DEATH APPARATUS

Twenty-four year-old Charles Poston Jr. died Monday morning when caught between the revolving "flappers" of this City Sanitation Department garbage truck. The flappers (seen inside the truck's outer doors) are used to crush garbage and push it into the truck's interior. Poston was caught while apparently attempting to dislodge one of the flappers. Two workers with Poston at the time did not see the tragedy. The truck's driver, Sidney Hill, 842 E. Frederic, was taken to Highland General Hospital in a state of shock.

Services Pending For City Worker

Funeral arrangements are pending here for Edward Lee Poston Jr., 615 E. Kingsmill, who was crushed to death Monday in a City Sanitation Department garbage truck. The tragedy occurred at 10:15 a.m. in an alley behind a home at 706 N. Royal. Mr. Poston was born on July 1, 1934 in Buffalo, Okla. He was a member of Pampa's Bible Baptist Church. He is survived by his wife Theresa and his parents Mr. and Mrs. C. E. Poston, all of Pampa. Other survivors are two sisters, Emma Lee Poston of Amarillo and Mazy Jane Poston of Pampa. A brother, Jerry, is serving with the Army at West Point. Mr. Poston's grandparents are Mr. and Mrs. C. L. White, Fort Worth, and Mr. and Mrs. J. F. Stokes, Pampa.

Pampa Plumber Stricken On Job

Roger Braley Smith, 53, of Pampa, died of a heart attack about 5:30 Monday afternoon behind a home at 1201 Ripley. Mr. Smith, an employee of the Pacific Supply Co., died while installing plumbing at the Ripley home. His body was found lying near a backyard ditch by a neighbor, Mrs. B. T. Fuhs, 1125 Ripley. James Radcliffe, a co-worker, told Pampa police officers he had been working with Smith earlier in the day, and said Smith had been complaining of a stomach ache. Mr. Smith, who had lived in Pampa at 844 S. Faulkner the past two years, will be interred at Shamrock following services later this week. Services will be announced Wednesday.

Woman Still Is Critical

A Pampa woman, who narrowly escaped death by asphyxiation Sunday, is in an improving but still critical condition at Highland General Hospital. It was reported this morning.

Mrs. Bonnie Banks, 303 Price Road, was rushed to Highland General Hospital at 5 p.m. Sunday when a Sheriff's deputy discovered her near death from asphyxiation in the Banks' quonset.

Her husband Mr. Jim Banks had already been suffocated in the overheated Quonset hut.

Although Mrs. Banks' condition is improving, she is reported to be under an oxygen tent and requires the services of a special nurse.

A sister of Mrs. Banks was scheduled to arrive Monday from Wichita Falls to make funeral arrangements for her brother. At last report from Duenkel, a Carmichael Funeral Home, the sister had not arrived.

If it comes from a drive, store, we have it. Lewis Hdw. adv.

Cuban Congress Dissolved; New Cabinet Is Formed

Ceremony To Honor Student Rebels' Dead Set Today

By FRANCIS L. MCCARTHY United Press International

HAVANA (UPI)—Provisional President Manuel Urrutia today dissolved both houses of the Batista Congress and the Balista-appointed Courts of Urgency (criminal courts) in a move to wipe out the last vestiges of the Batista dictatorship.

Urrutia named several cabinet members Monday night and early today and prepared to swear them in while making peace with young leaders of the rebel revolutionary directorate.

Urrutia also fought ex-President Fulgencio Batista.

Urrutia announced he would honor today the martyred heroes of the rival student rebel movement who were killed in an earlier uprising against Batista.

He also announced the appointment of Felipe Pazos as president of the National Bank and Justo Carrillo as president of the Cuban Development Bank.

The student group, the Revolutionary Directorate, headed by 28-year-old Rolando Cubela, opened a second front in central Cuba in support of the "26th of July" rebel movement led by Fidel Castro. It has demanded a voice in the new government.

Urrutia's pledge to hold a ceremony today at the University of Havana to honor the students who lost their lives in the unsuccessful 1957 assault on the presidential palace occupied by Fulgencio Batista was expected to improve relations between the 26th of July group and the Directorate.

Diplomatic observers here were cheered that rival factions within the rebel coalition proved capable of resolving the differences which for a while blocked Urrutia's taking over of the presidential palace. They also were pleased by Urrutia's conciliatory moves.

Meanwhile the Urrutia government took a number of steps designed to consolidate its position.

It proclaimed a new constitution guaranteeing civil rights and pledging early elections.

It received the foreign diplomatic corps and foreign press at the presidential palace within minutes after arrival and asked for diplomatic recognition.

It pledged a full guarantee of American investments in Cuba.

It promised an immediate increase in security arrangements to prevent a recurrence of the invasion of the Colombia Embassy by rebel zealots.

It promptly repealed a martial law decree, issued by Havana military commanders, before it could even go into effect.

Urrutia gathered into his cabinet a member of former President Carlos Prío's Authentic Party and indicated a willingness to include representatives of other revolutionary factions in his government.

FOR CANADIAN WATER

COMMISSION OKAYS RATES

By MARVIN OLSEN Daily News Staff Writer

Pampa's City Commission this morning gave its approval to a plan for water rates from the Canadian River Dam project.

It was emphasized however that its approval was only to the "idea of the plan" and if lower rates can be worked out, the city of Pampa would gladly become an active member.

The rate offered Pampa is 15.64 cents per 7000 gallons of untreated water. Rates offered to the other 10 cities in the project range from 14.7 to 17.7 cents, depending on the distance from the proposed dam site.

The rate and the Canadian project proposals were presented to the City Commission this morning by Pampa's directors on the project board, Clinton Evans and Fred Thompson.

Commissioners felt the project would be of long-range benefit to Pampa because "Pampa's underground reservoir can't last forever."

Evans said a good deal of "horse-trading" has been going on between Amarillo and Lubbock for an equitable rate.

Amarillo has offered 14.7 cents and Evans said Lubbock is reluctant to agree to more than 16.3 cents.

The feeling today seemed to be "Let's wait until Amarillo and Lubbock reach an agreement before we give concrete approval to a 15.7 rate."

It was felt by most persons present, however, that the rate offered was reasonable.

City Attorney Robert Gordon has been requested to draw up Pampa's official resolution on the matter. The resolution will be read Monday at a meeting in Pampa in view of the Canadian River Dam project.

Turning to other matters, the

City Commission gave its final approval to Light and Power Ordinance No. 512. The ordinance approves a contract between the city and the Southwestern Public Service Co. for electric power in Pampa the next 20 years.

At 10 p.m. the Commission began opening eight bids on water pipes, fittings and fire hydrants. At press time all bids had not been opened.

City Commission gave its final approval to Light and Power Ordinance No. 512. The ordinance approves a contract between the city and the Southwestern Public Service Co. for electric power in Pampa the next 20 years.

At 10 p.m. the Commission began opening eight bids on water pipes, fittings and fire hydrants. At press time all bids had not been opened.

YOU CAN HELP REWARD 2 'FRIENDLIEST' PAMPANS

Your vote will help to answer two important questions:

1. Who is Pampa's "Friendliest, Most Courteous" woman employee?
2. Who is Pampa's "Friendliest, Most Courteous" man employee?

