JIM CRACKS

By JIM DEAN

PERHAPS SOME of you saw the tall blond young man wearing a pair of short leather pants hitch-hiking on the Amarillo highway last week.

If you did, and if you passed him up, you probably passed up an experience which may have proved highly interesting.

The young man was a German student in this country on an exchange arrangement somehow.

He just recently completed studies at Stanford University in California and was hitch-hiking to the East where he will enter another university this fall.

He was allotted \$50 to make the cross-country trip, but he chose instead to hitch-hike so he could see this country for himself.

I found out about him through Tommy Walker of our Circulation Department. Walker was making a trip back to Pampa from Colorado Springs, Colo. He picked up the young German in the Springs and the two enjoyed some fascinating conversation.

ASKED WHY he was hitch-hiking, the young man, Christopher Eckhard, told Walker.

"I have to find out things for myself. I can't read in a book that the people of Tennessee are backward and believe it unless I go to Tennessee and see for myself."

So young Eckhard is making a summer-long project of crossing the United States zig-zagging north and south, touching as many states as possible.

Eckhard told Walker that he was fascinated by the number of automobiles in this country. That, I have found, is the one thing almost all foreign visitors have in common. The autos fascinate them.

"WHY IS IT," the German asked Walker, "that people in other states don't seem to like Texas?"

"Well," Walker said, "I suppose it's because Texans like to brag too much."

"What do you mean by brag," Eckhard asked. His English vocabulary apparently included no such word.

"Well, brag," Walker said, "means to boast." Eckhard asked, "What is boast?" the confused German asked.

Stumped, Walker let it slide with the explanation that he didn't know what the German term for it would be.

Finally, the conversation got around to beer, a beverage the German nation is noted for.

"How does our beer compare with German beer," Walker asked.

"FARDON ME," said Eckhard, "but our water is better than your beer."

"That's what I meant about Texas," Walker said.

Well, the young fellow in the Mountain-climbing pants is certainly getting a first-hand look at the U.S.

His plans for the future as of right now include opening a hamburger stand in Germany, and he hopes some day to have a whole chain of them.

The Poet's Nook

The nook will be a bit crowded today.

But first let me say that, the prize of a ticket to the basketball tournament last year in Hutchinson, Kans., is unclaimed. Folks either didn't recognize last week's poetry or else the prize failed to lure a contestant. Don't know which is the real reason.

The quotation came from Alfred Lord Tennyson's "Locksley Hall."

My quest for local poetry brought one contribution last week. The letter is as follows: "WHAT HAPPENED? Did I or did I not see a small 'Poetry Corner' some days ago? A shame you have no poets (and I use the word very loosely) in Texas. May an Oregon visitor put in her two cents worth?"

The Last Chunk of Ice Or It Happens Every Time! Mouth feels like Cotton! Hot Summer day!

Cool glass of nectar Slipped slowly away. Tip it and bang it Sharp raps on its side Thump up and shake it It sticks tight as the hide. Lurks in one corner, Snakky and sly.

No matter how I work it It lands smack in my eye. A visitor

It's a pleasure to receive such as this, although I must comment this doggerel is hardly poetry, even in Oregon.

But it is cute, and thanks. As for Texas poets . . . Suh or Madam your insults our fair land.

LET ME COME to the rescue of the Lone Star State with some musings of my own which I jotted down in reflection on the return of the steam locomotives to the Santa Fe tracks just recently.

I have no title for it, perhaps a kind reader might suggest one. As it stands now, it's merely eight couplets on the spur of the moment, begging the railroad's pardon.

MAKING A GO OF LIFE

By ROY L. SMITH
Read Psalm 42

A force outside us plays upon our minds. Consider, for a moment, the raw material upon which the human mind works - sights, sounds, smells, tastes, sensations. These are ever-present with us, yet our conscience is concerned with very much more than these. Faculties with which we are on intimate terms, and with which we are accustomed to deal every hour of the day, become nothing less than astonishing in their implications when we consider them as if we had never heard of them before.

