FRED NESLAGE

## He's Interested In Pampa's Oil Fields

By RONALD WATERS  
Pampa News Staff Writer

One of Pampa's many people interested in their community's advancement is Fred Neslage, an active civic leader, former Rotary Club president and project manager of the West Pampa Repressuring Association and Watkins Repressuring project.

## Farm Policy Is Top Issue In Iowa Vote

DES MOINES, Iowa (UP)—Administration farm policies were the top issue in drouth-threatened Iowa's primary election today. But a light vote was expected.

The controversy over high versus flexible price supports boiled over into the feature primary battle between Sen. Bourke B. Hickenlooper and youthful Attorney General Dayton (Cracker) Dry Countryman.

Both seek the Republican senatorial nomination. Hickenlooper is one of the leaders in the administration's development of a flexible price support program. Countryman wants high, rigid supports.

## Contest Hearing In Carson Set

PANHANDLE — A hearing on a proposed contest of the Carson County prohibition election, held May 5, will be held in 100th District Court, Panhandle, June 14.

# Assassination Attempt On India's Nehru Thwarted

## Stone-Throwing Rioters Protest Federal Control

BOMBAY, India (UP)—Bombay police said today they had thwarted an attempt to assassinate Prime Minister Jawaharlal Nehru Sunday when he was the target of a stone-throwing mob at a public gathering.

The anti-government riots, second within a year, stemmed from demands by the Marathi language speaking populace that Bombay be included in a Maharashtra state. They broke out when Nehru refused and said Bombay would remain under federal control for several more years.

Police arrested more than 1,000 demonstrators and received a tip that a bomb would be thrown at Nehru Sunday when he addressed an outdoor meeting. Stringent security precautions were taken and Nehru was unscathed.

More than 60 persons were injured in the rioting and at least one person was killed as police fired 23 rounds at surging, angry crowds in four separate districts of Bombay. Police were forced to use tear gas against the crowd that heard Nehru speak.

Bombay police said they prevented the assassination by herding the thousands of persons present into bamboo enclosures so small that any trouble could be localized. Any "doubtful" were kept a full 150 yards from the platform where Nehru spoke.

## Two Are Fined For Assault

Two persons pleaded guilty in County Court this morning to charges of aggravated assault. The charges came about when they used a knife and a razor on two other people during a disturbance in front of the Busy Bee Cafe, 410 Maple, about 3:15 a.m. Sunday.

Sara Kate Buser, 712 S. Somerville, pleaded guilty to the charge of aggravated assault, to wit: used a razor and slashed the hand of Calvin Hazy. She was fined \$25 and costs by the court.

George T. Morgan, Berger, pleaded guilty to a charge of aggravated assault, to wit: using a knife on the forehead of Gladys Hampton. The court fined him \$25 and costs.

## Capitol Hill Roundup

WASHINGTON UP—An amendment cutting off all U.S. aid to Yugoslavia may be offered in the House as a result of Marshal Tito's statements in Moscow.

Rep. John M. Vorys, (R-Ohio), a senior member of the House Foreign Affairs committee, said such an amendment might seek to eliminate military aid or even all funds for Yugoslavia from the \$3.8 billion aid bill approved by the foreign affairs committee.

He said Tito's statement that Communist Yugoslavia will never again be split from Russia by "misunderstandings" makes him think "there will be such an amendment, and that it will have strong support."

## RESERVES

A remark by House Republican leader Joseph W. Martin Jr. indicates Congress may be spared another bitter fight over the issue of universal military training. Martin said in a speech at the University of Syracuse that the new military reserves program now in effect "has been a success."

Two House members have temporarily stalemated each other on conflicting civil rights and states rights legislation. Chairman Emanuel Celler (D-N.Y.) of the House Judiciary committee is trying to get a hearing on a civil rights proposal before the House rules committee, headed by Rep. Howard W. Smith (D-Va.). Smith is trying to get a hearing before Celler's committee on his states' rights bill.

Sen. Everett M. Dirksen (R-Ill.), a sponsor of the revised Bricker amendment, said the amendment is caught between Congress and the White House. He said he is trying to get the administration to support the proposed amendment but has not received a definite commitment. "Until we get a pitch from the administration," he said, it is unlikely that Congress will act.

## Two Collisions Are Reported

Two collisions were reported within the city limits Saturday. The first of the collisions reported to the local police department occurred at 11:49 a.m. Saturday at the intersection of Barnes, Cuyler and Albert. David S. Buckner, 701 E. Albert, driving a '48 Chevrolet, was in collision with Calvin Theodore Stowell, 720 E. Craven, driving a '52 Chevrolet pickup.

Damages to the '48 Chevrolet were estimated at \$5 and the pickup met with damages estimated at \$70.

The second collision occurred at 1:10 p.m. on Barnes, 50 feet north of Cuyler. A '54 Mercury belonging to Mrs. G. H. Murrah, 1037 S. Clark, rolled from a service station drive and was in collision with a '48 Chevrolet driven by Imrie Boyd Stephens Jr., Pampa.

The Mercury encountered damages estimated at \$40 and the Chevrolet met with damages estimated at \$50.

## Cyprus Governor In Talks

LONDON (UP)—Cyprus Governor Sir John Harding began crucial talks today on the future of the island colony. He was shielded from possible Cypriot assassination attempts by a bodyguard of six armed detectives.

His talks with Prime Minister Anthony Eden and Colonial Secretary Alan Lennox-Boyd began on the announcement that British troops have ordered Cyprus' small but deadly underground organization, EOKA, with the arrest of 17 of its leaders.

Harding, the field marshal who once commanded Britain's armies, has insisted that negotiations on Cyprus' future could be carried out successfully "only when the campaign of terrorism on the island is ended."

Britain's chief problem was with whom to negotiate. There was widespread speculation Greek Orthodox Archbishop Makarios would be returned from exile in the Seychelle Islands once the underground is destroyed by Britain's 20,000 troops on Cyprus.

Harding said Sunday Makarios could get out of exile and return "if he would denounce the brutality and wickedness of the terrorists" on Cyprus, Harding said.

He was not deported because of his failure to reach agreement with us, Harding said.

Harding also served the Panhandle Chapter API as vice-chairman for three years. He was chairman of the chapter in 1951 and advisory committee chairman in 1952 and 1955.

He has complete management of two projects, the West Pampa Repressuring Association in Gray County and the Watkins Repressuring project in Hutchinson County. These are among the largest projects of their kind in the world and they are the first gas injection work of any consequence attempted in a lime stone or dolomite reservoir. About 2,000 wells are included in the projects.

The secondary recovery project is to retard the rate of decline of the oil field and to extend the economic life of the oil-producing wells by replenishing gas pressure in the reservoir through injection of high pressure gas into the oil-producing reservoir.

Fred has been a member of the board of directors for the Pampa Youth and Community Center since it incorporated, about two years ago. He is now serving as vice-chairman of the board and believes that the center should be of service to both the youth and the community. They hope to have an indoor swimming pool in it so that the youth can more easily learn to swim, due to Pampa's short swimming season. Fred believes the center will also be of great benefit to the community by furnishing adequate facilities for civic meetings.

Neslage belongs to a great many organizations and has been active in these in the past and at the present. He has been a member of the Chamber of Commerce board of directors for three years and has served on both the oil and the gas committees.

He served as a member of the board of directors of Highland General Hospital for three years and as chairman of the board in 1954. The group made the initial studies in regard to expanding the hospital during his term as chairman. He has served on the board of directors of the Pampa Country Club for seven years and as president of the club in 1955-56.

Neslage was also on the Red Cross board of directors for several years, serving as finance committee chairman in 1948 and '49 and as chairman of the chapter in 1949-50.

District chairman of the Santa Fe District of Boy Scouts in 1953, Fred served on the Adobe Walls Council and district executive committee. (See TEXAN, Page 5)

## Khrushchev Raps Stalin

By DONALD J. GONZALES  
WASHINGTON (UP)—Soviet Communist party boss Nikita Khrushchev, in his famous speech to the Communist party congress in February, flatly accused the late Josef Stalin of using "mass terror" and murdering "many thousands of honest and innocent Communists" in his effort to be a "superman."

Khrushchev's bitter post mortem denunciation of Stalin was released today by the State Department in the form of a document sent out by Moscow to Communist parties overseas. The State Department said it had obtained the 58-page document from a "confidential source."

The State Department cautioned that it does not vouch for the "authenticity" of the document. But it was evidence the State Department believed it was a reliable version of the speech. The text of the document was peppered with such parenthetical phrases as "tumultuous, prolonged applause" and "animation in the hall" to describe the feeling of the delegates to the conference as Khrushchev spoke.

Khrushchev made the speech before a closed session of the Communist party congress in Moscow on Feb. 4. There were piecemeal leaks of the sensational address at the time. But the text made public today was even more scathing than the fragments.

