## London Miners' Strike Causes Political Crisis

LONDON (AP) — Darkened and semiparalyzed by striking coal miners, Britain faces its gravest industrial and political crisis since the nation's only general strike 46 years ago.

The emergency that has disrupted electric power supplies also threatens the jobs of millions and the recovery of the long-ailing economy. A failure or refusal of the government to promote a swift settlement could imperil Prime Minister Edward Heath's 20-month-old administration.

This is because a central aim of the Conservative leader's policy is to control wage levels in all state-owned industries, including the coal mines.

As a consequence, the government delayed intervention in the three-week dispute until late last week, when positions had hardened. Its authorization of a new offer was rejected by the 200,000 militant miners as too little, too late.

Voicing the frustration in the Labor movement over the Tory government's role, former Prime Minister Harold Wilson accused Heath Saturday of industrial sabotage.

Wilson demanded Heath's immediate personal intervention, asserting a settlement could be negotiated within three days.

It was the style of the opposition Labor party leader to take a personal hand in major industrial disputes when he headed the government.

Health has confined himself to public expressions of Cabinet opinion. He appealed to the miners to get back to the pits while a state court investigates the merits of their wage claims.

At 6:30 a week, the miners are among the lowest paid workers in Britain. The prime minister's speech angered the miners' leaders. Union secretary Joe Gormley said the strike could have been resolved weeks ago if the government had listened to reason.

"Why don't they keep their mouths shut?" he said of the government appeals.

If Heath's government ever felt it could easily beat the challenge of the miners, it must have been out of touch. Their union is one of the best organized in Britain.

Every miner must hold a union card. The self-contained mining communities have an intense union tradition. Miners have more sponsored members of Parliament than any other group.

It was because of their refusal to accept wage cuts in May 1926 that 2½ million Britons put down tools in a general strike.

Unions allied to the miners in Britain's Trades Union Con-

gress stood firm for only nine days. But not the miners. They stayed out for six months even while their families went short.

Britons shivered in theaters, cooked at odd hours and worked extra weekend shifts Saturday as they learned to live with the biggest power blackout since the wartime blitz.

With electricity plants starved of coal fuel because of a mine workers' strike, the nation braced for even worse blackouts that threaten to throw millions out of work.

The government enforced a ban on electric heating in recreation premises.

Housewives hit by the rotating blackouts at mealtime prepared lunch earlier or later than usual. Schoolchildren did their weekend homework by candlelight.

Many husbands gave up the weekend to work extra hours to make up for short shifts going into effect Monday.

## Living Council May Take Action On Meat Prices

WASHINGTON (AP) — The Cost of Living Council may recommend that importation of foreign meat be stepped up to dampen a sharp rise in the price of domestic meat, executive director Donald Rumsfeld says.

However, Rumsfeld declined to say whether the council might consider imposing price controls on meat or other raw farm products, saying an easing of meat import quotas is "among the more likely possibilities."

Recent sharp rises in meat prices, especially beef, have produced calls by some members of Congress for price ceilings and an easing of import quotas.

Rumsfeld, speaking at a news conference, said the matter of meat prices is being considered by the Cost of Living Council.

Currently the United States restricts imports of meat through voluntary restraint arranged with exporting countries, chiefly Australia and New Zealand. Behind these arrangements is a 1964 law authorizing mandatory quotas. In 1970 imports accounted for about 6 per cent of U.S. beef consumption.

Import levels for 1972 have not yet been announced, leaving open the possibility that the door may be opened somewhat wider.

This possibility has been strongly opposed by meat-producing groups such as the American National Cattlemen's Association and by Secretary of Agriculture Earl Butz.

## Pampa Property Sales Indicate Banner Year

The Pampa Multiple Listing Service recently closed its books for fiscal 1971 with the second largest number and dollar value of sales of real property in the service's ten-year history according to Veri Hagaman, president of the Pampa Board of Realtors.

Hagaman said Pampa Realtors believe this large sales volume reflects basic strength and general prosperity of the local economy.

During 1971 a total of 141 Pampa properties were sold by cooperative realtors and salespeople having a dollar volume of \$1,789,822. Only 1970 reflected a higher year of sales when 147 properties were sold totaling \$1,994,376. The third highest year of sales were made in 1968 when 109 properties were sold through the Pampa MLS having a dollar value of \$1,635,067, according to Hagaman.

During January of this year, local realtors started the year with the highest dollar volume of any comparable month since the Listing Service was established in April of 1961. "We believe this is an indication that 1972 will be an even better year for home

sales," Hagaman said. "Sales actually closed during the month of January totaled \$208,533 in dollar volume. This figure does not include sales made for closing in future months."

There currently is a shortage of good homes for sale in several price categories, Hagaman stated. "Most of our local realtors feel the contributing factors to good real estate business, beside the fact that the local economy has a real strong underlying strength, has been that interest rates are down considerably from their highs of 1968, 1970 and early 1971, and that such rates are as low now as they are likely to be for the remainder of the year."

Hagaman said another key to a continuing high volume of sales will be realistic pricing by the homeowner of their homes. He expressed belief it is in this area the professional services of a Realtor will be beneficial.

The Pampa Multiple Listing Service is a cooperative sales effort of seven local realtor firms with some thirty-three sales people and is under the direction and supervision of the Pampa Board of Realtors.

# Open Hearing Set On Issues Concerning Panhandle Water

## President Announces Trip List

KEY BISCAIYNE, Fla. (AP)—President and Mrs. Nixon will be accompanied to China by an official party of 10 White House aides and three State Department advisers, the Florida White House announced Saturday.

Heading the list are Secretary of State William P. Rogers and Henry A. Kissinger, Nixon's assistant for national security affairs. Others on the list, described by a White House spokesman as much smaller than on previous presidential trips overseas are:

Press secretary Ronald L. Ziegler; presidential assistants H.R. Haldeman, Dwight Chapin and Patrick Buchanan; Air Force Brig. Gen. Brent Scowcroft, Nixon's military assistant; Marshall Green, assistant secretary of state; John A. Scali, special consultant to the President; Rose Mary Woods, Nixon's personal secretary; Alfred S. Jenkins, director of the State Department's Bureau of East Asian Affairs; John Holbridge, senior staff member on the National Security Council; and Winston Lord, special aide to Kissinger.

Counting the President and First Lady, the official party numbers 15 and Ziegler said this was in keeping with Nixon's desire that only a "small working party" accompany him when he leaves Thursday for the Feb. 21-28 visit to Mainland China.

Ziegler said, however, that there will be an "unofficial party" of 21 individuals mostly such White House aides as deputy press secretary Gerlad Warren, staff assistants Ron Walker and Tim Elbourne and the President's physician, Dr. Walter Tkach.

In addition to the official party of 15 and the unofficial party of 21, Ziegler said still other support personnel—mainly secretarial, communications and military people—will make the trip.

He did not give a precise over-all figure.

As the official party was announced by the Florida White House, President Nixon and Treasury Secretary John B. Connally relaxed on Grand Cay, a small island in the Bahamas where they flew by plane on the small island in the Bahamas owned by industrialist friend Robert Abplanalp, aides said Nixon would confer with Connally on "outstanding domestic issues." This was expected to include the study—headed by Connally—of the possibility of seeking a value-added tax to ease the burden of local property taxes.

## Longshore Heads Working On Pact To End Walkout

SAN FRANCISCO (AP) — West Coast longshore leaders met Saturday to recommend whether and when 13,000 dockworkers should ratify a tentative pact to halt the longest strike in U.S. waterfront history.

The 110-man caucus at International Longshoremen's and Warehousemen's Union headquarters here is expected to last all weekend and possibly Monday.

Union President Harry Bridges said his men won't go back to work at 24 Pacific Coast ports until they approve a two-year contract proposal in a secret ballot that could take a week. The agreement calls for a 24 per cent pay hike over 18½ months.

Bridges said the negotiating committee he heads would ask the caucus to recommend approval of the tentative pact reached last Tuesday with the employers' Pacific Maritime Association.

WATER HEARING DISCUSSED — Rep. Phil Cates is leaving no stone unturned in an effort to get Panhandle citizens to attend an open hearing on water control at Plainview next week. Cates and Benny Kirksey, local banking executive, discuss the immediate danger to Panhandle water if the people do not respond and attend the hearing. (STAFF PHOTO)

## Rep. Cates Stresses Importance Of Meet

By RAY BAXTER  
The Texas Natural Resources Study Committee will conduct an open hearing Friday in Plainview, according to Rep. Phil Cates, Pampa, a member of the panel.

Purpose of the hearing at 2:30 p.m. in the Holiday Inn, will be to plumb the feelings of the people of the High Plains of West Texas concerning legislation in the field of effective ground water management, pollution control, benefits and delays of projects and water price, use and priority.

"It is my firm conviction," Cates said, "that this meeting is the most important meeting scheduled this year with the possible exception of the one on public school financing."

"The espoused purpose is to test the feelings of the people of this area and I believe every last person should be there to express their feelings about water for the Panhandle."

Cates noted he was singing "an old chorus" but with true-to-life words when he said loss of control over Panhandle water would come about for the same reason there was dishonesty in politics: "no 'good guys' showed up and the 'bad guys' had an open field."

Mr. Panhandle Water—Felix Ryals, White Deer, sorted out the problems and purposes of the hearing in detail. Ryals noted that each of the four topics to be treated raised four questions. Here are the questions he poses:

Questions concerning Effective Ground Water Management are: How could it be achieved? Should it be state wide or local control? What changes in law would be needed to establish an effective Ground Water Management Program? Would effective Ground Water Management eliminate waste?

Pollution Control questions are: Are changes needed in water pollution control laws? Are changes needed in air pollution control laws? Could water and air quality programs be combined? Would state standards exceed those required by federal agencies for air and water pollution control?

The questions under Benefits and Delays of Projects are: Should a class action suit be able to stop a project with no consideration to the need of the people in the local project area? Should a person bringing such a suit be liable for cost incurred such as benefits that could have been received from the project as well as liability for inflation cost and contract renegotiation? Should anyone outside the immediate project area be able to stop construction by class action suit when the area people want a completed project? Should courts be given some discussion as to validity of evidence before allowing such a suit?

Water Price, Use and Priority questions to be delved into are: If a supply of water can be brought into an area, does Texas law provide provisions and methods for a contracting group, an area, an agency or a master district? How should water cost be determined? Who should pay for water used for pollution abatement and Bay and Estuary care? Are the state priority statutes suitable for the 1970's?

That last query—about state priority statutes—is the "hook" in the whole thing. The committee will be assessing them; other interests will be assessing them, so—the people of the Panhandle should assess them and make their assessment—and their concern—known at this public hearing.

The existing priorities for

water in the State of Texas are set forth in Article 7471—priority in appropriation of water.

"In the conservation and utilization of water declared the property of the State, the public welfare requires not only the recognition of uses beneficial to public well being, but requires as a constructive public policy a declaration of priorities in the allotment and appropriation thereof; and it is hereby declared to be the public policy of the State and essential to the public welfare and for the benefit of the people that in the allotment and appropriation of the waters defined in article 7467, of the Revised Civil Statutes of Texas of 1925, preference and priority be given to the following uses in the order named, to wit: (1) Domestic and Municipal uses, including water for sustaining human life and the life of domestic animals. (2) Water to be used in processes designed to convert materials of a lower order of value into forms having greater usability and commercial value, and to include water necessary for the development of electric power by means other than hydro-electric. (3) Irrigation. (4) Mining and recovery of minerals. (5) Hydro-electric power. (6) Navigation. (7) Recreation and pleasure."

"One thing the people of this area should bear uppermost in mind," Cates emphasized, "is that the environmentalists will probably be out in force. Their credo concerning the Panhandle has been made plain before: All the residents of this area should be moved out and the land allowed to revert to nature as God created it."

Cates was referring to what has been termed the most sincere yet the most misinformed group at work in public affairs and legislation today, the environmentalists. Their actions in the past, he claims, have shut down useful projects tying up millions of dollars of taxpayer money from which there will never be any recovery or returns.

"Their proposals for the future stagger the imagination of the people the closest to the real ecology of the nation, those who live by the land."

## FOR DEMONSTRATIONS U.S. Antiwar Leaders Ask Paris Peace Meet Support

VERSAILLES, France (AP) — American antiwar leaders called for international support Saturday night for seven weeks of demonstrations in the United States against the war in Vietnam and the Nixon administration.

The appeal was reported by the spokesman for the American delegation to the World Assembly of Paris For Peace and Independence of Indochinese Peoples. About 800 representatives from 75 countries are attending the assembly.

The Rev. Paul Mayer of New York, spokesman for the 130-strong U.S. delegation, told newsmen the delegation's steering committee had drawn up a proposal asking the assembly to back a series of demonstrations set for March 25-May 15.

He said the demonstrations will generally be directed against the Vietnam war and what he called the government's failure to provide for "hungry persons in the black, Latin and poor white communities" because welfare money is being spent on the war.

On March 25, the minister said the National Welfare Rights Organization will sponsor a children's march on Washington. The American delegation to the assembly is asking that food and other supplies be deposited at U.S. embassies all over the world "to dramatize what the war is doing to the poor in the United States."

The minister listed these other demonstrations for which assembly support is sought: —April 1: A major demonstration in Harrisburg, Pa., in connection with the conspiracy trial of persons charged with plotting to kidnap presidential adviser Henry A. Kissinger and to blow up heating systems in Washington government buildings.

Another demonstration in San Jose, Calif., in connection with the trial of Angela Davis. These actions, the minister added, would "focus attention on the connection between the war and repression" in the United States. —April 15: Local demonstrations in the United States against payment of federal income taxes. —April 22: Major mass rallies and demonstrations in New York City and Los Angeles against the war and for withdrawal of troops and aircraft from Indochina. —May 1-15: Local actions focused on U.S. corporations manufacturing arms, specifically those connected with the war. The minister said the demonstrations would be directed mainly against General Electric, Honeywell, International Telephone & Telegraph and Standard Oil. Antiwar movements abroad are being asked to stage demonstrations during this period at U.S. embassies.

The American proposals were being submitted to the assembly's action committee and will go to the assembly for endorsement Sunday, final day of the meeting.

Among major organizations represented on the U.S. delegation are the American Friends Service Committee-Quakers, Clergy and Laymen Concerned, National Welfare Rights Organization, United Farm workers, Vietnam Veterans Against the War, and Women Strike for Peace.

William J. Porter, head of the U.S. delegation to the Paris peace talks, has called the assembly a "horde of Communist-controlled agitators." He called off the Thursday session of the peace talks, saying the Versailles assembly would disturb the neutral atmosphere of the negotiations.

Earlier in the day, three American women caused a stir at the assembly by asking Communist delegates about their husbands.

## State Board Favors Local School Taxes

AUSTIN, Tex. (AP) — The State Board of Education stressed Saturday that any new plan for financing Texas' public schools should guarantee local control of the schools.

In a policy statement, the board also said each school district should be allowed to pump in extra money to make its schools better.

The board voted unanimously at its last meeting, Jan. 8, to appeal a San Antonio federal court decision striking down Texas' property tax-based system of financing public schools. The appeal will go directly to the U.S. Supreme Court.

Saturday, the board adopted a statement which said, in part, that "because considerable anxiety and monumental concern has developed, it is incumbent upon this board at the very outset to take a very strong position with respect to the administration of any financing plan that might evolve from the legislature."

The board said at least four points should be incorporated in any plan to finance public schools. They are: —"guaranteed funding of

the state's share of basic educational opportunity for all children must continue to be a key element of any school finance plan.

"Local taxes should continue to be used in the district collected. The capability of each local district to enhance and enrich its own program above the state basic program must be preserved.

"The control of the local district and the administration of such funds available to that district should be vested in the citizens residing within that district, retaining the concept that decisions are best when made as close to those affected as practicable. This will require responsible district organization and financial structure.

## China, Russia Said Increasing Aid To N. Viet

WASHINGTON (AP) — Current U.S. intelligence estimates indicate that both the Soviet Union and Red China stepped up their economic and arms aid to North Vietnam over the past year.

Preliminary calculations for 1971 place the total assistance to Hanoi from the Communists camps, including the East European bloc, at roughly \$830 million—up about one quarter from the preceding year.

President Nixon said this week that the United States would agree to limit its aid to South Vietnam if Hanoi would do likewise on assistance from its Communist allies. And Secretary of Defense Melvin R. Laird voiced hope that Nixon's Moscow discussions would include consideration of mutual U.S.-Soviet restraint on arms shipments to Vietnam.

Administration officials said Saturday, however, that Nixon's forthcoming talks in Peking and Moscow are unlikely to get into any specific proposition for a mutual clampdown on help to Saigon and Hanoi.

By U.S. calculations, the Soviets supply about two-thirds of North Vietnam's outside assistance. Combined Communist aid is estimated to have dropped from a high of \$1 billion in 1967.

PRACTICE SESSION—Pancake flippers for St. Matthew's Episcopal Church's annual Shrove Tuesday pancake supper held a practice session Saturday to improve their technique before the rush begins. Shown, left to right, are George McCarroll, Bill Ragsdale,

Jack Curtis, Jack Nichols and General Chairman Ab Conway. The event will be held from 5 until 8 p.m. Tuesday in the church's Parish Hall. (Staff Photo)

### Mainly About People

The Pampa Fine Arts Association will host a reception from 2 until 5 p.m. today in the Fine Arts Gallery, 516 W. Kingsmill, for those wishing to view the works of Dorothea Dean Smith, assistant professor of art at West Texas State University, Canyon. The event is open to the public. Sale: Save 10 to 25 per cent. Gift Boutique, 1615 N. Hobart. Saturday 12-19. (Adv.) Pampa chapter No. 65, Order of the Eastern Star, will meet at 8 p.m. Tuesday in the Masonic Hall, 420 W. Kingsmill. The meeting will honor the past matrons and past patrons of the chapter, with Mrs. E. W. Cobb and Mrs. Otis Nace presenting the program. Free: Cute puppies 2232 N. Sumner. (Adv.) Polyfoam cut any size. Pampa Tent and Awning. (Adv.) The White Deer Land Museum will be open from 2 until 5 p.m. each Sunday. By Owner: House 804 Gray Furniture, dishes, clothes. (Adv.) The Christian Mothers and Altar Society of St. Mary's Parish in Groom will sponsor a dinner and bazaar from 12:30 until 3 p.m. today in the school.

### Six Pampans To Attend Annual TCTA Meeting

Six delegates from Pampa will be among some 1,000 teachers from over the state at the 17 annual convention of the Texas Classroom Teachers Association (TCTA) at Dallas next Friday and Saturday. Karen Slate, president of the local TCTA unit said John Simon, Judy Dennis, Raymond Thornton, Cleona Sears and Kay Hood would be accompanying her to the convention as the official delegation. Mrs. Slate noted there may be others from Pampa who will attend but these six are authorized to act in behalf of the Pampa association. An area teacher is the only candidate for president-elect. Edna Stephenson, Borger High School English teacher is currently serving a term as vice-president. After one term, the president-elect automatically succeeds to the presidency. One of the features of the convention will be an open hearing to examine the proposed new constitution of the National Education Association (NEA). Among the items on the business agenda are proposed resolutions ranging from improving instruction to legislation, administrator-of-the-year awards; local projects recognition awards and the announcement of new officers.

### Pampans Joining Orange-Picking Trip To Mission

ABILENE—Cynthia Carter, sophomore student from Pampa, is among 70 Hardin-Simmons University students and staff members who left Friday for the Rio Grande Valley. The group was to pick oranges Saturday at the university-owned orchard near Mission. The oranges will be given to persons making a contribution to the library fund. Exes returning to the campus for Homecoming Feb. 18-19 will have an opportunity to make pledges to the library fund and receive a bag of oranges. The group is due to return to Abilene late today or early Monday.