What an amazing thing memory is! Without it life would be lived entirely in the present tense and be altogether without dimension. Which one of us, however, would have planned life to include memory if we had never heard of such a thing before.

Then there is imagination, the power that creates what never existed before. Or judgment! Or reason! Only because we are able to deal with these every day are we able to control our wonder. Yet our mental life goes on day after day and we gather impressions and experiences during every conscious moment, storing them away, making complexes, inhibitions, reactions, and habits out of them.

SURVEY PLANNERS TALK

450 Have Signed Bond Petitions

To date the names of 450 signers have been turned in by committee workers of the Gray County Chamber of Commerce for the proposed bond election on the expansion of Highland General Hospital, according to Paul Crossman.

Of these signers 150 are from the south part of the county, the remainder are from the city and north of the county.

A total of some 700 names will be needed by July 1 to call the \$300,000 election. Not all committee members have yet turned in their reports. The names of the signers will be screened through the office of the County Clerk, Charlie Thut, next Friday.

U. S. To Drop Lattimore Case

WASHINGTON —UP— Attorney General Herbert Brownell Jr. announced Tuesday that the government has decided to drop its three-year-old perjury case against Owen Lattimore.

The Court of Appeals June 17 upheld a lower court's dismissal of the two "key" charges against Lattimore.

"Upon a consideration of all aspects of the case it has been decided not to apply to the Supreme Court for review," Brownell said. "In the absence of these counts there is no reasonable likelihood of a successful prosecution on the five counts remaining from the first indictment."

SUSPECT

(Continued From Page One) a man fitting the description of the one authorities are seeking.

"Big Nosed" Airman Fields said the "big fellow" was blond with a crew haircut and a "big nose." He said a smaller man, presumably a hitchhiker, was with the airman, but didn't say anything.

"The big guy said he was driving to California," Fields said. The only description of the wanted man was furnished by a cafe waitress, Mrs. Doris (Teenie) Filip.

Mrs. Filip said Mrs. McPherson was in her cafe early last week in company with an airman with a crew haircut. Mrs. McPherson introduced the maid to Mrs. Filip and the waitress said she caught the name as "Don Ellis" or something like that.

Mrs. Filip said she was en route from Tyndall Air Force Base in Florida to California to visit her parents.

Tyndall AFB authorities reported they had no "Don Ellis" or a similar name listed among their personnel.

Four GOP Solons Hit Aid Program

WASHINGTON —UP— Four members of President Eisenhower's own party attacked portions of his \$3,285,000,000 foreign aid program Tuesday as the measure was called up for debate in the House.

The critics were made in a report by four Republican members of the House Foreign Affairs committee — Reps. Lawrence H. Smith (Wis.), Marguerite Stitt Church (Ill.), E. Ross Adair (Ind.) and Alvin M. Bentley (Mich.).

They particularly objected to the "blank check" authority given the President in spending the foreign aid funds. They also called for a "stop, look and listen" policy on aid to Communist Yugoslavia, which would get \$40.5 million in indirect military aid under the bill.

Opposition also developed on other fronts. Reps. William M. Colmer (D-Miss.) and Ray J. Madden (D-Ind.) called for killing any further aid to India. India was to receive \$85 million in economic assistance under the bill.

And key members of the merchant marine committee attacked the measure for relaxing a requirement that at least 50 per cent of foreign aid shipments be transported in U. S. ships.

Other developments. DRAFT The administration's request for a four-year extension of the regular draft and a two-year extension of the special doctor — dentist draft also headed for a crucial test in the House Tuesday.

Opponents, led by Chairman Howard W. Smith (D-Va.) of the House Rules committee, hoped to knock the doctor draft out of the combined draft extension measure. They agree with the American Medical Association's stand that the armed services no longer need to draft physicians.

ATOMIC Senate Republicans said they would try to restore funds for President Eisenhower's proposed atomic-for-peace merchant ship.

They hoped to amend a \$267,700,000 authorization bill for the Atomic Energy Commission to include the \$21 million atomic vessel. The bill cleared the House Monday without any attempt to add the funds. They had been eliminated earlier by the Senate-House Atomic Energy committee.

