

State House Committee Eyes Juke Box Industry

AUSTIN, Tex. (AP) — The House General Investigating Committee is looking into the juke box industry and may ask its senate counterpart to join in.

It would be on the basis that both the house and senate are interested in the whole subject matter of it—whether we need some news laws or whether the (vending) commission itself needs some investigation or some of the appointees,

State Supreme Court Weighs Candidate Case

AUSTIN, Tex. (AP) — Lawyers for Rusk mayor E. H. Whitehead told the Texas Supreme Court Wednesday that he should be allowed to run for the legislature.

The 1969 legislature failed to enact tough laws on vending despite recommendations of a previous investigating committee. The 1971 legislature estab-

Houston Homeowners Pay Higher Insurance Premium

AUSTIN, Tex. (AP) — Houstonians, while not particularly subject to hurricanes, pay more for their house insurance because of the damaging Gulf Coast windstorms.

extended coverage insurance than other Texans because of past hurricane losses and the threat of future big blows.

Her Double Life

finds Carolyn Muellbauer busily at work as a secretary at the University of Chicago during the day and busily demonstrating the finer points of the belly dancer's art evenings. But it's still in the line of education. She teaches the classic Middle Eastern dance form at Chicago YMCAs. Carolyn, who picked up the technique from Egyptian friends during her own student days, says it is still a great way to keep in shape.

Nixon's Phase II Will Reduce Texas Home Insurance Premium

AUSTIN, Tex. (AP) — Phase II will reduce homeowners' insurance rates for hundreds of thousands of Texans, the State Insurance Board said Wednesday. For many others, President Nixon's anti-inflation policy will keep premiums for insurance on houses and businesses from rising as high as they might have. The board sets the rates for all such coverage and is bound by U.S. Price Commission guidelines. Final rate changes were left up in the air because the board has not assessed the full impact of all limits imposed by the price commission. Board chairman Larry Teaver said he hoped the board could issue new rates by May 1, effective June 1—a month earlier than usual. The price commission ordered a 37.5 per cent cut in the board's "trend factor" that nudges indicated rates a little higher to enable insurance

companies to keep up with inflation. The results were dramatic. For example take the sprawling Central Inland Territory, which includes Dallas, Fort Worth, San Antonio, Austin, Waco and El Paso. The usual rating would have pushed up rates for homeowners' policies by 5.9 per cent. But because of the price commission guideline, the board indicated rates will fall by at least 2.1 per cent. An indicated homeowners' policy rate increase fell from 32.4 per cent to a 22.4 per cent in the Seacoast Territory, which includes Houston, Corpus Christi, Galveston, Beaumont and Port Arthur, because of the guideline. Homeowners' rates in the North-Northwest Territory would have risen at least 1.8 per cent but instead were cut by a minimum of 5.9 per cent because of the anti-inflation rules, the board said. The territory includes Abilene, Midland, Odessa, Lubbock and Amarillo. Most fire and extended coverage rates will increase, but the rise will be lower than expected because of the price commission limits. "The final rates will have to be even lower than this," Teaver said, because of other price commission guidelines the board has not yet evaluated. Teaver indicated the price commission would require the board to lower the amount allowed for company expenses, including profits and acquisition costs. Taking into account the price commission limit on the inflation trend factor, these rate changes were indicated by the board: Fire—3 per cent statewide increase on dwellings, with a 2.1 per cent average boost for other buildings. Homeowners'—Seacoast Territory, 22.4 per cent increase; central Inland Territory, 2.1 per cent reduction; North-Northwest Territory, 5.9 per cent decrease. Extended Coverage—Seacoast Territory, average 35.4 per cent increase; Central Inland Territory, 5.5 per cent increase; North-Northwest Territory, one tenth of 1 per cent increase. Actual rates will vary according to construction and use of individual buildings. Hurricane Celia was mainly responsible for the sharp rise in indicated rates for the Seacoast Territory. An insurance company spokesman indicated his industry fears the board might go further than required by the price commission in cutting back its inflation factor.

People In The News

OSLO (AP) — The Berrigan brothers are among 45 candidates proposed for the 1972 Nobel Peace Prize. August Schou, the Nobel institute director, announced Tuesday that the American antiwar activists, Philip and Daniel Berrigan, both Roman Catholic priests, are on the list. Both are in federal prison for destroying draft records. Others nominated include a woman—Dr. Elise Ottesen-Jensen, 86, Swedish family planning expert—and Brazilian Archbishop Dom Helder Camara, who has accused the military regime there of committing torture. The 1971 peace prize went to West German Chancellor Willy Brandt.

Rudolph Bing, who is retiring as general manager. Levine, who made his Metropolitan debut during the 1970-71 June Festival conducting Puccini's "Tosca," is a native of Cincinnati.

PETROS, Tenn. (AP) — James Earl Ray, who pleaded guilty to the murder of Dr. Martin Luther King Jr., will spend 30 days in a disciplinary cell at Brushy Mountain State Prison as a result of his second unsuccessful escape attempt. "We think there might have been someone else... working with him," Warden Robert Moore said Tuesday, "but there is no way to implicate another prisoner. Ray was caught alone—and he's not telling anything."

PHOENIX, Ariz. (AP) — Pablo Casals, the 95-year-old cello virtuoso who last appeared in Phoenix in 1901, has accepted an invitation to conduct a concert here March 30, according to the Arizona Republic. Casals has rarely appeared in the United States because of his long-standing objection to U.S. recognition of the Franco government in Spain, where he was born and left in self-exile. Takayori Atsumi, principal cellist for the Phoenix Symphony and founder of the Arizona Cello Society, told the newspaper Tuesday that Casals had confirmed the appearance in a letter.

NEW YORK (AP) — James Levine, 28-year-old assistant conductor of the Cleveland Orchestra for six years, will become principal conductor of the Metropolitan Opera next year. The appointment was announced Tuesday by the opera company's general manager, Goeran Gentele, and its new music director, Rafael Kubelik. No one has the title of principal conductor at the Met under the present practice of

Simulated Moon Flight Staged By Apollo Crew

SPACE CENTER, Houston (AP) — Apollo 16 Commander John Young smoothly performed a simulated lunar landing in a wingless training craft that looks like a flying bedstead Wednesday, and then told newsmen he was ready to try it on the moon. Young made the practice hop aboard the lunar landing training vehicle, a rocket and jet powered craft that imitates the flight of the Apollo Lunar module in the low gravity of the moon. Young started the five-minute flight by lifting slowly from a runway at Ellington Air Force Base. Riding the thrust of a turbofan jet engine upward to 400 feet, Young guided the craft across a grassy field to another runway. Then he switched on a jet engine that sent a long tail of steam billowing toward the ground. This engine supported five-sixths of the weight of the LLTV and two lift rockets, controlled by Young supported the remaining weight. The combination of thrust from the three rockets gives the feeling of flying in the moon's gravity, which is only one-sixth that of earth. With stabilizing thrusters spitting out pulses of steam, Young guided the LLTV in a long arcing fall toward the concrete runway. He brought the craft to a light landing about 500 feet from where he started. "This lunar simulation

really impresses upon you the slow deceleration characteristics of the lunar gravity," said Young afterward. He said the falling motions in lunar gravity are a lot slower and "take some getting used to." "Without this vehicle you would sure end up with a lot less confidence in landing on the moon," he added. It was the 30th LLTV flight for Young and he said "I have felt ready (for the moon flight) for months now." Young and astronauts Charles Duke and Thomas M. Mattingly will be launched toward the moon on April 16. Young and Duke will land near a lunar crater called Descartes while Mattingly stays in orbit. He said they will drive the lunar rover, a battery-powered mooncar, up the side of a steep mountain and to the very rim of a crater the size of the giant crater in Arizona. The LLTV Young flew is the last of a fleet of four which space agency used to train moon-bound spacemen. Three others crashed during training flights but the pilots all escaped safely. An official said that after the last moon mission, Apollo 13 in December, the LLTV will "probably end up in the Smithsonian as an aeronautical oddity."

