Sweetwater's Special Train To Arrive 2 PM

Business Houses Asked To Close During Game; Pep Rally Tonight

Traditional friendly rivalry centered around the annual Big Spring-Sweetwater football game will be renewed here Friday afternoon amid an atmosphere of patriotism.

While Big Spring high school and the town prepared for a big bonfire-pep rally 8:30 p. m. Thursday, Sweetwater was mustering 500 people to ride a special train here Friday afternoon for the game.

Schools of the two towns were to recess at noon Friday. The special train will depart from Sweetwater 12:45 p. m. and is scheduled to arrive here at 2 p. m.

Dr. W. B. Hardy, president of the Chamber of Commerce, said Thursday that the chamber public relations committee had been instructed to meet the train enroute and accompany it here.

People who have cars in which they can carry one or more visitors to the stadium Friday afternoon are asked to list their names with the Chamber of Commerce.

They will be given stickers identifying them as a courtesy car. Five hundred Sweetwater people arriving on a special train will have no other transportation to the stadium other than that afforded by Big Spring people.

At 2:15 p. m. Thursday practically all firms approached had signed a petition to close their doors during game time.

A large crowd was expected to be at the Texas and Pacific depot when the train arrives.

There will be a short parade immediately after arrival of the special train. Arrangements are being made for courtesy cars to transport visitors to the stadium and

City Bond Election Called Nov. 20

Commission In Called Session Sets Election

November 20 the Big Spring electorate will vote on a proposed \$20,000 bond issue, proceeds of which will be used to purchase 416 acres of land for the scenic mountain state park.

City commissioners, in called meeting Wednesday evening, set that date for a bond election as the outgrowth of a petition presented them.

Monday evening commissioners passed a resolution to require an option on the property with unreserved mineral and petroleum rights. Tuesday morning the option paper went unsigned when the owner, W. P. Edwards contended for half the petroleum and mineral rights. However, an unreserved option was signed Tuesday evening and a special meeting called for Wednesday evening.

In setting an election date, Commissioner J. W. Allen moved, and Leo Hall seconded that the city attorney proceed at once to get in touch with "proper authorities" representing the CCC department of the United States government and Texas State Park Board and endeavor to obtain and submit to the city commission "some understanding and arrangement with reference to improvements and also in what manner and under what form of agreement the additional lands proposed to be acquired by the city are to be turned over to the Texas State Park Board and operated and maintained by such board."

The motion, which carried unanimously, also stated that "it is desired that the details be disposed of by the time the bond election is held so there will be no unnecessary delays in pushing the park project to conclusion."

National Park Service, responsible for improvement and development of the scenic mountain park, recently declared that completion of the program, originally budgeted at \$340,000, was contingent upon acquisition of additional acreage.

After a series of meetings by the park board petitions were circulated and presented to the commission. Legal matters were worked out satisfactorily and a bond election called.

City Attorney Thomas J. Coffey said Thursday that persons residing within the city limits and who had property on the tax rolls against their names and who were otherwise qualified to vote would be privileged to cast a ballot in the election.

Good Response In Better Housing Campaign Here

Rev. Bickley In Address To Kiwanis Club

Good response has greeted the better housing campaign here since its official inception Monday.

Six lumber and one paint company are completing canvassing of the city, distributing forms to be filled in by tenants and property owners.

Thursday placards advertising the program were being displayed by business houses. Prizes winning posters made by school students were placed on exhibition in the Chamber of Commerce office Wednesday afternoon.

Next week forms left with tenants and property owners will be collected and a concerted follow-up plan instituted.

Under terms of the federal housing act, property owners may obtain loans for repair or improvement work at very low interest rates. As much as \$2,000 per single piece of property can be borrowed provided the amount to be repaid within a space of a single year does not exceed one-fifth of the borrower's annual potential income.

In other cities such repair and improvement work is being done, affording employment to members of building and allied trades, and at the same time increasing values of property.

Centennial Tax Plan Submitted To Legislature

Body Is Found Near Fairfield

AUSTIN.—Governor Miriam A. Ferguson Wednesday submitted to the legislature the subject of taxation necessary to provide funds for the Texas centennial.

The action was taken soon after Coke Stevenson, speaker of the house of representatives, had ruled revenue raising bills were out of order because the governor, in her original message to the legislature had not submitted the subject of taxation.

Sponsors of the centennial have asked a state appropriation of approximately \$9,000,000 to supplement the funds promised by the city of Dallas and money which it is hoped can be obtained for financing the big celebration.

The governor's message was one of the high spots of a day which saw much discussion of the centennial, both pro and con, of the Colorado and Brazos rivers development projects and of remission of penalties and interest on delinquent taxes. All of these subjects had been submitted in the governor's original proclamation.

A house committee rejected a resolution recommending postponement of the centennial. The senate adopted a resolution ridiculing as sectional a bill before that body providing for a centennial appropriation, and after a hearing the bill was sent to a sub-committee.

Scouters To Meet Monday

WASHINGTON, (AP)—Letters demanding retirement of Josephus Daniels as ambassador to Mexico are being received at the State Department from Catholic organizations.

A speech Daniels made last July to a group of American teachers and students visiting Mexico, D. F., started the controversy. Catholic organizations in the United States have interpreted the speech as approving "plans of the Mexican government to eliminate foreign religion from the schools and institute 'Socialist' instruction."