Cast your votes for your favorite today, honoring the man and woman in any service role who deserves recognition in helping make Pampa the friendliest city in the Panhandle. Just turn to page 2 in this issue and use the official awards ballot. You can cast your ballot at the Daily News, Chamber of Commerce, First National Bank or Citizens Bank and Trust Co. You may also mail your ballot to the Daily News and vote as often as you like. 100 "Courtesy Club" membership cards will be presented each employee nominated.

The two winners, determined in the voting, each will receive \$50 and a framed certificate. Store owners and managers are not eligible for awards.

E. L. GREEN ... Cabot Director
HUGH BURDETTE ... Cabot Director

Two Pampa Men On Cabot Board

Four new appointments to the Cabot Co. board of directors have been announced. Two of the appointments went to residents of Pampa, Hugh Burdette and E. L. Green Jr.

Burdette has been associated with the Cabot enterprises since 1920. During his early years with the company, he was superintendent and later Eastern production manager in the Appalachian division.

Brownsville Sees Snow

Snow fell today in Brownsville at the southernmost tip of Texas for the first time in 19 years. Light rain and drizzle covered most of South Texas and extended as far north as an Austin-San Angelo line.

The Brownsville snow was only a trace and mingled with freezing rain. Temperatures dropped to 24 degrees in Brownsville which reported 23 of an inch of precipitation for the 24-hour period ending at 8 a.m. today.

Forecasters said the rain and drizzle will spread slowly northward, but will continue light. Temperatures will continue their gradual warmup.

Temperatures dropped as low as 30 degrees in the Lower Rio Grande Valley during the night. Mercedes recorded the lowest reading, and also reported 32 of an inch of rain.

Agricultural experts said the cold weather had not caused any crop damage in the Valley.

Agriculture Commissioner John White said Texas' growing crops generally escaped serious damage from the hard freeze that gripped most of the state the past week-end.

Overnight temperatures got as low as 11 degrees at Lubbock in the South Plains and 12 at Dalhart in the Panhandle. Readings ranged to 40 at Galveston on the coast.

Fire Sweeps Frat House

WILLIAMSTOWN, Mass.—(UPI)—Fire raced through a Williams College Fraternity house early today and 16 students died, many using ropes of bedclothes when expansion-type fire escapes froze solid in 4-below-zero temperatures.

Five students were injured, including one who was trapped for 20 minutes on the roof of the 2 1/2-story Delta Kappa Epsilon house on the western Massachusetts campus. Damage was estimated at \$100,000.

Volunteer firemen and students lifted a too-short extension ladder off the ground to rescue Ernest Imhoff, 20, Williamstown, who climbed out on the roof from his bedroom when flames blocked a stairway. He suffered shock, smoke inhalation and exposure.

The fire burned out of control for at least three hours after flames, which started near the furnace in the frame building, were discovered at 3 a.m. by student Richard Willhite, 21, St. Louis.

Only two of the students were held for treatment at the college infirmary. They were Imhoff and William C. Coleman, Winchester, Mass.

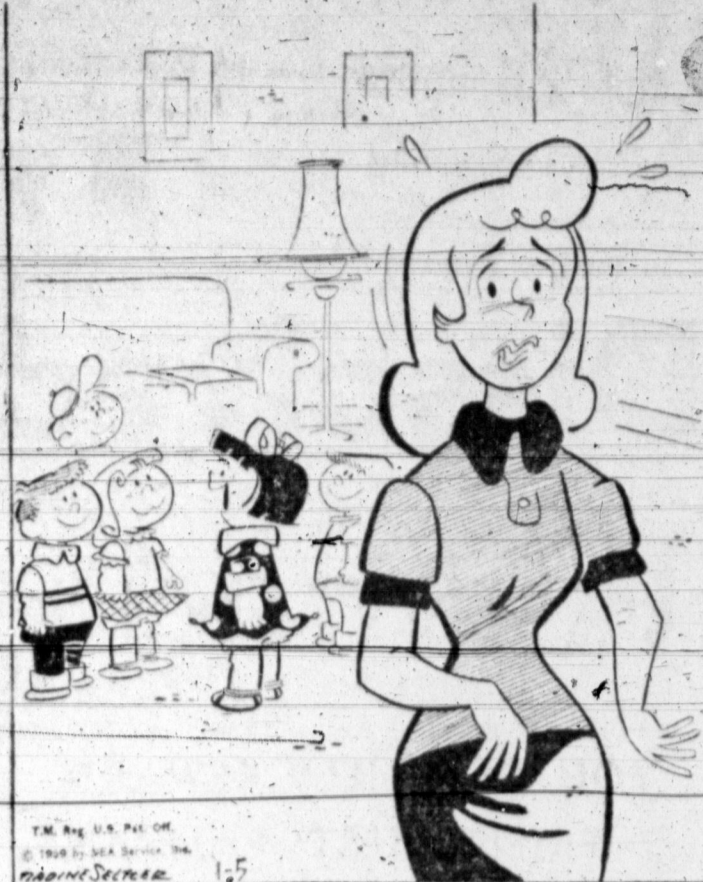

RAFT RAISES REBEL BANNER

HAVANA (UPI)—Movie tough guy George Raft, who saved his swank Capri Casino from a mob of vandals by seizing a rebel flag and waving it frantically, was to reopen the gambling house today despite an almost complete lack of customers.

Raft's Capri was one of four Havana casinos which were not damaged at all in the New Year's Day riots and looting that followed the fall of the government of Fulgencio Batista.

MAILING FOR MARCH OF DIMES

These Brownies are representative of some 25 Girl Scouts who gathered in the Palm Room Monday to load envelopes for a March of Dimes mailing. Pictured from left to right are Linda Taylor, Troop 18; Sharon Tisdale, 40; Mary Nell Graham, 40; and Pamela McLeod, 18. (Daily News Photo)

Announcement will be made in the February 22 edition of The News. Vote as often as you wish; use only the award voting ballot which will be published daily in The News.

Police Search For Kidnaped Baby Girl

NEW YORK (UPI)—More than 100 detectives swarmed through tenements in Brooklyn Monday in search for a girl kidnaped from her hospital bassinets less than 24 hours after birth.

Their search was concentrated in an area surrounding an abandoned tenement where two boys Saturday night found a Christmas-wrapped parcel containing a blanket and kimono believed to have been the garments worn by tiny Lisa Rose Chionchio when she was taken from the fourth floor nursery at St. Peter's Hospital.

Also being sought was a heavy-set, bleached blonde, about 30, believed to have taken the seven-pound baby from the hospital about 11:45 p.m. e.s.t. Friday.

Doctors said the infant required special feeding, but probably could survive without any food for 72 hours from the time she was taken, provided she was not abandoned in the cold.

Aside from the garments found in the abandoned tenement, three miles from the hospital, police were without clues—two items resembling the suspected kidnaper were rounded up and questioned Sunday, but later released.

Thirty-seven FBI men joined the search for the Chionchio baby and her kidnaper were Sunday under terms of the federal kidnaping statute, which permits the FBI to enter a kidnaping case 24 hours after the crime occurs.

