CONCLUSIVE PROOF—Yes, everything's bigger in Texas and that also goes for the snow. Where else would a person have to dig four feet down just to get to the roof of his car after a snow storm. That's what Raymond Harrah Jr. is doing above. Harrah recently sold his house on 1238 Hamilton and was scheduled to leave for Dallas Sunday. He spent Saturday afternoon at the home of friends on N. Duncan where he got snowed in and the above situation occurred. As of early this morning Harrah was still digging out his car. (News Photo)

Top O' Texas Starts 'Dig-Out' Work Today

No Fatalities Are Reported In Area; Roads Are Opening

By FRED M. PARKER
Pampa News Staff Writer
(Including information distributed by United Press)

The process of digging out from the worst blizzard in the Top o' Texas in over 30 years got underway in large fashion today with most of the highways in the area open to traffic.

In Pampa, city crews started in again at 7 this morning on the opening of streets. City officials reported that access was made available on most of the traffic arteries of town by late last night but that North Crest had not been opened. The crews have started working in that section of town.

The city workers were hoping this morning that the warm weather today would melt some of the snow and aid them in opening the remainder of the streets.

A total of 1.02 inches of moisture was recorded in Pampa during the storm but this measurement is believed to be only a part of the moisture received. The recording gauges could not catch all of the snow being blown by the strong wind and a great deal of the snow blew out of the gauges.

The warming weather today was creating new problems in the business area of Pampa. The melting snow was resulting in large amounts of water in the streets that had no place to go because of drifts blocking the drainage system. City workers were using shovels to open the gutters in an effort to allow the water to drain off the streets before stores were flooded.

In Pampa, many residents were still attempting to dig out cars this morning. Many cars were hidden by drifts that towered over them for several feet.

Pampans were also continuing efforts to dig out their houses. Many houses in the north part of town were covered by drifts and children were having the time of their lives in walking over houses without touching them.

Sheriff Rufe Jordan and Chief of Police Jim Conner, reported to The News this morning that no fatalities, resulting from the storm, had been reported in Gray County as of this morning.

When contacted by police radio this morning, Sheriff Gus Dorman of Wheeler reported, that to his knowledge, there had been no deaths in Wheeler County as a result of the blizzard.

Estimates placed the total number of travelers trapped in the Panhandle by the intense blizzard at 1,500. This report included those in cars, trapped in stalled trains and others that managed to reach houses and business buildings throughout the Panhandle.

The total number of persons trapped by the blizzard in the states caught in the storm was placed at 4,000 by United Press. A total of 28 persons were dead, according to United Press this morning, and included five persons in the Panhandle.

Groups of motorists gathered in any shelter available as the blinding snow stopped travel on the highways. Churches, schools, court houses, barns, farms and other buildings that could be found were used for shelter by the trapped motorists.

In Perryton, City Manager J. B. Wigham advised the State (See FATALITIES, Page 3)

Frightened Feline Frowns On Freeze

Fern Dawson, local Girl Scout executive secretary, today is telling a story of "the doggeddest little kitten," which got stranded in the storm.

Mrs. Dawson said the kitten got stranded in a garage belonging to Mr. and Mrs. Roy Byerly, 1324 N. Starkweather, in which it was apparently seeking shelter. After the storm, the Byerlys brought the kitten to Mrs. Dawson, thinking she was the owner or might know the owner. She wasn't and doesn't.

Mrs. Dawson says if the owner of the kitten will identify it, she will be glad to "turn it over" to its rightful owner. The kitten is a long-furred feline with stripes and a red collar. Her address is 1316 N. Starkweather.

Mrs. Dawson, who heard that a cow was seen peering into a window of a house on Powell Street during the storm, was wondering today if there shouldn't be some sort of a shelter set up for storm-stranded animals in our area.

Also, Dale Thut, who lives at 2113 Russell, reported that he dug a blonde Cocker male pup out of a snow drift and will be glad to give it to its owner.

LESTER A. JONES
... for school board

Lester Jones In School Board Race

With today as the deadline for filing for a place on the April 6 election to the Pampa school board a third person announced that he was a candidate for election to the board.

Lester A. Jones, 637 N. Dwight, told The News this morning that he had filed with the school business office.

The other two persons who had previously announced for the election are E. E. Shelhamer and Aubrey Steele.

Jones has been a resident of Pampa since 1936 and is an oil well drilling and servicing contractor.

Jones has two children, both in elementary school. He is commander of the local American Legion Post 334 and is a member of the VFW.

"I am opposed to the encroachment of federal authority into our local school system," Jones stated this morning, "and I believe our schools should be held accountable to our local citizens and directed by state and local policy."

"My only reason for seeking this office is a desire to help make the Pampa Independent Schools the best educational system in Texas," Jones concluded.

Two Fires Are Blamed On Blizzard

The local fire department reported that two fires, one Sunday and one Monday, were caused as a result of the blizzard which hit Pampa Saturday.

At 2:35 p.m. yesterday an alarm was received in regards to a fire in the home of one of the firemen, L. V. Bruce. Snow had blown into the attic of the house, located at 2109 N. Banks, and had caused a portion of the ceiling to fall only the furnace resulting in the fire.

Bruce and his family had been caught in Wheeler by the blizzard, and returned home as firemen were putting out the blaze.

In addition to damage from the fire, the interior of the house was (See FIRES, Page 3)

Dave Beck Is Summoned To Hearing

By HERBERT FOSTER and JOHN A. GOLDSMITH
United Press Staff Correspondents

WASHINGTON (UP)—The Senate Rackets Committee, which says Teamster President Dave Beck took at least \$270,000 of union funds for his own use, summoned him to a drama-packed public hearing today to surrender his personal records.

Beck, the burly boss of the nation's biggest union, promised to show up and bring his books as new rumblings of rank-and-file Teamster revolt were heard.

BULLETIN

WASHINGTON (UP)—Teamsters Boss Dave Beck refused today to give his personal financial records to the Senate Rackets committee after hearing a committee charge he "may have misappropriated" more than \$320,000 in union funds.

The committee immediately subpoenaed the records.

Whether he would hand them over, for investigators to delve into the deals which made him a millionaire, was another question—and one Beck wasn't answering publicly in advance.

Beck's statement submitted to the committee Monday which the Teamster president planned to read at today's hearing. Committee rules require such statements to be submitted 24 hours in advance.

Kennedy would not divulge the contents of the statement, nor say whether it revealed Beck's intentions after surrendering his records.

Beck had a constitutional right to invoke the Fifth Amendment against possible self-incrimination, and to hang onto his records even if the committee subpoenaed them. However, this would land him in even hotter water than he now occupies with the AFL-CIO, parent of the Teamsters, which has called on member unions to oust any official who invokes the Fifth Amendment.