Daniels, on the other hand, explained to the State Department that the speech was simply a declaration of his faith in universal education and did not "even remotely" touch on the character of education in Mexico.

MANILA, (AP)—Reports tonight from provinces of Luzon Island swelled the unofficial total of dead in Tuesday's typhoon to 372, in addition to numerous persons missing.

MANILA, (AP)—Luzon Island's dead and missing from Tuesday's typhoon reached a total of fifty or more Thursday as belated reports from coastal towns were received.

LOUISVILLE (AP)—A special grand jury to inquire into the kidnaping of Mrs. Alice Stoll was ordered impaneled Saturday by Federal Judge Charles Dawson.

The order was issued on motion of United States District Attorney Thomas Sparks, who announced Wednesday he would demand the death penalty for Thomas Robinson Jr., lunatic, sought as the man who abducted the young society matron and held her six days for \$50,000 ransom.

A possible clue to the whereabouts of Robinson was seen in a report from Hopkinsville, Kentucky, that one of the ten dollar bills had been found there.

Mrs. Frances Robinson, charged jointly with husband, refused to eat breakfast in jail Thursday and sent a note demanding counsel, "as my right."

The note was referred to the district attorney.

TYPEWRITER, USED TO TYPE RANSOM NOTE, FOUND

LOUISVILLE (AP)—Earl Connelly, of the department of justice, Thursday announced the typewriter found in the Indianapolis apartment where Alice Speed Stoll was held captive for six days, was the one used to type a note demanding \$50,000 for the woman's release.

He said the identification was made by the department of justice laboratory in Washington.

ROBINSON'S CAR FOUND IN SPRINGFIELD, OHIO

SPRINGFIELD, Ohio (AP)—The police chief here said a car bearing Illinois and Indiana license plates belonging to Robinson was located there Thursday. The man who drove the car spent the night at a Springfield rooming house, but fled before an officer arrived.

Baby Show To Feature Home Talent Play

Something unique in the way of baby shows is being arranged in connection with the local talent show, "Oh, Professor" to be given next Wednesday at the Mundy auditorium.

The contest is open to children between the ages of 3 and 6 years. Parents are asked to enter their children and to select sponsors who will promote the child's popularity. Votes for the most popular child will be sold by the sponsors at a penny apiece. The sponsor will collect the vote-money and the name of the winner will be announced at the show, "Oh, Professor."

Proceeding the show, next Wednesday night, there will be a parade of all the contestants at the auditorium. Votes may be solicited at the auditorium door before the show begins.

A poster giving the names of the children and of their sponsors will be kept in the show window of J. and W. Fisher's store. Each day the standing of the candidates will be announced on this poster.

A prize will be awarded the winning child and its sponsor, at the show. Details of the prize will be announced later.

The names of all children entering this contest and of their sponsors must be given Mrs. Joe Fisher (phone 365) before 8 o'clock Friday evening.

Two Held At Turin For French Police Part In Assassinations

TURIN, Italy, (AP)—Dr. Antonio Favoglio and Egon Kratanski, alleged by French police to be the master minds behind the assassinations of King Alexander of Yugoslavia, and foreign Minister Louis Barthou, of France were arrested here Thursday at the request of France.

Both denied complicity in the assassinations, but were held in jail awaiting arrival of French police.

Rivals—The free-for-all fight to succeed the late Henry T. Rainey as Speaker of the House has now reached the whipsawing-campaign stage. Getting away from sotto voce stuff it may be reported that all other candidates are working hard to either beat Rep. Joe Byrns of Tenn., or make an advantageous deal involving the floor leadership or chairmanship of the Rules Committee. Byrns, as leader under Rainey, has summoned up precedent to prove he should be elevated to the Speaker's chair. His followers claim he has 30 per cent of last session's Democratic membership already pledged.

At the moment backers of Byrns are busy undermining the candidacy of Rep. Sam Rayburn of Texas. It has been reported frequently that Rayburn would be the White House choice if the other end of Pennsylvania Avenue was going to get into the fight.

Byrns adherents are passing the word around that Ray Moley overplayed his hand when he journeyed to Texas recently to see Rayburn—following which the two of them went into consultation with Vice President Garner.

The Byrns men are reasoning—perhaps too hopefully—that Secretary of State Cordell Hull will get mad about Moley's alleged activities and take a hand in the situation himself. Hull, as a former Tennessee Senator, is a power in southern politics and it is well known he has no love for Moley.

Hitting at the candidacy of Rep. William B. Dandridge of Ala., the Byrnsites are pointing out to their southern brethren what would happen if Dandridge should step out of his present job as chairman of the powerful Rules Committee.

Rep. John J. O'Connor of New York would succeed him.

O'Connor is a Tammany man. So is Senator Royal S. Copeland, of New York.

Plans For Red Cross Roll Call To Be Made Tonight At Meeting

All members and officers of the Howard county chapter of the American Red Cross are urged to attend a meeting of the chapter to be held this evening at 7:30 at the Settler hotel. Important business is to come before the meeting. Miss Jess Jordan, secretary, said Thursday morning. "Plans will be made for staging the annual Red Cross roll," she said. B. J. "Red" Cook, chairman for the 1934 roll call, will announce his committee at tonight's meeting.

VETERANS MAY SERVE TO
END WAR PROFITS

War veterans' organizations, says
a dispatch from Washington are
preparing to take a terrific crack
at war profits during the coming
year.