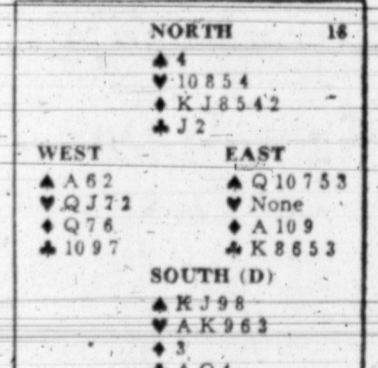

Meanwhile, San Francisco police sent New York authorities a description of Mrs. Betty Jean Benedict, a 31-year-old bleached blonde, convicted of kidnaping a 4-year-old baby from a San Francisco hospital in 1955.

Mrs. Benedict, who answered the description of the woman sought in Friday's kidnaping, served one year in jail for kidnaping the son of Dr. and Mrs. Sanford Marcus from Mt. Zion Hospital in San Francisco. She turned the child over to a priest in Stockton, Calif., nine days after the abduction.

Jacoby On Bridge

Written for NEA Service
Sr. Norman Godfrey of Austin had a sound bid and rebid and there was nothing wrong with his partner's raise.

West's double looked pretty good to West and theoretically East and West have two aces and two trump tricks and things did not work out quite that way.

showed out. He led his singleton diamond and went up with dummy's king. He was pretty sure that East held the ace, but had nothing to gain by playing the jack.

Sure enough East won with the ace and led a second club. The doctor won; ruffed his last club, ruffed his king of spades, ruffed a spade, ruffed another diamond, and led his last spade.

By this time, West was down to three trumps and one of his trump tricks had disappeared into thin air. He could ruff low and let North's ten make or he could ruff high and lead to South's king-nine combination.

"Remember the rules of safety—there's no such thing as an unloaded gun!"

'Small World' Crew Lands in Barbados

BRIDGETOWN, Barbados (UPI)—The crew of the balloon "Small World" said today a wild tropical storm forced them to deliberately crash land at sea on their attempted 3,000 mile "float" along Columbus' route to the New World.

The British-manned balloon left Tenerife in the Canary Islands on Dec. 12 en route to the West Indies but they made only 1,200 miles before the storm forced them to jettison the balloon and take their chances in their life-boat-gondola.

They were towed ashore Monday by a fisherman who spotted their gondola four miles off the east coast. The three men and a girl aboard had spent 21 days at sea during which they had drifted with the northeast tradewinds almost to their destination.

"Wonderful," was all Rosemary Mudd, 30, could say as she raced across Crane Beach here after the landing. Then Rosemary, her husband Colin, 32, Arnold "Bushy" Elliott, 51, and his son Tim, 21, described their experiences.

Whipped Into Updraft
"It was just before midnight on the third night out," Elliott said. "We were in danger of being swept up to 20,000 feet. It was becoming uncomfortable."

"The radio receiver, sleeping bags and even the razors had been dumped overboard because of the earlier danger of the balloon falling down. Then came the greater danger. We were whipped into a violent thermal (updraft) and we might have been swept up. Down we had to come."

They said they saw only two vessels on their trip across—a submarine and a ship. No one saw them and at one point they were reported to have landed in the jungles of Venezuela. This report turned out to be a hoax.

Wants Fresh Water Bath
Percy Foster, manager of the hotel at Crane Beach where they landed, offered them anything they wanted.

Rosemary wanted a bath—a fresh water bath.

They had flying fish for dinner Monday night which delighted Elliott.

"One landed in the gondola, but they would not let me eat it," he said.

The brief and garbled radio messages from the balloon ceased soon after the balloon left the Canaries. Then at Christmas came the Venezuela report.

Elliott said his radio failed completely a few days out and they dumped it overboard. But he said they never expected to have to drift the last 1,800 miles of

Soil Fertility Plans Discussed Monday

Plans for the seventh annual Soils Fertility Meeting were discussed Monday noon in Pampa by county agents in the Texas agriculture Extension Service and representatives of the Ft. Worth and Denver railroad.

County Agent Ralph Thomas, following Monday's meeting, said the soils meeting will likely be held in the Palm Room of the City Courthouse, probably the week of Feb. 9.

Four speakers are being contacted and are expected to attend. They are Dr. G. M. Watkins, dean of the School of Agriculture at Texas A and M; Robert Cherry, economist for the agricultural extension service; Jack Barton, soil conservation specialist; and Emmet Dignas of the U.S. National Bank of Denver.

Thomas said last year's meeting was attended by only 70 persons, but weather conditions were unfavorable. With good February weather it is hoped 250 or 300 persons will attend.

Thomas said this meeting will be of interest to ranchers and farmers and to the general public. "We want to inform the general public and the farmer alike of agricultural problems and new findings," he added.

Monday noon's planning session was held at Johnson's Cafe. Thirteen persons attended including Warren Hasse, president of the Pampa Chamber of Commerce, and E. O. "Red" Wedgeworth, C of C manager.

Ranchhouse Motel Gets Recognition From Duncan Hines

ITHACA, N.Y. (SpI)—The Ranchhouse Motel has received national recognition in the new 1959 edition of "Duncan Hines Lodging for a Night" just off the press.

It is the only motel in Pampa included among 4,500 selected lodging establishments "recommended by Duncan Hines" out of nearly 100,000 lodging places in North America.

Roy H. Park, Vice President, Duncan Hines Institute, Ithaca, N.Y., said, "We are happy to give deserving recognition to this establishment by including it in a selected group. This establishment is one of 4 out of 100, for our listings of selected lodging places represent only 4 per cent of the total in America. This marks the beginning of the third decade of publishing "Lodging for a Night" (384 pages). The other new Duncan Hines book just out is "Adventures in Good Eating" (294 pages) which lists 3,500 of the best places to eat."

Clarendon Man Nominated For Butane Award

Ray J. Noblitt of the Noblitt Sales Co., Clarendon, has been nominated by district 18 of the Texas Butane Dealers Association for the LP-gas industry's highest honor, the "Butane Dealer of the Year."

Members of district 18, which is made up of butane dealers from 20 upper Panhandle counties, nominated Noblitt for the industry's top honor for his record of civic and association work as well as his outstanding operation of his butane firm.

Noblitt entered the butane business in 1943, and since that time has taken an active part in association activities.

He has served the association as district 18's director and has given his support freely to association projects both at state and district levels.

His activities include the Lions Club, past president of the Clarendon Chamber of Commerce, and presently as a member of the Donley county Industrial Foundation board of directors.

C-C Clinic Starts At 5

D. A. Stonebarger, director of the Business Management Center, University of Houston, arrived in Pampa today to conduct a Business Management Clinic under the auspices of the Industrial Committee, Pampa Chamber of Commerce.

The first class will be held at 5 p.m. today in the Cabot Auditorium on the 10th floor of the Hughes Building. Three sessions will take place at 7 p.m. Wednesday, Thursday and Friday.

