UNION OF WESTERN EUROPE IN OFFING All in Building Are Reported Safe

Basic Principles Of Pact Laid Down

BRUSSELS, Belgium—(AP)—The political and legal basis of a Western European economic and military union was laid down Saturday night.

All sources said there was general agreement on the basic principles of a 50-year pact binding Britain, France, Belgium, The Netherlands and Luxembourg, but considerable work remained before the basic agreements can be phrased. The conference, which opened last Thursday, is expected to continue until next Wednesday or Thursday.

British delegates said the structure agreed upon here will be a union committed to western ideas of democracy to which no totalitarian could subscribe.

Sir George Rendel, British ambassador to Belgium, said it will definitely commit the western union to mutual armed defense, but will make no attempt to detail defense provisions.

The political basis of the pact was presented at last night's session. Gladwyn Jebb of the British Foreign Office said one of the main points of political discussion was the attitude toward states outside the pact. He indicated all parties agreed the pact must unequivocally favor western ideas of liberty.

An unofficial Belgian source also reported the pact included a statement committing its signers to freedom of the press.

Outlining the problem presented by the attitude toward other countries, Jebb said "we wouldn't be eager to have General Franco join it tomorrow morning."

Because of the desire to finish the pact before the 16-nation Marshall Plan Conference in Paris on March 15, it was believed some details may be passed over for later settlement, particularly implementation of the military agreement.

The future of the pact and its wider implications "will work itself out," Sir George explained. "It will depend on how keen the support for it is."

Expressing general optimism, Jebb said "this is quite a change from other conferences I have attended. There the question was how to work out formulas that would bridge basic differences. Here we are looking for the best way to express basic agreements."

The last session of the week last night was devoted to "political and juridical questions," Pierre Elvinger, the Luxembourg delegate, said. He left when the session was half over, saying "only legal details are left."

Karelians Fleeing In Fear of Pact

HELSINKI, Finland—(AP)—Many Finnish-speaking Karelians yesterday reported trying to flee across Finland's far northern border into Sweden. These stateless people were alarmed by prospects of Finnish-Russian treaty negotiations.

Press dispatches telling of the flight reached Helsinki as government sources predicted that Finland would reach a decision Monday on the question of opening negotiations for a treaty of friendship and military alliance with Russia.

The extent of the Karelians' exodus was not revealed. One account said a group of 30 Karelians, men, women and children was stopped at the frontier Friday night.

Finnish coastal guards along the Gulf of Bothnia said the Karelians have made no effort thus far to escape to Sweden by sea. Formerly Russian citizens, the Karelians moved to Finland around 1920. Because these people have not received Finnish citizenship they fear Finland may be forced to turn them over to Russia if a Finnish-Soviet friendship agreement is reached, informants said.

President Juho Paasikivi conferred for two hours yesterday with the Finnish government's spokesman Foreign Affairs Committee on Russia's request for a treaty.

Government sources said the committee would meet again Monday morning to formulate its recommendation. Following this session, the 18-man cabinet will convene to give the issue final consideration. The cabinet has been advised to stand by for a possible U. S. veto.

(See KARELIANS, Page 10)

U. S. 'WILL PAY IN BLOOD'—Lt. Gen. Albert C. Wedemeyer, left, former U. S. China theater commander, told the House Foreign Affairs Committee that American economic assistance to China must be protected with military aid against the "vast movement of communism or the United States 'will pay in blood.' With him is Chairman Charles Eaton (R-N.J.) of the committee. Wedemeyer made a secret report to President Truman last year on the Chinese situation.

Girl Scouts To Celebrate 36th Birthday

The Girl Scouts of Pampa will celebrate the 36th birthday of their organization with a birthday party at the Pampa Hotel Monday evening.

The girls are now finishing up their project for a display of all the crafts and handwork taught in Scouting.

The party will follow the theme of International Friendship, and each troop will put on a skit or a song or dance from some foreign country. Troop 13 will enact a short play, "Friend to Friend," a story of how the Girl Scouts are responding to aid needy European children.

The play will be followed by a style show of clothes and accessories similar to those Troop 2 sent to a French girl.

The evening will be climaxed by the presentation of the Juliette Gordon Low World Friendship Fund. Each girl in each troop saves pennies for this fund. Once a year, on the anniversary of the Scouting movement, the money goes into a central fund, where it is used to help less fortunate girls in other countries.

The junior branch of the Girl Scouts, the Brownies, whose ages range from seven to ten years, will celebrate with a Brownie Revel the afternoon of March 13 in the Junior High School Gymnasium. The Brownie program will also follow the theme of International Friendship.

Balk-but-Don't-Bolt Pattern Offered for Texas Democrats

AUSTIN—(AP)—A balk-but-don't-bolt pattern for the May presidential convention is the current hope of Texas Democratic leadership.

The powers-that-be would like to see the convention balk at instructing a delegation for President Truman. They want a delegation that would not want a bolt over either question.

That became apparent as Gov. Beauford H. Jester, titular leader of the party, returned to Texas after his tide-land-politics foray in Washington. He flatly endorsed the suggestions of Bob Calvert, state Democratic Executive Committee chairman, who said he didn't think Southern Democrats could gain anything by quitting the party.

Whether or not the middle-of-the-road course can be followed remains to be seen. Anything can happen in a Democratic Convention in Texas.

There were other top political developments during the week.

It was learned on good authority that the Executive Committee had formally selected the West Central Texas city, but some doubt had been expressed that it could accommodate a convention.

Party leaders were assured definitely this week that it could.

James W. McClendon, veteran chief justice of the important Third Court of Civil Appeals at Austin, announced he would not be a candidate for reelection.

"The character of personal campaign requisite to success would necessarily prevent in large measure performance of my court duties during the next five months in a period of special importance in the history of Texas," he said.

Democratic Minority Leader Sam Rayburn of Bonham announced his opposition to President Truman's civil rights program. This followed news that State Sen. George C. Morris of Greenville would oppose Rayburn for reelection. Morris last Monday said Rayburn had failed to speak out against certain parts of the program. Morris ran a good race against Rayburn in 1944.

George E. B. Paddy of Houston offered for renomination for the United States Senate with a rally at Tenaha, his old home town in East Texas.

Virgil E. Arnold, 56-year-old Houston lawyer who ran unsuccessfully for commissioner of agriculture in 1944, announced his candidacy for Governor. He said the big-wigs have to go and the little-wigs must take over in Austin and Washington.

Work of Red Cross Praised By Higgins Man

DUMAS—(AP)—A flash fire swept the heart of Cactus Ordinance Plant near here yesterday afternoon with loss estimated at \$2,000,000.

The government-owned plant was making ammonia and ammonium nitrate.

Ammonium nitrate was the material which blew up to create the Texas City disaster last April which cost more than 500 lives.

It was not known immediately whether any great quantity of ammonium nitrate was stored at the plant.

All the crew in the building escaped.

The two-block-long compressor building was destroyed and at mid-afternoon, while the fire still was burning, officials said no other building remained in danger.

Workers were installing an intermediate compressor when a valve burst, allowing gas to escape into the basement.

A friction spark ignited the gas, and flames mushroomed completely over the 608-foot compressor building, the commanding officer, Capt. Donald M. McCrea, said.

The building was immediately isolated and the Dumas and Ordinance Plant Fire Departments brought the flames under control by mid-afternoon, although the plant still was burning at that time.

The plant is located at Elter, a small community in Moore County only 30 miles from the top of the Texas Panhandle.

The ordinance works currently is operated by the federal government but negotiations are underway for a 20-year lease to private companies.

Length of the plant shutdown will depend on the damage to the compressors and cannot be estimated until the building can be entered.

Some were destroyed.

The regular fund drive will begin here March 15.

Sansing said there were only three roofs in town that would turn water after the twister struck. No business buildings were found that did not need repairs. Some were destroyed.

He said hundreds of people were unconscious for from 20 to 30 minutes—from atmospheric pressure.

By 10 p. m., after the tornado had struck around 7 o'clock, he said a Red Cross aerial-trailer truck loaded with everything needed was on the scene. A portable power plant was brought in.

He praised the work of the government in helping the Red Cross expedite purchase and movement of 137 hut-type trailers at the Dumas Air Field. The Red Cross, he said, paid for the moving of the houses—all of which were occupied at Higgins when three weeks.

The Red Cross rehabilitated 91 people by rebuilding their homes in the community—at an outlay of \$176,000, he said.

"I thought the blankets they had brought us the first night were great," he told his audience, but when the other aid was given he said he was astounded.

He praised Pampa and other communities in the Panhandle for their help.

(See RED CROSS, Page 10)

Kyle Says He Will Re-Seek Sheriff Post

Sheriff G. H. Kyle has announced his intention to run for reelection, clearing up a question of some weeks, and also this past week saw the number of persons seeking the office of commissioner, Precinct 2, raised to nine with two more names on the list.

Irvin Cole, prominent farmer, filed his candidacy for commissioner of Precinct 2, as did Bertie M. Vaughn, resident of the county for 18 years. Vaughn was in the run-off against incumbent Commissioner Wade Thomasson in 1936.

Umors were flying around Pampa late last week of a concerted effort by a group of ranchers, farmers, oil and business men, to bear on John O. Pitts to run for county judge. Pitts neither denied nor confirmed his candidacy had been sought by a group of men.

Already in the running for sheriff are Jeff Guthrie, former deputy, and M. G. Strickland.

The seven other citizens running for commissioner are Nat Lindsey, Z. H. Mundy, Clyde Organ, E. C. Schaffer, W. A. Noland, Carl Boston, and Bill Graham.

Cole admitted that he had been contacted by the same group of county interests that had reportedly approached Pitts. Cole said that he had been favorably impressed by their insistence that he file for commissioner. He said further that he would have an announcement to make in the near future.

Until this time there has been only one announced candidate for the office of judge and—of the County Attorney Bruce Parker, Parker, owner of two ranches, is half-owner of the Parkover Construction Co. here, and operates a string of trucks in connection with the company.

John Pitts is owner of a good deal of property here, and the operator of the Court House Cafe. He was formerly associated with G. Hughes in the construction of several hundred houses in the Panhandle during the war. Justice of the Peace Charles I. (See KYLE, Page 10)

Group Checks On Buildings

A subcommittee of the Public Improvements Committee of the Pampa Chamber of Commerce has named to inspect surplus buildings at the Pampa Army Air Field for possible use at Recreation Park.

The subcommittee will make its recommendations to a meeting of the directors of the Board of City Development at Pampa, scheduled for in the dining room of the Court House Cafe.

The Public Improvements Committee met in the Chamber of Commerce rooms in the City Hall yesterday afternoon to discuss ways and means and the advisability of securing some of the surplus buildings for use as exhibit buildings for fairs, home demonstrations, stock shows, and rodeo activities.

The subcommittee was selected to inspect the suitability of the buildings available. Members of the subcommittee are: Paul Crouch, vice-president of the Top of Texas Radio Association; Frank Carter, president of the Hereford Breeders' Association; Wade Duncan, manager of the Chamber of Commerce; Knox Kinard, superintendent of Pampa schools; Richard Popin, city engineer; and Steve Matthews, city manager.

Many Submitting Hospital Names

Dozens of suggestions for a name for the hospital to be located here have come in. Many of the suggestions were accompanied by a letter explaining the reason for the choice.

The County Commissioners and the Hospital Board urge every resident of the county to give some thought to a suitable name.

If you have a suggestion, mail a postcard or letter to the Hospital Board, Pampa, Texas.

The suggestions will be turned over to the Hospital Board.

Some of the suggestions to date: Mercy Hospital, Top of Texas Hospital, Sam Houston City Hospital, Panhandle Hospital, Top of Texas General Hospital, The Crest, Harmony Hospital, Gray Panhandle Hospital, Rest, Rest With Care, Youth Hospital, The United Hospital, Progressive Hospital, Friendly Hospital, and Fairhaven.

Books Donated to Public Library

Floyd Shaw, Jr., who is leaving Pampa to work with his father in California, donated his library of nearly 200 volumes to the Pampa Public Library last week. Mrs. C. P. Buckler, chairman of the library board, said "sterling."

The collection includes two sets of encyclopedias, besides numerous volumes of recent fiction and non-fiction.

Nearly a hundred of the books have been cataloged and put on the shelves. Mrs. Lillian Snow, librarian, said, but it will be a week or more before all the books will be available to the library patrons.

Red Cross Drive To Begin Monday

The advance drive for the annual Red Cross campaign will get underway Monday morning with a breakfast at 8 a. m. at the Schneider Hotel. Mrs. Paul Hill, executive secretary of the Gray County Red Cross, said Friday.

Frederick Neslage, chairman for the advance drive, will act as master of ceremonies at the breakfast. Each of the luncheon clubs and civic organizations have appointed committees to help insure completion of the drive.

Virgil E. Arnold, 56-year-old Houston lawyer who ran unsuccessfully for commissioner of agriculture in 1944, announced his candidacy for Governor. He said the big-wigs have to go and the little-wigs must take over in Austin and Washington.

Brother of Two Local Men Dies

Word was received yesterday morning by Clarence and L. C. Qualls of Pampa of the death of their brother, Cecil Qualls of West Plains, Mo.

Qualls was stricken following the death of a son who was killed in an automobile accident last month. Qualls' other son was also injured in the accident.

Funeral arrangements are pending upon the arrival of relatives from West Plains.

City Calls for Bids on Paving

The Pampa City Commission has authorized City Engineer Dick Pepin to call for bids for paving 50 blocks of new streets in Pampa and for seal-coating about 85 blocks of existing asphalt streets.

The purpose of calling for bids early before summer construction starts, City Manager Steve Matthews said, is to give the successful bidder time to arrange for all necessary materials. The successful bidder will be required to stockpile his supply of topping gravel and asphalt in Pampa to insure completion of the job.

Bids will be received until 10 a. m. Mar. 23 in the office of the City Engineer.

German Girls Get New Clothes

HEIDELBERG, Germany—(AP)—Thanks to Marlin, Tex. 40 German girls are wearing new clothes today.

Ten boxes of clothing donated by the women of Marlin were distributed to teen-aged frauleins at a party sponsored by American women who are assisting in a German youth program here.

