

Soviet Alarmed West Won't Negotiate

By WALTER LOGAN
United Press International

The Soviet Union expressed alarm today that the Western Allies might refuse to negotiate on the Berlin crisis.

Izvestia, the official Soviet government newspaper, accused the West of trying to solve the Berlin crisis with tanks instead of the negotiations wanted by the Russians.

The magazine "New Times" reported fears the Americans will discourage British Prime Minister Harold Macmillan's negotiation plans during his Washington visit next week.

It said Macmillan's visit to Moscow introduced a positive aspect to East-West relations and

that "unquestionably there are grounds" for fears the "viewpoint of opponents of negotiations would predominate."

Both Izvestia and the Communist Party newspaper Pravda hailed the East German trip of Soviet Premier Nikita Khrushchev as showing the Soviet wanted to negotiate a solution to the Berlin crisis.

Propose Army Withdrawal
Izvestia added that Russia "proposes that the armies of both sides should withdraw and their diplomats should move forward," a reference to a form of "disengagement" which Khrushchev and Macmillan promised to study.

Macmillan, now meeting with West German Chancellor Konrad Adenauer in Bonn, already has

assured the German leader that his fears are groundless that any proposed "disengagement" would leave West Germany defenseless and without promised atomic weapons.

But the West Germans were reported still to have some suspicions that Britain might be willing to negotiate with Russia at the expense of either West Berlin or West Germany. That problem arose when West Berlin Mayor Willy Brandt publicly rejected the latest Soviet demand West Berlin be made a "free city" under a four-power charter that would include Russia.

British sources said Britain was displeased because Macmillan believes the West should bargain with the Soviets at a conference

table and not at long distance. The West Germans were reported to believe this indicated Macmillan might want to make concessions.

Red Visits Britain
A sidelight on the Macmillan-Adenauer talks was the arrival in London today of Mikhail A. Suslov, generally regarded as No. 2 in the Communist Party ruling Presidium.

He was in London with a group of parliamentarians at invitation of the British Labor Party but some observers feared the visit could embarrass Britain at a time when Macmillan is engaged in delicate talks with his allies.

Macmillan flies to Washington

next week for talks with President Eisenhower. The White House announced they would meet next weekend at Camp David, the nearby presidential retreat in Maryland.

Both the White House and State Department expressed hope Secretary of State John Foster Dulles might be able to participate to some extent in the Anglo-American talks despite his illness.

French diplomatic sources in Paris, also slightly suspicious of Macmillan's willingness to negotiate, have expressed hope Dulles would be recovered enough to take part in future East-West talks or that some strong American leader take his place.

There was no immediate comment in Moscow on Eisenhower's

Wednesday press conference statement which indicated the possibility of a nuclear war over Berlin, but Western observers noted that Russia in the past has frequently stated it believed its rocketry was superior to that of the United States.

Nuclear Standoff
Both sides appear to believe there is now a nuclear standoff and that the East-West jockeying for position in the cold war with frequent exercises in brinkmanship will go on indefinitely, Moscow dispatches said.

The Eisenhower statement brought criticism Thursday from Sen. Albert Gore (D-Tenn.) who said the administration had brought the United States "to a point where massive retaliation is

our sole defense" in the Berlin crisis with Russia.

If Berliners were worried there was no outward sign of it. UPI Correspondent Joseph W. Grigg reported from West Berlin. He quoted a construction worker on Khrushchev's plans to make Berlin a "free city" — "Let him liberate the East Germans first. We don't want any more Russians here and we don't need any liberation."

But there were some signs of tension in West Berlin. Several hundred West German families were moving to the greater security of West Germany; business has fallen off because West German firms are becoming afraid to place orders in West Berlin factories; The tourist business is short-

OLD GLORY'S NEW LOOK

Hawaii's 40 years of waiting to become a state were for all practical purposes over Thursday. Both the Senate and Congress have okayed statehood for Hawaii. Gladys Eide, holding a flag with 50 stars, was ready to celebrate when the news came that the new "50th state" was approved.

Flagmakers In New Quandry!

WASHINGTON (UPI) — The 48-star flag is going to have a 50th star — but no one here knows when it will be added or precisely where it will be placed.

Flagmakers, who tensely awaited the decision on the design for a 49-star flag to accommodate the admission of Alaska, were up a pole once again.

To make it worse, Hawaii's certain addition as the 50th member of the Union came before it was actually proper to display the 49-star flag.

The flag design adding a star for Alaska was approved Jan. 3 when the state joined the Union. But President Eisenhower's proclamation also pointed out that individuals and private firms were not supposed to fly the new banner with seven staggered rows of seven stars each until July 4, 1959.

It appeared unlikely that Hawaii's star would be officially added to Old Glory before the

Lane Elected President Of K-F Club Here

McHenry Lane, curriculum coordinator of the Pampa Public School system, was elected president of the Top O' Texas Knife and Fork Club at a directors meeting Thursday. Formerly vice president, Lane succeeds T. C. Lively Sr. to the presidency.

Directors chose Ralph McKinney for vice president and re-elected Clotilde Thompson secretary-treasurer.

The next regular meeting will be Tuesday when General Charles A. Willoughby, a former associate of General Douglas MacArthur, will be the guest speaker. The group will meet at 7:30 p.m. in the High School cafeteria.

W. T. McEntire, a representative from the national Knife and Fork Club office in Topinka, Kan., will meet with directors April 6 to make arrangements for the 1959-1960 season. The current season will conclude April 21 with a lecture by Aly Wassil, a Pakistan philosopher.

New directors, elected Feb. 12, are Don Cain, Dr. Jim Chase and Fred Brook. Hold-overs are Warren Haase, Ralph McKinney, Dick Batson, McHenry Lane, J. B. Veale and Crawford Atkinson.

United Press International

12,408 PAMPA NAMES CITY DIRECTORY OUT

A total of 12,408 names—beginning with Mrs. Opal F. Aaron and ending with Eddie Zuniga—appear in the alphabetical section of the 1958 issue of the Pampa City Directory being distributed in Pampa this week.

The preface and statistical review in the book, which was provided by the Pampa Chamber of Commerce (Pampa Board of City Development), lists the 1958 population as 28,335, an increase of 1,241 over the 1957 estimated population of 25,152 published in the 1957 directory.

Turn the pages and you can find names, occupations and home addresses of residents of Pampa and such additional data as whether a person is the head of the house as denoted by an "h" or a resident, denoted by "r".

Turn some more and you may find such other information as whether a household owns its home or whether he has a telephone, who his neighbors are, and other data.

Maybe it's civic information about Pampa you are looking for. Much of that, in addition to the population estimates, is included in the preface and statistical review.

There are 301 classified categories in the yellow pages of the book beginning with Abstracters and ending with Wines and Liquors—Retail. Need a doctor, lawyer, a picture framed, or any one of a variety of other questions relating to business, the yellow pages of the classified section will give you this information.

The Numerical Telephone Department gives a list of 6,075 telephone numbers and names in numerical order, which is in great demand.

The Pampa Directory has a fifth department that most of the directories do not have and that is the Oil and Gas Directory. This department contains information concerning some of the most important oil and gas industries having headquarters in the city, or in adjacent fields.

Through the courtesy of the Publishers of the Pampa City Directory, a Directory Library is maintained in the offices of the Pampa Board of City Development, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U.S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

Berlin Cries 'Make Us Free'

By JOSEPH W. GRIGG
United Press International

BERLIN (UPI)—Soviet Premier Nikita Khrushchev's barnstorming visit to Communist East Germany left barely a surface ripple today on the lives of the 2,200,000 West Berliners he wants to "liberate."

"Make us a free city!" scoffed Dieter Krause, 48, a tough, ham-fisted construction worker who has lived in what is now West Berlin all his life.

"Let him liberate the East Germans first. We don't want any more Russians here, and we don't need any liberation."

Krause, like most West Berliners, took little notice of Khrushchev's visit to East Berlin. Very few took the trouble to take the 5-cent subway or elevated ride across the city's "little iron curtain" to see him.

Those who did were either Communists themselves, a tiny minority in West Berlin, or curiosity seekers who wanted a look at communism's No. 1 man.

Movie More Interesting
"Couldn't be bothered," was the comment of Gerda Neumann, 20, a sales assistant who said she was more interested in seeing the American film "Cat on a Hot Tin Roof" now playing at a downtown movie.

Throughout all of Khrushchev's visit the bustling, brilliantly neon-lighted Kurferstrasse, the city's Broadway and Fifth Avenue combined, was jammed every

Teen-Ager Is Charged

William G. Morse Jr., 18, one of three teenage Pampa boys arrested early Wednesday, was charged Thursday with theft under \$50 in Hutchinson county court.

Under questioning by Pampa police Morse admitted he took part in the theft of 10 tubcaps and three sets of fender skirts Wednesday night at Berger.

With Morse at the time were James F. Pitcock, 17, and a cousin of Morse, age 16. Pitcock is expected to be filed on today at Berger.

Police Chief Jim Conner said the threesome also admitted taking two cases of empty soft drink bottles and stole gasoline in Pampa earlier this week.

An corporation court here Thursday Morse and Pitcock were each fined \$15. The 16-year-old will be brought before Juvenile Judge William Craig.

PHS Girls Seen On NY TeeVee

JOHN THOMPSON and Anne Triplephorn, both of Pampa, appeared on the Dave Garroway Show this morning, televised from New York City, New York. The Pampa High School girls are attending a meeting of the Columbia Scholastic Press Association at Columbia University.

Leaving Pampa Friday with Miss Elizabeth Hurley, public relations sponsor, the girls stopped in Washington, D.C. before going to New York for the meeting Thursday. They are expected back in town Monday.

Miss Thompson is editor-in-chief of the Little Harvester, Pampa's high school newspaper. Miss Triplephorn edits the Harvester annual.

Edmondson Named District IX Veep

L. J. Edmondson, principal of Pampa Senior High School, was named first vice president of District IX of the Texas State Teachers Association Thursday. The election took place at a House of Delegates banquet opening the District TSTA Convention.

The first general session of the convention began at 9 a.m. today with an address by Dr. James H. Jauncey, pastor of the E. P. A. S. O. First Christian Church and former engineer at the National Scientific Project, White Sands, N.M.

Dr. Jauncey came to the United States from Australia in 1948. He holds ten academic degrees, earned at universities in Perth and Melbourne, Australia; London, England; and Berkeley, Calif.

During World War II, he served as a technical advisor to the Australian government. He has also been head of the department of science and mathematics at Kings College Australia.

Coming to the U.S., Dr. Jauncey served on the faculty of California Baptist Seminary and as an engineer at the White Sands Base. He was appointed to his present pastorate in 1958. He has published over 100 magazine articles. Twenty-nine sectional meetings (See EDMONDSON, Page 3)

Watch \$1,000 Watch Is Missing

A Swiss calendar wrist watch, valued at between \$1,000 and \$1,200, was reported lost this morning to Pampa police.

The watch was either mislaid or taken from the O. B. Cree Sr. home at 1100 Mary Ellen, according to Raymond Reib of Abilene, a son-in-law of Cree. Reib, living at the Cree home while the Crees are vacationing, said the watch was in his care while the Crees were absent from Pampa.

He said he laid the watch on a dresser, went to sleep, and sometime during the night it disappeared.

The watch was recently returned from a repair shop to Cree's downtown Pampa office. Reib claimed the watch and said he was holding it "for safekeeping."

He described it as having a large, round face and fastened with a yellow gold band.

William G. Morse Jr., 18, one of three teenage Pampa boys arrested early Wednesday, was charged Thursday with theft under \$50 in Hutchinson county court.

See Today's Editorial Page for Labor Series

First of a series on employer-employee relations and related economic and moral issues is starting today in the Daily News.

The series consists of questions and answers in a Socratic discussion between Frank Buck, a long-time union member, and R. C. Holles, president of Freedom Newspapers. The discussion was developed by the two under the Socratic system which requires each person to answer questions briefly and without evasion.