The clinic, with a top enrollment of 40 Pampa businessmen, will cover various aspects of business management. It is the first clinic of its type ever sponsored here and is introduced as a pilot course, according to Frank Culbertson, Industrial Committee chairman.

Blankenship Rites Slated

FORT WORTH (SpI)—Funeral services will be held Friday for M. B. Blankenship, a former Mobeetie school superintendent, who died of a heart attack Friday in his home near Helmsville, Mont. He will be buried in the Garden of Memories after a 4 p.m. service in Gauze-Ware Memorial Chapel.

Mr. Blankenship was superintendent of schools and coach of the girls basketball team in Mobeetie in the late 1930's and early 1940's. He was known as a rancher in the Dalhart area and had ranching interests in Colorado. Since leaving the Dalhart area nine years ago, he resided in Helmsville.

Before going to Mobeetie, Mr. Blankenship taught at Channing and took the Girls Basketball Team to State. He had a good record as girls basketball coach in Mobeetie.

Survivors are his wife, Minnie of Helmsville, three sisters: Mrs. Mamie Autry of Fort Worth, Mrs. R. B. McMahon of Stephenville and Mrs. Clyde Shropshire of Dallas; one brother, E. D. Blankenship of Fort Worth and several nieces.

7 Airmen Die in Fire

SYRACUSE, N.Y. (UPI)—Seven airmen died today when fire swept their barracks at a Syracuse University housing area about two miles from the main campus.

Names of the victims were withheld pending notification of their families.

At least 15 others were injured. The remainder of the 43 men who occupied the building were accounted for.

Capt. A. J. Del Signore, in charge of a detachment of airmen taking part in special courses at the university, put the number of dead at seven after firemen spent several hours searching the debris.

The airmen were sleeping when the fire broke out shortly before dawn. Most of those who escaped left the two-story structure through windows. Some were able to dress before being forced into the frigid weather.

Baby Will Be Buried In Pampa

Mr. and Mrs. Jerry Long, former residents of Pampa, are flying here with the body of their baby Kelly Faye, who died recently in England. The baby will be buried here this week, it is expected.

The Longs, who both attended Pampa High School, have been living in England, where Long is serving with the Army.

The baby was born Dec. 16 and died Jan. 7.

Mrs. Long is the niece of Mrs. Perry Franklin, 513 Magnolia.

Fence Catches Fire

A fence behind the Blue Bonnett Inn, 1020 W. Brown, caught fire early this morning but did little damage, Pampa firefighters reported today. The fire broke out about 2 a.m.

Sutton Charged With Second DWI

Gray county's grand jury Monday returned a verdict charging Paul Melvin Sutton with driving while intoxicated, second offense.

A "no bill" verdict was returned against John E. Luttrell Jr. of Pampa, involved in the fatal shooting of his father Dec. 18. The verdict clears Luttrell. No charges had been brought.

A third case presented to the grand jury was passed until a future time. Witnesses in the case were not present, District Attorney Bill Water said.

Baby Will Be Buried In Pampa

Mr. and Mrs. Jerry Long, former residents of Pampa, are flying here with the body of their baby Kelly Faye, who died recently in England. The baby will be buried here this week, it is expected.

The Longs, who both attended Pampa High School, have been living in England, where Long is serving with the Army.

The baby was born Dec. 16 and died Jan. 7.

Mrs. Long is the niece of Mrs. Perry Franklin, 513 Magnolia.

Pleds Guilty

Nelva Jane Wyatt of Pampa this morning entered a plea of guilty to charges of swindling with a worthless check.

County Judge Bill Craig fined Mrs. Wyatt \$5 plus court costs and ordered her to make restitution. The check, for \$7-18, was cashed Nov. 29 at Karl's Shoe Store, 225 N. Cuyler.

Mainly About People

Neighborhood chairman of the Top O' Texas Council, Girl Scouts of America, will meet at 9 a.m. Friday in the Pampa Girl Scout office, Mrs. John Holt Jr., Council president, announced today. A regular board meeting will be held at 10 a.m., also in the Girl Scout office.

Mrs. Harry J. Delaney and children, Hoover, have returned from a Christmas visit with Mr. and Mrs. Harry L. Delaney, Tulsa, Okla.

OPTIMISTS HEAR TALKS ON POLIO

After a three week layoff due to the Christmas and New Year's holidays, Pampa's Optimist Club resumed its Monday night meetings at Poole's Steak House last night.

Following dinner, the Optimists heard two representatives of the Gray County March of Dimes: Mrs. Rufe Jordan and John Gikas, community chairman.

World War I Vets Seek \$100 Monthly For Men Over 60

WASHINGTON (UPI)—The Veterans of World War I will ask the new Congress to provide \$100 monthly pensions for all needy World War I veterans at age 60.

United Press International reported incorrectly last week that the proposed payments would be made at age 70.

The veterans group previously had asked Congress to pension all World War I veterans at 60, regardless of need.

Fred J. Hollenbeck, its national commander, said the group this year will push for a measure limited to those veterans whose income, exclusive of Social Security, did not exceed \$2,400 yearly for single men and \$3,800 for those with dependents.

Hollenbeck said the payments would be made at 60, but the UPI erroneously reported that they would be paid at the age of 70.

Fashions: frankly

by Pat Reardon

Come, dear readers, fly with me to Paris today. Gay Paris, fashion capital of the world. You will burst with excitement over the breathless prettiness of the new Queen Josephine Empire fashion treasures. Let us discover them together, for you to wear now, and throughout the year.

We start right at the top of Parisian fashion. See the old world elegance of the mighty Lanvin-Castillo with his little daytime jacket dresses in rich damask fabrics. Now the collections of Laroche, Balmain and Patou who give us the pretty high waisted EMPIRE look. They are fashioned of light bodices, brief jackets, free and easy (though shorter) skirts. And now, back home again, let us stroll through the pages of McCall's Magazine to see their clever adaptations by our American Designers... and at such attractive prices!

For the girl who knows clothes, says R&K Originals, there is this darling little bodice-loving Empire draps in butter-soft wool and rabbit hair fabric, set off with two jeweled accents. What a smarter way to go to dinner with best beau! Sh-h-h, we have a pretty girl coming! Harken to the rustly sweep of her pure silk aurrah skirt in a new pin wheel print design. See the high-rise Empire wedding-band waistline and the ever pretty décolletage. Yes, will adore these R&K's and many more in your favorite shops. Done up so prettily with their own sweet touches of shir-

Fatigue Lessened With Breakfast

By ALICIA HART
NEA Beauty Editor

The importance of getting a good breakfast—tucked inside you each morning cannot be over-emphasized. Health and beauty both depend to a large extent on this first important meal of the day.

Your stomach has been without food for the longest stretch in 24 hours. People who feel that they can't get breakfast down have a mistaken notion about what breakfast must be. It needn't be bacon and eggs and toast. It needn't be the same thing each morning. In your grandmother's day, it was quite likely to be lamb chops, fried potatoes and apple pie. This was considered filling and, indeed, it was.

But if food isn't tempting to you the first thing in the morning, have an egg beaten up in a glass of milk. This is both nutritious and fast. Don't depend on dry cereal day in and day out. Take time to cook cereal now and then. If a bunch of grapes and a soft-boiled egg appeal to you, have them. But get that breakfast down.

