WHEN DOES IT START?

Pampa's youth are getting ready to take advantage of the local Red Cross unit's summer water safety program and the group above was anxiously asking about the program Saturday. Ruth Huff (seated, left) and Mrs. W. A. Dow (right), water safety aide and instructor, respectively, were busily explaining when classes would start. Standing are John, 6, (left) and Matthew Braly, 4. Seated on the ground listening (from left to right) are James Dow, 7; Tom Braly, 7; Beth, 8; and Mark Falkenstein, 7; and Steve Walls, 5.

Tito Receives Hero's Welcome In Moscow

Yugoslavian Head Starts 18-Day Friendship Visit

By WHITMAN BASSOW
MOSCOW, June 2 — UP — Yugoslav Marshal Tito arrived in Moscow Saturday to receive a hero's welcome and a handclasp from V. M. Molotov. Tito declared the fates of Yugoslavia and Russia are "inseparable" now that the "tragic" Stalin era split has been mended.

Governor's Race Hot

By LLOYD LARRABEE
AUSTIN, June 2 (UP)—A quickening tempo marked the Texas governor's race Saturday as candidates planned strategy drives for the Democratic primary election eight weeks away.
Austin attorney Ralph Yarborough, making his third try for the office, formally opened his campaign with a rally Friday night at Nacogdoches in which he expressed opposition to "forced" mixing of white and Negro children in the public schools.
U.S. Sen. Price Daniel was scheduled to return to Texas for a television panel program at Houston Sunday and meetings there Monday before making a swing through West Texas next week.
O'Daniel in West Texas
W. Lee O'Daniel, former governor and U.S. senator, campaigned through West Texas and the Panhandle. At Borger Friday, he urged a cash bonus for Texas veterans, as well as higher old age pensions.
Other candidates in the governor's race were former House Speaker Reuben Senterfitt of San Saba, J. Evetts Haley, historian and rancher from Canyon, and Austin contractor J. J. Holmes.
Hopetful for other state offices also were stirring around the state in their campaigns to round up votes for the July 28 primary.
Lt. Gov. Ben Ramsey, seeking re-election to an unprecedented fourth term in the state's No. 2 post, called for enactment of stiffer penalties for narcotics law violators.
Ramsey urged life imprisonment or the death penalty for a second conviction of the offense of selling narcotics to minors.
The lieutenant governor announced a campaign schedule for next week carrying him to Corpus Christi, Robstown, Alice, Kingsville, and on to Port Arthur, Orange and Beaumont.
Austin businessman C. T. Johnson, opposing Ramsey's bid for re-election, proposed at a barbecue at Humble Saturday that old age assistance payments in Texas be boosted to \$75 a month. Johnson unsuccessfully opposed Ramsey in 1954.
Candidates for lieutenant governor also include State Sen. A. M. Alkin Jr., of Paris and John Lee Smith, Lubbock attorney and former lieutenant governor.

Life Saving Classes To Start Here

Classes in Junior and Senior Life Saving and a class in training aides to instruct youth in swimming will commence Monday at 10 a. m. at the Municipal Swimming Pool.
Collette Dow and Frances Hoffmann, Red Cross water safety instructors, urge all of those who are interested in assisting with the city recreation swim program to report to the pool at 10 a. m.
Non-swimmers, as well as swimmers, can participate in the instruction program. Adults, with previous Red Cross training, are particularly needed for the program.
Registration for summer classes was held Friday at the Field House and Saturday at Baker School. The classes are scheduled to get underway June 15.

French Spring Trap On Algerian Rebels

ALGIERS, June 2—UP—Two French divisions snapped shut a deadly trap Saturday on five Algerian rebel groups under turbulent General Si Amrouche, killing nearly 200.
French authorities called it "the biggest battle of the year."
They said French troops also captured more than 150 in three days of fighting in the wild Petite Kabylie Mountains, 35 miles south of Bougie.
Several hundred rebels were reported to be fleeing Saturday under constant hammering by field artillery and war planes.
Rebels Regroup
The rebels under self-styled General Si Amrouche were said to be regrouping, apparently for a desperate attempt to break out of the triangle trap near Lafayette.
For four months the rebels ruled the area between Abkou in the north, Bordj Bou Arreridj in the south and Lafayette in the east.
French troops drove toward the center of the craggy, cave-studded area Saturday. They used knives, bayonets and gun butts in scattered close fighting.
Army sources said the mop-up should be completed soon when the 28th Infantry Division has linked up with the Seventh Rapid Mechanized Division that carried the brunt of the three-day battle.
Fighting started when Amrouche's units were engaged by Gen. Gerard Baufre's Seventh Division.
Uncover Repair Shops
French scouts uncovered camouflaged repair shops, a dug-in ammunition workshop, tons of food supplies, two workshops turning out hand-grenades and a stock of U.S. Army uniforms.
Scattered rebel bands struck back elsewhere in the 947,552-square mile Algerian tinderbox.
Rebel "commandos" terrorized Philippeville in eastern Algeria with grenade attacks Friday night. Others attacked a homeguard unit at Touane on the Algerian-Moroccan border early Saturday. They killed nine, wounded three.

Winners Are Named In Cow-Calling

MIAMI (Special)—A brother and sister team won the cow-calling contest in Miami Saturday at the eighth annual round-up.
Claud Setz and sister, Mrs. Clyde Hodges, won first place in the men and women's division.
Second-place winners were Willis Watson, and Mrs. O. R. Patterson. Third place winners were Bill Keesh and Mrs. Lloyd Wilkens. Keesh and Mrs. Patterson are also brother and sister.
The affair was held at the R. E. Thompson grove, one mile east of Miami. Old timers began gathering in the American Legion Hall at 9 a. m. to register. People from as far away as California and South Dakota were present.
The North Plains Club, sponsored an egg-race and a three-legged race for small children. Connie Ratliff, Jo Lynn Flowers and Diane Duncan won the egg contest.
The three-legged race was won by Randy Webb and Twink Terry, first of Amarillo; Jim Flowers and Jo Wayne Holland, second place; and Wayne Wilson and Scotty Daugherty, third place.
The 49-er Club sponsored the sack race, shoe-scramble, and bar-becue.
(See Winners, Page 4)

Gray County May Call Bond Election

A county-wide bond issue was considered Saturday when McLean delegation met with the Gray County Commissioners to ask for such a project to finance replacement of two bridges which were washed out in the recent rains.
The washed-out bridges were the Densworth Bridge, located 12 miles north of McLean, and the Canton Bridge, approximately 12 miles east of Leflore. The 1,400 foot Densworth bridge was badly damaged and oldfield equipment now must ford the North Fork of the Red River, according to C. P. Callihan of McLean. Trucks have also been pulled across the river by tractors, he said.
Judge Bruce Parker said Saturday that the cost of replacing the bridges has been estimated at about \$200,000 and that the bond issue — if called — would probably be over \$400,000 to include other needed improvements. The money for needed improvements can be raised through a farm-to-market road program or through a bond issue, he indicated.
Included in the repairs or replacement program of the project would be a bridge located near Hoover, a four-mile oil field road from Hoover to Highway 60, a bridge near Grandview, and several miles of paved highway, including a three-mile stretch west of Highland General Hospital, which would pass the property of the Pampa Youth and Community Center.
Every precinct in the county would benefit from the improved roads and bridge program, Judge Parker said. Approximate cost of construction is estimated as follows: Hoover bridge, \$40,000; four miles of oil field road, \$50,000; Grandview bridge, \$40,000; and other road improvements, \$60,000.
Wayland Merriman, consulting engineer, was instructed by the commissioners to make a complete survey and costs estimate on the project and to report to the Commissioners Court June 11. Bids will

Senator George Says Foreign Aid Cut Could Hurt NATO

By WARREN DUFFEE
WASHINGTON, June 2 — UP — Sen. Walter F. George (D-Ga.) served notice Saturday that he will fight to restore part of the billion-dollar slash in President Eisenhower's foreign military aid program voted by the House Foreign Affairs committee.
George is chairman of the Senate Foreign Relations committee, which may begin work on the aid bill next week. He told the United Press the House committee's cut was "too great" and could seriously impair the effectiveness of the NATO defense alliance in western Europe.
The Democratic foreign policy leader said "some cut may be justified" in Mr. Eisenhower's \$3.1 billion military aid budget but it ought not to be deep. He voiced hope that the House, which is scheduled to act on the aid bill Wednesday or Thursday, will "partially" restore the committee's cut.
If not, George made clear, he will lead a drive in the Senate for a military aid authorization somewhere between the sum approved by the House committee and the sum sought by the President.
Prospects for the House overruling its foreign affairs committee appeared dim. There are indications administration forces will forego any real effort to restore the cut on the house floor.
Rep. John M. Vorys (R-Ohio) a ranking GOP member of the House Foreign Affairs committee,

Reds Call UN Meet In Korea

SEOUL, June 2—UP—The Communist military high command Saturday called the United Nations allies to a face-to-face meeting Monday, presumably to denounce the UN order ousting neutral truce inspectors from South Korea.
The Communist call was made as Radio Peiping bitterly attacked the expulsion move as an attempt to "wreck" the 1953 Korean ceasefire.
The UN armistice delegation at Munsan announced that the North Korean and Communist Chinese military headquarters called a meeting of the Joint Military Armistice Commission for 2:30 p. m. Monday.
The brief UN announcement disclosed only that the Communists "stated that among the subjects to be discussed will be matters concerning alleged violations of the armistice agreement by the United Nations command."
But the Communist radio underscored Red displeasure over the UN ouster order against Polish, Czech, Swiss and Swedish truce inspectors.
The UN military allies charged the inspectors had failed to halt the build-up of Communist forces in North Korea violation of the ceasefire agreement.
The UN command expects the 19 inspectors to leave South Korea within a week and return to the demilitarized zone which separates North and South Korea.

'Peaceful' Resistance Given Nehru's Decision On Bombay

BOMBAY, June 2 (UP)—An estimated 50,000 "peaceful resistance" demonstrators clashed with police Saturday in a protest against Prime Minister Jawaharlal Nehru's decision to make Bombay a federal district.
Authorities reported 1,275 persons were arrested after a series of club and tear-gas charges by police. Numerous injuries were reported on both sides, but there were no fatalities reported.
Nehru's limousine had to be diverted to escape the fury of the crowd. But the car of Bombay Chief Minister Morarji Desai was attacked and the windshield smashed.
The clash came as Nehru's ruling congress party met here to discuss the report of a special commission for alteration of India's state boundaries along language lines.
Meet in Protest
Congress party delegates met under a huge canvas tent, while members of the Maharashtra language group met in protest nearby.
Trouble started when thousands of Maharashtra sympathizers pressed toward the congress campsite where other demonstrators already were squatting on the ground in "peaceful resistance" protest. Some carried red flags and chanted, "we want Bombay."
Police pushed back the large crowd and chased its members into a nearby empty field. Witnesses said some members of the crowd started throwing stones, injuring several policemen.
The police then charged into the crowd, swinging their clubs.
Announcement of the boundaries plan brought about riots in this region which cost more than 200 lives last February.
Planned Three States
Nehru originally planned to form three states — Maharashtra, Gujarat and Bombay. The first two would reflect the dominant language groups, whereas Bombay would reflect its bilingual nature.
However, because of its immense economic importance and their role in its development, the Maharashtra demanded Bombay be included in their state.
The conflicting interests became so irreconcilable that the central government at Delhi decided to make the city of Bombay into a centrally administered area — separate from the control of either language group.

Compromise Is Expected On Highway Bill

By WILLIAM M. BATES
WASHINGTON, June 2—UP—Congressional sources predicted Saturday that House-Senate conferees will approve a "logical" compromise for dividing \$25 billion in proposed super highway funds among the states.
The conference committee starts ironing out differences in the Senate and House highway bill next week. The formula for passing out federal funds to construct a 40,000-mile interstate road system is the major issue in dispute.
Sources representing both House and Senate thinking told the United Press the conferees would probably agree on a compromise along these lines:
The Senate plan for distributing the money on a legal formula would be used initially while a new study is made of total needs of each state to build the interstate system based on actual construction cost.
The House bill now would allocate the money on a basis of "need" estimated by the states themselves. The Senate last Tuesday turned down this plan by a substantial vote and approved a formula to divide the money on a basis of state population, area and rural road mileage.
Each contends the other's plan is unrealistic.
Backers of the Senate formula say the House plan would apportion the money on a basis of "wild" guesses while critics of the Senate version contend it makes no allowances for sharply varying construction costs from state to state.
Under the suggested compromise, both apportionment plans would be used in the long run. Construction would begin according to the formula while individual state needs would be taken into account in a new survey which would be made by the secretary of commerce. A member of the House Public Works committee said this would be the "logical" approach.

Warships Requested For Asia

By JOHN A. GOLDSMITH
WASHINGTON, June 2 (UP)—The Defense Department, ever mindful of Red Chinese war threats in the Far East, has asked Congress to authorize loan of more U.S. warships to friendly Asian nations, it was learned Saturday.
Congressional sources said the Navy sent up a proposed bill a month ago. It would increase from 25 to 50 the number of vessels that could be loaned. It also would extend President Eisenhower's authority to make such loans through 1958.
Under a law enacted in 1953, the President has authority to "lend or otherwise make available" 25 ships.
Secretary of the Navy Charles S. Thomas said the expansion measure to Vice President Richard M. Nixon and Speaker Sam Rayburn in mid-April. It is pending in the Senate and House Armed Services committees.
Thomas told the two leaders: "Statements of national policy would have been enunciated to the effect that certain Far Eastern nations would be supported by the United States in the event of aggression by the Chinese Communists. It is the opinion of this department that the legislation herein sought is an integral part of such a policy."
"The support of these nations will be rendered more effective if the United States, through a careful use of this authority, can enhance the ability of these nations to make a response to these aggressive acts on an emergency basis."

Flags Fly At Half Staff For Jones

HOUSTON, June 2 — UP — The flags on all 36 of the big buildings Jesse H. Jones owned in downtown Houston flew at half staff Saturday because of his death.
Jones, 82, a millionaire 100 times over, secretary of commerce under President Franklin Roosevelt and a friend and adviser of presidents since World War I, died Friday night of uremic poisoning.
The body lay in state Saturday at a funeral home (George H. Lewis and Sons). It will be taken to St. Paul's Methodist church for a public funeral service at 4 p. m. Monday.
A private service will be held later at the graveside in Forest Park cemetery. He is survived by a wife, the former Mary Gibbs of Mexico, Tex., whom he married in 1920. They had no children.
President Eisenhower and former President Herbert Hoover took note of his death. Mr. Hoover, who made him head of the Reconstruction Finance Corp. in 1932, was "greatly grieved."

Solon Says 'Dizzy' Gillespie's Music Is 'Noise, Pure Noise'

By HERBERT FOSTER
WASHINGTON, June 2—UP—Sen. Allen J. Ellender said Saturday that sending be-bop band leader Dizzy Gillespie abroad was the best way to convince operating Europeans that Americans are barbarians.
Ellender, a Dixieland addict from Dixie, said it might be all right for the State Department to send "great" jazz musicians like Benny Goodman or Louis (Satchmo) Armstrong overseas to demonstrate U. S. culture.
But he drew the line at be-bop which he heard Gillespie play at the White House correspondents' dinner last week.
"Noise, pure noise," said the Louisiana Democrat.
"Imagine that being sent to Paris — and it was."
"Anybody listening to it will be convinced that we are barbarians. A lot of tom-toms, and horns blaring!"
Ellender drew a bead on be-bop — and cast a few rocks at rock-and-roll — in his weekly radio broadcast for a New Orleans station, then warmed to his subject in remarks to reporters.
He said the State Department's U. S. Information Agency asked the Senate Appropriations committee for funds last year for overseas cultural programs. He said State Department officials argued that the idea was to demonstrate the United States not a nation of barbarians.
Jazz Won't Change Minds
Ellender said if Europeans who have accepted billions of U. S. foreign aid dollars still think Americans are barbarians, jazz artists won't change their minds. Particularly not Dizzy Gillespie he said.
In fact, he added, jazz would probably be the clincher for citizens of Italy where opera is glorified.
Ellender said he likes "great" jazz himself — like the music of Benny Goodman.
"That's high-class jazz. That's all right," he said. "I'd even include Louis Armstrong and New Orleans jazz — though some New Orleans musicians have got a little exaggerated. Some are exaggerated to the point where you'd like cotton in your ears."
If it comes from a Hardware Store, we have it Lewis Hardware (Adv.)

'Dizzy' Says Solon Is Mistaken

NEW YORK, June 2 — UP — Band leader Dizzy Gillespie said Saturday that Sen. Allen J. Ellender apparently doesn't know a "C" from an "E."
The trumpet player urged Ellender to give another listen to his be-bop style before branding it "pure noise."
Ellender, who heard the Gillespie band at the White House Correspondents' dinner last week, said that Europeans must have thought Americans were barbarians during Gillespie's overseas tour.
"We only had 15 minutes in Washington," he said. "It was a little too modern for the senator's first time. He's unfamiliar with music. In the first place, be-bop is not music itself, but a style of jazz. It's up to the individual taste whether somebody likes it."

**Accident Helped Give Star
Real Understanding Of Life**

By ALINE MOSBY

HOLLYWOOD — UP— On an NBC-TV rehearsal stage, a handsome actress patted her black cane and smiled, "for what I've gained, I'd go through all of this again."

Fans of veteran screen and stage actress Marjorie Rambeau didn't realize her legs were damaged until her life was aired on TV's sentimental show, "This is Your Life."

Today the actress told how she managed to build a new career and continue to act despite her cane and specially-built shoes. Her handicap, she thinks, actually has improved her life.

"Before the accident something was lacking in my life," she reflected. "I had reached the peak of my profession but an understanding of life was missing. Now I have it. This accident has been a wonderful experience for me."

Miss Rambeau was injured in 1945 and was "in ghastly pain." After several operations doctors told her she would never walk without crutches.

Director Irving Rapper induced her to return to the screen in "Forever Female." She appeared in "Torch Song" sitting on a couch. She started "A Man Called Peter" on crutches — but was so moved by one of Richard Todd's sermons that she walked without them during a scene.

"Something came over me," she said. "Perspiration streamed down my face and the cords stood out on my neck, but I managed to walk a few steps."

"Since then I use a cane, which I call 'George,' and my special shoes."

The actress refuses to let her handicap spoil any jobs for her. She merely informs the director she won't be able "to run up stairs or anything like that." For her role on the Lux Video Theater she made use of a wheelchair as part of her characterization.

"But I refused to have any publicity photos of me taken in the chair or people would say Rambeau's in a wheelchair," she laughed.

Acting has helped her morale because "before I had the idea my accident was shameful."

"I would try to hide my crutch. I was so embarrassed when I would stumble, I was ashamed of my shoes," she said. "Returning to acting gave me confidence. Now I have much more tolerance for people. When I ask them, 'How are you?' I mean it now."