The donation resulted from an appeal by Mrs. Louis Smith, who is employed here by the U. S. Department of the Army. She wrote her mother, Mrs. Dunn Emmerson of Marlin, who enlisted other Marlin women in the project.

"I am so grateful to the American ladies who sent me this nice clothing," said Sigrid Schlemmer, 16, one of the happy frauleins. "I appreciate the work of the German Youth Administration because it gives me an opportunity to meet Americans and continue my studies in music and art."

VISIT PLANNED

LONDON—(AP)—King George VI will visit Australia and New Zealand early in 1949. Queen Elizabeth and Princess Margaret will go along.

We Saw...

A Pampa police officer put a courtesy ticket instead of a traffic ticket on an out-of-town car when it had overstayed its parking limit. The officer said that these courtesy tickets have really paid off in building civic goodwill. They have never failed to call forth favorable comment, and to bring a pleasant and happy smile to the visitor's face.

Want to Purchase The Maginot Line?

PAISIS—(AP)—For rent The Maginot Line.

The French government has offered for rent a portion of the sections of land in which the Maginot Line was built and through which the German panzer divisions came so fast in 1940.

The land for rent is in the region of Phlogrival, Almetz, Audun-le-Tiche and Bossuet.

Woman Charged With License Violation

A 1941 Dodge sedan, driven by Mrs. Roy Spiker of Wichita, Kans., was in collision with a 1947 Buick sedan, driven by Mrs. A. Neel of 319 S. Oyler, Pampa, yesterday afternoon.

The accident occurred in front of the Postoffice at 5:20 p. m. Mrs. Spiker was charged with driving without an operator's license.

Senior Class to Present 3-Act Play 'Brother Goose' Monday, Tuesday

The Senior Class of 1948 will present 'Brother Goose' a three-act comedy by William Davidson, on Monday and Tuesday nights at 8 o'clock.

Directed by Miss Thelma Henslee, speech instructor, rehearsals have been underway for the past few weeks. The play depicts the trials and tribulations of a 23-year-old man caring for two younger sisters and a younger brother. Without the aid of a steady housekeeper, the task becomes a little too difficult at times.

Members of the cast are Kelvin Neill, Barbara Stephens, Max Hukill, Nancy Thomason, Ann McNamara, Nicki Fraser, Hilda Burden, Wadean Thomas, Barbara Walters, Verda Elkins and Jim Wilson.

Assistant directors are Reba Killian and Bob McPherson; business managers, Emmett Forrester, Eugene Imel and Don Kephart; stage managers, Jimmie Marx and Bill McArthur; property managers, Patsy Williams and Larry Rhodes.

Tickets are being sold by all members of the Senior Class.

Some Demos Being Primed To Take Walk

WASHINGTON—(AP)—Some Southern delegations are being primed to take a walk at the Democratic National Convention if President Truman is nominated, leaders said yesterday.

Dixie lawmakers who declined to be quoted by name said it now seems almost certain that delegates in a half dozen states will be ready for this drastic action if some unforseen compromise is not reached in the battle over civil rights.

These legislators said some delegations may be sent to the July Philadelphia meeting with explicit instructions to walk out if the party adopts a plank for enforced changes in race relations and picks Mr. Truman to head the ticket.

Meanwhile, 21 Dixie senators voted from the Mutual Broadcasting System a promise of network facilities to broadcast their arguments on civil rights.

Headed by Senator Russell B. Gibson, they had demanded time for a dramatization of the report of President Truman's commission on civil rights.

Yesterday, Robert Swazey, MES general manager, a general telegraphed Gibson, who already has been chosen as a delegate to the convention, would not comment on the take-a-walk reports.

But he told a reporter that the Arkansas delegation of 20 members would support the walk.

(See DEMOS, Page 10)

Y Groups to Meet Here

Over 300 Texas boys and girls are slated to attend a West Texas District Y camp in Pampa Sunday here April 24. E. O. Wedgeworth, general chairman of the Planning Committee, has announced.

High School Principal Frank Wilson said that all the facilities of the school would be open to the delegates from Lubbock, Amarillo, Abilene, Plainview, Borger and Childress.

Pratt Wilson said Pampa was fortunate in having been selected as the site of the conference, and in having a Pampa as president of the conference.

He is Richard Scheig, who was elected to that post at a Lubbock meeting last spring.

Dr. Douglas Nelson said the Ministerial Alliance will make arrangements through local churches to house the young people. Dr. Nelson and Roy Yrigell, Mott head of the Music Committee, were selected to represent the churches on the Planning Committee.

Luther Pierson and C. T. Hightower, adult sponsors of the Pampa High School Y, will be in charge of the Finance and Entertainment Committees, respectively.

Mrs. Earle Scheig will handle registration and assignment of delegates to homes over the city. Don Thurt of Pampa High School is arranging for transportation to and from Pampa. Richard Hughes will head the Publicity Committee.

SYRIANS AND ARABS GET COMBAT TRAINING—Syrian and Iraq Arabs make up this firing line during combat training at Nabul, Northern Palestine. Additional Syrian forces were reported training across the border, ready to move into Palestine.

Today

67th Day of the Year on this day in 1849, Luther Burrows, breeder and improver of thoroughbred horses, was born. Ren Ames Wilson, contemporary author, was born on this day in 1850. Minnie, a resident of Chestnut Hill, Mass., today opens National Donut Week with a vase from the Bible for today: "Thou shalt rejoice in every good thing which the Lord thy God hath given unto thee, and unto thine house"—Deut. 26:11.

U. S. Weather Bureau PAMPA AND VICINITY: Generally fair and improving conditions today.

"Number please?" Twenty-eight Western Electric technicians and supervisors have been working day and night shifts for 11 weeks so more Pampans may have phone service, and so more operators may be on hand to ask that all important question.

Seventy-six operators are at work at the local telephone exchange now. Around April 3, when some 175 more phones will be connected, 12 more operators will go on duty.

The new switchboard will add five local positions and one toll position, setting up the local call capacity from the present 30,000 calls per day to around 42,000. A four-position information board is being installed. At present there are two information positions.

H. Newberry, local manager, estimated that the new system will eliminate all the "bugs" in the new system after April 3. In addition to the switchboard and power room jobs, which are being completed now, the telephone company plans completion of around 16 miles of cable in the city by Sept. 1. At that time it is believed phone service can be furnished to all those who now have no applications, the total being 271 at present. Cables will go underground from the central office to West Street, then from West to Hobart.

Around 18,000 wire connections were necessary in the new installations, together with almost an equal number of factory connections which had to be checked. Added to this task are some 300 power connections involving around 2,000 feet of power cable. Pattern systems and jugging machines are included in the installation.

J. E. Robertson of Fort Worth is in charge of the Western Electric project. Joe Price is head of the plant department here. Mrs. Lillie Mae Fowler, chief supervisor, directs new operators and supervises their training. Two classes of two operators are in training at all times. After a 180-day training period of four weeks a new operator is allowed to work at the board with the help of a service assistant on the floor.

It takes an average of two years to produce an efficient operator with a good rate of speed. The local company at present has a 55 percent loss of operators who resign before the two-year period is up. A new operator can handle 125 to 155 calls per hour. A local experienced operator may handle as high as 250 to 400 calls per hour. With some systems in other cities, the average speed is 200 to 400 calls per hour.

Mrs. Pearl Poole, who has been with the company since 1929, has the longest service tenure in the office. She is now service assistant.

The company at present employs 80 operators and allied workers in that department. They say the busiest periods of the day on local calls are 10 to 11 a.m. and 4 to 5 p.m. During these busy periods up to 3,000 calls an hour are handled.

Umland, Texas Is Award Winner

COLLEGE STATION—The Umland Community on the line of Hays and Caldwell Counties is winner of the Rural Neighborhood Contest sponsored by the Farmer-Stockman and Texas A and M College Extension Service.

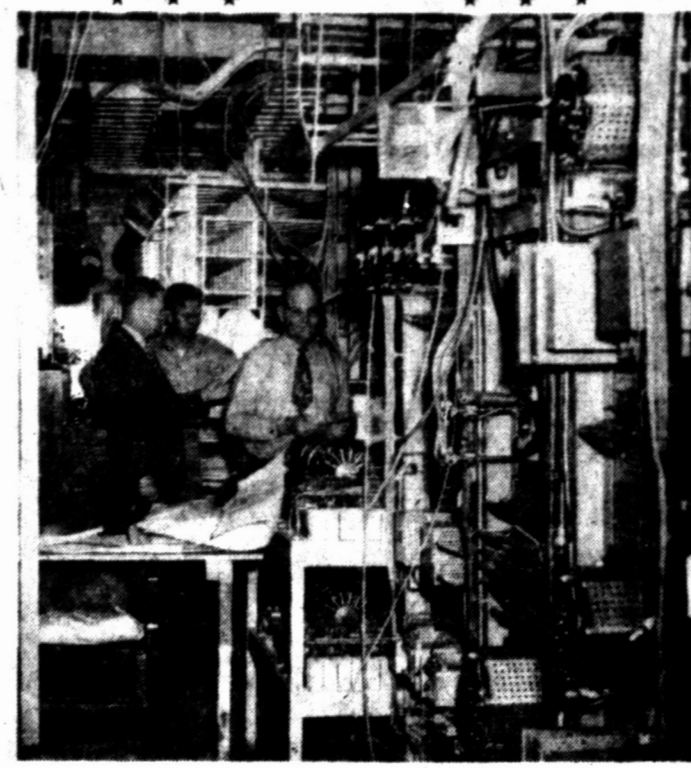

The grand prize is \$1,000. Maxey of Lamar County won second prize of \$750 and Avondale of Tarrant County won third award of \$500. Tigertown of Lamar County was awarded fourth prize of \$250.

Six other communities which get \$100 each. They are Broom, Anderson County; Black Hill, Atascosa County; Antioch, Hood County; Bishop Chapel, Jasper County; Pleasant Hill, Blanco County; and M. K. Community, Hemphill County.

Judges in the contest were E. C. Martin, assistant state agent, state home demonstration agent, both of the extension service; Mrs. Isla Mae Chapman, chairman of the family life department, North Texas State College; and T. C. Richardson, Texas editor of the Farmer-Stockman, Dallas.

With a value of 100 to 200 points each, the following achievements were the basis of the contests: soil conservation and improvement; home food supply; neighborhood activities and organizations; livestock improvement; crop and pasture improvement; farm and home equipment, school and educational facilities; communications; and farm buildings and fences. Two hundred points were given for original and unique activities not listed under these headings.

POWER ROOM Installations meet the appraisal of, left, G. H. Newberry, local manager; Guy LeMond, chief of the central office; and Frank Good, test board chief. Twenty-eight Western Electric men are finishing up 11 weeks of intricate work on wiring, cables and power equipment—around 14,000 man hours of work.

Men, Regain Youthful Vigor

Here is a Vital Message to Men of 40, 60 or Older Men Who Feel That The Years Have Let Them Down

If life apparently has lost its zest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasures, here is a simple method that may change your whole outlook on life. Don't feel old and worn out at 40, 60 or more. Why not try to regain the pleasures of living you once enjoyed, why be discouraged? Regain the verve and zest of a much younger man. Just ask your druggist for Caltron stimulating tablets. Take as directed on label. There is nothing harmful in Caltron tablets. Take as long as you feel you need them. Added years may no longer deprive you of desired enjoyment. Why be the victim of the "older" years? **Don't Be Discouraged** Goethe finished Faust at 82; Connie Mark is still managing the Athletics at 88; Tilla painted masterpieces between 80 and 90; Clara Barton was an active president of the Red Cross at 83; Verdi was composing. Victor Hugo was writing. Corot was painting long after 80. So don't let the added years get you down. Why not try Caltron tablets today? Available at all druggists.

RHEUMATISM YIELDS TO DRUGLESS METHOD OF TREATMENT

Excelsior Springs, Mo., March 6, 1948—So successful has a comparatively new, drugless method proven for treating rheumatism and arthritis that an amazing new book will be sent free to any reader of this paper who will write for it.

This book entitled, "Rheumatism," fully explains why drugs and medicines give only temporary relief and fail to remove the causes of the trouble.

The Ball Clinic, Excelsior Springs, Mo., has perfected a system of drugless treatment for 2348, Excelsior Springs, Missouri, rheumatism and arthritis combined but be sure to write today.

The Weather-Makers' Biggest Storm Is on Control of Cloud-Busting Job

What happens to a 14,000-foot cloud bank when the weather-makers go to work on it is shown in this Signal Corps photo, taken 44 minutes after the clouds had been "seeded" with dry ice. Dark area across the center is a channel of precipitation, 12 miles at its widest point. Scientists figure thus far they've caused more headaches than they have rain.

WASHINGTON (AP)—The United States is soon going to need a Federal Cloud Commission, an office of Cloud Coordinator, or some such government agency to handle the complex problems created by the new business of rain-making.

That's the private opinion of most of the scientists working on the government's weather-making research who agree that so far they've probably precipitated more headaches than rain.

The government's "foolin' around with God's work" has been blamed by the skeptics for the forest fires in Maine, New York's record snow, the hurricane in Savannah, Ga., last fall, the high price of corn and practically every other weather calamity of the past year.

A western rancher has filed a claim for exclusive rights to the use of the clouds above his property. Two states are about to sue each other to determine legal ownership of the clouds passing over their territory. A delegation from the Kansas State Chamber of Commerce recently arrived in Washington to demand that a rain-making project be set up in their state to prevent future droughts. And the manager of a southern baseball club has appealed for help, claiming that a rival league is sabotaging him by causing all his home games to be rained out.

These are just samples of the storm.

Most of the trouble, a spokesman for the federal weather-makers says, is caused by exaggerated claims made for the possibilities of making snow and rain. So far, he says, the best they can do is to cause a little rain or snow to fall from clouds which are just about to produce rain or snow anyway. You can't make it rain or snow if the proper clouds aren't in the vicinity, he points out.

But having gone only this far in the research, the expert claims, he's stirred up enough trouble for the future. He envisions "cloud raiding" by competing farmers or states in dry areas. Seeding a

"ripe" cloud with dry ice, plain water or silver iodide at just the right time could divert rain from one state to another.

The proper rationing of clouds is ultimately going to have to be decided by a federal agency, the expert predicts.

