AP)—The Texas Eastern Transmission Corp., Shreveport, La., yesterday received Power Commission authority to build 17 miles of pipeline and a new 4,400 horsepower compressor station in Texas. The construction, to cost about two million dollars, would enable the firm to carry more natural gas into its main transmission system. It includes a compressor station in Shelby County, 5 miles of line in Colorado County, and nearly 12 miles of line in Jefferson County.

### Navy's New Wireless Set Circles Earth

JIM CREEK VALLEY Wash. (AP)—The Navy can now pass the word to all the world. Into the new naval wireless transmitter, most powerful in existence, poured a growing file of messages today to prove the globe-girdling claims made for station NLK, "Radio Jim Creek." They came from all over, including ships at sea on the other side of the globe. And they all said in effect "I read you loud and clear." Should a new Pearl Harbor signal the start of another world war, the Navy now knew it could broadcast commands to its forces where ever they are deployed in one single and urgent message. In the initial test of the 1,200,000-watt, 14-million-dollar transmitter yesterday, a battleship off Japan acknowledged the message and a submarine, boring through the cold gray waters of the northeast Atlantic, received the signal from home. There were other receiving messages from faraway places, including Africa and The Philippines and a battleship far down in the south Atlantic. Radio Jim Creek was built by Radio Corp. of America for the Navy as a wireless telegraph station, to send its messages only in the droning, singing tone of continuous-wave transmission. But, it developed today, the mighty transmitter can be converted without much trouble to a voice broadcast station should the United States sometime want to add a stentorian tone to the Voice of America directed to peoples behind the Iron Curtain.

### Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headache, dizziness and loss of pep and energy. Don't suffer restless nights with those discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a solid diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from those discomforts—help the 10 million of kidney tubes and filters flush out waste. Get Doan's Pills today!

## American POW Who Balked Says Reds Forced Him Into It

By LEONARD LEFKOW  
TRAVIS AIR FORCE BASE, Calif. (AP)—Cpl. Edward S. Dickson, retained in a Communist compound until after the end of the Korean POW exchange, said last night for the first time the Reds "forced" him to remain behind under threats of death.

The stocky, 23-year-old mountain boy from Big Stone Gap, Va., grinned broadly and told newsmen he felt "safer now that I'm home" as he stepped from the four-engine evacuation plane which had ferried him from Honolulu.

Appearing confident and speaking slowly, he said he did not tell the truth when he told reporters in Tokyo after his release Oct. 20 that he stayed behind with the 22 other American soldiers because "I wanted to get the dope on the Communists."

Emphatically, he declared: "I was afraid of the Communists—but I'm not any more. There are Communists in the United States and I'd like to tell the FBI to protect my father and my mother. I'm afraid of what the Communist might do."

He said he believed "seven or eight of the remaining 22 Americans still in Indian custody in the neutral zone do not believe in com-

munist and would like to return home."

Then his control broke. Near tears, he added: "I want no part of communism. I am loyal to the U. S. There is no better life than in America. I wanted to be back with my own people. I wanted to die on my own soil."

He said that was the reason he slipped away from his quarters in the neutral zone and rushed to an Indian guard, asking for repatriation—"I didn't care if they killed me."

He said if the other Allied POWs knew he desired repatriation, "they would have gotten me—not necessarily the Americans but the South Korean prisoners. They were violently Communist."

He told how the Communists originally prevented him from returning: "I was forced to go to Communist lectures soon after my cap-

ture on Nov. 5, 1950. I objected all the time, I tried to escape, but I was captured and they forced me to do hard labor and beat me."

"Then they made me attend more lectures and join a 'study group.' The Reds made me write statements that I would inform on the 'reactionaries' (POWs who refused to follow the Communist line)."

"What I had to do turned a lot of men against me, but it wasn't true. I didn't inform. I wrote articles following the Communist line—which were probably published all over. Then the Chinese started working on us—told us not to accept repatriation. But I demanded repatriation. But I had no alternative. They wanted me to go to China. I had no chance to get repatriated."

He said the first thing he wants to do is see his family. "I think I'd have a good reception—I'm a loyal American."

## Reds Want Neutrals Now Only To Observe

By SAM SUMMERLIN  
PANMUNJOM (AP)—The Communists said today they want neutral nations seated at the Korean peace conference only as observers. U. S. envoy Arthur Dean said the proposal "could offer a very fruitful basis for further negotiations."

Dean indicated the North Korean and Chinese diplomats have made a "prepared concession" and now appear to be awaiting further instructions.

There were growing indications that a compromise may be reached on the thorny issue of in-

cluding neutrals to the peace conference—biggest issue to be settled at the preliminary peace talks here.

Dean is spokesman for 16 United Nations and South Korea, all of which have voiced opposition to neutral participation in the peace conference.

But the U. S. envoy noted that these nations assumed the Reds wanted neutrals to have full participation.

Meanwhile, explanations to Korean and Chinese war prisoners who have refused to go home remained at a standstill and there were no signs that the Reds would resume the stalled interviews.