The current series consists of Holles' answers to Buck's question. Later Buck has consented to answer Holles' questions.

Buck for 15 years was a union carpenter, although he is not now engaged in that occupation. He lives in Westminster, Calif. His wife is president of the Rubber Workers' Union of Garden Grove, Calif.

Both Buck and Holles believe there will never be a way of striving at wages fair equally to employer, employe and customer which will result in an ever-increasing standard of living until more people understand the cause of unemployment and the things which bring about unemployment. They contend this is true because if people do not understand these principles, laws will be enacted which will prevent these desirable objectives from coming to pass.

The series will consist of a number of installments, the first of which can be found on today's editorial page.

Teen-Ager Is Charged

William G. Morse Jr., 18, one of three teenage Pampa boys arrested early Wednesday, was charged Thursday with theft under \$50 in Hutchinson county court.

HONOLULU (UPI) — A huge bonfire reddened the sky over Honolulu Thursday night and there was dancing and singing in the rain-dampened streets to celebrate congressional approval of the bill making Hawaii the 50th state.

While thousands squirmed their way through crowds in Waikiki and elsewhere around the island to enjoy the planned festivities, other thousands clogged the streets and highways with their autos as sightseers, making it impossible for other thousands to reach their destinations to join in the fun.

Military planes and helicopters flew over Waikiki dropping multi-colored flares, ships offshore fired off stately salutes. Huge search lights stabbed through the skies, adding a "circus" atmosphere to the night.

But for some reason there was little exultation in the air. Things were "not too merry"—noisy enough, but it lacked the Marly Gax spirit somehow. People seemed to be out and about because it was the thing to do. Maybe it was because there were more people driving around looking than those who were getting out and doing something.

The rains may have had something to do with shaking enthusiasm. But to true Hawaiians the light showers and misty skies were a good omen. Anything launched under such conditions, to them, augurs well.

There were smiles everywhere. Traffic jams were laughed at and patiently waited out.

Today the celebrating will go on. All government workers and most employes of civilian establishments along with school children have been given the day off as a statehood gift. The big event will be entertainment staged in Honolulu Stadium where the seating capacity will be increased to handle 30,000 persons if they can find places to park their cars.

GRAND JURY GETS 11 CASES

Eleven cases will go before the Gray County Grand Jury today, District Attorney Bill W. Waters reported.

The jury, which went into session at 10 a.m., will consider five burglary cases, three second offense DWI cases, and one for indecent exposure.

Jury foreman is F. E. Imel of Pampa.

Watchit, It's Friday The 13th!

By RICK PEZDIRTZ
Daily News Managing Editor

It's triple jeopardy, that's what it is. Or maybe it's just this silly inflating business.

Anyway, you can batter down the hatches, crawl under the bed and stay there until tomorrow. Today is Friday the 13th.

Impossible, you say? Why it was Friday the 13th last month. All true, and it will be Friday the 13th a third time this year—in November. And last year there was only one of those black bad luck days.

This may signal the start of federal aid to the superstitious. If you missed out on bad luck last month, you have the rest of today and the November date to make good. Of course the government has nothing to do with the policy-making part of the calendars. But since they will be blamed for it anyway, let us be the first to issue storm warning for this Fierce Friday.

Friday and 13 just don't go good together. Their marriage has never worked out to benefit anyone. One is bad, and the other is worse, but the two together...

There are, of course, many superstitions connected with the 13th.

One man in Los Angeles glues an English half penny over his navel every Friday the 13th to keep from getting run down from a truck. However, in reality, the only good thing that will come from his scheme is it will prevent him, on that day, from getting smog in his belly button.

Many people still believe a young man or woman can find out the name of the person they will someday marry only on Friday the 13th by putting in a white of an egg in their mouth. The egg white is not to be swallowed, but to be swished around as the person steps

outside. The first name he or she hears (unless somebody mentions Judas Priest) — that will be it.

Hunters from all parts of the world believe only a bittern's claw worn around the neck or fastened to the hunting jacket will bring luck. However, if a live bittern should fly over, they usually dig out a lawyer and make out a quick will.

It's hardly to know just these are a few of the things connected with Friday the 13th. Doesn't the LaNora Theater on N. Cuvier in Pampa always line up a double-barreled horror show (Tonight's little gems are "Night of the Blood Beast" and "The Gods of Shark Reef" starting at 10 p.m.)

Also, still on the good side of Friday the 13th, suppose for instance you are afflicted with blackheads. This is the day to go out and find yourself a hyacinth that is shaped like a witch, with both ends rooted in the ground.

While the sun is directly overhead crawl through the bramble on your hands and knees three times. Your blackheads will disappear. The scratches from the bramble should heal in some three or five weeks.

Friday the 13th is also the proper day to drill a hole in a penny. Then, so long as you carry that coin in your pocket, you will always have money. Makes sense, too.

Writing in a 1953 issue of the New York Times magazine, Arthur Gelb supplies information about superstitions surrounding the number 13.

"Any Friday, the 13th," he says, "it is estimated, 60,000 of this nation \$250,000,000 in business lost." The reasons, he lists, include the fact that some people just won't work on that day, some businessmen won't invest, and business signs won't eat in restaurants, and, some won't go shopping, go to movies, or get married.

Such persons, Mr. Gelb says, are victims of "triskaidekaphobia" — or fear of the number 13. Who wouldn't be afraid with a name like that?

Triskaidekaphobia is so widespread that in the United States some of the most popular hotels have no 13th floor.

Some men and women, scoff at this fear of 13 and go right on with their day-to-day living.

London, according to Mr. Gelb, once had a Thirteen Club in which its diners always had 13 persons attending, all waiters were cross-eyed, and all members smashed mirrors and spilled salt between courses.

A similar group was formed in the United States in 1946. This club encouraged black cats to attend its luncheons.

At any rate, it's probably safe to go about your business today. That is, if you're not superstitious.

New Spudnut Shop Opens Tomorrow

Another shop in the rapidly growing system of Spudnut Shops formally opens tomorrow in Pampa, according to Lloyd and Louis Reyher, owners and operators. This is the first Pampa Spudnut Shop in the Coast-to-Coast system, now with nearly 400 dealerships throughout the nation. Each shop is individually owned and operated under franchise arrangement with Pelton's Spudnuts, Incorporated, of Salt Lake City, Utah.

"An outstanding feature of our opening," said Lloyd and Louis Reyher, "will be free Spudnuts and Coffee all day. We'd like everyone in Pampa to drop in and consider this a personal invitation to come into our shop during opening day and try Spudnuts, because they're truly 'America's finest food combination.' A new and exciting taste thrill for every member of the family. "Except for physical appearance," he continued, "Spudnuts have no relation what ever to other similar-shaped products. Spudnuts are a special blend of finest wheat flour, powdered whole eggs, specially-prepared potatoes, milk solids and other vital ingredients — all mixed and blended perfectly to the secret Pelton formula.

"Among the many Spudnut Varieties Pampa residents will find are Spud-Over Fruit Pies — a deep-cooked fruit turnover with a light flaky crust, plumply filled with a choice of several delicious fruits; Spudnut Persians, crispy in tangy cinnamon layers with tasty frosting — an exciting array of what we think are the nicest-looking and best-tasting pastries we've ever seen."

The Spudnut formula was developed in Salt Lake City by Al and Bob Pelton. From one small shop in 1946, the system now extends across the country and into Canada, Alaska, with more units opening every week. This, according to Lloyd and Louis Reyher, proves the goodness of Spudnuts more powerfully than the strongest advertising campaign, because after millions of dozens of Spudnuts sold, the first Spudnut customers still come back for more!

The new Pampa Spudnut Shop is located at 1425 North Hobart.

Boat Club Seeks Pretty Area Beautys

The Panhandle Boat and Ski Club will conduct a regional beauty contest in connection with the boat show April 10th to 12th, Tri-State fair grounds Amarillo, Texas.

The winner of this contest will be awarded an expensive free trip where she will compete for the title of Miss Texas. Miss Texas then will compete for the title of Miss Universe.

Entries are solicited by the Boat Club from the entire Panhandle area. Those living in cities outside of Amarillo may obtain entry blanks and rules from their local newspaper or college.

The completed forms must be returned to Mrs. Johnny Foster, the Beauty Contest chairman. She may be reached by dialing DR-3-6379 Amarillo, or writing Panhandle Boat and Ski Club, Box 7073 Amarillo, Texas. The contestants must be born prior to July 1, 1941 and must not be married. They must be a resident of Texas a minimum of six months prior to June 16th, 1959 and may enter only one Miss Universe contest this year.

Contestant must be of good health and good character. Each young lady will be judged on beauty of face and figure, charm, poise and personality. The Panhandle area winner will receive free transportation to and from Lake Whitney and have first class accommodations and meals. The Boat Club urges all young ladies interested to get their entry blanks in as soon as possible.

Iraqi Air Force Supports Kassem

By PHIL NEWSON
UPI Foreign News Editor

CAIRO (UPI) — Whoever holds Baghdad holds Iraq.

There is little surprising in the Iraqi revolt. The only surprise is the matter of timing. The lighted fuse finally reached the powder keg.

But the point now is that Premier Abdel Karim Kassem holds Baghdad and has the air force to back him. Col. Abden Wahab Shawaf's second division may be the most powerful in Iraq, but as far as is known here, it has no air support and has more than 300 miles between it and Baghdad. Baghdad remains the military key, despite the obvious economic value of the oil fields, presumably in rebel hands. The proof lies in the military preparations against the revolt Kassem long expected.

Military Situation Obscure
The newly-created fifth division screens the city, while the third division, led by Kassem in the revolt against King Feisal, is stationed a few miles to the north. All, including the air force, apparently are loyal to the regime.

The actual military situation in Iraq remains obscure, with the only known facts that the borders are generally closed to air, sea, and road traffic and all foreign road traffic and all foreign-

ers in Baghdad are warned to stay off the streets to prevent a repetition of last July's bloodshed. Conflicting claims of the Baghdad and rebel Mosul radios reduces it to a propaganda war whose outcome no one is yet willing to predict.

The important Mideastern radios still are noncommittal and most Mideast nations are bending backwards to avoid predictions or taking sides.

However, the outbreak was as predictable as the time and tides and may determine the whole course of Mideastern events. Kassem, an obscure brigadier at the time of the July revolt, now is a man who wants to stay in power. He is considered non-Communist but may have gone so far in surrounding himself with Communists that it is impossible to withdraw.

The Baghdad police are Communist controlled and the air force is in charge of a man with known Communist sympathies.

In fact, some Mideastern sources say that Kassem is a prisoner of his own brigades in Baghdad and would be killed if he attempted to leave the capital.

Whatever the outcome of the present outbreak, there is no doubt that the results will be judged as a victory or defeat for Communism in the Middle East.

WHISKERED UP — With bushy beards and happy grins, these Donegal Club members of Shamrock are ready for Monday and Tuesday's annual St. Patrick Day celebrations. The event is expected to lure many outside visitors to Shamrock.

DICK POWELL HOSPITALIZED

SANTA MONICA, Calif. (UPI) — Dick Powell, teen-age crooning idol of the 1930s turned actor and director, was in St. John's Hospital today for treatment of bronchitis.

The 54-year-old Powell, husband of actress June Allyson, was reported in very satisfactory condition after being hospitalized Wednesday. Doctors said he would be released in a few days.

Pvt. JOHN KNOLL ... ends training

Knoll Completes 8-Week Course

FORT GORDON, Ga. (SpI) — Army Pvt. John D. Knoll, son of Mr. and Mrs. Joe A. Knoll, Route 3, Shamrock, Tex., recently completed eight weeks of military police training at The Provost Marshal General's School, Fort Gordon, self defense and the basic procedures of civil and military law. He entered the Army last September and completed basic combat training at Fort Carson, Colo. The 22-year-old soldier is a 1954 graduate of Samnorwood High School, attended Clarendon Junior College and was a rancher before entering the Army.

