OFFERING FURNITURE AND PLUMBING SERVICE — R. F. MacDonald, handling new and used furniture, and Rod MacDonald, master plumber in Pampa for 28 years, are ready to serve you at the Rod MacDonald Plumbing and Furniture Co., 513 S. Cuyler, phone 4-6521. Your every visit will bring pleasantness.

FURNITURE, FLOOR COVERING FOR YOUR HOME — Mrs. Joan Nash and J. F. MacDonald show you all the furniture and floor covering you want for your home when you visit the Rod MacDonald Plumbing and Furniture Co., 513 S. Cuyler, phone 4-6521. At MacDonald's you can get complete furnishings for every room in your home, the occasional chair, table or lamp to complete a room, and you can select the color and fabric for a chair or sofa to match your drapes and other furniture. At MacDonald's you receive easy budget terms and free delivery in the Texas Panhandle. Come in today.

There are several ways to furnish your home and all of them are so easy and convenient at friendly Rod MacDonald Plumbing and Furniture Co., 513 S. Cuyler, 4-6521.

R. F. MacDonald who operates the furniture business, can help you select furniture and floor covering for the whole house or the pieces you want most to complete your furnishing of one room.

From the great stock of new and used furniture and appliances he can help you select exactly what you want.

Complete Plumbing Service
Rod MacDonald, nicknamed "Mac", the plumber, offers complete plumbing services, including installing and servicing floor furnaces, central heating systems, overhead blower heaters. He maintains full lines of plumbing accessories like stove connections, copper tubing, all equipment necessary to plumb homes and businesses.

Plumbing supplies, of which Rod has full lines, include plumbing

fixtures, tubs, showers, commodes, hot water tanks. Heater tanks include the Day and Night, Crane, American El Capitan. He has Cool Cabinet circulating and bathroom heaters.

Consulting Service
For 28 years Rod MacDonald has been serving the people of Pampa in the plumbing business. In that time he has established his respected reputation for dependable work, promptness and courtesy.

Rod has been a master plumber for 28 years, has a water system operator's certificate and a sewer system operator's certificate. He is a member of the American Society of Sanitary Engineers.

A "special" he offers is his consulting service for those who prefer to "do it yourself". He invites "do-it-yourselfers" to talk with him before they start a plumbing job to make sure they have the right equipment and materials and know how to do the work.

Floor Covering
R. F. MacDonald features furni-

ture and floor covering for every room.

For instance he has Firth 9 by 12 foot wool rugs for only \$69.50 including the pad! R. F. also features Armstrong Gold Seal wool and fiber rugs and Pabco California Original floor covering. His floor covering products and prices you have to see to believe! Imagine a Hardwick 30" Range with over-size oven for only \$139.50 MacDonald has it. This range has all the popular features modern, discriminating home makers demand of ranges.

Dinette Sets
R. F. also has many excellent used refrigerators priced to save you many dollars and in good condition to give you years of dependable service.

Let R. F. show you the Douglas chrome dinette sets, either 5 or 7 pieces, with or without foam rubber cushions — as you like them. These sets have the Douglas exclusive Color-Locked table tops. In bedroom suites he has sets by McCoy and Ward; either solid wood or veneer. Before you decide see the McCoy modern and contemporary functional furniture.

Dust Stoppers
Aluminum Storm Windows

(Pat. Pending)

- The First and only Proven Aluminum STORM WINDOWS to be manufactured in Texas.
- Over 11,000 units sold and installed in past 24 months which is proof of their success.
- Each DUST STOPPER is custom built to fit your windows, not stock windows on the market. The difference is as great as there is between dime store eye glasses and ones fitted by a specialist.
- Do not be fooled into buying storm windows that do not have weather stripping such as most Eastern types which will recognize because of their half screens, as they will not keep out the dust and dirt. PMA requires weatherstripping in all double hung windows for new construction whether they be made of wood, aluminum or steel. So why do you think a storm window without weather stripping will keep out dirt?
- All DUST STOPPERS are 100% weather-stripped.
- Installed by Factory-trained Installation Crews, working direct out of Factory with the latest type equipment, and the experience of how to use it. We have turned down several prospective dealers as they wanted to install the Dust Stopper themselves but did not have proper experience or equipment necessary to do the type of an installation that we require.
- The next time you think of storm windows, remember the above facts let our training engineers show you the difference. For free estimate call or write

Red NATO Armies May Get A-Arms

By HENRY SHAPIRO
PRAGUE, Czechoslovakia, Jan. 28 —UP— Russian Foreign Minister V. M. Molotov hinted at the closing session of the Warsaw pact nations Saturday that satellite armies bolstered by 125,000 East Germans may be supplied with Soviet atomic weapons.

The eight-nation "Red NATO" military alliance under Soviet command voted East Germany into full membership at the consultative committee session.

Molotov said last year's Western NATO decision to equip its armed forces with tactical atomic weapons "compels" the Communist bloc nations to consider "joint measures" to "increase their defense capacity."

Red Allies Atomized
Observers here believed Molotov's statement indicated the Communists are willing to match the

West in sharing nuclear weapons with their Allies. Russia already is shipping peacetime atomic equipment to its Allies.

The East European alliance, whose armies are headed by Soviet Marshals Ivan Koniev, includes Russia, Poland, Hungary, Rumania, Bulgaria, Czechoslovakia, Albania and East Germany.

Molotov lashed out at Secretary of State John Foster Dulles' "brink-of-war" magazine statement. However, he did not directly mention Dulles.

They Are Confident
But he said "the people know that our governments will not start leading them to the brink of a precipice and will not senselessly subject their countries to the danger of war."

Molotov warned that "the threat of a new war cannot be considered over," but he added that the Communist peoples "confidence in their strength...will not permit themselves to be frightened."

"The reduction of international tension should not be allowed to lull our vigilance," Molotov told the pact members.

Barracks Converted
Saturday's action on the East German Army followed a decision by the East German parliament to convert its large barracks' peoples police into a full-fledged Red "wehrmacht."

The pact members named East German defense minister, Col. Gen. Willi Stoph, a deputy chairman of the "Red NATO" high command.

The addition of East Germany's 125,000 soldiers increases the Communist forces in East Europe to 4.94 million to 5 million men, West officials estimated. This compares with 732,000 NATO troops under U.S. Gen. Alfred M. Gruenther.

Holy Souls Mission Scheduled

Rev. Edwin F. Brown, O. P., will conduct a two-week mission here at Holy Souls Church for parishioners, with services at 7:30 p.m. each day, Feb. 5-19.

Father Brown, a mission Priest, was ordained to the Priesthood in 1944. He has taught in high school and college for a number of years, before becoming a conductor of missions in the mid- and South-west part of the States.

First week's services will be held for women of the church and the following week will be for men. A series of sermons or instructions with religious exercises will be given. Services are usually concluded by a renewal of Baptismal vows.

Before the 8 a.m. mass each day, there will be a recitation of the Rosary and a brief sermon for those unable to attend the evening services.

Rev. Myles Moynihan, C. M., pastor, urges every parishioner to attend and to bring friends to the services.

Betty Osborne To Ride In Ft. Worth

Miss Betty Osborne, who is sponsored by the Top of Texas Rodeo Association represented Pampa and this area at the South-west Exposition and Fat Stock Show in Fort Worth last night when she was introduced in the arena on her horse as one of the contestants in the Cowgirls competition.

Her father, Jake Osborne, is the second vice-president of the association.

with springs or box spring type Mattresses to fit trundle beds, youth beds, cribs, rollaway beds. For rollaways R. F. has all sizes—inner spring and cotton mattresses to fit all rollaways.

MacDonald's has the Firestone Restonic Foam-Rubber Mattresses.

At MacDonald's enjoy the convenience of budget terms, free delivery any where in the Texas Panhandle.

Drive in today: MacDonald's Furniture and Plumbing Co., 513 S. Cuyler, 4-6521.

SINGING NO BLUES — Actress Susan Hayward has become recognized as such a fine singer that she may try a nightclub singing tour. She earned the reputation as a warbler in "I'll Cry Tomorrow," in which she used her own singing voice for the first time on the screen.

Reconciliation Efforts Fail
HOLLYWOOD — UP — Singer Dean Martin and his wife, former Florida cover girl Jeanne Bieggers, Wednesday in a joint statement announced efforts to effect a reconciliation had failed. Martin, partner of comedian Jerry Lewis, and his wife attempted the reconciliation after a separation of four months.

Answer To Cold And Dust: New Plains Storm Windows

KEEPS OUT COLD AND DUST — Harold P. Smith here holds one of the famous Dust-Stopper Storm Windows manufactured in Panhandle by Plains Aluminum Industries. The window fits between the regular window and the screen so that it is invisible from the street. When the wind blows the window tightens to keep out dust and cold. Call or write Owen Moore, Panhandle area representative, at 1057 Huff Road, Pampa, phone 4-4431 or 4-3538, for a free demonstration and estimate.