"Next thing you know, they'll have me swinging from a trapeze. Nothing will stop me," she said firmly.

**Southwest Firm To
Hold Hi-Fi Fair**

By PRESTON MCGRAW

United Press Staff Correspondent
The Southwest Hi-Fi Distributors Association will hold the first full-dress hi-fi fair in the Southwest at Houston June 15-16-17.

There have been hi-fi exhibitions in the Southwest before, but the Association says that this "is the first like the annual fairs in New York, Chicago and Los Angeles."

Mrs. Pat Reumert, who is organizing the show for the Association, says the 10th floor of the Rice Hotel has been rented for three days. Fifty rooms are on the floor for exhibits.

She says that 40 already have been rented. Two exhibitors will share some rooms and about 50 manufacturers are already represented.

Though the show will be held in Houston, most of the manufacturers' representatives at the fair will be from Dallas. The association has members in Texas, Arkansas, Louisiana and Oklahoma.

Mrs. Reumert says the fair will charge 50 cents admission to keep out the merely curious and the association expects that 10,000 persons will see the exhibits.

On June 15 and 16, the fair will be open from noon until 10 p. m. On June 17, it will be open from 1 to 8 p. m. The exhibitors will show nearly every kind of high fidelity equipment on the market.

broadcasts from the fair.

To Select a Queen
The sponsors will hold contests and have a series of technical talks for laymen. Mrs. Reumert says the fair also will have a queen, but the specifications will be different than for queens of most fairs.

Entrants, as a matter of fact, will get into the contest, by reading a prepared statement into a tape recorder. Judges will select a handful of the most beautiful voices and later make sure that there is a close match between voice and figure.

Groom Personals

By BARBARA TERBUSH
Pampa News Correspondent

Among the patients at the Groom Osteopathic Hospital the past week were: Buck Hill, Alanreed; Mrs. Winnie Dean, Borger; Elvin Hendricks, Borger; James Anderson, Borger; Joyce Beasley, McLean; Johnny Claborn, McLean; Mrs. O. C. Alexander, Borger; Joyce Ann Saunders, McLean; Mrs. George Sanders, McLean; I. C. Carter, Wellington; H. G. Ferguson, Pampa; Floyd Travis, White Deer; Lee Uarey, Amarillo; Mrs. Clyde Pannell, Panhandle; Mrs. Ann Mitchell, Lakeview; and Mrs. Mack White, Clarendon.

Mrs. James Reynolds, Panhandle, is mother of a son, James Howard, born at 2:25 a.m., May 25.

Mrs. Bobby Arnett, Amarillo, is mother of a son, Terry Keith, born at 6:10 p.m. Friday, May 25, weighing 7 pounds.

Mrs. F. H. Terbush and daughters, Barbara and Bonnie, were shopping in Pampa Tuesday afternoon.

Mrs. J. V. Robinson of Panhandle was visiting Mrs. Ada Gardner recently.

Mildred Koetting made a flying trip home this week for an overnight visit with her parents, Mr. and Mrs. Frank Koetting. Mildred, who last became an airline hostess with TWA, arrived in Amarillo Monday night at 10:30 and came home with her parents. She left early Tuesday morning on a flight to St. Louis. She is stationed in Kansas City.

Ernest Hermesmyer, a student at Texas Tech, is visiting his parents, Mr. and Mrs. C. F. Hermesmyer, and other relatives and friends.

Mr. and Mrs. Thurmond Kite and sons of Guyton, Okla., were visiting in the home of Mr. and Mrs. Jack West, Monday.

Rusty Clark of Tulsa, Okla., is visiting his mother, Mrs. John Clark, and other relatives and friends in Groom.

Mr. and Mrs. Jack Bivens and children visited relatives at Tulla Sunday.

Mr. and Mrs. Gerald Jones, former Groom residents, have moved back to Groom.

Mrs. Beas Gill and Mr. and Mrs. John Whaley of Amarillo were visiting in Groom Wednesday morning.

Mrs. R. D. Leeper and Miss Earlene Arfel of Amarillo were visiting in the home of Mrs. P. E. Johnson Thursday.

Mr. and Mrs. Jim Eschle entertained with a birthday dinner Sunday in honor of Billy R. Fields and Johnny Eschle, their grandson. Those attending were Mrs. Clive Cline of Abilene, Mr. and Mrs. George Eschle, Mr. and Mrs. Pete Fields and Mary, Jr., and Mrs. Billy R. Fields, Kieth, Ronnie, and Barry Wayne, and Jimmy Johnny and Nan.

Eud Patterson arrived home Saturday from A&M College to spend the summer months.

Mr. and Mrs. D. A. Watson and family were visiting in Amarillo Sunday.

Mr. and Mrs. Dwight Weems of Amarillo visited in the home of Uncle Joe Weems last week.

Lou Hermesmyer of Amarillo was visiting in Groom Monday.

Nancy Painter spent last week visiting relatives in Amarillo. She returned to her home Wednesday evening.

Alice and Shirley West are visiting their grandparents, Mr. and Mrs. Elton Johnson, at McLean.

Bob Wade returned to Lubbock Wednesday last week, where he will attend summer school at Texas Tech.

Mrs. Kenneth Hunt and children, Patricia and Herbie, and Kathy, Kerry and Roy Jones attended a birthday party at Claude Saturday in honor of Ross Bagwell.

J. N. Berris received word Wednesday of the death of his niece, Mrs. Tracy Berres, at Hastings, Nebr.

The United States government, from its formation until March 3, 1871, entered into 371 treaties with American Indian tribes.

Marilyn Monroe's Ailments Appear To Be Psychomatic

By ALINE MOSBY

HOLLYWOOD — UP— Marilyn Monroe's "comeback" picture is finished — and so are her ailments that turned out to be more stage fright than physical.

The Number 1 glamour girl of Hollywood was ill from the start of shooting on "Bus Stop" at 20th Century Fox Studio. The cast and crew she leaves behind when she returns to her New York home are agreed that her constant sickness was largely psychomatic.

Marilyn lived through a blustery winter in New York without catching a cold. But she came down with a virus and bronchitis the minute the movie company went on location to Phoenix.

The actress has been ill during shooting of her other movies such as "The Seven Year Itch." But this time her attacks were worse. She broke out with a rash. She often vomited. She suffered stomach pains.

"These ailments apparently are caused from her nervousness," one close associate explained. "Marilyn was on the spot for this picture. She's been studying in New York for a year at that high-class actors' studio. There was a lot of publicity and fanfare about her return to the screen.

work without becoming so tired. Most of her co-workers are fond of Marilyn and understand her problems. Recent magazine articles told how she was molested at the age of 6 and nearly murdered at 8 and suffered from various fears and complexes.

The cast was sympathetic and patient the days Marilyn didn't show up for work. When she did, a scene often waited 15 minutes while she tarried in the ladies' room.

"She was always so sweet, and said 'I'm sorry'," one cast member says. "Sometimes during a scene she'd grab at her stomach and make faces as if she were having terrible pains. Everybody thought her ills were psychomatic."

"Between scenes she'd lie down in her dressing room. She'd always say, 'I just don't feel well.' She gets emotionally upset under pressure — and she really was under pressure on this movie."

"Her worries and sickness reportedly were worth it. An assistant to Director Josh Logan reports the picture "is terrific and Marilyn's great."

QUOTES FROM THE NEWS
VICTORIA, B. C. — British Field Marshal Viscount Montgomery, on what he'd do on the first outbreak of aggression: "If anyone attempts aggression anywhere I'd give 'em the works. Atom bombs, hydrogen bombs, everything we've got."

THE ROSE TATTOO — The smoldering emotions of a tempestuous widow, Anna Magnani, are fanned into flame by the wild courtship of Burt Lancaster in "The Rose Tattoo," arriving today at the LaNora Theatre. Hal Wallis produced and Daniel Mann directed the startlingly frank filmization of Pulitzer Prize winner Tennessee Williams' sensational stage play.

'Little Uns' Give Solon Trouble
By HARMAN W. NICHOLS
WASHINGTON — UP — Rep. Kenneth J. Gray allows that little people are smarter than big ones. At least the little ones give him more misery.

The Democratic lawmaker from West Frankfort, Ill., is a licensed pilot, a licensed auctioneer, and a licensed magician. He fooled his colleagues on the floor of the House the other day by pulling six red roses out of nowhere to "prove" that "everything is rosey now."

"But take those kids," the 31-year-old Congressman said during an interview. "They are hard to handle."

Not long back, Gray was appearing before a bunch of youngsters. His stunt was to pour a pint of milk into a hidden recess somewhere about his person. Actually the cow juice was to run into a newspaper, lined with milk proof paper and shaped like a cone.

Some little clown in the back of the hall who could see around a corner, shouted:

"Four it down your sleeve."

The congressman was stumped. What else could he do?

He poured and got all wet.

'Rose Tattoo' Was Academy Award Winner
Two extraordinary performances unfold on the screen of the LaNora Theatre as Burt Lancaster and Anna Magnani explode the year's dramatic bombshell in "The Rose Tattoo." In an astounding pair of portrayals that ranged without a letup through every human emotion, the magnificent Magnani and the electrifying Lancaster brought to unforgettable life every thought, every gesture, every sob and smile of two Tennessee Williams characters you will never get out of your mind. Beyond a doubt, these two tremendous personalities are the greatest team in recent memory.

The lowest street in Mexico City is more than a mile higher than the topmost points of New York City's skyscrapers.

The U.S. Army has an authorized ratio of three physicians per 1,000 soldiers.

Among animals, the North American opossum and the lungfishes of Australia and South America often are cited as "living fossils."

And a suggestion for all those producers who keep boasting about the many adult westerns brought to TV this season:

Next season, how about some adult easterns?

Television Channel Swim

By WILLIAM EWALD
NEW YORK — UP — The channel swim...
"The \$64,000 Question" will celebrate its first birthday next week by bringing back a cluster of top winners to the show. The producers have ordered a large cake from a local bakery which will feature a reproduction of part of the show's TV set.

The McGuire sisters will take a long leave from the Arthur Godfrey cast after this week. The girls are scheduled for a club date in Las Vegas.

Rosemary Clooney is so visibly pregnant she had to call off the shooting of her half-hour TV series with only 23 shows in the can. Rosie will shoot 13 more films after her baby arrives in August.

Jack Barry says he's very close to completing a deal with a sponsor for his new TV quiz game, "Twenty-one." It's a giveaway based on blackjack, the card game.

Nice work if you can get it: Wally Cox, once employed as "Mr. Peepers," still is drawing \$1,200 a week from NBC for doing nothing. Cox has three more years to go on his contract with the network.

The line-up: "Make Room for Daddy" picked up a new sponsor, a tissue maker, and will be dropped into a Monday evening slot by ABC-TV next fall. "Armstrong Circle Theatre" has been renewed for next season. "Topper" will replace "It's a Great Life" this June 10.

Steve Allen's new Sunday show is scheduled to start on June 24 on NBC-TV. Sammy Davis Jr., Bambi Linn and Red Alexander, Skitch Henderson and Gene Rayburn have been lined up for the opener.

Elderly Persons To Get Housing Aid

By ROBERT F. MORISON
WASHINGTON, June 2—UP—The nation's 21 million persons over 60 years old will soon get help from the government on their housing problems, authoritative experts predicted Saturday.

President Eisenhower has proposed one system of aids, the Senate has approved another, and a House committee is at work on a third.

All agree the problem exists—elderly persons with low income, unable to support themselves adequately who are dependent on relatives or public funds.

The President proposed that older persons be permitted to borrow money for down payment on a home and that mortgage terms on rental housing for the elderly be liberalized.

World Insure Mortgage The Senate's bill would authorize government insurance on a mortgage for the full price of a home an older person buys for himself with 40 years to pay.

Proposals being considered by the House include a loan program, but less public housing than the Senate bill.

There are more than 21 million persons over 60 in the nation compared to 18.3 million in 1950. They represent a larger proportion of home owners than younger age groups.

A survey taken a few years ago showed that two-thirds of the older persons live in decently maintained homes with all modern conveniences.

However, the percentage of older families living in run down housing was somewhat larger than for younger families.

One government economist says this situation is due in part to sentiment, inertia or economic necessity, which leads some to struggle on with a house beyond their physical and financial means.

New Set of Standards Home designers have come up with a set of standards for what an older person's home should and should not have.

No steps; maximum daylight and artificial lighting; no slippery floor surfaces; kitchen cupboards which don't require ladder-climbing or stooping; bath tubs with plenty of grab bars; automatic heat and absence of drafts.

Actually, many of these features are also suitable for young families with small children.

quately who are dependent on relatives or public funds. But there's disagreement on the remedy.

Dr. William C. Menninger, secretary of the Menninger Foundation, said the money would go toward relieving one of the major barriers to the conquest of mental illness—the critical shortage of properly trained personnel.

Truman Says He Will Meet GOP Mud Slinging Halfway

By UNITED PRESS
Former President Harry S. Truman served notice on the Republicans Saturday that he will meet them half way if they start slinging mud in this year's presidential election campaign.

Mr. Truman told a news conference in Salzburg, Austria, that recent political campaigns "were the roughest and dirtiest I'd ever been in, and all the dirt was dug up by the Republicans."

Choir Brings In \$125 For Youth Center

Ken Bennett's Gladewater High School A Cappella Choir, under the sponsorship of the Pampa Lions Club, presented a program of musical entertainment Friday night in the high school auditorium before a sparse crowd.

About \$125 for the Pampa Youth and Community Center was raised by the concert, although an exact figure was unavailable as returns have not been completed.

The 99-voice choir left Pampa early Saturday to give concerts in Albuquerque, N.M.; Grand Canyon; Prescott, Ariz.; and Los Angeles, Calif. They planned to return by Phoenix, and Tucson, Ariz. and El Paso.

A total of 124 students are in the regular choir, Bennett said, introducing the program. The touring choir is now on its third transcontinental tour.

Ed Myatt, president of the Chamber of Commerce, presented Bennett, a former Pampa, with a stetson hat as a token of appreciation.

The group sang three variations of "When the Saints Go Marching In," which were well received. A girls sextet sang several popular selections and concluded with "There You Are."

Barbara Smith, an ex-student, highlighted the show with her solo and brassy renditions of "Flamin' Mamie" and "The Sugar Blues." Another ex-student, Billy Vernon, sang two solos and a duet with Miss Smith. The two were part of the swing choir, which appeared here in about half-strength.

Concluding the program, the two choirs sang "It's Time to Say Goodnight," with one group standing in the audience.

WINNERS (Continued from Page 1)
rel races. Winners of the sack race, for ages up to eight, were David Bowers, Barbara McCook, and Freddie Barbara of Dumas. Winners of sack race, ages eight to 12, were Lewis Holland, Scotty Daugherty, and Wayne Wilson.

Winners of the shoe-scramble were Sharon Wheelley of White Deer, Dee Morris and Loyd Harvey. In the barrel races, the clover-leaf pattern was won by Nancy Keehey of Canadian, John South and Verna Bridwell. In the figure-eight barrel race, ages up to eight years, Ken Gill, 7, won first and Vic Bridwell, 4, won second. Winning in the figure-eight race, ages nine to 11, were Frank Bridwell, John Bridwell and James Webb.

TITO

(Continued from Page 1)
refused to accept Stalin's dictation on Yugoslav internal affairs. In a plain-spoken statement, the Yugoslav leader said:

"The common struggle of our people from the beginning to the end of the war against the common foe testifies to the great truth that our fates are inseparable and that there is much for which we can value and esteem each other."

In a reference to the Soviet-Yugoslav split under Stalin, Tito added: "However, dear friends, something unheard of and tragic nevertheless took place and neither the peoples of Yugoslavia nor the peoples of the Soviet Union were responsible for this."

"We were greatly pained but we believed that the time would come when everything separating us would be overcome and when our friendship would receive a new and still more firm foundation."

"This time has come," Tito said, "thanks to the Leninist policy of the government and the central committee of the Communist party of the Soviet Union."

It was an obvious reference to the Soviet switch in denouncing the late Stalin for his one-man rule.

In a welcoming address, Soviet President Voroshilov said there is a "vital necessity for a further development and strengthening of friendly relations between the U.S.S.R. and Yugoslavia in the interests of our Communist countries."

ONE OF A DYING BREED—Near Atchinson, Kan., is one of the few remaining farmers who uses a three-horse team and sulky plow to prepare his cornfields. He's Eric Friebe, who is plowing 14 acres for corn. Eric says his horses still do the job satisfactorily.

Irrigation School Is Set Here

The Soil Conservation Service, in cooperation with other agricultural agencies, will conduct a two-day irrigation school for vocational agriculture teachers of Area I beginning tomorrow.

The school will be held in the cafeteria of the Sam Houston Elementary School with classes to begin at 9 a.m. Monday and at 8 a.m. Tuesday.

Topics to be discussed during the Monday session are: soils—their slope, depth, permeability, texture structure, capability, proper use and treatment; salinity of soils; soil improving crops and practices; when to irrigate; well locations; the efficiency of irrigation; and the types and designs of irrigation systems.

Discussion in Tuesday's classes will be on land preparation; costs—including structures, fuels, pumping equipment, and leveling of land; ACP cost sharing; and a review and discussion of problems and training given.

4H CLUB NEWS

ROBERT ADAMSON Assistant County Agricultural Agent
PAT BROYLES, Assistant Home Demonstration Agent

The District I 4-H Club camp will be held at Don Harrington Boy Scout Camp grounds, 12 miles south of Amarillo, June 4, 5 and 6.

Each County in District I will send three boys and three girls to this camp as delegates. These delegates will participate in such group activities as: recreation, electricity, nature study, and safety. They will also have their choice of gardening, swimming, rifle, games and rope making.

The program for the camp will be built around recreation and the use of electricity on the farm and in the home. There will be some instructions and activities relative to farm and home safety and automobile driving. There will be a specialist to help and also help from the utility company and the State Department of Public Safety. All of the extension agents from District I will attend a definite assignment in connection with the camp.

Weekly Grain

FORT WORTH (UP) (USDA)—Weekly grain:

Arrival of new crop wheat, oats and barley at southwest cash grain markets this week was the signal for prices to begin their seasonal decline.

However, losses recorded by the Agricultural Marketing Service from Friday through Friday were small.

Wheat dropped 2c a bushel. This left No. 1 hard, ordinary protein content at \$2.32 to \$2.38. The trade reports quite a bit of resistance to prices and demand only fair for ample offerings.

Not enough new crop oats have been sold to establish a market, but old crop No. 2 white oats from the North closed at 67 1/2¢ to 69 1/2¢ a bushel, same as a week ago.

New crop barley has remained steady all week at \$1.25 to \$1.28 per bushel, about 11 to 14c less than old crop barley. Supplies are light and moving well.

Milo lost a cent per 100 lbs. an closed at \$2.34 to \$2.39. Offerings were adequate for only fair demand.