In the winter, it's a lot easier to sit hunched over a TV set in an overheated room than it is to get out and walk in weather that may be unpleasant. But sitting will get you pasty skin, dry hair and added pounds, whereas a walk every single day, in good weather and in bad, will get you a trim figure, a glowing skin and glossy hair.

If you are to maintain both health and good looks, you must depend on your legs to get you about. It pays far greater dividends than you'll ever get by simply transferring yourself from living room to car for an errand.

Mature women who make frequent references to age are quite likely to succeed in getting others to think of them as decrepit. Remarks like "This dress is a little young for me but the salesgirl talked me into it" or "I can't wear these new hairdos that do so much for young women" are not calculated to make your friends and acquaintances think of you as dashing.

Never refer to your age. There's no need to. It is your business and no one else's. Any reference to

DEAR ABBY...

By Abigail Van Buren

DEAR ABBY: Some girls get into trouble because they "know too much" — but ours (age 15) got into trouble because she didn't know enough. A soldier stationed near here (age 20) got her into trouble and we had to talk with him. He said he had to get his parents' consent to marry but he stalled around for five weeks. I finally went to his C. O. and got his home address. I wrote his mother explaining everything as one mother to another, but she didn't even have the common courtesy to answer my letter. After three months we practically dragged this boy to our clergyman and it came out that he was already married and a father. Our daughter begged us not to prosecute him, but how can we let him go free after what he's done to her? Please give us some advice. We are half-crazy.

NO SIGNATURE
DEAR NO: The boy is morally bankrupt. See his Commanding Officer and give him the facts. He should be dealt with according to military regulations.

DEAR ABBY: What do you think of a man who includes his mother in all his dates? And what do you think of a mother who asks to be included?

DISGUSTED
DEAR DISGUSTED: I think they deserve each other.

DEAR ABBY: We've been married twelve years and I have a wonderful wife, but she treats me like a child. She makes me eat everything on my plate whether I like it or not and she tells me to go to bed when I'm not sleepy. We both work and have no children and there is nothing we want that we can't have, but the way she treats me keeps me from being happy. I am a peace-loving man and don't like loud arguments in the house.

your age on the part of others is bad manners and, on your part, thoughtlessness. Sometimes, this is a reverse way of getting compliments but it isn't a good one.

How can I change my wife?
QUIET MAN
DEAR QUIET: It's time you make a little noise. You won't change your wife but you can change your tactics. Tell her gently, but sweetly and firmly that you will not be "put to bed" and all the rest of it. When she knows you mean business, she will back down — and probably like it!

DEAR ABBY: Please straighten this out once and for all. My parents have both remarried and both have children from their second marriage. My mother says that her children by my step-father are my half-sisters and my step-father's children by his first wife are my step-brothers and my father tells me that his children by his second wife are my step-sisters and brothers. Now how about the new baby from my mother and my step-father? Is he my half-brother or my step brother? Thank you.

ALL MIXED UP
DEAR ALL: The children of your mother by your step-father and the children of your father by your step-mother are all half-sisters and half-brothers. The children of your step-mother (and step-father) are step-sisters and step-brothers.

CONFIDENTIAL TO ABBY: You are "mature" when you can do what you OUGHT to do whether you want to do it or not.

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.
If you want a collection of Abby's best letters and answers in one book, ask your bookstore to get "DEAR ABBY" for you.
If you must diet, do it wisely and follow professional advice. Most doctors point out that the secret of a diet is to keep your strength up while losing your fat. This means eating high protein foods which build muscle and cutting down on potatoes, corn, candy, ice cream and cake.

Smartly Styled Suit Dress

Leader in the fashion parade season after season is the smartly styled suit dress that's so right for almost every occasion, daytime, an attractive, young version, subtly detailed with a flat bow at the waistline for accent. Pattern also provides for short sleeves, making it wonderfully versatile. Suggestions for colors, fabrics, accessories and ways to vary this flattering twosome are included in our Coordinator which accompanies every Fashion Original.

Send \$1.00 today for this smart Fashion Original designed exclusively for women who sew. F-20 is in sizes 10, 12, 14, 16, 18, 20. Size 12, 32 bust, three quarter sleeve, 4 1/2 yards of 35-inch.
For the Fashion Original No. F-20 shown above, send one dollar to FASHION ORIGINALS (Pampa Daily News), Box 438, Midtown Station, New York 18, N. Y.

Treble Clef Club Slates Musical Evening

Mrs. G. O. Hall will discuss music of the British Isles at a meeting of the Treble Clef Club Tuesday night. The meeting has been announced for 7:30 p.m. in the City Club Room.
A vocal ensemble from Pampa High School will sing three numbers—"Weep, O Mine Eyes" by Bennett, "The Pedlar," a traditional English air, and "There Was a Lover and His Lass," arranged by Kirk.
The ensemble is made up of Marilyn Myatt and Nancy Stevenson, sopranos; Mary Sturgeon and Barbara Lunford, alto; Terry Smith and Douglas Radmon, tenors; John Campbell and Gary Dalton, basses.
Three soloists are programmed. David Mills will play a violin arrangement of an old English Melody, "Londonderry Air" and Miss Sue Foster will play "Warsaw Concerto" by Adinolfi, a contemporary English composition.
Hostesses for the meeting will be Mrs. Lou Fagan, Miss Eloise Lane and Mrs. Ronald Howell.
The February meeting will be the annual Family Night, featuring children of club members.

Names Make News

Miss Beryl Nash was amazed Sunday to read that she was without an escort at the recent Las Cressas Club presentation ball. She was quite sure she had a date because she remembered dancing with him. However, in Sunday's account of the dance, her name stood all alone.
In reality Miss Nash was escorted to the dance by John Prince. But the name of her escort was not reported to the News.

Here We Go Again! Harvesters Host Borger In Loop Lid-Lifter

Rick Pezdirtz
purely paydirt

Offhand we can't think of too many items that the Harvesters of Pampa and the Bulldogs of Borger have in common and we've been trying like mischief for the last 30 seconds or so.

They both wear short pants and they'll both show up at Harvester Field House at approximately the same time this chilly January evening. The chief link, however, seems to be precedent.

Precedent, you know, is quoted on the current market as considerably lower than a plugged nickel. Precedent and a dime will get you a cup of coffee at the corner diner.

And, if precedent has any control over things tonight when basketball-wise Clifton McNeely plays the gracious role of host to an old game nemesis, Borger's Tex Hanna, you may fasten the top sails and grab for a firm grip on your Field House seat, for there's gonna be a whole lot of shakin' and shootin' going on.

CLIFTON MCNEELY
wary of Bulldogs

Going into tonight's District 3-AAAA coming-out party for both clubs, McNeely owns what must be the top schoolboy coaching record in Texas: 285 wins, 34 losses for a percentage of .893.

Hanna's no slouch either, though with 280 wins, 44 losses and a terrific .864 percentage.

Lights, camera, action, it's that time again.