The first and only Factory in Texas devoted to the Exclusive manufacturing of Storm Windows and Doors is Plains Aluminum Industries, P. O. Box 38, Panhandle, Texas, Phones 2621 or 3761. There is no side line to detract our personal attention from Designing, manufacturing and supervising the installation of Plains Aluminum Dust Stoppers.

EXPERIENCE
There is 21 years of experience standing behind this business which assures its expansion and success. We have all the latest types of equipment and machines for precision work thus guaranteeing our customers and dealers of the finest Storm Windows and Doors on the U. S. Market along with the type of installation that any home owner can be proud of.

There is no finer Storm Window at any price that will do what the Dust Stopper will do with ease. We employ over 15 people who make Storm Windows their profession, which in turn assures you of a professional job on your home. The Dust Stopper has been proven by 24 months of service and over 11,000 units have been installed.

WEATHER STRIPPED
The Dust Stopper Storm Window is weather stripped, has no inserts, cleans easily, fits between screen and inside windows, so that it is invisible from the street. When the wind blows the window tightens. For ventilation you simply raise the window from the bottom, just like a double-hung window. As you can see in a picture the top sash swings down to make cleaning easy.

When more people begin to realize how important Storm Windows are to their home from a standpoint of cleaning, heating and air conditioning, we will have to build a new plant to handle the increased business. We can turn out 15,000 units a year with the present factory and personnel.

For further information just write or call Owen Moore, 1057 Huff Rd., Pampa, 4-4431 or 4-3538. He will go any where in this area and give a free demonstration and estimate.

Youth Work Survey Sought

Clifford Whitney, Jr., who is chairman of a survey program set up to determine the extent of youth activities being sponsored by organizations, has proposed a meeting of 21 local representatives to work out a coordinated program under an advisory board in a recent letter.

A survey of the recreational activities for young people in Pampa was proposed at a meeting with Col. Dan C. Pitt, Jr., of the national council, when plans were discussed for the organization of a YMCA here. Purpose of the survey is to determine projects of organizations, to avoid overlapping in programs, and to coordinate activities of the groups.

Another final outcome of the survey program may be paid professional leadership in the fields of athletics and social activities.

Representatives of the 21 civic and social clubs were urged to make a complete survey of youth activities in their organization in order to report on these at the meeting.

Organizations to be represented in the group are: Kiwanis, Lions, Optimist, Rotary, Exchange, Junior Chamber of Commerce, Boy Scouts, Girl Scouts, High School Student Council, Council of Women's Clubs, Ministerial Alliance, KPDA, Pampa Daily News, Junior High Student Council, Pampa Youth Center, City of Pampa, PTA Council, Altrusa Club, DeMolay, Rainbow Girls, and the 4-H Council.

Jane Talk

By JANE KADINGO
Pampa News Women's Editor

DON'T GIVE YOUR FURNITURE a quick "brush off!" That's the word from Kroehler, furniture manufacturer, if you expect to get the best wear from it. Kroehler researchers have recently completed a study of cleaning methods and have found homemakers are apt to neglect their upholstered furniture. They have come up with some good recommendations that, if followed, will assure longer life for upholstered pieces.

DUST AND DIRT have been found to have an abrasive effect when left in fabrics. The constant rubbing action of grit and sand particles can destroy any fabric. Kroehler suggests that upholstered furniture should be vacuumed at least once a week all over, especially under the seat cushions. Reversing the cushions tends to keep the fabric smooth fitting.

Spots and stains should be removed as soon as they are noticed. The best rule to follow in cleaning fabrics, particularly if over foam rubber, is to be sure the fluid used has either a water base or is a non-distilled type of cleaner.

The cleaning fluid should be used in small areas at a time and should never be allowed to soak through the covering onto the upholstery.

Compounds generally acceptable for cleaning fabric over foam rubber include soaps, and detergents, a mild solution of carbon tetrachloride or ammonia. Also effective is glycerine and denatured alcohol. It is best to choose nonflammable cleaners.

Foam rubber is sturdier, however, than many fabrics used over it; so a test should be made on an unexposed area of the covering to determine whether the material will clean without discoloration.

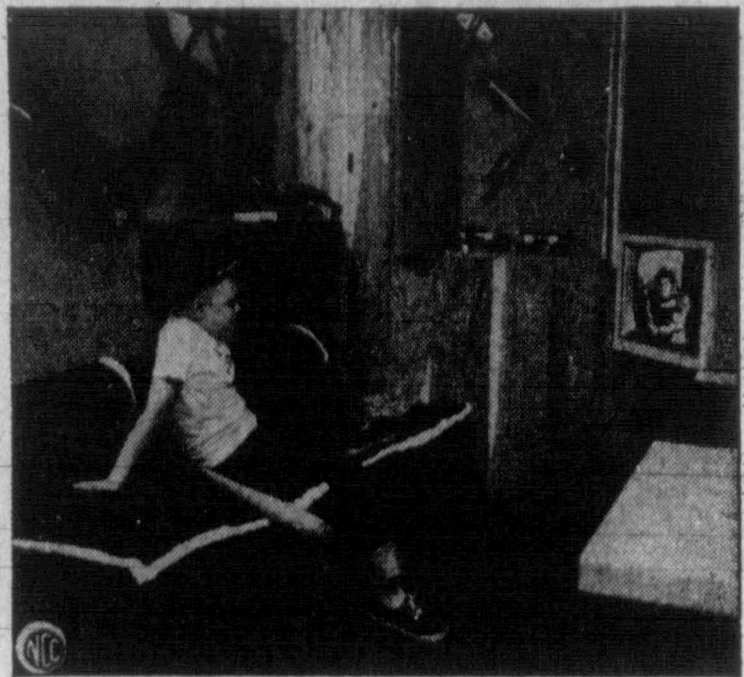

Be sure to check the label on the product you plan to buy, to make sure it does not contain ingredients which would be harmful to upholsteries, such as vinegar, chlorine, turpentine, acetone, peroxide or acids.

When the homemaker invests in good furniture she expects it to last, and she can help insure its long life by giving it good care.

TODAY'S CONTEMPORARY furniture, with its perfect scale and simple lines, has been made even more appealing to people with good taste and imagination but with small homes and limited budgets, with the addition of new colors that bring a decorative brightness to interiors without expense.

These new colors, lemon yellow, avocado green and Terra Cotta, have been added to the regular finishes of the contemporary Planner Group furniture, the award-winning moderately priced line by designer Paul McCobb. Among the color finished pieces are chests, cabinets, modular units, dining tables, chairs, benches, beds and occasional pieces.

In designing the group, McCobb has noted a singular interest and necessity for versatile furniture, brought about by today's smaller living areas. His success with the flexibility and compatibility of the

This little boy's bedroom has been converted into a manly TV den with a few yards of rugged blue denim that matches our hero's blue jeans. Studio couch cover of easy-to-sew cotton denim is trimmed with white fringe, the white selvage used instead of hem.

Garden Club Group Plans For Coffee

A coffee will be held at 10 a.m. Tuesday in the Lovett Library for anyone interested in the organization of a Pampa garden club. Plans for such a club will be discussed.

The Pampa Exchange Club, a men's civic group, is sponsoring the movement for a garden club. It has named Mrs. V. E. Wagner as chairman of a committee to look into the matter. She is assisted by Mmes. Grace Morris, George Hammerschmidt and Robert McCain.

The coffee was planned at an earlier session in Poole's Steak House, with about 25 persons present.

The group is also preparing for a luncheon to be held Feb. 6, in the Palm Room of the City Hall, for anyone interested in forming a garden club. Two members of the Phillips Garden Club will be featured speakers. Tickets for the luncheon, at \$1.25 each, will be sold in the Chamber of Commerce office, or may be obtained from Mmes. Ott Shewmaker, K. L. Elshimer, Vern Savage, B. R. Nash, H. H. Stull, Lynn Boyd, P. T. Randall, O. D. Burba, John Killian, J. H. Nation, Cecil Collum or V. E. Wagner.

If Mrs. N. was so victimized, she's naturally shy with displays of affection toward her older child. And the "coldness" of which her husband complains is not coldness at all.

On the contrary, it probably indicates a desire for her daughter's affection restrained by a most understandable fear of losing it to the kind of "demonstrativeness" that aroused her resentment.

Outraged herself by overeffusive, domineering caresses as a child, Mrs. N. couldn't possibly lavish them freely on the youngster whose love she wants.

Thus, the "coldness" which is regarded as evidence of unnatural maternal feeling may be, for Mrs. N., the most natural and good one—her effort, not to injure, but to protect her child against the resentment she once felt toward aggressive hugs and kisses.