Kennedy Not Typical As Congressman

Personality Spotlight
United Press International

ROBERT F. KENNEDY
Rackets Committee Counsel

Robert F. Kennedy, chief counsel of the Senate Rackets Committee, is not a typical congressional employe. For one thing, he probably is the only capitol job-holder whose photograph is coveted by bobby-soxers. It is nothing unusual for one or more teenage girls to descend upon him with pad and pencil at the end of a committee hearing.

These youthful admirers might be surprised to learn that Kennedy has at home six children, ranging in age from one to seven. They might also be startled at how much more his autograph would be worth if it were affixed to a check.

Kennedy owes his status as one of the few millionaires on the congressional payroll to his father, Boston financier Joseph P. Kennedy. His original employment came about as a result of his brother's patronage, the brother being Sen. John F. Kennedy (D-Mass.).

Scourge of Racketeers
But his reputation as the scourge of labor racketeers is his own.

At 33, Kennedy, who is not much bigger than a Little League shortstop, still has the athletic trim acquired as an end on the Harvard football team. He keeps a pigskin in his office, possibly as a reminder of those glory days. Despite his New England background, there is nothing Ivy League about his appearance. He goes about the Senate Office Building with sleeves rolled up, collar unbuttoned and necktie askew.

This usually is the sign of a hard worker, which Kennedy is. He puts in long hours and when public hearings are held the witnesses, often to their discomfort, soon find out that he has done his homework.

While firing questions, Kennedy is as persistent as a wire-haired terrier worrying a bone. He leans into the microphone, a mop of sandy hair swooping down over his forehead in a sort of reverse cowlick.

Easily Amused

If the answers don't satisfy him, he occasionally flops back in his chair in disgust. At this point, Chairman John L. McClellan (D-Ark.) usually takes over the questioning.

McClellan also takes over when Kennedy, who is easily amused, becomes too tickled to talk.

The hearings that Kennedy seems to enjoy most are those involving the underworld, as in the current juke box investigation. He is fascinated by underworld nicknames.

If Chicago mobsters Jake Guzik or Sam Hunt are mentioned in the testimony, Kennedy unfailingly points out that they carried the colorful sobriquets of "Greasy Thumb" and "Golf Bag."

Boat Club Seeks Pretty Area Beautys

The Panhandle Boat and Ski Club will conduct a regional beauty contest in connection with the boat show April 10th to 12th, Tri-State fair grounds Amarillo, Texas.

The winner of this contest will be awarded an expensive free trip where she will compete for the title of Miss Texas. Miss Texas then will compete for the title of Miss Universe.

Entries are solicited by the Boat Club from the entire Panhandle area. Those living in cities outside of Amarillo may obtain entry blanks and rules from their local newspaper or college.

The completed forms must be returned to Mrs. Johnny Foster, the Beauty Contest chairman. She may be reached by dialing DR-3-6379 Amarillo, or writing Panhandle Boat and Ski Club, Box 7073 Amarillo, Texas. The contestants must be born prior to July 1, 1941 and must not be married. They must be a resident of Texas a minimum of six months prior to June 16th, 1959 and may enter only one Miss Universe contest this year.

Contestant must be of good health and good character. Each young lady will be judged on beauty of face and figure, charm,

poise and personality. The Panhandle area winner will receive free transportation to and from Lake Whitney and have first class accommodations and meals. The Boat Club urges all young ladies interested to get their entry blanks in as soon as possible.

Lions Reminded Of Minstrel Music

Pampa Lions turned the spotlight on youth at their noon meeting Thursday and there never was such an enjoyable program. A group of articulate Girl Scouts shared the program with the Capella Choir from Pampa High School.

Some horseplay surrounded the inauguration of Judy Wells as March Sweetheart. The Lions could hardly contain themselves when they heard that their new sweetheart is Harvester Basketball Queen, Fat Broadbent. February Sweetheart, thanked the Lions for all the good meals and fine times of the month.

Leon F. D. Montgomery presented certificates to Nancy Bates and Mike Ludeman as the high ranking junior boy and girl of the past six week marking period. Ludeman attained an average of 95. Miss Bates' score was 94.20.

A Girl Scout Week program was presented by three Girl Scouts, Linda Sue Allen, Linda Belmont and Mrs. Joe Wells. They were introduced by their troop leader, Mrs. Joe Wells.

The Capella Choir, under William A. Hunt's direction, fairly sparkled in selections from "My Fair Lady," not to mention two Negro spirituals, "Nobody Knows the Troubles I've Seen" and "Set Down, Servant." Members of the All-State Choir appeared as soloists. The All-Staters are Clo Ann Johnson, Barbara Lunsford and John Campbell.

The crowning piece was a sample of "The King and I" enlivened by the interpretive dancing of Anita Guidry.

The singers received a Lions sized compliment when they were reminded that the Minstrel chorus rehearses Monday and Thursday nights. Tickets for the annual

Metal Shop Work Begins

Construction began Thursday on a new metal and vocational agriculture shop at Pampa High School. This is the fourth project begun under a \$1,250,000 bond issue voted for improvements in the Pampa Public School System.

The fifth and last project will involve demolishing the red brick schoolhouse on the campus of Pampa Junior High School and setting up band and cafeteria facilities in the main building.

The new shop building is under construction on Decatur, northwest of the Harvester Fieldhouse. Construction is progressing satisfactorily on new William B. Travis Elementary School, on a two-story addition to Pampa High School and on an addition to B. M. Baker Elementary School, according to Pampa School Superintendent Knox Kinard.

Overton Named To Staff Of Legal News

DALLAS (Sp) — Todd H. Overton of Pampa has been named to the editorial staff of the Legal Center News, according to officials of the Southern Methodist University School of Law.

Overton, son of Dr. and Mrs. M. C. Overton, Jr., is a first-year law student. A 1955 graduate of Pampa High School, he received a B.A. Degree from Texas Christian University where he was a member of Delta Tau Delta, the Rodeo Club, and was active in intramurals.

He will serve as a member of the editorial staff for the quarterly publication which reports activities of the law school, SMU Law Alumni Association, and the Southwestern Legal Foundation.

Pampa Boy Is Admitted To Children's Hospital

DALLAS (Sp) — Jimmy Don Spence, 6-year old son of Mr. and Mrs. F. D. Spence of Pampa, has been admitted to the Scottish Rite Hospital for Crippled Children in Dallas.

Thirty-five years ago, Texas Scottish Rite Masons founded the hospital, dedicated to an effort to provide a chance at a normal life for the handicapped child. Since 1952, more than 100,000 children have been admitted for treatment to the hospital, which is supported by public contributions and bequests.

Expertly staffed, unusual physical facilities and devoted interest in the individual, make the Scottish Rite Hospital an outstanding treatment center serving the entire state.

Lions Have Girl Scout Program

Three Girl Scouts of Troop 50 presented an original program to the Pampa Evening Lions Club Thursday. Their theme was International Friendship Day, which is part of the current Girl Scout Week observance.

Earlier, Robert Hamilton, roaring Boss Lion, appointed three committees. "Speck" Riley will head the Queens Committee and, assisted by B. G. Gordon, will be responsible for selecting a worthy young woman to represent the Evening Club in a District Queens Contest.

Byron St. Clair will head the Convention Committee, assisted by Don Horton. The men will make plans for participation in the District 27-1 Convention in April.

Finally, three men were appointed to a nominating committee for new officers. The committee is composed of Dr. Phil Gates, D. V. Biggers and Ed Anderson.

The Girl Scouts appeared in the uniforms of American, English, and Swiss Scouts. Participants were Bruce Ann Gordy, Switzerland; Susy Benton, England; and Kiona Dugan, United States. They were presented by their troop leader, Mrs. John Ramsey.

Grass Fires Continue Here

The recent rash of grass fires in Pampa continued Thursday with the outbreak of three additional minor grass blazes, Pampa firemen reported.

Grass burning Thursday afternoon near the home of J. L. Nance, 1312 Russell, spread to the Nance home and did minor damage to one side of the dwelling. The blaze was stifled after it spread inside one wall.

At 1:20 p.m. youngsters smoking started a small grass fire near the C. B. Rogers home at 2239 N. Russell. Firemen reported no damages.

In the early evening, at 6:05, a grass fire that sprang up east of Fairview cemetery did no reported damages. The cause was unknown.

Well-Known Rancher Dies

DALHART, Tex. (UPI)—The body of W. G. (Bill) Culbertson Sr., internationally known cattle baron whose holdings spread over Texas, New Mexico and Colorado, lay in state today. He died Wednesday at the age of 77.

For years he was known as the world's largest breeder of registered Herefords, featuring the Prince Domino and Domino Beau Actor strains.

Culbertson and a former partner, R. S. Dick Coon, developed a new beef animal resistant to tick fever by crossing Brahman bulls with Hereford cows. The strain became known as the "Bradford."

He got his start with the old XIT association, known as the "world's largest ranch under fence," and later became its president. The state of Texas traded three million acres to the association for the construction of the pink granite Capitol at Austin.

After buying out Coon, he formed the Culbertson and Sons ranch with headquarters in Dal-

Purse Snatched From Automobile

A black leather purse containing about \$17 was taken from a parked car in front of the Empire Cafe shortly after midnight today, police reported this morning.

Edna Keltner, 934 1/2 E. Francis, said her purse was taken while she was having coffee inside the cafe at 115 S. Cuyler.

In addition to money Mrs. Keltner said the purse contained her marriage and drivers licenses.

Motorists Get Wrong Papers

Two Gray county motorists picked up "the wrong papers" at the county tax office while buying their 1959 Texas plates. County Assessor Jack Back reported Thursday.

Back asked that the two motorists contact his office for "the right papers." The assessor identified the motorists as having 1959 plates, AU-404 and AU-474.

Half Loaf Of Bread Is Not Better For The French, Who Prefer It To Cake

By NEA SERVICE
PARIS (NEA) — Half a loaf may be better than none to the average American housewife, but not to the women of France. They want a whole one — and fresh, too.

Bread, all sizes and shapes, is an important feature, an essential one, to the French meal. Apart from tradition, bread is the one cheap staple they can count on in a high-priced economy.

Not long ago the French government was jolted by a "bread revolt" that spread through the country. At the time, bakers demanded a one-franc-per-pound increase in the government-controlled price of bread. When they were refused, ovens all over France cooled.

NEAR-PANIC followed the bakery shop strike, hitting the French where it hurt most — on the supper table. Long lines formed for the little bread that was rationed.

At the time, bakers demanded a one-franc-per-pound increase in the government-controlled price of bread. When they were refused, ovens all over France cooled.

NEAR-PANIC followed the bakery shop strike, hitting the French where it hurt most — on the supper table. Long lines formed for the little bread that was rationed.

At the time, bakers demanded a one-franc-per-pound increase in the government-controlled price of bread. When they were refused, ovens all over France cooled.

course of history probably was influenced by bread. When a hungry crowd gathered one day before the Palace of Versailles they were greeted by Marie Antoinette's surly remark, "Let them eat cake."

NOT A RACE to substitute cake for bread, the French revolutionists responded by cutting off the heads of Marie and King Louis XVI, and a republic was born. The French scientist Parmentier in 1772 wrote at length about the merits of bread — confirming what every Frenchman knew even then. He said:

"Bread is suitable to every time of day, every age of life, and every temperament. It improves other foods. It is so perfectly adapted to man that we turn our hearts to it almost as soon as we are born, and never tire of it."

Modern-day Frenchmen have been known to say it another way: "A meal without bread is like a woman without a smile."

prohibits the use of preservatives in the loaves, so the bread must be eaten the same day it is made or it becomes hard as a rock.

Although there is little difference in taste, French bread is found in every possible shape. Some loaves are pencil thin, others are as big as barrel tops. One of the most popular designs is a doughnut-shaped loaf, perfect for slinging over the handlebars of a bicycle.