RESERVES The House Armed Services committee was expected to approve a compromise version of the President's compulsory military reserve plan. The compromise bill has

dropped provisions which led to a House dispute over segregation in the original bill.

HOUSING The administration's public housing program was threatened with being bottled up in the House Rules committee by a coalition of southern Democrats and Republicans.

Two members, Chairman Howard W. Smith (D-Va.) and Rep. William M. Coleman (D - Miss.), voiced strong opposition to further expansion of public housing Monday. There were indications they might be joined by four Republican members — thus providing a 6-6 tie vote which could pigeon-hole the program. But the GOP congressmen would not say publicly in advance how they will vote.

BASES The House passed and sent to the Senate Monday a bill authorizing a \$2,369,000,000 military base construction program. The vote was 317 to 2.

2 Collisions Here Monday

Two collisions occurred yesterday resulting in minor vehicle damages. No injuries were reported.

The first mishap took place at the intersection of E. Foster and Ballard yesterday at 3:20 p.m. Marile Kenner, 514 W. Foster, in '55 Pontiac was in collision with Vertie Hugh-Rose, 317 N. Christy, driving a '54 Lincoln. Damages were estimated at \$50 for Kenner, \$10 for Rose.

The second collision occurred on Tryg and S. Russell Monday evening at 7:40. Doris Wood, Mineral Wells, in a '49 Ford, encountered damages estimated at \$85. John Henry Watson, 309 Canadian, driving a '55 Lincoln met with damages of approximately \$15.

New Charge Filed Man Held Here In DWI-Mixup For Desertion

John Elmer Shelton, who, it was found yesterday, gave his brother's name when he was fined and jailed here June 18 on a charge of driving while intoxicated, pleaded not guilty to the charge yesterday afternoon in county court.

County Attorney Don Cain filed a motion to dismiss the earlier case, clearing Shelton's brother's name. He then filed the charge against Shelton, whose bond was set at \$2,500. Shelton now claims that a companion was actually driving the car. He pleaded guilty to the charge earlier.

**Rebecca Gaines And Marion L. Guthrie
Are Married In Lawn Rite In Wheeler**

WHEELER — (Special) — Miss Rebecca Gaines, daughter of Mr. and Mrs. Lem Gaines, became the bride of Marion Lee Guthrie, son of Mr. and Mrs. Lee Guthrie, June 21, on the front lawn of the home they plan to occupy.

The single-ring ceremony was performed before an altar of pink rambling roses flanked on either side with white baskets of baby's breath, white and blue daisies, and greenery. Rev. Luther Lockett, pastor of the Methodist Church of Melvin and cousin of the bridegroom, officiated.

Jerry Barton served as best man.

Miss Janice Jaco, attending the bride, was attired in pink tulle and nylon dress with a scoop neckline accented with rhinestones and styled with a full skirt. She wore a white corsage and white accessories.

The bride wore a white street-length dress of embroidered nylon organza styled with bouffant skirt, and v-neckline accented with buttons of pearls and rhinestones. She carried a white satin-covered Bible topped with white carnations and satin streamers. Her half-hat was covered with white daisies accented with rhinestones. The tradition of something old, something new, something borrowed and something blue was carried out and she had a penny in her shoe.

The mother of the bride wore a navy blue linen dress with navy blue accessories. Her corsage was of pink carnations.

The bridegroom's mother wore an ice-blue polished-cotton dress. Her accessories were navy blue and yellow, and her corsage was of yellow mums.

Immediately following the ceremony a reception was held in the Guthrie home.

The serving table, covered with a white linen cloth, was centered with the three-tiered wedding cake, topped with a miniature bride and bridegroom. The cake was made and decorated by Mrs. L. S. W. Guthrie, aunt of the bridegroom. Blue and white daisies decorated the table. Mrs. Estes Willford, aunt of the bride, presided at the punch bowl, and Mrs. Lamar Guthrie served the cake. Appointments were of crystal and silver.