Nor is it a bit queer that she should be more relaxed with her second child. It's again quite natural for mothers to be surer of themselves with the second child. But Mrs. N.'s conviction that she's a bad mother has turned this natural development into another cause for worry over herself.

Mr. N. can't help her overcome self-accusation by trying to force displays of affection from her. I don't wonder such demand makes her "nervous." The chances are, it echoes the very demand of her childhood that has made genuine expression of feeling so hard for her.

Butter can be kept in the freezing compartment of a refrigerator or in the home freezer for several months in the original package without danger of spoilage.

FEAR Any Cough When a cough starts begin using Creomulsion quick for soothing, relaxing, phlegm loosening help. You'll like its results better than other medicine or drug that refunds your money. No narcotics. Pleasant to take.

CREOMULSION relieves Coughs, Chest Colds, Acute Bronchitis

Doctor Recommends Getting Medical Approval Before Beginning On Diet

By EDWIN P. JORDAN, M.D., NEA Health Columnist

There is not the slightest doubt that there are many undesirable effects on the health when a person carries too much weight.

All of the medical evidence indicates that on the average the fat person dies younger than one of normal weight. Obesity leads to or has an unfavorable effect on such diseases as diabetes, high blood pressure, toxemias of pregnancy, and several forms of heart disease and even cancer.

The fat person also runs increased risks from surgery. These are all good arguments against staying overweight.

The process of reducing is done successfully every day. To do it safely and effectively takes will power and considerable knowledge.

Individual considerations enter into any reducing program. The amount of muscular work done during the day influences the number of calories which are needed in the diet. Size is a factor, since a tall, heavy-boned man can obviously carry more poundage than a short, small-boned woman.

Age enters the picture also, since an older person uses up fewer calories than a younger one of the same bodily structure.

In any major reducing program the factors applying to the individual must be known and taken into account. Also, there may be special requirements for various foods, minerals, or vitamins which enter into the picture.

For reasons such as these (and also because too rapid loss of weight can be harmful and too slow reduction discouraging) it is well for those who contemplate any major reducing program to receive approval of the proposed diet from a physician. Many reducing diets are excellent but no one of them can be considered completely satisfactory for every single person.

Skellytown HD Club Has Business Meet

SKELLYTOWN (Special) — Home Demonstration club met recently in the home of Mrs. Hugh Wall, with Mrs. Bernice Hoskins, president, in charge.

Mrs. Wall was selected to attend National and State Home Demonstration, week activities in San Antonio, Sept. 23.

Mrs. E. E. Crawford gave a council report. Next council meeting will be Feb. 20, in the Panhandle Memorial building.

Plans were made for a fun night for members and their families. Proceeds will go for the improvement of the city park, the club project.

Names for secret pal gifts were drawn.

A March of Dimes coffee, sponsored by the club, will be held in the Girl Scout building Tuesday afternoon.

Mmes. Willard Ogie, Clifton Hanna and Forrest Lilly gave a demonstration of making batter breads.

New members are Mmes. Elizabeth Thinsley, Jr. Ellis, Paul Matthews, Elmer Yhaney, Fred Gent. Others present were Mmes. E. E. Crawford, Cecil Shipley, Clarence Hoskins, George Porter, Gertrude Hucksins, W. S. Berry, Forrest Lilly, Hugh Wall, Fred Wall, Clifton Hanna, Willard Ogie, Garrel Hucksins, Guy McKinney, Ben Ross and Buck Durning.

Next meeting will be Friday with Mrs. Gertrude Hucksins. The program will be "Your Responsibility as a Juror."

Party Is Presented By Mrs. Fred Wall

SKELLYTOWN (Special) — Mrs. Fred Wall recently entertained a group of her friends with a party.

Mrs. Ben Ross was in charge of entertainment. Refreshments of cookies, sandwiches, hot chocolate and coffee were served.

Attending were Mmes. J. M. Grange, Howard Moore, Silas Paul, Clarence Hoskins, Willard Ogie, Hugh Wall, Ethel Hunt, Cecil Shipley, Forrest Lilly and Ben Ross.

Here's a new sandwich combination: salami, Bermuda onion, ripe olives, tomato, sharp process cheese, Swiss cheese and cucumber. It's really hearty.

Don Davis, Telephone News Reporter

The current crop of telephone innovations is varied and exciting. Some are fairly simple ideas, others have an almost Buck Roger-ish appeal. But all have one thing in common. Each is here today, real and practical. Each, in its own way, is ready, willing and available to add a new dimension, new convenience to your telephone service.

Take, for example, the Light-Up Dial telephone. It's a simple thing. A small lamp lights the dial when you lift the receiver. Just the thing when you want to dial a number in a darkened room. This Light-Up Dial feature is a natural for bedroom telephones, ideal for doctors, nurses, business people who make calls at night.

On the other hand, the new Speakerphone is nothing short of modern-day magic. It's a "hands-free" telephone. You simply press a button and talk—without lifting the receiver. The amazing Speakerphone works like this. A sensitive microphone in the set's base picks up your voice. You hear the person on the other end through a separate loudspeaker. Can you imagine the advantages for a businessman—hands free to write or handle papers, able to have others in his

Consumer Specialist Shows Sensible Square-Meal Diet, Covering Seven Days

You don't have to go hungry to keep your weight in check. A sensible diet can be three square meals a day, adding up to a healthful 1400 calories. Here's the first of such a seven-day diet planned for you by Mrs. Leores I. Elliott, a consumer specialist for the National Dairy Council and a former food editor and home economics director.

By MRS. DELORES I. ELLIOTT
(Written for NEA Service)

So you're going to diet! Here are some Do's to remember while you count calories: Stay on your diet until you've regained your desired weight. Then add foods a little at a time—more bread and butter, cereal, fruits, or vegetables, more milk, ice cream, other dessert, or a little of whatever you want—until you find how much you can eat and keep your figure.

Eat slowly; you'll be better satisfied and finish with your table partners.

Get your family's cooperation while you are reducing weight; they can eat the same foods in greater quantity.

Keep as active as health and job permit, but don't overdo vigorous exercise.

Here's the first day's menu for your seven-day, 1400-calorie diet:

Breakfast
1/2 cup grapefruit sections
1 poached egg
1 thin slice toast
1 medium pat butter
2-4 cup whole milk
Lunch
1 large cheeseburger

Dinner
1 sliced tomato or 1-2 cup cooked tomatoes
1/2 cup whole milk
1 large pork chop
2 tablespoons applesauce
1/2 medium baked potato
Lettuce and lemon juice—all you want
1/2 cup whole milk

(NEXT: Dieting isn't grim! Dorothy Collins.)

Don't Take Chances with Colds—RELIEVE SUFFERING ONE SURE WAY THAT DOES MORE THAN WORK ON CHEST

When a chest cold makes you miserable, you need Vicks VapoRub—the proved medication that acts two ways at once.

When you rub it on, VapoRub quickly relieves muscular soreness. At the same time, VapoRub's medicated vapors bring relief with every breath. Soothing medication travels deep into your nose, throat and large bronchial tubes. Congestion starts breaking up. Coughing eases. Warming relief comes. Lasts for hours. So when colds strike, depend on—

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa Daily News, Atchison at Bonerville, Pampa, Texas. Phone 4-2525, all departments. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES

By CARRIER in Pampa, 30c per week. Paid in advance (at office) \$3.90 per 4 months, \$7.80 per 8 months, \$11.70 per year. By mail \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy, 5 cents. No mail orders accepted in localities served by carrier.

Buried Alive

Edgar Allen Poe and other writers who have made use of terror and mystery in their writings have, on occasion, sent shudders down the spines of readers by reciting the horror of being buried alive. We can think of few events more grisly.

Perhaps inspired by these imaginings, one wealthy man, who had a fear that some such calamity would befall him, is reported to have actually gone so far as to install a telephone in the family crypt, besides having his coffin equipped with an inside latch. This way he could summon assistance if the shadow of death departed and he found himself still alive, though interred. There is no record that his servants ever had to answer that extension.

But in the realm of actuality, we can think of something nearly as horrifying as burial for the living. It is the living death invoked at times by psychiatrists and government agents, in which certain persons are sent to mental institutions.

Individuals who are mentally deranged can perhaps find assistance through the device. But in recent months there have been three reported instances in which persons who criticized some phase of governmental tyranny were "discovered" to be "lunatics." Westbrook Pegler has reported extensively on this calamity befalling a harmless befuddled poet, named Ezra Pound, who has been incarcerated for some ten years in St. Elizabeth's the proud bedlam in Washington, D. C. Last year, Lucille Miller of Bethel, Vermont who had a number of pointed things to say about involuntary servitude via the draft law in peacetime, found herself sent to the same institution. And now we learn that the Finn twins, George and Charles, whose only offense was that they bought an airplane and tried to fly it, were clapped into a mental institution because they resisted government efforts to interfere in their private business.

