## PARK IMPROVEMENTS

As part of the city's policy of improving parks in Pampa, work was in progress this morning on retopping of the tennis courts located in Central Park. Necessary repairs to equipment in the parks are made from the operating fund but the addition of any new equipment to local parks can only be made from proposed bonds that are included in the bond election to be held next Tuesday. ## Sen. Investigators Summon McLeish For Questioning

By BETTY PRYOR

WASHINGTON (UP)—Senate investigators summoned Robert E. McLeish, who quit under fire as director of the Farmers Home Administration, for questioning today about charges of heavy drinking.

A spokesman for a Senate Civil Service subcommittee investigating the FHA's operations said the subcommittee also will look into McLeish's handling of the agency and a now-cancelled \$1-million-a-year insurance contract.

McLeish's resignation was announced by the White House last Tuesday. It came a couple of hours after a Texas insurance company official testified that McLeish once asked if he could give some government insurance business to "friends of the administration."

Earlier witnesses before the subcommittee testified that McLeish got drunk at a Montana dinner following a meeting of several state FHA directors in 1954, and that he drank a fifth of whiskey in the space of two hours during a visit to Denver.

The White House said McLeish's request for an immediate resignation "will be accepted." He said he wanted to quit for reasons of health.

An informed source at the Agriculture Department said the subcommittee's hearings "had something to do" with McLeish's resignation. This source said McLeish quit "by mutual agreement" following conferences with Agriculture Secretary Ezra T. Benson.

The FHA, a farm loan agency, is part of the Agriculture Department.

However, McLeish told the United Press the hearings did not cause his resignation. He said he has been "in pretty rough health."

## Yarborough To Visit Pampa

Gubernatorial candidate Ralph Yarborough has scheduled a 10:40 a.m. speech in Pampa tomorrow. Yarborough, who will be escorted into town by a group of his backers, will speak on the south lawn of the Courthouse, according to Paul Crossman, who heads Yarborough's supporters in this area.

Crossman reported that Pampa's Mayor Lynn Boyd will introduce Yarborough preceding his short campaign talk.

If it comes from a Hardware Store, we have it Lewis Hardware (Adv.)

# Venezuelan Plane Hurtles Into Ocean

## 74 Dead In "Worst Airline Disaster"

By WARREN FRANKLIN  
NEW YORK UP — A flaming Venezuelan Airline Super Constellation crashed and disappeared into the Atlantic Ocean today, killing 74 persons, including 20 Americans, in worst regular airline disaster in aviation history.

The plane hurtled almost straight down into calm seas only seven minutes flying time from a possible emergency landing at New York's Idlewild airport.

Its pilot was trying desperately to return to land because the plane had a faulty engine.

The humpbacked airliner struck the water with a cascade of flames and spray. It disappeared nose-down before the eyes of horrified passengers aboard an Eastern Airlines plane flying to Puerto Rico and the crew of a Coast Guard Albatross amphibian.

Had Sighted Shore  
Only minutes before, radio operators manning the air-rescue circuit heard the pilot jubilantly report he had sighted the shore.

A U.S. Navy transport, the Lt. Robert Craig, recovered two bodies and reported it had sighted several more. It transferred the bodies to the Coast Guard cutter Tamaroa and resumed its course to Bremenhaven, Germany.

A Coast Guard patrol boat found parts of several more bodies.

Another Coast Guard cutter, the Gentian, was en route from Cape May, N. J., to the scene and was expected to start dragging operations about 11 a.m.

"We will continue searching until there is absolutely no hope," said Lt. Cmdr. Robert Carson, of Staten Island, N. J., commander of the Tamaroa.

Women and Children Aboard  
The airliner had some women and children aboard, French, Swiss, Spanish and Haitian passengers were aboard, in addition to Venezuelans and Americans. It was bound for Venezuela.

The Lines Aeropostal Venezolana (LAV) airliner was attempting to limp back to New York with one of its four engines crippled. The Coast Guard albatross was escorting it when it suddenly plunged down.

Location of the disaster was 40 degrees, 10 minutes north latitude and 73 degrees, 15 minutes west longitude, about 35 miles east of Aasbury Park, N. J., and 40 miles south of New York.

The airliner was about 200 miles out of New York flying non-stop to Caracas, Venezuela, when the pilot radioed at 12:24 a. m. that the No. 2 engine was running wild and he was returning to Idlewild.

The loss of 74 lives was the largest death toll of any regular airline service crash. It was the

fourth worst crash in aviation history.

On June 18, 1953, a U. S. Air Force C-124 plunged down at Tokyo, Japan with 129 military casualties. On Dec. 20, 1952, another C-124 crashed at Moses Lake, Wash., with 87 military lives lost. On March 12, 1950, a chartered plane carrying English soccer fans crashed near Cardiff, Wales, with 80 dead.

The second worst commercial airline crash occurred last Oct. 7 when 66 died when a four-engine plane smashed into a mountain peak near Laramie, Wyo.

Lt. Cmdr. Fred Hancock, of Washington, Long Island, N. Y., sighted the distressed plane seven minutes before the crash from his Coast Guard Albatross amphibian.

"Within a few seconds we noted a flicker of flames beneath the wings," Hancock said. "And then we saw a large burst of flame under the starboard wing."

"The plane went into a very steep dive from 8,000 feet. Up to that time it appeared that the pilot seemed to have the plane under control. And he had one engine feathered."

"Then the plane went into a spiraling dive and struck the water at an almost 90-degree angle. It burst into flames and disappeared."

Hancock said his crew sighted the disabled plane at 1:25 a. m. He said the craft seemed all right but at 1:27 a. m. it began jettisoning fuel. It caught fire at 1:30 a. m. and crashed in flames at 1:32 a. m.

"After about an hour the Craig (U. S. Navy transport Lt. Robert Craig) arrived and put out lifeboats," Hancock said.

The commander said his crew could see bits of clothing, handbags, seat cushions and pieces of paper floating in the water at daylight about sunrise at 5:25 a. m. "I don't think any one could have survived," Hancock said.

Hancock said the last words of the Venezuelan pilot were: "I am planning to jettison fuel and going to land."

It was the first crash for the airline in 10 years of flying between the United States and Venezuela.

The dead included 18 American passengers and two American crewmen. The other passengers were 42 Venezuelans, two Spaniards, one Frenchman and one Swiss. The other crewmembers were six Venezuelans, one Frenchman and one Italian.

## Egypt Stages "Big" Parade

CAIRO, Egypt (UP)—Premier Gamal Abdel Nasser took Egypt's newly-acquired Soviet arms off the secret list today with a mammoth parade of Egyptian military might.

Stalin tanks, heavy guns and armored cars rumbled through Republic Square in the biggest military parade ever held in Egypt. Mig-15 jets and Ilushin bombers flashed overhead.

It was an all-out show of strength in the same square where Nasser said Tuesday night Egypt hoped for a free Arab world that would stretch from Morocco to Iraq, and urged the freeing of Palestine.

German-trained Egyptian troops marched through the square in a semi-goose step. With them were token forces and military bands from Syria, Lebanon, Jordan, Saudi Arabia, The Yemen, The Sudan, Libya and Palestine.

On the reviewing stand were representatives of the Arab states, Dmitri Shepilov, the Soviet foreign minister, and Sir Brian Robertson, the last British commander of British forces in Egypt.

The great parade of arms purchased from Communist Czechoslovakia climaxed five days of festivities marking the end of the 74-year old British occupation of the Suez Canal Zone.

Nasser, in his major policy speech before a mass rally Tuesday night, took up a new conciliatory attitude toward Britain but maintained his neutralist stand on accepting arms and economic aid from East and West alike.

He paid tribute to Britain for honoring its pledges to evacuate the Suez Canal Zone and emphasized that Egypt bore no malice or hostile intentions toward Britain. His statement was interpreted as an attempt to bury the past with its bitter memories and start a new chapter of Anglo-Egyptian friendship.

He said he believed Texas Gov. Allan Shivers had laid the case before Presidential Assistant Sherman Adams. He said Shivers also sent McLeish a telegram in his company's behalf, saying that its officials all were active supporters of President Eisenhower.

## QUOTES IN THE NEWS

Quotes From The News (Reg. U.S. Pat. Off.)

By UNITED PRESS

MOORHEAD, Minn.—Emmett A. Betts, head of the Betts Reading Clinic, Havertford, Pa., criticizing the lecture method of teaching future teachers methods of reading instruction:

"You can't teach a boy to read by lectures any more than you can teach him to fly by lectures."

NEW YORK—The Rev. Jacob Zhdikov, leader of a Russian Baptist delegation which toured the United States, comparing Baptist church work in the United States and the Soviet Union:

"The form and methods may be somewhat different, but basically they are the same."

CLINTON, Iowa.—Thomas McAndrews, a 19-year old sailor, telling his mother in a letter of the H-bomb blast in the Pacific:

"The light was so bright that even though I was facing the opposite direction and nearly 30 miles away from ground zero I could see right through my arm like an x-ray. My eyes were closed, too."

## Battle Of The Big Smell

HOUSTON —UP— Patrolmen C. E. Posey and L. L. Whately wrinkled their noses and considered the problem in black and white. Then they called for reinforcements.