Already a battle among almost a dozen government agencies is flaring up over which one will get the job of bureaucratizing the sky. The Department of Commerce has a logical claim through the Weather Bureau. The Department of Agriculture could claim control for the farmers. The Department of National Defense wants control of weather-making for strategic purposes. The Department of Justice is interested because of the legal aspects. The Department of Interior claims the Bureau of Reclamation should have control of the project. So far, the National Archives is about the only agency which hasn't shown an interest.

Up until now, the Navy, Army and Air Force, working with General Electric, have done all the research. Their concern has been mostly military uses for weather control, such as cutting holes in clouds over airports to improve landing conditions and seeking ways to divert storms and hurricanes to throw in the way of opposing forces.

A report that the Navy had seeded a hurricane last fall, and changed its course to strike Savannah, caused an uproar. Actually, the experts say, it isn't definitely known whether the experiments at that time even produced rain in the storm area. And they say it is ridiculous to think they might have changed the path of the storm.

After the recent snow storm which crippled New York, an Army Signal Corps spokesman says, rumors were as thick as the snow that the storm was caused by experiments which had misfired over the Atlantic. The Signal Corps expert said this was impossible because no experiments were going on at the time, and even if they had they wouldn't have been big enough to have caused so much snow.

But the explanations aren't spiking the rumors.

Alcoholic Kick In Auto Engines Is Coming Next

OMAHA (AP)—Putting an alcoholic kick into auto engines may bring a day of:

High-power performance on low-grade gasoline.

Trucks and autos climbing hills in high instead of creeping up in low.

Economical driving on the flat, with a ready surge of power when needed.

Part of your power coming from corn cobs, or grains.

These possibilities from use of alcohol as liquor fuel were described by Dr. G. E. Elbert, director of the Northern Regional Research Laboratory, U. S. Department of Agriculture, at Peoria, Ill., to the National Farm Chemurgic Council Conference. There are some "ifs and buts."

A gallon of alcohol can be blended with nine gallons of low-grade gasoline to make 10 gallons of premium anti-knock fuel, he said. The blends wouldn't require any changes in engine design or readjustment.

Something different, for the extra burst of power, are gadgets already available which can inject mixtures of alcohol and water. This was done with airplanes during the war. The alcohol injections would take trucks uphill in high.

Such power is needed only occasionally. The rest of the time engines could operate on cheaper, lower octane gasoline. This would

save all reserves, for it takes more crude oil to produce high-octane gasoline.

high price of alcohol, Dr. Elbert said. Even if corn cost a dollar a bushel, alcohol would cost 50 cents a gallon under present recovery practices. But this may not mean so much within a few years.

PAGE 3
Gospel formerly meant "good story" or "glad tidings."
Solomon was the most famous son of David.

Easy on the eyes - and ears

Standing still, it has the eager look of a pointer scenting game, so swift and flowing are its lines.

Sweeping by, it stands out unflinchingly from the highway crowd, unmistakably a Buick and unquestionably the year's trimmest fashion plate.

But have you traveled in one of these tidy new beauties?

Have you seen for yourself how smooth and silent is its flow of power, how hushed and quiet is its ride?

This comes from many things.

From Fireball power now Hi-Poised for throbless smoothness. From a Vibra-Shielded ride that is your ever-present protection against road-noise, body-drum and vibration build-up.

And it comes, in addition, from a brand-new development we call Sound-Sorber top lining.

It's a thick pad of feathery insulation much like that you use in your own home, and it goes into every closed model in our 1948 SUPER and ROADMASTER series.

This new lining cloaks your Buick in new and delightful silence akin to that of your own living room -

silence that encourages normal-tone conversation, makes soft radio music clear and enjoyable throughout the whole car.

So you ride in quiet as well as beauty when you travel in this style star.

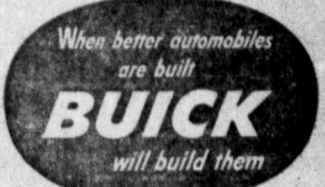

You find it a great-hearted lovely that is soft of voice and gentle of manner - a delight to the traveling ear, the guiding hand and the passing eye.

Don't just see it at your Buick dealer's - look into it with greatest care. The deeper you look the surer you'll be to see the wisdom of getting a firm order in now!

You shall have music - wherever you ride

Front seat or back, you listen to your radio at soft and undistorted volume in this new Buick. You talk without shouting, know freedom from rattle and din. Always cars of quiet comfort, the Buick SUPER and ROADMASTER step out still further with Sound-Sorber top lining—a Buick exclusive.

Deafened People May Now Hear Clearly

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music, and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association, this device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The tone is clear and powerful. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. 22, 1450 W. 19th St., Chicago 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. Write Beltone today.

Army Day Set for Tuesday, April 4

WASHINGTON (AP)—A one-time Army officer, President Truman has proclaimed Tuesday, April 6, as Army Day.

Mr. Truman invited Governors to issue proclamations also so that not only the regular Army but also the reserves and national guards, should be honored that day.

Civil Cases Are Settled in Court

Friday in District Court the specific performance suit of G. B. Cree, Jr., vs. B. L. Hoover was dismissed on motion of plaintiff.
Title was cleared in the suit of Henry L. Ogan vs. S. B. Kinkead, et al., and Lewis Kinkead, et al.
Judgment was entered this week in the damages suit of S. C. Couch vs. William Paul Hugg and Mrs. Mae Kerrick. The Court directed recovery of \$12,700 with six percent interest from Hugg; with Mrs. Kerrick to recover \$690 from Hugg.
The suit grew out of an automobile accident involving a car driven by S. C. Couch and a car owned by Mrs. Kerrick and driven by Hugg.

Texans Have Big Week in Capital

WASHINGTON — (AP) — Texans were ranging all over the place the past week.
On either side of the Capitol or downtown at leading hotels, you were bound to bump into some of them. Most of them were here for the tidelands fight or the Southern fight against President Truman's civil rights program, or both.
Gov. Beauford Jester, on his first visit to the capital since becoming the state's chief executive, held the spotlight.
He was a member of the Southern Governors' Committee which talked with Chairman J. Howard McGrath of the Democratic National Committee on Civil Rights. He also helped direct the state fight before the joint Senate-House Judiciary Committee for approval of legislation giving them clear title to submerged lands.
Texas Attorney General Price Daniel and Land Commissioner

Bascom Giffis, with members of their staffs, were in the thick of the tidelands battle.
Rep. Ed Gossett of Wichita Falls, one of the House members of the joint Judiciary Committee, emerged during the week as one of the leaders in both the tidelands case and the Southern protest movement.
On at least one occasion, Gov. Jester and others went to Gossett's office after the day's tidelands hearings were over to map the strategy for the next day.
Besides state officials, other Texans in attendance at the hearings during the week included: Republican National Committeeman R. B. Creager of Brownsville, Robert Lee Bobbitt of San Antonio and Laredo, Elmer Patman, Houston oil and gas attorney, and Frank Jackson, superintendent of Tom Green County Schools, San Angelo.
Jackson, immediate past president of the Texas State Teachers Association and other said that federal ownership of tidelands would deprive Texas of millions of dollars revenue in oil leases. Loss of that money to the state school system would necessitate an overhauling of the state's tax structure, they said.

Tuberculosis Still Very Serious Problem in U.S.

AUSTIN — "Carelessness and ignorance represent two of the most powerful factors in spreading communicable disease from man to man. No more emphatic example of this fact exists than the continued ravages of tuberculosis. In spite of the knowledge of its causes and spread, and of curative methods, tuberculosis is still a very serious problem; not only in Texas, but throughout the United States," states Dr. Geo. W. Cox, state health officer.

"It is true that tuberculosis no longer is first on the list of 'thin' diseases as it was formerly," Dr. Cox said, "but despite having been reduced to fifth place in Texas, it still is responsible for more deaths between the ages of fifteen and forty-five than any other disease. And this fact exists even though the majority of tuberculosis patients could have their condition arrested if it were recognized early and proper treatment applied."
"Treatment of the early recognized case is essential. It is of equal importance from a public health viewpoint, that the spread of this devastating infection be prevented. A more intelligent appreciation of this fact would result in the saving of thousands of lives."
"When a diagnosis of active tuberculosis has been made, examination of all of the other members of the immediate family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility to the disease, but because it is communicable, being usually transmitted through close and prolonged contact with the active case."
To reduce the number of deaths caused by tuberculosis, Dr. Cox suggests periodic examination of

Trade Relations Meeting Slated
LAREDO — Chamber of Commerce managers and chairmen of trade relations committees along the Rio Grande have been invited to a conference here on March 8.
The meeting was called by J. M. Mabe, manager of the Eagle Pass Chamber and W. J. Stiles, manager of the Laredo Chamber. Slated for discussion were trade problems confronting the entire border, particularly in connection with Mexico's recent import embargo decrees.
A famous hole in the wall of the chamber of the Great Council in Venice was called the "Lion's Mouth." Through it anonymous accusations were passed into the members.

Pennsylvania Is Scuttled by Navy Near Kwajalein

PEARL HARBOR —(AP)—The Battleship Pennsylvania, survivor of the Pearl Harbor debacle and two atomic blasts, was scuttled near Kwajalein Feb. 10, the Navy has announced.

"Damage received at Okinawa was mainly responsible for the Pennsylvania's unseaworthiness and not damage inflicted during the atomic bomb tests" at Bikini in July, 1946, the Navy said.

Two other warships, termed victims of "progressive deterioration," also were scuttled last month. They were the destroyer Trippe, sunk Feb. 3, and the attack transport Banner, sunk Feb. 14.

The Navy said the Pennsylvania could not have remained afloat much longer in Kwajalein Lagoon. She was towed there after the Bikini atom tests. She was considered a possible menace to shipping if she sank in the

6,500 Texans Get Refunds on Taxes

WASHINGTON —(AP)— Approximately 6,500 Texas taxpayers received federal tax refunds of \$200 or more in the year ended June 30, 1947, the Internal Revenue Bureau has reported.

Largest Texas refund listed was a total of \$1,602,141 to the estate of Beasie A. Woodward, Houston. There were two separate refunds of \$500,885 and \$801,286. W. B. Barnhill, John F. Dillard and J. A. Phillips were listed as independent executors of the estate.

The New Orleans, Texas and Mexico Railroad Company, Guy A. Thompson, trustee, Houston, got back \$3,164,916 in income taxes and \$24,978 in excess profits taxes.

The McEvoy Company, Houston, received a total of \$266,885 in excess profits taxes and the Longhorn Portland Cement Company of San Antonio \$233,278, also in excess profits taxes. The Lone Star Producing Company of Dallas was listed for an excess profits tax

Labor Will Fight Federal and State Legislation With Ballots

HOUSTON —(P)— Labor is in a militant mood as a result of state and federal labor legislation, officials here for the eighth Southern Conference of Teamsters Convention, declared.

In this important election year they plan to fight back with ballots, and plans for constitutional test cases are being perfected at this meeting.

George Goetz of Atlanta, Ga., southern director of the American Federation of Labor, said these "anti-labor laws" have retarded organization of the unorganized about 75 percent.

Dave Previant of Milwaukee, Wis., general counsel for the southern conference, said the legal committee composed of attorneys from all 12 states of the conference, will draft a blue print to show unions how far they may go in face of the laws.

He and others were especially critical of the Texas labor laws passed last year. Those sections relating to the boycott, anti-picketing and restricting strikes will be fought, he said.

"Although it will not be the plan of the union to defy the unfair laws," he said, "there will undoubtedly be test cases which will be carried to the Supreme Court."

Kay Kyser Show On Air 10 Years

HOLLYWOOD —(P)— A rocky Mount. N. C. boy made good in the glamor city Monday night.

He is Kay Kyser, whose radio College of Musical Knowledge celebrated its 10th anniversary. The event was marked by a dinner which featured lobster, roast beef and a flaming dessert.

It attracted such Hollywood friends as Irene Dunne, Robert Montgomery, Walter Pidgeon, June Allyson, Dick Powell and Pat O'Brien.

The former University of North Carolina maestro was lauded by his sponsors and cited for his war entertaining by retired Marine General Holland M. Smith. He was serenaded by Jane Russell, Dennis Day and Judy Canova.

He was spotted by Edgar Bergen, Jack Benny and Bob Hope. Hope said "this shows you what nerve, an old bathrobe and a mouthful of hot vegetables will do for you."

"It was a great night for the 'ole professor.'"

Borger Will Celebrate Her 22nd Birthday on March 8

BORGER —(Special)— Plans are going strong for Borger's party to be celebrated March 8, on the occasion of its 22nd birthday, according to J. C. Phillips, committee chairman.

Fiddlers are going strong as they get their elbows in condition for their real country hoe-down contest; high school bandsmen from all schools in this area are polishing up their horns and wetting their reeds for the all-day band concert; old-timers are thinking up their best and wildest yarns to recall at their reunion.

Going strong too are the preparations of all civic organizations and fraternal orders as they figure out the best way to entertain the thousands of celebrators that will pour into Borger on March 8.

Newt Alexander, celebration manager, said that permission has already been granted to rope off two blocks on North Main Street to be used as space for organizations to set up their concession stands.

Banners and street decorations station, "We're gonna give prizes to the best fiddlers, but even if a person doesn't win, he'll have a lot of fun," De Weese promised.

A real treat is awaiting all school musicians, for Mrs. Louise Williams, president of the Ladies Auxiliary, has promised a delicious feast for them. The auxiliary will serve a dinner to the horn-toters which will feature baked ham, brown beans, potato salad, and pie or cake.

"All organizations that haven't made arrangements to sponsor a concession should see Newt Alexander as soon as possible," urged Chairman Phillips.

"We want all groups in Borger and surrounding towns to set up a concession; the type to be managed should be both profitable to the group and entertaining to the people."

"All profit realized from the operation of a stand will go to the group managing it," Phillips said.

"Borger has had some real parties in the past," Alexander recalls, "but it looks like this year a merry-making is going to be the best."

New York City is composed of five boroughs, the Bronx, Richmond, Queens, Manhattan, and Brooklyn.

Houston Attorney To Run for Office

HOUSTON —(P)— Attorney Virgil E. Arnold's hat was announcing he was a candidate for governor of Texas.

The 56-year-old Houston lawyer announced his candidacy here yesterday subject to action of the Democratic Primaries in July.

Arnold said he proposes a "house cleaning" in Washington and Austin. "The big wigs will have to go and the little wigs will take over," he said.