Corn was offered freely but demand was only fair. No. 2 white corn slipped 1 1/2¢ to bring \$1.91 1/2 to \$1.93 1/2. No. 2 yellow corn reversed this trend, going up 2 1/2¢ to 30c. It brought \$1.85 1/2 to \$1.86 1/2. These prices are based on wholesale carlots Texas common freight rate points.

In Oklahoma, wheat dropped 1 to 4c a bu. ranging from \$1.84 at Medford to \$1.90 at Frederick.

Rains May Help Texas' Range Feed Conditions

AMARILLO —UP— Range feed conditions hit a record low in Texas on May 1, but the eastern two-thirds of the state may get some relief from late April and early May rains, the Santa Fe railroad said in its monthly crop report Friday.

GRAY COUNTY Soil Conservation District News

By JACK DOUGLAS
Work Unit Conservationist

There are thirty-six irrigation wells irrigating approximately forty-two hundred acres of land in the Gray County SCD.

The irrigation well is only one part of a successful irrigated farm. Proper land preparation, row grade, row length, when to irrigate and how much water to apply is as important as the well itself.

Water runs down hill, but the best way to irrigate is on the level. It is not a new idea, though it is new in the Gray County Soil Conservation District. Farmers in the southwest have been using level irrigation for years because it is the most efficient way to use their valuable and expensive irrigation water.

What is level irrigation? It is done by preparing a field with closed borders leveled to a flat plane. If there is cross slope on the land, the closed level borders are benched on widths varying with the land slope, available water, and soil type.

There are many advantages to level irrigation. It has been used on lands up to 5 per cent slope but here in the district it is being limited mainly to lands with slopes of 2 per cent or less.

Level irrigation is an important water conservation measure. When you use water by level irrigation there is little waste water and it saves irrigation man hours. It eliminates soil erosion and insures even distribution of water over the entire field, resulting in maximum yields and uniform maturity of crops. It allows close control of needed water application, depending on soil depth and stage of crop growth, which may vary from an application of two and one-half acre inches to six inches of water.

The requirements to effectively operate a successful level system are not difficult, but are based on sound, simple engineering and soils data.

As a first requirement, the closed system must be level or nearly level. Ditches must be capable of handling a large volume of water and there must be a large stream immediately available. There must be good structural control.

The ideal farm system, consists of carefully designed and constructed concreted ditches and concrete water control structures. However some farmers are effectively using 6" aluminum siphon tubes with earth ditches. If there is an appreciable amount of silt, or silt and clay in the soil, a stable ditch can be built.

Weekly Livestock

SAN ANTONIO (UP) (USDA)—Weekly livestock:

Cattle: Compared week ago: Supply decreased about 1,300 head. Bulls steady; weeks tops: Good fed steers and heifers 20; few choice light yearlings to 21; heavy utility cows 12.50, canners and cutters mainly 9.75; utility and commercial bulls 14.75, yearling feeder steers 17.50; heifers 18. Common and medium stocker cows 10.50.

Calves: Supply little changed, good and choice stocker calves and good and choice stockers in small supply mainly steady.

Week's tops: Choice heavy calves 21. Choice stocker steer calves 20, stocker heifers 15.50.

Goats: Supply about like previous week; all classes about 25c lower; barrows and gilts 16, sows 14.

Sheep: Supply about 800 smaller than last week, spring lambs made up 40-45 per cent of supply; all classes mostly steady, some cull shorn sheep 50c or more lower, some good and choice shorn aged wethers 50c higher; week's tops: Good and choice 70-90 lb spring lambs 22. Utility to good 18, good and choice No. 1 to 3 pelt shorn aged wethers 12.50 to 13. Medium and good 40-60 lb spring stocker lambs 15, good and choice 15.75.

Goats: Slaughter kids predominated in week's supply, all classes in moderate demand, mostly steady, week's tops: Spanish type slaughter goats 4, light cull nannies 4.75; slaughter kids 4.50 per head; stocker goat trade quiet.

Wheat acreage lost or given up because of the extreme dry weather "is well over the seeded acreage," and irrigated acreage in Texas will have to provide generally good yields if the state produces 17.5 million bushels this year.

Wheat harvesting is underway in southwestern Oklahoma and in the low rolling Plains of Texas, with good to fair yields reported so far, the report said.

Some Acreage Abandoned

A considerable acreage was abandoned early in the year, however, because of the drought.

Much of the Oklahoma wheat acreage, except in the far western and northwestern counties, benefitted considerably from late April and early May rains, the report said.

"With favorable weather until harvest, Oklahoma could produce 65 million bushels," the report said.

The rains also helped wheat acreage in the eastern two-thirds of Kansas, and could offset poor prospects in several southwestern Kansas counties enough for the state to produce 142.5 million bushels, the report added.

Dryness, Hurts New Mexico

Continued dry weather in New Mexico has taken its toll so that it is doubtful if 600,000 bushels will be harvested, Santa Fe Agricultural Agent R. I. Cross said.

Cotton planting is nearing completion in southern Oklahoma, the Texas High Plains, and in eastern New Mexico on irrigated land, the report said.

Very little non-irrigated cotton has been planted so far, but may be soon if there is enough moisture received. Good progress is reported on early planted cotton in South Texas and in the Rio Grande and Pecos Valley of West Texas and New Mexico.

Cross said that if enough moisture is received in June, a "tremendous acreage" of sorghums will be planted for grain, forage and soil cover in Texas, New Mexico, Oklahoma, Kansas and Colorado.

Alfalfa Aphid Threatens Crop

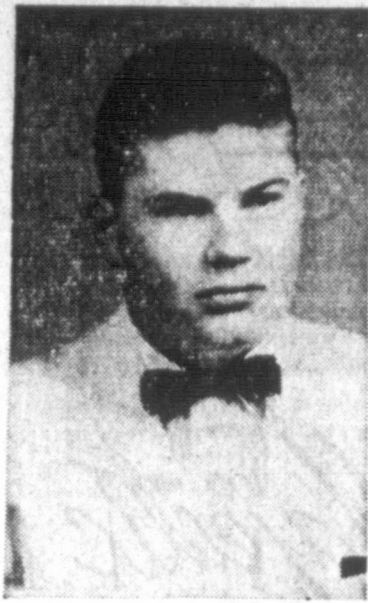

COLLEGE STATION, Tex.—UP—The Texas A&M College extension service warns that the spotted alfalfa aphid is posing a serious threat to Texas alfalfa crops.

Entomologist Freeman F. Fuller recommended control measures be started as soon as signs of aphids are found in a crop.

Fuller said heavy aphid infestations cause a reduction in stand and yield of hay.

Three of every four traffic accidents occur in clear weather and on dry pavement.

The word protein is derived from the Greek word meaning "first."

RUSSELL BARNARD
... Yale scholarship

Pampan Gets Scholarship To Yale

Russell Barnard, son of Mr. and Mrs. R. C. Barnard, 605 Deane, recently received a \$1,300 a year scholarship to Yale University. He was also offered a \$1,250 tuition scholarship by Rice Institute in Houston.

Russell plans to attend Yale in the fall to study chemical engineering or pre-med.

Russell graduated from Pampa High School this year with a rank of fourth in his class. His scholastic average in high school was 93.3 and his average of 98.6 during his senior year was the highest average in the history of the high school.

Barnard was awarded a log duplex slide rule by the Texas Chemical Council for outstanding work in science and another science award was presented him by the Bausch and Lomb Optical Co.

He was a member of the National Honor Society and the Quill and Scroll, the H. Y. Latin Club, Slide Rule Club, Junior Red Cross Council and De Molays.

Other colleges where he was accepted included Cornell, Stanford, and Dartmouth.

While serving as sports editor for the "Little Harvester," he won first prize in the state for best sports story and first place for his sports column.

APPLE PIE DANDY — Laura MacArthur, queen of the 29th annual Shenandoah Apple Blossom festival, slices a huge apple pie at the festival in Winchester, Va. Laura is the granddaughter of Sen. Alben W. Barkley of Kentucky.

"ELECTRIC COOKING IS TIMED FOR BETTER LIVING!"

says MRS. A. V. HILL,
BEAVER, OKLAHOMA

Want to spend an afternoon away from home and prepare a hot meal at the same time? Let's see how Mrs. Hill does that.

"First, I prepare my meal and place it in the oven. Baked ham, potatoes, and green beans sprinkled with cheese is my menu. I'm going to have chocolate sundaes, too, so I melt the chocolate, in its original wrapper, on the surface unit."

"Second, I set my timer for the proper cooking time, and my oven control for the correct temperature. Now, I can forget my oven meal until I return from town, ready to eat."

Flameless electric cooking is so accurate, so safe that you can leave your home for worry-free hours of pleasure, and, while you are gone, your meal will start cooking automatically, efficiently.

"Third, I pour my melted chocolate over the ice cream and place it in the freezer. I have three children in college and three school-age children at home, and these sundaes always make a big hit with all of them."

And an electric home freezer will make a big hit with you, for it's a perfect companion for your electric range. You need never be caught short for a meal idea from snack to full-course

dinner when you have a leisure-living freezer and a worry-free electric range.

"And here I am back home from a pleasant afternoon in town, and my meal is cooked. I remove the meal from the oven, the sundaes from the freezer, and, just like that, dinner is served. My timer has saved my time."

"I've cooked electrically for six years, and it's easy to keep my kitchen, including my walls and curtains, spotlessly clean, because electricity is so clean."

Timed for better living — that's the modern electric range. And now is the time for you to live better electrically.

Pampa Group Has A Wide Interest In Various Arts

By RONALD WATERS
Pampa News Staff Writer

An informal group in town with no constitution, no by-laws, no officers, and no dues, is a hard working bunch of craftsmen and includes some of the best known artists in Pampa.

The group goes by the informal name of Vari-Arts, and they do various painting and crafts. A versatile group of artists and craftsmen, they may be found doing most anything from hunting rocks and arrow heads to making a mosaic tile table.

History of Group

Although some of the members claim to have no history, the group actually started in the fall of 1950 when several Pampans became interested in working together while studying painting and drawing with Margaret LeFranc, a Santa Fe artist and illustrator. She taught classes in Pampa for several weeks.

Later, after the close of classes, they joined a group that was interested in ceramics and began working regularly in the homes of members. They met regularly for a full day's work and much conversation.

This group was interested in many crafts, but the main objective was working with Denver fire clays and the native clays found near Pampa. They managed to produce some fine pottery.

In 1951, two members sponsored a one-woman showing of the paintings of Mrs. Willie Jackson, who was a primitive painter. In 1952 they sponsored a showing of Mrs. George Norris' paintings and Mrs. Fred Sloan's ceramic sculpture. Mrs. Norris now lives in Albuquerque, where she is active in art circles.

The Little House

About three years ago, when they were still active in the Paint, Pot and Piddle Club, some of the members decided to rent and redecorate the old weather-beaten house at the corner of Browning and Starkweather. This old landmark, is called the "house on wheels" by some of the old settlers of Pampa because in the early days, the young married couples often lived in it until their new homes were finished. It is referred to simply as "The Little House."

Before moving into "The Little House," three of the craftsmen went to Albuquerque, N.M., to take a course in enameling on metal surfaces. They were Mrs. Sloan, Mrs. Florence Jackson, and Mrs. Norris. They returned with vim and vigor to teach this craft to the other members.

Last year the group was beginning to get too large for one working group so they decided to divide. They then turned over "The Little House" to Dord Filz, area art instructor, who is currently holding painting classes there.

New Studio

The group established a work shop and studio in the home of Florence Jackson and now have plenty of space and freedom to come and go and do as they please.

The Vari-Arts group meets regularly for one night a week to paint and work on various crafts.

Their aim is to enjoy working together at whatever art or craft they are individually interested in doing. They also believe in bringing to Pampa, from time to time, any art show available so that the public may enjoy it with them.

Currently the group is sponsoring the Lynn Trank show at Lovett Memorial Library, the largest show ever assembled and presented in Pampa. The show consists of 48 water colors, prints, oils and easels.

Lynn Trank

Not only is Lynn Trank's work well known in this area, but it is also represented in several private collections.

Lurray Turnbull, chairman of

the art department of Hamline University, has this to say about Trank. "The artist who travels and lives in a strange land is in a peculiar position, confronted as he is by new sensations and surrounded by unfamiliar vistas and customs, and he usually finds it difficult to absorb these new stimuli into the tradition and into the attitudes with which he is most in rapport.

"It is easy, thus, for him to come back with no visible evidences of the effect of his new associations, or else to give himself over entirely to imitations of the most obvious and superficial aspects of the new land.

"For Lynn Trank, who spent 15 months working in Mexico, this kind of an experience has acted as an assertive and vigorous spiritual catalyst, breeding an art of stark intensity out of an intensely responsive sensitivity to what was a most volatile environment. . . . this is no regional or national art, for its expressiveness cuts much deeper than locality and exposes for each of us the vibrant character of the living tissues of nature."

Members

Members of the informal group include Mrs. W. G. (Eleanore) Waggoner, who does enameling of tile and copper jewelry and writes in her spare time; Mrs. Dewey (Peggy) Palminter, who does lapidary work, modern baroque carving of semi-precious stones for use as jewelry; and Mrs. Clifford Jones, who is actively interested in ceramics, especially clay masks.

Others in the group are variously interested in many phases of different arts and crafts as well. For example, Mrs. (Leonore) Sloan, who has a Bachelor of Arts degree in painting and design from Oklahoma City University, is well known for her ceramic sculpture, for her wood sculpture, modern jewelry, and paintings. She has been sculpting for three years and has produced some remarkable interesting modernistic figures.

Mrs. Bill (Colette) Dow is known for her painting, primarily, although she also makes modern jewelry and sculpture. She has re-

ceived lessons in ceramic sculpture and trained in California for a singing career.

Other members of the "Crack Pots", as they like to call themselves, or of the "Crafty Artists", include Dr. and Mrs. Carl Lang, who specialize in ceramics, and Ted Gikas. Mrs. Don George enjoys mosaic tile work and modern jewelry.

When they want to get a full turn-out at one of their meetings, they have a dinner party and everyone comes prepared to work. They have a lot of fun and thoroughly enjoy their work. Amidst all of this fun and laughter, however, they still produce some art objects worthy of attention and admiration.

Perryton Personals

By SUE WILLIAMS
Pampa News Correspondent

Mr. and Mrs. I. R. Buchanan are spending this week with their daughter and family, Mr. and Mrs. John Dubberly, and Jad of Lafayette, Ind.

Rev. and Mrs. James A. Nelson and son of McAllister, Okla., have moved to Perryton. Rev. Nelson is the new pastor of the Fellowship Baptist Church. He succeeds Rev. Clyde Ayres.

Evangelist and Mrs. Frank Postel of Commerce, Okla., are holding a revival at the Assembly of God Church.

Mr. and Mrs. H. E. Smith Ruth Ann, John D. and Martha Jo, visited Smith's brother and family, Mr. and Mrs. Weldon Smith, of Spearman Sunday afternoon.

Larry Clark, son of Mr. and Mrs. Norman Clark of Shamrock, and formerly of Perryton is in very critical condition in the Shamrock hospital. He suffered a broken neck in an accident.

Mrs. Eugene Waide and Kay of Galveston are visiting her parents, and Mr. and Mrs. Earl Waide. Waide will join them the latter part of the week.

Mr. and Mrs. Vernie Farrington and Cavin were in Hugoton, Kans., Sunday.

The Martha Circle of the W.M.U. of the First Baptist Church met last Thursday for Bible study in the home of Mrs. James L. Wright. Mrs. Stanley D. Key taught the lesson. Refreshments were served to Mesdames Chester Cooper, Carl Carter, Vertie Copeland, Stanley D. Key, Chester Williams, J. W. Caylor, R. H. Holland, F. M. McGee, G. D. Holt and Patty Holland and Luann Wright.

Mr. and Mrs. Cyril Frommelt had as their guests recently Mrs. Frommelt's cousin, Mr. and Mrs. Walter Dugman of Peoria, Ill.

Don Cooper, son of Mr. and Mrs. Chester Cooper, has received the American Revolution Award, presented for military proficiency, citizenship and participation in campus activities. This award was made at the recent award day ROTC ceremony at TCU in Fort Worth.

Irvin Anderson, son of Mr. and Mrs. R. Y. Anderson, received his bachelor of science degree in business administration from Oklahoma A&M last Sunday.

The First Christian church began its Vacation Bible School last Monday. Mrs. George Dietrich is director and Mrs. Joe Frederick and Mrs. Monroe Ballard are coordinators. Other workers are Mrs. Irvin Molesworth, Mrs. Bob Barnett, Mrs. Roy Enfield, Mrs. Gayle Brewer, Mrs. J. R. Davidson, Miss Nanjean Boswell and Miss Marion Riley, kindergarten. Mrs. Fred Tillman, Mrs. Joe Schollenberger, Mrs. C. R. Manning, Mrs. Phil Dacey, Mrs. Giltner LaMaster, Mrs. Alfred Pittman, Misses Stacey Ellis and Gaynelle Leatherman, primary department. Junior workers are Mrs. Charles Cunningham, Bob Urban, Bruce Holmes, Earl McGarragh, Spencer Whippo, Misses Nancy Wright and Janie Putman. Mrs. Drew Ellis is in charge of the refreshments.

Glen Simpson, Bob Williams and Chester Williams went to Stephenville Tuesday to visit John Tarrant State College. Mr. and Mrs. Paul George and

Pursley Gets Chrysler Appointment

By SUE WILLIAMS
Pampa News Correspondent

Children of Amarillo visited Mr. and Mrs. Chester Cooper, Mr. R. L. Kietz and Mr. and Mrs. James L. Wright and Luann Sunday.

Mr. and Mrs. Floyd McKay of Long Beach, Calif., are visiting in the home of their daughter, Mr. and Mrs. Melvin McGarragh, and baby.

Mrs. Raymond Clark and daughter are in Austin to attend the graduation exercises at the University of Texas for their son and brother, Don Clark.

Bill Jones, all district and all regional guard of the 1955 Rangers, has been elected captain of the 1956 Rangers football team. Herbert Buxton and Wayman Epp were elected co-captains.

Mr. and Mrs. Robert King and children, Steve and Pam of Duluth, Minn., are visiting in the home of her father, Mr. and Mrs. Cyril Frommelt.

DETROIT, June 3 — Pursley Motor Co. has been appointed to retail, Chrysler and Imperial automobiles in Pampa. It was announced today by E. M. Braden, general sales manager, Chrysler Division, Chrysler Corporation.

Pampa's new Chrysler sales and service organization, at 105 N. Ballard, has been established by Ervin Pursley. Named as sales manager is John Parker.

"This new dealership is welcome to the high-quality Chrysler and Imperial dealer organization," said Mr. Braden. "I am confident that the members of this new dealership will continue the traditional high-quality sales and service which has characterized the Chrysler dealer organization for 32 years."

ler dealer organization for 32 years."