Mrs. Lilly Edmondson of Tipton, Okla., aunt of the bridegroom, registered the guests.

For traveling the bride wore a blue and white corded dress with white accessories.

The out-of-town guests were Mr. and Mrs. Lamar Guthrie and Gayle of Jerick, Okla.; Mrs. Lemmie Day and Mrs. Lilly Edmondson of Tipton, Okla.; Mr. and Mrs. L. H. Dirickson of Matador; Mr. and Mrs. J. T. Jackson of Eden; and Rev. and Mrs. Luther Lockett of Melvin.

After a wedding trip to points of interest in New Mexico and a visit with the bridegroom's grandparents in Eden, the couple will

THERE'S A NEW WRINKLE to traveling cottons this summer — they won't — so say June Seventeen which features carefree clothes that travel well with almost no attention. Easy to wash and hard to crush, these gadabout cottons are mixed with miracles (nylon and orlon). Whether you fold them, pack them or wear them, they stay wrinkle-free.

SUGGESTED FOR SEEING the ring ends in a puff of bloomers. Pure red highlights the top and the straps.

SUMMER IS THE TIME to go convertible says the June Seventeen — which backs up its timely advice with a trio of convertible costumes that can be worn with their tops on or off all summer long. Any one of these dresses can go shopping or sunning, lunching or dancing — depending on the way they're worn.

A button-down jumper with the fullest skirt imaginable (nylon and cotton) is well-fashioned for a festive occasion. Add the sailor-colored polka-dot blouse, and it goes shopping or touring, as well. Another jumper, this one featuring the slim line, long-torso look, is square-necked — until a tucked white linen dickey with bateau neck is added for daytime wear.

And ideal way to go places is to wear a full-skirted jumper with a plaid jacket that stops short to show the cumberbund waist.

All three of these fashions practically take care of themselves — they're washable, crease-resistant miracle-cotton blends that love to go packing.

Most copper accessories these days are lacquered and will stay gleaming with just a swish of a soapy cloth. But if you want the aged copper look for any reason, you can take the lacquer off with denatured alcohol.

THE TORSO IS EVEN more so when it appears in swim suit fashions for summer wear.

So flattering in dresses, it takes on even more allure in the new beachwear. A white all-molded cling shown in the young magazine, is curved into bloomers below the waist; its bodice is marked with a bow. Little blue lifesavers dance over this chromspun acetate and cotton twill suit.

A slim blue streak is marked with a blazing white stripe (decorated with tiny heart buttons) at the bodice and with flirty white bows on the pants. Of acetate and latex faille, it's lined and boned on top, has detachable strap.

Pretty piping shows off the bloomer of a flower-printed suit with shirred back and detachable strap. Patriotically striped in red, white and blue is a long-torso suit with doublet look. The center shir-

New Look In Summer Fashion Standby Is Cotton With Nubby Homespun Finish

By GAILE DUGAS

Cotton for warm weather is as natural as graduation in June.

But the wonderful talents and research that have put cotton into winter wardrobes have also transformed the summer cottons. For summer cottons are no longer only the crisp print dresses and bunched skirts. They are handsome spring-into-summer coats, drifty danc

COOK'S NOOK

Wise Eating Is Necessary For Good Teen-Age Figure

By GAYNOR MADDOX
NEA Food and Markets Editor
Many teen-age girls are overweight. For the sake of their figures and future health, they need to know more than they do about weight control.

Dr. Erce Eppright, head of the Department of Food and Nutrition at Iowa State College, has investigated the food habits of 1188 Iowa school children. This study included 279 girls 12 years or older.

One-fourth of this group were very heavy or obese. Dr. Eppright believes that education in weight control should begin at about 12-years of age.

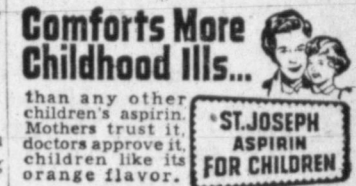

Here is an attractive, warm weather summer breakfast. The entire family can enjoy it. Teen-age breakfast: Straw berries (1/2 cup), pre-sweetened puffed wheat (1 ounce) with whole milk (1/2 cup), blueberry coffee cake (large serving), whole milk (1 cup).