The Communists have refused to go along with new rules to speed up the program. Neither the Indian command, which oversees the efforts to woo the prisoners home, nor the Communists made any effort today to break the latest deadlock.

The diplomats trying to arrange a Korean peace conference resume sessions tomorrow.

## Wife Kills Husband To Avoid Move

NEW YORK (AP)—A mother killed her sleeping husband with a nine-pound stonecutter's hammer early today because he planned to move the family to its fourth home within a month.

Mrs. Dorothy Renner, 43, then attempted to kill herself and her 10-year-old son Robert with gas.

The boy escaped from his mother's grasp and ran to a neighbor for help.

Police found Richard Renner, 43, a real estate salesman, dead beside his bed in the family's attractively furnished four-room apartment. After questioning the near-hysterical wife, Police Capt. Bernard Schaefer pieced together this story:

The family came here from California about a month ago and moved into a house in Flushing, Queens. Later it moved to Hollis, Queens.

There was a bitter quarrel between husband and wife last night after he said he planned to move the family again. He went to sleep after the argument ended, and the wife went to a tool chest and got the hammer. The condition of the body indicated the husband survived the first hammer blow and resisted, but was too dazed or weak to save himself.

The wife told police: "It's all over now. No more moving."

She gave no explanation for the frequent moves.

Police said Mrs. Renner would be charged with homicide.

## Houston Woman's Sons To Be Bishops

HOUSTON, Tex. (AP)—Within a month's time Mrs. C. G. Marmon has seen her long hopes realized: her two sons are to become bishops.

At Roanoke, Va., yesterday the Rev. William Henry Marmon, rector of St. Andrew's Episcopal Church in Wilmington, Del., was named bishop-elect of the Episcopal diocese of southwestern Virginia.

Last month Mrs. Marmon's other son, the Rev. Charles Gresham Marmon Jr., rector of the Church of the Incarnation in Dallas, was named bishop-elect of Kentucky.

"I'm so surprised and so happy," said Mrs. Marmon.

## Even French Don't Go As Far As This Suit

LOS ANGELES (AP)—Everybody looked when pretty Mrs. Patricia C. Muncy of Redondo Beach stepped out of a Santa Monica pool. They looked again. Then Mrs. Muncy looked too.

What she saw, she said in a suit yesterday asking \$10,000 damages, was that her bathing suit "became transparent and pervious to light" after contact with water.

She has sued the garment manufacturer, claiming she was exposed to public gaze and ridicule, and suffered extreme embarrassment and shock.

## Susan Hayward Suit For Divorce Answered

LOS ANGELES (AP)—Actor Jess Barker has denied Susan Hayward's allegations of cruelty, and has asked Superior Court to deny her a divorce.

Barker's answer to her suit, filed yesterday, also requests half the community property and petitions for a court ruling prohibiting Miss Hayward from taking their twin sons, Timothy and Gregory, 8, to Africa on a movie-making trip.

He listed assets of \$290,774 and claimed his wife has further unlisted assets. Barker, who has said he wants solely to keep his family together, is not asking for a divorce decree.

Hearing Deserves To Produce Reasons Rather Than Circus Air

A Senate Judiciary subcommittee which is holding televised hearings in Washington may not achieve the attention-compelling status of the original Kefauver crime investigation, but it tackles a subject that very much needs local and national attention. The subcommittee's object is to inquire into juvenile delinquency and the part underworld characters play and share in it. The aim is to bring about coordination of federal, state and local bodies fighting teen-age crime.

Some of the statistics on the problem are shocking. Last year, the FBI reported, youngsters under 18 committed 33 per cent of all auto thefts, 48 per cent of all burglaries, 37 per cent of the larcenies, 19 per cent of all robberies. Of more violent crimes, 19 per cent of all persons charged with criminal homicide in 232 of the nation's larger cities were under 21 years of age, and four per cent of all arrests for murder were of persons under 17.

Fair Traders Are Putting Their Eggs Into Incubation Currently

Not all legislative mischief is made during sessions. Groundwork for a lot of it is laid in advance of the meeting dates, and some of the most effective in advance of elections. The latter type, generally, is in feeling the pulse of prospective candidates and in encouraging some sleepers to slip in with well ground axes.

Whatever the causes, it will be the responsibility of the subcommittee to weigh and assess all the factors involved, and not simply to make a television spectacle of the nation's very real problem in youthful misbehavior.

Washington Calling - Marquis Childs

Problems In New York May Be Motive For Brownell's Action

WASHINGTON - The bombshell that Attorney General Herbert Brownell Jr. exploded in his Chicago speech is now seen to have been part of a carefully calculated plot. Some able reporting out of Washington has documented the ramifications of that plot from the Department of Justice to the White House, the Republican National Committee and the Senate Internal Security Sub-Committee.

But many pieces are still missing and in the present fiercely partisan atmosphere they probably will never come to light. One big question has to do with the timing of the explosion.