Pursley Motor Co. has installed the most modern equipment available for expert Chrysler inspection service and repair.

On display at the new dealership are the new flight-swept 1956 Chryslers, representing the greatest values in Chrysler history. They are new from bumper to bumper and introduce such exciting innovations as push-button drive, center-plane brakes, instant-heat aircraft-type heater, and high fidelity record player.

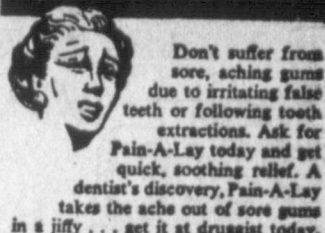

They feature a brand new 230-horsepower V-8 Spitfire engine which can be equipped with a Power Train for 250-horsepower on Windsor models and an improved 230-horsepower Fire Power V-8 in the New Yorker models. Push Button Power-Flite transmission, Flight-swept rear fenders, new vacuum-operated power brakes, full-time power steering and many other chassis improvements are part of the 1956 Chrysler.

The prestige leaders of Chrysler Corporation's line of 1956 cars, the Imperial and luxurious Crown Imperial, with wheelbases of 133 and 148.5 inches, complete the line-up of fine automobiles to be seen at Pursley Motor Co.

At one time, pepper was so expensive it replaced money in business transactions.

Heart Trouble Symptoms Not Necessarily Proof Of Disease

By DELOS SMITH
NEW YORK — UP — On the advice of a scientist who has gone deeply into the hidden and half-hidden ways by which emotions affect the human body, no one should ever allow himself to forget the following fact:

"Despite the enormous incidence of cardiovascular disease, the majority of patients who have symptoms referred to the heart region do not have evidence of organic heart disease."

The words are those of Dr. Edward Wells, professor at Temple University Medical School, Philadelphia, and former president of the American Psychosomatic (mind-over-body) Society. He used them at a recent scientific symposium.

The trouble is, he said, that people are constantly emoting with their hearts. They love with "all their hearts." According to people, their "hearts abound with love" or "hard-hearted" or "heartless" or "cold-hearted," to listen to people talk.

All this emotion emphasis on the heart plus people generally describe it as "the organ of sudden death." And when persons are predisposed by their emotional organization — when, in short, they're neurotic — the heart accommodates them with alarming symptoms which send them running to a doctor.

"The medical name for it is 'neurocirculatory asthenia' and Dr. Wells said that was a bad name. For one thing it is the per-

son and not the person's heart who is "at fault," and the name makes it sound as though the heart was to blame. He wants this made to be called a spade — that is, "cardiac neurosis."

Doctor Must Be Firm

"When the physician tells such a patient that there is no evidence of organic heart disease, he must not say hesitatingly, 'I do not think you have heart disease.' On the contrary he must say very definitely, 'You do not have heart disease.'"

Then, instead of recommending rest or giving "heart" medicine, which of course increases the patient's suspicion that he is not telling the truth, he must make the recommendation "to carry on in spite of symptoms."

Winds Level Church
STEPHENSVILLE, Wis. — UP — Tornado winds leveled a church and ripped the steeple off another late yesterday. Weather Bureau officials called it a possible tornado. Power and telephone lines were ripped down, but no deaths were reported.

Explosion Burns Two
TRADERS POINT, Ind. — UP — A gasoline station exploded yesterday, severely burning two men. Police said gasoline fumes collected in the basement and exploded, destroying the building and causing \$15,000 damage. The station owner, Allan Hays, 70, suffered a heart attack, lacerations, and severe burns. Richard Horn, 20, was burned on the upper half of his body.

Scholarship To White Deer Boy

WHITE DEER — (Special) — Mr. and Mrs. L. C. O'Neal of White Deer have received word that their son-in-law, Frank Walters, a student at Texas University has been awarded a scholarship by the General Electric Company.

The award is presented annually to an outstanding advertising student. The selection is based on scholastic achievement, character, and extra-curricular participation. The amount of the award is \$650.

North Carolinas leads the nation in the textile industry, employing more than 250,000 persons.

TURTLE'S BEST FRIEND—Buster, a mongrel with charitable ways, brought home a turtle and apparently has adopted it. His owners, Mr. and Mrs. J. S. Kirk of Dallas, Texas, haven't been able to approach either one since. Kirk hopes that Buster will get hungry enough to allow outside help in the care and feeding of the shell-backed newcomer.

Packing Plant Closed

TUMWA, Iowa — UP — John Morell and Co. officials yesterday announced plans for a "permanent" shutdown of the firm's meat packing plant here because of a "slowdown of production."

The company closed the plant Friday, charging that workers were engaged in a slow-down. The United Packinghouse Workers Union, representing the 3,000 plant employees, called the action a "lock-

Perryton Personals

By SUE WILLIAMS
Pampa News Correspondent

Mr. and Mrs. Bob Baker and daughter of Memphis spent the week end with her parents, Mr. and Mrs. Ivan Day.

Mr. and Mrs. R. Y. Anderson, Tra, Leon and Allen, were in Stillwater, Okla., last week to attend the graduation exercises for their son, Irvin, at Oklahoma A&M.

Mr. and Mrs. James Peterson, Sandy and Pam visited relatives in Tulsa last week and returned home Tuesday.

Guy W. Allen, former World War II member of the 98th Bomb Group, attended the reunion of the old 98th last week end at the Altus Air Force Base, in Oklahoma.

Mr. and Mrs. Robert Hemphill and baby returned home last week after having spent a week visiting relatives in Missouri.

The Church of the Nazarene closed its Bible School Friday night with Demonstration Night. Staff members, who served in the Bible school, include: Mrs. Troy Bolderjack, Mrs. C. W. Ferguson and Mrs. Bill Combs, nursery; Mrs. Ernest Potter, Miss Wanna Gravert; Mrs. Curtis Steen, Mrs. Mabel Moore, primary girls; Miss Barbara Ferguson, Mrs. Wayne Hefner, primary boys; Mrs. Frank Herndon and Mrs. W. B. Barclay, Juniors; Mrs. Loyd McGarrugh, Mrs. H. K. Bryan, intermediates; Wendell Russell, secretary; Mrs. Wendell Russell, pianist; and Kathy Ferguson, contest committee.

Mrs. J. R. Thomas plans to leave Saturday for Phoenix, Ariz., to spend a month with her son and family. Mr. and Mrs. Billy Ray Thomas and Gary.

Mr. and Mrs. John Barnes are moving to Morton, in the near future. Mrs. Barnes has taught English in Perryton High School for several years and Barnes has served as superintendent of the Booker school.

Mr. and Mrs. Bob Black are spending their vacation at Monument Lake, Colo.

Rev. and Mrs. Addison Cutter and daughter, Madeline, of Dallas visited last Monday and Tuesday with his mother, Mrs. Inez Cutter, and sister, Mrs. Mabel Smith.

Mr. and Mrs. T. A. Winter and children, Danny, Teddy and David Lee, spent last Saturday night in the B. R. Fletcher home.

Mrs. Jack Gramatoff and Susan are spending this week with her parents, Mr. and Mrs. David J. Batley of Floydada.

Mr. and Mrs. B. R. Fletcher had as their guests Sunday Mrs. Donna Wyse, Marcia, Karlin and Candy of Archbold, Ohio.

Private and Mrs. Myron McCarty of Manhattan, Kans. spent Friday night with Mr. and Mrs. Mar- Un McCarty. They were enroute to Lubbock where Mrs. McCarty received her degree from Texas Tech.

Donna and Wayne Sharpe of Tulsa, Okla., are visiting with their grandparents, Mr. and Mrs. I. H. Sharpe.

Mrs. Tom Carver is spending a three-weeks vacation in north-eastern New England and eastern Canada.

Mr. and Mrs. Lewis Laley and children, James, Janet and Jerry, left Monday for Rayville, Mo., to make their home.

Mr. and Mrs. Dudley Hargrove and sons of Houston came home last week to be with their father, Bernard Hurter, who is ill. They are also visiting his parents, Mr. and Mrs. Herman Hargrove and Lanny.

The Methodist Bible School began Monday and will continue through June 8. The theme is "The Bible". Mrs. Clifford Beck is director of the school. Superintendents serving under her are Mrs. Vernon Witt, kindergarten; Mrs. Harold Hudson and Mrs. Gale Rog-

JUNE QUEST—West German Chancellor Konrad Adenauer will fly to the United States on June 8th for a seven-day visit. He will meet with President Eisenhower and Secretary of State Dulles, and will receive honorary doctor's degrees from Yale and Marquette Universities.

'Plugmen' Getting TV Time At Bargain Basement Prices

By WILLIAM EWALD
NEW YORK — UP — Network TV time, a commodity almost as expensive as a catered wedding, can be had at bargain basement prices. It's all a matter of connections.

The connections are "plugmen," a curious breed of operators whose job it is to sneak mention of pills, magazines, beverages, airlines, dance instructors and other oddments of the marketplace into the ordinary terms of purchase, a chunk of network time costs plenty—a hookup of 56 basic TV stations on NBC, for example, for a half-hour in prime evening times goes for \$43,000.

But a firm that employs a plugman can get the same facilities for a few hundred dollars (or less) and maybe, only a case of booze.

Hard to Control
Understandably, the network and bigtime sponsors frown on plugmen. But they've been pretty unsuccessful in stamping them out. A rundown on some sample shows illustrates how rampant the plug has become.

Witness:
On the "Shower of Stars" show for May 10, a beverage was mentioned and a joke was used in which a dance instructor's name was prominent. The same joke, incidentally, had been used on several previous shows.

On the "I Love Lucy" show for May 14, an airline was plugged.

On the Bob Hope show of May 22, a whole flock of products and services were plugged including an airline, a clothing manufacturer, a salad dressing and a drug. Kim Novak appeared on the show and plugged her forthcoming picture four times in a few minutes.

However, this is a different type of plug, a kind of swap in return for Miss Novak's appearance.

On the "Playwrights 56," program of May 6, "You Sometimes get Rich," another odd assortment was plugged including a book publisher, a scandal magazine, a film studio, a TV rating service, a theatrical trade paper, a weekly picture magazine and for no apparent reason, a person named Jayne Mansfield.

May Just See Product
The plugmen work with writers, stars, producers, set designers, almost anyone who can slip in a

SENATE-BOUND?—It is reported that Gov. A. B. Chandler, of Kentucky, is considering giving Mrs. Alben Barkley, widow of the late senator, an interim appointment to his Senate seat.

The Aiming Stake

K. L. FANCHER
Headquarters Battery heads off the column this week and as they leave town for a day at the firing range. The unit was to leave Pampa at five o'clock this morning for the trip to Canyon, where the men, Headquarters Battery, 47th Field Artillery Battalion, will fire small arms for qualification. Headquarters Battery is just one of five units which will travel to Canyon this spring to use the firing range there. All of the men of the 47th will qualify with their assigned weapon this year before they leave for Fort Sill and summer training, thus leaving the training schedule open for other things during that two weeks.

All of the Battery Commanders and the Battalion Staff were present here at the Pampa Armory this past Monday night for a pre-camp planning meeting. Those present included visitors from Shamrock, Dumas and Dalhart, all of whom were given information that will be needed this summer when their units attend summer field training. There will probably be more meeting of this type between now and the time the units of the battalion leave for camp the first week in August.

ment of a product. It doesn't have to be done with an actual verbal mention—some of the slickest plugs are inserted visually. For example, the camera might be used whose shape would instantly be recognized by the viewer.

The plugmen sometimes pay pretty well for this sort of thing, but often enough those who insert the plugs do it pretty cheaply—a case of Scotch can sometimes swing the deal.

IT'S SWITCHCRAFT

— that's what it is!

*'ou'll see when you try
Buick's new
Variable Pitch
Dynaflow!*

IT TAKES a new word to describe the magic at your command when you drive a '56 Buick—with the newest transmission of them all.

It's full power go-ahead on the instant. You can get where you were just looking in a shaved second's time—with the most modern and most thrilling surge of safety acceleration in the land today.

It's smoothness, too. Complete freedom from the "bump" and lag of gears shifting. Only with Dynaflow can you go winging away with so smooth a sweep.

And only with a '56 Buick can you enjoy Dynaflow's newest marvel. The engineers call it "double regeneration." Lets you start off like an Olympic sprinter, with the pedal pressed just an inch or less. (And driving that way, you get better gas mileage.)

There's more big news, too, that goes with this new Buick magic. And that covers a lot more than styling.

Sure—you'll like the graceful new beauty of the V-shaped prow and sweep-ahead look. And you'll like the extra room inside.

But as you drive you'll find that this Buick responds with the new might of a big, record-powered V8 engine of 322-cubic-inch heft.

It handles easy as butter to a warm knife. Tracks the curves like a plane on the beam. Makes any road seem paved with pillows.

And what's responsible for all this are more new engineering advances than Buick has ever made in one model year.

So why not come in and see—and feel—the difference they make? You'll soon know why owners find it's the best Buick yet—and the best buy yet, by far.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Woods Pitching Trims Clovis, 13-3

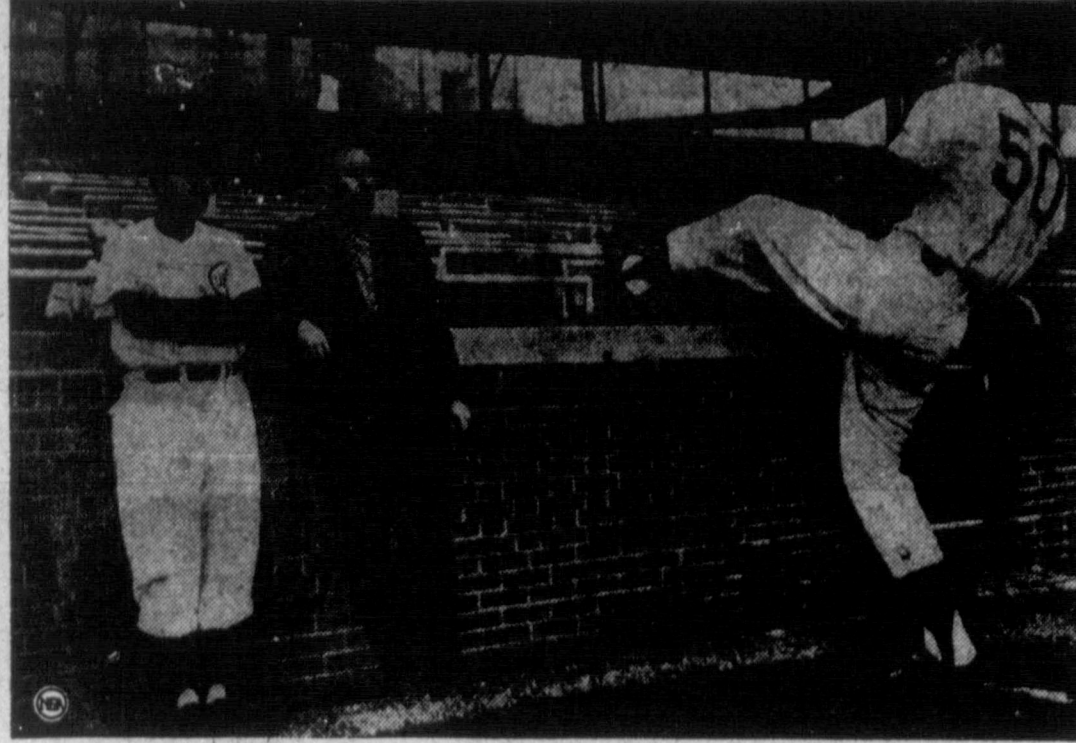

CLOVIS —UP— Pampa's Oilers picked up 11 runs in the first three innings, added a couple more in the fourth to crush the Clovis' Pioneers here Friday night in the first of a two-game series, 13-3.

Buddy Woods, strapping right hander for the visitors, limited the Pioneers to three singles in the first three innings, building up their total off Bob McGhee, the starter, and Jim Vaughn, his successor. The Pioneers counted their three runs singly in the last four frames and picked up seven of their ten base hits as Woods eased up.

Reuben Phillips took over for Woods in the fifth and held the Oilers to two singles. But the damage had been done and Pampa was too far in front.

The game was protested in the top of the first by manager Frank Benites. Frank Kempa was on second and Jim Robinette on first when the ball slipped from McGhee's hand and rolled some 15 feet from the mound towards home plate. Jack Graham calling from behind the plate, yelled "ball", but Tony De Fate, on the bases, called "walk". Kempa went to third but Robinette was tagged out between first and second, and the ruckus was on.

Benites argued Graham's call was right, and manager A. B. Cross of Pampa said that De

ANOTHER DEAN—Stan Hack, left, and Paul Dean watch Paul Dean, Jr., work out at Wrigley Field in Chicago. Young Dean, who is 19 and stands six feet five inches, will pitch semi-professional ball in South Dakota this summer. He is expected to be given a big bonus by a major league club. His father was the other half of the brother act with Dizzy and Cards.

Mantle Wondering Why So Much Interest About Him

(Last in a series of three dispatches.)

By MILTON RICHMAN
NEW YORK —UP— Mickey Mantle honestly can't see why the whole baseball world is making such a four-star fuss over him.

The young Yankee slugger has the world in his palm, but to hear him talk, you'd think he is carrying it on his back instead.

"Why all the excitement?" he asks, with a slight show of irritation.

"Sure I've been going pretty well, but it's still early in the season, isn't it? Anything can happen."

"Everyone's talking about me breaking Babe Ruth's record, but that's not what I'm concentrating on at all. What I'm really trying to do is not strike out as much as I did last year. I was swinging at bad pitches last year. I'll bet that cost me anywhere from 15 to 20 points on my batting average."

Compared to All-Time Greats

But whether Mickey likes it or not, the baseball world is set on comparing him with the all-time greats. And every fan in the country will keep watching to see whether he stays up with Ruth's record of 60 homers in one season.

Last year Mantle batted .306 and led the American League with 37 homers. That would constitute a banner year for any other big leaguer but not for Mickey.

If anything, he minimizes his own accomplishments. When he first came up to the Yankees in 1951, he said, "I don't think I'm good enough to make this team yet."

Mantle has anything but a swelled head. When the Yankees are at home, he still shares a local hotel room with teammate Billy Martin and when it comes

Sport Revising Is Thought Of

LOS ANGELES (UP)—Gov. Goodwin J. Knight today had a "free hand" to revise California boy and wrestling regulations with announcement that all five members of the state athletic commission were submitting their resignations.

The commissioners' action followed a state investigation which revealed purse splitting and at least a dozen alleged "fixed" fights.

The governor stressed Friday as far as he knew there had been "no accusations of misconduct" against the commissioners.

There was no indication he requested the resignations. He had said earlier he did not believe the commissioners actually had enough time to properly oversee boxing in addition to their private business. He indicated adoption of a full-time, paid commission patterned after that of New York might be considered.