Connally Defends Job-Creating Plan Before Congress

WASHINGTON (AP) — Secretary of the Treasury John B. Connally defended Nixon administration job-creating policies before Congress Wednesday but said reaching a goal of 4 per cent unemployment without inflation "will be extremely difficult." The present unemployment rate is 5.9 per cent of the labor force and Connally repeated administration assurances that rate will be cut back to 5 per cent by the end of the year. In testimony before the Congressional Joint Economic Committee Connally said also the administration plans to ask for no tax increases or new taxes—including the controversial value added tax—during 1972. Nixon administration has said 4 per cent unemployment is an achievable goal. Connally said he believes there is a good chance of bringing the inflation rate to below 3 per cent by the end of the year and he called the wage-price freeze a "resounding success." "But at present we are seeing the price bubble that was expected in the first months after the freeze." "Once this interim period is behind us—in a month or two—we can begin looking for the true impact of the Phase 2 controls," Connally said. Europe's busiest river is the Rhine. More than 220 million tons of cargo move on it each year.

Apollo 17 Moon Voyage Will Take Place Dec. 6

SPACE CENTER, Houston (AP) — Apollo 17, the last planned manned mission to the moon, will be launched on Dec. 6 and it's scheduled to land in a moon mountain valley thought to be filled with volcanic ash, the space agency announced Wednesday. The landing point will be in the center of the upper right quarter of the moon, as viewed from the earth, several hundred miles north of the Apollo 11 landing site. The landing site is named Taurus-Littrow for the nearby Taurus mountains and for the crater Littrow. Scientist and engineers made the site selection from high resolution photographs taken during Apollo 15. Officials said the site offers a combination of rugged terrain—with rugged mountains and cliffs, a spectacular rock slide, the flat dark valley thought to be volcanic material, and nearby peaks thought to be volcanic cinder cones. Launch of Apollo 17 should be spectacular. The launch is scheduled for 9:38 p.m. (est) and will be the first Apollo blast off at night. Apollo 17's crew will include the first academically-trained geologist, scientist-astronaut Harrison Schmitt, Commander of the mission will be veteran spaceman Eugene Cernan, and the third crewman is space rookie Ronald E. Evans. Cernan and Schmitt will land on the moon while Evans remains in orbit. Cernan and Schmitt will use a lunar rover car to visit a number of geology investigation sites on the moon. Presence of possible volcanoes near the site makes particularly attractive scientists. If the peaks are in fact cinder cones, then scientists expect there will be rocks near the landing site which were brought up from great depths. These would be the first good samples of material from deep within the lunar interior. Apollo 17 will also carry a new surface experiment, one of which will be powered by an atomic station left on the moon. Two of the experiments, seismic profiling device and surface electrical property device, will measure physical properties of the moon down to about a kilometer and should be able to detect underground water, if it exists. Other new experiments include a traverse gravimeter which measures variations in subsurface structure; the tidal gravimeter, to study the moon's response to the tidal pull of earth; a mass spectrometer to analyze the lunar atmosphere, and a meteorite experiment which will measure the frequency of meteorite impacts on the moon. New Brunswick was given its name from the House of Brunswick, ruling England at the time the province was established in 1704.

HISTORICAL DISH--Spitted or roasted chicken with winter sauce was Washington's delight. At Mount Vernon, chickens had their own house and tender broiler-fryers were available only in the spring.

George Washington Chicken With Sauce

By AILEEN CLAIRE
 NEA Food Editor

Chicken has had a special place on the American table from pre-Revolutionary days. It was a chief ingredient, too, for many favored dishes of George Washington. At lovely Mount Vernon in Virginia, chickens had their own house among the row of adjacent buildings called "dependencies." In those historic days tender, young broiler-fryers were available only in the spring when the flocks were culled.

At this time Martha Washington and her cooking staff turned out tender chicken treats such as Chicken with Winter Sauce and superb chicken pies. The appreciation of chicken dishes hasn't waned since Colonial days.

WASHINGTON CHICKEN WITH WINTER SAUCE

Sprinkle body cavity of whole 3½-pound broiler-fryer chicken with 1 teaspoon salt. Hook wing tips onto back to

hold neck skin. Tie legs together and then to tail. If using rotisserie slide chicken onto rotisserie spit with legs downward. Brush chicken with melted butter or margarine. Roast 1 hour or according to manufacturer's instructions or roast in 375-degree oven 1 hour and 45 minutes in shallow pan. Chicken should be brown and drumstick should feel soft when pressed with fingers and twist easily out of thigh joint. Remove chicken from spit or oven to heated platter. Serve with Winter Sauce. Makes 4 servings.

WINTER SAUCE

- 1 can (1 pound) whole cranberry sauce
- 3 cup raisins
- 1/4 teaspoon salt
- 1/2 teaspoon dry mustard
- 2 tablespoons water
- 1/4 cup chopped hazelnuts or walnuts

Heat cranberry sauce in small saucepan until melted. Stir in raisins, salt, dry mustard, water and hazelnuts.

Spicy, Rich Congo Cabbage Is Treat

By AILEEN CLAIRE
 NEA Food Editor

Cabbage is thought to be one of the oldest forms of vegetable grown. It is mentioned as far back as 4,000 years ago. Spices and herbs also are ancient by our earthly calendar. Put cabbage and some tropical spices together and you have a special treat. For example, Africans are noted for their use of tropical spices such as cloves, cinnamon, cardamom, ginger, sesame seeds and thyme. Eating and cooking what the land offers is a way of African life. An African example of spicing a vegetable such as cabbage may include seasoning with onion-flakes, ginger and ground red pepper (from the New World). Shredded coconut adds richness and crunch to this different treatment of an old mealtime friend.

CONGO CABBAGE (Cabbage with Coconut)

- 1/4 cup onion flakes
- 2 tablespoons water
- 2 teaspoons oil
- 1 small sliced tomato
- 1/4 teaspoon ground ginger
- 1/4 cup shredded cabbage
- 1/4 cup beef broth
- 1/2 teaspoon salt
- 1-16 (teaspoon ground red pepper
- 2 tablespoons shredded coconut

Mix onion flakes with water; let stand 10 minutes to rehydrate. In a medium skillet, heat oil. Add rehydrated onion flakes, tomato and ginger; cook 3 to 5 minutes. Add shredded cabbage, beef broth, salt and red pepper. Cover and simmer 12 to 15 minutes or until cabbage is tender; stirring occasionally. Add shredded coconut. Serve with rice and meat. Makes 4 portions.

Marketing Guide

COLLEGE STATION--"When going to the grocery store, most people can improve their shopping efficiency by making a list of food items they need," said Gwendolyn Clyatt, consumer marketing specialist for the Texas Agricultural Extension Service.

Mrs. Clyatt said to include these items on your shopping list this week: cabbage, potatoes, dry yellow onions, carrots, bulk turnips, rutabagas, hard shell squash, eggplant and cauliflower.

"Some salad ingredients cost a little less this week than they have," Mrs. Clyatt claimed. "Head lettuce prices are down a bit."

Citrus fruits dominate fruit counters, with Texas-grown grapefruit an excellent choice, according to Mrs. Clyatt. "Grapefruit of medium size, sold by the bag generally offers the best value. Oranges, tangelos, tangerines, apples, bananas and pears are also good choices price-wise."

"Many markets feature fryer chickens, both whole and cut-up parts. Beef prices remain about the same as the past few weeks. In general, the best values are round steak, chuck roast and steak, ground beef and beef liver. Pork prices are good, and best values may be found on picnic ham, Boston butt roast, shoulder steak, pork liver and loin and rib chops."

"Eggs continue to be a good buy," the specialist said.

