

Ten Are Killed In Streamline Train Collision

GALESBURG, Ill., July 6. (AP)—Ten passengers were crushed and twisted to death today in a freak collision of two sleek Santa Fe Railway streamliners running side by side.

Coroner Chauncey Wood of Peoria County placed the death toll at eight. Earlier reports had it seven, with possibly an eighth fatality. The number of injured ranged between 50 and 75, some critically.

President May Ask For Truth Campaign Funds

WASHINGTON, July 6.—President Truman is expected to ask Congress probably next week for funds to launch an intensive "campaign of truth" in Korea and other critical areas in the East-West struggle.

Included are Indochina, neighboring Southeast Asia countries and Iran, all objects of Communist pressure.

Secretary of State Acheson reported yesterday that a plan for "broader and stronger program of information and education" has been submitted by the State Department and is being considered by the President.

Other officials with the proposal said it calls for concentrating promptly on the danger spots while Congress decides whether to approve a longer range, vastly expanded American effort to counter Soviet propaganda on global basis.

The major expansion is proposed in a resolution sponsored by Sen. Benton (D-Conn.) and 12 other senators. Acheson, Gen. George C. Marshall and Gen. Dwight D. Eisenhower gave their approval at the start of hearings yesterday by a Senate foreign relations subcommittee.

The State Department's interim plan calls for stepping up quickly the distribution of news bulletins, leaflets, documentary films and urgent use of other means to convince Asian and Middle Eastern peoples that the United States is their friend and benefactor rather than the imperialist ogre pictured by Communist propaganda.

Moscow Press Yelps At US 'Imperialists'

MOSCOW, July 6. (AP)—The Moscow press today attacked the United States "imperialists" in discussions of the Korean war today and for the first time criticized Holland and Australia for their part in the fighting.

An Izvestia editorial said "United States imperialists are reaping what they have sown," adding that the strengthening of the struggle for peace marks the answer of millions to "American aggression" in Korea.

The editorial said the cry "hands off Korea" expresses the wrath of the people against "American interventionists and their British, Australian, Dutch and other abettors."

Moscow newspapers also carried a Tass dispatch from Pyongyang, North Korean capital, saying that young Koreans are volunteering for front line duty. More than 115,000 had joined the army by July 1, and 20,000 of them quickly asked to be moved to the front, the dispatch said.

Izvestia also reported that the opinions of Deputy Foreign Minister Andrei Gromyko were shared by "all honest people in all countries." Gromyko called on the United Nations Security Council Tuesday to demand immediate withdrawal of U. S. troops defending South Korea.

The Moscow Press also reported that from June 30, when the campaign for signatures opened, and yesterday a total of 56,807,705 persons in the Soviet Union had signed peace proposals and the campaign was still developing.

Peace meetings continued. Red Star, the army newspaper, quoted Sergeant Bokko in the Kiev military district as saying "American warmongers have gone over from threats to 'open brigandage.'"

Truman May Take Drastic Strike Action

Threatens To End Switchmen-Walkout With Drastic Step

WASHINGTON, July 6. (AP)—President Truman threatened today to take drastic action unless switchmen abandon their strike on five major railroads.

He called it an unjustified strike and blamed it upon a small minority of the switchmen.

He said the switchmen declined to abide by the recommendations of a very able presidential fact-finding board.

Mr. Truman told his news conference he hopes drastic action will not be necessary to force the strikers back to their jobs.

But he said he would act if it became necessary. He declined, however, to say what steps might be taken.

About 4,000 members of the AFL Switchmen's Union are on strike against the Rock Island, the Chicago Great Western, the Denver and Rio Grande Western, the Western Pacific and the Great Northern Railroads. They are demanding a 40-hour week with 48 hours pay.

A Presidential board proposed instead, giving them the 40-hour week, with an 18-cent an hour pay increase.

Government mediators are working in Chicago in an effort to end the walkout.

Senate Speeds Plans To Wind Up This Session

WASHINGTON, July 6. (AP)—Senate leaders are trimming their law-making plans to bare bones in a drive to wind up this session of Congress by Aug. 1.

