17 Victims Of Crash Found

By CHARLES BERNARD
United Press Staff Correspondent
HONOLULU (UP)—An air-sea armada that found the bodies of 17 persons killed in the crash of a Pan American Stratocruiser, combed a small area of the Pacific today in the slender hope of

finding survivors. None of the researchers held out much hope of finding survivors, but it was a chance they could not afford to overlook. The search concentrated on an area 1,040 miles northeast of Hawaii.

A Navy plane from the carrier Philippine Sea spotted wreckage from the Stratocruiser "Romance of the Skies" Thursday, six days after it disappeared while flying from San Francisco to Honolulu with 36 passengers and eight crewmen.

The wreckage was scattered over a 33 square mile area.

Carrier At Scene
The Philippine Sea was the first ship to reach the scene. Soon the destroyers Renshaw and Epperson and the Coast Guard cutter Berling Strait joined the carrier in the grim job of recovering the bodies.

The bodies were taken aboard the Philippine Sea and placed in an improvised morgue. The carrier was ordered to carry them immediately back to Long Beach, Calif.

The Chief of Naval Operations in Washington asked medical officers on the Philippine Sea to examine the bodies and report an opinion on the probable causes of death.

The first report from the carrier said the victims suffered "extensive injuries...with multiple fractures considered the cause of death."

Victim's Shoes Gone
Twelve of the bodies wore life-jackets, five of which had expired air cartridges. None had shoes. This indicated the ill-fated Stratocruiser hurtled into the water and broke into pieces while the passengers braced themselves for a crash.

One body was still belted to an airliner seat.

Capl. Donald B. MacDiarmid, one of the Coast Guard's top search and rescue experts, said the description of the wreckage and the condition of the bodies indicated the plane "definitely went into the water in a bad or uncontrolled ditching."

Author To Address KF Club

One of America's most popular psychologists and the author of the best seller, "She Came to the Valley," Dr. Cleo Dawson, widely known lecturer and traveler, will be the guest speaker at the meeting of the Top o' Texas Knife and Fork Club Tuesday at 7:30 p.m. in the Pampa High School cafeteria, according to Joe Gordon, president.

The writer of the stirring novel of the Rio Grande, which depicted the common sense psychological approach of a brave young woman carving a life out of the wilderness of the Texas-Mexico frontier, was born at the scene of her novel. She began life on a cattle ranch located at the tip end of Texas so close to the border that, she says, she learned to speak Spanish before she did English.

Dr. Dawson is both a versatile business woman and an educator who holds a degree in Speech from Baylor University, a Bachelor's degree from Southern Methodist University, and a Master's and Doctorate from the University of Kentucky. She taught for ten years at the latter institution.

Among Cleo Dawson's interests is aviation, which apparently comes naturally. Her father helped Pan American establish its first airport in Mexico.

Tickets are now on sale at Thompson Hardware and will remain available until the deadline, which is Monday at 1 p.m.

Bakers' Union Suspended

By WILLIAM J. EATON
United Press Staff Correspondent
WASHINGTON (UP)—The AFL-CIO today suspended the 160,000-member bakery workers union for defying a cleanup order to remove Bakers President James G. Cross.

AFL-CIO President George Meany announced the suspension less than 24 hours after the bakers' executive board refused to forbid Cross to seek re-election at a special convention.

The bakers' board also defied an ultimatum from the AFL-CIO Executive Council by refusing to reinstate Cross' leading critic, ousted Secretary-Treasurer Curtis R. Sims.

Many charged the board with

"failure and refusal to comply" with the AFL-CIO directive. The AFL-CIO high command had said the union would be automatically suspended if it failed to follow the cleanup orders. Meany's announcement confirmed the suspension.

Cross was accused of using union funds for personal gain in testimony before the Senate Rackle Committee. The AFL-CIO Ethical Practices Committee later found the bakery workers were dominated by corrupt influences.

Today's suspension, Meany indicated, will be followed by an ethical council recommendation that the union be expelled at the federation's December convention in Atlantic City unless the Bakers do an about-face before then.

US, Britain Agreed To Sell Arms

By WILLIAM GALBRAITH
United Press Staff Correspondent
WASHINGTON (UP)—The United States and Britain agreed to sell arms to Tunisia to beat the Soviet bloc to the punch.

Informed sources said today Tunisia warned the west she would have to turn to the Soviet world merchants were reported making western nations. Czech arms merchants were reported making persistent efforts to get Tunisia to buy their wares.

A ship carrying Egyptian weapons for Tunisia was reported now en route from Cairo to Tunisia. The State Department said the vessel carried only a "token" amount of weapons but officials feared more might be offered later if no western guns were supplied.

The State Department announced Thursday the United States and Britain have decided to sell small arms and ammunition to Tunisia. The decision promptly touched off a storm of protests from France which fears the weapons might find their way to Algerian rebels.

The State Department said, however, that it has an iron-clad guarantee from Tunisia that the "weapons will be kept at home."

It was learned France at one time agreed conditionally to supply some arms to Tunisia. But one of the conditions, according to information here, was that Tunisia would not accept weapons from Egypt or the Soviet bloc.

When Tunisia refused that condition France dropped out. The announcement of the U. S.-British arms delivery might have come earlier except for the fact that France was without a government during most of October and early November.

Football Banquet Nov. 26

The annual banquet honoring the Pampa Harvester football team will be held in the senior high school cafeteria on Tuesday evening, Nov. 26, at 7:30.

Sponsoring the banquet will be the Pampa Quarterback Club, along with the sports committee of the Pampa Chamber of Commerce.

Featured speaker for the banquet will be Frank Kimbrough, head coach of the West Texas State Buffaloes. Other outstanding entertainment is also being planned as part of the program.

Featuring the evening will be the annual presentation of the Fighting Heart Award, which is given annually to the outstanding member of the Harvester team. In 1956 the honor was awarded to Robert Langford, who is the team's senior fullback this year.

Reservations are now being taken at the CoC office, with tickets priced at \$1.50 each.

Elmer Wilson, QB Club president, and New Secret, chairman of the CoC sports committee, urged that persons wishing to attend make reservations immediately, as time is short and plans need to be made to accommodate the number attending.

HELP TB GROUP

Girl Scouts from Troop 54 have been lending a helping hand to the Christmas Seal Sale campaign by assembling correspondence that is being mailed out today by the Gray County Tuberculosis Association, whose chairman is Mrs. Finis Jordan. Scouts pictured here, left to right, around the table, are Misses Janelle McDonald, Martha Price, Linda Andis, Candy Noblitt, Mary Ellen Cooper, Gay Arndt, and Jan Grady. (News Photo)

Police To Question Seven Cases Handled In County Court

Borger and Pampa officers were playing swap-out this morning as the result of the Borger Police Department having in custody three young men wanted here for questioning in regards to the burglary of the Gibson Motor Company, 200 E. Brown, last night.

Jim Conner, chief of police, said that the burglary of the local automobile agency was reported at 7:42 this morning by the manager.

Entry to the building was obtained by breaking a window in the rear of the shop. After entering the building, the burglars moved several cars and drove off a 1948 Ford after opening an overhead door, Conner stated.

The Ford is owned by Jack Shirey of Pampa and was being held by the firm until Shirey paid a \$192 repair bill.

Borger officers informed the local police department this morning that Shirey, along with two other youths, was being held in the Borger jail. Upon checking it was determined that Shirey was driving the 1948 Ford taken from Gibson Motor Co., the Borger officers said.

As a result of the youths being in the Borger jail and Pampa having in custody three men wanted in Borger for the Wednesday night theft at a Borger service station, a swap of prisoners was arranged, Conner said.

Two officers left for Borger this morning with Jerry William Erwin, John Wayne Groden and Ernest Dean Leonard who are wanted in Borger for the theft at the service station. Erwin was fined in County Court yesterday after pleading guilty to a charge of driving while intoxicated and Groden was fined after pleading guilty to a charge of unlawfully carrying a prohibited weapon.

Leonard was not in custody but was arrested early this morning by local officers on a warrant issued by officers in Borger.

Late today the officers had not returned from Borger and Conner said that he did not know what charges, if any, would be filed against the local youths in the burglary at the Gibson Motor Co.

Seven cases were handled in Gray County Court yesterday afternoon.

James Albert Carney, 839 S. Gray, was arrested by the sheriff's department Nov. 13, and charged yesterday in County Court with driving while license suspended. He pleaded guilty and was fined \$25 and costs.

John Wayne Groden, Phillips, was arrested by city police Nov. 14 on a charge of unlawfully carrying arms. He pleaded guilty to the charge in County Court and was fined \$100 and costs.

Jerry W. Erwin, Phillips, was charged in County Court yesterday on a charge of driving while intoxicated. He had been arrested by city police on Nov. 14. He was fined \$125 and costs and sentenced to three days in jail.

A charge of driving while intoxicated was brought against Clide Nickerson yesterday. He pleaded guilty to the charge and was fined \$100 and costs and sentenced three days in jail.

Three cases of swindling with worthless checks were also handled yesterday afternoon in Gray County Court.

Gene Bynum, Pampa, pleaded guilty to a charge of swindling with a worthless check and was fined \$1 and costs and sentenced to 90 days in jail. He passed a check to Richard Drug in the amount of \$11.35 on Oct. 19, 1956.

H. L. Stoner, Pampa, was fined \$1 and costs and sentenced to 90 days in jail following his plea of guilty to a charge of swindling with a worthless check which he had given to H. J. Pate, dated Oct. 21, 1957.

Mike Bearden, Pampa, pleaded guilty in Gray County Court to a charge of swindling with a worthless check and was fined \$1 and costs and sentenced to 30 days in jail. He had passed a check in the amount of \$20 to B&L Food Market, dated Oct. 10, 1957.

If it comes from a hardware store we have it. Lewis Hardware.

UF Drive Nears Three-Quarter Mark Today

The total subscriptions in the Pampa-Lefors United Fund Campaign this morning was short of the three-fourths mark by only \$1.97 with the total reported at \$4,998.10.

Of the total amount, cash received at the United Fund office amounts to \$38,987.10 with pledges accounting for the remaining \$9,010.75.

Mrs. Elsie Gee, office secretary for the United Fund, said today that workers are making reports continually and that a great number of cards are still in the hands of the voluntary workers. She stated that she believed that \$60,000 goal will be reached within a very few days.

Thanksgiving Set For Nov. 28

AUSTIN (UP)—Gov. Price Daniel has designated Nov. 28 as Thanksgiving Day in Texas, the first time in several seasons Texas will observe Thanksgiving with the rest of the nation.

Texas law, until corrected by the last Legislature, provided for the observance of the last Thursday in November as Thanksgiving Day. This created wide confusion when there were five Thursdays in the month.

In those months, Texas observed the last Thursday as Thanksgiving, while the rest of the nation, and Texas federal employees, celebrated Thanksgiving on the fourth Thursday.

Former Soviet Defense Chief Marshal Georgi Zhukov was removed by the presidium and the central committee, not by the generals. He was "very rude and dictatorial" but no Stalin "or even half a Stalin."

Khrushchev, in the first interview he has ever given to a resident Moscow correspondent, claimed flatly that the Soviet Union now enjoys "absolute rocket superiority."

He said that if attacked, the Russians could wipe out all bases of the North Atlantic Treaty Organization and deliver a mortal blow on continental United States.

