J. D. WALTER Pastor of Church of God

More Power FOR THIS HOUR

Romans 1:16-"For I am not ashamed of the gospel of Christ: for it is the power of God unto Salvation to every one that believeth; to the Jew first and also to the Greek".

Paul also said in Romans 10:11" For the scripture saith, whosoever believeth on him, shall not be ashamed. They shall neither be confounded, not disappointed in their hope. The Jews, by not believing on Jesus Christ by not receiving Him as the promised Messia, but trusting in others; have been disappointed, ashamed, and confounded from that time to this day. Their expectation is cut off, and while rejecting Christ and expecting another Messiah they have continued under the displeasure of God, and are ashamed of their confidence.

On the other hand those who have believed on Christ have in and through Him all the blessings of which the prophets spoke, every promise of God being yea and amen through Him. Paul, as a Jew, believed on Christ Jesus, and in believing he had life through his name. Through Him he enjoyed an aboundance of grace, so that, being filled with that happiness which on in dwelling Christ produces he could cheerfully say, "I am not ashamed of the Gospel of Christ." And Why? Because he felt it to be the power of God to the salvation of his believing soul.

When you think of power, most people think of Atomic Power But Paul was not thinking of the Atomic Age. He was speaking of the Pawer of God unto Salvation. The almighty power of God accompanies this preaching to the souls of them that believe, and the consequence is, they are saved What but the power of God can save a fallen, sinful soul.

Christ said in Luke 4:18 "The spirit of the Lord is upon me, because He hath anointed me to preach the gospel to the poor, he hath sent me to heal the broken hearted, to preach deliverance to the captives, and recovering of sight to the blind, to set at liberty them that are bruised."

This Is It! Borger, Harvesters To Clash Tonite In District 3-4A Showdown Game

SAME TEAM, NEW FACES — The picture at right was taken just before the Harvesters went out on the court and sacked the Borger Bulldogs here a month ago. The man in the middle, Charlie Minor, will be missing tonight, but the players at the extreme left will try their best to see that he isn't missed too badly. They are Phillip Gist

(upper left) and Joe Timms (lower left), who will probably alternate in the spot formerly held by Minor. The Harvesters in the big picture are Bob Gindorf, Mack Layne, Minor, Coyle Winborn, and Craig Winborn.

The Metropolitan Water Districtof southern California is considrivers involved are the Eel, Mad. and Van Duzen. The MWD would try for 4 million acre feet and enough to buy a gallon and a fifth would apparently finance the plant at the same time.

We think the MWD is smart to put another string in its bow. This paper has in the past suggested that the Southland should look to the north coast for its water needs. One reason that it is a logical move is the fact that the experts predict that the north coast will be the only area of the State that will have excess water for export when the State is fully developed,

The first time the state engineets pointed out that eventually the Great Central Valley of California would be in perfect balance between supply and demand for water, we questioned the practicability of exporting water from
