FD Schedules Defense Talk For Oct. 12

'Non-Political' Address Will Be Carried To South America

WASHINGTON, Oct. 3 (AP)—The White House announced today that President Roosevelt would deliver a national defense speech from a special train at Dayton, Ohio, October 12.

Stephen T. Early, White House press secretary, said the president's Dayton address would be "non-political" and would be carried free by three national radio networks. It will start at 8 p. m., central standard time.

The address, Early said, will be a review—a "straight narrative story on the defense program of the United States."

He added that it will be addressed not only to the people of this country but to all the American republics—to the latter by short wave.

Since the speech will be made only four days before the date for registration for military service, October 16, Mr. Roosevelt will discuss the draft and the reasons for it, Early said.

SEES BANKRUPTCY ABOARD WILLKIE TRAIN

Enroute to Pittsburgh, Oct. 3 (AP) Wendell L. Willkie asserted today on a campaign tour through Ohio and Pennsylvania steel centers that if the Roosevelt administration is re-elected "no social security bill will ever be paid because this nation will go bankrupt."

Remember this statement "ten years from now if you make the mistake of re-electing the present administration," he told an audience in Youngstown.

The republican presidential nominee, who charged in Cleveland last night that President Roosevelt's administration was playing "politics-with-preparedness," said in the Youngstown public square that a party trying to divide American citizens betrays the interests of the United States.

"Day after day, week after week, the men holding the highest positions in the new deal party have by insinuation and innuendo sought to divide the people into classes," Willkie said.

EXAMPLE FOR WORLD

SPOKANE, Wash., Oct. 3 (AP) No matter what happens to the world after the European war, Henry A. Wallace says, the United States "has the machinery, the personnel and the skill to build a greater America."

This country could become an example to the world—a practical example of democracy at work, the democratic vice-presidential candidate declared here last night in his closing campaign address to voters of the northwest's wheat and power belt.

James A. Noe Is Indicted

NEW ORLEANS, Oct. 3 (AP)—James A. Noe, democratic national committeeman, former interim governor and political ally of the late Huey P. Long and the present governor Sam H. Jones, was indicted here today by a federal grand jury on charges of income tax evasion.

Named with Noe was Seymour Weiss, hotel man already under federal conviction and numerous indictments, and the Win or Lose Oil company which L. G. Noe and Weiss established at the zenith of Long's political power in Louisiana and which reaped extensive profits in oil production.

The indictment was handed down after a hearing about three hours after Noe had appeared before the grand jury which will hear its predecessors has been almost continuously at work for 14 months investigating the ramifications of the Louisiana "scandal" cases which Noe claimed credit for breaking in June, 1939.

The three defendants were named in four counts alleging evasion of income taxes amounting to \$28,068.69 in 1935, evasion of an excess profits tax of \$4,352.28, illegal presentation of their 1935 income and excess profits tax returns, and conspiracy between Noe, Weiss, the company and the late Lawrence A. Merrigan to defraud the United States.

CONTRACT AWARDED FOR WAR PLANES

WASHINGTON, Oct. 3 (AP)—The war department awarded today a \$14,520,610 contract for war planes which Secretary Stimson said almost completed the army's contracts for more than 18,000 planes of all types.

The contract went to the Douglas Aircraft Company, Inc., Santa Monica, Calif.

ARMY TESTS 'GNAT-TANK'—This tough looking vehicle, known as the "gnat-tank" is undergoing army tests at Baltimore preliminary to a 1000-mile cross-country "torture" grind. The midge armored car, designed to carry three soldiers, a 30 calibre twin-mounted machine gun, and 3000 rounds of ammunition, has an 80-inch wheelbase, seats like granite, over-sized tractor-tread tires and four-wheel drive. Cincy Evens Up Series Count By Winning 5 To 3

Detroit 200 001 000—3 3 1 Cincinnati 022 100 00x—5 9 0

Rowe, Gorsica and Tebbets; Walters and Wilson.

CROSBY FIELD, Cincinnati, Ohio, Oct. 3 (AP)—The Cincinnati Reds evened the world series today, beating the Detroit Tigers 5 to 3 in the second contest behind the masterful three-hit hurling of Buckie Walters. Schoolboy Rowe, the Tiger ace, gave up eight hits and all five Cincinnati runs before going to the showers after three and one-third innings.

The Tigers scored twice in the first inning, after Walters had walked two men, but the National leaguers evened up the count in the second frame when they blasted Rowe for four hits. Two more tallies came in the third, when Ripple slashed a homer, scoring Goodman, who had beat out a bunt. Detroit scored again in the sixth, Gehring coming home on Greenberg's double.

A crowd of some 30,000 was on hand. The weather was perfect, warmer and sunnier than yesterday when the Tigers took the opening tussle, 7 to 2.

The play by innings: First Inning—Bartell and McCosky walked. Gehring's single scored Bartell. Greenberg grounded into a double play, Werber to Joost to F. McCormick, McCosky scoring. York struck out. Two runs, one hit, no errors.

CINCINNATI—Bartell threw out Werber. M. McCormick struck out. Gehring threw out Goodman. No runs, no hits, no errors.

Second Inning—Detroit—Campbell fouled to Werber. Higgins filed to Myers. Tebbets filed to Myers. No runs, no hits, no errors.

CINCINNATI—F. McCormick singled. Ripple popped to Bartell. Wilson singled. F. McCormick taking second. Joost singled, scoring F. McCormick. Myers singled, scoring Wilson. Joost and Myers advanced a base when Tebbets' throw to second shot into center field. Walters filed to McCosky, whose great throw held Joost at third. Werber walked. M. McCormick filed to Bartell. Two runs, four hits, one error.

Third Inning—Detroit—Rowe struck out. Bartell filed to M. McCormick. McCosky lined to M. McCormick. No runs, no hits, no errors.

CINCINNATI—Goodman beat out a bunt. F. McCormick filed to McCosky. Ripple slashed a home run, scoring Goodman. Wilson filed to Bartell. Joost filed to Campbell. Two runs, two hits, no errors.

Fourth Inning—Detroit—Walters threw out Gehring. Greenberg walked. York filed to Myers. Campbell lined to M. McCormick. No runs, no hits, no errors.

CINCINNATI—Myers filed to Campbell. Walters doubled. Werber doubled, scoring Walters. Gorsica no pitch to Detroit. M. McCormick grounded to Higgins, who tagged out Werber. Gehring threw out Goodman. One run, two hits, no errors.

Fifth Inning—Detroit—Higgins doubled. Tebbets lined to Ripple. Walters threw out Gorsica. Werber threw out Bartell. No runs, one hit, no errors.

Chamberlain Severs All Govt. Ties; Britain Returns Savage Air Raids

High Altitude Raiders Hit At London

Anti-Aircraft Barrage Heavy Enough To Stop Traffic

LONDON, Oct. 3 (AP)—Anti-aircraft barrages so heavy as to tie up traffic marked a late afternoon attack on London by unseen German raiders today and some British quarters suggested that the Nazi air offensive may have turned to 'blind' high altitude bombardment.

Anti-aircraft shell fragments fell like hail on the city.

Nazi raiders thrust at the capital through a thick haze in their fourth visit of the day, showering bombs on northwest and southeast sections. Anti-aircraft guns sent up constant streams of exploding steel.

Cabbies who in the past have plied their trade in the worst barges refused to stir this evening either from their outlying stands for trips into the central part of the city or from central stands to the suburbs.

The attacking planes were hidden by the muck, apparently finding London only through use of flying instruments.

Some British sources said that this might mark a new phase of the Luftwaffe offensive—flight above the clouds beyond anti-aircraft range, location of London by instruments of navigation and then a tripping of bomb racks.

It would be impossible with such See AIB RAIDS, Page 5, Column 1

Congress Runs Into Trouble On Port Program

WASHINGTON, Oct. 3 (AP)—A \$1,482,000,000 military appropriations bill, last major defense measure pending before congress, was passed today by the senate.

WASHINGTON, Oct. 3 (AP)—The last big defense appropriations bill of the session was expected to slide through the senate without difficulty today, but disagreement over a preparedness airport construction program put a new stumbling block on the rocky road to a recess for congress.

The house-approved \$1,482,000,000 defense fund measure is to finance the peace-time conscription program and the concurrent expansion of the standing army.

The \$200,000,000 war department civil functions bill, when passed by the house, contained an \$80,000,000 item for the start of work on 4,000 new airports.

The threat of trouble over the civil functions bill arose after elimination of the airport construction provisions already voted by the house.

The appropriations committee cut out this item when it approved the measure yesterday, but Senator Adams (D-Colo.) said he would not be surprised if administration sentiment developed for its return to the bill.

The proposed expenditure—\$50,000,000 in cash and \$50,000,000 in conscription authority—would be made under direction of the Civil Aeronautics Authority.

Asserting that the CAA's proposal to build 4,000 airports was "outrageous," Adams said he would oppose any effort to override the committee's action. He told reporters that the CAA "couldn't build more than 10 per cent of them even if they got this money."

Senator Barkley of Kentucky, the democratic leader, said he had decided to make no further efforts toward obtaining a recess agreement until next week.

Krupp Works Among RAF Objectives

Docks And Port Facilities Of Nazis Are Heavily Bombed

LONDON, Oct. 3 (AP)—Despite thick clouds and poor visibility, British warplanes were officially reported today to have struck smashing overnight blows at German oil plants, munitions factories, railway facilities and other military objectives.

Among the objectives attacked, the air ministry said, was the great Krupp works at Essen—one of Germany's biggest armament plants.

The docks at Hamburg and Wilhelmshaven also were said to have been heavily bombed, as were port facilities and shipping at Amsterdam, Rotterdam, Flushing and Antwerp.

(A dispatch from Amsterdam via Berlin said 17 persons were killed and 20 wounded at Amsterdam in an aerial bombardment which Dutch sources described as the worst since the German invasion May 10.)