However, he said, "the prospects for peace aren't bad" due to a recent change in the balance of strength in favor of the Communist and neutral countries and the rising clamor for peace among the European as well as the American people who do not want war.

But he said the possibility of war could not be excluded. He said it might be started by some "lunatics who should be put into straitjackets."

In such a case, he said it would be the "final agony imposed by world capitalism on humanity" and an universal triumph of communism.

"But we too would suffer immensely," he said.

Developing his argument on prospects of peace, he said that if joint efforts of Communist and neutral states and peace-minded people of NATO countries are applied—war can be prevented.

(The Russians charged that Turkey, urged on by the United States, planned to attack Syria immediately after the Turkish national elections Oct. 27. The United States and Turkey denied the

French Walk Out Of Today's NATO Meet

By NORMAN RUNNION
United Press Staff Correspondent
PARIS (UP)—The French delegation walked out of a NATO meeting today in protest against British and American arms shipments to Tunisia.

The French withdrew from a meeting of NATO parliamentarians only hours after two British planes landed at a Tunis airport with the first shipment of arms for the 3,000-man Tunisian army.

The British and American decision to supply arms to Tunisia—and thereby beat Russia to the punch—gravely strained the big three alliance and threatened to bring down the government of Premier Felix Gaillard.

The move reflected French wrath at the American and British decision to override French opposition and supply arms to Tunisia. France fears the arms will reach the Algerian rebels it has been fighting for more than three years.

French Angered
French anger also was reflected in morning newspapers which proclaimed in front page editorials "France cannot accept this humiliation and betrayal... she is not to be treated like a vassal."

Gaillard was going before the National Assembly to request special taxation powers to end the nation's economic crisis. Informed sources said he would make an official statement then on the crisis in French and Anglo-American relations.

Reports circulated in Paris this morning that Gaillard sent a personal message Thursday to President Eisenhower protesting the arms situation.

The split came at a crucial time. The NATO summit conference is scheduled for Dec. 16 in Paris to plot new defense strategy against the new Soviet scientific achievements, and a divided front could prove a major setback to the West.

Ike Going To Talks
Both President Eisenhower and British Prime Minister Harold Macmillan plan to attend the NATO meeting.

Unconfirmed reports circulated here and in London that Macmillan may fly to Paris next week for an urgent conference with Gaillard while Foreign Minister Christian Pineau is conferring in Washington with U.S. officials.

The announcement in London and Washington that the arms were being flown to Tunisia was believed to have been speeded up by reports that a Soviet ship was en route to Tunisia with arms. Later reports identified the ship as Egyptian, not Russian.

Local Restaurant Owner Honored By Association

Word has been received in the Chamber of Commerce office that Loyce Caldwell, local restaurant owner, has been chosen the Outstanding Restaurateur of 1957 in the Panhandle Restaurant Association.

Caldwell has received the announcement and congratulations from W. Price Jr., executive vice-president of the Texas Restaurant Association, and has extended his thanks to the people of Pampa who, according to Caldwell, made the award possible.

He was selected for the award by fellow operators in the Panhandle Restaurant Association.

APPLE KNOCKERS
CHICAGO (UP)—When it comes to apple polishing, students at Jones Commercial High School take a back seat to no one. They brought three bushels of apples to Miss Joanna Zelder, their "ideal teacher."

WILL WILSON
...attorney general

Will Wilson Sets Saturday Address Here

Will Wilson, attorney general of Texas, will be in Pampa tomorrow morning to speak to citizens at a breakfast which will be held in Johnson's Cafe at 7:30 a.m.

The attorney general is in the Panhandle to speak at the Fall Board Meeting of the Jaycees in their semi-annual meeting which will be held in Amarillo today and tomorrow.

Wilson has been in the practice of law since 1937 when he had a general practice in Dallas. Later he was assistant attorney general under Gerald Mann and Grover Sellers. He was elected district attorney of Dallas County in a five-man race in 1946 and re-elected in 1948. His drive against crime and corruption put many racketeers in prison and won national attention, according to local backers.

He was elected to the Supreme Court of Texas in 1950 and became one of the youngest men to serve in that capacity.

In 1956, he became attorney general of Texas.

Mayor Lynn Boyd will introduce Wilson at the breakfast tomorrow. A few reservations are still available and may be obtained by contacting Don Cain, county attorney.

FINISHING TOUCHES

The paint crew of the Chicago Bridge and Iron Co. was busy painting Pampa's new million gallon overhead water tank yesterday. As the picture was taken, one of the painters was painting the bottom side of the tank as other painters were changing the rigging to prepare to paint the unpainted supports. The painting work started Wednesday with the arrival of clear skies and the workmen will paint the inside of the tank as soon as the exterior is completed.

Khrush Claims 'Absolute Rocket Superiority'

By HENRY SHAPIRO
United Press Staff Correspondent
MOSCOW (UP)—Nikita Khrushchev today claimed that the Soviet Union has won "absolute world rocket and missile superiority" but he said the Soviets "will never start a war."

In the event of another war, he said it would be "fought on the American continent," but "we too would suffer immensely."

In an exclusive two and one half hour interview with the United Press, the Soviet party chief expounded freely on world problems as he saw them and made these major points:

—Prospects for preserving world peace "aren't bad" but the possibility cannot be excluded that World War III might be started by "some lunatics."

—There probably won't be any summit meeting with the West in the nearest future, though he still wants one as "the only way out"

of the East-West impasse.

—It would be possible for Russia and the United States alone to settle major problems in bilateral negotiations. "If we two agree to relax international tensions, other countries won't be offended."

—Said the first rocket launched by the Soviet Union "hit the bullseye" and Russia could now use rockets to "dispose of bases in Europe, Asia and Africa."

—If the Americans doubt Soviet claims in rocketry, "let's have a peaceful rocket contest just like a rifle shooting match and then see for themselves."

—Said that a third world war would not necessarily mean the end of mankind but that it would mean the death of capitalism and the triumph of communism.

—The emergence of another Stalin and the development of a new cult of personality in the Soviet Union is now impossible.

Former Soviet Defense Chief Marshal Georgi Zhukov was removed by the presidium and the central committee, not by the generals. He was "very rude and dictatorial" but no Stalin "or even half a Stalin."

Khrushchev, in the first interview he has ever given to a resident Moscow correspondent, claimed flatly that the Soviet Union now enjoys "absolute rocket superiority."

He said that if attacked, the Russians could wipe out all bases of the North Atlantic Treaty Organization and deliver a mortal blow on continental United States.

However, he said, "the prospects for peace aren't bad" due to a recent change in the balance of strength in favor of the Communist and neutral countries and the rising clamor for peace among the European as well as the American people who do not want war.

But he said the possibility of war could not be excluded. He said it might be started by some "lunatics who should be put into straitjackets."

In such a case, he said it would be the "final agony imposed by world capitalism on humanity" and an universal triumph of communism.

"But we too would suffer immensely," he said.

Developing his argument on prospects of peace, he said that if joint efforts of Communist and neutral states and peace-minded people of NATO countries are applied—war can be prevented.

"We already thwarted the war plans against Syria," he said.

(The Russians charged that Turkey, urged on by the United States, planned to attack Syria immediately after the Turkish national elections Oct. 27. The United States and Turkey denied the

charge and accused the Russians of creating an artificial war threat. The Russians and Syrians attempted to further their case in the United Nations but the U.N. took no action.)

Expanding on his theme, Khrushchev said:

"I don't think we have a pre-war situation now," adding "that an artificial war psychosis is being created abroad, especially by (U.S. Secretary of State John Foster) Dulles. But they won't succeed in making war. The balance of strength is against them. Even Dulles knows that, and he is afraid of his own 'brink of war' policy."

At any rate, he repeated several times, "the Soviet Union will never start a war."

The 150-minute interview was held in Khrushchev's office in the headquarters of the Communist Party Central Committee on Staraya Square.

In Exclusive Interview

But he said the possibility of war could not be excluded. He said it might be started by some "lunatics who should be put into straitjackets."

In such a case, he said it would be the "final agony imposed by world capitalism on humanity" and an universal triumph of communism.

"But we too would suffer immensely," he said.

Developing his argument on prospects of peace, he said that if joint efforts of Communist and neutral states and peace-minded people of NATO countries are applied—war can be prevented.

Legal Publication

ORDINANCE OF THE BOARD OF DIRECTORS OF THE PAMPA GROUND WATER CONSERVATION DISTRICT NO. 3

WHEREAS, the Board of Directors of the Pampa Ground Water Conservation District No. 3, South of the Canadian River, Texas, has determined that it is necessary to amend the rules and regulations of the District as set forth in Article 15 of the Texas Constitution, with Article 7580-3c as amended, and with Acts of the 53rd Legislature (1953), P. L. Ch. 10, H. B. 56, the following rules and regulations of the District by its Board. All rules and parts of rules in conflict with these rules shall be void.

The rules, regulations and modes of procedure herein contained are amended or modified by the procedure, avoiding delays, saving expense, and facilitating the operation of the ground water laws of the State and the rules of this District. The rules and regulations herein contained shall be in full force and effect from the date of their adoption upon the exercise of any discretion, where such exists; nor shall they be in any way construed to deprive the Board of an exercise of powers, duties and jurisdiction conferred by law nor to limit the jurisdiction of the Board or the character of its powers or the character of the duties required for the proper administration of the law.

DEFINITIONS

Unless the context hereof indicates a contrary meaning the words hereinafter defined shall have the following meaning in these rules:

(a) "The Board" shall mean the Board of Directors of the Pampa Ground Water Conservation District No. 3, South of the Canadian River in Texas, maintaining its principal office in White Deer, Texas. Where applications, reports and permits are required to be filed with or sent to the District, they shall be sent to the District headquarters in White Deer, Texas.

(b) "Well" shall mean and include any artificial excavation constructed to produce or store water in excess of 100,000 gallons of water per day.

(c) "Water" shall mean underground water.

(d) "Owner" shall mean and include any person, firm, partnership or corporation that has the right to use or produce water from the land either by ownership, contract, lease, easement, or any other legal right.

(e) "Person" shall mean any individual, partnership, firm or corporation.

(f) The word "waste" as used herein shall be defined as defined by the 51st and 53rd Legislatures, as follows:

(1) The discharge of water from an underground water reservoir at such rate and in such amount as to cause a material reduction therein of water not suitable for agriculture, gardening, domestic, or stock raising purposes.

(2) The flowing or producing of water from an underground water reservoir when the water produced therefrom is not used for a beneficial purpose.

(3) The escape of underground water from one underground water reservoir to any other underground water reservoir containing underground water, as defined in said Section 3c of Article 7580.

(4) The pollution or harmful alteration of the character of the underground water within the underground water reservoir of the District by means of salt water or other deleterious matter admitted from some other stratum or strata from some surface of the ground.

(5) Willfully causing, suffering, or permitting underground water to be used for irrigation or agricultural purposes to escape into any river, creek, or other natural watercourse, depression, or lake, reservoir, drain, or into any sewer, street, highway, road, ditch, or upon the land of any other person than the owner of such well, or other public land.

An "Authorized Well Site" shall be:

(a) The location of a proposed well on an application duly filed with such application is denied, or

(b) The location of a proposed well on a valid permit. (An authorized well site is not a permit to drill.)

