

# Top O' Texas 'Stock Show Set March 2-4

## STEERING COMMITTEE

The Steering Committee of the Top O' Texas Livestock Judging Contest is shown at a recent meeting. The contest will be held March 3 as part of the Top Livestock Show. Pictured from left to right are Frank M.

Carter, Bob Skaggs, High School vocational agriculture teacher, J. T. Smith, manager of Pan-Tech Farms and assistant superintendent, and Quentin Williams, superintendent of the Judging Contest. (Daily News Photo)

Buyer cards were distributed to directors of the Pampa Chamber of Commerce Monday as the date nears for the Top O' Texas Livestock Show March 2, 3, 4. Members of the Agriculture and Livestock Committee met with the directors to arrange for the sale of junior livestock.

The Junior Livestock Show will take place March 2 in Recreation Park. Judging is scheduled for that morning. Prizes will be awarded at an exhibitors barbecue that night.

Forty-five teams are expected for the FFA Livestock Judging Contest March 3. These Future Farmers of America will be honored at a 5 p.m. banquet in the High School cafeteria. A Hereford Breeders Banquet will be held later in the First Methodist Church.

The sale of junior livestock will be held the morning of March 4 with Herefords sold in the afternoon.

Crawford Atkinson and E. O. Wedgeworth reported on plans for a Fourth of July fireworks celebration. Wedgeworth noted that the 49 star flag will be inaugurated July 4 and that a large scale program would be in order.

Chamber President Warren Haase announced that this month's membership luncheon will be held Feb. 23. A panel of businessmen will present the program, based on their experiences at the US Chamber's Aircade in Colorado Springs, Colorado. Pampa men left for Colorado Springs Monday afternoon, led by Cameron Marsh, chairman of the local Chamber's Legislative and National Affairs Committee.

The Aircade is described as a "Call to Action on legislation affecting businessmen to be considered by the new Congress and

a program for working effectively in the political party of your choice."

A Career Clinic, sponsored by the Altrusa Club and the Chamber of Commerce, opens Wednesday in Pampa High School. Melvin T. Munn of Dallas will speak in a 9 a.m. assembly after which students will meet with experts in all fields.

Architects are working night and day to complete plans for the Community Hotel. The committee for a \$400,000 loan has been received from the Small Businessmen's Association and Western National Life.

WEATHER  
TOP O' TEXAS — Partly cloudy through Wednesday. Colder tonight and Wednesday. High 46, low 28.

The human race is in the greatest condition when it has the greatest degree of liberty.

## Dulles May Hold Post

By DAYTON MOORE  
United Press International

WASHINGTON (UPI)—Assistant Senate Democratic Leader Mike Mansfield today urged Secretary of State John Foster Dulles to remain in his cabinet post to give "guidance" on the German situation.

Mansfield, a member of the Senate Foreign Relations Committee, said it would be "a mistake" for the 70-year-old secretary to resign now despite the intestinal cancer that has stricken him.

"We certainly need to have his knowledge and guidance on the German situation and the conferences that are coming up," the Montana Democrat told newsmen.

Mansfield suggested there could be a three-way leadership of the State Department until it could be determined how Dulles responded

to radiation treatment at Walter Reed Army Medical Center.

Start-Radiation Treatment

He said Undersecretaries of State Christian A. Herter and C. Douglas Dillon could relieve Dulles of some matters and give him time to "think through" the whole German problem.

The radiation treatment will be started later this week after Dulles recovers sufficiently from his hernia operation last Friday. Intestinal tissue and liquid removed then showed a recurrence of the cancer he suffered in 1956.

Dulles continued to keep in touch with State Department matters from his hospital bed. He was briefed on current developments in international affairs Monday by his special assistant, Joseph N. Green Jr.

In Good Spirits

He also remained in good spirits and the State Department reported his condition was satisfactory. Dulles sat up in a chair in his room for about half an hour Monday.

President Eisenhower was expected to give Republican congressional leaders the latest report on the secretary at the weekly White House legislative meeting today.

Meantime, State Department officials made it clear there would be no letdown in U.S. efforts for a peaceful solution of the Berlin and overall German problems.

## PINCH-HITTING

In his first appearance in place of the ailing John Foster Dulles, Acting Secretary of State Christian A. Herter arrives to testify at a closed session of a House Appropriations subcommittee on the State Department budget. At left is Deputy Undersecretary of State Robert Murphy. Herter uses crutches on occasion because of an arthritic condition.

## Navy Fires Up New Vanguard Satellite

### Seek Tiny Weather Station

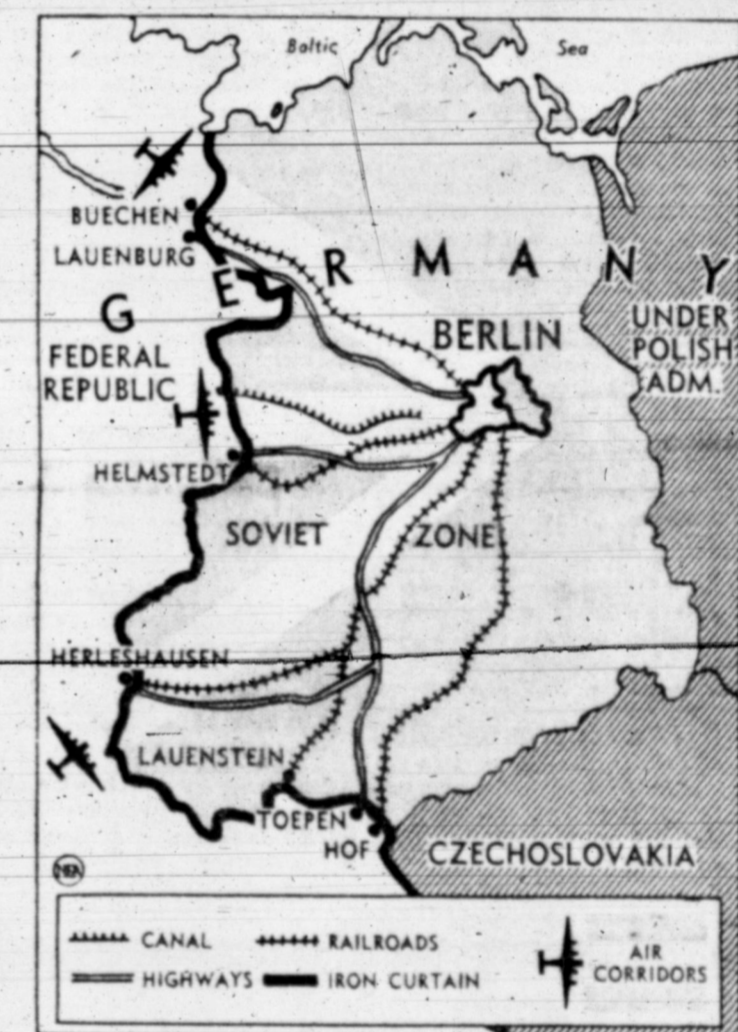

CAPE CANAVERAL, Fla. (UPI)—A new Vanguard streaked into the skies today in an effort by the Navy to put a satellite into space that will be used as an orbiting miniature weather bureau.

The National Aeronautics and Space Administration in Washington announced 10 minutes after the firing at 9:55 a.m. that all three stages fired successfully.

NASA said that the launching "looked good," but that two or three hours would be needed to determine definitely whether the new satellite attempt had achieved an orbit.

The 20-inch, 21½-pound artificial moon was the eighth Vanguard blasted off.

Officials said the delicately instrumented satellite, developed by Army scientists at Ft. Monmouth, N.J., should be able to spot Atlantic hurricanes or Pacific typhoons. They described it as a first step toward obtaining continuous weather mapping of a global scope.

## THE ISLAND OF BERLIN

Russian pressure on the Western allies to get out of Berlin continues to make that city one of the toughest trouble spots in the world wide cold war between the East and West. Newsmap above shows details of the most important connecting links — air, rail, highway and water — between the isolated city and free West Germany. The Reds threaten to close all these arteries.

Flames mushroomed from the base of the gaunt, cartridge-shaped rocket and it rose gradually from its launching site.

Picking up speed, it forged into a heavy overcast about 47 seconds after blastoff and only its low rumble could be heard after that.

The Navy said that only three more Vanguard launchings after this one were scheduled in the Vanguard series that began as a vital phase of the International Geophysical Year.

Amateur birdwatchers on nearby beaches were few compared to the crowds that turned out for (See WEATHER, Page 2)

## FOR PATROL CARS

### City May Accept New Auto Bids

By MARVIN OLSEN  
Daily News Staff Writer

City Commissioner Ed Myatt this morning moved that Pampa's City Commission re-advertise for bids on a fleet of three police cars. The bid last week was let to Pursley Motor Co.

Myatt's motion was prompted by the fact Monday of Pursley Motors to a Ford dealership in Oklahoma. Myatt said the city should have local delivery and local servicing of the three Plymouth cars on delivery from Pursley.

City Attorney Robert Gordon said that although Pursley has offered delivery there is still the legal question of whether the Pursley bid is now the best bid.

Ervin Pursley informed the Commission he wants to remain obligated to the bid but he may have to deliver the cars from either Borger or Amarillo. He reportedly is willing to cancel his bid however.

The matter, following discussion, remained in the air. It was decided "a legal question is certainly involved."

Turning to other matters the commission heard a request from Davis Brown, now an employee of KPDN, for "cheaper parking facilities" for persons doing a "public service."