Now, from various corners of our nation come reports from alarmed citizens. Quietly, but backed by powerful financial groups, efforts are being made in nearly every state to pass "mental health" bills which will make it easy for anyone from two to five government-employed psychiatrists to commit anyone to a mental institution. And the collectivists, sometimes called "lefties," are chortling that anyone who disagrees with government policy can be found to be mentally incompetent and gotten out of the way by being declared insane.

If this were not reason enough for apprehension, comes now the word that Congressman Green of Oregon has introduced a bill in the Congress which provides for the purchase of a very large tract of land in Alaska. This land, in the American refrigerator, is to be used as a "camp" for the "mentally ill."

Russia has earned, and richly deserved the enmity and animosity of civilized countries by exiling political prisoners to Siberia. This barbaric custom, which originated with the czars and has continued through the communist hegemony in the Kremlin, is now apparently about to be emulated by our own government!

What is a "mentally ill" patient who receives that designation as a result of his opposition to some political scheme, but a political prisoner?

From our point of view, almost anyone who sees through the schemes and machinations of our political hierarchy, must be eminently sane and reasonable. But the use of federal power to declare such persons incompetent is a tyranny as barbaric and savage as any that has ever been enthroned.

This "mental health" device, by means of which politicians can legally commit us to a living death, is unbelievably evil. This is being buried alive with a vengeance.

We hope that these moves in various states and now at national level will alert Americans to just what sort of lengths their government will go to dominate and control them. Perhaps they will thus become aware that their rulers are not as benevolent as they had been led to believe.

THE NATION'S PRESS

GOVERNMENT (?) MONEY

(Atlanta Ga., Militant Truth) There is no such thing as "government money." Every penny the government has to spend has either come out of the pockets of the taxpayers or is obtained through the mortgaging of future generations.

It isn't the function of government to provide for the health, happiness, social welfare and economic security of our citizens, from the cradle to the grave.

When our people become so weak and spineless that they demand that "the government" do for us the things that we, as citizens, should do for ourselves, then our standards of patriotism, morality and spirituality have certainly hit bottom.

For many years now, socialis-

tic dreamers and radical stargazers in both political parties have been trying to out-bid each other with glittering promises of government subsidies and hand-outs. Such "promises" should insult the intelligence of every good American.

How the communist conspirators must leap with joy at the sight of gullible American taxpayers who are allowing their priceless votes to be bought with their own money!

"Everything free for everybody" sounds good — but — at the end of the rainbow — of "government hand-outs, subsidies, "security" and "welfare" — is — THE POORHOUSE — for everybody... everybody but the bureaucrats who planned it that way!

BETTER JOBS

By R. C. HOILES

How Absurd Can We Be

I have been reading a folder issued by the Council of State Chambers of Commerce on the subject of the storage project on the upper Colorado River.

The article goes on to describe the projects proposed for storing water on the upper Colorado River and the proposed new irrigation project.

One of the things I learned from reading the folder was that due to the irrigation laws, no interest can be charged against irrigation costs. In other words, the taxpayers throughout the Nation furnish the capital without interest for 40 or 50 years to build dams to increase the value of some favored people's land.

The total proposed cost of the Colorado River storage project as authorized and contemplated in Senate Bill 500 amounts to \$3,429,000,000. They have proposed irrigation projects in five states — Arizona, Colorado, Wyoming, Utah and New Mexico. The total cost to these states in round numbers would be \$76,000,000, while the rest of the states would be obliged to pay \$3,353,000,000 in round numbers. New Mexico would pay the least, only \$10,629,900 and Utah would pay \$11,658,900, while Colorado would pay \$34,632,900.

It is estimated that the cost per acre of irrigated land of the total number of new acres and supplementary acres to be irrigated would be \$3.58 per acre.

Then the brochure goes on to show that the average value of irrigated land in Arizona was \$200-\$400, Colorado \$150-\$300, New Mexico \$225-\$300, Utah \$250-\$300 and Wyoming \$225-\$150.

With Our Farm Surpluses It is proposed to spend this \$3 billion, in face of the fact that we now have eight billion surplus of farm products that we can not sell and hardly give away.

One of the causes of the farm problem is the Federal Government in the past bringing under irrigation a lot of land. Besides this, the Federal Government for years has been making farm loans to bring under cultivation land that should have been used for grazing. And yet our legislators are even considering adding these dams to bring more farm land under irrigation.

It is generally admitted that citizens have a prior use over agricultural use as far as water is concerned. Building these dams would probably reduce the amount of water available for Southern California domestic use.

Far From A Market An attempt to irrigate these lands that are far from the market after they have produced farm products is not, certainly, very businesslike. It would probably be a better investment to transport the water to produce the crops close to their market rather than attempting to store the water hundreds of miles away and raise crops that have to be transported hundreds of miles to reach a market.

If our Federal Government obligates us for \$3 billion or \$4 billion, it is a nice illustration of the foolishness that takes place when the government interferes with a free and unhampered market in what is produced and where it should be produced.

The Doctor Says

By EDWIN J. JORDAN, M. D.

The attack on cancer is going forward with ever-increasing vigor and effectiveness. Some of the development of recent years have been the result of experimental observation and as yet do not have practical application for the victim of cancer. Many of them, however, hold great promise for the future.

What about prevention? More and more attention is being paid to the factors which may lead to the development of cancer.

Why is it that sometimes certain cells grow wild and produce a cancer? The answer to this all-important question is not clear, but laboratory investigators have learned something about it. The possibility that excessive cigarette smoking is one of those factors is a recent development which at least shows how much interest there is in learning more.

ONE OF THE FACTORS in progress has been the increased emphasis on early diagnosis. Many cancers, when they can be discovered soon enough after they have started, can be successfully treated and lives saved. Different types of cells can be identified by microscopic examination and the treatment often depends on the type of cells as well as on their location and the length of time the cancer has been active.

Treatment continues to improve. It is now well known that if all cancer cells can be removed by surgery the growth of the cancer can be halted. Since more and more people are getting this surgery early enough so that all the cells can be removed, and since the areas open to surgical treatment and methods used by surgeons have both been extended or improved, treatment is becoming increasingly satisfactory.

IN ADDITION to surgery, the other two methods of treatment are the use of X-rays and radium. Here, too, new and improved techniques and instruments have extended the field in which effective cancer treatment can be employed. The progress in control of cancer, extensive though it has been, is not nearly enough. We need still

Ike Demonstrates Ability To Roll With The Punches

By RAY TUCKER

WASHINGTON — In his handling of the Dulles "brink of war" episode, President Eisenhower has demonstrated again, more spectacularly than ever before, his amazing facility of "rolling with the punch." In boxing lingo, and in political parlance, it is the fine art of side-stepping or ducking a seemingly damaging blow. Ike is a master at it, as he showed during the McCarthy-Cohn-Army drama.

Although the President dealt high praise to his Secretary of State — "the finest I have ever known" — without saying how many he had "known" — Ike did not defend the main thesis of the Life interview. He has not, publicly at least, revealed whether he had decided to use tactical atomic bombs in Korea, in Indo-China, and in a conflict over Formosa, if the Communists had forced a showdown in those areas. That their possible use was under consideration by the White House, the State and War Departments was generally understood at that time, although never publicized until Secretary Dulles spoke out.

Ike has side-stepped this question for reasons of military as well as political strategy. He sees no point in informing possible enemies of the kind of war we will wage against them. But, by not repudiating the basic idea of this specific warning, he implies that we are not spending billions in making A-bombs for the fun of it.

The Dulles interview, for the first time, has virtually broken the secrecy with which Admiral Lewis L. Strauss, AEC Chairman, has surrounded our atomic advances. It inferred that the United States has unnumbered thousands of small and easily transportable A-bombs for pinpointing a limited and localized target area.

The terrain in Korea, in China and in Indo-China is obviously not susceptible to the large-scale A-bombs that led to Japan's surrender. There are no great cities, no highly integrated industrial hives like Detroit or Pittsburgh, no major transportation systems.

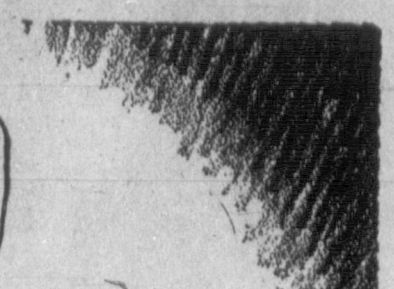

Therefore, as Dulles said, the A-bombs on these battlefields would have been directed against such local and selective targets as military staging and supply centers in the enemy's rear areas. In short, we would have blasted and cut all

more basic knowledge about cancer which will give information on the cause or causes thus leading to more effective preventive measures.