He said President Truman "has repudiated the traditional principles of the Democratic Party of the South" and that "the governor of Texas is a direct representative of the big corporations and the combines."

Pampa News, Sunday, March 7, 1948 PAGE 7

EAT PLENTY AND TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drug-store and ask for 4 ounces of liquid Barcostrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic, from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

Lost 47 Pounds
"When I commenced to take Barcostrate, I weighed 212 pounds. I now weigh 165. I lost 25 pounds on the first two bottles. I feel so much better after losing that weight. I think it is a wonderful medicine and thanks to Barcostrate."—Mrs. George Gregg, Chairman Courts & App. S. Austin, Texas.

Lost 20 Pounds
"I lost 20 pounds taking four bottles of Barcostrate and I feel fine."—J. M. Golan, 812 20th Street, Corpus Christi, Texas.

Highways of the future will be built to meet immediate demands, but with adequate right of way for expansion as needed, M. J. Gen. Philip B. Fleming, Federal Works administrator, declared.

General Fleming is also chairman of President Truman's Highway Safety Conference. He picked "highway safety" as the subject of his talk before the teamsters.

"I welcomed the opportunity to speak on safety to the teamsters," Gen. Fleming said, "because members of this union are so vitally concerned with highway safety."

He pointed out that of the 37,000,000 motor vehicles registered in the United States in 1947, about 6,500,000 are trucks.

"But in miles traveled the ratio of trucks to passenger vehicles is far higher," he said.

Declaring that there could be no set plan which all future highways would follow, he said they must be built to individual requirements.

"Some sections might only need a two-lane road with the conventional dividing strip in the center," he said, "whereas others might find three lanes each way inadequate."

"I doubt if there will be any more three-lane highways built, however," he said. "Too many motorists seem to think the middle lane of such roads is there expressly for them."

On actual tests, he said, it has been found that accidents rise when a two-lane highway is increased to three lanes.

Bums Get Stanky in Braves Trade

BRADENTON, Fla., (AP)—The Boston Braves last night acquired second baseman Eddie Stanky from the Brooklyn Dodgers for first baseman Ray Sanders, holdout outfielder Bama Rowell and a reported \$60,000 cash.

In the event that Sanders, inactive since the middle of the 1946 season because of a badly fractured arm, is unable to make good, the Braves, it is reported, would send the Dodgers an additional \$60,000.

The Dodgers, it was said, planned to install Sanders at first base and use Jackie Robinson at his natural second base position.

Steers to Play in National Meet This Week

AUSTIN (AP)—The Texas Longhorns, boasting the outstanding basketball record of the Southwest for two seasons, wind up the regular 1948 campaign this week then hop up to New York where they have yet to lose a game. There Texas will play in the National Invitation Tournament.

Since the fag end of the 1946 season the Longhorns have grabbed 47 victories in 53 starts. The Longhorns wind up the Southwest Conference season at College Station Tuesday night when they play Texas A and M. Victory over the Aggies will mean a second place finish in the conference race. A loss would mean Arkansas would tie Texas for the runner-up spot behind champion Baylor.

Early Wednesday the team will take a train for New York, arriving Friday in time for a work-out. The Longhorns' first game in the National Invitation will be Saturday night.

Texas' record for the past two seasons shows: an undefeated conference championship and third place in the National Collegiate Athletic Association tournament in 1947 and 19 victories against four losses this year.

At New York Coach Jack Gray will depend on a rebuilt offense, a more deliberate, slower style than New York fans have seen Texas use in two appearances last season and one this year. A lack of reserve strength dictated the change.

In their previous New York appearance, the Longhorns won from Manhattan (1939, 54-32; from Long Island (1946), 47-36; and from CNY twice, in the 1947 NCAA third-place game, 54-50, and in a pre-Christmas game this season, 61-59.

Hogan, Demaret Win in 1st Round Miami 4-Ball Tourney

MIAMI, Fla.—(AP)—Bucking a 26-mile an hour wind, and frequent showers, defending champions Ben Hogan and Jimmy Demaret won their opening round match in the \$10,000 Miami International Four-Ball Golf Tournament yesterday by defeating Ralph Guldahl of Chicago and Jim Turnesa of Elmsford, N. Y., 5 and 4.

Record Catch

L. Douglas Murray of Toronto stands beside his 83-pound white marlin he caught off Bermuda. The catch constitutes a new Bermuda marlin record, the previous one being 66 pounds set in 1936.

McCarthy Has Pitching and Infield Problem With Sox

SARASOTA, Fla.—(AP)—Joe McCarthy hardly had finished naming the lineup for today's opening intra-squad tussle in the Boston Red Sox camp, when he hurriedly added that the Sox were buying players from the Browns.

McCarthy, who is just getting the hang of his new job as Red Sox pilot, insisted: "Don't try to make anything out of that, because it is just selected at random. We've only had five days of practice and it's too early to tell anything about the team."

Marse Joe, who came out of retirement to succeed Joe Cronin when the other Joe was moved up to the post of general manager, probably is talking even less these days than when he managed the New York Yankees. There's a very good reason for it, because a lot of people started picking the Sox as 1948 champs as soon as owner

Tex Hughson underwent two operations during the off season, one on his shoulder to correct circulatory troubles and the other for removal of bone chips in his elbow. Boo Ferris couldn't approach his sensational 1946 performances.

If these three all return to peak form, the Sox should have a great pitching staff with Joe Dobson, Dennis Galehouse, Jack Kramer and Ellis Kinder.

Marse Joe has been alternating Vernon Stephens, another ex-Brownie, and Johnny Pesky at shortstop without giving any indication who will get the call. It is assumed that one will be shifted to third base. Bobby Doerr is a fixture at second. So far Stan Spence, former Washington outfielder, has done all the "Varsity" first basing. McCarthy says there's nothing wrong with Jake Jones; he merely has been using other players.

Birdie Tebbels, a cagy veteran, will be the no. 1 catcher with Boris Babe Maris converted outfielder up from Toledo, in reserve.

Carver Teams Split With Dunbar

Carver High School's girls' basketball team completed their sixth undefeated season Friday night, in the Junior High School Gym when they downed the girls' team of Dunbar High School of Lubbock 26 to 9.

The Carver boys' dropped their first game of the season, when Dunbar came from behind after trailing the Carver team the first three quarters to win 25 to 23.

Halftime activities saw Pattie B. Dunbar crowned Carver basketball queen by captain of the boys' squad H. A. Bonner. Her attendants were Pattie Geary and Alfre Vinson.

Friday night's game was sponsored by the Carver P-T-A in an effort to raise funds for the purchase of a movie projector for the school.

PNEUMONIA DOWNS

NORMAN, Okla.—Kansas' track team was at home on Oklahoma's frigid oval under its stadium, which publicist Harold Keith named Pneumonia Downs. The Jaywalkers also work under one way their football arena in sub-freezing temperatures.

PROFESSOR WALDOFF

FRESNO, Calif.—California's Pappy Waldoff will hold classes on football coaching at a post session of Fresno State's Sierra Summer School at Huntington Lake, Aug. 9-20.

Complete New Set of Champs Assured in State Cage Meet

AUSTIN (AP)—A complete new set of Class AA, A and B state schoolboy basketball champions was assured last night as Mount Vernon overpowered East Mountain (Glimmer) 44-33 to become the new Class A champion.

Maydelle took the class B crown away from Johnson City in an overtime game, winning 35-32. The High did not reach the tournament this year.

Mount Vernon jumped into an early lead and never gave it up. Maurice Campbell, Mount Vernon guard, continued his hot scoring pace with 17 points for top honors. It brought his three-game tournament total to 49 points.

Jimmie Fountain, East Mountain forward, was second high scorer with 16 points.

The Maydelle-Johnson City clash was the tourney's first final. Minus the services of their guard forward, six foot six inch Leonard Lamb during the last six minutes, Maydelle stalled off Johnson City's desperate bid for victory. Lamb went out with a badly-sprained ankle.

Maydelle's guard, N. J. Hassell, was brilliant in controlling the ball and Center Dean Lloyd contributed five vital points in the closing minutes of the game.

Lloyd was high point man of the game with 13 points and Hassell had 12. All-stater Charles Haley of Johnson City was held to 11 points.

Lufkin, the East Texas team that makes a habit of coming to the Interscholastic League State Basketball Tournament, challenged mighty Crozier Tech of Dallas in the class AA finals last night.

The Panthers from Lufkin reached the finals by scoring a stunning 44-34 upset victory against the Milby Buffaloes of Houston.

Lufkin faced the difficult task of trying to check Crozier Tech's brilliant forward, Bryan Miller. Miller drilled the basket for 25 points against the bosie Bears, the highest single-game total of the tournament. He had a two-game total of 45 points.

Sweeney won third place in class B, downing Carey, 35-31. Dimmitt had already become automatic third place winner in class A when Throckmorton forfeited yesterday.

UNBEATEN IN 54 STARTS.

HALEBAH, Fla.—Few top thoroughbred horses today race so times. The great mare Kinsem was unbeaten in 54 starts.

Man-Alligator To Battle on Weekly Card

Four wrestlers will share the spotlight with an eight-foot alligator Thursday night at the Sportatorium.

Along with the weekly double event on which Dory Funk of Hammond, Ind., will meet the Mask and on the companion feature Gorilla Poggi of Argentina will tangle Pierre LaBelle of Portland, Ore., Promoter Vic Burnett will present as an added attraction a wrestling match between the alligator and its owner and a very good wrestler Tuffy Truesdell.

Funk, former University of Indiana wrestling star, will be matched against a hooded 190-pounder known as The Mask. The Mask has refused to state whether he is the masked marvel that showed his wares in this area in 1936 and 1937.

Johnny Corlin will referee the Thursday night matches.

DOUBLE OR NOTHING

EVANSTON, Ill.—Victory in the high and low hurdles in the Big Nine indoor meet at Champaign, Mar. 12, is the goal of Bill Porter, Northwestern's tall timber topper. He swept the events in the outdoor championships last June.

Salmagundi Wins Derby

ARCADIA, Calif.—(AP)—Salmagundi came up in the stretch and won the \$100,000 Santa Anita Derby in a photo finish with Call Bell before 61,000 fans yesterday.

Roosevelt Took Office 15 Years Ago Last Week

WASHINGTON (AP)—Fifteen years ago Thursday tradition-smashing Franklin D. Roosevelt started his presidential career by smashing a tradition.

When Chief Justice Hughes read the presidential oath of office, Mr. Roosevelt did not follow with the usual phrase-by-phrase repetition of the oath. He waited until Mr. Hughes had finished and then repeated the entire 35-word pledge in one unbroken statement.

Few Presidents-elect have learned the full text of the oath. Mr. Roosevelt was all set with it, the words rolling out in the resonant tones which marked his public utterances.

Then, in an effort to bolster the spirit of a nation with a bad case of the hard-times jitters, he launched into a confidence-studded inaugural speech.

"So, first of all," he said, "let me assert my firm belief that the only thing we have to fear is fear itself."

Next day he closed the nation's banks until they could be reopened on a sounder footing. Then he called Congress into special session for emergency action.

Eight days after his inauguration Mr. Roosevelt began the series of fireside radio chats which delighted his friends, exasperated his enemies and impressed multitudes of voters.

"My friends" sonorously rolled out of loud speakers all over the

country. His political showmanship was focusing attention on him as the leader, not of a party to ruin, as of a nation.

In 10 months he made 20 radio talks, a record-setting performance of a Chief Executive.

During his famous "100 days" Congress swiftly ground out legislation, tailored almost completely to his order. He bombarded Congress with messages. Revolutionary economic measures sometimes swept through both houses in a single day.

To aid an estimated 12,000,000 unemployed, Congress approved a \$3,300,000,000 public works program. A fund of \$500,000,000 was voted for states which matched federal money in furnishing food and shelter for the needy.

Other billions were voted to help families threatened with the loss of homes and farms by mortgage foreclosures. A crop control program, with bonuses for farmer participants, was aimed at curtailing production and boosting prices for farm products.

The President was authorized to manage the national currency with wide inflationary powers. He took the country off the gold standard.

Congress created the Civilian Conservation Corps, restored 2-cent postage, passed a securities regulation bill to protect investors and modified the Volstead Act to allow sale of 3.2 percent beer.

At the height of the Roosevelt presidential "honeymoon," in the summer of 1933, the press reported that a New York family had named a new baby Franklin Delano Blue Eagle. A Chicago couple named Luel infant son Franklin Garner, in honor of both the President and vice president.

Traffic Fatalities In State for '47 Near 2,000 Mark

AUSTIN (AP)—The count on Texas' traffic fatalities last year edged toward the 2,000 mark as official reports continued to come in to the Texas Department of Public Safety.

In a preliminary report on 1947 traffic accidents the department counted 1,991 dead, 32 more than in 1946.

Final figures on 1947 casualties are to be released on March 18, the report said.

Friedrich Elbert was the first president of the German Republic.

AS LONG AS I LIVE by Ione Sandberg Shriber

© BY IONE SANDBERG SHRIBER. DISTRIBUTED BY NEA-SERVICE, INC.

SHE sat motionless in the chair, looking at the shoe she held in her hand. It was a pretty shoe, a new one. It was tooless in the current style, with shining big buckles and high sling heels.

She glanced down at its mate on the floor. She'd dropped it there a few minutes ago when the fear began touching surface. It lay on its side, the sole turned away from her. It was just a shoe.

She shivered and her eyes moved to the door. The key was turned. For the time being, at least, she was safe. So long as she remained here, in her room, with the door locked, no one could—no one could what?

The fear hovered above her, caught at her, plucked at her nerves. Her teeth began to chatter. She closed her mouth firmly, gripped her teeth together. Her mouth felt stiff and dry. She was shaking all over. She couldn't seem to stop. You'd think she was ill, you'd think she had a fever. But that was silly. She wasn't sick. There wasn't anything at all the matter with her—except for the fear. She hadn't known before that fear was physical—tangible almost.

She jumped suddenly. Her hand flew to her mouth in an involuntary jerking movement. Someone was in the upstairs hall, trying her door and finding it locked, knocking then and calling her name.

