The plight of many would-be Cub Scouts is evidenced in the above picture as two members of a Cub Pack unit seem ingly tell another boy they would like to have him but they are "full up" now. The picture was taken to illustrate conditions against which efforts are now being brought by Scout workers. The boys are, left to right, Dan Foster, son of Mrs. Lucille Foster, 1705 Coffee; Johnny Elder, son of Dr. and Mrs. J. Foster Elder, 2004 N. Russell; and Michael Wise, son of Mr. and Mrs. Alan Wise, 616 N. Wells.

By R. C. HOILES

In the last issue I was quoting from "The Human Side of Science"

or "What Man May Be" by George

When I read a book I like to mark those paragraphs or state-

ments that might be useful in try-

ing to figure out what's going to

Harrison seems to be optimistic

as far as man's future is con-

cerned and his ability to harness

energy. Here is how he thinks we

have increased our ability to har-

ness energy in the last few years:

uranium atoms of the U 235 isotope

seemed fit for industrial energy

release, the nuclear fuel in sight

was equivalent to about 600 billion

tons of coal, or one-sixth of the

world's reserves of fuel. The bree-

der pile, however, has raised vis-

ible nuclear energy reserves to the

equivalent of 90 trillion tons of

coal, and our visible energy store

of all kinds is increased perhaps

twenty-five-fold over what could be

seen a few years ago. Thus man

has been given extra ability either

Controlling Environment

Harrison points out how we can

mark a much bigger step in man's

ability to control his environment

than any he has taken before, for

it gives him the opportunity to be

at home on more fundamental lev-

els of the material world, in-

stead of merely working in the

outskirts. Calling the release of

nuclear energy a 'new Promethean

fire' is more than just a meta-

phor or an analogy. The new fire

of atoms presents to man an op-

portunity similar to that he re-

ceived when he first 'rev back a

working age, 14 years and older,

were in the labor force last year.

Well, well. Does this constitute

And why in these times of 'unparalleled prosperity," do so many families apparently find it necessary for both father and mother to work outside the home?

I think we do not have to look far for the answer to that. Government today soaks up approximately a third of our earning power. Were it not for these outrageously high costs of government, the father could earn almost as much "take home pay" in most cases as both father and mother currenty do: Moreover, the lower prices of goods that would result from lower taxes would make up most, if not all, of whatever difference

And who can say that, on the whole, families are not better off with the mother in the home rather than in an outside job? It seems to me that we have been sold a pretty shoddy "bill of goods" by those who insist that progress consists of a constantly growing government - which means, of course, a constantly growing tax bill that has now reached the point where in millions of homes both father and mother have to work outside the

MR. FAIRLESS ON FOREIGY AID (Chicago Daily Tribune)

Benjamin Fairless, the chairman of Mr. Eisenhower's world rirdling commission to investigate the effects of foreign aid, delivered himself of a few preliminary judgments in reaching Tokyo. "If any country wants commu-

hism," said he, "my answer to that is to let them have communism. We indorse the view. If a man thooses suicide, the best intentioned remonstrances of his dearest

friend will not dissuade him. He

cannot be bought away from his

inclination-which is the underly-

ing theory of foreign aid. If the man (or country) is clear headed, he will not be persuaded that communism offers any escape from the troubles that beset him. He knows he will only trade one headache for another, far more vexatious. He will lose all of his freedom. He will be obliged to embrace tyranny. He will surtender independence of thought. He will not be permitted free expression. The police may take him and lock him away from his fellows. The terror may expunge him as a living entity. He will be denied even the consolations of

And for this sacrifice he is given system that does not work. In the name of equality, it grinds all to a drab, common level. It does not create plenty, but scarcity. It does create, with a singleminded purpose, the machines of war, to crush all opposition. It engenders hate for all who re-

main free. Where, in all this, can there be a grain of promise, a pulse of aspiration, for the betterment of mankind?