(Reports from Berlin disclosed British raiders had given the German capital a one-hour and 12-minute air raid—the fifth in as many nights—but the air ministry communiqué did not mention this.)

The Royal Air Force also was reported to have smashed again at German "invasion bases" along the Channel, striking the often-bombed ports of Ostend, Calais, Cherbourg and Ushant.

Other objectives listed as attacked included oil plants at Struth, Hamburg and Böttrup, a freight yard at Cologne and a railway junction near Hamm. Bombs also were dropped on "several" German airfields, the ministry said.

British losses in the raids were put at two planes. A British coastal command aircraft was credited with destruction of a German bomber which "unsuccessfully" attacked a British convoy yesterday, and another British plane was reported to have shot down a raiding bomber over the sea.

Japan Prepared To Attack Singapore

ROME, Oct. 3 (AP)—Premier Mussolini's newspaper Il Popolo d'Italia said today that Japan is preparing to attack Singapore, Britain's great Far Eastern fortress, in the event that Britain obstructs Japan's policy in the Orient or the United States enters the war.

Mario Appellus, the paper's leading commentator, calling Singapore "the pivot of British positions in East Asia, declared:

"Japan is seeking to place itself in the best possible position strategically against Singapore in anticipation of being forced by English hostility or the intervention of new allies of England to attack and throw down the pillar of Singapore."

Need Help For Registration

Although the response has been good to date, County Clerk Lee Porter renewed his appeal Thursday for volunteers to aid in the registration program on Oct. 16 under the selective service act.

Approximately 40 persons have offered their services on that day, said Porter, who estimated that to do the job well it would require at least three times that number.

The minimum number of helpers, if they worked the entire 14 hours on registration day, would be around 75 for the county. Porter was hopeful that there would be enough offer to assist as registration clerks to permit much shorter shifts, thus expediting the work.

Under regulations announced by Governor W. Lee O'Daniel, only men under 21 and over 25, and women will be permitted to offer their services in the registration. Those who will should notify Porter at the courthouse or call 1410.

Slightly more than 3,000 Howard county men are due to be listed in the registration of males from 21 to 35 years of age as a basis for selective service training instituted as a part of the defense program.

Army To Rule City Submits New Project

BUENOS AIRES, Argentina, Oct. 3 (AP)—Col. Ramon Parades, the rising power behind a military dictatorship reported in formation in Paraguay, has served notice the army intends to play the main role in the political life of that country.

Parades, minister of interior and labor in a new military cabinet chosen by President Morinigo after withdrawal of liberal party members, heads the army faction said to be supporting Morinigo in maneuvering to give the army a monopoly control.

A broadcast to the nation yesterday by Parades was printed this morning by the Buenos Aires newspaper La Nacion which quoted the colonel as warning "professional politicians" they would feel the army's might and pledging Paraguayan soldiers to continue work mapped by the late Marshal Jose Felix Estigarribia, whose presidential career was cut short by death in a plane crash Sept. 6.

(Paraguay is a nation of some what less than a million population. Her regular military establishment numbers about 100 officers and 2,800 men.)

Alrplanes travelers arriving at Buenos Aires from Asuncion, the capital, report that provincial President Morinigo is the "front" for the budding military dictatorship.

FALLS OFF LADDER TO HIS DEATH

LEWISTOWN, Pa., Oct. 3 (AP)—Joseph De Lallo, assistant chief of the Undine fire department at Bellefonte, Pa., toppled to his death today from atop a 65 foot ladder during drill maneuvers at the 61st annual convention of the Pennsylvania State Firemen's association.

FIRST PARACHUTE BATTALION FORMED

WASHINGTON, Oct. 3 (AP)—Formation of the army's first parachute battalion with a strength of approximately 500 volunteer soldiers was announced today by Secretary Stimson.

The new unit, designated the 501st parachute battalion, is being formed with nucleus of an experimental group which has been undergoing training for several weeks in the lessons suggested by Germany's success with the new weapon.

Headquarters will be at Fort Benning, Ga., where the test battalion already is in service.

Draft Lottery To Be Between Oct. 21 And 26

WASHINGTON, Oct. 3 (AP)—The draft lottery to determine the order for calling conscripts into military service, officials said today, will be held here sometime between October 21 and 26.

The exact date will depend on the time required for local draft boards to report through their state headquarters to Washington on the results of registration October 16.

Major Ben Howell, director of the manpower division of the army navy selective service committee, explained that after the drawing at least another five days would be required to print and distribute the "master list" of serial numbers.

The place at which a registered man's serial number appears on this list will determine the order in which the local boards will send him a questionnaire for information on his eligibility for service and also the order in which, if he is eligible, he will be called up for a year's military service.

Thus with registration on October 16 it will be the end of this month or early November before the questionnaires are mailed.

Disclosing all this at a press conference, Major Howell also issued several "reminders" to persons subject to the draft.

When a man registers, the officer said, he should use "utmost care" in giving his correct address. Failure to receive mailed draft orders will not be an excuse for not complying with the orders, he declared.

National guardsmen who resign when their units are called for service, he said, become subject to registration and conscription, just as other citizens, if they are within the 21-35 age limit. The law permits guardsmen to resign who are below the rank of captain and have dependents.

To Bolster Atlantic Naval Force

WASHINGTON, Oct. 3 (AP)—The navy gave emphasis to its two-ocean policy today with preparations for putting its Atlantic forces on a more formidable footing, and the announcement that the commander-in-chief of the main fleet was coming here from Hawaii for conferences "on the general situation in the Pacific."

Secretary of Navy Knox contributed to the interest in the coming visit of Admiral James O. Richardson when he told a press conference yesterday he thought a suggestion for a naval good will cruise to Australia and New Zealand was a "good idea" although there had been no decision "Plans for establishment of a newly organized force" in the Atlantic were disclosed late yesterday by the navy department. Germans Use Synthetic Clothes, Processed From Coal And Lime

By ERNEST G. FISCHER BERLIN — (Correspondence of the Associated Press)—From coal, magic mineral in the hands of German chemists, has come synthetic clothing.

In addition to brushing his teeth and running his truck on coal products, the German laborer now can wear work clothes made of coal and lime.

And he can go fishing with a net or line of the same material. One factory for the manufacture of such fiber has been established, it was revealed by the German dye trust—or I. G. Farben.

Processes and machines are being perfected in this plant with a view to mass production. Popularly referred to as "peluran fiber," the new material is listed by the dye trust as P-6c fiber.

Advantages claimed for it are that it does not require cleaning and sterilization preliminary to manufacture, that it is acid and heat resistant, that it does not absorb water and that it surpasses natural silk in elasticity.

The fiber is heat resistant to at least 200 degrees centigrade, according to representatives of the dye trust. That means clothes made of this material can be cooked like any other in the laundry. Its acid resistance makes it desirable for work clothes in chemical plants and for filtering cloths in the chemical industry.

### Oil Industry Keeps Eye On Gas Stocks

AUSTIN, Oct. 3. (AP)—The heavy consumption period for gasoline at an end, the oil industry today watched production increases in Texas with a critical eye.

Gasoline stocks over the nation were reported at 80,000,000 barrels, some 15,000,000 in excess of what economists believed necessary, especially in the face of curtailed foreign markets. Some thought, however, the accumulation was not too great in view of possible emergency defense needs.

With apparently no scaling down of allowable production in sight, the Texas railroad commission continued to grant increases to field operators who furnished proof of firm and in many instances selective markets.

Commission engineers reported actual statewide production currently at approximately 1,342,400 barrels daily, more than 37,000 in excess of the U. S. Bureau of Mines estimate of October market demand from Texas.

The state still was operating under a 90-day order expiring Nov. 30 which started with production at about 1,260,100 barrels daily and reflected an increase of more than 78,000 to date.

State Senator Clint Small of Amarillo, attorney for the Independent Equity Producers Association who was unsuccessful in obtaining a statewide proration hearing to re-examine field allowances, recently warned that unless the commission considered equality of production among fields as well as wells, federal control of the industry would be given impetus.

Some quarters claimed the climbing permissive production threatened stability of the industry but members of the commission gave no recognition to such beliefs.

### GET THEM TO BORROW YOUR HOUSE, PAL!

KANSAS CITY (AP)—A fellow who was going to be out of town for a couple of days left his car at a friend's house.

The friend's wife borrowed it to go to a movie. Coming out, she discovered a crumpled fender. She rushed the car to a garage.

"Well! Well! Well!" said the friend when he returned. "Who fixed that smashed fender?"

### PHONE IS QUICK; WIRELESS' QUICKER

HENRYETTA, Okla. (AP)—Roy Self, furniture store employe, saw that a divan was burning. He stuck his head out of the window and yelled. His employer, Wayne Champion, phoned the fire department.

Before Champion could get his connection the fire department was there, responding to Self's yell. The fire house is right across the street.

### Freak Lizard's 2 Heads At Both Ends Of Body

EAU CLAIRE, Wis. (UP)—Found a creature that didn't know whether it was coming or going! At least it may be assumed that the lizard killed by Mrs. Alva Pettis, Fairchild, was a victim of that kind of confusion. The creature, according to Mrs. Pettis, was equipped with two heads, one at each end of its four-inch body.

In trying to escape, the lizard reversed its direction without troubling to turn around, Mrs. Pettis noted.

### English Factory Girls To Go Stockingless

CHAPEL-EN-LE-FRITH, Derbyshire, Eng. (UP)—A deputation of 200 factory girls from a factory in Chapel-en-le-Frith has persuaded the management to lift its ban on stockingless legs.

They want to put \$5,000 a year into National Savings by going barelegged.

When they were asked to start a savings group, 25-year-old Gladys Thompson called the girls together and put up the no-stockings plan.

Malden, Surrey, one of London's growing dormitories, is called itself No. 1 Savings Group Area of Greater London.