It would be expected also to give new impetus to the rank-and-file Teamsters' growing restiveness.

Harry Federspell, a rebel leader in Portland Teamster Local 162, said he and fellow Teamsters have sent an 800-name petition to the rackets committee urging ouster of any Teamster official found guilty of racketeering or misuse of union funds.

"The ball is just beginning to roll," Federspell said.

ONLY WAY OUT—Mr. and Mrs. Paul McNaul, 1416 E. Browning, peer from the bathroom window of their home, which was the only way out of their home Monday morning after the side of the house with the only door was completely buried beneath a huge snowbank. The McNauls' home became a refuge Saturday night and Sunday morning for 16 people, stranded in cars near their home. 16 Left Country Club, Got Stranded In Home

(Editor's Note: Sixteen persons who had spent Saturday evening at the Pampa Country Club tried to leave Saturday night and became stranded in a home between the club and town. Gene Alford, editor of the Moore County News, Dumas, was among the group. Here is his account of the happenings and the hospitality extended to them by Mr. and Mrs. Paul McNaul, in whose home they had to "stick out" the blizzard.)

By GENE ALFORD
Editor Moore County News

The weather has to be pretty foul, even in the Panhandle of Texas, before motorists become stranded right in the middle of the street... comfortably within the city limits.

While weather history was being dramatically written during the peak of the Saturday night storm, a shivering band of people found such to have been the surprising case as they attempted to drive to their homes from the Pampa Country Club.

With street lights guiding a caravan of cars into town, all appeared to go well until huge drifts of snow halted movement and the entire chain of cars settled down to the chilly job of awaiting help, help which could not break through in spite of determined efforts.

As gasoline supplies dwindled,

ONE OF MANY—This late model Buick, buried in snow several feet higher than its roof, was the center of attraction in the north end of town yesterday as many residents of Pampa flocked to the scene to take pictures and just observe the strange sight. It was one of many cars buried in snow in "Our Town," but perhaps this one was buried just a little deeper than most. The name of its owner was unavailable late this morning. The car was stuck in a snow drift on 22nd Street near Williston. (News Photo)

Dick Hughes Wires Protest To Capitol

WASHINGTON, D. C.—Dick Hughes of Pampa joined with one hundred of the nation's leading homebuilders in a protest to the United States Senate about the "catastrophic" situation in the homebuilding industry.

The protest was in the form of a telegram, presented by industry spokesman William J. Levitt to the Senate's Housing Sub-committee now investigating the homebuilding depression.

Hughes said, "Medium industrial workers in Texas and Oklahoma cannot buy FHA financed houses in any appreciable volume because down-payments are too high. Workers can buy VA but builders cannot absorb eight points discount. We are forced to operate on a limited basis pending corrective measures by Congress which would provide much lower FHA down-payments and VA loans that will sell at reasonable prices—or a combination of both. Private residential home building in my area worst in my twenty years experience as a builder."

His telegram, along with those of one hundred of the leading builders from all parts of the nation, was sent to Levitt to arm him with evidence for Senator Sparkman's (D-Ala.) Subcommittee.

Presenting the telegrams, Levitt warned: "If the Congress does not take action—positive, direct and immediate action—to end the depression in the homebuilding industry, to stop this runaway deflation, then we will drag the rest of the economy down to ruin with us."

Many Were Stranded; Here's Story Of Few

By BOB PEREZ
Pampa News Staff Writer

The snow and wind have ended but the memory of the hectic and hazardous week end spent by many of the area lingers on.

Among those who were stranded for better than 24 hours over the week end of snow and impossible winds were Mr. and Mrs. Guy LeMond of 1221 N. Russell. The LeMonds had gone out to the Pampa Country Club for the evening and on their way back got stranded along with six other cars.

The story as Mrs. LeMond related it this morning is as follows: "We had left the country club at about one o'clock in the morning and headed for home. We hadn't gone very far when the four cars in front of us got stuck, making it impossible for us to get by. In back of us there were two other cars which couldn't move either."

Story Of Hotel In Magazine

A story in the current issue of "West Texas Today," West Texas Chamber of Commerce official publication, concerns the campaign to raise funds to build a community hotel in Pampa, and the campaign's effect on the residents of the community.

The story tells of the campaign, how a decision to build the hotel came about, to what lengths Pampans went to assure adequate financing, etc. It was written by Joel R. Combs, Pampa News managing editor.

Israel To Demand Withdrawal Of UN

By WALTER LOGAN
United Press Staff Correspondent

Israel is ready to demand the withdrawal of the United Nations Emergency Force from the Middle East because Israeli leaders feel its presence threatens Israel's ability to defend itself, Jerusalem dispatches indicated today.

The strong Israeli stand against the UNEF—and especially against stationing UNEF troops inside Israel—was viewed in Cairo as a major reason for U.N. Secretary General Dag Hammarskjöld's inability to reach a firm agreement with Egypt on the future of the UNEF.

Hammarskjöld ended his talks with Egyptian President Gamal Abdel Nasser shortly after midnight this morning and prepared to fly to New York to report to the major Suez Canal users on Nasser's plans for reopening the canal next month.

U.N. sources disclosed today that Hammarskjöld had summoned his top financial adviser, Chairman John J. McCloy of the Chase Manhattan Bank of New York, to Cairo to discuss how to pay for clearing the canal—one of history's biggest salvage jobs.

If it comes from a Hardware Store, we have it. Lewis Howe. (Adv.)

Cost of the salvage project has been estimated at around 20 million dollars. Egypt demands that Britain and France pay and has also asked for several millions from the U.N. for wrecked dredging equipment.

Nasser Standing Firm
All reports indicated Hammarskjöld had failed to win any major concessions from Nasser, that the Egyptian president would reopen the canal only on his own terms, and that Israel was not budging in its stand against the UNEF.

Egypt's semi-official Mideast News Agency said Hammarskjöld may confer with Israeli Ambassador Abba S. Eban when he returns to New York on Thursday. Hammarskjöld failed to win any encouragement from Israel on his current mission and that nation made it clear it did not welcome a visit.

The slowly worsening situation came under discussion at Bermuda today between the British and Canadian prime ministers and foreign ministers.

Lester B. Pearson, Canadian minister of external affairs who first suggested the idea of sending the UNEF into the Middle East, joined Prime Minister Harold Macmillan and Canada's Louis St. Laurent in talks that may produce some new idea for resolving the tangle.

POINS PARTNER ASKS MAT 1
By OSWALD JACOBY
Written for Nea Service
A Milwaukee correspondent writes: "In a duplicate game my opponents quickly contracted for a spade game in spite of my partner's third hand opening bid of one diamond."