Humane officer W. P. McLemore arrived on the scene—the lobby of the Texas State hotel—and considered the situation. He gingerly held out a long forked rod with a loop at the end.

The maneuver was a success and McLemore departed in haste with no air of satisfaction. Posey and Whately breathed easier—literally, but they couldn't figure out what a skunk was doing there at 3 a.m.

## Tex. Politics Are Boiling

By UNITED PRESS

Ralph Yarborough called himself the "only Democrat." U.S. Sen. Price Daniel said it was time for a showdown against "radical left-wingers," and local groups spoke out against integration referendum to enliven Texas politics today.

Daniel, speaking to a Dallas rally of his gubernatorial campaign workers Tuesday night, called 1956 a year of "political showdown." He urged "true conservatives" and "true moderates" to unite to win "this new battle with the extreme left-wingers."

State Democratic Chairman George Sandlin warned Democratic committees in three counties Tuesday that they will break the law if they fail to put three racial issues on the July 28 primary ballot.

Not only will they violate the law, Sandlin said, but they also run the risk of having every vote in the three counties thrown out, since the ballot will not be legally complete.

The Democratic committees of Harris (Houston) and Bexar (San Antonio) counties decided that the three racial questions should not appear on the ballot in their counties.

The Jefferson (Port Arthur) committee doesn't want to put it

on the ballot and asked County Attorney Ramey Griffin for a legal opinion on whether the county was bound by law to put the referendums on the ballot.

The three questions concern (1) mixing white and Negro children in public schools; (2) intermarriage between Negroes and white persons in Texas, and (3) interposition.

The state Democratic executive ordered the questions on the ballot throughout the state. Robert Carrill of Longview circulated a petition to get the questions put to a popular vote.

The majority which ordered the questions left off the Harris county ballot condemned them as the Gov. Allan Shivers "referendum" and an "illegal effort to cover up the scandals and corruption of the Shivers administration by appealing to Ku Kluxism for a campaign of hate."

Sandlin, in a letter to all county Democratic chairmen, said that if the racial issues were left off the ballot, it would "be the exercise of dictatorial powers and political rule by raw, bare power."

Carrill, himself, warned the Bexar and Harris committees that they would be liable to prosecution and fines if they failed to put the referendum on the July 28 ballot. He said the committee members would be liable to \$500 fines under section 230 of the penal provisions of the state election code. He said his referendum committee would take legal steps to prosecute.

Daniel and Yarborough also rehearsed their once-scheduled political debate.

Daniel's headquarters charged that the debate proposal was a "scheme" conceived by a former campaign manager for Yarborough, Joe Greenhill. Daniel's state campaign manager, said that Daniel will not take part in any such debate.

"I beg to advise that this headquarters has learned that the entire affair was conceived and sponsored by one of your state campaign managers of your unsuccessful 1954 campaign, one Harry O'Connor, and we resent the use of the Lions Club and a crippled children's program for

## Cotton Picking Wife Bilked; Files Suit

EDINBURG, Tex. (UP)—Mrs. Teodora Herrra complained in a divorce petition that her husband, Vincente, took the money she earned picking cotton and spent it on another woman.

## Pampa Radio Club Enrolls In 'Emergency' Exercises

The Pampa Radio Club will participate in a national field day emergency radio exercise this Saturday and Sunday as part of a test and practice program for emergency radio hookeys.

The exercise will begin at 4 p.m. Saturday and continue until 4 p.m. Sunday with equipment set up about five miles east of Lefors.

The club will operate two fixed transmitters and receivers using portable power units and will operate the units under the club's call letter which is WTSV-Portable 5.

Approximately ten mobile units which are installed in automobiles belonging to club members will be in operation.

The club has necessary equipment for the handling of any type of emergency communications in the event of a disaster and a spokesman for the club stated that the equipment could be in full operation within two hours after any emergency.

All novice amateur radio operators and those interested in becoming "ham" operators are invited to visit the club at the exercise this week end.

All members of the radio club are reminded to meet at Hawkins Radio and TV Lab at noon Saturday so that final arrangements can be made and to obtain the equipment needed for the exercise.

## Top-O-Texas Harvest Roundup

Wheat harvesting is progressing well in the Top-of-Texas area considering the drought situation and the late hail which hit some parts of the country.

Probably 20,000 of the 85,000 acres in Gray County has been or will be harvested with yields on summer fallow from 3 to 15 bushels, according to County Agent Ralph Thomas.

About 1,200 acres of irrigated wheat is averaging 20 bushels per acre with the average for the County 10 bushels per acre. This makes a total production for Gray County about 200,000 bushels of wheat. The harvest is about 75 per cent complete.

PERRYTON — The Perryton area wheat harvest which began June 11, is 50 per cent completed.

It is expected to end about July 5. The average yield per acre is 10 bushels, but the irrigated patches are yielding 30 to 40 bushels per acre. Milo is being sold as last year, but not too many other crops are being harvested.

SHAMROCK — Wheat harvest in the Shamrock district are ranging from nothing to 17 bushels per acre but the average for the area is 8 to 10 bushels per acre. The quality of the wheat is surprisingly good, testing 60 and better. Glen Bell, Dee McDowell, Lyle Holmes, and the Mills Ranch are reported to have harvested especially good wheat.

The harvest, which began June 16, is expected to be finished in another week. The cotton is reported to be up in good stands now.

Some early cotton was saved before the big rain. The grass is the best it's been since 1940, and expectations for good bumper crops are high.

HEMPHILL COUNTY — Wheat harvest began in Hemphill County on June 5 with the first load of wheat being brought in by D. U. Hardin, Paul and Ora Ramsey brought in the first full load. County Agent Warren Pickens said 75 to 80 per cent of the harvest is completed and should be finished this week, except for a few green patches over the country as there is no moisture to keep it from drying out.

The best yield reported was from Jess Yokley, Northwest of Canadian with a yield of 19.2 bushels per acre on 280 acres.

Frank Shaller reported a yield

of from 12 to 15 bushels on his place Southwest of town.

Hempthill County is allotted 38,000 acres of wheat to plant and around 20,000 acres are being cut, with the rest having already been plowed up. Average yield on the 20,000 acres cut is 8 to 9 bushels. Elevator operators say that the wheat is testing uniformly good. Most grain is testing 60 lbs. to the bushel or better to grade U.S. No. 1 A small amount has dropped to 58 or 59 on test.

The moisture is average, a little more than 13 per cent, and much of the grain is testing 12 per cent. It is still too dry to seed grain sorghum in the north part of the county; some is up and other dying to the south.

Grain sorghum is the second largest crop in the county with 18,000 to 20,000 acres to be planted.

Grasshoppers are the worst that they have been in 20 years according to County Agent Pickens, and are especially severe in the south end west side of the County.

GROOM — Grain elevators in Groom report that they are one half finished with the wheat harvest which began June 4. They expect to be through at the end of next week. The fields are averaging between 2 and 13 bushels per acre yield. No other crops are reported to be coming in now.

WHEELER — Only 10 per cent of the wheat has been harvested in the Wheeler district. The harvest is reported to have generally begun about June 15 and is expected to be completed July 1. The yield is ranging between 7 and 11 bushels per acre.

County Agent Ray Siegmund said that the prospects for fruit are excellent and the cotton and grain sorghum crops are very good. The alfalfa hay is ready for the second cutting with a good yield for it. The moisture is reported adequate to good surface and sub soil.

McLEAN — Wheat harvested so far in the McLean area has been 19,000 acres harvested in all. The wheat is short because of hail and drought.

S. E. Jones, McLean Elevator operator, said the harvest began about June 14 and will be completed the last of this week or the early part of next. Other crops have been planted since the hail and there is a good stand of cotton and all row crops. The grass seed harvest is especially good.

## UNCLE SAM'S SONS

Five Pampa area boys left this morning for induction into the Army. They are, left to right, Duane Noel, Rt. 1, Box 76, Pampa; Earl Musgrave, 1332 S. Hobart; Bill Harris, Kellerville; Billy Joe Powell, Pampa; and George Muse, 401 Perry. Four others went to Amarillo for their physical. (News Photo)

EVERYBODY EATS—Frank Keenen of Sherman Oaks, Calif., started the Bimini Tuna Tournament off with this 565-pound catch.

### General Twining Moscow Bound

WASHINGTON (UP)—Gen. Nathan F. Twining heads for Moscow this week, probably Thursday, on a dramatic expedition that he believes will have profitable results for the United States.

The blunt-spoken chief of the U. S. Air Force expects the first six-hour war trip of its kind to produce a "net gain for our side," according to an official who knows Twining's outlook.

Accompanied by a team of experts in every field of air power, Twining has high hope of returning to America with some sound new appraisals of Russia's latest air power advances.

His report to other members of the joint chiefs of staff and the National Security Council will go far in determining whether President Eisenhower permits other service leaders to visit Russia and the extent to which Russians may be invited here.

The Twining party plans to arrive in Moscow the afternoon of June 23. The general was invited on May 29 to come to Russia with several officers of his choosing, chiefly to see the June 24 air show at which new developments usually are unveiled.

