eral oil on the market. Its oily penetration adds greatly increased protection to a cold motor during starting periods, when most wear occurs. It materially decreases carbon and aludge troubles. You will agree that the following test, made at the Indianapolis Motor Speedway, is conclusive, understandable and unbiased proof of performance, not only of this new oil, but its superiority over other oils on the market. tive type ever made under the supervision of the Contest Board, American Automobile Association. Six new, strictly stock cars, of the medium priced class, were used. They obtained five well-known and recognized leading brands of oil by purchase on the open market. They also secured New and Improved Conoco Germ Processed Motor Oil. These six oils of the same S. A. E. grade were assigned to cars by lot. that would prove, beyond question, the relative value of each oil. They were driven 500 miles a day at an average of 50 miles an hour, until the motors could no longer operate. Every oil had an equal chance to prove exactly what lubricating value it had-to run until it completely wrecked its motor. lubricated only to 1,713.2 miles, when the motor destroyed itself; Oil No. 6 quit at 1,764.4 miles; Oil No. 5 at 1,815.9 miles. Then Oil No.

Warning TO NEW CAR

Some car manufacturers are using new types of bearings which will stand guester pressures and temperatures, resulting front increased power and speed. New and improved Conoce Garm Processed Motor Oil has been enhantledy tested on these new baselogs. The results show that it gives them greater protection against dam-oge than many streight minered oils now on the market.

Protect your new car by using the motor all you can be sure of.