But some observers now incline to the view that there was another motive at least as strong. Brownell's mentor in politics, Governor Thomas E. Dewey, is in the middle of a messy situation in New York State with leaders in the Dewey organization involved in major scandal of corruption and racketeering in harness racing. J. Russell Sprague, Republican boss of Long Island, resigned as national committeeman after it developed he had a \$300,000 interest in one of the raceways for which the records show he put up \$24,000.

Working in a small office with a battery of telephones in the Conrad Hilton Hotel, he was credited with carrying out the propaganda drive. A last-minute hastily printed broadside distributed to the delegates, attributed to Taft's manager David Ingalls but repudiated by him, said, "Tom Dewey . . . stops at nothing to enforce his will."

## GOP Reassures Drought-Hit Areas Aid Will Be Continued

The Republican administration in Washington has sought to reassure in drought-stricken ranchmen and conservation-minded farmers that the federal government will see them through and not hamper conservation.

## Knowledge Can Aid Business, Educator Says

What makes people want things? Knowledge and religion, Dr. Willis Sutton, superintendent emeritus of Atlanta, Ga. schools, told the Lions Club membership Wednesday.

"When you invest money in schools, you increase the capacity for desires," he asserted, "and when you invest in churches, you make people want the right things."

No community has ever gone all out in this field, but it didn't lessen Dr. Sutton's faith in his thesis. "I wish you would," he challenged.

Relating experiences in his wide travels and as an active educator, Dr. Sutton said that it had been proven beyond a peradventure that the culture of the masses of people is a barometer of business.

Raise the level of culture (schools, libraries, museums, music, etc.) and you increase business, he declared.

National surveys have shown that 75 per cent of the profit dollar of major businesses comes as the result of "trained intelligence," according to Dr. Sutton. "A General Electric executive told me that the figure was conservative—it was 94 per cent in their case."

In almost any case, there can be established a definite relation between business and education, Dr. Sutton continued. How many newspapers do the illiterate take? Who buys the more expensive cars and clothes, the better foods where profits are also better?

Not only is education of the mind and heart good for business and any community, but it actually is the distinguishing contributor to America's greatness, he added.

Dr. Sutton is to speak in a public meeting at 7:30 p.m. Thursday, addressing himself to the greater need of bridging the gap between parents and children.

## Five Arrested For Setting Forest Fires

ROME, Ga., (AP)—Five persons have been arrested on charges of starting some of the forest fires raging in northwest Georgia.

E. H. Terry, chief fire investigator for the Georgia Forestry commission, said yesterday told him they set three fires near Rome's Russell Airport "just to see them burn."

Three men arrested in a lonely shack near the Georgia-Alabama line admitted they started fires by throwing firecrackers into dry grass and underbrush, Terry reported. They were charged with setting 16 fires.

he is stretching funds available for drought relief by having the Commodity Credit Corp. make feed supplies available on the cuff until Congress comes back to vote more money.

And Secretary of Agriculture Benson said his recent controversial reorganization of the Soil Conservation Service is designed "to strengthen the soil conservation program."

The President said his action—which in effect makes 30 million dollars more available for drought relief—insures that aid to stockmen "shall go forward until Congress can review the program in January."

At the same time, Benson asked Western railroads to renew a 50 per cent freight rate which expired Monday on the emergency grain shipment. Already the nation's railroads have agreed to extend a similar cut rate on hay shipments to drought areas.

"If the rate reduction on feed is not extended," Benson said in a statement, "it will be necessary for the Department of Agriculture to pay full freight rates on the government shipments, since the department will continue to make feed available in the emergency area at the previously reduced prices for feed."

In a formal statement distributed at his newsconference, Eisenhower said:

"Drought conditions in many parts of the country have continued to increase in severity. Portions of our livestock industry are facing virtual liquidation. Damage to the whole agricultural economy in these areas has been great. Hardship among thousands of farm families has been intense."

The government, the statement said, has been working hard to ease these conditions, and "we intend to see this thing through."

Benson told a conference of soil conservation officials that his department is "determined to carry out a dynamic and more effective national program of soil and water

conservation." He said key units in administering the program would be strengthened state offices of the Soil Conservation Service.

The reorganization plan involved elimination of seven regional offices, one at Fort Worth, and brought protests from some conservation officials who said the service would be weakened. Regional administrator Louis Merrill at Fort Worth recently resigned with the statement he did not want to stand by and see "the Soil Conservation Service liquidated."

But Benson told the SCS men: "The Department of Agriculture recognizes a strong national program of soil and water conservation as one of the basic necessities of American Agriculture."

"The purpose of this reorganization," he continued, "is to strengthen the soil conservation program and the Soil Conservation Service and to bring the administration of the SCS technical program closer to the farmer."

## Seven Crewmen From Downed Plane Rescued

PEARL HARBOR — Seven crewmen from a Navy Catalina flying boat which ditched in the Pacific yesterday have been picked up from a life raft by the transport Daniel I. Sultan, the Navy announced.

Navy officers said three of the men were injured, but none is in serious condition.

The Sultan is heading for Midway Island, about 240 miles south of the point where the airmen were rescued, and is due sometime today, the Navy said.

The flying boat ran out of fuel and crash-landed in the ocean while on a long distance flight from Alaska to Midway.