### Missing Tanker Wreckage Said Found Off Gulf

GALVESTON, Tex. (AP) — An spokesman for the owners of the tanker V. A. Fogg said Saturday a ship searching for the missing vessel found wreckage on the bottom of the Gulf of Mexico about 50 miles southeast of here. He said divers will attempt to identify the wreckage. "Some wreckage has been found that has not been positively identified," said L. W. Westfall of Texas City Tankers Corp., which operated the Fogg, missing since Feb. 1 with 39 men aboard. The wreckage was located late Friday by the Miss Freepport, a sonar-equipped search vessel, hired by the firm to search for the Fogg. Westfall said weather conditions in the Gulf will make it difficult to go down today, but as soon as the weather clears an attempt will be made. "Our marine charts show other wreckage out there so any findings cannot be certain at this point," Westfall said. The Fogg became the object of a massive sea and air search when it failed to dock at Galveston on schedule after sailing from Freeport.

### Statewide Candidates Announced

AUSTIN, Tex. (AP) — Here are the candidates for statewide office in Texas: Democrats U. S. Senate—Barefoot Sanders of Dallas, Ralph Yarborough of Austin, Thomas Cartledge of Tyler, Hugh Wilson of Port Arthur, Alfonso Veloz of Houston and W. R. Dobkins of Monahans. Governor—Gordon Wills of Crockett, Preston Smith of Austin, Ben Barnes of Austin, Asen Dodov of Fort Worth, Raymond Donley Jr. of Austin, Robert Looney of Austin, Mrs. Frances Farenthold of Corpus Christi, Dolph Briscoe of Uvalde, George Clark of Natalia and William Posey of Houston. Lieutenant Governor—Joe Christie of El Paso, Wayne Connolly of Floresville, Curtis Ford of Spring, Bill Jones of Odessa, Robert McCord of Corpus Christi, John Standlee of Mathis, Ralph Hall of Rockwall, Bill Hobby of Houston and Troy Skates of Del Valle. Attorney General—Crawford Martin of Austin, John Hill of Houston and William Pate of El Paso. State Comptroller—Mrs. J. E. Anderson of Houston, Dallas Blankenship of Paris, Robert S. Calvert of Austin, Jay Lanier of South Houston, William Robertson of Houston, James Wilson of Austin, Vernon Smith of Fort Worth, Stanford Smith of San Antonio, Randy Pendleton of Andrews, Odie Weldon of San Antonio and Lauro Cruz of Houston. State Treasurer—Baker Rudolph of Coleman, Nolan Robnett of Austin, Eric Smylie of Fort Worth, Jesse James of Austin and Ben Mansker of Houston. Land Commissioner—Bob Armstrong of Austin and Che Cisneros of Houston. Agriculture Commissioner—John White of Austin and Carl Bell of Corpus Christi. Railroad Commissioner—Byron Gunnell of Austin, Edward Gonzalez of Houston, Connie Lawson of Taylor and Gene West of San Antonio. Chief Justice, Texas Supreme Court—Joe Greenhill of Austin. Supreme Court, Associate Justice, Place 1—Price Daniel of Liberty. Supreme Court, Associate Justice, Place 2—Sam Jay Johnson of Houston. Court of Criminal Appeals—Wendell Odum of Austin. U.S. Senate—John Tower of Wichita Falls. Governor—Albert Fay of Houston, Henry Grover of Houston, John Hall of Weatherford, Joseph Jenkins of Dallas, B. Thomas McElroy of Houston and David Reagan of Sherman. State Treasurer—Maurice Angly Jr. of Austin.

WHERE THERE'S SMOKE...A load of hay-being delivered to Moody Farms, east of Pampa on highway 152, burned Saturday afternoon after sparks from the exhaust blew back on the dry load. Driver Jerry Schonfield from Briscoe said that damage would run about \$7,000 to the tractor, trailer and the cargo of hay. The Pampa Fire Department answered the call shortly after 5 p.m. (STAFF PHOTO)

### Obituaries

MRS. LILLIE M. JACOBS Funeral services will be held at 2 p.m. Monday in the Ward Funeral Home Chapel at Van Horn, Tex., for Mrs. Lillie Mae Jacobs, 78, who died at 10:45 a.m. today in Highland General Hospital, Pampa. Burial will be in the Van Horn Cemetery beside her husband, Otis, who died in 1943. Local arrangements were under the direction of Carmichael-Whitley Funeral Directors. Born Jan. 17, 1894, in Dallas, she lived with her daughter, Mrs. Virginia Snyder at 406 Tignor. A long-time resident of Van Horn, she came to Pampa from O'Donnell in May, 1971. She was a member of the Baptist Church. Survivors include two sons, Billy Dane Sheffield of Salem, Ore., and Dan Douglas Sheffield of Van Horn; two daughters, Mrs. Snyder of Pampa and Mrs. Ethel Weathers of Altus, Okla.; one brother, Daisy Rowe of Van Horn; two sisters, Mrs. Eva Driggers and Mrs. Laura Euerry, both of Van Horn; seven grandchildren and 10 great-grandchildren. MRS. MATTIE McMILLEN Funeral services are scheduled for 2 p.m. Monday in the First Methodist Church of Perryton for Mrs. Mattie T. McMullen, 87, who died Thursday in an Amarillo nursing home. Burial will be in Ochiltree County Cemetery, Perryton. Born in Indiana, she had lived in Amarillo since 1968. She was preceded in death by her husband, W.E. McMullen, a farmer and long-time resident of Perryton. She is survived by one daughter, Mrs. J.B. Oxford of Amarillo; one brother, Spencer Whippo of Perryton; three sisters, Mrs. Carrie Correll, Mrs. Theresa Thurman and Mrs. A.K. Wilson, all of Perryton; and one grandson. MRS. EFFIE E. RENO BORGER, Tex. —Mrs. Effie E. Reno passed away at 3:30 p.m. Saturday at North Plains Hospital. She was a 20-year resident of Miami, Okla., and a member of the First Christian Church. She was born June 6, 1906 at Grove, Okla. Mrs. Reno is survived by one daughter, Mrs. E.R. Denman of Borger; four brothers, Louie Vice of Webb City, Mo.; Floyd Vice of Eugene, Ore.; Wilbur Vice of Vancouver, Wash.; one sister, Mrs. Edna Burr of Neosho, Mo.; one grandson of Pampa, Roy Denman and four great-granddaughters. The body will lie in state at Carmichael-Whitley until 5 p.m. and funeral services will be held at 2 p.m. Tuesday at the Thomas Funeral Chapel in Miami, Okla. Burial will be in the GAR cemetery.

### Oranges To Be Used In Drive Raising Fund For University

MISSION, Tex. (AP) — Oranges from the Lower Rio Grande Valley are playing a vital role in the construction of a new \$1.5 million library at Hardin-Simmons University in Abilene. A delegation from the Abilene University was in the Valley Saturday to pick 20 tons of oranges for use in a unique drive to raise a portion of the \$1.5 million it will take to build the new library. The oranges will be taken back to Abilene Sunday and each person who pledges \$1 or more will be given a bag of the fresh citrus. The orange pickers included about 60 students and 10 staff members, including several top officials of the school. Dr. Bill Bezley, executive vice president; Byron Bryant, assistant to the president, and Dr. Clyde Childers, vice president for development, were among those who donned work clothes and trudged through the plowed citrus grove nine miles northwest of Mission. The nine-acre grove is owned by Hardin-Simmons and is maintained by Ralph Antilley, an Edinburg area farmer who formerly lived in Abilene. Antilley, who was helping with the orange harvesting, was described by Bryant as "a close friend of the university." Student body President Haas explained that the 14 Rural Traffic Mishaps Reported During January. The Texas Highway Patrol investigated 14 accidents on rural highways in Gray County during January, according to Sgt. J. L. Dairymple, highway patrol supervisor of the Pampa area. The crashes resulted in one death and two persons injured. The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for January, showed a total of 500 accidents resulting in nine persons killed and 217 injured as compared to January, 1971 with 467 accidents resulting in 17 deaths and 235 persons injured.

### Police Forward Warrants For 3 Theft Suspects

Michael Charles Smith, 21; James Edward Walling, 19 and Patricia Ann Schell, 18, are in the custody of the San Diego, Calif. sheriff's department as suspects in the theft of \$33 in cash and a Cadillac automobile at Pampa. San Diego authorities recovered the vehicle but it was a total loss. It had been burned and pushed down an embankment. The Pampa police department have forwarded warrants for the suspects being held in California. The car and the money was taken from a North Hobart St. service station sometime between close of business last Sunday and opening time Monday.

### Three Pampa Students Join Choir Contest

Three Pampa students were selected for the All-State Choir in competition at the three-day Texas Music Educators Association convention in Fort Worth ending Saturday. The students, John Fitzgerald, Steve Skoog and Joe Phillips, performed with the choir at the convention's 1972 Grand Concert last night. Also performing were the All-State Symphonic Band and Symphony Orchestra. They were among 34 area students selected as the top 500 music students in the state.

### Amarillo Youth Files Complaint Against Student

Delmer Durrett, 2700 Tekia, Amarillo, filed a complaint with the Pampa police department with intent to bring Pampa Harvester basketball player Freddie Wilburn, 17, into court on a charge of simple assault, according to the police record. The complaint was the result of an altercation on the basketball court at Harvester Field House during the Friday night game with Tascosa. Durrett's son, ROBERT, a Tascosa player allegedly pushed Wilburn and the Pampa boy struck him. Young Durrett was taken to the hospital where he was examined, treated and released. Pampa Coach Robert McPherson sent Wilburn from the building immediately.

## Morris Project May Be 'Torpedoed' Because Of Lack Of Federal Funds

EDITOR'S NOTE: Texans seldom are accused of thinking small, and a current highway proposal is no exception. The thrust of the plan is aimed at linking Dallas, Fort Worth and their regional airport. But the freeway, an extension of the interstate system, would run to Lubbock, a "plains-to-port" ribbon of the future.

By MIKE COCHRAN  
Associated Press Writer  
FORT WORTH, Tex. (AP) — It is Sunday, 1962. The motorist speeds through North Dallas, moving westward on a sparkling new freeway. It is warm and sunny and visibility is good.

As the panorama of downtown Dallas recedes in the background, the Trinity River curls into view on the left. The river is sprinkled with barge traffic.

On the right, a jumbo jet sweeps down onto a runway at the regional airport, the sprawling monument to unity between two rival cities.

Because it is Sunday and only vaguely smoggy, the Fort Worth skyline will be visible within minutes. So will the Trinity Canal port at the edge of the city.

Since there are neither traffic lights nor toll plazas, the trip across Fort Worth is swift. Once through, there is open road some 300 miles to Lubbock.

Although it is Sunday, the freeway is busy. There are lots of trucks. Many are

hauling the rich products of the plains to the port for shipment.

Give or take a year and a river barge, such a Sunday excursion would be possible under a highway proposal which is gaining much attention in the Dallas-Fort Worth area.

But despite enthusiastic support, the project may be torpedoed simply by the unavailability of federal funds. Texas' political clout, or the lack of same, looms as a factor.

The proposal is called the "Morris Plan," so named for former Texas Highway Commissioner Garrett Morris, who offered the idea as an alternative to a controversial toll road.

The issue is not as simple as it seems, although it revolves essentially around the future need for a highway, toll or free, linking Dallas, Fort Worth and the mid-cities to the regional airport.

Since hundreds of thousands of Texans crisscross North Texas each year, the project is of more than passing statewide interest.

It is argued that existing highways, including unfinished Interstate 20 south of the turnpike, will be insufficient to handle the crush of traffic by 1977.

The year 1977 was selected by no coincidence. It is then that the Dallas-Fort Worth Turnpike will have retired its bond debts. It is supposed to

become a freeway then. Wherein lies much of the controversy.

One proposal, the stormiest, would be a continuance of the toll fee until perhaps 1984 to help finance the second tollway, or "Trinity Turnpike."

Few overlook the fact that the present turnpike will be swamped with traffic once the 60-cent toll is lifted. Dee Kelly, chairman of the Texas Turnpike Authority, says 90,000 cars now use the turnpike daily, the optimum for safety and distribution.

"A feasibility study shows that by 1984, after the airport opens, there will be a demand for an expressway or highway to handle 200,000 more cars a day in the corridor between 183 on the north and highway 80 on the south," Kelly said.

Both 183 and 80 link Dallas and Fort Worth.

The Morris plan, simply stated, would extend Interstate 30 from its present terminus—east of Dallas—across North Dallas west and past the airport to Fort Worth and, eventually, on to Lubbock.

Interstate funding is on a 90-10 basis with the government paying 90 per cent and the state the remainder. Motorists pay nothing: nor do city and county governments.

While no price tag is attached to the over-all plan, a preliminary study indicated cost to the Dallas-Fort Worth

phase alone would exceed \$150 million.

"It is a plan elegant in its simplicity, compelling in its logic and—best of all—deserves (and appears to be getting) broad-based support," the Fort Worth Star-Telegram said editorially.

The newspaper also endorsed a second feature of the dual proposal that calls for the turnpike authority to begin engineering and right-of-way studies under authorization of the Texas Highway Commission.

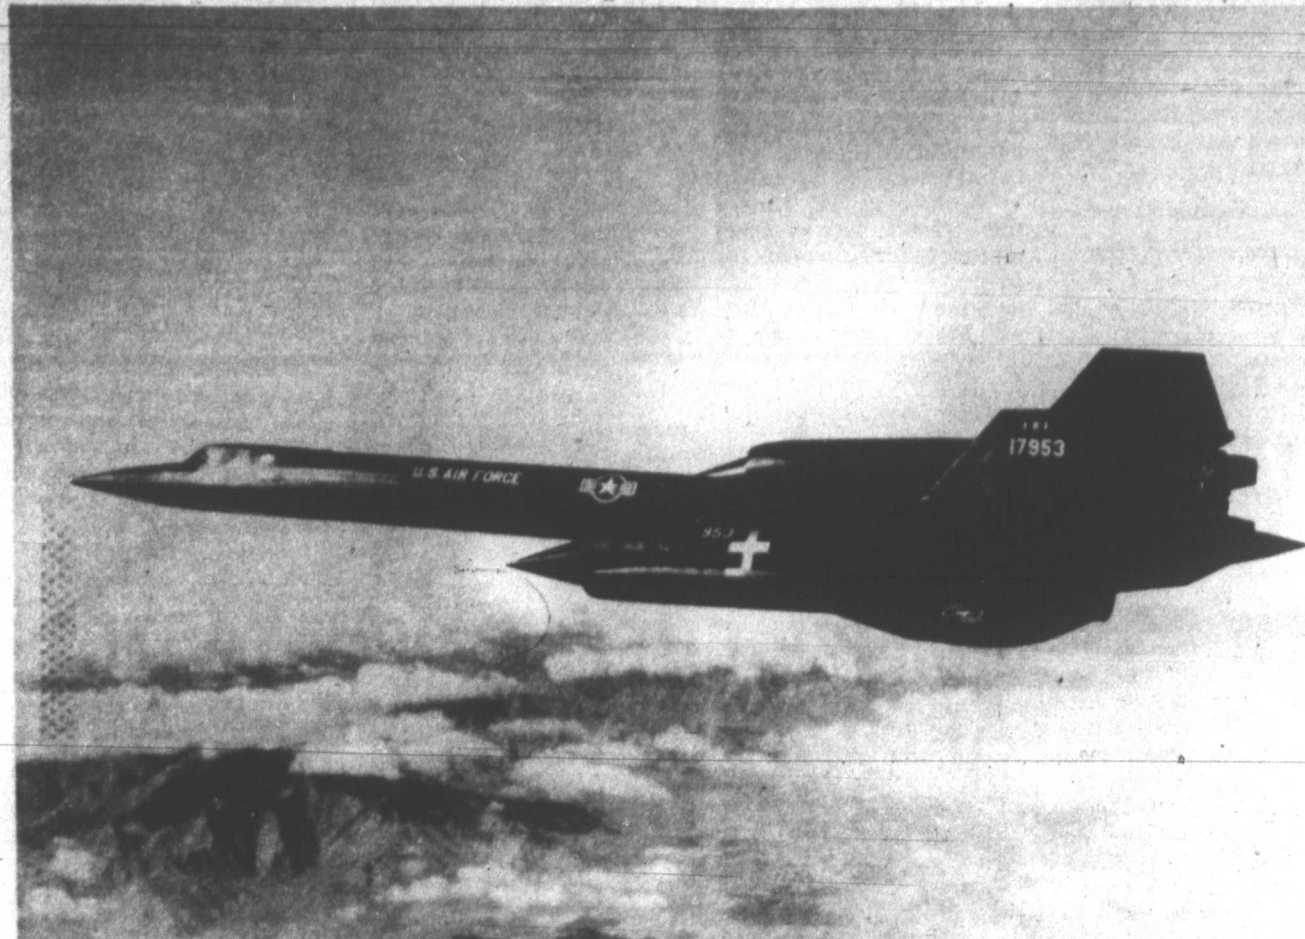

Such a highway, he said, would give Lubbock and the South Plains a plains-to-port highway with completion of the Trinity River Canal.

"And with it, hundreds of millions of dollars in commerce will eventually flow into this area," he said. "But without it, we'll stagnate."

"Without it, we'll have bumper-to-bumper traffic between Dallas and Fort Worth. It will be an intolerable situation. We will be unable to grow. It is a necessity."

If the proposal fails, said Green, "then we have no alternative but to go to the tollway."

In the beginning, chairman Kelly of the Turnpike Authority said he thought the Morris Plan's concept was "fine" but the "futility" is a lack of funds.

UNCLE SAM'S NEW BIRD--This is the SR-71 reconnaissance aircraft Pampa Congressman Bob Price tested for the U.S. Air Force during the weekend at Beale Air Force Base in California. Price was called on to make the test flight and evaluate the plane because of

his experience as a jet fighter pilot during the Korean War. The Pampa congressman recently flew the F-5 jet in Korea at the request of the Korean Air Force Chiefs of Staff.

## Rep. Price Makes Test Flight Of SR-71 Reconnaissance Plane

Congressman Bob Price of Pampa flew to Beale Air Force Base in California where he underwent extensive training and made an airborne test flight of the highly sophisticated SR-71 reconnaissance aircraft Friday and Saturday.

Congressman Price, who made the test-flight at the invitation of the Secretary of the Air Force, flew 27 combat missions as a jet fighter pilot during the Korean War where he received a combat promotion as well as the air medal, and is presently among a very small number of Congressmen qualified to fly and evaluate America's most modern sophisticated military jet aircraft.

Congressman Price's record as a member of the Air Force includes flight experience in such aircraft as the T-6, T-28, T-33, F-80, F-86, Saber Jet E and F Models, T-37, T-38, T-39, F-111, as well as the F-4 Phantom currently being used as our number one fighter aircraft in the Viet Nam War. Price has also instructed Jet Gunnery in the F-84 D and G Models and most recently flew the F-5 in Korea at the invitation of the Chiefs of Staff of the Korean Air Force.

The letter to Congressman Price from the Department of the Air Force confirming the arrangements for the test flight underlined the purpose of the mission:

"Your extensive personal experience as a jet pilot and your continued interest in remaining intimately familiar

with military aviation will provide both the Congress and the Department of Defense with valuable insights in these important aspects of our national security. We appreciate the time and effort you have been devoting to these matters and look forward to your comments of this program."

Congressman Price was expected to return to the Texas Panhandle tonight.

In commenting on his weekend experience, Price said:

"I am grateful for this opportunity to evaluate first-hand one of the most sophisticated weapons ever produced by American technology, and look forward to using this knowledge and experience to promote a sound and efficient defense posture in the Congress."

The SR-71 is the world's most advanced strategic reconnaissance aircraft and one of the fastest and highest flying aircraft in the skies today. The SR-71 flies at more than three times the speed of sound at altitudes in excess of 80,000 feet.