FRANCE EATS more bread per person than any country of the world. The annual consumption in Paris alone equals all the timber in the big forest parks of Boulogne and Vincennes — nearly half a million tons.

On this tasty bread Parisians yearly spread enough cheese to equal the columns of the Arc de Triomphe — 43,000 tons.

For the French homemaker, choosing bread each morning for the day's table is as important as brushing her teeth. A trip to the local bread store — usually only a few doors away — is made just at the moment she knows the bread is coming hot from the ovens.

In the bakery, a gentle squeeze of the loaf assures her of its freshness, the price is paid, and the ritual is complete except for the eating.

Scholars may doubt it, but the

Modern-day Frenchmen have been known to say it another way: "A meal without bread is like a woman without a smile."

prohibits the use of preservatives in the loaves, so the bread must be eaten the same day it is made or it becomes hard as a rock.

Although there is little difference in taste, French bread is found in every possible shape. Some loaves are pencil thin, others are as big as barrel tops. One of the most popular designs is a doughnut-shaped loaf, perfect for slinging over the handlebars of a bicycle.

FRANCE EATS more bread per person than any country of the world. The annual consumption in Paris alone equals all the timber in the big forest parks of Boulogne and Vincennes — nearly half a million tons.

On this tasty bread Parisians yearly spread enough cheese to equal the columns of the Arc de Triomphe — 43,000 tons.

For the French homemaker, choosing bread each morning for the day's table is as important as brushing her teeth. A trip to the local bread store — usually only a few doors away — is made just at the moment she knows the bread is coming hot from the ovens.

In the bakery, a gentle squeeze of the loaf assures her of its freshness, the price is paid, and the ritual is complete except for the eating.

Scholars may doubt it, but the

course of history probably was influenced by bread. When a hungry crowd gathered one day before the Palace of Versailles they were greeted by Marie Antoinette's surly remark, "Let them eat cake."

NOT A RACE to substitute cake for bread, the French revolutionists responded by cutting off the heads of Marie and King Louis XVI, and a republic was born. The French scientist Parmentier in 1772 wrote at length about the merits of bread — confirming what every Frenchman knew even then. He said:

"Bread is suitable to every time of day, every age of life, and every temperament. It improves other foods. It is so perfectly adapted to man that we turn our hearts to it almost as soon as we are born, and never tire of it."

Rebekahs Plan Formal Initiation
SKELLYTOWN (SpI) — Mrs. Fred Wall, noble grand, directed a meeting of the Rebekah Lodge recently in the IOOF Hall. Those reported ill were Eula Berry, Dora Wedge, Hardy Boyd and Ted Hoff. Twelve sick visits were made and seventeen cards were sent.

Mrs. Al Shubring reported on the Rebekah Lodge trustee's meeting with the Subordinate lodge and gave the financial report. Mrs. Ross Neugin announced there would be an all-day meeting of the Debra Club on Friday. It was also announced that a formal initiation will be held at the next meeting.

A salad supper was served to Mrs. Fred Anderson, Walter Casey, Fred Genell, H. W. Elvess, W. H. McBe, Fred Wall, Rose Neugin, Nadine Hill, R. E. McAllister, R. C. Heaton, C. M. Estes, Everett Crawford, Clayton Hanna, Frank Carpenter, Roy Sullivan, J. W. Wyatt, Al Shubring, Miss Addie Fern Lick, and Messrs. Bob McKernan and J. W. Wyatt.

A Word About... The Girl Scouts

It's becoming very fashionable these days to complain that American youth is not as vigorous or hard working as youth behind the Iron Curtain. Today, on the 47th anniversary of Girl Scouting in the United States, we would like to point out that many youngsters in Girl Scouting and in other youth groups are learning to grow up as alert, self-disciplined and useful citizens.

Last year, for example, a 17-year-old Girl Scout won a national science award for her individual research work in astronomy. While not many Girl Scouts are likely to become astronomers, more than three and one-half million Girl Scouts are learning how valuable our freedoms and traditions are. Even more important, they are learning that a democracy depends on citizens who are willing to serve their communities.

The Girl Scouts are celebrating their anniversary this year with the theme, "You Can Count on Her to be Creative." Special emphasis is being given to arts, homemaking and service projects because the Girl Scouts believe that it is essential for every youngster to develop self-confidence and initiative as well as specific talents. This is a very different kind of youth program than those behind the Iron Curtain and one that all of us can be proud of.

We think the men and women who serve as volunteers in the Girl Scouts and in other youth

groups should be congratulated. They are not only helping youngsters, they are serving their country as well.

By Abigail Van Buren

DEAR ABBY: If I told you all that was wrong with my husband that would close down the paper. My biggest complaint is that he is stingy. He counts his money three times every night before going to bed because he thinks I might get up at night and pick his pockets. I want a store permanent for Easter so I had to borrow eight dollars off my mother. I can drive a car but he never lets me. He takes me anywhere I have to put in a dollar for gas. He calls me "stupid" in front of the children, doesn't believe in Life Insurance and off and on he acts like a single man. Please tell me what to do.

DEAR ABBY: We are having the worst time with our twelve-year-old son. He shows a great talent for music. He can go to the piano and pick out a tune and he even plays the drum in the school band after only a few hours of coaching. Our problem is that we want to give him piano lessons but he doesn't want to take piano. He wants to take guitar. My husband says a guitar is no musical instrument and he isn't throwing out good money on that Hill Billy nonsense. I say let him take piano for a few years and then we'll give him a guitar. I'd like your opinion.

MOTHER: The guitar is a musical instrument — and a good one. If your son wants guitar lessons — give him guitar lessons.

CONFIDENTIAL TO MAUREEN: One whisker doesn't make a beard. Give him another chance and get off his back.

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

DEAR WORRIED: You cannot get a written guarantee that these people will dress properly; neither can they be assured that YOU will dress properly. Farmers know what "formal" means so don't count your chickens before you catch the rooster.

DEAR ABBY: I came home from school and told my Grandmother that I gave my bus driver a picture of me. He is in his forties and is married to a very nice woman. Grandma said I should get the picture back. I said I gave him the picture, and said I gave him the picture as a person who had ridden his bus. If my Grandmother is right I will ask for the picture, although I can see no harm in him having it. Do you think I should ask him — I am 14 and the picture was wallet size.

BUS RIDER: Since you already gave him the picture, let

Sam Houston PTA Names Mrs. Cornutt As President For 1959-60 School Year

Jeff Bearden reported for the nominating committee at the Sam Houston PTA's Father-Night on Thursday in the school auditorium. The nominating committee composed of Mrs. Theima Bray, Jeff Bearden and Bob Sidwell submitted the following slate of officers for the 1959-60 PTA year: Mrs. J. T. Cornutt, president; Joe Fisher, vice president; Jane Benton, secretary; Chris Walsh, treasurer; Don George, historian; Rex Rose, parliamentarian; Murray Sealey and Julian Key,

Higher Levels Will Be Seen In Market

Wall Street Chatter

NEW YORK (UPI) — Bache & Co. holds that the market's refusal to back away in the face of adverse developments indicates higher levels are to be witnessed.

International Nickel, aided by higher copper prices and a bright outlook for nickel, should show a substantial advance in 1959 over the \$2.90 estimated share earnings for 1958, says Alfred L. Vanden Broeck & Co.

Reynolds & Co. says current prospects are promising for Hart Schaffner & Marx whose 1958 net declined to \$4.17 a share from \$4.33 in 1957.

Hayden, Stone & Co. lists 10 stocks it says still seem undervalued on a statistical and technical basis: National Sugar, Pullman, Newport News Shipbuilding, Texas Gulf Sulphur, ACF Industries, Dresser, American Seating, United Aircraft, Yale & Towne, and Sunray.

Standard & Poor's lists seven stocks at which it calls marked down prices: American Electric Co., CIT Financial, Commercial Credit, Federated Department Stores, First National Stores, Lehigh Portland Cement, and Pittston Co.

Walston & Co. also publishes a list of stocks with depressed prices which may have speculative potential. These include Libby-McNeill, Chemetron, General Precision, Great Northern Paper, Tidewater Oil, Wheeling Steel, Rayonier, Anaconda Wire & Cable, Chrysler, Koppers Co. and Diamond-Gardner.

HIGH AND WIDE—Worker checks a new "high and wide" flatcar carrying towering electrical transformers from Harrisburg to Pittsburgh, Pa. Increasingly heavier and bigger industrial loads have led to new trains, designated HW (high and wide), which cut the four-day trip between the two cities to one day. The Pennsylvania Railroad trains dodge from one track to another to pick up the best clearances. They carry shipments up to 17 feet, 2 inches high and as much as 9 feet, 3 inches wide at the top, a big increase.

Remnant Of Anti-Semitism Afflicts German Conscience

Foreign News Commentary

By PHIL NEWSOM UPI Foreign News Editor

FRANKFURT, Germany (UPI) — A ghost of Germany's past has come back to haunt the people of Germany.

German courts are not exactly full these days of cases involving anti-Semitism, but there are enough of them to disturb both government and Jewish leaders alike.

There is not even proof that there is more anti-Semitism here than in many other places in the world. But because of the past, the recent rash of anti-Semitic occurrences in West Germany has sent a chill up the German spine and brought new guarantees from Chancellor Konrad Adenauer.

Adenauer, in an interview with West Germany's only Jewish newspaper, declared that the German people had reacted with disgust to events of the Nazi era and that this fact could not be invalidated by isolated acts of anti-Semitism.

Will Not Repeat Policy He added that the policy of the Nazi regime toward the Jews had brought disgrace on "all of us" and would not be repeated.

Adenauer's reference was to the six million Jews who died in the gas chambers or by worse means under the regime of Adolf Hitler, and to the government's present determination to re-integrate West Germany's remaining 30,000 Jews into West German life.

Most West Germans seem to approach the problem today with the grim fascination of a man drawn irresistibly to the edge of a cliff. He doesn't want to go there, but he does anyway.

There is no chance that the West German will be allowed to forget the atrocities of the Hitler regime. In the pleasant little town of Dachau a few miles from Munich, the gas-chambers still stand as a grim memorial, as do others throughout Germany.

Laws Against Anti-Semitism Written into the constitution of the West German republic are

laws against anti-Semitism.

And the laws are enforced. Here are a few recent cases:

A Bavarian sanatorium attendant who said he'd volunteer for duty in death camps if they were reopened — three months in jail.

A textile salesman who said that the Jews should be wiped out — seven months in jail.

Two officials in the state of Hesse, reparations office, who allegedly sang anti-Semitic songs and made anti-Semitic statements in their office — suspended from their posts pending investigation.

A Frankfurt state's attorney who allegedly made anti-Semitic remarks — suspended pending investigation.

A teacher who cast doubt on the authenticity of the Anne Frank diaries — suspended pending investigation.

These cases, and others like them, tend to throw a harsher light on events here than elsewhere where there are no such laws. There are those here, including some Jewish leaders, who believe that so much attention may only encourage other incidents.

Others feel that even stronger counter-measures should be taken and that new means should be found to impress upon a new generation of German youth the inhumanity and ultimate failure of Nazism — that today's nightmare from yesterday should not become the reality of tomorrow.

How many coats? — On new wood, a coat of primer and two finish coats are often used. The primer is important because it seals the pores of a surface and prevents uneven absorption of final coatings. When repainting a painted surface in good condition, one coat is often sufficient. Where the old paint is thin, two coats may be necessary.

Allow the primer coat to dry about three days in fair weather and four days in humid weather. Finish coats should be applied generously, then brushed out. When two finish coats are applied, allow 48 hours between coats.

It is important that finish coats be put on promptly after the primer has thoroughly dried, and before chalking begins.

Brushes—The homeowner will usually require a 2 1/4 inch brush for large areas, a 2 1/2 inch brush for shutters, windows and door trim, and a 1 1/4 inch oval brush or sash tool for painting window sash and moldings. Remove loose bristles from a new brush by striking its flat side against your palm. Condition the brush by soaking it in linseed oil for a day or two.