In the opening sentence of his speech, Khrushchev noted that a lot had been said at previous meetings of the Congress "about the cult of the individual and about its harmful consequences."

After Stalin's death, Khrushchev said top party leaders agreed to renounce any policy of elevating one person such as Stalin "to transform him into a superman."

## Tito Visits Mausoleum

By WHITMAN BASSOW  
United Press Staff Correspondent  
MOSCOW (UP)—President Tito of Yugoslavia visits today the tomb of the man who once accused him of being a heretic to the Communist ideology — Josef Stalin.

Tito, here on a state visit, planned a trip to the mausoleum where the bodies of Stalin and V. I. Lenin lie side by side.

It is the first time Tito has seen the body of the late dictator who had Yugoslavia expelled from the Communist bloc in 1948.

Marshal Tito also was scheduled to begin his official talks today with Premier Nikolai Bulganin and Communist Party secretary Nikita S. Khrushchev.

He was greeted by them on his arrival and walked along Moscow's main street Sunday with Khrushchev.

Tito, his wife and the Communist Party chief came within elbow-rubbing distance of Sunday strollers along downtown Gorki Street with security measures apparently nonexistent.

## Jerry Boston Grocery Is Hit By Fire

Fire struck the Jerry Boston Super Market, 210 N. Ward, early this morning, causing damage in the amount of approximately twenty to thirty thousand dollars before two alarms were turned in to the City Fire Department.

The fire started in the refrigerator compressor room, according to Fire Chief Ernest W. Wornor, and was probably caused by a hot motor.

The blaze was estimated to have been burning for some time, when the alarms were turned in, the Chief stated, because the heat had already built up enough to crack the plate glass windows at the front of the store, 75 to 100 feet from the origin of the fire, before the trucks reached the scene at 5:40 a.m.

It was reported that damage to the stock was high from the smoke and heat. The building itself received very little damage.

## Communists Demand UN Cancel Expulsion Order

By JACK BOYER  
PANMUNJOM UP—The Communists demanded today that the United Nations command "immediately withdraw" its expulsion order against neutral nations truce inspectors. The UN commander said "no."

U. S. Maj. Gen. Robert G. Gard, the senior UN delegate, listened to a long Communist complaint about the expulsion order and said the allies "refused to withdraw" the order since the truce teams are being expelled to protect the allies "legitimate rights" under the 1953 cease fire agreement.

An Eighth Army spokesman said earlier the truce teams would be carried bodily across the line into the neutral zone if they refused to leave. Only a few more days remain before the UN order becomes effective.

"Our side demands that your side immediately withdraw its unilateral announcement that the neutral nations inspection teams should withdraw from South Korea in a week," Jung said in a 20½-page protest to Maj. Gen. R. G. Gard, senior UN delegate.

The UN command ordered the truce inspection teams expelled because the Communists in North Korea built up an Air Force of from 400 to 500 planes in violation of the armistice agreement and because Communist members of the inspection teams hampered their work.

If it comes from a Hardware Store, we have it Lewis Hardware (Adv.)

## Benson Ends Farm Tour

CHICAGO UP—Agriculture Secretary Ezra T. Benson winds up a whirlwind tour of Midwest farm-lands today with a promise that some of them may be declared drouth "disaster areas."

Benson held out the hope of federal aid for parched counties in southwest Iowa and Nebraska.

He toured the areas Friday and Saturday and said in Chicago Sunday night that they are in "bad shape."

"Unless rain comes soon we may have to declare that district a drouth disaster area," he said.

However, the stricken Iowa and Nebraska areas can get along for the time being without emergency aid," Benson added.

## Wiley Charges Opponent Received Oil Money Aid

WASHINGTON (UP)—Sen. Alexander Wiley (R-Wis.) charged today that the "smelly aroma" of oil money clings to a reported \$150,000 campaign fund contributed to his opponent in the Wisconsin GOP senatorial primary election.

In a speech prepared for Senate delivery, Wiley also declared that "Eisenhower-haters" in the Wisconsin Republican party are trying to purge him from the Senate because of his internationalist views.

The veteran Wisconsin lawmaker is seeking his third six-year Senate term. The Wisconsin state Republican convention recently refused, however, to endorse him and threw its support to Rep. Glenn R. Davis (R-Wis.) in the Sept. 11 primary.

Wiley said a "smelly aroma" has arisen over "financial phases of the intrigue against me" that preceded the convention's action.

## IRRIGATION SCHOOL

Shown discussing items to be studied in the two-day irrigation school which began this morning in the Sam Houston School cafeteria are, seated left to right, Marvin Garnett, vocational agriculture teacher at Miami; Gene Gaston, vocational agriculture teacher at White Deer; Y. E. McAdams, area engineer with the Lubbock Soil Conservation Service. Standing, left to right, are Myles A. Kelly, area conservationist of Pampa; and Bill Miller, area engineer with the Amarillo Soil Conservation Service. Approximately 150 vocational agriculture teachers were expected to attend the school, sponsored by the Soil Conservation Service and other agencies.

## Stone-Throwing Rioters Protest Federal Control

BOMBAY, India (UP)—Bombay police said today they had thwarted an attempt to assassinate Prime Minister Jawaharlal Nehru Sunday when he was the target of a stone-throwing mob at a public gathering.

The anti-government riots, second within a year, stemmed from demands by the Marathi language speaking populace that Bombay be included in a Maharashtra state. They broke out when Nehru refused and said Bombay would remain under federal control for several more years.

Police arrested more than 1,000 demonstrators and received a tip that a bomb would be thrown at Nehru Sunday when he addressed an outdoor meeting. Stringent security precautions were taken and Nehru was unscathed.

More than 60 persons were injured in the rioting and at least one person was killed as police fired 23 rounds at surging, angry crowds in four separate districts of Bombay. Police were forced to use tear gas against the crowd that heard Nehru speak.

Bombay police said they prevented the assassination by herding the thousands of persons present into bamboo enclosures so small that any trouble could be localized. Any "doubtful" were kept a full 150 yards from the platform where Nehru spoke.

Two persons pleaded guilty in County Court this morning to charges of aggravated assault. The charges came about when they used a knife and a razor on two other people during a disturbance in front of the Busy Bee Cafe, 410 Maple, about 3:15 a.m. Sunday.

Sara Kate Buser, 712 S. Somerville, pleaded guilty to the charge of aggravated assault, to wit: used a razor and slashed the hand of Calvin Hazy. She was fined \$25 and costs by the court.

George T. Morgan, Berger, pleaded guilty to a charge of aggravated assault, to wit: using a knife on the forehead of Gladys Hampton. The court fined him \$25 and costs.

Two collisions were reported within the city limits Saturday. The first of the collisions reported to the local police department occurred at 11:49 a.m. Saturday at the intersection of Barnes, Cuyler and Albert. David S. Buckner, 701 E. Albert, driving a '48 Chevrolet, was in collision with Calvin Theodore Stowell, 720 E. Craven, driving a '52 Chevrolet pickup.

Damages to the '48 Chevrolet were estimated at \$5 and the pickup met with damages estimated at \$70.

The second collision occurred at 1:10 p.m. on Barnes, 50 feet north of Cuyler. A '54 Mercury belonging to Mrs. G. H. Murrah, 1037 S. Clark, rolled from a service station drive and was in collision with a '48 Chevrolet driven by Imrie Boyd Stephens Jr., Pampa.

The Mercury encountered damages estimated at \$40 and the Chevrolet met with damages estimated at \$50.

Sen. Everett M. Dirksen (R-Ill.), a sponsor of the revised Bricker amendment, said the amendment is caught between Congress and the White House. He said he is trying to get the administration to support the proposed amendment but has not received a definite commitment. "Until we get a pitch from the administration," he said, it is unlikely that Congress will act.

Two House members have temporarily stalemated each other on conflicting civil rights and states rights legislation. Chairman Emanuel Celler (D-N.Y.) of the House Judiciary committee is trying to get a hearing on a civil rights proposal before the House rules committee, headed by Rep. Howard W. Smith (D-Va.). Smith is trying to get a hearing before Celler's committee on his states' rights bill.

**All-Time High No.**

NEW YORK, June 2 (UP)—Girl Scout membership reached an All-time high of 2,642,618 last year, the girl scouts said in their annual report to Congress.

The report revealed the organization is increasing by more than 850 members a day and one out of eight girls of scout age (7-17) is a girl scout.

**Coast Is Rich**

CANBERRA, Australia, June 2 (UP)—National Development Minister William H. Spooner reported that the lonely east coast of Australia contains some of the world's richest deposits of minerals.

Spooner said survey showed the beaches hold rich deposits of rutile and zircon, Australia now is the world's leading producer of rutile and zircon concentrates.

creates a scientifically-correct action of swirling water currents for the cleanest, longest-lasting clothes; seven thorough rinses; ultra-violet lamp to destroy germs; cycle-tone signal to tell you when the wash cycle is completed; 5-year warranty.