Needed also is a diagnostic test (perhaps of the blood or urine) which will reveal the presence or absence of cancer anywhere in the body. Such a test would make it possible to concentrate diagnostic search on those known to have cancer and thus to still earlier diagnosis and more effective treatment.

FINALLY, RESEARCH is needed to develop some medical or drug treatment of cancer. If this could be done it might be possible to inject or give by mouth some chemical substance which would destroy the cancer cells without harming the healthy cells of the body.

Fair Enough

Pegler Pays Tribute To The Late Ward Greene

By WESTBROOK PEGLER

The death of Ward Greene, the editor and general manager of King Features Syndicate, is a personal disaster to all of us who worked with him and out of course to many others in and out of the newspaper business which he honored and adorned.

I doubt that he really hated them because he hated simply was out of his line. Sweetly generous, indiscriminate kindness was his chief trait. J. D. Gortatowski, another member of our uptown brass, put it that unwavering loyalty was his strongest spiritual trait. I agree, but I think it is a phase of the whole soul of a man whose like I never have met. He was so generous and fair that not long ago he went after a writer, offering him a contract even though this young man had taken some terrible belts at our concern and some of our executives.

"He has been pretty rough on us," Jimmie said, "but the kid is a good writer and he seems to me to have integrity. I am afraid I like him."

Jimmie — This nickname just happened and was with him from childhood — was spotted as a great novelist in 1929 when his first book, "Cora Potts" was published and Henry Mencken went into conniptions about a new genius. Cora Potts was a madam. The theme was bold enough by itself but Jimmie's Cora Potts was an absolute challenge to morals because she was successful and still on the rise, without the slightest indication of retribution, on the last page.

I thought "Death in the Deep South" was Jimmie's best. It was a fierce, magnificent rebuke to the typical city-side gang of reporters on a "hot" murder story. It was a paraphrase of the tragedy of Leo Frank, a young Atlanta factory executive from the north who was convicted of murdering a young woman, sentenced to hang, commuted to life and, finally, lynched. The description of the heartlessness of reporters, including women, in pursuit of trifles for new leads for new editions and the anguish of the afflicted wife who the man accused took courage because the protayals were photographic and these were people with whom he had to work day after day.

A few years ago Jimmie did a little sentimental book about a couple of dogs, called "Lady and the Tramp." It sold well but authors seldom get rich on books so when Disney made a movie of it I phoned Jimmie from Arizona to congratulate him. He thanked me but said with a dry chuckle, "only

Hank Learns He Can't Act, But Gets \$13 Fee Anyway

By HENRY McLEMORE

I doubt if there is any person who doesn't think he can act. I know I think I can.

We look at people on TV and criticize them thinking to ourselves how much better we could do it, but it isn't true. Acting is a professional skill that is learned by hard work. How well I know!

I was offered a part in the TV show, "The Millionaire." If you ever saw anyone making a completely utter fool of himself, it was me. It was a small part — it was smaller than a small part — it was a teeny, tiny part. All I was called upon to do was to be a member of a circus crowd and look up at an actor on a high trapeze and express awe.

Try expressing awe sometime. It's very difficult. I expressed fear, fright, and horror — I not only expressed them once, but I expressed them five or six times! The director, Mr. Green, and the producer of the show, Mr. Don Feddersen, said in unison: "This man simply can't express awe. We will have to dismiss him and hire an extra to do his part."

Fair Enough

Pegler Pays Tribute To The Late Ward Greene

By WESTBROOK PEGLER

trouble is I sold it outright for very little." Later, though, he and Disney got up a comic strip on the same theme and Jimmie recently told me this would bring him \$20,000 a year as long as he wanted to do it.

As I write this, Gorty phones from Santa Barbara to warn me not to give an impression that Jimmie was sweetly tiresome. "I never knew any non-professional who had so many fights," he said. "He never ducked a fight or won one. When Villa raided Columbus, N.M., he secretly wired the War Department for credentials as a war correspondent and the message leaked to some of us. So we sent him a wire to drop everything and hurry to Washington. Jimmie resigned, was about to hop a day coach when we sent him another saying the War Department was advised that he was a drunken bum, and therefore withdrew the credentials. Jimmie wound up in a police station, pretty well scuffed up. He hit a cop his first week in New York and Sime Silverman, of Variety, got him out of that one.

"One night in Los Angeles, he took pity on a horrible, low-down bum sleeping in that park across from the Biltmore and, at four in the morning, tried to take this character up to share his room. The house detective stopped them and Jimmie said 'why, this is my friend.' The house Dick said 'okay, what is his name?' Jimmie turned to the bum and said, 'friend, what is your name?' So Jimmie belted the Dick and he had to call the night desk at the Examiner to keep him out of jail. He never weighed more than 130 pounds."

Dons Set Mark With 40 Wins; Louisville Drops Flyers 66-64

Top S'west Teams Meet This Week

By JOHN GRIFFIN
United Press Sports Writer
National champion San Francisco, which "walked" to a new major-college record of 40 straight victories, promised "no letdown" Monday as it drove toward the all-time all-college record of 55 consecutive triumphs.

The Dons won No. 40 Saturday night when they overcame a freak stall to beat California, 33-24. The historic conquest solidified their hold on the No. 1 national ranking for it came on the same night that arch-rival Dayton was ousted from the unbeaten ranks by Louisville, 66-64, in overtime.

The 40 straight tops the old major-college mark of 39 straight held by Long Island University (1955-56) and Seton Hall (1940-41). Now the target is the string of 45 wins compiled by Peru (Neb.) State Teachers from 1921-26, which stands as the small-college and all-college records. San Francisco has 11 more regular season games to play—so an all-conquering career would carry the Dons past this figure in the late stages of the NCAA tournament.

The Dons try to take over the lead in the California Basketball Association Tuesday night when they play San Jose State. Then they play Loyola (Calif.) on Friday.

For each has a road game to hurdle prior to the Saturday date in Fayetteville. SMU must tackle an improving Baylor team on the latter's home floor at Waco Tuesday night and Arkansas invades Fort Worth Wednesday night against Texas Christian.

SMU's Coach E. O. (Doc) Hayes couldn't afford to be pessimistic about surviving the two road games, especially after the way his Mustangs stomped TCU 105 to 64 last Saturday night even with Hayes playing reserves half the game or more.

But, the coach of the nation's ninth-ranked Methodists said he was "just plain scared."

"Baylor is always troublesome at home," he said, "and now the Bears have Jerry Mallett back in top form. Then, everyone knows what an obstacle it is to play Arkansas at Fayetteville."

Arkansas and SMU have met once before this season with SMU taking a narrow 67 to 62 verdict in the opening game of the conference pre-season tournament at Houston.

These two clubs figure in three-fourths of the league games on tap this week. Baylor plays Texas at Austin in the other loop encounter.

There'll be four non-conference games, however — two Monday night and two Saturday night.

The Texas Aggies hit the road against Oklahoma City and Texas plays West Texas at Canyon Monday night; Rice meets Lamar Tech at Beaumont and the Aggies face Houston at Houston Saturday night.

Dick O'Neal, who was the only Frog to bother SMU in the walkway last week, stretched his conference scoring average to 23.2 points per game as compared to 21.0 and 20.4 for idle Temple Tucker of Rice and Ray Downs of Texas.

O'Neal's 28 points also put him at the 400-point level for the season with Tucker for a 23.3-point average, a shade behind Downs' full season average of 23.9.

There's just as much activity outside the circuit as there is inside with five non-conference games on tap, three of them Monday night Texas at West Texas, Arizona at Flagstaff State and Santa Barbara at New Mexico A&M. Santa Barbara moves over to Tucson against Arizona Wednesday and Hardin-Simmons tackles Midwestern at Wichita Falls Thursday.

Tech beat back Eastern New Mexico 102 to 88 and FSU nose out Howard Payne 90 to 86 for non-league victories last week, while Arizona State was toppled by UCLA 99 to 79.

Delany Beats Santee

BOSTON — UP — Irishman Ron Delany was a bit confused over Wes Santee and his "rabbit" but he beat them both in the Boston Athletic Association's mile Saturday and ran off with "most outstanding" honors.

Russia Takes Long Lead In 7th Winter Olympics

CORTINA, Italy — UP — Russia, far out front with 60 points already, hoped to wrap up virtual victory in the unofficial team standings Monday while the United States, near the bottom of the Olympic barrel with only 6 1/2 points, looked to its women figure skaters for a sorely-needed lift.

U.S. skaters wound up 1-2-3. Three-time world champion Hayes Alan Jenkins of Colorado Springs, Colo., was first with 85.2 points; Ronald Robertson of Long Beach, Calif., was second with 84.1, and Jenkins' younger brother, David, also of Colorado Springs, was third with 83.7 points.