In his own case, Brown said, the service is in promoting public projects, gathering news and selling advertising. He felt the city should recognize press cards or give parking privileges to persons in his position. Brown included the city commissioners as persons doing a public service.

Mayor Lynn Boyd answered he felt that privileges to one person would have to be extended to another. Myatt concluded Brown has a financial problem in parking.

"But we can't pass an ordinance for four or five people."

Brown estimated his parking costs each month at \$12 to \$15 and said he hoped the commission would take his proposal under consideration. Commissioner R. K. Parsley offered him free use of his own parking lot if it would help matters.

The Commission also decided to adopt a liability insurance of its own after learning that city premium rates would be nearly doubled the coming year.

Rates in the past six years have amounted to nearly \$20,000. Attorney Gordon said, and claims against the city have only totaled \$3,500 in the same period. During a discussion it was decided to place premium money into a fund to pay claims when they arise. The move is expected to save the taxpayers several thousand dollars.

## Dusk-to-Dawn Curfew Is Held As Hope Fades Fast

By ALDO TRIPPINI  
United Press International

HERBRIGGEN, Switzerland (UPI)—Authorities today step in and help him get back 1,700 feet of film about narcotics smuggling confiscated by federal police in Juarez, Mexico.

## Man Wants Help In Recovering Film

AMARILLO (UPI)—The president of a small, independent motion picture company has asked the State Department to step in and help him get back 1,700 feet of film about narcotics smuggling confiscated by federal police in Juarez, Mexico.

Fred Ready, president of Gold Air Shows, Inc., said the Mexicans took the film, valued at \$20,000, and also \$75,000 worth of trucks and cameras. He said they gave the equipment back after his crew was escorted across the border Sunday.

The company is making a low-budget film called "Switchblade." It is about efforts of U.S. narcotics agents and Mexican police to break up a mob of heroin smugglers.

The company was working in a building when 5,000 Mexicans gathered around and police seized the film and equipment. Ready said he thought the film had been sent to Mexico City to be developed.

only a small portion of Herbrigen if it came tumbling down.

Father Emil Schmid, the Roman Catholic parish priest of Herbrigen, said it has been discovered that the entire slide is on a glacier which could act as a "toboggan run" to send the whole mass down on the village.

Acts As Brake

"The glacier under the landslide can act as a brake if the present cold weather prevails because the landslide or at least the largest part of it, would be frozen," Father Schmid said.

"On the other hand, any substantial increase in the temperature would unleash the landslide, which could come down at a faster speed than we expected."

He said the hope that Herbrigen would suffer only limited damages faded after it was learned that the glacier might aid the avalanche.

"We had hoped that the landslide might split into several parts, falling separately with lesser danger and possibly limited damages," the priest said.

Faces Obliteration

"If the entire landslide comes down with the impetus given to it by the glacier, our poor village would be obliterated."

Meanwhile, the 215 Swiss who call Herbrigen their home could survive a 45-day existence, the priest said, if they stay on the mountain looking above them.

## April 15 Is Sticker Deadline

Residents of Gray County were reminded today that the 1959 deadline for having their motor vehicles inspected is midnight, April 15.

Captain Alan Johnson, Motor Vehicle Inspection Service, Texas Department of Public Safety, stated today there are 19,055 motor vehicles registered in Gray County. Of these 31 per cent have been inspected.

Drivers are urged to have their vehicles inspected early to avoid a last minute rush. This time of the year is noted for adverse weather conditions which may predominate during the next two and one-half months. As a result the number of inspection days will be "cut down" since stations cannot inspect vehicles under these adverse conditions.

"Passenger cars are inspected for brakes, lights, reflectors, horn and windshield wipers, while commercial vehicles are inspected for the above plus additional items as required by law," said Johnson. "In 1958 approximately five out of every one hundred accidents were caused by a mechanical defect; therefore, owners are urged to have their vehicles inspected as soon as possible."

It comes from a hardware store, we have it. Lewis Hardware (Adv)

## 6 Killed; Homes Are Destroyed

ST. JOHN'S MOUNTAIN (UPI)—This North Atlantic port city of 80,000 was left isolated from the Canadian mainland today in the wake of a savage blizzard that touched off a series of avalanches, killing at least six persons and destroying a group of homes.

Snow crews numbed by sub-freezing temperatures battled 30-foot drifts, and utility workers strove to restore power knocked out by the storm which lashed the eastern part of Newfoundland Monday.

At least 50 persons were made homeless by snow-laden avalanches which ripped through a group of houses. Five persons were killed when a powerful wind just-tipped one house from its foundation, toppling it down a slope.

Eleven persons were trapped for hours after an avalanche of snow and rocks smashed into their home.

Scores of others were reported injured by flying rocks and boulders.

It comes from a hardware store, we have it. Lewis Hardware (Adv)

## \$20 A GALLON! ICE CREAM

I scream, you scream, everybody screams for ice cream. That's an old chant children with hunger pains stabbing at their little tummies have often used to get their way with grownups.

Mrs. Mary N. Hrdlicka, 1334 Coffee, and the mother of Dr. George R. Hrdlicka here, didn't exactly do any screaming for her favorite ice cream, but she did drop a hint recently that she loved raspberry sherbet, to a friend in Houston, Mrs. A. R. Hamill.

Knowing Mrs. Hrdlicka couldn't buy her favorite flavored desert in this area, Mrs. Hamill bought two half gallons of raspberry sherbet in Houston Monday, packed them in dry ice, and had them flown to Amarillo at a shipping cost of over \$20. The distant treat was delivered to Mrs. Hrdlicka's door here this morning by Edwin Elrod, owner of the Pampa Milk Co. and a Borden's Milk distributor here and Buster Owens, ice cream distributor for Borden's out of Amarillo.

Mrs. Hrdlicka was naturally surprised and delighted with the treat, and who wouldn't be at over \$20 a gallon?

## Big-4 Talks To Be Held In May!

By ANTHONY AUSTIN  
United Press International

MOSCOW (UPI)—The West's proposal for a Big Four foreign ministers conference on Germany may have laid the groundwork for postponing the showdown this spring on West Berlin, foreign diplomatic sources said today.

The sources said they considered it likely that the Soviet Union would accept the Western proposals for the conference made in notes delivered Monday.

Expect May Meeting

The sources said that while the Soviets might seek clarification on some points and make some counterproposals before agreeing on a time and place, the general expectation was that the talks are likely to start before May 27.

American officials said the West preferred that the conference be held in late April or early May in Geneva or Vienna.

Last Nov. 27, the Soviet government said it would turn over its control functions in Berlin to the East Germans unless the subcommittee to make West Berlin a "demilitarized city."

Later, however, Soviet Premier

Nikita S. Khrushchev took pains to deny any ultimatum was intended. On Jan. 24, First Deputy Premier Anastas Mikoyan told a press conference that Russia might postpone the turn-over by two or three weeks or two to three months if talks were begun by May 27.

Formula For Talks

The observers said the Western proposals provided a formula for getting talks started.

It is not a formula which can be expected to be fully to the Soviet liking. The notes rejected once more the Soviet proposal to end the occupation of West Berlin and intended to "uphold" by all three intended to "uphold" by all appropriate means their commitments with their sectors of Berlin.

## CRANE CRUSHES THREE WORKERS

AUSTIN (UPI)—The boom of a heavy construction crane collapsed and killed three men pouring cement Monday at a high school construction project in Austin.

The victims were identified as A. J. Durd, Sam Stewart Smith, and Charles Haywood, 24. The men were part of a crew building the new Riverside High School.

Area Gal, Champ

SAN ANTONIO (SpI)—Janet Dudley of Perryton rode to a first place finish in winning top honors of the girl's horse-racing event in the San Antonio Stock Show. Exposition Rodeo here Monday night.

# Tax Discussion Starts Fireworks

AUSTIN (UPD)—Fireworks taxes erupted in a legislative committee Monday when a prominent Texas businessman threatened to pull up stakes and move out of state rather than pay a higher corporation franchise tax.

R. Earl O'Keefe of Amarillo, president of the multi-million dollar Southwest Investment Co., drew a sharp rebuke from Rep. R. H. Cory of Victoria when he appeared before the powerful House Revenue and Taxation Committee.

"I personally resent anyone coming up here and threatening a legislative committee," Cory, a committee member, said.

The bill is part of Gov. Price Daniel's legislative package to take the state out of the red this fiscal year. It would raise 14 million dollars by increasing the present tax for one year, and the up another estimated 15 million dollars by changing the formula used for computing the tax.

The bill was introduced by Rep. Robert Eckhardt of Houston, and called for anyone to "take fish in Texas waters within 300 yards from the coastline and from inland waters."

Felix Stagno, a representative of the Houston Sportsmen's Club, said commercial fishermen are depleting the inland bays.

George W. McNair of Lamarque, vice president of the Texas Fishermen's Assn., said this could not be proved, and called the measure "unjust" legislation.

Commercial fishermen sparred with sports fishermen at a hearing of the House Game and Fish Committee.

The bill is sponsored by Rep. Cory. He told the House State Affairs Committee it would help save Texas money through more efficient governmental operations.

# Blimp Burns; Four Missing

PINETOWN, N.C. (UPI)—A Navy blimp crashed and burned in a remote coastal swamp near here today and four of its seven crewmen were reported missing.

Three other crewmen were taken to a hospital in Washington, D.C., located near the mouth of a salt-water inlet just southwest of the accident scene, the State Highway Patrol reported. They suffered burns but their condition was not thought to be critical.

The patrol said the lighter-than-air craft, attached to the Glynco Saval Air Station near Brunswick, Ga., crashed at about 3 p.m. e.s.t. It burst into flames and set the woods on fire, attracting the attention of residents in the area.