Dryers: controlled air circulation; automatic door shutoff for added safety; giant 20-lb capacity; satin-smooth drying drum; plug-in operation — requires no special wiring.

**G.E. Appliances**

General Electric Refrigerators, Freezers and combinations include the Wall Refrigerator-Freezer, a family-size refrigerator plus zero-degree freezer that hangs like a picture at eye-level. This two-appliance-in-one offers a wide range of design possibilities. 11-cubic foot refrigerator. Freezer holds 70 pounds of frozen foods.

Other combinations include the 14-cubic foot combination with the fresh food compartment up top — over the 130 pound capacity freezer; 12 cubic foot refrigerator-freezer with top magnetic door for the extra-capacity freezer that holds 80 pounds; also the combination 70-round freezer and 11.4 cubic foot automatic defrosting refrigerator, each separately insulated and refrigerated.

Three value-packed GE refrigerators with new, magnetic doors, full-width freezer compartments and dial defrost conveniences.

**G.E. Freezers**

The GE food freezers, upright and chest, give supermarket convenience in addition to GE dependability. The GE space saving upright offers the ultimate in storage capacity in less than three-foot square of floor space. Features include deep stor-well, frozen juice can dispenser, 2 easy-freeze trays, adjustable sliding shelves.

GE's Filter-Flo Washer and Dryer take work and weather worries out of wash day. The washer removes lint, sand, soap scum, while it washes. It has big capacity and water saver for small loads. On the dryer just set the dial to adjust for requirements of the clothes and load. The dryer does the rest.

**G.E. Dishwashers**

Only G.E. Dishwashers have all these features:

- Power pre-rinse, completely automatic, giant capacity, easy top loading, special cushioned racks.
- The G.E. Range, built-in and floor models, provide automatic baking, broiling, frying, roasting. Plus high-speed Calrod surface units, "focused-heat" broiler, Tel-A-Cook pushbuttons and many, many other features.

All these products are yours on C&M's long deals: low, low price, high trade-in, convenient terms. Visit C & M Television, 304 W. Foster, 4-3521.

## Teacher's Idea About College Gets Him Fired

CINCINNATI, June 2 (UP)—A teacher who has some unusual ideas about what constitutes a college education, had the board of education in a dither Saturday.

The board fired Henry Fordham of Hamilton, Ohio, after it was learned that the college credits he presented from Westminster College, Cochransville, Pa., came from a non-existent college.

Fordham had taught algebra, general mathematics and general science at Robert A. Taft senior high school here from September, 1955, until March, 1956.

The puzzle came when the board started investigating as to whether it could sue Fordham for the salary he had drawn during that time.

The state attorney general's office advised that since Fordham had actually been on the job, it might be difficult to make a case. Then, there was Fordham's claim that according to Webster's dictionary definition of a college, he is, too, a college man. The definition is that college is "a collection, body or society of persons engaged in common pursuits."

Fordham says that he, his wife and 12-year-old son make up such a collection.

He also pointed to another Webster's definition which says a college is a "body of clergy living in common." Then he notes that he and his wife are clergymen. They are Seventh Day Adventists, he said.

The school board caught up with Fordham when he applied for a loan. The loan company was unable to locate the college.

**Forgets Plane Stool**

CHICAGO, June 2 (UP)—Navigator James Huffman was seen carrying an empty soft drink crate onto a huge DC-7C plane just before it was due to take off for Frankfurt, Germany, to inaugurate a new Pan-American Airways flight service.

"They've got a \$3 million plane here all set to go, but somebody forgot to buy a \$5 stool for me," explained Huffman pointing to the case.

**Design Atom Station**

LONDON, June 2 (UP)—Communist Czechoslovakia has announced it will have an atomic power station, with a "Made in Moscow" label, in operation by 1960.

Radio Prague has heard said design work has already started and actual construction will begin soon in Russia "with Czech designers and assembly workers taking part."

**U.S. House In Berlin**

BERLIN, June 2 (UP)—A new U. S. "America House" has been started on West Berlin's busy downtown Hardenbergstrasse.

At the cornerstone laying, U. S. Ambassador James B. Conant said that at least 1,000 East and West Berliners visit the present America House daily.

# It Can Cost 50% Less To Sleep Better: Call Acme!

Here's how! — You get more rest and relaxation from your sleep and save up to 50 per cent!

You have Acme Mattress & Spring Co. renovate, rebuild your mattress for more comfort, better rest for as little as 50 per cent of the cost of a new mattress.

**One Day Service**

You do all that in one day! Call Acme, 4-6621, in the morning, have your mattress picked up, renovated, rebuilt and returned to you in the afternoon. Acme features one day service in its modern, efficient plant at 817 W. Foster.

The cost? As little as \$10.50 for cotton mattresses! Other prices are low, too. For instance have your cotton mattress built into an innerspring for as little as \$19.50.

Let Gene Tollison, operator of Acme Mattress & Spring Co., explain this service and low, low prices to you. Let him explain how you can save by having your mattress renovated — using the same cotton (which very often is of higher quality than the cotton in a new mattress), putting a new cotton mattress into an innerspring.

**Acme Features**

In Acme's complete plant they do custom work; exactly to please you. Here you do not "buy a package or nothing". Acme does the work you want done.

Products of the firm include: over-size mattresses, box spring and inner spring mattresses, foam rubber and quilted mattresses in any size, quilting cotton. All products benefit from the 23 years of experience Acme enjoys.

The free pick-up and delivery service operates within a 100 mile radius of Pampa.

Acme features the latest in mattress cover patterns in the complete line of units from 180 coil to including the 312 coil mattresses.

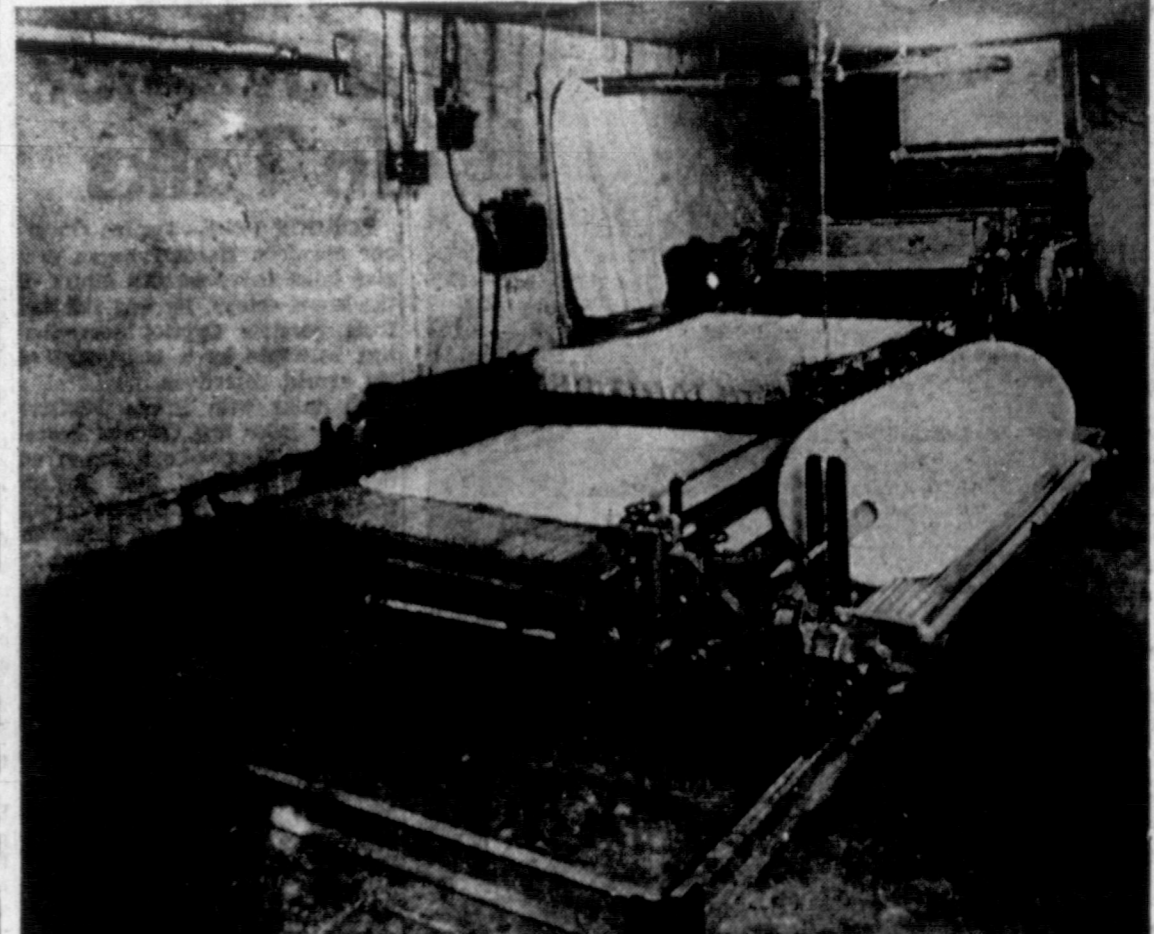

Other features include the roll-away beds, bed springs and Hollywood sets, and felt for the upholstery trade.