To adapt to a 400-calorie reducing breakfast, reduce the milk to 1 cup of skim milk, and serve a smaller piece of coffee cake.

A GOOD BASIC BREAKFAST is right to start the day off. For a teen-ager, especially, it helps keep a trim figure.

make topping combine butter or mix thoroughly. Add remaining cornflakes and blend well. Sprinkle topping evenly over blueberries. Bake in hot oven (400 degrees F.) until done, 25 to 30 minutes.

Lingerie For Bride Shows New Variety

NEW YORK — (NEA) — Notions about bridal lingerie have changed a good deal in the last few years. There was a time when the bride chose her lingerie in white or possibly very pale blue or pink.

But in this year of 1955, she may pick stripes, a print or a floral spray. She may have any color she likes and as for style, she's no longer confined to fluffy ruffles.

As for length, she may have dress length or waist length or floor length. Most brides are showing a preference for the dress length or waist length ensemble and there are more of them being shown this year than there were last.

However filmy, fragile-seeming Nylon satin, nylon tricot, nylon sheer, dacron, orlon and combinations of rayon-and-cotton are all used for this year's bridal lingerie. Even lace trim is nylon for added touch of pretty practicality.

IT'S NOT MARILYN

Mrs. Montie McMurray, a Washington, D. C., housewife who looks like Actress Marilyn Monroe, strikes a typical Monroe pose at a Chicago, Ill., airport. She was in Chicago to unveil a 75-foot color photo of Marilyn in front of a theater showing her latest film, "Seven Year Itch."

New Gadget Shoots TV Off The Air

By TERESA REESE CHICAGO—UP—Zenith Radio Corp. has come to the rescue of television viewers who would like to shoot some of the people they see on their screens. A new Zenith TV set on display at the summer furniture markets here comes equipped with a pistol. You aim it at the set, pull the triggers and—blotto. The set turns off, the sound goes out, or it changes to a different channel. What happens depends on how you aim the pistol, which is actually a flashlight. Zenith has developed a TV with photo-electric tuning.

Here's how it works: There are four photo-electric "windows" on the face of the set. The tuning "pistol" can be carried anywhere in the room. There are no wires attached to it. If the flashlight beam is aimed at the window in the lower left hand corner the set turns on or off. Beams aimed at the two windows on the top switch channels—the left windows turning the dial counter-clockwise and the right window clockwise.

The window at the lower right tunes out the sound. A second shot, or flash brings the sound back.

And, if you don't take to pistols, Zenith officials point out, the set can be tuned by hand in the regular way. "It's the same principle used to open and close doors with an electric eye," explained J. F. Brown, chief engineer at Zenith. "Any flashlight will work the tuners. We decided on the gun shape because it's easiest to handle."

Zenith engineers worked for three years to perfect a remote control tuning device that would leave the viewer free of extra wires and switches.

Brown said the flashlight tuner would work from 15 feet away in a brightly lighted room, while a good marksman in a dark room could stand 50 feet away and switch channels with ease.

Strikers Hit London Dock

LONDON—UP—A force of 300 striking dock workers from Britain's northern ports "invaded" the London waterfront Monday to halt a back-to-work movement by local longshoremen.

Hundreds of policemen lined up shoulder to shoulder to prevent clashes between the provincial strikers and the London dockmen, all members of the same union.

The "invasion" was touched off by the decision of the London workers to end a five-week strike and return to work Monday while northern port members were voting to stay out.

First reports said that only several hundred men returned to work of the nearly 10,000 that walked out five weeks ago in sympathy with their fellow workers in the northern ports.

The strikers are mostly members of the stevedores' union which is demanding representation on the dock labor boards in the northern ports. It already has such representation in London.