"I chose to open the queen of clubs from five headed by queen-jack-nine. Nothing could have been more disastrous. I ran into ace-king-ten in dummy. King smothered my queen and after drawing trumps declarer finessed successfully against my jack and was able to get rid of his losing diamond. Then to complete the slaughter he led a low heart from dummy and finessed the ten in his own hand. This enabled him to hold his heart losers to one and gave him six odd for an absolute top score."

"My partner was extremely critical of my lead and claims that I definitely should have opened his bid suit. Just how bad was my lead and should I always open my partner's suit in preference to 'my own'?"

The answer to the first part of this question is that the lead was very bad indeed. West should have realized that his partner had opened the bidding with a weak hand. Otherwise North and South would not have bid game so confidently. The only reason for a light minor suit opening is to secure a lead. You can't expect to steal the contract with a minor suit bid.

As for the second part of the question the answer is that there are many occasions when you should shy away from your partner's suit and choose your own. I will show one tomorrow.

Body Found In Ashes Of Tavern

YUBA, Okla., March 25 (UP)—A body, believed to be that of a tavern keeper, was found Monday in the ashes of the River View Tavern near here. Bryan county Sheriff Raney Arnold said he suspects the man was robbed and murdered.
The victim, burned beyond recognition, was believed to be Jimmy Beauchamp, 54, who formerly was a cattleman and grocer at Ivanhoe, Tex.
The tavern, located on S.H. 70 just north of Red River between Yuba and Bonham, Tex., burned to the ground shortly before 3 a.m.
Arnold said Beauchamp usually had several hundred dollars in his pockets.
Beauchamp's body was found in a room in the building where he lived. John Bonner, who lives about 75 yards from the tavern, said he discovered the tavern aflame, but was unable to break into the building to see if Beauchamp was trapped.

GEORGE EDWARD COLE, 29, from Philadelphia, Pa. WANTED for murder of a San Francisco, Calif., police officer. Six feet, one inch tall, weight 160 to 178 pounds. Medium build, brown eyes, receding brown hair and medium complexion. He has a pit scar on the outside corner of his right eye, an appendectomy scar and a small cut scar on the inside of his right wrist. Cole has tattoos of a small heart and the letters "Mom" and "Dad" and the letters "GPP" or "SP" on his left forearm. He has been employed as a truck driver, bus driver and typist. CAUTION: Cole is reportedly armed with a .357 magnum revolver, and has threatened to shoot any arresting officer. He should be considered extremely dangerous. If you can help locate him, NOTIFY the Federal Bureau of Investigation, Department of Justice, Washington, D.C., or your nearest FBI agent.

Corporate Income Tax Rates, Excise Levies Are Frozen

WASHINGTON, March 25 (UP)—The Senate Finance committee, racing to beat a Sunday deadline, voted Monday to freeze corporate income tax rates and excise levies at present levels for another 15 months.
The measure must be signed into law by midnight Sunday to prevent a \$3 billion drop in tax collections on business and such items as automobiles, liquor and cigars.
Democratic Leader Lyndon B. Johnson said the Senate would take up the measure Wednesday. Finance Chairman Harry F. Byrd (D-Va.) said previously this would enable the house to complete congressional action on the bill Thursday.
Terrible Confusion
Byrd said "terrible confusion" would result if present rates were to expire, even for a day. He said the committee rejected 13 proposed amendments so the bill could be speeded through Congress before the deadline.
The House had passed a bill extending the rates for one year.

Parishes Can't Take Part In Arguments

WASHINGTON, March 25 (UP)—The Supreme Court refused Monday to give five Louisiana parishes permission to take part in tidelands oil arguments before the court on April 8.
The parishes said their financial interests in the case might not be represented adequately by the state. They had asked for 20 minutes.
The Justice Department is suing Louisiana directly in the high court to determine ownership of the valuable underwater oil lands seaward of the three-mile limit.
The parishes asking intervention were St. Bernard, Plaquemines, Jefferson, Iberia, and St. Mary. The court denied their request in a brief order, without opinion.
low the relief should be provided.
The committee-approved bill would extend the present 52 per cent tax rate. Without congressional action, it would drop to 47 per cent. This would cost the treasury about \$2 billion a year in revenues.

At 3:35 p.m. Sunday the firemen extinguished a fire in the '56 Cadillac, owned by Curtis Douglass, 1301 Marl Eilen.

Douglass had tried to move the car out of a drift and one of the tires caught fire as the result of excessive spinning, the firemen reported.

The burning tire ignited the interior of the car and the firemen reported that the inside of the car suffered extensive damage.

Man Being Held By City Police

Robert W. Keith was being held this morning by city police following a fight in the Bellaire Bar, 322 W. Foster, last night.

The local officers reported that they received a call to the bar at 7:30 p.m. and learned that Keith had knocked Jake Barlow down. Barlow suffered serious injuries and was taken to the hospital. No report was available today as to Barlow's condition.

Keith is being held by the officers pending completion of investigation of the case.

Sports Committee To Check Plans

There will be a meeting Thursday morning of the Sports committee of the Chamber of Commerce in the chamber conference room, according to Johnny Campbell, chairman of the committee.

Campbell said that the meeting will be held to double check on last minute details for the basketball banquet to be held in the High School cafeteria Friday evening.

Two Cases Tried In County Court

Two persons were tried this morning in County Court on charges of driving while intoxicated.

The first, Herman Walter Graf, of Vernon, pleaded guilty to the charge and was fined \$100 plus costs and given three days in jail. Graf was arrested by officers of the sheriff's department Monday.

A similar sentence was given to Donald Wooley, 19, of Pampa who was arrested by city police early Sunday morning.

J. B. Parkinson Funeral Held

Funeral services for J. B. Parkinson, who died last Friday, were to be held at 3 p.m. today in the First Methodist Church.

ton on the Amarillo highway.

When he arrived at the station he tried to get help to both McCabe and Wallis. These two however, had run out of gas and were forced to look for some sort of shelter. They managed to make their way to a garage at the Humble Camp, where they made a fire to keep warm. When they could no longer keep warm there, they decided to look for better shelter. Then they found the Humble Camp's Recreation Hall. They broke into the hall and turned up the heating which was in the building; and there they stayed, drinking Cokes and coffee until about 10 o'clock yesterday morning about which time they walked to the Schlumberger offices, about a mile away.

These were just two of the many cases of persons who were stranded and unable to reach their homes or hope for immediate help in what has been termed the worst snow storm in many years. There are many more stories like this one.