WASTE

Underground water shall not be produced within, or used within or without the District, in such a manner or under such conditions as to constitute waste as defined in Rule 1 hereof.

(b) No person producing or using underground water shall use any possible precaution, in accordance with the most approved methods, to stop and prevent waste of such water.

(c) No person shall pollute or harmfully alter the character of the underground water reservoir of the District by means of salt water or other deleterious matter admitted from some other stratum or strata from some surface of the ground.

(d) No person shall cause waste as that term is defined by Section 3c of Article 7580 of the Rules of the Ground Water Conservation District No. 3.

PERMIT REQUIRED

No person shall hereafter begin to drill or drill or increase the size of a well or pump therein, which well could reasonably be expected to produce or a pump designed to produce, in excess of 100,000 gallons of water per day, without having first applied to the Board, and had issued a permit to do so, unless the drilling and operation of the well is exempt by the law or by these rules. Provided that, as set out in Rule 3 (a) hereof, and under certain conditions an applicant may commence the drilling of a well when recommended by three directors of the Board.

(b) No permit shall be required for the drilling of temporary wells exempt by subsections 2 and 4 of Section 5, Article 7580-c (being generally wells used for the production of oil, gas, or other minerals and water wells used in connection therewith).

(c) Applications for permits to drill wells shall be made at the office of the manager of the District or other authorized persons in the office of the District shall note on the face of the application the date and time of day on which such application is received and shall give such application a serial number, showing its relative priority as to time to application later filed.

(d) The signing of three Directors of the District on an application shall constitute a recommendation that the permit be granted. The refusal of three or more Directors to sign the application shall constitute a recommendation of rejection of the application.

(e) If three or more Directors shall recommend the granting of the application, and if there be no contest thereon or conflicting applications, the applicant may thereupon proceed at his own risk to drill such well. The application shall not be considered officially granted until the same shall have been passed upon and granted by the Board, and its regular course of business.

(f) If before the Board officially approves an application to drill a well, a contest shall arise over the application, or if the Board shall within such time file an application for a well permit within less than the minimum spacing distance for such wells then the Board may conduct a hearing, upon due notice to all parties, to hear and determine a contest or to determine which of the applications should, in its judgment, be granted.

In the event of a contest, or such conflicting applications, as well shall be commenced until the matter is passed upon by the Board. A contest shall be deemed filed when written notification is filed with the Board or its office and the Manager or other authorized personnel shall receive the same and note thereon the date and time at which they were received. Thereafter, both applicant or the applicant and the contestant or contestants, after due notice, shall be entitled to a hearing before the Board. At such hearing, all parties may introduce pertinent evidence as to why the particular application or applications should be granted or denied, including evidence as to the effect on the water reservoir, the conservation and preservation of water, the prevention of waste, the pro-

tection of property rights, and other pertinent matters, which evidence shall be taken into consideration by the Board. The Board shall also take into consideration the position of applicants duly filed his application first.

If any application is not favorably recommended by three of the Directors, the applicant shall have the right to appeal to the Board. Such appeal must be filed with the Manager of the District on or before the date of the expiration of the application, if no such appeal is taken, the application shall be deemed to have been abandoned by the applicant. Upon receipt of such appeal the Board shall fix a time and place for and shall notify the necessary parties thereof.

Each application for a permit to drill a well shall be accompanied by a \$10.00 deposit which shall be accompanied by a plat or sketch, or authorized personnel in the office of the District. Said deposit shall be returned to the applicant by the District if (1) the application is denied, or (2) the permit is granted and the applicant has not received a permit to drill a well within the time specified in the permit, or (3) the permit is granted and the applicant has not received a permit to drill a well within the time specified in the permit, or (4) the permit is granted and the applicant has not received a permit to drill a well within the time specified in the permit.

All deposits heretofore made or which shall hereafter be made shall be held in trust for the District. If the applicant fails to comply with the terms of the permit, the deposit shall be returned to the applicant. If the applicant complies with the terms of the permit, the deposit shall be returned to the applicant.

PERMITS

(a) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(b) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(c) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(d) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(e) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(f) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(g) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(h) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(i) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(j) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(k) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(l) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(m) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(n) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(o) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(p) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(q) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(r) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(s) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(t) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(u) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(v) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(w) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(x) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(y) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(z) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

SPACING

Each application for a permit to drill a well shall be accompanied by a \$10.00 deposit which shall be accompanied by a plat or sketch, or authorized personnel in the office of the District. Said deposit shall be returned to the applicant by the District if (1) the application is denied, or (2) the permit is granted and the applicant has not received a permit to drill a well within the time specified in the permit, or (3) the permit is granted and the applicant has not received a permit to drill a well within the time specified in the permit, or (4) the permit is granted and the applicant has not received a permit to drill a well within the time specified in the permit.

All deposits heretofore made or which shall hereafter be made shall be held in trust for the District. If the applicant fails to comply with the terms of the permit, the deposit shall be returned to the applicant. If the applicant complies with the terms of the permit, the deposit shall be returned to the applicant.

PERMITS

(a) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(b) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(c) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(d) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(e) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(f) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(g) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(h) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(i) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(j) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(k) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(l) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(m) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(n) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(o) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(p) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(q) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(r) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(s) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(t) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(u) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(v) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(w) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(x) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(y) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

(z) The Board shall issue or cause to be issued permits to drill wells which shall be properly spaced upon proper application executed and filed by the applicant. An application shall be considered filed when properly made, completed, signed and stamped and turned to the Manager of the District.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. The operation of any well may be enjoined by the Board immediately upon the receipt of information as to the gathering of information as

REWORKING OR REPLACING OF WELLS

After an application for a well permit has been granted, the well if drilled, must be drilled within ten days of the date of the drilling permit, and not otherwise. If the well should be commenced or drilled at a later date than the date of the drilling permit, the applicant must be considered a new well for which application must be made under Rule 7 above.

Immediately upon completion of a replacement well, the old well shall be:

(1) Filled and abandoned; or

(2) Properly equipped in such a manner that it cannot produce more than 100,000 gallons of water a day; or

(3) Closed in accordance with Article 1721, Texas Penal Code, being Act of the 41st Legislature (1918) p. 287. Violation of such Article is made punishable thereby by a fine of not less than \$100.00 nor more than \$500.00.

An application to rework, re-equip, redrill, or replace an existing well may be granted by the Board upon application and hearing.

(b) The capacity of the pump on a well shall not be hereafter changed to a larger size or capacity so as to increase the rate of production of water without a permit from the Board. For example, changed from a 2-inch pump to a 4-inch pump as set out above.

Such permit may be granted only after written notice to the applicant and owners of a well within one-half mile from such well, and a public hearing, as provided in Rule 4 (c) above, and after a decision by the Board that such change will cause unreasonable drawdown of the water table or unreasonable interference between wells, water, or contamination of property. Provided that if the adjacent owners of a well within one-half mile indicate to the Board in writing that they have no objection to the proposed change, then the Board may proceed to grant such permit, provided that if the well is a sufficient distance from other wells to comply with spacing regulations for new wells of the desired capacity, the Board may proceed to grant such permit.

(c) In the event the application for such spacing requirements and no contest is filed, the Board may grant such application without further action.

PERMITS

(a) Any permit granted hereunder shall be valid if the proposed well has been completed within four (4) months from the filing date of the application. If the applicant fails to complete the well within the time specified in the permit, the Board may grant such permit as an extension of time to complete such project.

RECHARGE WELLS

Applications shall be made and permits must be obtained from the Board to drill and complete recharge wells. Applications therefor shall state that it is an application for a recharge well. It shall be filed with the Board at the District office in White Deer, Texas, and shall contain the information required for such wells insofar as applicable. After the well shall have been drilled, the owner shall promptly furnish the District with a completion report.

Recharge wells shall be completed and equipped in such a manner as to protect human life. The owner of such recharge well shall assume the full responsibility for the prevention of pollution from such well.

CHANGED CONDITIONS

The decision of the Board on any matter contained herein may be reconsidered by it on its own motion or upon motion showing changed conditions or upon the discovery of new or different conditions or facts after its hearing or decision on such matter. If the Board should decide to reconsider a matter after having announced its ruling thereon, it shall have finally granted or denied an application, it shall give notice to the parties who were present at the original action, and such persons shall be entitled to a hearing thereon if they file a request therefor within fifteen days from the date of the mailing of such notice.

FINAL ORDERS OF THE BOARD

The orders of the Board in any non-contested application or proceeding shall become the final order of the Board on the day it is entered by the Board. All orders of the Board in contested applications, appeals or other proceedings shall contain a statement that the same was contested. In such event the order shall come final after fifteen (15) days from the entry thereof and be binding on the parties thereto unless a motion for rehearing is filed under Rule 18 hereof.

REHEARING

(a) Any person whose application is denied, who is not granted the relief desired, may file with the Board a motion for rehearing within fifteen (15) days from the announcement by the Board of its decision or action. The Board shall act hereon within a reasonable time. If such motion for rehearing is filed and is overruled, the order of the Board shall be final. The Board may, in its discretion, find that an emergency exists

and that substantial injustice will result from delay. In that event, and upon the recitation of such finding, the order of the Board will become final on the day of the announcement of the order by the Board, and no motion for rehearing will be considered thereon.

(c) If an application or a contest is denied by the Board and if the applicant or contestant shall not have had and shall not have afforded an opportunity for a hearing before the Board, as elsewhere provided by these rules, the applicant or contestant shall be entitled to a hearing before the Board for such a hearing, and shall proceed to conduct such a hearing.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. The operation of any well may be enjoined by the Board immediately upon the receipt of information as to the gathering of information as

will have provided from such well.

REHEARING

(a) Any person whose application is denied, who is not granted the relief desired, may file with the Board a motion for rehearing within fifteen (15) days from the announcement by the Board of its decision or action. The Board shall act hereon within a reasonable time. If such motion for rehearing is filed and is overruled, the order of the Board shall be final. The Board may, in its discretion, find that an emergency exists

and that substantial injustice will result from delay. In that event, and upon the recitation of such finding, the order of the Board will become final on the day of the announcement of the order by the Board, and no motion for rehearing will be considered thereon.

(c) If an application or a contest is denied by the Board and if the applicant or contestant shall not have had and shall not have afforded an opportunity for a hearing before the Board, as elsewhere provided by these rules, the applicant or contestant shall be entitled to a hearing before the Board for such a hearing, and shall proceed to conduct such a hearing.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. The operation of any well may be enjoined by the Board immediately upon the receipt of information as to the gathering of information as

will have provided from such well.

REHEARING

(a) Any person whose application is denied, who is not granted the relief desired, may file with the Board a motion for rehearing within fifteen (15) days from the announcement by the Board of its decision or action. The Board shall act hereon within a reasonable time. If such motion for rehearing is filed and is overruled, the order of the Board shall be final. The Board may, in its discretion, find that an emergency exists

and that substantial injustice will result from delay. In that event, and upon the recitation of such finding, the order of the Board will become final on the day of the announcement of the order by the Board, and no motion for rehearing will be considered thereon.

(c) If an application or a contest is denied by the Board and if the applicant or contestant shall not have had and shall not have afforded an opportunity for a hearing before the Board, as elsewhere provided by these rules, the applicant or contestant shall be entitled to a hearing before the Board for such a hearing, and shall proceed to conduct such a hearing.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. The operation of any well may be enjoined by the Board immediately upon the receipt of information as to the gathering of information as

will have provided from such well.