Revelations made before the Senate
munitions committee in recent
weeks have hit the veterans where
they live. Through such organizations
as the American Legion and the
Veterans of Foreign Wars, the
ex-soldiers are resolved that these
revelations be kept fresh in the
country's memory—and that the
next war we get into will provide
far slimmer pickings for the
merchants of death.

The entire question opens to the
veterans a field of very great
usefulness. The things we have found
out about the profits of the
munitions business are enough to
shock any citizen; to no one can
be quite as shocking as to the men
who actually did the fighting.

It will be a great many years,
probably, before the human race
discovers the secret of foregoing
war. The imperfections of human
society and of human nature keep
us from realizing the beautiful
dream of universal peace. But we
are entitled to expect that, when
war comes, its dreadful weight
shall rest on all citizens alike.

To pay men \$30 a month for
offering up their lives and to make
billions out of the men who
supply them with the weapons to
make a mockery out of every
principle of democracy.

Probably it is a dim recognition
of this fact that has made the
bonus sentiments so strong among
the veterans' organization since the
war.

The demand for the bonus may
be quite as unjustified and selfish
as its opponents maintain; never-
theless, it arises against this back-
ground of war profits, and it is
rather hard to persuade the veteran
that it is wrong for him to ask
for a few hundred dollars when
he knows that the makers of shells
and guns were enriched by the
hundred million.

Get this feeling of injustice
directed into the right channel,
and the veterans' organization can
do a work of unparalleled usefulness.
If we must go to war, in the
future, then we must go; but we
are justified in insisting that it be
for a principle, and not for en-
richment of the munitions makers.

Let the veterans hammer away
on this point, in season and out
of season, and we shall have a
new reason for feeling indebted to
them.

WEALTH AT ITS WORST
It is not often, luckily, that the
courts are called upon to handle
quite so dreary a mess as this
presented currently by the effort
of associated relatives to decide who
is to have the custody of little
Gloria Morgan Vanderbilt.

Here, drawn from the testimony
of sworn witnesses, we get an-
other variant on the old, senti-

mentally-romantic story of the "poor
little rich girl." And what a story
it is!

Heirs to vast wealth though
she is, this little girl seems to
have had far less happiness than
the ordinary child of poor parents
gets. The whole case might have
been designed purposely to point
the old, hackneyed moral—money
doesn't necessarily bring happi-

ness. But whatever pity the ordinary
newspaper reader feels for this
youngster is apt to be swallowed
up in indignation at the tribe re-
sponsible for her plight. Heaven
help the republic, if this case gives
a far cross-section of the ways of
America's upper class.

Brig. Gen. William Mitchell says
he'd like to see the United States
build 50 dirigibles like the ill-fated
Akron, which is all right if we
have a few more like him to in-
flate the bags.

How Are You Picking In The Big Time Circuit This Week?

How are you picking them? Do you think Southern California, plastered worse this year than at any other time since Mr. Jones took charge, can come back against Oregon State Saturday? Harry Grayson, NEA sports editor, doesn't. The renowned Jock Sutherland, coach of the Pittsburgh Pirates who plied Southern Cal. last week-end, does.

On the other hand both Grayson and Sutherland select the powerful Minnesota team over Pittsburgh this week. Can Arkansas defeat Louisiana State? Arkansas is the mathematical Southwest conference leader as result of victories over T. C. U. and Baylor. LSU has been tied by S.M.U. and Rice. We have a hunch Arkansas will lose to the Louisiana Tigers.

Both Grayson and Sutherland take St. Mary's over Fordham. What do you think? Neither made a forecast on the Rice-Creighton conflict in Omaha Saturday night. We think Rice will take it. Do you?

OHIO WOMEN PENSION WORKERS GIVEN STYLE TIP

COLUMBUS, O (UP)—A new style note was issued to young women working in Ohio's old age pension division offices here by heads of the department—all on the side of conservatism in dress. The girls were called into closed conference and told that too many of them came to work dressed as for a party. Matt L. Brown, head of the department, believed their dress should be toned down. The girls described it as "an order." Brown called it "a recommendation" and said it was issued at suggestion of a woman supervisor of the department who criticized girls who came to work dressed as if they were "going to a social engagement."

Ponies Taper Off For Tilt

Little Josh Billings May Not Start Game Here

SWEETWATER—A more or less light workout was held by Coach Ed Hennig for his Mustangs Wednesday afternoon, with signal drills for Thursday, in preparing for the Big Spring game to be played there Friday afternoon.

The team, as a whole, appears to be in fairly good condition, having had a two-weeks rest since the Cisco game, though rumor has it that little Josh Billings may not start the game because of an injury received against Abilene.

Barnett, leading the Ponies as captain, probably will call signals to start the game. Sullivan and Roy probably will be stationed at halfback positions.

Coach Hennig admits that the Ponies are showing some improvements, but points to the fact that most of them are playing their first year of football and sorely are in need of experience.

Fans generally believe the Ponies may be able to "slip up" on the Steers and return home with a victory. Interest is being built up and backers this morning believe at least 500 persons would ride the T&P special train to Big Spring.

AUSTIN, (UP)—Texas education is taking a practical turn. A school for policemen in the latest. A janitor's course was offered in the extension division of the University of Texas. A&M College for many years has conducted an annual school for firemen. This year it added the Policeman's School and one for instruction in raising game.