Miss Meridith Brooks of Pampa was one of 10 Texas Tech home economics majors who recently became members of Phi Upsilon Omicron, home economics honorary fraternity.

The first aid class taught by John Gikas will meet tonight, according to a report from Red Cross headquarters. The first aid class in Miami has been postponed for a week. Also, the Junior Red Cross trip to Amarillo has been postponed.

The Business and Professional Women's meeting, which was to have been initiation of new members, has been postponed until its next regularly scheduled meeting on April 9.

Mr. and Mrs. Wilford McLeod, 620 N. Nelson, were among the many Pampans visiting out of

the city over the week end who were stranded. The McLeods went to Odessa over the week end for the golf and track meets. On the way back they visited with Mrs. McLeod's brother and family, Austin Davis, of Plainview. They arrived in Pampa last night.

Helicopters now based at Borger were to aid in the search of the area today. Another request for helicopter assistance came from Lipscomb County where high drifts kept rescue workers from checking many miles of highways.

During the height of the storm, winds as high as 85 miles per hour, in gusts, were reported in the Panhandle.

Most of the stranded motorists made it to safety, but some of them didn't make it.

Found Dead In Car

Walter Metzgar, 59, of Shamrock was found dead in his car on U.S. 66 east of Amarillo Monday. He was believed dead of carbon monoxide poisoning.

Walter Metzgar, 45, was found late Monday some two miles from the home of some friends 24 miles northwest of Dimmitt. He had been reported missing since Saturday night.

Auto Hit While Owner Stranded

Mrs. Coleman Williams, who got stranded at Highland General Hospital over the week end, found that the weather was not the only thing causing damage during the storm.

Mrs. Williams went to her car yesterday only to find that someone had hit the car, damaging the front fender, back door and back fender. Mrs. Williams asked anyone who backed or slid into a black Buick anytime between Saturday at 3 p.m. and Monday at 3 p.m. on the parking lot at the hospital, has liability insurance and would like to take care of the repairs, to call her and it would be greatly appreciated.

Piano Students Have High Ratings At Music Fete

Pampa students, who won first and second place ratings at the Music Festival held on the West Texas State College campus last week were students of Mrs. H. A. Yoder and Bill Haley.

Mr. Haley's students were Michael Palmer, son of Mr. and Mrs. Coy Palmer, 2117 N. Russell, who won first place rating in Class II (Junior High) playing Concerto in D Major by Johann Christian Bach.

Miss Jimmie Kay Mack, daughter of Mr. and Mrs. R. A. Mack, 1116 S. Barnes, who won first place rating in Class III, playing Concerto in D Major by Johann Christian Bach.

Miss Kay Kotara, daughter of Mr. and Mrs. Laddie Kotara, White Deer, who won first place rating in Class III, playing first movement in Sonata G Major Op. 36 No. 5 by Clementi.

Miss Sandra Palmittier, daughter of Mr. and Mrs. F. E. Palmittier,

Wallington and Mrs. Celia Mae Bryant, both of the University of Oklahoma.

The event is for the students of the 7th grade or older in school. Class I is for advanced players, Class II, less advanced players, and Class III may be entered only by students of the 7th, 8th, or 9th grades.

There were 26 entries in Class II; 18 entries in Class I; and 54 entries in Class III.

Towns represented were Goodwell, Okla.; Perryton, Pampa, Crosbyton, Levelland, Happy, Hereford, Hedley, Canyon and Dumas.

Casual, Sports, and Dress-Up Fashions Sparked With Color And Fabric Drama

A look into the spring fashions, from the sunny state of California, shows a definite trend toward the fluff, fancy, and complete femininity in the styles.

That "lady-like look" has taken on a greater importance this year, with the leading California designers and stylists determined to keep this theme in everything from swimsuits to evening wear classics.

California's flair for light, gay colors and rich fabrics is very much in evidence in all the fashions previewed.

To be revealed as a true lady on the beach, California favors the empire line in swimsuits. Lush pastel shades and skirts of ruffles, pleats and chiffon draping will grace the figures of the bathing beauties.

Californians fancy navy blue denims of short shorts, pedal pushers with the new hi-rise

waists, bloomer-type playsuits, and the playsuit with the "little boy" legs. The new draw string blouse and the bare midriff jackets, along with the slim-jims, capri and deck pants, are all part of the western outlook.

Casual, Sportswear & Dressy Dresses

Are all more feminine and lovely than they have been in many a day, delicate in both color and cut in the Empire, Edwardian and the draped shape.

Skirts are about an inch longer with the cape contour strongly influencing jackets and suit coats. In fact, the cape is THE THING this spring, even in sportswear.

With the longer hemline, comes lower neck line and very elegant drapes both side and back in the after-five dresses. Evening finery shows an extensive use of romantic organdy, chiffon and nylon.

Coats and Suits

The full cut bat-wing sleeve is a fashion first in California, in suits and the double breasted cape coat. In the cape corner are the suits and coats and cape collars, cape jackets and cape accents.

MATURE PARENT

By MRS. MURIEL LAWRENCE

When this school year began, it was with the rule that 11-year-old Joyce make her bed every morning.

She resists it. Joyce "makes" her bed by pulling her coverlet up over her rumpled bedclothes, leaving an untidy valance of sheet and blanket drooping from under it.

Her mother, figuring the resistance was due to school-morning haste, tried waking her half an hour earlier. But the extra time has not produced a neatly made bed. It's just enabled Joyce to say, "I was too sleepy" to make it right, instead of saying, "I didn't have time to make it right."

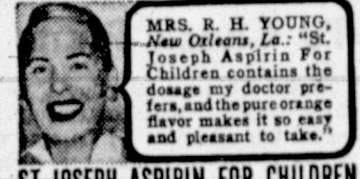

The tension and criticism involved with Joyce's resistance to this rule is making all cooperation between her and her mother increasingly difficult.

To reduce it, it may be wise to repeal the bed-making rule and say to Joyce, "In what other way do you want to contribute to your home?"

first value is the development of his spirit of helpfulness.

Once this is clearly seen, flexibility and confidence return to our treatment of him. We no longer limit Joyce's spirit of helpfulness

to the making of her bed, but see that it can express itself through a wide variety of cooperative actions.

So, freed from the belief that we must force bed-making from Joyce, we find it the simplest thing in the world to say, "All right, darling, I'll make your bed for you. In return will you promise to scour my refrigerator thoroughly every Saturday morning?"

You want your cakes and souffles to look pretty when you serve them; so do not bake them with an oven meal. The steam from moist cookery foods will damage them.