"Ann, Ann, are you in there?" It was Laurie. Her sister. Surely there was no reason in the world why she should be afraid of Laurie, her kid sister, only nineteen, ten years younger than Ann. Yet she couldn't answer. The fear constricted her throat, tightened the muscles, so that she wasn't able to reply. And then she heard someone else, joining forces with Laurie in the hall.

"I tried the door," Laurie said. "It's locked. And she doesn't answer."

"Try again," someone said. "Maybe she didn't hear you."

The low voice belonged to Rinda, Dorinda Bruce, who had been Ann's roommate in college eight years ago; Rinda, whom Ann had not seen since graduation until that day two weeks ago when Rinda arrived at Tophill for a long delayed visit.

"Ann! Ann!" Laurie called again and pounded with her fist upon the door. "Darn it, Rinda, we're late already. I thought I heard her in the hall. I thought . . . She knows we're due at the club. Tommy hates to be kept waiting."

In one quick rush Ann crossed the room, scooped up the brown shoes, replaced them in their box in the closet, stuck her feet into a pair of flat-heeled strollers. Hurrying, so they wouldn't be suspicious. She went to the door

Truman Calls on Women for Help

WASHINGTON (AP)—President Truman has advised that women use their power over the household purse to fight "the high cost of living."

Mr. Truman addressed a conference of women leaders at the Labor Department. It was arranged by the department to commemorate the 100th anniversary of the movement for women's rights.

"Women's organizations have at hand a ready weapon which they control it."

And that was when Laurie came to the bedroom door and called impatiently, "Ann, Ann, are you in there?"

(To Be Continued)

General Electric Opposes Increases

NEW YORK (AP)—The General Electric Co., the nation's largest electrical manufacturer, has disclosed that it will oppose any inflationary wage increase for its 100,000 unionized employees.

Company officials said they felt any wage rise now would increase inflationary pressures and undermine the company's ability to maintain price cuts it put into effect two months ago.

General Electric's position became known as it prepared to enter contract negotiations with the CIO United Electrical Workers, which seeks substantial pay increases to meet increased living costs.

Cadillac PRESENTS THE New STANDARD OF THE WORLD!

Today, the world has a new standard by which to measure motor cars. For Cadillac has taken a great stride forward—one of the greatest, perhaps, in its entire history of automotive pioneering. As is always the case when a new Cadillac is introduced, the advancement embraces every phase of automotive goodness. The exterior appearance is wholly new, and represents the soundest principles developed in years of research. Interior design and finish are a complete departure, and add immeasurably to comfort, beauty and convenience. Performance is finer in every way, for the great Cadillac chassis and engine have been thoroughly refined. And vital improvements in factory equipment have raised even Cadillac's high standards of manufacturing. In fact, all the attributes which have contributed to Cadillac's reputation as the world's premier motor car have been made more pronounced. Regardless of the price class from which you expect to select your next car, you are cordially invited to view the new Cadillac—now on display in our showrooms. When the standard of the automotive world has been so decidedly raised, it should be of interest to everyone.

Cadillac's basic characteristics of design are fully apparent in the front view of the 1948 model. Bumper and grille are even more massive. The symbolic V ornament and crest have been pleasingly refined to harmonize with new, low hood lines.

Viewed from the rear, the 1948 Cadillac, shows a complete departure in design. The full-width rear window improves appearance and safety. Smart "radder-type" fenders, protected by sturdy bumper uprights, give an appropriate touch of business. Note the wide, low rear deck.

Wedding Orchid Is Dehydrated

NEW YORK—(AP)—The white orchid that topped Princess Elizabeth's wedding cake has been dehydrated and is expected to retain its natural color and shape for five years, the British Travel Association has said.

The association said the dehydration process was begun immediately after the wedding last November and completed during the last several weeks at the Bronx Botanical Gardens here.

The first telephone service between New York and London cost \$2.50 per minute with a 5-minute minimum charge.

KYLE

(Continued from Page 1) Hughes announced also in today's edition that he would be a candidate for reelection. He is office holder in Place 2 of this precinct.

Earl Lewis announced he would run for reelection to the post of constable of Precinct 2. Two other candidates have already announced for the office — C. M. Tucker and W. F. Langley.

Attorney B. S. Via has announced his intentions to seek the office of county attorney. It was still being rumored this weekend that John Studer, local attorney, would seek the office; but he has not come out publicly.

RED CROSS

(Continued from Page 1) their financial aid. He spoke highly of doctors and nurses in these communities.

Thousands of dollars were paid by the Red Cross to hospitals in Pampa and other towns in Texas and Oklahoma for their care of the injured.

He stated if he had any criticism of the Red Cross, it would be that "they were too generous and good." The expenditures were controlled by a board of Higgins people.

He said that, although many organizations including the Salvation Army, helped immensely, the speech was primarily in the interest of the Red Cross in its current drive.

He was introduced by Cliff Ausmus, member of the Kiwanis Club.

Tough Rooster Given Reprieve

DALLAS—(AP)—Jim, Dallas' toughest rooster, crowded too loudly and too early over cheating the chopping block. His 10-day reprieve was extended but he's in more trouble.

Justice of the Peace W. E. Richburg, who stayed his own sentence, said Jim was going to be exhibited at a high school carnival and at a Lions Club meeting next week.

"If I keep the prisoner up late, he might not raise Cain so early in the morning," Richburg reasoned after neighbors complained the white-rooster crowed too loudly to sleep.

Richburg decreed the axe for Jim last week when he spurred the face of 18-month-old Carolyn Sue Mans. A plea for mercy from the child brought a 10-day reprieve and a promise the chopping block would be changed to the auction block.

NEW LOOK IN ENGLAND LONDON—The photo finish camera, which has come to be taken for granted in America, was tried in England last year, and proved so popular that it is used throughout the country is seen likely.

Strip-teaser Is Battling Police

NEW YORK—(AP)—Former strip-teaser Georgia Sothern, who insists that she's shelled her bump and grind routine for "skilled and artistic" dancing, wants the cops called off.

They revoked her permit to perform. Too much bare skin, police said. And Georgia's wiggles, they added, are still "ferocious."

So blonde Georgia, who says her "burlesque of burlesque" is done strictly for the laughs these days, is suing to force return of "the permit."

Friday, Supreme Court Justice Morris Eder granted the dancer an order requiring Police Commissioner Arthur Wallender to show cause next Tuesday why he shouldn't heed Georgia's appeal. Meanwhile, the judge said, she could continue her work at the Club Shmoo.

But the police got around that neatly. Even as Georgia was getting her stay, the club's cabaret license was suspended on charges that it permitted a risque dance. By whom wasn't specified.

Said Georgia: "They accuse me of doing bumps and grinds. I couldn't do a grind for a million dollars. I do a few bumps—they call them ferocious bumps. But what I do is a burlesque of burlesque."

And not only that, Georgia added, police claim she uses a "rosebud" for a costume and "I never even owned a rosebud."

KARELIANS

(Continued from Page 1) emergency session.

Informants indicated the government probably would appoint a delegation to meet with the Russians, but its powers would be strictly limited.

It was believed such a delegation would seek a full outline of what Russia wants before taking the next step. A majority of the Finnish Parliament opposes any military tie-up with Russia as suggested by Prime Minister Stalin nearly two weeks ago.

A government minister said: "We realize fully that if we accept the proposal we would formally belong to Russia's eastern bloc. That is something we should like to avoid."

There was no indication that any decision was made at yesterday's conference. However, Paasikivi and the members of the Foreign Affairs Committee were believed to have discussed the make-up of a delegation, should Finland decide to take up the negotiations.

It appeared clear the Agrarians, Conservatives and Liberals — all of whom opposed negotiations of any sort on the basis of Stalin's proposal — could not be represented on the delegation.

Paasikivi himself was reliably reported to be enthusiastic about a military alliance. Of the nation's six parliamentary groups only the Communist-dominated Popular Front Bloc is supporting a full military alignment with the Soviet Union.

A caravanserai is an Eastern inn where caravans rest at night.

U. S. Wants No Advice From 3 Red Satellites

WASHINGTON—(AP)—The United States has told three Russian satellite nations it does not want their advice on Germany.

The three—Czechoslovakia, Yugoslavia and Poland—had asked to be consulted on American policies in dealing with German problems.

Undersecretary of State Lovett in a blunt note sent to their embassies here Friday flatly rejected this bid. And since the Soviet Union had backed the request, Lovett sent a copy of his note to the Russians also.

The three Communist-controlled nations made their bid for a voice in German affairs Feb. 23 when they gave the State Department the text of a resolution adopted by their foreign ministers at a meeting in Prague, the Czech capital.

Pup Loses Life in Saving Mistress

TEXARKANA—(AP)—A two-month old pup saved his mistress' life but died in the effort.

The pomeranian, called "Luck," died as a result of flames that gutted his owner's house but not until his frantic barking had awakened Mrs. F. K. Doyle and allowed her to escape.

Mrs. Doyle told firemen she was asleep shortly after 9 p.m. Friday when the puppy's barking awoke her. Already flames were licking at her bedroom wall.

She opened the flame-filled bedroom where "Luck" had been placed and pulled the body burned dog into the street. She said the pup died after several attempts to lick her face.

The fire started in the rear of the small home and caused an estimated \$4,000 damage.

THREE INTOXICATED

Two men who pleaded guilty to charges of being intoxicated were assessed fines of \$15 and \$20 by Judge Clifford Braly in Corporation Court yesterday morning.

A third man pleaded guilty to the same charge, but no fine was assessed. Two cases of speeding were referred to Robert Gordon, city attorney, for disposition, and an arraign case was postponed until March 18.

LICENSE VIOLATION

One man was fined \$25 and costs yesterday in the Court of Justice of the Peace D. R. Henry on a charge of operating an unlicensed vehicle.

A \$10 fine was paid yesterday in the Court of Justice of the Peace Charles Hughes on a charge of speeding.

SOOT CHANGES COLOR

Although human lungs are normally pink, those of city dwellers often are slate-colored because of the soot in them, according to the Encyclopedia Britannica.

Here's What Taxpayers Must Do by March 15

By JAMES MARLOW WASHINGTON—(AP)—This is only for people who by March 15 must:

- 1. File an estimate on their 1948 income tax. 2. And make the first payment on it.

You'll need form 1040ES to file your 1948-estimated income tax return.

Some people, depending upon their case, also will need either form 1040 or the instruction sheet which goes with it, so they can check the tax-table or the tax-rate on the back of them.

Suppose your 1948 income will be under \$5,000. You don't have to work out the estimated tax step-by-step. You'll find the tax on your income in the table on the back of form 1040.

The under \$5,000 people get an allowance of about 10 percent for deductions for things like charity and medical care. They don't have to claim it. It's already allowed for in the tax table on the back of form 1040.

So they don't have to worry about deductions, unless they want to claim more than 10 percent. If they do, they can't use the 1040 tax table. They'll have to work out their tax, claiming the deductions they want.

Here's a step-by-step example of how to fill out your estimated 1948 income tax return.

You're married, with two children. Your weekly salary is \$180. For 52 weeks, or one year, that's \$9,360. Subtract your standard \$500 deduction. That leaves \$8,860.

From that \$8,860 subtract your \$2,000 in exemptions—\$500 each for yourself, wife and two children. That leaves \$6,860. That's the only part of your 1948 income that's taxable.

Now turn to the instruction sheet, mentioned above. Where it shows taxable income between \$6,000 and \$8,000, you'll see the tax on the first \$6,000 is \$1,360, plus 30 percent of what's over \$6,000. In your case it's 30 percent of the \$860 over your \$6,000, or \$258.

Add the \$258 to the \$1,360, for a total tax of \$1,618. But that's not the tax you have to pay. There's another step. You deduct 3 percent from the \$1,618 tax, leaving you a tax of \$1,537.10. That's your estimated tax for 1948. It's the full tax you figure

you'll owe. But you don't have to pay all that now, or at the end of 1948 because most of it will be taken out of your salary by your boss before the end of 1948.

How much will he take out? He's withholding \$26 a week from your \$180 weekly salary. That \$26 a week, multiplied by 52 weeks, gives you a total of \$1,352 to be withheld from your salary in 1948.

Now for the first time turn to your form 1040ES. On line 1, where it says "estimated income tax for 1948, you write your total estimated tax for 1948. That tax, as you worked it out, is \$1,537.10.

Beneath that, on line 2, write that \$1,352 in tax the boss will withhold from your salary in 1948. Subtract it from the \$1,537.10 on line 1 and write the answer \$185.10 on line 3.

That \$185.10—the difference between the \$1,537.10 total tax and the \$1,352 to be withheld from you—is the tax you'll have to start paying by March 15.

You can pay it in full March 15 or in quarterly installments of \$46.27—most people pay quarterly on March 15, June 15, Sept. 15 and Jan. 15, 1949.

Jester Is Backing Red Cross Drive

AUSTIN—(AP)—Gov. Beauford H. Jester is urging all citizens to remember the Red Cross.

He proclaimed March as Red Cross month, noting: "During the past year expenditures and commitments by the Red Cross in Texas for disaster relief exceeded by almost one-half million dollars the amount received by the national organization from the people of Texas during the 1947 campaign."

Churchill Remarks On Red Aggression

LONDON—(AP)—Winston Churchill said yesterday: "Any thinking man can see that we are all moving into a terrible situation at home and abroad. Not only bankruptcy and privation approach us in this island, but the menace of a third world war rolls toward us with every act of Russian imperialist aggression and Communist violence and intrigue."

The former prime minister gave these views in a letter to Frank Harris, conservative candidate in 1948. It's the full tax you figure

by election at North Croydon.

DEMOS

(Continued from Page 1) "will be ready for anything that happens."

McClellan has said publicly that President Truman can't win in November.

The four Governors who sat down with McGrath will report on the conference to their Southern colleagues at a meeting here next Saturday.

Before that time, McGrath is expected to discuss the Southern rebellion informally with members of his newly-named Executive Committee. They will meet here at mid-week to go over plans for the Philadelphia convention.

The protesting 21 already have laid tentative plans for a filibuster against any of the civil rights measures that may be brought up.

Church Women to Contest Decision

MARSHALL—(AP)—Church women of Marshall and Harrison County have been called to a mass meeting here Monday night.

Mrs. Georgia Starr Hart, Marshall, said the meeting resulted from the endorsement by the Texas Council of Church Women of President Truman's civil rights program.