Paint—There are different kinds of paint for different surfaces. Consult your local dealer who will take into account what you're going to put the paint on and the effects of weather in your locality. Figure a gallon of finish paint will cover 800 square feet and a gallon of primer about 450 square feet.

Preparing the Surface — Paint will last longer if it is laid on a surface free of dust or other substances. New wood should be brushed to remove all dust before applying the primer. If old paint is dirty and chalking, dusting with a brush helps. If the surface is very dirty, it may be well to wash it with a mild detergent, then rinse down thoroughly with water.

When to Paint — For best results, paint should be applied in clear, dry weather with the temperature above 40 and preferably above 50. It should not be applied

before morning dew has evaporated.

How long a paint job lasts varies with weather conditions and the quality of the job. If a good paint and primer have been applied and normal weathering occurs, repainting is usually not necessary for four to six years.

Here are some tips from the association:

Brushes—The homeowner will usually require a 2 1/4 inch brush for large areas, a 2 1/2 inch brush for shutters, windows and door trim, and a 1 1/4 inch oval brush or sash tool for painting window sash and moldings. Remove loose bristles from a new brush by striking its flat side against your palm. Condition the brush by soaking it in linseed oil for a day or two.

Three Pampa students set out for Abilene and points east on a tour of Methodist institutions of higher learning. With 32 other students from the area, they will visit McMurray College, Texas Wesleyan and SMU. Pictured from left to right are Don Curry, Shirley Wright, and Ann Adcock. (Daily News Photo)

THIRTY-FIVE STUDENTS MAKE THREE-CITY COLLEGE TOUR

TOM PARRISH ... from Wayland

Parrish To Preach At First Baptist

Tom Z. Parrish, director of development and legal counsel for Wayland Baptist College, will preach at the Pampa First Baptist Church for both services Sunday. Under his supervision Wayland College has undertaken an extensive program of campus planning and beautification.

He practiced law in Plainview before going into the ministry and served as pastor in Oklahoma before joining the Wayland staff. At Wayland he has been a popular speaker before civic and church groups.

The church choir, under the direction of Joe Whitten, will present special choral numbers. Miss Elaine Lane, organist, will play "Lamb of God" by Beethoven for the morning offertory and "Jesus Walked This Lonesome Valley" for the evening worship offertory number.

Sunday attention will be focused on the junior departments of the Sunday School and Training Union. All three departments of the Sunday School will sit in a reserved section in the morning service. Two hundred and seventy-nine juniors enrolled in Sunday School and 156 enrolled in Training Union.

The Palo Duro Associational Brotherhood will meet Tuesday evening at 6:30 with the Buena Vista Baptist Church. Dinner will be served at 6:30 p.m. The guest speaker will be Chester O'Brien. The Cub Scouts will have their regular monthly pack meeting Thursday at 7:15 p.m. George Ethredge, Cub Master will be in charge.

NAME CHANGED "Temple Baptist Church" is the new name of the Pampa Missionary Baptist Church, 1001 S. Christy. The public is cordially invited to attend all services, according to Rols Standifer, pastor.

Temple Baptist is an old line missionary Baptist church.

Public Invited A prayer meeting is being held each weekday morning at the Revival Center, Dwight and Alcock. The time is 9:30 a.m. Everyone is invited.

STEAL DRIVE SHAFT SCHUYLER, Neb. (UPI)—Two heading for parts unknown with known parts were sought today. Scheriff Ed Patach said they broke into a garage, stole a car, transferred its drive shaft to their own disabled auto and drove off.

Hubbard Sets Sermon Topic

"Who, Me? Arrested? Judged?" will be Rev. Ronald Hubbard's sermon topic at the 11 a.m. Sunday worship service at the Pampa First Presbyterian Church. His theme is taken from II Corinthians 5:10, 19, 20; 6:1, 2. The choir will sing the anthem, "A Mighty Fortress is Our God" by Luther-Mueller.

Sunday evening at 6:30 the Junior High Westminster Fellowship Group will meet in the Educational Building. The program will be on the purpose and organization of the Westminster Fellowship. The evening worship will be led by Wesley Green. Refreshments will be served by Cecily Morgan. All Junior High students are invited to attend.

The pastor's Bible Study Class will meet in the auditorium of the Educational Building this Monday evening at 7:30 and Tuesday morning at 9:30. The study will be on 2nd Samuel.

The Deacons will meet this Tuesday evening at 7:30 in the Educational Building.

Panel Named At First Methodist "Faith And Works" will be the sermon topic discussed by Woodrow Adcock at the two morning services of the Pampa First Methodist Church Sunday at 8:30 and 10:30. The 8:30 a.m. service is broadcast over Radio Station KPND. The special music for this service will be Williams, "There Is A Green Hill" sung by the Carol and Wesley Choir. The special music for the 10:30 a.m. service will be the anthem, "How Lovely Are Thy Dwellings," Brahms-Regium, sung by the Sanctuary Singers.

Sunday evening Fellowship will begin at 6 with a light supper for the entire family in Fellowship Hall. At 6:30 children, youth and adults will separate for one hour of planned activities according to interest and needs. "Let's Move Forward" will be the subject Rev. Adcock will use for the Sunday night service at 7:30. The special music will be the anthem, "Jerusalem, My Happy Home" an American Hymn sung by the MYF Choir.

The Sunday Evening Adult panel will have "What Are the Resources of The Christian Faith? That-Need to be Harnessed for Good Community Living" as the theme of discussion based on the eighth in a series of religious films over the television program, "Talk Back" seen on KGNC, Amarillo.

The following will serve as panel members: Aubrey Steele, Joe Toddy, Sam Bergert, Mrs. Thelma Bray, Mrs. Don Cain, Miss Martha Montgomery, with Rev. Adcock as moderator.

SCOTT NAMED YOUTH PASTOR "Bringing Men to Jesus" will be the title of the sermon to be delivered Sunday morning at the Central Baptist Church by pastor, Thurman O. Upshaw. Sunday evening he will be speaking under title, "The Little Foxes".

The choir will sing Fred Waring's arrangement of "Battle Hymn of the Republic" Sunday morning. Sunday evening the choir will sing a hymn-antem titled "Have You Any Room for Jesus?"

At the close of the service Sunday evening, Upshaw will figuratively turn over leadership of the church to the youth week officers headed by Jim Scott, youth week pastor. Throughout next week the youth of the church will be engaged in activities associated with youth week, an annual event in many churches.

WINNING FORM — Early Wynn is 39 now, but he's still a workhorse on the mound, even when throwing practice for the Chicago White Sox at Tampa, Fla.

Early, 14-16 last year, puts his 6-foot, 198 pound body squarely behind his deliveries.

Track Team To Enter Canyon Reef Relay Meet

Rogers Named Fete Speaker

Bob Rogers, Texas A&M basketball coach, will be the speaker for the Harvester Appreciation basketball banquet, which begins Monday at 7:30 p.m. in the high school cafeteria.

Rogers came to A&M last year after five very successful seasons at East Texas, and immediately transformed the Aggies from the perennial conference-dormant to Southwest Conference contenders.

Last year, the Aggies finished with a 7-7 conference mark, and beat the conference leader on three separate occasions. Perhaps their greatest accomplishment, however, was ending SMU's 44-game home-court winning streak.

This year, the Aggies had a season record of 16-8 and a Southwest Conference mark of 7-7, despite the loss of top rebounder Wayne Lawrence in mid-season. A&M won the pre-season Southwest Conference tournament.

Two changes have been made in the banquet program. Warren Hasse has replaced Jon Jones, who was unable to accept the job, as master of ceremonies, and Mrs. Maxine Milliron has been named accompanist for a musical number.

In 1952, only 8,500 U.S. families had back yard swimming pools; at the start of 1958, the number had increased to 87,500.

BOB ROGERS ... Aggie coach

Nine-Man Squad Goes to Snyder

Dwaine Lyon's Pampa High School track team left today for Snyder, where they will compete in the Canyon Reef Relays.

Also entered in the relays will be Amarillo, Tascosa, Palo Duro, and possibly some other Panhandle teams.

The nine Pampans going to Snyder for Saturday's meet will concentrate heavily on the relay events. Only weight man Paul Brown and distance runner John Gross will not be entered in a relay. Brown will throw the discus and put the shot, while Gross will run the mile.

Running on the 440 relay team will be Buddy Rawls, Dwain Urbanczyk, Lucky Dunham, and Dick Watkins. The mile relay team will consist of Rawls, Urbanczyk, Tommy Locke, and Charles Warren.

The 880-yard team will be picked from Rawls, Urbanczyk, Rex Williams, Watkins, and Locke. Entering individual events will be Dunham, 100-yard dash; Williams, high and low hurdles, shot, and discus; Watkins, shot and discus; and Warren, high and low hurdles.

In last week's meet at Graham, Williams finished second in both hurdles, Warren was third in the low hurdles, and Brown was third in the discus. Pampa finished in a tie for fifth in the Possum Kingdom meet, with 10 points.

The Harvester squad enjoyed its first real workout weather this week, and took good advantage of it. A practice track meet was run here Tuesday against Lefors, and time trials have been held throughout the week.

Lyon's has not been satisfied with the times, but has not been pessimistic, either. He regards the present time as a conditioning period, and says that he will worry about the clockings until the squad has had a real opportunity to get in running condition.

Trade Talk Prevails In Training Camps

United Press International

Trade talk broke out in the big league training camps today when the Los Angeles Dodgers disclosed recent negotiations with the Milwaukee Braves and the Baltimore Orioles revealed they want to dispose of pitcher Billy Loes.

General Manager E. J. (Buzzie) Bavasi of the Dodgers said he has been approached by several Braves officials who are searching desperately for a replacement for second baseman Red Schoendienst. The Braves want either Junior Gilliam or Don Zimmer but Bavasi says the price would be high if the Dodgers were to make a deal involving either.

"I'm not going to make a deal just to help the Braves and if we give them a second baseman we're helping them," said Bavasi. "I will make a deal, however, provided it's one we can't turn down. If we can get two players who will play for us every day or one daily player and a pitcher who can go every fourth day, we are willing to deal."

The Braves, who know Schoendienst won't be available and suspect that Mel Roach, original No. 1 candidate for the job, won't be either, now raise Chuck Cottier, a 23-year-old rookie on the Louisville roster, as their best prospect. Cottier has starred defensively in the Braves' early exhibition games and has collected five hits in 13 times at bat.

The Boston Red Sox, meanwhile, continued their "perfect" conditioning program at Scottsdale, Ariz., by beating the San Francisco Giants, 7-4, for their fifth straight victory. A triple by Bill Fenna, a double by Sammy White and a single by rookie Pompei Green featured a five-run Red Sox rally in the eighth inning.

Willie Mays suffered a severe gash in his right shin in a collision at home plate during the game. The gash required 35 stitches to close and it was estimated he will be sidelined at least a week.

The New York Yankees skated the Orioles, 10-9, in the Cleveland Indians edged out the Chicago Cubs, 6-5, and the Cincinnati Reds beat the Pittsburgh Pirates, 9-4, in other Grapefruit League action. The White Sox vs. Los Angeles, Milwaukee vs. Philadelphia, St. Louis vs. Detroit and Washington vs. Kansas City were rained out.

BUTLER OPENS NIT WITH WIN

NEW YORK (UPI)—Coaches Tony Hinkle of Butler and Joe Lapchick of St. John's, whose clubs won opening round games in the National Invitation Basketball Tournament, sang the same tune today—they'll have to do better the next time.

Hinkle sang it softly, for his Bulldogs gave a pretty sharp exhibition with a 53 per cent field goal accuracy in beating Fordham, 94-80.

Bur Lapchick sang it loud and clear, not at all pleased by the way his Redmen struggled to a 75-67 win over a green Villanova team in the second game of Thursday night's twin bill before a crowd of 12,235 at Madison Square Garden.