"Grade A large eggs continue to be a good buy," the specialist said. "Grade A large eggs offer the best value."

MEAT TREAT--Shabu-Shabu, an easy-to-make Japanese dish, features lean meat and vegetables cooked in boiling broth. It is great for entertaining guests with a Japanese fondue party.

Japanese Dish Is Simple, Nutritious

By AILEEN CLAIRE
NEA Food Editor

Japanese meals characteristically are simple and nutritious. Usually they consist of lean meat, pork, shrimp or fish and fresh vegetables. Those with new fondue units will enjoy the conviviality of entertaining guests with a Japanese fondue party. Cooking Shabu-Shabu is easy. Each guest dips his piece of beef or vegetable into a boiling broth. Topping off the meal is a cup of fine noodle soup made with the remaining broth. There is little work for the hostess in preparation or cleanup.

SHABU-SHABU

- ... 4 cups chicken or beef broth
- ... 1/2 cup sherry
- ... 2 pounds tender boneless beef, thinly sliced
- ... 1 Bermuda onion, sliced
- ... 1/2 head Chinese cabbage, cut in segments
- ... 1 bunch watercress (or 1/2 pound spinach)
- ... 1/4 pound fresh mushrooms.

sliced
... 2 cups fine noodles, uncooked
Pour broth and sherry into base of automatic fondue. Position tray and rack. Plug unit into outlet. Bring broth to a boil. Have beef and vegetables arranged on a platter, noodles heaped in a bowl. To serve, beef and vegetables are dipped into boiling broth and cooked to taste, then dipped in sauce. When all the meat and vegetables are eaten, add the noodles to remaining hot broth and cook until tender, about 3 minutes; serve in cups or small soup bowls. Makes 4 servings.

PONZU

(Soy and lemon sauce)
Thoroughly mix 1/2 cup soy sauce, 1/2 cup lemon juice, 1 teaspoon instant minced onion, and 1 or 2 dashes Tabasco. Let stand for about 30 minutes, then serve at room temperature. Makes about 1 cup.

Many Women Have Deficiency Of Iron

By GAYNOR MADDOX

There are literally millions of American Women who feel tired most of the time, are pale, short of breath and appear generally listless. These signs can point to a nutritional disease, namely iron deficiency anemia.

Lack of enough iron in their blood also is hampering countless teenage girls, child-bearing age women, and many young children from acting fully alive. Fortunately something is being done to ease this situation.

The Food and Nutrition board of the National Academy of Sciences in Washington, D. C., appointed a panel of experts in iron deficiency diseases to seek ways of improving the diet of sufferers. Its chairman is Grace A. Goldsmith of the School of Public Health and Tropical Medicine, Tulane University.

The result of their discussions was the proposal to increase the iron content of enriched flour enough to make it possible for the average woman and child to get 18 milligrams of iron daily by eating bread, rolls or related products. The 18 milligrams a day is the amount needed for the prevention of iron deficiency anemia.

In December the Food and Drug Administration published in the Federal Register a proposal to increase the iron intake of consumers by increasing the iron content of enriched flour. This means that bakery products made with enriched flour, including products baked at home, would have additional iron content. This proposal follows the recommendations of the Food and Nutrition Board of the National Academy of Sciences.

"It's difficult for women who are menstruating or are pregnant to get enough iron from their diet to meet requirements to compensate

for blood loss or for the growth of the embryo. At present, there are about 6 milligrams of iron in 1,000 calories of what might be termed an average American diet. Since most women cannot eat much more than 2,000 calories without excessive weight gain, it is very difficult for them to obtain 18 milligrams of iron from ordinary diets. This amount is needed for the maintenance of normal iron stores and the prevention of anemia," says Dr. Goldsmith. She continues: "The term 'availability of iron' means merely that the iron in the diet is absorbed from the intestinal tract and therefore gets into the body. Enrichment means more than bringing a food back to its original nutrient content after processing. The term is used also to mean fortification of a food with several times as much of a nutrient as that which was present originally. "It is anticipated that further enrichment of cereal products with iron will make it possible for women, teenage girls and young children to obtain as much as 18 milligrams a day in their diet." Dr. Goldsmith says.

Flavorful Yams

HONEY ORANGE YAMS

- The main ingredient is a pantry-shelf item.
- 1/4 cup butter
- 1-3 cup honey
- 1 teaspoon grated orange rind
- 1/2 cup orange juice
- 1-8 teaspoon salt
- 2 cans (each 1 pound) whole yams drained

In a 10-inch skillet heat the butter, honey, orange rind, orange juice and salt; boil gently for 10 minutes. Add yams; continue boiling gently, turning yams once midway, until most of the syrup is absorbed and the yams are hot -- about 10 minutes. Makes 6 to 8 servings.

And so it's off to the showers for the end of another glorious day.

Americans Concerned About Economic Issues

NEW YORK (AP)—American interest in the news shifted to the problems of daily living in 1971 after 25 years of preoccupation with foreign affairs. Associated Press General Manager Wes Gallagher said Wednesday.

"News of the U.S. economy, inflation, unemployment, ecology and local problems took first place in reader and listener interest, perhaps for the first time since World War II," Gallagher said in his annual report to The Associated Press membership.

This was not an isolationist trend, Gallagher pointed out, but the result of the pressure of daily living where inflation, higher taxes, education, crime and many other problems preoccupied the average American citizen.

The Vietnam war, India-Pakistan, the President's trip to China and other international events still captured attention, but the daily priorities were closer to home, he said.

This shifting interest to local, state and regional news was shown in the play by members of stories telling how national or state government policies affected the average man's taxes, his cost of living, his ecology, his school systems and his personal well-being, Gallagher reported.

He announced the installation and operation of eight of a planned nine computer centers during 1971. The last center was to be completed in early 1972. Completion of the centers was marked by operation and installation of the largest system of Cathode Ray Tubes in use for editing and writing in journalism today.

"Each hub served a group of states and its sophisticated technology obliterated the old mechanical problems of moving copy across state barriers," Gallagher said.

"Such flexibility," Gallagher said, "fostered the development of much specifically regional enterprise."

Gallagher's report was mailed to members in advance of the AP's annual meeting in New York on Monday, April 24.

To help cover the year's big domestic story—the economy—the AP assigned a team of experts in Washington to monitor developments. Their accounts were leavened with grassroots viewpoints gleaned by bureaus across the country.

As examples, he cited articles on the counterculture, urban problems, the armed services, the emerging biological controls on life, the environment, integration and drugs in America and Southeast Asia. In the foreign field, Gallagher said the AP bureau in Pakistan established in 1969 came into its own last year. Men on the scene, including Bureau Chief Arnold Zeitlin, gave AP a jump on the stories of the crackdown on the Bengalis, the flight of the refugees from East Pakistan to India and the war with India.

"Weekly roundups by these and other specialists were produced to provide continuity and perspective, and to follow up on the practical results of policies as administration measures poured from the White House and the executive agencies," Gallagher said.

In addition, AP analysts wrote background and explanatory articles translating global and national economic events into consumer news for Americans.

Gallagher said that a concerted program of news enterprise, covering the effect of social and political developments on the quality of American life, made up about 30 per cent of the AP news report in 1971.

Gallagher also noted that the trip by John Roderick of AP's Tokyo bureau to Red China was the first time in 22 years that an AP man was in mainland China.

The Vietnam story tapered off, Gallagher said, but became more difficult to cover with Vietnamization.

"As American involvement in the fighting waned, the Saigon staff kept focus on the remaining troops and how they fared in the twilight of the war," Gallagher said.

He noted that Henri Huet, "a talented photographer who had contributed often to the news report," was the fourth AP man to die in the war. He was killed in Laos in February.

In the technical field, Gallagher noted that the AP had 44 Cathode Ray Tube-CRT-terminals in operation early in 1972, making it the biggest user of such advanced technology.