Majority Leader Lucas (D-Ill.), with backing of the Democratic Policy Committee, set the pattern yesterday by cutting his list of required legislation to little more than taxes and appropriations.

Chairman Taft (R-Ohio) said the senate GOP policy makers would not upset these plans.

Only the tense international situation threatened to stand off the session-end pressure of an election year.

The probable list of legislative casualties was a long one including President Truman's repeated demands for action on his civil rights program.

House-passed bills to grant Hawaii and Alaska statehood appeared likely to die in the Senate rush.

So did the Communist control bill that Republican senators have been trying to get up for a Senate vote.

Lucas listed another test vote on the controversial fair employment practices bill among three measures to be considered. But the way it was listed indicated no hope for victory.

Opponents of FEPC, including southern Democrats, already have defeated one attempt to limit Senate debate and bring up the measure for an expected lengthy filibuster.

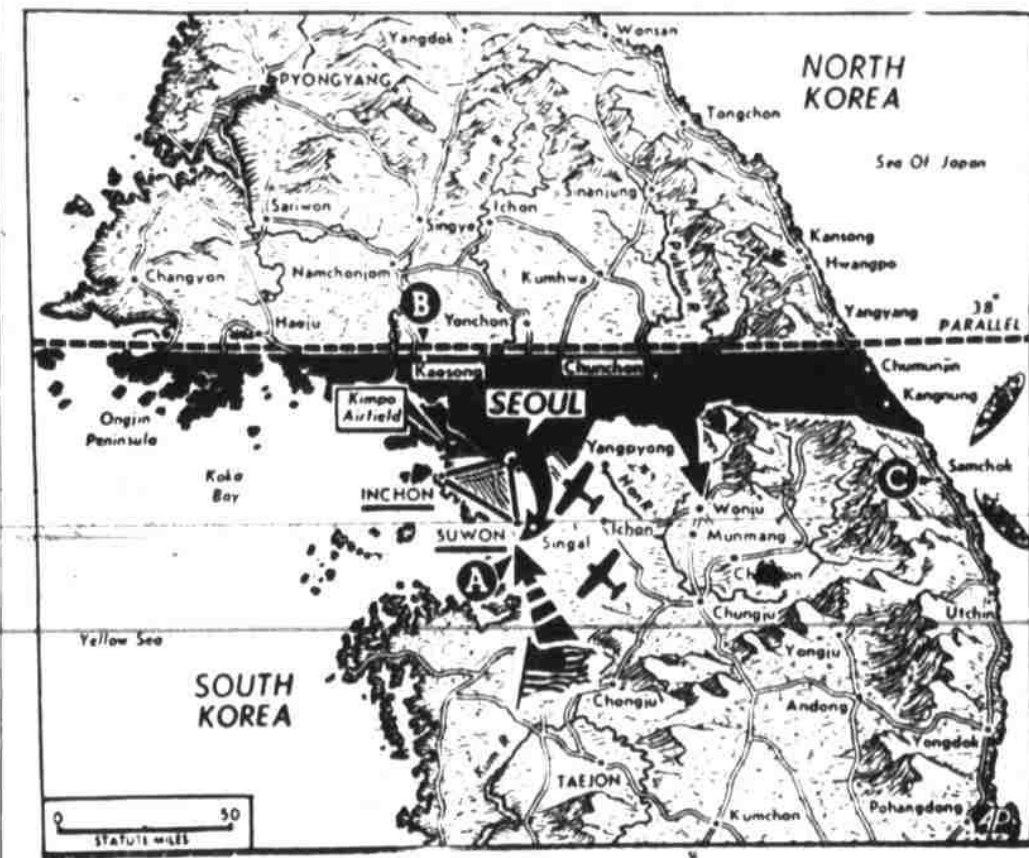

Holdup Man Knows Score

SYRACUSE, July 6. (AP)—Police are hunting a holdup man who knows exactly what he wants.

Miss Mary Zeigler said the man accosted her as she was returning home after dark and demanded her money.