Knight said he thought the resignations "might be a step in the right direction" since it would give him a clean slate to start with.

Meetings For Game And Fish Planned

The Texas Game and Fish Commission has scheduled for the next few days a series of county meetings, in the interest of hunters and fishermen, for the purpose of discussing the laws and regulations pertaining to the hunting and fishing in the Panhandle.

The Outdoor Sporting public as well as others are invited.

The meetings will be as follows:
June 5 at Miami, courthouse
June 6 Canadian
June 7 at Wellington and Matador
June 8 at Memphis & Dumas
June 11 at Wheeler
June 12 Borger and Clarendon
June 13 Silverton and Pampa
June 14 Childress and Lipscomb
June 15 at Claude and Perryton
June 18 at Spearman

There will be a movie furnished by the Game Dept. personnel on wildlife. Most of these meetings are to be at 8 p.m. If you are interested in the Panhandle game and fish laws, then by all means come out.

P. P. G. Wins

In a Pony League game played Thursday afternoon at the Pony Park, the Pampa Paint and Glass dumped First National Bank, 17-10.

Paint and Glass scored four runs in both the first and second frames, two in the third, tallied three more in the fifth and four in the sixth inning. First National sent five runs across in the initial inning, one run in both the third and fourth frames and three in the sixth inning.

Batteries for First National were Taylor and Haralson. Duke and Dunham combined together for Paint and Glass. Homeruns hit in the game were made by members of the Paint and Glass with Jim Scott getting three four-baggers and Duke one homer. The winning pitcher was Duke with the loss going to Taylor.

Kiwanis Games Set

The Kiwanis church softball competition for Monday, in the girls' games scheduled, has Lefors church team meeting First Methodist, Pampa, at 7:00 p.m., and the Church of the Brethren tangling with Trinity Baptist at 8:30 p.m., with both contests to be played in Pampa.

Junior boys' division contests have First Baptist, White Deer vs. Trinity Baptist, 7:00 p.m. in Pampa and First Baptist, Lefors opposing First Methodist, Lefors, 7:00 p.m., at Lefors.

Senior boys' games scheduled find the Church of the Brethren vs. First Baptist, Pampa, at 7:00 p.m. and the Lefors church team meeting the Central Baptist, at 8:30 p.m., with both games set to be played in Pampa.

Rose Loses

The Sportmans Store edged Tom Rose, 4-3, Friday evening, at the little league park, in an eastern little league extra inning contest. Regular games are six innings.

Paul Glick and Charles Panthen were batteries for the Sportmans Store for six innings and in the extra frame Panthen hurled while Glick was his mate. Pitchers in the little league are allowed to huff only six full frames.

Batteries for Tom Rose were Robert Woodward and Bill Langley for six and then Langley twirled in the extra inning with Woodward catching. Mike Clark picked up the win for the Sportmans Store while Langley received the loss.

Washington — President Eisenhower, on how well he has recovered from his heart attack of last fall:

"The only way I know about it now is that the doctors keep reminding me of it."

PANHANDLE OUTDOORS

According to Carol Linderman and Don Hale of Umberger the crappie are biting at a fast pace at Buffalo Lake. These boys stated there were quite a few of these fish that will run as much as two pounds being caught. The channel cat haven't started to hit as well as they probably will a little later on. According to many fishermen the main reason the fish are biting so well at Buffalo is due to the destroying of tons of shad, probably a main source of food for the game fish. The shad playing out, the predator fish will seek some other type of food, thus giving the angler a chance to catch his limit.

Offhand it might appear that destroying the rough fish in Buffalo might not have been the best type of fish or lake control practice but the subject is too deep to go into here. Due to this operation, Buffalo Lake will be one of the best places in the panhandle to go fishing. Any lake will just produce a certain number of pounds of fish per year. Now, instead of a large percentage of these pounds being rough fish, the yearly out-pout of fish will be bass, crappie, channel cat and perhaps a few of the 30-pound flat-head catfish.

The treatment of this large lake resulted in controlling the shad only. The next step, we understand, will be a repeat of the same treatment when the carp and buffalo move into the spawning waters. Reports are that Leo Lewis and his crew from Wichita Falls will be up in the next three weeks to further treat the waters and there by improve still more the fishing possibilities.

McLeod Winner In Junior Meet

The Junior Golf tournament held May 29 and 31 at the Pampa Golf course found Bill McLeod defeating Les Howard for the title in a three hole playoff match. Both had recorded a 146 total over a 36 hole course.

Following behind in third spot was Melvin Chisum with a 151 and Larry Lawin, fourth place, posting a 166. These four linksters will travel to Brownwood next month for the state golf tournament to be held July 18, 19 and 20. Golf winners of this linkster affair will be guests at the Pampa Country Club, Tuesday, for presentations of trophies. George Whitten was in charge of the meet with Weldon Trice, Harvester golf coach, assisting.

Costa Rica was the first Central American country to cultivate coffee.

mer national champion and a nine-time champion. The other litter is by Ranger's Spunky Pete, also a nationally known dog.

Both dams of these pups are the daughters of Peggy, a pointer female that was a daughter of the famed dog "The Texas Ranger," a dog that won 10 championships during his heyday and a record that has never been equalled. The nearest rival to this outstanding record is Warhoop Jake, the sire of one of these outstanding litters.

Mr. Jines also stated that the Warhoop Jake litter consists of six females and two males while the other litter is 30-50, three of each.

Recent conversation with Sibley Jines of Perryton revealed that Mr. Jines has two litters of outstanding pointer pups. One of these litters is out of Warhoop Jake, for

Cabot Downed

In an Eastern Little League baseball contest played at the little league park, Thursday night, Hoffman blasted Cabot, 19-9.

L. B. Bunton and Dick Batson were battery mates for Hoffman while Cabot's batteries were Mills and Fritz. Bunton was credited with the win while the loss was chalked to Mills.

Varmint Calling Declines

The last few days I have done quite a bit of varmint calling with the results being exactly zero. Some of the other callers in this vicinity have had the same results. Probably the main reason the coyotes and cats do not respond to the crippled rabbit call is the fact that the country is more or less overrun with rabbits of both species at this time.

With the already large population of these animals on the range at the beginning of the reproduction season, the country will really be polluted in the next few weeks with this coyote and bobcat food. Small wonder the varmints fail to show up for another mouthful of rabbit. This surplus of bunnies will

Capable of 60 Homers

It has been said by many competent baseball judges that a healthy Mantle is capable of hitting more than 60 homers and batting over .400 over a season.

Broach that subject to Mickey and he shrugs.

"What's the sense of making predictions?" he says. "If I can do it, I'll do it and if I can't, I won't. Predictions aren't going to change anything one way or another."

With that, Mantle jumped up to take his turn in the gleet tank and take his turn in the batting cage for a few practice licks. He let the first ball go by and then hammered the next one into the right field seats almost 400 feet away.

DEPENDABILITY? Let's face it! No car at any price can match the solid ruggedness you'll find when you...

DISCOVER THE DIFFERENCE IN DODGE!

Dodge gave the most amazing proof of dependability ever recorded in a grueling test of endurance at Bonneville, the '56 Dodge was driven at top speed night and day for 14 full days. It went over 31,000 miles at an average speed of 92.86 mph without a single breakdown!

The Dodge frame is built to take it! Massive box-section side rails extend the full length of the frame, are stronger than U-channel or I-beam types used in other cars. Short rigid brackets anchor the body securely to the frame.

Dependable in little things, too!

- Electric Windshield Wipers Never slow down when you need them!
- Weather-Proof Ignition System For fast, sure starts always!
- Independent Parking Brake Like having a second set of brakes!
- Safety-Rim Wheels For added blow-out protection!
- Self-Guard Brakes Have two cylinders for sure stops!

Dependable power on demand! 260 hp. aircraft-type V-8 whipped all cars in NASCAR acceleration tests.

Mechanically perfect! Dodge push-button driving with its fool-proof mechanical design is the most dependable of any on the road.

Peg O' Pampa

WELL, GRADUATION IS OVER... and the graduates, for the most part, are wandering around wondering what to do with themselves... making plans for the exciting step of becoming a freshman again... in college, this time... or all aglow with plans for marriage or getting ready to enter the business world... the same as each graduating class before them... Each time the same, and yet unique and different for each graduate... It is rather a letdown, though... after the round of parties... and all the excitement leading up to the commencement exercises... speaking of parties for the graduates, understand Al Curry did it up brown again... she made the table decorations for a party honoring the Methodist seniors... seems the table was covered with a dark green cloth over which Al draped a "shrimp pink" and brown fish net... off center was a unique brown ship on which stood a miniature sailor holding a "life saver" with "Bon Voyage" on it... flags were flying from the ship's deck... and attached to it was a white rope leading to a huge grey anchor... around the ship gold seashells were scattered... very striking and very original... as is everything Al does!

I must stand with anybody who stands right; stand with him while he is right, and part with him when he goes wrong. (Lincoln)

POTPOURRI... there are some very proud new grandparents around town... one of them is sweet Mrs. Lee Harrah whose daughter had a baby girl last week... the other grandparents of the baby are the C. C. Hemsells... and Lena Hobbs is as pleased as punch and all smiles over the birth of her grandchild... spied Evert Carmon the other day in the loudest and brightest green shirt Peg has ever seen... must have acquired it on his recent vacation in Hawaii, no doubt!... the Earl-Caseys are just back from a vacation on Lake Texoma... had a wonderful time, Peg heard, but a scare coming back when the trailer they were pulling broke its hitch and turned them over... but, luckily, they escaped with very little damage and just a few minor bruises... they brought their little grandson back with them for a visit... If you've missed seeing the young Joanie Robertson around it's 'cause she's in California visiting her sister, Jackie, now Mrs. George Anno... it's a graduation present for Joanie... getting back to grandmothers, Josephine Block is also a proud grandmother of a boy, born this week.

There never was a right endeavor, but it succeeded. Patience and patience and we shall win at last. (Emerson)

ORANGE MARMALADE BREAD has such an exciting aroma that it will probably barely have time to cool before someone wants a slice. Spread with butter or made into cheese sandwiches it is wonderful with fruit salads and for between meal snacks. The bread is flavorful enough with the fruity marmalade that you needn't bother with fancy spreads. Also there are chopped nuts in the bread that add crunchiness to the texture. Make a loaf in the cool of the morning and it will be ready to slice and serve at a moment's notice anytime during the day.

ORANGE MARMALADE BREAD

2 cups sifted flour	1 egg
2 teaspoons baking powder	1 cup orange marmalade
1/2 teaspoon salt	1 tablespoon lemon juice
1/2 teaspoon soda	1/2 cup evaporated milk
1/2 cup chopped nuts	1 tablespoon melted butter or salad oil

Sift flour with baking powder, salt and soda into a medium size mixing bowl. Stir in nuts, then make a well in center. Beat egg slightly in a small mixing bowl. Blend in marmalade. Stir lemon juice into milk, then blend with egg mixture. Stir in melted butter. Pour mixture into dry ingredients, mixing only until flour is dampened. Turn into well greased loaf pan 8-1/2 x 4-1/2 x 2-3/4 inches. Bake in moderate oven (350 degrees F.) until a toothpick inserted in center comes out clean, about 40 to 45 minutes. Let cool in pan 5 minutes, then turn out on cooling rack to cool. Makes 1 loaf.

No man has the right to do as he pleases, except when he pleases to do right. (C. Simmons)

IF PEG HAD HER DRUTHERS... she'd druther have Floy Heath's cheery, smiling personality... Jean Metz's intelligence and knowledge of government... Jeanne Willingham's dancing ability... Katy Key's gracious way of presiding... Adrienne Foster's energy and executive ability... Fern Dawson's big heart and habit of doing such nice things for people when they need it the most... Bev Fancher's voice... Jean Duncan's clothes and way of always looking neat and chic... Al Curry's artistic and creative ability... Wanda Campbell's sweet disposition... and her writing ability... Janie Bowers' ability to make every book she reviews interesting and intriguing... and Frances Hofess's swimming ability... but since Peg can't have the good qualities, abilities and virtues of such people, she guesses she'll just have to get along as is... and she'd druther not have any other husband but Mr. Peg... in that she thinks she's real lucky... and that's how it should be, don't you think?

I have never got over my surprise that I should have been born into the most estimable place in all the world, and in the very nick of time, too. (Thoreau)

THINGS SURE ARE HAPPENING... around Pampa... Peg sure is glad we're going to continue to have the Pampa Oilers in town... don't know what she'd do without the baseball games during the summer... or with Mr. Peg if he couldn't go see his favorite sport played... seems a shame to Peg that more people don't take advantage of the privilege of having the Oilers here... there isn't any better entertainment... and it gets you out from between four walls into the clean, fresh air... healthful, too!... and Peg is all excited over the fact that we may have a city band... they're to meet this afternoon... sure would be nice to have some band concerts in City Park during the summer... an enjoyable family affair... a lot of towns have them... Well, the dancing recitals are over... and the little kiddos are joyfully playing in their costumes, a privilege hitherto denied them... and the older ones have reverently put theirs away... perhaps for future use... and the mothers are all proud and pleased at the glamour and grace their daughters displayed during the recital!... And don't forget the Postmen's March on Cancer, now underway... it would be a shame if Pampa's March wasn't as successful as those in other cities... seeing as the idea originated here.

If mankind had wished for what is right, they might have had it long ago. (William Hazlitt)

PEG HOPES YOU ALL HAD a nice, relaxing Memorial Day holiday... even one day in the middle of the week can make a difference... everything seemed real quiet around town... don't know if everyone went out-of-town... or just stayed home like the Pegs... seems the safest thing to do on holidays, nowadays... Now we can all start looking forward to July 4th!... I'll be seeing you all next week.

Patsy Ruth Worrell Becomes The Bride Of Joe Young Rogers In Home Service

Miss Patsy Ruth Worrell became the bride of Joe Young Rogers Jr. of Pampa at 8 p.m. Saturday during a singleting ceremony in the home of the bride's parents, Dr. and Mrs. T. J. Worrell, 1707 N. Christine. Dr. E. Douglas Carver of the First Baptist Church officiated.

The bridegroom is the son of Mrs. Corrine Rogers of Las Cruces, N.M., and the late Mr. Joe Rogers. Given in marriage by her father, the bride wore a gown of chantilly lace and tulle. The fitted long-torso bodice of lace, accented with iridescent sequins, was styled with a scalloped scoop neckline and long lace sleeves that came to points over her hands. The bouffant floor-length skirt of tiers of nylon tulle ruffles was designed with a nylon overskirt accented with pointed lace panels.

Her fingertip veil of illusion fell from a lace tiara accented with iridescent sequins, and she carried a cascade bouquet of roses and lily-of-the-valley.

For something old, she carried a hand-painted handkerchief belonging to her mother. "Something new" was a garter, and for something borrowed, she wore a strand of pearls belonging to Mrs. Bob Tripplehorn.

Mrs. Leroy Thornburg, sister of the bride, was matron of honor. She wore a dress of yellow tulle, designed with a shirred tulle bodice and bouffant ballerina-length skirt of lace and tulle. She carried a Colonial bouquet of white and yellow carnations.

Miss Virginia Ann Worrell, also a sister of the bride, was maid of honor. She was attired in a nylon gown over pink tulle. The fitted long torso bodice was styled with a portrait neckline, and the bouffant skirt was ballerina length. She carried a Colonial bouquet of white and pink carnations.

Dean Spoonmore served as best man, and ushers were Curt Beck and Charles Boyd.

Miss Virginia Ann Worrell and Charles Boyd also served as candlelighters. For her daughter's wedding, Mrs. Worrell wore a French-bread toned dress trimmed in flax with white accessories. Mrs. Rogers was attired in a sky-blue dress of crepe and lace with blue accessories. Both wore corsages of white cymbidium orchids.

The couple was married before a fireplace banked with emerald leaves and flanked by palms. The mantel arrangement of white gladioli, white asters and emerald leaves was backed by 24 graduated white tapers.

The traditional wedding marches were played by Miss Eloise Lane, Vocalists were Mrs. Leroy Thornburg, who sang "Ah Sweet Mystery of Life," and Joe Whitten, who sang "The Lord's Prayer."

Following the ceremony, a reception was held. The serving table was covered with a white satin cloth, centered with an arrangement of white gladioli, chrysanthemums and smilax. Flanking the arrangement were white tapers. The four-tiered wedding cake, decorated with pink rosebuds and

MRS. JOE YOUNG ROGERS JR. (Photo by Smith's Studio)

silver bells, was topped with a miniature bride and bridegroom. Guests were registered by Mrs. Bob Tripplehorn. Mrs. J. H. Burt presided at the punch bowl, and Mrs. W. D. Price Jr. served the cake. Assisting with the serving were Mmes. Homer Taylor, Chris Walsh and Alvin Reeves.

For the wedding trip to Mexico City, Mexico, the bride wore a blue suit with white accessories and a rose corsage.

Friday the bridal couple, members of their families, and the wedding party were honored with a rehearsal dinner, given by Dr. and Mrs. Worrell, in Johnson's Cafe.

Good Posture Vital To Mature Woman

By ALICIA HART
NEA Betty Editor

Drooping lines may be becoming or a willow tree, but they won't do for women.

If some mature women would give themselves a good, unhearsed, searching look in a mirror, they'd see what this means. Some women stand and walk as though they'd been left out in a hurricane. They carry too-large handbags to the end of long handles, and their entire postures drop down to this massive weight. Their shoulders slope as though they were under the weight of a perpetual load of groceries.

Their torsos collapse like wet-paper sacks.

In some cases, the effect is completed with a hem that's falling out or a coat that hangs down further in the front than in back because of the stooped posture.

One suspects that some of these women haven't looked at a friend's face in years, only the front of her coat.

Short or tall, a mature woman who's interested in living should pick herself up and look at life in the face.

Wheeler Club Has Musical Program

WHEELER — (Special) — Mrs. Harold Nash was hostess recently to the Wednesday Study Club. The program, "Our Heritage Through Music," was presented by Mrs. L. C. Laffin, leader. Mrs. Cora Hyatt told the story of Stephen Foster's life, and his songs were sung by the fourth and fifth grade girls' chorus, under the direction of Mrs. Harrison Hall. The program was concluded with "A Parade of Stephen Foster Music" with Mrs. Sylvia Lee at the piano.

During the business session Mrs. T. M. Britt, president, expressed appreciation to the members for the accomplishments of the year. Particular praise went to Mrs. Harold Nash, the club's Woman of the Year, who also served as projects chairman.

Present were Mmes. T. M. Britt, R. William Brown, Fred Farmer, Lee Guthrie, Cora Hyatt, L. C. Laffin, M. McElhany, C. J. Meek, Madge Porter, Frank Walker, H. M. Wiley, Max Wiley, Frank Wofford, Harry Wofford.