Thomas Stancil, operator of a flying service in Washington, said he was first to arrive on the scene. He guided one of the injured crewmen as saying he had been asleep when the accident occurred and had crawled from the wreckage.

The crash scene is about a mile from the nearest road in a wooded swamp area, Stancil said.

Lt. Cmdr. Grover Jones, public information officer at Glynco, said the blimp was one of two being serviced at the Georgia base to the big blimp installation at Lakehurst, N.J. They left Glynco at about dusk Monday night, he said.

"The accident must have occurred quite suddenly and with no warning," Jones said. "The other blimp received no emergency radio message and its crew was unaware of the crash."

The other blimp was continuing its flight to Lakehurst, he added.

# Pampa Woman's Father Dies

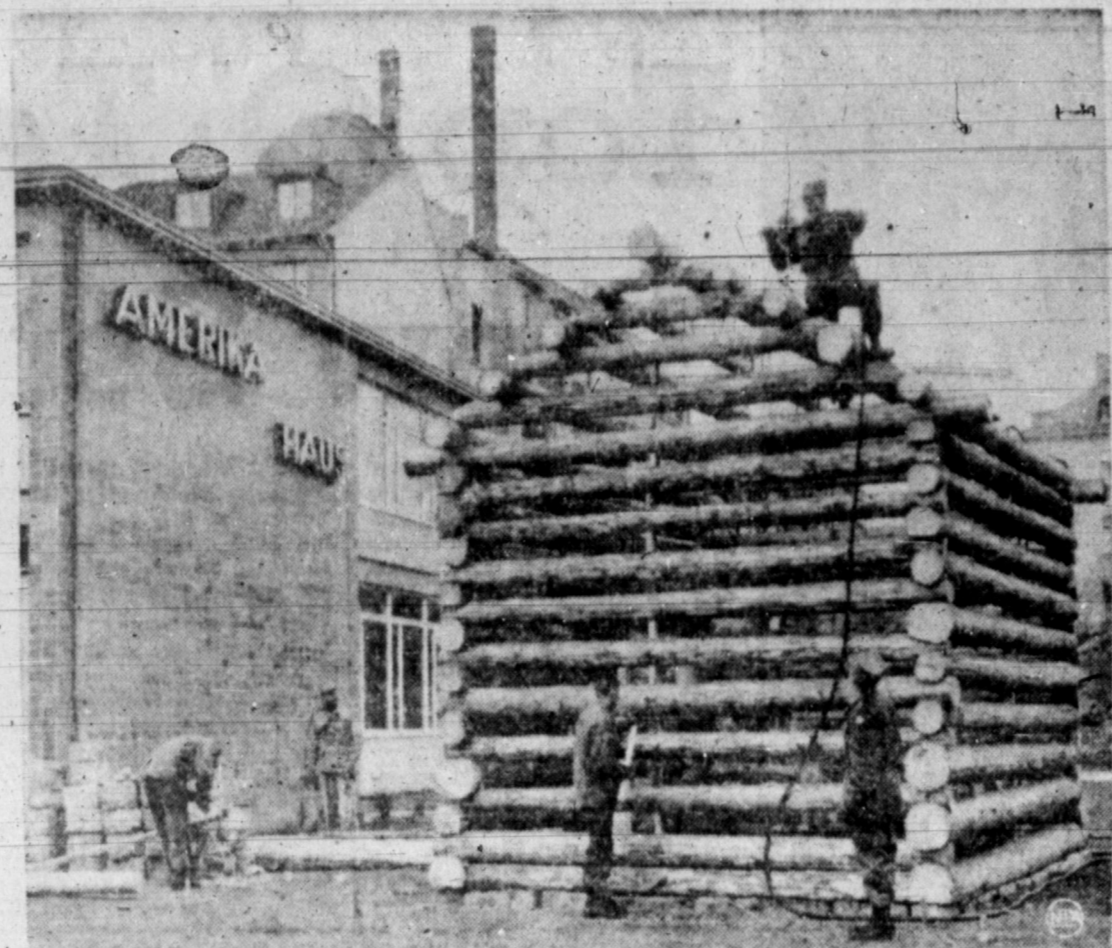

Edward W. Smith, 66, of Enid, Okla., father of Mrs. Leon Taylor, 701 Magnolia and Mrs. Earl Luther, 2245 Christine, died Sunday night in the Enid Hospital following an extended illness. Funeral services will be held in Enid.

Mr. Smith was a retired farmer and a long-time resident of Enid. He is survived, in addition to his two daughters who reside here, by his wife, Nina of Enid; three daughters, Mrs. Geraldine West of Ada, Okla., Mrs. Dorothy Taylor, Mrs. Louis Ware, both of Enid; and 12 grandchildren.

# Quotes In The News

LOS ANGELES (UPI)—Vice President Richard M. Nixon, on the illness of Secretary of State John Foster Dulles.

"It seems a sad commentary that the secretary of state should have to become so ill for people to appreciate him. When this period of history is written it will prove we have been at peace in one of the most difficult periods of all time."

**ANNIVERSARY CABIN**—An exact replica of the log cabin in which Abraham Lincoln was born is constructed by U.S. Army engineers in Frankfurt, West Germany. The structure, commemorating the 150th anniversary of Lincoln's birth, adjoins the Amerika Haus, a free library making information about the United States available to Germans. The cabin will be open to the public for several months after the birthday celebration. Later it will be moved to a permanent site in the nearby Taunus Mountains.

# Local Bands Prove Their Showmanship

Pampa's school bands again proved their superiority Monday with a public concert in the crowd of Robert E. Lee Junior High Auditorium. Eight hundred or more parents, friends and music lovers cheered the four bands to a triumphant conclusion of the Winter Concert.

The bands heard from were the All-City Elementary Band, directed by Charles Meech; the Robert E. Lee Band, directed by Joe DiCostimo; the Pampa Junior High Band, under the direction of Ben Gollehon; and the Harvester Band, directed by W. E. Tregoe.

The Elementary Band did its best work with Weber's "Beehive's March" in which referees whistles were heard.

Leading off with K. L. King's "Imperial March," the Lee Band gave a varied and well-modulated program. Hermann's "Belmont Overture," Bauwens - Chidester's "Overture Belgique" and Glenn Osner's arrangement of "Beguine Festival" were sheer joy to the listener.

With the appearance of the Pampa Junior High Band, came a change of pace. Completing the traditional "Royal Purple" by Griggs-Yoder, the group launched Frank Erickson's evocative "Summer Holidays" playing with precision beyond their years. Then followed a rousing "St. Tropez" and a reverent, vibrant "Air and March."

The Harvester Band came into the picture with "Fanfare and Allegro," switching to "Siegfried's Rhine Journey," stately and bub-

# Cliett Elected

Landowners in Subdivision No. 2 of the Gray County Soil Conservation District Monday elected James W. Cliett as supervisor to fill the unexpired term of Dickey Everett, who resigned.

Cliett, a stock farmer for the past ten years was named the "comeback farmer of the year" in the Gray County District in 1952 and went on to win the 32 county area award. He has been very successful in getting old worn out farms back to grass.

Before the election, over a hundred farm people saw the film "A Tenderfoot in Europe," Evelyn Mason, Gray County ASC office manager, explained the choices that farmers would have this year in the cotton allotment program.

# MAKE ANIMAL DISCOVERY

TOKYO (UPI)—Communist Radio Peiping said today two animals once thought to be non-existent in China—the elephant and the rhinoceros—have been discovered near the Burmese border.

# Deadline Set Cuba Leaders For Trees

Orders for trees to be used in windbreaks must be received by the Texas Forest Service before March 1, according to County Agent Ralph Thomas.

This year, seedlings of Austrian pine, ponderosa pine and red cedar are available at the actual cost of production to encourage farmers to plant windbreaks around their farmsteads. Thomas said that order blanks may be obtained in his office. Persons must order not less than 100 trees of one kind, and payment must accompany order. The price is \$1.25 per hundred postage prepaid.

# CITY

(Continued From Page 1)

lars in coming years.

In other business, commissioners passed on first readings Ordinance 515 and 516, to annex the four-block Rapstein addition in northeast Pampa, and the two block Jarvis-Sone addition.

Before adjourning the commission opened six bids from contractors to repair the city water tank at Hobart and Brown streets.

Low bid accepted for \$4,786 was from Randall H. Sharp of Oklahoma City. Bids ranged from a high of \$18,327 to the Sharp bid. Sharp's bid included paint, material and labor.

Spectators, for the first time in several weeks, attended this morning's meeting.

# First Aid Course Has 26 Students

Twenty-six persons are enrolled in a standard first aid course taught by John Gikas and Mrs. H. R. Jeter of the Pampa Red Cross. The class began Monday in the cafeteria of Woodrow Wilson Elementary School.

According to Gikas, class periods are devoted to discussion and demonstrations of artificial respiration and other first aid subjects. The class will end Friday when the ten chapters of the new Red Cross First Aid Manual have been covered.

Students are taking two chapters a day. The class meets from 8:45 to 10:45 a.m.

# Deadline Set Cuba Leaders For Trees

By FRANCIS L. MCCARTHY United Press International

HAVANA (UPI)—The Cuban Cabinet, with new Premier Fidel Castro presiding, voted early today to slash its salaries 50 percent.

The decree reducing cabinet pay, one of nine approved at an all-night cabinet session, also ordered the suspension of all government "secret funds."

