#### RUTH MILLETT

They all work in the same, not too-mysterious ways to get where hey want to be.

The social climber does a lot for other people. But she is always helpful to those who are a notch above her in the community. She never finds time for those she has already outdistanced.

She may spend a lot of time doing charity work. But it's always organized charity, where she has a chance to serve on committees with women she might not have a chance to meet in any other way.

She is sure to be a name dropper, and she is also probably sure that she drops names so cleverly she slips them by without danger of being spotted as a name dropper. But, of course, she is never quite as clever as she thinks.

She is rarely friendly with her neighbors for the simple reason that her neighbors are never quite good enough for her. When they are, it means she has arrived and no longer needs to be a social

# District Opener Rained Out

### Sandie Game Reset Today; Monterey Upset by Tascosa

Pampa's scheduled District 3-4A opener Tuesday at Amarillo was rained out, as was the Borger-Palo Duro lidlifter in Borger.

Weather permitting, both games will be played today, beginning at 4 p.m. The Pampa-Amarillo game will take place in Sandie Park.

The same two southpaw pitchers are expected to oppose each other in the Harvester-Sandie contest, as had been scheduled for Tuesday's game. They are Sandie ace, Ken Grenewald, and Kippy Williams, who has a 2-0 record

The rest of the Harvester starting lineup will remain about the same as it was to have been Tuesday. Bobby Stephens (.231) will lead off and play left field. Batting second and playing first base will be either Larry Stroud (.160) or Jimmy Cross (.250)

#### State Title Game Movies the cleanup man. Catcher Terry To Be Shown

A "basketball-o-rama" is sched. Batting seventh and playing uled Friday at 8 p.m. in the high second base will be Ruben Strickschool auditorium. ### by EDWIN P. JORDAN, M.D.

#### Numerous readers, including Mrs. C. K., have asked for another discussion of nephritis. This is a disease of the kidneys, which

is also called Bright's disease. There are several varieties of

nephritis, but probably the most common and most serious is that which afflicts particularly children and young adults. This goes under the technical

name of glomerular nephritis. The associated inflammation can be of sudden onset and produce acute symptoms and signs, or can be chronic in nature.

néphritis result from - or at least iollow - infection of the nose, throat or upper breathing passageways with germs of the streptococ-In other words, this is frequent-

ly associated with sore throat, tonsillitis, the common cold, sinusitis, rheumatic fever, scarlet fever and other disorders caused by the streptococcus. Sometimes such definite infection cannot be identified. as a forerunner of acute nephritis. The line of attack on acute nephritis is therefore aimed at the precipitating cause, if one can be identified. Thus if a source

or focus of infection, such as diseased tonsils, can be found, these are often best removed. In addition, bed rest during the acute phase of the illness is generally desirable as is the attention to diet and often to medica-

Since some of the antibiotics, like penicillin, attack certain streptococci, treatment with such substances is often considered, although the evidence for their value in many cases of acute nephritis is conflicting. A high proportion. of those who have a single attack of acute nephritis recover com-

Chronic nephritis, or Bright's disease, is probably more serious. Some develop chronic nephritis from the acute varity. But perhaps most of those with chronic Bright's disease are not aware of. ever having had an acute attack. Among the common signs of

chronic nephritis are the gradual accumulation of fluids in some of the tissues (edema or dropsy), recurrent headaches often associated with some high blood pressure, and shortness of breath. But it is not at all unusual to dis cover chronic nephritis by finding altumin in the urine without any