"No team is going to win a championship paying the way we played in that one," said Lapchick. "St. Bonaventure (third-seeded) is going to be a problem for us in Saturday night's quarter-finals."

Hinkle, whose team draws the assignment of facing top-seeded Bradley in another quarter-final Saturday night, said, "Bradley is going to pose a height problem for us. We will have to run a lot faster than we did last night."

Butler, a two-point underdog, surprised by blowing Thursday night's game wide open in the second half after a 54-54 halftime tie. The Bulldogs held a six-point lead with 7:08 to play and then ripped off nine straight points for an 85-71 lead as Fordham went scoreless for more than three minutes.

Villanova held St. John's to a 17-17 tie in the first half and then drew a blank as the Redmen ran up a 30-17 margin. The Philadelphia Wildcats pulled as close as four points in the second half but couldn't rattle the more experienced New Yorkers.

NCAA Regional Playoffs Slated to Begin Tonight

United Press International

Streaking Kansas State, the nation's top-ranked team, is expected to clobber the "losingest" team in the field for its 21st straight win but the odds-makers forecast mighty close competition in almost all other games tonight when regional play opens in the NCAA major college basketball tournament.

Competition is slated at four sites as Navy's surprising team leads seven first-round winners into conflict along with nine league champions who had first-round byes.

Here's the way the odds-makers see Friday games:

At Charlotte, N.C.
Navy (17-5) 7 points over Boston Univ. (19-6).
West Virginia (26-4) 3 points over St. Joseph's (Pa.) (23-3).
At Evanston, Ill.
Michigan State (18-3) 3 over Marquette (23-4).
Kentucky (23-2) 9 over Louisville (17-10).
At Lawrence, Kan.
Kansas State (24-1) 16 over De Paul (13-9).
Cincinnati (23-5) 6 over Texas Christian (19-5).
At San Francisco
California (21-4) 4 over Utah

TENNIS LEADER DIES

SOUTH ORANGE, N.J. (UPI)—Russell B. Kingman, 74 former president of the U.S. Lawn Tennis Association, died Thursday. Kingman was the only American to serve as president of the International Lawn Tennis Federation.

WT Offers McNeely Job

West Texas State College president Dr. James P. Cornette has confirmed what everyone suspected all along—that West Texas is actively seeking Clifton McNeely for its basketball coach.

Cornette said that no official offer had been made to McNeely, but that McNeely had been contacted. "He knows he can have the job if he wants it," Cornette said.

However, McNeely has received five other offers, some of them from major colleges. He is still undecided, and says that he will make no decision until he returns from attending the NCAA playoffs at Lawrence, Kansas, this weekend.

McNeely said that if he does leave Pampa, money will not be the determining factor. "I'm satisfied with the money here," he said. "I'm more interested in opportunity than money."

Myaki Headlines Wrestling Card

Tazo Myaki, a Japanese wrestler who's made almost as many enemies in the ring as Tojo did at Pearl Harbor, will be featured on this week's Pampa wrestling card.

Myaki will go in the main event against an area favorite, Sonny Myers. This will be a two-of-three-falls, one hour time limit event.

Saturday's matches begin at 8:30 p.m. at Top of Texas Sportsman Club. The card is sponsored by the Pampa Shrine Club and promoted by Bob Geigel.

Geigel, after two weeks on his own card, is leaving the wrestling to others this week. However, his partner, Dory Funk, is still slated for action.

Funk will go against Joe Hamilton in a two-out-of-three-falls, 45 minute time limit semi-final event. In the curtain raiser Bulldog Plechias, the subject of considerable controversy during the past three weeks, will tangle with Roy Heffernan. That will be a one-fall, 15 minute time limit match.

Advance tickets to Saturday's matches are on sale at Levine's Department Store. Ringside seats are \$1.50, reserved seats \$1.25, and general admission \$1.00.

TYRO MYAKI ... Japanese badman

Bahama Fight To Be Televised

NEW YORK (UPI)—Yama Bahama became a slight 6-5 favorite today to beat Wilf Greaves, Canadian middleweight champion, in their TV fight at Madison Square Garden tonight.

Previously Greaves had been a short choice over West Indian Yama for their 10-rounder, which will be televised and broadcast nationally by NBC.

Both fighters are aspirants to the British Empire crown. Greaves, formerly of Edmonton, Alberta, now lives at Windsor, Ontario. Yama hails from the island of Bimini, where he worked as a fishing guide.

Each had a winning string broken in his last bout and is determined to start a new victory skid.

BUT NOT THE ORIOLES RICHARDS LAUDS TIGERS

By LEO H. PETERSEN
UPI Sports Editor

MIAMI, Fla. (UPI)—Paul Richards jumped on the Detroit bandwagon today, calling the Tigers "the only club in the league which has improved" and the only one with any real chance to beat the Yankees.

The manager of the Baltimore Orioles isn't optimistic about his own club's chances.

"Our kids are still a year or two away," he pointed out. "I don't see any club in the league which has improved, except Detroit. I don't know whether they will catch the Yankees, but I figure they have the best chance."

He thinks Ray Narleski and Don Mossi "will be a big help" to the Tigers.

"Last year they hurt for relief pitching," Richards said. "That bullpen weakness meant the Tigers had to go too far with their starters. Narleski and Mossi could change that."

Needs Hitting

He rates his own pitching as "strong."

"We need hitting," he added. "And you can't buy that. You just have to wait for the kids to develop."

Just as he said that, Dave Nicholson, one of the highest priced bonus players in the game, belted one out of the park.

"The kid can't miss," Richards declares. "All he does is flick the ball and it goes out of the park. But like so many of our youngsters, he needs more experience."

"I just wish I had 30 Nicholson's around."

Nicholson, an outfielder, is only 18. The Orioles paid a reputed \$100,000 to sign him.

"When you see a kid like him

MOORE FIGHT MAY BE SUGAR'S LAST PAYOFF

By OSCAR FRALEY
United Press International

NEW YORK (UPI)—Archie Moore and Ray Robinson are headed today for a one million dollar light heavyweight date which will be Sugar Ray's last big payoff.

Jack Dempsey summed it up once in analyzing what happens when a boxer reaches the end of the road. The old Manassa Mauler doubled up a fist which looked bigger than any grapefruit you ever saw and stared at it somberly.

"You never lose the punch," he insisted. "The legs go and you can't move, but you never lose the punch."

But those two points—falling legs and surviving power—spell a frightening prophecy for Sugar Ray. His amazing, flashing speed of foot is gone and, even though he has won back the middleweight crown three times since his return from a two and one-half year retirement, he has been a shuffling, flat-footed caricature of the man once known as the dancing dynamiter.

Two Old Men

These will be two old men in action, whenever and wherever he fights Archie this summer or fall, as they surely will. Sugar Ray at 38 has lost that sleek, tigersh look which was his back in the days when nobody could lay a glove on him. He gets hit now; hard, solid and often.

It is true that Archie is "only" 43 by his own claim but his mother fixes his age at 46. He doesn't look it. Archie, using his own secret reducing formula, can pare down from 200 pounds to 175 as quickly as somebody else can put up a lush guarantee for a

NOT THAT BAD — Bill Norman seems the picture of despair as he takes a break for a cigarette and coffee. But his Detroit Tigers, shaping in Lakeland, Fla., are given the only chance of coming close to the Yankees this season.

Five Deadlock For Lead In Pensacola Open Meet

PENSACOLA, Fla. (UPI)—Four veteran money-winners and a comparative unknown were locked in a five-way tie for the lead today as second round play began in the \$15,000 Pensacola Open golf tournament.

Art Wall Jr., Focmo Manor, Pa., set the pace Thursday with a four-under par 68, seemingly unruffled by a biting cold wind that hit 35 miles an hour in gusts. Tied with Wall with 68s were Jay Hebert, Sanford, Fla.; Freddie Haas, New Orleans; Arnold Palmer, Latrobe, Pa.; and Bill Blanton, La Mesa, Calif.

Five players also were tied for runner up honors at 69. They were Chandler Harper, Portsmouth, Va.; Jim Turnesa, Elmira, N.Y.; Dave Regan, Chattanooga, Tenn.; Paul Herney, Worcester, Mass.; and Lesel Hebert, Lafayette, La.

The temperature was 42 degrees when the field of 150 teed off in the early morning Thursday

Interest On Mortgage Is Deductible From Income Tax

Real Estate
By Edward Cowan
United Press International

WASHINGTON (UPI)—If meeting monthly mortgage payments on your house is giving you financial misery, there is at least the future consolation that the interest on the payment can be deducted from your federal income tax.

This especially benefits home owners with "young" mortgages. When you start paying off a home loan, the heavier part of each monthly payment is interest and reduction of the principal is a small proportion. (As time goes by the proportion gradually shifts, so that in the final year of a mortgage the payments are almost entirely principal.)

Home owners can also take tax deductions for payment of local and state property taxes and for casualty losses. In many cases, these three types of deduction combined with other allowable expenses add up to more than the standard 10 per cent deduction to which nearly every taxpayer is entitled.

Check Allowable Deductions To make certain, the taxpayer

—home owning or not—should add up his allowable deductions to see if the total exceeds 10 per cent of his income. If it does, then he'll reduce his tax bill by itemizing his deductions instead of taking the standard 10 per cent.

Itemized deductions are listed on page two of the long form income tax return, form 1040.

Taking deductions doesn't mean your income tax will be reduced by the full amount of what you claim. The deductions are subtracted from your income before your tax is computed. Hence, if a home owner is in a 25 per cent tax bracket and had \$500 of mortgage interest payments in 1968, he'll save \$125.

Home owners and other taxpayers can also deduct interest charges on most everything else—installment purchases of autos and appliances, personal loans, home improvement loans, and other things bought "on time".

Bank Will Help. The bank or other lending institution to which you make your mortgage payments will provide a breakdown showing how much you paid last year for interest. If the bank also collects for prop-

erty taxes and pays them for you, then the sum it paid is also deductible.

It's also deductible if you paid it directly. But special payments for water, trash collection or street and sidewalk improvements are not deductible, according to the Internal Revenue Service.

The third major type of deduction that especially benefits home owners is the casualty loss. If a storm rips the roof from your house or garage, you may deduct the cost of replacing or repairing it. But you may not deduct any sum beyond the amount necessary to restore the roof to its condition at the time the storm struck. For instance, if it was a very old roof you probably can't deduct the entire cost of putting on a new one.

Faulkner Turns The Tables On Filmdom

HOLLYWOOD (UPI)—Movie-town has a way of pushing writers around—demanding screen plays, scripts and treatments be completed on deadline, and with no backtalk from the scribes.

But when the writer is novelist William Faulkner the tables are turned.

Recently he sold the screen rights to his book "The Sound and the Fury" (a 1929 effort to 20th Century-Fox. But his contract included two stipulations that puzzled the cinema moguls:

1. Faulkner does not have to read the screenplay.
2. Faulkner does not have to see the picture.

Most frustrated of all is producer Jerry Wald, an ebullient soul who cannot compare to Faulkner's supreme indifference to Jerry's picture. Every effort of Wald to kindle an old college try in the author has collapsed.

Faulkner refuses to accept telephone calls in his Oxford, Miss., home—from Wald or anyone else. Thus Jerry has taken to dispatching telegrams by the carload, some of which the man of letters deigns to answer.

When Wald appealed to Faulkner to appear on the Ed Murrow "Person to Person" TV show, which would have included a plug for Jerry's picture, the author wrote back:

"Tell Ed Murrow I retired last year. Am not interested in the money and have even up using the telephone, but I do answer letters."

"I was really frustrated when a big New York newspaper asked to have Faulkner write some stories about 'The Sound and the Fury,' Faulkner answered:

"Have Tennessee Williams write them."

This week Jerry asked Faulkner to write a story about his picture for a national magazine. The answer came back, "I have every confidence you don't need me."