Welfare Cut MILFORD, Conn.—UP—Delegates to Milford's representative town meeting took seriously a prediction that this country is in for "the biggest volume of business in history." They voted a \$5,000 cut in the annual budget appropriation for town welfare aid.

Escape Artist MOUND CITY, Ill.—UP—The first inmate to escape from the Pulaski County jail here since Sheriff Robert Aldrich took office last fall was a 12-year-old boy being held for juvenile authorities. He slipped out through an 8-by-14-inch food slot in the cell door and then through the cell block door which Aldrich left open for better ventilation for the jails lone inmate.

Reds Sentence Spies To Death

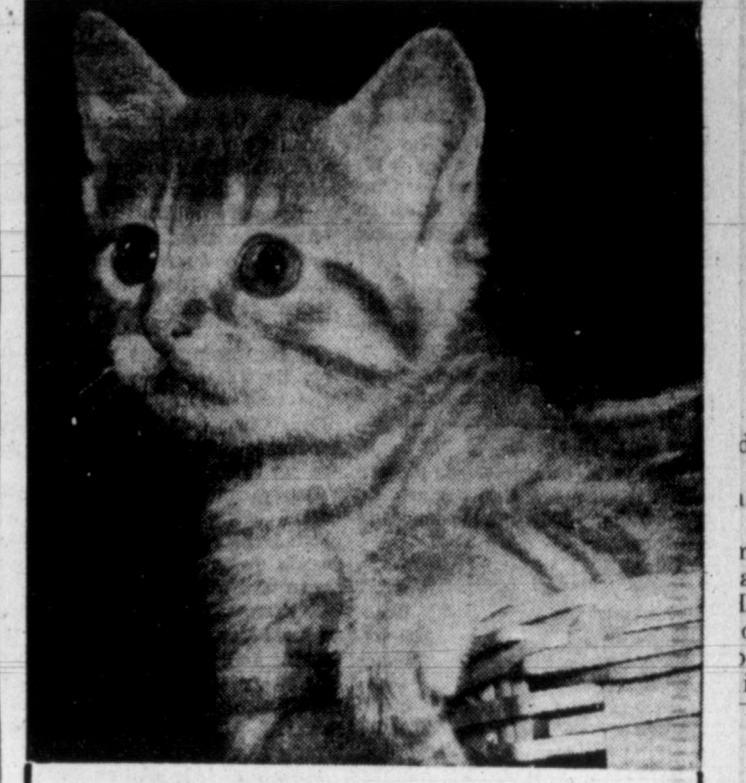

LONDON—UP—Communist China has passed the death sentence on two "spies" air-dropped into the country from a plane "piloted by an American," Moscow Radio said Monday.

The Moscow Radio broadcast of a Tass News Agency dispatch from Peking said: "The Canton newspaper Nan Fang Jih Pao reports that the Kwantung Province Peoples Court has passed the death sentence on

two Chinese who were spying for the Americans. "Both accused were former officers of the Chiang-Kai-Shek army."

Graham Talks With Niemoeller DARMSTADT, Germany—UP—American evangelist Billy Graham conferred for an hour Monday with outspoken German pastor Martin Niemoeller.

Graham said later they discussed the "overwhelming" response of the German people to his crusade for Christ.

He said the six one-night revival meetings in Germany were the most successful of his current European crusade, even exceeding his longer tour of Britain in proportion of response.