For fast service, call Acme or send Acme a card — phone 4-6621 — address 817 W. Foster, Pampa.

Among the most modern machines at Acme are the felling, roll edge, renovating, tape edge, machines; two sewing machines, cutting tables, sterilizer. These are used with other machines to provide the best in mattress making. Remember this important fact about Acme: the modern plant is located in "the low rent district". Acme passes this savings on to you.

Come in, visit and inspect the Acme Mattress & Spring Co., 817 W. Foster, 4-6621.

May we serve you?

**MODERN FELTING MACHINE** — This is the modern felting machine Acme Mattress & Spring Co., 817 W. Foster, 4-6621, uses to felt your cotton into soft layers, to clean thoroughly your cotton and to add years of constant use to your mattress. This is only one of the many modern machines and sterilizers that enable Acme to offer one day service on renovating and rebuilding mattresses. Gene Tollison, operator of Acme, invites each person to inspect the modern plant and to look over the mattresses of all sizes, bedsprings, rollaway and Hollywood beds. Let him tell you how to save 50% on your mattress!

Don't abandon good grooming to the summer heat. You'll feel worse if you wait. Have a fresh pair of gloves daily, keep hair shining clean, and don't neglect your manicure. You'll feel cooler and so will your public just looking at you.

Adlai, Estes In Final Appeal For California Votes Today

By RAYMOND LAHR United Press Staff Correspondent WASHINGTON (UP)—Adlai E. Stevenson and Sen. Estes Kefauver made their final appeals for votes in California today in the last round of their hard-fought presidential primary campaign. On the eve of Tuesday's vote, both candidates were scheduled for windup television appearances over state networks tonight. The winner of the primary will get all of California's 68 Democratic National Convention votes, about 10 per cent of the 687½ needed to win the presidential nomination. But the outcome was much more important than the number of votes indicated. Battle For Survival A few months back, many Democrats believed the California winner would be the likely presidential nominee. However, the primary contest now is viewed as more of a battle for survival—with the loser likely to fade out as a major contender before the national convention opens Aug. 13. In a speech Sunday in a predominantly Negro section of Oakland, Calif., Kefauver implied that Stevenson had made a deal with Southern segregationists to win their support. He mentioned by name former Gov. Herman Talmadge of Georgia and Millard Caldwell of Florida and Sen. Allen Ellender (D-La.). "Has anything been said in private to these segregationists that makes him (Stevenson) more acceptable than I?" Kefauver asked. "Since his personal statements are not unlike my own, why then is it that the Talmadges, the Ellenders, the Caldwells flock to his banner?" Stevenson, addressing a sepa-

New Oil Discovery In East Texas

DALLAS (UP)—A test well report was interpreted by oil men today as indicating a big new discovery in East Texas which, a company official said, might mean as much as 25 million barrels of oil. Robert Kepke, executive vice president of British-American Oil Producing Co., said the well was down to 10,300 feet in the prolific Woodbine Sand, which lies between two rich fields. Four major strikes have already been made in East Texas, and the new one would be the fifth. The well, named the No. 1 Bessie Wisenburt, is located seven miles northeast of Mineola, Tex. Kepke said he was "cautiously optimistic." He said the figure of 25 million barrels was "strictly a guess." "Something to Dream About" Another informed source said the discovery could even mean as much as 100 million barrels. He added, "this is something you dream about." The source added that if the test well and other subsequent wells prove out, it could mean the equivalent of discovering "several good oil fields." Kepke said no drill stem tests have yet been made. But he reported that other tests indicate well has hit an 85-foot thickness of saturated Woodbine Sand. The well is in an area where there is a mushroom-shaped salt overhang underground. The well was begun last February. It will be drilled down to the Paluxy Sand at about 15,000 feet before drill stem tests will be taken to pin down the extent of the discovery. Kepke said this drilling should require about three more weeks. Lease Run High Meantime, lease dealings in which as much as \$1,000 an acre was paid as field royalties increased tremendously last week, informed sources said. Other leases brought \$500 to \$750 an acre, and all were reported gone by today. Jerome K. Crossman, president of Ryan Consolidated Petroleum Corp. of Dallas, Sunday called the strike a "possible major oil or distillate discovery." Ryan Consolidated, along with Standard Oil of Texas, has holdings in the field. Crossman said British-American went into the operation against "almost astronomical odds (and) showed nothing less than imaginative genius."

Mainly About People

A delegation from the Pampa area is expected to attend the 41st annual convention of the Texas State Chiropractic Association opening in Tyler Thursday morning. Among the T.S.C.A. members expected are Drs. Harry J. Lovelace, T. J. Wright and R. H. Rutledge of Pampa, and Dr. Maynard V. Cobb of Shamrock. Mrs. Marion DeFever, teacher of the first grade in the White Deer schools, recently brought her class to Pampa to board the Santa Fe's "Grand Canyon" train for an educational trip to Amarillo. The children were shown through the train en route and through the station facilities upon arrival at Amarillo. Accompanying Mrs. DeFever as chaperones were Miss Martha Armstrong, Mrs. Harold Collins, Mrs. Clifton Kelly, Mrs. Dee Limley, Mrs. Clyde Herridge and Mrs. Glendon Young. Cadet 2nd Lieutenant Merl Estes, son of Mr. E. D. Herlacher, 1114 Somerville, is a member of the graduating class of Western Military Academy, Alton, Illinois. Miss Norma Qualls presented her art exhibit at the Christian College art gallery at Columbia, Mo., and successfully completed an oral examination before the art faculty as requirements for receiving a degree of Associate in Fine Arts in Art recently. Miss Qualls, daughter of Mr. and Mrs. Clarence D. Qualls, 306 West Foster, is one of nine girls working toward this degree. A senior at Christian, Miss Qualls also is active in the French, modeling and Texas clubs, and is president of the student council. Jim Osborne, son of Mr. and Mrs. J. P. Osborne Jr., Pampa, has been awarded a company softball letter at Kemper Military School, Boonville, Mo., for outstanding performance on his team this season in an athletic assembly conducted by Col. J. G. Kralovec, director of athletics. He was given high recognition for his playing ability by his coach.

Welfare Index Sets Election

The Welfare Index committee will have election of officers at 4 p.m. Tuesday at a meeting held in the Chamber of Commerce council room. ### Social Security Plans

Various proposals for amending the federal social security system and for broadening its benefits are under discussion. One would lower the eligibility age to 50 for totally and permanently disabled people.

On the surface, this may seem a wise as well as a humane idea. But a number of sympathetic observers, looking beneath the surface, have found it quite the opposite. In their view, this change would be dangerous and ill-advised — and would work against the best interests of the bulk of disabled persons.

That view was expressed to the Senate Committee on Finance by a man who is exceptionally qualified. His name is Henry Viscardi and, in his own words, he "was born a crippled child, horribly deformed, with no lower limbs." Less than four years ago he started a company called "Abilities, Incorporated," with \$3,000 of borrowed money and four employees. Today there are 182 people on the payroll and expansion plans are underway for a new plant which will employ about 350. In the first three years of operation, the company produced goods valued at \$1,248,700. Wages came to \$668,500. Workers also get fringe benefits, such as life insurance, worth about 42 cents an hour.

The most remarkable thing about the company is that all the workers are wholly and permanently disabled. Among those first four employees, Mr. Viscardi testified, there was a total of but one usable leg and five usable arms. The situation, physically speaking, is proportionately about the same today.

The company's main activity is in the field of electronics, where it does work for some large and famous corporations. But it also is in other fields, including process packaging, coil winding, and mechanical assembling. Every one of the employees would be eligible for the total disability benefits of age 50. But of this Mr. Viscardi said: "What troubles me is that, should we stigmatize our disabled people and put an age limit of 50... we might condone some of the ignorance and some of the prejudice that exists which prevents them from exercising their abilities and not their disabilities." He added: "Our disabled people are crying for the right to be the same. They both want to be and should be considered as the ordinary people they really are, each according to his individual capacities and abilities, and each with his compensating qualities to offset the extremes of physical make-up."

It is Mr. Viscardi's point, in short — based upon an extremely unusual experience — that a large percentage of the totally disabled are not necessarily non-productive and that, given a chance, they can happily and efficiently perform work requiring skills of many kinds. Another quotation from his testimony (which, incidentally, was received with very great interest by the Senate committee) is in order here: "While I have no recommendations that I would presume to make to this great committee, I come to indicate my apprehension that we may stigmatize the disabled by this legislation... and we might then deprive millions of our citizens of the right to know a productive life, and have them resigned to subsidy, which is not their heritage as Americans."