### Mayo Brothers Memorial Sponsored By Minnesota

ST. PAUL, Minn. (UP)—Plans for construction of a \$250,000 memorial to the late Drs. William J. and Charles J. Mayo, founders of the famous Mayo clinic at Rochester, Minn., were revealed when Gov. Harold E. Stassen named 17 members of a commission to arrange for the memorial.

Funds for its construction will be solicited through subscription

throughout the world, State Sen. William E. Richardson, honorary chairman, said.

Richardson said the proposed memorial would be a building for medical research or a medical library. Creation of a scholarship foundation for medical students was proposed as an alternative plan.

# Over 100 Candidates Out For 35 Senate Seats In Nov. Test

WASHINGTON, Oct. 8 (AP)—More than a hundred candidates, including two governors, three former governors, and four congressmen, have been selected to run for the 35 senate seats to be filled in the November 5 elections.

Utah's run-off republican primary on Tuesday, won by Philo T. Farnsworth, Jr., completed the slate of major party senatorial nominees who will be on the ballot in 34 states.

Vermont picks two senators this year, one for a short, unexpired term, Ralph O. Brewster, a republican, Sept. 9, making 36 senators being elected for terms beginning next January.

For the 35 places being voted on next month, the democrats have named 34 candidates. Senator Hiram Johnson, veteran California republican, won the other democratic nomination, as well as the republican and progressive.

Republicans have chosen 33 senate candidates, leaving uncontested the seats of Senators Byrd (D-Va) and Andrews (D-Ill.).

The communist party has placed senatorial candidates on the ballot in Connecticut, Kentucky, Massachusetts, Missouri, New Jersey, Pennsylvania, Texas and Virginia. It was ruled off the ballot in several states.

Socialists so far have candidates for seven senate seats; socialist-labor and prohibition parties four each; farmer-labor, independent, progressive (LaFollette), labor, socialist-workers, constitutional, independent, squares deal, and industrial government one each.

Candidates wearing more than one party label, besides Senator Johnson, are Senators Maloney (D-Conn.), also union party, and Mead (D-NY), also American-labor.

Twenty-seven incumbent senators, including 19 democrats, 6 republicans, 1 progressive and 1 farmer-labor (Shipstead, Minn., a republican), have won re-nomination.

Four sitting democrats—Burke, Neb.; Holt, W. Va.; King, Utah, and A. J. A. Ariz.—and one re-

publican—Frazier, N. D.—were defeated for re-nomination. Three others—Donahoe (D-Ohio); Schwelbacht (D-Wash.); and Givson (R-Vt.)—are not running next month. Hale, a Maine republican, also retired voluntarily.

The governors trying for the seats are Roy L. Cochran (D-Neb) and George D. Aiken (R-Vt.). Former governors are Harry W. Nice (R-Md); Elmer A. Benson (F-I-Minn); and William Langer (R-ND).

Representatives Bruce Barton (R-NY); Abs Murdock (D-Utah); Conrad C. Wallgren (D-Wash); and William Lemke, North Dakota republican running as an independent, also are senatorial nominees.

## FULL EMPLOYMENT OF ABLE BODIED SEEN NEXT YEAR

CHICAGO, Oct. 8 (AP)—All persons able and willing to work will be employed by the middle of next year, says Paul V. McNutt, federal security administrator.

McNutt spoke last night at a banquet signaling the formal start of President Roosevelt's campaign in Chicago.

He said that "legitimate business" has increased "to a point close to the prosperity of the boom years" and that industrial activity reached near capacity in 1939 and 1940.

"Under the present program all unemployed employables will be absorbed by the middle of next year," he predicted.

## Alaska's Smoke Columns Are Disappearing, Lake Is Formed

ANCHORAGE, Alaska, Oct. 8 (AP)—Alaska is running out of smoke. Two government investigators returned from an inspection trip to the Valley of Ten Thousand Smokes to report there are only five smokes left.

The investigators, Frank T. Been, superintendent of McKinley park, and Victor H. Culbane, national park service wild-life superintendent, also discovered that a beautiful lake, similar to Crater Lake, Ore., had been formed in the crater of Mount Katmai, on the Alaskan peninsula.

It was Mount Katmai that started all the fuss June 6, 1912, when it erupted and showered an ash blanket a foot deep even on Kodiak

Island, 100 miles away. The eruption set loose not only 10,000 smokes, but countless jets of steam from vents in the valley floor ranging from tiny cracks to craters 150 feet in diameter.

In September, 1913, President Wilson set aside more than a million acres as the National National monument.

"The valley is still spectacular," Been reported. "There is every justification for continuing it as a national monument despite the disappearance of most of the famous fumaroles."

(The dictionary calls a fumarole a "small hole from which volcanic vapors issue.")

## PITCHER NEWSOM'S FATHER SUCCEUMBS AFTER SEEING GAME

CINCINNATI, Oct. 8 (AP)—Henry Q. B. Newsom, 63, of Hartsville, S. C., father of Louis "Buck" Newsom, died in his hotel room today less than 12 hours after watching his son pitch the Detroit Tigers to their first world series victory over the Cincinnati Reds.

Newsom said death was the result of a heart ailment from which his father had suffered for several months.

"It was only the second time he had seen me pitch," the son said, adding, "I didn't think he'd make it from home."

As far back as the third millennium B. C., equinoxes and solstices were determined in China by the stars.

## EX-CITY MANAGER AT DENTON DIES

DALLAS, Oct. 8 (AP)—Funeral services for William Lee Foreman, 65, who died here Tuesday, will be held this afternoon.

A native of Saint Jo, Montague county, he spent his early life in Denton county where he became a druggist. For many years he was city manager of Denton and later went into the insurance business. He came here in 1910.

The body will be taken to Denton for burial.

## Goats Used For Harvest Like In 16th Century

LAS TRAMPAS, N. M. (UP)—Giant combines and gleaming new bladders harvest wheat in most of 20th century America but in the remote mountains of New Mexico—where the mail comes by

buggy three times a week—the Spanish-Americans still use herds of goats instead of machines for the harvest.

It's an old custom handed down when Spanish conquistadores rode through what now is the great Southwest of the United States. As far as Juan and Pedro and the other "little people" of the New Mexico mountains are concerned it's still good enough.

On hard-packed ground the herd of threshing goats is driven around and around. The wheat is under their sharp hooves and in moments the grain has been trampled into the dust, leaving only straw.

The primitive farmers shovel up the chaff and wheat, and dirt and throw it into the air to clean it.

## Aunt Abby says

Never take a box of chocolates to a sad movie. You're apt to come out as streaked as marble cake.

Just when I'm brewin' a pot of LIPTON'S TEA, folks start "happenin'" in. Well, guess I'd "happen" out o' my way, too, for a tea with such an enticin' smell and surpassin' flavor!

Some folks admit they're superstitious. And some are perfectly willin' to walk under a ladder—with their fingers crossed.

Cousin Jennie won't let go a nickel without squeezin' it first. But you'll never find her stinin' herself on tea. She figures it this way—that even as fine a tea as LIPTON'S costs less than anything you kin drink—cept water!

## Minneapolis Votes Down Spooners' Parking Tax

MINNEAPOLIS, Minn. (UP)—Romance should not be taxed, city officials decided after considering a plan for placing parking meters along boulevards and lake parkways frequented by automobile spooners.

Alderman H. P. Burgum forwarded the plan as a means of gaining needed revenue for the park board's budget.

He and other aldermen abandoned the love-on-a-dime proposal, however after Park Superintendent C. A. Bossen argued: "We have to encourage romance, not make it an expensive luxury."

## The Effects Of Liquor Cannot Be Repealed

The question of allowing women to serve as barmaids and hostesses is one which is bobbing up in every land where liquor is licensed. In Scotland the employment of barmaids has always been regarded with much public disapproval, says the Scottish Temperance Reform-er.

As far back as 1900 the Glasgow Licensing Court passed a recommendation to the effect that license holders should not employ women to serve behind the bar. This has had the effect of a prohibition even in Edinburgh and Aberdeen, but now the Licensed Trade Defence association of Glasgow is asking that the ban be withdrawn. The plea is based on a shortage of man power, but the latest figures for unemployment in Glasgow show that there are 25,584 men and only 17,245 women unemployed.

The real reason why women are desired is that they will work for less pay and they are more attractive. In fact only the attractive girls are in demand for positions of this kind in any part of the world.

Probably few other positions available for women are fraught with more moral and physical danger than that of barmaid or hostess. In the taverns and liquor dispensaries of any sort girls are, necessarily, subject to contact with undesirable characters and with those whose senses have been dulled through the use of alcohol. The girls themselves, become more familiar with the lewd practices and vulgarity of drunks, and they grow morally careless, especially if they use alcohol.—(Submitted by and published at the request of the local WORK.)

# DOWNTOWN STROLLER

Mr. and Mrs. Nat Hick and their daughter, Lillian, have the closest family group that we know about and usually go places together. They always seem to have so much to talk about and laugh about and they always have fun together.

Mrs. Bert Reed is one of those happy people who can always see the funny side to everything and you can hear her giggle wherever she is. And no matter whether you know what's funny or not, her giggle is so infectious that people always smile with her.

Mrs. M. E. Bailey is probably one of the best informed persons in town about the war and the foreign situation. She listens to broadcasts, reads the newspapers and magazines and it is really an education to hear her talk about the fighting situation.

June Sheppard, a new importation from Fort Worth, is one of the prettiest in town these days. She has dark hair and eyes and a flawless complexion and her name just exactly suits her personality.

Mr. and Mrs. L. L. Spears, (he is the new manager of the Settles hotel), haven't been here but a few days but they both seem so likeable and interested in all they see that we believe they will be Big Springsers in no time at all.

Miss Nell Hatch just bubbles over with enthusiasm for living we believe and always has a funny story to pass along. We don't pay a light bill but believe it would be no trouble at all to shell out if we got to talk to her first.