Cash Market Tops 4 Billion

WASHINGTON (UP)—The Agriculture Department said Monday cash farm marketings totaled about \$4.5 billion in the first two months of 1957, slightly more than in the same months of 1956. Prices averaged four per cent higher than a year ago, but the volume of marketings was down a little. Receipts from livestock and products of \$2.6 billion were six per cent above last year because of higher average prices, mainly on cattle, hogs, and wholesale milk. Crops were about \$1.9 billion—four per cent above a year ago—due mainly to a drop in cotton receipts. Cash marketing receipts in February were estimated at \$2 billion, slightly above last year. Average prices were up three per cent, but total marketings were down slightly. Receipts from livestock and products of \$1.2 billion were four per cent above a year ago, with hog prices up substantially. Crop receipts of \$800 million were about the same as last year.

British Freighter Stymies Traffic

HOUSTON (UP)—An act of courtesy from a British freighter stymied ship traffic on the Houston Ship Channel all day Sunday and up to 4:30 a. m. Monday. It all started when the Meadowbank, the British freighter outbound for Calcutta with a cargo of ammonium sulphate, dropped anchors in the channel so another ship could enter ahead of her. The Meadowbank's windlass cable developed trouble and strong northwesterly winds didn't help a bit. The anchors became snagged and couldn't be pulled up. Workmen toiled all day Sunday, from 7:30 a. m. to free one anchor and finally got the other one unstuck at 4:30 a. m. today. While the Meadowbank was stopped, all channel traffic was halted and a dozen ships had to tie up and wait for the embarkment of Meadowbank.

Governor Daniel Proposes Creation Of Commission

HOUSTON (UP)—Gov. Price Daniel has proposed creation of a high-level traffic safety commission to cope with the mounting toll of highway deaths, injury and economic loss.

In a speech prepared for delivery at the 18th annual meeting of the Texas Safety Conference, the governor said he will present to the legislature "within a few days" his proposal for the new state agency.

"Highway safety is an emergency matter due to 2,900 lives lost, 110,000 injured and over \$400,000,000 economic loss from traffic accidents in Texas in 1956, he said.

Other States Have Agencies The 20-member commission would be composed of the governor, other key state officials and representatives of private safety organizations. It would function as an "integral part" of the executive office.

Daniel pointed out 43 states now have similar agencies. He said reports indicated they have "made significant contributions to the over-all traffic safety effort."

The governor noted that highway safety ranked high in importance in his first address to the legislature.

Humble Man Elected "I have recommended an increase in the authorized strength of the Texas Highway Patrol by 300 men—to give the patrol a total of 870 men. I also recommended that the salaries of patrolmen be increased by at least \$50 per month. This step is necessary if we are to reach even the present authorized strength of the patrol since the present long hours, hazardous duty and low pay... make it impossible to recruit enough qualified men," he said.

"Prayers can do more than anything," the child's father said. The Dallas, Tex., youngster, blind and paralyzed for two years, was released from babies hospital of Columbia-Presbyterian Medical Center Sunday night after 10 days of diagnostic tests.

The hospital said Dixie Lee was found to be "suffering with a progressive, generalized cerebral degeneration. There is no known cause for this condition, nor is there any specific treatment for this illness known to modern medical science."

They told us just to take her home and make her happy," Lahood said. "We are still in doubt that 'they know exactly what's wrong. We don't give up."

"It seemed like she knew she was with us last night for the first time in a long time," Mrs. Lahood said. "She smiled. She hadn't smiled in about a month. And Friday she cried for the first time since December."

The couple said they would leave for Texas Tuesday or Wednesday with the little girl.

TO BE SNOWBOUND WITH A FOOTBALL TEAM sounds reasonable enough. But to be marooned 130 miles from home base with track and golf teams and with spring already upon us sounds fantastic until you stop and realize that this is the Texas Panhandle. And in the Texas Panhandle anything can happen.

This cold wintry-like blizzard and the of us from Pampa stranded in Plainview for several days and whatever the plans of Coaches Duvalne Lyon and Weldon Trice may have been must now be abandoned as they get ready for the district meets to be held this week. What a week this turned out to be! Mother Nature has been unkind to the spring sports enthusiasts and no one knows when her wrath may subside. We've seen rain, snow, sleet, dust and wind in five days of travel — all of this mixed into a hodgepodge of what we would otherwise be a fine West Texas game early last week as the teams tried to get in their last work outs in preparation for the West Texas Relays in Odessa.

The two teams left for Odessa Thursday with only a few work outs behind them — and most of those indoors. The sun broke through before we arrived in Odessa.

The next two days the dust and wind marred what would have otherwise been a Fine West Texas Relays.

The Pampa representatives made plans to leave Odessa Saturday afternoon following the relays but blowing dust held visibility to only a few feet and those plans were abandoned. After plowing our way through the continuing dust storm Sunday morning we arrived in Plainview only to be stopped by the snow and ice. And that is where we were until late last night.

Although Plainview was covered with a light crust of snow, it seemed hard to believe that we were unable to get only a few miles outside of the city where the worst part of the blizzard had struck. The sun had been shining in Plainview and only a strong wind prevented travel to the south. We had been told that to attempt to get even as far as Amarillo would be futile.

Coaches worked their teams outside Monday in what may be their last opportunity to drill outdoors until the district meets this week end. Coach Lyon's track team is entered in the district meet in Canyon Saturday and Trice's golf team will compete in Plainview Saturday in the district golf tournament.

Pirates Starting To Roll But Bragan Team Needs Another Year To Win Title

(Editors: This is the eighth in a series on the 1957 prospects of the major league clubs.) By LEO H. PETERSEN United Press Sports Editor FORT MYERS, Fla. (UP)—The Pittsburgh Pirates finally are starting to roll, but Manager Bob Bragan believes it will be at least another year before they will become pennant contenders. However, Bragan who finally led the Pirates out of the cellar last year to finish seventh in his freshman year as manager, feels the club has a good chance to finish in the first division. "I don't see any teams beating out Brooklyn, Milwaukee or Cincinnati," he said. "But I think we can beat out St. Louis for fourth place." Although it lacks power, Bragan classifies his outfield of Bill Virdon in center, Lee Walls in left and Roberto Clemente in right as one of the best in the league. However, he pointed out that the three of them hit only a total 28 home runs. Stewart Questionable Virdon batted .334 after the Pirates got him from the Cardinals and wound up with an average of .319, second only to Hank Aaron's .328. Clemente batted .311 while Walls, after a fast start tailed off and wound up with an average of .274.