Other decrees approved at the meeting provided for:

- Establishment of a national institute for saving and housing, replacing the traditional national lottery, which will regulate gambling in Havana's multi-million-dollar casinos.
- A maritime promotion office to seek to build up the tourist trade.
- Civil service security for government workers, who in future may be dismissed only for the "high convenience of the government," with three months' severance pay. Top officials appointed by ousted ex-President Fulgencio Batista were exempted.

# ASKS SHORT "VACATION"

CHICAGO (UPI)—James Rinal, 40, appealed to Judge Joseph A. Pope Monday to cut short his "vacation" because "this resort is no good for my health."

The "resort" is Stateville Penitentiary, to which Pope sentenced Rinal to nine years imprisonment for burglary.

# HOLD TRADE TALKS

BONN, Germany (UPI)—A West German delegation leaves today for Warsaw to renew long-postponed trade talks with the Communist Polish government.

# Filipinos Do Not Like United States

Foreign News Commentary  
By PHIL NEWSOM  
UPI Foreign News Editor

A great number of Filipinos do not like the United States. The United States is not entirely happy with the republic of the Philippines, either.

A half-century since the two normally friendly nations, one of these is likely to lead to any lasting rift, but all are illustrative of similar problems with which the United States has to deal in countries which do not have nearly the same close ties. It will be 61 years ago this Sunday (Feb. 15) that the battleship Maine blew up in Havana harbor and set off the shock waves which resulted in the Spanish-American War and in U.S. acquisition of the Philippines.

It was just over a dozen years ago, the United States granted the Philippines full independence and promoted them as a practicing example of American-style democracy in Asia.

Recent Criticism

Some of today's issues arise from the honeymoon period immediately following independence. Some arise from a vocal nationalist minority who resent Philippine dependence upon the United States, and who resent criticism, implied or otherwise.

And some come from Filipinos who feel the U.S. takes the Philippines' friendship for granted, granting less aid to the Philippines than to other nations of much more questionable attitude. The issues between the two nations now have come to the point where both ambassadors have been called home for explanations and consultations.

In general the issues are: Philippine complaints that the United States is dragging its feet on economic development loans of 250 million dollars promised only about 45 million dollars has materialized.

Philippine demands for greater criminal jurisdiction over U.S. armed forces personnel in the islands.

Philippine demands for greater jurisdiction over U.S. military personnel in the islands.

Philippine demands for greater jurisdiction over U.S. military personnel in the islands.

Philippine demands for greater jurisdiction over U.S. military personnel in the islands.

government granted the United States 23 military bases for 99 years. This is another issue of the nationalist minority group which is demanding that the terms be shortened to 25 years.

In fact, it may be said that mounting Philippine nationalism is at the core or at least a complicating factor in almost every issue between the two countries.

## 'Gila Monster' Being Filmed in Dallas

DALLAS (UPI) — Hollywood Pictures Corp. started filming its second feature-length motion picture Monday in Dallas. The picture is entitled "The Gila Monster."

Don Sullivan, a rising young Hollywood star and native of Caldwell, Ind., will play the male lead, and Lisa Simone, a former Miss France, the feminine lead.

The Gila Monster is an original script written especially for Hollywood Pictures Corp. by Jay Simms and Ray Kellogg, director of the movie.

The story deals with the mysterious disappearance of two teenagers and the efforts of their hot-rodding friends to solve the mystery. The producers say there's plenty of old "King Kong" excitement when the gila monster gets into the act.

One of the highlights of the Dallas-made movie will be Sullivan's singing three of his own compositions. The young singer and composer fought in the Korean War and was awarded four major campaign stars and the Presidential Unit Citation for crossing the Han River into Seoul.

Hollywood Pictures Corp. previously has released "The Killer Shrews" starring Ingrid Goude, formerly Miss Sweden.

Officials of the corporation are Gordon McLendon, Dallas radio executive, and Ken Curtis, Ray Kellogg and Ben Chapman. The firm has offices in Dallas and Burbank, Calif.

Scheduled release for the new film will be in June, with the world premiere in Dallas.

### SWORN IN

### Bantam Form May Simplify Income Tax Problems

"Perhaps you, too, may file the new and simple Income Tax Form 1040," says Wiley E. Davis, Administrative Officer of the Internal Revenue Service, Pampa.

Revenue's bantam model (size of an average bank check) tax form may be used by individuals with total incomes of less than \$10,000, consisting of wages reported on Form W-2 and not more than \$200 in dividends, interest, and wages not subject to withholding.

Husband and wife may file a joint 1040A return for '58, if their combined income doesn't exceed the stated limits.

"Taxpayers using Form 1040A automatically claim the standard 10 percent deduction allowed for such personal expenses as contributions, interest payments, medical expenses and such. Taxpayers with allowable deductions for these items in excess of 10 percent of their income for '58 must use the ordinary Form 1040, if they wish to claim them," Davis explained.

As before, taxpayers with incomes of \$5,000 or more must figure their own tax. Taxpayers may not use Form 1040A if they claim "head of household" or "surviving spouse" status; dividends received credit; or retirement income credit, "stick pay" exclusion, deducts for travel, transportation or "outside salesmen" expense; or estimated tax payment credit.

### Seniors Slate 'Green Valley'

CANADIAN (Sp.) — The Senior class of Canadian High School will present its annual play, February 26, in the auditorium.

The cast of the comedy, "Green Valley," will include Danny Malcolm, Laetra Stephenson, Butch Prichard, Bill Nix, Sandra Waters, Annabelle Louther, Lois Bealy, Merland Clapper, Barbara Meeke, Ben Bennett, David Swires, Billy Robbins, Jim Wilborn, Jeanne Cleveland, Minor Parrish, Glenda Ratts, Dorland Burton, Sharon Riley, and Ronnie Cole.

Tom Monroe, speech instructor of Canadian High School, is directing the play.

# Ten Extra Pounds Can Shorten Life

By PATRICIA MCCORMACK  
United Press International

NEW YORK (UPI) — You're in the "alarm zone" if you're 10 pounds overweight, according to Dr. Frederick J. Stare, head of the nutrition department at Harvard University's public health school.

"There should be alarm," he said, "because 10 pounds over normal weight can mean you'll die five to 10 years sooner than you should."

Maintaining correct weight, according to Stare, is one way of lessening your chances of dying prematurely from a heart attack.

"We can't guarantee that you won't eventually die of a heart attack, but we're reasonably certain that normal weight gives you the best chance of living out your expected life span."

Dr. Stare, a member of the National Health Education Advisory Committee, takes the view that it's psychologically helpful in reducing to think more in terms of how much weight cheats you of life.

Year's and Christmas — 50 to 100 in crash diets. Weight lost calories more than is needed, day through such plans, he said, usually returns with the resumption of your normal eating pattern. Stare, are those between 24 and the early 40's. Senses reducing according to the expert, involves cutting down on "portions" of food more than dance as frequently as you did it does on cutting out certain before marriage. You don't walk as much. And you sit more," he said. "Eat less, but eat everything. You need variety in your diet."

Retain Old Appetites  
But you retain the old appetites and that is where you get caught. It goes on, little by little, if you don't do something about the first 10 pounds, eventually you find you're 25 pounds overweight and heading for fat diets. Stare doesn't place much stock in the expert, involves cutting down on "portions" of food more than dance as frequently as you did it does on cutting out certain before marriage. You don't walk as much. And you sit more," he said. "Eat less, but eat everything. You need variety in your diet."

BULLET BUMP  
VICKSBURG, Miss. (UPI) — The bump on the head of 9-year-old Jimmy Bruant wasn't due to a bee sting, after all. When the bump failed to go down, a doctor opened it and found a .22 caliber bullet imbedded in the scalp.

## LOOK AT & LEARN ABOUT

PEAK PERFORMANCE ON PIN MONEY

Once you scamper The Lark around town and see your gas gauge stand still, you'll know you've got your hands on the wheel of a real money-saver. And one with style, too—rich in interior appointments, harmoniously finished, upholstered in wonderful taste—so dapper, it's approved by Harper's Bazaar! And so easy to drive and park—because it's three feet shorter outside—with room for six inside. This is a whole new idea in cars—and one you're going to love from the first touch of your toe on the pedal. And beautifully engineered. Come on—

Fun drive the LARK today at

**DEAR ABBY...**  
By Abigail Van Buren

**DEAR ABBY:** A neighbor just left my house. She thought it was her duty to warn me against second marriages. I've been a widow for four years and, not to boast, have had many chances to remarry. I am undecided because she is now the only one to speak against my second marriage. I'd like to hear from some of your readers who have had personal experience with a second marriage. Especially a good second marriage, if such a thing exists. My first husband was hard to beat.

**DEAR WIDOW:** I'm sure there are many successful second marriages, and I hope I hear from lots of living examples. "It is not good for man to be alone," (or woman either.)

**DEAR ABBY:** I married Howie on the rebound. He had just broken up with a girl named Agnes. He had "Agnes" tattooed on his arm but I tried to pay it no mind. Whenever there is some real mucky music on the radio he will say "I wonder what became of Agnes?" I'm expecting a baby in May and he told me it's a girl he wants to name "Agnes." I don't want my daughter named Agnes. It's bad enough that he has "Agnes" on his arm. Am I wrong to refuse to name our baby Agnes and is there any way to get that tattoo off?

**DEAR PEGGY:** It's time your husband got "Agnes" off his mind and off his arm. Tattoos are removable. Tell him frankly that you are jealous, and don't want to hear any more about Agnes.

