### MILLER-HOOD PHARMACY Wonthly Views

A Message from Your Neighborhood Pharmacy

PROPER DIGESTION OF FOOD is necessary for better body health. Mastication, the process of chewing your food enough to permit its preparation for entry into the stomach, is handicapped if your teeth cannot accomplish their duty.

MODERN DENTAL RESEARCH has uncovered many new helpful techniques for making teeth less subject to decay and possible loss. Your dentist judges his professional success by his ability to help you keep your teeth instead of losing them.

A VISIT TO YOUR DENTIST is no longer something to be feared. Your dentist has new "miracle" drugs to prevent pain and promote healing. He can prescribe mineral and vitamin medicines for people who are susceptible to cavities. His local treatments prevent their formation.

or specify a particular dental aid, we can supply it from our ample stocks. We are carefully keeping up with the progress of modern dentistry so that we. may cooperate with dentists, as we do with physicians for your better health.

SHOULD YOUR DENTIST PRESCRIBE any medications,

# **Red Griggs** the pipeline

It has been a great relief to learn that Mickey Mantle will get enough money this season to feed and clothe his family. I, like many other baseball fans, have been sitting up nights worrying that Mickey might have to muddle through on a mere \$72,000 or so.

But now, it appears that justice has been done - that Mantle will get a living wage of about \$80,000.

To the great surprise of practically nobody, Mantle and the Yankees came to terms this weekend, in a meeting filled with sweetness and light. In fact, both Mantle and the Yankees general manager George Weiss would have put the oilytounged Mr. Mikoyan to shame when it came to passing out

"I'm happy to say Mickey is in the fold," said Weiss. "Just say I'm happy," countered Mantle, "and I hope I have

a big year." So Mantle got his \$5,000 raise, the Yankees got a million dollars worth of free publicity, we sports writers got some good copy to fill our pages with, and everybody's

### Other Holdouts Are Logical

Everything was so satisfactory at first glance, since if Jensen is that Mickey didn't even have to the league's most valuable playsign a paper saying he has been er he should be the highest payed a bad boy and he won't do it again. player in his league, or at least And after all the nasty things that on his team.

misunderstood boy! horrible example of one type of paid for the fans they draw. Manholdout, there have been many tle and Williams, the league's big holdouts with more justification.

Jackie Jensen, for example, end- more money than anyone else.

more money is hard to dispute dwelling Washington Senators He was named the most valuable could afford to pay. player in the American League, Why did he do it? Well, he had yet even after getting the raise he nothing to lose. The Senators could wanted, he is getting much less either trade him somewhere else than another player on his own (and anywhere else would have team, and less than several other been an improvement) or pay

Jensen is getting \$85,000 less paying. But it was a nice try on than Ted Williams, \$40,000 less Sievers' part, anyway. Sievers is than Mantle. This seems strange holding out again, by the way.

have that

### **BETTER JOBS**

By R. C. HOILES

In Foreign Lands
I wonder why so many people believe that we are morally obliged to send our army all over: the world to help promote better

It seems to me there is one very definite reason and that reason is because we have adopted quotas to keep other people from coming into the United States.We have also adopted tariffs to penalize the men who would exchange their goods and services with men in the United States.

And when we tell people by our laws that they cannot leave countries where the laws are bad and the conditions are bad and come into our land, then we have some moral responsibility to see that their countries have livable conditions - to see that men are not starved to death in their

Of course, we also are inviting them to go to war when we have tariffs and immigration quotas. But before we had immigration quotas, then we had no great moral responsibility to be fighting all over the world. Before we had immigration quotas we were largely able to keep out of European and Asiatic wars. However, there are few prospects of us keeping out of wars now as long as we have immigration quotas and tar-

Before we had immigration quotas we in effect told the people

that if they did not like their governments and their conditions they were welcome to come to the United States. The result was that those people who came here sold our way of life to their friends back home by writing letters. Now, we in effect say to foreigners that the people in foreign lands are not worthy of entering our country and yet we hire radio stations and speakers to go throughout the world to tell the rest of the world what a wonderful people we are - how freedom loving we are - and yet we pass laws that show that we do not love liberty or freedom and we do not have respect for other people's equal rights. We are in effect saying that we are a "closed shop" and the other people have no right to share the

And when we have these immigration quotas and these tariffs and treat the people in the rest of the world as untouchables, then we have some moral responsibility to try to make better conditions in these foreign lands.