### The Doctor Says

By EDGAR P. JORDAN, M. D.

A most interesting discussion of air pollution — a subject of increasing importance — appeared in the New England Journal of Medicine in March of this year. Our industrial civilization, says the report, makes it economical and convenient to build larger and larger cities in smaller and smaller areas and to design assembly plants employing thousands to make better automobiles to go faster and carry more people.

The problem of air pollution or poisonous smog is not likely to arise until a city reaches 25,000 or more. Even then it is influenced by other factors such as climate, geographic location, fuel used and industries present.

It is certain, however, that air pollution is one of the consequences of increasing population. DEATH-DEALING smogs have occurred in the Meuse Valley, Belgium, in 1930, in Donora, Pa., in October, 1948, and in London early in December, 1952.

The first two were responsible for about 60 and 20 deaths, respectively. The four-day London smog caused some 4,000 deaths. It is quite clear that such dangerous smogs as these, as well as the annoying ones which have been reported from Los Angeles, New York, and other cities, are the result of varying conditions, some produced by nature and others man made.

NATURE'S CONTRIBUTION is the occasional development of a stable, quiet atmosphere with what is known as temperature inversion. The latter means that, instead of the air cooling the higher it goes, it gets warmer for some distance.

It has the effect of putting a lid on the atmosphere so that smoke, exhaust fumes, and other products of industrial society are kept from escaping into the wider atmosphere.

Man's contribution varies from place to place. In the London smog disaster, for example, the chief cause was assigned to inefficient open coal fires. The chemical constituents of these fires included sulphur dioxide gas as perhaps the most poisonous agent.

### BETTER JOBS

By R. C. HOILES

High Income Tax Hurts Low Income Workers More Than Big Taxpayers

Undoubtedly the reason we have such high top income tax rates is because those persons in the lower income tax brackets do not understand that the high income tax rates really causes more sacrifice in their living standards than it does those who pay the high taxes.

**\$200,000 Income**  
The single man who has an income of \$200,000 pays a federal income tax on this \$200,000 of \$156,820. If he is married he pays an income tax on \$200,000 of \$134,640, and he pays 89 per cent tax on all over \$200,000. He pays just 2 per cent less on all over \$200,000 than the single man does. Besides this, if he lives in states like New York or California, he pays a state income tax. If he lives in California, he pays 6 per cent tax, even on the tax he pays to the federal government.

In other words, the married man pays 95 per cent on all income over \$200,000 and the single man pays 97 per cent on everything over \$200,000. But in either case, he has plenty of money to live on so that he does not need to sacrifice the comforts of life. The small income man thinks that the taxes the rich man pays is no affair of his because he never expects to be in that bracket.

**What He Doesn't See**  
But what the \$2,000 to \$10,000 income man does not see in most cases is that these high tax brackets retard the accumulation of tools and therefore, he has to work with poorer tools and, therefore, can produce less and, therefore, earn less.

Nor does he see that this interference with the accumulation of tools reduces the competition between owners of tools in bidding to get men to operate these tools. Therefore, when wages are arrived at on a competitive basis, his wages are lower.

Nor does he see that this reduction of tools keeps the prices of the necessities he has to buy up because of lack of competition in selling the products as the result of more tools. Therefore, he pays more for what he gets and he gets less wages because most people believe that a graduated income tax hurts the rich man but doesn't hurt the man of small means.

If we could get more people to see the end results of a steep graduated income and inheritance tax, we wouldn't have this kind of a Communist taxing system. All taxes, of course, reduce the accumulation of tools, but some are much more harmful than others.

People, it seems to me, should support the government in proportion to the amount of services they want from the government. That is, if they have large properties to protect, they should pay more to support the government to protect this large property than the man with small property. The man with \$100,000 worth of property should support the government by paying twice as much as the man with \$50,000 worth of property, but the man with a large amount of property should not pay a higher percentage of the total value of his property than the man with little property. If everybody paid the same proportion, the low income tax man who paid \$10 or \$100 to support the government would be as much interested in government economy and keeping the bureaucrats off of the backs of the workers as the man who paid \$500 or \$10,000.

Of course, if this high graduated income and inheritance tax continues, there will be no large income tax payers in a few generations. A great deal of wealth has been put into foundations to escape this steep discriminatory income and inheritance tax.

### Putting Us In Our Place

### National Whirligig

### Red China Development As World Power Could Hurt US

By RAY TUCKER

WASHINGTON — The development of China as a great world power under Russian tutelage will change the complexion of the Far Eastern and Asiatic problem to the detriment of the United States, according to reports reaching the White House and State Department from foreign statesmen and businessmen.

Morevoer, Mao is rapidly supplanting Chiang Kai-shek in the affection and admiration of the 12,000,000 overseas Chinese, especially in Southeast Asia. American diplomats defend our recognition of Chiang on the ground that, so long as his Nationalist Government endures, the overseas population will look to him as representative of China, supporting and financing his cause with remittances. Now, they seem to be shifting allegiance to Mao.

Communist China, in short, may become the Soviet's show window for the 600,000,000 Asians who are still uncommitted in the "cold war." Preferring his outlaw status, which permits him to fish in troubled waters from Cairo to Tokyo, Mao may not even seek admission to the United Nations at the autumn session.

In a certain sense they have a book in which a record is kept of the exact reason why any customer leaves without making a purchase. One who takes his work seriously is more important than one who merely takes himself seriously.

A tourist stopped his car on the road and asked a country boy how far it was to Smithville. Boy — It's 24.99 miles the way you're goin', but if you turn around it ain't but four.

Washington expectations that a powerful China will eventually break with Moscow are only wishful thinking, according to these admissions. The current rebuilding would not have been possible without the Soviet's contributions of materials, technical and scientific assistance, and man power. China's program for emerging from feudalism and medievalism is patterned on Moscow methods. Russian brains are behind the scenes.

Mao is now shipping small arms, light industrial equipment, food-stuffs and other goods to India, Egypt, Pakistan, Burma. Although the rulers of these countries protest that they have not been invited, they are deeply impressed by their northern neighbor's advances.

### Fair Enough

### There's Evidence U.S. Has Longing For Titles

By WESTBROOK PEGLER

New York — There is evidence on every hand in the United States of a sentimental longing for the titles and trappings of royalty, which belittles, if indeed it does not repudiate the sacrifice of the embattled farmers by the rude bridge that arched the flood.

President Eisenhower, himself the owner of gaudy received from the latest of English kings, recently gave unwary expression to this when he proposed a system of "orders" to be conferred by the Federal Government for service other than martial.

There are, at present, some 5,000 indigenous badges and bellybands, so many, in fact, that the publishers of Who's Who abandoned in dismay a reckless undertaking to tabulate them all and all the recipients down to date. This retreat was accomplished under cover of silence which was no less than fair inasmuch as the original announcement of this folly had been timely put in a weak voice, as though someone had doubted the sense of the proposition all along. Anyway, the magnitude and complexity of the task were mountainous because we have so much rubbish of all degrees from the paltry down to the idiotic, that no compendium could name or dare to evaluate them all.

The majority probably became obsolete after one, two or a half-dozen issues. Many have been named for individuals, such as Joe Pultzer, in that case for the enhancement of his estate and the income of his heirs, and Al Lasker for the pleasure of his widow who takes apparent joy in the bestowal of recognition on recipients who accept with vain humility.

Carl Ackerman, late dean of the Columbia School of Journalism, confides that the trust which old Joe provided to finance the cash awards is now busted but the depletion of the fund and the prestige coincided. The Lasker medals have neither tradition nor intellectual status but in these respects are not at all inferior to scores of arbitrary acknowledgments conferred by anonymous boards of no stated qualifications for no defined achievements except "services" to "Democracy," "humanity," "tolerance" and, a new and booming ideal, "brotherhood."

No authority possibly could know the process by which all the so-called honors of other lands are distributed. The ethics of the selectors may be in some cases as frowzy as ours, though hardly more so. The Balkan Kings used to sell certificates authorizing whomsoever to buy from an authorized Paris jeweler the grand rosette with diamonds and rubies but

I am writing this at 19,000 feet in the air, and my aim is to get it finished before this non-stop plane from Los Angeles to New York crosses the Mississippi River. I'd hate to bet on it, however. I am sure that I have started no fewer than a hundred columns on airplanes, and I have yet to finish one. Other columnists seem to find the airplane an ideal place to work. They turn out good, interesting stuff while aloft, but how they do it is a mystery.

They describe the scenery, for one thing — the mountains, the rivers, big dams, canyons, and the cities they pass over. I'd like to do this, too, but there never is anything to be seen from my window. I am always on the wrong side. I have crossed and re-crossed the United States many times, but for all I have never seen I might just as well have been flying through the Holland Tunnel.