GRACE FRIEND

Dear Grace Friend
It worries me because my husband will not make out a will. What little we have is in joint tenancy. I have heard that a relative could claim part of the estate although we have two children. Also that the banks freeze the account and that lawyers' fees are doubled. Can you tell me if this is true?
Worried

Dear Worried
You are quite right in urging your husband to make a will.

DEATH TOGETHER
Even though he believes that everything you own is in joint tenancy which will come to you after his death, such a situation still does not provide for disposal of the property in case you both meet death either together as in an automobile accident, or a day or two apart.

Neither would it cover the situation should he inherit some property or be presented with a gift as such acquisitions would be in his name only.

A will would provide for the proper disposition of your property and would also provide for something for your children should anything happen to both of you.

GOES TO CHILDREN

Even without a will your property would legally go to your children but it would be far better to set up a guardianship for them which could be best done in a will. Relatives other than your children could not claim the property if the title is clear and in your and your husband's names.

You can provide for your half of the property by making your will which is just as important as his making one since you both have a share in the property to be inherited by your children.

It would be wise if you both would consult a lawyer and both of you have will drawn up. Everyone who owns anything should have a will and should make sure that it is acceptable in court. The best way of making sure is by having the will drawn up by a lawyer.

FILE PETITION

In settling a joint tenancy after the death of one of the tenants it is necessary to file a petition in court to terminate the joint tenancy and to have the property put in the name of the surviving tenant. To do this you would undoubtedly have to have the services of a lawyer.

If a married man who has inherited property from his parents and kept it in his own name dies without a will and no children, a share of that property will go to his brothers and sisters. This would not affect your situation as you have children.

Women's Activities

48th Year THE PAMPA DAILY NEWS SUNDAY, JUNE 3, 1956 13

TO BE MARRIED
Mr. and Mrs. Bryan Washbourne of Jay, Okla., announce the engagement and approaching marriage of their daughter, Mervil R. Carter of 1334 Coffee, Pampa, to Joe B. Pafford, son of Mrs. E. J. Pafford of Lefors and the late Mr. Pafford. The couple will be married at 7 p. m. July 7, in the chapel of the First Methodist Church, Pampa. (Photo by Koen's Studio)

Lady Stockholder Causes Consternation By Attending Annual Corporation Meets

PITTSBURGH, Pa. — (NEA) — Though any stockholder is entitled to sit in on a corporation's annual meeting, most firms expect only a few large holders and key personnel to be on hand.
Mrs. Jannie Roessing, soft-spoken ex-suffragette from Oakland, Pa., has other ideas about the matter. Because her mother was frail and ill, Jannie's father was the one she turned to for advice. His remark that insane persons, criminals and women were not permitted to vote started her on a lifelong campaign for women's rights.

Inheriting a considerable number of corporation stocks from her father, she began to pioneer a new field. Since the early 1900's she's been fighting to put women into and take some of the stiffness out of big business and its once-a-year meetings. Her tactics have delighted, shocked and bewildered some of the nation's top executives.

Believing a woman's place is in the homes of big business, Mrs. Roessing attended her first annual meeting 15 years ago. Actually a shy person she claims it took every ounce of courage she could muster.

"Every man in the room looked shocked when I walked in," she remembers. "They seemed to sit on pins and needles, darting worried glances at me."

When she opened her purse to remove a handkerchief every face in the room grew pale.
"I guess they expected me to pull out a gun or something," she said with a laugh.

Though she managed to stifle executive at that first meeting without saying a word, her style has changed with the years. There have been times when Mrs. Roessing's familiar voice led the questions from stockholders with a candid approach that delighted financial reporters and investment bankers.

At a recent Gulf Oil Corporation meeting she asked President W. K. Whitford to explain why his company had so many vice presidents.
"Does this mean, Mr. President, you'll be doing less work?" she asked.

Executives have learned to respect Mrs. Roessing. Some of her suggestions have been accepted and made parts of annual meetings. Her initiative has resulted in a number of companies inviting women share holders to these meetings.

Women are said to control more than 60 per cent of the money invested in American stocks.
But it is only recently that they have been able to attend annual meetings without causing an epidemic of raised eyebrows.

Punchy Paragraphs

CONTRIBUTION TO DIET
Meat is almost completely digested and utilized by the body — 98 to 98 per cent.
VARIETY MEATS
Variety meats are usually cooked to the well done stage, with the possible exception of veal liver which may be served medium. Variety meats from pork are always cooked well done.
SWISS STEAK
For just plain good eating, have a round of arm steak cut 1 1/2 to 2 inches thick. Season with salt and pepper and pound flour into the steak. Brown in hot lard or drippings. Add 2 slices of onion, 1/2 cup water, 1/2 cup sour cream, and 2 tablespoons melted cheese. Cover closely and cook gently for 1 1/2 to 2 hours.

Make Friends Manners

Before answering a personal letter, it is a good idea to re-read the letter you are answering. That letter you are answering. That

way you can be sure to comment on the news in the letter and also answer any questions asked.
Since it is difficult to remember the contents of a letter, save your letters until they are answered.

"Just a minute," shouts your son. Shocked, not believing your ears, you look up from your meal loaf. But the words "How dare you talk like that to Mother?" die on your lips for your son is glaring at you with genuine, unrepentant, outraged exasperation.
"Brownie's mother ASKED me to supper!" he yells at you. "But you didn't listen! I wasn't going to just hang around while they ate. She said to come on over and see TV with Brownie tonight because they were having chocolate pie and..."

You've pulled yourself together. You say, "All right. That's different. But if you've been invited out to supper, you'd better change that shirt."

You have acknowledged your child right and yourself wrong. Yet, closing the oven door on the meat loaf, you're less happy about this than you should be.

So if you're wise, you tell your child why you have acknowledged yourself wrong. As he comes clattering downstairs in his clean shirt, you call him.

You say, "Look you're going over to Brownie's for supper, not because you scared me by yelling at me, but because you were right. I am not afraid of any yelling. I am afraid of being unjust to you. Is that clear?"
It is clear. And usually relieving to everyone.

BRIDAL SHOWER—Shown at the bridal shower for Miss Marilyn Moore, bride-elect of Gayle Trollinger, are, left to right Mrs. Cecil Trollinger, mother of the prospective bridegroom; the honoree, and Mrs. Cleo Seitz, mother of the bride-elect. (News photo)

Study Is Concluded By Methodist Circle

Circle 7, of the First Methodist Church, met in the church parlor, with Mrs. M. Q. Wilson as hostess.

Mrs. Charles Shelton led the business meeting, during which it was decided to meet the last Mondays during June and July. Mrs. J. D. Kenworthy, new chairman, selected Mrs. Donald Nestiel to lead the June study and Mrs. Weldon Carter to lead the July study.

It was announced Mrs. Bill Stephens will continue as secretary for next year and Mrs. John Brewer will be treasurer.

The study, "Five Spiritual Classics," was concluded by Mrs. V. W. Adcock, Mrs. H. H. Boynton assisted by giving a report on the life of Thomas Kelly.

The meeting was closed with prayer by Mrs. Adcock.

Attending were: Misses, Charles Shelton, Donald Nestiel, Weldon Carter, Don Duggan, Lonnie Bolden, John Brewer, W. W. Adcock, Bill Stephens, J. D. Kenworthy, Coy Palmer, James Smathers, and M. Q. Wilson. Mrs. W. Purviance was a guest.

Next meeting will be June 25.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. W. C. Lewis of Wellington announce the engagement and approaching marriage of their daughter, Doris, of 2107 N. Faulkner, Pampa, to Carrol Goad, son of Mr. and Mrs. E. Z. Goad, 708 Magnolia. The ceremony is planned for Aug. 12, in Wellington.

(Photo by Koen's Studio)

RUTH MILLETT

Do haircuts have anything to do with delinquency? If that sounds like a silly question, consider the following:

In one section of a southern city, school officials made a flat rule that boys could not come to school wearing bizarre haircuts such as the "duck tail" or "bob" cut. And no longer could they attend classes wearing blue jeans anchored at hip level, with shirttails flapping in the breeze.

The order was for standard haircuts and conventional dress. Two weeks after it went into effect there hadn't been a single instance of misbehavior reported.

The boys came to school looking respectable. And to and behold, they began to act respectable, too.

This is really not so strange. For when a boy peroxides his hair, lets it grow into ducktails in back, gets on a pair of tight blue jeans and a loud shirt which he doesn't bother to tuck in, he looks like a tough. The next step is to walk with a rolling swagger, talk tough and maybe add a switchblade knife as a natural accessory for the weird get-up.

From there on he is headed for trouble. He is a sneering, swaggering wise guy who feels he had to live up to his get-up.

Perhaps parents and schools all over the country would be doing teenagers a real favor if they cracked down on outlandish styles in dress and haircuts.

We've glamorized these crazy fads, that teenagers go in for, too long.

Isn't it about time we let teenagers know that we expect them to look respectable? If we get them to looking like clean-cut, well-groomed children perhaps it will be easier for them to act that way.

PLANS MARRIAGE

Mr. and Mrs. H. L. Powers of Amarillo have announced the engagement and approaching marriage of their daughter, June, to Tommy Battreall, son of Mr. and Mrs. C. C. Battreall, 920 S. Faulkner, Pampa. Vows will be exchanged July 7, in Holy Souls Church.

(Photo by Gray's Studio, Amarillo)

Rare China Exhibit Will Open Monday

Fine china for the mansions and palaces of presidents, kings, governors and ambassadors around world is part of an exhibit showing treasures of ceramic art which will open here Monday.

Rare museum pieces, costly hand-painted, gold-decorated plates are also shown in the display, now at McCarter's Jewelry Store.

The dinnerware masterpieces were created by craftsmen of Lenox Inc., of Trenton, N.J., on special order for U.S. Presidents since the time of Woodrow Wilson; for governors of many states in the union, and for such foreign dignitaries as the King of Saudi Arabia.

Called "Command Performances," the special dinner services are typical of the Lenox, China which has been displayed as art treasures in such institutions as the Metropolitan Museum of Art in New York City, the Ceramic Museum in Sevres, France, and other outstanding museums throughout the country.

The public is invited to the exhibit here, which will be on display until June 15.

Sandals are pretty, cool summer footwear but buy the right size. They're neither pretty nor comfortable when they're a half size too short. Further, they'll do your feet damage.

Girl Scout Activities

Intermediate Troop 17 made plans for the summer during its meeting in the home of Mrs. Joe Wells, leader. The girls discussed Day Camp, and planned a hike and a swimming party, to be held during the summer months.

Intermediate Girl Scouts of Skellytown Troop 49 held a hike and picnic recently at the Skelly Creek. After the hike, games were played and a picnic supper was served by Mrs. J. C. Jarvis and Mrs. Frosty Horner.

Skating badges and membership cards for the next year were presented to the scouts. Scouts attending the outing were Melva Batson, Peggy Horner, Donna Moore, Joan

Manners Make Friends

If there is someone knocking at your door when you are taking on the telephone and there is no one else to answer the door, say quickly to the person on the other end

of the line, "May I call back later? There is someone at the door."

But be sure to call back as quickly as possible.

It's best to do all such activities after the kids are in bed and in a location away from that where food is prepared, even though the kitchen may seem like an easy place to do hair coloring.

If any of the instructions say "Keep away from eyes (or ears, or mouth) and in case of accident neutralize with..." be sure you've got the first aid necessary on hand before you start.

Be sure that rubber gloves used in hair coloring aren't the ones you wear for washing the dishes.

BAUBY

By BETSY WADE
NEA Staff Writer

When Baby learns to climb up on rail of his crib, it's time to teach him to climb out when the side is down. He is then put to bed with the side up. The side is lowered and a stool put by bedside, after he's asleep so he can get out in the morning.

Teaching Baby to drink through a straw may be easy and it may not. But if it can be done, he generally finds it a tempting way to drink a variety of beverages, particularly when a practical cup is not available.

If Baby is eager to play with a strange kitty, show him how to pat the animal gently on the back. Explain and show that when the cat rises his paw or shows his claws, that's the time to stop playing with him.

Make Friends Manners

If you write and ask information from a stranger, it is courteous to enclose a self-addressed, stamped envelope for the reply.

When asking any kind of favor,

however small, it is thoughtful to make it as easy as possible for the other person to comply with your request.

Shower curtains are getting fuzzy again, too. Now there are terry cloth ones that are water repellent and also have thin plastic liners. Texture interest need not pass by the shower with these items.

BETROTHED

Mr. and Mrs. Frank Hogsett, 712 S. Finley, announce the engagement and approaching marriage of their daughter, Betty Lou, to Donald C. Patchin, son of Mr. and Mrs. Carl Patchin, 217 E. Kingsmill. The wedding will take place June 29, in the First Christian Church, Pampa. (Photo by Call's Studio)

Bohemian Coffee Cake For Sunday

Sunday morning — that's the time to enjoy a breakfast that is a treat. What a feast! Fresh pineapple, scrambled eggs and pork sausage links join with the biggest treat, Bohemian Coffee Cake to make a hearty day-time beginner. Actually the coffee cake is like

a rich quick bread. The simplest meal has an air of distinction when freshly baked quickbreads are on the menu. A good quick bread requires a good shortening and lard is an ideal one to use. The ease with which lard can be used is encouraging to the homemaker who has difficulties in preparing tender flaky baked products, comments Reba Staggs, home economist.

Bohemian Coffee Cake
3 cups sifted enriched flour
1/2 teaspoon salt
1 cup white sugar
1 teaspoon cinnamon
1/2 cup brown sugar
1/2 cup lard
1 cup chopped dates
1 cup chopped nut meats
1 cup sour milk
1 teaspoon soda
Line a 9 x 12-inch pan with waxed paper. Sift together dry ingredients, add brown sugar. Cut lard into mixture until crumb resembles corn meal. Take out 1/4 cup of this mixture for topping. Add dates and nut meats. Dissolve soda in sour milk and add to cake mixture. Mix well. Spread in baking pan. Sprinkle topping on cake. Bake in a moderate oven (350 degrees F.) for 25 to 40 minutes.

Ready For Dates!

In a delightfully young fitted dress with full skirt that looks so nice over a crisp petticoat. Cuffed or three quarter sleeves are provided.

No. 8399 with PATT-O-RAMA included is in sizes 10, 12, 14, 16, 18, 20. Size 12, short sleeves, 4 1/2 yards of 35-inch.

For this pattern, send 25 cents in COINS, your name, address, size desired, and the PATTERN NUM-

Cleaning Kit Rated Aid To Housewife

By ALICIA HART
NEA Beauty Editor

Those women who keep a threaded needle stuck into the end of the ironing board to catch small tears before they enlarge are always a wonder to their friends.

"Are you really going to mend right now? While that iron steams that way?" is the kind of question they ask.

The answer is yes. This kind of efficiency, which seems frightening at first glance, is organization that makes irksome tasks hop out of the way with no bother.

An evening, or part of one, at the kitchen table is a big time-and-effort-saver many women utilize. They take the shoe-polishing kit, the sewing box, the spot remover, the saddle soap and all the household items that need attention. With the help of a pot of coffee and the radio, the jobs are out of the way in one swipe.

A neat kit designed by a manufacturer who understands this technique has just been introduced. It is based on a popular chalk-colored cleaning stick. The kit contains a

small stick for work on upholstery and draperies and a brush designed to take the powder off after it has absorbed the spot.

The kit comes in a clear plastic container with a handle. Women who follow the "storage at point of first use" principle will want to hang the kit on a hook near their working table or on the edge of the ironing board, to catch spots before the heat sets them.

You're silly if you don't have two mop parts for your wet mop handle. With two, you take the wet, dirty one off, wash and dry it while still having a clean fresh one to use.

The bulky white sweater is a handy summer wrap. Cut like a shirt or a jacket or a short coat, it goes most places both day and evening.

The printed tote bag is ideal accompaniment for the summer, sheath in black or white. Provides sharp contrast and enlivens a solid color.

"Exclusive But Not Expensive"

SWEET PICKLE mix added to curry sauce brings a new taste treat with Near East over chicken.

Near Eastern Curry Sauce Adds New Zest To Chicken

By GAYNOR MADDOX
NEA Food and Markets Editor
Eastern cookery is not a mystery. This recipe for Sesame Chicken with piquant curry sauce will prove that culinary point. Eleanor Foote, who works for the U.S. government, traveling to many parts of the world, gave us the recipe. She has revised the recipe because some ingredients are not available here.

SESAME CHICKEN WITH PIQUANT CURRY SAUCE
(Makes 4 servings)
One-half cup all-purpose flour,

2 tablespoons sesame seeds, 1/4 teaspoon salt, 1/4 teaspoon pepper, 1 2 1/2-pound frying chicken, cut in serving pieces; 1 egg, beaten; 2 tablespoons salad oil, 1 10 1/2-ounce can condensed cream of chicken soup, 1-3 cup milk, 1/4 teaspoon curry powder, 1/2 cup coarsely chopped sweet mixed pickles.

Combine flour, sesame seeds, salt and pepper; mix well. Dip chicken in egg, coat with flour mixture. Cook in oil until lightly browned on all sides. Combine remaining ingredients; mix well. Pour over chicken. Cover and cook over low heat until chicken is tender, about 30 minutes.

PICKLE-APPLE RELISH

(Makes 3 cups relish)
One cup chopped dill pickles, 2 medium-sized apples, finely chopped; 1 large onion, finely chopped; 1 4-ounce can pimentos, drained and chopped; 1/2 teaspoon celery seed, 1 tablespoon prepared mustard, 2 teaspoons prepared horseradish, 1/2 teaspoon salt, 1/4 cup sugar, 3 tablespoons water, 3 tablespoons vinegar.

Combine pickles, apples, onion, pimentos, celery seed, mustard, horseradish and salt; mix well. Combine remaining ingredients; heat to boiling point. Pour over pickle mixture; mix well. Chill.

RUTH MILLET

Either a mother or a father, or both, can do a great deal to keep brothers and sisters close after they have scattered across the country to make homes of their own.

One father managed this by writing family letters and making enough carbons as he wrote so that each child received a copy. The family letter worked even better than individual letters. It could be long and newsworthy and in reading the father's special remarks to each son and daughter all had the feeling of a family discussion, even though it was not around the dinner table as it has been in the old days.

A mother accomplishes the same thing by sending on the letters received from one child to another with a notation to mail after reading to still another child, and so on until the letter completes the rounds of the family.

Another mother encourages family closeness by maintaining the family farm, even though she lives there alone most of the year. By so doing she made it possible for children and grandchildren to have a happy meeting place for summer vacation.

It is sad for a family to drift apart simply because they live far from each other and are busy with their own lives.

And it is entirely unnecessary. One member of the family—mother, father, son or daughter—can prevent it by taking on the job of keeping each member of the family informed about the others.

Miss Janell Ewing To Receive Degree In Denton Monday

Miss Janell Ewing, daughter of Mr. and Mrs. R. F. Ewing, 529 N. Hobart, will receive her Bachelor of Science degree from Texas State College for Women in Denton Monday.