## Room Mothers Name Mrs. T. Slaughter As Chairman

Room Mothers of Central Ward P-T. A. met Wednesday at the school to organize and choose Mrs. Tom Slaughter general chairman of the mothers.

Other room chairmen are Mrs. L. Z. Marchbanks, Mrs. Larson Lloyd, Mrs. Edmund Notestine, Mrs. Pascal Buckner, Mrs. H. E. Mobley, Mrs. E. C. Howard, Mrs. Slaughter, Mrs. Pat Blalock, Mrs. E. E. Jones, Mrs. W. B. Hardy.

Four parties were planned for the year and include a Halloween, Christmas, Easter egg hunt, and a picnic at the end of school with the children furnishing the baskets.

Membership drive was begun and a drive to get the Texas P-T. magazine was discussed.

Others present were Mrs. Ches O'Brien, Mrs. Van Loom, Mrs. Ayer Nichols, Mrs. C. E. Lancaster, Mrs. Harold Parks, Mrs. Harold Lytle, Mrs. Coleman Fennington, Mrs. F. M. Arrington, Mrs. C. H. Milburn, Mrs. W. M. Wood, Mrs. H. E. Howie.

## Pull the Trigger on Lazy Bowels

With herb laxative, combined with syrup peppin to make it agreeable and easy to take.

When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative Senna to pull the trigger on those lazy bowels, combined with good old Syrup Peppin to make your laxative more agreeable and easier to take. For years many Doctors have used peppin compounds, as agreeable carrier to make other medicines more palatable when your "taster" feels utterly upset. So be sure your laxative contains Syrup Peppin.

Caldwell's Laxative Senna, combined with Syrup Peppin. See how wonderfully its herb Laxative Senna wakes up lazy nerves and muscles in your intestines, and bring welcome relief from constipation. And see how its Syrup Peppin makes Dr. Caldwell's medicine so smooth and agreeable to a touchy gullet. Even the luckiest children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative Senna at your drug store today. Try one laxative that won't bring on violent distaste, even when you take it after a full meal.

## Miss Laneous Notes

By MARY WHEALY

We are always wishing to be something we aren't and when we try to extract glasses of fruit juice from the beds of ice they are surrounded with, we fretfully wish we were at least an engineer. We figure it is a scientific problem to know how to get the glass back in the bowl and maybe an engineer could figure out the problem.

Of course, drinking the liquid through a straw would solve the problem but who remembers to carry straws? And the restaurants never remember to serve them.

We can remove the glass from the ice and sip daintily but when we try to put it back, ice files right and left, the glass tips dangerously and we usually end up holding it until the waitress finally takes glass, ice and bowl away from us.

We have experimented with various methods, such as meshing up on the ice and sliding the glass in, but one piece always manages to get dislodged and sits under the glass.

There must be ways and means of combatting this and we watch other people in the hope that their secret can be discovered but so far, no good.

If the party is formal, we order something else if we can in order to keep the chunks of ice from flying in our hostess' lap but when we get caught short with a glass of juice walked in by ice, we just remove it carefully and then hold onto it until somebody rescues us.

If some great mind would figure out this table feat it would have to be an engineer and we ain't no engineer.

technique to pick out objectives within the city. After the air raid warning had been on more than an hour the mounting intensity of the barrage had turned the London haze to a glowing red. Droning motors could be heard above the roar of the guns.

Aside from attacks on London, points in the Thames valley, Essex, Kent and Cornwall, the daylight raiders struck at the industrial midlands, where a city and a small town suffered "a number of casualties, including a few fatal injuries," according to a late afternoon communique of the air and home security ministries.

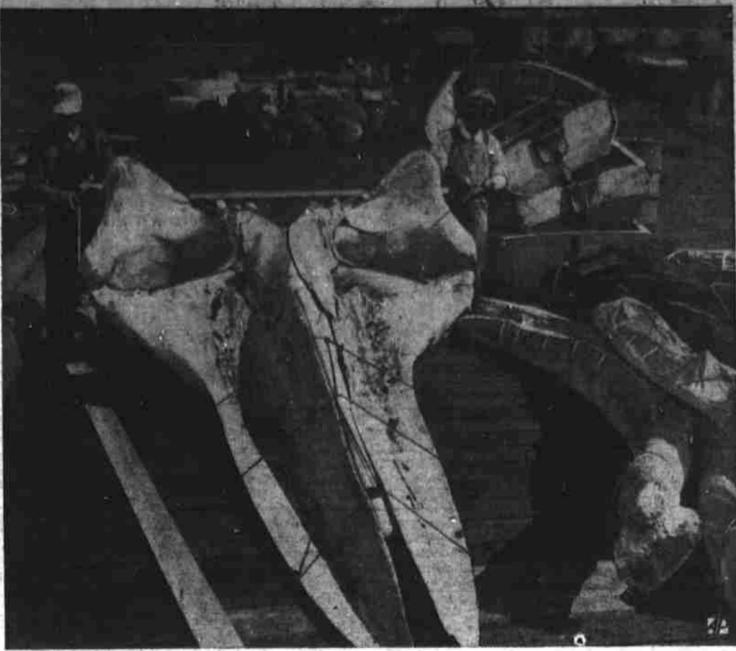

A "number" of persons were killed or seriously injured by bombing and machine-gunning of a town in the home counties—the London area—and a train was machine-gunned with a few slight casualties, the communique said.

The ministries described the attacks on London as the operations of single planes and said that several houses in "a number of London boroughs" were demolished by bombs "dropped at random." The communique said the London casualties were not expected to be heavy.

Roof-top spotters sought cover. The typically English murk made it impossible to see the planes or gauge the direction of the "archies" fire.

One raider dropped his entire load of bombs in a southern district. Firing by directional finders, the anti-aircraft gunners threw up a heavy barrage. The plane was heard droning off in the distance.

Three girls were killed in a southeastern section of the city by a bomb that blasted a laundry. Four others were injured seriously. A train which pulled out of the Euston station, northwest of the

In the Associated Press building the drumfire sounded like the "creeping" barrage of the World War.

There was a frequent "ping!" on the roof, to tell that bits of shells were splintering down.

It was by far the heaviest day time action in the past month.

### ALIEN REGISTRATION IN TEXAS 25,000

WASHINGTON, Oct. 3 (AP)—The justice department, reporting on the progress of alien registration in Texas, said 24,866 aliens have been registered in cities of 10,000 population or more in the state.

Including aliens in cities and communities of less than 10,000 population the total reported registered up to Sept. 27 was 39,884. Registration of all aliens is required under recent legislation enacted by congress.

### Here 'n' There

Big Spring loses a prominent and popular family this month, when the Robert F. Schermerhorns move to Dallas to make their home. Bob, an oil operator, has been a leader in civic activities, having served as city commissioner, president of the chamber of commerce and director of the Kiwanis club. He has been a leader in country club activities and a guiding hand in developing civilian aviation interest. His contributions to worthwhile causes have been many and generous. The Schermerhorns, planning to leave here the 14th, have sold their Hillside Drive home to the Obie Brantons who in turn have sold their Dallas street home to the Bill Tate. Meanwhile, the Schermerhorns aren't hinting they might some day return to Big Spring to make their home. Their many friends hope they will.

"We'll have a fire this afternoon," firemen predicted Wednesday morning. They always get a fire alarm during the World Series opener. True to form, the alarm came in at 2 p. m. for a minor blaze between Runnels and Johnson in the 2000 block. Shortly after 9 p. m. they had another run to 200 Scurry.

Workers are digging a mighty big hole right in the middle of one of the H. H. Wilkinson pastures. When complete, it is to be a cistern for stock water and will hold an estimated 720 barrels of water. It is located in the center of a low place where water usually collects. The depth will be around 20 feet. It has a bricked in top seven feet deep and a diameter of about 20 feet.

### 2 New Mattress Centers Opened

With approximately 150 mattresses manufactured to date, two new centers were set up at Garner and Gay Hill schools Thursday as one was closed here.

The Coahoma center was moved to Garner earlier in the week after 41 mattresses had been made. Thursday the Big Spring center was transferred to Gay Hill following the production of little more than 100 mattresses.

There still remains about 70 mattresses to be made for low income farm families before the current program is complete. Home demonstration women have been serving as supervisors for the work, which is supposed to be done by members of the family receiving the mattress.

### PLEAD GUILTY TO HUNTING VIOLATIONS

Three pleas of guilty have been entered in justice court this week on violations of the hunting laws. They were H. H. Dennis, no license; T. N. Hopkins, no plug; and Robert Ashbury, shooting after dark. All paid \$21 fines assessed by Justice of Peace John C. Raliff. Complaints were filed by Pat W. Close, deputy district game warden.

Dr. W. R. White, president of Hardin-Simmons university at Abilene, will be the principal speaker at the next meeting of the First Baptist Brotherhood on Oct. 1.

He accepted an invitation extended Wednesday by Dr. C. E. Lancaster, pastor of the church, to address the men on the theme of opportunities in church leadership.

J. H. Greene, who will be presiding over the meeting his last time as president, said that the affair will be "ladies night" and that wives of members and other women who occupy places of leadership in the church would be guests on the occasion.

It will mark Dr. White's first appearance here since he assumed the presidency of Hardin-Simmons this summer.

### A.A.U.W. Gives Gift To British Chapter For Aid

The War Relief committee of the American Association of University Women has given a gift of a thousand pounds (\$4050) to the British Federation of University Women and of \$2000 to the Finnish Federation of University Women to be used in helping care for university women refugees.

In a cable to bomb-shaken England, a specific request was made by Dr. Margaret S. Morris, president of A.A.U.W., that the money be used without delay for its humanitarian purpose.

The money was sent from a special war relief fund which already has almost reached the \$10,000 mark in voluntary contributions from 150 local branches and 10 state divisions of the A.A.U.W. Mrs. W. W. McCormick is local chairman of British refugee work.