The Colorado river does not propose to be outdone by the Brazos in its 13-dam development program. The Colorado is building only one dam at the present session of the Texas legislature. Engineer's plans for the stream and its tributaries, however, total up to 13 just like the plans for the Brazos.

The proposed dams would be: (1) in Coke county; (2) near San Saba; (3) and (4) between Burnet and Llano counties; (5) in Burnet county; (6) in Travis and Burnet counties; (7 and 8) in Travis county; (9) on the Concho in Tom Green county; (10) on Pecan Bayou in Brown county; (11) on the San Saba in San Saba county; (12) on the South Llano river in Kimble county and (13) on Orin Cree kin Travis county.

Gene Cooper, delving into Colorado river records, has found that development of water power on the stream was contemplated as early as 1820. The commission that selected the present site of Austin for the state capital gave among the reasons for the choice "fine water, stone, and water power abundant and convenient."

He found, too, that first commercial use of water power in Texas was in the gorge of the Colorado above the Austin where the Hamilton dam now is partially completed. A large dam was built at Austin in later years. It was damaged by a flood and never has been utilized since. Silt has filled its basin.

Authorities are not cited in Attorney General James V. Allred's opinion that the proposed constitutional amendment for classification of property does not abolish the exemption on \$3,000 of homestead property. The proposed amendment starts out with the bald assertion that "taxation of all real property shall be equal and uniform." Allred says the amendment was considered in his department before it was submitted. Then would have been a good time to insert a saving clause for the homesteads.

Proposed discount for early payment of taxes brings up another tight question of constitutionality. Authors of the bill believe they have gotten around the prohibition against tax remission by providing a varying assessment for October.

November and December payment. Legislators at their last session became aroused at similarity between a game in open operation on Congress avenue and their recollections of the old gambling game—

Keno. County Attorney Hagan Blick has investigated. "I will not make any statement about it," he said, "though I am prepared to report if the Legislature calls upon me to do so." At last reports, the establishment was

still operating with American Legion sponsorship. Success of a candidate in a recent election was being discussed in a senate coat room. "It just shows that total ignorance is no bar to political success"

said an old timer. Just in order to narrow down the guesses about what race was under discussion— it was not a statewide race. Germany's domestic trade in

household and kitchen utensils has shown a marked improvement this year, but exports from Germany of these articles have maintained a downward trend. The National Council of the

Women of Great Britain passed a resolution favoring legal election of mental defectives. Ohio's death rate increased 10 persons a day for the first six months of 1934. The total was 40,

and is comparable with 32,000 in the same period in 1933. The Ainu race, probably first inhabitants of Japan, has diminished to about 16,000, living chiefly on the islands of Tsushima and Sakhalin.

Herald: "Hawkshaw Kenley, the watch dog of District 3, is at it again. Tuesday afternoon found him pouring over the files in the court house, later in the files of the Herald office.

"The object of our 'gun shoe' friend this time appears to be Leo Hare, half-back of the Big Spring Steers, and he was just trying to ease his pain and set at rest certain rumors that Hare is too old. He did find one blank that showed Hare too old, but he did not mention prior blanks that showed him to be of age. Had he investigated further he would have found Hare had an older brother 21, a sister 20. Leo is 19.

"One should think our faithful watch dog and ruler verbatim might have learned a lesson from his protest of last year when he almost cost the Bobcats a West Texas championship by his Sweetwater protest on the day of a game. But he seems to be a hog for punishment and he must have a nice budget for stamps, as we have heard of letters in the past all over the country inquiring as to the status of some ambitious young man.

"No doubt some day his ever ambitious and tireless search for the ineligible youth

Limbering Up Work Rounds Out Team

Light limbering up exercises today rounded out the Steers' preparations for their first conference game of the season, a tough assignment with Edger Hennig's Sweetwater Mustangs, who have held a jinx over the Steers for the past four years.

Wednesday was spent in running signals, and coaches were well pleased. Two weeks of work has made a great difference in the squad and the boys are anxious to get a crack at the four year winning streak of the Ponies. Ball Toters Look Good

By all the dope, the Steer backs, Cordill, Hare, Cauble and Flowers, should be powerful enough to take the leather deep into enemy territory.

Bristow has indicated he will try a little of everything against the Mustangs, and Hennig has said S'West outfits. In cases of that kind there's too much penalty on the boy.

An official way of selecting an all-district football team for this district has been named. Charlie Green of Sweetwater suggested that coaches pick an all-opponent team and that chairman and secretary of the committee compile the all-star aggregation. The committee voted it the official way of selecting an all-district team. Green said he thought a team selected by the coaches would mean more to a boy.

The San Angelo officials have been worried since the first of the season about what method should be employed in declaring a district football winner should two or more teams tie. The committee discussed the matter at length, and finally decided that the only thing to do would be not have a tie.

Under the Interscholastic League rules the teams would not be permitted to play-off a tie. The idea of settling such a case by penetration, first downs and yards from scrimmage was discussed pro and con but nothing was settled. The Concho school man made it very plain that should there be a tie his school would not permit him to flip for it.