Capable of both pre-attack and post-attack reconnaissance, the SR-71 carries a wide variety of advanced observation equipment, and can survey 60,000 square miles of the earth's surface in one hour.

The first transatlantic wireless communication was made by Marconi from Newfoundland in 1901.

## Over 22,000 Crippled Children Receive Easter Seal Treatment

Because of the steady growth in numbers of crippled children and adults in Texas, the Easter Seal Society for Crippled Children and Adults of Texas has stepped up its rehabilitation services.

According to Paul Keim, Easter Seal representative for Gray County, over 22,000 handicapped Texans received Easter Seal treatments during 1971.

"Despite medical scientific advances," Keim explained, "the ranks of the crippled are growing. This is because of population growth, increased number of accidents and medical treatment which saves victims of crippling diseases who might not have lived in past years."

Quoting the annual report of the Easter Seal Society for Crippled Children and Adults

of Texas, he said 19 affiliated treatment centers are in operation in Texas. They include treatment and rehabilitation centers, sheltered workshops, recreation and educational programs, and many others.

"Through these programs, persons with a wide variety of handicaps receive the help they need to live normal lives," Keim said.

The largest group served includes those with major deformities of bones and joints, severe speech defects, cerebral palsy, arthritis, muscular dystrophy and multiple sclerosis and stroke. The Easter Seal Campaign, which provides funds for continuation of these services, begins Feb. 28 and continues through April 2, Easter Sunday.

## Nixon's Phase 2 Plan May Be Replaced By 'Social Compact'

WASHINGTON (AP) — President Nixon's Phase 2 economic controls may be replaced by a "social compact" between big business and labor to restrain wages and prices voluntarily, a high Treasury Department official says.

What might result, Undersecretary Charles E. Walker said in an interview, is a self-regulating system in which powerful labor unions and businesses agree to hold the line on inflation. A government wage-price review board would watch over the system but could only

seek voluntary compliance.

Emphasizing that he was expressing his own ideas on how Phase 3 might develop, Walker noted a similar stabilization plan was set up in the construction industry several months before Nixon imposed wage-price controls. Management and labor in the construction industry finally agreed that wage-cost growth had to be slowed, he said, and both favored Nixon's self-regulating system.

New Brunswick was once a county of Nova Scotia.

from an altitude of 80,000 feet. The SR-71, with its advanced capabilities, outperforms all other reconnaissance aircraft in existence today the congressman stated.

## Cheer-Up Trips In Asia Feature Spending Spree

HOLLYWOOD — (NEA) — The report from the inside about Bob Hope's annual trip to the battlefront is that it's one big spending spree. I talked with Lezlie Dalton, a bright and beautiful girl who has been with Bob twice. In '69, she went along as a member of the Goldiggers. This past holiday season she was one of the Deb Stars. "Most of our time off we spend shopping," Lezlie said. "I only spent about \$300 this year, which was low. Some of the people spent three or four thousand dollars. I heard that last year the entire group left about \$100,000 in Thailand alone." She says that being on the tour "is the nearest thing I'll ever be to heaven and hell." "It's heaven," she explains, "because the pleasure of working and the joy of bringing a touch of home to the men. But it's hell at the same time, because I learned so much about war—I learned that in a war there are no winners." But, she says, in the two years between her trips to

Vietnam, she noticed a great difference. "The war," she says, "is grinding down. Our biggest audience this year was the same size as our average audience two years ago. And the men seemed less tense, although just as grateful"

### Scorpions

Scorpions have undergone little change over a period of time that witnessed the rise and fall of dinosaurs and the comings and goings of many other life forms. They have an ancient story that extends back perhaps 400 million years.

### Named For Bird

The ocarina, a musical instrument, is named for a bird. The term is a form of the Italian word meaning "goose" and it was used because it is shaped like a goose egg.

For three centuries after its discovery, Prince Edward Island was known as St. John's.

### Nixon, Connally Discuss Value-Added Tax

WASHINGTON (AP) — President Nixon and Treasury Secretary John Connally will discuss the value-added tax this weekend, but Nixon says he can't predict the outcome. "We have not yet found a way, frankly, that we could recommend to replace the property tax," Nixon told newsmen Thursday. "But, with the obligation to face up

to reduce or reform property taxes, the Treasury Department necessarily is considering other methods of taxation." Still, as Nixon spoke, administration officials were presenting a favorable view of value-added taxation to a governmental committee opening a study of the plan. The tax, a form of national

sales tax collected in stages, was put before the Advisory Commission on Intergovernmental Relations Thursday in favorable terms by Elliot L. Richardson, secretary of Health, Education and Welfare.

Metal garbage cans will be eliminated in Paris in 1975 and replaced by plastic bags.

# Eddie Brings Out Best In TV Father

By JOYCE GABRIEL

NEW YORK (NEA)—Of the six-to-seven million single parents in the United States, the one probably best known to the most people is: a) not a parent; b) not single.

Credit the power of positive playing for so strongly identifying Bill Bixby of TV's "The Courtship of Eddie's Father," with the special situation of the single parent, in his own mind as well as with the public, that he was the obvious choice for an Exemplary Service Award from Parents Without Partners, Inc.

The award, for "outstanding achievement in bringing about a better understanding of single parenthood," represents something of a diploma to Bixby: For three years as the TV father of Eddie (Brandon Cruz), he has learned how to deal openly, honestly and seriously with a child, and more importantly, he has learned to project this relationship on the TV screen.

"Bixby seemed, even to himself, an unlikely candidate for the role of TV father. His first TV series was My Favorite Martian and he played what he describes as a 'jackass of a character. He was confused, not a likable sort of person. But, then I was confused myself at the time.'"

He was a "swinging bachelor" with no children of his own. "It was James Komack, who had worked with Bixby on the Martian series, who created Eddie's Father and cast Bixby in the lead role. When they looked for his TV son, they wanted a child who was not an actor."

Brandon Cruz, whose former acting experience consisted of playing Toto the dog in an amateur production of the "Wizard of Oz," was tested.

"I told him to walk to the door, turn, look at me as if I were his father and tell me he loved me," Bixby explained. "Brandon walked to the door, turned and said, simply, matter-of-factly, 'I love you.' I knew then he had the part."

"People thought we were crazy to cast him. He was six years old, he couldn't even read his scripts. But he was genuine and I wanted him."

Bixby worked with Brandon on his lines and developed an off-screen relationship with him.

"At first," he recalled, "I got to know Brandon as part of my job. I thought we would perform better if we knew each other well. I was floored by Brandon's openness and his honesty - and I loved it. He brought out those qualities in me. We became friends and we've stayed friends. He's an

Bill Bixby and Brandon Cruz  
The best isn't always in the script.

exceptional, sensitive child."

Ms. Barbara Weatherly, a divorcee with three children of her own who is International Director of Parents Without Partners, explained why Bill Bixby received the award.

"There are between six and seven million single parents in this country," she said.

"Although there are many single-parent shows on TV, most of them are contrived, with the children used as vehicles for comedy for the adult stars. Eddie's Father is genuine. It makes single parents visible in a positive way. Many people think a broken home is necessarily bad for children."

"However, just because the adults' relationship has been broken doesn't mean the child has to be damaged. Bill shows what a single parent can do for a child."

"We don't rehearse the show," said Bixby. "There is a script and we learn our lines, but we don't want to lose the spontaneity. So we shoot the scenes cold. Sometimes, in the middle of a scene, Brandon will throw his arms around me. It's not in the script, it's what he's feeling at the time. I'm so touched I cry."

Bixby discovered early in the show that adults shouldn't talk down - literally or figuratively - to children. A regular piece of action in the program is Bixby lifting Brandon to eye level when

that I'm sorry, that adults can make mistakes," Bixby explained.

Bixby describes fan mail he receives as "deeply personal." He gets letters from all age groups: young children, teen-agers, parents, even college students and young marrieds. What people comment on most often is his openness in dealing with his TV son.

Bixby's recently aired circus special for ABC-TV was filmed in Budapest. Bixby, Brandon, his grandmother and tutor travelled together.

"We were shopping on our last day there," Bixby said, "and Brandon had run out of spending money. He knew he only had a certain amount to spend and he wouldn't ask for more. He found a shepherd's vest that he really wanted. I watched him struggle in the store. He held it and looked around, but he didn't ask for it. Finally he put it down, and just from the way he let go of it, I knew how much he wanted it. When Brandon wasn't looking, I bought it for him."

"I went up to his hotel room with it. When I came in, Brandon was still upset about the vest—he was kicking chairs, in a temper. I showed him the vest, and do you know that child walked right past the vest and over to me. He grabbed me around the knees and said, 'I love you, Bill.'"

CADILLAC, Mich. (AP)—The City of Cadillac has found a way to recycle snow. City workers are hauling snow from the main street to nearby ski slopes. The latest snowfall produced 450 cubic yards for the hills.

# People In The News

NEW YORK (AP)— Jacqueline Onassis, President John F. Kennedy's widow, has completed pretrial testimony as a defendant in a \$1.3 million suit filed by a photographer who claims she interfered with his work.

Photographer Ronald Galella, who has made a career of photographing the former first lady and her children, filed the suit. It is scheduled for trial starting Feb. 16.

LOS ANGELES (AP)— Burl Ives is accused in a \$1,100,000 suit of refusing to contribute his share in a business to franchise campgrounds nationally.

Roger Cunningham, 53, who filed the suit Thursday in Superior Court, said he had invested \$40,000 and spent almost a year in promoting the business, Wayfaring Campground, Inc., of Santa Fe, N.M.

The suit contends Ives failed to repay Cunningham his costs and refused to allow his name and likeness to be used for publicity purposes.

Cunningham seeks \$18,000 in compensatory damages, \$40,000 in special damages, \$800,000 in general damages and \$250,000 in punitive damages.

NEW YORK (AP)— Mayor John V. Lindsay has awarded former U. N. Secretary-General U. Thant the city's highest award, a Gold Medal.

In making the award Thursday, Lindsay called Thant the "world's chief architect of peace."

# For A While It Looked As If Irving Had Achieved Goal

Editor's Note—For a while it looked as if Clifford Irving had achieved his ambition as a writer—money and literary recognition. His manuscript on the life of billionaire industrialist Howard Hughes had been accepted for publication. Then things fell apart. Following is the second of two articles profiling the author.

By PETER ARNETT  
AP Special Correspondent

NEW YORK (AP)— At sunset-blurred beach parties late last autumn and across the checkered tablecloths at Ibiza's outdoor restaurants, Clifford Irving's friends excitedly passed the word: He finally had stuck it rich.

A friend remembers: "He had told his closest acquaintances that he was on to something of historic proportions."

Then it was official. McGraw-Hill announced on Dec. 7 that it would publish the autobiography of billionaire recluse Howard Hughes, with excerpts to appear in Life magazine.

And the author of this literary coup of the decade? Forty-one-year-old Clifford Irving.

Clifford who? That is what had been ranking him all along, according to his friends. His lack of recognition.

Even back in his college days, this handsome son of a successful New York cartoonist and grandson of a tough Manhattan cop had

burned with an ambition to make his mark as a writer.

He had published seven books, four of them novels. Enough money was coming in to maintain his standing as a successful man of letters amongst the mixed bag of European gentry, adventurers, American writers and playboys whom he counted as his friends on the Mediterranean island of Ibiza where he lived.

He had married four times, and there were other women in his life.

But there was a void to be filled—the need for fame. A big man in Ibiza, Irving was well aware that he was well less than first rank in the larger literary world of the United States.

As one book after another failed to gain great critical acclaim or bring him reputation, Irving and his friends would sit sipping wine on the red-tiled living room floor of his 300-year-old peasant house, jokingly concocting bizarre schemes to get rich and famous.

"A recurring theme of Cliff's was to retrace the path of some famous aviator reputed to have discovered a vast diamond field in South America," one acquaintance recalled. "Cliff wanted to stake a claim and live happily ever after."

Another bizarre scheme was seriously considered to promote his book "Fake!" the story of art forger Elmyr de Hory, his Ibiza neighbor.

According to friend and former editor Tom Gervasi,

Irving wanted a girl acquaintance to buy a painting by the French artist Dufy from a well known Manhattan gallery. Cliff would then publicly pronounce the painting a fake, the work of de Hory. With this scheme he hoped to stir up publicity and push along the slow sales of the book, Gervasi said. He finally dropped the scheme because it endangered the reputation of the gallery.

It was in the introduction to "Fake!" that Irving hinted at his yearning for success when he wrote, "I have noticed in this most curious world that anything is possible and that what seems highly improbable is merely beyond the reach of one's imagination."

It was last spring that Irving told McGraw-Hill and Life magazine that he had obtained the authorized autobiography of Hughes.

Irving said he had mailed his book, "Fake!" to the recluse, which resulted in a continuing exchange of letters. "Irving sold them the story with buttery smoothness," said an executive close to the negotiations. "He had incredible fluidity in explaining how he allegedly met Hughes. He told questioner after questioner the exact story with intimate detail."

And so on Dec. 7 McGraw-Hill made the announcement of the imminent publication of the autobiography of Howard Hughes. For Clifford Irving, it was anonymity no longer.

Kimberly Elliott, three-year-old daughter of Mr. and Mrs. Kenneth Elliott, Pampa.

Lisa Holland, six-year-old daughter of Mr. and Mrs. Tony Holland, White Deer.

Andy Holland, four-year-old son of Mr. and Mrs. Tony Holland, White Deer.

## Ship Channel Mercury Content Higher Than a Acceptable Level

HOUSTON (AP) — The Environmental Protection Agency says the mercury content of the Matagorda Ship Channel bottom is five times the federally acceptable level. The agency has informed

the U.S. Army Corps of Engineers that the corps must not allow dredgers in the ship channel to distribute the mercury throughout the bay.

The corps proposes to issue contracts next spring for maintenance dredging of the ship channel inland from the Gulf and for dredging accumulated silt from barge canals in the Lavaca and Navidad rivers.

The EPA ordered the corps to sample existing dredge spoil areas in the Matagorda Bay to determine their normal mercury level before dredging begins. The EPA then says dredgers must sample those areas continually and stop work if the mercury level rises.

The EPA also ordered dredgers to employ retaining walls around their work areas to prevent silt from the dredging from escaping and covering oyster beds.

The state Health Department closed large areas of Lavaca Bay to oystering in 1970 after the department found high mercury levels.

The Texas Water Quality Board ordered the Alcoa plant on the bay to cease dumping mercury into the bay with waste water from the plant.

Oysters and other marine organisms accumulate mercury in their flesh to levels that the Food and Drug Administration says is harmful to humans.

SPACE CENTER, Houston (AP) — Two of three experiments aboard a satellite left in orbit of the moon by Apollo 15 have stopped sending data because of an apparent electronic component failure, the space agency announced Thursday.

## One Man's Trash May Be Another Man's Treasure

DALLAS (AP) — "One man's trash is another man's treasure," says Brig. William Browning, head of the Salvation Army center here.

But what really surprises him isn't what people throw out. It's that other people are ready to buy it.

The Salvation Army has a longstanding policy of never turning anything down—from World War II helmets to butterfly collections.

"There's just no limit to what people can think up to give away," Browning says. Among recent items pulled out of the local collection bags:

—A camel saddle, which someone had been using as a footstool.

—A plastic sack of sun flower seeds from some health food fan who got tired of the diet.

—A pair of jade vases reportedly worth \$1,500.

—Four cans of stewed tomatoes.

—A set of Hardy Boys mystery books.

—A hood ornament from a 1949 Ford.

—A World War I Army uniform.

—A collection of small liquor bottles.

The items are all placed on sale in Salvation Army stores. The proceeds help support programs for aiding the handicapped and elderly.

## Mayor Lindsay Rejects President's Suggestions

BOSTON (AP) — New York Mayor John V. Lindsay has rejected President Nixon's suggestions that he and other presidential candidates ease up in their criticism of administration policies in Indochina.

Lindsay, in a speech at the Lithuanian Citizens Club in Boston, said Americans have a constitutional right "to speak out against the tyranny of their own government in the conduct of an unconscionable war and to force presidents and citizens alike to change course in the face of blatant folly."

President Nixon told a news conference Thursday, "All have a right to say what they want. They must decide if it is right to say it."

He said proposing plans to end the war that go beyond his own eight-point plan could encourage Hanoi to stall peace talks until after the November election.

"I was listening to one of the President's advisers early this week—one of those anonymous men who hold great power, who have the ear of the most powerful man in the world," Lindsay said, "as he said that those of us who were against war in Vietnam were 'consciously aiding and abetting the enemy.'"

"I want to aid the surviving Vietnamese and Cambodians and Laotians... I want to aid and abet the 100,000 Americans to get out of Vietnam without losing their arms or legs or their sight... I want to aid and abet the hundreds of Americans languishing in prison camps or missing—and hopefully still alive—in the jungles of Southeast Asia."

"If Mr. Nixon believes that to be treason, then let him explain that belief openly and honestly to the American people," Lindsay said.

ROBERT ADCOCK

## Guardsman Of Month Selected

Guardsman of the month for February is Sp. 4 Robert (Bob) D. Adcock, Route 1, Canadian, who was chosen by a special selections committee of Pampa's National Guard group.

He joined the Guard May 16, 1969, and is a highly-skilled truck driver for the weapons squad of Company B, Second Battalion, 142nd Infantry (M). He served during the Lubbock tornado and the 1971 snowstorm.

On the rifle range, he qualified for an expert rating with the M14 rifle and for the sharp-shooter rating with the M-16A1 rifle. His initial 20-week training was taken at Fort Ord, Calif.

A graduate of Canadian High School, he lived with his parents, Mr. and Mrs. William H. Adcock Jr. He is a rancher and a rodeo performer.

## Be Home Safe On Electrical Repair

**By MR. FIX**  
Making electrical repairs around the house is more a matter of caution than skill. Minor repairs are not difficult. What makes them different from other repair jobs is the care with which you must work. Touching a live wire is shocking, even deadly.

Precaution No. 1—make certain there is no live wire to touch.

You can do one of two things—pull the main switch or pull the fuse for the circuit you are working on. Removing the fuse makes working on the circuit safe. Just make certain you remove the right one.

A neon tester is good to have. Check the outlet with it to make certain the circuit is dead. If the neon glows the current is on.

If you have never used a neon tester before, try it out on a working circuit first so you know what it should look like when it lights up. Lacking a tester, use a pigtail socket with a bulb in it or even a lamp you know is in working order.

It's a good idea to learn which fuse goes with which circuit. Make a list and paste it on the fuse box door. Turning on all the lights and then removing one fuse at a time will tell you which is which.

If you are working on an

**KNOW YOUR CIRCUITS**

**HAVE POWER OFF WHEN MAKING REPAIRS**

**USE SAME AMPERAGE FUSE FOR REPLACEMENT**

**FIBER INSULATION COVERS BARE WIRES**

appliance, make certain it is disconnected. Having the switch in the off position may not be enough. The switch may be defective.

While it is possible to place nonconducting grips on pliers and use screwdrivers with insulated handles, it still isn't wise to touch live wires with tools.

You are asking for trouble if you work on anything electric while standing on a damp floor. Don't do electrical work where you may come in contact with plumbing. The electricity would find its way to this grounded connection through your body.

With any repairs you make be certain that no wires are left bare. Electrical tape is cheap. Use it. Don't discard that little piece of cardboard that goes over the prongs of a plug on a cord. It keeps the terminals covered. Don't leave bits of wire sticking out from under the terminal screws when you replace a plug. With electrical work, neatness not only counts, it also is safer.

# Plans For Marriage Are Announced

Mr. and Mrs. Jack Graham, 2545 Mary Ellen, announce the engagement and approaching marriage of their daughter Sylvia, to Andy Spear, son of Mr. and Mrs. Kenneth Spear of Altus, Okla. The wedding is scheduled for Mar. 25, in the First United Methodist Church, Pampa. The bride-elect is a 1968 honor graduate of Pampa High School. She attended West Texas State University, Canyon, and is employed in Amarillo. The prospective bridegroom was graduated from Oklahoma City Southwestern, Altus Junior College and Southwestern State College at Weatherford, Okla. He is presently employed in Altus, Okla.