She offered him three \$1 bills. But, she reported, the man said he wanted only \$2, gave her back one of the bills, and fled.

Reds Push Southward As US Troops Re-Group

WHERE AMERICAN POSITION THREATENED—Units of a North Korean column flanking the Incheon-Seoul-Suwon triangle (shaded) wedged between American infantrymen and their supporting artillery in fighting (A) south of Suwon. Another Red column is moving on Wonju. From Kaesong (B) a reinforcement of 25 Red tanks was seen moving toward Seoul. There was naval activity off the east coast with most firing in the Samchok bridgehead (C). Planes continued to strafe roads and Communist supply lines in the Seoul area. The black area is the approximate tent of the Red invasion of South Korea. (AP Wirephoto Map).

HAVE ATTACKS PAID OFF?

Red Planes Missing From Sky As US Seeks Added Air Power

WASHINGTON, July 6. (AP)—American hopes to get more power into the defense of South Korea coincided today with speculation on the virtual disappearance of the North Korean warplanes from the skies.

Some military men were led to the hope that the strategic attacks used to support the Berlin airlift were beginning to show results.

They quickly added, however, that this should be viewed as only one possible explanation, and that the real reason is not yet known here.

Overnight there were two developments indicating stepped-up air activity to bolster the South Korean defenses.

1. The Air Force said it was sending an undisclosed number of North American F-51 Mustang fighters to the Far Eastern air forces. These planes, able to operate at slower speeds and greater ranges than jets, are vital needed to give air support to the hard-pressed ground forces of the American and South Korean armies. There have been some in action, a few of them flown by South Koreans, others by Australian Air Force and USAF pilots—but not enough. Where the additional F-51s will come from or how they will be transported from the United States to the Far East was not stated. Defense officials, in a separate action, confirmed that the Escort Carrier Sicily is taking extra aircraft and spare parts to the big Carrier Valley Forge, operating off Korea. The Sicily sailed Tuesday from San Diego. She could make the trip in 20 days, carrying perhaps as many as 60 planes.

2. The Defense Department contracted with seven airlines to make special flights from the U. S. to the Far East to carry men and supplies. These flights will supplement the regular operations of the military air transport service. They will be similar to the charter flights used to support the Berlin airlift.

It was also announced that plans to close out Air Force weather and communication station in the Aleutians by July 1 had been deferred. These stations, along the northern route to the Far East, are important as navigational aids to the pilots flying through the storm-ridden North Pacific area.

Firefighters Finally Win 'Battle Of Wild Oil Well'

The wild oil well which had blazed and spouted a stream of oil and gas northeast of Big Spring for the past 25 days was finally subdued last night.

Professional fire fighters succeeded in shutting off the flow of gas and oil shortly after 9 p.m. Wednesday, some 13 hours after they had snuffed out the 25-day-old blaze with a charge of 400 quarts of nitro.

Mopping up operations were initiated at the site of the spectacular blaze this morning as crews prepared to move in a new rig to hole the well, Pan American's No. 1 Holly, a normal completion.

Veteran oil well fire fighters, led by M. M. Kinley and Paul Adair, Houston, were successful in slipping the "braden head" over the well's surface casing Wednesday afternoon.

A giant valve and other control equipment was bolted to the head which had been locked to the casing with a set of slips. As the valve was closed last night, big pumps started forcing a stream of drilling mud down the well in the face of the oil and gas pressure.

A total of 365 barrels of mud had been pumped into the well this morning and pumps were still pounding. A new rig is to be moved in and casing will be thoroughly checked before the well is completed, a Pan American official stated.

An oil field crew this morning was preparing to drain the oil and water soaked "area" around the mouth of the well to permit erection of the new rig. A swarm of bulldozers was busy throughout the area, filling water pits and leveling ground.

Other workmen were engaged in cleaning up debris and removing pipe which had been laid around the well as fire fighters fought their way up to the casing against intense heat for more than three weeks. Ground around the well had been pounded into a finely powdered dust.

To the south and east of the hole the silt swirled up with every shift of the wind, but to the north and west it was held firmly in place by a film of oil which was sprayed over the area after the fire was extinguished early Wednesday.

