CALVIN T. WHATLEY
... energetic and friendly

He Quit Selling; Went To Cabot

By FRED PARKER
Pampa News Staff Writer

Office and personnel manager of the Pampa office of Cabot Car Sales Company, Calvin T. Whatley still finds time to take an active part in church work and the civic activities of the community in addition to his work.

Whatley has a finger in just about every major civic activity in town. He works in the Lions Club, works for the Salvation Army, is interested in the Knife and Fork Club and is instrumental in several other local groups.

Whatley was born in Lometa, Texas, on August 31, 1909 during the time his father was studying for the ministry.

For the first 12 years of his life, Whatley lived in several towns while his father was completing his education and preaching part time for various churches.

In 1912, Whatley's family moved to Pampa, where his father had become pastor of the First Baptist Church. They remained in Pampa for about five years. The cough was located where the Combs-Worley Building now stands.

Upon leaving Pampa, his family moved to Brownwood, where his father was a teacher at Howard Payne College.

Whatley completed high school at Brownwood and enrolled at Hardin-Simmons University and studied law.

After three years of college, Whatley moved to Haskell and went into the life insurance business. During the two years he spent in Haskell he married Annabel Burt.

His first and only venture into politics was in Haskell in '34 when he ran for the office of District Clerk. This venture was unsuccessful and he gave up politics.

In September of '34 they came to Pampa and "moved into a one-room apartment and had more room than we have ever had since," Whatley stated.

Whatley remained in the life in-

urance business when he came to Pampa but after about one and a half years he went to work at the Thompson Hardware Company selling appliances.

In '42 when appliances were unavailable for sale due to the war, Whatley went to work on the construction at Pampa Army Air Base. During this time he worked 70 hours a week and was able to finally pay off the loans he had acquired while in college.

When the construction work was finished he went to work in Post Exchange at the Air Field as a warehouseman. By '45, when he left, he had become General Manager of all of the various Exchange businesses.

In '45, Whatley went to work in the accounting department at Cabot and only planned to stay until appliances were again available to sale. However, he liked the work at Cabot so well and the people that he worked with, that he stayed there and has never wanted to go back to selling appliances.

During the 11 years he has been with Cabot, Whatley has been held (See TEXAN, Page 2)

Shriners' Wives Set Activities

The ladies' activities in connection with the Shrine Ceremonial, scheduled for Friday, will be under the direction of Mrs. Howard Thraut.

Registration for wives of out-of-town Shriners will take place from 1-3 p.m. in the Pampa Hotel, immediately following the parade, a tea will be conducted at the Country Club from 4:15 to 5:15 p.m. The wives will return to the hotel for a barbecue slated for 6 p.m. at the Top o' Texas Sportsman Club.

The ceremonial dance will be held at the club at 9 p.m. A class of at least 30 novices is expected for the ceremonial, with a total of 24 registered to date.

Tax Writers Cool To Tax Cut For Political Contributions

By VINCENT J. BURKE
WASHINGTON — UP — Congressional tax writers were cool Monday to a Senate proposal to grant income tax deductions of up to \$100 on political campaign contributions.

The proposal is one of several provisions incorporated into a "clean elections" bill introduced in the Senate but not yet acted upon. The measure has the bipartisan backing of Senate leaders. Eighty-five of the 96 senators have signed up as its sponsors.

It is designed to encourage more people to help finance political campaigns.

But three members of the House Ways & Means committee indicated Monday in separate interviews that the tax deduction provision will have to be revamped considerably if it is to win congressional approval in advance of this year's election campaign.

Rep. Herman P. Eberhart (D-Pa.) complained that most of the tax benefits under the proposal would be limited largely to the well-to-do.

He said a taxpayer taxed at the top rate of 91 per cent could make a campaign contribution of \$100 at a net cost of only \$9, since he would save \$91 on his tax bill.

On the other hand, Eberhart said, millions of taxpayers of mod-

Industrial Week Program Planned

The industrial committee of the Chamber of Commerce is working on a program of events in keeping with the general theme of Texas Industrial Week, proclaimed by the Governor for April 1-7.

The state-wide program will recognize the importance of industry to the general economy of the state.

Activities under consideration include service club programs, educational programs through the schools, and radio and newspaper features.

A luncheon, featuring an outstanding speaker, is planned to kick-off the week's activities on Monday.

Storm Paralyzes N. Y.

NEW YORK — UP — The heaviest snowstorm of the winter paralyzed transportation in the New York area Monday stranding thousands of motorists on snow-blocked highways.

The surprise storm grew steadily worse and authorities went into emergency action in the hardest hit areas.

The eight inch snow was the second storm to hit the area since Friday. Together the two storms left a death toll of more than 85.

President Eisenhower was among the thousands whose travel schedules were disrupted by the ice. He had planned to return to Washington Sunday night from his farm at Gettysburg, Pa., but decided to delay the drive when the snowstorm created dangerous highway conditions.

Automobiles became stranded by the hundreds Sunday night on the slippery surfaces of superhighways in New York and its sprawling suburbs.

The snow began Sunday as a light flurry and slowly increased in intensity. Winds up to 30 miles an hour whipped the snow into traffic stopping drifts.

Automobiles skidded, and stalled on numerous thoroughfares.

Police closed the most seriously affected parkways of Long Island and set up rescue apparatus for an estimated 2,000 persons stranded in their autos miles from home.

They rushed buses with chains into service and took the stranded motorists to transit facilities, police stations and city halls.

The Red Cross supplied blankets and hot coffee at emergency shelters set up hurriedly at key points.

The weather bureau said the storm dumped snow over parts of nine states from Virginia to Rhode Island. The storm began moving out to sea Monday but temperatures were not expected to rise much above the lower 30s.

The heavy snowfall also posed another threat, that of floods. Guy Abraham Ribicoff of food-wear Connecticut said he would call a meeting of state officials to discuss the flood dangers when the snow begins to melt.

A severe windstorm struck North Carolina Sunday and winds of "almost hurricane force" destroyed several farm buildings near Lenoir, N. C., and blew down a blimp and its mooring mast at Weeksville, along the coast.

A small tornado struck near the Raleigh-Durham airport but caused only minor damage, the weather bureau said.

Demo-Controlled Congress Blasted

By FRANK ELEAZER
WASHINGTON — UP — Some Republicans were beginning to grumble Monday that the Democratic-controlled 84th Congress isn't doing much. One said it may go down as a "do nothing" congress.

Publicly, Democrats scoffed at the charges, which are aimed mainly at the House. They said much major legislation already has been passed, the House is caught up with its work, and that the real reason members now take it easy...

G. O. P. Sets Small-Scale Convention

By RAYMOND LAHR
WASHINGTON — UP — Republican party leaders organized for an early start on campaign planning Monday by calling a small-scale convention four months ahead of their big show in August.

The GOP national committee announced that about 800 Republicans from congress and the party organization had been invited to meet here April 16 and 17 for the planning session. It will be called the "Republican national conference on the 1956 presidential and congressional campaigns."

Early planning was in order this year because the GOP national convention meets at San Francisco Aug. 20, only two weeks before the traditional Labor Day start of political campaigns.

Face Other Problems

With renomination of the Eisenhower-Nixon ticket now taken for granted, these other problems are now getting Republican attention:

1. How to adjust campaign techniques for increased use of television, particularly in the light of President Eisenhower's announced refusal to conduct a barnstorming campaign.
2. How to regain control of congress in the face of evidence that GOP congressional tickets have had less appeal to the voters than Mr. Eisenhower.

Uphill Fight

Because of the lineup of Senate seats at stake this year, the Republicans have an uphill pull in front of them to win back the Senate even if they win the White House again.

In announcing the meeting next month, national committee Chairman Leonard W. Hall said the party faces "a tough battle" but "can and must win a strong working majority in the Senate and House."

Invitations were sent to all Republican members of congress, national committee members, state chairmen and vice chairmen, members of the national finance committee and the chairman of the fund-raising "salute to Eisenhower" dinners held Jan. 20.

Reds Say Josef Stalin Was A Heel

By HENRY RAYMONT
WASHINGTON — UP — The Soviet government's next move in trying to convince Russians that Stalin was a heel probably will be to point out that Lenin didn't want Stalin as his successor.

Soviet experts said such a move was likely as soon as pro-Stalin sentiment begins to abate in Russia, especially in the late dictator's home province of Georgia.

Reports leaking out of Russia said there had been demonstrations in Georgia protesting efforts by Communist leaders to discredit Stalin. But observers here doubted the demonstrations were of any great significance.

These experts — high-level government scholars of Communist theory and tactics — said it was natural for Georgians to resent the attack on their most famous native. They pointed out that under Stalin, Georgia received more favors than any other Soviet province.

But the experts said that resentment in Georgia gradually will disappear under the pounding of Communist party propagandists preaching the new doctrine that Stalin was guilty of major "errors of judgment."

As soon as the pro-Stalin sentiment abates, the experts said, the central committee of the Communist party probably will release Lenin's "last testament" and other documents designed to tear down the aura of infallibility that surrounded Stalin.

According to the version published in the West but never made available to the Russian people, Lenin still the infallible deity of communism did not want Stalin as his successor.