Mr. and Mrs. Ewing and Rees and Mrs. W. R. Ewing, 423 N. Somerville, Miss Ewing's grandmother, are in Denton for the commencement exercises.

Miss Ewing, who majored in interior design, is a member of Delta Phi Delta, national honorary art fraternity.

Following a short vacation in the clubs and organizations.

At the conclusion of the sessions, two citizens of Bluebonnet Girls States, to be held throughout the American Legion Auxiliary Girls Nation, to be held in Washington, D. C., in July, Girls Nation will include two representatives from each of the other Girls States, to be held throughout the nation in June and July, to participate in a study of National government. The American Legion conducts similar sessions, or Boys' States, with a Boys' National also held in Washington, D. C.

Miss Frances Goff of Houston is director of the Texas Bluebonnet Girls' State, assisted by Mrs. Harrell Moore of Austin. Mrs. Karl Talkington of McKinney is chairman of the state committee.

MISS JANELLE EWING

Ozarks with her parents, Miss Ewing will go to Midland where she will be employed in the drafting department of the Humble Oil Company.

Sudden transition from sticky hot day to icy-cold air conditioning can be unpleasant. Carry stole or sweater with you if you expect to dine out or go to a movie. When you hang a coat on the line to air or to be brushed, put two coat hangers in it, going the opposite direction. This way, the wind will not blow the coat off.

Open sandals and sheer, seamless stockings are ideal for summer wear but an absolute requirement is feet in the absolute pink of condition. No corns, no calluses, no rough spots.

REPRESENTATIVES—Pampa representatives to the Bluebonnet Girls' State, to begin Thursday in Austin, are Miss Jeannine Leith, left, daughter of Mr. and Mrs. M. W. Leith, 603 N. Faulkner, sponsored by the Tri-Hi-Y; and Miss Lu Koch, right, daughter of Mr. and Mrs. C. F. Koch, 853 E. Kingsmill, sponsored by the American Legion Auxiliary. (News photos)

Three Pampans Will Attend Sessions Of Bluebonnet Girls' State In Austin

Mrs. Mary Martin, Girls' State chairman of the Pampa American Legion Auxiliary unit, has announced the Pampa delegates to the 12th Bluebonnet Girls' State, to be held June 7-16, in the Texas School for the Blind, Austin.

Pampa delegates are Miss Lu Koch, daughter of Mr. and Mrs. C. F. Koch, 853 E. Kingsmill, to represent the Auxiliary; and Miss Jeannine Leith, daughter of Mr. and Mrs. W. M. Leith, 603 N. Faulkner, to represent the Pampa High School Tri-Hi-Y. Another Pampans, Miss Marcheta Hall, daughter of Mr. and Mrs. Roy M. Hall, 1123 E. Frederic, will return to Girls' State as a senior counselor. She represented the Auxiliary in 1954, and served as a junior counselor in 1955.

Purpose of Girls' State is to give special citizenship training to selected high school girls. The girls will set up and operate a miniature city, county and state government. Officials will be elected and the state officials will be inaugurated at ceremonies conducted in the House of Representatives, State Capitol, at 11 a.m. June 12. Citizens attending the sessions are selected on a basis of character and leadership from students who have completed their junior year in high school. Bluebonnet Girls' State will be selected at any units and other interested

COUNSELOR—Miss Marcheta Hall, daughter of Mr. and Mrs. Roy M. Hall, 1123 E. Frederic, will be a senior counselor at Girls' State in Austin. She was the Pampa American Legion Auxiliary delegate in 1954 and served as a junior counselor in 1955. She is a sophomore student at North Texas State College, Denton.

Why our finest watch

OMEGA

was selected as the official timer of the Olympic Games

When the organizing committees of the 16th Olympiads convened to choose an official timer they realized that the performance of every Olympic contestant must be measured with undisputed accuracy. They realized that only an organization with long experience in the science of precision-timing could shoulder such a great responsibility.

Since Omega had the knowledge and experience, gained not only from timing all previous Olympiads since 1932... but also the timing of the historic Bannister 3.59.4 mile-run, the British Commonwealth Games, the 1955 Pan American Games and scores of other contests... the appointment of Omega was natural and logical. Such dependability is yours in every Omega watch. See our men's and ladies' models. \$71.50 up, Federal tax included.

Cook Nook

By GAYNOR MADDOX
NEA Food and Markets Editor
The French are masters of fish cookery. We asked Louis Vaudable, noted gourmet, and proprietor of Restaurant Maxim's in Paris, to tell our June brides how to prepare fine fish dishes. Monsieur Vaudable, now in the United States, replied as follows:
Broiling is a favorite way of cooking fish in France. Because fish is already tender when it comes from the water, it needs only enough cooking to develop flavor.
Season the fish, whole or split, with salt, a bit of thyme or parsley. Brush with olive oil if it is not naturally fat, then run under a preheated broiler (about 500 degrees F.) for a very few minutes, depending on its thickness. When it begins to brown, turn, season and oil if necessary, and broil until it flakes easily when tested with a fork. That's all. Longer cooking will make it tough and dry. Serve immediately.
A more sophisticated French way of cooking fish, one whose flavor justifies the extra work, is this Halibut Mousse.
Chop 1 pound of halibut very fine or put it through a fine grinder. Then pound it in a mortar if you have one, or work it in a bowl with a wooden spoon until it is as fine as you can make it. Now, place the bowl in a larger one filled with cracked ice. Gradually beat in three egg whites, using a wire whisk or wooden spoon, until the egg whites are absorbed and the mixture is smooth. Then gradually stir in 1 cup heavy cream until completely absorbed. Add some salt, a sprinkle of pepper, a pinch of nutmeg, and if desired, a dash of cayenne or pinch of finely chopped fresh dill. Keep on ice one hour. Then butter a fish mold. Stir the fish mixture well to blend. Pour it into the mold. Cover with waxed paper and place in a pan containing one inch of hot water. Bake at 350 degrees F. 25 minutes, or until set.
Serve it with a sauce that complements the flavor of the fish but which does not compete with it. At our restaurant in Paris, with this mousse we serve Sauce Lie de France. Its veal - and - vermouth base is sheer flattery for the superb mousse.
Sauce Americaine, with the slightly stronger flavor of lobster, is also good company.
Whatever sauce you choose, be sure to allow the time needed to make it. If you use one of the frozen sauces, heat it while the mousse bakes.
Mrs. Dorothy Andrews, installing officer and outgoing president gave a corsage to Mrs. Lary Bryant for her work during the year, and presented an unopened Bible to Mrs. Heister. Background music was provided by Miss Donna Magee, and Miss Barbara Carter sang, "Living For Jesus."
The closing prayer was led by Mrs. Tressie Mantooth.
Hostesses for the social period were Mrs. Joyce Haynes and Mrs. Lavern Carter.

TO MARRY

Mr. and Mrs. C. V. Forsman, east of city, announce the engagement and approaching marriage of their daughter, Auremia Ellen White, to Charles A. Polk, son of Mrs. Haughty Polk of Columbia, Miss. A midsummer wedding in Tillamook, Ore., is planned.

PLANS JUNE WEDDING

Mr. and Mrs. Hubert B. Anderson of San Antonio announce the engagement and approaching marriage of their daughter, Berta Myriene to Carl H. Mayes, son of Mr. and Mrs. Jesse Mayes, 1333 N. Starkweather. The wedding is planned for June 16, in San Antonio. (Photo by Christianson-Leberman, Austin)

Fad Diet Dangerous For Mature Woman

By ALICIA HART
NEA Beauty Editor
Young women may get away with fad diets that consist of eating a dozen eggs a day, or grapefruit and hamburger for a week, but these diets are definitely more dangerous for mature women than for others.
It's just plain silly for a grown woman to undertake a serious diet without an examination and recommendation from her doctor.
One woman undertook to cut out sweets to lose a few pounds easily, she felt, and soon was quite sick. She, like most persons, needed her sugar for energy. But her balance, it turned out, was extra-dependent on little things like sugar in the coffee.
It is quite dangerous for a mature woman to do even a little self-doctoring in her diet. As a matter of fact, many grown women find out from their doctors that their diets are seriously lacking, even though they may satisfy hunger. He finds this out by tests and examinations. I can recommend many dietary changes, some of which may surprise the patient. Certainly, if one is troubled by weight loss, weight gain, fatigue, jumpiness, indigestion, constant hunger or loss of appetite, diet may have something to do with it. But only a competent physician who does careful records and examinations can recommend dieting for a woman in her middle and later years.

Boost In Wardrobe For Mother-To-Be

By ALICIA HART
NEA Beauty Editor
Prospective mothers, no less than any other women, like to feel that the new season means new clothes and a fresh look.
But this isn't always so easy. If the budget for maternity clothes is being robbed to furnish the nursery or buy baby clothes, there may be little left for a new maternity suit or even a jacket.
A good, but modest, investment is an artificial flower. Lots of them are on the counters and the selection is wide. Imported ones may run to a couple of dollars, but they are bright and imaginative. American-made ones are more economical. Such a flower can dress up the neckline or shoulder of that same old pleated suit. They are also the top favorite distractions from the bulge in front.
A yard or two of vell cotton almost nothing. It adds airy-looking width above the middle.
Women who sew can stretch the budget to cover a new jacket. A fancy one if or evening can be made simply on flared pyramid lines with a bateau or scoop neckline. A nonstout fabric is best. Many of the more dressy cotton fabrics are perfect for maternity wear.
At worst, any pregnant woman can afford a new pink lipstick to go with her new glowing color.
Does hair grow faster in the summer than in the winter? Some say yes, some say no. But it is sure that those tickly ends feel more tickly in hot weather; so get it trimmed as frequently as is necessary.

McLean's WSCS Holds Installation

McLEAN — (Special) — An installation ceremony highlighted the meeting of the Wesleyan Service Guild of the Methodist Church. Installed were Mrs. Irma Heister, president; Mrs. Loree Brown, vice-president; Mrs. Inell Zevely, secretary; Mrs. Ruth Magee, treasurer; Mrs. Billie Perkins, reporter.
Committee chairmen installed were Mrs. Helen Black, Christian social relations; Mrs. Maybelle Nash, missionary education; Miss Billie V. Brown, spiritual life; Mrs. Martha Parker, promotion; Mrs. Lavern Carter and Dixie Meacham, supplies; Mrs. Dorothy Middleton, literature; Mrs. Ruth Hindman and Naomi McCarty, membership; Mrs. Johnny Rodgers, music; Mrs. Georgia Beasley, church representative; Mrs. Loyce Sharrod, recreation; and Mrs. Frances Kennedy, status of women.
Mrs. Dorothy Andrews, installing officer and outgoing president gave a corsage to Mrs. Lary Bryant for her work during the year, and presented an unopened Bible to Mrs. Heister. Background music was provided by Miss Donna Magee, and Miss Barbara Carter sang, "Living For Jesus."
The closing prayer was led by Mrs. Tressie Mantooth.
Hostesses for the social period were Mrs. Joyce Haynes and Mrs. Lavern Carter.

MATURE PARENT

By MRS. MURIEL LAWRENCE
My guest was a psychoanalyst of wide experience and I was telling him about an upset mother who came to see me.
The previous day, her daughter had come home from school, terrified of what she'd heard in a social studies class. Apparently the teacher had read part of a speech by an Atomic Energy Commission member who warned that there is no end to the after-effects of an H-bomb explosion.
"What did you tell the mother?" my guest asked.
"To go home and ask the child to make the evening meal," I answered, "ordering her favorite food and inviting her best friend to share it. I told her that the only way I knew to cancel out fear of destruction was to perform our own loving act of production."
My guest nodded and I added, "Perhaps what really terrifies us in the H-bomb is that we share the earth with people who could drop it on the other people."
"Yes," agreed my guest. "I also think that this is what frightens the children." Then, reaching into his pocket, he said, "So when one of my patients recently brought me a story of how her little boy had been frightened by an air raid drill at school, I gave her one of these."
The pamphlet he handed me is entitled "Work and Study Projects." It is a publication of the American Friends Service Committee illustrating a number of the cooperative programs it sponsors.
There's a photograph of young people saving logs together in a work camp — and another of a group discussion in an international seminar. A teen-age volunteer worker in a settlement house is pictured giving guitar lessons to slum children. From another page, a college girl squints in the sun beside the Mexican village family she lives and works with on summer vacations.
Said my psychoanalyst guest, "I asked my patient to show these pictures to her frightened little boy and say, 'so you see, though some people have found new terrible ways to destroy us, others have found new wonderful ways to help us live. These are pictures of people who are so busy building up love and understanding with other ones that they haven't got time to be afraid of being killed. These are the people we are glad we share the earth with.'"
The American Friends Service Committee will send this pamphlet to present who want to use it to reassure children. Just write the committee at 144 East 20th Street, New York 3, N.Y.

Desk And Derrick Club Has Banquet

Members of the Desk and Derrick Club entertained their employers, husbands and other guests with a dinner in the Moose Lodge.
The program included a presentation entitled, "Magic Suitcase," by Mrs. Jean White. She showed the group some of the products made from oil that are carried in a woman's suitcase, such as lipstick, face cream, other cosmetics, galoshes, hose and containers for various products.
Another demonstration, "Magic Barrel," was presented by Clayton Husted. Husted explained the "magic barrel" contains the fluid which makes a refrigerator cold, military brushes, a rope which resists any form of liquid substance, thread, tape one-third as strong as steel, and devices used in the medical profession.
The last portion of the program was a skit, entitled "Insight Into an Interview," presented by club members. Taking part were Mrs. Anabel Simmons, portraying an employer; Mrs. Pauline Smyth, the interviewer; and Misses Carol Cooper, Lilith Martin, Mickey Johnson, Noel Thompson, Gladys Howard and Knoxine Russell, applicants.
The program was introduced by Mrs. Majorie Schwind, master of ceremonies. Guests were introduced by Mrs. Hildred Cook, president.
About 60 persons attended the dinner.
found new wonderful ways to help us live. These are pictures of people who are so busy building up love and understanding with other ones that they haven't got time to be afraid of being killed. These are the people we are glad we share the earth with.

Manners Make Friends

Think what you are doing before you pass on any remark or incident that puts a teen-ager in a bad light. Reputations are easily ruined and stories get exaggerated each time they are retold. So the first matter is cigarettes. Even if a teen-ager is allowed to smoke by her family, this is one time not to do it. There are a variety of reasons for this, but probably the most important one is that the interviewer might get the idea that the teen-ager couldn't do without a cigaret for even a half an hour.
If the job or school is interested in seeing art work, records, references or other sheets of paper that a gal doesn't want to part with, she ought to take such things along in a neat folder or notebook. They should not be folded or stuffed into a pocketbook. They should be organized.
A pen and a small notebook are good things to take along, even if one doesn't have to use them. They can come in handy for noting down phone numbers or additional material that's needed.
Many teenagers get a sour feeling when they see other women in the office or school who are not well organized or neat. "Why should I, if they can get by?" they ask.

Prepare Carefully For Job Interview

By ALICIA HART

RECORD CHANGES — Shown discussing the changes in real estate appraisal records at the city tax office are, left to right, Mrs. Joyce Swope, map and real estate record clerk and assistant real property appraiser; Mrs. Mary Kay, deputy registrar and vital statistics clerk; and Mrs. Laverne Bruce, deputy tax collector and office manager. The real estate appraisals are being transferred to the new type records which will enable the tax office to record all changes in each piece of property for the next 15 to 20 years on one card. (News photo)

Revamped City Tax Setup Keeps Tab On Ownership

By FRED M. PARKER
Pampa News Staff Writer

Would you like to know who owns a certain piece of property located in the City of Pampa? Today it would be a simple task. Anyone can go to the City Tax Office and in about five minutes can obtain the information needed.

It wasn't so easy prior to 1946. In fact it would have taken hours of research to find out the ownership of some of the property in Pampa. Several lots in the city were listed as unknown ownership.

A need for better records and up-to-date procedures in the tax department was recognized as early as 1941. The city manager at that time secured the services of a tax consultant for the purpose of determining the adequacy of such records or recommending improvements for more effective tax administration.

However, there was no definite action taken on the findings and recommendations. It was not until 1946 and 1947 that any work was begun to improve the tax structure.

During the period from 1946 to 1948, research was carried on that partially brought the plans and legal descriptions up to date. Prior to this, research the only records the tax office had was the old type of rendition and the original tax roll.

This research was accomplished with the help, advice, and cooperation of the abstract offices, County Surveyor A. H. Doucette, and other interested citizens.

During the first six months of 1946 an actual survey of all property within the city limits was made with the cooperation of the City School Tax Office. The purpose of this survey was to determine what improvements were located on each parcel of property and to obtain a description of the improvements.

In making this survey several improvements were located on land that was listed as vacant property. Necessary adjustments were made in the records from the information obtained by this survey.

In 1947 the city obtained the services of an appraisal company who prepared a manual or "yardstick" for the tax office to follow in setting up future evaluations of property. This manual is kept up to date and all property evaluations are figured from this manual.

The assessment, since the manual was put into operation in 1948, has been at 75 per cent of the appraised value of the property. This 25 per cent reduction was made by the Tax Equalization board composed of citizens of the community. The board is appointed following the first Saturday in April and holds meetings for the purpose of adjusting the evaluations of property.

Since 1946 the tax office has been working to bring their records up to date and to set up an efficient type of operations in the office. The original descriptions of property was given by percentages of lots but today all property is described by the exact footages involved in each piece of property.

They also have a master map showing every piece of property and have plats which show all split property and the plots are used to show the amount paid for the property when last sold. These plats are incomplete but plans call for their completion within the near future.

When the program began in 1946 the real estate appraisal cards were of the "one time only type" and this method has been used to the present with several changes being made in the type of cards. At the present time the information on these cards is being transferred to a new type of appraisal cards which have room for the listing of changes of ownership over a period of time. These cards should last for about 12 to 20 years without changes except for the making of cards for new property.

To aid in the transfer of this information the City Tax Office has hired two additional girls for the period needed to complete the changeover. When the necessary work is completed the additional help will leave and the tax office will continue to operate on the normal personnel consisting of the Tax Collector and three assistants.

Aubrey Jones, city tax collector, stated, "the present system, when set up, should handle the tax work of Pampa until the city reaches a population of 30 to 35 thousand without an increase in the number of personnel in the office."

The work of setting up an efficient set of records was not accomplished overnight. It took years of hard work to locate all of the information needed to compile an accurate set of records. In 1946 Pampa was in the same situation as other towns, none of them had a complete set of records.

In 1946 approximately 250 pieces of property were listed as owners unknown. Today, by checking all of the recorded deeds in the County Clerk's office, there is no listing on the city tax rolls that shows the owner as unknown. All property is listed according to the last recorded owner although some of the owners have not been located.