A farm house just west of the well, which had been white prior to the fire, was a rusty brown color this morning as a result of the oil and dust coating it had received.

Traffic was back to normal on the county roads in the area as road blocks were lifted after the well was capped last night. Other rigs in the area were humming again after being shut down when the southeastern Burden area was

Assault By Tanks Shoves GIs Back

TOKYO, Friday, July 7.—Gen. MacArthur's communique today reported three North Korean divisions were continuing to press southward towards Osan and Pyongtaek, 35 and 48 miles south of Seoul.

A front dispatch from AP Correspondent Tom Lambert said the Reds had captured Pyongtaek and nosed into Chonan, 14 miles farther down the road.

The Tokyo headquarters communique did not confirm this, but said tank-supported Communist infantry was in the area 31 miles south of Seoul and eight miles south of Suwon. It said general invader reinforcement with troops and artillery was under way.

Withdrawal of American troops for regrouping and reorganization after coordinated invader infantry and tank assaults on U. S. positions was acknowledged by the communique.

An American field headquarters spokesman had said a few hours earlier that American troops had been forced back eight to 10 miles.

The Tokyo communique credited American F-80 jet planes with destroying eight enemy tanks in new strikes south of Suwon.

The field headquarters spokesman said 20 to 35 of the Russian built tanks and 19 to 25 Yak planes had been destroyed by American forces, but did not specify the period. Apparently he was summarizing all recent actions.

The spokesman said the Reds had 100 to 170 heavy tanks in South Korea, but speculated they might be running low on fuel as their furious drive progressed. He placed American losses in defense of the South Korean republic as nominal to "heavy" but gave no indication of the size of American forces or what would be regarded as heavy losses.

In Washington an Army spokesman said Gen. MacArthur's headquarters had advised that the situation of American ground forces "is not considered serious in any way."

American reinforcements were reported being rushed to three points on the U. S. left flank at Pyongnam, Kongdo and Kanu (none of which show on detailed maps).

During the fast-moving action earlier, one American command post had to be abandoned.

MacArthur's communique said "a large number of tanks with supporting troops" attacked American positions Thursday, forcing the Americans to withdraw after they had disabled at least four tanks by direct artillery fire.

American gunners fire at point-blank range then pulled back after removing the breech locks and gun sights, acknowledged South Korean losses.

MacArthur's communique also of Incheon, port 20 miles west of Seoul. The North Koreans had claimed it two days earlier.

Another possible Red enveloping movement was shaking up along the east coast. The communique said North Korea amphibious beachheads were expanding from Ulsan, on the coast 135 miles southeast of Seoul. They were fanning out southwestward.

Truman Says No Reserve Call Due Now

WASHINGTON, July 6. (AP)—President Truman said today there are no present plans to call the National Guard or armed forces reserves to duty because of the Korean war.

His statement at a news conference was in response to questions. A reporter asked the President if he was hopeful that everything will work out all right in Korea.

Mr. Truman said of course he is. It will work out all right, he added.

Mr. Truman also said he has no plans now to seek additional military funds.

The President said he was very happy that Secretary of Defense Johnson, the armed forces secretary and the joint chiefs of staff had decided they would make no speeches during July.

He said he had no dates of his own for any speeches, but did not elaborate.

He said he was very happy that the defense establishment was going to devote all its time to work instead of making speeches.

Secretary Johnson announced the "no speeches" decision yesterday. He indicated it was dictated by concern over possible misunderstandings of statements as well as the desire to concentrate on Defense Department problems.

Mr. Truman was told at his conference that there were reports the United States was exerting pressure on Cairo for Egypt to line up in the United Nations fight against Communism in the Far East.

The President replied only that he had no knowledge of the report.

Kiwanis Urges Water Action

The Big Spring Kiwanis club today went on record urging early action to provide the city with an adequate, permanent water supply.

At the same time, members of the Big Spring city commission drew praise for their action three weeks ago setting up plans for analyzing the city's water distribution system and paying the way for improvements.