## Italy Stands Firm Upon Its Previous Trieste Proposals

ROME (AP)—Italy stood firm today on its previous demands and proposals for settling the hot Yugoslav-Italian dispute over strategic Trieste.

Italian Premier Giuseppe Pella reiterated most of them—without even hinting at a compromise—in a half-hour speech last night before the Chamber of Deputies.

He assured the deputies, however, that he would continue to seek a solution of the dispute in conjunction with the West despite Italian displeasure with the American and British attitudes toward recent bloody Trieste rioting.

Pella reiterated this previous stand:

1. Italy considers a plebiscite among the residents of the Trieste territory the best means of reaching a solution.
2. The British-American declaration Oct. 8 that they would withdraw their troops from the territory's Zone A and turn it over to Italy must be carried out.
3. Even if Italy receives Zone A, it will not surrender its claims to Zone B, controlled by Yugoslav forces.

## Back To Beats

SACRAMENTO, Calif. (AP)—School's out for 15 officers taking night courses at the police academy. The cops had to go back to work. There was a sudden upswing in burglaries and other crimes while they were in class.

## Struck Dog Causes Chief Much Worry

XENIA Ohio (AP)—Millard R. Dement, volunteer fire chief in nearby Clifton, hit a dog with his truck yesterday. He drove the truck into a ditch trying to avoid the animal.

While he was checking the dog's injuries, he heard the fire siren in Clifton. He jumped into his truck and sped into town, passing the village pumper on the way. In town he got an ambulance and started after the pumper.

He found it at the spot where he'd hit the dog. A neighbor, hearing the dog's howls and seeing the truck in the ditch, had called the fire department.

The dog suffered only minor injuries.

## More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. PASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmly so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get PASTEETH today at any drug store. (Ad.)

# Thrill Maker from start to stop

(That's T.T. Dynaflo!)

SOMETIME SOON—like this week — you ought to try a Buick with Twin-Turbine Dynaflo.\*

You ought to try it just to be familiar with the great advance in this fully automatic transmission that Buick engineers have accomplished.

You ought to try it just for the fun of bossing a drive where you don't do a blessed thing but steer and press the gas or the brake pedal as you go.

But, pure and simple, you ought to try it for thrills.

We mean the thrill of instant getaway response — with two

turbines doing the job that one did before.

We mean the thrill of whisper-quiet acceleration—where you barely hear the sound of power build-up, or of flowing oil at work.

And, most emphatically, we mean the thrill of perfect and sublime smoothness from start to stop—the thrill of moving from standstill to and through all travel ranges in one, progressive, infinitely smooth forward "carry" without a gear ever shifting or a clutch-pedal pushed—the thrill, rarely found elsewhere, of silky smoothness in deceleration, too.

Will you be our guest at a sampling of a Buick with TT Dynaflo?

Will you try the sweetest, the smoothest and the simplest-to-operate automatic transmission yet devised—and powered by the highest-compression engines in Buick history, including the world's newest V8 SUPER and ROADMASTER models?

Drop in on us this week and we'll be happy to accommodate you.

THE GREATEST BUICK IN 50 GREAT YEARS

## It's Trade-In Time for a Better Deal

You'll be thrilled with the top allowance we will make on your present car. Come in and see us for the happy news—now. We can give you immediate delivery.

MILTON BERLE stars for BUICK — in the Buick-Berle Show on TV Tuesday evenings. Also, every Saturday, tune in The TV Football Game of the Week — a "GM" Key Event

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Oppose Steers Here Friday Night

The Ysleta Indians, a AAAA team, provide the opposition for the Big Spring Steers here Friday night in the locals' last regular-season home game of the season. They are, left to right, front row, Jesus Sarabia, Kiko Fierro, Larry Traylor, Freddy Paz, Jerry Cozby, Hill O'Rourke, Wendell Nash, Joe Chew and Julio Flores. Second row, Line Coach Howland Reich, Vincent Esparza, John Bernard, Richard Baca, Edlie Caulder, Frank Knotts, Elliot Bunsen, Monte Martin, Joe Holder, Jerry Rogers, Ber-

ney Spence, Manager Danny Guynn. Third row, Backfield Coach J. W. (Red) Coats, Frank Esquivel, Tommy Hughes, Harold Goodrake, Sal Arzola, John Brookshire, Travis Johnson, Fernando Basoco, Ken Measchem, Phil Reynolds, Head Coach Gene Jordan. Back row, Charles Rosemond, Pat Lockett, George Root, Frank Lucky, Bill Haynes, Viterbo Pedregon, Lawrence Paschich and Ike Apodaca. (El Paso Herald-Post photo).

## Bad Back May Bench Frosty

Joe Liberty, Don Reynolds and James Hollis were back in uniform for the Big Spring Steers Wednesday but the local club will have to use Carlisle (Frosty) Robison, star halfback, sparingly, if at all, in its Friday night game here with Ysleta.