Mr. and Mrs. Herb Harvey, 524 N. Wynne, announce the engagement of their daughter, Elizabeth Ann, to Richard Wayne Dyer, son of Mr. and Mrs. B. B. Dyer, 1105 Huff Road. Vows will be exchanged June 3, in the Harrah Methodist Church. The bride-elect will graduate from Pampa High School in May. She is a member of the National Honor Society, president of V.O.E. and is employed as a bookkeeper at Pampa High School. The prospective bridegroom will graduate from Pampa High School in May. He is a member of DECA and is employed at Ideal Food Store No. 1.

Mr. and Mrs. Elmo J. Hudgins, 2523 Aspen, announce the engagement of their daughter, Mackie Renielle, to Terry Lynn Fisk of Des Moines, Ia. Vows will be exchanged at 4 p.m. June 10, in the First Assembly of God Church in Des Moines. The bride-elect, a 1970 graduate of Pampa High School, attended Drake University Des Moines. She is presently employed by Northwestern Bell Telephone company. The prospective bridegroom, a graduate of Lincoln High School, Des Moines, is finishing his degree in commercial art at Drake University. He received his discharge from the Armed Forces in May 1971.

Mr. and Mrs. William J. Ragsdale of Pampa announce the engagement of their daughter, Peggy Lee, to Gerald Neel Davis, son of Mr. and Mrs. Merwin N. Davis of Canyon. The bride-elect is a graduate of West Texas State University and is employed at Diamond Shamrock Oil Company in Amarillo. The prospective bridegroom is a senior education major at West Texas State University. The couple plan to marry May 27 in St. Matthews Episcopal Church, Pampa.

## The Pampa Daily News The Women's Page

PAMPA, TEXAS 65th YEAR Sunday, Feb. 13, 1972

### Beta Sigma Phi Honors Sweethearts At Dance

Beta Sigma Phi chapters of Pampa formally presented their sweethearts during the annual Sweetheart Dance Saturday in the Starlight Room of the Coronado Inn.

Members and their guests danced to the music of Irv Askit and The Apples following the presentation ceremony.

Mrs. Wilbur Walls of Miami was presented by Phi Epsilon Beta chapter. A member for two years, she is currently chapter president, and served last year as vice president. She is the mother of two daughters, Autumn, two, and Alicia, four-months old.

Mrs. Jim Foster of Rho Eta's sweetheart was Mrs. Jim Foster, 1718 Hamilton, who has served as the chapter's corresponding secretary, courtesy chairman, and as a member of the telephone committee and year-book committee. Her family consists of her husband, two lampsters, a dog, named Snapper, and 20 tropical fish.

Mrs. Mike Case of Mrs. Mike Case, 1714 Duncan, is Upsilon's sweetheart. She joined the sorority in March 1967, and has been a member of chapters in Amarillo and

Borger, before transferring to Pampa's Upsilon chapter in May 1969.

Offices held include yearbook chairman, city council representative, and publicity chairman. She is currently the chapter's vice president. She has two children, Buffy, four years old, and Tyra Marie, 20 months old. She is a member of the First United Methodist Church, the W.S.C.S. and church choir, and teaches an eighth-grade Sunday School class.

Mrs. Charlie Snider of Xi Theta Iota presented Mrs. Charlie Snider, 1601 Grape, who has been a member of Beta Sigma Phi for seven years. Offices held include extension officer, corresponding secretary and publicity. She has served on various committees, including the social committee, ways and means, membership and scrapbook.

She has been active in the Red Stocking Revue for four years, serving as chairman for advertising, costumes, news media and photography. She has a son, Rod, aged eight; and a daughter, Suzzette, six-months old.

Mrs. Chuck Zlomke of Mrs. Chuck Zlomke, 2539

Aspen, was the choice of Xi Beta Chi sorority. Currently chairman of the Woman of the Year Tea, she has served as corresponding secretary, ways and means chairman and co-chairman of the social committee.

She has two teenaged daughters, Susan, 19, and Jan, 17.

Mrs. Cletus Mitchell of Mrs. Cletus Mitchell, 526 N. Gray, was presented by Preceptor Chi chapter. Offices held include president and vice-president of Rho Eta chapter, and Xi Beta Chi chapter sweetheart.

She has a son, Pat, aged 20, and a daughter, Pam, 17.

The floral emblem of Prince Edward Island is the lady's slipper.

### Mrs. Michael Balch Honored At Shower

Mrs. Michael Balch, the former Nell Duncan, was honored with a wedding shower in the home of Mrs. W. K. Mackey, 952 Terry Road. Co-hostesses with Mrs. Mackey were Mrs. Frank D. Anderson, John Best, Melvin Cardwell and Wendell Watson.

The honoree was presented a corsage of orchid carnations, with white trim, and an identical corsage was presented to Mrs. Joe Duncan, mother of the bride.

Guests were registered by Mrs. John Best.

The serving table was covered with a net cloth, decorated with felt wedding bells, trimmed with seed pearls, over satin. The centerpiece was an arrangement of various shades of orchid gladioli and lavender Dutch iris, accented with orchid, white and purple ribbon. Flanking the centerpiece, were purple candelas in sterling silver holders.

The cake was decorated in plum and white with wedding bells and the names of the bride and bridegroom. Plum and lavender mints and nuts were served from silver dishes.

Presiding at the crystal punch bowl was Mrs. Frank D.

Anderson. Presiding at the silver coffee service and serving the cake was Mrs. Melvin Cardwell. Others assisting with the serving and the gifts were Mrs. W. K. Mackey, Mrs. Wendell Watson and Miss Cindy Mackey.

During the opening of the gifts, the bride was presented with a heart-shaped net bow bag, trimmed with lavender lace and centered with two lavender satin hearts, beaded with pearls and sequins.

**Bare Beneath Blazer**

The evening suit can be very versatile. With a blazer on top of along flowing skirt the look is one of classic lines. But underneath the blazer there's a lot of bare skin with a deep-plunging V-front top that has a criss-cross back.

### Lefors Plans KKI Chapter

An interested group of teachers met recently in the home of Mrs. Howard Archer for orientation regarding the formation of a Kappa Kappa Iota Conclave in Lefors.

From the Gamma Conclave in Pampa, Mrs. L. B. Penick, Mrs. Dora Meech and Mrs. Gene Tatum gave information and instructions on beginning such a group. A discussion period followed, and the group was shown a number of press books and year books. On Feb. 28, the state president, Mrs. Hazel Standlee of Lubbock, with the assistance of Mrs. Laura Penick, state vice-president, will organize, initiate, and install the members.

Prospective members will be notified when the petition is ready to be signed and dues collected, prior to the organizational meeting.

### Luncheon Meet Held By WMU

Refreshments were served. Present were Mrs. R.V. Bull, R.E. Skaggs, Helen Lette, Merry Stroud, Loyd McKnight, C.E. Fenno, Harold Hooker, and Misses Ardelle Briggs and Norma Lantz.

SKELLYTOWN (Sp.) —The WMU Ladies of the First Baptist Church, Skellytown, met in the church library for Bible study and a Royal Service program.

Mrs. Bill Campbell read the prayer calendar. The lesson, "Unity, Ability and Need," was taught by Mrs. Irvin Brown and Mrs. Ethel May Thurmond.

Luncheon was served at noon in the Fellowship Hall with husbands as guests.

Prince Edward Island was discovered by John Cabot in 1497.

## Connie Jean Patton Marries Voyne Cox

Miss Connie Jean Patton became the bride of Voyne Ray Cox at 7:30 p.m. Feb. 4, in the Central Baptist Church.

Parents of the bride are Mr. and Mrs. E. H. Patton of Pampa, and the bridegroom is the son of Mr. and Mrs. C. R. Cox of McLean.

### THE CEREMONY

Rev. Bill Claterbaugh officiated for the double-ring ceremony. Mrs. Martha White, organist, played the traditional wedding marches, the theme from "Love Story" and "Romeo and Juliet," "More," and "Twelfth of Never."

### THE BRIDE

The bride, given in

marriage by her father, wore a floor-length gown of Chantilly lace over satin, styled with a Victorian neckline and sheer Victorian sleeves. Her cathedral veil of illusion, edged with Chantilly lace, fell from a bow headpiece. She carried a cascade bouquet of purple and white feathered carnations.

### ATTENDANTS

Miss Brenda Lee Hutcherson of Pampa, maid of honor, wore a floor-length gown, with a corsage of purple and white split carnations.

McClarence McBride of Longview served as best man. Ushers were Allen McKean and Jimmy Poole, both of Pampa.

### RECEPTION

For the reception in the church parlor, the serving table was covered with a blue linen cloth, centered with the three-tiered wedding cake, topped with a miniature bride and bridegroom.

Mrs. Martha White provided piano music, playing "More" and the theme from "Love Story."

Miss Evelyn Cash and Miss Trish Kenner presided at the punch bowl and coffee service, and Miss Della Isbell served the cake. Guests were registered by Miss Debbie Downs.

For the wedding trip to Amarillo, the bride wore a purple pant suit. Her corsage was of purple and white feathered carnations.

The couple will reside in Pampa, where the bride attends Pampa High School and where the bridegroom is employed by Circulation, Inc. The bridegroom was graduated from Longview High School.

### PRE-NUPTIAL EVENTS

Pre-nuptial events included a lingerie shower, hosted by Miss Debbie Downs and Mrs. Melba Downs, and a miscellaneous shower by family and friends.

### OUT-OF-TOWN GUESTS

Out-of-town guests included Miss Trish Kenner of Houston and Jack Coppy of Eagle Nest, N. M.

### A HIGH SUCCESS

NEW YORK (AP) — The New York City Ballet, with its 17th annual holiday engagement of "The Nutcracker," played 38 performances, to 101,008 persons and took in \$39,410.07.

Both attendance and receipts were higher than last season.

"The Nutcracker" will open the company's month-long engagement at its summer home, the Saratoga, N.Y., Performing Arts Center, on July 5.

MR. AND MRS. VOYNE RAY COX

## Thompson-Sublett Vows Exchanged

Nuptial vows were exchanged at 7:30 p.m. Friday Feb. 4, in the First Assembly of God Church, Pampa, by Miss Karen Denise Thompson and Norman Larry Sublett.

The bride is the daughter of Mr. and Mrs. Don L. Thompson, 500 E. 18th, Pampa, and the bridegroom is the son of Mr. and Mrs. Norman L. Sublett, 530 Lowry, Pampa.

### THE CEREMONY

Rev. Jimmy Phillips officiated for the double-ring ceremony. Mike Linney, organist, played "A Time For Us," and Delana Linney sang "More."

Decorations for the church included baskets of gladioli and candelabra.

### THE BRIDE

Given in marriage by her father, the bride wore a floor-length gown of embroidered lace and chiffon. The bodice of embroidered lace was fashioned with an empire waistline and mandarin in collar. The Camelot sleeves of lace and chiffon were gathered into wide lace cuffs at her wrists.

Her cathedral veil of bridal illusion, edged with lace, fell from a headband accented with a bow. She carried a neseagay of white carnations and pink roses.

### ATTENDANTS

Miss Becky Thompson, sister of the bride, was maid of honor. She was attired in a floor-length lavender gown, styled with an empire waistline, and she carried a neseagay of mixed flowers.

Darryl Sublett, brother of the bridegroom, served as best man. Ushers were Randy Hall and Kevin Francis.

### RECEPTION

For the reception in the church annex, the table was covered with a lavender satin cloth, centered with a mixed floral arrangement, flanked by purple tapers in crystal candleholders.

Mrs. Gwyn Whitney and Miss Becky Parker presided at the punch bowl and coffee service. Miss Debby Sublett served the cake, and guests were registered by Mrs. Sue Caldwell.

For the wedding trip to Dallas, the bride wore a wine jersey dress. Her corsage was of the roses from her bridal bouquet.

The couple will be at home at 427 N. Faulkner.

### PRE-NUPTIAL EVENTS

Pre-nuptial events included a miscellaneous shower by friends of the bridegroom's parents, and another shower by the ladies of the First Assembly of God Church.

### OUT-OF-TOWN GUESTS

Out-of-town guests included Mr. and Mrs. Vic Whitney, Miss Debby Sublett and Mrs. Mary Crutcher.

### SOME PRICES LOWER

NEW YORK (AP) — The Metropolitan Opera began a ticket pricing experiment Jan. 4, with the last five rows of the orchestra and in the grand tier boxes at \$12.50 on Tuesday, Wednesday and Thursday evenings. They previously were \$16.50.

MRS. NORMAN LARRY SUBLETT ...nee Karen Denise Thompson

## Help!

EDITOR'S NOTE: This column is a public service for non-profit organizations, or individuals, who need assistance with a service project.

Mrs. Helen Davis, sixth-grade teacher at Woodrow Wilson, is assisting her students with setting up an indoor museum-science laboratory. The student are currently working on collecting samples of different rocks, soils, plants and grasses.

They are in need of puffed birds, deer heads or horns. They need, also, a tree six to 10 feet high and at least five inches in diameter.

The museum-laboratory will be for the use of all the classes in the school. Mrs. Davis explained, and will feature things native to the Panhandle area.

Anyone wishing to donate the needed items may call Mrs. Davis at school, 669-3182, or at home, 665-3903.

## Mobeetie Suits Meet In Church

MOBEETIE (Sp.) — The Mobeetie Bros met in the First Unit Methodist Church, w Mrs. Kay Patton, leader.

Those singing were Shannon Aton, Susan Barton, and Quarles, Donna Quis, Terri Eads, Connie Wiser, Cindy Harrison and Debbie Dyson.

## Kadingo Lingo

By Jane Kadingo

Certainly, this Sunday, Feb. 13, can provoke few other thoughts than those of love, especially since tomorrow is Valentine's Day... which reminds me that, since I haven't purchased a Valentine for anyone, I'd better make a fast rush to the nearest store tomorrow, hoping the supply isn't too depleted.

There were many raised eyebrows when I said I was going to feature love in my column this week. I don't wish to "dissilusion" anyone, but my treatment of it may not be quite orthodox, since Valentine's Day usually means thoughts of romantic love. There is another definition of love of which I am thinking.

Have you ever tried researching the history of Valentine's Day. Much may be written about love, but very little is available on Valentine's Day.

It is generally believed to be a Saint's Day in memory of St. Valentine, who was martyred by the Romans in the early days of Christianity. In fact, there were, either two priests by this name, both martyred, or just two different versions of the same man.

Other sources say it really has not a great deal to do with St. Valentine, but is an extension of a pagan spring festival. I guess the "turning of a young man's fancy" may be ages old... as old as man?

One great value to me of Valentine's Day, no matter how it originated, is it certainly can't hurt to let those you love know it, at least once a year! Problems occur, I do believe, however, if that is the only time you let your loved ones know of your devotion!

Romantic love is always with us... someone is always in love... and I suspect it is here to stay. But there is another type of love I think is far too rare. I can't think of a label that really fits... love for your fellow man... love for humanity... which is talked about a great deal, but practiced very little.

I like this down-the-line definition in the dictionary for the type of love to which I am referring: "To cherish or foster with divine love and mercy." To care, to really care, what happens to the other person is this type of love. As I used to tell my sixth-grade Sunday School class, you don't have to like a person to care what happens to him. It is unrealistic to say we should or will like everyone and everything about everyone, but we can truly care what happens to people.

Many times I've called this the put-down age... we are so quick to criticize. We get so excited when someone gets in

trouble or is the object of gossip! How many of us bother to convey the message by word or action that, although we may not sit in judgement upon him, but will offer sympathetic understanding, or a helping hand, if possible?

My heart goes out to the "younger generation"... the teenagers, who face such constant criticism and condemnation, and who receive so little praise and encouragement. How many of us could face this type of day-after-day pressure and not develop a "what-the-h..." attitude?

That is one reason I defend the teenagers right to wear his hair long, if kept clean and neatly trimmed, and to dress as he chooses, within the bounds of decency. There are too many values and attitudes that are far more important and long-lasting!

By the way, teenagers, ask your parents what they wore when they were your age? An honest answer might be quite revealing! I'll level with you, even though it may reveal my age. We wore our father's or brother's dress or sport shirts, since most of them were in uniform. Not being especially big, and I was smaller then, you can imagine what I, and most of my friends, looked like in this garb. Out of necessity, we rolled up the sleeves. We completed the ensemble with baggy blue jeans, rolled up to the knee. Our footwear consisted of saddle oxfords, which were a disgrace if new or clean. We spent many an hour "stomping" all over our nice white saddle oxfords to "age" them before wearing them in public.

The boys' garb was not tremendously different, and girls thought they were really sharp in their "zoot suits," complete with long pocket chain. Ask your dads about this!

Maybe what I'm really saying are two things: "Love thy neighbor as thyself..." and try for more understanding, and less condemnation, of others.

The following, I like. It is featured on a sign in front of a popular Pampa clothing store for the under-the-hill... (they call us, over-the-hill, so why not?)... it is a quotation from Thoreau: "if a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music which he hears, however measured or far away."

TOKYO (AP) — The government has approved a plan to award \$32,467 for the 10 best movies produced each year, in an attempt to prevent a further decline of the cinema industry. Officials announced.

## Your Horoscope

By Jeanne Dixon

SUNDAY, FEB. 13  
Your birthday today: Later on you're apt to recall this year as a time of tipping delicate balances in first one field of action, then another. You learn to call for particulars and to avoid loose promises. Today's natives tend to extremes; benevolent to friends, intolerant of competition.

Aries [March 21-April 19]: Action taken today is productive of permanent results, including side effects. Think what you're doing, go about it systematically.

Taurus [April 20-May 20]: Bring others with you as you serve worthwhile causes. The arts and music should figure strongly in your planning.

Gemini [May 21-June 20]: More people are ready to join forces with you than you can cope with at the moment. Off-hour travels bring excitement, interesting results.

Cancer [June 21-July 22]: Do the expected Sunday rituals in dignity; pursue the beautiful side of your daily living. Believing the best tends to inspire positive changes in those you care about.

Leo [July 23-Aug. 22]: Following a course of moderation brings serenity and a broader base for successful contact with people you wish to know better.

Virgo [Aug. 23-Sept. 22]: Gather people around you,

organize ~~many~~ and group cooperation, conciliate those of differing opinions. Your own views do come out clearly for all to hear.

Libra [Sept. 23-Oct. 22]: Put your best foot forward; a thoro personal triumph may be yours in accord with your serenity, how you aspire.

Scorpio [Oct. 23-Nov. 21]: Seek a stable, normal path this calm Sunday. There are quite a lot of good habits to practice, a bad custom to abandon, people needing a word from you.

Sagittarius [Nov. 22-Dec. 21]: A minor windfall and cheerful news are headed your way. Be alert and active in the affairs of your neighborhood.

Capricorn [Dec. 22-Jan. 19]: So many ideas and bits of information occur to you today that defy description or can't be freely discussed without fear of being misunderstood. Talk about things you can share.

Aquarius [Jan. 20-Feb. 18]: Energy and confidence come to you now. As you make the rounds, ideas for future ventures come to mind. Begin planning.

Pisces [Feb. 19-March 20]: Social activity turns out pleasantly enough, including emotional echoes from the long ago past. Keep moving, get the most and best from all phases of daily living.