They'll Do It Every Time

Scene Of Hitler's Ill-Fated Beer Hall Putsch Revisited

EDITORS: United Press International foreign news editor Phil Newsum is on a tour of Europe and the Mideast. For the next few weeks, his daily foreign news commentary will originate from those areas.

Foreign News Commentary
By PHIL NEWSUM
UPI Foreign News Editor

MUNICH, Germany (UPI)—The bricks show through where the stucco finish has fallen away from the walls of the beer hall made famous by Adolf Hitler.

The building is empty now, although over the stone archway leading to the courtyard you still can read the words "Buergerbraukeller."

The tables have been removed from the courtyard where brown-shirted youths drank beer and became enslaved to a mustached man with a heavy forelock who raved of a Hitler Germany that would live forever. The only thing standing in the courtyard now is a portable cement mixer.

A mile or so away, the sun shines brightly on the broad Ludwigstrasse. On each side are the substantial buildings of Munich University. Near the end is a fountain where students lounge, and at the far end is a victory arch.

Commemorates Victory. The arch commemorates the German victory over France in 1870.

At the other end is the Feldherrnhalle, or "Marshalls Hall. It is uncovered and at the stairway leading to the entrance two stone lions stand guard.

It was between these two lions on Nov. 9, 1923, that Hitler stood. Marching toward him from the victory arch were his brown-shirted Nazi followers. That was the day of the ill-fated beer hall putsch.

For that, Hitler went to jail and wrote his book "Mein Kampf," which contained the blueprint of Nazi conquest.

Near at hand is a huge square which became the site of a Nazi shrine. Many of Hitler's earlier followers fell, there and the square became their honored grave.

All the outward signs that made the square a shrine have been removed now.

The residents of Munich wish that all signs of Hitlerism could be removed.

The Munich of 1959 shows few signs of the war that Hitler unleashed, and, 14 years ago, lost. It is a pleasant city in which the new U.S. consulate, glassed and standing on a modernistic still-like foundation, blends perfectly with the new, modernistic business architecture around it.

Last year, the birth of a son to a chimney-sweep made Munich a city of one million persons. Foreign buyers come here for textiles, gloves, optical and precision instruments.

By German standards, Munich is not considered a boom city. But it is a prosperous one which still, in the midst of growth, has been able to retain much of its tradition.

The great beer halls, each capable of holding thousands of customers, are one sign.

Large U.S. Base Nearby. Here the German couples come, some with their own sandwiches, and for less than a dollar can spend the evening with all the beer they can drink.

Close to Munich is one of the largest U.S. Army bases in Europe. There are no "Yankee go home" signs here, although there

GIVES UP SMOKING. LONDON (UPI)—Called into court for playing hooky 61 times this school year and setting fire to her home with cigarettes, a 13-year-old girl promised the judge:

"I have given up smoking now."

Mr. Orville Kenion of Rockford Scooter Co. Will Be In Our Scooter Dept. on Saturday, March 14th To Help You In The Proper Selection of Your Scooter

10% DOWN DELIVERS there's a safety-plus RIVERSIDE scooter for every need . . . every pocketbook!

HERE ARE THE EXCLUSIVE "BUILT-IN" FEATURES THAT MAKE RIVERSIDE THE SAFEST, MOST POWERFUL NEW SCOOTERS ON THE MARKET

MIAMI
Smooth is the word for this beauty . . . smooth, steady power . . . smooth looking . . . smooth handling. Smooth, because the Miami has quality built right in, fully equipped.
\$30 DOWN \$298.50
\$14 a month

WAIKIKI
The biggest, safest wheelbase on the market . . . \$5", a full 11" longer than other makes! Fully equipped with all the luxury accessories of other makes, plus many more.
\$35 DOWN \$349.95
\$17 a month

NASSAU
The Nassau, with its rear seat, massive luggage compartment, its exclusive overhead valve engine (like modern cars) takes you anyway and everywhere from Maine to California.
\$42 DOWN \$419.50
\$21 a month

Riverside scooters . . . the newest, smartest, most economical way to travel . . . get a FREE demonstration ride today!

Get 110 miles per gallon of speeds up to 45 mph
Get power and roadability to drive safely, anywhere
Avoid traffic snarls, get to work quickly, safely
Carry an extra passenger and a big luggage load

Aside From Defense

Many people tell us that the reason for the enormous annual increases in the federal budget is immediately to our need for "protection" from potential foreign enemies. We hope you haven't been among those lulled into believing this fiction. But if you have, we'd like to remove the gulling.

Unnatural Law

Legislators are not scientists. Yet we have it on good authority that in the neighboring state of not more than a dozen years ago, some legal luminaries got the bright idea of passing a law to change the ratio of the circumference of a circle to its diameter.

The Pampa Daily News YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

BETTER JOBS

By R. C. HOLLES Employer Answers 15-Year Union Member's Questions On Economic And Moral Subjects

For several weeks, before I was confined to my home because of illness, I had been exploring with Frank Buck, a union carpenter, the question of employer-employee relations that would be fair to both the employee, the employer and the consumer.

Mr. Buck believes, as I do, in the Socratic method of discovering justice and truth. The Socratic method, as the name implies, requires each person to answer questions as briefly as possible and without evasion. If either party has to evade a question or contradict himself, it is strong evidence that he does not understand his subject.

Mr. Buck has been a member of the Carpenter's Union for 15 years. He is not at present a member since he is working at a different line of work. He lives at 14792 Govers Pl., Westminster, Calif. His wife is president of the Rubber Worker's Union of Garden Grove.

I am president of Freedom Newspapers, Inc., consisting of 11 papers. These 11 papers associated together employ more than 900 full-time employees and over 2,000 part-timers. I have been an employer for over 50 years.

Thus, with the experience that Mr. Buck has had as a union member and the experience I have had as an employer, it should be able us to explore the subject of a just and fair employer-employee relationship from the standpoint of practical experience, to say the least.

After Mr. Buck gets through with his questions and I have answered, he has agreed to answer the questions that I, as an employer, would like him to answer.

Union Member's Questions

1. Buck: Your position, as I understand it, Mr. Holles, is that the workers of organized labor—union men and women—who have received increases in wages through collective bargaining, receive more than their share of the fruits of industry, that their wages are too high. Is that your contention?

Holles: If the wages are arrived at by threats of strikes or strikes, some workers' wages are too high. Some of them do and some of them receive too much.

2. Buck: Is it your contention that for the good of all the people of America, union wages should be lower than they are now?

Holles: Some might be too high and some might be too low, but if, as a whole, they are arrived at by threats of strikes, they're too high as a whole.

3. Buck: Well, is it your theory that the only way a fair wage can be arrived at is for all workers to freely compete against each other for their jobs and employers to freely compete against each other for their hired help?

Holles: Yes, to the degree they do that, we have a fair wage and fair profit.

4. Buck: Isn't it true that this competition would make it possible for the employer to retain a larger share of the fruits of labor and would force the worker to accept a smaller portion than the organized worker now receives?

Holles: Not as a whole. Those wages that were established by threats of strikes would permit some members to get more and some of those who were on a competitive basis would get less.

5. Buck: These are organized workers we're talking about.

Holles: Organized workers, yes.

6. Buck: Isn't it your contention that by being able to receive this larger share that he now receives of the returns of his product, the employer is able to accumulate and as a result is permitted to reinvest larger amounts in machine tools for expanding the quantity of production, and also for more efficient tools to cut labor costs?

Holles: If he received a larger share, or if due to increased production he could add to his profits, which he could reinvest, this would lower prices which would benefit all workers.

7. Buck: Your answer is yes, then?

Holles: If he spent it in riotous living it would not. If he wisely invested it, it would. Increased production on a competitive basis might go to the employer. If the workers or employers had more income and invested in needed tools, it would tend to lower prices and/or increase real wages.

8. Buck: Is this the most important reason that you have for contending that union wages should be cut—to permit capital to accumulate in the hands of the employer or reinvestment, permitting, or I should say, encouraging the multiplication of tools?

Holles: That's one of the reasons, and that the unorganized man may have an equal right to help establish values and thus get a larger share of what would be increased production. I do not advocate cutting wages. I advocate that wages that are lower because the workers are excluded from their right to help establish values be increased by increased production.

9. Buck: You have compared them to bank robbers, haven't you?

Holles: Any form of robbery. Compared with any form of robbery.

10. Buck: Your answer is yes, then?

Holles: Yes, for those union men who get more than they produce. The non-competitive wage might belong to other workers or to the employer. Competition would distribute it fairly.

11. Buck: You have said that the unorganized man may have an equal right to help establish values and thus get a larger share of what would be increased production. I do not advocate cutting wages. I advocate that wages that are lower because the workers are excluded from their right to help establish values be increased by increased production.

12. Buck: You have said that the unorganized man may have an equal right to help establish values and thus get a larger share of what would be increased production. I do not advocate cutting wages. I advocate that wages that are lower because the workers are excluded from their right to help establish values be increased by increased production.

Gripping Drama

Robert Allen Reports:

Proxmire Bucking For Vice-President

WASHINGTON — Senator William Proxmire has several other significant ambitions "very much in mind in his widely-headlined feud against 'one man rule' in the Senate."

An important member of the Wisconsin staff is saying the other big objectives behind this crusade are:

To boom himself for Vice President on the Democratic ticket next year.

For that purpose to maneuver himself into the role of Wisconsin's "favorite son" candidate at the Los Angeles convention.

These presidential aspirations were attributed to Proxmire by his assistant in talks with friends at the recent \$100-a-plate Victory Dinner here.

In these backstage discussions the staffman relates that Proxmire decided to embark on his much-publicized "Senate revolt" following "some disturbing conferences" with Democratic Governor Leland Nelson and Wisconsin's leading editor — William T. Ely of the militantly liberal Madison Capital Times.

Nelson refused to back Proxmire's "favorite son" plans. Ely caustically criticized Proxmire for "pussyfooting on his campaign promises to battle against the Senate's traditional seniority system and the strong-handed leadership of Senator Lyndon Johnson (D., Tex.)."

According to the talkative assistant, the following is what happened between Proxmire and Governor Nelson:

Proxmire proposed to Nelson that they issue a joint statement which, in effect, would designate the Senator as Wisconsin's "favorite son" candidate.

Nelson flatly turned this scheme down.

Minnesota's Senator Hubert Humphrey is Nelson's personal choice for President. So the Wisconsin delegation played a key part in nominating Senator Keftauer for Vice President over Senator John Kennedy.

Nelson flatly turned this scheme down.

Minnesota's Senator Hubert Humphrey is Nelson's personal choice for President. So the Wisconsin delegation played a key part in nominating Senator Keftauer for Vice President over Senator John Kennedy.

The Nations Press

SAVE THAT WON'T CURE (Chicago Daily Tribune)

In his state of the Union address, Mr. Eisenhower, discussing the inflationary effects of the wage-price spiral and government deficit spending, said that one of the corrective measures he would seek would be an amendment to the employment act of 1946.

This legislation pledged the government to foster conditions which would promote maximum employment. It requires the President at each session of conference to submit a report on the condition of the economy and equips him with a standing council of economic advisers to advise him.

Mr. Eisenhower said that the amendment he will request will "make it clear that government intends to use all appropriate means to protect the buying power of the dollar."

The effect of this change would be to establish that the protection of the dollar against further deterioration is just as important a consideration in national economic policy as trying to achieve jobs for everyone wanting to work.

Yet it must seem to many persons that the attempt to equalize these two objectives is little better than an effort to reconcile mutually contradictory things. The instinct of politicians when there is a stagnant economic condition resulting in unemployment is to try to do something "affirmative," which usually amounts to throwing a lot of money around in an aimless way.

Thus, during last year's recession we saw a variety of proposals of this sort, some of which were approved by Congress but were vetoed by the White House.

There was a bill to extend federal aid to economically depressed labor-surplus areas. There was a measure to grant federal loans to municipalities to construct public facilities. There was a bill to vote a huge federal appropriation to construct schoolhouses.