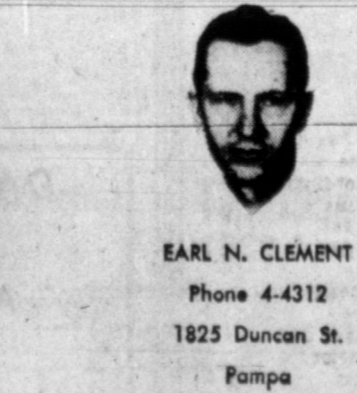

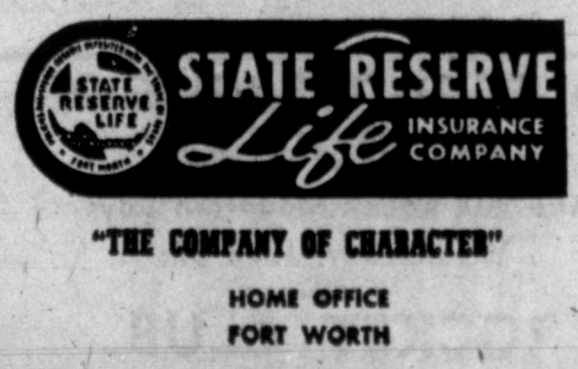

The American Baptist minister will conclude his German tour at Dortmund, in the Ruhr, Tuesday night.

Graham said he and Niemoeller discussed the reviving religious spirit in West Germany. The former German submarine commander who has been in and out of public controversy since he first tangled with Adolf Hitler 20 years ago, participated in Graham's first German rally last week in Frankfurt.

Fans Mourn Death Of Red Sox Star

Harry Agganis as a Boston Red Sox

BOSTON—UP—Tributes from across the nation poured in Tuesday for Red Sox first baseman Harry Agganis who died unexpectedly Monday while apparently recovering from an attack of pneumonia.

A player delegation was to be named Tuesday to attend funeral services Tuesday afternoon at Greek Orthodox Church in Lynn, his home town.

Red Sox General Manager Joe Cronin sought postponement of a Thursday game with the Nationals in Washington, but the plan was abandoned because the game will benefit charity.

Red Sox players in Washington for a double header Tuesday night, were issued black mourning bands to be worn on the left sleeve for 30 days in memory of the 25-year-old player.

"The Red Sox baseball organization and the world of sport, especially fans of Lynn, Boston and all New England have lost an outstanding athlete and a young man of great character," Red Sox owner Tom Yawkey said at Georgetown, S. C.

"We're terribly shocked and terribly sorry," Hank Greenberg, general manager of the Cleveland Indians said.

Big Spring Rookie Whiffs 18; Selbo Clouts Grandslam HR

By UNITED PRESS
Art DiCesare, a 22-year-old ex-Marine from Bronx, N. Y., and a Longhorn League rookie pitcher Monday night set a new league strikeout record for Big Spring as he fanned 18 Artesia batters.

DiCesare's feat snapped the old record of 17 set in 1948 by Freddie Rodriguez and tied by Julio Ramos in 1949. Rodriguez and Ramos also pitched for Big Spring. DiCesare now has struck out 120 batters, nearing the halfway league mark of 243 set by Ramos for the 1949 season.

Big Spring, behind DiCesare, beat Artesia 9 to 4. In other games, Midland outslugged Roswell 17 to 15, and Odessa beat Hobbs 11 to 5.

The San Angelo - Carlsbad game was rained out.

Tuesday night San Angelo plays a doubleheader at Carlsbad, Roswell at Midland, Artesia at Big Spring and Odessa at Hobbs.

DiCesare was backed by three home runs—hit by Bob Martin, and Jim Zapp — and limited the Numexers to nine hits. DiCesare, whose record is now 8-4, retired the side in strikeouts in three innings. Tom Hubert, now 4-2, was the Artesia loser.

Glen Selbo hit the only home run for Midland, a grand-slammer, but the Indians beat Roswell, 10 to 3. Soto was the winning pitcher, with the Rockets' Al Chester taking the loss. Soto's record now is 10-5. Joe Bauman hit two homers and Pete Traina one for the Rockets.

Sports Afield

When hunting big game a sportsman often comes on small game that would make a toothsome addition to the pot. Or he may see a small fur bearer whose pelt he covets. Unfortunately, the full charge of a big rifle would blow them up with nothing left for the table or taxidermist.

Of course, there may be fleeting opportunities for cutting the heads off edible small game with the big rifle, but these do not occur often, and the noise of the heavy cartridge would alarm big game in the vicinity. A shotgun or a .22 rifle could be used, but the former has the disadvantage of noise, and both make another gun to tote along.