Robison experienced some back trouble in the Snyder game. The misery recurred Monday and yesterday he was forced to call it quits, when he was knocked to the ground during a punting drill

## Bruins, Terps Picked To Win

By HAROLD CLAASSEN  
NEW YORK (U) — There were more upsets than bargains in the basement of a department store last weekend with the result that this department's average skidded to .787 for the season from its rather lofty spot of .801.

With absolutely no idea where the incorrect ones are this time: Notre Dame over Iowa: There was a time in the past when Iowa always troubled Notre Dame. Maybe those days have returned. But it doesn't seem possible that the Hawkeyes, despite two good lines, will more than frighten Lattner, Worden and company.

Maryland over Alabama: Alabama was one of two teams to defeat Maryland last year. That's ancient history and won't happen again.

UCLA over Southern California: This is your TV attraction of the day. These crosstown rivals will have at each other with a vengeance. The statistics show that Paul Cameron and his UCLA mates are slightly better than Aramis Dandoy and the rest of the Trojans.

Georgia Tech over Duke: The Engineers to squeak through.

Kentucky over Tennessee: The Kentucky Wildcats have scored only three touchdowns in eight years against Tennessee but this year they get revenge for the first time.

Finishing the others in a hurry: East: Boston University over Temple, Columbia over Rutgers, Fordham over Holy Cross, Pittsburgh over Penn State, Dartmouth over Princeton, Syracuse over Villanova, Delaware over Bucknell, Lafayette over Lehigh, Yale over Harvard.

## Cavazos Is Making Major Bid For All-Star Honors

By EDDIE LEE  
ALBUQUERQUE (U) — One of the leaders of Texas Tech's drive toward national football prominence — Halfback Bob Cavazos — has been singled out as the Border Conference's top candidate for The Associated Press All-America team.

Cavazos, 6-foot, 190-pound runner from Kingsville, Tex., heads a list of 21 players from the Border area nominated by the three members of the AP's regional board for All-America selections.

The board, made up of Sports Editors Bob Allison of the Phoenix Gazette, Chuck Whitlock of the El Paso Times and Joe Kelly of the Lubbock Avalanche-Journal, has named 12 backs and nine linemen as worthy of All-America consideration.

Supported almost as strongly as Cavazos are Ken Cardella, hard-

against the B team.

Coach Carl Coleman may take no chances on him and go with a patched-up lineup, as much as possible.

Don Swinney continues to work out, but in a sweat suit. He probably won't get into action before the Sweetwater game Thanksgiving Day, if by then.

Since Jerry Hughes is definitely out of tomorrow night's game, the team has defensive problems in the backfield. Swinney and Hughes are two of the finest defensive players in camp.

Boys like Billy Martin, Brick Johnson, Hollis and Buddy Cozby will be called upon to do more of the ball lugging, if Robison sits this one out.

The Steers are a big favorite in the game but the odds will continue to diminish, if the hospital list grows.

## GAME MOVIE IS SLATED

Action films of the Big Spring-Snyder football game will be shown to members of the Big Spring Quarterback Club at their regular session this evening in the High School Cafeteria.

The organization begins its session at 7 p.m.

Plans for the Daily Herald-Quarterback Club's special train to Sweetwater Thanksgiving Day will also be discussed, along with other club business.

## City Cage League Being Organized

Persons interested in entering teams in a city independent basketball league can contact Pete Cook, a member of the YMCA advisory staff. Cook's telephone number is 4-7476.

Three teams have already been committed to play in the league and as many as seven or eight might be organized. Tennessee Milk, Webb Air Base and Martin's Service Station will probably enter the loop.

The league will function about as it did last year, using both the Junior High and College gyms.

working halfback of Arizona: Dick Shinaut, Texas Western's clever quarterback, and Robert Wheelock, fullback of the West Texas State Buffaloes.

The other nominees: Quarterbacks—Jack Kirkpatrick, Texas Tech; Dee Windsor, Hardin-Simmons; Bob Hendricks, Arizona State; Billy Bob Plumbley, Texas Western.

Halfbacks—Clovis Riley, Texas Western; Art Luppino, Arizona.

Fullbacks—Don Beasley, Arizona; James Sides, Texas Tech.

Ends—Gene Odell, Texas Western; Chester Lysy and D. C. Andrews, Hardin-Simmons; Vic Spooner, Texas Tech; John Allen, Arizona (Tempe).

Tackles—Buddy Lewis, Arizona; Jerry Walker, Texas Tech; John Jankans, Arizona State.

Centers—Glenn Bowers, Arizona.

## Terps' Defense May Set Record

NEW YORK (U) — Unbeaten Maryland goes into its final regular season football game Saturday against Alabama with a chance to turn in the nation's best defensive scoring record in six years.

Figures from the NCAA Service Bureau show that if the Terrapins hold Alabama to less than nine points they will have allowed the lowest total of points in major college competition since 1947; if they hold Alabama to less than 13 they'll have the lowest points-per-game mark since the same year.

And if Alabama gains less than 80 yards on the ground, Maryland probably will win the 1953 rushing title.

Statistics released today showed Maryland is the only team that has held the opposition to less than the equivalent of a touchdown in a game. It leads in ground defense and is third in total defense. The Terps have permitted 3.4 points, 82.6 rushing yards and 176.8 total yards per game.