Ahhh, Sweet Revenge!
It has been right at 44 days since young Gene Mayfield's Borger grid desperado rode roughshod over the Harvesters, 66-13. Worst football defeat in Pampa's long and varied history. First time a Harvester eleven failed to win at least one conference engagement.

In this business of basketball, the happy Harvesters have not nibbled the unripe position like bitterness of defeat in their last 26 outings. It was Borger who last halted the Harvester freight 69-63, during the 1957-58 season.

Since the doors first flew open at the Field House here the Harvesters have dropped only half dozen contests, three of those to Borger. The last home loss was a 63-62 drop to Borger in 1957.

McNeely has the highest respect for Hanna's coaching ability. The reverence works both ways you may be sure.

Port Arthur, the Harvesters 48-47 victim in the finals last March, probably thinks so too Clifton.

Poly, Jeff, Milby, Lufkin Tall
That undefeated (13-0) outfit will focus the peepers on tonight in the tallest team ever to perform for McNeely or in Pampa. High history for that matter.

"Sure, we're tall, but we've been letting 'em drive up the middle too much on us all season. We don't switch off on our defensive assignments like we should and we don't fill the middle like we'll have to against Borger tonight or any club in the playoffs if we're lucky enough to go that far again this year," McNeely said.

Game Could Decide Loop, State Champ

By RED GRIGGS
Daily News Sports Editor

Tonight, the Harvesters play their first district basketball game of the season—a contest which could decide the district, and possibly state, champion.

Pampa will host the Borger Bulldogs at 8 p.m. tonight in Harvester Field House. The game will be preceded by a B contest at 6:30.

The Bulldogs have been perennial runners-up in 3-4A, behind the Harvesters. They were the last team to beat the Harvesters at home in the '56-'57 season.

Borger was also the only District 3-4A team to beat the state champions last year. Pampa topped the Bulldogs in Harvester Field House, but lost in Borger.

Shooting for 27
Since last year's loss to the Bulldogs, the Harvesters have won 26 straight games, including 13 consecutive contests this year.

Borger has a 9-3 record this year, including six wins in their last eight games. Their most notable triumphs were over the tough Lubbock (78-81) and Hereford (63-53) teams.

The Bulldogs have also defeated Childress, 80-61; Phillips, 80-63; Roswell, 62-58; Lake View (San Angelo), 48-47; Vernon, 69-42; Guyton, Okla., 77-41; and Snyder, 77-32.

Borger's losses were to Childress, 72-62, and to Norman, Okla., 65-53 and 71-54.

Borger is picked to finish second in District 3-4A, behind the Harvesters.

Average Six Feet
The Bulldogs are an inexperienced crew, compared to last year's team. They have only one letterman in the starting lineup—6-3 James Armstrong.

Other Borger starters will be James Wilson, 6-1; Billy Zajak, 5-7; Sam Smith, 6-1; and Don Seamster, 6-0. Their average height, six feet even, is three inches less than that of the Harvesters.

Leading scorers for the Bulldogs are Wilson, who has tallied 137 points, and Seamster, who has scored 118. Three Harvesters are ahead of both totals, but Pampa has played one game more. Coyle Winborn has scored 245 points, Mack Layne 190, and Charlie Minor 172.

Next district game for the Harvesters, after tonight's Borger game, will be Friday night in Lubbock, against the Monterey Plainsmen.

ESTABLISH TENNIS AWARD
SYDNEY, Australia (UPI)—An Australian petroleum company (Amplol) has established a cash award of 2,500 pounds (\$5,812) to be presented annually to "the world's best tennis player."

The award will be open only to professional players and will be made on the basis of results in 10 tournaments, including those at Forest Hills, N.Y., and Los Angeles.

Top Ten
NEW YORK (UPI)—The United Press International major college basketball ratings (first-place votes and won-lost records through Jan. 3 in parentheses):

Team W L Pts. Op
Pampa 13 0 924 682
Lubbock 10 3 814 700
Borger 9 3 816 649
Monterey 7 4 688 594
Plainview 10 6 916 880
Amarillo 8 6 807 702
Palo Duro 7 6 762 721
Tascoosa 2 10 423 595

Turner Named JC Coach of Year
DALLAS (UPI)—Joe Turner, who fashioned two national championship basketball teams in the past three years at Kilgore College, today was named Texas Junior College Coach of the Year for 1958.

Turner was an overwhelming choice for the honor in voting by the Texas Sports Writers Assn. and joins Texas Christian's Coach Abe Martin, named Senior College Coach of the Year, and other state athletic figures on the writers' honor roll for last year.

DEFENDING STATE CHAMPS—The 1958-59 Pampa Harvester basketball team, defending Texas 4A champions, open their district season tonight here against Borger. The Harvesters are front row (from left)—Joe Timms, Hershel Terrell, Pat Carter, Melt Cooper, Charles Minor. Second row—Billy Wray, Don McGuire, Bob Gindorf, Craig Winborn, Mack Layne, Coyle Winborn and Phillip Gist.

3-4A Squads Open Loop Play Tonite

Six of the eight District 3-4A basketball teams open their district schedules tonight, and all eight will be in action. In the only district game played so far, Amarillo edged Palo Duro Friday, 63-61.

The headline tonight will be Borger at Pampa, a contest which could go a long way toward deciding the district championship. The Harvesters, defending state champions, are picked to finish first in the district. Borger is pegged second.

Tascoosa will be at Amarillo tonight, in Amarillo's second intracity duel in five days. In other action, Lubbock will be at Palo Duro and Monterey at Plainview.

One district game is slated Thursday—Lubbock at Amarillo. Six teams will play loop contests Friday—Pampa at Monterey,

Plainview at Borger, and Palo Duro at Tascoosa.

For the non-district season, Pampa is the unofficial leader in almost every department. The Harvesters have won 13 of their 24 games; they have lost none, the fewest losses; have scored the most points, 924; and have tallied "the most" average points per game, 71.1.

The Harvesters trail in only two departments—total defense and average defense. Pampa has allowed more points than Borger, Monterey, or Tascoosa, but has played more games than any of them.

Almost unbelievably, the only team ahead of Pampa on average defense is cellar-dwelling Tascoosa, which has won just two games. The Rebels have allowed 49.8 points per game, to Pampa's 52.5. Their trouble is that they have scored only 33.3 points per game.

Harvesters Shoot At .506 Clip

Moving into district play, the Harvesters are undefeated in 13 games—and one look at the shooting percentages is enough to show the most rebounds, 151.

Though their field goal percentage dropped a couple of points in their only game last week against Quanah, they are still hitting at a phenomenal .506 clip.

Their free throw percentage went up six points last week, and they are not hitting a good 70 at the charity line.

Four of the Harvester regulars—Craig Winborn, Bob Gindorf, Mack Layne, and Coyle Winborn, are hitting .500 or better from the floor. Craig has a .507 average, Gindorf .544, Layne an even .500, and Coyle an amazing .582.

Three Pampa players are over .700 at the free throw line. Coyle Winborn is hitting .791, Charles Minor .779, and Gindorf .778.

Coyle Winborn has a comfortable margin as the scoring leader with 245 points, compared to

Minor's 190 and Major's 172. Harvesters are undefeated in 13 games—and one look at the shooting percentages is enough to show the most rebounds, 151.