## Statement On Second Term Is Expected

By PATRICIA WIGGINS

WASHINGTON (UP)—A White House official said today he expects President Eisenhower to issue a new public statement on his second term intentions after he leaves Walter Reed hospital.

The official, who cannot be quoted by name, predicted the statement will be issued sometime between July 4 and July 15, probably while the President is convalescing at his Gettysburg, Pa., farm.

Mr. Eisenhower, gradually resuming his official duties though he faces at least one more week in the hospital, scheduled a conference at 11:15 a. m. with French Foreign Minister Christian Pineau.

Pineau is winding up three days of talks with State Department officials to realign U. S. and French foreign policies. He was accompanied to the President's hospital suite by Secretary of State John Foster Dulles.

Mr. Eisenhower's doctors reported in a morning medical bulletin that he had a good night's rest and is continuing his "very satisfactory" progress toward recovery. He is still seven pounds lighter than when he entered the hospital, but White House Press Secretary James C. Hagerty said doctors were not perturbed about this.

The White House informant told the United Press that administration political strategists believe it is imperative that Mr. Eisenhower act, as soon as possible after leaving the hospital, to clear up any doubts about his availability for the GOP nomination.

He said the White House has been getting a large volume of mail, indicating public doubts about the effect of Mr. Eisenhower's June 9 emergency operation on his previously announced decision to seek re-election.

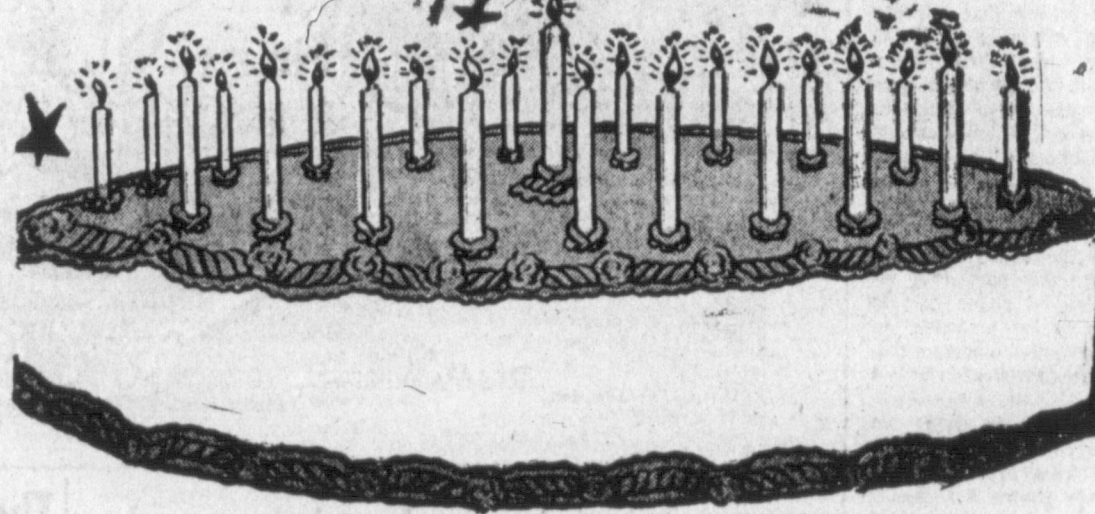

Republican leaders are confident that Mr. Eisenhower will reaffirm his decision to run, and will tell the American people that the attack of ileitis, which sent him to the hospital for surgery, has not changed his belief that he is physically able to take on another four years in the White House.

The White House officials' forecast that Mr. Eisenhower's political statement will come during the first part of July surprised some observers who had thought an even earlier announcement might be in the cards.

Jane Talk

By JANE KADINGO Pampa News Women's Editor

THE WOMAN VOTER HAD BETTER BE on her guard, for both parties and all candidates will be taking dead aim at woman's vote, cautions political analyst James B. Reston in a July Woman's Home Companion article "How to Make Sense Out of Politics."

Campaign strategists will charm the living daylight out of the women voters this year, and for reasons that are not entirely flattering to the ladies, says Reston. They have found by checking the polls and census bureau figures that women will make up 51.2 percent of the potential voters this year and will outnumber the male voters in 22 of the 48 states.

These statistics also convinced strategists that they had better woo the ladies: women played a decisive role in the election of Dwight D. Eisenhower in 1952 by abandoning their stay-at-home habits and voting independent of their husbands; women often voted on the basis of the personality of the candidates, rather than on the basis of the substantive issues.

Politics is a communicable disease which heightens the emotions and attacks the reasoning processes of the most intelligent, says Reston, and a woman would do well to vaccinate herself against politics.

She should begin with the proposition that politics is a degrading business and immunize herself with the largest doses of skepticism she can manage. A good rule of thumb, recommends Reston, is to divide all campaign pronouncements by two early in the campaign, changing this to three later on and swallowing absolutely nothing in late October without the most vigorous testing and chewing.

Patience — to wait and hear how the candidates define and explain the great issues throughout the campaign before making a decision — is another virtue of the intelligent voter. But, says Reston, most citizens pick their man in May and root for him all through the summer as if he were the Brooklyn Dodgers.

An election is not primarily a judgement of the past but a bet on the future, Reston reminds the ladies, and there is a need for foresight and hard, clear thinking rather than for sentimentality. In short, he says, the election of a President of the United States is a serious business, far too serious to be left to men.

PATIENCE and a few pennies can transform a party table or a holiday buffet into a blaze of beauty.

Whether your Fourth of July plans are shaping into a fancy party or just a family meal at the backyard picnic table, all eyes will light up at the sight of a spark-

Dad Forsees Emancipation From Yard Chores With Mower Power For Wives

By KAY SHERWOOD NEA Staff Writer

This summer, thousands of healthy, sensible American homemakers are going to fall into a trap. The trap opens when you innocently suggest the lawn needs mowing. It snaps shut when your husband places your dainty hands on the handle of the power lawn mower and says, "All you have to do is steer it."

Unfortunately, it's one of the new power mowers, that's about all you DO have to do. One of the largest manufacturers of mower engines, Power Products, has worked like a beaver to overcome valid feminine objections to power mowers (too dirty, too heavy, too noisy).

Lightweight rotary mowers can now be started, idled and stopped by a single instrument panel knob on top of the engine. Engines weigh 40 per cent to 60 per cent less, so mowers are easier to handle.

Oil which they require is premixed with gasoline at the service station to eliminate the messy task of adding and draining oil in the crankcase.

Robert Lueloff, president of the corporation, says that with the new mowers men can now safely and confidently turn over the job of mowing the lawn to the ladies.

This is progress? As further encouragement, company research experts at the testing stations have compiled recommendations on when and how to mow a lawn and how to avoid repair bills and service calls for the mower.

If you're determined the grass will be greener and neater on your side of the fence, here is the list. Don't shave the lawn. Grass gets its energy from the blades, and if it's to remain healthy, only a small part of each stalk (one-half to one inch) should be clipped at a time. In cool weather, the mower should be set to cut about two inches above the ground.

During hot, dry spells, a minimum grass height of three inches is recommended. Bent grass can be trimmed a little closer. When an established lawn is being reseeded, older grass can be trimmed to about one inch so that it won't hinder the new growth. First mowing of a new lawn should be done when the new grass is about three inches high.

When you're all set to steer that mower, a good plan is to divide the lawn into sections of convenient size and to start mowing around the outer edges of each section in a direction which will throw the clippings inward on the next row to be mowed.

In this way, clippings are chopped a second time, preventing the windrows of cut grass. Sleep (barbs) should be mowed up-and-down the slopes. It's better not to mow the lawn when the grass and ground are very wet or when they are exposed to the heat of the mid-day sun.

The experts point out that the lawn should be kept free of debris (stones, wire, rope or hard objects) which, if struck by the cutting blade, might damage the machine or be thrown out with considerable force. This is easier said than done. In our experience when you have small children and sand boxes

Almost the only "bug" engineers haven't eliminated from the new power mowers is their need for fuel, modest though it is. Young homemaker gives a lightweight, finger tip-control rotary model a drink of an oil-gasoline mixture. Safety can keep her hands party-clean. (Power Products)

appropriating part of the lawn as a playground. It takes careful raking before mowing. All safety guards should be kept in place any time the mower is in operation. Train small children to stay away from it. Keep the mower free of grass clippings and spilled gasoline or oil. The screen over the carburetor air intake filter is apt to become clogged with clippings; use an old whiskbroom or stiff brush to clean it.

Standard two- or five-gallon safety cans with flexible pouring spouts are convenient to use when refueling. Should the machine fail to start, unscrew the filler cap and make sure there is fuel in the tank. Service men report that many mowers brought to them have nothing wrong except that they are out of gasoline.

Miami's OES Has Formal Installation

MIAMI — (Special) — The Miami chapter of the Order of the Eastern Star installed officers during a formal ceremony in the Masonic Hall.