**DEAR ABBY:** I am a girl with a 16-year-old body but my mind is older. I went steady with a wonderful guy for three months and five days. He got mixed up with a bad crowd and now he is serving five years. I know he loves me and I feel the same about him. I promised I'd wait for him. If I go back on my word he will lose faith in all people. I think now is the

**Alaska Program For Junior GAs**

**LEFORS (Spl)**—"Top of the World," a program on Alaska, was given by the Junior Girls Auxiliary, in the home of Mrs. H. L. Teel recently. Talking parts were Misses Martine Gates, Angie Atchley, Loretta Parks, Leahanna Nowlin, Marcia McDonald, Sue Stubblefield, Kathy Haigler, and sponsors Mrs. Launa Hill and H. L. Teel.

**Mrs. Boren Hostess To Smith Group**

Doris Smith Circle of Highland Baptist Church met Tuesday in the home of E. C. Boren, 1141 Juniper. Mrs. Henry Maples conducted the business meeting. Mrs. Morris Belote presented the Bible Study. Prayers were offered by Mrs. Belote and J. L. Etheredge. The next meeting will be held in the home of Mrs. Gordon Miller, 408 Roberts on Feb. 24. Eight members were present.

**Miss Evelyn Milam Guest Speaker For Thursday Horace Mann PTA Meeting**

Miss Evelyn Milam, high school counselor, introduced by Sam Beget, school principal, was the guest speaker at the Thursday afternoon meeting of Horace Mann PTA. In a talk pertaining to her topic, "Education, Inclusive or Exclusive," Miss Milam said, "The goal of American education is that every child have the same opportunity for education so that he or she may become the best person he can." The Horace Mann Band, under the direction of Charles Meech, played "The Officers March," selections from Melody Lane, Oreo Lee, I Love You Truly, Pomp and Circumstance. The concluding selection presented was "Building The Band."

**Group Contributes To Green Project**

Sharp Group of the First Christian Church met recently in the home of Mrs. Walton Bailey for a program on Paralytic Christian Churches and Missions presented by Mrs. Cecil Deist. Mrs. Bailey opened the meeting with prayer. Mrs. L. C. Wassell gave the devotional. During the business session, Mrs. Leon Howell reported that a box of clothing has been sent by the group to the Hazel Green Academy in Kentucky and a box of bandages to Leprosy headquarters in St. Louis, Mo. The group also voted to send a cash donation to Leprosy. Mrs. Bailey reported the purchase of four bedspreads by the group for the Hazel Green Academy and members voted to purchase sheets next. A discussion was held on another project; members will make stuffed toys for the church nursery.

# Pampa, Plainview Meet Tonight

## Panhandle Outdoor Life

By STARKEY WHITEHORN

During mid-winter when most hunting and fishing activities are at a standstill, the time is opportune to brush up on the rules and regulations regarding fish and game. In looking through the 1957-58 law book issued by the Texas Game and Fish Commission, there are some interesting and instructive regulations found.

Here is one—“Taking Fish Without Consent of Owner. Whoever shall take, catch, ensnare or trap any fish by means of nets or seines or by poisoning, polluting, or by use of any explosive, or by muddying, ditching or draining in any lake, pool or pond in any county in this State without the consent of the owner of such lake, pool or pond, shall be fined not less than ten or more than one hundred dollars. In prosecutions hereunder the burden to prove such consent shall be upon the defendant. (Art. 925, P. C. 1925.)”

On the high plains we seldom think much of the squirrel as a game animal but rather as a wild creature, and look at the scampering animal from the esthetic viewpoint. We do have a squirrel season in the Panhandle, but there are practically no squirrels taken.

However, in some of the other parts of the state the hunter considers the squirrel as the topmost sporting game and there have been laws to specifically protect same. Consider Art. 9231, P. C. 1925—“Squirrel Shipment—Liberty County. Whoever shall ship or cause to be shipped beyond the limits of Liberty County, or any agent or employee of any express or railroad company or other common carrier who receives for the purpose of transportation, or who shall transport, carry or take beyond the limits of said county, any wild squirrels, shall be fined not less than ten or more than one hundred dollars.

### Don't Turn Loose a Wolf!

The citizens of some parts of Texas get more concerned about coyotes than others do about squirrels. It is a felony offense to mis-handle coyotes.

According to Acts 1930, 41st Leg., 4th C.S., ch. 46, H. B. 13, “It shall be unlawful for any person to transport, or cause to be transported, any live wolf within this State. It shall be unlawful for any person to possess, or to receive, or to transport or to have

### Have Gun, Will Hunt

This idea is correct to an extent. It was correct a hundred years ago but nowadays, with the hunters on the rapid increase and the game populations barely holding their own, the game is restricted so as to give a fair percentage of the amount to the hunters. Five ducks per day was the daily bag limit last season. Twenty-five years ago the bag was twenty-five per day.

All game animals and birds, together with game fish, are protected to some degree. If a hunter or fisherman is interested enough to hunt or fish, spend many dollars for arms and ammunition and for fishing tackle, then the hunter or fisherman should spend a few minutes in the study of the rules and regulations under which these species are taken.

Not long ago a friend remarked to me that three of them had gone down to around Archer City for a quail hunt. They had re-

### GRID GIANTS' FOUNDER DIES IN NEW YORK

NEW YORK (UPI)—Timothy J. Mara, founder and guiding genius of the New York football Giants, whose franchise he purchased as a \$2,500,000 investment in 1925, died of a heart attack at his home, Monday night at the age of 71.

Mara's wife, Giant team physician Dr. Francis Sweeney and a parish priest were at his bedside when he died.

Although he had turned over active control of the club to his sons, John and Wellington, during the '40's, Mara maintained a keen in-

## K-STATE, MSU MOVE CLOSE TO LOOP TITLES

**By TIM MORIARTY**  
United Press International  
Kansas State and Michigan State moved closer to conference championships and berths in the NCAA basketball tournament today, while Auburn looked ahead to placing its 30-game victory streak on the line against Kentucky later this week.

Second-ranked Kansas State remained undefeated in Big Eight Conference action by polishing off Oklahoma, 75-55, Monday night and can clinch at least a tie for the league title by defeating Oklahoma State Saturday.

Michigan State, also picking up steam with each game, opened a two-game lead in the Big Ten race in turning back Northwestern, 71-68. The seventh-ranked Spartans need only two victories in their remaining four games to win the conference title and a crack at the NCAA championship.

Auburn, barred from any post-season appearance, displayed amazing shooting in its final tune-up for Kentucky by downing Tulane, 79-56. The sixth-ranked Tigers converted 31 of 53 shots from the field and added 17 of 22 free throws in scoring their 30th straight victory.

Kansas State also was red-hot against Oklahoma. The Wildcats hit on 41.4 per cent of their field goal attempts and 27 of 31 free throws in scoring their 20th triumph in 21 games. Bob Boozler led Kansas State with 21 points, one more than Oklahoma's Ray Lewis.

Purdue provided the Spartans with an important boost by beating off Indiana, 91-89, and tying the Hoosiers for second place. Michigan State plays Purdue Saturday and then takes on Indiana the following week end. If the Spartans win those two crucial games, they can start lining up tickets to the NCAA tournament.

Bradley goes Revenge—Bradley, bounced out of the UPI 100 this week, gained revenge for last week's defeat to St. Louis by snapping the Billikens' 14-game winning streak, 72-65. The Braves and St. Louis now are tied for second in the Missouri Valley Conference race behind Cincinnati.

Van Smith and Mike Owens each scored 19 points for Bradley.

Industrial League—Hoover Oil and Holmes Conoco will meet tonight at 8:30 p.m. in Pampa Junior High Gymnasium, to decide second place in the Industrial League.

Following the game, trophies will be awarded to various league teams and individuals. They will include the first and second place team trophies, awards to the ten outstanding players in the league, and the sportsmanship trophy.

Hoover Oil and Holmes Conoco are now tied for second place in the league. Tonight's game will end regular season play, but plans are underway for a post season tournament, the details of which will be announced later.

Perryton's Jaycees—In scheduled first place Monday by whipping Shamrock Auto Supply, 86-73, Joel McDowell of Perryton set the high mark for the year in the Industrial League, by sizzling the nets for 40 points. Tom Pletcher had 12 and Flowers 14 for Perryton. For Shamrock, Johns scored 26, Kahoe 20, and Tarbot 13.

## Harvesters Play For Exercise, Plainview Plays For Second

PLAINVIEW—Pampa's Harvesters and Plainview's Bulldogs meet here tonight at 8 p.m. in a game which means nothing to Pampa and very little to Plainview.

The Harvesters, with a 12-0 district record, have already clinched the District 3-4A championship. The next team they have to worry about is Wichita Falls, in the bi-district playoff. Wichita Falls has also clinched its district title.

Plainview will be trying to gain possible undisputed possession of second place, and the glory of ending a 38 game winning streak. The Bulldogs, 8-4 in district competition, are tied for second with Amarillo. Borger is third at 7-5.

Amarillo must play the Harvesters in Pampa Thursday, so if Pampa beats both Plainview and the Sandies as expected, and Borger gets through the rest of its schedule undefeated, there will be a three-way tie for second place.

Coyle Winborn, Pampa's high-scoring 6-4 forward, is expected to pace the Harvesters' attempt for their 38th straight win, and their 26th consecutive triumph. Winborn has led Pampa scoring in five of the last six games, and has a season total of 448 points.

Three of the other four Harvesters regulars have been averaging in double figures, and are over the 250-point mark in scoring. Bob Gindorf, 6-4, has scored 288 points in 26 games. Mack Layne, 6-5, has tallied 256 points in 26 contests, and Charles Minor, 5-11, has meshed 256 points in 23 games.