DR. ROY G. BOGER
... Cabot speaker

Cabot Sets Management Conference

The 25th management conference of the Southwestern Division, Cabot, will open at 9:30 a.m. tomorrow in the Cabot auditorium, Hughes Building.

The conference, which will feature Dr. Roy G. Boger, director of Amarillo Center, as the principal speaker at a luncheon in the Pampa Hotel tomorrow, is for the purpose of discussing and attempting to solve mutual management problems by the various department heads.

Other objectives of the conference are to bring together thinking on policies, procedures, etc., to facilitate communications up and down the supervisory line, and to discuss progress being made.

The meeting will be called to order by Bert Arney, chairman of the meeting. A report from Boston, the home offices of Cabot, will be made by J. Boyd Britton of Boston, vice president in charge of operations, Godfrey L. Cabot, Inc. W. L. Loving, manager of the carbon black department, will report on carbon black; R. A. Baker, manager of Cabot Shops, Inc., will speak on the Cabot Shops and Franks; W. F. Hendricks, general manager, Cabot Carbon of Canada, Ltd., will report on the Sarina, Canada, carbon black plant; and Hugh Burdette, general manager of the Southwestern Division, Cabot, will report on oil, gas, gasoline, and other items.

Employee representatives from all the plants in the division will meet jointly with the management group on the first day, Tuesday, and on the second day, will hold separate meetings.

The management group will hold a series of sessions on mutual problems and carbon black men will meet Wednesday.

The election of the chairman and setting of a date for the next meeting will be held during the Tuesday luncheon.

A barbecue dinner will be held Tuesday night at 8:30 o'clock in the auditorium with Dr. R. M. Bellamy speaking on "X-rays As An Aid In Employee Selection."

Dr. Boger, principal speaker at the luncheon meeting, holds B. A., M. A., and LL. D. degrees. He is the professor of education and director of the Amarillo Center of West Texas State College.

He is a member of the Texas State Teachers Association, National Education Association, Texas Guidance and Personnel Association, Texas Psychological Association, and the American Psychological Association.

He has been listed in Who's Who in America for some 25 years. He is a member of the board of directors of the Polk Street Methodist Church in Amarillo, where he teaches a Sunday school class of men having an average attendance of 200 per Sunday.

He was formerly with Southern Methodist University in public relations, Dean of McMurry College, president of Weatherford and Jacksonville Junior Colleges and teaches courses in psychology and psychological testing.

Request Exceeds Previous Appropriation By \$2.2 Billion

By MERRIMAN SMITH
WASHINGTON — (UP) — President Eisenhower submitted to Congress Monday a \$4,859,975,000 foreign aid program tailored to meet Russia's "new departures in foreign policy." It included authority for long-term U. S. aid commitments to underdeveloped countries.

Mr. Eisenhower warned in a 3,500 word special message to the House and Senate that "we cannot now falter in our quest for peace."

Although the Communists seem to have "put aside, at least temporarily" the strategy of "aggression through force," he said, there is no reason to believe they have abandoned their "sinister objectives" of world domination.

He said the United States must continue military aid to free nations because the huge and still-growing Soviet armed forces "still cast an ominous shadow over the world." And it must have a "flexible" economic aid program to counter the Soviet Union's new program of "ceaseless probing for opportunities to exploit political and economic weaknesses."

Asks for \$4.8 Billion

Mr. Eisenhower asked a total aid appropriation of \$4,859,975,000 for the 1957 fiscal year starting July 1. This represents an increase of about \$2.2 billion over the appropriations requested for the current 1956 fiscal year, Mr. Eisenhower said this was necessary because unspent balances from prior years, which had covered part of the 1956 program, are not available for fiscal 1957.

Actual aid spending in the 1957 (See IKE, Page 2)

Solon Hits High Price Drops On Milk

WASHINGTON — UP — Chairman Allen J. Ellender of the Senate Agriculture committee said Monday high price supports on milk without production controls could stop the entire farm program.

The Louisiana Democrat said he hopes to compromise a fight over milk price supports. The Senate was scheduled to resume its long debate on the bill Monday afternoon after considering minor legislation earlier in the day.

Prospects were poor for final Senate action on the bill Monday. A vote was expected to come late Tuesday.

A section of the bill would raise the minimum price support on milk used in manufacturing foods from 75 to 80 per cent and change the base period for figuring parity. Administration forces would like to knock out that part of the measure.

Ellender said the government's loss on milk and other perishable foods, whose production cannot be controlled is triple the loss on basic crops.

Other provisions:

FOREIGN AID

President Eisenhower will send to congress Monday a detailed \$4.9 billion foreign aid program. The proposed program is expected to set off a heated, election-year controversy. The most controversial feature of the program is an expected request that Congress approve long-range foreign aid commitments.

CONTRIBUTIONS

A Senate proposal to grant income tax deductions of up to \$100 on political campaign contributions appears to have been received rather coolly by congressional tax writers. The proposal is one of several provisions incorporated into a "clean elections" bill introduced in the Senate. The bill is designed to encourage more people to help finance political campaigns.

HIGHWAYS

A House Public Works subcommittee ordered the Bureau of Public Roads to check the overall cost of the proposed \$25 billion interstate highway system. The check was ordered after Rep. Jim (See SOLON, Page 2)

Adlai Makes Vote Bid In Minnesota

By JIM TRAINOR
MINNEAPOLIS — UP — Adlai E. Stevenson makes a last bid for votes Monday on the heels of Sen. Estes Kefauver's stunning tour in their first head-on test of strength in Tuesday's Minnesota presidential primary.

Kefauver left the state on the eve of the election to vote on the Senate farm bill in Washington. He said he was convinced that he has cut deeply into Stevenson's edge.

Stevenson, Kefauver's rival in the Democratic primary, returns to Minnesota Monday night in a last bid for votes. His supporters conceded that the Tennessee senator would still walk away with all of Minnesota's 30 delegate votes.

Tuesday's primary is the first head-on clash between the two candidates for the Democratic presidential nomination. Kefauver won handily over a slate of delegates favorable to Stevenson in last week's New Hampshire primary, but Stevenson did not campaign in that state.

Kefauver has much to win in the Minnesota race and Stevenson has much to lose. The Tennessee, a self-proclaimed underdog, could claim a major victory if he cuts deeply into Stevenson's margin. Stevenson, heavily favored at the start of the Minnesota campaign, must probably win big over Kefauver to keep his bandwagon rolling in high gear.

The Democratic primary battle overshadows the Republican race, where voters have a choice between President Eisenhower and Sen. William Knowland of California. Knowland's name was entered before the President expressed willingness to run for re-election and the senator has since thrown his support behind Mr. Eisenhower.

Republican leaders are not encouraging any write-in vote for Vice President Richard M. Nixon, such as furnished the surprise of the New Hampshire race. A Nixon write-in vote would invalidate the ballot and cut down the Eisenhower total, the GOP officials pointed out.

Riots Hit Singapore

SINGAPORE — UP — Left-wing demonstrators clashed with police Sunday in Singapore's worst outbreaks of rioting in more than a year.

Some 30 persons including police were injured in an hour-long battle at the unisex Kallang civil airport where a cabinet minister and an American newsmen were trapped by the stone-hurling mob.

Francis Thomas, minister of transport and communications, was trapped inside the airport building before the riot subsided. Chief Minister David Marshall left early, barely escaping the same fate.

American publisher Al Dix of Bellairs, Ohio, was one of those trapped in the airport buildings with Thomas and a group of European politicians and police officers. Dix sped to safety in a car driven by United Press correspondent Vee Kim Wee past hundreds of shouting, jeering, Chinese students.

Cause of the anti-government demonstration was obscure.

Chuckle Corner

By HAL COCHRAN

We don't exactly envy the fellow who has everything he wants. What does he have to look forward to?

Not many of us are as lucky as the lawyer who can keep himself well dressed on a couple of suits a week.

According to sales reports from

The most common sponger is the fellow who offers you a proposition that won't hold water.

An Ohio judge sent a woman to jail for refusing to talk. Can you imagine a husband doing that?

If it comes from a Hardware Store, we have it Lewis Hardware (Adv.)

CAMPING OUT—IN A WINDOW—These models in Cincinnati, Ohio, are camping out in an automobile dealer's display window. They're the final realistic touch to a display supposed to show how easy and how much fun it is to go anywhere in a station wagon. They may not have proved their point, but they sure attracted attention. Each evening at 7:30 they took their posts in the window, remaining until 7:30 the next morning. Spotlights kept them in full view, even while they were sleeping. "Sometimes drivers go by and then jam on the brakes. It's real funny to see them put the car in reverse to come back and see us," said Mary Hauck, left, and Betty Miller. The girls reported meeting "an awful lot of nice people" who constantly knocked on the window. Some even brought them free breakfast.

Irene Joliot-Curie Dies Of Disease She Fought To End

PARIS, March 17 —UP—Irene Joliot-Curie died Saturday of blood cancer, a victim as her famous father was before her of her researches into the mysterious radioactive rays which both kill and cure mankind.

The Nobel Prize-winning daughter of the discoverers of radium was 58. Doctors said death was caused by progressive leukemia incurred by the radiations to which she had exposed herself in her work on artificial radioactivity.