Labor Throws Weight

Wednesday, Dec. 3 - San Francisco - Organized labor has served notice on California's new governor that it wants a larger voice in the affairs of state...

Friday, Dec. 5 - San Francisco - In a 60-page policy statement approved at meetings of the AFL-CIO executive committee, labor warned the Democrats that they are "on trial" particularly in regard to their decisions on taxation, water and power.

Tuesday, Dec. 9 - San Francisco - The California Labor Federation threatened to sponsor a new "soak the rich" tax initiative less than an hour after the new state AFL-CIO body was organized. The federation called for a complete overhaul of the state tax structure based on ability to pay...

The above samples are drawn from direct quotation of news reports based upon recent activities of labor leaders as they cast powerful hungry eyes at Sacramento, where a new administration will be installed next month. They require little comment as to their meaning except, perhaps, to point out that planners of organized labor's political philosophy are bound and determined to destroy the capitalist system in California and in this nation...

Every move, every action of the leaders of organized labor, their "intellectual" cohorts and their

Pandora's Box Open

When the NAACP inspired the Supreme Court justices of the United States to make integration of all races a national policy, government scholars, a Pandora's box was opened, and the evils and disasters to flow from that opened

For a solid report on what is happening in schools and on the streets in the nation, the reader is urged to obtain a copy of U.S. News and World Report for the week of December 19, 1958, and to review carefully what is said under the heading: "The Big Story in the Big Cities."

Those of us who believe in freedom have been unhappy whenever any group of persons, whether political in origin, had passed a law which limited or curtailed the normal freedom of such a group. It is a sad commentary on liberty when persons are set apart by law and compelled to exist within the confining restrictions of a legally enforced prohibition.

The Panama Daily News YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence. This newspaper is dedicated to promoting and preserving YOUR freedom as well as our own. For only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

BETTER JOBS By R. C. HOILES

Answering The Sweet Shop Argument For Labor Unions

Here's another installment of Samuel B. Pettengill's article on how we have been raising the standard of living as opposed to the labor unions' claim that they are responsible for the rise in the standard of living. Under "Competitive Effort Needed," he writes: "The radio which only 35 years ago sold for \$300 now sells for \$30 or less, and it is a better radio."

When a government becomes the sole owner of all property and all tools of production, the political bureaucracy will use every means to continue this ownership for the benefit of the many or even the majority but for the own purpose and privilege.

Washington, D.C., asserted that what the American society needs is an economic psychiatrist who will dig out, from the sewage of our subconscious minds, all the ugly things that the enemies of capitalism have implanted there.

Answers to these questions may be driven painfully home in the years of the immediate future.

What had been a problem of race which southerners had handled for nearly a century, has now become one of the dominating problems in the United States, no longer confined to the South, but spreading all across the nation like an unchecked plague.

On the racial question, this entire nation is rapidly becoming an armed camp. And the situation, developing in Philadelphia, a northern city which since its inception as a city had never had a serious racial problem, is indicative of the evils inherent in any move to cause human beings to associate with persons with whom they do not normally care to associate.

Two of these victims died. Of the 33 "headings," 45 were committed by Negroes. A "liberal" city administration in Philadelphia actively sought to promote racial mixing. Low cost housing was built in middle-class residential neighborhoods. Integration in schools was encouraged.

LONDON (UPI) - Red China, charging that two U. S. Navy planes violated its air space Monday, has issued its 46th "serious warning" against "military provocations" to the United States.

Robert Allen Reports: Federal Reserve Board Probe Now Going On

WASHINGTON - The Senate Permanent Investigations Committee is making a probe of the Federal Reserve Board that is sure to cause explosions in the new Congress - and in Wall Street.

Staff investigators have found the Reserve's security system is so lax that at least a hundred persons - from bank presidents to secretaries and clerks - have access to decisions directly affecting the stock market.

Leaks in advance of publication can result in big profits for speculators and sharp fluctuations in stock prices. Senator John McClellan (D. Ark.), chairman, plans to turn these staff findings over to the Senate Banking Committee which has jurisdiction over the Federal Reserve.

McClellan launched his investigation, immediately. Staff experts not only carefully scrutinized Reserve Board procedures, but all its long distance telephone calls and other pertinent records.

Another of these discoveries was that as many as a hundred persons attend the weekly meetings of the Reserve Board's highly important Open Market Committee and participate in the discussions of fiscal matters on which Board decisions are later made.

It is inconceivable that of all these people someone would not detect the course of coming events and tip off a friend, said the staff report to the McClellan Committee.

It was claimed these calls were on official business. But the investigators recommend a further check on that.

Looking Sideways

By Whitney Bolton

NEW YORK - For some months at almost any kind of gathering the reporter has been encountering men and women of American birth and blood who express an interest in visiting Iron Curtain countries from Russia, itself, to outlying satellites because they have the conviction that the only way to discover truth is to go look for it.

As has been said before in this space, when this reporter wants to know something, he goes to an expert. The travel expert is Max B. Allen, who is president of an old, old travel agency called "Ask Mr. Foster." I can remember it in Washington, D. C., in 1912, as a visiting turkin from Mexico, and it may even be older than that.

Because of many requests, he said, "I've been able to take three years during 1958 to the USSR and satellites, for American citizens. A typical tour would include Leningrad, Moscow, Kiev, East and West Berlin, Yugoslavia and Czechoslovakia. We are a sure that no restrictions will be placed on such tourists when they reach Red nations. The only formality so far expressed is that each must surrender his or her passport at each city and these passports will be returned on departure.

So there it is. According to a travel expert, no American, once equipped with a passport of American origin and, of course, the proper visa, will be troubled. There has been in the past, however, considerable visa delay on the part of Russians as has been pointed many times, and there may again be such delays although the Russian government is making tourism in Russia much easier. They apparently have a dual purpose: one, to get some of the fat, healthy American tourist money that floats around, and, two, possibly to convince someone that life in Russia is not as bleak and regimented as commonly believed.

There arises a third consideration which this reporter is in no position to discuss with authority. The American passport office in the State Department probably has some restrictive rules concerning travel to the USSR and/or its satellites. It would be wise to look into these in detail before planning a tour of this size and cost.

It is not this column's intention to advise anyone what to do at anytime anywhere, and if people want to go to Russia et al. to see what all the shooting's about, it is their privilege. Me, I'll stay here or anywhere else except the average behind the Iron Curtain.

Because I don't think you will learn what they don't want you to learn, anyway.

How About America's Lack of Initiative?

By HENRY McLEMORE

More about American initiative or lack of it. The year-end summaries were filled with gloom and were the forecasts of the future. The air around the TV panel discussions were heavy with it.

When driving a motor vehicle or walking near traffic, each of us is truly at the mercy of others. According to a recent article in the Sight-Saving Review, one in 12 is involved in a serious crash each year. In 1957 the total of traffic deaths in the nation was in the neighborhood of 40,000.