She labeled the action at Dallas Wednesday as a "violation of the principle of separation of church and state."

LEAK PREVENTION

Denver, Colo., says that you can apply a new type of waterproofing stucco with a brush. It's particularly good for covering up cracks in concrete, brick and masonry and plaster.

Palaver de Pampa

IT'S THE CHIMP, CHUMP:—Those who are contemplating getting rich playing the horses in '48 might well lend an ear to the findings of Prof. C. J. Warden, Columbia University, who has discovered that horses are stupid! . . . The educator conducted a series of intelligence tests, using ten animals, which revealed that Old Dobbin is low man on the IQ totem pole. According to Warden, even the pig rates above horses. . . An account of Warden's findings, lists the chimpanzee as the animal kingdom's quis-kid. After the chimp, in order of intelligence, comes the orangutan, gorilla, monkey, dog, cat, raccoon, elephant, pig and horse. . . And about the intelligence of homo sapiens, who yearly throw away millions of dollars betting on dumb horses? Dr. Warden doesn't say, but we're certain horses don't bet on people.

NO CONNECTION (I HOPE):—And right along here the story about the little moon comes to mind—asked why he was hitting himself on the head with a hammer, he said it felt so good when it hurt. I've been sticking too close to "Tub 12," and here I am knocking myself out making palaver. . . and, besides, I've been to four goings-on this past week. (Yeah, I've got spies, girls, to get me the "dope" on the others; but they don't know they're spies.)

ADD TATTLE-TALE ITEM:—What's that now, boys! Let's see which jokes was it the censor had cut out of the Lions Club minstrel? May we give out with a modest, feminine "Wow!" (It would seem it or they) was (or were) used anyway.) But the show was well received, and the people cooperated in the Lions park plan by going to the ticket window in nice numbers.

The editor called to say that Peg got her name in the new 1948 Yearbook—under the "Columnist" listings. I didn't knock myself out with elation—just told him to put it on my check. (This Yearbook, I'm told, is the trade's "bible"—covers the world.)

MAILBAG (which is mostly beggin):—a mule answer (?) sends in this squib, and I don't commit myself to supply readers: And now I want to ask: While I have the chance? If femme's slacks have pockets like other pants.

CUDGELING (NOT CODDLING) THE OLD MAN:—that which husbands should remember: a woman will stand for abuse, poverty, hardships, and drudgery and stick to you. But she won't stand for neglect—at least not for long.

NEWEST OF NEW RAGES: this is a chiffon cake I'm talking about. It's being talked about following its "world premiere" on the radio the other day—it's different because it is made with salad oil. Just passing it on in case you have missed it in the magazines and newspapers. Here it is: 2 1/2 cups sifted cake flour; 1 1/2 cups sugar; 3 teaspoons double-action baking powder; 1 teaspoon salt; mix thoroughly. Make a well in middle of dry ingredients, and add 1/2 cup salad oil, 5 unbeaten egg yolks, grated rind of two oranges, juice of two oranges, plus enough water to make three-fourths cup of liquid; beat to a smooth batter. Now beat one cup of egg whites and a half teaspoon cream of tartar extra stiff. Pour your batter slowly over the egg-whites and fold gently. Don't beat. Pour into 10-inch ungreased tube pan, bake in a slow oven (325 degrees) for 65 minutes. When done, turn pan upside down immediately until cake is completely cool. Then loosen with knife around edges. . . Serve with chilled fruit or whipped cream.

PAMPA'S PANORAMA:—Mrs. James McCune and Mrs. Malcolm Denson, untiring church workers. . . smugly smile on Ed Anderson's face, and he says "I know who he is." "Who is what?" I ask. "The walkin' man, of course!" . . . It took a long time for this to get to me (losing my grip, I guess) but here it is: last year the children in a classroom at one of the world schools were asked to bring a picture from any magazine that resembled their mother or father. Billy Fraser, First Grader, brought the picture of that handsome gentleman called "the man of distinction." . . . You know, it takes an awful lot of money these days to be poverty-stricken. . . We wonder if that smile on Bill Behrman's face is the result of thought about his vacation in Chicago—or a cut of the LaNora. . . How lovely Jane Reynolds modeling for White & Kirk in a style about as usual; the emcee, Ben Guill, was blushing, however, when some of the jokes got entirely out of his control. . . my vote for the man of the week—Aaron Meek—principal of Sam Houston School—who, on a recent school holiday was asked why he was out at the school building. Said he (and it's typical) he'd forgotten to tell their mothers of the holiday and come to school as usual. He wanted to be on hand to see that they were taken care of. . . Everyone (it seems) is excited over new houses—last person I've seen talking houses was Mrs. Paul Crouch whose new home is now in the process of being built. . . (Lucky, lucky!) . . . What did the little dorkie say in the picture a few years ago: "Eastah time to do time for eggs, and time for eggs is de Eastah time. . . speaking of Easter, I've seen so-so-many new bonnets already, the one taking most of my fancy being that of Mrs. Farris Oden—a red straw with a lush black bow on top. . . Lots of years I've lived here—and I've always had a good feeling when I run into Mrs. George Casey who is so friendly at Anthony's (Citizens Bank & Trust Co.) and the movie star, Mrs. C. A. Gibson, of Seminole, Okla. Several guests from churches in Pampa were also introduced. . . After the luncheon the women gathered in the young people's department to hear a devotional given by Mrs. C. A. Scott on the subject of "Only One Reason." The theme of the devotional was in keeping with the guest speaker's thought of extending help to those who are without food, or clothing, and without God. . . The guest speaker, Mrs. A. D. Forman, was introduced by Mrs. E. L. Prigmore, Mrs. Forman, wife of the pastor of the First Baptist Church of Amarillo, accompanied her husband to Copenhagen, Denmark, to attend the recent World Baptist Alliance which was held there. She told of her plane trip to and from Europe. The Formans were members of a party of 200 delegates who went from this country. . . In Copenhagen plans had been made for 800 delegates but when the meetings were opened they found 5,000 people from 49 different nations. Roll call of countries was answered with all the delegates dressed in native costumes rising to their feet when the name of their country was called. . . The delegates were guests in the homes of Christian Danish people. . . Some of the English delegates said they would not have been able to attend the meeting had it not been for the gifts of clothing sent to them from the United States. The speaker said our delegates had taken extra clothes and given them to the most needy. . . All the speeches had to be translated at least once and most of them twice. The speaker said the colored people got along the best. . . She stated that the work accomplished at the Alliance demonstrated the fact that white people and colored people can get along when they are doing God's work. . . When the American delegates were ready to return from Europe they got back as far as England and found that black market prices had produced the value of their tickets until they were were not good for the return flight. After two days of negotiations the head of the airlines went from the United States and personally brought them home. . . The speaker told of both children and adults who were actively starving because of high prices. She said that a breakfast of sausage, powdered egg and coffee (burnt turnips) cost from \$2 to \$4. She said the people there

My poetic license has done run out, and I haven't got it renewed yet. . . So can't write no trifles, sonnets, quatrains, or stuff this week. . . Besides, I'm fatigued, tired and spent. BUT I'll struggle through to continue next week.

PEG O' PAMPA.

Gloria Tucker, Former McLean Girl, Is Wed to Goliad Man; Will Live in Houston

McLEAN—(Special)—Mrs. W. A. Gaines announces the recent marriage of her daughter, the former Gloria Tucker, of McLean, to Herman Frank, son of Mr. and Mrs. Otto Frank of Goliad, Tex.

The Rev. Westmorland, minister of South Main First Methodist Church in Houston read the double-ring ceremony in his home. The bride was attired in a blue pin stripe suit with black accessories and carried a white Bible. Her corsage was of white gardenias.

The maid of honor was Miss Betty McKinn. She was dressed in a gray suit with red accessories and her corsage was of red rosebuds. The best man was Elmer Ball of Houston.

Attending the ceremony also were Mr. and Mrs. M. B. Tucker of Houston and Mrs. W. M. Ducker of Channel View.

After the ceremony & reception was given for the wedding party in the home of Mr. and Mrs. Ball.

A buffet dinner was served from a table laid with a lace cloth, decorated with pink, carnation and white gardenias and centered with a three-tiered wedding cake, which was topped with a miniature bride and bridegroom.

Mrs. Frank formerly attended McLean High School and finished high school at Cypress. She entered nurses training in Sept. 1946 at Memorial Hospital in Houston and plans to finish her training in September of 1948.

The bridegroom finished high school at Goliad, Texas, and spent two years in the Navy in the Pacific Area. He is now employed with the Goodyear Rubber and Tire Company in Houston.

The bridal couple took a wedding trip to Galveston and upon their return established their home at 2600 Kirby St. in Houston.

Before her marriage Mrs. Frank was honored at a lovely bridal shower given by Mrs. J. R. Adams of Cypress, Texas.

TO PRESERVE PAINT BRUSHES: Good paint brushes are too expensive and too scarce these days not to take the utmost care of them. After each job they should be placed in a receptacle filled with turpentine and when the work is finished, wash the brushes well in soap and water and vinegar. Much of the paint can be squeezed out first with the hands, covered with newspapers. V's thorough washing is necessary; the hairs may have to be well worked or massaged in the hot soapy water before all the paint is removed. Then the brushes should be dried thoroughly and you are all set for a job some months later.

PROTECTORS SHOES: Outdoor work shoes can be made moisture-resistant by rubbing with beeswax, tallow, wool grease or petroleum jelly.

Parade of Fashions

Tailored to a fine degree—and classic as a Greek column! This kayakrook fashion in virgin-worsted gabardine has a gentle drape to the notched lapel, and waist mimicking detail.

Time Has Modified Extremes

Fashions this spring are fresh, spirited, uninhibited. They have taken their cue from trends introduced and developed last spring and winter and have reinterpreted them in a manner synonymous with spring-ferver and tufts of new-born grass.

Fashions this spring are ultra-feminine. They have movement and grace. A soft loveliness not seen in many years. This season curves are in order, not jagged lines and angles. The waist is no more than a handspan—a tiny handspan at that. He-man shoulders are out. Instead, shoulders curve outward, bosoms are back. All in all, there's a suggestion of the Gay '90's about this season's girl.

The longer hemline, discussed by many with clenched fists, by many not discussed at all, has been accepted and approved by homemakers, play girls and business girls alike. They have discovered that a hemline 14 inches from the floor adds a grace and poise not found in the skirt terminating just below the knee-cap. Suits, popular all year round, hit a high every spring. Particularly important this year are: the bolero suit, the cape suit, the basque suit and the box suit. The bolero suit, Spring '48 has a mid-leg jacket with trimmings either several inches above the waist or just manages to reach it. The cape suit, back in the fashion picture after many a season in retirement, appears in a hip-length version in bright plaid to spice a solid skirt, or in a solid color to match its skirt. The skirt in most cases is very slightly flared.

The basque suit consists of a sleek waist-hugging jacket and a voluminous flared, gathered, or pleated skirt; while the box suit flaunts a squared hip-length jacket and a slim skirt. News in toppers points to barrel and box version in a fingertip length, flared or square in back, some cut-away in front with elbow length Inverness capes.

Redingotes are becoming more important this spring in a yo-yo falloff in light weight wool they can be worn over giddy print dresses all spring and far into summer.

Separates continue to steal the limelight. Blouses in order to fit into the picture of femininity, are high-throated with ruffles and little-girl collars in frosty white sheer and heavier weight cotton.

Circles of WSCS Hold Meetings

The Women's Society of Christian Service of the First Methodist Church met in circles in various homes last Wednesday.

Mrs. R. H. Elkins was hostess to Circle 2 and she conducted the business. A box was made up and sent to the Bethlehem Center at Worth. Mrs. W. Purviance conducted the lesson. Eleven members were present.

Circle 3 met with Mrs. W. R. Ewing. Mrs. Tom Cook gave the devotional and Mrs. O. Williams presented the lesson. There were 17 members present including two new members, Mrs. C. B. Webb and Mrs. O. C. Wilson.

Circle 4 met with Mrs. C. E. Boswell and Mrs. C. W. Andrews presented the lesson. There was read from Katharine Eye, a missionary in the Belgian Congo, who had received a box which was sent to her last summer.

Mrs. Joe Shelton gave the devotional and Mrs. W. R. Campbell, a guest, taught the lesson. Eight members were present.

Circle 5 met in the home of Mrs. Ross Byars. The devotional consisted of the group reading of "The Technique of Private Prayer."

Mrs. Ray Goodnight and Mrs. Walden Moore sang "Prayer Changes Things." The lesson was given by Mrs. L. Caldwell. Thirteen members were present. Mrs. Byars, the hostess, was complimented by the group recognizing her birthday, with the song, "Happy Birthday to You."

At the last February meeting of the Women's Society of Christian Service life memberships were presented to Mrs. Tom Cook, Mrs. Sherman White, and Mrs. E. A. McLennan. Mrs. Cook was selected to represent the local WSCS at the conference which will be held in Plainview March 30-April 1.

Hostesses for the occasion were Mesdames Wayne Brister, Vester Dowell, Homer Abbott, Olea Jim Stevens, D. M. Simpson, and Boyd Reeves.

Miss Nadine Boyd presided over the guest registry and Miss Mildred Holloway presided at the punch bowl. Recorded music was played as the guests assembled. Attending and sending gifts were 142 relatives and friends.

C. Thomas to Give 'Family Portrait'
Charles Thomas, local dramatist, will present a program on Tuesday evening at 8 o'clock at the First Christian Church. His presentation will consist of a dramatic cutting of the internationally known play, "Family Portrait."

The program which is being sponsored by the Women's Council of the First Christian Church is free and open to the public. Men, women and children are invited to attend.

There will be a meeting of the Executive Board of the Women's Council at 7 p. m. on Tuesday.

Local Minister Speaks to Parent Education Club on Religion in Home

Members of the Parent Education Club met in the home of Mrs. Joe Tooley, 1318 N. Russell on Tuesday, Mar. 2. Mrs. Bob Gordon served as nursery hostess. After a brief business session conducted by Mrs. Ed Weiss, Jr., the program on religion was introduced by Mrs. E. E. Shelhamer.

In presenting the subject she gave Victor Hugo's quotation, "Courage for the great sorrows of life, and patience for the small ones; and then when you have accomplished your daily task, go to sleep in peace. God is awake."