# Your Horoscope

By Jeane Dixon

**MONDAY, FEB. 14**  
**Your birthday today:** Begins a time to collect and bring into your management fresh resources, new tools, skills. Rewards tend to be prompt as your business sense develops. Today's natives like research, understand light and vibration in a different concept and the talent for seeing and using it.  
**Aries [March 21-April 19]:** Emotional attractions bring token gifts and other expressions—it's your turn to respond if you will. The morning's opportunities include a good buy or investment.  
**Taurus [April 20-May 20]:** Encourage younger people while you concentrate on the creative aspects of daily living. Career questions are open to some answers.  
**Gemini [May 21-June 20]:** You can sell almost any bright idea today—just be sure you truly want it brought into reality.  
**Cancer [June 21-July 22]:** Do your strongest sales pitch, sell off whatever is no longer useful.  
**Leo [July 23-Aug. 22]:** Travel light, as you may collect added burdens momentarily—some of them very useful for later reference.  
**Virgo [Aug. 23-Sept. 22]:** Most of what happens today is beyond your planning, and pleasant according to how well you can go along with mate and social group. Life can be fun!  
**Libra [Sept. 23-Oct. 22]:** Put the weekend behind you in a clear switch to a fresh work week, original ideas, perhaps entry on new duties or relocation, symbolic transformation.  
**Scorpio [Oct. 23-Nov. 21]:** With little fuss your nearby world swiftly evolves into something else; old traditions wither, new rules come into force.  
**Sagittarius [Nov. 22-Dec. 21]:** Gather your resources, collect whatever is owed you, move into unexploited territory. Friends or neighbors disclosing your personal affairs is par for the course—learn and forgive.  
**Capricorn [Dec. 22-Jan. 19]:** Present your plans where you value an opinion or have something to gain. Money handles well for you now.  
**Aquarius [Jan. 20-Feb. 18]:** Take stock of the situation early as you must select a relatively narrow range of the day's possibilities to explore.  
**Pisces [Feb. 19-March 20]:** Most of what happens now has a streak of luck in it, likewise subtle manifestations of destiny. Your free will is mainly in how you choose to react—be of good cheer.

## Best way to free POWs: Stop the war

By Abigail Van Buren  
 (© 1972 by Chicago Tribune-N.Y. News Synd., Inc.)  
**DEAR READERS:** Over the years one of the most frustrating aspects of being "Dear Abby" has been my inability to provide solutions for some problems. One in particular, since it is not within my domain to "solve," and affects so many American families.  
 I refer to letters from individuals and organizations urging me to ask my readers to write to Hanoi, asking that our prisoners of war be released, or humanely treated, or allowed to communicate with their families, or that a "list" be published so that the families will know whether their serviceman is alive or dead.  
 My dear readers, you are appealing to the wrong person. You should be appealing to your congressmen, senators, and president, urging them to bring an end to this senseless war in Viet Nam.  
 If OUR country were being bombed, would YOU agree to release the enemies' war prisoners?  
 ABIGAIL VAN BUREN

**DEAR AUNT LAURA:** Will this do? I wrote it in my column nearly 10 years ago, and it's still true:  
 "The key to being popular with both sexes is: Be kind. Be honest. Be tactful. If you can't be beautiful (or handsome) be well-groomed, tastefully attired, trim of figure, and KEEP A SMILE ON YOUR FACE! Be clean in mind and body. If you're not a brain, try harder. If you're not a great athlete, be a good sport.  
 "Try to be a standout at something. If you can't dance or sing, learn to play an instrument. Think for yourself, but respect the rules. Be generous with kind words and affectionate gestures, but save the heavy artillery for later. You'll be glad you did. If you need help, ask God. If you don't need anything, THANK God!"

**DEAR ABBY:** Please tell your readers that holding one's hand over the telephone doesn't always block out the sound.  
 I know a very dear little old lady. Her children live out of the state so I telephone her daily to chat with her. She is very alert, well-informed and has a wonderful sense of humor at 86.  
 Several days ago I called and one of her daughters answered the telephone. After the usual "how are you's, etc." she said, "I suppose you'd like to talk to Mother," whereupon I replied, "Yes, if she's not busy." Then she apparently placed her hand over the telephone, but I heard her say, "Mom, it's your gabby friend. I'll give you 5 minutes, then I'll ring the doorbell and you say we have to go."  
 I managed to be pleasant, but I felt very foolish not to have been suspicious of that doorbell routine. It had occurred each time this daughter was in town. WISER NOW  
**CONFIDENTIAL TO "GRATEFUL BEYOND WORDS":**  
 Most small-town clergymen are overworked and underpaid, so since you say you can "well afford it," offer him a gift of cash. If he wishes to donate it to the church, let it be his option. Your letter indicates that your clergyman went far above and beyond the call of duty in your behalf, so be as generous with him as he was with you. [And if he's "insulted," you can blame me.]  
 What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

JAN N. PEDERSEN

**SPE Lecturer Guest Speaker At Meet Here**

Jan N. Pedersen, assistant to the general manager of The Offshore Co. in Houston and a Distinguished Lecturer of the Society of Petroleum Engineers of AIME, will be the guest speaker at the monthly dinner meeting of the Pampa Country Club in Pampa, Texas.

The meeting is scheduled for Wednesday, February 16, 1972, at 6:30 p.m. at the Pampa Country Club in Pampa, Texas.

Pedersen's speech, entitled "The Role of the Drilling Contractor in Offshore Drilling Operations," will discuss the development of offshore rig designs from the barge-mounted drilling units introduced in 1933 for drilling in southern Louisiana coastal marshes to the various designs presently used for deep water drilling operations.

Pedersen will also discuss how the design and operational requirements to combat environment forces and subsurface complexities have changed the traditional concept of the drilling contractor. The contribution of the offshore drilling contractor to the future economic and technological development of the offshore drilling industry will also be reviewed by Pedersen.

Pedersen has been with the Offshore Co. since 1965 when he joined the company as manager of engineering. He served in that position until 1967 when he was named manager of Offshore's Gulf Coast Division.

Prior to joining the Offshore Co., Pedersen was with the Standard Oil Co. of California organization for more than 20 years, and served with the company and its subsidiaries in Louisiana, Mississippi, California, and Venezuela.

**Pupils Stage Program At Kiwanis Club**

Physical exercises and tumbling by selected third, fourth, fifth and sixth grade students from Horace Mann school featured the program at Friday noon's meeting of the Downtown Kiwanis Club.

The young athletes were under the direction of Coach White and the program was in charge of Sam Begert, Kiwanis Club member who is principal of Horace Mann school.

Guests at the Friday luncheon included Andy Stephens, Wayne Denon, James and Berdina Richardson, Mike Bull, Pete Roberts, Jerry Chronister and Dr. James F. Malone.

**Rep. Farenthold Says Smith Overlooks Details Of Fraud**

AUSTIN, Tex. (AP) — Texas' only woman candidate for governor, Rep. Frances Farenthold of Corpus Christi, said Sunday Gov. Preston Smith is overlooking details of the Sharpstown stock scandal when he describes himself as a "hero" in the affair.

She talked with newsmen on the radio-television show, "Capital Eye."

Smith has mentioned numerous times that even though he made a quick \$62,500 profit on stock bought with a Sharpstown Bank loan, Texans should remember he vetoed two banking bills involved in the scandal.

He once said he should be considered a "hero" for vetoing the 1969 bills.

"The matter I think he overlooks in the whole transaction is that he played an overt part by opening the call (of the 1969 special legislative session) to those banking bills," said Mr. Farenthold. "Those bills didn't just come in as they could have ordinarily during the regular session."

Smith split a \$125,000 profit on the National Bankers Life

Insurance Co. stock he and Dr. Elmer Baum, former state Democratic party chairman, bought in July 1969 and sold two months later at a price \$5 per share above the market price. The two banking bills sought by Houston millionaire Frank Sharp were passed by the legislature while Smith held the stock.

Smith has described the transaction as a "business deal" and an "investment."

"Indeed it was a business deal, but I think what's at the very core of this problem is this matter of merging the public and the private interest. I am certainly opposed to what I would call special privilege of officeholders. We're supposed to be holding positions of public trust," Mrs. Farenthold said.

She said she would issue several position papers during her campaign, including one focusing on University of Texas regents.

Asked about student morale at the university, Mrs. Farenthold said, "it seems to be rapidly deteriorating."

**Traveling Minister Fatally Shot At A Dallas Residence**

DALLAS (AP) — A 73-year-old traveling minister from San Francisco was fatally shot Friday at a suburban residence in what Lawmen said was an apparent domestic squabble.

Deputies identified the victim as William Leroy Richardson, a former Dallas resident, who was shot three times with a pistol outside a residence.

Sheriff Clarence Jones was leading his deputies on a search through southwestern Dallas county later in the day for a person, 49, wanted for questioning.

Police Sgt. Jeff Hickman of suburban Balch Springs said a former wife of the hunted man said she had driven Richardson to her residence and went inside the house while Richardson remained in her station wagon.

She then heard "popping noises" outside, and when she left the house she saw the minister laying back on the passenger's side of the front seat.

She told police that she thought Richardson had suffered a heart attack, but then realized he had been shot.

The suspect's wife, a preacher at the church, then drove the body to the Miracle Deliverance Center, an Assembly of God Church about three miles away.

Hickman said she had driven the body to the church "to pray for him" before summoning police.

Jones said Richardson was shot twice in the left side and once in the left ear. Four spent hulls were found in the driveway of the residence, and a bullet was found lodged in the door of the woman's blood-stained station wagon, Jones said.

**Fastest Animal**

Earth's fastest land animal is the cheetah. Leaping from a position of rest, it can reach a speed of 45 miles per hour in two seconds. Timed by a stop watch, it has actually raced along at 70 miles per hour.

**Mirages**  
Mirages are formed by the distortion of light as it passes through air of high or unusual density to produce a displaced image, according to Encyclopaedia Britannica.

LONG HAIR would seem to be the preference of the musician above, but actually when it comes to music he's all pop. It's Ian Anderson of the top British group, Jethro Tull, having a bit of a problem with the wind in his locks at a Frankfurt, West Germany, performance. Meanwhile, far away in St. Louis, Mo., long-haired Elizabeth Gordon does play long hair, with the St. Louis Symphony Youth Orchestra—and in comfort, minus her shoes.

**Chief Of Great Dallas Crime Commission Denies Accusation Of Using Informed Name**

DALLAS (AP) — The Dallas Police Department said Friday that the president of the Greater Dallas Crime Commission, John McKee, is in reality James Kell Zullinger, who deserted from the U.S. Navy in 1929.

A spokesman for the department said that, because of McKee's position, the result of a police investigation into his background was turned over to a Dallas County grand jury "for whatever action it may wish to take in the matter."

McKee could not be contacted for comment at his downtown office. A woman secretary said he had gone for the day. There was no answer

from his home.

The Dallas Crime Commission is an unofficial watchdog body composed of more than 150 of the city's leading businessmen.

McKee was elected as its president in 1957. He was not paid by the Crime Commission, but drew fees as a consultant to the Ford Motor Co., for whom he worked as regional manager before retiring last December.

McKee, contacted at his home, issued a statement through his personal secretary.

"This is ridiculous," it read. "I deny it in its entirety. I have been in Dallas for 50 years. If

the Dallas police want my fingerprints, why don't they get them from the FBI? This is the basis for a libel suit."

A police spokesman said the department's intelligence division had been carrying out an investigation with the Dallas district attorney's office for several months "regarding an accusation made against John McKee."

The district attorney's office first received information last November that McKee was using an informed name, he said. The source charged that McKee was really Zullinger.

McKee denied the accusation and produced documents showing his name

was John McKee and his place of birth was Harrisburg, Pa., the police spokesman said. His birth date was given as Aug. 18, 1906.

Police said they checked birth records at Harrisburg but no record of a John McKee was found. However, a birth certificate was located there showing that a James Kell Zullinger was born in that city Aug. 18, 1907. Further investigation disclosed, according to the police, that Zullinger was assigned as a mail clerk to the USS Camden and that he deserted that ship in 1929.

James Kell Zullinger was listed as a deserter on naval

records until 1951, at which time the charge of desertion was changed to a dishonorable discharge, the police spokesman said.

"The Dallas Police Department and the Dallas district attorney's office feel an obligation to set the record straight."

"The question of John McKee's identity has been verified. His real name is James Kell Zullinger."

"Due to Mr. McKee's position with the Dallas Crime Commission results of the investigation were presented to the Dallas County grand jury Feb. 11, 1972 for whatever action the grand jury may wish to take in the matter."

## Vocational Education Week Set For February 13 - 19

By RAY BAXTER  
National Vocational Education Week will be observed in Pampa schools and across the nation Feb. 13-19. The emphasis on vocational-technical involvement marks a full swing from the focus on math-science education of a decade ago.

These "quarterbacking" the future of the young people of this community as well as of the nation seem to have discovered what business and industry, parents and—in most instances—the students themselves have known: The vast majority of the young need to be taught a trade!

This has been felt many times over the past 20 years at the level where people live when auto mechanics, appliance repairmen and other technicians needed in the present world of modern conveniences were either untrained and unskilled or unavailable at all.

Communities wanted to attract industry thinking they offered everything such firms needed: Land, water, schools—even tax incentives—and found there was not an adequately trained work force to draw on the man the industry.

Customers from the homes of Pampa and other communities went into stores to buy and complained of the service without realizing that it was—in many cases—a matter of no trained personnel or any young people coming on that had been given any type of vocational orientation to challenge them to a certain field of endeavor.

According to authorities at such levels across the nation, it took the slump in work for the slide rule and test tube types on the west coast to push the panic button the need for immediate and qualified

vocational-technical training.

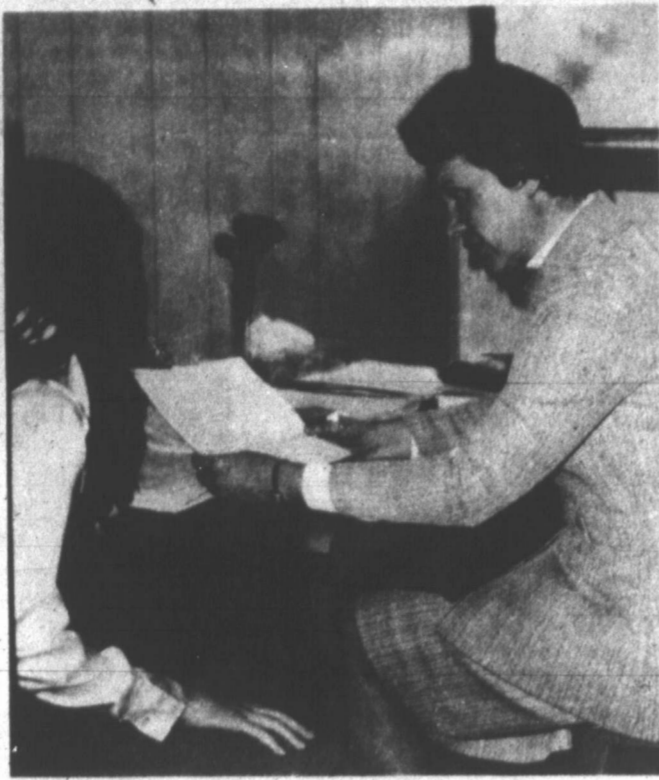

Pampa, by a happy combination of work environment and wisdom at the education level, has had much more than a token program of vocational-technical training involving a number of students. This is responsible for another happy state of affairs: many of the young people who have grown up here since the oil-boom days have found jobs and stayed here and most of them—now community leaders—moved quickly as a community so that the Pampa school system could take advantage of anything offered to improve this vocational-technical program.

Thus it was that the Pampa system was ready when some larger communities fell by the way in the "moment of truth" and now has matching funds of a quarter of a million dollars at hand to build an area vocational-technical school.

No little impression was made with people who counted a few days ago when "visiting firemen" from the field of vocational education were in the city and heard and saw first-hand the lasting marriage of willing, ambitious student workers and satisfied employers.

Currently, the vocational-technical program in Pampa schools falls into three divisions: (1) Distributive Education under the direction of Dona Cornutt; (2) Vocational Office Education headed by Melvin Cardwell and (3) Industrial Cooperative Training guided by Phil Earhart.

Don Nelson is the vocational coordinator for the entire program.

A MATCHING GAME—Miss Geraldine Rampy, vocational counselor, shown consulting with Janece Kester, usually comes up with a winner. Upon her falls most of the burden of bringing the student into focus with a particular vocational field and a related job.

Miss Geraldine Rampy is employed as vocational counselor. In addition to advising students with any problems of work choice, she handles the survey, testing and placement service. Chief aim of all involved with Pampa's vocational educational program is help the student decide a field, find a job and keep it developing skills that will both justify his present employment and encourage and facilitate future advancement in the selected field.

Other programs are faring as well with the possible exception of adequate facilities which prompted the effort to get the area school in the first place.

Students are being effectively trained in building trades, metal trades, general mechanics and repair, vocational agriculture and home economics. Other programs are definite possibilities, especially with the new school a certainty, such as cosmetology along with other skills needed by business and industry in the area.

So it is that Nation Vocational Education Week has rolled around and Pampa schools have plenty to show for it. Every phase of the program locally will conduct open house so that parents, employers and community leaders can see what is being done and what is yet to be.

Programs are located at senior high schools, junior school, Robert E. Lee school, 518 W. Kingsmill and 546 Huff Road. Further information regarding the open house program may be obtained at Carver Center, 665-2376. —Or for an enthusiastic endorsement, ask the young people involved!

ON THE JOB—Above, Joni Wells goes over some work with her employer, E. L. "Smiley" Henderson, local insurance executive. He was enthusiastic about her work and the program. At right, John Randon works at his drawing board in the drafting department of Cabot Corp. where his supervisor calls him their "star". Below, left, Jana Kay Gattis fits boots on Tim Wilson at Gattis Shoe Store. (Tim, grandson of Mr. and Mrs. Marvin Stone, Pampa, was enroute from Djakarta, Indonesia to London, England with his parents, Mr. and Mrs. John H. Wilson.) This proves on-the-job training is not necessarily dull. Below, right, John Blakemore learns the rudiments of welding in a metal trades class—one of the skills industry feared was soon to suffer for want of trained welders. These are representative of the various programs available to local students and employers.

By FOSTER WHALEY Recently I received blueprints and illustrated material that gives the lighting and brake requirements of most all vehicles that were covered by a special law that became effective January 1, 1972.

This has a pictured illustration showing where each reflector and light is required. It will tell you the type light required as well as the brake requirements. If you would like a copy, we would be happy to mail you one or drop by the office and pick one up.

Many farmers are trading trailers on the account of the brake requirements. As long as your gross trailer weight does not exceed 4,000 pounds and you have a farm tag, you are free to operate at the same speed as before.

It would be my recommendation to set tight with regard to the brakes. In my opinion the lighting requirement is a good thing and I seriously doubt there will be much reduction in the requirements on lights.

I feel sure this will be changed.

CATTLE SCABIES A lot of people are still waiting until a few hours before they get ready to move cattle to call the inspector.

So, call him early and it will

Corn Crop Is Record In 1971

By DON KENDALL AP Farm Writer WASHINGTON (AP) — Farmers increased corn production 25 per cent last year but because of lower prices had a crop worth only eight per cent more, according to Agriculture Department figures published today.

The Crop Reporting Board said the market value of the record 1971 corn crop is estimated at \$5.89 billion, or a projected season average of \$1.06 per bushel.

Production last year was more than 5.54 billion bushels compared with 4.1 billion in 1970 when the crop was valued at \$5.44 billion, an average of \$1.33 per bushel.

The figures indicate gross value of production for the 1971-72 marketing year and not net returns to farmers. Neither do they include government payments to farmers who participated in 1971 crop programs.

When government payments are added, the report said, the 1971 corn crop was worth almost \$6.8 billion, an average of \$1.22 per bushel. The 1970 crop, including payments, was put at slightly more than \$6 billion, an average of \$1.47 per bushel.

The report included breakdowns for other major crops. Altogether, those totaled a record market value of \$26.13 billion last year, compared with \$24.03 billion in 1970.