### Boxes Sent To Homes By W. M. U. In Forsan

FORSAN, Oct. 3 (Sp)—A state mission program was given at the W. M. U. meeting Monday at the church and a box was sent to Buckner's orphan home.

On the program were Mrs. Virgil Simmons, Mrs. E. J. Grant, Mrs. Alfred Thieme, Mrs. Chambers, Mrs. Hicks, Mrs. Trech, Mrs. E. N. Baker and Mrs. I. O. Shaw.

A box of clothing was also sent to the Mexican mission at Big Spring. New officers were elected and include Mrs. E. J. Grant, president; Jewel White, vice president; Mrs. H. A. Hobbs, secretary-treasurer.

The next meeting will be Monday at 2:30 o'clock.

### RUMOR ITALIANS HAVE OCCUPIED BRITISH BASE

ROME, Oct. 3 (AP)—Rumors that the Italians had occupied Matruh, British advance base 90 miles east of Sidi Barrani on the road to Alexandria, Egypt, were current in Italian circles today.

Radio listeners said they had heard a British broadcast which said England's troops had withdrawn from the city.

Marshal Rodolfo Graziani, commander in chief of Italian forces in Egypt, took Sidi Barrani Sept. 17. The Italian high command has been silent on his army's operations since it was reported Sept. 28 that it was carrying out scouting actions.

### Highway Group To Meet Friday

A meeting of the chamber of commerce highway committee members and other interested citizens has been called for Friday morning for a discussion of local highway matters, particularly the city's interest in the U. S. Highway 80 Association of West Texas. A breakfast session is scheduled for 7:30 a. m. at the Crawford hotel, at the call of Chairman Grover Dunham. To be discussed are means of countering declining business on the east-west transcontinental route through Big Spring, and methods of cooperating with the new regional association organized to seek improvements on Highway 80 and to encourage more business for the traffic artery.

### Daughter Born To Lindberghs

NEW YORK, Oct. 3 (AP)—Mrs. Charles A. Lindbergh gave birth yesterday to her fourth child—a 7 1-2 pound daughter—a day before her third book, "The Wave of the Future," was published. Mother and daughter are reported doing well at Doctors hospital. Mrs. Lindbergh was visited yesterday afternoon by her aviator husband and later by her mother, Mrs. Dwight W. Morrow. Mrs. Lindbergh's sons, Jon Morrow and Land Morrow, were born in 1932 and 1937. The first child, Charles, Jr., was kidnapped from the Lindbergh home March 1, 1933, and later found dead. Bruno Richard Hauptmann was convicted of the slaying and died in the electric chair at Trenton.

Jerry Near End Of His Tether, Says H. G. Wells

NEW YORK, Oct. 3. (AP)—H. G. Wells, British author, arrived today on the liner Scythia and said, "I think Jerry (Naz Germany) is getting near the end of his tether."
Some of the planes recently shot down in England were newly completed, he said; one of the pilots young and inexperienced, and "one machine gunner we got had never been up in a plane before."
Wells said he did not believe America should enter the war. "If you came into the war with your party politics, it would interfere with final settlement," he declared.
The Scythia, with 808 passengers, 90 of them children coming under arrangement by the U. S. committee for the care of European children, was the first of three British liners scheduled to arrive during the day with a total of 1,725 refugees. The Samaria, with 814 passengers, and the Western Prince, with 101, neared New York Harbor.

ELKS WILL MEET THIS EVENING

ONCE SOLD POUND OF TEA FOR \$190

When Sir Thomas Lipton entered the tea trade he immediately incurred the opposition of the tea brokers in London's famous Mincing Lane. He ran his own plantations and sold direct to the consumer at a very low price, eliminating the brokers entirely. In retaliation the brokers tried to be little Sir Thomas' "cheap tea" by offering fancy, extra fine packages of ten at prices as high as \$35 and \$50 a pound. Sir Thomas knew that the tea grown on his Ceylon estates was as fine as could be grown so he called his manager to send him a pound of his very best gold-tipped tea. When it arrived it was put up at auction in Mincing Lane and sold for \$190—an all-time record price for a pound of tea.

NEARBY SYMPATHIZERS WORK IN DEFENSE INDUSTRIES
NEWARK, N. J., Oct. 3. (AP)—Permitting aliens with allegiance to other nations to work in vital defense industries is "blindly idealistic and even foolish," in the opinion of Rep. Joe Starnes (D-Atla.), chairman of a Dies subcommittee investigating subversive activities along the Atlantic seaboard.
Starnes made the observation yesterday at conclusion of two days of public and private hearings after announcing that questioning of visitors to the German American Bund's Camp Nordland had disclosed hundreds of Nazi sympathizers employed in munitions, shipbuilding and other national defense industries.
Starnes declared an "abundance of testimony" showed that the Bund was an "agency of a foreign power whose sympathies and allegiance are to another government and its policies. x x x There is no place in American life for such an organization."

### Average, Normal Man Is The Type Wanted In The U. S. Army Air Corps

(Editor's note: This is the fourth of a series of articles on "Health for the New Army.")

By STEPHEN J. McDONOUGH  
Associated Press Science Writer

WASHINGTON, Oct. 3 (AP)—Flying genius, stunt pilot, cocky young-guns with only a few hours of solo work and youths who merely have an itch to fly are being eliminated in the preparation program of the army air corps.

The 200 air corps flight surgeons, a number, which will be increased to more than 1,000 within a year, are giving applicants for training the most intensive examinations possible.

"But we are looking for the average normal man and not the flying genius, or acrobatic pilot," said Col. D. V. N. Grant of the air corps. Men chosen for training must be between the ages of 18 and 30; be in excellent physical condition with good eyesight and normal reflexes; be mentally stable; able to get along well with fellow students, and not develop the jittery Army and navy flight surgeons upon the toughest of men. Added

to all these is the strain on the blood system of dives, pullouts, sharp turns and loops which drain blood away from the brain.

"The human element in flying is relatively the weakest link," Major Armstrong declared.

The trend of transport aviation at present is toward the stratosphere, 30,000 feet or more above the earth, with planes having sealed cabins and an artificial oxygen supply. However, in military planes produced in large numbers for the war emergency it may not be possible to equip them with such cabins.

As a substitute Dr. Walter M. Boothby, Dr. W. R. Lovelace and Dr. A. E. Bulbulian of the Mayo Clinic, Rochester, Minn., have developed in cooperation with Major Armstrong a new oxygen mask which fits over the nose and mouth, contains a radio microphone, and leaves the eyes clear.

Colonel Grant said that at present approximately 65 per cent of all men chosen for training graduate as pilots.

Under more rigorous tests with the increased personnel of 700 additional flight surgeons drawn from civilian life it is estimated that 85 per cent of the picked candidates will qualify for flying duty.

### ENGLAND UNSHAKEN, SAYS BRITISH WOMAN

PHILADELPHIA, Oct. 2 (AP)—"Come over and see our new bomb crater" is becoming the fashionable English invitation to tea, says Lady Bettine Abingdon, of Refugees of England, Inc.

Speaking to a group of women, Lady Abingdon, now working in the association's New York office, said she was confident of a British victory.

"Hitler is shocked to find he hasn't shaken England at all," she said.

### Only .38 Inch Rainfall Here In September

Rainfall was all but negligible during September, when but .38 inch was received at the local airport, according to the monthly meteorological summary issued by the U. S. department of commerce weather bureau.

Precipitation was recorded on three days, Sept. 2, 3, and 21.

Temperatures during the month covered the wide range of 53 degrees, from a top of 85 on the 14th to a low of 45 on the 26th. Mean temperature for the month was 74.8 degrees, with the mean maximum 86.4 and the mean minimum 63.2. There were 16 clear days during September, 11 partly cloudy, three recorded as cloudy.

### Three Families Have Holdings To Influence 15 Large Corporations

WASHINGTON, Oct. 3 (AP)—The non-financial corporations in the nation.

Foreign investors also have a considerable stake in the same 300 corporations, it was stated in the report which was released yesterday by Senator O'Mahoney, (D-Wyo), chairman of the monopoly committee.

At the end of 1937, the foreign investors' common stock holdings in the firms amounted to \$1,500,000,000 and their preferred stock \$200,000,000, he said.

O'Mahoney said 13 family groups were shown to have holdings worth \$2,700,000,000, representing 3 per cent of the stock of the corporations.

The SEC study was one of a number undertaken by government agencies participating in the monopoly investigation. With others designed to show the extent of concentration of wealth, it may or may not be approved by the committee and used as a basis for legislative recommendations.

### Food Supervisor At State Fair Gives Judging Points Of Contest

Pictured here is Mrs. L. R. Evans, supervisor of the double prize culinary contests at the State Fair to be held in Dallas, October 5-20. Mrs. Evans, whose father was Colonel J. B. Simpson, first president of the State Fair, has herself, been with the fair association for 27 years.

An unusual amount of interest is being manifested in the culinary contests this year due to the 360 cash prizes to be offered by the fair, duplicated by 360 grocery or sizes. Jelly should be firm so that it will hold up nicely when turned out, yet will quiver in proverbial fashion. It should be clear and have a light color that will reflect light. The natural flavor of the juice should be retained.

Entries in preserves, canned fruits, vegetables and pickles must all be in regulation pint fruit jars. Preserves should be clear and have a color that has not become dark through over-cooking. The fruit should be plump and firm with a thick, heavy syrup.

Canned fruits and vegetables will be judged on appearance, packing in jars, uniformity of size and taste. She says that many of the ladies seem to find artistic release in creating unusual packing effects.

Pickles are judged on appearance, packing in jars, uniformity, flavor, color and crispness.

The junior division comprises breads and cakes made by entrants under 16. Judging will be in the same manner as for the adult group previously mentioned.

ders given by the Imperial Sugar company. For this reason, Mrs. Evans cites some helpful suggestions for entrants and gives the points on which the different foods are to be judged.