Her father had died the same way, as a result of his experiments.

She Married Scientist
Mme. Joliot-Curie was the wife of physicist Frederick Joliot-Curie who was fired from his post as high commissioner of the atomic energy commission of France on grounds of Communist sympathies.

The daughter of Pierre and Marie Curie, who discovered radium in 1898, died in the hospital shortly in honor of her parents shortly after midnight. Hospital officials at first refused to disclose the cause of death.

Her husband and two grown children were at her side when she died.

She Was Most Noted
Mme. Joliot-Curie was one of the most noted women scientists of the 20th Century. But she was refused membership in the American Chemical Society in 1954 because of her pro-Communist leanings.

In 1948, she was detained overnight on Ellis Island by U.S. immigration officials when she flew to New York for a lecture tour sponsored by the leftwing Joint Anti-Fascist Refugee Committee.

In 1925 she met Frederic Joliot, who was working as an assistant in the Curie laboratory.

Mainly About People

Tommy Folmer, son of Mr. and Mrs. Marshall Folmer, west of city, is in Worley Hospital with a fractured hand.
Walter Stein's Spanish class will meet today at 7:30 p.m. in Lovett Memorial Library.
Tamim Abouhalkah's French class will meet at 7:15 tonight in Lovett Memorial Library.
Pampa Exchange Club will meet tomorrow at 8:30 p.m. in Poole's Drive Inn.
Chief Boatwains Mate C.S. Wilhelm of the U.S. Navy will speak before the senior class of Pampa High School about the six-year military obligation tomorrow at 9 a.m.
Miss Jean Sims, daughter of Mr. and Mrs. John J. Sims Jr., received recognition for service to the Colorado Woman's College at Denver in activities at a recent dinner held there. She is a member of Delta Tau Kappa, campus honorary leadership fraternity.
Mr. and Mrs. Wheeler Carter, McLean, attended the homecoming at the Harrah Methodist Church yesterday to hear a former pastor, Newton Starnes of Borger.
Mr. and Mrs. Charles Laffoon, and two children, Bryan, will arrive today for a visit with his parents, the Finis Laffoons, 1308 E. Francis.
Mrs. Bill Behrman and son Barry of Littlefield, were guests in the home of the E. M. Behrmans over the week end.
Cameron Marsh, assistant principal of Pampa High School, will be the main speaker for the March Methodist Men's dinner slated for Wednesday at 7 p.m. in Fellowship Hall.

Appeal For Funds Made By Red Cross

A special disaster appeal is being conducted by the Pampa Chapter of the American Red Cross to raise funds for the National Red Cross disaster relief work.

Dr. Charles Brauchle, disaster chairman, urges everyone that can make a contribution to support this appeal.

A total of 120 letters have been sent to Red Cross contributors not contacted by the United Fund. They are given an opportunity to subscribe membership for 1956 and to help with the Disaster Fund.

The Pampa Chapter receives \$10,175 on their total budget of \$11,205 from the United Fund. This must be divided between local and national budgets. Since the local budget was approved, a request for an increase of \$1,140 was made by national headquarters for disaster needs. No other present budget is \$12,245.

The monthly Red Cross Newsletter states, "Seldom before in history has the American Red Cross been more desperately in need of funds with which to carry out its many humanitarian services than in the present March campaign, which nearly two million volunteers launched March 1. This great need results from the heaviest disaster expenditures since the organization was founded 75 years ago. Success is imperative to fulfilling Red Cross obligations in the fiscal year ahead."

Wife Under Doctor's Care
The dead comedian's wife, Portland Hoffa, was reported to be under a physician's care.

Allen, who would have been 62 in May, was stricken while out for his regular evening stroll with his dog. An autopsy performed Sunday showed the cause of death was a heart attack, although his doctor said his blood pressure and an electro-cardiograph registered normal the day before.

He will be buried in Gate of Heaven cemetery, Valhalla, N. Y. The droll humorist's death plunged his fellow entertainers into mourning, but they followed the theatrical "show-must-go-on" tradition by proceeding with the regular Sunday night presentation of "What's My Line," a television show on which Allen had appeared for two years.

Replaced by Steve Allen
Comedian Steve Allen, no relation, replaced Fred Allen on the program after the dead comedian's wife requested that no special program of tribute be staged.

In Hollywood, comedian Jack Benny, privately a close friend of Allen's, who feuded publicly with him over the air waves for years, was stunned.

"This is a most shocking thing," Benny said. "The American public has lost its greatest wit. Fred's humor and brilliance was comparable to that of Will Rogers."

He is chairman of the advisory board of the Salvation Army and a member of the board of directors of the Knife and Fork Club.
Whitley is vice-president of the Lions Club and was Mr. Interlocutor in the recent Lions Club Minutrel.
He is a firm believer in Pampa and his long residence and active part in civic work testifies to this.

They'll Do It Every Time

Dinner To 'Kick Off' Concert Drive

Pampa's 1956-57 Community Concert membership drive will be kicked off tonight at 7 in Holy Souls' Parish Hall with a dinner and program.

Keynote speaker for the evening will be Eddie Melin of Amarillo. Dr. Carl Lang, who is vice-president of the Community Concert Association, will serve as program chairman. Mrs. M. E. Ingham, soprano, and Mrs. J. W. Forney pianist, will present musical numbers. Both are from Borger.

Mrs. Raymond Harrah, president of the local association, will preside at the affair.

Workers will receive campaign kits, which contain a booklet listing the artists available, application cards and renewal cards, tonight.

Attendance at tonight's dinner session will include board members, workers in the campaign, and guests.

Special guests are: Mayor and Mrs. Lynn Boyd, Mr. and Mrs. Knox Kinard, Dr. and Mrs. Julian Key, president of the Music Club, and Rev. and Mrs. Ronald Hubbard.

Invocation will be given by Roy E. Johnson, secretary of the Ministerial Alliance.

Murder Spree Ended
BRESCIA, Italy —UP— Police said Monday they had ended a three-month murder spree with the arrest of Vitaliano Morandini, a middle-aged farmhand. They said he had confessed to nine murders, including that of six women.

Home Nursing Instructors Class
A home nursing instructors class will be conducted on home care of the sick beginning April 23. Miss Hazel Haywood will instruct the course. Instructors, to qualify, must have a high school education and time to give instruction in the community class.

Red Cross Classes Outlined

Red Cross classes through next month were announced this morning by Mrs. Libby Showtel, Red Cross executive secretary.

The last session of a Mother and Baby Care class will be held Tuesday, March 27. A review of the course and development of the child during the first year will be conducted by Mrs. Walter Bertinot and Mrs. O. B. Worley. All those who have attended previous classes are urged to attend.

During the first week in April, a first aid class will be instructed by Charles Tooker, first aid instructor. Anyone interested in attending the nine night sessions is urged to contact the local Red Cross office.

A water safety instructors course is slated for April 9 at West Texas State College in Canyon. Those who hold a senior water card, are 18-years old or over, and have had part one of the instruction are eligible to attend the class to be taught by H. H. Gilliam, national instructor of water safety.

A home service workshop will be held in the Potter County chapter house in Amarillo on April 18. James Patterson, field representative, urges home service workers and those interested in the workshop to contact the local Red Cross office.

A home nursing instructors class will be conducted on home care of the sick beginning April 23. Miss Hazel Haywood will instruct the course. Instructors, to qualify, must have a high school education and time to give instruction in the community class.

He Was In A Rush!

HOUSTON —UP—James Lynn, 42, escaped unhurt after losing control of his car, turning over three times and finally smashing through a fence into Paradise cemetery Sunday night.

Cemetery Manager Ike Sepphus, a Negro, viewed the smashed up car and scratched his head, commenting: "This is the third time somebody has zoomed in here like that. Maybe they're trying to get in for nothing."

8,000 Miles of Hot Dogs
CHICAGO —UP— The American Meat Institute estimated Saturday 8.5 billion hot dogs — enough to stretch 800,000 miles — will be consumed by Americans this year.

LOST 30 POUNDS WITH BARCENTRATE
Mrs. Carroll E. Wolfe, Box 976, Fort Isabel, Texas, wrote us as follows: "I lost 28 pounds taking Barcentrate and I feel simply wonderful. I found Barcentrate the best all around tonic I have ever taken. I have thrown away all the various laxatives and cathartics I used to take constantly. I used to have gall bladder trouble and liver attacks, but have not had an attack since taking Barcentrate." —and Mrs. W. C. Shepard, 615 S. Garrett, Marshall, Texas, states that she lost 13 pounds taking Barcentrate.

If the very first bottle doesn't show you the way to take off ugly fat, return the empty bottle for your money back.

Requiem Mass Is Set For Fred Allen

NEW YORK —UP— A requiem mass for comedian Fred Allen, 61, will be celebrated Tuesday at St. Mulcahy's Roman Catholic Church.

The baggy-eyed humorist succumbed to a heart attack on a New York street Saturday night, only hours after a doctor had given him a clean bill of health, his family said.