Resolutions were adopted unanimously by Kiwanians attending the club's regular luncheon session in the Settles.

One resolution took note of the city commission's action in retaining an engineering firm to study the distribution system. The other urged directors of the Colorado River Municipal Water District the "hasten" efforts designed to provide the "City of Big Spring with an adequate, permanent supply of water for domestic use."

The water district is composed of the cities of Big Spring and Odessa, and it has already obtained water rights on the upper Colorado River. A proposal for a huge surface reservoir on the Colorado is pending before the water district board.

Sweden Closes Israel Dispute Over Bernadotte

STOCKHOLM, July 6. (AP)—Sweden has closed her bitter dispute with Israel over the probe into the slaying of UN Mediator Count Folke Bernadotte during the Palestine War.

It was believed here that Sweden now may offer Israel the full recognition withheld pending settlement of the Bernadotte case. Israel has promised to continue efforts to bring the killers to justice. It also has paid the UN \$54,028 damages to cover funeral costs and other expenses resulting from the mediator's death.

Local Banks Soar To All-Time Mark For Year's Total, Gains

Resources of Big Spring banks rocketed seven and three-quarter million dollars within a year's time, combined statements showed today.

The reports, which shattered all records, not only for increases in a year's time but also for totals, were in response to a call by the comptroller of currency for statements as of the close of business on June 30, 1950.

Deposits jumped to \$24,227,276, a gain of \$7,626,304 over the same date a year ago. This was in increase of \$1,710,127 since the last call on April 24, when an all-time peak had been reached.

Total resources stood at \$25,509,677, which was up by \$7,789,137 over a year ago. Loans and discounts were \$5,656,874, a modest gain of \$192,215 for the year's period. Cash on hand amounted to \$9,403,460, which was \$3,376,822

more than was in the vaults June 30 of last year.

Oil and cotton were held largely responsible for the rapid increase.

Effects of last year's bumper harvest were still felt. Adding impetus is a flood of lease and royalty money, plus new accounts for individuals and operators.

Both the banks showed a total of \$4,538,424.30 in U. S. bonds and \$2,101,820.48 in county, municipal and other bonds.

Together they carried an aggregate of \$3,695,182.28 in cotton money. Cotton acceptances amounted to \$550,204.24, and cotton producer notes under the loan stood at \$1,144,978.02.

By banks, this is the way figures stacked up:

	June 30, 1950	June 30, 1949	Gain
Loans and Discounts	\$5,656,874.28	\$5,464,658.94	\$192,215.34
Cash	\$9,403,460.25	\$6,026,477.47	\$3,376,982.78
Deposits	\$24,227,276.34	\$16,600,972.23	\$7,626,304.11
Total Resources	\$25,509,677.03	\$17,720,528.59	\$7,789,137.04

First National — Loans and discounts \$3,997,892.61; deposits \$13,942,399.18; cash \$5,554,950.63; total resources \$13,719,737.42. The bank showed \$2,453,973.85 in U. S. bonds, \$939,640.18 in other bonds. It had \$163,200.23 in bills of exchange, and \$507,374.76 in cotton producer notes.

State National — Loans and discounts \$1,658,982.21; deposits \$11,184,286.16; cash \$3,848,509.62; total resources, \$11,789,919.81. It had \$2,084,450.45 in U. S. bonds and \$1,162,180.30 in municipal and other bonds. Total of cotton acceptances was \$387,004.01, and of cotton producer notes \$2,637,803.26.

THE WEATHER

BIG SPRING AND VICINITY — Mostly cloudy with scattered showers, not much change in temperature.

High today 84, low tonight 70, high tomorrow 86.

Highest temperature this date 106 in 1917; lowest this date 54 in 1921; maximum rainfall this date 2.37 in 1944.

RAIN

A Bible Thought For Today -

It does not cost anything. God's gifts are wholesome and life-giving. We need constant refreshment. Go where you will be refreshed and strengthened. "Ho every one that thirsteth, come ye to the waters."—Isa. 55:1.