Installed were Mrs. Carrie Lee Hodges, worthy matron; Clyde Hodges, worthy patron; Mrs. Florence Dodson, associate matron; Glynn Dodson, associate patron; Mrs. Alpha McCulston, secretary; Mrs. Anna Russell, treasurer; Mrs. Bonnie Williamson, conductress; Mrs. Emma Lee Gull, associate conductress; Mrs. Iva Ruth Allen, chaplain; Mrs. Effie Jenkins, marshal; Mrs. Mildred Cunningham, installing secretary; Mrs. Faye Bean, installing chaplain; Mrs. Evelyn Wells, installing organist; Mrs. Faye Smith, installing warder; and W. L. Russell, installing sentinel.

Conducting the ceremony were Mrs. Alice Hardin, installing officer; Mrs. Effie Jenkins, installing marshal; Mrs. Mildred Cunningham, installing secretary; Mrs. Faye Bean, installing chaplain; Mrs. Evelyn Wells, installing organist; Mrs. Faye Smith, installing warder; and W. L. Russell, installing sentinel.

Special guests were Mrs. Riva C. Burnett, past grand matron of Texas; and Mrs. Effie Black, grand representative from Saskatchewan to the Grand Chapter of Texas.

About 50 persons attended the event.

Miss Julia Anne Grove Of Odessa And Robert Denson Of Wheeler Say Vows

WHEELER — (Special) — Nuptial vows were exchanged recently in the chapel of the First Methodist Church, Paducah, by Miss Julia Anne Grove, daughter of Mr. and Mrs. Don Grove of Odessa, and Robert Denson, son of Mr. and Mrs. Cecil Denson of Wheeler.

Rev. O. A. McBrayer officiated for the double-service. Arrangements of white gladioli and candelabras served as altar decorations.

Given in marriage by her father, the bride wore a white embroidered linen dress and carried a white satin prayer book topped with a bouquet of white rosebuds. The bridegroom's sister, Mrs. Raymond Laycock of Pampa, was matron of honor. She was attired in a blue dress of embroidered nylon, with a corsage of white carnations. Miss Linda McBrayer was candlelighter.

George W. Megee of Camp Travis, Calif., served as best man. For her daughter's wedding, Mrs. Grove wore a brown lace dress with white accessories and a corsage of white flowers. Mrs. Denson was attired in a tan lace dress, with pink accessories and a corsage of white flowers.

Following the ceremony, the bride party was honored with a reception in the church parsonage by Rev. and Mrs. O. A. McBrayer. Mrs. Raymond Laycock served the cake, and Miss Linda McBrayer presided at the punch bowl.

Wheeler HDC Has Food Demonstration

WHEELER — (Special) — The Young Matrons Home Demonstration Club met in the home of Miss Glenna Hefley, with Mrs. Ray Siegmund, president, leading the business session.

Miss Vera Crippen, county HD agent, gave the program, "Nutrition Foods for Cold Summer Meals." After a discussion period she gave recipes for the meal she had prepared.

Attending were Mmes. Ray Siegmund, Albert Marshall, Lloyd Lewis, John Manning, Carroll Killingsworth; and Misses Mary Alice James and Glenna Hefley. Next meeting will be Friday, in the home of Mrs. Carroll Killingsworth.

HEARTY CHOWDERS can be made on the patio in this washable Dutch oven which affords a wide temperature range.

COOK'S NOOK Chowder-Making Is Easy With Electric-Dutch Oven

By GAYNOR MADDOX NEA Food and Markets Editor A sturdy new 4 1/2 quart electric Dutch oven that can be immersed in soda and washed like a dish, is a boon to cooler summer cooking. Its heating element has a rating of 130 degrees to 420 degrees F. You can bake, fry, roast and make old-fashioned soups in it.

In Madison, Conn., Mrs. A.C. Gilbert, wife of the manufacturer and mother of four children, plugs it into the patio outlet and serves the youngsters and their friends, just back from swimming, these hearty soups.

MRS. GILBERT'S CORN CHOWDER One-fourth pound salt pork, chopped, 1/4 medium onion, chopped, 1/2 medium green pepper, chopped, 1/2 cup chopped celery, 5 medium potatoes, peeled and diced, 2 1/2 cups water, 1/4 teaspoon salt, 1/2 teaspoon white pepper, 1/2 teaspoon powdered marjoram, 3 tablespoons flour, 1/2 cup cold milk, 1 1/2 cups hot milk, 1 No. 2 can whole kernel corn, 4 slices finely chopped crisp bacon, paprika for garnish.

Set heat selector dial at about 280 degrees F. and pre-heat electric Dutch oven with cover on. Sauté salt pork until lightly browned. Add next three ingredients and sauté until golden brown. Reset heat selector dial at 230 degrees F. Stir in milk. Cover and simmer until onions are very ten-

Styles For Summer Are Sophisticated

By GAILE DUGAS NEA Women's Editor

NEW YORK — (NEA) — New and sophisticated cotton dresses and cotton fabrics used in new ways typify designs for summer, 1956.

Black cotton faille, pink cotton chiffon, flowered cottons, striped cotton satins, cotton broads, traditional American calicoes all are used for fashions that show them off to advantage.

The new cotton fashions get, at the hands of America's top designers, the benefit of faultless tailoring, fine detailing, and great imagination.

This year's Cotton Fashion Award winner, is a long torso dress by Ben Reig. In sheer woven black and white cotton, it has high bateau neckline, uses both horizontal and vertical stripes.

From Nettie Rosenstein's summer collection comes a shirtwaist dress in brown-and-white moire voile. Full flaring skirt has unpressed pleats set at the sides.

The Eastern - Western Little League baseball All-Star classic was staged June 26 at 5:30 p.m. at El Paso before the Oiler-El Paso tilt. It has been announced by the Optimist Club that the planned first round playoff games between Paint and Glass, Kist and Druggists, to have been played this week, will be postponed till the second half has been completed.

Bill McLeod, Les Howard, Melvin Chisum and Larry Lawin are entered in the state junior golf tournament at Brownwood which started Monday and concludes today. The top four medal players will receive expense paid trips from Brownwood to Fargo, N.D., for the International Junior Golf tournament. Individual trophies are to be given to the top four contestants.

The Tom Rose Ford - Hoffman game Tuesday completed first round Eastern Little League play. Elmer Wilson, former Harvester oil-letter man and Texas Tech grid-

der, played second base as the Pampa Semi-Pro baseball team dropped Perryton, 11-10, in 11 innings Monday. Wilson is to be one of the Plainview High School assistant football coaches for next fall.

Art Perena, a hurler the Oilers picked up from Brington, N.Y., a New York Yankee farm team, reported to the Oilers in El Paso Tuesday. Bob Shipman, the other twirler from Brington, reported to the Oilers last Saturday. Jerry Tucker, Oiler hurler, was sent home yesterday. Tucker's home is at Pittsburg, Texas.

A local youth, Larry McWilliams, was recently named basketball captain for the 1956-57 season, at Wentworth Military Academy.

West Texas State's new football stadium, to be constructed in 1958, is scheduled to have from 20,000 to 25,000 permanent seats with room for an additional 10,000 if necessary.

## Morrow Best Sprinter Relates Former US Olympic Coach

By HAL WOOD

SAN FRANCISCO (UP)—The best sprinter of modern times, Jay Brutus Hamilton, 1952 U.S. Olympic track and field coach, is Bobby Morrow, the powerman from Abilene, Texas.

"Morrow is the best sprinter of his generation," said Hamilton after watching the Texan whip such formidable foes as Dave Sims of Duke, Bobby Whilden of Texas, Mike Agostini of Fresno State, Dick Blair of Kansas and Jeamon King of California in the NCAA championships.

What impressed Hamilton was not so much the fact that Morrow won, but the way he did it.

Strong Start  
The powerfully-built, 190-pounder just took one step off the starting blocks and it was such a strong one that he was in front of the rest of the field right away. He didn't get a better start than he had—just stronger.

Many had thought that Sims would beat Morrow—but they had not counted on an important item called "experience" figuring in the final results. This was especially true in the 200-meter race, where the Duke sophomore was a heavy favorite. Sims pulled up with a groin injury.

It was only the second time that Sims had run around a curve the first time was the day before and he showed lack of experience.

"Art to Running Curve"  
"There's an art to running around a curve at full speed," Morrow pointed out later. "You need to practice it. You have to lean into the curve, swing your right arm across the body and cross your right leg to avoid falling off balance. Coming off the bend, I straightened up, relax until I can feel my jaw muscles ooze, then drive to the wire."

In most U.S. meets, the 220-yard dash is run on a straight-away. But with the Olympics coming up, the NCAA always runs the 200-meter race around a curve, because that's the way they do it in international competition.

After his sad showing in the 200 in which he had to pull up after

about 100 meters, the discouraged Sims said that he might forget track entirely and devote his time to baseball. He claims baseball is his "first love"—and there are reports that some major league scouts are talking in terms of a bonus that might run between \$25,000 and \$50,000.

Back in 1946, Dickson used his fast ball to win; last night he relied mainly on his knuckler to post a three-hit 6-0 victory over the Dodgers and boost the Caps to within a mere three percentage points of the National League lead.

Dickson's shutout was the first against Brooklyn this season and it was also the first against the Dodgers at Ebbets Field since he himself, blanked them as a member of the Phillies on Aug. 22, 1954.