RECORD BREAKER—Dick Barrett has broken three track meet records in recent meets held but he has been unable to win the low hurdles event. The Harvester hurdler placed second in the event at Snyder and Big Spring and third at Odessa but broke the records to no avail. He is entered in the district meet this week. Barrett won the low hurdles in district last year. (News Photo)

Weather Conditions Prevent Practice By Harvester Teams

Sports events in Pampa are likely to be curtailed this week until the snow left in the path of the big blizzard clears away. A baseball game is the only athletic event scheduled for Pampa High School teams here this week but the track and golf teams are depending upon decent weather to work outside in order to prepare for the district meets this week end.

Modified Free Throw Rule Adopted By Cage Committee

KANSAS CITY, Mo. (UP)—A modified free throw rule used this season by the Big Ten conference was the major rule change adopted by the National Basketball Committee in its two-day meeting here. Announcement of the new rules concluded the committee's session Monday. The new six-foot rule means the one-and-one free throw rule is not in effect for the first six fouls by each team in each half. Only after the first six fouls, does a player get a "bonus" shot if he scores on his first attempt. In another effort to speed up the game, officials were ordered to warn the "responsible" team during stalls to make "a reasonable effort to get action" or be subject to a technical foul. The "responsible" team, the rule states, is the team behind in the score. If the score is tied, the team on defense is the "responsible" one. Another revision calls for the ball being thrown into play from under either goal, but if the ball goes behind the backboard on the throw-in it will be regarded as out of bounds. It was written to prevent players from throwing in over the backboard to tall players for "dunk" shots. The committee also made a new rule that players on offense can-

Film Review Gives ACC Relays Title

ODESSA, Tex. (UP)—A film review of the West Texas Relays ended the tie between Abilene Christian College and Baylor Monday. ACC was awarded first place in the University division of the relays after the Odessa Chamber of Commerce Sports committee decided Bill Woodhouse tied for second place with Jerry Beck of Houston in the 100-yard dash. Woodhouse said he thought he had finished second behind Bobby Morrow, who smashed the century race in 9.4 riding a 20-mile tailwind. The team totals after the ad-

Brooklyn Shuts Out Yankees, 1-0

By FRED DOWN United Press Sports Writer Johnny Podres and Don Larsen settled today for a "draw" in the first of the "Mr. Wonderful vs. Mr. Perfect" meetings which the Brooklyn Dodgers and New York Yankees expect to extend into the 1957 World Series. The pitching heroes of the last two World Series met for the first time Monday and the result was a splendid 11-inning contest won by the Dodgers, 1-0. Neither hero was around at the finish, of course, but each put on a whale of a show for the record Vero Beach, Fla., crowd of 4,384.

Hawks Meet Celtics In Final Playoffs Of NBA

MINNEAPOLIS, Minn. (UP)—It will be the St. Louis Hawks against the Boston Celtics in the final round of the National Basketball Association playoffs, opening in Boston on Saturday. The Hawks completed a 3-0 sweep of the Western Division finals Monday night when they beat the Minneapolis Lakers, 143-135, in a stormy, two-overtime tussle that ended in a protest by the Lakers. The Celtics previously completed a similar sweep in the east. The Hawks, who won the first two games of the best-of-five western finals on their home court, were tied with the Lakers, 114-114, at the end of regulation time and 131-131 at the end of the first overtime. Then they outscored the Lakers, 12-4, in the second extra session. The Lakers' protest stemmed from the closing minutes of regulation time. They were leading, 114-112, when the clock was set back from five seconds remaining to eight seconds remaining. They claimed this was an error and gave Bob Pettit of the Hawks a chance to drive in for the tying basket. Pettit was the Hawks' high scorer with 35 points, but individual game honors went to rookie Bob Leonard of the Lakers with 42. League officials at the game disallowed the Lakers' protest. Referee Norm Drucker had blown his whistle when the Lakers threw the ball in from out of bounds, but he was overruled by referee Arnold Heft. Heft ordered it returned back to their seconds. When the Lakers threw the ball in again, Jack McMahon of the Hawks tied up Chuck Mencil of the Lakers. The Hawks got the ball and fed Pettit for the tying basket.

Podres, picking up right where he left off on Oct. 4, 1955, pitched six hitless innings in which he pitched the minimum 18 batters. Then he stepped aside in favor of Don Drysdale, who kept the no-hitter going until Tommy Byrne singled with two out in the ninth. Tony Kubek singled in the 10th for the Yankees' other hit.

Larsen was "bombed" by Cincinnati in his spring debut last Wednesday, but Monday he yielded four hits in five innings and now has pitched 14 straight shut-out innings against the Dodgers. Podres, meanwhile, has a string of 17 shutout innings against the Yankees.

Byrne added five more scoreless innings to Larsen's five, but the Dodgers pushed over the winning run against Al Cloette in the 11th. Don Demeter opened the inning. Ernie Banks and Jim Bolger for the Giants.

Only three other games were played Monday as rain washed out Detroit vs. Chicago, Cincinnati vs. St. Louis, Pittsburgh vs. Philadelphia and Wichita vs. Milwaukee. Dusty Rhodes cracked a two-run homer off Sandy Consuegra in the 12th inning to give the New York Giants a 4-4 win over the Baltimore Orioles. Foster Castleman and Hank Sauer also hit homers

smashed two homers each as the Chicago Cubs defeated the Cleveland Indians, 10-6, to hand the Tribe its sixth defeat in seven games. Bob Rush, being primed for the Cubs' opening day assignment, pitched five strong innings before running into a four-run flurry in the sixth. Chico Carrasquel homered for the Indians. The Washington Senators scored seven runs in the eighth inning to beat the Kansas City Athletics, 8-3, in the other game.

Archie Moore To Defend His Title

DETROIT (UP)—Ancient Archie Moore today was assured of keeping his light heavyweight crown until at least June 7 when he meets the winner of the Chuck Spieser-Tony Anthony bout here at Olympia Stadium. Moore, weighing 210 pounds but promising the excess will be gone by June, signed for the title defense Monday — one week after the original deadline fixed by the National Boxing Assn. and the New York State Athletic Commission.

The boxing bodies had threatened Archie with loss of his crown if he didn't sign for a defense by March 18. Spieser, No. 1 contender, meets third-ranked Anthony at Olympia April 8.

West Takes 64-60 Victory Over East

KANSAS CITY, Mo. (UP)—Gary Thompson, Iowa State's little guard, helped win another game for his coach when he paced the West to a 64-60 victory over the East in the annual Ararat Shrine all-star classic Monday night.

Coach Bill Strannigan of Iowa State supervised the winners and Frank McGuire of North Carolina coached the East team. Thompson, who was a second-team selection on the United Press All-America, took scoring honors with 18 and was named "most valuable player" of the charity game.