So, if anyone voluntarily chooses this lot, what, possibly, could turn him from the choice? Certainly not the sympathy of Americans. Certainly not their dollars. In this judgment, Mr. Fairless unquestionably is right. We can-

not save people who will not save But we are unable to follow Mr. Fairless' logic when he turns

around, in the face of this conclusion, and says that foreign aid, especially in its Marshall plan manifestation, has been a good

from going communist.

So, if Mr. Fairless thinks that only American aid saved western Europe from communism, he is saying that these countries consciously confronted the evil choices allowed by communism, that they were ready to abandon all that national character and tradition had made them, and that only handouts swerved them from that choice.

to communist influence, especially Italy and France, the Communists, under the most favorable conditions, in the days immediately following the war, were never able to command a following that would give them the government. Most of these countries have managed to achieve a comeback that has lifted them above the highest economic attainment of the pre-war years, and the most spectacular achievement of all was in those countries which benefited least from American dollar

handouts-Germany above all. refused if they had never received a dollar, and their recovery would have been more sound

every moment.

THE NATION'S PRESS

thing, because it saved Europe We commend to Mr. Fairless' attention one cardinal fact: No nation, not even Russia, not even Red China, has ever gone communist of its own free and voluntary election. Communism as an armed political movement has reduced some countries. It has infiltrated and subverted others when the Red army was already occupying the nation engorged. It

tion. The king crab, as we have scan, comfortable in his salty sea. has never won a nation thru consent of the governed. has remained a crab for one hundred sixty million years. The opossum, retiring from disagreeable reality in a trance, has remained the same for eighty million years. The porcupine, fairly safe behind his quills, has never needed to become other than slow came the skunk found his evil ed little intelligence. The armor That is manifestly untrue. Even same effect on them. To survive,

in the countries most susceptible the mammals had to flee in fear: the faster and smarter ones got. to become men.' "No picture of creation is more great new things under the sun."

The nations which refused to MOPSY embrace communism would have and their self-respect stronger if they had never been claimants on charity. They simply lacked the will to turn down free offerings when these, were pressed upon them. After all, why should they, for they had no reason to forget one of America's preeminent teachings: There's a sucker born

Frank McGuire's Sidewalk Tar Heels That Home Grown Treatment

NEA Staff Correspondent

The kid in charge of playing the record promptly put on "Hark the Sound," North Carolina's alma mater song, and everybody thought it was fine.

For Coach Frank McGuire and his team of transplanted New Yorkers have taken over the area. After seeing the Tar Heels win their first 22 games (the NCAA doesn't include an opening victory over the McCrary Eagles, an industrial team) a hat was quickly passed around among alumni and fans and McGuire was to wind up

with a new \$5,300 Cadillac. To an outsider, the question always has been whether handsome, quick - talking, smoothly - dressed McGuire, the original New Yorker, could get along in the Dixie belt and whether the locals would accept teams comprised almost completely of kids brought down from the Big Town.

Watching the start of a game takes care of that. The Tar Heels always take their warm-up without the coach, who sits it out in the dressing room. Right before the tip-off, McGuire makes his entrance. The usual capacity crowd of 5,500 greets Frank in tones usually reserved for a man who is campaigning for lower tobacco

Then, the Carolina players are introduced. Tommy Kearns, the backcourt man who delivered key points in each of the five tough

JOE CREE

this question:

I've totaled up my insurance costs for 1956 . . . and you were right! That comprehensive homeowners policy you sold me a year ago actually saved me money, not to mention the time and trouble saved keeping track of individual risk policies as before. All I want to know is, why didn't I learn

about this ten years ago? On any insurance problem, consuit Cree Insurance Agency, Combs-Worley Bldg., phone 4-3357

games the Tar Heels were in over heels' 25-point scorer, is sent out. McGuire will leave. The school retheir 22-game run, is given a big Not since Charley Justice's football gards him as more than a coach. Drive Inn won 1.

Carolina basketball broke into a Joe Quigg, 6-8, the consistent dou- the slim, 6-5, crew-cut kid from pre-game commercial and an ble-figure scorers. All are from the Bronx,

Tommy Kearns of North Carolina

the Knicks miss the National Basketball Association playoffs, Mc-Guire will be brought up to coach them next year.