The record 1.6 billion bushel wheat crop last year was valued on the market at nearly \$2.17 billion, an average of \$1.32 per bushel, compared with \$1.82 billion in 1970 when the average was \$1.33 per bushel.

work out to the advantage of both of you.

BEEF CONSUMPTION In 1971 the per capita consumption of beef in the U. S. was 115 pounds. This compares to 85 pounds in 1960 and only 63 pounds in 1950. Beef has always been the favorite meat. Consumption of pork has remained very constant over the last two decades.

MUSTARD IN WHEAT The normal rule to follow on spraying winter weeds in

wheat is in March when it is fully tilled but before it hits the boot. I've talked with a lot of wheat farmers that spray just about anytime they have favorable weather. We have had some good spraying days in January and I've heard of some good kills in spraying done since last fall.

I would recommend you spray whenever the temperature is right. I've never seen mustard as bad as this year. It has taken very little moisture to date but it will soon be getting more moisture than the wheat.

Schaffer Is Re-named Area Group Chairman

Curtis Schaffer, chairman, Gray County Soil and Water Conservation District, was re-elected chairman of the Panhandle Association of Soil and Water Conservation Districts at the winter meeting at Memphis, Wednesday.

The Panhandle Association is made up of 125 directors from the area representing 25 soil and water conservation districts. Each district is a water conservation district. Each district is a local political sub-division of the state and is governed by an elected five man board.

Panhandle Water

By FELIX W. RYALS Water, Incorporated will hold its fifth annual meeting next Saturday, February 19, 1972 at the National Guard Armory in Plainview. All Water, Inc. members from the Gray and Carson County area are urged to attend the meeting.

John Spearman of Gray County has been nominated as a Director of Water, Inc. for a two year term representing District 3 comprising Gray and Wheeler counties. Howard Lane has been nominated as the Water, Inc. Director from Carson County representing District No. 32 of Water, Inc.

A very fine program of speakers have been selected for the fifth annual convention of Water, Inc. with the feature address by U. S. Representative George Mahon, Chairman of the House Appropriation Committee. Congressman Mahon will address the noon luncheon using as his topic "The Congressman's Choice".

Other speakers on the program will include Don Maughan, Director National Water Resources Council. He will use the text "New Criteria in Assessing Water Resource Projects and the Effect". Colonel Floyd Henk, District Engineer, Fort Worth District, Army Corps of Engineers, will use as his topic "New Concepts in Planning—Colorado River Study and What Light it Might Shed on the Texas Water Plan."

State Representative John Allen Chairman of the Texas Natural Resources Committee, will speak on "East and West Texas Partners in Water Resource Development." Norman Flaigg, Area Planning Officer, Bureau of Reclamation, will speak on "The Bureau of Reclamation's Progress Report on the Texas-New Mexico Import Project." Harry Burleigh, Executive

Director of the Texas Water Development Board, will use as his topic "Water for All—A State Responsibility." Gaston Wells of Dumas, current President of Water, Inc., will close the meeting with a business meeting which includes the election of Directors. A Board of Director's Meeting will be held immediately following the annual meeting.

Water, Inc. was formed by approximately 1000 Texas and New Mexico agricultural, business and professional men in 1967 and has grown to more than 2600 in 1972.

Policies and plans of the organization are formulated by its area wide elected directors. The directors of Water, Inc. are elected for two year terms. County units of Water, Inc. have been formed in most of the counties of the High Plains and Texas Panhandle. Many of the local units hold number of meetings each year to keep up to date on current and long range water problems.

The parent organization of Water, Inc. got its name from the words "water association" to expand resources—putting together the first letter of each word spells "water." There are differences of opinion in the organization as to where the imported water should come from and the conveyance routes. Stronger county units in our area will give us a stronger voice in the water import plan.

Water, Inc. currently supports water resource development for the benefit of mankind throughout the region. It continues to obtain support for the funding of federal and state studies pertaining to water resources development. The organization strives for a unified effort throughout the counties of West Texas and Eastern New Mexico where it serves. One of the major concerns of Water, Inc. is the needed support of people throughout the nation for the Texas and New Mexico project to finally become a reality.

Rabbit Growers Group Installs New Officers

The initial slate of officers of the 4-H Rabbit Raisers groups was installed at the first regular meeting Feb. 4. Walker Parker, Happy, conducted installation ceremonies.

Officers include J. E. Hinton, president; Billy J. Willis, vice president; Rose Mary Hayes, secretary-treasurer; Elizabeth Hillman, public relations; Mike Fullbright, state delegate and Don Hillman, Lloyd Fullbright and F. P. Hayes, directors.

Farker is vice president of the Texas Commercial Rabbit Growers Association.

The new group voted to send Mike Fullbright to the TCRGA convention at Texarkana, March 18.

Guest speakers included Nancy Parker, Happy; Curt Rhynehart and Mike Bowsher, past and present presidents of the Amarillo rabbit growers club.

F. P. Hayes explained that regional shipping dates will be changed because of the number of rabbits arriving at the processing plant at Hill City, Kans., noting this marks considerable progress rabbit growers have made in the past year.

Present for the first meeting were 18 members and 19 guests. The next meeting was set for 7:30 p.m., March 3, at McLean.

COLLEGE STATION, Tex. (AP) — Texas recorded 444 screwworm cases in 1971, making the year the worst since 1968, according to officials of the Southwest Screwworm Eradication Program at Mission. However, in 1969 and 1970, the state recorded the fewest cases on record.

Fifty-six counties had screwworm outbreaks in 1971, with Val Verde County leading with 67 cases. Other counties with heavy incidences were Kinney with 44, Bowie 31, Lampasas 27, Brewster 26, Webb 23, and Fort Bend 21.

HELP FOR POTATO LONDON (AP) — Breed a potato that can fight back against insects, says a Bristol scientist. Writing in the magazine "New Scientist," Dr. R.W. Gibson said one could breed a hairy potato which would exude a sticky substance and trap aphids, the potato's main enemy. The hairs would protect the potato.

NEW 4-H SPECIALIST We are proud to announce that Districts I and II now have an Area 4-H and youth specialist. He is Ed Garnett, former Area Economist-manager who will be headquartered at Amarillo. We have had the privilege of working with Mr. Garnett on numerous occasions and we feel he will be a great asset to our Area 4-H and youth program.

PROJECT QUESTIONNAIRES All Gray County 4-H girls will soon be receiving project questionnaires in the mail. The purpose of these is to evaluate this year's projects and to aid in planning next year's projects. As soon as you receive these would you please complete them and return to our office no later than Feb. 29.

TV ELECTRIC PROJECT The Texas Agricultural Extension Service and Southwestern Public Service

will soon be co-sponsoring a TV electric project. There will be a series of six lessons broadcast on KGNC-TV, Amarillo. They will begin March 11. Watch for details on how you may enroll.

PANHANDLE HORSE SENSE CONFERENCE The Texas Agricultural Extension Service and West Texas State University are co-sponsoring the first annual Panhandle Horse Sense Conference March 3 and 4 at the Bill Cody Arena, Tri-State Fairgrounds at Amarillo. This conference is planned to meet the needs of the 4-H horse project leaders, 4-H junior leaders and the horse enthusiasts of the area.

In order to cover the minimum costs for the

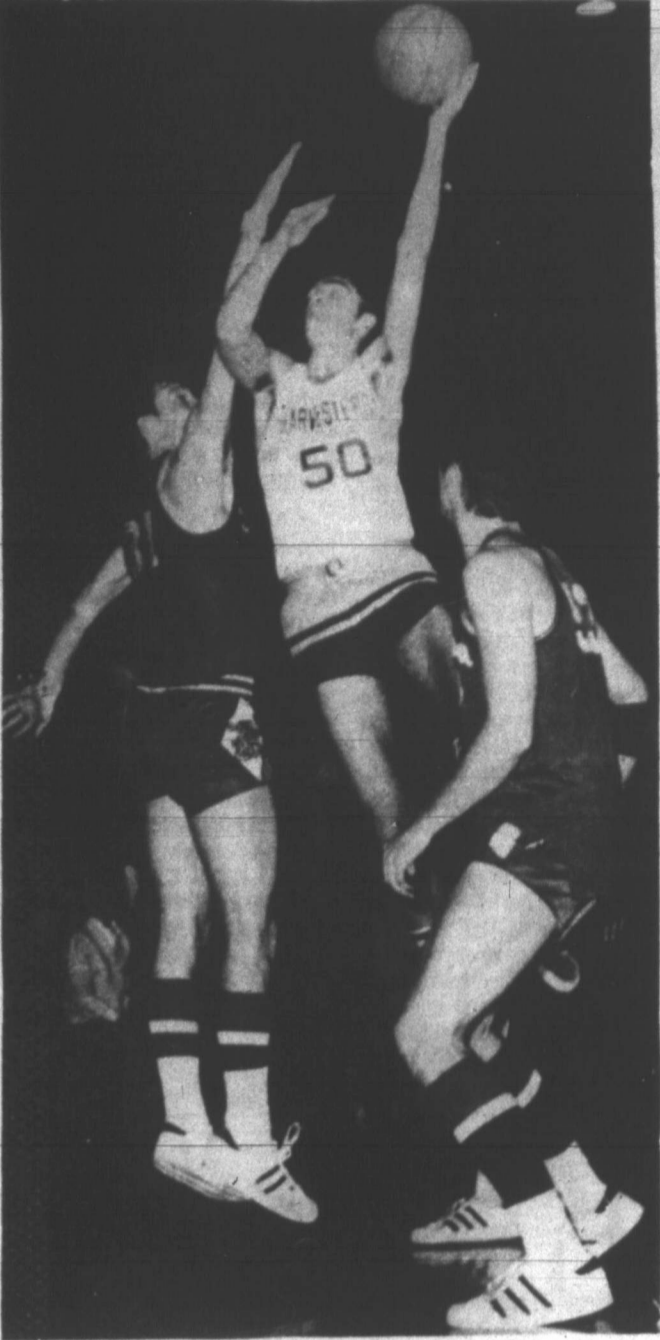

conference, a registration fee of \$5.00 for adults and \$2.50 for youth (19 and under) is being charged. Program and registration details will follow soon.

# Pampa Blasts Rebs, 80-69

**CAN HE MAKE IT**—Kent Ladd (31) sure hopes not as he tries vainly to stop 6'5" senior Don Cain from putting in another score through the net. Cain scored 17 points in the Harvester-Rebel bout as Pampa put down Tascosa 80-69. The victory bout held Pampa in the number one position challenged only by Palo Duro as they also have the same district standing. The Harvesters will face Palo Duro Tuesday night in Amarillo.

By RICKEY WRIGHT  
News Staff Writer

Though Friday night's Harvester-Rebel contest ended in distinct controversy, it cannot be denied that there was some pretty fair basketball played.

The game ended with another victory for Pampa High School. Pampa bowled over the Tascosa Rebels 80-69.

There can be something said for Pampa's defense as they held Tascosa to 38 per cent of the shots attempted. Pampa's offense was not to be held down as their percentage was up in the high 60's.

Richard Bunton came through for the Harvesters as high point man with a towering total of 27 points coming from 11 field goals, five free throws made, one free throw missed and three fouls.

Mike Edgar was pressing close behind Bunton as he took Tascosa for 23 points coming from nine field goals, five free throws made, three missed and two fouls.

Don Cain was next on the Harvester list for 17 points. Cain was followed by Gary Haynes with 10 total points. Bill Simon failed to score for the Harvesters though he managed to do his fair share defensively.

Marsh Gamblin fouled out with two minutes left in the game. He assisted Pampa in scoring two points. Freddy Wilbon scored one free throw before his unfortunate incident.

It was reported by several of Wilbon's contemporaries that Wilbon was pushed before the loss of his temper was followed by a crushing blow to the jaw of Robert Durrett, Tascosa player.

The News prefers to remain with the facts which were: Durrett after receiving a left cut to the jaw, was laid onto the gym floor. R. M. Hampton, a local doctor, was called in to check Durrett.

It was later reported that Durrett had swallowed his tongue. Hampton assisted the young man after a lapse of

about five minutes. Robert was then escorted to the visit or dressing room.

While in the dressing room, he passed out. He was taken to the emergency room of Highland General Hospital.

In the hospital his skull was X-rayed and treated. He then was allowed to return home with his father. Robert attained only a sore jaw

accompanied by swelling, according to Bill Robertson, Highland General Hospital Administrator.

According to assistant Police Chief George Wallace, Robert Durrett's father filed charges against Harvester cager Wilbon Friday night.

The warrant will not be served until Monday. When asked how the

incident will effect the team, cager coach Robert McPherson commented, "It won't have any affect at all."

During the first quarter Tascosa claimed the lead with 20 points over Pampa's 18.

The Harvesters came back to end play at half time 36-31 in favor of Pampa.

The third quarter showed the Harvesters widening their advantage to 10 points with a score of 57-47.

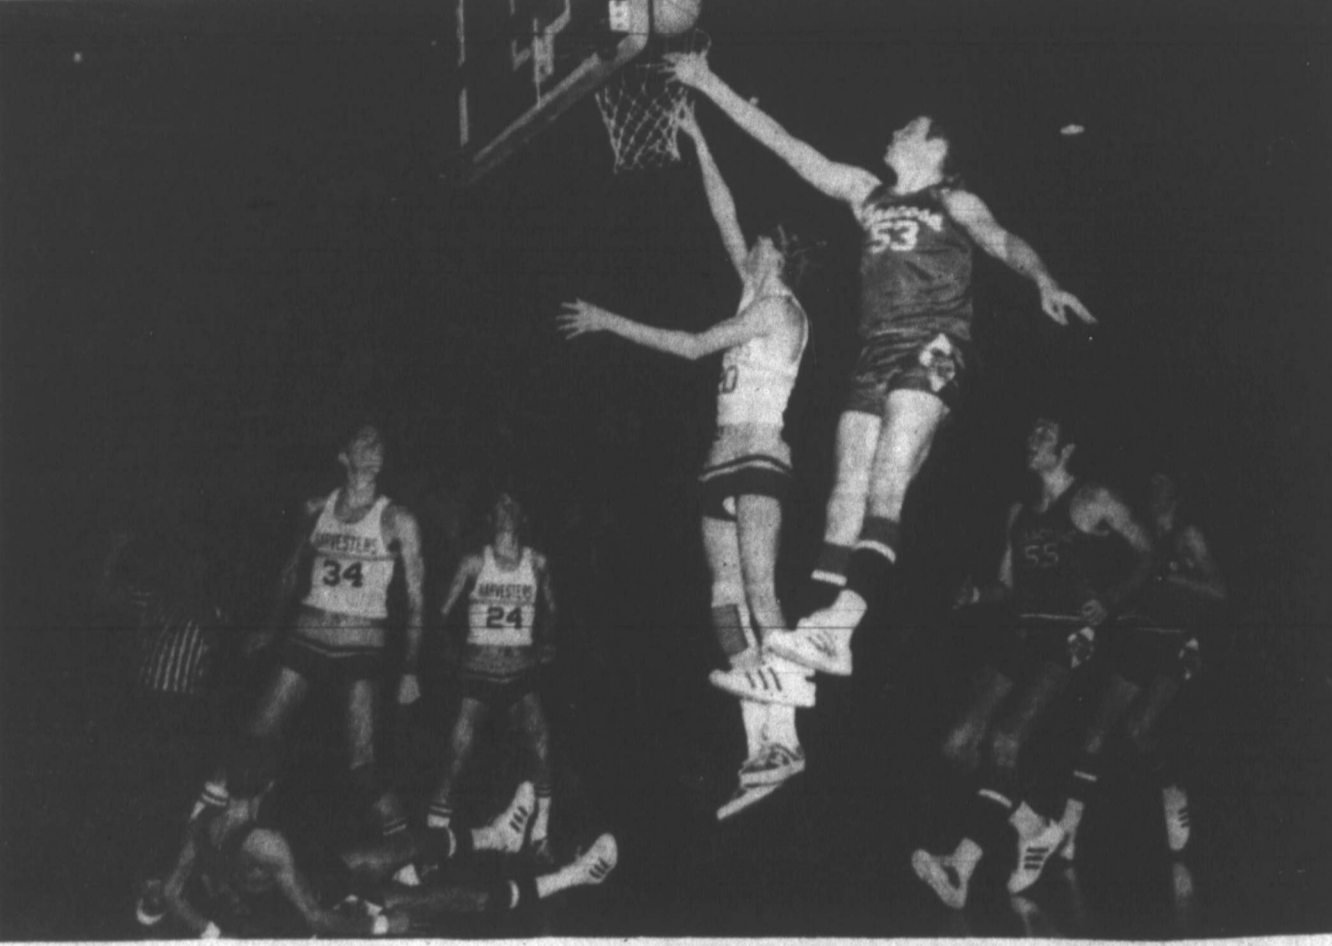

Kent Ladd and Robert Scott led Tascosa through the night. Ladd, 6'4", mounted his tally to a high of 19 total points coming from nine field goals, one free throw and four fouls. Scott angled his 5'10" frame in for his 16 points with four field goals, eight free throws made, four missed and one foul.

The Harvesters have now proven they can beat anyone in the district as they plowed down the once victorious Tascosa squad and will go on to visit the Palo Duro Dons in Amarillo.

The Dons and Harvesters are presently tied for first place in the district. The out-come of the bout will narrow the number one position down to one team.

The Shocks put another victory on their schedule as they tackled the Tascosa Rebels by a tally of 75-50.

The Shocks will face the Don B squad at 6 p.m. and the Harvesters will start at 8 p.m. Tuesday.

**UP FOR TWO**—Senior Harvester Gary Haynes is shown flipping in two points for the Harvester cause in Friday's bout as 6'2" Rebel senior Chuck Ryan attempts to block

the shot. In the Harvester-Tascosa contest Pampa held their number one position as they put the Rebels down 80-69 in the Harvester Fieldhouse.

(staff photo)

## Shockers Stun Rebel JV Team

The Pampa High School Shockers followed in the Harvester's footsteps as they put one over on the Tascosa team by a tally of 75-50.

The victory put the Shocker season at 14 wins nine losses and the district record at 5-2.

There were three Shockers in double figures: A.J. Brewer, 20; Steve Richardson, 19; and Damon DeWitt, 17.

The Shockers dominated scoring throughout the game.

The first quarter ended 18-7. The second showed 27-18 and the third revealed Pampa still in the lead with 52-35.

The Shockers started out in the game with more than their share of mistakes as they ended the half with 11 turn-overs.

The second half showed them managing to hold the number down to only three turn-overs.

The Shocks shot 58 per cent from the field over Tascosa's 34 per cent.

Also, after having considerable trouble in the rebounding department in contests, Pampans found vast improvements. 63 per cent was the figure for the Shocks. Tascosa ended with 45 per cent.

Randy Warner led rebounding for Pampa with eight.

The Palo Duro B-squad is next on the Shocker list. Chances for the junior varsity of Pampa are favorable as they have already beaten them once earlier in the season by a 72-46 margin.

Palo Duro had some trouble putting defeat in the laps of Tascosa previously.

"I don't know how well we will do," commented Shocker Coach Ronnie Horne. "Amarillo always plays a lot better at home."

The Shocker host will precede the Harvesters Tuesday night at Palo Duro High School Fieldhouse.

## Texas Whips Rice 83-67 In Houston

HOUSTON (AP) — The University of Texas scored 51 points in the second half Saturday to whip Rice 83-67 in Southwest Conference basketball.

Down 36-32 at halftime, the Longhorns unleashed 6-7 Lynn Howden in the second half.

Howden played sparingly the first half but was too much for Rice the second half, ending up with 10 rebounds and 19 points.

Midway of the second half, Howden put on a spurt which jacked a three-point Texas lead to 11, and the Steers had little trouble from then on.

Texas super star Larry Robinson was the high scorer for the Longhorns, with 24 points. Howden was second.