Stan Musial and Bobby Morgan each clipped Sandy Koufax for two-run homers in the first inning and Dickson had clear sailing from then on as he felled only 32 batters and did not permit a

base runner to reach second until two were out in the ninth.

Dickson struck out seven and walked only three. The only Dodger batter who gave him any trouble was Pee Wee Reese, collector of all three Brooklyn hits.

The Braves won their fourth game in a row under new Manager Fred Haney and climbed to within a half-game of first place with a 5-3 triumph over the Pirates, who dropped to fourth place.

Lefty Lou Stealer, summoned to Lew Burdette's relief with two out and runners on second and third in the ninth, struck out Bill Vinton to save Burdette's sixth victory. Hank Aaron and Bill Bruton each drove in two runs as Bob Friend absorbed his fourth defeat against 11 victories.

Del Ennis' 11th homer with one on highlighted a four-run rally in the eighth inning that gave the Phillies a 4-2 decision over league-leading Cincinnati. Johnny Kippstein had a three-hit shutout until the eighth when a walk, a single by Marv Blaylock and Stan Lopata's triple tied the score. Ennis then followed with his homer, which was the 24th of his career with the Phillies and broke the previous club record of 24 held by Chuck Klein. Jack Meyer struck out four batters and was rewarded with his fourth victory.

Shutout For Antonelli  
Southpaw Johnny Antonelli of the Giants shut out the Cubs, 2-0, on five hits while striking out seven batters and walking none. The Giants got to Bob Rush for a run in the second inning on Willie Mays' triple and Bill Samit's sacrifice fly, then added another run in the seventh on a walk, a sacrifice and a single by Daryl Spencer.

Home Runs—Mantle, Yanks 2; Sievers, Senators 17; Berra, Yanks 17; Long, Pirates 17; Wertz, Indians 18.

Runs Batted In—Mantle, Yanks 42; Boyer, Cards 50; Musial, Cards 49; Wertz, Indians 49; Sievers, Senators 49.

Runs—Mantle, Yanks 60; McDougald, Yanks 44; Boyer, Cards 44; Lopes, Athletics 43; Yost, Senators 43.

## Dickson Wins Over Bums; Braves Take Bucs; Phils Win

By MILTON RICHMAN

United Press Sports Writer  
Murry Dickson helped pitch the St. Louis Cardinals to their last National League pennant 10 years ago and today, at 40, he wouldn't mind history repeating itself at all.

Back in 1946, Dickson used his fast ball to win; last night he relied mainly on his knuckler to post a three-hit 6-0 victory over the Dodgers and boost the Caps to within a mere three percentage points of the National League lead.

Dickson's shutout was the first against Brooklyn this season and it was also the first against the Dodgers at Ebbets Field since he himself, blanked them as a member of the Phillies on Aug. 22, 1954.

Stan Musial and Bobby Morgan each clipped Sandy Koufax for two-run homers in the first inning and Dickson had clear sailing from then on as he felled only 32 batters and did not permit a

base runner to reach second until two were out in the ninth.

Dickson struck out seven and walked only three. The only Dodger batter who gave him any trouble was Pee Wee Reese, collector of all three Brooklyn hits.

The Braves won their fourth game in a row under new Manager Fred Haney and climbed to within a half-game of first place with a 5-3 triumph over the Pirates, who dropped to fourth place.

Lefty Lou Stealer, summoned to Lew Burdette's relief with two out and runners on second and third in the ninth, struck out Bill Vinton to save Burdette's sixth victory. Hank Aaron and Bill Bruton each drove in two runs as Bob Friend absorbed his fourth defeat against 11 victories.

Del Ennis' 11th homer with one on highlighted a four-run rally in the eighth inning that gave the Phillies a 4-2 decision over league-leading Cincinnati. Today's Sport Parade  
(Reg. U.S. Pat. Off.)  
By JACK CUDDY  
United Press Sports Writer  
NEW YORK (UP)—Now Milwaukee's fanatic baseball fans are wondering whether Fred Haney's career as a manager will follow the rags-to-riches pattern of Casey Stengel.

No manager ever had more woes than Stengel in the days when he piloted the "daffiness boys" of the Brooklyn Dodgers and later the equally inept Boston Braves. But, when old Casey got a chance with a good team—Yankees, he became the first manager ever to win five straight flags.

Like Stengel, the 57-year-old Haney has "never really had a chance" until now.

And also like Stengel, Haney hasn't allowed past anguish to steal his sense of humor. It takes quite a man to come up smiling after an eighth-place and a sixth-place with those old St. Louis Browns (1939 and 1940) and three straight eights (the hard way) with the Pittsburgh Pirates (1953, '54 '55 but Haney has done it.

Like the time the Pirates lost a game they had apparently won. With men on first and third and two out, the Buc batter singled and the "winning" run came home. But the runner on first failed to touch second a la Fred

## Take Fourth Straight Belt Texans, 9-4

EL PASO, — Pampa got the best possible mileage out of the long ball here Tuesday night as they belted the El Paso Texans, 9-4.

The Oilers hit five homers and a triple to account for all of their runs while big right-hander Buddy Woods kept the homesteading Texans in check in a well-pitched six-hitter.

The win gave the Oilers the series. The two teams met only once as last night's game was washed out by rain.

Three Texan pitchers served up the fast homerun ball to the hard-hitting Oilers as starter Mike Gazzella absorbed the loss, his second against eight wins.

Pampa greeted him rather rudely as Jim Robinette and Jim Martin belted two-run homers in the first inning to get the Oilers away to a four-run lead. Robinette's blast came with manager Alvin Cross on base while John Bruzza rode home free on Martin's smash over the left-field wall.

El Paso got one run back in the bottom of the first inning when Ervin Ford led off with single, moved to second on an outfield fly, went to third on an infield roller and scored on a single by Don Hunter.

Pampa added another run in the third on a leadoff homer by Lynn Tucker. A pair of walks following Tucker's blast led to the replacement of Gazzella by Fred Smith.

El Paso scored twice in the fourth inning. Doug Lewis led off with a walk moved to third on a single by Sinton and he and Lewis scored on a single to center by right-fielder Juan Armenteros. Armenteros was thrown out at second trying to stretch his hit into a double.

Pampa added another run in the fifth when Lynn Tucker again led off the frame with a homer.

El Paso got its final run in the sixth on two walks a fielder's choice and an error by Cross.

Pampa added insurance runs in the seventh on a single by Martin and a homer by Frank Kempa. The Oilers final run came in the eighth when Tucker led off with a triple then stole home on left-hander Bob Tucker who had replaced Smith in the seventh inning.

The Southwestern League standings underwent a general reshuffling today, but the Hobbs Sports still were out in front by a comfortable 4-1-2 game margin over the Plainview Ponies.

The Ponies beat the Sports 4-5 Tuesday night as Jack Cardey out-pitched Bill Kearns and moved from third to second place ahead of the El Paso Texans, who fell victim to a barrage of five Pampa home runs and lost 9-4. Pampa moved ahead of Carlsbad into sixth.

Ballinger edged into eighth spot by noosing out Carlsbad 7-6 and Clovis pulled up to ninth and dropped Roswell back into the cellar with a 7-6 victory over the Rockets. San Angelo maulled Midland 10-1.

Two leadoff homers and a triple by Len Tucker spiced the Pampa attack, while Jim Robinette, Jim Martin and Frank Kempa also hit for the circuit against El Paso.

Four Carlsbad errors in the seventh allowed Ballinger to score three decisive runs and give Jim Wortham the victory; Moe Skotomauro's 23rd homer and two dou-

bles paced San Angelo, while Clovis helped his own cause against Roswell.

## Republicans Down Demos

WASHINGTON (UP)—A few groans were heard on the House floor today and members, limped, compared bruises and generally showed signs of combat.

But it wasn't that election-year politics had degenerated into a knock-down, drag-out brawl. It was just the once-a-year congressional athletes getting over their annual Republicans versus Democrats baseball game.

The Republicans won the game Tuesday night, 8-7, after a last-inning rally in which the Democrats scored six runs.

Fracas at Home Plate  
Age and weight considered, the congressman turned in quite a respectable athletic performance in the five-inning game. The only serious casualty was Rep. Thomas B. Curtis (R-Mo.), GOP catcher. He suffered a dislocated shoulder in a home plate fracas.

It all happened in the first half of the fifth, and final inning when Rep. Eugene McCarthy (D-Minn.) dashed for home plate. Curtis attempted a put-out and McCarthy ran into him.

Curtis was carried off on a stretcher but waved cheerily at his fans as he left the field of battle.

Contest for Charity  
About 1,500 chills, but cheering, fans watched the traditional contest for the Washington Evening Star's summer camp fund for underprivileged children. In the nine games played so far, the Democrats won the first seven. The Republicans turned the tide last year and made it two in a row Tuesday night.

The GOP looked as if they had the game cinched going into the final inning. But the Democrats went wild. With two outs they blasted a series of hits off Republican pitcher Glenn R. Davis (R-Wis.) to bring in six runs and tie up the game at 7-all.

It took a rasty — A Texas Republican — to turn the trick. Rep. Bruce Alger (R-Tex.) tripped to deep left center in the tied inning with one out, Rep. Thor C. Tolleson (R-Wash.) followed with a sharp single through the middle to break up the game.

