48th Year WEDNESDAY, OCTOBER 24, 1956 The Pampa Baily News

THE PAMPA DAILY NEWS

One of Texas' Five Most Consistent Newspapers

We beliave that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone 4-2525, all departments. Entered as second class matter under the act of March 3, 1878.

SUBSCRIPTION RATES

By CARRIER in Pampa, 30c per week. Paid in advance (at office) \$2.90 per \$ months, \$7.80 per 6 months, \$15.60 per year. By mail \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy 5 cents. No mail orders accepted in localities served by carrier.

Awakening Has Come

It has been many a moon since so many Texas Democrats were as mad as they are right now.

East, west, north and south, every last one of the men and women who consider themselves of the "loyalistliberal" stripe realizes that he or she has been hoodwinked, bamboozled, used and double-crossed.

They are howling for blood and keeping the trusty blunderbus handy for the time when they can draw a bead on the rascals that did it to them.

The fellows they are after are Senator Lyndon (Landslide) Johnson and Rep. Sam (Mister Democrat) Rayburn. Only those two and nobody else.

Practically forgotten is their violent hatred of Allan Shivers.

Their antipathy to Price Daniel, as a tool of the government, has faded almost into affection.

It all happened at Fort Worth on Sept. 11 of this year. Some of them are not yet completely out of a state of shock.

From Boca Chica to Dalhart and from El Paso to Texarkana, little groups are gathering on street corners and offices, looking sadly at each other and asking "how could they do it to us?"

It's a long story, mates. The intramural fight among Texas Democrats over liberal and conservative policies has been going on for years. It finally was personalized into a fight against Allan Shivers, with the conservatives on one side and the "liberals," (most of whom never have been precisely sure what they really stood for) and the union politicians (who always know what they are after) on the other.

Into this four years ago, Shivers tossed the red flag of support for the Republican candidates for President and then went on to carry Texas for Eisenhower with the cry that Adlai Stevenson was a menace to Texas' ownership of its tidelands.

So when this round of elections came up there was a rallying point for the liberals and the unionists.

The liberals were after Shivers' scalp for taking what they considered to be their personal party into the Republican camp. The unioneers were already yelping on the governor's trail for his long record of resistance to their efforts to take over the state.

BETTER JOBS By R. C. HOILES

"Capitalism Is No Bargain"-Socialist Labor Party

A former associate of mine who seems to believe labor unions can raise wage levels mailed me The Detroit News containing a full page ad over the signature of the Socialist Labor Party. Its heading was "Capitalism is NO Bargaint" Then it goes on to say what capitalism means. The first thing they say is that capitalism means wars. They contend that international capitalist competition for

markets and raw materials is the cause of wars. If we would determine, of

course, whether capitalism is the cause of wars, we would have to define "capitalism." Capitalism is something we have never had - that is, if capitalism is defined as private competitive enterprise. Private competitive enterprise or capitalism means that both parties to a transaction are benefited; that both parties make a profit; that neither party believes he is entitled to trade with another unless that party is benefited more over the long run than he would

be by trading with any other per-If we had that kind of capitalism there would be no wars. Then each party would respect the right of the other party to trade with the person that would benefit him.

the most. With this kind of capitalism production would go up and up and up. With this kind of capitalsim each and every person would get all he produces - no more, no less.

SOR.

War is not caused by capitalism but the interference by the government with the free exchange of goods and services. War is caused by socialism in government; by the government using aggressive force to take from one

to benefit another. It is not capitalism that leads us into war but it is the erroneous beliefs of those who believe in any form of socialism. And these misguided persons too often seek positions of power in government that lead us

to war. "Poverty Midst Plenty"

Then the ad goes on to say: "There is no question about our ability to produce an abundance. Despite this, poverty exists. Millions of people are suffering privation. Millions of others hardly make ends meet. This is one of the inevitable contradictions of the capitalist system of production poverty midst plenty."