When the district committee met here Tuesday night they dug up some of the old bones that were supposed to have been buried back in 1931-32. One of the cases brought to light again was that of Sam Baugh, who used to tote the leather a lot for Sweetwater. Baugh was put on the "spot" for having received money for baseball playing. He was never declared ineligible, but there was plenty of evidence against him. Had he been booted out in this district he would likely have run into a lot of trouble in trying to hook up with the

READY FOR THOSE PONIES

Photo by Thurman SAM FLOWERS, center, a rough and tough battler on the Steer squad, is all ready to give Ed Hennig's Mustangs a real cleaning here tomorrow afternoon. Sam, like his brother, Bob, is a consistent scrapper.

Photo by Thurman MILTON 'SPEEDY' MOFFETT, is one of the Steer coaches this year, and his work with the boys has been very valuable. He started out with the squad the first part of the season at the Steer training camp.

Photo by Thurman 'SLEEPY' JONES is slated to be a starting wingman against the Ponies. Jones, for some reason or other, has not been very impressive this season, but the coaches must think he's improving a lot to start him in the first conference game of the season.

frankly that he will give the Herd plenty to worry about.

The Big Spring secondary should be able to present a smooth running attack, but the passing will be rather doubtful as well as dangerous.

Works On Points For the past week Cordill has been developing his punting, and his kicks have pleased the coaches. His ball toting has also improved to a marked degree.

Hare is good to rip through the line and Cauble and Flowers are fair at carrying the ball as well as blocking.

Then, there is little George Neel, who will be held on the sidelines ready for an emergency. Neel is an important part of the Steer machine, but his size has handicapped him some.

Cheer Optimistic Bristow is optimistic because of the fact that it will be the first time he has played Sweetwater when all of his cohorts were in good shape. Also, it will be the first time he has had any sub material of value.

The Bovine line, although it will be rather small, will be plenty scrappy. The Steer forwards should be a good match for the Mustang line.

The Sweetwater ball carriers are all rather small. Roy tips the scales at 175 pounds, but is not to be feared as much as Josh Billings, who comes in at 128. Billings has been practically all of what little offense the Ponies have had this year.

All in all it looks pretty good for the Herd.

Longhorns To Receive Test Cheigny's Outfit To Carry On Without Hilliard AUSTIN, (Sp.)—The University of Texas Longhorns will face one of the big tests of the season Saturday without the aid of one of their star ball carriers.

Co-captain Bohn Hilliard who was injured in the Sooner game last Saturday was not out for practice during the early part of the week, and Coach Jack Cheigny intimated that the star left halfback would be out of the lineup for at least two weeks.

In view of this fact the Longhorn mentors are grooming the remainder of their backs and are shaping up several combinations that will be set to meet the Genslemen.

It was evident in the Sooner game of last week that the Steer offense functioned smoothly even after Hilliard was sent to the hospital. Buster Jurecka of Robstown and "Red" Sheridan of Sweetwater, understudies to the "Orange Flash" looked well in the left half-back roles. Irvin (Duke) Gilbreath of Wellington and Hugo Wolfe of Stephenville, a pair of crashing sophomore right half-backs, also showed plenty of class. Gilbreath accounted for the three Longhorn touchdowns.

Watson Named Member Of Attendance Group Of Texas Secretaries

McALLEN—C. T. Watson, manager of the Big Spring Chamber of Commerce was Thursday named a member of the attendance committee of the 1935 Southwestern School for Secretaries at Dallas. Watson was a faculty member this year. The Big Spring man was appointed by Paul T. Vickers, new

president of the Texas Chamber of Commerce Manager's association and now chamber of commerce

manager at McAllen to represent his area of West Texas.

MISS JEANETTE PICKLE IS WED TO BISHOP BAILEY IN PRETTY CEREMONY

Popular Teacher And Son Of Former Methodist Minister Married At Home Of Bride's Parents

Under a trellised archway of ferns and chrysanthemums in shades of yellow and bronze, Miss Jeanette Pickle became the bride of Bishop L. Bailey Thursday morning at 9:30 at the home of her parents, Mr. and Mrs. J. B. Pickle.

The father of the groom, Rev. W. G. Bailey, who was formerly pastor of the First Methodist Church of Big Spring, performed the ring ceremony.

The bride was modestly attired in a robe de style of white crepe, with a floor-length skirt heavily corded at the hemline, and a short train. Her bridal veil was of white illusion. She carried a lovely bridal bouquet of lilies of the valley and rosebuds, and wore the groom's gift, a beautiful seed pearl necklace in the "bridal bouquet" design.

For the wedding trip she changed to a swaggar suit of burgundy, which she wore with a plaid taffeta blouse and brown accessories.

There were no attendants; Mrs. Philip A. Berry, of Stanton, was chosen to hold the bride's bouquet. Mrs. E. F. Houser played Lohengrin's wedding march, and was the accompanist for Mrs. Victor Frowellen, who beautifully sang "O Promise Me," before the ceremony.

Immediately after the ceremony the wedding party and guests gathered around the dining table for a wedding breakfast, before saying farewell.

The bride is the popular daughter of J. B. Pickle, ex-mayor of Big Spring, and Mrs. Pickle, and has been a well-loved teacher in Junior High for the past four years. She was graduated from the local high school, then obtained her degree in speech-art from the College of Industrial Arts at Denton.

She has been very active in all forms of dramatics, especially in juvenile and young people's plays, and has put on performances for the various service clubs, the Methodist church, and the P. T. A. She has written many of the plays herself, and has been active in composing stunts for Faculty Stunt Night, an annual school event. Her outstanding extracurricular activity has been promoting the Junior High library. Most of its books have been bought with proceeds from shows her pupils gave.