Dr. Douglas Nelson, guest speaker, gave a talk on the subject, "Religion in the Home." He pointed out that people have almost entirely misunderstood what religion is supposed to be or what it is supposed to accomplish.

He said in part, "Religion is something the church has to sell; it is a major part of home life. It is simply trying to point yourself toward God. The church is made up of fellowship, worship and sacrifice. And religion in the home is accomplished in the same manner. You cannot expect your child to be religious if religion means nothing to you. If you do not pray with your child, why expect that child to understand what the church is trying to do?"

"A certain time should be set aside for worship in your home and do not allow your husband to shove the job on you. Your child should not grow up feeling that mother is the religious one. See that your husband enters into a religious partnership. Finally, let your religion cost you something, it is important enough to make a sacrifice for."

Dainty refreshments were served at the close of the formal program. Fourteen members were present.

It was announced that the next meeting will be held Mar. 16 in the home of Mrs. E. L. Biggerstaff, 609 N. Gray.

Miss Annie Jones Is Shower Honoree

McLEAN—(Special)—Miss Annie Jones was honored with a bridal shower Thursday, Feb. 19, in the parlor of the First Baptist Church.

Hostesses for the occasion were Mesdames Wayne Brister, Vester Dowell, Homer Abbott, Olea Jim Stevens, D. M. Simpson, and Boyd Reeves.

Miss Nadine Boyd presided over the guest registry and Miss Mildred Holloway presided at the punch bowl. Recorded music was played as the guests assembled. Attending and sending gifts were 142 relatives and friends.

C. Thomas to Give 'Family Portrait'
Charles Thomas, local dramatist, will present a program on Tuesday evening at 8 o'clock at the First Christian Church. His presentation will consist of a dramatic cutting of the internationally known play, "Family Portrait."

The program which is being sponsored by the Women's Council of the First Christian Church is free and open to the public. Men, women and children are invited to attend.

There will be a meeting of the Executive Board of the Women's Council at 7 p. m. on Tuesday.

PROTECTED SLEEP: When arranging furniture in the bedroom, experts recommend placing beds at the right or left of the window instead of across it to avoid the glare of daylight in sleepers' eyes.

TENDER MEAT: To tenderize tough meat, cook it with an acid food such as a little vinegar or tomato. Meat should be cooked over moderate or low heat. High heat causes meat to shrink and toughen.

Good Taste Determines Fashion

Certainly with the urgency of our times and the great speed with which everything, including ourselves, is forced to move, no one will be fool-hardy enough to be hampered by too-long voluminous skirts, oversized hats and sleeves and Victorian ruffles and laces.

If we must change — — and change we must — then let's have the clothes that are right for 1948 rather than those of 1868, 78, 88, 98 and 1900. Most women want clothes to "do something" for them, to be functional and to be suited to their way of life. Most American women do not feel up to making a "reduction" of going to market.

Also, with shortages of fabrics or fall types, too much fabric is as poor taste as filling your plate with meat when there is a shortage. It is time for women to use common sense and take a look at ourselves, find out how tall, how wide or how slim we are and balance our figures. If our shoulders look badly rounded, then we should keep them in reasonably square. If we need long jackets then let us wear five gored skirts, or pleated skirts.

If we can wear flared coats and swirl skirts, by all means we should wear them.

Find the skirt length that looks just right and then stick to it. If you can wear a pretty hat and veil, wear it. If you can't, have your hat made to suit your people.

Gloves, bags and shoes are very important. They too are so much better when geared to the wearer's style than when oversize.

Taste is more important than scale. Fashion is not to be followed blindly. It is like a table of hors d'oeuvres. Take the things that you can use to make you more attractive and better dressed to your type.

Don't risk being ridiculous because you think you are in fashion. Well dressed women select and balance and weigh. They coordinate their clothes and accessories and also spend less by so doing. Don't waste anything and give away everything you cannot use.

Mrs. Harrison To Give Book Review

Mrs. Bedford Harrison of Shumrock will review "The Years of the Lotus" by Grace Eldredge for members of the Business & Professional Women's Club and their guests at the regular business and program meeting Tuesday, March 9. The meeting will be held in the City Club Rooms at 120 p. m.

Mrs. Harrison is associated with her husband in an insurance business. The mother of a grown son, she has been active in club work. She began reviewing books as a hobby — it has now become a profession. The members of the Business and Professional Women's Club are happy to welcome Mrs. Harrison to Pampa again.

Pampa Girl Goes On Trip With Choir

Miss Bonnie Nell McFee, Junior music major at Texas State College for Women, Denton, is on a trip with the Modern College Choir which will sing at Beaumont, Port Arthur, and Galveston. Miss McFee will also play the piano accompaniment for Miss Beverly Tucker of Texas City, a violin major, who will travel with the choir. The group will return to Denton next week.

Miss McFee is a daughter of Mr. and Mrs. George McFee of 408 N. Somerville.

SHOELACES: Shoelaces which have lost their tips can be stiffened up for their slide through shoe eyes by twisting the ends and dipping in clear nail polish. Coarse or heavy threads given the same treatment simplify stringing beads.

New Styles May Not Suit Figure

By ALICIA HART
NEA Staff Writer

Don't make expensive wardrobe errors this spring by buying extreme new styles which may turn out to be wrong for you.

This warning comes from Wilma, chic owner of a smart New York woman's shop, who thinks that the radical new fashions offer many pitfalls for the unwary.

The two she cites are the infantile silhouette and the infantile bustline and hipline that you'd

look. "The infantile look emphasized in new styles can be fatal to a woman over 40," says Wilma. She also thinks that the average woman of any age will have trouble wearing the so-called "infantile" or "barrel" silhouette.

There's more advice from this lady merchant which, if heeded, will steer you past other pitfalls lurking in the new spring fashions.

If you are in doubt, wait to buy until style extremes have settled to a sensible medium. If Wilma, who says that you can always modify that to suit both the fashion and your personal whims.

REDUCE DISH WASHING

Because they retain heat efficiently, porcelain enameled utensils help keep food hot during serving. Glistening casseroles, pudding pans and the enameled coffee pot can come right to the table for everyday, informal serving. The food will stay nice and hot and there won't be so many dishes to wash when the meal is over.

like anyway, no matter which way the style wind blows. This middle-of-the-road choice should have a long hemline, maintains freedom for toes to wiggle and grow, but not large enough to permit

Shoe Stylists Tell How To Insure Proper Fit of Children's Shoes

Based upon a recent survey, St. Louis children's shoe stylists report that 65 boys out of every 100 and 80 girls out of every 100 school age children, have foot trouble which can be traced to improper fitting of shoes or socks during the first few years of the child's life.

To correct this deficiency recently the stylists have pointed out things to look for when buying shoes for children.

The child's shoe must fit snugly at the heel, yet have plenty of room at the instep and in the toe for the normal growth of the foot. It must be flexible, and it must allow freedom of circulation and freedom for toes to wiggle and grow, but not large enough to permit

1.—Test the length of the shoe by running the thumb and forefinger across the toes. If a soft wrinkle can be pinched in the leather, then the shoe is too long. Three-quarters of an inch more than the actual foot measurement should be allowed in the length of the child's shoe.

2.—Test for the proper width by sliding the thumb and fingers across the vamp and along the edges of the shoe. The shoe is too wide if it wrinkles loosely, and too narrow if the surface is taut.

3.—Test for arch fit by running the fingers along the arch from heel to ball. The shoe must fit the arch of the curve with reasonable snugness and the outer arch of the foot must have firm contact with the shoe.

4.—Test for the fit of the heel by running the thumb and forefingers along the base of the heel to determine whether the width is right and along the top of the heel to see if the shoe fits snugly around the ankle. Proper heel fit is most important. Heel must neither pinch or slip, and the heel seat must be wide enough to give the child a firm base, with ankles straight and weight evenly distributed.

Bread of Life

Join the Bread of Life: he that consults me shall never hunger, and he that consults on me shall never thirst.

5637

By MRS. ANNE CABOT

A beautifully designed panel of wheat, grapes and leaves is especially appropriate at this time. We should always remember the words from John 6, 35, but oftentimes forget, or push them to the back of our minds. You will find enjoyment in embroidering this lovely panel and the inspirational message will bring you peace.

To obtain complete transfer, embroidery stitch illustrations and color suggestions for Bread of Life Panel (Pattern No. 5637) send 15 cents in COIN plus 1 cent postage. YOUR NAME, ADDRESS and the PATTERN NUMBER to ANNE CABOT, (Pampa News), 1150 Avenue of the Americas, New York 19, N. Y.

FRENCH FRYING

Try using your porcelain enameled sauce pot as a french frying kettle. It's deep enough to hold sufficient fat and its broad flat base reduces the possibilities of the kettle being tipped over. Quick Lunch

An easy lunch today — but it's good! Lay slices of bread on tall glasses of milk.

a porcelain enameled utility tray. Spread them lightly with butter or margarine and then cover with slices of cheese. Sprinkle with paprika and place under the broiler until the cheese is melted. Serve the open-faced sandwiches with a bowl of winter pears and tall glasses of milk.

★ WE, THE WOMEN

by **RUTH MILLETT**
NEA Staff Writer

Are you getting a little fed up with the constant talk of prices and the tendency of most people today to hang a price tag on everything? Of course, the cost of things is terribly important to us all. Trying to balance the budget is a most vital problem with most families. But harping on the price of things doesn't do any good. So why don't we let up on it a bit?

All this "Do you know what I paid for butter this morning?" doesn't bring butter down one cent. All the groaning we do over taxes, the price of shoes and hair cuts, doesn't help us one bit to break even financially at the end of the month.

All we do by talking is either to bore or depress each other. The high cost of living isn't news any more. It has been with us a long time and, apparently, is going to be with us for a long time to come.

And the headaches it is causing us individually are just part of a big, general headache.

QUIT MOANING

So we might as well quit moaning and groaning to each other, do the best we can with what we have and leave money and price tags out of our conversation.

That won't make us any better off financially, but it won't make

St. Louis Children's Shoe Stylists caution "parents should periodically inspect their children's shoes for marks of wear which tell whether the shoes are properly fitted. The shoe is too short if the upper is stretched out of shape. If the toes of the shoe are curled up and the heels worn inside the back, then the shoe is too long. An arch that is too short can be detected by wear too far forward on the ball."

APPLES WITH TOP HATS

Surprise the children by adding a touch of glamour to their baked apple dessert. Bake the apples in an even-heating porcelain enameled baking pan. Just before removing them from the oven, insert a marshmallow into the center of each apple. Bake a few minutes longer until the marshmallows become puffy and delicately toasted. They'll look like fat little men with top hats!

us any worse off, either. And it might make living today a little more pleasant.

HINT TO HOMEBUILDERS

News from Washington, D. C. suggests you to keep the number 4 in mind when you plan your new house. Less cutting and fitting are involved in floor and wall measurements by 4 — like 16 by 20 — than in ones which are not like 17 by 22.

NEW HEIGHTS FOR OVENS

New streamlined automatic gas ranges are equipped with rollers so that a woman of average height can lift the oven top or out of the oven without stooping.

Pin-stitched refter designed by Rene Moia of Dominique in Paris; manufactured in America by Mode Kiddie.

Eamonn de Valera was the Irish Republic's first president.

DRESSING WELL FOR LITTLE MONEY

Everybody agrees that the best way to buy any season's wardrobe is to get it all at one time. Proof that it can be done this Spring and Summer, whatever amount your bank account allows, was put across in New York's recent showing of fashions-at-a-price, all under \$25. The majority of dresses, in fact, were considerably less.

The fashions, chosen for their trend as well as price value, included well-styled Easter suits in good woollens, bolero and capelet costumes. Spring's popular petticoat-dresses, pretty and tubbale career girl cottons, prints and printed ensembles, among them some pure silks, and even a white satin bridal dress.

Photos courtesy New York Dress Institute

Low-priced good fashions: Redingote costume (above) combining a sheer navy crepe coat and a navy and white taffeta dress with cambric top and flounced hem. For Juniors (left), bolero dress of blue spun rayon with dotted sash matching revers of the bolero.

Pictured today are two of the many big values for little money. The redingote costume, seen in high style collections, is a popular-price version as a New York designer shows it in checked taffeta with navy crepe. The big "junior cut" bow and ruffled sleeve cuffs match the "flip dress" beneath the coat. Naturally, the coat can be worn over many other dresses. The bolero costume is one of many varieties in all kinds of fabrics.

HARD STEEL COILS GIVE SLEEPING COMFORT

One doesn't usually think of steel as being soft. However, it's the steel coils in your inner-spring mattress that provide the soft comfort which jures you into dreamland.

Tommie's "Day D'reamer" comes in sizes for mother and daughter. Mix-Match pajamas, Tommie-coat and shorts do 24-hour duty.

Now! The linen jacket with squared bottom, vertical pockets, styled by Dennis of New York.

ROACH REPELLENT CEMENT

From Pittsburgh, Pa., comes word that roaches stay away from a new kind of cement mix containing a copper compound and other sanitizing ingredients. It's recommended especially for hospitals, restaurants and the like, as well as locker and shower rooms.

German Gals Stick To Short Skirts

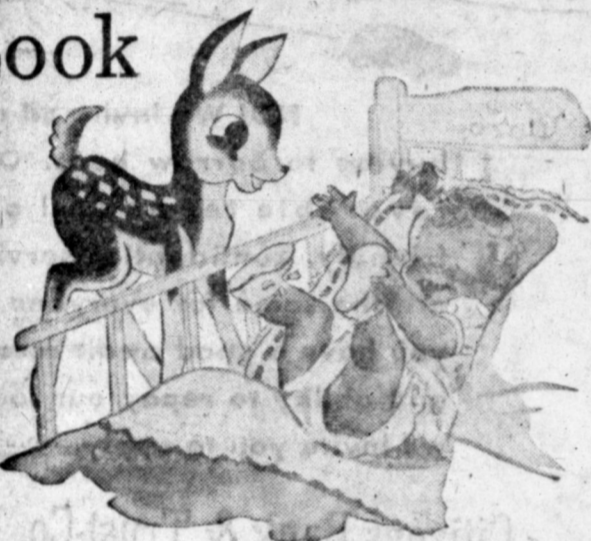

By Irene Simon AP Newsfeatures
BERLIN — Skirts are still knee-high in Berlin and show little intention of moving down in the near future. An unofficial Associated Press poll of Berlin women show they're either uninformed, uninterested, or just plain angry over the long hemline. "The new hemline," said Frau Jorga, a typical housewife, "could have been invented only by people who aren't in need." "Haven't those women in the rich new world any feelings for us here?" snapped a young wife with two children and a husband still in prison camp. "It's horrible enough that we have to wear patch dresses. Now we'll probably see more ridiculous because for lack of materials we can't follow the latest style."