The compulsory figure skating competition Sunday, three U.S. skaters wound up 1-2-3. Three-time world champion Hayes Alan Jenkins of Colorado Springs, Colo., was first with 85.2 points; Ronald Robertson of Long Beach, Calif., was second with 84.1, and Jenkins' younger brother, David, also of Colorado Springs, was third with 83.7 points.

Delany admitted later that in the course of the mile he wasn't sure just whether he was seeing Santee or the rabbit but, he added, he didn't care.

The young Villanova man ran his race and had enough left on the last two laps to pick up 30 yards to overwhelm the rest of the field giving the crowd of 13,909 something to cheer about.

But the front-running Russians were given even chances to win both the men's 15-kilometer (nine miles and 660-yard) cross-country ski race and the men's 1,500-meter (1,640-yard) speed skating race.

Three hockey games also were on tap Monday in the opening of the championship round. In those games, the U.S. was favored over Germany, Canada was the choice over Czechoslovakia, and Russia was picked over Sweden.

Grid Schedule For 3-4A District Set

The Pampa Harvesters will open their '56 grid schedule with Austin of El Paso in Harvester Park September 14 while other teams of the newly formed 3-AAA district will face such powers as Capitol Hill, Oklahoma City, Adamson of Dallas, Littlefield and Snyder.

John Reddell, Palo Duro; Pat Farris, Lubbock; Joe Kerbel, Amarillo; Bill DuBoise, Monterey and Don Mouser, Plainview, should all be back this year as coaches in the newly formed conference.

Schedule for 3-4A District teams:
Sept. 14 (Night) Capitol Hill, Oklahoma City at Amarillo; Adamson, Dallas at Lubbock; Austin, El Paso, at Pampa; Littlefield at Plainview; Borger at Snyder.

Sept. 15 (Night) Dumas at Palo Duro; Paschal, Fort Worth at Monterey.

Sept. 21 (Night) Capitol Hill, Oklahoma City at Pampa; Fort Worth Tech at Borger; Amarillo at Paschal; Fort Worth; Enid, Okla., at Palo Duro; Odessa at Lubbock; Monterey at Highland Park, Dallas.

Sept. 28 (Night) Pampa at Midland; Duncan, Okla., at Borger; Levelland at Plainview; Abilene at Monterey; Lubbock at North Fort Worth; Palo Duro at Bowie, El Paso; Wichita Falls at Amarillo.

Oct. 5 (Night) Pampa at Wichita Falls; El Paso at Borger; Monterey at Midland; Plainview at Lubbock; Carter — Riverside, Fort Worth at Palo Duro; Amarillo at Odessa.

Oct. 12 (Night) Palo Duro at Pampa; Lubbock at Abilene; Borger at Monterey; Plainview at Hereford.

Virus Ailment Didn't Stop Vic Seixas

HOLLYWOOD BEACH, Fla. — UP — A virus ailment didn't stop Vic Seixas from winning the singles crown and teaming with Armando Vieira of Brazil to grab the doubles championship at the Hollywood Beach Invitational tennis tournament.

Seixas collapsed Friday after winning the semi-finals of the men's singles and was sent to bed under a doctor's care with 101-degree fever.

But the Philadelphia star, top-ranked amateur in the nation, was back in form Sunday.

He quickly disposed of fourth-ranked Eddie Moylan of Trenton, N.J., 6-3, 6-3, for the singles title. Umpire Lev Richards agreed to three-set matches due to Seixas' illness instead of the usual five sets required in championship contests.

Seixas and Vieira whipped Leslie Longshore, Amstion, Ala., and Lonnie Jordan, Birmingham, 6-1, 6-0, in the semifinals, delayed a day when Seixas was unable to go on after his collapse Friday.

In the finals, he defeated Moylan and Australian champ Bob Howe in a long set, 16-14, 6-2.

Top-ranked woman amateur Shirley Fry of Akron, Ohio, won the women's singles with a 6-0, 6-2 victory over Marilyn Stock of Coral Gables.

Joe Zardhardt of Greensboro, N.C., wound up third, only one more stroke farther back, and Frank Strazza of Greenwich, Conn., with fourth at 219 along with Bill Black, Huntsville, Ala.

Demaret Wins Thunderbird Golf Tourney

By HAL WOOD
PALM SPRINGS, Calif. — UP — The golfing tourists headed Monday for Phoenix, Ariz., and the big money pot there this weekend — with another "new" champion to beat for the cash.

This time the 45-year-old Jimmy Demaret, the handsome Texan who had not won a tournament since he captured the celebrities event in Washington, D. C., in 1933.

Jimmy won the \$15,000 Thunderbird Invitational tourney here Sunday when he closed with a late rush to edge the third-round leader, Dr. Cary Middlecoff. Demaret had a 289 total, compared with 270 for the Memphis dentist, and received a check for \$2,000, instead of the \$1,000 for second.

Putting Better
"I'm putting better than I have for years," said Jimmy Monday. "And I say that despite the fact that I had five three-putt greens in the 72 holes. I'm getting a lot of good ones down."

Demaret said he would play in the Phoenix Open this week, but would skip the Tucson event to attend to business affairs in Houston, where he is in partnership with Jackie Burke in a real estate office.

The tournament here was the fourth of the year. The other winners have been Mike Souchak at Calliente; Middlecoff at Pebble Beach in the Bing Crosby tray; and another old-timer, Lloyd Mangrum, in the Los Angeles open, Two-Man Race.

The Thunderbird event was a two-man race for the last two days — Middlecoff vs. Demaret. Jimmy had fired a seven-under-par 64 the opening day, then followed that with scores of 69-67-69. Middlecoff went 67-66-67-71.

In third place came Gene Littler, who plays through this Thunderbird course. He closed with finesse by firing a 66 for a 277 total and \$750. Gardner Dickinson, Panama City Beach, Fla., and Julius Boros, Mid Pines, N. C. each had 278s for \$500; and there was a five-way tie for sixth place among Arnold Palmer, Latrobe, Pa.; Bud Holscher, Apple Valley, Calif.; Tommy Bolt, Chattanooga, Tenn.; Mike Souchak, Groesinger, N. Y.; and Fred Hawkins, El Paso, Tex., each collecting \$365 for a 279.

JOANNE GOODWIN Has Chance For High Amateur Rank
FORT LAUDERDALE, Fla. — UP — Pretty Joanne Goodwin, 19-year-old golfing whiz from Dartmouth, Mass., proved she had a good chance for national amateur ranking Monday by her performance in the Doherty tournament.

MISS GOODWIN TOOK ADVANTAGE OF Mrs. Berger's putting wildness to gain the title with an easy seven-victory. She virtually clinched the tourney triumph over the tough Coral Ridge course in the first half of the scheduled 36-hole playoff with a two-over-par 78. Meanwhile, an erratic putter ballooned Mrs. Berger's morning round score to 86.

GUARD SIDELINED BY BOOKS
BLOOMINGTON, Ind., Jan. 28 — UP — Paxton Lumpkin, playmaking guard of the Indiana University Big Ten basketball team, was declared scholastically ineligible Saturday for the rest of the season.

Dons Set Mark With 40 Wins; Louisville Drops Flyers 66-64

Top S'west Teams Meet This Week

By JOHN GRIFFIN
United Press Sports Writer
National champion San Francisco, which "walked" to a new major-league record of 40 straight victories, promised "no letdown" Monday as it drove toward the all-time all-conference record of 55 consecutive triumphs.

The Dons won 40 Saturday night when they overcame a freak stall to beat California, 33-24. The historic conquest solidified their hold on the No. 1 national ranking—for it came on the same night that arch-rival Dayton was ousted from the unbeaten ranks by Louisville, 66-64, in overtime.

The 40 straight tops the old major college mark of 29 straight held by Long Island University (1925-26) and Seton Hall (1940-41).

Now the target is the string of 55 wins compiled by Peru (Neb.) State Teachers from 1921-26, which stands as the small-college and all-college record. San Francisco has 11 more regular season games to play—so an all-conference career would carry the Dons past this figure in the late stages of the NCAA tournament.

Try for Lead
The Dons try to take over the lead in the California Basketball Association Tuesday night when they play San Jose State. Then they play Loyola (Calif.) on Friday.

Dayton, which had won 14 consecutively, bowed in a hectic game on its home court as Louisville, ranked No. 10 nationally by the United Press board of coaches, pushed its season record to 16-1.

Kentucky, ranked No. 4 nationally, was another major upset victim—bowing to eighth-ranked Vanderbilt, 81-73. The loss was the Wildcats' first in Southeastern Conference play and dropped them into third place. Two other

teams ranked in the top 30 nationally were upset—16th-ranked Cincinnati by St. Louis, 104-88, and 18th-ranked Marquette by Bradley, 65-57.