REHEARING

(a) Any person whose application is denied, who is not granted the relief desired, may file with the Board a motion for rehearing within fifteen (15) days from the announcement by the Board of its decision or action. The Board shall act hereon within a reasonable time. If such motion for rehearing is filed and is overruled, the order of the Board shall be final. The Board may, in its discretion, find that an emergency exists

and that substantial injustice will result from delay. In that event, and upon the recitation of such finding, the order of the Board will become final on the day of the announcement of the order by the Board, and no motion for rehearing will be considered thereon.

(c) If an application or a contest is denied by the Board and if the applicant or contestant shall not have had and shall not have afforded an opportunity for a hearing before the Board, as elsewhere provided by these rules, the applicant or contestant shall be entitled to a hearing before the Board for such a hearing, and shall proceed to conduct such a hearing.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. The operation of any well may be enjoined by the Board immediately upon the receipt of information as to the gathering of information as

will have provided from such well.

REHEARING

(a) Any person whose application is denied, who is not granted the relief desired, may file with the Board a motion for rehearing within fifteen (15) days from the announcement by the Board of its decision or action. The Board shall act hereon within a reasonable time. If such motion for rehearing is filed and is overruled, the order of the Board shall be final. The Board may, in its discretion, find that an emergency exists

and that substantial injustice will result from delay. In that event, and upon the recitation of such finding, the order of the Board will become final on the day of the announcement of the order by the Board, and no motion for rehearing will be considered thereon.

(c) If an application or a contest is denied by the Board and if the applicant or contestant shall not have had and shall not have afforded an opportunity for a hearing before the Board, as elsewhere provided by these rules, the applicant or contestant shall be entitled to a hearing before the Board for such a hearing, and shall proceed to conduct such a hearing.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. The operation of any well may be enjoined by the Board immediately upon the receipt of information as to the gathering of information as

will have provided from such well.

REHEARING

(a) Any person whose application is denied, who is not granted the relief desired, may file with the Board a motion for rehearing within fifteen (15) days from the announcement by the Board of its decision or action. The Board shall act hereon within a reasonable time. If such motion for rehearing is filed and is overruled, the order of the Board shall be final. The Board may, in its discretion, find that an emergency exists

and that substantial injustice will result from delay. In that event, and upon the recitation of such finding, the order of the Board will become final on the day of the announcement of the order by the Board, and no motion for rehearing will be considered thereon.

(c) If an application or a contest is denied by the Board and if the applicant or contestant shall not have had and shall not have afforded an opportunity for a hearing before the Board, as elsewhere provided by these rules, the applicant or contestant shall be entitled to a hearing before the Board for such a hearing, and shall proceed to conduct such a hearing.

RIGHT TO INSPECT AND TEST WELLS

Any authorized officers, employees, agents or representatives of the District shall have the right at all reasonable times to enter upon lands upon which well or wells may be located within the boundaries of the District to inspect such well or wells and to read, or interpret any meter, well box or other instrument for the purpose of measuring production of water from said well or wells or for determining the pumping capacity of said well or wells; and any authorized officer, employee, agent or representative of the District shall have the right at all reasonable times to enter upon any lands upon which a well or wells may be located within the boundaries of the District for the purpose of testing the pump and its contents, or for the purpose of making any other reasonable and necessary inspections and tests that may be required or necessary for the formulation or the enforcement of the rules and regulations of the District. Brownie Troop 3 from Horace Mann toured The News Thursday as part of the group's meeting day activities.

Mrs. Mary Nell Love of Pampa was initiated by Alpha Chi, national honor society, at North Texas State College, Denton. The honor group is made up from the upper ten per cent of the junior and senior classes. Mrs. Love also belongs to Kappa Delta Pi, Gamma Theta Upsilon, and SNEA.

19th Anniversary Special, 12 3x5's and 1 8x10 1/2. Pampa Studio, 802 W. Foster. MO 4-3811.

Mrs. Bill Lovell, Mrs. Elmer Darnell, Mrs. James Lewis, Mrs. Kenneth McGuire, Mrs. R. A. Mack, Sam Begert, and John Evans, representing the local PTA units in the City Council, will leave by chartered bus on Monday to attend the state PTA convention to be held in Galveston at Moody Center on Nov. 20-22. The bus will also carry representatives from Berger, Perryton, Stinnett, Panhandle, Beuna Vista Phillips, Fritch, Morse and Shamrock PTA units.

Lovely new furniture, Half price. Inquire 108 E. Foster.

Mr. and Mrs. Lee Moore, 915 Duncan, returned last night from attending the wedding of their son, James, in Shreveport, La. While away, they took a vacation trip through the southern states.

One Collision Reported Here

The only collision within the city limits yesterday afternoon or last night reported to the police department occurred at 5:06 p.m. yesterday on Doucette, 18 feet south of Twiford.

A 1951 Plymouth, driven by Lula Mae Taylor, 1229 S. Sumner, and a 1952 Chevrolet truck, driven by Jose A. Morales, 323 S. Russell. Damages to the Plymouth were estimated at \$35 and the truck met with damages estimated at \$2.50.

Bomb Throwing In Beirut Is Reported

By UNITED PRESS

A bomb-thrower damaged the home of a pro-Western Lebanese member of Parliament in Beirut today and drove a new wedge into the widening split in the Arab world.

The legislator, Khalil El-Hibri, blamed the attack on supporters of Egypt and Syria which have been inflaming Arab passions with unprecedented propaganda attacks against Jordan's young King Hussein.

The Syrian and Egyptian press and radio campaigns were keeping the whole Middle East in a turmoil.

Syria added to the tension Thursday night by ordering reservists to report to army units throughout the country by Saturday.

Military sources in Damascus insisted the order was not a general mobilization but only a move to keep the reservists alert. But it coincided with a charge by the Damascus government that Turkish border troops opened fire on Syrian engineers at two places Wednesday.

Turkey formally denied in a letter to the United Nations previous charges that Turkish planes and troops had violated Syrian territory.

There was some evidence the anti-Hussein campaign was beginning to backfire against Syria and Egypt.

Although dispatches from Jordan said the country was tense and divided, they added that reaction was beginning to set in against "outside interference."

Jordanian newspapers, far from suppressing the Cairo and Damascus attacks, have begun to feature them on front pages — an indication of growing confidence on Hussein's part.

CoC Meeting Is Slated Nov. 28

The Pampa Chamber of Commerce Board of Directors and committee chairmen will meet with chamber members in a luncheon on Monday, Nov. 28, for the purpose of making plans and discussing suggestions for the forthcoming year's program.

At the meeting, the persons attending will be separated into small groups, so the views and ideas of all members can be known and considered.

E. L. Henderson, president of the CoC, urged that all members who could not attend the lunch write in any suggestions or proposals that they would like to submit.

Reservations are being taken in the CoC office for places at the luncheon.

First Christian Slates Fall Revival

The First Christian Church of Pampa will hold a revival beginning Sunday that will continue through the week, with Mark Rutherford, layman, bringing the messages.

Rutherford is a native of Oklahoma, but for the past few years he has made his home in Indianapolis, Ind., where he is one of the national directors of men's work for the Christian churches.

Assisting Rutherford and leading the music for the revival will be Dick Richards, of San Benito, who is the manager of one of the camps in South Texas and is an active worker in the Christian Men's Fellowship.

Sunday services will be at 10:30 in the morning and at 7 in the evening, and the week-day services will begin at 7:30 p.m.

Preceding the week of preaching is a church-wide fellowship supper, which will be held tonight in the church's Fellowship Hall at 6:06. A Thanksgiving feast of Turkey will be prepared, furnished by a member of the church, and the Membership Committee will supply all the trimmings.

Program for the supper will center on Consecration Day, and H. L. Ledrick, a member of the Stewardship committee, will bring a brief message. A junior department choir, under the direction of Mrs. Bob Banks, will furnish music for the program.

Red Cross Gifts To Air Base

The Pampa Chapter of the American Red Cross has in years past sent gifts to service men who are at sea. Due to the large amount of Asian flu cases confined in the Amarillo Air Force Base Hospital, the gifts will this be sent there.

Mrs. Libby Shotwell, executive secretary of the local chapter, has urged all clubs, lodges, Christian organizations and interested individuals to contribute to the program.

Red or green crinoline stockings, which can be made or bought, are to be filled with fruit, nuts, and small gift items, such as puzzles, pocket novels, cigarette lighters, health articles, pen, pencils, etc. Each stocking should have one or two gifts in along with the candy and fruit.

These stockings should be turned into the chapter office by Dec. 18.

The Amarillo Air Force Base has a patient capacity of 180 and according to Red Cross officials these beds have all been filled for some time.

One Fire Alarm Reported Here

The first alarm in several days was received by the fire department at 3:25 yesterday afternoon when a heating stove at the Warner Janitor Supply, 607 E. Atchison, overheated the wall and floor.

Firemen answering the alarm reported that the fire resulted in only minor damage to the interior of the building.

Pampam Treated For Self-Inflicted Wound In Neck

A 39-year-old Pampa man was treated at a local hospital last night for self-inflicted wound on the neck and was released following the treatment.

Local officers said that a call was received at 8:50 last night stating that James Luther Watson, 629 N. Christy, was being rushed to the hospital with a cut on his neck.

Investigation by the officers revealed that the cut on the neck, which was not considered serious by the attending physician, was self-inflicted. The investigating officers reported that the wound had been made by a double-edged safety razor blade.

Pampam Reports Lost Billfold

Harry Pollard, 3108 Alcock, reported to local police at 4 p.m. yesterday that he had lost a billfold between Kingsmill and the Junior High School yesterday afternoon.

Pollard stated that the billfold, made of brown hand-tooled leather, contained a Social Security card and other papers. No report was made of the amount of money in the billfold, according to Jim Conner, chief of police.

Girl Scout Institute Is Slated

A program institute for Brownie and Intermediate Leaders and assistant leaders who have had the Group Leader's course and have been actively working with a troop for at least a year, will be instructed by Mrs. N. G. Kadingo, executive director, in Girl Scout Little House, 718 E. Kingsmill.

The institute will be in progress from 9:30 a.m. to 11:30 a.m. and 12:30 to 2:30 on the following dates: Monday, the 18th; Friday, the 22nd; and Monday the 25th.

Mrs. Kadingo plans to cover the subjects of ranks and badges, troop government, program planning, characteristics of girls, troop committees, program consultants, and record-keeping.

A free nursery will be provided in Girl Scout Rotary House, corner of Scott and Finley, for leaders attending the institute.

Mrs. Kadingo requests that each bring their handbook, Leader's Guide, pencil and notebook.

Army Reserve Post Is Open

Applications are now being taken for a vacancy for unit administrator in the Pampa suboffice of the U. S. Army advisor office (USAR).

Five and ten point veterans and retired military personnel are highly adaptable for this post.

Your autumn knits take readily to soap-and-water with the right handling. Washable orlon knit tweed (left) can be washed at night, worn again the next morning. If it's placed on a contour hanger, it will dry without a shoulder ridge. Buttoning the front lines the dress up so that no pressing is needed. Newest way to dry sweaters (center) is with canvas jiffy dryer that permits air to circulate through garment so that both sides dry at once. Drying takes half the time this way. All-wool knit suit (right) has horizontally-ribbed jacket and vertically ribbed skirt with knitted-in pleats. And it's washable. Paper clips will keep the pleats in place during the drying process and make them neat and smooth.