Frau Richter, a dressmaker who has been in the business since 1890, refused to get excited when shown fashion pictures from America and Paris. She said they're typical of postwar trends. "After the first war fashions went crazy too," she recalled. "Leading fashion houses in Berlin, whose customers are mainly allied personnel, haven't yet begun with the new hemline but all intend to show longer dresses at their November showings."

Herr Gehring, head of the city's most popular fashion house, said the few German customers who ask for the new style are fiancées of Americans who intend to go to the States soon. "And the only American women interested in the new hemline are those who are going back home soon," he said. "So far others have stuck to the old hemlines." The head designer of Horn and Co., another top dress house, agreed that the present skirt line is too short but contended it, is impossible because of shortage of materials to follow the new style. Among his allied clientele, he said, the Russian women are the

keenest followers of the long hemline. He said: "Our Russian customers are intensely interested in the latest styles. We're already making longer skirts for most of them." "Some American women have asked for the new style, but the majority are still 'sitting tight' and waiting for developments. All our British customers stick to the short skirt, while the French of course told us about the new style before we had even heard of it." Most of the men interviewed on the new style refused to comment, while those who did comment said things which couldn't be printed.

of the country as an outstanding authority on repressuring and is always in demand for talks and demonstrations on this subject. His talk in Wichita Falls will be one of the outstanding events of the meeting.

Last week I reported that the Railroad Commission's scheduled hearing to be held in Amarillo had been rescheduled for May 13. This hearing will be of real interest to oil men in this area since it will not only establish the going price, but the prorate problem in the Panhandle Field will be discussed.

The Gulf people are setting up a deep core test. It is between Pampa and the Jenkie. I do not know the lease name or exact location of the well. Perhaps next week I can give you more complete information.

Chances are that as soon as the weather has completely established itself and roads are again open for heavy truck traffic there will be a lot of new activity in this area. The oil industry is severely hampered in bad weather, and especially in those remote spots where new tests are being made which are off pavements and improved roads.

In this week's "Review of Oil News for Texans" Max Skelton has some interesting news regarding the tidelands situation. I'm purposely cutting this column short today so that Skelton's review can be carried in full.

Stale white cake crumbs, mixed with melted butter or margarine and brown sugar, may be used as a topping for applesauce. The combination should be put in a baking dish and heated in a moderate oven.

The southwest's oil industry has gone to extraordinary lengths to meet heavy winter demands for heating fuels. District 2 (comprising Texas, Louisiana, Alabama, Arkansas, Mississippi and New Mexico) is producing more than 3,491,000 barrels of crude oil daily, the equivalent of 60 percent of the total United States supply.

Skelton Reviews Texas Oil News

By MAX E. SKELTON
HOUSTON—(AP)—Participants in the submerged tidelands controversy can confine their arguments to oil and forget about fish, wheat and seashells.

That, in fact, is the message of Atty. Gen. Tom Clark and Secretary of the Interior Julius A. Krug to the joint senate-house committee.

The cabinet members, however, believe 100,000,000 barrels of oil worth fighting over. Thus, they say, is the estimated potential oil value of the tidelands and compares with 21,000,000,000 barrels of proved oil reserves in the continental United States.

Neither statement came as a surprise, but supporters of the states' ownership bill are hoping for congressional passage by a majority sufficient to discourage a veto.

Clark acknowledged Texas, by virtue of U. S. recognition of the Republic of Texas 112 years ago, has a special claim to its tidelands.

The southwest's oil industry has gone to extraordinary lengths to meet heavy winter demands for heating fuels. District 2 (comprising Texas, Louisiana, Alabama, Arkansas, Mississippi and New Mexico) is producing more than 3,491,000 barrels of crude oil daily, the equivalent of 60 percent of the total United States supply.

Oil News

Seventeen Notices of Intent to Drill Filed With Commission

Seventeen notices of intent to drill were filed at the local Oil and Gas Office of the State Railroad Commission during the past week, officials reported yesterday.

Hutchinson County made by far the majority of filings, having filed three and Carson County listed one.

Notices of intention to drill in Carson County—Barnett & Corneilus, F. M. Simms No. 1, 16GN Survey, 1320' from N and W lines Sec. 11, Blk. 2, 1/2 mile SW of White Deer.

Notices of intention to drill in Carson County—Barnett & Corneilus, F. M. Simms No. 1, 16GN Survey, 1320' from N and W lines Sec. 11, Blk. 2, 1/2 mile SW of White Deer.

Notices of intention to drill in Carson County—Barnett & Corneilus, F. M. Simms No. 1, 16GN Survey, 1320' from N and W lines Sec. 11, Blk. 2, 1/2 mile SW of White Deer.

Area Reports Completions

Six new oil wells were reported completed in this area during the past week according to a report from the Oil and Gas Office of the Railroad Commission.

One new gas completion was reported in Hutchinson County and one in Sherman County.

Hutchinson County—No. 2, J. M. Huber Corp., No. 3, Stevens "A", located 330 feet from N and 1850 feet from S lines SW 4 Section 7, Block M-24, TC & RR Survey, tested 20 barrels of oil in a 24 hour test.

Hutchinson County—No. 2, J. M. Huber Corp., No. 3, Stevens "A", located 330 feet from N and 1850 feet from S lines SW 4 Section 7, Block M-24, TC & RR Survey, tested 20 barrels of oil in a 24 hour test.

Pete McCrthy Is the Good Samaritan of 'Whisky Row'

By HAL BOYLE
NEW YORK (AP)—Pete McCrthy, an Irish version of the Good Samaritan, has spent 39 happy years giving it more than to give than to receive. "I want to be the friend of the least, the last and the lost," he humbly declared long ago.

He picked as his field of labor a saloon-ridden street in Joliet, Ill., known as "Whisky Row," and it then was a much rougher stretch than the three-block stretch between Jerusalem and Jericho traveled by the Good Samaritan of old.

McCrthy established his famous Morning Star Mission there in 1908. He did it with a Bible in one hand and a sandwich in the other—believing that "a race does not fill a man's stomach and creed does not cover his back."

Since then, he has fed more than 285,000 men, women and children, provided beds for 95,000, converted 13,000 at the mission's small altar and made 12,000 visits to police courts and jails.

A Weak, Run-Down Feeling Is Often A Warning

That The Red-Blood Is Getting Low

If you do not feel like your real self, do not have the urge to be up and doing, why not check-up on your blood strength? Look at the palms of your hands, your fingernails, your lips, the lobes of your ears—are they pale and off color?

Every day—every hour—millions of your red-blood-cells pass your body to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic builds Build Sturdy Health.

In his youth Pete had been a boxer and street fighter, bartender and barber. In 1901 he helped carry in furniture for a young minister who was moving in next door to him. He became interested in religion and finally decided to establish a mission on Whisky Row, where 27 nationalities lived and 63 percent of Joliet's crime was committed.

He rented a two-story brick building and sold his own house and two other pieces of property. The first night in his mission, he put a kerosene lamp on the floor, knelt and prayed.

"I promised God that I would never take up a collection in the mission," he said, "and I promised that I would feed the hungry, clothe the naked and visit those who were sick or in prison."

He has kept that pledge. No one has been turned away except "when he was full or the mission was."

His efforts were ridiculed at first. Bricks were hurled through his windows. But when he finally exhausted his own funds the city's business men began coming to his rescue. Money was raised to buy the mission building for him. Now it receives two percent of Joliet's annual Community Chest funds.

McCrthy has gone the Good Samaritan one better—by going to look for people in distress. His daytime office is a downtown street corner where he cheerily greets friends and arranges to help those in need. Although he will be 81 years old this Saturday's Day, he also still makes a daily round of the police station, courts, jail and railroad bus stations.

McCrthy asks no questions of those who come to him for aid or advice.

Pete has been poor but cheerful and happy for four decades. His personal creed:

"The breast is the temple; the earth is the altar; the heart the sacrifice—and you the priest. And you will have to settle your plan for salvation between here and the cemetery."

"No one can be saved for you, no one can die for you and no one can be put in the grave for you."

News from New York, N. Y. is that washable shoe ventilators are becoming available for sufferers from athlete's foot. Developed for soldiers, they later were tried out in the shoes of British miners. They brought coal production up, sent foot infections down.

Man, 102, Sets His Goal at 110

TUSCOLA, Ill.—(AP)—Now that John Wesley Carrier, 102, has gotten out of the hospital after recovering from a cold, he said he'd concentrate on his goal—living to be 110.

The cold sent him to the hospital as a patient for the second time in his life. The other time was when he suffered a broken hip. He was a mere 94 when that happened.

Members of the Industrial Workers of the World were nicknamed "Wobblies."

Learn Proper Way to Make A Right Turn

AUSTIN—If you want to do a good turn for yourself and your fellow motorists, learn the proper way to make a right turn while driving your car.

The law on making a right turn was explained today by George Clarke, managing director of the Texas Safety Association, in cooperation with a nationwide "Learn and Obey Traffic Laws" program.

The program seeks to reduce the huge motor vehicle accident toll by familiarizing the public with traffic laws and the necessity for obeying them.

"A right turn is one of the simplest of maneuvers in an automobile, yet turning errors are reported in about 5 percent of all accidents," Clarke said.

He emphasized these points:

1. Keep as close as possible to the right edge of the roadway both before and after turning. Don't swing out.
2. Don't forget to make the hand way.
3. Anticipate the turn far enough in advance so that you can be in the proper lane. This means keeping your mind on your driving.
4. Keep close to the right after turning to cause a minimum of interference with the traffic flow you are entering.

AUTOMATIC LULLABY
Gardner, Mass., reports that a child's rocking chair that plays tunes is now available. The first melody being marketed is "Rock-a-Bye Baby." Others are on the way.

Chinese Boy Finds America Is Not So Bad as Thought

QUARRY HEIGHTS, Panama Canal Zone (NEA)—Ying-Fa Lee thinks that at birth he was "faced by a lucky star," as the Chinese say. In no other way can he account for his new role as an American boy.

A waif who subsisted on the refuse scavenged from the garbage piles of American Army camps in Kunning, China, Ying-Fa Lee was last seen in a deserted street one cold night in March, 1945, when Lt. Samuel J. Christy, a U. S. Army officer, found him. From that moment on, the homeless, half-clad orphan became a child of fortune.

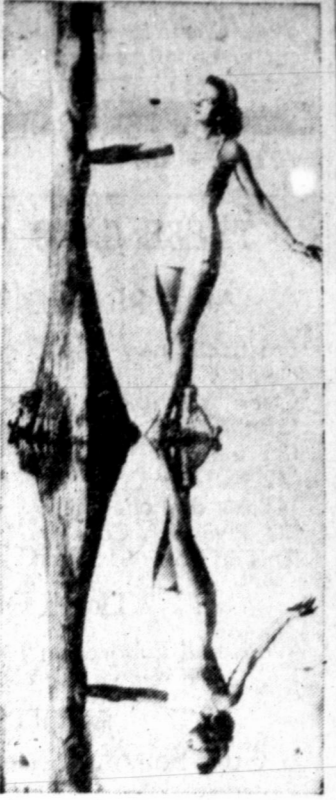

Christy took the boy back to camp where he gave him a bath, clothes, and a warm meal, the first eaten by the Chinese waif in many a moon. He had been living the better-skillet existence of countless Chinese homeless waifs for four of his eight years, since his parents were killed in an air raid.

Something about the boy appealed to Christy and he decided there and then to adopt him. On VE Day, they flew to Chungking where adoption papers were signed. Because he was unmarried, Christy planned to have the boy live with his mother in El Paso, Tex.

But just as they were about to embark for the voyage to the U. S., Ying-Fa Lee disappeared. Christy scoured the port city. A week's delay, during which Christy's health deteriorated, returned to the U. S. in compliance with his orders.

Back home, he applied for permission to return to China on temporary duty. When this was denied, Christy sought the help of Raymond C. Nelson, American Red Cross field director at Fort Bliss, Tex. This started a Red Cross hunt which lasted nearly two years before Christy saw his

New Market Opens For Texas Fruit

WESLACO (AP)—State Agriculture Commissioner J. E. McDonald said here that California offers a good market for red and pink grapefruit from Texas.

He said the state also offered a market for large sized white fruit.

The commissioner recently arrived here from California where that state's Department of Agriculture last week lifted its long ban on imports of Texas citrus.

McDonald said Texas shippers must comply with California's strict shipping regulations or risk the bad publicity that would result from rejection of any shipments.

McDonald and Walter McKay, state entomologist, will report on the California regulations at a meeting of the Texas Citrus Advisory Council.

adopted son again. Meanwhile, he had married. Both he and his wife were elated when they learned that, through the combined efforts of the Red Cross and the United States consulate in Kunning, Ying-Fa Lee had finally been located.

Not until then did they learn the reason for the boy's sudden disappearance. Three older boys with whom he used to play had filled him with tales of terror as to what would happen to him if he went to America. He would be beaten by American boys and would find himself in a hostile world, they had said. Frightened, he had gone into hiding.

When Ying-Fa Lee was finally located, he wanted reassurance from his foster father, still in the United States, and from the American consul that such dire things would not happen to him if he came to America. The task wasn't easy, but he was finally convinced.

Then Christy, now a master sergeant in the Caribbean Command, began a 26,000-mile round-trip air flight to claim his adopted son.

Today, Harry Lee—his Americanized name—is attending third grade school in Cristobal where he is getting along fine. The day he brought home his first report card will long be fondly remembered by the Christys, who have no children of their own. It showed: penmanship—A; reading—B; cooperation—A.

Harry has no more delusions about a hostile life in the West. Last October he had his first birthday party at the age of 11. Boys and girls from other Army families helped him celebrate.

"We plan to raise and educate him as our own son—to be a real American boy," said Christy proudly.