Illinois, ranked No. 3 nationally, paced the other victorious ranked teams with an 80-66 win over DePaul, despite 29 points by DePaul's Ron Sobieszczyk. Illinois now has an 11-1 record.

Major League Leaders
As a result of weekend play, here's the situation in major-conference races.

Big Ten—Iowa (4-1) can tie for lead if Illinois (4-0) loses to Minnesota Monday night.

Pacific Coast—UCLA (4-0) tangles with second-place Washington (5-1) Friday and Saturday; Southern California (also 5-1) meets Oregon same nights.

Big Seven—three-way tie exists at 3-1 among Kansas, Kansas State, and Colorado with last two meetings in week's big game Saturday.

Missouri Valley—St. Louis risks 4-0 record twice.

Southwest—co-leaders SMU and Arkansas play once, then clash Saturday.

Other leaders — West Texas State; Rocky Mountain — Idaho State.

Delany Beats Santee

BOSTON —UP—Irishman Ron Delany was a bit confused over Wes Santee and his "rabbit" but he beat them both in the Boston Athletic Association's mile Saturday and ran off with "most outstanding" honors.

The rabbit in the race was Billy Taylor, a half-miler at the best, who was brought along by Santee to pace him in the first half of the race.

Delany admitted later that in the course of the mile he wasn't sure just whether he was seeing Santee or the rabbit but, he added, he didn't care.

The young Villanova man ran his race and had enough left on the last two laps to pick up 30 yards to overwhelm the rest of the field giving the crowd of 13,909 something to cheer about.

The fans had expected a duel between the Irishman and the Marine lieutenant and they had not contemplated an extra added attraction in the person of Taylor.

Taylor set a good pace for Santee for the first quarter in 58.6 but he burned himself out shortly thereafter. Santee stayed in the number one spot but he began to wobble near the three-quarter mark.

Delany received a roaring ovation as he raced around the track and later jogged the same circuit with a spotlight playing on him.

He received 52 points for the sportswriters who voted him the John J. Hallahan trophy as the outstanding athlete in the meet.

Russia Takes Long Lead In 7th Winter Olympics

By CHARLES RIDLEY
CORTINA, Italy —UP— Russia, far out front with 60 points already, hoped to wrap up virtual victory in the unofficial team standings Monday while the U.S. skaters, near the bottom of the Olympic barrel with only 1-2 points, looked to its women figure skaters for a sorely-needed lift.

U.S. women figure skaters, led by world champion Tenley Albright of Newton, Mass., were favored to dominate the compulsory figures phase of the competition on Monday's program and defending champion Andrea Mea Lawrence was expected to add to America's point total in the women's special slalom.

But the front-running Russians were given even chances to win both the men's 15-kilometer (nine mile) and 500-yard cross-country ski race and the men's 1,500-meter (1,640-yard) speed skating race.

Three hockey games also were on tap Monday in the opening of the championship round. In those games, the U.S. was favored over Germany, Canada was the choice over Czechoslovakia, and Russia was picked over Sweden.

With seven of the 24 Olympic events already completed Russia's 60 points in the team standings, which are strictly unofficial since awards are made to individuals and not nations in the Olympics, represents more than a two-to-one ratio over the nearest competing country, Austria.

The Austrians are in second place in the team standings with 29 points, thanks to their record-shattering first, second and third-place sweep of Sunday's men's giant slalom ski race on the icy slopes of Mount Faloria.

Italy and Finland are tied for third place with 15 points apiece, followed by Sweden with 14 points and Germany with 10. The U.S.

and Switzerland are tied for seventh place with 6 1-2 points each. Holland, France and Norway have five points apiece while Spain has three and Canada one.

In the men's compulsory figure skating competition Sunday, three U.S. skaters wound up 1-2-3. Three-time world champion Hayes Alan Jenkins of Colorado Springs, Colo., was first with 82.2 points. Ronald Robertson of Long Beach, Calif., was second with 80.1, and Jenkins' younger brother, David, also of Colorado Springs, was third with 83.7 points. The compulsory figures count 60 per cent of the event and the free skating phase of the event, which will be held Wednesday, counts 40 per cent.

Russia produced a surprise with its brilliant showing Sunday in the ski jumping half of the Nordic combined event. Soviet skier YIry Moschkin leaped 75.5 and 77 meters (247 feet, 8 inches and 252 feet, 7 inches) to take the lead with 220 points.

Marvin Crawford of Denver, Colo., made the best showing among U.S. entrants in Sunday's jump. He was in 16th place with 200 points on identical leaps of 227 feet, 11 inches.

CORTINA, Italy, Jan. 29 — UP— Unofficial team standings after Sunday's events in the 1956 Winter Olympic games (gold medals won in parentheses):

Nation	Points
1. USSR (3)	60
2. Austria (1)	29
3. (Tie) Italy (1)	15
4. (Tie) Finland (1)	15
6. Germany (1)	10
7. (Tie) United States	8 1/2
7. (Tie) Switzerland	8 1/2
9. (Tie) The Netherlands	7 1/2
9. (Tie) Norway	7 1/2
12. Spain	6
13. Canada	3
14. Sweden	2
15. Switzerland	1

(Points are distributed on a 10-5-4-3-2-1 basis for placements from first through sixth. Twenty-five points are thus awarded for each of 24 events. Seven have been completed. A total of 600 points eventually will be shared.)

Grid Schedule For 3-4A District Set

The Pampa Harvesters will open their '56 grid schedule with Austin of El Paso in Harvesters Park September 14 while other teams of the newly formed 3-4AAA district will face such powers as Capitol Hill, Oklahoma City, Adamson of Dallas, Littlefield and Snyder.

The other major powers outside the district that have games scheduled with the Harvesters are Capitol Hill, Midland and Wichita Falls.

The Green and Golders, still under the guidance of Coach Jack Lockett, are not to be caught unprepared as they will begin spring training soon and they should be well conditioned by kickoff time next fall.

The Amarillo Sandies will face Capitol Hill, Paschal, Wichita Falls and Odessa while Berger faces Snyder, Duncan, Okla., Fort Worth Tech, and El Paso High.

The Westerners will meet Adamson of Dallas, Odessa, North Fort Worth and Abilene. Monterey's Plainsmen seem to have one of the toughest schedules with Abilene, Paschal, Highland Park and Midland.

All of the coaches will be back for the coming season when Lubbock, Pampa, Amarillo and Berger of the northern half of the 1-AAA district align with Plain-

Demaret Wins Thunderbird Golf Tourney

By HAL WOOD
PALM SPRINGS, Calif. —UP— The golfing tourists headed Monday for Pibben, Ariz., and the big money pot there this weekend— with another "new" champion to beat for the cash.

This time the 45-year-old Jimmy Demaret, the handsome Texas golfer who had not won a tournament since he captured the celebrities event in Washington, D. C., in 1953.

Jimmy won the \$15,000 Thunderbird Invitational tourney here Sunday when he closed with a late rush to edge the third-round leader, Dr. Cary Middlecoff. Demaret had a 289 total, compared with 270 for the Memphis dentist, and received a check for \$2,000, instead of the \$1,000 for second.

Putting Better
"I'm putting better than I have for years," said Jimmy Monday. "And I say that despite the fact that I had five three-put greens in the 72 holes. I'm getting a lot of good ones down."

Demaret said he would play in the Phoenix Open this week, but would skip the Tucson event to attend to business affairs in Houston, where he is in partnership with Jackie Burke in a real estate office.

The tournament here was the fourth of the year. The other winners have been Mike Souchak at Caliente; Middlecoff at Pebble Beach in the Bing Crosby fray; and another old-timer, Lloyd Mangrum, in the Los Angeles open.

Two-Man Race
The Thunderbird event was a two-man race for the last two days —Middlecoff vs. Demaret. Jimmy had fired a seven-under-par 64 the opening day, then followed that with scores of 69-67-69. Middlecoff went 67-66-66-71.

In third place came Gene Litter, who plays from this Thunderbird course. He closed with finesse by firing a 66 for a 277 total and \$750.

Gardner Dickinson, Panama City Beach, Fla., and Julius Boros, Mid Pines, N. C. each had 278 for \$600; and there was a five-way tie for sixth place among Arnold Palmer, Latrobe, Pa.; Bud Holcher, Apple Valley, Calif.; Tommy Bolt, Chattanooga, Tenn.; Mike Souchak, Grossinger, N. Y.; and Fred Hawkins, El Paso, Tex., each collecting \$365 for a 278.

Buffs Play Top Border Loop Games

Some of the haze enveloping the Border Conference basketball race may get swept away this week as Arizona State, Arizona and New Mexico carry their hopes into games against Texas rivals.