In the first place, "plenty" is a relative term. Of course there is plenty more than there used to be but now we have even more wants unsatisfied than there were before we had modern power tools. The minute we have one want satisfied, we have many more. We want more understanding, more beauty, more leisure, more cleanli-

ness, more goodwill, more safety, more peace of mind, etc. And to the degree that we have capitalism in the true sense of the word, we satisfy these wants. "Unemployment" Then they blame capitalism for The two camps rushed to arms under the banner of Ralph Yarborough. unemployment. It is not capitalism that causes unemployment. It is Then up jumped Lyndon and Mr. Sam. government that causes unemployment. It does this by attempting Nobody had much love for the squire of the Pederto regulate the value of money and credit, by protective tariffs, by immigration quotas, by miseducating the youth of the land, by making laws that give one group The liberals and the unioneers and all those they such as organized labor, or capital, special advantages over others by laws setting protective tariffs and artifically low interest, minimum wages, and giving unions right to bargain for those who They should have had an inkling of what was comwant to make an individual bargain. ourts. Then the article goes on to say that capitalism means the doom of the small farmer. Free competi-They went right on with him to Chicago, prepared tive enterprise might mean the doom of the small inefficient farmer, but why should the small farmer survive at the expense of the eyed liberals and, tacitly, of the unions. consumer if he can not benefit the consumer as well as the effi-Then came September and Fort Worth. cient, larger operator? Something Coming Up?

n REFLECTION with JAMES C. INGEBRETSEN President, Sphituel Mobilization

"What lies behind us and what lies before us are tiny matters compared to what lies within us,"

savs William Morrow. Ever think seriously of that? The past, of course is gone. But the future is largely what we make it. And what we make it depends on "what lies within us."

To the extent that evil "lies within us," the future will be dark. FBI Director J. Edgar Hoover reported recently that major crimes in the U.S. jumped 14.4 per cent in the first six months of this year. Broken homes are increasing in number. Big govern-

ment continues to expand. Why? Because, as Peter told our "heart is not right in

to control their county conventions expected smooth saliing anyway. Their boys Lyndon and Sam would take care of them.

which was to control the state's vote at the national convention and get credit — in Washington — for restoring Texas to the Democratic side of the aisle.

(The top Democrats, away off yonder, could not know that nothing short of a miracle or a colossal blunder by the Stevenson forces would cause a repetition of 1952 even if Lyndon and Sam kept their mouths shut.)

From a practical political standpoint, the senator and Mr. Sam had no further use for the liberal rabble. A bunch of wide-eyed zealots bound together only by a hatred for one man are a poor political crutch far any leader to lean on for any length of time.

So, having used the eager beavers for their own parposes, the big boys tossed them out without a qualm.

The point of realization for the liberals came when Johnson and Rayburn stood by while the convention allowed one big county conservative delegation to vote on its own seating.

That did it. The idols had fallen. The liberals drifted off home, muttering, starting fires under the tar kettles and picking up good stout fence rails against the day when they can get even with the two fellows who had used and misused them.

Quotes In The News

By UNITED PRESS PARIS - Polish ex-Premier Stanislaw Mikolajczyk, saying it would be unwise for the United States to grant unrestricted aid to Wladyslaw Gomulka; leader of Poand's new "liberal" regime:

"Gomulka is a ruthiess Communist. When he was in power (after World War II) he did not hesitate to throw 100,000 political oppo-nents into jail to engineer Communist victory in the 1947 elecions.'

EN ROUTE WITH NIXON-Vice President Nixon, discussing he GOP campaign in military terminology:

"The next two weeks will be the weeks of the mop up, while the Democrats attempt to regroup their forces."

ROCK SPRINGS, Wyo .- Sen. Estes Kefauver, saying Democrats assume whatever "political risk" is involved in being placed on the same side of the H-bomb issue as the Russians:

"We should not be against something just because somebody we don't like happens to be for it.'

NEW YORK - Harlow H. Curtice, president of General Motors, reporting on an expanding European market for automobiles: "It is very clear that people in

the "Gomulka revolution" in Po-land and the triumph of "Titoism" transportation. Just as they do in there stirred up new interest to- the United States."