Allen, who would have been 62 in May, was stricken while out for his regular evening stroll with his dog. An autopsy performed Sunday showed the cause of death was a heart attack, although his doctor said his blood pressure and an electro-cardiograph registered normal the day before.

Circus Has Lost Some Of Its Previous Years' Glamor

By HARMAN W. NICHOLS
WASHINGTON—UP—The circus has lost some of the glamor and madness that worked as a team with the elephants, cotton candy and pink lemonade.

P. T. Barnum would come down with fits if he knew that all of the old school press agents either have flown the coop or gotten the axe.

Ringling Bros., Barnum & Bailey have replaced the lovable, zany old guard with a bunch of high priced fancy word-slingers from Hollywood and Broadway. Able men, no doubt, but what do they know about tanbark, or what makes a jungle beast leap through a flaming hoop.

I have known a lot of the fabulous oldsters through the years, starting with Dexter Fellows.

Dexter dressed the part. Loud plaid vests, decorated with a small gold log chain from which dangled the teeth from a couple of former tigers. Always he carried a gold-headed cane, which he used to wake up managing editors by banging it on expensive mahogany desks.

Fellows was "Mr. Three Ring" himself and when he came bounding into town, we'd mostly use the word "circus" toward the end of the piece and make the body of the text about brother Dexter.

Also, I knew and respected Frank Braden, who barked out his stu-

pendous superlatives in a deep gravel voice. And among others were Bev Kelley, who not long back ghosted a book by another circus great, the sad-faced clown, named Emmett Kelly.

It was Bev who put me in an act over 20 years ago in Chicago. My boss rang him up and asked if he had a nice gentle elephant for me to ride in the opening parade under the big top. Bev said elephants are apt to be a little ornery after standing stiff-legged in winter quarters. But he said let him think.

He thought real hard and called back to say he had a wonderful idea.

"Why not," he said, "put Nick in a cage with a mangy old lion we have. No teeth. Tame like a lamb. Sleeps most of the time. Nick could ride in the cage, dressed like another Leo."

Off I went to the circus, expecting to meet an elephant named Tilly. Instead there was Mike, the king of the jungle. The lion stirred himself and, baring his toothless gums, cut loose a roar that must have been heard in Minneapolis.

"Look, Mr. Kelley," I said, "this fellow doesn't like me and that goes double. Scratch me right now."

So Bev, who has been my friend ever since, took me by the ears and pulled me over to clown alley. There Emmett Kelley and another clown weighed me down with pounds of makeup, baggy britches and a pair of size 25 shoes.

A short time later I found that it takes more than a silly get-up to bring a belly laugh out of the calloused patrons of the circus box seats. You have to know a few tricks.

THE STORY OF EGGBERT

BY WALT SCOTT

Grace Up To Her Eyelashes In Work Before Her Marriage

By ALINE MOSBY
HOLLYWOOD—UP—Grace Kelly is practicing her wedding ceremony in French, packing her trousseau, raking in gifts and turning down offers from eager interior decorators who want to do over the palace.

Margaret Truman promises her wedding will be short and simple. But Miss Kelly is up to her eyelashes in preparations for a super-colossal ceremony that will surpass the most difficult movie she's done.

Daily bulletins flow from various quarters around Hollywood about details for this April 18 three-ring production in the gambling principality of Monaco.

Michel Thomas, head professor at the Polyglot Institute of Languages, announces that each day

Michigan farmers produce from 89 to 95 per cent of the nation's white pea bean crop annually.

Grace spends an hour with him studying French.

"We go through the wedding ceremony," Thomas says. "I got it from the French consulate here and from Monaco. She is taking 20 lessons."

"After all, she has to be able to speak to her subjects! Her accent is quite good and she's very eager to learn."

Grace has finished "High Society," the MGM musical that may be her last film. But at home she's working twice as hard. Every day she dictates letters. She's already shipped one trunk of clothes to Mo-

naco, quelling any doubts the wedding would come off.

Her mail has brought numerous suggestions from interior decorators to re-do the palace and casino at Monte Carlo, which director Alfred Hitchcock says looks like "a rundown post office."

Less business-like fans have sent gifts from all over the world—a set of dolls from Japan, a book from Massachusetts, a book "Cooking for Two," from Connecticut.

The fan mail department at MGM has worked overtime to take care of the flood of wedding cards.

About 80 per cent include Catholic mementos.

HE "FLIES" THROUGH THE AIR—Twelve-year-old Eric Peterson of Potomac Vista, Md., has a gnawing appetite for things aeronautical. That's why he's jumping off this rooftop when he jumped from a bank his coat billowed out behind him like a parachute. So he hunted up this bedspread, climbed to the roof of a pump house and gave it a try. Now he takes a running start and jumps. Aside from some knee and elbow bruises, parachute jumper Eric has made every leap a successful one.

MEN PAST 40

Troubled with GETTING UP NIGHTS
Pains in BACK, HIPS, LEGS
Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that give temporary relief will not remove the causes of your troubles.

Neglect of Glandular Inflammation often leads to premature senility, and incurable malignancy.

The past year men from 1,000 communities have been successfully treated here at the Excelsior Institute. They have found soothing relief and a new zest in life.

The Excelsior Institute, devoted to the treatment of diseases peculiar to older men by NON-SURGICAL Methods, has a New FREE BOOK that tells how these troubles may be corrected by proven Non-Surgical treatments. This book may prove of utmost importance in your life. No obligation. Address Excelsior Institute, Dept. W-13, Excelsior Springs, Missouri.

QUOTES IN THE NEWS

By UNITED PRESS

MINNEAPOLIS—Sen. Estes Kefauver (D-Tenn.) in a political speech on the "ominous signs" of war:
"Secretary of State Dulles has boasted that he has taken us to the brink of war three times and brought us back again. I do not think it was Dulles who brought us back from the brink of war. I think we came back by the grace of God."

CAIRO, Egypt—Premier Gamal Abdel Nasser in a statement saying his country does not intend to rebuild Egypt by war or an attack on Israel:
"Our main objective has been to rebuild Egypt and I do not think rebuilding this country can be done through war."

LONDON—Earl Attlee, former prime minister of Great Britain, in a speech on Greek politics and the problem of Cyprus to the House of Lords:
"I have a strong idea that if the Cypriots manage their own affairs they might be less inclined to put themselves under a government which has many virtues but, as far as I can make out, even more parties."

NEW YORK—The Very Rev. Harold W. Rigney, Roman Catholic priest held prisoner by Communist China for four years, on Red Chinese boasts:
"The Communists told me that I would never see America until America was Communist. They gave themselves 10 to 15 years to take over America if America is asleep."

CHARLOTTE, N.C.—Adis Davis, a former FBI counterespionage in the Communist party, on his Red assignment to infiltrate the National Association for the Advancement of Colored People:
"We were not a part of the organization but we were instructed to aid in NAACP activities."

LINCOLN FOR 1956

The response to this new Lincoln—the only completely new car in the fine car field—is both clear and significant. Built to the same standards of clean-lined distinction and quiet good taste as the new Continental, it was greeted with a rush of orders at announcement time and has been the most sought-after car in its field ever since. If you haven't driven this Lincoln, we suggest you do so soon. We can promise you one of the most thrilling driving experiences you have ever known.

CONTINENTAL MARK II

Created in answer to public demand, this incomparable motor car—which we sincerely believe to be the finest in America—could be crafted only by the makers of the original Continentals... the now-famous classics. And as thousands of knowing car-lovers correctly anticipated (those who placed orders while the car was still on the drawing boards) ownership of this superb automobile is one of the satisfactions of a lifetime.

We are pleased to have the Lincoln and the Continental Mark II on display in our showroom, and cordially invite you to inspect them.

June Talk

By JANE KADINGO Pampa News Women's Editor

THIS HAS BEEN A LONG, hard winter but when the first Crocus appear we know that Spring is on the way...

OF COURSE, the advent of no "wrong side" and a balanced weave so that your curtains hang perfectly whether you hang them cross-wise or length-wise...

Anticipating this home-brightening urge that comes at this time of the year, Indian Head Mills has introduced a free home-sewing instruction booklet on how to make cafe curtains...

As for color, Indian Head is offering 40 wonderful colors with coordinated prints and stripes...

There are 15 bright new ideas in Indian Head's cafe curtain instruction booklet as well as tips on coordinating colors which can make decorators of all of us...

Auxiliary Of Legion Has Business Meet

The American Legion Auxiliary met recently in the City Club Room, with Mrs. J. M. Foster giving the opening prayer.

Committee reports were given by Mrs. Mary Martin, community service; Mrs. Frank Showell, membership; Mrs. J. M. Foster, child welfare; and Mrs. Frank Yates, rehabilitation.

Plans for the Poppy Day sale, to be held Memorial Day, were made. It was announced Miss Roy Riley's art class will make 20 posters for Poppy Day which will be placed in Pampa stores...

Members were urged to attend the district conference in Children's Letters read from the Memphis unit asking the Pampa group to vote for Mrs. Glenn Thompson for 18th district president...

The group accepted the resignation of the president, Mrs. Wayne Washburn, who is moving with her husband to Santa Fe, N.M.

Mrs. Wayne Washburn presented Mrs. Washburn with a past-president's pin.