The losing pitcher was Rep. Stuart L. Udall (D-Ariz.).

Nashua To Go Off As Favorite Today  
BOSTON (UP)—Mid-afternoon, surprise winner over a crack field of handicappers including Nashua in the Metropolitan at Belmont park last month, is expected to go off the favorite over eight others today in the \$50,000 added Massachusetts Handicap at Suffolk Downs.

The four-year-old son of Billings, who just missed being Count Fleet's mark for the mile in winning the Metropolitan, gets in the Mass "cap under a favorable 110 pounds, eight less than top weighted Galt, who finished between Switch On and Nashua in trailing Mid-afternoon to the wire in the Metropolitan.

Nashua originally was expected to start in today's mile and one-quarter event, but Trainer Sunny Fitzsimmons decided to pass up the richest event on the Suffolk's spring card in favor of a start at Monmouth Park for the world's leading money-winning thoroughbred.

Albhal Lashes will run as an entry with Mid-afternoon, who will be ridden by Willis Boland. Albhal Lashes gets in under 106 pounds. Eric Guerin will be on Find, who has won two of 11 starts this year but has earnings in excess of \$100,000.

Yanks Sign Hurler  
PEORIA, Ill. (UP)—The New York Yankees have reported the signing of Ron Fahnstock, an all-around athlete at Limestone High School, to a contract. Fahnstock, a pitcher who compiled a 10-5 won-lost record this past season, was assigned to Kearney, Neb.

BABY "RHINO" GOES EVERYWHERE—Scale model "rhino," a new type amphibious vehicle, surmounts an obstacle equal to a four-foot barrier as it undergoes tests at Indianapolis, Ind. Its hemispherical aluminum wheels, set at an angle to the body, operate as separate units on port and starboard sides. Army is said to be interested in the craft as an all-terrain vehicle and its designers foresee uses for it in agriculture, mining and exploration. Cable-controlled model is patterned for test purposes after a five-ton prototype. Development is in hands of Marmos-Herrington Co., Inc., Indianapolis, Ind.

### House Group Approves Bill To Cut National Debt Ceiling

By VINCENT J. BURKE  
WASHINGTON, June 19—UP—The House Ways and Means committee Tuesday unanimously approved a bill to cut the national debt ceiling by \$5 billion. It acted after the administration again closed the door on an income tax reduction this year.  
Secretary of the Treasury George M. Humphrey told the committee that neither present nor anticipated budget surpluses justify a tax cut. He added that the national economy does not need an inflationary stimulant such as a tax reduction.  
"I feel very sure there is nothing in the situation affecting the economy to justify a cut at this time," he said.  
Wants Debt Cut  
Humphrey reiterated the administration's position that the expected \$1.8 billion surplus at the end of this fiscal year June 30 should be used to reduce the huge national debt. He estimated the debt at that time will total about \$273 billion.  
The committee's debt bill was endorsed by the administration. It would establish a temporary ceiling of \$278 billion for the 1957 fiscal year which starts July 1. This is \$3 billion below the current \$281 billion ceiling which expires June 30.  
The new ceiling is, however, \$3 billion above the so-called "permanent" ceiling of \$275 billion.  
Committee Chairman Jers Cooper (D-Tenn.) said the measure would be called up for House action later this week. Swift House and Senate approval is likely.  
"No Leeway" for Tax Cut

### Tito Speaks Before Reds In Moscow

MOSCOW, June 19—UP—Yugoslav Marshal Tito told 80,000 cheering Russians Tuesday that Yugoslavia and Russia have "buried" their discords and found a "common language" during his visit to Moscow.  
Tito spoke in Moscow's vast Dynamo Stadium at a giant rally that also heard Communist party chief Nikita Khrushchev attack "certain capitalist countries" for trying to woo Yugoslavia away from communism.  
The Yugoslav president, in the last major event of his visit here, said he "deeply regretted" his seven-year-long rift with the Soviet Union. Khrushchev, in turn, said the Soviet Union was a "sincere and trustful" friend of Yugoslavia.  
"During our negotiations we easily found a common language and were able to establish mutual co-operation," Tito said. "We are convinced that your leaders are for strengthening peace and co-operation."  
Tito put the blame for the 1948 break in Yugoslav-Soviet relations squarely on the late Premier Joseph Stalin without mentioning his name.  
"The break was a result of one man's opinion and a distortion of what took place in Yugoslavia," the Yugoslav leader said.  
"Now we have buried what was painful and unnatural in our relations and they will not be repeated," Tito added.  
Tito said that while Yugoslavia did not wish to spoil its relations with other countries, it could do nothing "to satisfy people who do not like our friendship with the Soviet Union."  
Tito is scheduled to leave for Yugoslavia by train Wednesday, ending a 19-day visit.

### Guillotine Kills Two In Algeria

ALGIERS, June 19—UP—An Arab deserter from the French army and a guerrilla murderer died on the guillotine here at dawn Tuesday, while 35 other condemned nationalists awaiting execution screamed "long live Algeria!"  
The weighted blade of the dread "widow" crashed down at 4 a.m. on the neck of Ferradi Ben Mousa, the deserter. Zama Ben Mohammed, the assassin, was executed seven minutes later.  
The defiant shouting that began on death row spread rapidly to the cell blocks where lesser guerrilla offenders were held. Pandemonium swept the prison on the edge of Algiers' notorious Casbah.  
More than 200 guerrillas have been sentenced to death during the 15-month Algerian campaign, but Mohammed and Mousa were the first to die. French authorities had stalled the executions for months, apparently hoping the threat would be enough to put a stop to the wave of murders.  
The guerrillas have threatened to kill two Frenchmen for every Arab who is executed.  
Reliable sources here said 35 more guerrillas will go to the guillotine in the next few days here and in nearby Tizi Ouzou.  
Firm French action has all but put an end to large-scale guerrilla activity in Algeria in recent weeks. France now has almost 350,000 troops in this big "overseas province," and 48,000 more are on the way.

### Ag Department Plans For Large Soil Bank Program

By GAYLORD P. GODWIN  
WASHINGTON (UP)—The Agriculture Department hopes to get farmers to put between 8.5 million to 15 million acres in the acreage reserve of the soil bank this year.  
For doing so and thereby reducing production of basic crops, the government will pay farmers \$4 to \$366 an acre. The money will come from the \$1.2 billion soil bank funds.  
For 1956, the reductions may be accomplished by underplanting, loss through natural destruction, or by plowing or cutting the crop before a deadline established by the department.  
Hoped For Reductions  
A department official said hoped for acreage reduction goals for this year included:  
Corn; 2 million to 4 million acres; wheat, 5 million to 8 million acres; cotton, 1.5 million to 3 million acres; peanuts, 50,000 to 100,000 acres; rice, 50,000 to 8,000 acres.  
The acreage reductions fall short of the goal of 20 million to 25 million acres for cotton, wheat, corn and rice which Secretary of Agriculture Ezra T. Benson outlined to the House Committee on Agriculture on Feb. 21. Benson told the committee the soil bank should be loaded with 3 million to 5 million acres of cotton; 12 million acres of corn; and 300,000 acres of rice.  
Plan Getting Under Way  
The department said the soil bank now is getting under way throughout the country as a part of the national farm program. It pointed out that "even if farmers have already planted 1956 crops, they can make adjustments and earn soil bank payments this year."  
Acreage reserve agreements must be signed by the farmer not later than July 20, the department reminded.  
A department official said most soil bank payments will average under \$50 an acre. The lowest rate—\$4 an acre—was set for winter wheat planted in 1955 for harvest in 1956 which the farmer certifies was underplanted because of adverse weather.

SEEING STARS—Far from her Johnstown, Pa., home, 10-year-old Cheryl Stoner, center, Grand Prize Winner of the 1956 Bugs Bunny National Coloring Contest, listens happily as Erskine Johnson, Hollywood columnist for NEA Service, Inc., points out a film star on the Warner Bros. Hollywood lot. Cheryl and her mother, Mrs. Theodore Stoner, left, were guests of Warner Bros. and NEA on a three-day holiday which included a round-trip airplane flight from Johnstown, a preview of a Bugs Bunny film and a tour of the movie studios where they visited with Alan Ladd, Natalie Wood, Tab Hunter and Henry Fonda.