MADE IN BRAZIL-Resembling a Brazil nut on wheels, the three-passenger car pictured above is the first auto to be designed and produced in Brazil. Called the Romi-Letta, it is entered through the nose, which swings out as a door. Weighing some 800 pounds, the car is said to have a cruising speed of better than 50 m.p.h. and to be economical to operate. The engine, in rear, has two double-phase cylinders with a single. combustion chamber. Power is transmitted to the wheels through a unique automatic transmission, adapted from the drive used by the manufacturer on its line of precision lathes.

Texas Draft Is Set At 877

AUSTIN (UP)- A state drait call for 877 men from Texas in December was announced today by state selective service headquarters. Col. Morris S. Schwartz, state selective service director, said the December quota, compared to 858

monthly call received in a year, 1 The December quota is Texas" share of a national call for 17,000 men, all for the Army.

F. W. Woolworth Store 425 W. Atchison F. W. Woolworth Co.

WHETHER REPORT-Whethhe's angry at having his picure taken or chimply has a case of the screaming meemies, Cocomo, Jr., shows his feelings in to uncertain way. A member of the monkey colony at Miama Beach, Fla., it's typical of the way he hams it up for tourists.

The most exhaustive endurance test ever given an automobile has just been completed by two stock '57 Fords-identical in every respect with cars now being offered by Ford Dealers.

Under supervision of the United States Auto Club and the Federation Internationale de Automobile, each of these two '57 Fords traveled 50,000 miles in less than 20 days. Ford No. 1 averaged 108.16 mph for the entire run . . . Ford No. 2, over 107 mph. These averages include time for all pit stops.

In all, the '57 Ford smashed 458 national and international records.

This test was run on the Bonneville Salt Flats in Utah ... it was the longest left turn in history.

A car, like a man, is known by its deeds, not words.

That is why, we at Ford, despite our confidence in our '57 cars, let their deeds of accomplishment speak for themselves.

We wanted them to prove to you-in action-the stamina and performance we had built into them. No words of ours could speak with equal conviction.

Therefore, we engaged an independent engineering organization to test our '57 cars more thoroughly than any other cars have ever been tested before-in this country or abroad.

We provided them with '57 Fords-cars identical with those now offered by Ford Dealers. The rest we left up to them,

Here is what they did:

They took these cars to the Salt Flats at Bonneville, Utah.

Here, twelve of the world's greatest drivers took over.

In relay's they drove these cars night and day for a distance greater than twice around the world . . . a distance equal to 5 years of normal driving.

Not in all history has a man-built machine traveled so far in so short a time-by land or sea!

But this was not a test of speed-but of endurance of the "Inner Ford." A trial to take the measure of Thunderbird Y-block V-8 power without qualification of any kind. A test of running gear-of brakes, of materials in body and chassis. Of steering and roadability, yes, and comfort, too!

A test, indeed, such as no cars have ever undergone, let alone successfully concluded.

We feel that by their deeds, you shall know the '57 Ford cars. Surely they have told you, in decisive terms, that they are

worth more when you buy ... and when you sell!

Your Ford Dealer will gladly place at your disposal the new kind of Ford that means a new kind of value for your carbuying dollar-the greatest the world has over seen.

> FORD goes First

Golden Rule would do wonders. SERVING PAMPA Ly. Clarendon 9:40 a.m.

Generations of travelers and immigrants to the United States have been inspired by the Statue of Liberty. This majestic figure, jutting into the sky, will be honored by the celebration of her 70th anniversary on Oct. 28. Many changes have occurred since her upthrust torch was first seen from New York harbor. Even the name of the island on which Miss Liberty stands has changed. Through the action of Congress and the President, the former name of "Bedloe's" has now become "Liberty Island." More changes will be coming soon. For there is a national campaign under way to build the American Museum of Immigration at her feet. A fund of \$5,000,000 is being raised for a structure to contain exhibits showing the building of America, a treasury of archives and an auditorium. Those who contribute \$10 or more will have their names and photographs on view in the museum forever. These anniversary contributions are sent to AMI. Statue of Liberty, U. S. A.