Next meeting will be at 8 p.m. Apr. 3, with Mrs. J. C. Coston.

TAWNY, FULL-FLAVORED kraut, an old friend, can be given a new treatment when flavored with caraway and brown sugar.

COOK'S NOOK

Caraway, Brown Sugar Add Zip To Frankfurters And Sauerkraut

By GAYNOR MADDOX NEA Food and Markets Editor

You can't beat it—the combination of kraut, frankfurters and fluffy mashed potatoes rich with butter.

One-quarter cup butter or margarine, 1 cup chopped onions, 1 teaspoon caraway seeds, 1 No. 2 can sauerkraut, 2 tablespoons brown sugar, 6 frankfurters, prepared mustard.

Melt butter or margarine; add onions and caraway seeds and cook until onions are tender; add sauerkraut and brown sugar; cover and cook over medium heat 20 minutes.

Kraut and Frankfurter Pie (Makes 6 servings) One cup sifted all-purpose flour, 1 1/2 teaspoon salt, 1 1/2 cup of...

PIA STUDY COURSE — Shown at the organizational meeting of the Baker PIA study course with samples of art and crafts that will be taught during the course are, left to right standing, Mrs. H. P. Vanderlinde, Mrs. Elmer Darnell, and Mrs. Boyd Bennett. Seated, from the left, Mrs. Ott Shewmaker, Mrs. James Lewis and Mrs. J. B. Hilderbrand. The first class was held this morning.

Baker PTA Begins Arts-Crafts Course

The arts and crafts course of the Baker Parent-Teacher Association began today at a meeting in the Rotary Girl Scout House, Scott and Finley Streets.

Crafts being taught include copper tooling, glass painting and basket weaving. Any member of other PTA units who is interested is invited to attend.

Attending an earlier organizational meeting in the Baker School were Mrs. Mmes. James Lewis, Glen Deachorn, E. E. Tidwell, Elmer Darnell, George D. Smith, A. L. Shibley, John Holt Jr., Wayne Broyles Jr., H. P. Vanderlinde, J. B. Hilderbrand, N. R. Lowe, J. H. Trotter, Ott Shewmaker and Boyd Bennett.

SOCIAL CALENDAR

MONDAY 7:30 — Wesleyan Service Guild, First Methodist, in church parlor.

TUESDAY 1:00 — Merten HD Club with Mrs. Jack Howard, Sinclair Camp.

WEDNESDAY 9:30 — Joy Russell Circle, First Baptist, with Mrs. George Henderson, 1800 Coffee.

THURSDAY 7:30 — Rebekah Lodge in IOOF Hall, 210 W. Brown.

FRIDAY 1:30 — Sunshine HD Club with Mrs. Jim King, west of city.

Speech On Jury Service Is Given At HDC Meeting

Mrs. W. L. Campbell spoke on the responsibilities of a juror at the recent meeting of the Goodwill Home Demonstration Club in the home of Mrs. Louis Epps, 1009 Duncan.

A juror must be a taxpayer, and this includes property tax and poll tax, she explained. Those eligible for exemption include federal, state and city officials, millers, railroad workers, pharmacists, traveling salesmen, Seventh Day Adventists, doctors, nurses, firemen, dentists, painters, women with small children and a few others, she stated.

In 1955, it was voted to allow women to serve on a jury in Texas, she pointed out.

It was announced a mockery trial for members of the Home Demonstration Council was to be held today. The group was also told that the 4-H girls will hold a bake sale Mar. 31.

Refreshments of coffee and doughnuts were served. Attending were Mrs. Johnny Johnson, Louis Epps, Bill Cox, A. P. Coombes, James Baird and Irving Cunningham. Visitors were Mrs. Coy Palmer and Mrs. George Perkins.

Next meeting will be at 9:30 a.m. Apr. 3, with Mrs. Boyd Maul, east of city.

Skelly Girl Has Teen-Age Party

SKELLYTOWN (Special) — Miss Carolyn McCreary was hostess to a teen-age party in her home recently. The group played parlor games and refreshments were served.

Attending were LaNelle Cooper, Joyce Chapin, Paula Lowe, Linda Moore, Gloria Huggins, Gloria and Judy Jones Mary McKenney, Kay Stephenson, Jeral Nan Welborn, Janet Wedge, Thomas Lester, Dick Hanna, Jerry Braddock, Tommie Mercer, Eddie Reed, Lawrence Martinez Kelley Brown, and Michael Noble.

Following the party, the girls reminded for a slumber party.

League Of Women Voters Board Meets

The League of Women Voters board held a luncheon meeting recently in the Pampa Country Club, with Mrs. Jess Clay, president, in charge.

Plans were made for the annual membership tea, to be held Apr. 2, in the Lovett Library, from 3 to 5 p.m. Mrs. Iela Campbell was named chairman, and Mrs. D. A. Finkelstein and Mrs. George Hirdlicka were appointed her assistants.

Others attending were Mrs. Ruth Spearman, Irene Osborne, Al Metz, W. A. Breining, Dick Sullins, Willis White and Azelle Loftus.

If you have windows that come low to the floor, chain them shut or put up a guard. There is no anti-rattling how quickly Baby can get clever at opening windows and doors.

KEYS MADE While You Wait Mack's Shoe Shop 320 W. Foster

St. Patrick's Day Celebration Held

A St. Patrick's Day party was held recently by the Crusader Class of the First Methodist Church in the church parlor.

Hostesses were Mrs. A. L. Smiley, Joe Taylor, W. E. Brock and C. E. Shalhous. As guests were greeted they were "lined" some article for not wearing something green. The fines were refunded later. Entertainment consisted of group singing of Irish songs and playing of Biblical games.

Refreshments of shamrock-shaped cookies, nuts, mints and green punch were served.

Attending were Mrs. Mmes. Glynn Helton, A. L. Barrow, W. W. Adcock, Jay Lickey, Joe Farrar, Winston Bryant, Don Taylor, Oscar Thesen, Dorothy Cox, V. Collins, Ray Dudley, A. L. Weathered, E. J. E. Thompson, Joe Donaldson, Ken Meaders, Bob Carmichael, H. H. Boynton, Kenneth Huey and Elmer Fisher.

Everyone thought that Baby was awfully cute, sitting in his high chair and saying "Bopie." When his parents took him out of the chair they found he had been saying "Pottie," best way he knew how. They heed his request now that they understand it.

Protecting Baby from burns starts young. Hold his hand against a warm oven door or coffee pot for a second, saying "hot." Repeat it often. Soon he will recognize that the word "hot" means discomfort and will get away from the range.

Signs Indicate Young Women Neglect Rights Grandmothers Fought To Win

By ELIZABETH TOOMEY NEW YORK — UP — Are young women neglecting the freedoms their grandmothers crusaded to win?

Are young wives eyeing cobweb-covered pedestals, minimizing their equal rights and looking to men to become lords and masters once again?

There are signs that they are, two qualified women observers say.

The word "feminist" has gone out of fashion and earning a living in a man's world has lost some of its Gibson girl charm.

The two most publicized roles of a woman today are mother and wife.

These statements are just examples of a feeling that has affected all young women in very recent years, Mrs. Sidonie M. Gruenberg, an experienced sociologist and author, believes. Mrs. Gruenberg is a grandmother and the co-author of a volume called, "The Many Lives of Modern Women."

"Young women today are wondering about their place in modern society, but they're not fighting for it," Mrs. Gruenberg said. "There is no doubt that we will lose ground before we reach the proper understanding of a modern woman's role."

Supper Club Has Meet In Perryton PERRYTON — (Special) — Mr. and Mrs. Paul Corbin entertained their supper club recently. The tables were covered with white cloths and decorated with shamrocks.

Mr. and Mrs. Ray Boles of Gray, Okla., were guests. Members present were Messrs. and Mrs. Ross Leatherman, Onas Littleton, John Brodie, E. B. Gyger, Harry Barlow, Alvin Koehn.

In the pitch games following dinner Mrs. Gowles held high for ladies and Leatherman high for men.

'THESE DON'T COUNT, KID'

Dodgers In Win Column In Victory Over White Sox

By UNITED PRESS
It is right once again with the world champion Brooklyn Dodgers, because the run production factory operated by Messrs. Snider and Campanella is back in business.

The Dodgers haven't looked much like "champeens" this spring and have been getting their humps pretty regularly in grape-fruit league games. But a 4 to 1 victory over the Chicago White Sox on Sunday could signal the end of such nonsense because:

1. Duke Snider drove in his first run of the spring, a department in which he led the major leagues last year with 136.
2. Roy Campanella clouted his first homer of the season, tuning up for a shot at another 32-homer season.

Ted Kluszewski's Ailing Back Worries Redlegs

TAMPA, Fla. —UP— The Cincinnati Redlegs are beginning to worry about slugger Ted Kluszewski's ailing back.

The big first baseman, the club's "bread-and-butter-man," has not played a single inning this far in an exhibition game this spring and manager Birdie Tebbets admitted Monday he is "worried."

Kluszewski, who hit 40, 49 and 47 homers, respectively, the past three seasons has a pain in his lower back and has taken limited batting practice with a partial swing.