Officers' Election By Young Matrons

(Special to The News)
WHEELER — The Young Matrons Home Demonstration Club met recently in the home of Mrs. Carroll Killingsworth. Officers for 1958 were elected as follows, Mmes. Albert Marshall, president; Carroll Killingsworth, vice president; Charles Grimshaw, secretary-treasurer; Bill Smith, reporter; J. J. Smith, counsel delegate with Mrs. Marion Denham as alternate.

Mrs. Bill Smith will serve as chairman of the recreation committee. Mrs. Donald Reeves will be in charge of the program committee.

The program at the next meeting for the group, to be held Nov. 26 at 7:30 p.m. in the home of Mrs. Marion Denham, will be presented by Miss Vera Crippen home demonstration agent. She will make a Glo Candle and will discuss Christmas decorations and wrappings.

Coffee and cake were served to the following, Mmes. Bill Smith, Marion L. Denham, J. J. Smith, Albert Marshall, Charles Grimshaw, Donald Reeves, and Miss Vera Crippen.

Beauty Of Indispensable Knitwear Can Be Helped With Proper Sudsing Care

By ALICIA HART
NEA Beauty Editor

By now, the chances are very good that your fall wardrobe contains at least one knit in the form of dress or suit. Sweaters, of course. American women find them indispensable.

While most women are fairly adept at handling sweaters in the sud, they become slightly wary when it comes to dealing with a full-length knit. Actually, the new knits are easy to wash even when they boast a touch of velvet or taffeta trim at the neckline.

To keep your new knits looking lovely, the first step is to hang onto the hang-tag which comes with each knit. The hang-tag should tell you both what the knit is made of and how it is best cleaned.

Synthetic fibers, cottons, wool-and-cotton blends, the synthetic and natural-fiber blends all are safe in soap or detergent sud.

And further, most of them need no blocking. They do require reasonable care in handling so that the yarns don't stretch or sag out of shape. This means that while the garment is in water, you must be careful never to pick it up. The weight of the water can cause sagging. It's best to change the water by letting it drain out with the garment still in the basin. And before you finally lift it from the basin, gently squeeze the water out by pressing the dress against

the sides of the basin. If it happens that a wool knit does need blocking, plan for this as soon as you bring your new purchase home. Trace a blocking frame onto pieces of cardboard and save them until they're needed.

Ribbon trims are no problem if you smooth them out with your fingers while the garment is still wet. And if it's a no-stretch knit you're washing, you can hang it on a padded hanger to dry. But first, blot out excess moisture in a thick terry towel.

Otherwise, the best way to dry knit fashions is to lay them flat on a terry towel or two. Smooth them out just as you would do with a sweater and allow overnight or possibly a bit longer for the drying process.

Goodwill HD Club To Exchange Gifts

The Goodwill Home Demonstration Club met with Mrs. George M. Perkins, 1918 Christine, on Tuesday for an all-day meeting.

Members exchanged patterns and ideas for aprons and shoe bags, which can be used for Christmas gifts. Mrs. Boyd Maule gave a demonstration on how to make the shoe bags.

Names were drawn for Christmas gift exchange. It was decided, by vote, to cancel the originally planned Thanksgiving dinner.

Luncheon was served during the noon hour.

Members present were Mmes. A. F. Coombes, Roy Frasier, Boyd Maule, George M. Perkins, Leland Diamond, Tom Haggard, Lewis Epps, Glen H. Kirchmeier, T. C. McGlohon, and James Smathers.

The club will meet next with Mrs. Epps, 1909 Duncan, on Nov. 19 at 9:30 a.m.

Manners Make Friends

"I was afraid you might be asleep," says the person who makes a late telephone call. Which always raises the mental question, "If you thought I might be asleep, why didn't you wait until tomorrow to call?"

Real thoughtfulness isn't in hoping you aren't disturbing others but in not taking a chance on disturbing them.

Mrs. Weldon Trice Leads Board Meet

The executive board of the Woodrow Wilson PTA met on Tuesday at 1:30 in the school cafeteria with Mrs. Weldon Trice presiding.

A budget report was given by Mrs. Derral Hogsett, treasurer, who also reported on the amount of proceeds derived from Fun Night.

Mrs. K. L. Green gave a City Council report and stated, "After the first of the year plans will be discussed for having a Red Cross course sponsored by Woodrow Wilson. It will be an open class for anyone interested."

Discussion was held regarding a project for the year. Mmes. E. L. Henderson, A. L. Sikes, and C. O. Pryor were appointed by the president to work on the project.

A motion was made and carried that the PTA would purchase flowers to be worn by the teachers and principal on Father's Night, which was held Thursday night.

Refreshments of coffee and cookies were served by Mrs. Howard Sims and Mrs. George Neef Jr.

Members present were Mmes. A. L. Sikes, Don Egerton, Bob Rose, Weldon Trice, John Brewer, Jay Lickey, K. L. Green, E. L. Henderson, Derral Hogsett, C. O. Pryor, Glenn Day, George Neef Jr. and H. A. Yoder, school principal.

Mrs. Delver Has Luncheon Meeting

(Special to The News)
LEFORS — The Hobby club met Friday in the home of Mrs. George Delver for an all day meeting with luncheon served at the noon period.

The day was spent in coppercraft and needlework.

Secret Pal gifts were also exchanged.

Members present were Mmes. Tom Florence, Jack Dolan, Jennie White, G. O. Carruth, L. H. Berryman, A. T. Cobb, L. E. Spence, Jeff Davis, and the hostess.

For a healthier head of hair, wait before having a permanent if you have just dyed or bleached your hair. This gives the hair a chance to rebuild, since dyes and bleaches tend to weaken it.

Combined Meeting For RS Program

(Special to The News)
WHEELER — The Jaxie Short Circle and the Lucille Bradley Circle met together recently for a Royal Service program, "Behold I Sit Before An Open Door."

Mrs. Myrtle Lane, program chairman, was assisted by Mrs. Frank Ross, who sang "Lead On, O King Eternal" and presented "Doorkeeper."

Mrs. Adrian Risner gave "Door of the Present," while Mrs. Harry Wofford gave a talk on "Door of Opportunity."

"New Doors of Southern Baptist" was given by Mrs. George Gandy; "The Door of Responsibility" by Mrs. John Manning and "Open Doors" by Mrs. Gene Waters.

The meeting was closed with prayer "for those, who went through the open door to do mission work in far away countries."

Attending were Mmes. Frank Ross, Harry Wofford, Gene Waters, George Gandy, Myrtle Lane, John Manning, Adrian Risner, Claude Davis, Paul Shumate, Mrs. J. J. Smith, and Mrs. Bill Smith.

dew tell!

by Doris E. Wilson

Pampa News Women's Editor

Holiday festivities and dieting just don't get along together. Many a wary weight watcher wages an all-out war against temptation from the first party to the last... only to find its a losing battle. Each fatal "feast" is usually followed by a rigid fast akin to famine and the frantic struggle to be slim and trim begins anew.

Defeat is not inevitable, however. With a little determination and an ever-watchful eye on the scale, it is possible to emerge virtually unscathed from the holiday fray.

But unless you have a will of iron, don't try to lose weight during the holidays. This is not the time to go on a diet. If you must pare off some extra pounds, wait until the festivities are over. This does not mean, of course, that you should throw diet caution to the wind. Your immediate goal is to maintain your weight and get through the celebrations without gaining.

Watch the Scales
The tale of the scales, a barometer of health throughout the year, is even more important during a time of irregular eating. By watching the indicator and heeding its warnings, you can compensate before it's too late.

If you overeat one day, you can make up for it by eating less the next. According to L. H. Erickson, president of the weight-conscious Borg scale company, a weight check daily will give you an accurate picture of what the holiday fare is doing to your figure. Step on the scale at the same time of day and preferably without clothes. As Mr. Erickson points out, you'll be your lightest before breakfast, so boost your morale by weighing then.

Table Talk
Interesting conversation dulls the appetite easily and painlessly. Both as a listener and as a conversationalist, you'll find table talk tames the eating urge. Sprinkle your meals liberally with conversation and eat slowly. Your plate will be whisked away before you've had a chance to do much damage.

Count Calories
The much maligned calorie is dangerous only in excess. Once you've established your daily allowance, the caloric content of a specific dish is a guide, not an enemy. Within your daily calories allotment, you have considerable leeway so choose accordingly from the foods served. You'll also feel noble (and keep your waistline trim) by eating small portions of the big ones that are served.

Holiday eating need not be hopeless for the dieter who takes the necessary precautions. Trim down your figure between now and the holidays, and by using the scale as a guide and the calories to your advantage, you can enjoy the banquet table and the parties with no "morning after" regrets.

Harvesters Tackle Lubbock Tomorrow

Pampa Gridders Face Heavier Team In District Encounter

By CHARLES CULLIN
Pampa News Sports Editor

Pampa's Harvesters wound up practice yesterday in preparation to meet the Tom S. Lubbock Westerners in Jones Stadium tomorrow night at 8 for the final out of town their fifth district encounter of the season, having lost their initial four starts, while the Westerners have won one, tied one and lost two. Pampa has been defeated by Palo Duro, Amarillo, Monterey and Plainview, while Lubbock has suffered losses from Plainview and Amarillo, has tied Palo Duro and defeated Borger.

What Happened To Aurel Joliat

By UNITED PRESS
Whatever Happened To... AUREL JOLIAT

An ace of old-time hockey, Aurel Joliat was a linemate with immortal Howie Morenz of the Montreal Canadiens. Though only a 135-pounder, Joliat wound up his career with the same total of goals as Morenz — 270 — until recent seasons a mark thought to be unreachable. He played 11 seasons until 1938.

Figuring as a top offensive man in the Westerner attack will be fullback Pug Mahon, who ranks fifth among district backs in total offense. Mahon has gained 305 yards in 58 carries for an average of 5.1 yards per carry.

PAUL BROWN

Two Pampa backs, however, rank higher in both rushing and total offense. Halfback Don Bigham has gained 278 yards rushing and 157 yards passing to place as the third most among district teams in total offense. Fullback Robert Langford has stacked up 356 yards rushing in 64 carries to establish a 7.3 yard-per-carry average and gain the third spot among district ball carriers in the rushing department.

In the quarterback's aerial department, Gary Wilhelm has placed fourth in the district and Lubbock's DeWitt Weaver Jr. has ranked as fifth. Wilhelm has completed seven of 13 passes for 129 yards and Weaver has made good six of 19 for 110 yards.

IN TEAM ACTION, Pampa climbed to the second spot among district teams in total offense with 1,228 yards in four games for a 308.5 yard-per-game average, while the Westerners placed fourth with 909 yards for a 227.3 average.

The Harvesters continue to lead the passing department for the fourth straight week with 310 yards in four games for 77 yards per game.

In weight, the Westerners will take the edge with a 182-pound per man average in the line, compared to 174 for Pampa, and 163 in the backfield over 150 for the Harvesters.

Following the Westerner game, Pampa will have only the Borger tilt remaining to be played Nov. 23 at 2 p.m. in Harvesters Park.