The CRT is a typewriter-like device which enables a newsman to view his composition on a TV screen as he writes and edits. Once copy has been proofread, it can automatically be transmitted to the computer and thence on to the wires with the touch of a button.

Chicano Group At WTSU Observes Awareness Week

CANYON—What is it like to be a Chicano?

The Chicano Club of West Texas State University will give Panhandle area residents and WTSU students an opportunity to learn first hand this week about barrio culture during its Chicano Awareness Week Tuesday through Thursday.

Gilbert Chavez, director of the Office of Spanish Speaking Affairs of the U.S. Department of Health, Education and Welfare, will speak at 7 p.m. Tuesday in the Activities Center ballroom on campus.

A banquet honoring Chavez will precede his address at 5 p.m. in the Green Room of the East Dining Hall. The dinner is \$2 a plate, club officials said.

Other highlights of the convention include Chicano dances, plays, films, talk sessions, lectures and a Mexican buffet.

Ignacio A. Mendoza, Jr., Big Spring Junior and Club President, said the Convention is an attempt to "let people everywhere know what the Chicano has done and what he is doing."

"To the Chicano we are saying, 'Come see all you have to be proud of.' To everybody else we are saying, 'We want to be with you if you want to be with us. Here's a taco, how about a hot dog?'"

The activities are but a local manifestation of the Chicano "movimiento," club members said. This movement, although alive since the latter part of the 1950's, has only recently made the headlines.

Opposed to many of the militant activities of Chicano extremists, club vice president Manuel J. Orono, Pecos junior, said the club is interested in promoting Chicano culture and gaining more representation in

political and academic spheres through "peaceful and positive means."

Other events Tuesday included a lecture by Rev. Antonio Gonzales of Plainview in the Activities Center ballroom, followed by a film, "Mexican-American Heritage."

A Mexican buffet was served Wednesday in the Canyon Community Center at \$2.25 a plate. "Chicanos—the living and the Dead" will be presented by the Lubbock Young People, regional acting troupes, at 7

p.m. in the Intimate Theater, Fine Arts Building.

Rev. Jacinto Alerete, director of the Wesley Community Center in Amarillo, and Mat Reveles will lecture at the play.

Paul Abalos, emcee for a local Chicano television variety program, and Lt. Col. John Childs, professor of military science at WTSU, will talk at 4 p.m. Thursday in the AC ballroom. Jerry Garza, college placement specialist from Lubbock, will speak at 6:30 p.m.

The week's activities will end with a dance at 7:30 p.m. in the AC ballroom.

Stone Fragment Solves Olmec Monument Riddle

WASHINGTON (AP)—An archeological jigsaw puzzle has been solved with the discovery in Mexico of the stone fragment missing from an ancient burial monument.

The National Geographic Society announced the finding Tuesday and said it confirms that the monument bears the oldest recorded date in the New World, an inscription equated to 31 B.C.

The monument was built by the ancient Olmecs who first appeared in Middle America about 1200 B.C., the society said.

The missing fragment was unearthed by a farmer near the small village of Tres Zapotes in Mexico's Veracruz State, the announcement said, adding:

"It matched perfectly the broken stela grave-stone uncovered by archeologist Mathew W. Stirling while on a National Geographic Society-Smithsonian Institution expedition at the same site in 1939."

And the society quoted Stirling, now a Smithsonian research associate, as saying:

"There was always a doubt about the date on the broken monument. This new fragment demonstrates beyond any question that our original date reading was correct and the stela predated the Mayas."

The monument is inscribed with a bar-and-dot calendar which Stirling said the Olmecs devised.

Declaring the original, broken monument had a "fierce-looking monster face" carved on one of its sides, the society said the new-found fragment now adds "the 'flame eyebrows' and ornate headdress common in Olmec sculptures."

The Olmecs, the report added, created the first great art style in Middle America.

"Since there were no metal tools in Middle America at the time," it said, "the carving must have been done with stone and perhaps bamboo instruments. Sand probably was used as an abrasive."

Mrs. Mitchell Dislikes New Job For John

By JANET STAIHAR
Associated Press Writer
WASHINGTON (AP)—The country needs John N. Mitchell more than President Nixon does, says Martha Mitchell, loquacious wife of the attorney general.

"I'm not approving of his new job at all," Mrs. Mitchell said in a telephone interview after it was announced Tuesday that Mitchell is resigning his Cabinet post to direct Nixon's re-election effort.

Mrs. Mitchell says Nixon can win without her husband on the campaign team.

"I think John is more important in the Justice Department than in Nixon's administration running the campaign because he has done more for justice than has ever been done in this country," said Mrs. Mitchell.

"I am more for my country than for John to be in Nixon's re-election campaign," she declared.

Asked to list Mitchell's top achievements in Justice, Mrs. Mitchell replied: "Mainly, he has done a cleaning up of this country; he started on the Mafia; he's cleaned up the streets, and cleaned up America as a whole. This is something no one else, no one else, has done."

Although Mrs. Mitchell knew the job switch had been in the wind for sometime, she said, her husband told her of the definite move Monday night. But she said she did not discuss her thoughts about the matter with him.

"Even if I had, I assure you my feelings would remain the same," she said. "He's more important on the job he's holding now than in the job he will hold."

"But my husband is going to run the campaign," she said, "and I'm going to help him. My role is to re-elect the President, period."

Dear Abby

Psychiatrist's wife needs some advice

By Abigail Van Buren

(© 1972 by Chicago Tribune-N.Y. News Synd., Inc.)

DEAR ABBY: I am married to a psychiatrist who is a wonderful husband and father. We have two preschool children.

I suppose I shouldn't have any problems, but I find that I become very anxious and jealous when I hear of his women patients who are attractive, talented, and lead such glamorous lives. I do a little volunteer work but really enjoy being a housewife and mother.

How do I keep from feeling insecure and jealous, Abby? Should I seek the counsel of my husband's partner? Or should I confess my feelings straight to my husband who seems to help everyone else?

NEEDS ADVICE

DEAR NEEDS: You say, "I suppose I shouldn't have any problems." EVERYBODY has problems. And that includes psychiatrists and their wives. Why should you be immune? I don't recommend talking to your husband's partner. It may create the appearance of impropriety where none exists, which would be embarrassing to your husband. Instead, tell your husband exactly how you feel, and if he loves you [and I think he does], he will give you the assurance you need.

DEAR ABBY: I have been going with this guy for over a year and we have become quite serious. In fact he wants to marry me.

The problem is, before I knew him I was in an accident and four of my front teeth were knocked out and I had to have false ones put in.

I think my false teeth look natural, and several people have remarked on my "beautiful smile."

I really think I should tell my boyfriend about my false teeth, but I don't know how. Would you please help me?

NO PHONY

DEAR NO PHONY: Say, "I have a confession to make. Part of me is false. I have four false teeth. Do you still want to marry me?" [I think he'll be relieved. Twenty-eight REAL teeth out of 32 isn't bad.]

DEAR ABBY: In our office your column is often a subject of our lunch hour discussions. One in particular from the lady who spent Thanksgiving alone because she had six sons but no daughters. We all wondered what kind of relationships she must have had with her daughters in law! We all have a mother in law, and will probably be one some day ourselves, and thus we have come up with a suggested Mother in Law's prayer:

"Lord, help me to be glad when my son [or daughter] picks a mate. If he brings home a girl with two heads, help me to love both of them equally. And when my son says, 'Mom, I want to get married,' forbid that I should blurt out, 'How far along is she?'"

"And please, Lord, help me to get thru the wedding preparations without a squabble with the 'other side.' And drive from my mind the belief that had my child waited a while, she could have done better."

"Dear Lord, remind me daily that when I become a grandmother, that my children don't want any advice on how to raise their children any more than I did when I was raising mine."