The groom is the oldest son of Rev. and Mrs. W. G. Bailey of Plainview; both are well-known here from their recent connection with the First Methodist church. Mr. Bailey attended Milford college. He is now located in El Paso, where he is connected with his uncle in the custom brokerage office of Buehler-Mora Co.

Mr. and Mrs. Bailey left by motor for El Paso and Cloudford, where they will spend their honeymoon. They will make their home in El Paso on Oregon street.

Mrs. W. G. Bailey of Plainview and Lloyd O'Brien of El Paso, friend of the groom, were out-of-town guests for the wedding. Local guests included only members of the bride's family, relatives and very intimate friends.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the position of our decay all over our body. It makes us shabby, grumpy, and no good for anything. When makes the bowels in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 2% of our food decays in our 25 feet of bowels. This decay sends poison all over our body every six minutes.

MUSHROOM PIONEER

Harvey L. Rix Is Doing A New Sort Of Pioneering In West Texas

Imagine raising mushrooms in dry West Texas.

Harvey L. Rix is doing it and plans to make a good thing of it commercially. It counts mushrooms after they are up in any evidence, he'll probably have enough to feed all Howard county and maybe Fort Worth, Dallas, San Antonio and Amarillo.

But Mr. Rix had to dig a cellar to get a place moist enough to persuade those mushrooms to grow. They can't be watered and yet they can't be allowed to dry out. How is a West Texan to meet those two requirements? Wet straw was Mr. Rix's solution. He keeps the straw-covered floor of the cellar wet and that saturates the air.

And how those mushrooms do grow. Talk of boom towns springing up like mushrooms! A mushroom grower understands. Within 24 hours a mushroom no larger than a little finger nail will spread until it is two inches or more in diameter.

Mushrooms do not grow from seed, but from spores. The beds, which resemble huge bunks, are inoculated with this spore. It makes a mushroom-grower sound like a doctor or a nurse, but that is the easiest way to describe the process. The spore first laid in rows divides and spreads and fills the bed, and the little white thick umbrella-like growth arises from the soil so thickly crowded that in places a pin could hardly separate the mushrooms.

Mr. Rix dug his own cellar. He dug it under the house along the full length of the north side. He says he did it unaided, which is quite a feat in arid soil.

He made the bunks, which are in units of three, nine in all. Then he filled them with a specially prepared soil, calculated to hold moisture for a certain length of time without being watered. The mushrooms were a little late in developing, due, Mr. Rix said, to lack of proper atmospheric moisture. Now they are popping out of those black beds faster than one can keep up with them.

The Rix family have already eaten a meal of mushrooms served in soup. Opinions of the family as to the taste varied with each member, although the consensus of opinion was "swell."

Jimmy Lawrence

LAWRENCE

Jimmy Lawrence, junior halfback for T. C. U., came to life against Tulsa and displayed the dash that made him an all-conference selection in his sophomore year last season. His 76-yard return of a kick-off against Tulsa was the turning point of the game, and his general all-around play, both on offense and defense, was a big factor in the T.C.U. victory. Since Dan Harston broke his arm, Lawrence has been doing the punting for the Frogs. He booted 14 against Tulsa for an average of 43 yards, and the 14 included several short ones purposely kicked out of bounds deep in Tulsa territory.

Sport Plants BY ALAN GOULD

When the Virginia Van Wies, the Glenna Collett Vares and the Opal Hills and other veterans have passed from the picture, there will be ready an able group of youngsters to take up the defense of American golf supremacy.

That much, at least, the 88th women's national golf championship proved in addition to the fact that Virginia Van Wies is the best masher swinger of her sex in the nation.

Dorothy Traung, the 20-year-old San Francisco golf prodigy, who forced Miss Van Wies to put on a championship finish to retain her title for the second successive year right now is at the head of the list of juniors who in a few years should be well-armed to take up the cause.

Save for a strong facial resemblance to Helen Hicks, Miss Traung, standing on a tee, looks anything but a golfer.

The minute she takes a club in hand and swings it through there

is an astonishing transformation of a chubby, cheerful girl into a serious and rhythmic golfer.

SUCCESSFUL LARK

She came from her home on the Pacific coast to the championship on a lark. In the newspapers she read that the qualifying limit had been increased to 64. Maybe she'd qualify!

Doughty Dorothy did qualify and she caused some eyebrow-lifting in the second round when she eliminated Diana Fishwick, former British champion and the most feared foreign threat.

And a few days later she took the measure of Mrs. Hill in the semi-finals and when Miss Van Wies came through over Mrs. Vares in the other semi-final some experts rated the girl from the gold-on-west an even chance against Virginia.

ORCUTT FAILS AGAIN

It may be climbing out on the limb for sport's sake, but it's been

BOY, WHAT SHE COULD DO WITH A "DOLLAR" SWI

won just about every other major title on the continent, but she's never succeeded in the national.

Miss Orcutt went out in the third round of this year's championship, beaten by Mrs. Carl H. Donner, another New Jersey player, who until this year was practically unknown in the golf world.

Many To Attend Feeding Test On Brunson Ranch Near Midland Fri.

Stock cattle on the L-7 Ranch that have been fed by the Purina method for the past two years will be weighed and checked Friday, announced H. M. Neel. The L-7 is the Billy Brunson Ranch 15 miles southwest of Midland.