Playoff Games

Pampa may have an opportunity to host three, and possibly four, of the area bi-district playoff games during the next week end. In AA, the Perryton vs Seymour game is being decided; in A, the White Deer Bucks may use Harvesters Park as their site, and in B, the Mobeste Warriors may meet Union in their first playoff game. After winning the toss, the option rests with Mobeste.

Other games through the state are as follows:
At least seven bi-district playoff games in Classes AA and A are set for next week among Texas high school football teams. Both contestants have been decided for 10 of the 29 games in the round, but arrangements were pending in three of them.

CLASS AA
Ranger vs Hamilton at Stephenville Nov. 23.
Marlin vs Jasper, undecided.

CLASS A
Crowell vs Henrietta at Wichita Falls Nov. 23.
Madisonville vs Garrison at Commerce Nov. 22, night.

Monday's Wrestling
Monday night's wrestling at the Sportsman Club will feature a double main event, headlining both men and women grapplers. Hans Schnable will tackle Tokyo Joe in the first half in a two-out-of-three fall battle limited to one hour. In the second part of the top event, Rita Cortez will tangle with Judy Grable in another three fall match, limited to 45 minutes.

For the first event, the Great Bolo will meet Paul of France in a one-fall, 20 minute match. The wrestling, held each Monday evening at 8:30, is sponsored by the Pampa Shrine Club, with the proceeds going for the Crippled Children's Fund.

Admission is \$1.50 for ringside, \$1.25 for reserved seats; 90 cents for general admission adult, and 50 cents for general admission children.

Aggies Protect SW Title, Rating And Bowl Bid In Tilt With Rice

By ED FITE
United Press Sports Writer

The Texas Aggies put everything on the line Saturday when their No. 1 national rating, their second straight Southwest Conference championship and an automatic home role in the New Year's Day Cotton Bowl game hang in the balance against offense-minded Rice.

The glittering potential of this game has sold out the 70,000-seat Rice stadium and 2,000 additional hastily-installed bleacher seats to assure Houston of the largest crowd ever to witness a football game in that city.

The Texas Longhorns, who along with Rice, still have a chance to ease the Aggies out of the title, host Texas Christian at Austin and Arkansas and Southern Methodist collide in Dallas in other league games, but the spotlight is squarely on the center ring at Houston.

The odds-makers don't figure the Aggies any lo-sided favorite by any means, having installed the clutch-playing College Station crew as only a seven-point choice. In the other two games, Arkansas and Texas are thin one-point favorites.

The Aggies haven't had a soft touch in any of their four previous conference clashes, but the fact that they have had the poise to look adversity in the face and still win makes them even more impressive.

The Rice game will mark the first time the Aggies have had to face a club with the equal one-two punch of air and ground assault that the Owls pack with quarterbacks King Hill and Frank Ryan sharing the trigger position.

The Aggies' earlier rivals were stronger at one phase or the other. Crow Hand y But, as long as Coach Paul (Bear) Bryant's stalwarts have John Crow in good health they apparently have the answer to everything, either on offense or defense. The hefty halfback carries the brunt of the load either way.

And, in Roddy (Hot Rod) Osborne the Aggies have a quarterback who apparently is the equal of Hill in delivering in the clutch if not in piling up the statistics. FBI boasts a 400-yard lead over his nearest challenger in the loop's total offense race. Osborne is the circuit's top scorer with 42 points.

At Dallas, possible bowl invitations also are at stake as SMU pitches its new-found soph quarter back, Don Meredith, at the experienced Razorbacks.

IN 58 DAYS A '58 PLYMOUTH RAN 58,000 MILES—EQUAL TO
MORE THAN TWICE AROUND THE WORLD

AND IT DROVE EVERY INCH OF THE WAY!
We knew this car was tough. The equivalent of 6 years' driving crammed into little more than 8 weeks!
We designed it that way. Three times this car crossed the Rockies. Three times it wound its way across the country... passing through more than 1200 cities and towns. Whipping over turnpikes... creeping through city traffic... arrowing down super-highways... feeling its way through rutted detours. At the end, it still looked, ran and rode like new.
We didn't coddle this Plymouth. Didn't crate it and ship it carefully from place to place. Instead, we aimed it out of Los Angeles one misty morning and sent it through a course that ran 58,000 miles through 37 states.
This is what lasting value really means. The ability to take everything that American roads and weather can dish out—and come up grinning. Why don't you give Plymouth a test drive yourself—today? You'll see what we mean.

That's the Plymouth "track"... and just look at that route! Every possible road and weather condition. Plymouth ran every inch of that murderous route 3 times in just 58 days. What greater proof of lasting, built-in stamina!

Star of the Forward Look... **Plymouth** ahead for keeps!

Fraley's Report On Descendent Of Boxer Irish Jack McAuliffe

By OSCAR FRALEY
United Press Sports Writer

NEW YORK (UP)—One of the legends of the prize ring was a dapper, banty rooster of a man named Jack McAuliffe who, back in the Gay 90's, ruled the lightweight weights for 12 years and retired without ever losing a fight.

He was full of the wit and temperament and generosity of the Irish. As, those from the old sod will tell you, it should be with a man from Cork.

Thus there came a day when he walked into his brother's Brooklyn saloon, waved one champagne-gloved hand to the assemblage and, rapping on the bar with his malacca cane, jottily ordered his brother to "set 'em up for the house."

It was "a financial romance" which today is a \$100,000,000 a year business.

He associated himself with Col. Cap Houston when they bought into the New York Yankees in 1916. And when Houston left, after a series of disagreements with Jake Ruppert, Jack stepped out of baseball, too.

Since then, golf, and more recently, horse racing, have been his outlets. Jack puts on the National Mixed Foursome Invitational, an alternate shot event which will attract 95 teams to Tequesta, Fla., Feb. 11-14. He also is the founder of the Triangle Round Robin for the women pros, which will be held in the Boston area in mid-June with all proceeds to charity.

"The McAuliffe" of today at 66 is a dapper, banty rooster of a man, too, filled with the wit and generosity of the Irish. He also had his share of physical talent, winning a place on the 1912 Olympic swimming team. Jack didn't compete because, at that time, he too lacked the folding.

Going nowhere as a certified public accountant, he did something about it.

Personally, I wouldn't bet right now that he won't win it, either. As they say in the tight mob, the McAuliffe's haven't had a loser yet.

Top Teams Favored In Tomorrow's Big Games

By UNITED PRESS
If long-range odds hold up, New Year's Day will find Ohio State vs. Oregon in the Rose Bowl, Oklahoma vs. Duke in the Orange Bowl, Texas A & M vs. Army or Navy in the Cotton Bowl and any combination of teams from south of the Mason-Dixon line in the Sugar and Gator Bowls.

Oklahoma, the only team already assured of a bowl trip, steps outside the Big Eight Saturday and is favored by 18 points over Notre Dame in a game to be televised nationally (by NBC). That three-touchdown spread surprised football observers because Oklahoma, despite 47 straight wins, has gone through anxious moments this season. On top of that, it's an open secret that Notre

Dame has been pointing all year for the Sooners.

Iowa Over OSU
Iowa is a one-point favorite over Ohio State, Oregon seven over Southern Cal., Duke seven over Clemson, Texas A & M seven over Rice and Tennessee seven over Mississippi.

While the Ohio State-Iowa battle will crown the Big Ten champion, Iowa is barred from the Rose Bowl because it made the trip last New Year's Day. That means Ohio State can make the run for the roses with a victory over Iowa of Michigan, its opponent next week. Similarly, Oregon needs only one victory in its remaining games with Southern Cal or Oregon State for its first Rose Bowl appearance since 1920.

Duke needs only a win over Clemson of next Saturday's foe, North Carolina.

Texas A & M, rated No. 1 by the United Press Board of Coaches can sew up the host role in the Cotton Bowl by beating Rice. The Cotton Bowl Committee is believed to be leaning toward the winner of the Nov. 30 Army-Navy classic for the visiting team.

Eye Vols and Ole Miss
If the service academies mix a Cotton Bowl appearance, the Tennessee-Mississippi game probably will produce one team for the Cotton Bowl and one for the Sugar.

The Gator Bowl announced during the week that it is eyeing nine teams — Texas A & M, Texas Christian, Texas, Arkansas, Tennessee, Mississippi, Mississippi State, Vanderbilt and Miami of Florida.

Miami is a seven-point choice over Maryland in the only major game Friday night.

Auburn and North Carolina State, normally considered among bowl candidates, must stay home because of NCAA penalties. Auburn ranks with Texas A & M and Oklahoma as the only major teams still unbeaten and untied.

Aaron's Honor May Make Him League's Highest Paid

NEW YORK (UP) — Hank Aaron's newly-won honor as the most valuable player in the National League today placed the Milwaukee Brave slugger in a position to bid for a \$45,000 contract in 1958.

That salary, compared to the \$28,900 he received this year, probably would make him the league's highest-salaried player with the exception of \$80,000-a-year Stan Musial, whom he beat out by a scant nine points in the annual balloting by the Baseball Writers Association of America. Musial was bidding for a record fourth MVP award.

Receiving a big leaguer's most coveted award capped a season in which the 33-year-old Aaron hit .322 and led the N.L. with 132 runs batted in and 44 homers, including the one that clinched the Braves' first pennant. Aaron is the fourth straight member of his race to win the N.L. award and the seventh since Jackie Robinson broke the color line in 1947.

"I'm grateful to (manager) Fred Haney and my teammates for their assistance," said Aaron

in Chicago. "I want to thank all the writers who voted me the honor and only hope I can keep playing for many years."

In Mobile, Ala., Hank's mother, Mrs. Estella Aaron, revealed that Aaron believed that Braves' second-baseman Red Schoendienst would get the award and added, "I figure the man (general manager John Quinn of the Braves) ought to give Hank what he asks for next year." Hank tried for \$35,000 before settling for \$28,900 last year.

A sleepy-eyed, lithe Negro from Mobile, Aaron has been tabbed as a potential all-time great since he entered the league in 1954. He hit .280 that season, rose to .314 in 1955 and won the batting championship with a .328 mark in 1956.

WORSLEY TO FARM

NEW YORK (UP) — Lorne (Gump) Worsley, erstwhile regular goalie of the New York Rangers, has been sent to Providence where he will tend goal tonight when the Reds play Buffalo. Worsley, who also will play goal for Providence on Sunday, has been replaced in the Ranger nets by rookie Marcel Paille.

All Prep Districts To Be Settled Tonight

By UNITED PRESS
All unsettled districts in Classes AA and A must be settled after this week and in Texas high school football and 11 teams in AAAA and AAA are expected to push into playoff berths.

Ablene goes after both the district title and its 46th straight victory against Midland, and defending AAA champion Garland can take a playoff berth by beating Fort Worth Brewer.

A total of 14 playoff vacancies in AA and 11 in A must be filled this week so bi-district action may be started next week.

Other AAAA clubs which can pick up playoff spots are Amarillo, which plays Borger Saturday, Austin High, which meets Austin Travis, and Alice, if it beats Laredo.

AAA Possibilities
In AAA, Sweetwater can take a playoff berth with a win over

Lamesa, Breckenridge by beating Weatherford, Nederland with a win over Vidor, Eagle Pass by stopping Del Rio and Cuero with a win over Kingville. The winner of the Killen-Vega game will be in the playoffs, also.