The Tax Office utilizes three systems. The first system in the systems. The first system in the tax process is that of appraisal, which involves the determination

of the ownership of the property. The final system is the one of collection.

The collection of taxes begins in the latter part of August and have been averaging better than 90 per cent of collections before the delinquent date the following year.

During the past 10 years a lot of work has been done to make the local tax office a better one and a lot of work will have to be done in the future to keep it that way, but today a citizen can enter the tax office and find out any information needed on a piece of property.

The personnel of the tax office are always willing to discuss their work with any interested citizens and will show property owners how their tax rate is figured from the manual.

HUMOR IN THE NEWS

CHARLES CITY, Iowa —UP— James Condon was only joking when he told friends they ought to paint his house for him while he was away for a few days.

Condon returned to find a house of a different color — many different colors, in fact. His obliging friends had splashed on light blue, cream, yellow, pink, green, and dark blue paints.

NEWTON, Miss. —UP—Town Marshall T. Ollie Price nabbed a 14-year-old suspected burglar when the boy returned to the scene of the crime at the bus station to get his shoes.

NEW YORK —UP— Actress Diana Barryore confided yesterday that when she went to a sanitarium for problem drinkers, she was made to feel quite welcome.

Officials assigned her the same room her famous father, John Barrymore, used when he was in the institution.

RUDD, Iowa —UP— Thieves refused to believe a sign on the door of an implement company safe and went to the trouble of knocking the dial off and opening the safe.

They found the sign told the truth when it said "this safe contains no money, nothing but records. Here's the combination."

HOLLYWOOD —UP— Air Force test pilot Lt. Col. Frank Everest flies rocket and jet planes at Edwards Air Force Base. But when the technical advisor for "Toward the Unknown," now being filmed, is off duty he drives a 1930 Model-A Ford.

MOSCOW —Communist Party Chief Nikita Khrushchev, on the United States policy of finger-printing foreign visitors:

"This is for criminals only."

VENICE, Italy — Former President Truman, warning newsmen the torn ligament in his leg is almost healed:

"It won't be long now before I'll be giving their (the newsmen's) legs some exercise."

Good And Bad Of Week's News

By CHARLES M. McCANN
United Press Foreign Analyst
The week's good and bad news on the international balance sheet:

GOOD NEWS

1. President Eisenhower decided to send Gen. Nathan F. Twining, chief of staff of the Air Force, to Moscow for an observance of Soviet aviation day on June 24. The invitation had been extended by the Soviet government. It was suggested that the invitation was merely a Kremlin propaganda move, aimed partly at getting invitations for high Soviet leaders to visit the United States. The President apparently figured that Twining's visit could do no harm and might do good as one step toward an eventual break in the disarmament deadlock.

2. The United Nations command ordered the neutral nations armistice inspection teams out of South Korea because of persistent truce violations by the North Korean and Chinese Communists. The decision ended a farcical situation and a dangerous one. For instance, the Reds have moved 400 to 500 war planes into North Korea since the truce. Before then, they had none—the Allies completely dominated the aid. The Communists will not let the teams inspect their territory.

3. Chancellor Konrad Adenauer's West German government made a series of proposals to the East German Communists for restoring normal communications between the two areas. In a second step, the West German government charged that the Reds still hold 18,900 political prisoners. In both actions, Adenauer evidently

sought to take advantage of the loosening up in the Red satellite countries incident to the denouncing of Josef Stalin.

BAD NEWS

1. The French National Assembly opened a critical debate on Premier Guy Mollet's North African and internal policies. The debate will lead up to a confidence vote next week, probably Tuesday. It was forecast Mollet would win-but only because no political group wants to take responsibility for overthrowing his government at this time. Algerian nationalists were in open, bloody rebellion. In France, there were serious riots. Communist-fomented, against drafting men for service in Algeria. Troops en route to Africa repeatedly slowed up railroad trains by pulling emergency stop-signals.

2. Premier Antonio Segni's Christian Democrats and their Allies won a technical victory in elections for local governments throughout Italy.

They increased the total popular vote, and the Communists lost votes. But in many cities, including Rome, the Christian Democrats failed to get the majorities they needed to keep control of local governments. The result was a deadlock. Segni faced the choice of seeking support from either left or right wings, or calling new elections.

3. Violence blazed throughout Cyprus. Rebels who demand that Britain give the island to Greece assassinated British troops, Turkish Cypriot policemen and Greek Cypriot civilians. In London, Queen Elizabeth II was heavily guarded by police when she at-

Germany Plans Building That Is Similar To Our Pentagon

EDITOR'S NOTE: This is the last in a series of three dispatches on the rebirth of Germany.

By JOSEPH W. GRIGG
BONN, Germany, —UP— A yellow bulldozer tore into a hillside on the outskirts of West Germany's boomtown capital of Bonn the other day, chewing deep brown furrows out of the earth.

On that site within the next couple of years will rise a new \$10 million defense ministry building to house 5,000 officials. Germans, recalling Washington's famed Pentagon, already have dubbed it the "Bonntagon."

When completed, it will be the heart and nerve center of the 12-division, 500,000-man military force this resurgent nation has undertaken to raise at the urging of nations which crushed Hitler's wehrmacht 11 years ago.

Theoretically, West Germany began to rearm on May 5, 1955, the day the occupation ended and the nation became sovereign again.

Fight in Parliament

Actually the early stages of rearmament have been slow and painful—so slow that the government has been charged with dragging its heels. A long parliamentary fight had to be waged before the basic arms legislation could go through.

Every kind of technical difficulty dogged the military planners, even though they had prepared for five years for this day.

tended on Thursday the official celebration of her birthday. Scotland yard feared an attempt by Cypriot gunmen to assassinate her.

Even now only about 10,000 men are under arms. The sight of the blue-grey, American cut uniform of the new West German soldier still is so rare in most cities that people turn around and gape at one on the streets.

But Theodor Blank, blunt-spoken former labor union boss who heads Chancellor Konrad Adenauer's defense ministry, insists that the arms timetable will be met.

By the end of this year, Blank says, West Germany will have 96,000 men under arms—64,000 in the army, 12,000 in the air force and 8,000 in the navy. The remainder will be administrative personnel.

Plans for 1959

Adenauer and Blank assert that the 12 army divisions will be raised, trained, armed and ready for action by the beginning of 1959.

Fears voiced in Western capitals that West German youth would actively resist rearmament are proving groundless.

That does not mean that young West Germans will troop with cheers to the colors. The average young German's attitude toward military service does not differ greatly from that of the American.

WASHINGTON —Rep. Peter Frelinghuysen (R-N.J.), on the sulphuric acid attack that cost labor columnist Victor Riesel his sight:

"The nation itself would suffer if intimidation of our newspapermen were to be permitted."

Original habitat of the potato is said to have been Peru or Chile, where it grew wild on the high Andes plateaus.

NEW ALLIED CHIEF — The White House has announced the selection of Vice Admiral Robert F. Briscoe as commander-in-chief of Allied Forces in Southern Europe. Briscoe succeeds retiring Admiral William M. Fechteler.

Another DOWELL First

NOW! aircraft power for fracturing, acidizing

New DOWELL pumping unit has 1500 h.p. Allison aircraft engine—plus revolutionary remote control

Two great developments!

The Allison aircraft engine, after posting a remarkable record as a power plant for fighter planes, has been adapted by Dowell to bring you increased fracturing and acidizing effectiveness.

The 12-cylinder liquid-cooled engine develops 1500 h.p. making it the most powerful in fracturing. Dowell has mounted it with the outstanding DR power-frame pump on one truck for compactness and efficiency unmatched in the oil industry. Here's power when you want it!

The new Remote Control Panel developed by Dowell is also the first of its kind. Never before has it been possible to offer such safety to men and equipment.

The Remote Panel gives the operator complete control over engine starting, operation and shutdown from any distance up to 125 feet. He's away from most of the noise for easy, rapid communication.

Pre-set controls on the panel automatically shutdown the entire unit if maximum pressures or volumes are exceeded. Before the treatment can begin again the controls must be manually reset. Here's excellent insurance against the possibility of well equipment damage.

Call Dowell today. Get all the information about the Allison-Powered Pumping Unit with Remote Control. Dowell Incorporated, Tulsa 1, Oklahoma.

you can depend on

HARVEY W. WILEY
50TH ANNIVERSARY
PURE FOOD AND DRUG LAWS
HONORS CRUSADER — The Post Office Department has announced that a special three-cent stamp, shown in drawing above, commemorating the 50th anniversary of the passage of the Pure Food and Drug Laws will go on sale in Washington late in June. Dr. Harvey W. Wiley, one of America's great health crusaders and the father of the Pure Food and Drug Act, is honored on the stamp.

RED CROSS NEWS

By RONALD WATERS
Public Information Chairman

Before I sign "20" for the last time on these pages of the Pampa Daily News, I want to express my appreciation to everyone that has helped me in so many ways over the past year. I have enjoyed being public information chairman for the Red Cross and I have enjoyed my association with many different organizations.

I hardly know where to begin, but I have certainly had fun with the Pampa Chess Club, which I helped to initiate here last October and I have enjoyed my association with the Pampa Little Theater, another group which I started in organizing a few months ago. Both groups will be looking for a member to fill in on the board of directors.

Now I certainly want to plug the Jaycees and say how very much they have helped me in leadership training and in civic work. I shall be leaving as chairman of the publication committee and as program chairman of that group.

I have also enjoyed participating in the Adult Education group and in Walter Stein's Spanish class. This class has afforded many hours of enjoyable learning.

My associations with the Exchange Club, with the Chamber of Commerce and the City Commission, all of the city and county officials, and many other groups have been most enjoyable.

I have never made so many friends so fast before in all of my life. And I have certainly enjoyed living in a progressive and growing city of Pampa. This place, at the top of Texas, will long remain in my memory as the friendliest place on earth!

Now, I shall not have a chance to wish all of my friends "good-by", so I take this opportunity to bid them farewell. For I shall return to Pampa frequently for visits.

So — it's off to sunny Mexico City and Acapulco, to Cuernavaca and Taxco, and then it's back to work for another newspaper, in a similar position.

I will simply say, "Adios, amigos!"

The National Convention is meeting at St. Louis, Mo., this coming week. It is too bad that Pampa Chapter is not represented at the convention, states James Patterson, field representative.

Mrs. F. Stewart from Dalhart plans to attend the convention and Mr. and Mrs. Frank Cox from Perryton. Chairman Harriman will talk to the chapter chairman, and we feel sure that this will be an inspirational talk. A tour of the Midwestern Area Office will be made Sunday afternoon. It should be most interesting to visit the Midwestern Area Office and, to meet those in the new office.

Jackie Hoyler and J. B. Copeland will be the Junior Red Cross delegates to Pett State Jean State Park, Merrittton, Ark. June 10-20.

Judy Neisaga was elected the delegate, but since she has a life-saving job this summer and could not attend, Copeland was selected to go.

These young people will learn how Junior Red Cross is run and all about the different programs that Junior Red Cross sponsors.

Delegates from Amarillo, Hereford and Pampa will all go together.

There were 80 beginners enrolled Friday morning in the water safety program and 30 adults. Two classes will be taught each morning with beginners, adults, and intermediates in each class. Boys and girls may continue to enroll in these classes until all of the places are filled.

Junior Red Cross boys and girls will be acting as aides and as helpers in this program. Mrs. Hardy Pitts, Mrs. Coy Palmer, and Mrs. Hugh Morrow, gray ladies, helped with enrollment. Enrollment at Baker School will be held June 2.

Mrs. H. O. Darby, service groups chairman, asked anyone in our community that wishes to give good pocket book novels, funny books and prizes that may be used for parties given at the Army Air Base Hospital for patients' recreation to bring gifts to the Red Cross office.

Texas Railroad Commission Reports Seven Deep Intentions

A total of 27 applications to drill were filed with the Texas Railroad Commission office during the past week and four wildcats were reported.

Seven deep intentions were made.

Oil well completions totaled five. Out of the 27 applications, Hutchinson County filed 16, Hansford County filed four and Gray County two.

One application to deepen to a depth of 9,700 feet was made in

Roberts County, and three applications to recomplete as gas were made.

Here are the statistics:

APPLICATIONS TO RECOMPLETE AS GAS WELLS
Gray County
R. R. Kyner — W. P. Orr "B" number 3, 2310' from S, 330' from E lines of Sec. 16 Bk. 30, H&G, 5 mi. NW from McLean, PD 2980
Hansford County
Phillips Petroleum Co. — Cator number 1, 2276' from S, 330' from

W lines of Sec. 33, Bk. 2, GH&H, 5 mi. W from Morse (To plug back from 8315 to Brown Dolomite)

Hutchinson County
Gulf Oil Corp. — C. L. Dial number 192, 3630 from N, 990 from E. lines of Sec. 25, Bk. 47, H&TC, 5.5 mi. SE from Stinnett, PD 2857

APPLICATION TO DEEPEN
Roberts County
(Wildcat) Stetex Petroleum Co. — Ledrick number 1, 660' from S & W lines of Sec. 31, Bk. C, G&M Sur., 22 mi. N from Pampa, PD 9700

API Head Suggests The Oil Industry Solve Own Problems

By HARRY WILSON SHARPE
WASHINGTON, June 2—UP—Lost in the shuffle of recent big news breaks was some advice given to the oil industry by President Frank M. Porter of the American Petroleum Institute.

"Let us solve our intra-industry differences among ourselves," he said. "Let us conduct ourselves with propriety. The industry will be judged by the misbehavior of any one of its members."

Porter's remarks, made to the mid-year meeting of the Independent Petroleum Association of America at Los Angeles, were intended to pound home the tenor of a speech he made to the Kansas oil men last winter. At that time he said:

Among problems plaguing the industry are internal bickering over excessive oil imports, industry price wars, moves in Congress to cut the oil depletion tax allowance, federal control of natural gas prices, and emnity between independent oil marketers and the so-called integrated (well-to-consumer) companies.

Making Public Issue
The IPAA is making a public issue over the refusal of some importers to reduce their crude imports and thus lessen competition with domestic producers.

Porter frankly admits there are abuses and unsound practices in the industry. In his Kansas speech, he said: "The producers, the refiners, the transporters each are sincere in their belief that their difficulties are more critical than those of others. But if industry components spend their energies in charges and countercharges, we will be unable to find either time or common ground to defend our industry against many detractors."

Cautions Against Recklessness
"Let us not be so reckless in making charges against one another that we eventually become preoccupied with defending ourselves against ourselves." He went on to say that "internal recrimination is fertile ground for many invidious and ill-intentioned detractors on the outside who would like to see the whole industry under federal control."

Porter has been waging a sort of one-man campaign to keep oil's house in order. His greatest fear is that critics in favor of industry nationalization will take advantage of any cleavage to win support for their aims in Congress.

What is needed, Porter said, "is a united front. The industry finds itself in the unenviable position of being damned if it does and damned if it doesn't. Let's keep our minds clear and our thinking straight. Let's not bait traps for ourselves by vindictive threats of inviting government intervention in our quarrels."

Illinois, in 1790, was divided into two counties — St. Clair, the western half of the state, and Knox, the eastern half.

Israel was voted into the United Nations on May 11, 1949.

NS INS 1-18 GROOM SENIORS
GROOM — (Special) — The Senior class of Broom High School is a sponsor, Mrs. Ted Bones, 713 Saturday evening at 8:15 on the Santa Fe Railroad for their annual Senior Trip.

They visited in Chicago, Washington D. C., and New York City. They arrived back home Saturday morning at 9:45. The trip was enjoyed by the entire class.

HONEST!—Proud couple hold 12-pound, 3-ounce, 31-inch golden lake trout which Mrs. Wiggins hooked and her husband, Robert E., landed after a 28-minute battle on Lake Sunapee, N. H. Could be a world record. In all the universe, no catch quite like this.

Tractor Drivers Get Chance To Excel

By GAYLORD P. GODWIN
WASHINGTON, June 2—UP—Youngsters who are expert tractor jockeys will get a chance to show their skill and collect cash and glory at the Tulsa, Okla., State Fair Sept. 29-Oct. 5.

The fair managers have announced the first national junior tractor operators' contest open to drivers who are members of 4-H clubs or the Future Farmers of America. The contest will be a feature of the 1956 national farm petroleum and equipment exhibition.

Sponsors have put up a total of \$12,000 in prize money.

The grand champion kid tractor champ will get \$1,500 cash and a trophy. Three other champions will get \$500 cash each and trophies. Eighty others will get cash awards, none under \$50.

The Tulsa fair tried out a state contest of junior tractor jockeys a year ago. It went over so well that the managers expanded it to a national contest. They expect entries from about 30 states for the 1956 competition.

Divided by Age Groups

Each contestant must be a bonafide member of a 4-H club or an FFA chapter. The contest is divided into two divisions of two groups each. The first division is for youngsters aged 12 through 15 and the second division is for those aged 16 through 20. One group is for 4-H members, the other for FFA members.

Each contestant at the national meet must be a state champion at his state fair or at an approved statewide 4-H or FFA tractor operator contest where a statewide competition was held to determine his championship. Under the national contest rules, four winners from each state would be eligible to compete for the big prize.

Each contestant will be required to undergo a written examination of 50 questions on safety and 50 questions on maintenance.

After the written examinations, the contestants drive tractors over three courses pulling a grain drill, a row crop cultivation, and a four-wheel trailer.

Drive Through Pen
For the tractor and grain drill, a pen about 20 feet by 40 feet will be laid out with four gates 12 inches wider than the two-wheel grain drill. The driver will have to go forward through some gates and backward through others.

Other farm front developments:
Imports — In addition to being the world's largest exporter of agricultural products, the United States is the world's second largest importer of agricultural products. Only the United Kingdom imports more farm commodities than the United States.

About two-fifths of all U.S. imports are agricultural. These purchases are an important source of dollars for foreign countries, with which they can buy U.S. exports.

SHIPSHAPE FOR CANCER—Crewmen of the world's most powerful warship join the fight against cancer. Four hundred sailors on the newly christened aircraft carrier Saratoga spell out the words "Fight Cancer" in letters 35 feet high, while 900 shipmates form the American Cancer Society's sword of hope.

New Zealand has more than two and one-half cattle for each of its inhabitants, and its sheep outnumber people almost 17 1/2 to one.

The male of the common house sparrow is much more active in nest building than the female.

John Turner — Young number 1, Sec. 1, Bk. 23, BS&F, completed 5-4-56, potential 28, G-O ratio 3000, gravity 40, top of pay 2835, total depth 3083 10 3/4" casing 418, 5 1/2" string 3083"

PLUGGED WELLS
Sherman County
(Texas-Hugoton Field) Phillips Petroleum Co. — Bivins BB number 1, Sec. 37, Bk. 2, GH & H, completed 1-5-50, total depth 3190, plugged 5-17-56, Non-Commercial gas well

APPLICATIONS TO DRILL
Dallas County