"If you will help me to do these things, perhaps my children will find me a joy to be around, and maybe I won't have to write to Dear Abby about my children neglecting me."

[Signed] SEVERAL DAUGHTERS IN LAW

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90089. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abby, Box 69700, Los Angeles, Cal. 90089.

Marriage Discussed By Lutheran League

The Lutheran Women's Thomas, P. C. Kleerner, Missionary League held its Billy Hammer, A. M. Stroebel, February meeting in the home of Hilmer Heinritz, and Jerry of Mrs. A. M. Stroebel, 1831 Hildenbrand. Guests present were Mrs. Niles Tindall of Phillips, Mrs. Grace Steinke, and Mrs. William Douglas.

Mrs. Billy Hamer presented the topic entitled "Communication in Marriage."

"Patience, forgiveness, understanding and unselfishness keep open the lines of communication between husband and wife," she said. "You make this trip through life only once. You're not coming back, so why waste precious moments in hate and bitterness?"

During the business session, members voted to donate \$10 per month to Genesis House, to be used for payment of utility bills.

Members present were Mmes. Robert Lemke, John Lyle Jr., Lloyd Brummett, J. P. Carlson Sr., Leon Richter, Tom Rodgers, Melvin Clark, Harold Bruntington, Joy

HAPPY BIRTHDAY FORT WORTH, Tex. (AP)—When Mrs. Lula Black Veale celebrated her 97th birthday recently, the Texas Christian University school song would have been more appropriate than "Happy Birthday."

Mrs. Veale, who now lives in Midland, is one of a long line of TCU alumni and the party was held in the Student Center on campus.

Pamela Conner Becomes Bride Of Bob McGlaun

Miss Pamela Kay Conner became the bride of Bob Morris McGlaun of Amarillo at 7 p.m., Feb. 5, in the First Baptist Church of Pampa.

Parents of the bride are Mr. and Mrs. Raymond L. Conner, 406 Red Deer, and the bridegroom is the son of T. V. McGlaun of Borger, and the late Mrs. McGlaun.

The Ceremony
Rev. Dan B. Cameron, church pastor, officiated for the double-ring service. James Shelton, pianist, played the traditional wedding marches. Mrs. James Shelton sang "Wedding Prayer" and "How Do I Love Thee." Setting for the ceremony included candelabra, greenery and basket arrangements of white gladioli and blue carnations. Pews were marked with blue and white bows.

The Bride
The bride, given in marriage by her father, was attired in a gown styled with an empire waistline, Victorian neckline, Cinderella sleeves and an A-line skirt. All were accented with wide bands of lace.

Her cathedral veil of illusion, edged with lace, fell from a headpiece of white satin, accented with seed pearls and edged with Chantilly lace. She carried a bouquet of white carnations and baby roses, centered with a white orchid.

Attendants

Miss Kathy Lynn Henderson of Lubbock was maid of honor, and Miss Sharon Kay Poe of Amarillo was bridesmaid. Both wore identical floor-length gowns of turquoise peau de soie and carried bouquets of white gladioli and blue carnations.

Jack Vard McGlaun of Cleveland, Ohio, served as best man, and groomsman was William Allen Leonard of Amarillo. Ushers were Robert Ernest Harrington of Canyon and Wesley Allen Connor of Tulsa, Okla., brother of the bride.

Reception

For the reception in the church parlor, the serving table was centered with an arrangement of blue gladioli, blue carnations, baby's breath and blue candles.

The three-tiered wedding cake was decorated with white roses and blue flowers. Mrs. Mike Guess served the cake. Miss Lynda Conner presided at the punch bowl, and Miss Cheryl Sands presided at the coffee service. Guests were registered by Mrs. John Stafford Jr.

Others in the houseparty were Mrs. James Schaffer, Mrs. John Stafford Sr. and Mrs. Mitchell Phillips

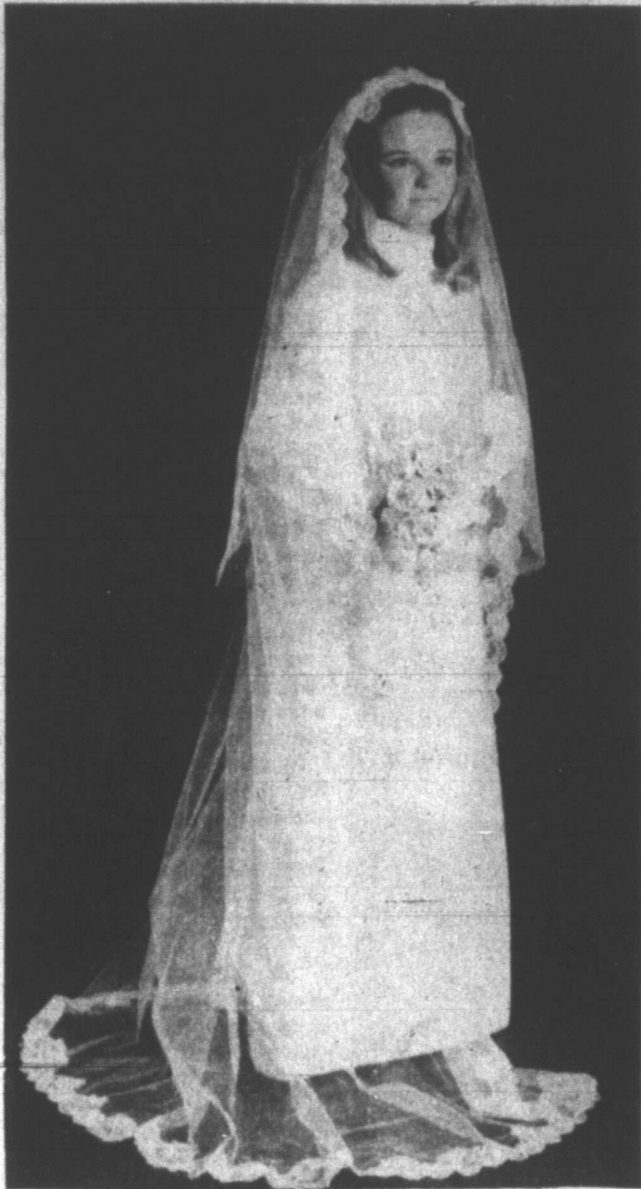

For the wedding trip to Fort Worth, the bride wore a blue velvet pant suit. Her corsage was of white roses and the orchid from her bridal bouquet.

The couple is at home at 1901 Gregory, Amarillo.

Affiliations

The bride, a 1970 graduate of Pampa High School, was graduated from Draughon's Business College in 1971. She is employed at Levi Strauss & Company, Amarillo.

The bridegroom, a 1964 graduate of Borger High School, is a data processing director at Draughon's Business College, Amarillo. He graduated in 1968 from

MRS. BOB MORRIS MCGLAUN
...nee Pamela Kaye Conner

Oklahoma State University, where he was a member of Sigma Phi Epsilon fraternity.

Out-Of-Town Guests
Out-of-town guests include Mr. and Mrs. Weldon McGlaun of Cincinnati, Ohio; Mr. and Mrs. Leroy McGlaun and Mr. and Mrs.

Shirley McGlaun, all of Lubbock; Mr. and Mrs. J. D. Ross of Ponca City, Okla.; Mr. and Mrs. W. A. Conner of Tulsa, Okla.; Mr. and Mrs. J. W. Barnett, June and Joy Barnett, all of Chickasha, Okla.; Mrs. Helen Sand, and Cheryl, of Marlow, Okla.

World Day Of Prayer Observed

St. Paul United Methodist W.S.C.S. met in the church sanctuary for a World Day of Prayer program. Mrs. Kit Autry, opened the program, using the booklet, "Open Up Your Life," by Mrs. Warren Ebinger.