I did get a peek at one end of Evansville, Indiana, once, but even a great master of words would be hard put to make a readable column of Evansville's fringe area from three or four miles up.

Another thing that handicaps me in doing a column while flying is that I never find myself seated next to a man or woman with a unique background, or a world-famous celebrity, or anyone like that. I always have pleasant enough seat companions, but none whose experiences would be vivid enough for a column. The man next to me on this trip is a swell fellow, and doesn't use more than his share of the arm rest, but he is a cereal salesman.

You'd have to be a really great writer to do seven hundred or so words on a cereal salesman. Either that, or make things up about him, and I never do that sort of thing. Anything I write has to be the gospel truth. The salesman's name is Judson Q. Smith, by the way, and he is on his way home from a convention. That's about all there is to tell about him.

### Hankering

### McLemore Tries To Write Column Aboard Airplane

By HENRY MCLEMORE

I have read them so often that I know the names of half the hotels in the United States. If you ever want to know where to stay in, say, Butte, Montana, or Tuscaloosa, Alabama, just give me a ring and I'll tell you.

I'm an authority on that aviation book, too. I know what time planes leave Colombo, and how long it takes to fly from Nairagi to Calcutta, and what type ships fly the route between Port-of-Spain and Copenhagen, and how much you can save on tourist fares between Lake Charles, La., and Bend, Oregon, and a thousand other things.

To make matters worse, there is always a magazine hoarder — hog, really — who takes two or three magazines and half sits on the ones he isn't reading. I have yet to get up enough nerve to tell him off and demand my share of the reading material.

Well, we just crossed the Mississippi River. I didn't see it, but that was what the captain called over his little telephone. I looked straight down, but a big cloud was right under me. So there went my chance to give you a word picture of the Father of Waters, and how it looked with paddle wheelers plying their muddly waters, boys fishing for catfish, river-bote gamblers playing for high stakes, and natives strumming banjos on the levee.

### The Doctor Says

By EDWIN J. JORDAN, M. D.

What is a most unusual inquiry these days comes first.

Q—What are the proper precautions to take in regard to having a visit from a woman who is a typhoid carrier? I have four children and all of us will have to use one bathroom.—A. I.

A—The best precaution is to avoid the visit. A typhoid carrier can constitute quite a risk to you and your family. If the visit cannot be avoided all of you should be given immunizing injections for typhoid fever, the visitor should be excluded from anything to do with the preparation of food or drinks, and sanitary precautions should be used in the bathroom. I should strongly suggest that this be taken up with the public health officials in your vicinity or with your physician.

Q—For the past three years I have noticed a puffiness on my upper eyelids. Could this be a symptom of eyestrain?—M.S.

A—There are several possibilities of which disease of the kidneys is perhaps the most important. Eyestrain as a cause is unlikely. You should not let this go, thinking it would leave by itself.

Q—Is drinking beer every day likely to harm one's health? Are six to nine bottles a day too much? Would this cause dark circles under the eyes?—Reader.

A—Some people seem to be able to drink reasonable quantities of beer daily without showing outward signs of harm. Others may have their digestion upset or may develop gout, liver damage, or other signs of harm. I should consider six to nine bottles a day a good deal and a rather risky proposition. Dark circles under the eyes are not, so far as I know, a recognized complication of regular beer drinking, but I should think they might be related.

### BID FOR A SMILE

A lot of folks believe they have the world by the tail, until they try to swing it.

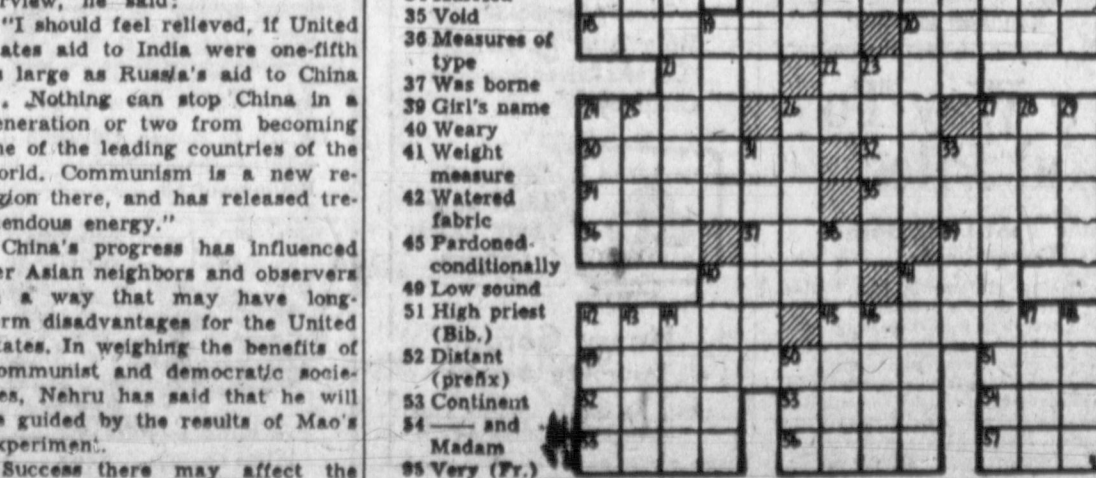

One day a woman took up a good deal of time to pick out a black dress, finally leaving without buying.

The clerk, a temporary hand, solemnly approached the book and entered up: "Customer only looking at black dresses — not buying. Husband not dead yet."

### MOPSY

WHO DESIGNED THAT DRESS? LACE BATHING SUIT?

THE NOTHS? AND IT WASN'T LACE LAST YEAR!

CHIP I'M GONNA HELP TEACHER WITH THE ARITHMETIC

SHE SAID SHE'S GONNA MAKE AN EXAMPLE OF ME

Two Furlong Records Were Broken At Ruidoso Downs

**Dixie Dugan**

MY BABY!  
TAKE IT EASY, DEAR—  
I FOUND HIM SENSITIVE TO THE SERUM— THEREFORE I HAVE TO GIVE IT TO HIM IN SMALL DOSES— FOUR TO FIVE HOURS APART— BUT HE HAS A CHANCE—  
THANK YOU, DR. LOWRY

YOU CAN THANK YOUR LUCKY STARS, A YOUNG PILOT WAS BRAVE ENOUGH TO PICK ME OFF THE ROOF OF A MEDICAL BUILDING IN HIS HELICOPTER—  
WHERE IS HE?  
WELL— I MIGHT AS WELL GET THE BUG BACK TO THE AIRPORT AND FACE THE CONSEQUENCES—

**The Jackson Twins**

HOW DID YOU HAPPEN TO LOCATE ME, SAM?  
I'M FINISHING UP THE EASTERN END OF THE TRAILWAY UP IN THE VALLEY, JIM—  
AND I WANTED TO LEAVE JERRY IN A NICE COMMUNITY WITH A GOOD SCHOOL?  
I CAN'T PROVIDE MUCH OF A HOME FOR THE BOY THE WAY I HAVE TO MOVE AROUND—  
LOOK, HE'S ACTUALLY GETTING A KICK OUT OF HELPING WITH THE DISHES!  
MEANWHILE—  
WELL— AN' I GUESS IT'S ABOUT TIME I MADE IT RIGHT WITH HIM, JANIF—  
GO TELL TH' COACH RIGHT NOW!

**Blondie**

DADDY MAMA SAYS SHE'S GONNA GET A BIKINI BATHING SUIT THIS SUMMER—  
WHAT?  
THIS IS WHERE I PUT MY FOOT DOWN—  
NAW— ALL I DID WAS RUIN THE POPOVERS—  
DID YOU WIN, DADDY?  
NAW— ALL I DID WAS RUIN THE POPOVERS—

**Alley Oop**

Y'KNOW, I THINK SUMPIN' MUST BE WRONG WITH OOP!  
UM— YEH, THAT MIGHT ACCOUNT FOR OUR FAILURE TO LOCATE HIM!  
WHATCHA MEAN YOU CAN'T PRODUCE TH' PRINCESS? AIN'T I TH' MASTER OF THIS CASTLE?  
YEEZZIR, THAT YOU ARE, SIR— BUT THE PRINCESS IS ITS MISTRESS!  
BUSHWANI! I'M RUNNING THIS DUMP NOW— AN' YOU CAN DANG WELL TELL HER SO, Y'HEAR?  
VERY WELL, SIR—  
I'LL GO SEE IF I CAN PERSUADE HER TO GRANT YOU AN AUDIENCE!  
HE'LL SEE IF SHE'S GRADY!

**Bonnie**

WHAT'S THIS— A PARTY?  
LOOK AT THIS REPORT CARD— ALL A'S!  
WELL, THIS CALLS FOR A SPEECH—  
R-R-R-RING  
BUT FIRST I'LL ANSWER THE PHONE—  
THIS IS PEGGY BELL. BY SOME MIXUP I GOT BONNIE'S REPORT CARD. DOES SHE HAVE MINE?