West Texas, which sets the pace with a 3-1 record, will play host to Arizona State on Thursday and Arizona on Saturday night in the feature games. The two invading teams share second place with 3-2 league marks.

Arizona State launches its bid Tuesday night at Abilene against Hardin-Simmons (0-4) and moves on to Lubbock Wednesday night against Texas Tech, a pre-season favorite currently deadlocked with Texas Western and New Mexico A&M at 2-2.

Texas Western and New Mexico A&M play a return engagement at El Paso Saturday night to round out the title play. They figured in the only loop game last week as the Miners upset the Aggies 53 to 51 at Las Cruces.

There's just as much activity outside the circuit as there is inside with five non-conference games on tap, three of them Monday-night Texas at West Texas Arizona at Flagstaff State and Santa Barbara at New Mexico A&M. Santa Barbara moves over to Tucson against Arizona Wednesday and Hardin-Simmons tackles Midwestern at Wichita Falls Thursday.

Tech beat back Eastern New Mexico 102 to 85 and HSU nosed out Howard Payne, 90 to 86 for non-league victories last week, while Arizona State was toppled by UCLA 99 to 79.

Joanne Goodwin Has Chance For High Amateur Rank

PORT LAUDERDALE, Fla. —UP—Pretty young Joanne Goodwin, 19-year-old golfing whiz from Dartmouth, Mass., proved she had a good chance for national amateur ranking Monday by her performance in the Doherty tournament.

The Massachusetts amateur champion played more holes than anyone else in the Doherty and her final match with the veteran Cookie Swift Berger of Buffalo, N.Y., proved to be the easiest of all.

Miss Goodwin took advantage of Mrs. Berger's putting wildness to gain the title with an easy seven-up victory. She virtually clinched the tourney triumph over the tough Coral Ridge course in the first half of the scheduled 36-hole playoff with a two-over-par 78. Meanwhile, an erratic putter ballooned Mrs. Berger's morning round score to 86.

Virus Ailment Didn't Stop Vic Seixas

HOLLYWOOD BEACH, Fla. —UP—A virus ailment didn't stop Vic Seixas from winning the singles crown and teaming with Armando Vieira of Brazil to grab the doubles championship at the Hollywood Beach Invitational tennis tournament.

Seixas collapsed Friday after winning the semi-finals of the men's singles and was sent to bed under a doctor's care with 101-degree fever.

But the Philadelphia star, top-ranked amateur in the nation, was back in form Sunday.

He quickly disposed of fourth-ranked Eddie Moylan of Trenton, N.J., 6-3, 6-3, for the singles title. Empire-Lev Richards agreed to three-set matches due to Seixas' illness instead of the usual five sets required in championship contests.

Seixas and Vieira whipped Leslie Longshore, Amstion, Ala., and Lonnie Jordan, Birmingham, 6-1, 8-0, in the semifinals, delayed a day when Seixas was unable to go on after his collapse Friday.

In the finals, he defeated Moylan and Australian champ Bob Howe in a long set, 16-14, 6-2.

Top-ranked woman amateur Shirley Fry of Akron, Ohio, won the women's singles with a 6-0, 6-2 victory over Marilyn Stock of Coral Gables.

Pele Burke Wins Senior Europe Trip

DUNEDIN, Fla. —UP—It took 31-year-old Pete Burke of Huntington, N.Y., a long time to win his first major golf tournament, but Monday he was even more happy about his coming trip to Europe and a starting berth in the British Open championship.

By winning the Professional Golfers Association's senior golf tourney, he picked up a check for \$10,000 in addition to the top and the berth in the British Open.

Burke sank a 10-foot putt on the 18th green Sunday to gain the senior title by a stroke over Ock Willowette of Dayton, Ohio. He finished with a 54-hole total of 215 in the event for professionals 50 years of age and over.

Joe Zarhardt of Greensboro, N.C., wound up third, only one more stroke farther back, and Frank Strazza of Greenwich, Conn., with fourth at 219 along with Bill Black, Huntsville, Ala.

Mortie Dutra of Calexico, Calif., the defending champion, tied for sixth with Bill Goldberg of Mt. Kisco, N.Y., while 1954 champ Gene Sarazen of Germantown, N.Y., finished far back in the field of 72 who started the final round. Sarazen had a 84-hole total of 223.

Lela School To Host 34 Cage Teams

SHAMROCK, (Special) — Lela School will host one of the largest grade school basketball tournaments ever held in Texas beginning Tuesday evening, January 31. Thirty-four teams—18 boys and 16 girls—are entered in the tourney which will continue with morning, afternoon and night sessions through Saturday, February 4.

Trophies will be awarded first and second place winners and winners of consolation in the boys and girls brackets.

Thomas H. Baker, Lela School principal, is tournament director, officiating at the games will be Bobby Crooks, Shamrock's Junior high school coach, and Norbert Schlegle of Lela.

Pampa boys and Kellerville girls are champions of last year's tourney.

The first round of play will be as follows: Tuesday, 6:30 p.m. Shamrock "A", vs. McLean boys; 7:30 p.m. Shamrock vs. McLean girls; 8:30 p.m. Wheeler vs. Kellerville boys.

Wednesday, February 1: 9 a.m. Wellington vs. Erick, boys; 10:00 a.m. Wellington vs. Kellerville girls; 11:00 a.m. Shamrock "B" vs. Shamrockwood "B" boys; 1 p.m. Qual vs. Carendon, girls; 2 p.m. Clarendon vs. Mobette, boys; 3 p.m. Mobette vs. Wheeler, boys; 4 p.m. - Qual vs. Lefora, boys; 6 p.m. - Kellerville vs. Samnorwood girls; 7 p.m. - Alanreed vs. Shamrockwood "A" boys; 8 p.m. - Kellerville vs. Lela, girls; 10 p.m. - Kellerville vs. Lela, boys.

Thursday, February 2-9 a.m. Briscoe vs. Lefora, girls; 10 a.m. Canadian vs. Erick, girls; 11 a.m. Briscoe vs. Canadian, boys.

Beginning Thursday afternoon, winners and losers will begin playing for the consolation honors.

Ex-Olympic Ski Judge Dies
MILWAUKEE, Wis., Jan. 28 —UP—Arthur (Red) Barth, former president of the National Ski Association and the first Olympic ski jumping judge from America, died at his home Friday night. He was 53.

Guard Sidelined by Books
BLOOMINGTON, Ind., Jan. 28 —UP—Paxton Lumpkin, playmaking guard of the Indiana University Big Ten basketball team, was declared scholastically ineligible Saturday for the rest of the season.

Sellout Seen For Mat Show

Juan Garcia from Mexico City has been signed to meet Mike Clancy of Boston, Mass., in one of the main events on the local mat card Wednesday night February 1. Mike Clancy beat Dizzy Davis, Southwest States heavyweight champion, last week in two straight falls. He immediately challenged Davis to a championship match. Davis declined because he is to be in New Mexico the next month, but will be happy to accommodate him on his return.

Juan Garcia appeared here last week the first time and the fans were very pleased.

Garcia is one of the better wrestlers to come out of Mexico and he wrestles clean. The match should be a good one.

Two girl wrestlers will go in the other main event a 2 out of 3 falls no time limit grudge match with Frankie Hill Murdock, as referee.

Kathy Lee and Joan Ballard were both disqualified last week after roughing the referee.

Dr. Lee Grable, the world's most noted mass hypnotist will appear on the program for a 20 minute show. He will also be wrestling Mark Lewin in a 1' fall 30 minute time limit bout. Dr. Grable's show should be worth the price of admission. All who wish to see him again along with 5 bouts of wrestling had better get tickets early. There is no advance in prices for this all-star show.

Tickets are on sale at the Modern Pharmacy with all proceeds going to Pampa Shrine Club's crippled children's fund.

'Babe' Recovered; Leg Still Hurting

GALVESTON, Tex. —UP—Babe Didrikson Zaharias began living with a pain in her leg Monday after doctors told her she would have to put up with it.

The famed woman athlete was pronounced recovered, however from her third bout with cancer. She said she still had some pain in the leg, following her hospital release, but was told by doctors that she would have "to live with it."

She and husband George, left by plane Monday for their home in Tampa, Fla.

Houston Lady Lost 25 Pounds With Barcentrate

"I have lost 25 pounds taking Barcentrate" writes Mrs. H. A. Banner, 1951 Portsmouth Avenue, Houston, Texas.

People 60 to 80 Can Apply for Life Insurance

If you are under 80, you can still apply for a \$1,000 life insurance policy to help take care of final expenses without burdening your family.

A thrifty wife is one of man's real treasures — and always will be. Help each other build security with savings — it's the greatest comfort you can buy with money!

"Come On... Admit it! You're Proud of Me for Starting a Savings Account!"