## Yearlings Host Colts Tonight

Dan Lewis' Big Spring Junior High School Yearlings wind up their season's play here tonight at which time they face the classy Sweetwater Colts. Game time is 7:30 p.m.

Last week, the Sweetwater team came from behind to defeat the Yearlings, 60-21. The Colts trailed at half time, 19-21.

Coach Lewis figures his club stands a good chance against the Colts, if they can stop Sweetwater's wide plays. The Colts, with Dickie Allen in the driver's seat scored most of their touchdowns on end runs in their game last week.

The Yearlings have won only two games this season, both against Colorado City, but are much improved over the form they flashed in the early part of the season.

Allen shares the spotlight in the Sweetwater backfield, along with Charles Andrews.

Tonight's game is a makeup battle. The two teams were to have originally met on Sept. 10, but

that one was moved back following a conference of the coaches.

Neither team was ready to play at the time.

## Robison Leader In 3A-1 Scoring

Bill Dendy of Breckenridge remains the overall scoring leader in District 1-AAA but Big Spring's Carlisle (Frosty) Robison has done the most damage when it counts.

In five conference games, Robison has tallied 60 points, compared to only 42 for Dendy.

Frank Smith of Sweetwater is third in conference scoring with 36 points, compared with 30 each for J. C. Armistead of Big Spring and Roger Hobson of Breckenridge.

Larry Doby of the Cleveland Indians holds the dubious distinction of tying a major league record for strikeouts in one game — 5 in 1948.

## Cleburne-Brownwood Tilt Will Decide 2-AAA Representative

By The Associated Press  
The ponderous Texas schoolboy football field will be cut to one-sixth its size this weekend with at least 73 of the 79 district champions to be known when the firing ceases Saturday night.

Class AA will have 31 district titlists, Class A 32 and Classes AAAA and AAA will have only about three each to determine.

While the lower division will be leveling off for the start of state playoffs, major interest rests on the top division—AAAA—where highly ranked Lamar (Houston) tries to snap out of an alarming slump and win its district championship from San Jacinto (Houston) and Port Arthur faces the payoff with a resurging Baytown team that might knock back into the state title picture.

District championships ride on both of these important games. Port Arthur plays at Baytown Friday night.

Class AAA also has its headline games, the features being Cleburne at Brownwood and Temple at Corsicana, both Friday night. Brownwood can sack up the district title if it wins but a Cleburne victory would prolong the fight another week with Garland pushing back into the battle. The Temple-Corsicana game, however, is an absolute showdown.

Odessa, Bowie (El Paso) and Waco already have earned their way into the state playoff from Class AAAA. The Fort Worth district will wait another week to determine a champion but the Dallas district might be thrown into a three-way deadlock should Sunset beat Woodrow Wilson tonight. Sunset is virtually out of the championship race but Crozier Tech and North Dallas are still in it. In District 6 Ray of Corpus Christi could conceivably win the title should it beat Austin as it is favored to do and Miller (Corpus Christi) lose to Brackenridge (San Antonio) tonight.

There are eight districts in Class AAAA and the same in Class AAA. Big Spring, Edinburg (San Antonio) and Edinburg already have worked their way into the state playoff in Class AAA and at least four other places can be gained this week. This is providing Brownwood beats Cleburne and if certain things happen in two other districts. In District 4 Texarkana could make it by beating Longview at Longview Friday night while Kilgore lost to Nacogdoches at Kilgore. Otherwise, the title will go down to the Texarkana-Kilgore game Nov. 26. In District 6 Port Neches has only

to beat or tie Texas City to win it. A loss by Port Neches, however, would throw the race into a triple tie, putting Freeport back into the thick of things. District 3, where Gainesville, Sherman and Paris are tied for the lead, can't be straightened out this week.

Class AA already has 10 district representatives with 21 more to be

named this week. In the playoff are Stamford, Comanche, Handley, Terrell, Atlanta, Huntville, Cozales, Wharton, Nederland and Weslaco. There are clear-cut issues in most of the other districts but some may wind up in triple ties, making the district committees decide which are to go into the playoff.

**Hughes Keeps Oil Rigs Going**

Work is done at Hughes Oil Field Service Company of Big Spring that is essential to the continuation of oil operations in this area. That work is the repair of machinery and equipment used in the drilling for oil. At one time or another practically all of the drilling installations need some sort of repair to keep them going. The specialty at Hughes is getting that repair work done as good and as quick as possible. A crew of nine employees is on call for instant service. Both electric and acetylene welding jobs are tackled by Hughes employees who are specialists in their field. And any type machine work is done to specification. Work can be done in the field at the site of trouble or it can be done in the shop at 2207 Scurry Street. Portable and stationary equipment are owned by Hughes for both machine work and welding. Earl Hughes heads up the service company, and he stands behind all his jobs. He has a reputation for doing the job that has to be done in a minimum of time. Operations of the firm extend as far north as Snyder and south as far as San Angelo. Three trucks and portable weld-

ing machines can be moved at the time of call. Day phone is 4-8391, and the night phone is 4-7315. Machine work is done on swivels, gas-oil engines and other oil field equipment. Shaper work and thread cutting is a specialty.