A big barbecue will be held Friday on this ranch, to which interested stockmen of Howard and adjoining counties have been invited. The weighing marks the end of a two-year period of testing the effect of Purina feeding. The Purina company is making the same test in Texas that it has made in Missouri; the full length of time will cover five years.

Among those who have notified Mr. Neel that they plan to go to the L-7 Ranch to view this experiment are the following: Tom Good, Bob Evans, L. S. McDowell, Webb Christian, W. F. Cushing, S. M. McKinnon, Bruce Frazier, Jess Slaughter, George White, Lester Brown, J. Johnson, Dr. W. B. Hardy, Otis Chalk, Loran McDowell, J. P. Anderson, W. F. Edwards, Ed Douthitt, Ed Cobb, J. N. Elze, J. W. Middleton.

360 Head Of Kids Received Locally

Three hundred and sixty head of kids have been received by the Howard county relief administration, County Administrator R. H. McNamara said Thursday.

Breeds varying from Angora to ordinary slick-hair goats are represented in the lot.

They will soon be given for meat purposes to relief clients. The hides must be preserved.

At the present time they are penned at the stock yards.

Geologists To Meet In Midland Saturday

MIDLAND—A meeting of the West Texas Geological society has been called Saturday at 8 p. m., October 20, by Gary P. Butcher, president of the society. The meeting will be held in the ballroom of the Schuchauer hotel.

Some problems in the stratigraphy of the Guadalupe mountains will be discussed and plans will be made for a field conference in the Guadalupe in the near future. Other business matters also will be taken up at the meeting.

The general public is invited to attend.

VIGOROUS USE OF STRAP BROKE STUDENT STRIKE

WATERBURY, Conn. (UP)—Should a strike threaten, Mrs. Jennie G. Phillips, sprague grammar school teacher, believes in acting quickly and effectively.

A few of her pupils read in the newspapers of a strike of students in a high school. They planned a walkout, protesting against homework and long hours. Mrs. Phillips came upon the conspirators in the school yard, hauled them into the dressing room and applied the strap vigorously. There was no strike.

Hallowe'en Entertaining

- Spooky Canapes
- Chilled Pineapple Julee
- "Punkin" Croquettes
- Buttered Peas
- Yellow Rolls
- Apple-Oat Jam
- Jack O' Lantern Salad
- Cheese Bars
- Hallowe'en Dessert
- Coffee
- Black Candy Strings
- Yellow Mints

Spooky Canapes

12 small rounds buttered toast, 1/2 cup grated egg yolk, 3 tbsps. chopped parsley, 2 tbsps. salad dressing.

Spread dressing over toast and mark "features" on tops, using yolk and parsley.

The eggs are hard cooked, yolks removed and pressed through sieve or grater to obtain the grated yolk. Leftover egg whites can be sliced and added to white sauce and served for the children's luncheon.

"Punkin" croquettes are chicken croquettes formed into pumpkin shapes, using back of knife to mark the little grooves in the pumpkins. When fried insert little "stems" of parsley. Arrange the croquettes on serving plates, surround with a thick creamy sauce and the cooked peas.

"Yellow Rolls" are regular yeast rolls, using all egg yolks and no whites so that the color will be a decided deep yellow or orange.

Jack O' Lantern Salad

Halves peaches, almonds, mayonnaise, hollow sides.

Peaches, hollow sides. Spread with mayonnaise. Make features using bits of pimientos.

Mediate.

Hallowe'en dessert is made by placing balls of orange sherbet on stars out from thin sheet of baked white cake. Mark features on the sherbet, using bits of sweet chocolate and red candied cherries. Witch's caps can be made of black tissue or crepe paper and quickly fastened on top with pins. Serve immediately.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pop... Vigor... Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes of filtering which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount urine burning and discomfort, 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nephritis, backache, leg pain, loss of sleep and vitality, getting up night, lumbago, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty a little every day and get rid of a pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait till your druggist for DOAN'S KIDNEY PILLS... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

Let your kidneys change with strong drugs or so-called "kidney cures" that claim to do you within 15 minutes, for they may seriously damage your delicate tissues. Based on DOAN'S PILLS... the old reliable remedy that contains no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS from your druggist. © 1934, Foster-McBee Co.

Judith Lane Marian Gordon by JEANNE BOWMAN

CHAPTER 11 CHARMING LON Lon looked at Marian expectantly, but she remained silent. "In," prompted Silver. "Why not let her tell you what she learned when she called the hospital," suggested Hamlin with gentle sarcasm. "In," Silver leaned forward, eyes dilated, one exquisitely formed hand over her heart—"he isn't, don't tell me he's—"

"I should say I could," declared Lon heartily, and turned to Marian. "There's room for the three of us. I'll rig up a place for Hero in the luggage carrier." "Oh, but Mr. Casad," protested Silver, "I don't feel that I could be crowded at a time like this... my nerves are simply shattered. I feel ready to break down. I can stay here and rest. She's worn out; she'll look after the dog, won't you, Ian?"

BELGRADE MOURNS SLAIN KING

Yugoslavia's boy Crown Prince Peter returned home as King Peter II, to be cheered by thousands of his subjects at the capital city, Belgrade, and to find it in mourning in tribute to his slain father, King Alexander. This picture, flown from Belgrade to Vienna, then sent to London by telephone for transmission to the United States by radio shows one of Belgrade's principal business streets with buildings draped with black flags. to a warm, lovely room, of slipping between sheets—then came oblivion. Then there was a bell. She awakened, reached for the instrument. "It is five-thirty, Miss Gordon," explained the operator. "You asked to be called at that time."