Mrs. Autry stated that we should schedule our time, so that we may be able to help those who are lonely, and hungry and in need of love and attention. By opening up our lives to others, she pointed out, we will experience a deeper joy and understanding of those around us.

Mrs. S. T. Holding gave the second part of the program, quoting Emil Brunner, who wrote, "The Church exists by Mission, as fire exists by burning. To really be a Church, the Church must reach out to others."

Mrs. Wallace Rosenburg conducted the business meeting, during which plans were made for a Mexican dinner to be held in the church, Feb. 18. Proceeds will go to the Harvest Day fund. Mrs. Blanche Jordan gave the closing Prayer. Next meeting will be Feb. 23, in the parsonage, with Mrs. Rosenburg as program leader.

Present were Mmes. E. N. Franklin, Tony Smith, W. L. Fletcher, Bill Brown, Lewis Holmes, Y. E. Turnbo, Kit Autry, S. T. Holding, Wallace Rosenburg, Lucille Hill and Blanche Jordan.

Groom Baptist Circle Meets

GROOM—(Special)—The Night Circle of Baptist Ladies met in the home of Mrs. Berta Knight with Mrs. Corrine Wheeler presiding at the business meeting. Mrs. Pat Ashford read the prayer calendar and led in prayer. The program was led by Mrs. Sue Whatley.

Changeable Fashion

second way; and a third would be in a solid-color with belt and top-stitched V-neckline for the classic look. It's a winner whichever way you decide to do it!

Consult the Fashion Coordinator included in each Young Original pattern for color, fabric and accessory suggestions.

B-143 with Photo-Guide is in Sizes 12½ to 24½ (bust 34-47). Size 12½, 35 bust...3 yards of 45-inch, plus ¾-yard of contrast for collar.

Send \$1.25 for each smart Young Original pattern designed for women who sew. Write The Pampa Daily News, Box 438, Midtown Station, New York, N.Y. 10018. Print full name, address with zip code, pattern number and size.

A lovely style that can be made to look different each time you sew it. Use a pretty print with white collar for one version; then sew it in black with white front panel for that

Top creamed cauliflower with finely diced cooked ham and minced parsley. If there's green pepper in the refrigerator, you may chop it fine and use it instead of the parsley.

Install GAS air conditioning now and beat the rush that always comes with the first hot days. While everyone else is waiting on installation, central GAS air conditioning will be quietly and efficiently cooling your whole house. And another benefit of installing now is you have the time to consider the advantages that GAS air conditioning has over the other kinds.

A GAS air conditioning system is ruggedly built and operates on a simple principle. Heat from the steady blue flame circulates a refrigerant through the system to cool the air. There are fewer major moving parts and no compressor to break down or wear out. It's this simplicity that gives GAS air conditioning its low operating costs, its long life with no loss of cooling capacity, and its easy maintenance with few repair bills.

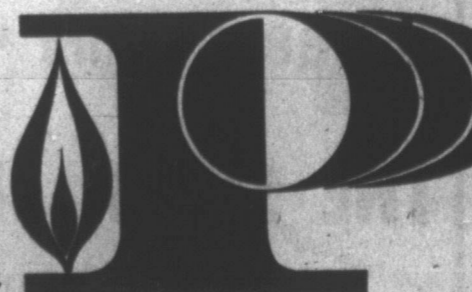

Install Gas Air Conditioning NOW?

GAS air conditioning also filters the air to reduce dust and pollen.

If you have a forced air heating system, you may be able to use the same ductwork for GAS air conditioning.

So, be foxy. Call Pioneer Natural Gas Company for a free air conditioning survey of your home or business.

Quotable Quotes

By THE ASSOCIATED PRESS

Some quotable quotes from women during the week:
"Truthfully, I prefer to stay away from the subject of women's lib. There's nothing wrong with it as long as people don't go to extremes. They lead their life and I lead mine. But winning a beauty contest does not make me a sex object."—Michele McDonald, Miss U.S.A., in an interview.

Reagan, wife of the California Governor, in a question-and-answer column she is writing for the Sacramento Union.

"I've been appalled at the incredible allowances the film industry has made for some egomaniacs who make films. I don't think such excesses are necessary. The finest artists in history are those who have been well controlled. Like Picasso."—Mary Wells Lawrence, chairman and chief executive officer of an advertising agency going into the moviemaking business.

"I guess I'm trying to fight against the pattern established when we were children, growing up with bride dolls and having mother say marriage is your goal in life. To look for another way is hard. I'm fighting against all those patterns and I'm not sure there is a better way."—Songwriter Carly Simon, in an interview.

"You have to fight very hard sometimes to keep some kind of normalcy and privacy in your life. It seems to be that the trick is to concentrate on the advantages, because to do anything else is self-defeating and negative."—Nancy

"And now maybe they won't lose so many cameramen from shock when they dolly up for a close-up of me."—Comedienne Phyllis Diller, after a face lift and a nose job.

Your Horoscope

By Jeane Dizon

FRIDAY, FEB. 18

Your birthday today: Opens a year of sudden breaks, most of them favorable despite their surprise nature. Your attention is drawn to educational programs or studies outside the schools. Local environment is important to you, may mean definite responsibility. Today's natives seem to have a favorite subject on which to gamble, are normal in other respects.

Aries [March 21-April 19]: Now is the best and perhaps last time to cover recent discrepancies in your work. Review matters as you close out the week.

Taurus [April 20-May 20]: Build for the future, don't take chances on current connections, confide little to those you're socializing with.

Gemini [May 21-June 20]: You'll be proud of your tact and tactiturnity. Clam up for once on today's influences. In passing up invitations, you give yourself time to think, while avoiding games and perhaps borrowers.

Cancer [June 21-July 22]: Concentrate on things you can handle alone; prefer fresh ventures where you have no set habits established. It's a laborious, cross-purposes sort of day at best.

Leo [July 23-Aug. 22]: Creative drives hit a delay factor. Use today's limitations for routines, mental housecleaning, maintenance.

Virgo [Aug. 23-Sept. 22]: In most social contacts it

seems you go a little more than half-way and must be satisfied with rather subtle or poorly expressed responses.

Libra [Sept. 23-Oct. 22]: Organize interviews, showings of your work, applications for changes, new jobs, etc., in this dynamic generally fortunate day. Share hobbies with friends.