Rice had led by as much as 10 points in the first half but Coach Knodel said after the game, "We're just like Mission. Impossible. We should make an announcement. 'Well, hang on, for with about 10 minutes left we will self-destruct.'"

Rice held Robinson to nine of 24 his 24 points in the first half using Leroy Marion and John Kabbes on defense. With 7:58 left in the game Kabbes fouled out and Marion, in foul trouble, had to play off and let Robinson go a bit.

Don Snyder was the high point man for Rice, dropping in 15 points, while Kabbes had 15 and Marion 12.

Texas hit 29 of 39 of its free throws for 75 per cent while Rice connected on only 15 of 26 for 57 per cent.

# Olympic Games Close After Eleven Day Run

SAPPORO, Japan (AP) — The Olympic Flag was lowered and the Sacred Flame extinguished Sunday night as the 11th Olympic Winter Games closed an 11-day run.

Poked by controversy but praised as one of the best organized sports spectacles in history, the Games were officially pronounced ended by

Avery Brundage, president of the International Olympic Committee. The athletes were summoned to the next Olympic rendezvous for snow and ice sports in Denver, Colo., in 1976.

Crown Prince Akihito, representing Emperor Hirohito, and the Crown Princess were among the

10,000 persons who saw the closing ceremonies at the Makomanai indoor skating rink.

Figure skating exhibitions, band music, choral singing, a parade of athletes without respect to national origins and a fireworks display were part of the formal and stylized program that is the signal for the sports stars to disperse.

After all the dignitaries were in place, name placards and flags of the 35 participating nations were paraded in and formed in a semi-circle around the rostrum. The athletes followed in a potpourri mixture to symbolize the friendship and unity of the Olympic movement.

Brundage then declared the Sapporo Games closed. The flame at the outdoor skating rink dimmed and disappeared. The Olympic Flag was hauled down and carried from the arena, followed by a gun salute.

During the choral rendition of "The Farewell Song" written by a Japanese composer and lyricist for this occasion, high school girls moved in around the athletes.

## MARINARO ROMPS

Ed Marinaro of Cornell easily captured the NCAA major college rushing title, averaging 209 yards per game while second place Robert Newhouse of Houston had a 159.7-yard average. Marinaro also led in scoring, with a 16.4 average that edged the 15.8 recorded by Lydell Mitchell of Penn State.

## Ohio St. Passes By Purdue

COLUMBUS, Ohio (AP) — Luke Witte's rebound basket with 53 seconds to play Saturday gave seventh-ranked Ohio State a 64-62 triumph over Purdue.

The 7-foot Buckeye center grabbed a missed free throw attempt by Mark Minor and put the ball in the basket on his second try.

Purdue's Frank Kendrick missed a shot with three seconds to play and William Franklin fouled Witte with one second remaining, wrapping up Ohio State's seventh victory in nine conference games.

Franklin, who scored a game high 22 points, had tied the score at 62-62 with a field goal with 1:47 to play.

## Female Skaters Win Only American Medals

SAPPORO, Japan (AP) — America's speed skaters head for home Monday with four Olympic medals—all won by two girls—and no money in the bank.

Dianne Holm and Anne Henning, the Northbrook, Ill., pair, made it a great 11th Winter Games for American

## Female Skaters Win Only American Medals

women's speed skating. For the first time ever, the United States won a medal in all four events.

"But now we have to find more funds to start preparing for the next Olympics," said Jim Hawkins, U.S. speed skating team manager.

## Heard Retains His Lead In Hope Golf

PALM SPRINGS, Calif. (AP) — Jerry Heard, playing miles away from the vast throngs that whooped and hollered after Vice President Spiro Agnew and friends, retained his lead in the Bob Hope Desert Golf Classic Saturday.

Heard, 24, had a two-under par 70 at Bermuda Dunes for a 72-hole total of 275 and a two-stroke lead over veteran Bob Rosburg, who matched Heard's 70 in his round at La Quinta.

Charging rookie Lanny Wadkins also escaped the stampeding mob scene at Indian Wells—site of Agnew's round with Hope, Frank Sinatra and Doug Sanders—and posted a 69 at La Quinta.

Wadkins has a 278 total and was alone in third place in this five-day tournament played over four courses in this desert resort.

Arnold Palmer also moved into contention with a 66, six under par, under trying conditions at Indian Wells. That put him at 279, four strokes away.

Palmer, the defending champion who improved 10 strokes from Friday's round, was tied with Johnny Miller.

The skinny, 24-year-old Miller usually an easy-going, placid young man, had some complaints when he finished with a 71. He played in the group just in front of Agnew.

"It was a hard round," Miller said. "I got so upset with the gallery a couple of

## Female Skaters Win Only American Medals

times I just wanted to quit."

"There were a thousand cameras out there. They were clicking and whirring all the time, on every backswing. It got so you'd flinch every time."

"Or there would be some drunk who'd yell something to a friend just as you were about to take the club back," he said.

"But I guess I shouldn't complain. I suppose Arnold Palmer had to go through that every day and he's learned to just grin and bear it."

But Palmer wasn't really grinning when he hit two poor shots and made a par 5 on the 462-yard finishing hole.

He missed the green badly with his second shot, then chipped poorly while Hope joked and chatted with the gallery over a microphone. "I don't want to talk about it," Palmer said, but later added: "The microphone was turned in the wrong direction."

There was a decided holiday attitude for the massive gallery at Indian Wells, with most of the attention centered on the foursome that included the vice president and his joking, clowning companions, pro-Doug Sanders, host Bob Hope and retired entertainer Frank Sinatra.

"I didn't play a great deal better than before," the vice president said. "I just missed more people."

He hit three spectators with two errant shots off the first tee in last year's tournament.

## Female Skaters Win Only American Medals

national Skating Association receives a grant from the U.S. National Olympic Committee and relies also on membership subscriptions and donations.

"As for as finances go we've been skating on thin ice," Hawkins said. "Our bank account has never been higher than \$15,000. At one point, when we were training for these Olympics, it fell to \$300."

In the men's events, Dan Carroll of St. Louis was the only American to make the top 10 in race. He placed seventh in the 1,500 meters, ninth in the 1,000 and 10th in the 5,000.

Hawkins said: "Obviously our girls have reached a higher peak than our boys."

In the sprint, the Americans had three girls in the first seven. Miss Henning was the winner, Sheila Young of Detroit placed fourth and Kay Lunda, 14-year-old from Madison, Wis., was seventh.

St. Louis, 14-4, trailed 52-41 with 9:44 remaining, but reserve Gary Lamps and Harry Rogers sparked a comeback. Carlos Martinez' basket with 2:13 left put the Billikens ahead to stay 63-62.

The fifth straight victory let St. Louis stay second in the Valley with a 6-2 record. Drake fell to 2-7 in the conference and 7-13 overall.

Rogers finished with 21 points and Bob Paradoski 16 to lead St. Louis.

Reserve Cleo Kilgore with 18 points and Tony Johnson with 11 topped Drake which lost its third straight as it fell into the conference basement.

# Ski Report

SANTA FE SKI BASIN—Santa Fe National Forest, 16 miles northeast of Santa Fe. Base conditions: upper and lower trails—adequate; depth of snow at midway station—55 inches; type of snow—powder; weather—moderate to heavy snow falling; skiing conditions: upper trails—adequate; lower trails—excellent; roads—good to excellent; chains—advised.

## U.S. Hanging Onto Olympic Hockey Medal

SAPPORO, Japan (AP) — The United States, scoring a pair of goals in each period, rode Mike Curran's steady goaltending to a 6-1 victory over Poland and a shot at an Olympic medal Saturday night.

The victory in the Americans' fifth and final game vaulted the surprising, fifth-ranked Yanks into a third-place tie with Czechoslovakia. The United States finished with a 3-2 record and six points, one ahead of Sweden.

The win gave the United States its first shot at a medal—either silver or bronze—for the first time since its incredible gold grab in the 1960 Games at Squaw Valley, Calif.

Whether the Americans get either depends on Sunday's games, when the Soviet Union, the top-ranked defending champion, battles the second-ranked Czechs for the gold and Sweden faces fifth-place Finland.

## Daytona Pole Slot To Isaac

DAYTONA BEACH, Fla. (AP) — Bobby Isaac, taking one of A.J. Foyt's dreams to heart, raced around the Daytona International Speedway at 186.632 miles per hour Saturday to win the pole position for the Feb. 20 Daytona 500 stock car race.

"Foyt told me just before I went out that he had dreamed last night that I would beat him out for the pole," Isaac said. "So, I took him at his word."

Foyt, auto racing's all-time money winner, won the other front row spot in the 44-car field, turning the 2.5-mile oval at 184.804 mph in a freshly-built Mercury.

"I shouldn't have told him about the dream," Foyt said later. "But I don't know whether I could have beaten him. He has been turning some awfully smooth laps. He's definitely the guy to beat in the race."

Only the two front row spots were at stake in Saturday's initial qualifying runs, which drew more than 10,000 spectators. Other drivers who competed will get choice starting spots in a pair of 125-mile races next Thursday. The order of finish in those events will determine the other 42 starters in the \$200,000 Daytona 500, stock car racing's premier event.

In all, 28 drivers made qualifying runs on a gray, blustery day. The 10 fastest recorded an average speed of 182.600 m.p.h. — considerably better than last year, when the big stockers were required to use carburetor restrictor plates.

Buddy Baker had the day's third fastest speed, 184.350 m.p.h. in a Dodge owned by Richard Petty. Fourth fastest was Bobby Allison of Hueytown, Ala. who posted 183.288 in a Chevrolet owned by ex-driving great Junior Johnson.

Isaac, riding in a 1972 Dodge making its maiden run, turned the speedway in 48.223 seconds. He made two laps under the clock. His first one nailed down the \$5,000 that went with the pole. His second lap was slower, 185.220 m.p.h.

"That's being paid at the rate of about \$70,000 an hour," Isaac chortled later. "Not bad for a guy who quit school in the sixth grade to go racing."

KANSAS CITY (AP) — The nation's population center will continue its movement west during the decade of the 1970s and will creep across the Mississippi River for the first time in 1980, a financial firm's research department says.

Based on its estimates of the 1980 census and patterns of growth, the research group predicted the nation's demographic center will be near Pevely, Mo., about 25 miles south of St. Louis and six miles west of the Mississippi River.

Pevely is about 35 miles southwest of Mascoutah, Ill., the 1970 population center.

**PADDED PUNCHES DON'T SOFTEN THE BLOW**-Boxers competing in the Golden Gloves tournament hosted by the Pampa Boxing Club exchanged blows Friday and Saturday nights in hopes of winning a trophy. Successful fighters were Tammee Wilhelm (upper left) and Donald Williams, Lefors (lower right). Wilhelm defeated Lefors' Stephen Franks while Williams outgunned Guy Ross of Guymon. (Staff Photos)

## Pampa Boxing Club Hosts Golden Gloves

The Pampa Boxing Club continued in its smashing ways Friday and Saturday night as boxers from four states converged on the arena to battle for Golden Gloves Trophies.

In the first bout of the evening the Pampa woman's libber extended her rights to fight by completely overpowering Stephen Franks of Lefors. Tammee Wilhelm has the distinction of being the first female fighter to enter a golden gloves tourney as a regular participant in the state of Texas.

The next scheduled fight ended with a forfeit by Pampa's only other female boxer, Melane Wilson, to rough John Archuleta of Pampa.

Lefors got into the act with Donald Williams fighting in the 105 lb. division against Guy Ross of Guymon, Okla. Williams after slashing away at his Oklahoma opponent received the trophy.

Other fights had Kurt Voss of Pampa winning an easy decision over Bo Bo Navarrette from Amarillo. Voss fights in the 50 lbs. class.

Results of Friday's action found: Wes Parker of Guymon defeating Slim Anderson of Pampa in the 45 lb. division; Mark Martinez of Guymon defeating Johnny Corrasco of Amarillo in the 55 lb. division;

Manuel Jimenez of Amarillo captured a 55 lb. division win by defeating Rito Corresco of Amarillo; in the 60 lb. division Dane Dawson of Borger was defeated by Jerry Finney of Pampa; in the 60 lb. division Wendall Holland of Borger defeated Sammy Sutton of Lefors;

Jerald Vaughn of Borger dropped a tight decision to Billy Craine of Lefors in the 65 lb. division; Raymond Henry of Lefors advanced to the finals as he downed Ricky Martinez of Guymon in the 75 lb. division; Charlie Gomez defeated Jesse Lomeli in the 75 lb. division, both are from Amarillo;

In the 90 lb. division Jimmy Heller from Lefors lost to Borger's George Bell;

In the 95 lb. division Blayne Wilson of Pampa defeated Raymond Martinez of Guymon;

The heavier weight fighters found Frank Archuleta of Pampa being defeated by Robert Gifford from Lefors;

Berry Shepard from Borger fought and defeated Guymon's Lupe Sandoval in an exhibition bout and Ed Stout

lost to Adam Mulavax in the 90 lb. class.

Special bouts had John Archuleta defeating Allen Henry of Lefors and Melany Wilson winning by the only TKO of the evening over Rick McDowell of Pampa.

David White gave up fifty lbs. to fight Leonard Smith of Guyman and walked away from the ring with a trophy to show for his efforts in the heavyweight class.

### Do you really want your brother-in-law to know how much you earned last year?

Of course not. It's nobody's business but your own.

However, annually millions of taxpayers bear this kind of personal information to people who really shouldn't know. For what? Just so they can save a few dollars doing their income tax.

That's some price to pay.

You see, for only a few dollars more than it costs to do it with any amateur who might not know that work clothes in some instances are deductible, or that income averaging might save tax dollars, you can have your tax return done by a specially trained member of the H & R Block team with complete confidentiality. There are thousands of them in over 6,000 conveniently located offices. H & R Block's fees start at \$5 and the average cost was under \$12.50 for the 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

This means that H & R Block is ready to offer you service for just one low fee a year, with no extra charge for audits and estimates. Yes, we cost a little bit more than your relatives or friends or neighbors but when you think of what we deliver, you can't afford anything less than H & R Block.

**DON'T LET AN AMATEUR DO H&R BLOCK'S JOB.**  
**H&R Block.**  
The income tax people.

## Track Record Broken

HOUSTON (AP) — World outdoor record holder Rod Milburn of Southern University zipped to a world indoor record 13.4 clocking in the 120-yard high hurdles Saturday night at the fourth Astrodome-USTFF indoor track meet.

Milburn's former Southern teammate, Willie Davenport, tied the previous world record indoor time of 13.5, which Davenport set in 1969.

# The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE

### Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces can he develop to his utmost capability.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

## Outlaw The Auto?

Picture an America whose great cities are laced together with gleaming metal rails over which literally thousands of passenger trains run each day.

Picture an America whose suburbs and small towns are similarly linked by fast, pollution-free rapid transit systems.

Picture an America whose streets and highways are not clogged with poison-spewing automobiles, which kill and maim tens of thousands each year and whose manufacture and operation drains the nation's resources—an America where few cars that do exist are the play-things of the rich, who are forced to pay a high premium for their self-indulgence.

Picture an America where no superhighways are slashed across the countryside, entombing God's living greenness in a killing mantle of concrete.

Picture an America where there is no such thing as a Highway Trust Fund, lavishing billions in gasoline and oil tax dollars on new highways, which will in turn generate even more tax dollars for the fund.

This may or may not be a picture of America at the end of this century. Many predict it will be. Others insist it must be, if we are to survive.

Curiously, though, it is a picture of America at the beginning of this century.

Sixty or 70 years ago, there simply was no way to move people long distances on the ground but by trains.

In the East, where cities were closer together, the interurban trolley was just about the only way to get from small town to small town or from suburb to city. It was

### Quick Quiz

Q—In thoroughbred horse racing, who compiles the list of historical names?

A—The Jockey Club of New York City. Once the name of a horse is on the historical list, it may not be used again.

Q—What U.S. president's inaugural and accompanying ceremonies were the first to be telecast?

A—President Harry S. Truman in 1949.

Q—How long does the banana plant bear fruit?

A—The plant dies after bearing one bunch of fruit.

Q—How many eggs does a female blue crab carry?

A—About two million.

certainly the fastest, cheapest and most convenient way.

Ohio, for instance had a marvelous network. You could travel along Lake Erie by trolley from Buffalo to Toledo, or south from Cleveland to Cincinnati, with branch lines in every sizable town.

The expensive, noisy, smelly and unreliable automobile, was, of course, just a toy for the rich. Some towns had laws against them. There were no roads to speak of outside the cities, and only the most foolhardy or daring "motorists" ventured upon them.

In brief, the railroads and rapid transit now being so earnestly touted as our transportation salvation had everything going for them a few short decades ago. The automobile, that Frankenstein's monster turning against its creators, laid everything going against it.

What happened? If a rail transportation system far, far beyond the dreams of any planner today couldn't make it against the automobile, how can the pitifully limited systems now being proposed hope to?

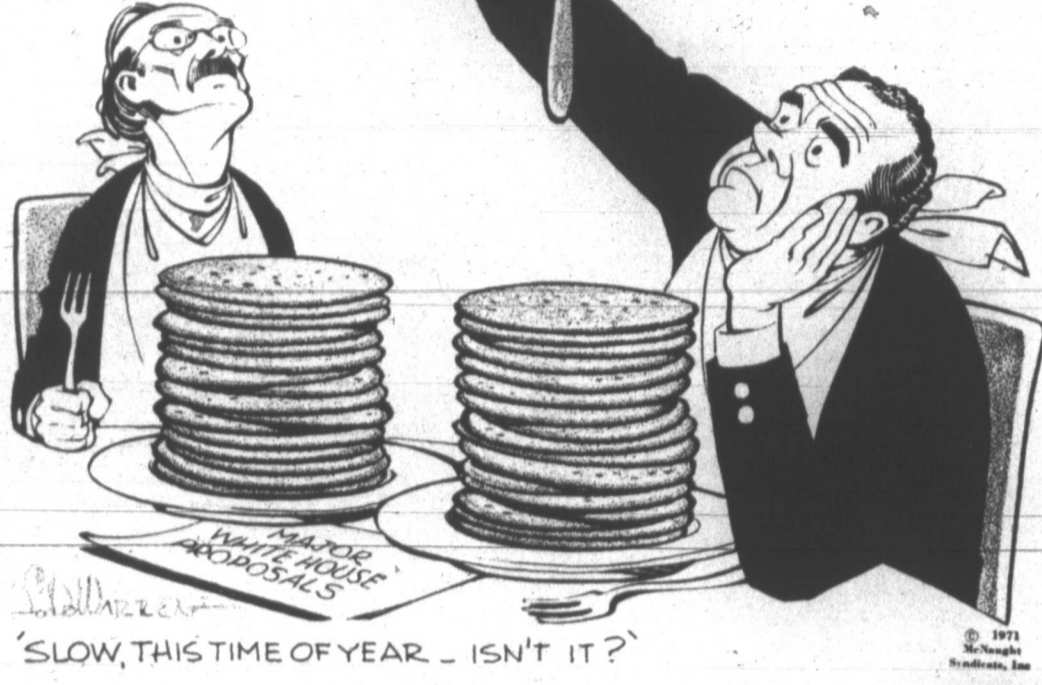

Yes, the automobile once had everything against it—except for two very important things. It was highly mobile and it was personal.

Those two factors still obtain. Everyone says he's in favor of more rapid transit, but it usually turns out he means rapid transit for the other guy, not himself.

It is true that there is a "highway lobby" and it may, indeed, be time that some Highway Trust Funds be diverted to other forms of transportation. Better yet, maybe there should be a General Transportation Fund.

But before we condemn the car makers, the gasoline vendors and the rest of the so-called lobby, let's remember that the automobile is so ubiquitous today not because anybody was conned into anything but only because millions of Americans over the past seven decades individually decided in favor of the automobile. Everything else follows from that fact.

Any change in the present transportation picture in America can only come about through the same process—only if enough Americans decide that they really want a change, and are willing to pay for it.