**Shooting Bear Goal Expensive To Achieve**

HOUGHTON LAKE, Mich. (U) — For five years R. C. Mulholland of Dayton, Ohio, had gone to the Michigan woods hoping to shoot a bear. Each year he returned empty-handed. Yesterday, driving along Route 27, he hit something that spun his car around. There, on the road, was a wounded bear. Grabbing his rifle, Mulholland killed it with one shot. He has his bear, but it will cost him \$600—for repairs to the car.

**Truman 'Laxity' Issue, Sooners Told**

OKLAHOMA CITY (U) — Sen. William F. Knowland (R-Calif.), the Senate majority leader, declared last night the issue in the Harry Dexter White case is the "laxity" of the Truman administration in appointing persons to office whose loyalty was ques-

tioned. Knowland addressed a \$25-a-plate Oklahoma Republican fund-raising dinner. He said the Eisenhower administration has shown a more realistic approach to the infiltration of security risks in government.

**Even New Car Gets Hot Sans Radiator**

**McPherson Prepares Vehicles For Winter**

H. C. McPherson is ready for winter and he can get your automobile ready for sub-freezing temperatures. McPherson, operator of the McPherson Chevron Station at 411 West Third, started making arrangements for cold weather several weeks ago by laying in a large stock of anti-freeze. He has an ample supply of all

the popular brands of anti-freeze, both permanent-type and the alcohol variety. And McPherson service personnel will drain and flush radiators and install the protective fluid.

An extra service is afforded at McPherson's also, free of charge. Prior to putting anti-freeze in your radiator, attendants will thoroughly check hose connections, heater hoses, etc., to be sure that no hidden leaks will result in loss of the liquid. Of course, if necessary, McPherson Chevron Service will replace deteriorated hoses, tighten connections. The station has a supply of radiator and heater hose in all sizes, as well as the necessary clamps and other fittings.

**Farm Woman Held Guilty Of Murder Of Blind Brother**

TEXARKANA, Tex. (U)—Slight-wrinkled Mrs. Agnes Watson faced life in prison today for the death of her 70-year-old blind brother.

The 66-year-old farm woman was convicted of her brother's murder yesterday after she testified he had admitted killing their mother a decade ago. Defense Atty. William Harkness said he would file an appeal. Mrs. Watson testified that the night before James Albert Dray was slain he demanded to know where she had put his six-shooter. She said she could not sleep that night and next morning heard Dray muttering he would make her give him the gun. Then, she said, she picked up a stick of stove wood and hit the blind man "three licks." Earlier, she said, he had told her how he had put a rope around their mother's neck and "held her up."

Mrs. Watson, who appeared in court in a sunbonnet and cotton print dress, showed no emotion when the jury verdict was read.

**Flood Control Expert Services To Be Held**

## Texas City Blast Probe Is Completed

**GALVESTON (U)—**Claimants to damages because of the 1947 Texas City disaster renewed their long wait today after a House judiciary subcommittee had completed a three-day probe.

Rep. Edgar Jones (R-Ill) yesterday credited the claimants with making an important point during the Hearings. The three-man committee was told the federal government did not make tests to determine if ammonium nitrate fertilizer were susceptible to spontaneous combustion.

The Texas City disaster occurred in April 1947 after a ship being loaded with the fertilizer exploded and set off a chain of blasts and fires that severely damaged the mainland industrial center across the bay from this island city.

Some 3,000 persons were injured in the tragedy and about 500 were killed. Millions of dollars in property were destroyed and claims against the government have been estimated as high as 200 million. Yesterday, however, these claims were reported whittled down to between 80 and 60 million dollars.

Austin W. Bryan Jr., Houston attorney who is spokesman for lawyers representing most of the claimants, said they sought to prove the government was solely liable for the catastrophe because the government "initiated, manufactured, handled and shipped to Texas City the ammonium nitrate fertilizer."

The House group sought to determine in its three days of hearings here and at Texas City the government's responsibility, if any, and the cause of the blast.

The claimants previously have been refused redress by the U.S. Supreme Court.

## Government Buys Beef

**WASHINGTON (U)—**The Agriculture Department's beef buying program, begun in July to bolster cattle prices, has reached a total of 233,338,811 pounds. The department said yesterday 21,252,745 pounds of beef products bought this week was the second highest weekly total since the program began.

## CIO Goes Ahead On Call For T-H Act Resolution

**By GLENN ENGLE**  
**CLEVELAND (U)—**The CIO Convention paid little heed today to Secretary of Labor James P. Mitchell's advice to quit talking about scuttling the Taft-Hartley Act.

Instead, it pushed ahead with a resolution calling for outright repeal of what it called an "unfair and unjust" law.

CIO President Walter P. Reuther said the resolution, prepared well in advance of the new labor secretary's convention speech yesterday, would not be altered. There was no doubt that it would pass.