"Mr. Hamlin, would you think I was too feminine if I asked where I might buy a dress to wear tonight?" she asked. Hamlin gave her a quick, wise smile. "I'd think you were very feminine and very wise," he returned. "The stores won't be open when we reach Reno. If you'll make a list of what you want, I'll have a professional shopper choose some things and send them up to you on approval."

Unofficial reports told of good response and indicated a suspension of business operations during the game. Sweetwater business firms have in the past closed their doors when games were being played in that city. Game time was set at 8 p. m. and by far the largest crowd of the season was predicted to be on hand for the opening kick-off. Although the Big Spring Steers are quoted as favorites to win over the Sweetwater Mustangs for the first time in four years, neither team is accepting or conceding victory until after the game is over. Sweetwater fans are hallyhooping their team to pull the unexpected and upset the favorite Steers. At the pep rally Thursday evening on the high school grounds, Oble Bristow, coach of the Big Spring team, will make the principal talk. A few business men will also make brief remarks. Unofficial reports told of good response and indicated a suspension of business operations during the game. Sweetwater business firms have in the past closed their doors when games were being played in that city. Game time was set at 8 p. m. and by far the largest crowd of the season was predicted to be on hand for the opening kick-off. Although the Big Spring Steers are quoted as favorites to win over the Sweetwater Mustangs for the first time in four years, neither team is accepting or conceding victory until after the game is over. Sweetwater fans are hallyhooping their team to pull the unexpected and upset the favorite Steers. At the pep rally Thursday evening on the high school grounds, Oble Bristow, coach of the Big Spring team, will make the principal talk. A few business men will also make brief remarks. A huge stack of bones was experiencing a steady growth Thursday afternoon and promised to assume imposing proportions before time for string.

'Girl In Danger' At Ritz Today

Shirley Grey and Ralph Bellamy in 'Girl in Danger' A Columbia Picture 1 col. Scene cut or mat GID-22A

'Girl In Danger,' at the Ritz theatre today only, is the fourth Columbia Police-Detective drama in which Ralph Bellamy will be seen in the leading role, that of Inspector Trent, in charge of criminal investigation of a metropolitan police force. The role of Trent, in the series, has greatly increased the actor's popularity, much as the Philo Vance role performed for William Powell, or the Charlie Chan roles did for Warner Oland. Bellamy, at the start of the series, was chosen for the role because of his powerful physique, his decisive, straight-forward manner, his personality, and his growing popularity. Bellamy was glad to accept, as he found that he had been playing entirely too many "villains," and knew that a switch to heroic parts would keep him from being typed as a bad man from the screen. Bellamy's previous "Inspector Trent" characterizations have been seen in "Before Midnight," "One Is Guilty," and "The Crime of Helen Stanley." The stories, by various authors, were adapted to the screen by Harold Shumate. In "Girl In Danger," Bellamy is supported by a cast that includes Shirley Grey, J. Carrol Nash, Charles Sabin, Vincent Sherman, Arthur Hohl, Ward Bond, Robert Allen, Francis McDonald and E. J. Le Saint.

60 Engines In Month Is Overhaul Record

CHICAGO—Maintenance officials of American Airlines believe they established something of a record recently when a total of sixty aircraft engines were completely overhauled and rebuilt in one month at the company shops here. The work was done in exactly 25 working days for an average of nearly two and a half engines a day. Each engine was completely disassembled and every inch of the more than 3,000 parts tested and subjected to microscopic examination. The engines, ranging in size from 240 to 725 horsepower, are overhauled after 350 to 400 hours of service regardless of how perfectly they may be operating.

Air Defense Plans Announced By Germany

BERLIN, U.P.—Elaborate civilian air defense plans calling for construction of a gas and bomb proof cellar in every Berlin building were announced Thursday by Emil Van Looper, air defense league leader. Superannated buildings will be razed, and subterranean "safety holes" are to be built on main traffic centers.

HIS TEETH ARE PERFECT!
...but how about his eyes?
At the ripe old age of three he was an expert at taking care of his teeth—brushing them carefully morning and night and so on. His Mother takes great pride now in his perfect teeth, as well she might.
But—how about his eyes? The chances are he has been allowed to read, study and play just anywhere he wanted to, without a thought having been given to whether or not the lighting in the room was right for his eyes—it may have been too dim, too bright, glaring or anything else that lighting is apt to be if it is not carefully studied and arranged to suit the user.
Here's a suggestion—before another day goes by, analyze your home lighting and see just what you should do to improve it. Eyes are far more precious than teeth—make sure they are not mistreated by improper lighting.

Variety in Length And Fabric Marks Tunic's Return To Style

By RITA FERRIS (Associated Press Fashion Editor) PARIS, (AP)—Tunics have turned the corner on the road of Oblivion into the spotlight of winter styles.

They are out in all lengths and fabrics ready to give a 1934-35 touch to costumes for every hour. Often they lengthen with the day, being short for morning, medium for afternoon— and longer for night.

Blouse for Morning For morning wear the tunic cut appears in blouses of bright colored wool generally no longer than the hipbones.