Kluszewski has been taking daily treatments by the club trainer, but the pain lingers on. When asked if he thought the injury might be serious, Ted just grunted and said: "I sure hope not."

Honors for Trainer

NEW YORK —UP— James E. (Sunny Jim) Fitzsimmons, veteran trainer, will be honored at a luncheon given by the Sportsman-ship Brotherhood, April 12.

Wes Santee

Both of these events occurred in the opening inning of the game and virtually ended the contest. But there was still another joyful omen for manager Walt Alton in the shape of a good pitching job by rookie southpaw Ken Lehman.

This young man had been tabbed as the most likely lefty to replace Army-bound Johnny Podres on the Dodger staff, but he flopped in two previous showings and had walked seven batters in four frames.

Sunday, however, he held the Sox runless for five innings, the longest workout by a Brooklyn hurler this spring, allowed only three hits, and walked only one batter.

The New York Yankees also are pleased with the continued good work of a rookie, six-foot five-inch Mark Freeman.

This towering young righthander, just out of the Army and not officially on the Yankee roster, held the Cincinnati Redlegs to no runs and two hits in a four-inning stint in Sunday's 4 to 3 victory. With a similar job against the Red Sox on his last trip to the hill, Freeman now has flipped eight scoreless innings.

Wes Santee's Trial Set To Resume Today

NEW YORK —UP— Suspended miler Wes Santee's trial resumes after a three-day layoff in New York state Supreme Court Monday with Judge Walter A. Lynch presiding.

Charles B. Grimes, Santee's lawyer, is seeking a permanent injunction against the AAU on three counts. The AAU executive board set down Santee, America's premier miler who turned in a 4:06.9 clocking in the Knights of Columbus meet in Cleveland Friday night, for taking excessive expense account money in 1955. Santee has been competing under a temporary court injunction. Friday night's race was his third under the injunction.

Grimes has three points: 1. That the executive committee of the AAU which acted against Santee had no jurisdiction, that it "misapplied" atrociously its own by-laws. 2. That even if the body had jurisdiction, there was no quorum present at the time the members "deliberated and voted." 3. That the general rules are a "dead letter" in the AAU because in the case of Santee and other outstanding athletes before him, "It has been the custom of AAU officials and outstanding athletes to waive the rules with the full knowledge, consent and agreement of both."

Bill Hair's Record

Bell Is Favored In Bout Tonight

NEW YORK —UP— Veteran Bobby Bell of Youngstown, Ohio, 29 fights compared to Bell's 64, but owns a more impressive victory average. The Puerto Rican fighter has won 15 of his bouts, while Bell has been credited with 36 victories including only five knockouts.

Neither boxer hits very hard, since Berrios has flattened only three of his opponents.

Pampa Oilers Sign Bill Hair To Boost Pitching Staff

Bill Hair, although he didn't get to pitch but 33 innings last season, promises to be the workhorse for the Pampa Oilers this season. He was signed recently to assist in the pitching duties for the coming season.

Hair began his baseball career with Gainesville in 1949. He racked up 17 wins during his first season while losing 16. Few pitchers pitch 45 games in one season.

Hair has worked in 232 baseball games during his seven years of professional baseball. His total win record is 82 wins against 72 losses.

Hair's best season in the worst department was in 1950 with Gainesville when he won 12 and lost only three games. He allowed only 4.16 earned runs per game that year. His best year in the earned run allowed department was in his first year when he allowed only 3.57 runs per game.

The Oilers will be banking on Hair, Dial, Laliberte, Wood and Pollett to carry the load in the pitching department this year unless Seltz gets some pitchers from the Shreveport Sports. All of these hurlers are right handed.

The worst season of Hair's career came last season as he played in only eight games and racked up a 1-3 won-lost record. Hair was unable to really get warmed up though playing in only eight games.

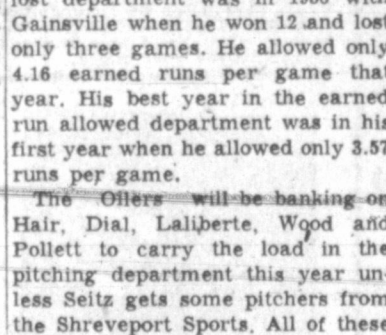

Hair improved in the earned run department as the years progressed and he turned in two of his best years in 1953 and 1954 as he allowed slightly over three runs per

Michigan Men Move Into Third Place In Bowling Tourney

ROCHESTER, N.Y. —UP— Ed Rosser and Jack Curry, both of Lansing, Mich., moved up into third place in the doubles competition of the American Bowling Congress tournament with a 1,247 total Sunday, only 13 off the pace setting duo of Rudy Hausler and Bob South of Auburn, Ind.

Harry Gosner of Columbus, Ohio moved up to second place in the all-events competition with a 1,899 total, only five points in back of Alfred Farangall of Paterson, N.J.

ONE DOWN, ONE TO GO

Bill Is Favored In Bout Tonight

NEW YORK —UP— Veteran Bobby Bell of Youngstown, Ohio, 29 fights compared to Bell's 64, but owns a more impressive victory average. The Puerto Rican fighter has won 15 of his bouts, while Bell has been credited with 36 victories including only five knockouts.

Neither boxer hits very hard, since Berrios has flattened only three of his opponents.

Dons Are National Champ Favorites

NCAA

By UNITED PRESS
San Francisco's brilliance even without All-America K. C. Jones established the defending champion Dons Monday as overwhelming favorites over the three other survivors in the NCAA basketball tournament — SMU, Iowa, and Temple.

It will be San Francisco vs. SMU and Iowa vs. Temple in the semi-finals at Evanston, Ill., on Thursday night, with the "hot" streakers, San Francisco and Iowa, favored to reach the finals.

And the defending champion Dons must be rated heavier favorites than ever to walk away with the top prize in view of the way they swept through their first two games in the tourney — 72 to 61 over UCLA and 92 to 77 over Utah.

Brown Replaces Jones
The other tourney teams had hoped that the loss of Jones through ineligibility as a fourth-year man would make the Dons a much weaker outfit. But soph Gene Brown has stepped capably into Jones' shoes with 41 points in the two games to completely wipe out that hope. And All-America Bill Russell, the Don's six-foot 10-inch center, showed that post-season play has dulled none of his sparkle, either.

SMU, on the other hand, had to fight to a one-point win over Texas Tech before drubbing Oklahoma City 84 to 63 at Lawrence, Kan., Saturday night.

And Temple edged Canisius by only 60 to 58 at Philadelphia on Hal Lear's pair of free throws with two seconds to play. Iowa appeared more formidable in downing Kentucky 89 to 77 at Iowa City as Carl Cain tallied 34 points. Each of these teams emerged as the winner of the regional tourney to qualify for Thursday's games.

Hayes Pessimistic
SMU coach E. O. (Doc) Hayes frankly admitted Monday his Mustangs face a "tremendous task" in trying to stop San Francisco and said the main problem was Russell.

"He knocks your shots away from the basket and tips in their shots," Hayes said. "That's a hard man to handle."

The job of "handing" Russell probably will fall to six-eight Jim Krebs, and that Mustang got a vote of confidence Monday from famed Kansas coach Dr. Forrest (Phog) Allen. The Jawhawk mentor compared Krebs to Clyde Lovellette, the giant who led Kansas to the 1952 NCAA crown and still holds the scoring record for the tourney.

"He looks like Lovellette, shoots with the same feather touch, and even lumbers like him," said Allen.

AAU

DENVER —UP— The traditionally upset-minded National AAU basketball tournament opens a week-long stand here Monday with a possible berth on the 1956 American Olympic squad awaiting members of the two top teams.

Twenty-six teams are entered in the six-day classic, and with an automatic bid to the Olympic tryouts in Kansas City April 2 to 4 teams as added incentive, it's expected to be a wide-open affair.

Judging from last year's topsy-turvy event, the number one game of the five-contest opening day should be the one between Luckett-Nix of Boulder, Colo., and the Arkansas State Teachers College quintet. Luckett-Nix, composed last year of Colorado University seniors, pushed aside favorite after favorite before falling in the finals to perennially tough Phillips 66 of Bartlesville, Okla., on a last-second shot.

The curtain officially raises on the tournament at 3 p.m. (est) Monday with a contest between St. John's of Linden, N.J., and King Motors of Heston, Kan. Allen Bradley of Milwaukee then takes the floor against the Westover, Mass., Flyers. The day action is rounded out by a game between the Rainer Comets of Chicago and the Green Frog Super quintet of San Jose, Calif. Luckett-Nix and the Arkansas five begin the night go-round at 8:30.

The four top-seeded teams are defending champion Phillips 66; Peoria Cats, who took the three previous tournaments; star-studded Wichita Vickers Oilers and the Denver Central Bankers. But, recent tourneys have proved that seeded teams fall just as hard as any of them.

NAIA

KANSAS CITY, Mo. —UP— McNeese (La.) State saved its Confederate boys, drafted a few Yankees, and the South did rise again.

The southerners from Lake Charles, La., played five games in five days to wrap up the 18th annual NAIA basketball championship and in doing so dropped a couple of top colleges from "up north."