All breads, Mrs. Evans says, should be baked in regulation loaf pans, be an even, light brown, have a tender crust and a fine texture. The judges will also consider appearance and flavor.

Cakes are divided into two groups, loaf cakes which are not frosted and layer cakes which are. Loaf cakes should be baked to an even, light brown and be risen to a proper level. Mrs. Evans cautions against baking loaf cakes too fast, causing them to have a heavy crust and not be done in the middle.

Both loaf and layer cakes will be judged on appearance, texture and taste. They should be light, fine grained, velvety smooth and tender. The flavor should be delicate but true.

Mrs. Evans, from her 27 years' experience, says that judges favor cooked frostings. They should be fluffy and smooth, being neither grainy nor having a hard crust. She reminds that cakes should be perfectly cold when iced and icing should not be too hot. Otherwise, cakes have a tendency to absorb the frosting. In making coconut cake, coconut should be fresh and shredded or grated at home.

Candy will be judged on appearance, texture and taste. Mrs. Evans reminds that in making candy, sugar should be dissolved before the boiling point is reached as one undissolved crystal may make the entire mass grainy and coarse.

As for jellies, Mrs. Evans says that judges will not consider jelly made from artificial pectin or put up in anything but regulation jelly glasses. However, entries are accepted in either squatty or tall

# Colo. Wolves To Duel Roby In Dist. Fray

**COLORADO CITY, Oct. 3 (AP)**—Second conference game for Colorado City's Wolves of district 8A will be played Friday night when the Roby Lions invade the home field.

Strong contenders for the loop championship, the Coloradans showed their potential strength by downing Lorraine, 27-0, two weeks ago in their first start in the circuit. They received a setback last week when a powerful Monahan crew of gridders made a last minute push and made a tally.

Coach John L. Dibrell, Jr., will use the starting lineup he used at Monahan: Billy Wade and Horace Woods, ends; Clifton Caffey and Harry Webber, tackles; James Paul Coper and Henry Feaster, guards; Sam Coker, center; Jack McCormick, quarterback; Johnny Grubbs and Royce Smith, halfbacks; Roy Allen, fullback.

# L'VILLE EDGED BY NEWARK

**LOUISVILLE, Ky., Oct. 3 (AP)**—The American Association champs aren't faring so well against power hitters.

The Louisville Colonels got a closeup of the batting strength of Newark, International league play-off champions, last night in the first game of the junior world series and bowed to the Bears, 10-3.

Newark, bombarded the offerings of three Colonels flingers for 15 hits and 23 bases.

# Stanton Will Play McCamey

**STANTON, Oct. 3. (Sp.)**—Stanton's Buffaloes will meet McCamey's Badgers Friday night in a grid battle on the McCamey home grounds. As both teams are in top condition and have fair playing records thus far in the season, the game is expected to draw a record crowd.

Last Friday night the Buffs held Seminole's Indians to a scoreless tie in the district opener. Credit for a victory went to Stanton on the basis of one penetration, made when they razzle-dazzled down the field to the Indians' 17-yard line in the fourth period. Seven first downs were chalked up on the Buffs' side of the board to the Tribe's five.

McCamey is on the same footing as Stanton, having played to a draw with the Rankin Red Devils and then taking the game on penetrations.

The Stanton crew will go to McCamey to play the fourth non-district game this season, having defeated Roperville and dropping games to Colorado City and Kernit.

# River Speedboats Help Guard Louisiana Prison

**BATON ROUGE, La. (UP)**—State police and prison authorities are planning to end quickly any future breaks from the Angoula state penitentiary.

The new system calls for the immediate installation of primary and secondary lines around the 25,000-acre penal farm in event of a break. Flashes will be sent to state police district commanders, who will leave at once with picked squads for prearranged stations in the lines. Guards then will drive the fugitives from their hiding places.

In addition, prison authorities will use speed boats to patrol the Mississippi river, which forms part of the prison farm's boundary.

# Amarillo, Longview Rated Football Tops This Week

Amarillo's big, rugged Golden Lobos were heralded today as the top teams of Texas school-boy football.

Some experts predicted they would meet in the finals in December.

But there is some unfinished business for both and much more will be known about them after tomorrow night.

Amarillo's foe is Capitol Hill of Oklahoma City, a real tilt for any team. Longview plays Port Arthur, the eleven selected as most likely to succeed in riotous district 14.

Seven games throw undefeated teams together. In addition to Port Arthur and Longview they are: Woodrow Wilson (Dallas) vs. Hillsboro, Conroe vs. South Park (Beaumont), San Jacinto (Houston) vs. Corpus Christi, and Jeff Davis (Houston) vs. Sam Houston (Houston).

The week's schedule by districts: 1—Friday: Capitol Hill (Oklahoma City) at Amarillo, Olney at Pampa; Saturday: Hollis, Okla., at Pampa.

2—Friday: Electra at Burkburnett (conference), Cisco at Chil-

dren, Gainesville at Wichita Falls, Plainview at Quannah, Lubbock at Vernon.

3—Friday: San Angelo at Midland (conference), Lamesa at Odessa (conference), Mineral Wells at Sweetwater, Breckardridge at Abilene.

4—Thursday: Mexico City Y. M. C. A. at Bowie (El Paso); Friday: Austin (El Paso) at Yaleta (conference), El Paso high at Pecos.

5—Friday: Graham at Denison, Sulphur Springs at Paris, Denton at Bonham, McKinney at Sherman.

6—Friday: Arlington at Weatherford, Forest (Dallas) at Greenville, Masonic Home (Fort Worth) at Highland Park (Dallas).

7—Thursday: Poly (Fort Worth) vs. Arlington Heights (Fort Worth) (conference); Friday: Paschal (Fort Worth) vs. Riverside (conference); Saturday: North Side (Fort Worth) vs. Fox: Wichita Tech.

8—Friday: Lufkin at Adamson (Dallas); Saturday: Sunset (Dallas) vs. North Dallas (conference).

9—Friday: Ranger at Stephenville (conference), Brownwood at Ballinger.

10—Friday: Woodrow Wilson (Dallas) at Hillsboro, Waxahachie

at Cleburne (conference), Tyler at Corsicana.

11—Friday: Athens at Sogore (conference), Port Arthur at Longview, Gladewater at Tamarhanna (conference).

12—Friday: Odd Fellows Home (Corsicana) at Jacksonville, Bryan at Mexia, Groesbeck at Palestine, Marshall at Henderson, Elkhart at Nacogdoches.

13—Thursday: Lamar (Houston) vs. Milby (Houston) (conference); Friday: Sam Houston (Houston) vs. Davis (Houston) (conference); Saturday: Dallas Tech at Reagan (Houston).

14—Friday: Austin (Houston) at Beaumont, Goose Creek at Orange (conference); Saturday: Conroe at South Park (Beaumont) (conference).

15—Thursday: Brackensridge (San Antonio) vs. Harlandale (San Antonio) (conference); Friday: Kerrville at San Antonio Tech (conference); Temple at Austin; Saturday: Laredo at Jefferson (San Antonio) (conference).

16—Friday: San Jacinto (Houston) at Corpus Christi, Kennedy at Beeville, Edinburg at Kingsville, Robstown at Freer, Harlingen at Weslaco.

# LOOKING 'EM OVER

With Jack Douglas

Four football teams in District 3AA will jump into the circuit swim Friday night. Midland, with a season's standing of two wins and one loss in three starts, will be host to the San Angelo Bobcats in the initial conference tilt of both crews. After swamping San Antonio Tech to the tune of 26-6 in the opening game of the season, the Bobcats fell to an under-rated Brownwood aggregation last week.

Lamesa's Golden Tornados, only undefeated gridders in the 3AA ward, will journey to Odessa to launch the district campaign for both squads. Although the Odessans have dropped one start this season, they are supposed to be favored over Lamesa. Coach Joe Coleman, in view of Lamesa's impressive record thus far in the year, is keeping the Bronchos in a closed corral for practice sessions this week.

The remaining members of District 3AA will be engaged in non-tilt duels, with the exception of the Big Spring Steers, who will be taking a breather before the plunge into the race a week from this Friday.

Sweetwater, defending district champion, encounters the Mineral Wells Mountaineers, holders of a draw with Big Spring. Abilene Eagles will renew their feud with Breckenridge's Buckaroos.

Indications are now that Odessa will be one of the most powerful crews met by the Steers in the district. Sweetwater seems to have fallen off from last year's form; San Angelo and Abilene are potential threats but have failed to display a winning combination as yet.

Friday's game between the Bobcats and Bronchos should definitely show if the San Angeloans lost to Brownwood on a fluke or are a bit on the weak side. Odessa's showing against the always-dangerous Felines from the banks of the Concho may blast their hopes for a district title this year.

# OPTIMISTIC COACH HAS NEW ONE—WILL JAR JAWN

**DALLAS, Oct. 3 (UP)**—Quote of the week: Chet Benefield, Tulsa University coach, on the outlook for his Tulsaans against a violent Texas Aggie team at San Antonio Saturday—"Our line will stop the Aggie ground game; passes are worrying us." Different, anyway, for someone to throw chills into Jarrin' Jawn Kimbrough, Derace Moser, Wild Bill Conatser and Jim Thomason.

Usually works in reverse.

Coach Dutch Meyer of Texas Christian only yawns when he sees Don Looney's name at the top of the professional football scoring profession... Meyer rates him as one of the really great pass receivers of the modern Southwest conference, and adds that Davey O'Brien can really settle down to throwing strikes now that Looney is his receiver at Philly... Looney has packed across four O'Brien aerials for touchdowns.

Big bidder for the nation's individual scoring honor this season will be Thurman Jones, the Abilene Christian fullback, who has scored

all of the 33 points the Christians have tallied... The all-Texas conference fullback of '39 merely scored three touchdowns and kicked the point in the 19-0 defeat of North Texas and came through with the 14 points needed to submerge East Texas, 14-7... Two very good clubs for one man to lick.