But the trouble is that we cannot even make better conditions in foreign lands because better conditions only come from freedom from respecting human initiative. And when we ourselves do not born in other lands, we cannot greatly improve conditions in the rest of the world. Any law that interferes with men freely exchanging goods and services hurts everyone.

Why The Immigration Quotas? And the reason we have imbecause of our miseducation, be- ministers. cause most people believe as do produces wealth he takes a job worst drought in decades. from someone else, and thus hurts or injures someone else. back of free enterprise that we before we can read a page in a that put us under moral obligation to try to improve the conditions throughout the world.

The best way is to take down our quotas and our tariff walls and teach the rest of the world by example how to improve their

Down South

Thurman

A Time For Firmness In The Southland

That the Southern states are rapidly approaching a crossroads -a place where they must make some terribly hard decisions-is now recognized by most South-

Virginia, the cradle of American independence and states rights, the birthplace of Patrick Henry and Thomas Jefferson, has been subjected to agonizing pressure in recent weeks. As Gov. J. Lindsay Almond has said, the Commonwealth of Virginia been placed in a "vise". In the months ahead, other Southern states may be placed in the vise of federal pressure. State officials and ordinary citizens will be squeezed in the hope that the spirit of liberty can be ejected like a seed from an orange. The tempo of federal pressure has been stepped up in recent

weeks. Gen. William P. Rogers has threatened that military installations may be closed down in states where there is a school crisis. Dr. Arthur Flemming, secretary of the Department of Health, Education and Welfare has talked about federally operated schools in the South. Sen. Paul Douglas of Illinois has introduced a so-called "civil rights" bill to integrate public schools in the South "this year."

There is determination among all factions of agitators to crack the states rights stand of the South this year. Virginia has received terrific hammer blows. The near future.

As the pressure increases, the temptation to surrender may ly in U.S. economic aid for the "There is more talk about cutgrow. Some communities may ting foreign aid than I have ever heard in Congress," warned Ray- reprisal by the federal government. Some Southerners may sinble with Republicans as well as pressure by weakening — "just Democrats. Many of them feel a little." The superficial attraccerely believe that they buy off This additional amount will be that a lot of this money could tiveness of stepping back a few "If your foreign aid budget is and earnestly the effects of an To date, approximately \$118, to be passed anywhere near the opening wedge. > laughed at as naive, urged him to fight back. In a grueling oneman filibuster he did fight, until the corrupt machine that tried to break him was itself broken. Thoughts come thronging, but

the best may be this: Mr. Smith was prime target for the scoffers until his integrity stood up to be counted. Ridicule then turned to fear. "All that is necessary for the evil to triumph," said Burke, "is that good men do nothing. Evil fears nothing except good men willing to do something! Patriotism? Principle? Integri-

ty? Freedom? Such words are pious pretense if they remain and pretense deserves laughter. But let them take on the courage of conviction, let the land of the free be also the home of the brave - let more Mr. Smiths stand up in Washington-and "this government of the people, by the people, for the people shall not perish from the earth!"

# ...he'll do this ONCEthen he'll buy an ELECTRIC Clothes Dryer!

"Today's a great day for me - friend husband earned a day off from work and volunteered to do the wash for me. I see him now lugging a heavy basket of wet clothes out to line - watch his fingers turn blue as that icy wind bitterly blows . . . whoops...he just dropped a shirt, and it's a mess. (I can't tell what he's saying, but I'll bet he's thinking about an electric clothes dryer) and I think I'll be ready for him - I'll call the Reddy Kilowatt dealer right now about models and prices. Everybody tells me there's one to fit any budget. Say, here's an idea if you don't have an electric clothes dryer then get your husband to hang out the wash - just once is all it'll take."