Lee Richards, 6-2, has been the big gun for the Bulldogs. He has been hitting the nets at a 20-points-per-game clip throughout the season. Richards is an expert shot from outside the free throw line. He hit only eight points in the last Harvesters game, but he was playing with a broken finger.

Bob Huntington is Plainview's floor and defensive leader, but he doesn't score much. Other probable Plainview starters are Johnny Messer, Dale Webb, and Bill Ramsey. Larry Akin is a first-line reserve.

In a B game at 6:15 p.m., the Shockers will try again to hit the charmed 30-win circle. The Pampa B teamers, 19-4 for the season, lost their last game to the Palo Duro Bees, 57-52.

Bob Gindorf broke Winborn's monopoly by edging ahead in the free throw percentage department. Gindorf has a 79.1 percentage from the charity line, while Winborn has a 78.7 average. Charles Minor is close behind with 7.786.

Coyle Winborn, Layne, Minor, and Gindorf are all above the 500 mark in shooting percentage. Gindorf is hitting .538 and Layne .524. Craig Winborn is rattling the nets at a 48.1 average, and Minor is averaging .480.

The same four cagers are averaging in double figures for each game. Layne is a runnerup with 14.2. Minor is hitting 11.7, and Gindorf is firing 10.7 through the nets per game.

Layne still has a big lead in rebounds, with 266. Gindorf has grabbed 231, and Coyle Winborn has snared 224. Craig Winborn has captured 167, and Minor has snagged 91.

Rounding out the statistics, Craig Winborn has a 7.7 average per game and a .615 percentage from the free throw line; and Layne has a .614 average from the charity toss line.

## Bi-District Game Set

The bi-district basketball game between the Pampa Harvesters and the Wichita Falls Coyotes will be played at 8 p.m. Monday, in Pampa. It will be a one-game, sudden-death playoff.

Pampa is the champion of District 3-4A with a 25-0 record for the year. Wichita Falls is the champion of District 4-4A.

A sellout is assured for the game, and all adult tickets may be sold by tonight. A total of 325 adult tickets were available for Pampa people, but 100 of them had been sold early this morning. A total of 255 student tickets will be sold.

All reserved seats will be honored for this game, and those having reserved seats may pick up their tickets Friday. Reserved seats will be held until 4 p.m. Tuesday.

All general admission tickets will be sold on a first-come, first-serve basis. The downstairs section of Harvesters Field House will be set apart for students, a lounge with the southeast corner upstairs. The rest of the upstairs section will be for adults.

One-hundred adult and 150 student tickets have been sent to Wichita Falls.

Tickets are on sale at the city school business office, in the City Hall basement.

## Industrial League

Hoover Oil and Holmes Conoco will meet tonight at 8:30 p.m. in Pampa Junior High Gymnasium, to decide second place in the Industrial League.

Following the game, trophies will be awarded to various league teams and individuals. They will include the first and second place team trophies, awards to the ten outstanding players in the league, and the sportsmanship trophy.

Hoover Oil and Holmes Conoco are now tied for second place in the league. Tonight's game will end regular season play, but plans are underway for a post season tournament, the details of which will be announced later.

Perryton's Jaycees—In scheduled first place Monday by whipping Shamrock Auto Supply, 86-73, Joel McDowell of Perryton set the high mark for the year in the Industrial League, by sizzling the nets for 40 points. Tom Pletcher had 12 and Flowers 14 for Perryton. For Shamrock, Johns scored 26, Kahoe 20, and Tarbot 13.

**STRAINING FOR RECORD**—His face contorted with effort, Pvt. Don Bragg, of the U. S. Army, clears the bar for a new world indoor pole vaulting record, 13 feet, 9 1/2 inches. Bragg, former University of Villanova vaulter, eclipsed previous marks during a charity meet in Philadelphia.

## Tarheels Capture 1st Place in Poll

NEW YORK (UPI)—The North Carolina Tar Heels, aided by Kentucky's loss to Mississippi State, took over first place today in United Press International's college basketball ratings for the first time since Dec. 17, 1957. Kentucky slipped from first to third.

Coach rank McGuire's Tar Heels, beaten only by Michigan State in 17 starts, moved up from second. Kansas State (19-14) advanced from third to second.

The 25 leading coaches who rate the nation's major colleges for UPI also made several other changes in the top 10. The coaches considered games played through Saturday night in their latest ballots.

Mississippi State (20-1) advanced from 15th to 10th and appeared in the select group for the first time since the UPI ratings were inaugurated in 1950. California (15-4) advanced from 12th to ninth.

Bradley, beaten last week by St. Louis, slipped from eighth to 12th. West Virginia, upset by New York University, dropped from 10th to 14th.

Cincinnati (16-2), North Carolina State (18-2), Auburn (18-0) and Michigan State (13-3) remained 4-5-6-7. St. Louis (16-2) moved from ninth to eighth.

Texas Christian (16-4), the Southwest Conference leader, headed the second 10 group. Bradley, Utah, West Virginia, Marquette, Louisville, St. John's (N.Y.), St. Bonaventure, Oklahoma City and St. Mary's (Calif.) followed in order.

## Bill Veck May Announce White Sox Purchase Today

CHICAGO (UPI)—Bill Veck today was expected to exercise his option to buy controlling interest in the Chicago White Sox.

The colorful former owner of the Cleveland Indians has said little on the subject since he paid \$100 to Mrs. Dorothy Rigney for the option to take over her 54 per cent of the stock.

But Veck called a news conference, and there seemed little doubt that he was ready to announce another plunge into major league baseball.

The option expires Wednesday and if Veck exercises it, he will have 45 days to complete his purchase of the White Sox. Mrs. Rigney, sister of White Sox Vice President Charles Comiskey, has set \$2,700,000 as the price.

Meanwhile, Comiskey's court moves to keep the club out of Veck's hands moved apace. His attorneys filed a new petition in Probate Court Monday.

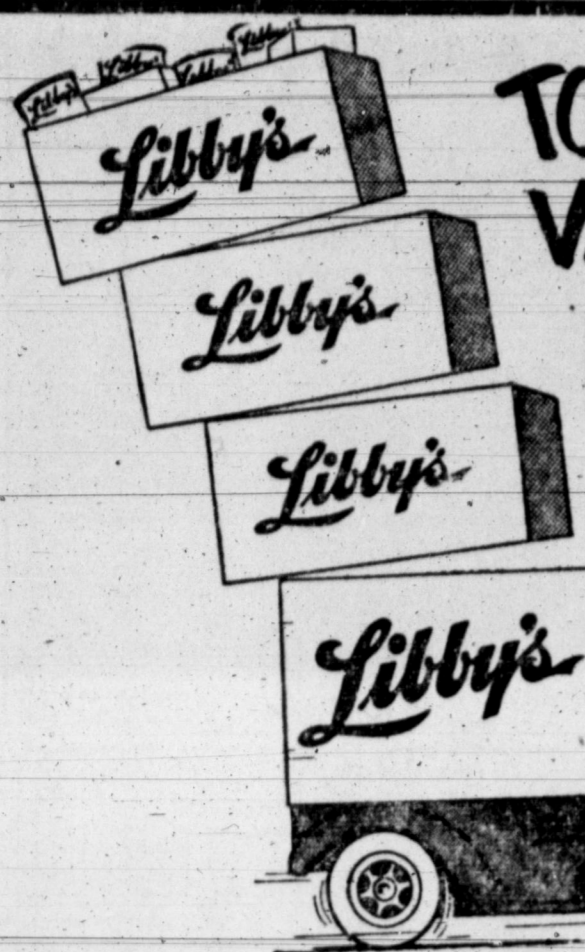

It asked Judge Robert J. Dunne to order Mrs. Rigney to sell her stock to him. Earlier petitions asked that Veck's option be declared null and void, that she be prevented from selling her stock to anyone, and that she be removed as executrix of their mother's estate.

Board Offers To Renew Contracts

CANADIAN (Sp)—The Canadian school board has offered renewed contracts to all principals and coaches of the Canadian schools, according to Superintendent Beane. The principal of the high school, Johnny Cardinal, has held that post for the past three years. Jack Sutton is principal of Baker School and is completing his fourteenth year in that position. Also re-elected were head coach Grady Burnett, assistant Clyde Blair, Charlie Beaton, basketball coach, and Moose Damon, junior high coach.

The Theater

When we saw the title of the Adventure of the Mind number 20 of the Saturday Evening Post for the week of February 20, we were inclined to skip the whole thing. The article was written by Walter Kerr, who is drama critic for the New York Herald Tribune, and his subject was: "What Ails the Theater?"

Our major interests happen to be economics and politics. With the tremendous problems of our time in those two fundamental areas, we weren't particularly aware that the theater had a problem. Nor did we like to take time from these more pressing problems to find out if it did.

Nevertheless, habit is strong. And we've read every one of these items in the Post and reviewed them, too. So, not to make an exception—we pursued this piece of newspaperman Kerr, and we are glad we did. We rather anticipated that Mr. Kerr might come out with the age-old cry that the theater was in the doldrums because the public wasn't patronizing it sufficiently, and that therefore some kind of a federal grant was needed. That's what almost everyone tries to say in print these days and we candidly anticipated that this would be the gist of Mr. Kerr's message. How wrong we were.

Not once did Mr. Kerr allege that more money, preferably from the taxpayers, would solve the problem. Rather, this astute analyst got to poking around into the theater itself and brought out some ideas which, at least to us, were brand new.

He suggested at the outset that modern stage designers have committed a breach of aesthetics by constructing theater buildings in such a way that actors and audience are out of touch with each other.