Another possible solution is a reduced, small-game load for the big rifle. Col. Townsend Whelen has used this with much success in Canada, but cautions that such loads have two disadvantages. The sight adjustment must be changed, and the report is usually much louder than is desirable in big game country. Also the expense of reloading tools and of experiments to develop a suitable reduced load excels the price of a good handgun.

The solution seems to be a light, high grade .22 caliber pistol or revolver. It is easily and conveniently carried while hunting with the big rifle. Besides pot meat, it will account for varmints including snakes, and can be used for killing large fish not protected by law. It is also ideal for the casual plinker. The .22 long rifle cartridge has excellent killing effect, and its report is not too loud.

The best models for such use are light weight pistols and revolvers for the .22 long rifle cartridge, with adjustable target rear sights. The short 4 1/4-inch barrel is slightly preferable to the 6-inch barrel.

Whelen regards adjustable target sights as being absolutely necessary on such a weapon, indeed for any handgun that is to be interesting and satisfying to shoot. To kill small game surely and neatly you must hit it in a vital spot, just as in target shooting you must hit close to the 10-ring.

CATS PICK CRAZIEST MATERNITY WARD SPOTS

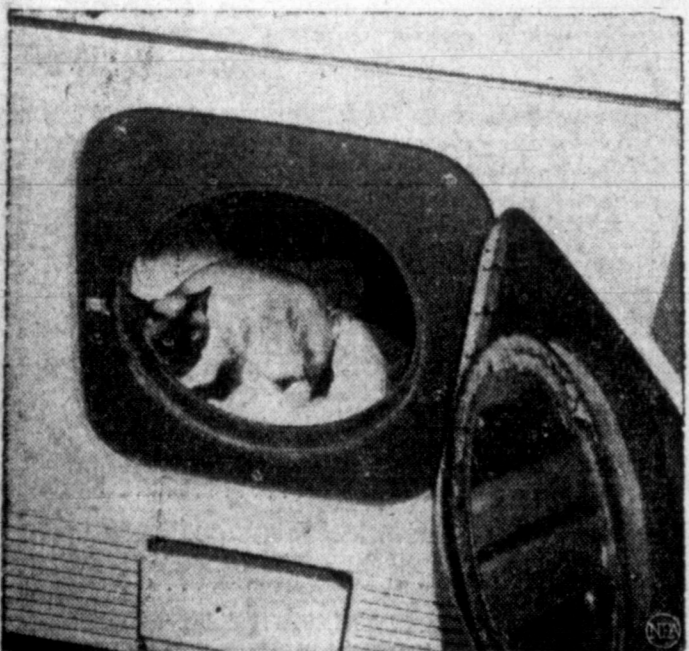

Anyone who owns a female cat knows that there's no use fixing up a nice, soft nest for her accouchment. Do that and likely as not she'll have her kittens in the farthest corner of the cellar on top of the coal pile. The trio of new mama cats pictured below, all in Kansas, are typical of the feline instinct for doing things the hard way.

ROLL-A-BYE BABY -- One of the cars of a miniature train operated for children at Forest Park, Parsons, Kans., was chosen as her "maternity ward" by a stray cat that had been hanging around the park most of the winter. Having a firsthand look at the feline family is David Forbes, 7, who lives nearby the park.

SCIENCE, ILLUSTRATED -- It happened at rural Obee School, Hutchinson, Kans. Science teacher William Turner suggested that students bring animals to class so they could be discussed. Opportunity presented itself to Marjorie Sutton, left, Reta Burkitt, center, and Kathleen Edwards. Outside the school and trying to get in was a big yellow cat. A tomcat, the girls thought. They brought it inside and put it in the cloak-room closet until time for science class. But when the girls went to get it, they found it was no tom -- it was having kittens. Here the girls look over the mama cat and the four newcomers.

WARM NEST -- Not satisfied with the box the Melvin Dunkin family of Kiowa, Kans., fixed up for her when time was approaching for her to have her kittens, their Siamese found a dryer was open and the next thing the Dunkins knew the pet had installed herself comfortably, awaiting the big moment.