The championship battle, however, was strictly a southern affair as McNeese topped the all-Negro Texas Southern team 60 to 55 for the title. Earlier, McNeese disposed of top-ranked Western Illinois and seventh-seeded Pittsburg (Kan.) State.

Pittsburg ended up in third place with a 77 to 70 win over third-seeded Wheaton, Ill.

Coach Ralph Ward used 10 natives of his southwest Louisiana area and four "Yankees" on his championship squad.

The cream of the crop, of course, was Bill Reigel, the six-five left-handed artist who hails from Monaca, Pa. But the roster showed another player from Pennsylvania, one from Indiana and one from California, and with only 10 men on the roster they all got into the fray.

ORDERED TO REPORT — Johnny Podres, Brooklyn Dodgers pitcher, waves greeting as he arrives in Newark, N. J., from Vero Beach, Fla., training camp of the world champs. New York City draft officials have ordered the southpaw to report for induction in Army today. (NEA Telephoto)

Six-Man Tag Match Is Set Wednesday

The Pampa Shrine Club has arranged a very unusual wrestling card for this week to be held at the Top of Texas Sportsman Club, March 21. There will be three matches of one fall each with no time limit and there must be a fall.

It will be Dr. Lee Grabel vs. Cowboy Bob Ellis for one fall. Herb Parks will go against Raymond Torres for one fall and Ray Duran will challenge Gory Guerrero for one fall. This will start what promises to be a big evening of wrestling, as these same men will be matched in a six-man tag team affair.

The six-man tag team will be Dr. Lee Grabel, Herb Parks and Ray Duran going against Cowboy Bob Ellis, Raymond Torres, Gory Guerrero. With this gang of wrestlers around the ring at one time the promoters are having a time getting someone to referee this match. Dr. Lee Grabel will perform a mass hypnotism job on the audience.

All proceeds go to the crippled children's fund, and tickets are on sale at Modern Pharmacy.

Zaharias Promises She 'Will Be Back'

TAMPA Fla. —UP— "Tell 'em all I'll be back."

That promise was the gallant message sent by Babe Zaharias to her legion of fans Monday, and it was plain to see that the courageous woman is grimly determined to do exactly that by scoring a complete and final victory over her illness.

The ailing "Babe" had a day at the ball game Sunday, watching the New York Yankees beat the Cincinnati Redlegs 3 to 2 in an exhibition game and having "the time of my life" chatting with players of both teams.

Yankee manager Casey Stengel paid a special visit to the Babe's home here early Sunday to invite her to the game, and he and Redlegs skipper Birdie Tebbets did their best to make sure she met all the players and had a fine afternoon.

On Left Field Line
She watched the game from an inconspicuous seat on the left field line, and the two managers made frequent trips out there to talk to her.

Her presence finally was announced over the public address system in the middle of the seventh inning, and the near-capacity crowd of 5,808 gave her an ovation. She responded by waving her yellow straw hat over her head.

With the players, the Babe talked both baseball and golf.

She told Mickey Mantle of the Yankees he was looking "pretty good out there." The New York slugger blushed a bit and stammered, "Aw I'm just learnin' this game."

Berra Switches to Right
She asked Yankee catcher Yogi Berra how his golf game is coming.

"It's been coming along pretty good since I switched over from left-handed to right-handed, like you told me to do," said southpaw-swinging Berra.

"Swell," the Babe said. "You keep at it, you hear?"

The famed woman golfer hasn't competed in a tournament in a long time; but she confidently expects she'll be back in there swinging again some day.

"If I could only get rid of this darn back pain, I'd be all right," she said. "Gosh it seems every time I'm on the road back, something else comes along. It was getting a little better a while ago and then I got pleurisy for the third time."

Michigan Men Move Into Third Place In Bowling Tourney

ROCHESTER, N.Y. —UP— Ed Rosser and Jack Curry, both of Lansing, Mich., moved up into third place in the doubles competition of the American Bowling Congress tournament with a 1,247 total Sunday, only 13 off the pace setting duo of Rudy Hausler and Bob South of Auburn, Ind.

Harry Gosner of Columbus, Ohio moved up to second place in the all-events competition with a 1,899 total, only five points in back of Alfred Farangall of Paterson, N.J.

Johnny Podres To Be Inducted Today

NEW YORK —UP— World Series hero Johnny Podres of the Brooklyn Dodgers was slated to report for induction into the Army Monday.

Podres, 23, was entering the Army here after his papers were transferred from his local draft board in Ticonderoga, N.Y. It had been expected the transfer would delay his induction for at least a month, but instead his induction was ordered immediately.

The Dodgers' star southpaw, who beat the New York Yankees 2 to 0 in the final game of the last World Series, had been classified 4-F because of a bad back. However, he was called for another physical examination after the Series and reclassified 1-A.

Harvesters Open Season In Borger

The Harvester baseballers will play their first non-conference ball game tomorrow afternoon at 3:30 against Frank Phillips in Huber Park in Borger.

The Harvesters, hampered by cold and windy weather, will meet their first test as most of the boys playing will be inexperienced.

The probable starting lineup will include two or three boys at each spot as coach Deck Woldt is wanting to get a look at each member of his roster in action.

Mike Conway and John Lee will be working as catchers. Cecil Reynolds, Jimmy Parrish and Bob Dehls will be expected to pitch for the Green and Golders. Jerold Clark and Dale Lark will assume the first base duties. Second base will be filled by Billy Brown, Gary Herr and Bennie Sparks. Robert Langford, and Buddy Sharp will be playing shortstop.

Third basemen will be Jerry Don Hopkins, Bobby Dehls and Buddy Sharp. Four boys will be playing outfield. They are James Evans, David James, Bill Hogan and David Marlar.

This will be the first game of a nine-game non-conference schedule.

No Special Reason For Fetchick's Win In Tournament

ST. PETERSBURG, Fla. —UP— Mike Fetchick, no more talkative than usual, couldn't offer any special reason Monday for his victory in the \$12,500 St. Petersburg Open golf tournament.

"I just went out and played the best way I knew how," the stocky Mahopac, N.Y., professional said without emotion as he pocketed the \$2,200 winner's share.

But two major factors in Fetchick's first major tournament victory were his brilliant approach and the faltering under pressure of Billy Maxwell and Lionel Hebert.

Fetchick downed Hebert on the first hole of a sudden death playoff, sinking an easy putt for a par four while the Erie, Pa., golfer missed a 10-footer he left himself when he overshot his approach.

Maxwell, from Odessa, Tex., was the leader by one stroke going into the final round, but playing in the same threesome with Fetchick, was shaken by the pressure and missed his chance to win when he bogeyed the final two holes.

Fetchick, who has played three years on the pro circuit and never finished better than a second place tie, fired a three-under-par 69 in the final round for a 72-hole total of 275.

Hebert, who also wound up with 275, carded a 70 Sunday and Maxwell shot a 72 for a total of 278.

Ted Kroil of Fort Lauderdale, Fla., and Ernie Vossler, Fort Worth, tied for fourth behind Maxwell, and Cary Middlecoff, defending champion from Dallas tied for the next spot with Ed Furgol, St. Louis, Mo.

Nashua Finishes 'Out Of Money' For First Time

MIAMI, Fla. —UP— Nashua may be one of history's greatest race horses to his thousands of fans despite Saturday's loss in the Gulfstream Park handicap, but a horseman that should know is far from convinced.

"You know," said jockey Eddie Arcaro "I don't think he has to give away any weight. He hasn't proved himself."

Nashua carried high weight of 129 pounds and gave away from four to 19 pounds to the rest of the field in the \$12,900 Gulfstream race. He placed fifth. It was the first time the colt has finished out of the money in his 22 races.

Brookmeade Stable's Sailor, who finished third behind Nashua in the Widener at Hialeah, won and carried off the \$83,300 first place purse that would have made Nashua the winningest horse in history.

"I wish I had the answer," but I haven't got a crystal ball," Arcaro said after the race.

"He never acted this way before, I just couldn't seem to get any run out of him."

Riders To Go to Sweden

TRYON, N.C. —UP— Four members of the U.S. Olympic equestrian team will fly to Europe April 2 to take part in schooling shows prior to the June 10 to 17 games at Stockholm, Sweden. They are William Steinkraus of Westport, Conn.; Frank Chabot of Donaldson AFB, Greenville, S.C.; Hugh Wiley of Towson, Md.; and Warren Worford of Milford, Kans.

Russia's Malenkov Gets First Look At Free World

By CHARLES M. MCCANN United Press Foreign Analyst Russia's Georgi M. Malenkov is getting his first look this week at the free world and his colleagues in the Kremlin seek to destroy. He is getting it in ancient London, symbol of kingly pomp, which oddly enough served as the cradle of communism. Malenkov is to tour Britain for three weeks, as Soviet Minister for electric power stations, with a delegation of experts. His presence in Britain may give a preview of the reception to be accorded to Soviet Premier Nikolai A. Bulganin and Communist party leader Nikita S. Khrushchev, who arrive in London April 18 for a 10-day stay. The entire period will be a nervous one for Britain's counter-intelligence services and for Scotland Yard's crack "Special Branch."