All-America Lemmie Rosenbluth of North Carolina's national champions led the East with a 14-point performance. Big Jim Krebs of Southern Methodist was best rebounder with 15 for the West. The West all-stars held a slim margin through all but 30 seconds of the second half when All-America Gary Wallace of South Carolina hit a basket to give the East a 56-55 edge.

Then Krebs hit two fielders and stole the ball to make a lay-in to push the Western team to a lead to the finish.

McIntire Winner Of North-South

PINEHURST, N. C. (UP)—Pert Barbara McIntire of Toledo, Ohio, set her sights on the Western Amateur and the National Amateur championships today following her triumph in the 55th annual Women's North and South golf tournament. FACING UP TO IT—From the rapt expression on this Italian beauty's face, she doesn't mind the rather startling appearance of her dance partner. They were participants in a masked ball in Rome.

JERRY REWARDED—Comedian Jerry Lewis, in New York City, receives from Mrs. Lou Gehrig an inscribed painting of the protected Institute for Muscular Dystrophy. The gift was in recognition of his radio and TV appearances on behalf of the recent Muscular Dystrophy fund campaign, of which Mrs. Gehrig was national chairman. Institute will be built adjacent to the New York Hospital-Cornell Medical Center.

H. W. Waters Insurance Agency, 22 Years In Pampa

HEADQUARTERS FOR ALL INSURANCE—This is the office of Waters Insurance Agency, 117 E. Kingsmill, MO 4-4051, where H. W. Waters, is ready to serve you. Take advantage of his 22 years of insurance counseling, call on him today for all forms of insurance: new comprehensive dwelling and family auto policies, liability protection, life insurance, educational policies. To be sure of your protection call MO 4-4051, H. W. Waters today.

Better Insurance Protection—You get the advantage of 22 years of insurance counseling when you call on H. W. Waters Insurance Agency, 117 E. Kingsmill, MO 4-4051.

H. W. Waters Insurance Agency for almost a quarter-century has merited its slogan, "our aim is to help you," by its skilled and conscientious counseling. This agency offers all forms of insurance, including these two new comprehensive policies: comprehensive dwelling insurance and the family automobile policy.

Other insurance policies include liability coverage for store keepers, professional men and women, garage owners, owners and tenants, home owners; also trip accident insurance, hospitalization, sickness and accident insurance, life insurance, and educational policies.

Comprehensive Dwelling—The new comprehensive dwelling policy provides the home owner with complete property and personal liability protection in a single package. It is so flexible that it can be tailored to fit the exact needs and requirements of a particular case.

All coverages of each policy holder are combined in a single policy—therefore the premium is substantially lower than if each coverage were written separately. Coverages in this policy include: fire damage on the house, furniture and personal property; windstorm, hail, explosion, riot, civil commotion, aircraft and vehicle damage, smoke damage on the house, furniture and personal property; theft, liability, glass breakage, water escape, vandalism, malicious mischief, falling trees, ice, snow and freezing.

Credit For Premiums—All these coverages on your house and personal effects previously required at least four policies. Now they are yours in one policy, and at a savings!

You do not have to wait until your present insurance expires to take advantage of these savings. You get credit for the unearned premium you have paid on your present policies when you take the comprehensive insurance, Mr. Waters said.

Family Auto Policy—Your new Family Automobile Policy is designed for all your cars under one policy. It provides:

Complete protection against injury and damage suits or claims for anyone driving your car with permission; your children and relatives living with you while driving private passenger cars; you and your wife while driving any car, including non-owned cars furnished for your regular use.

Accidental Coverage—Complete protection against expenses for accidental injuries to anyone in your family, who lives with you, from any automobile accident, even while you are pedestrians or while your children are riding bicycles, etc.; any one driving your car with permission; passengers in any private passenger car driven by members of your family.

Complete protection for your car or other cars your family may drive against: all loss or damage to cars, fire and lightning to robes, wearing apparel and personal effects; malicious damage to tires, tow-in and road service, transportation expenses when car is stolen, loss or damage to owned or borrowed utility trailers.

Liability Protection—Liability protection in this policy pays sums for which you are liable for bodily injury or damage to property of others arising from the ownership, maintenance or use of your car, and the use of cars belonging to others. It also pays costs of your defense whether you are liable or not. Thus it pays claims for bodily injury and property damage, first aid, cost of investigation, attorney fees, court costs.

Medical Protection—Medical protection pays the costs of accidental injuries to you and your family while occupying any car, or struck by any automobile while pedestrians, riding bicycles, etc.; pays costs of accidental injuries to other persons while

driving your car or occupying any owned or non-owned car driven by members of your family; pays hospital bills, ambulance service, medical and dental fees, nursing service, funeral expenses.

Physical damage protection pays for any damage to your cars or non-owned cars driven by your family; comprehensive covers any loss except by collision. If stolen it pays cost of recovery and repair and transportation expenses while car is gone. Collision covers collision loss. It pays costs of fire including personal effects, theft including transportation expenses, glass breakage, wind and other losses, tow-in service, collision and upset.

Additional Auto Protection—Additional coverages obtainable on auto insurance include:

Total disability coverage which pays you \$25 to \$50 weekly while you are totally disabled by injuries sustained in an automobile accident.

Death indemnity coverage which pays a lump sum of \$5,000 or \$10,000 if you die from bodily injury in an auto accident within 90 days after the accident.

Costs are so low: \$25 a week disability and \$5,000 death coverage for only \$5 a year; \$50 a week disability coverage and \$10,000 death coverage for only \$10 a year; \$5,000 death coverage alone for only \$2 a year; and \$10,000 death coverage alone for only \$4 a year.

H. W. Waters Insurance Agency can provide these and all other forms of insurance. Call H. W. Waters today, arrange for him to talk with you and your wife or husband in the evening.

And let him help you arrange home loans. His skill can save you long and unnecessary delays. Use Waters' 22 years of experience to your advantage—call MO 4-4051 today or stop in at 117 E. Kingsmill.

McLEAN—A cast selected from members of the McLean High School presented a play in the district interscholastic one-act play competition in Canadian today. Other towns competing were Canadian, Clarendon and Lefors.

McLEAN—Two judging teams from the McLean F.F.A. chapter will go to Abilene Monday to the annual judging contest to be held at Abilene Christian College.

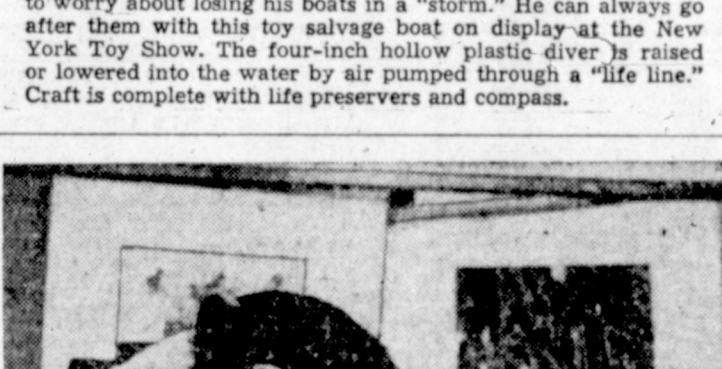

Massachusetts was the first of the American colonies to issue paper money, doing so in 1690.