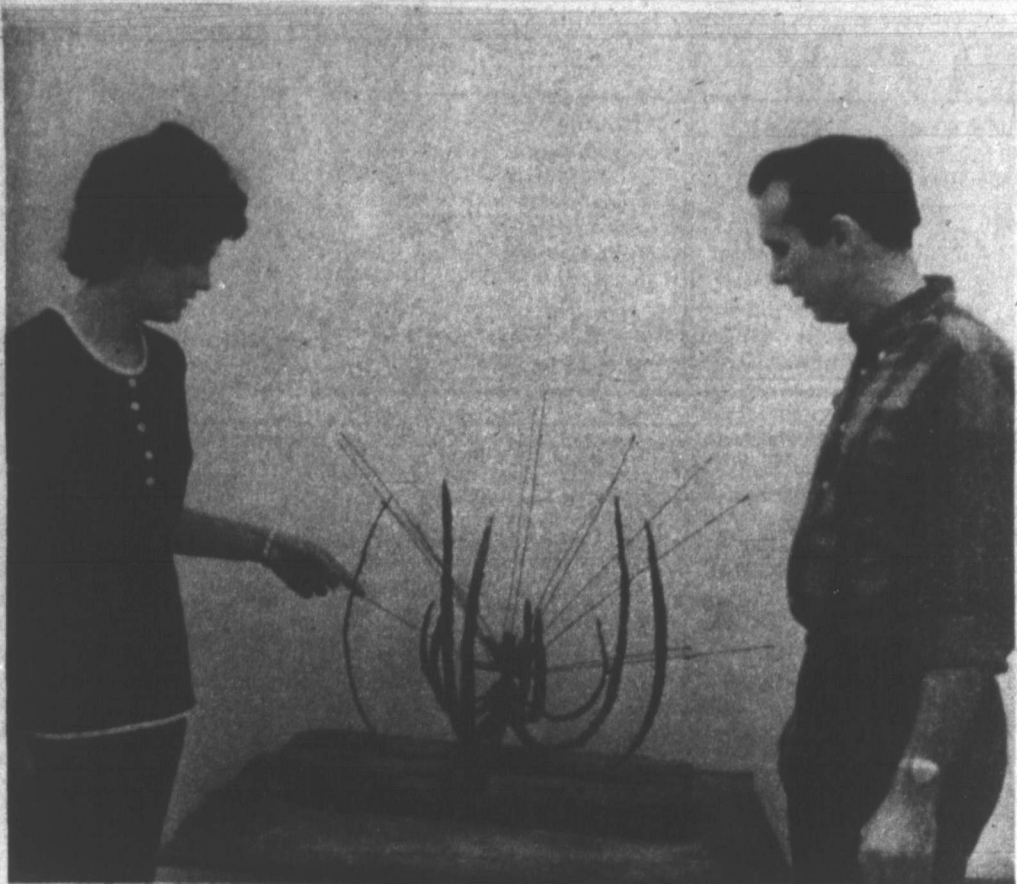

Scorpio [Oct. 23-Nov. 21]: Now the future isn't so tightly bound by what has been the case in the past. Your response to speculative possibilities may include a pennywise pound-foolish propensity.

Sagittarius [Nov. 22-Dec. 21]: Not all vivid ideas go beyond a certain critical point. Switch to something you understand, which worked out well before. Betting has a jinx on it; nobody wins but the people who run the cash register.

Capricorn [Dec. 22-Jan. 19]: Travel may be postponed or is delayed. Use the chance to sort out what is neglected in your office or home desk.

Aquarius [Jan. 20-Feb. 18]: Your system works well on general instances of your regular work, but with today's dealings, an exception requires detailed personal attention.

Pisces [Feb. 19-March 20]: Quietly go conservative with spending and investing habits. Make a survey of resources and coverage, reserves for contingencies.

DAWN--Darold Dean Smith, right, assistant professor of art at West Texas State University, Canyon, explains his metal sculpture entitled "Dawn" to Mrs. E.B. Wilkinson, member of the Pampa Fine Arts Association and Fine Arts gallery chairman, during the recent showing of Smith's works in metalsmithing, sculpture and ceramics. The showing was sponsored by the Association.

INTO THE STRETCH IT'S HUGHIE'S TROUBLE IN FRONT BY THREE LENGTHS... BERRY JERRY IS SECOND... UNCLE LEE IS THIRD...

PASSING HORSES ON THE EXTREME OUTSIDE, IT'S HURRY SCURRY... NOW SIXTH, FIFTH, FOURTH...

COME ON, HURRY SCURRY!!

THE BADGE GUYS

WOOF! WOOF! WOOF! WOOF!

CYRANO MUST BE HUNGRY!

LET'S FEED HIM! THAT WILL QUIET HIM DOWN!

WOOF! WOOF! WOOF! WOOF!

JUST OUR LUCK! NOW HE FEELS OBLIGATED TO BARK IN APPRECIATION!

THE JACKSON TWINS

IT WAS AWFUL TODAY, JIM, THAT WOMAN SAYING HOW LUCKY I AM TO HAVE ANOTHER DAUGHTER, JUST LIKE JAN? THAT IT'LL HELP ME FORGET!

IF ANYTHING, IT MAKES ME MISS HER ALL THE MORE!

I HAVE A CRAZY FEELING SHE'S DRIFTING FARTHER AND FARTHER AWAY FROM US!

MEANWHILE, SAY FAREWELL TO THE DIRT AND DANGER OF THE CITY, MY CHILDREN, AND GREET YOUR NEW PASTORAL LIFE WITH ADAM!

Lefors Girls Advance To Regional Playoffs

The Lefors girls basketball team will be traveling to LeVeland today in preparation for tomorrow's clash with Forsan for the regional title. The team is presently being led by Connie Eudey with her impressive 22 points per game average according to coach Moore. Eudey is a junior and the coach said prospects are looking good for the state tournament.

Moore said, "We have a good team. Our front three, Eudey, Carol Vincent and Susan Cain are all doing an outstanding job. Vincent is averaging about 14 points per game and Susan is alternating with her sister Ann in a starting role. The sisters both average about five points per encounter."

Three of the best guards in the state are playing for us this year," Moore continued, "with Vicky Cotham, a junior, Guyla James, a senior, and Mary Jane Adams playing fantastic defense."

Lefors' overall record is 28 wins and five losses for the season with three of their defeats coming at the hands of Claude.

Moore stated, "If we can win that first big game our chances look real good for the state tournament."

There was a pep rally slated for noon today to honor the championship team. The rally was scheduled to begin at the high school and end in the town square.

ABA Roundup

By Associated Press

UNIONDALE, N.Y. (AP) — New York's Rick Barry was unstoppable Wednesday night, so the Utah Stars found another way to beat the Nets. While Barry was putting on a one-man show, the Stars, leaders in the American Basketball Association's West Division, concentrated on keeping the rest of the Nets under control. At the other end, they produced a balanced offense which had five men scoring better than 15 points apiece.

The result was a 119-114 victory for Utah at the Nassau Coliseum... despite 50 points by Barry.

The Nets' superstar did just about everything. He sank 17 of 30 two-point field goal attempts, two of five three-point tries and a perfect 10 for 10 from the foul line for his 50 points. He pulled down 13 rebounds and he even handed out seven assists.

"This was the best game Barry has played since he became a New York Net," de-

clared his appreciative coach, Lou Carnesecca.

But still Utah won. In the only other ABA game of the night, the Kentucky Colonels, East Division leaders, whipped the Pittsburgh Condors, East Division tailenders, 129-106.

The Colonels held a 55-53 edge at the half, but broke the game open by outscoring Pittsburgh 13-3 in the first 3:45 of the third quarter. Dan Issel scored 37 and Artis Gilmore 25 to pace Kentucky, while Dave Lattin had 26 and Skeeter Swift 21 for the Condors.

Utah jumped off to a 48-34 lead over the Nets midway through the second period, but New York fought back and went ahead 76-75 in the third quarter. A bucket by Willie Wise regained the lead for Utah, however, and the Stars never again trailed.

Red Robbins topped Utah with 28 points and 18 rebounds. Zelmo Beaty scored 25, Wise had 21, Jimmy Jones 17 and Merv Johnson 16.

NBA Roundup

By Associated Press

PHOENIX, Ariz. (AP) — Walt Chamberlain has 30,001 career points but says his first point scored in the National Basketball Association was more memorable than his 30,000th.

Chamberlain scored the milestone point on a goaltending call Wednesday night during the third period of the Los Angeles Lakers-Phoenix Suns contest. Suns center Neal Walk was called for knocking Chamberlain's shot away from the bucket.

Ironically a similar play by Chamberlain gave the Suns a 110-109 victory in the contest. Chamberlain was called for illegally blocking a shot by Connie Hawkins with three seconds left which gave Phoenix the victory.

In other NBA games, New York defeated Houston 110-100; Atlanta edged Baltimore 105-103; Philadelphia downed Cleveland 126-116, and Seattle trimmed Boston 113-112.

Oscar Robertson of Milwaukee is second on the all-time NBA scoring list, more than 500 points behind Chamberlain also leads in career rebounds.

"What it means is someone has done a whole lot of shooting at one time or another," said Chamberlain.

"Tonight's 30,000th was memorable, but the one I guess I remember the best was the first I ever got which came in a game against the Knicks.

"I hit the first shot I took and I've just been going on from there," Chamberlain said.