Malenkov, for instance, has been to Poland and Czechoslovakia, both Iron Curtain countries, but never before to a free one. In Britain he will see streets jammed with motor cars, shops crammed with goods of all kinds, people who have no fear of their police. He also will be able, if he wishes, to visit in Highgate cemetery the tomb of Karl Heinrich Marx, a German Jew, had just conceived his theory of communism when he fled his native country, one jump ahead of the sheriff who sought him on a treason charge. Marx ended up in London in 1849. He spent the rest of his life there, until his death in 1883. There he wrote the Communist Bible, "Capitalism."

MARCH ITEM OF THE MONTH—Beautiful living room suite with divan that makes into a double bed, with matching platform rocker in beautiful, gold-colored, tough, durable fabric. Yours for only \$124.95 at MacDonald's Plumbing and Furniture Co., 513 S. Cuyler, 4-6521. Come to MacDonald's for all your furniture and plumbing needs. In this friendly atmosphere you get good furniture for less, and free delivery any where in the Texas Panhandle!

MacDonald's -- Where Good Furniture Costs You Less

MacDonald's Where Good Furniture Costs Less -- That's All! MacDonald's is Rod MacDonald's Plumbing and Furniture Co., 513 S. Cuyler, 4-6521. You will find MacDonald's helps you brighten your home and save dollars too; because MacDonald's offers you quality furniture at big savings. COUNSEL—Charles W. Steadman of Cleveland, Ohio, is counsel for the special Senate committee investigating the alleged attempt to sway votes for the natural gas bill. Sen. Francis Case (R-SD) revealed a Lexington, Neb., lawyer offered him \$2500 in campaign funds on the assumption he would vote for the bill. The senator voted against it.

SITTING ROOM FOR HEALTH—Many Top O' Texans have visited the Uranium Sitting House in the Plainsman's Motel, 1923 Ripley (on the Amarillo Highway), and many have said: "I feel better". The Comanche County dirt in the sitting house assays at .02 of one per cent uranium, about the same assay as the dirt which helps so many in Comanche. The dirt was brought here to help Top O' Texans who do not want to travel to Comanche. And the Uranium Sitting House has added another service: to sell this dirt to persons who can not come to the sitting house or prefer to do their sitting at home.

Uranium Sitting House Sells Dirt For Home 'Sitting'

"My brother—uncle—sister—friend can't come to the Uranium Sitting Room. So I want some uranium dirt to bring him." "We feel a lot better after coming here, and now we want to take some dirt to — who can't get here." "Other people, who couldn't get around until they used uranium dirt, feel better now. I want to take some dirt to — so he'll be able to get around." "Gentle thoughts like these prompted operators of the Uranium-torium to begin selling dirt from the Uranium Sitting Room located at the Plainsman's Motel, 1923 W. Ripley, (on the Amarillo Hwy.) 4-6547. Operators claim no cures for the radio-active, uranium dirt. But

persons, who have come to the sitting house to pack dirt around their bodies or to lie covered by the dirt, have told them: "This is the first time in years that my feet haven't hurt when I walked." "I feel so good I'm afraid to say anything for fear I'll feel as bad as I did." "Since I started coming here I got well, but I'm not saying anything. I didn't want to jinx it." Others simply say they feel better after the sittings or they wouldn't come back.

Since 1949 thousands have found relief in Montana's abandoned gold mines. There about 3 out of 4 arthritic persons reported the visits relieved them of their pains even though the calcium deposits remained on their joints. Even dogs found relief. True Magazine of last December cited the case of a dog which had been crippled by rheumatism and was "cured" after visiting a Montana mine. After visiting a mine the canine patient dropped his lazy habits (adopted because moving pained him) to begin playing and romping. Skeptics often claim any improvement attributed to Uranium Sitting Rooms, mines, etc., is psychological. But a dog is not given credit for psychological cures. In Europe the use of radio-active sitting rooms dates at least from the time of World War II, and has developed to the "hospital" stage. An abandoned gold-mine in Austria, near Bad Gastein in Salzburg Province, now houses a modern hospital where "thousands of patients every year find health," according to a Reuters News dispatch carried in the Kansas City Star Sept. 1, 1954. During World War II Nazis in search for gold sank a deep shaft into the mountains and later abandoned the excavation. Films exposed in the mine were fogged as if passed in front of an x-ray apparatus. Scientists found a high concentration of radio-active materials deep in the shaft. Gases, which rise through clefts in the rock, bring radio-active qualities together with the 104 degree temperature and moisture. "Now," the dispatch stated, "the whole place has been scientifically examined, and thousands of patients go into the mine yearly under doctors' orders and control." Many, many persons have found health improvement in the Comanche County dirt both at Pampa's Uranium Sitting House and in Comanche County, just as many others found relief in abandoned mines of Montana and Austria. The Uranium-torium, Uranium Sitting House, in the Plainsman's Motel 1923 W. Ripley — on the Amarillo Highway was opened to enable people of the Top O' Texas to gain the benefits of radio-active Comanche County dirt without travel. Visit this sitting room today.

By MERRIMAN SMITH WASHINGTON — UP — Backstairs at the White House: The White House inner circle is becoming increasingly sensitive about some of the recent news pictures of President Eisenhower. Their complaints are valid to the extent that the circles under the President's eyes and the lines in his face are nowhere near as prominent or visible in person as they are in many news pictures, particularly photographs made at his news conferences. The trouble is in the lighting in the conference room. The President, when he meets with reporters, is bathed in strong floodlights, most of which bear down on his face. The situation could be corrected by lowering some of the lights or changing the type of lights used. Still photographers are not permitted to use flashbulbs and must rely on the lighting set up for the newswire and television film cameras. The photographers are well aware of the lighting defects and talk about it constantly, but they say the White House is opposed to lighting which would blaze directly into the President's eyes. Robert Montgomery may be consulted again to see what ideas he has about changing the set-up. Mr. Eisenhower has his own firm ideas against the use of camera makeup. His judgement is right on the target, because he'd never hear the end of it if he walked into a press conference wearing some of the heavy television makeup he endured unwillingly several times during the 1952 campaign. The late President Franklin D. Roosevelt during his third term

Pictures Of Ike Make Him Look Baggy-Eyed, Wrinkled

caused his staff much concern by photographing poorly in the newsreels. Makeup was suggested and FDR hit the ceiling. He would have none of it. Whereupon the White House imported one of Hollywood's top lighting and camera experts to see what could be done. The lines in Mr. Roosevelt's face were softened considerably by using lights of varied pastel colors, even though the pictures were made on black and white film. News photography, conducted usually with great speed and a central, flat source of light, should not be expected to produce the pleasing results of more leisurely studio or portrait photography. For this reason, 1956 campaign pictures of the President will not be taken from newspaper files, but probably selected from a batch of pictures made in his office recently with the well-balanced lighting necessary for color photographs. Some of the Eisenhower aides also are baffled and a mite irritated about the speed with which some of the President's recent secret "social" engagements reached reporters. Last Thursday, for example, Mr. Eisenhower set up a highly private stag dinner for some of his most trusted political lieutenants. Not a word was to be said about it publicly. But before the politicians even arrived at the White House, Ray Yenley, pilot of the NBC radio "Three Star Extra," had a good chunk of the guest list on the air. Maybe host Eisenhower forgot to tell at least one of his guests to keep quiet, at least, until he got his feet under the White House dinner table.

Announcing the NEW
Firestone
SUPREME

... THIS IS THE TIRE WITH BUILT-IN PEACE OF MIND

- Ends fear of blowouts!
- Ends fear of punctures!
- Ends fear of skids!
- Gives longer, safer mileage than any other tire!

• Blowout Safe! It's a tubeless tire. But no tire is blowout-proof from a slash or cut in the sidewall. So, Firestone engineers have built into the Supreme an emergency life protector. For should a blowout occur, an automatic safety valve closes in the life protector and retains 75% of the air. This lets you ride out a blowout without swerving and come safely to a straight-line stop. This is built-in peace of mind.

• Puncture Safe! Sometime, somewhere, you're almost bound to run over a spike or nail while driving. But there's no flat-tire problem with the new Firestone Supreme. For this specially engineered tire has a special gummy rubber sealant that seals any puncture the instant it occurs—makes it completely puncture-safe. No more delays, no more fear of changing tires on a busy highway. This is built-in peace of mind.

• Skid Safe! Firestone's new exclusive tread design makes all others obsolete. Wider and deeper, this efficient tread holds the road with a powerful grip never before possible. It won't skid, swerve, or slide like ordinary tires. Takes danger out of driving on pavements wet with rain or snow. And this tread is silent—won't hum on the highway. Won't squeal on the sharpest corners. This is built-in peace of mind.

• Thousands of Extra Miles! The rugged all-nylon cord body, plus 25% thicker tread, gives you the longest mileage of any tire by far. And it's made for beauty—as well as duty. With its white sidewalls—made to stay white—curb scuff protection—and smart fashion-line styling, the new Firestone Supreme is the most luxurious tire on the road. And the only tire with built-in peace of mind.

Now from Firestone comes the automatic safety tire... the new Firestone Supreme. It gives you and your family protection never before provided in any tire at any price. It's the first and only tire with built-in peace of mind!