### Steel Negotiations In Critical Stage

By ROBERT G. SHORTAL  
United Press Staff Correspondent  
NEW YORK (UP)—The steel wage negotiations that will profoundly affect the nation's economy entered the crucial stage today with both sides deadlocked on key contract issues.  
Both sides appeared to be negotiating from positions that are "miles apart."  
Industry sources said an economy-crippling strike was more than "just a possibility at this time."  
Still Some Hope  
A top union negotiator said the outlook right now "is not too optimistic, but while there's time there's hope."  
Union negotiators will meet today with at least nine companies.  
The steel industry appears united in its offensive for a five-year no-strike pact, a fact which does not bode well for a peaceful settlement before the present contract runs out at midnight on June 30.  
The union, which broke off joint talks with the "Big Three" on Sunday, met with seven companies Tuesday in the hope of splitting the industry's united offensive for a long-term pact.  
But the union's divide and conquer plan ran into rough sledding when company after company broke out contract offers similar to those made by the three giants of the industry—U.S. Steel, Bethlehem Steel and Republic Steel.  
Union negotiators planned meetings in New York today with U.S. Steel, Bethlehem Steel, Republic Steel, Jones & Laughlin, Inland Steel, Allegheny - Ludlum, Pittsburgh Steel and Crucible Steel. They will meet in Detroit with Great Lakes Steel.  
Negotiations with U.S. Steel ended late Tuesday night with both sides stressing that "no progress" had been made.  
A top union source said the steelworkers are referring to the company's proposed offer as "the USSR & B five-year plan."  
Refers To Big Three  
"We don't like it and we won't accept it," he said in explaining that "USSR & B" stood for U.S. Steel, Republic and Bethlehem, the three giants which made the initial contract offer.  
A company spokesman said the union's demands "were the broadest, the biggest and the most exorbitant in the steel industry," tense in almost 20 years of ne-

### Texas Oil Quota Boosted 70,973 Barrels Daily

AUSTIN, Tex. (UP)—The Railroad Commission today boosted Texas' oil allowable for July 70,973 barrels daily, fixing permissible production at 3,322,043 barrels.  
The increase, coming on the heels of cutbacks for the past four months, was ordered by the commission following a state-wide oil proration hearing.  
16-Day Schedule  
The commission set a 16-day producing schedule for July, one more than at present.  
Railroad Commissioner Olin Culberson told oilmen that in recent months Texas has cut down its allowable while other states have increased their allowables, and imports of foreign oil have risen.  
"The point beyond which we can not go has been reached. It's time to stand fast," Culberson said.  
Culberson said the 16-day schedule "won't upset the industry," and pointed out the 70,973-barrel per day increase is "only 1 per cent of national production."  
Culberson and Railroad Commissioner Ernest O. Thompson questioned representatives of importing oil companies at length, directing their strongest question-

ing at Jack Coats, representing Gulf Oil Corp.  
Coats told the commission that oil companies were holding the line on imports in accordance with a formula set up by the Office of Defense Mobilization. He said his company's imports for the first six months of 1956 are lower than last year.  
Nominations by oilmen for July ranged from 13 to 16 days' production.

DISABILITY BILL—Chairman Emanuel Celler (D-NY) of the House Judiciary Committee says that he will call his committee into session to decide whether to send a presidential disability bill to the House floor for action. Celler states that the President's illness increases the chances of passing legislation to determine when a president is disabled.

80 MERCURY PHAETONS FREE IN ED SULLIVAN'S \$425,000 MERCURY CONTEST JUNE 11th—AUGUST 4th

1st PRIZE EACH WEEK MERCURY MONTCLAIR PHAETON plus all-expense paid trip to New York for two via American Airlines • suite at Waldorf-Astoria • guest of Ed Sullivan at his show.

2nd - 10th PRIZES EACH WEEK 9 MERCURY MONTEREY PHAETONS ... plus 25 G.E. portable TV sets, light, easy to carry... 300 Elgin American Signet automatic cigarette lighters each week.

SPECIAL BONUS AWARDS \$10,000 CASH to new Mercury buyers—Awarded instead of new Phaeton if you buy a new Mercury during contest and before being advised of winning one of the 10 top weekly prizes. \$2,000 cash to used car buyers—Awarded in addition to new Phaeton if you buy a used car during contest and before being advised of winning one of the 10 top weekly prizes. (See Official Entry Blank for details)

YOU CAN ENTER EVERY WEEK... here's all you do! 1 Go to your Mercury dealer today. 2 Pick up Official Rules and Entry Blank. 3 Complete last line of Mercury Phaeton rhyme. 4 Mail Official Entry Blank to "Mercury Contest".

GO TO YOUR MERCURY DEALER TODAY!

Hospitality on the Highway!

Having the inside of your car swept out is one of those extra little gestures of hospitality that you can expect when you drive in to a Phillips 66 Station.

You'll like the friendliness and courtesy of your Phillips 66 Dealer. You'll like the conscientious way he cleans your windows all the way around. You'll like his clean rest rooms. You'll appreciate the way he checks your tires, battery and radiator. To Phillips 66 Dealers, "Hospitality on the Highway" means much more than just selling gasoline and oil. It means pleasing you.

Your Phillips 66 Dealer believes that in the service he gives, as well as in the products he sells, "It's Performance that Counts." Drive in to his station soon.

It's Performance that Counts!

IMPORTANT OCTANE BOOSTS in BOTH Phillips 66 Gasoline and Flite-Fuel

Quality-controlled Phillips 66 Gasolines keep pace with today's high compression engines. Enjoy the higher octane rating specially blended with the extra clean-burning qualities and famous controlled volatility of Phillips 66 Gasoline and FLITE-FUEL. Treat your car to a truly fine motor fuel at your Phillips 66 Dealer's, and you treat yourself to top performance every mile.

**YOU CUD TITLE THIS "BOVINE CONTEMPLATION"**—Grade A appreciation of art is expressed in the attitude of this cow as she gazes in the mood of the Geauga (Ohio) County Artists Assn. annual Barn Art Show. Some 15,000 persons saw the show. Proceeds of several thousand dollars went to the Geauga Historical Museum.

## Internal Disorders Plague South Asia

Foreign News Commentary  
By CHARLES M. MCCANN  
United Press Staff Correspondent

Internal disorders ranging from riotous demonstrations to small-scale wars are plaguing South Asia's neutralist leaders.

In India, up by the Tibetan border, Prime Minister Jawaharlal Nehru's army is fighting primitive Naga hill tribesmen who demand an independent state.

More than 200 persons have been killed in recent months in demonstrations in big Indian cities against Nehru's plan to reorganize the country's system of states.

In partial control  
In Indonesia, rebels control parts of Java, the main island; Sumatra, and the Molucca and Celebes Island groups.

In Burma, the government has been trying unsuccessfully for eight years to suppress organized rebels who are operating within a few miles of Rangoon, the capital.

In Ceylon, 12 persons were reported killed last week in riots called to protest premier Solomon Bandaranaike's plan to make Sinhalese the country's sole official language.

The disturbances all stem from World War II and the surge of nationalism which brought independence to the four countries concerned.

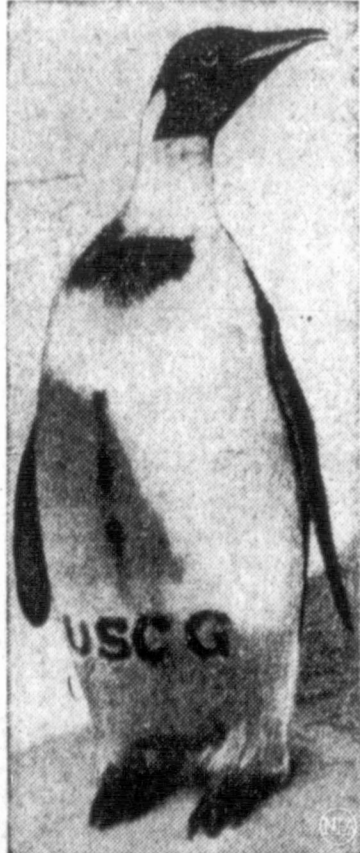

Some Represent Resentment  
Ironically, some of them at least represent resentment by large sections of the people against "colonialism" by the same neutralist leaders who denounce colonialism by the Western powers.

Nehru's Naga hillmen, for instance, want a state of their own. The hillmen are a backward people, and proud of it. They like to fight, usually with bow and arrow. They go out on head-hunting expeditions, and spend their leisure time drinking.

Nehru put the hillmen under the Assam state government, which tried to ban head-hunting and drinking.

A rebellion resulted. Nehru sent the Indian army against the tribesmen in mid-April after Assam state forces failed to suppress them.

Raiding Persists  
The army seems to have had little success. More than 100 tribesmen have been killed. But they still sweep down on villages and ambush military columns. They are now armed with automatic weapons, which they found in depots abandoned by British forces at the end of the war.

**BRANDED**—A four-foot-tall emperor penguin proudly shows off the "USCG" painted on its feathers at McMurdo Sound in the Antarctic. There's no danger of popping off the buttons on his vest—they're painted on, too. The penguin was recruited as a mascot by crewmen of the Coast Guard icebreaker Eastwind, which was unloading supplies during "Operation Deepfreeze."

## Boom For Stewart Is Making Noise

By LYLE C. WILSON  
United Press Staff Correspondent

WASHINGTON (UP)—The Symington-for-president boom is beginning to make enough noise to be heard distinctly throughout the Democratic party.

Stuart Symington is the 55-year-old junior senator from Missouri, born in Massachusetts, reared mostly in Maryland and a resident of the state he represents in Congress for fewer than the past dozen years.

He's completing the fourth year of his first Senate term, a fact which makes more remarkable the prominent position Symington holds in 1956 Democratic presidential politics. The senator has been getting some of what are known as the political breaks.