First schoolboy of the season to score a touchdown, kick the extra point and boot a field goal is Charles (Chill) Rice of Brownwood, who did all that to whip Sweetwater, 7-3, and San Angelo, 9-0.

Check the records for this one: Every coach in North Texas State history is a Baylor graduate... First it was Jim St. Clair, now of Southern Methodist and executive secretary of the Southwest conference; Theron J. Fouts, great Baylor player around 1916 came next; John E. Reid, who later went on to Texas A. and M. as head basketball coach and assistant football coach under Matty Bell, took over in 1925 and then came Jack Sisco, the man who has been around since 1929...

While happy Buck Newsom (right) walks off the field at Cincinnati receiving congratulations from Dick Bartell for his 7-3 victory over the Reds in the first series game, Reddy manager Bill McKelchick (left) goes to the clubhouse looking pretty dejected.

# Duke-Tenn. Revive Feud

**KNOXVILLE, Tenn., Oct. 3 (UP)**—Southern football supremacy may be the victor's spoils when the Blue Devils of Duke and the Volunteers of Tennessee renew their colorful gridiron rivalry Saturday before a sell-out crowd of some 40,000.

The blue chips always are down when these two Dixie juggernauts collide, but seldom has so decisive a game been played this early in the season, with both teams untested in opening tilts.

The Volunteers, champions of the Southeastern conference, warmed up for the contest last Saturday with a 49-0 triumph over Morey university, while Duke, Southern conference champs, played under wraps in trimming V. M. I., 23-0. Both are favorites to repeat for their conference titles.

The Dukes were slight favorites despite the fact that Coach Wallace Wade has never been able to defeat Major Bob Neyland's Volunteers on their home grounds.

The Wade-Neyland rivalry began in 1928 when Wade was at Alabama. Neyland holds a 6-2 edge in the series. Their last game in 1937 ended in a scoreless tie.

A large part of Tennessee's victory hopes will be pinned on little Johnny Butler, the lad who sparked Tennessee to victory over Alabama last year, and blond Bob Fox, whom Neyland picked as successor to tailback George Cafego. Wade's big backfield guns will be George McAfee and Steve Lach, operating behind a strong forward wall.

**PHILADELPHIA (UP)**—The Franklin Institute has announced that the brightest comet to appear in the skies for 13 years will be visible to the naked eye the first week in December.

Known as the Cunningham, it will have a tail and will be at its brightest during the third week in January.

Sisco has piled up 61 victories against 33 defeats and came near to glory last Saturday night when his teachers finally fell before his alma mater, Baylor, 20-27.

# Texas Grid Loop Opens This Week

By the Associated Press

They start playing for keeps in one Texas college football conference this week while in three others the teams continue their ambitious inter-sectional schedules.

Championship warfare opens in the Texas conference with McMurry playing Trinity at Waco, Austin college meeting Daniel Baker at Brownwood and Texas Wesleyan clashing with Southwestern at Georgetown.

The two independents—Hardin-Simmons and Texas Tech—meet inter-sectional opponents.

Hardin-Simmons is host in the Rose festival game at Tyler, playing Arizona State. Texas Tech tackles Loyola of Los Angeles at Lubbock.

The complete schedule: Thursday: Abilene Christian college vs. Arkansas State Teachers at Little Rock (night).

Friday: Stephen F. Austin college vs. Henderson State Teachers at Arkadelphia, Ark. (day).

Austin college vs. Daniel Baker at Brownwood (night); Sam Houston State vs. Mississippi State Teachers at Hattiesburg, Miss. (night); Texas Mines vs. Louisiana Tech at Ruston, La. (night).

Saturday: Hardin-Simmons vs. Arizona State at Tyler (day).

North-Texas State vs. Southern Methodist at Dallas (day); West Texas State vs. Western State college at Gunnison, Colo. (day); McMurry vs. Trinity at Waco (night); Texas Wesleyan vs. Southwestern at Georgetown (night); Howard Payne vs. East Texas State at Brownwood (night); Howard Payne vs. East Texas State at Brownwood (night); Southwest Texas vs. Randolph Field at San Marcos (night); Loyola of Los Angeles vs. Texas Tech at Lubbock (night).

Sunday: St. Mary's vs. 23rd Infantry at San Antonio (day).

# SPORTS ROUNDUP

By EDDIE BRIETZ

**CINCINNATI, Oct. 3 (AP)**—Talk that Bucky Harris might shift from Washington to succeed Oscar Vitt at Cleveland had the gossip buzzing today.

Some said if Harris does get the Cleveland job, his successor at Washington will be either Buddy Myer, Ossie Blazek or Rogers Hornsby... Things are so hot Hornsby has asked at least two guys we could name to intercede on his behalf with Clark Griffin.

In turning back the Reds yesterday, old Bo Eo Newsom the pride of Hartsville, S. C., threw 46 fewer pitches than Derringer, Moore and Riddle, the Cincinnati hurlers... The official figures show old Bo chucked that apple exactly 102 times... Derringer let loose 31 times; Moore 104, and Riddle 13.

Series notes—

The Tigers had nothing but praise for the work of Bill Klem, "the old arbitrator," behind the plate, which is pretty nice considering Bill comes from the other side of the fence... The Reds gave Jimmy Wilson a handsomely engraved watch for stepping in and catching the last eight games in the pennant drive, after Ernie Lombardi was hurt...

Jimmy Michuda, Marquette's speedy sophomore end, is a brother of Julian Cornell, the movie and radio star... Jack Dempsey averages signing 500 autographs per day at his Broadway spot.

# Conference On Freight Rates

**LITTLE ROCK, Ark., Oct. 3 (AP)**—Chairman J. C. Murray announced today that the Southwestern steering committee would meet in Chicago Oct. 27, one day in advance of an interstate commerce commission pre-hearing conference on proposed general revision of freight rate scales.

The committee is composed of representatives of states in the southwestern freight rate territory—Arkansas, Oklahoma, Louisiana and Texas. Murray said he had received notices that all these states would be represented at the September 27 meeting.

The pre-hearing conference will be the first to be held since the ICC ordered a general investigation in July, 1939, to determine whether all rates in territory east of the Rocky mountains should be placed on a parity basis.

"We are asking that these territorial rate walls that have been handicapping us in getting new industries to locate here," Murray said, "Arkansas and the Southwest are ready to go into this conference with a great mass of information to support our position."

# Longhorns Aerial Thrusts Improved

Judging from the showing made yesterday afternoon Coach Pat Murphy's Big Spring Steers are due to have plenty of power stored up in readiness for Odessa's Bronchos. Crashing through the reserve line, Pete Presley showed the tough Lubbock at fray had taken nothing out of his drives. Big Spring's line pushes, having accounted for good gains against the Westerners, are likely to account for a large amount of yardage against the Wild Ponies a week from Friday.

Clifton Patton, big and powerful tackle, has displayed an ability to break a hole in a line for an offensive play as well as cracking a yardage bid by the opposition.

Last Friday he carried enough power in his defensive game to make it appear as though one whole side of the Westerner line was forced into retreat.

Lemuel Nations, end, vowing to never again fail to receive almost certain passes, was making his word good yesterday by snagging a good percentage of passed balls.

Ralph Stewart, another flank man showed considerable improvement in his receiving ability, as also did Poppy Blount, six-foot-four end replacement. All told, the aerial department seemed to show for the first time a possibility of developing into an efficient ground-gaining unit.

Horace Bostick, Longhorn halfback, has been on the shelf, although out in uniform, this week. He received what was diagnosed as a broken down arch in practice last week and has not been able to maneuver as well as usual. By next week, he is expected to return to active work.

Murphy turned some attention to blocking for ball carriers. Heretofore, there has been some confusion resulting from interference for the runner getting in the way or being left behind, usually allowing the opponents' secondaries to break up the advance. Tabor Rowe, the quarterback who made a stand-out showing in the Lubbock tilt when he very effectively stopped what looked to be a touchdown dash by Jackson by throwing a block, was keeping up the good work in Wednesday's session. Although he is rather light, Rowe plays a smashing type of game.

Coach Carl Coleman's Yearlings will make their second start of the season when they take on the San Angelo Juniors here Friday afternoon. Coleman announces he is very well pleased with the showing his boys have made. He is depending on Doyle Stewart, huge fullback, to account for most of the gains against the visitors. The weak spot on the Yearling squad is the tackling department, but Coleman has been giving intensive drills in this phase.

# Walters On Mound In Comeback Try

**CINCINNATI, Oct. 3 (AP)**—It looked again today like the National league had over-matched itself as the Cincinnati Reds reeled under the impact of an opening 7 to 2 defeat by the Detroit Tigers and sought desperately to come back.

Again it looked like boys had been sent out to tackle grown men.

Today's game at Crosley Field was only the second of the big series that decides the championship, yet the experts, a majority of whom picked Cincinnati to win, were shaking their heads and wondering what could have brought them to make such a cockeyed choice.

The one hope of the Reds to avert a rout probably as disastrous as that they suffered a year ago at the mauling bats of the New York Yankees rested today in the stout right arm and cool pitching head of Bucky Walters.

If Walters could stop the Tiger and square the series before the two clubs switched to Detroit for the next three battles starting tomorrow, here might be a chance for the locals. But the Reds looked bad in every way yesterday as the Tigers blasted Paul Derringer from the hill with a five-run assault in the second inning and then went on to win as they pleased.

It was obvious that Manager Bill McKelchick's boys had nothing resembling a batting punch as Babe Newsom, mowed dust around the pitching mound and mowed them down. And it was equally plain the Reds were tightened up to the snapping point in the field.