Two authors sit "chastely out of sight" the experience, as he was keeping an eye on it from the front porch next door, attentive but determined not to become involved. The actor, for his part, is safely boxed up in a neat little compartment with an "invisible" but psychological effective "fourth wall" cutting him off from us at the one point where contact might be made.

This, says Mr. Kerr, is destructive of "the theater's most characteristic gift, a thrilling marriage of hearts and minds — with all in the lovers' quarrels that properly belong to such a state."

Grading On A Curve

Among highway builders, it is commonly understood that curves have to be properly graded. Where vehicles change direction at high speeds, a careful grading makes such things possible without a diminution of the vehicle's rate of progress.

But grading on the curve has now become more than a road practice in certain of our government schools and its results are far from those experienced by the happy and carefree motorist.

What does grading on the curve mean insofar as scholarship is concerned? Well, it all relates to the so-called "law of averages."

Years ago, some earnest glancers of statistics discovered that scholastic excellence tended to follow a rather well-defined pattern. The precise percentages are not available to us from these early studies but they went something like this: If you take 10,000 students and examine their class room standings, you will find that about 40 percent of them will obtain C's, about 20 percent will get D's, about 10 percent will fail. Another 20 percent will get B's and a final 10 percent will achieve an A.

There is the curve. A majority of students will fall squarely in the middle and the numbers of those both above and below that 10 percent at either end of the graph.

Some smart progressive educators got hold of this formula and decided that if such a condition existed in large groups of students, it must obviously also exist in small groups of students. The whole is equal to the sum of its parts, isn't it?

The Pampa Daily News YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence. This newspaper is dedicated to promoting and preserving YOUR freedom as well as our own. For only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

BETTER JOBS

By R. C. HOILES

Are Protective Tariffs Worth \$40 Billion Yearly?

We are now spending at least \$40 billion a year in what is called national defense. In the final analysis what is the origin of the need for national defense?

The moralist and economist, Frederic Bastiat, over 100 years ago, in showing the errors of protective tariffs, contended that where goods do not cross border lines because of protective tariffs, soldiers will. In other words, where the government passes laws penalizing men from freely exchanging goods and services we are bound to have discontent and a struggle to stop these artificial, unnatural barriers between men.

Now what does this \$40 billion of national defense cost each family per year? It costs them about \$800 a year, and it costs each man, woman and child about \$233 per year. Just think of how a family could enjoy spending \$800 for things that would improve their health, and their understanding of their environment.

Protective tariffs are nothing but an attempt to reduce competition and protect the individual from foreign competition. And when man comes to believe that he is better than other people and does not need to compete with all people in serving mankind, he exalts himself and he becomes abused.

I believe it was Walt Whitman who said, "I give you the passport of democracy. I will accept nothing that someone else cannot have on the same terms." We are completely repudiating this philosophy of freedom or liberty of voluntaryism or the democratic way of life — not the majority rule democratic way, but the way that all men are equal before the law as they are before God.

\$40 Billion in Planned Economy. The United States Government is spending about \$3 billion a year trying to improve the lot of mankind. It is substituting the will of the bureaucrat for the will of the individual. If, in effect, saying that the individual is too stupid to know how to plan his own life, to use his own energy, so that he is taking about \$500 a year from each citizen, from each man, woman and child, in order to plan their lives for them. Or they are taking about \$1,800 for every family in order to let the bureaucrats use aggressive force to substitute their will for the will of the individual, who the Creator endowed with certain inalienable rights to life, liberty and property. And he certainly endowed men with the property they create, because man cannot live without property.

If the government were not interfering with people freely exchanging goods and services — that is, letting them plan their own creative energy — the federal government would cost less than \$3 billion a year. So we'd have \$30 billion for personal use. And if these \$30 billion were used in tools instead of being enjoyed currently, and it took \$15,000 to furnish a good job, they would furnish 6 million jobs! And think of how the demand for 6 million employees would raise the real wages of all workers.

Lives, Besides. And besides the \$40 billion we spend to defend protective tariffs, we sacrifice thousands and thousands of lives in wars. Besides sacrificing lives we exalt ourselves and degrade our integrity and character. It is a natural result of violating the commandment not to have any other gods before the individual. We put the state before natural or God-given rights. We worship the state in place of the God within man. And, of course, the Great Teacher warned us repeatedly that we cannot serve two masters.

Yes, we're paying a terrible price, materially and spiritually and intellectually and through loss of peace of mind, by trying to defend our citizens from competition by protective tariffs on a national scale and some \$30 billion a year protecting us from local competition.

We seem to completely forget the axiom that each and every man must live by the sweat of his brow; that that is the way that man develops. It is a law of nature, and when men violate the law of nature they must suffer. Can we afford to spend \$40 billion for a defense against foreign competition and \$30 billion a year against competition in the United States?

How foolish can men be? Self-interest is a common human trait — even the simplest minds and the students who may not be scholars are still filled with self-interest. They quickly discover that when the curve grading system is employed, the one thing that will bring down their own marks is the occasional genius who will tower above them in performance.

Gangs of students are formed which covet about emulating their fellows to "take it easy." "Don't make it tough on the rest of us." And the end result is that no one makes effort and, in theory, no one can ever discover the failures, for a class of noncooperators must still have its percentages of A's, B's, C's and D's. These students and this system destroy initiative.

Is this the way you want your child graded?

Translation

Robert Allen Reports:

Hertzer To Replace Dulles As Secretary?

WASHINGTON — Secretary of State Dulles will definitely resign within a few weeks.

His successor will be Undersecretary Christian Hertzer.

Authority for this positive information is Assistant Secretary William Macomber, in charge of congressional relations. He is one of Dulles' closest associates.

Macomber is privately apprising leaders of the Senate Foreign Relations Committee of the impending changes.

The influential senators have been pressing him for authoritative word regarding the outlook of the State Department since the White House announced that Dulles was entering Walter Reed Hospital for a hernia operation.

"Just what does that mean?" Macomber was asked.

"Secretary Dulles is a very sick man," was the answer. "In addition to the hernia condition, he has continued to be troubled by his previous ailment."

(Last year, Dulles underwent an operation for an intestinal malignancy.)

"Will he return to his desk after this operation?"

"He will resign after the operation," said Macomber.

The senator then inquired as to Dulles' probable successor, noting that in addition to Hertzer, the names of Deputy Undersecretary C. Douglas Dillon and UN Ambassador Henry Cabot Lodge have been mentioned.

"Undersecretary Hertzer will replace Mr. Dulles," said Macomber.

What changes will that mean in State Department personnel and policy?

"I am unable to tell you," replied Macomber. "However, a new secretary will undoubtedly mean changes."

Fair Enough

by Westbrook Pegler

Teamsters Union Was FDR's 1944 Host

NEW YORK — In contemplating the Teamsters Union it is well to remember that this racket was Franklin D. Roosevelt's host and he's exuberant guest at a "debouch" in the Statler Hotel in Washington in 1944 which touched off Roosevelt's campaign against Tom Dewey.

When our political being was crawling out of the primeval slime, offenses against decency occurred which were comparable, to this day. But the fact must be considered that Roosevelt pretended to be an aristocrat, a gentleman, and a man of the most sensitive honor.

The McClellan Committee has concentrated on the Teamsters' Union to the glaring neglect of Dubinsky's Union of Garment Workers from the honest domesticity of Mrs. Nelson Rockefeller in stitching a Dubinsky label into a garment, with Dubinsky beaming in triumph and cameras recording a political commitment by the heir of the damned spot of Ludlow, Colo. On information and belief, I suggest that Mrs. Rockefeller has been a member of the Labor and Liberal parties, both Dubinsky's properties, and that, in voting for unmanly to consider who's head sleeps on the pillow next to the nominee's.

I am reminded of Roosevelt's 1944 gala by the testimony of Harold Gibbons, a professional un-lioner and Jimmy Hoffa's chief henchman, taken by the McClellan Committee last Sept. 2. Robert Kennedy, the brother of the Senator from Massachusetts, took part as counsel. I do not undertake to explain why the Kennedy boys, both partisan Democrats, have shown such zeal to discredit the organization which in September, 1944, arranged the opening rites of the third-term campaign of the Democratic president who hated "wah."

Brother Gibbons, stationed in St. Louis as regional strap of the Teamsters' Union, had been cornered in a situation involving the purchase of an "independent" union which he "controlled," by the International Teamsters, for \$78,000. This was paid in the form of "severance" to a small group of individuals. Gibbons managed not to admit outright that this money was the purchase "price" of a large body of faceless tilters who never held membership meetings.

In the 1944 Roosevelt rally at the Statler, two young Naval officers, briefly home from the war, were beaten up by goons because they refused some elaborate special homage to their commander-in-chief, Merriman Smith, of the United Press, described the banquet scene, with the late Dan Tobin presiding, in terms of drunken frenzy, with Roosevelt aglow in the role of political patron as he dominated the revels of his loyal henchmen, the Teamsters' Union.

Looking Sideways

By WHITNEY BOLTON

NEW YORK — In case any ladies addicted to study of this column have been tormented because they did not have the generously endowed proportions of film stars, both American and Italian, let me put some balm in your unhappy case. Now you can smile again, face the world confidently and leave such unusually designed girls as Monroe, Mansfield, Russell and Lolobridgia moping behind you. They have had their ample day. Beginning with spring, ladies, the spring due in about six weeks, the high and often unpredictable world of fashion will concentrate on the Natural Look. This look will obtain from crown of head to sole of foot and no woman, however skimpy she may have felt, need any longer feel neglected and unattractive.