It may come as a surprise to some readers, but the rate was about twice as heavy in the rural areas - about one-fifth of the road accidents involved children. The fatalities per mile driven at night are triple those of the daytime. Furthermore, night accidents are twice as likely to be fatal as those of the day.

Progress is being made in this area. The American Association of Motor Vehicle Administrators recommends that the driver's license of those requiring glasses be stamped: "Must wear corrective glasses while driving."

Turning again to night driving, the three most important visual factors involved are: discrimination under conditions of poor illumination; ability to see against glare; and recovery from glare.

While modernized lighting is expensive, it can be had at half this dollar loss and would, moreover, expedite pedestrian and vehicular traffic, increase property values, reduce crime, and promote civic pride.

A final word should be said about driving by older people. As one gets older the vision, both at night and in the day, tends to deteriorate. Consequently for the safety of older drivers, as others, periodic examination of vision is particularly desirable.

Bid For A Smile

A farmer had been moaning to his friend until finally the friend obtained a new pair of glasses. "Friend - it was that bad. My glasses, they clouded a good bit. I'm better now. I can see the cow when it grazes in the corn field with the bug-killer as well as water."

Man's Smallest Enemies
Hidden Viruses Are Suspected Of Causing Much Unseen Damage

(Editor's Note: This is the second of three articles on viruses, the harm they cause, what is being done about them, and even what good they may do, by Dr. Henry W. Kumm, chief of virus research for the National Foundation, veteran of 22 years on investigation of malaria, yellow fever and yaws while with the International Health Division of the Rockefeller Foundation.)

But what about youngsters who do not get measles encephalitis? Do some of them nevertheless have some damage to their central nervous systems which may cause disability under the stresses of later life? There is reason to think that this may happen, Dr. Jonas E. Salk, who developed the vaccine against polio (which is itself a central nervous system disease), believes that such damage may indeed occur. And he believes that what is needed is a vaccine or vaccines to protect against these virus diseases which sometimes produce central nervous system diseases, even those which are apparently mild childhood illnesses. He is working on this problem with March of Dimes support.

Study Brain Waves

There is another attack on this problem now being conducted in Chicago. There, Dr. Frederick Gibbs and his associates at the Brain Research Foundation have been given a March of Dimes grant to study the brain waves of children. This is done by using a delicate electrical recording called the electroencephalograph. It is a perfectly painless procedure but it is already indicating that mild virus disease in childhood sometimes can leave a legacy of defect behind it.

But why would anyone think in the first place that such diseases leave problems behind? The answer is that scientists are now coming more and more to the belief that when viruses enter the human body they always remain, at least in small amounts, and where virus remains there is an ever-present possibility that there may be damage.

One reason scientists think this way is because of growing understanding of the body's defense against viruses. In most cases, when we are invaded by viruses, we develop antibodies as a defense mechanism. These antibodies are really small units of extremely complicated proteins which can destroy or neutralize the virus that is attacking.

Antibodies Keep Producing

But in many cases antibodies are still being produced in the human body as long as 70 years after the original virus attack. Many scientists now believe that this is so because a small amount of the original virus remains for life, still stimulating the body to produce antibodies.

Antibodies don't last long, a few weeks at most. All the antibodies you have now were produced within roughly a month. It is conjectured that if, at the age of 40 or 50, you are still producing antibodies to a measles virus that attacked you when you were six or seven, some of that virus must remain within your body.

Network of Research

The National Foundation uses March of Dimes funds to support a vast network of virus research laboratories from coast to coast, charged with studying this and other questions. From this research we expect the answers to many problems and the control of certain diseases that as yet we cannot stop.

Virus disease is a major phase of the expanded program of the National Foundation. Other areas of March of Dimes activity are polio, arthritis and birth defects.

(The third article by Dr. Kumm will discuss viruses that may be of benefit to man.)

Dr. Kumm

Eight Women Voted Places In Clothes Hall of Fame

NEW YORK (UPI) — Eight prominent women including Queen Elizabeth II and the Duchess of Windsor, were promoted today to a permanent "hall of fame" as clothes horses.

For the first time, the committee of the New York Dress Institute, which compiles the annual best-dressed list, established the new category. It is in addition to the yearly list, which began in 1940 with 10 names and since has grown to at least 12, unless there are ties.

Once voted to the hall of fame, a woman is "above annual comparison," said the institute. Presumably she then wears a gummy suit and hangs onto the best-dressed label.

Neither Mrs. Dwight D. Eisenhower, often a runner-up but never a winner, nor the Princess Grace of Monaco, who hit pay-dirt twice, made either the current annual list (for 1958) or the hall of fame.

Two young socialites — one a tall, willowy blonde the other a small brunette — tied for top spot in the 1958 list. There also was a tie for seventh place.

Top billing went to Mrs. Winston Churchill, a sportswoman (and the tall blonde), and Italian Countess Rodolfo Crespi, the former Consuelo O'Connor, a New York debutante and model (the little one).

Others on the '58 list:

- Mrs. Henry Ford II of Grosse Pointe, Mich., and New York.
- Princess Margaret-Rose of Great Britain.
- The Countess of Quintanilla, an American-born girl now living in Madrid.
- Mrs. Arturo Lopez-Willshaw, Paris socialite.
- Mrs. William Randolph Hearst, Jr., wife of the publishing executive.
- Actress Kay Kendall and Mrs. Thomas Bancroft Jr., a socially prominent New Yorker, tied for seventh place.
- Mrs. Norman K. Winston, wife of a New York real estate executive.
- Audrey Hepburn, the film star.
- Mrs. Stanley Rumbough Jr., the Dina Merrill of the movies, wife of a New York manufacturer.
- Mrs. David K. Bruce, wife of the U. S. ambassador to West Germany.
- Merle Oberon, the actress who now is Mme. Bruno Pagliai, living in Mexico.

In addition to the British monarch and the Baltimore-born Duchess, those entering the hall of fame "because of their faultless taste in dress, without ostentation or extravagance," were:

- Mrs. William Paley, wife of the board chairman of CBS.
- Countess Edward von Bismarck, whose former husband, the late Harrison Williams, was one of the nation's richest men.
- Mme. Jacques Balsan, the former Consuelo Vanderbilt and Duchess of Marlborough.
- And three actresses, Mary

PANTY RAID

ATLANTA (UPI) — A woman reported to police Monday that 23 pairs of panties have been stolen from her clothesline in the last five weeks. Other clothes have been left untouched, she said.

Russia Might Send Satellite Around Moon

WASHINGTON (UPI) — American scientists said today that Russia's next space achievement might be to send a satellite into orbit around the moon.

They pointed to a New Year's statement of Soviet plans to circumnavigate the moon in 1959 as an indication of the direction of the Russian space program.

The U.S. scientists said Russia's new "cosmic rocket, which bypassed the moon, eventually would return to earth. They said, however, it may take hundreds of years and that it would be unlikely that anyone would know when the moon returned to earth.

The U.S. calculations were based on Soviet announcements indicating that the 3,200-pound lunar vehicle will go into an elliptical orbit around the sun, taking 15 months to complete one orbit.

Meanwhile, Dr. T. Keith Glennan, head of the new U.S. civilian space agency, conceded that the United States has no long-range space program.