Walters' opponent today was the Tigers' towering Schoolboy Rowe, who made a sensational comeback the past season after a trip back to the minors with a lame arm. Rested and primed for what figured to be his one big effort of the series, Rowe promised to be fully as effective as Newsom was yesterday.

McKelchick refused to give up, naturally, but Bill must be beginning to wonder if he's lived a proper life. Yesterday's game was the ninth straight world series game defeat suffered by clubs under his management. The Yankees trounced his 1928 Cardinals four straight and served his Reds the same bitter dish last autumn. And now the Tigers have taken up where the Yankees left off.

The Reds still were sadly crippled, with Catcher Ernie Lombardi and Second Baseman Lonnie Frey on the bench, and it looked doubtful that either would get into the play-off at all. But there was no real reason to believe that their absence seriously influenced yesterday's one-sided result.

Eddie Joost, Frey's replacement, made two of the Reds' eight blows off Newsom and didn't bungle chance at field. Veteran Jimmy Wilson caught well enough, too, though his batting naturally was weaker than might reasonably have been expected of Lombardi.

# Lighthouse Has School Unique On Continent

**FREDERICTON, N. B. (UP)**—Machias Seal Island, a lonely and forbidding pile of rocks nine miles off the coast of Maine, can boast of what is perhaps the oldest school on the North American continent.

The island itself is a part of Maine, but is leased to Canada. There, at the mouth of the Bay of Fundy, 12 miles from the Canadian island of Grand Manan, the Dominion government maintains a large lighthouse for the protection of Bay of Fundy shipping.

The barren, rock-strewn island is inhabited only by the two lighthousekeepers and their families, and Herbert W. Dayton, a young New Brunswick school teacher whom the government maintains on the island to instruct the three children of Mr. and Mrs. Earle Ingersoll, the second lighthouse keeper and his wife.

The school is in "The Castle," which formerly was the main light-house.

### 1941 DODGE, WITH FLUID DRIVE A FEATURE, TO BE DISPLAYED TO THE PUBLIC THIS EVENING

First formal showing of the new Dodge for 1941—a greatly improved car that puts emphasis on greater beauty, more comfort and more outstanding performance—is scheduled for 7:30 this evening in the showrooms of the local dealer, Jones Motor company, Fourth and Runnels.

"Big news" in the Dodge line this year is that the new models will be available with the Fluid Drive. Says R. J. Jones, local dealer, in inviting the public to view the 1941 offerings this evening:

"Ever since the release of that information we have had a veritable deluge of inquiries regarding what the Fluid Drive is like, how it operates, why it is an improvement over the conventional drive and, of course, how soon new Dodge models will be here for local inspection and trial.

"Fluid Drive is one of the things that are difficult to describe in words; one must experience it by seeing and feeling the marvelous improvement it makes in the way the car handles and acts.

"Basically, the Fluid Drive is a drive through oil, with no fixed mechanical connection between the engine and the rear wheels. The oil does it better than it could be done through any fixed coupling. Some of the things that can be done with the Fluid Drive are almost unobtainable with any other drive. For one thing, it makes driving almost unbelievably simple. It enables you to drive all day under average conditions without touching the gearshift or the clutch pedal. You start, stop, then start again, all in 'high.' Think of what it means to drive a car with that kind of silky, smooth performance! And you slip out of soft mud and ease out of snow heaps where formerly it took a tow car to free you.

"On hills you can slow the car down to a mile an hour without stalling the engine. Going downhill, the engine acts as an efficient brake through the Fluid Drive. With all of it, there is nothing new to learn about operating the Fluid Drive Dodge; it is simply much less work at the wheel and at the controls.

"While the Dodge Fluid Drive is undoubtedly the most dramatic of the advances found in the new 1941 models, there are other improvements—so many of them as to make the car one of the most interesting new-season offerings—even without the Fluid Drive."

### Down To The Sea In A Parachute

AP Feature Service  
LONDON—This is how an RAF flying officer described his first parachute jump in action:

"I was in midair—floating down so peacefully in the cool breeze. I had to remind myself to open my parachute. When the first jerk was over I swung like a pendulum, but I soon settled down and I was able to enjoy a full view of the beach some miles.

"There was no sensation of speed. But the ripples on the water became bigger. The soldiers on the beach came nearer.

"I had one minute of anxiety. As I floated down one of the Messerschmitts appeared. The pilot circled around me and I was just a little alarmed, but he behaved quite well. He opened his hood, waved to me and then dived toward the sea and made off towards France.

"The wind was carrying me in towards the beach. I took out my cigarettes and lit one without any difficulty. As I came nearer to the coast I could hear the all-clear sirens—and passing over the houses on the sea front I could see the people coming out of their shelters—people looking up at me.

"The soldiers' faces were quite clear but I must have looked Eng-

lish even at 1,000 feet—which was comforting.

"For the first time since the pilot circled around me I became anxious. Was I to end my escapade by being banged against a seaside villa? The journey ended in a cucumber frame—after I had pushed myself free of a house with my foot."

**Police Foundation Committee Meets**  
Activities for a new year were launched at a meeting Thursday morning of the local chapter of the Infantile Paralysis Foundation, the group which handles the local Birthday Balls for the President, and supervises distribution of aid to needy cases affected by the disease.  
Grover C. Dunham was renamed chairman of the group, Miss Anne Martin will continue to serve as secretary, and Dr. M. H. Bennett was renamed as the chapter's consulting physician. Reports on last year's activities were heard, and general plans held for continuing the work for another period. Arrangements for the 1941 Birthday Balls will be made later.  
Attending the committee were Dunham, Miss Martin, J. H. Greene, V. A. Merrick, Carl Blomberg, Edith Gay, Ira Thurman, Cal Boykin, E. V. Spence and Bob Whipkey.

Berlin and Tokyo, continue to make gestures of amity toward Russia in an effort to bring the Muscovites into line with the expansionist ambitions of the new triple alliance (Germany, Italy and Japan), or at least to keep the bolsheviks from torpedoing the plans of the trio.  
At this writing Japan—backed by Germany—seems to be fishing for a non-aggression pact with Russia, similar to the one existing between Germany and the soviet. Nippon already has on hand all the trouble it wants.  
Germany and Japan had sworn great oaths against communism, but they're not letting that interfere with business.  
Moscow has smiled in response, but it's one of those straight-tipped smiles—like that of the master gamester playing his cards close to his chest.  
Since the formation of the triple alliance, Communist Chief Stalin has maintained a silence which a mystery-story writer might designate as "inscrutable." The world agrees that Russia's attitude is of vast importance to the outcome of the war and the future of Europe. I believe we can pin that attitude down in general terms.  
Little straws often show where big winds are coming from—and Moscow has just tossed a tiny straw into the air. This is an official announcement listing Stalin's handbook, "A Brief History of the Communist Party," as among the world's best sellers.  
The communist party organ Pravda in commenting on this says that "thanks to the wise policy of Lenin and Stalin and guided by the trusty compass of the Marxist-Leninist theory, the front of socialism has expanded." Pravda refers specifically to the recent creation of the soviet republics of Latvia, Estonia, Lithuania, Belorussia and Karelia.  
The Russian press is government controlled and items like that have a definite purpose. To the reading public of the soviet it is a reaffirmation of the policy for the spread of communism to other countries. It says as plainly as can be that recent developments haven't swerved Stalin from his course.

Many Exhibits Planned For Martin Fair

STANTON, Oct. 3—The Martin county annual fair which is to be held in Stanton, Oct. 26, will offer exhibits of the many agricultural interests of the county. There will be classes for competition in the home making endeavors: canning, cooking, quilting, butter making, woodwork, antiques and paintings. Agricultural exhibits will include classes for competition in cotton, feed, truck crops, dairy cattle, swine, sheep, poultry, horses and wool.

Although no competition is offered exhibits will be made by Martin county 4-H club girls and boys which will display work done by them and the exhibit will be made purely for educational or instructional value. The home demonstration clubs will also make an exhibit of bedroom improvement work done by them. This exhibit will also be made on the non-competitive basis.

**Martin Club Boys Will Attend Fair**  
STANTON, Oct. 3—Martin county 4-H clubs will be represented at the Dallas fair educational encampment by three boys. They will be guests of the Dallas state fair for the three days they are there, Oct. 8, 9, 10 and are being awarded prizes by the T. & P. railroad in the form of transportation to Dallas and return.  
The boys who were selected as winners in this contest were Owen Kelly, Tom Estes and Billy Sadler. They were selected as the winners a meeting last Saturday.  
by other members of the club at Martin county was assigned a quota of three at the fair on the basis of work done by the club boys and records submitted by them for the past year. The three days will be spent examining the various exhibits at the fair and studying the various agricultural entries of the state under the direction of the state 4-H club leader, L. L. Johnson from College Station. Lodging and meals while at Dallas are being furnished by the fair association.

**HOG IN WELL**  
FREDERICK, Md., Oct. 3. (AP) The pump quit on C. Lewis Bussard's farm, and Bussard climbed into the well to make repairs. Thirty feet down on a ledge he found the trouble-noisy, mad and hungry.  
A 200-pound hog had crashed through the well flooring, disabling the pump. Farmhands hauled the hog out in a sling.

**CONFIRMED**  
WASHINGTON, Oct. 3. (AP)—The senate yesterday confirmed the nomination of Victor Russell of Beaumont, Texas, to be collector of customs at Port Arthur, Texas.

## Chute Troops Visioned By Benjamin Franklin

BOSTON (UP) — Benjamin Franklin's brilliant mind is credited with first conceiving the value of a "parachute army" similar to that now employed by Germany.  
Historic papers disclose that Franklin wrote in 1784: "Five thousand balloons, capable of raising two men each, could not cost more than five ships of the line; and where is the prince who can afford so to cover his country with troops for its defense as that 10,000 men descending from the clouds might not in many places do an infinite deal of mischief, before a force could be brought together to repel them?"

The first zoological garden was established in China about 1100 B. C.