**Joe Palooka**

ONLY 30 SECONDS REMAIN IN THIS FIRST ROUND— FOKY GREEN IS PRESSING HARD FOR THE KNOCK-OUT. STEVE PALOOKA HAS MANAGED TO HOLD HIM OFF SO FAR— AND THEN...  
CRACK!  
1-2-3—  
TAKE A NINE-COUNT, STEVE... TH' ROUND'S ALMOST OVER!! STAY DOWN!!  
BUT STEVE IS UP AT '4'... AND THERE'S STILL TIME FOR FOKY TO MAKE GOOD HIS ONE-ROUND K.O. PREDICTION!!

**Martha Wayne**

YES IT'S ME, LEE. I'M CALLING FROM WASHINGTON, AND DO YOU KNOW WHERE AMANDA IS?  
OH, PLEASE DON'T TORTURE ME. IS SHE SAFE? IS SHE ALL RIGHT?  
SHE'S IN CENTREVILLE, THAT'S WHERE I SHE PHONED MY OFFICE FOR MY ITINERARY, BUT I'VE BEEN DELAYED HERE, IF YOU THINK I'LL EVER LET YOU TAKE CARE OF AMANDA AGAIN—  
HILDA, TELL CHARLES TO BRING THE CAR AROUND AT ONCE!

**Mutt & Jeff**

YES SIR!  
GAS  
FILL 'ER UP!  
GAS JAYNE MANSFIELD  
WOT GAL!  
HEY MY GAUGE SAYS FULL— ARE YOU?  
JEFF'S GAS

**Sugs Bunny**

HOW'S ABOUT PLAVIN' A LIL' BALL, SYLVESTER?  
THANK YOU, GUV'NOR! IT WILL BE A WELCOME RESPITE FROM MY LABORS!  
MISSIN' AGAIN! I AIN'T HAVIN' NO FUN! YER SPENDIN' ALL TH' TIME SHAGGIN' INSTEAD O' CATCHIN'!  
HIMM, C'MERE A SECOND!  
I AM DESICCATED WITH NORTIFICATION AT MY INEPTITUDE!  
IF THAT DON'T IMPROVE YER FIELDIN'... NOTHIN' WILL!

**Scillo's Pop**

A-TAT-TATA... RA-TATA... AT-TA-TATA... TAT-AR-RAT-AT-AT...  
BY GOLLY THAT REMINDS ME...  
ISN'T THIS THE DAY OUR WIVES HAVE THEIR CANASTA CLUB?

**OUR BOARDING HOUSE**

SORRY MAJOR HOOPLE ISN'T AT HOME, MADAM!— I'M TOLD HE DELIVERED A MASTERFUL ORATION AT A MEMORIAL DAY PICNIC OF THE OWLS LODGE— AND I HAVE A PROPOSITION THAT MAY INTEREST HIM!  
HM! I MUST BE LOSING MY TOUCH— I HAD YOU PEGGED FOR A BOOK SALESMAN!— MY HUSBAND HAS GONE TO PICK UP A COFFEE CAKE— I'D ASK YOU TO WAIT, BUT THAT KIND OF SAFETY USUALLY TAKES HIM HALF A DAY!  
DOES THAT MEAN JOB?

**The Berrys**

WHAT IS JILL POUTING ABOUT?  
SHE'S MAD BECAUSE SHE CAN'T WEAR HER NEW DRESS TONIGHT!  
DON'T WORRY, BABY... YOU'D LOOK PRETTY IN A BURLAP BAG, IF YOU'D JUST REMEMBER...  
THAT OF ALL THE THINGS YOU WEAR, YOUR EXPRESSION IS THE MOST IMPORTANT!

**Morty Meekie**

I DON'T MIND BEING THIS PICTURE OVER SO YOU CAN SEE IT. YOU'LL LOVE IT!  
WE'LL HAVE TO HURRY! THEY WON'T SEAT ANYONE DURING THE LAST HALF OF THE PICTURE BECAUSE OF THE SURPRISE ENDING.  
IT WOULD SPOIL THE WHOLE PICTURE IF YOU KNEW THE SWEET OLD MOTHER REALLY KILLED...  
DON'T TAKE IT TOO HARD, MAYBE THERE'S ANOTHER PICTURE WE CAN SEE.  
WHY DO I DO THINGS LIKE THAT?

**Little Doc**

WHAT'S A HALF DOOR FOR ANYWAY, LIL' DOC?  
OH, IT LETS IN LIGHT AND FRESH AIR!  
SO DOES A SCREEN DOOR!  
WELL, THE HORSE AND THE COW AND THE DOCKEY COULD LOOK ACROSS AT YOU IN AN ANIMAL'S FRIENDLY WAY, AND YET IT KEEPS THEM FROM INVADING THE KITCHEN!  
WHO KEEPS HORSES AND COWS AND DONKEYS NOW— A DAYS?  
I KNOW, IT WAS INVENTED FOR A SPECIAL KIND OF GUEST.  
THE KIND YOU HALF-EXPECTED!

**Wash Tubbs**

YOU'VE BEEN SO KIND, SAVING ME FROM A BAD FALL AND HELPING ME HOBBLE TO MY OFFICE!  
IT'S BEEN A PLEASURE, MISS LANE. BUT SAY, YOUR ASSISTANT MANAGER?  
MISS LANE ASSISTANT TO THE MANAGER?  
NO, ASSISTANT TO THE MANAGER! THERE'S A DIFFERENCE!— OH, DEAR— I SURELY CAN'T AFFORD A SPRAINED ANKLE NOW!  
MAYBE YOU ONLY BRUISED IT! THERE'S NO SWELLING!  
IT DOES FEEL BETTER! I'LL BE OKAY IN A JIFFY, I'M SURE. I'VE GOT TO BE A REPRESENTATIVE OF THE PLANT'S NEW ORDER IS DUE ANY TIME, AND IT'S UP TO ME TO SEE THAT EVERYTHING IS IN ORDER!

**Boots**

WHAT A SUSPICIOUS FOOL I'VE MADE OF MYSELF!  
ONLY A MERE YOUNGSTER NAMED PUG, JUST THE SAME, TRAVELING UNDER THE WATCHFUL EYE OF A TRUSTED FAMILY SERVANT, SHE COULD HAVE IT ALL FIGURED TO MAKE ME A FIRST TIME LOSER! HA!  
WHOEVER THAT YOUNKER IS...  
YEAH, THEY'RE JUST BEFORE ROCKING THIS BOAT.

**Mickey Finn**

BOY-O-BOY, I'M TIRED! I NEVER THOUGHT THE RECEPTION WOULD LAST ALL DAY! BUT IT CERTAINLY WAS A BEAUTIFUL WEDDING!  
IT SURELY WAS, PHILIP! BUT YOU ALMOST RUINED IT— BY DELAYING MR. CLANCY'S ARRIVAL AT THE CHURCH! POOR LOOLA WAS SO UPSET SHE WENT UP THE AISLE ON THE WRONG SIDE OF HER BROTHER!  
WELL, SHE WAS ON THE RIGHT SIDE OF CLANCY! HAPPY! NOW, YOU'RE COMING DOWN THE AISLE, ANNE— AND PHILIP, SO I THINK THAT WAS THE MOST IMPORTANT THING! STRAIGHT TO BED!  
BEFORE YOU GO TO SLEEP UNCLE PHIL, I'D LIKE TO KNOW WHY YOU WERE SO LATE GETTING HOME FROM CLANCY'S BACHELOR DINNER!  
HAT HAT OH, THAT WAS FUNNY, MICHAEL! IT WAS THAT BALL AND CHAIN I PUT ON CLANCY'S LEG! I SIT DOWN AND I'LL TELL YOU ABOUT IT!

**Freckles**

GREETINGS! LET'S NOT MISS THIS BOY— JUMP ON RADIO!  
B-BUT I HAD A LONG WALK OVER HERE, KITTYN!  
YOU DANCE DIVINELY, BAZOO!  
YEAH— BUT THERE'S A LIMIT TO THIS—  
WHEN SIS DATES A WOLF, SHE PLAYS IT SAFE AND COOLS HIM OFF RIGHT AT THE START!

**Susie Q. Smith**

BUZZY!!! WHERE HAVE YOU BEEN KEEPING YOURSELF?  
GEE! I HAVEN'T SEEN YOU IN AGES!  
NOW, SIT RIGHT DOWN AND...  
TELL ME ALL ABOUT MYSELF!

### Jane Talk

By JANE KADINGO  
Pampa News Women's Editor

**AN ATTIC CAN BE CONVERTED** into attractive modern living quarters through use of design features that give new houses their appeal of openness and light.

Like a new home, an attic can be made to look more spacious than it actually is by "borrowing" space. Expanses of window walls "borrow" space from the outdoors, while "see-through" room dividers instead of full-height partitions let one interior area "borrow" space from another.