District titles in AA will go to Seymour if it beats Anson, Electra with a win over Burk Burnett, Richardson if it can stop Mesquite, Atlanta with a win over De Kalb, Brady with a victory over Burnet, La Grange if it can beat Giddings, plus the winner of the Gonzales-Schulenberg, A&M Consolidated-Bellville, Deer Park-Angleton, Falfurrias - Hebronville, and Mercedes-Edouch-Elsa games. Boling will be in the playoffs if it beats West Columbia, Goliad if it stops Pleasanton and Taft if it beats Sundeen. Should Sundeen beat Taft, Refugio can take the title.

Class A Highlights
In Class A, Lefors will be in the playoffs with a win over McLean, Ralls if it beats Crosbyton, Merkel with a win over Roscoe, Albany with a win over Abilene Wylie, Eagle Lake if it beats Katy, Tourdanton if it stops Poet and the winners of the Morton-Friona, Malakoff-Edgewood and Cotulla-Pearsall games.

Thursday night Fort Worth Carter stopped Fort Worth North Side 12-4, Waco whipped Austin McCallum 20-7. Houston Milby dropped Houston Davis 7-0, San Antonio Jefferson clubbed San Antonio Tech 42-0 and Yaleta nipped El Paso High 20-13.

TO EXPAND STADIUM
MADISON, Wis. (UP)—The C and C Construction Co., of Ft. Wayne, Ind., will begin work Sunday adding 10,000 seats to the University of Wisconsin football stadium. The capacity of the stadium will be 65,000 when work is completed on Aug. 1, 1958.

Bow Hunters Try For Deer

A deer hunt with bows and arrows will take place tomorrow as 30 hunters from Pampa and the surrounding area will travel to the Alexander Ranch tonight, to hunt through both Saturday and Sunday.

Participants in the hunt include members of the Pampa Bowmen Club, the Top o' Texas Bowmen Club and individual members from surrounding towns.

The group has leased the Alexander Ranch for the two day period in order to avoid competition with the gun hunters on the season's opening day. The ranch is located approximately 30 miles east of the midway point between Wheeler and Canadian.

The hunters will travel to the site tonight where they will camp and be prepared for an early start in the morning. Accompanying the group will be Myles Morgan and B. G. Gordon, Pampa school teachers.

BOWLING SCORES

LONE STAR LEAGUE
Cabot Shops won 3, H & W King's Radio & TV Lab won 1, Groninger & King won 2, Cabot Engineering won 2.

In a Vodka . . .

GORDON'S VODKA

Famous Gordon's quality—recognized and appreciated by millions of Americans—is the big reason for the year-after-year preference for Gordon's Gin.

Now for you who have discovered vodka . . . for you who enjoy vodka . . . famous Gordon's quality is available. Gordon's has brought its supreme distilling standards to the creation of a vodka fully worthy of the name Gordon's.

And how they have succeeded! Gordon's Vodka is not just another vodka—as you'll see for yourself. Each precious drop is imbued with the specialized skill and care of the distiller famed for over 188 years as the producer of the world's finest gin.

Gordon's vodka is liquid poetry . . . incomparably smooth . . . astonishingly dry . . . with an amiable mixability that makes each drink taste nothing less than perfect.

So if you like vodka, try Gordon's Vodka today. If vodka is your drink—Gordon's is your brand. Experience the added pleasure vodka can give—when it comes from a bottle with the Gordon's label.

GORDON'S VODKA

. . . the name that makes it better

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we at any time be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa Daily News, Atchison at Somerville, Pampa, Texas, Phone MO 4-2525, all departments. Entered as second class matter under the act of March 3, 1879.

Subscription Rates: By CARRIER in Pampa, 30¢ per week. Paid in advance (at office); \$5.90 per 3 months, \$17.50 per 6 months, \$31.50 per year. By mail \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single

Atlantic Monthly

Normally we reserve our warmest kudos for books. Short stories and articles, however splendidly prepared and presented, never can equal in our minds the effort that goes into the sustained presentation of a book, almost any book, represents.

But today we make an exception. We have on our desk the 100th anniversary issue of Atlantic Monthly, which is nothing but a magazine. Yet the skill, beauty and daring that have gone into this particular issue are definitely deserving of commendation.

It was on May 5 and 6 of 1857 that a small group of men met for dinner at the Parker House in Boston and planned the Atlantic publication. The names of some of these men now rank among the leading figures in American literature. Present were Ralph Waldo Emerson, James Russell Lowell, Henry Wadsworth Longfellow and Oliver Wendell Holmes. Lowell was selected as first editor. The first issue came off the presses just one hundred years ago this month.

To commemorate 100 years of successful publication the present editors have gathered together a rare and impressive volume of writing which should be bound in firm covers and take its place on most booklovers' shelves as a welcome anthology.

Among the authors who contribute to the present splendid line-up of talent are such names as Ernest Hemingway, James Thurber, Dr. Carl Jung, Robert Frost, Isak Dinesen, Thornton Wilder, Sumner Slichter, Agnes deMille and a score of others.

For downright good reading, this particular issue cannot be surpassed. Space does not permit a review of the various articles and stories included. But we simply cannot pass over the importance of at least one of the articles, that contributed by Sumner Slichter, himself a one-time devotee of the Keynesian school of economics, and entitled: "The Passing of Keynesian Economics."

Mr. Slichter examines Keynes' theories of deficiency of demand, the cornerstone of the gloomy fantasies promoted by this well-known Briton. And then he lays the ghost, we sense not without regret, but goes on to brighter tomorrows unimpeded by the touch of fear engendered by this man who counseled so much in the way of government control and interference with enterprise.

"Why," asks Slichter, "has Keynes turned out to have been so completely wrong?" Then he answers his own question. "He made two basic mistakes. In the first place, he assigned to consumers a relatively passive role in determining the demand for goods. In the second place, he overlooked the fact that the development of investment opportunities is itself an expanding industry carried on for profit and able to supply the community with a rapidly growing number of investment outlets."

We are not going to commit ourselves irrevocably to Slichter, in his brilliant and devastating denunciation of the Keynesian fable. But until we find something better, we shall certainly commend him for a remarkably clear and complete relegation of the myth to the limbo of things better quickly forgotten.

But this is only one of the articles the November issue contains. Customarily, Atlantic costs sixty cents. The anniversary number will take a one dollar bill. But if the editors can come up with something on a par with this each month, they will find that the public will be quite willing to place a publication along with Fortune and other expensive slicks and pay \$1.00 for what they get.

Additionally, if the editors can revert to their original policy of being primarily "an American undertaking," and can weed out the spate of writers they have encouraged during the past two decades who have constantly looked at life from the left side of the political fence, we believe they will find a new acceptability greeting their efforts.

They claim to have been a "discoverer and a champion of new authors," but we have, in the past, been compelled to the conclusion that this was not their policy. Rather, it has seemed to us that the only authors they encouraged were the ones with a penchant toward internationalism and collectivism, and the better known the author was, the more surely would his efforts find admission in Atlantic's pages.

Perhaps, all this will change. We sincerely hope that the November issue commemorates that change as well as the 100th birthday.

BETTER JOBS

By R. C. Hodges
The Family Argument For Socialism

I have had a couple of preachers try to convince me that state socialism or the unlimited welfare state is justified because the government should operate like the family.

Of course, the family in most cases is the ideal way of co-operating. It is the ideal way of life.

But to try to reason from a metaphor is very dangerous. In fact, it cannot be done.

Now, let's notice the difference between the family relations and the relations between the government and the citizens. In one case the parents are responsible for the children coming into the world. Therefore, they have a moral obligation and a duty to feed, clothe, educate and protect their young until such time as their children are able to take care of themselves. And in order to carry out this responsibility, they must have control over the lives of their children. They must have the right even to use physical defensive force if necessary to restrain the youth from injuring himself or others. This right to use physical defensive force, however, does not give the parent the right to initiate force against their children. Their authority is thus limited.

When the child becomes an adult, this right and responsibility ceases. In fact, as the child becomes mature and the parent becomes weak, the responsibility is reversed. It is the ideal relation to promote happiness and the general well-being and develop the race.

On the other hand, however, the state is not responsible for their citizens coming into the world, either by immigration or by birth. The government is an agent of the adult citizen, not his provider and keeper, as is the case with the parent and the child.

About the only parallel between the family and the ideal government is that neither parent nor ideal government has a right to initiate force against the child or its citizen. Both of them have the right to use defensive force. The parent gets his right from nature or the Creator. The government gets its rights and its authority from the consent of the individual, not from the consent of the majority, because no one can give an individual's consent but that individual himself.

So the next time you hear this excuse for state socialism or the welfare state, point these things out. If you have a better answer to these socialist arguments, we would be glad to reproduce it.

THE INDIAN ARGUMENT
I had a man who was preparing to be a professor use the Indian argument on me to advocate union or limited power for the government. The argument was that if the present owners actually believed in private property, they would return the land they took from the Indians back to the Indians. He believed this argument proved that owners of property were not men of integrity.

What this advocate of a form of collectivism and a planned economy failed to see, it seems to me, is that the Indians undoubtedly took this property from other former occupiers; that it would be impossible to return equal value for equal value. In fact, the land with no improvements on it had no real value in itself. There is still plenty of land on the earth that nobody wants because of the great amount of work required to put it in usable form. And the real value of the land today is due to the labor put on and around it since the time the Indians had possession of it.

Present Integrity
And the present generation, of course, is not responsible for the sins of their ancestors. What they are responsible for is that they, themselves, are men of integrity; that they get what they get by benefiting those from whom they get, rather than injuring them. The more an individual gets so he can answer these myriads of myths trying to prove that socialism is good, the better off we will all be, the higher the general welfare will be, the happier we will be, the more liberty we will have, and the more security will we have. It is a question of education.

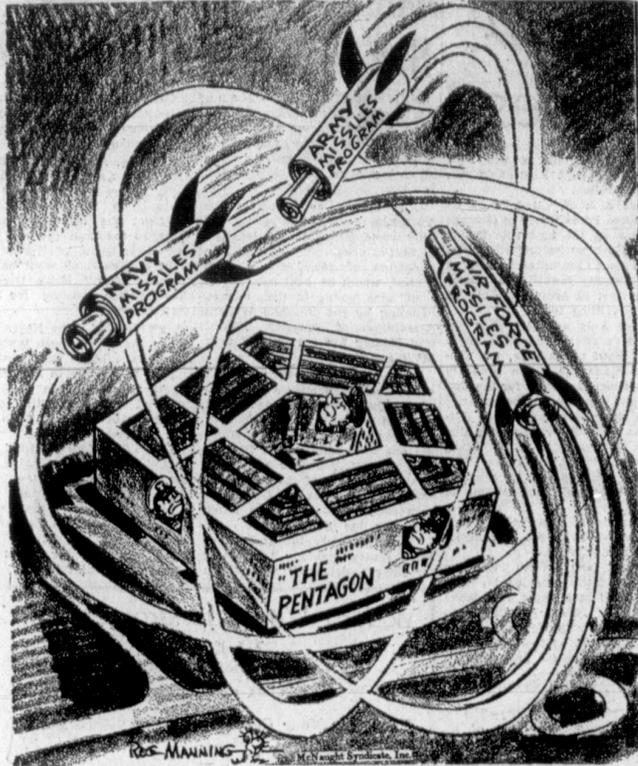

The CRACKER BARREL

The President's timely removal of the "wraps" from America's missile program has had a fine effect in allaying the fears that Sputnik created. But these recent words by Senator Jackson are nevertheless, alarming: Scientific manpower is being graduated in the Soviet Union at a present per capita rate approximately TWICE that of the NATO community as a whole. Russia now turns out MORE scientifically trained people than any other nation. This should REEMPHASIZE the statement of Dr. Arnold O. Beckman (quoted here last Dec. 10) who said our modern schools are so "geared to mediocrity" that students are "getting fewer and fewer courses that make them think"; Socialistic "leveling" in our primary schools creates an educational lag that lasts into high school and even to college.