Mr. Eisenhower contended that his vetoes saved some 5.6 billion dollars in additional spending last year.

Hankering's

By HENRY McLEMORE

PROXMIRE-ITES — In 1940, Proxmire campaigned for Republican presidential candidate Wendell Willkie who opposed President Roosevelt for a third term.

The Wisconsin Senator walks at least one mile every morning to his office, where he arrives usually around 8 o'clock. In the latest issue of Proxmire's weekly report to constituents he boasts of having been named chairman of the Small Business Subcommittee. Says Proxmire, "I feel that is an excellent opportunity for me to expand my efforts in behalf of small businessmen everywhere."

This weekly report also contains the following Proxmire definition of inflation: "The reason we have inflation is very simple. The dollar won't do as much for people as it once did, because people won't do as much for the dollar as they used to do."

IMPENDING APPOINTMENTS — Mrs. Christian Herter, wife of the Acting Secretary of State, is telling close friends that she will definitely succeed ailing Secretary Dulles. According to Mrs. Herter, the President has already informed her husband of that.

Pentagon insiders are offering odds that Deputy Secretary Don L. Quarles will replace Defense Secretary McElroy when he leaves later this year. Quarles was in line to become Defense Secretary when former Secretary Charles Wilson quit. The latter recommended Quarles for promotion, but former Treasury Secretary George Humphrey persuaded the President to appoint McElroy instead.

The State Department has informed Israel that its Minister Jacob Herzog is acceptable as successor to Ambassador Abba Eban, who has announced he is quitting diplomacy to enter politics in the hope of stepping into the shoes of Premier Ben-Gurion. Herzog has been Minister in Washington for several years.

Those of us who have played competitive tiddlywinks, or seen it played by well-trained, superbly-conducted teams, know how wrong the public is in its evaluation of the game.

Few, if any, sports can be as exhausting as tiddlywinks. Two hours of it, and the hardest specimens are ready to quit. Indeed, I have seen men who thought nothing of playing five sets of tennis, or 72 holes of golf, get up and walk away from tiddlywinks after five or ten minutes of play — or even less.

What makes tiddlywinks so strenuous? A dozen factors, not the least being the wear and tear on the thumb. The thumb is used on every shot with the tiddly, or aiming disc, and after several hundred shots a player with a poorly conditioned thumb will feel as if he had been hanging by it.

Another factor is the playing stance of the tiddlywinker. The game is played on a blanket on the floor, and the proper stance is the same as that of a tailor at work. It can be played from a prone position, for there are no set rules governing stance, but

Fair Enough

Eleanor Roosevelt Has Rough Going

by WESTBROOK PEGLER

Eleanor Roosevelt's devotees write the most abusive letters that I have ever received, but I stand my ground, conscientiously opposing a hallucination that seems to me to have done us great moral and political harm.

Her fantastic energy now commands almost as much attention, even awe, as her audacity in presuming to high authority without humble office. But at last she has discredited herself around the edges, running into resistance in quarters where hitherto invariably she has prevailed.

Her TV commercial for a food product drew startling reproof. In the Legislature of the absolutely Democratic state of New Mexico where she had been barnstorming in person, she was rejected in terms amounting to insult. A. D. probably most important of all her reverses, she and Herbert Lehman, the decrepit, retired senator, were beaten very badly by Carl mind De Sapio of Tammany Hall and Mayor Robert Wagner. Mrs. Roosevelt also had undertaken to rule out Jack Kennedy for 1960, but Kennedy's publicity immediately claimed, probably with fair justification, that he was now the leading young Democrat in certain "polls". He plainly has thrived on her opposition.

Mayor Wagner's adherence to De Sapio is significant too because his father, the late Tammany senator, was a slave of Mrs. Roosevelt's late husband. On the issue of the smoke-filled room, which was cited to discredit De Sapio, familiar of the Roosevelt reign immediately recalled, at Satan's prompting, that Frances Perkins, his Secretary of Labor, set it down for history in her book that Roosevelt chose Henry Wallace, of all men, for Vice President, in 1940 and, moreover, made the choice by phone to her in these words: "Yes, I guess it will be Wallace."

And so it was Wallace and only Eleanor's own physical presence beside him saved Wallace from physical violence as he stood dribbling and flapping his flippers on the speakers' platform in the Chicago Stadium.

As to the oleomargarine commercial, done for pay by Mrs. Roosevelt, Ben Gross of the New York Daily News wrote: "It's a mistake. Speaking purely personally, I think that for a public figure of her prestige to lend her name to this kind of commercial venture is harmful not only to herself but to broadcasting as a whole." Mr. Gross then fell for the old fallacy that she always gave such honoraria to charity, which, of course, is a culpable mistake of the press in general.

The New York Times' TV columnist, Jack Gould, wrote: "The sight of her raising her eyes to the camera and linking her concern for the world's needy with the sale of a food product at the retail counter was disgusting in the extreme." This rubbish was swathed in layers of flattery with nothing more honorable as journalism than the adulation that

various forces have tried to rule the world. The Romans tried, Napoleon tried, and the British tried. You could say one thing good for all of them. When they took over a province or a country they issued a proclamation saying WHAT the law was. Then the citizen knew what he had to do to keep out of trouble. Government did not derive its just powers from the consent of the governed but, at least, it did not exercise its powers WITHOUT THE KNOWLEDGE of the governed. The same thing can't be said for the surreptitious socialist-revolution that has been leading America away from its Constitution, and toward a World Government dictated by Russia ever since the close of World War II. We can only guess what is happening to us. And recent hints haven't been too reassuring. We know that the Kremlin claims to have launched a satellite around the sun. We know that Mikoyan stood on our own soil and defied us soon after that. Still more recently, we know that our SECRETARY FOR DEFENSE announced that this country was RETIRING from the intercontinental ballistic missile race. We have not yet been told what THAT means.

We know that Mikoyan stood on our own soil and defied us soon after that. Still more recently, we know that our SECRETARY FOR DEFENSE announced that this country was RETIRING from the intercontinental ballistic missile race. We have not yet been told what THAT means.

JACK MOFFITT

Various forces have tried to rule the world. The Romans tried, Napoleon tried, and the British tried. You could say one thing good for all of them. When they took over a province or a country they issued a proclamation saying WHAT the law was. Then the citizen knew what he had to do to keep out of trouble. Government did not derive its just powers from the consent of the governed but, at least, it did not exercise its powers WITHOUT THE KNOWLEDGE of the governed. The same thing can't be said for the surreptitious socialist-revolution that has been leading America away from its Constitution, and toward a World Government dictated by Russia ever since the close of World War II. We can only guess what is happening to us. And recent hints haven't been too reassuring. We know that the Kremlin claims to have launched a satellite around the sun. We know that Mikoyan stood on our own soil and defied us soon after that. Still more recently, we know that our SECRETARY FOR DEFENSE announced that this country was RETIRING from the intercontinental ballistic missile race. We have not yet been told what THAT means.

FORCED TO STAND
MEMPHIS, Tenn. (UPI)—They laughed when Walter Jones, 89, chose to stand while testifying against Roy Granderson, an old friend he accused of assaulting him.

His old friend shot him in the seat of the pants with a small-bore shotgun, Jones said. Granderson was fined for discharging a firearm inside the city.

Basel, Switzerland, handles about 4,000,000 tons of ship cargo annually, yet it is 500 miles from the sea.

Undersea Exploration Has Been Forgotten In Space Age

The Lighter Side
By FRANK ELEAZER
United Press International

WASHINGTON (UPI) — Any year now we are more likely to see a Russian man 221,000 miles up to the moon. Yet we haven't gotten around to sending anybody seven miles down into the deepest hole in the ocean. And we don't seem in any hurry to do it.

Man has been sailing since Noah. Yet here were some of our top sailors admitting to a House Merchant Marine subcommittee they know "very little" about the seas that cover two-thirds of our earth.

Subcommittee members were shocked at the news, and not too hopeful on what they could do about it.

Warning Prompts Probe
"You can get billions of dollars to explore outer space," moaned Chairman George P. Miller (D-Calif.). "But we'll have a hard time getting millions to explore our own oceans."

What prompted Miller's peering into the depths was a recent warning from the National Academy of Sciences.

The scientists said with missile subs and the like the seas now are more crucial than space in safeguarding our country. National survival may hinge on what

we don't know about our oceans, they said.

We are better acquainted with the surface of the moon than with the depths of our seas, the scientists said.

Know Little Of Sea
Though we can direct satellites into orbit around the sun, we still can't navigate submarines under water with certain knowledge just where they are. Nor can we count on spotting an enemy's subs.

Vice Adm. A. C. Richmond, commandant of the Coast Guard, and C. R. Denison, research chief for the Maritime Administration, confirmed the worst of what the scientists said.

"We know very little about the sea," Richmond told the subcommittee. "What we do know is most superficial."

"We must depend for basic research on other agencies," said Denison. "And when we go to them for information, often it isn't there."

Russians May Be Ahead
Miller hinted darkly that the Russians, already boasting a lead in space, may also be pulling ahead under the sea. He produced, from the Library of Congress, six volumes on ocean research which he said were published in Russia in the past half dozen years.

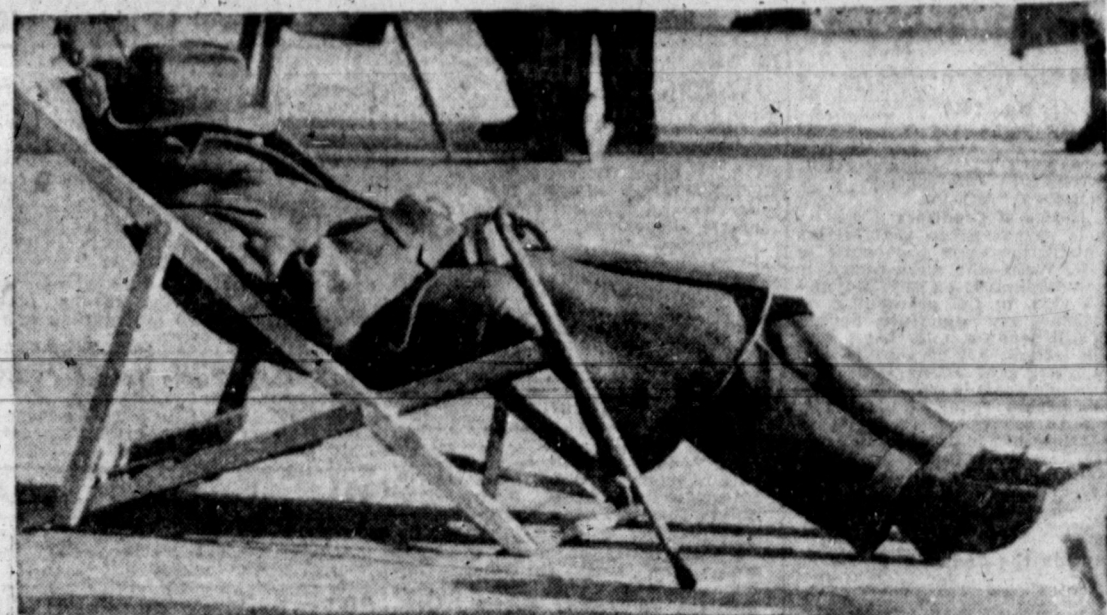

All were in Russian. He didn't

know what they said.

Miller is a member also of the House Space Committee, which has been drawing good crowds to its hearings in the big House caucus room. The Merchant Marine subcommittee met in the smallest hearing room in the House Office Building. But it was no problem at all getting a seat.

"Shooting off into space is exciting," said Miller, sadly. "Nobody seems to care much about what they can't see under the ocean."

Both George Washington and Abraham Lincoln had been survivors before becoming presidents.

WHAT'S IT LIKE OUT?—Bundled tourist isn't letting the sunshine of Nice, France, quite get to him. He's relaxing on a deck chair on the Mediterranean seaside. That hat isn't letting the scenery get to him either.