LIGHT CARPENTRY—Carpentry with matches is the hobby of R. C. Taylor, of Memphis, Tenn., who displays a miniature piano he made of scrap wood and 1,000 inlaid wooden matches. At left is another of his products, a small mirrored cabinet. Taylor started his hobby six years ago while in the Army.

OPERATION SALVAGE—No need for this bathtub admirer to worry about losing his boats in a "storm." He can always go after them with this toy salvage boat on display at the New York Toy Show. The four-inch hollow plastic diver is raised or lowered into the water by air pumped through a "life line." Craft is complete with life preservers and compass.

PUTS THE FINGER ON MODERN ART—Betsey, the chimp, who has created quite a bit of talk in the art world for her finger-paintings, starts a new "abstraction," using a brush. One of her previous works is seen in background. The seven-and-a-half-year-old chimp lives at the Baltimore Municipal Zoo.

Defeated Meters Join With Movies

By **ALINE MOSBY**
United Press Hollywood Writer
HOLLYWOOD (UP)—What has happened to pay television? Telemeter, defeated so far by "vested interests," now is teaming with theaters to bring first-run movies into homes.

In four years Telemeter, the best-known pay-TV system owned mostly by Paramount Studio, has failed to become a practical reality. The Federal Communications Commission, swamped with arguments against pay-TV from television networks, has taken no action yet on the subject. Even a try in Palm Springs by Telemeter to operate on a closed circuit, requiring no FCC approval,

Join With Movies

flopped because studios refused to send first-run films.

On the theory of if-you-can't-beat-'em-join-'em, Telemeter has announced it is joining forces with movie theaters. Telemeter now is ready to operate on a closed circuit system, not requiring FCC approval, with movie theaters piping their first-run films into home TV sets.

Telemeter executives feel this solves the problem of getting first-run movies, and also eliminates the vigorous objection of theater men who thought they'd be edged out of the business.

One theater chain representing 1,000 theaters has contacted Telemeter.

You Save 50% 1-Day Mattress With Acme's Service!

Feel better, rest better, save more with a mattress by Acme Mattress Co., 817 W. Foster, MO 4-6621.

You feel better because you rest better. And you rest better because your Acme mattress is shaped right for proper rest and relaxation.

Save 50 Per Cent
While you feel better, rest better you save more—50 per cent and more with an Acme Mattress!

Save more this way: have Acme renovate;—rebuild your mattress. Thus Acme gives you a like-new mattress for less than half the cost of a new one!

Follow these steps as Acme renovates—rebuild a mattress: Acme free pick up and delivery service picks up your mattress.

The old ticking is ripped off. On an inner spring mattress minor repairs, if needed, are made on the springs, and the spring cover is replaced.

Cotton is ginned, put into the felt machine which fits the cotton into layers like quilt batting. Cotton then is unrolled and put into the electrical filler box which fills the mattress uniformly.

The binding is reinforced by the sewing machine.

Mattress is tufted by hand.

A machine puts the rolled edge on the mattress.

Mattresses to be sold, those with other than your own cotton, are sterilized in the Acme Amarillo factory.

Acme returns your mattress to you.

One-Day Service
This renovating service redoes your mattress in one day! No turn up house. No substitute bed. Sleep on your own mattress Monday night, have it rebuilt Tuesday, sleep on your "new" mattress Tuesday night!

In comfort and service you get the equivalent of a new mattress for as little as \$10.50 for cotton mattresses. Other Acme prices are correspondingly low. For instance you can have your cotton mattress built into an inner spring for as little as \$19.50—and all in one day!

Call today, and let Gene Tollison, operator of Acme Mattress, explain this service and low prices. He can tell you exactly how you save by having your mattress renovated—using the same cotton (which very often is of higher quality than the cotton in a new mattress).

Acme Mattress Co., in its complete, modern plant, does custom work exactly as you want it. Here you don't "buy a package or nothing."

meter about getting franchises. An Oklahoma City theater chain already has launched a sideline to send its movies into homes without even the benefit of the Telemeter coin box.

"We hope the FCC will give some affirmative action for a Telemeter trial soon," says Lou Novins, one of the Telemeter executives. "But as that might take a year or two to go into effect we are going ahead with this project that does not require FCC approval. We are now in business."

Via Telemeter's new system, the home customer has a coin box atop his set with slots for coins and a gadget keeping track of his credit in case he can't put in the correct change. A recorded voice announces what is playing on the pay-TV channel or channels.

Snow Chills Wanderlust
IONIA, Mich. (UP)—Two Ionia State Hospital for the Criminally Insane trustees celebrated the first full day of spring Thursday by walking away from their work detail. Louis Feast, 30, and Joseph Wilson 31, both of Detroit, were retained three hours after their escape by police who followed their tracks in the snow to a barn where they were hiding.

Every year, weeds cost the South Dakota farmer enough to run the entire state for two years.

Over-Size Mattresses
In addition to the renovating and rebuilding Acme produces over-size mattresses, box spring and inner spring mattresses, foam rubber and felted mattresses in any size. Another Acme product is quilting cotton.

All these products and all work have the advantage of Acme's 23 years of experience.

Acme features the latest in mattress cover patterns, the complete line of mattresses from 130 coil to and including 312 coil mattresses; also roll-away beds, bed springs and Hollywood beds; and

felt for the upholstery trade. Among the modern machines in the up-to-the-minute Acme plant are the felting, roll edge, renovating, taps edge machines, cutting tables, these machines are used with others to provide the best in mattress making.

Remember this important fact about Acme: this modern plant is in the "low rent" district. Acme passes on the savings in rent to you.

Come in, visit and inspect Acme Mattress Co., 817 W. Foster, MO 4-6621.

"DUST STOPPERS" are made by the Nation's most unusual manufacturing plant. Dedicated to the American Housewife in helping her keep DIRT on the outside of her HOME.

4 POINTS TO REMEMBER IN BUYING WINDOW INSULATION

1 Does It Keep Out Dirt?
2 Does It Stop Fading of Drapes and Furnishings?
3 Does It Give 100% Heat Protection?
4 Does It Give Protection Against Winter Cold?

—"ONLY DUST STOPPERS" do ALL These Things—