**Former Air Secretary**  
His best piece of luck so far was Truman administration service as assistant secretary of war for air and, later, as first secretary of the separate Air Force. Symington is as well grounded as any civilian on national defense in general and air defense in particular. He's chairman of a Senate subcommittee which has been investigating air defense policies to the embarrassment of the Eisenhower administration.

That investigation will continue right up to national convention time, making campaign ammunition for whomever the Democrats do nominate. It is Symington's good luck again that the Democratic party is planning to make Eisenhower defense policies a major issue in the 1956 presidential campaign. The Senate Appropriations Committee put some fire into that dispute Monday by voting to hike President Eisenhower's air defense spending by a fat \$1.16 billion.

**A Defense Expert**  
Most and perhaps all of Symington's congressional colleagues probably would agree that the Senator from Missouri would be in the best position of any likely Democratic nominee to challenge President Eisenhower publicly on national defense.

Mr. Eisenhower was a glamorous, victorious general. Symington, however, was a top defense administrative official. The spot from which Symington viewed national defense had some advantages over the viewpoint of a man in uniform.

Symington served briefly as chairman of the National Security Resources Board and was put in charge of the Reconstruction Finance Corporation after revelation of questionable practices there compelled President Truman to order a clean-up. The senator was a successful industrialist before coming to Washington.

**Stevenson Leads Way**  
This background would not project Symington far into the 1956 presidential situation but for some unrelated situations. With the presidential primaries out of the way, Adlai E. Stevenson of Illinois leads the Democratic pack, Sen. Estes Kefauver, of Tennessee, who successfully challenged Ste-

venson, was badly mauled in the primary stretch, especially in California. A good many practical politicians now count Kefauver as a possible vice presidential nominee, no more than that.

Gov. Averell Harriman, of New York, now is rated the No. 2 contender for the Democratic presidential nomination.

Powerful forces, including Mr. Truman, apparently are at work to block Stevenson's nomination. Mr. Truman is counted among the Harriman master-strategists.

Powerful forces—conservative Southerners—are at work to stop Harriman. The governor is a so-called moderate Democrat, a 100 per cent Truman fair dealer.

If Stevenson and Harriman both can be stopped for a series of convention ballots, the talk among practical politicians is that Symington would be the logical compromise choice. That's a big if, but it seems to get smaller day by day.

### All Sardines

Sardine is not the name of any one fish. It is applied to any tiny fish with rich flesh and weak bones that can be preserved in oil. Pilchard, herring, sprat and herring, most often are canned as sardines.

## Pampan Jailed On Check Charge

Judge Bruce Parker Monday afternoon sentenced Guy Elkins, 113 South Wynne, to jail for 90 days after Elkins pleaded guilty in County Court to a charge of swindling with a worthless check.

Elkins was cited, for passing a bad \$5 check to the Pioneer Drive-In on April 3.

In a similar case tried yesterday, W. M. Kirk, 302 East Kingsmill, pleaded guilty to passing a worthless \$22.50 check to Dick C. Bayless on April 14.

Kirk was fined \$1 and costs, and made restitution for the bounce. County Attorney Don Cain prosecuted both cases.

### Useful Insect

The small Oriental insect that secretes the resinous substance known as lac, used in varnishes and polishes, perhaps ranks in usefulness next to the honeybees and the silkworm.

### "Hills" of Texas

Texas' surface elevations range from sea level to 4,000 feet above on plateaus, with several mountains more than 7,000 feet high, and the Guadalupe peak at 8,751 feet.

### Swimming Snakes

Contrary to general belief, snakes can swim. They cannot strike as far on water as on land because of lack of firm support, but their bite is almost as effective under water as elsewhere.

**NOT SO RARE**—Silver gibbon who makes his home at the Rare Bird Farm near Miami, Fla., apes humans who get all tangled up in their work. The fact that threads he's trying to unravel are shreds of coconut fiber. Any day now, he'll crack the tough nut he's been working on and get at the meat of the problem.

**Italian Explorer**  
John Cabot was not an Englishman, but an Italian. Born Giovanni Caboto, he went to England about 1484, and Henry VII granted him authority to claim for England any territory he might find.

**Salt Consumer**  
The U.S. chemical industry is the nation's biggest salt customer, consuming about 68 per cent of the 20,000,000 tons produced annually. As a seasoning, people consume only 3 per cent of the output.

**ask**  
**JOE CREE**

**this question:**  
I guess most farm accidents these days are caused by machinery. Can I get liability insurance that would cover the possibilities of injury caused by my farm equipment... from my tractor to a plow?

On any insurance problem, consult Joe Cree Insurance Agency, Combs-Worley Bldg., phone 4-4192.

## Mosquito Experts Search For Fever Carriers

BROWNSVILLE, Tex. (UP)—A four-man team of mosquito experts from the State Health Department were in the Lower Rio Grande Valley this week to search for carriers of yellow fever.

The survey team will collect mosquitoes and return them to department laboratories in Austin for positive identification. The search, described as a precautionary move, was requested by Dr. David M. Cowgill, director of the Cameron county health department.

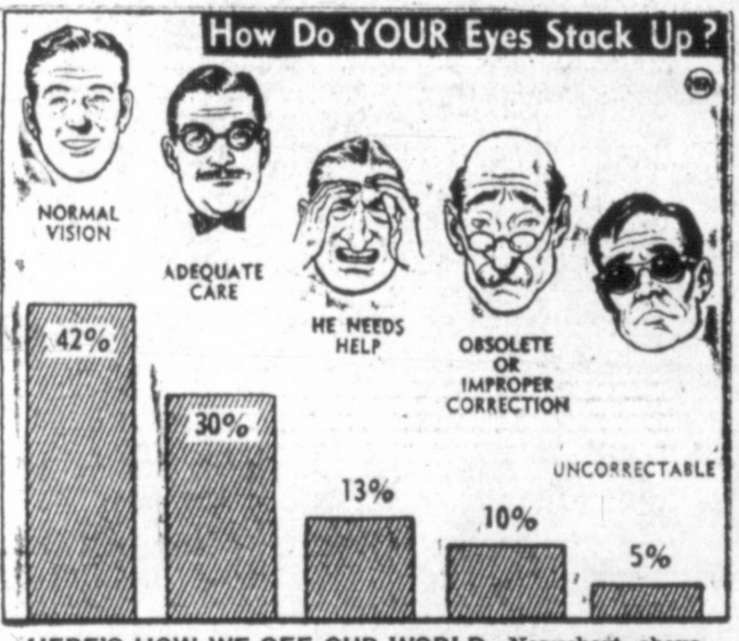

A statement by the State Health Department said yellow fever originating in Panama in 1948 has now spread northward to Guatemala, and is believed now to be moving at about 13 miles per month.

Health authorities expressed belief a "potential threat" exists in the Rio Grande Valley because many of the 300,000 Mexican nationals who enter the United States for farm work each year come from areas where yellow fever mosquitoes are known to exist.

**Northernmost Coal**  
World's northernmost coal mines burrow into the bleak mountains of Spitzbergen, Norway's arctic outpost located only 800 miles from the North Pole.

### New York Group Meets

NEW YORK (UP)—The 300-member New York Democratic state committee meets at noon today to name 24 half-vote delegates at large to the Democratic national convention, elect its own officers and select a time and place for the state Democratic convention.

**HERE'S HOW WE SEE OUR WORLD**—Newschart, above, shows how the sight of Americans stacks up as expressed in national averages. Data are from American Optometric Association, which points out that those persons suffering from uncorrected eye problems and others peering about with obsolete or improper corrections make up a whopping 38 million who need vision care. Typical wearer of glasses has his eyes examined once every 34 months, says the Association, as compared to its recommended yearly examination for children and once-every-24-months inspection for adults.

## Northerners Equal Asthma—Why?

When the Norther Swoops down from Canada with its cold breath most of our unfortunates who still have Asthma will tighten up and begin again the fight for air through tightened lung muscles.

Asthma is not a disease in the usual sense. There is no inflammation, or pus, or lesion.

Asthma is simply tight muscles that will not relax, tightened muscles, millions of them, around the necks of the little air sacs or tubes of the lung tissue. After a while because Miller D.C. of the contractions, fluid gathers and sweats into the inner walls of these sacs so that when the muscles do relax there will be much coughing before the mucus liquid involved in the swelling is re-absorbed back through the air sac walls.

Simple things like this are the result of simple causes. Muscles depend upon nerves and couldn't contract without them. If they contract when they shouldn't then you should look to the nerve supply for the cause of the trouble.

Take this case for example:

After trying for years in some of the best clinics to find health, a boy eight years old was brought to the Miller Chiropractic Clinic. His parents stated that he had suffered from Asthma all of his life: was very nervous, awaking at night, crying out because of nightmares; stuttered when trying to talk; had cramps after meals; was constipated; susceptible to frequent colds and fever which confined him to bed. Spinal analysis and spinal X-Rays disclosed nerve wave interference and defective energization. Corrective adjustments began to restore alignment and reduce interference to brain nerve waves. This boy began to gain weight, sleep soundly and returned to normal health in a few months." No. 419.

When your personal opinion is based on fair investigation and not upon conditioned emotions, you become a satisfied patient. Resolve: for my health's sake I will investigate now.