As has been recorded before, I maintain without fee a fancy stable of experts in many lines: furs, gowns, hats, fashion, invention, ballistics and even parrot fever and when the need arises I consult whatever expert is indicated. The fashion and grooming expert is Miss Nancy Mace, a crimson-topped ball of energetic fire and proved brains who owns a beauty retreat called "Les Girls" on the chic East Side and can detect a fashion and grooming trend a full eight months before the first headline has been dictated by Paris.

"We are done, thank Heaven," with sacks, Empire, wind-blown, Italian fisherby hairpomps, jagged cut bangs, shoes like rapiers and peripatetic waistlines," she confided the other afternoon. "Done. And good riddance. In the sack, women looked like bags of discarded potatoes, in the Empire they looked like trussed-up fowl. They showed no faces scarcely ever attractive; they bought and used ingenious and counterfeit devices to give them superstructures such as 'Nature never intended, they pushed their tortured feet into leather arrows and in a dozen other ways did all they could to look like fake freaks. Men, Heaven defend the lot of them, were patient. They just sat back and paid for the stuff and mused: 'Some day the old girl has and so has the young girl, the Natural Look is here.'"

"The Natural Look means just exactly what it says. No more, no less. It will be a wholesome look. Normal waistline where the waistline is, normal bust, the skirt just below the knee, showing an interesting length of leg without making the girls' look as though their skirts had shrunk above the knee.

Gibbons was discussing a St. Louis cab-driver's strike, allegedly by violence, in 1955. It was his best measurement, doing plain and dresses designed to nip at the waist. Nature nips in and fill out where Nature fills out — again, no more, no less.

"Our country became the laughing stock of the world with its slavish following of all that was freakish and ugly. And even more laughable was the fetish for proportions more suitable to a champion Guernsey than to a human female. I am terribly in favor of the Natural Look. At long last, men will be able to know exactly what a girl is. Her waist won't be up under her armpits or down near her hips. It will be where Nature put it and Nature, I think, designed women's figures better than any weird dress designer ever could do it. Young girls will look well-groomed, neatly and attractively dressed, their faces washed, their coiffures simple. And so will older women.

Ladies, there is your good news for today.

Hankering

Pretty Prose, But Lacking In Authenticity

By HENRY MCLEMORE

It's a beautifully written slice of prose, and may even win its author the Nobel Prize for literature, but it lacks the ring of authenticity.

I'm talking about the report of the special citizens' committee recommending the legalization of off-track betting on the horses in New York City.

The four men who did the report are gifted authors, and there are parts of it which are as exciting as a page from "War and Peace," but it is evident that none of the authors is an honest-to-goodness horse player.

If they were, then you'd never find such paragraphs as these in their report:

"In order to maintain a respectable and orderly atmosphere, payments to a winner shall be made on the first business day following the race."

"Lodging-in and within the vicinity of betting stations shall be prohibited."

"Betting stations shall be located reasonably distant from funeral homes."

Not to pay a winner the moment the prices are known is to break the heart of 99 per cent of horse players. What's a man going to get home on if, say, he puts his last dime on spot on a winner in the closing race of the day — it pays \$10.80 but he can't get his money until the following day.

The man who thought up that

Extreme colors in hair are out. Way out. Extreme platinum for hair will be cheap, which it always was — a cheap-looking blonding fit for strippers and drive-in waitresses. The new color should be totally natural, as is, but if a woman does want a color she has not in her own hair, then red, blonde is the new fashionable tint. This is neither cheaply blonde nor sordidly red, but a pleasant, un-explosive combination of good taste and grooming. The wispy look in hair is out. A nice, soft, natural coiffure is the look to have. Lipstick will be lighter — more natural. The outlining of the mouth will be 'natural' instead of a curvilinear contrivance. Dresses will be simple and not gaudy, they will follow the natural lines of the figure.

"Girls who have padded and falsified can throw away all those hideous harnesses. It will definitely be outre and unchic to have unusual bust measurement. Let those girls who have made a fetish of this be stuck with it. I couldn't be happier than to see normal bust measurements doing plain and dresses designed to nip at the waist. Nature nips in and fill out where Nature fills out — again, no more, no less.

"Our country became the laughing stock of the world with its slavish following of all that was freakish and ugly. And even more laughable was the fetish for proportions more suitable to a champion Guernsey than to a human female. I am terribly in favor of the Natural Look. At long last, men will be able to know exactly what a girl is. Her waist won't be up under her armpits or down near her hips. It will be where Nature put it and Nature, I think, designed women's figures better than any weird dress designer ever could do it. Young girls will look well-groomed, neatly and attractively dressed, their faces washed, their coiffures simple. And so will older women.

Ladies, there is your good news for today.

clause never has been hungry, nor has he ever had to reach way down in his watch pocket for his last two bills.

With pay-off time the following day, most horse players will want to stay in and about the shop until it opens for business the next morning.

But this is out. The No Loitering rule takes care of that. An absurd rule by the way. How does a man pick a winner if not by loitering?

Reading the Racing Form is not a job that can be done while walking briskly along the street, or driving a car in traffic. It requires hours of checking and rechecking, and weighing and reweighing all the written evidence. And it is while loitering that one gathers his best tips. How is one to know what the bettors at the \$10 window are playing unless one loiters a near enough to hear their requests for tickets?

And what is wrong, I ask you, in having a Betting Station near a funeral home? Seems to me, the front porch of such an establishment would be an ideal location.

It would be a great comfort to have a parlor handy while waiting on a photo-finish, or while holding one's breath as one's choice starts to come on again at the sixteenth pole. Only a mortician is skilled enough in sympathy to comfort a horse player who has had his jockey thrown at the gate, or lost a winner through disqualification.

The New York report needs a thorough revision by such men as Dandy Sam, Bowtie Scotty, and others who carry a scratch sheet the way most men do a handkerchief.

The persistent efforts in some quarters, to misrepresent Jesus of Nazareth as a Communist organizer is pretty disgusting and it has been intelligently refuted by the Reverend Irving E. Howard in "Christian Economics." He says, "In simpler days when people believe the Ten Commandments, taking property by force was called stealing." In more recent times, however, it has been led to think that what may be wrong for the individual is right for the government. According to this philosophy, if by majority rule, the government takes property by force, the fact that the majority voted for it makes it an act not of theft but an expression of "social consciousness." No one who is serious about the teachings of Jesus can be happy with this socialistic teaching. Not only did Jesus not believe in stealing, he did not believe that wealth was static. Study the parable to the ten pounds. Here Jesus told the story of a nobleman who gave his ten servants one pound each before he left for a far country. Upon his return, he called them to account. All but one had invested and increased his pound. This servant had hoarded his in fear that he might lose even that one pound. His lack of enterprise was condemned. (Luke 19 - 11-28).

Matter of FACT

Unlike the wood of most trees, which is made up of thick-walled cells and fiber to give it strength and toughness, most of the cells of the wood of the balsa tree are very thin-walled. When dead, these cells have a great deal of air in and between them, making them light in weight. At the same time, balsa is quite strong.

INVIGORATING, NO?—Broad-bottomed Anatole, polar bear at the Paris Zoo, hauls himself from his private pool after a stimulating dip. The colder the better for Anatole—it reminds him of home.

## Gable Laughs At Rumor Of His Death

By VERNON SCOTT  
UPI Hollywood Correspondent  
HOLLYWOOD (UPI)—Clark Gable is not dead. He's not even sick. But the rumor cropped up this week that the handsome actor had gone to his reward again. "I've laughed about my so-called 'death' before," Gable said on the set of his new movie. "But this time there could have been complications. A reporter called my home and told my wife Kay there was a report I was dead. "Kay has a heart condition, and a thing like that can be dangerous. "She called me at the studio, and thank God she wasn't excited about the rumor. Kay's a good sensible girl. "Gable Hunting Rumors "They'll be right about my death some day, but let's not rush it. "Gable isn't the only star who hears frequent reports about his death. It's a rare month that goes by without a false rumor on the passing of some well-known star. Usually the "departed one"

is Bob Hope or Bing Crosby. "Maybe it's because we're the oldest guys around," Gable said, flashing his famous grin. "Death rumors aren't as bad as some of the others. It's surprising how often I pick up a paper or magazine to read where I'm off hunting in Africa when actually I'm sitting by my pool at home. "Nobody could hunt as much as I am credited with doing. There isn't that much game in the entire world. I hunt a maximum of 10 days a year. "King" Gable rattled off a list of other common rumors. "Divorce Rumor's In Past "Movie stars are forever reading, becoming engaged, being divorced, being injured, traveling to distant countries, romancing a girl they've never met and appearing in pictures that aren't being made. I could go on and on. "Fortunately, the marriage and divorce rumors are all in the past for me. It's been years since I've gone through that," he laughed. "If I made all the news that's written about me I wouldn't have time to work—or even sleep," he said. "But I'm not complaining. The movie business has been awfully kind to me and I wouldn't change jobs with anybody—dead or alive."

## Chuckles

ROSES ARE RED . . . CHICAGO (UPI)—The National Safety Council issued these reminders for a safe Valentine's Day weekend: "Valentine, I love you true; "Sure hope no one runs over you. "And "Watch yourself in traffic, mine. "Who wants a bandaged Valentine?"

PIGGY-BACK SAN FRANCISCO (UPI)—The Southern Pacific Railroad soon will provide the ultimate in piggy-back hauling service. Railroad President Donald J. Russell said its flatcars will haul trucks which will be loaded with autos.