School days are the happiest days — for mother and the neighbors.

U. S. Satellite Orbits

The Doctor Says

By Edwin J. Jordan, M. D.
THERE are several important comments which should be made on today's first inquiry.

Q — Please write something about hypoglycemia. When I become very tired I eat a piece or two of candy and that pep me up so I can continue my work.
— G. H.

A — Hypoglycemia means a lower than normal amount of sugar in the blood. It can only be determined by chemical testing of the blood and not by any symptoms. Furthermore, it is only one of several possible causes for fatigue. There are several varieties of hypoglycemia which do not all require the same treatment. It is important not only to determine the blood sugar from a sample taken before breakfast, but also to find out what is responsible. In one variety, for example, the treatment consists of a small frequent meal high in protein foods and not in candy or similar starches. Thus, Mrs. H. may be making a great mistake in the way she is handling her fatigue.

Q — I am 70 and blessed with good health, except that I am considerably bothered with dryness in my mouth, especially at night. Can you discuss this?
— H. L.

A — A deficiency of the secretion of saliva frequently accompanies a number of diseases such as diabetes, Bright's disease and fevers. Sometimes, however, people are troubled with this symptom without any obvious cause. The procedure, therefore, in Mr. L's case is first to make sure that he does not have any disease which can be responsible. If none is found, he can try to obtain relief by mouth washes, possibly containing glycerin, by small doses of certain drugs. Slight doses of certain drugs, however, are potent, they should not be tried without professional advice.

Man's Order Nearly Staggers German 'Trough'

By HENRY McLEMORE

MUNICH — A man ordered a stein of Apfelsaft in Munich's 374-year-old Hofbrauhaus the other day, and the 18th century building came closer to tumbling down than it ever did under World War II bombing.

What is more, he ordered this drink of soft apple cider in the Trough, that vast, smoke-filled room which is the world's center of beer drinking. To the lovers of the hop the Trough is as the Louvre is to art lovers, the Taj Mahal is to architects, and Stillman's Gym to prize fighters.

This order for Apfelsaft occasioned the same shock and surprise to the buxom barmaid in her blue and white dirndl as would a man staggering in off the desert to an oasis and asking for a handful of soda crackers.

Wo Do Not Now Have A Two-Party System

By Thurman Sensing

NEEDED: A SECOND PARTY
Looking ahead to the presidential election in 1960, there has been considerable comment recently about the need of a "Third Party." Nor is this comment confined to any one section of the country—it is nation-wide.

As a matter of fact, a great many third parties have already been started, ranging from just a few people in certain areas to many people in others. Which all means, of course, that they are not third parties; they are simply splinter parties. Each of these splinter parties wants all the other splinter parties to combine with it and do things its way.

This is not what we need. The nation of France has founded on splinter parties. Our constitutional republican form of government has operated traditionally and rightly on the two-party system. That is the way it should be.

The trouble, though, is that we do not now have two parties. We have two organizations calling themselves by different names — Democratic and Republican — but they are no longer distinguishable as separate parties. As a matter of fact, there is a great deal more difference within the parties than there is between the parties. The need is for two parties that you can tell apart, that give you a choice.

Therefore, if we are to have a two-party system, either the Democratic or the Republican organization must fade out of existence and give way to a "Second Party" — a party that gives the voter a real choice between radical and conservative views. Naturally, the political leadership of the Democrats wants this to happen to their organization. That's the way they make their living.

This attitude was brought rather vividly to our attention during a conversation we had recently with a distinguished Congressman, a gentleman who has done a good job as chairman of one of the important Congressional committees. When we mentioned that it seemed the only possibility of giving a conservative voter a choice in the 1960 election is a strong "Third Party" movement, which we hoped might eventually result in

a real "Second Party" that would absorb either the Republicans or the Democrats in the course of time and leave us again with a real two-party system, this Congressman objected. He summed up his position in this comment, "My father always told me the way to get rid of rats was not to burn down the barns but to get rid of them. We were glad to have him agree that there are rats in the barns, but that did not seem to us a satisfactory answer. We made this observation:

"Over here in one place is the Democratic barn. Over here in another place is the Republican barn. They are both infested with rats. For at least twenty-five years, those in each barn who are opposed to rats have been trying to get rid of them — but every time they get rid of one rat, two seem to jump up in his place. There are now more rats in each barn than ever before. Since we cannot seem to get rid of them, why not walk off and leave them.

"Why not go over here in another place and build as nearly as possible a rat-proof barn. All those who are anti-rat can repair to this barn, and the rats have the other two barns. Eventually, there would be no need of two barns filled with rats, and the rats could save money and time and organization troubles by all gangling together in one barn. The abandoned barn could rot down and then there would be two parties left — the Rat Party and the Anti-Rat Party. If this is not done," we concluded, "it seems to us there is nothing ahead but a Rat Government, which is the same as a Totalitarian Government — and it makes no difference whether this government is the absolute rule of the dictator, the planned economy of socialism or the regimentation of communism, we would have lost our freedom just the same. In either instance, we would have only a one-party government — which is not much different from the way it is right now."

We do not know whether we made much impression on this Congressman or not — but we are sure convinced ourselves!

Tungsten is the element with the highest melting point.

Democrats Would Spend More Now On Defense

By RAY TUCKER

WASHINGTON — President Eisenhower's anti-Sputnik program promises to embarrass the Democrats politically, although he had no such intentions. It is one of those fortuitous happenings beyond the control of even the purview of planners and politicians.

The President's addresses on science and security and related subjects, in which he has outlined his accelerated and co-ordinated reorganization of rocketry development, was not wholly satisfactory to almost all Democratic Senators, to many Republican legislators, to military men and ballistic experts. It did not reflect the spirit of urgency which they regard as necessary in today's crisis.

Nor have they been too happy over the reaction of influential officials in the State Department and at the Pentagon. They contrast officialdom's inertia with F.D.R.'s electric announcement that the United States would build 50,000 fighting planes to combat the Fascist menace. They also recall his immediate \$3 billion response to Albert Einstein's suggestion that this country start work on an atom bomb.

Both achievements strengthened America's power and prestige throughout the world.

"BOLD THINKING"—The great lack at Washington today, in the opinion of this school of thought, is courageous imagination. Senator Lyndon B. Johnson, whose Senate Preparedness Committee will scrutinize and police the problem of scientific warfare, expressed it succinctly when he said that the times call for "bold thinking" and "bold leadership."

In no partisan sense or terms, for the question of national survival has dwarfed petty political passion, the Administration's critics fear that the approach to the task and threat fall far short of their ability. Newspaper editorials and curbsome comments seem to reflect this same concern.

THE ESTIMATE — The practical problem, and here is where politics may inevitably creep in, is money. The President, although almost alone in this belief, appears to think that one or two billion will finance the most revolutionary

'Post Office Republicans' Appear To Be Returning

By JAMES RUSSELL
United Press Staff Correspondent
ATLANTA (UP)—The days of the "post office Republican" appeared to be returning to the South today in the wake of President Eisenhower's use of federal troops to enforce integration at Little Rock.

In the southern states where the Eisenhower era once promised to lift the GOP from decades of doldrums, Republican organizational activity has slowed decidedly or ground to a halt.
Many Republicans in Louisiana, an Eisenhower state in 1956, say privately that efforts to build a two-party system have been set back 25 years.

Buried in Virginia
The most obvious evidence of the GOP decline in the South turned up last week in Virginia where a Republican candidate for governor who once polled 45 per cent of the vote was buried under a Democratic avalanche. Little Rock and segregation were the major issues in the campaign that gave J. Lindsay Almond a landslide victory over Republican Ted Dalton.

Before Eisenhower began pulling substantial support from the southern states in 1952, Republicans in the South were little more than names on the national committee's mailing lists. This led to the phrase "post office Republicans."
Eisenhower's popularity changed all that almost overnight. His 1952 triumphs in four southern states touched off spirited GOP organizing activity that was re-doubled after the President increased his Dixie power in 1956. Then came Little Rock.

Urge Wait and See
Dyed-in-the-wool Republicans, like State Chairman Guy Smith in Tennessee and National Committeeman Virgil Jackson in Louisiana, urged a "wait and see" National Committeeman E. O.

New Troubles For French In Sahara

Foreign News Commentary

By CHARLES M. MCCANN
United Press Staff Correspondent

The vast Sahara region of Northwest Africa is developing into a new source of trouble for France.

Algerian rebels have extended their operations into the area and put a further strain on the French forces which have been fighting them for more than three years. At the same time Morocco, which obtained its independence in 1955, has set up an "Office For Saharan Affairs" to emphasize its claim to a part of the territory.

Involved in what seems certain to become, in time, an angry dispute is an area that contains immense resources in oil and other mineral products which France is starting to exploit in a big way. **Saharan Region Large**

Algeria is 850,000 square miles in area. Of this total, about 724,000 miles lie in the Saharan region, the so-called southern regions. In its attempt to end the Algerian revolt, France is willing to give that country a great measure of self-rule.

But the offer extends only to northern Algeria, which contains only 128,000 square miles. If serious negotiations with the Algerian rebels ever become possible, France is prepared to offer Algeria a part of the riches of the southern territories. But it is evident that it will insist on keeping firm control over that area.

As for Morocco, that country has put in a claim to a big part of

Mauretania, in French West Africa adjoining Algeria on the southwest.

Morocco's establishment of an office for Saharan affairs is a resort to France's action last summer in setting up a new "Ministry For The Sahara" which is to have control of the exploitation of oil and other resources.

So far all the incidents reported have been small. But they seem symptomatic of big-scale trouble ahead, not only in the Algerian rebellion but in any attempt to reach an over-all solution of the Algerian problem.

Matter of FACT

In the winter of 1870, a man crossed the prairies of Manitoba by dog sled—the only means possible at the time. He was out to gain control of the St. Paul and Pacific Railroad, described at the time as "two streaks of rust and the right of way." Thirty years later, that same man, James J. Hill, controlled all the great railroads of the Northwest: the Great Northern (the reincarnation of the St. Paul and Pacific), the Northern Pacific and the Chicago, Burlington and Quincy. He gave himself the title "Empire Builder."

Lubbock Lady Lost 31 Pounds With Barcetrane

Mrs. Geo. B. Clifton, 1653 Main St., Lubbock, Texas, wrote us as follows: "When I commenced to take Barcetrane, I weighed 200 pounds. I now weigh 169. I now take it for its beneficial tonic effects and will never be without it." Get Barcetrane from any Texas drugist. If the very first bottle doesn't show you the way to take off ugly fat without starvation diet, return the empty bottle for your money back.

OKLAHOMA CITY — President Eisenhower said the American people would demand increased expenditures to meet the costs of security: "They will not sacrifice security worshipping a balanced budget."