But McGuire has flatly refused

to take transfer students, an old

high-pressure coaching move. He

also has made it clear that the

academic side was important. Last

year, for example, Harvey Salz

and Stan Groll, good backcourt

prospects, were dropped for aca-

demic deficiencies. Salz, a fine

high school player out of Brook-

lyn, is expected back in Septem-

ber. But this year, 6-11 Bill Hath-

away ran afoul of books at the end

of the first semester and when

last heard from was on his way

have been printing it, too, that

to Dayton.

They'd like to limit northern contacts to McGuire, his players and the mob of New York City policemen ("The neighbor's children," Frank calls them) who serve as unofficial but effective scouts for North Carolina.

Man, when you've just got to have \$480 to meet some unexpected expense, like hospital or dental or a car overhaul or something it can look like \$480,000. can't it? But wait, now. Just get on your bicycle and get yourself down here, and let US consolidate those bills. We know all about your kind of troubles-we see 'em all day long. And LOOK: \$24.85 is not a lot of money, is it? Well, \$24.85 repays that \$480 S.I.C. loan (24 months) of course, subject to usual credit regulations. Man, hurry down,

Marion Plans To

Move Pro Lakers

Marion and his associate, Milton Fischmann, agreed with Lakers' owner Ben Berger Tuesday on a "provisional" sale of the National Basketball Association club. The provision is that the Minneapolis group gets until March 13 for its effort to keep the team in that city. If the civic group fails, then Marion and Fischmann say they will move the team "to Kansas City or possibly some oth-

Dark Goes For Third Golf Title

TAMPA, Fla. (UP)-Alvin Dark, the St. Louis Cardinal shortstop who smacks a golf ball as well as he hits a baseball, aimed for nis third straight golf victory today as he teed off in the sixth annual West Coast Baseball Players and Broadcasters tournament.

The St. Louis infielder recently won the Cavalcade of Champions at Lake Worth and the Miami tournament for baseball players.

INDIANAPOLIS, Ind., (UP) -Lightweight Kenny Lane's manager, Jack Kearns, has posted a \$50,000 guarantee for a title bout with champion Joe Brown on the eve of the Indianapolis 500-mile auto race. If the proposed bout is held, the scores of the officials will be announced between rounds for the first time in a title bout.

PHILANTHROPIST AT 10-Chalk up a second triumph for Logan Dawson, 10, of Rix Mills, near Zanesville, Ohio. Five years ago he fought through infantile paralysis without lasting defects. Now he's going to repay the polio foundation for its aid with a generous act. One of Logan's dreams is to have an entry in the county fair as a 4-H Club project. After he started raising an Aberdeen-Angus calf, he discovered he was too young to enter this year. But he had an inspiration. Now, he'll sell the calf at maturity and donate the proceeds to the polio fund. Appropriately, the calf's name is "Poly."

SCIENTIFIC REDUCING

2010 North Hobart

IT'S LIKE TWO ENGINES IN ONE !

TRIPLE-ACTION RESERVE POWER! Nudge the accelerator beyond the 3/4 mark and you "call out the reserves"! The J-2 Rocket then operates on three dual carburetors! J-2 is available now at a modest extra cost. Try it!

It's the most exciting engine development since the first Rocket was launched!

Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation. The first big step towards this goal came from Oldsmobile when the first Rocket Engine ushered in the modern highcompression era.

And today, Olds is ready with the new J-2 Rocket.* You'll find that in operation, it's like two engines under the hood!

In your day-to-day driving, you enjoy the

smooth, alert action of the Rocket-with the fuel economy of dual-jet carburetion and a 10-to-1 compression ratio. But beyond all this there's a "second stage" in J-2 operation to meet the exceptional driving situation. Just open the accelerator beyond the 34 point and two additional carburetors automatically jet into action. There's an instant boost in torque and power-You'll appreciate the immediate response as another Olds contribution to your safety.

Be our guest for a J-2 test now!