## Paul Harvey News Stodgy AMA Expected To 'Get With It' Now

In one year you might not recognize the old American Medical Assn. Internal upheaval will be reflected in more external involvement.

The American Medical Assn., after the outspoken Morris Fishbein era, withdrew from the world.

That's a figurative expression, of course; it does not reflect disrespect. This writer has guarded very zealously a longtime mutually respectful association with the medical profession, but the AMA has now diagnosed its own hardening arteries.

There is an internal power struggle going on of consequence to the association and of significance to us all.

Elected officers, coming and going, have been hamstringed by the permanent administrative staff.

Recent presidents have accepted, accommodated lived with this inbred inertia.

## H.L. Hunt Writes

**PATRIOTISM MISSING**  
The radical left has enhanced the communist propaganda line for many months, demanding that the United States set a definite withdrawal date in the Indochina War—and then get out lock, stock and barrel regardless of the dangers involved as regards our own forces and those of our allies. The harangue from this element divided the people of this country and sapped our strength.

Now it has been disclosed that Washington had made offers to Hanoi as far back as Oct., 1971, which included a provisional withdrawal date of Aug. 1, 1972, provided other conditions were met. These would include a cease-fire order on both sides and a release of all prisoners of war, a point uppermost in the minds of all. But the negotiations were fruitless since Hanoi wouldn't yield on certain issues. For one thing, the communists demand that the U.S. unseat the present government of Saigon, a feat the North Vietnamese have not been able to accomplish.

But these offers on the part of the U.S., including the specific withdrawal date, have not satisfied the radical left. That element in the U.S. still says that their own country is wrong in not getting out now despite the crisis it would create for our own armed forces in Indochina. Two liberal U.S. Senators, after hearing President Nixon outline his offer to end the war, declared that we ought to withdraw on a unilateral basis with no concessions from the aggressive forces of the communists. It makes one wonder whose side the radical left is on and what it would take to satisfy it. The statements of the radical left certainly don't coincide with old-fashioned patriotism. Right now our nation could use a dose of old-fashioned patriotism.

## Your Health

By Lawrence Lamb, M.D.  
**Disease Can Cause Changes in Bones**

Dear Dr. Lamb—I would very much appreciate it if you could give me some information on what might be checked and if there is some medication for my problem. My body structure has changed in size and this is not due to a weight change. An example would be I am unable to wear the hats, gloves, or shoes that I wore. Whatever has taken place has also affected my vision. The eyeball protrudes and yet is sunk back into the head due to the bone around it growing and therefore changing my face, which was round, to a more oblong shape. My ears have been giving me much trouble. My mouth and throat have grown up and back so that I have to be very careful that I do not choke when eating.

I did see a gland specialist. He said bone or body structure cannot be changed, but my body has signs that it is doing just that.

Dear Reader—I presume a gland specialist would recognize bone growth associated with a glandular disorder. Your description suggests that you have an abnormal function of the pituitary gland.

This little gland which is underneath the brain secretes growth hormone, which all of us must have during our growing period. The long bones in the body calcify and growth of our legs and arms stops under normal circumstances. If this doesn't occur, the growth hormone from the pituitary can result in giants. If the bones are already sealed so that they don't grow, over-activity of the pituitary gland can cause changes of the hands and feet and changes of the face and head as you have described them.

Commonly, individuals with these problems cannot wear the same ring size that they used to wear. Difficulties with vision sometimes occur with this disorder because the pituitary gland is also located where the two optic nerves branch outward to go to each eye. If you should have an overgrowth of the pituitary gland in this area, it can affect vision.

I would strongly recommend that you check with your local medical society and ask to be seen by an endocrinologist. If you are near a university medical center, I would suggest that you write there for an appointment in the endocrinology section of the possibility of acromegaly, which is the technical term for the condition I suspect that you may have.

### WIT & WHIMSY

Some bad apples in the barrel give a little more zip to the cider.

Hypochondriacs are folks who aren't content to leave well-enough alone.

## Rearview Mirror

By TEX DeWEESE  
Editor of The News

THIS IS American History Month and the Las Pampas Chapter of the Daughters of the American Revolution want you to know it's a month of special significance to all Americans.

The DAR is observing it locally and they ask us all to join with them in encouraging young people to learn more about the exciting events and heroes who have made America great.

Special emphasis is being placed on essay writing in the history classes of our schools. February is the month of Lincoln and Washington's birthdays.

The DAR's efforts on American History Month are aimed to instill in us a desire to remember the men and women who sacrificed their lives for the preservation of freedom.

If you ever have been to Valley Forge, for instance, you already know about the Bell Tower erected by the DAR where General Washington and his troops camped, and where many suffered and died.

The Tower is consecrated "To the Glory of God and in Memory of Our American Heroes."

Remember, too, the belief of the 56 signers of the Declaration of Independence that all men are created equal in God's sight though their talents, virtues and circumstances of birth may vary.

Won't you take a moment to listen?

SINCE THE birthday of George Washington is little more than a week away, we can't help but noticing the calendar and its reminder that the Wonderful Wizards of Washington have changed its observance date from Feb. 22 to Feb. 21.

A week from Tuesday is Feb. 22, Washington's birthday, but the Monday Holiday Bill has moved it ahead a day.

And that brings up the subject of changing holidays in general. If you recall what was done to Veterans Day, it was changed from the traditional Nov. 11 to the fourth Monday in October.

The Congressional Record reports that Texas Congressman Wright Patman recently took the holiday changes to task in a speech on the floor of the U.S. House of Representatives.

Said Patman: "While Congress can pass a law, only the people can make a holiday. We saw this last Nov. 11 when millions of Americans observed Veterans Day even though the date had been changed to the fourth Monday in October."

PATMAN ADDS that every major veterans organization has come forward in support

of re-establishing Nov. 11 as official Veterans Day.

Nov. 11, he points out, has tremendous significance for Americans and free people throughout the world because it was on the 11th day of the 11th month in 1918 that the Armistice was signed ending the First World War.

So Patman has introduced a resolution in the House to restore the national observance of Veterans Day to its traditional date. Here's hoping he succeeds in getting it passed. A few other holidays ought to go back where they belong, too.

HOW DO you feel about being humane to animals? Mrs. John G. Cahill, who lives two miles west and a half-mile north of Highland General Hospital, thinks enough of animals to hope that a Gray County Humane Society can be organized.

In face, she has been circulating petitions, needs signatures and is looking for help in the project from anyone interested.

If you believe the idea of a local humane society is a good one, Mrs. Cahill would like to have you contact her by writing P.O. Box 598, Pampa, or calling 665-4185.

TOMORROW IS Valentine Day—the day when you say it to your sweetheart with flowers, candy, sweet words and stuff. It is one of the days on the calendar that hasn't been changed yet by the WW's of Washington.

Still on the subject of months and days—hold onto your 1972 calendars. According to the World Almanac's perpetual calendar, the identical arrangement of days and dates will repeat itself in the year 2000.

A 1944 or 1916 calendar will do just as well, if you still have use of those.

For those looking ahead to ringing in a new century, it's good to realize that New Year's Day, 2000, will fall on a Saturday, as it did this year.

That will leave a whole weekend to recuperate. But maybe by that time there will be a one-day work week and a six-day weekend. Whee-eee!

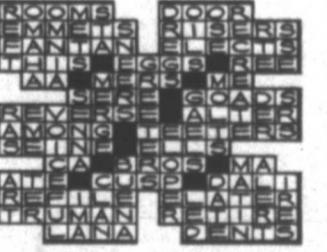

SOTTO VOICE: ★ A couple of this and that—

If you haven't already registered and want to vote in the Pampa city and school elections, you'd better get your name on the rolls before March 1. The City Hall Cat reports he finds no evidence of traffic ticket fixing at the Hall. Even the city manager got a ticket for overtime parking the other day when he was busy and couldn't beat the two-hour limit. (His wife got one, too). Both tickets were paid.

5:00 Close

**Swim Lessons**  
The Center has one of the best swim lesson programs you could find anywhere in the U.S.A. All classes of the American Red Cross swim program is offered and in addition we have a pre-beginner class for children 4-6 years of age not yet in school. This is called our polywog class. Other classes are beginner, advanced beginner, intermediate, swimmer, Jr. and Sr. lifesaving and Water Safety Instructor.

The Center teaches two courses every 2 1/2 weeks which is 10 meeting dates. Lessons are offered on Monday, Wednesday, Thursday and Friday. We are closed on Tuesday. Classes run after school is out either from 4-5 or 5-6. All classes are taught by a qualified Red Cross swim instructor with most classes taught by our resident instructor, Ruth Carter. The cost for 10 lessons is only \$4. or is free to all Center members. Memberships may be purchased at any time.

**Feb. 21-March 8**  
4:00 Beginners  
5:00 Adv. Beginners  
**March 13-20**  
4:00 Beginners  
5:00 Intermediates  
**April 10-26**  
4:00 Polywogs  
5:00 Beginners

**MEMBERSHIPS**  
Our participation is through a membership plan either limited or unlimited. Our regular membership is called the limited plan. This entitles you to full use of the gym, swimming pool and recreation hall. An individual membership is only \$5. for six months or \$8. per year. A family membership which includes all members of the immediate family is \$12. for six months or \$20. per year. Our unlimited plan entitles the owner to the above accommodations and also use of the new health facility. The health facility includes an exercise room with all of the latest exercise equipment such as barrel rollers, facial machines, jungle pulley machine, bicycles, weights, vibrator belts, etc., along with two handball and racquet ball courts and a sauna room. Women love our sauna because it is a dry heat and does not affect the hair. An individual membership here costs \$65. for six months or \$118. per year. A husband-wife combination plan costs only \$90. for six months and \$166. per year. We do have a six-months installment plan and if you are interested you may call the health facility at 665-4381 and inquire in detail about this.

**JUDO LESSONS**  
There has been a change in meeting time for Judo due to the school schedule of our instructor. Judo will meet only on Thursday nights from

7:45 p.m. No meeting on Monday because our instructor, Paul Moot, must attend night school. Judo enrollment is still open to boys 8 years of age or older and girls who are 12 years of age or older. Parents, both male and female are invited to participate with the children. Each participant should be a Center member which is \$5. for 6 months or \$8. per year. In addition a mat fee of 50 cents per month is charged. If you are interested, please attend the Thursday meeting and full details will be given to you by the instructor.

**DOLPHIN SWIM TEAM**  
Boys and girls who are interested in competitive swimming, please draw your attention to this column. The Youth Center is the home of the Dolphins. This is a swim club for boys and girls who know how to swim and like to race. Swimmers from 6-18 are invited to participate. The club is A.A.U. sanctioned and they attend several weekend meets during the year. Swimmers are needed in all age groups to complete relay teams so that we can have relay representation at all meets. All interested swimmers are urged to contact coaches Jackie and Gerald Marlar at 665-1965 and come out for practice. The only requirement is that you be a member of the Youth Center. Workout time is 6:7-10 p.m. on Monday, Wednesday, Thursday and Friday.

**CALICO CAPERS SQUARE DANCE CLUB**  
A particular type of dancing for adults in the Panhandle is square dancing. The Calico Capers Square Dance Club meets each Saturday night at the Center except the 5th Saturday nights from 8-11 p.m. They have a regular schedule of guest callers from out-of-town. The club at present has some 33 couples and would invite newcomers in Pampa or those interested in knowing how to square dance, to visit their club on Saturday night. They are presently in the process of enrolling couples for a series of lessons to be taught on Tuesday nights. If you are interested in learning how to dance, please call Ocie Stewart, club pres., at 665-1446. He will give you all the information about this.

**Old Oath**  
The Hippocratic oath used at graduation by many universities and schools of medicine has guided the practice of medicine for more than 2,000 years.

**Longest Fence**  
The world's longest fence is the 3,500-mile dingo barrier which encloses the central sheep-raising country in Queensland, Australia. The sturdy wire netting, six feet high and buried a foot underground, protects sheep from marauding wild dogs.

**Old Oath**  
In Aranos, Southwest Africa, a donkey cart driver was fined \$63 for drunken driving on a remote farm road.

## Red Cross News

By Libby Shotwell, Executive Secretary ARC  
A senior life saving class was completed this week at Pampa Youth Center, taught by Jack Chisum, water safety instructor for the American Red Cross. The following received their cards and are eligible to take the water safety instructor class at age 17 or over: Dana Chisum, Vicky Carter, Maretha Carter, Jane McCausland and Jim Cunningham.

Mrs. GD Marlar, WSI trainer will begin a WSI class beginning March 7 at Pampa Youth Center pool at 7 p.m. A current senior life saving card is required to take this class. Please, enroll early to avoid being disappointed this summer when you find you are not ready to take a job in the water safety program.

All Life Guards are required by the State to carry a junior or senior life saving card to hold these jobs. We have a new multi media first aid instructor, Minor Scott Langford, who works for Southwestern Public Service Co. at Pampa. Langford is carrying a Red Cross mobile unit in his car and will be teaching a class soon.

Terry Duenkel, FAI has completed a standard class in FA with nine completing the course. They are: Paul Barrett, Mrs. Virgil Beard, J. R. Dwons, Bettie Craig, Jimmie Free, T. D. McIvain, Mrs. J. T. Rogers, Jay Patterson, and Jay Turner.

Mr. Jerry Bertran, FDAI for Shamrock, tells us he is teaching a standard FA class at McLean, with 60 in the class. Jerry has three other instructors in First Aid who are working with him in teaching this large class.

Pampa JCs will see the film "Breath of Life" at their regular meeting, Tuesday, Roscoe Sealy is program chairman and will use the Red Cross film with this group.

Floyd Sackett, Red Cross youth chairman, took the tray favors from Baker and Woodrow Wilson elementary schools for Valentine and Washington's Birthday to the patients at the Veterans Administration Hospital at Amarillo Thursday. Mrs. Glen Cox from Baker is teacher sponsor for the Red Cross this year and Mrs. Dan Johnson is the teacher-sponsor for Woodrow Wilson school.

## Worry Clinic

By George W. Crane Ph. D., M. D.  
Diana is very unhappy. She lacks girl friends and has never had a date. But she soon became popular by using the "Stoop to conquer" strategy outlined below. So send for that surefire booklet that teaches you the 5 rules for tooting the other person's horn!

**CASE T-501: Diana B.**, age 17, is miserable. "Dr. Crane," she moaned, "nobody likes me and I never have had a date with a boy." "Maybe it is because I am so shy and tongue-tied, for I never know what to say when I am with people." "So how can I become popular?" "Or are some folks just born to be unhappy and friendless?"

**STOOP TO CONQUER**  
Nobody is "born" popular or unpopular. But everybody is "born" with this invisible tattoo across his chest:

**I WANT TO BE IMPORTANT.**  
So the popular people soon stumble upon this secret and then capitalize upon it early in life.

For they discover that if a boy and a girl are seated side by side in class or on a bus or park bench and each is branded with that desire for importance, then one of them must figuratively "stoop to conquer."

So the smart girl will temporarily curb her own desire to show off and appear important.

Instead, she will analyze her companion for some merit or virtue and then consciously phrase an honest compliment thereon.

That immediately makes the other person feel more important and thus happier. But when we are happy, our surroundings look more beautiful, and that includes our own human companions, too!

So the person who receives this first compliment thus regards its author with more favor. In fact, the recipient of the compliment thinks the girl who praised him has good judgment!

And soon he may return the compliment. So both receive a boost for their ego. Meanwhile, that verbal compliment helps break the ice and starts conversation.

Soon, such a couple of former strangers are gaily conversing and the boy may finally ask the girl for a date.

It's that simple, girls! Just curb your innate desire to toot your own horn by self-advertising. Instead, toot the boy's horn!

Then he will reciprocate by tooting your horn, too. So both of you get your horns tooted.

(Always write to Dr. Crane, Hopkins Bldg. Mellet, Indiana 47558 enclosing a long stamped, addressed envelope and 25 cents to cover typing and printing costs when you send for one of his booklets.)

## New Books In Library

**THE GREAT AMERICAN FOOD HOAX**—Sidney Margolius; why you pay too much for food and don't know what you're eating.

**RIDE A WHITE DOLPHIN**—Anne Maybury; the story moves quickly and suspensefully to a dramatic climax, when it seems that aflaming Venetian courtyard may well be the scene of Leonie's end.

**NEMESIS**—Agatha Christie; a new novel about the famous Miss Jane Marple, the delightful sharp-eyed spinster from St. Mary Mead.

**CHRONOPOLIS AND OTHER STORIES**—J.G. Ballard; science fiction stories by the most imaginative of H.G. Wells's successors.

**THEY SHALL NOT PASS**—Bruce Palmer; a novel of the Spanish Civil War.

**ADAM BY ADAM**—The autobiography of Adam Clayton Powell, Jr.

**DEAD TROUBLE**—Dominic Devine; a classic tale of crime and detection.

**FAREWELL, MY SLIGHTLY TARNISHED HERO**—Edwin Corley; the story of a young movie idol who died in a car wreck, and the fascination his life held for his followers.

**MY LIFE AND MEDICINE**—Paul Dudley White; an autobiographical memoir.

**CMRDR. PRINCE**—USN—James Bassett; a novel of the Pacific War.

**THE LOST ANGEL**—Elizabeth Goudge; new stories for the Christmas season.

**ICE HARVEST**—Orvel

Trainer; the story of a man and his success, tarnished by the hidden inhibitions that mark a tragic existence.

**SHOT ON LOCATION**—Helen Nielsen; danger, intrigue and the unguessable conclusion.

## New Owners At Red Keys Steak House

The Red Keys Steak House, 1101 Alcock is under new ownership.

It has been purchased by Mr. and Mrs. Wayne Bryant, who come to Pampa from Seminole where they resided for 21 years.

Bryant has been active in irrigated farming and raising registered thoroughbred horses.

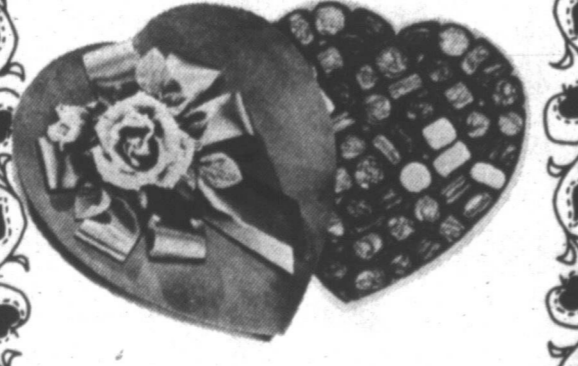

Mrs. Bryant is the owner of two dress shops, one in Seminole and the other in Fort Stockton.

The Bryants are parents of two daughters, Rhonda, 17, a high school junior and Barbara, 16, a sophomore. All are members of the Presbyterian Church.

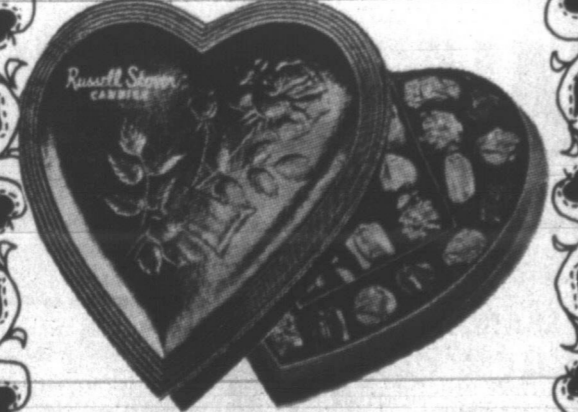

The new owners have extended an invitation to Pampans to come out and meet them at their restaurant on the Berger Hwy.

**TRAIN LOSSES VARY**  
LONDON (AP)—Unclaimed items lost on British railroads, and offered at a recent auction, included a slot machine, five commodes, 20 pairs of hot pants, 600 packages of bra straps and one bust developer.