Mitchell told the 700 delegates that an approach to labor legislation starting "from the point of realism" would "preclude further talk of repeal of the act."

If such an approach were taken, he said, the administration and Congress could "concentrate on those features of the act which are really dangerous to labor, really loaded, really unfair."

His speech—a careful statement of administration policy—drew only mild applause. It was Mitchell's first major address since he took over last month from Martin P. Durkin, who quit the Cabinet in a dispute with President Eisenhower over T-H law changes.

The Taft-Hartley resolution pledged the CIO to "devote all of its energies and resources" to seek the law's repeal. It accused the Eisenhower administration of not keeping its "solemn pledges to the American people to amend Taft-Hartley so as to make it a just, fair and decent law."

Mitchell told the convention: "There is no disposition in this administration to turn back the clock, nor to recall the old days when American labor was cowed, exploited, and unorganized."

Labor problems, he said, are "too big, too important and affect too many people to be treated as a political football." Nor will the administration permit them, he said, to be carried into the White House by the back stairs, as was the case too often in the past.

In addition to Taft-Hartley amendments, he said, the administration will work for revision of

the federal minimum wage law, which now applies to only one-third which now applies to only one-third of America's 63 million workers, he said. And it also will seek to boost the minimum above the present 75 cents an hour. He did not say how much above. The CIO is demanding a \$1.25 hourly floor.

Sen. Hubert H. Humphrey (D-Minn) headed today's speaker list. He said the people "look to President Eisenhower for leadership, but they'll have to look behind him to find it—and they won't like what they find."

"The heart of humanity is being ripped from government and replaced by worship of the almighty dollar," he said in a speech prepared for delivery.

He likened the Eisenhower administration to a football team. "Like the captain, but he's not the quarterback calling the signals," he said. "Sometimes it looks like their deception is too good—they even confuse each other."

## Survey Report Heard By Board

Howard County Junior College trustees took action on several routine business matters at a session Wednesday evening at the college.

President W. A. Hunt reported to the board that reports from a survey being conducted at senior colleges and universities indicate that former HCJC students are doing "good work." The survey is being taken in connection with HCJC's application for admission to the Southern Association of Colleges and Secondary Schools.

"We haven't finished our chart yet," Dr. Hunt said. "But it is evident that this report will be highly favorable."

Dr. Hunt also reported that the HCJC program this year is moving along smoothly, and that facilities at the college are being used at near their full capacity.

The board authorized the president to prepare season tickets for the 1953-54 basketball season. Dr. Hunt said that Coach Harold L. Davis had suggested season tickets to be sold for \$7 each. A season ticket will entitle the purchaser to a designated seat at each regularly scheduled Jayhawk basketball game.

Copies of the auditor's report were distributed to board members for study and action on the report will be taken at the next session.

The whale is the world's largest animal.

## Democrats Hop On Forecast Of Unbalanced Budget In '54

**By CHARLES F. BARRETT**  
**WASHINGTON (U)—**Key Democrats in Congress today hopped on President Eisenhower's prediction of an unbalanced budget next year as a concession that his administration is renege on campaign promises.

Eisenhower told his news conference yesterday he does not believe the federal budget can be balanced in the fiscal year beginning next July 1.

It was the first such outright statement from the administration on the question. It climaxed a gradual retreat from a statement by Secretary of the Treasury Humphrey last May that a balanced budget was possible by next July 1.

Eisenhower has said repeatedly that a balanced budget is a primary goal of his administration.

But Rep. Carl T. Curtis (R-Neb.), a member of the House Ways and Means Committee, said he wasn't giving up hope yet. He said conditions may change and if the administration can't find the way, Congress may lead a hand.

Sen. McClellan (D-Ark.), a member of the Appropriations Committee, said he was not surprised at Eisenhower's statement.

"The Republicans promised in the election campaign last year that they would reduce taxes, balance the budget, and provide an adequate national defense," he said in a separate interview.

"They should have known it would be impossible to fulfill all these promises."

Rep. John W. McCormack of Massachusetts, assistant Democratic leader in the House, commented: "Everybody knows the Republicans promised lower taxes, more defense and a balanced budget and lesser defense."

McCormack said the situation would produce "a very intense session of Congress next year, as it becomes more and more apparent that the Republicans are unable to deliver on their promises."

Republicans have indicated they will seek to counter such attacks with contentions that most of their budget difficulties were inherited from the Truman administration.

**Jury Votes Man Life Term Despite Request For Death**

**HOUSTON (U)—**A jury sentenced 52-year-old Gerhard A. Cordes to life imprisonment yesterday after he had made a plea for death in the electric chair.

On trial for the ice-pick murder of Mrs. Cleora McCord, 38, July 23, 1952, Cordes had said, "If I'm convicted at all, I'd prefer the electric chair because of my bad

health and being separated from my loved ones."

The jury deliberated 80 minutes yesterday.

Cordes, twice-divorced, told defense Atty. W. E. Martin he wanted the verdict appealed. Cordes has already won one appeal, from a death verdict he received in his first trial Oct. 10 last year.