A **STRIKING** effect is achieved when the end walls of an attic are completely devoted to glass, with windows following the sloping roof lines and reaching from floor to ceilings. This admits maximum daylight and provides a maximum view of the outdoors.

The room divider that lets the eye range into an adjacent area can contribute more than just an illusion of space as important as that is. In the form of a cabinet or shelving, the room divider can provide bonus storage that would not be available with a partition there.

Wall and ceiling decoration also has a part in making the converted attic look big and roomy. Expanses of clear, light colors seem to enlarge a room's dimensions. If pattern is desired, the grain of a light-colored hard wood is especially suitable for spacious effect.

A quick and easy way to decorate an attic appropriately and distinctively is to cover the walls and ceilings with Marlite, a pre-decorated hardboard paneling.

### Florentine Dining Group Introduced

New and excitingly different in design, the Florentine Dining Group, introduced by Falcon of Dallas, designed and manufactured in this style center of the South and Southwest, the table and shield-back chairs present an admirable adaptation of early continental design to modern materials and modern living.

Iron work is finished in a pastel rose (or in black) and both are hand-toned in gold. The wrought iron used in construction gives a light and airy appearance to the suite, and is most deceptive in that it does not reveal in any way the actual sturdiness of table and chairs.

Beauty of the expandable table top is exceptional. Instead of glass or fragile marble — customary materials used in tables of this type — a plastic laminate in a true rose or black marble design is used. The high-gloss surface is easy to clean and keeps clean. It also is highly resistant to all household acids and alkalis, fingernail polish and remover, alcohol, medicines and heat.

Chairs are true luxury in appearance and feel. The round, foam-rubber cushions are four inches thick. The covering is of vinyl plastic, with a floral design imprinted on a fabric finish, locked in with an overcoating of clear plastic for greater protection. The upper edge of these circular cushions is bound with a golden welt of metallic plated plastic.

Floor surfaces are protected by plastic glides on the legs of table and chairs.

The suite is intended for indoor use only and will lend beauty and charm to sun parlors, enclosed patios and enclosed porches, breakfast and informal dining nooks. The chairs will be found most useful as occasional chairs for living room or den — or in any part of the house where extra seating is needed.

Individuality to a room. Vanities, for instance, are low and long to provide a full reflection, or they are high, wide, and handsome to perform the function of a desk. The new small chests double as night stands, footboards, commodes, or vanity bases.

Dresser drawers are functional. They are shallow, narrow, or wide, and each is designed to organize apparel storage. Some dressers feature deep drawers to store handbags, millinery, and larger apparel.

Today's furniture fashions for bedrooms have better style than ever, and greater comfort, too, now that supersize bedding is on the scene.

Real estate brokers agree that by increasing the attractiveness of your home, trees will make it easier to sell at a higher price than one that stands on a barren lot.

In addition, new trees often pay for themselves within a few years by cutting the costs of heating or cooling your home. The American Association of Nurserymen says that evergreen trees planted on the north and west borders of your property will block the prevailing cold winds of winter and thus make your home easier to heat.

A study by the U.S. Department of Agriculture of two houses in the north — one sheltered by such a tree windbreak and the other unprotected — showed that over 22 percent of fuel was saved in the protected house.

Trees planted on the south and west can shade your home from the hot summer sun and keep it cooler. Trees also prevent solar heat from penetrating the ground, thereby keeping air around the house more comfortable.

More than 800 different varieties of trees grow within the United States. Most can be planted at little cost. If you are willing to wait for a small tree to grow, you can buy one for as little as \$2. Even one that gives immediate shade may not cost more than \$25.

Most trees will last as long as your house, and as they grow they increase in value. Large trees in good condition, properly placed on a lot, often have a value of \$1,000.

Income tax officials regard the planting of trees as a permanent improvement to your property. Even if you recover their costs many times over in lowered fuel bills, you can still deduct the price you paid for them when you sell your house at a profit.

Left-over syrup from peaches is good mixed cup for cup with chilled ginger ale and a couple of tablespoons of lemon juice.

### ATTEND DAY CAMP

The Pampa Girl Scout Day Camp, which ended Saturday, was attended by 312 girls and 70 adults. Among the adults attending, shown getting ready to leave for Camp Mel Davis near Lefors, are, left to right, Mrs. Bill Stauber of Pampa, assistant leader of Brownie Troop 3; Mrs. Jack Seals of Pampa, leader of Troop 3; Miss Pat Harris, field director from Amarillo; Mrs. C. C. Sing, Intermediate Day Camp Director of Amarillo; and Mrs. W. W. Plachetka, Brownie Day Camp director of Amarillo. The Amarillo women were special guests Friday.

### Trees Increase Value Of Home

Here's an easy way to increase the comfort and livability of your home and increase its value by as much as twenty percent: Plant trees.

Real estate brokers agree that by increasing the attractiveness of your home, trees will make it easier to sell at a higher price than one that stands on a barren lot.

In addition, new trees often pay for themselves within a few years by cutting the costs of heating or cooling your home. The American Association of Nurserymen says that evergreen trees planted on the north and west borders of your property will block the prevailing cold winds of winter and thus make your home easier to heat.

A study by the U.S. Department of Agriculture of two houses in the north — one sheltered by such a tree windbreak and the other unprotected — showed that over 22 percent of fuel was saved in the protected house.

Trees planted on the south and west can shade your home from the hot summer sun and keep it cooler. Trees also prevent solar heat from penetrating the ground, thereby keeping air around the house more comfortable.

### Tablecloth Can Be Turned Into Handy, Rugged Tote Robe For Outdoor Living

By KAY SHERWOOD  
NEA Staff Writer  
If yours is a family in love with the great outdoors, one of the handiest accessories for frequent and impromptu outings is the rugged, waterproof tote blanket which you make yourself.

The directions are so simple that you'll find the job can be done in jig time on your sewing machine. Just stitch fabric-backed or "supported" vinyl to one side of your car robe. Use the leftover strip for a belted carrying strap. (Now, why didn't I think of that before?)

Sturdy vinyl fabrics, such as are used in automobile and furniture upholstery, are available in colorful prints and interesting textures. By the yard, the fabrics are usually 54 inches wide. Many car robes are 50x60 inches, according to the Vinyl Fabrics Institute, so you can see there will be a generous strip left over. Allow one-half inch more than the measurement of the blanket for turning in a hem on all four sides. Turn under the hem along width of vinyl and sew to width of blanket, wrong sides together.

To blend or contrast with the car robe, you'll have your choice of designs in a range that includes top grain hide effects, woven straw patterns, embossed damasks,

printed shantungs, nubby tweeds, abstracts and metallic motifs. Vinyl side of the blanket will be waterproof and resistant to scuffing and soiling. The damp-cloth and milk-soap treatment keeps it clean and looking like new.

Spread the blanket, vinyl side down, on beach or grass to protect sitters from dampness and chill. Even the littlest youngster can sprawl, safe and warm, in the sun. Or, turn vinyl side up and use the topside as an easily mopped-up cloth for picnic lunches. Fishermen or boating enthusiasts can use the blanket to wrap up against chilly spray. Encourage the swimmers to take it along to the pool, not only to sunbathe on while there but, if they return home in wet suits, to protect car upholstery from soaking en route.

Ice cubes may be stored in plastic bags in the freezer. This makes it easy to get one or two cubes at a time.

### RUTH MILLET

A few minutes ago I stopped in the middle of a column to answer the door. A young door-to-door salesman, one of those brought in by the truckload to canvass a town, was selling magazine subscriptions.

His opening remark was, "Are you the boss here?" It was said with a stylized version of the "boyish grin." No doubt he had been told by the man who trained him that no housewife can resist a "boyish grin."

His next remark was, "I am one of 50 young men being trained to meet the public."

Then he mentioned he was in a "contest" and so on and so on.

I didn't resent the young man. But like most housewives I did resent being treated like an imbecile.

How long are we housewives going to be treated like halfwits by those who want to sell us something?

How long is it going to take the high pressure boys who train these telephone and door-to-door salesmen to wake up to the fact that the housewife's time is just as valuable as the time of a businessman? She certainly doesn't want any salesman wasting 20 minutes of her time being coy before he admits what he is trying to sell.

How long is it going to take them to figure out that the average housewife isn't a gullible fool but, instead, is a practice shopper who just wants to know one thing from a salesman?

And that one thing is: Are you selling anything I need or am interested in buying?

The longer it takes a salesman to get around to answering that question, the more impatient his potential customer becomes.

No, I didn't take any subscriptions.

But I might have if the young man had walked up to the front door and said honestly and with no waste of words, "I am selling magazine subscriptions. Would you be kind enough to look over my list and see if there is any magazine you want to renew or start?"

On second thought, I would have been so startled by being treated in such a forthright manner I'm

sure I would have subscribed to something just to show my appreciation.