In March 1962, the 7-foot-1 center scored 100 points in a game against the Knicks.

Chamberlain, in his 12th year in the NBA, says he is not looking too far in the future.

"I hope to keep going and if everything goes like it's going now, I'll be back next year," he said. "But beyond that I don't know."

Chamberlain scored 19 points and pulled down 21 rebounds in Wednesday night's contest.

Teammate Jerry West praised Chamberlain's

Harvesters To Clash With Amarillo Sandies

By RICKEY WRIGHT Staff Writer

The Harvesters are about to finish their season this year as they have only two games left to be played.

Friday night the Sandies of Amarillo High are to come here to face the power of Pampa. After that the regular season will end on Tuesday night as the Harvesters make

College Roundup

By Associated Press

"We did what we had to do and did it well," Penn State Coach John Bach said after his unranked Nittany Lions stunned No. 6 Virginia 86-74.

Howard White of 19th-rated Maryland knew what he had to do, too. Wednesday night—and did it just as well, sinking a pair of free throws with seven seconds remaining in overtime to sink third-ranked North Carolina 79-77.

Unbeaten Marquette, listed behind only UCLA in The Associated Press' nationwide college basketball poll, averted an upset by waking up in the second half to overtake Jacksonville 88-79 for victory No. 21.

Two other Top Ten teams came out on top as expected, seventh-ranked South Carolina edging Nevada-Las Vegas 84-81 and Marshall, No. 10, turning back Ohio University 95-76.

"It was just like playing in the Atlantic Coast Conference," said Bill Gibson, coach of Virginia's vanquished Cavaliers. "It was so noisy the players couldn't even hear me on the bench.

The Lions took the lead for good at 44-43 with 12:45 remaining, then slowly widened it as Virginia repeatedly fouled to get the ball back. Ron Brown paced Penn State, now 13-7, with 25 points. Barry Parkhill had 20 to top Virginia, losing its second game in 20.

Bob McAdoo of the Tar Heels sank a field goal with 29 seconds left in regulation play to tie Maryland but missed a 25-footer at the buzzer, giving the Tarps the chance they needed to raise their record to 17-3.

And White took advantage of it. After making just one point on four one-and-one free throw situations in regulation time, he hit all four of his free throws and one field goal to hand North Carolina its third loss in 20 games.

White finished with 19 points to back up Maryland scoring leader Tom McMillen's 27. McAdoo had 17 to top the Tar Heels.

Jacksonville led Marquette 65-60 early in the second half before the Warriors outscored the Dolphins 18-4, then ran delay patterns to sew up their 71st consecutive home-court triumph. Jim Chones had 23 points and Bob Lackey 21 for Marquette. Ernie Fleming's 21 topped Jacksonville.

The Fighting Gamecocks of South Carolina had a tougher

Borger to chain the Bulldogs. The Harvesters now have a 13-6 record as they were handed a defeat from the Palo Duro Dons Tuesday night; 67-55.

Palo Duro is now alone in the number-one bracket. If they are not defeated in their last two outings they will remain there.

Head cager coach Robert McPherson commented, "We just didn't play up to our capabilities. There were too many turnovers."

The Harvesters are still in the running and they will by no means give up.

Amarillo High will be plenty of challenge as they always are though they have already tasted defeat from the hands of the Harvesters once in the season.

Richard Bunton and Mike Edgar gave the Sandies some real headaches in their last bout and they are expected to do the same tomorrow night.

The defending district 3-AAAA champs are anything

Seaver's Satisfied But Robinson's Not

By Associated Press

The New York Mets have satisfied Tom Seaver's 1972 contract demands but it will take a little more effort for the Los Angeles Dodgers and Philadelphia Phillies to do the same for Frank Robinson and Rick Wise.

Seaver agreed to exercise his valuable right arm for \$120,000 this season, making the 27-year-old pitcher the highest paid baseball player in New York history. And that includes people like Babe Ruth, Joe DiMaggio and Mickey Mantle.

But the Dodgers came up about \$10,000 short on their first offer to Robinson, who was acquired during the winter from Baltimore, and their \$140,000 pitch left the talented outfielder "shocked."

And Wise, who pitched a no-hitter and won 17 games last season, informed the Phillies that he was shooting for a 100 per cent boost to \$65,000 which is considerably more than General Manager John Quinn has offered.

Seaver, who reportedly had been interested in a three-year \$500,000 contract similar to the one Carl Yastrzemski received from Boston last year, settled for less, but enough to keep him happy.

"I don't think you ever sign for what you want in this give-and-take world," said the ace

USED VEHICLE DEALER WARRANTY

No. _____

This Warranty is issued by the undersigned, an authorized Chevrolet Dealer (hereinafter called the Selling Dealer) to:

Name _____ Address _____
City _____ State _____

(hereinafter called the Purchaser) in consideration of the purchase of a used motor vehicle (hereinafter called the Vehicle) described as follows:

Year _____ Make _____ Type _____
Motor No. _____ Serial No. _____ Stock No. _____
Mileage shown on odometer at delivery _____

STATEMENT OF WARRANTY
Subject to the provisions and conditions stated below, in the event of mechanical failure of the Vehicle, the Selling Dealer agrees as follows:
(1) For a period of 30 days, beginning _____ 19____, or 2,000 miles after delivery (whichever occurs first), the Selling Dealer agrees to repair or replace the engine, transmission, rear axle, brake system, or electrical system—without charge—to the extent necessary to keep the Vehicle in serviceable condition under normal use.

PROVISIONS
(a) Mechanical failures resulting from collision, accident, abuse or lack of maintenance, are expressly excluded from the above coverage.
(b) Repairs are to be made in the Selling Dealer's Service facilities.
(c) Such repairs do not qualify under any new vehicle warranty still applicable to the Vehicle.
(2) Upon the expiration of the warranty period specified in (1) above and for a period ending 24 months from the date the warranty period specified in (1) above commenced, the Selling Dealer will allow a discount of _____ off the normal retail charges for parts and labor repair necessary to keep the Vehicle in serviceable condition under normal use.

This Warranty is not valid unless signed by the Selling Dealer's authorized department head and by the Purchaser, who is to retain a copy.

City _____ State _____

PROVISIONS
(a) Repairs are to be made in the Service facilities of the Selling Dealer or other participating, franchised Chevrolet Dealer at such Chevrolet Dealer's regular retail price.
(b) Expressly excluded from Warranty coverage are damage from collision, accident or abuse, or normal maintenance services such as lubrication, oil changes, tune-up, etc.
GENERAL CONDITIONS
This Warranty is issued by the Selling Dealer only, and not by the manufacturer of the Vehicle.
This Warranty is expressly in lieu of any other warranties, expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose, and any other obligations or liabilities on the Selling Dealer's part, and Selling Dealer neither assumes nor authorizes any other person to assume for it any other liability in connection with the sale of the Vehicle.
This Warranty must be available with the Vehicle at the time of application for any repairs or adjustments, and is not transferable or assignable. (Not effective as to transfer goods in California or Massachusetts.)
In witness of all the above conditions, we have attached our signatures this _____ day of _____, 19____.

Dealer's Name _____ Signature of Department Head _____
City _____ State _____ Signature of Purchaser _____

Many Chevrolet dealers are announcing the most complete warranty ever put on a used car. Count your blessings.

First, you're protected where it counts most: on the major mechanical parts of the car you buy. And that lasts a healthy 30 days or 2000 miles, whichever comes first.

Second, you get special savings on any parts or labor you need. From the day you buy for 24 months.

Third, the special savings are good all across the country at most Chevrolet dealers. Say you're on a vacation trip and find you need service. You just get in touch with a participating Chevrolet dealership.

All you do is show an OK warranty identification card you receive when you buy your used car.

Your Chevrolet dealers' new OK warranty. It takes the guess-work out of used car buying.