Our Quickening Oil Play May Be Expected To Increase Steadily

Big Spring, already conscious of an expanding oil play, may take increased interest in the developments of the past month, and particularly those of the past week. The trials of significant events started the last of May when production was jumped a mile south of the Vealmoor pool. Then Shell No. 1 E. T. O'Daniel, the northeastern part of the county, encountered two promising shows in the Wolfcamp.

higher than the reef top in the budding pool. A test two miles south of this area picked up a similar pay during the weekend but did not get a good test. The climaxing news, however, was the initial showing of the Shell No. 1 O'Daniel, which topped a Pennsylvanian lime just above 8,000 feet. The first flow was a low yield of about a barrel an hour gravity oil per minute. This is more than 10 miles removed from production. Apparently, it is the reef trend well into Howard county. Of course, the initial test does not mean an oil well, and one oil well does not necessarily mean a major pool. But the strike gives ever indication of being of major importance to this area. We may expect our oil play to increase, rather than diminish.

Our Stand Based Upon Reality Rather Than Asiatic Illusions

Franklin D. Roosevelt's efforts to fix the blame on the U.S. for the fighting in Korea continue apace, and will continue without let-up. Latest to enter the fray with heated words is Andrei (Take a Walk) Gromyko, deputy Soviet foreign minister, who made a ringing plea to the United Nations to order American troops to get out of South Korea. Since the United Nations gave the stamp of its approval to American military action in Korea, Gromyko's demand isn't likely to get anywhere; but it's good propaganda in Russia and satellite countries, and probably in Asia as a whole, especially that part of it where communism rules or has many followers. In general, the Asiatics have little love for us. Dr. Kazuo Kawal, editor-in-chief of Tokyo's Nippon Times, told a Los Angeles Towa Hall meeting that "the Koreans have no love for the democratic government and little love for the United States. The war will be a long and costly one." Then this specialist in Far Eastern Affairs, now teaching at Stanford University, added:

"It is quite possible that South Koreans may fight against the American Army as guerrilla troops behind the lines." It is indeed quite possible. We might as well understand that we are not fighting in Korea to make the South Koreans love us, or because we think they are capable of governing themselves along democratic lines. We are fighting in Korea now because we hope it will help make it unnecessary to fight in Seattle, San Francisco, Denver and Dallas against invaders later on. We are fighting against so evil that, if neglected, will eventually consume us like a cancer. We are fighting for our way of life and our very existence, in a desperate and perhaps forlorn hope of averting a larger and more terrible war. We may get thrown out of Korea, ourselves; but we have to make this fight or abandon the whole world to Communist imperialism. We are fighting for a principle, but we are also fighting to preserve this democracy from an evil vastly worse than war.

The Nation Today—James Marlow

Final Decisions And Policies Rest With President Truman

WASHINGTON, D.C.—WE'RE A NATION of 150 million people in a very stormy world. Our ship has to be steered with thoughtful planning if we hope to stay afloat. But how is it done? Who makes—and how are they made—the plans on our foreign policy? On military preparations, just in case? And throwing our whole civilian life into a war, if there is one? For exam- We couldn't decide to go into Communist China and try to clean up it; our military experts said this would consume so much of our strength that Russia then could seize the rest of the world.

OUR DECISION AND POLICY-MAKING set-up can be explained this way: 1. President Truman—of course, is top man. As commander-in-chief, final decisions rest with him. He's assisted—which means he consults with and is advised—by:

- 2. The Defense Department, made up of Army, Navy and Air Force; the State Department; the National Security Council; the National Security and Resources Board; and the Munitions Board. Take them one at a time: 1. Defense Department: Louis A. Johnson is Secretary of Defense. He's civilian head of all the armed services. Directly under him are the Joint Chief of Staff JCS. Gen. Omar Bradley is chairman of the JCS. The other chiefs are: Gen. J. Lawton Collins, chief of staff of the Army; Adm. Forrest Sherman, chief of naval operations; and Gen. Hoyt S. Vandenberg, chief of staff of the Air Force. The JCS has a staff of its own of about 200 officers from all services helping them. THE JCS FIGURES OUT HOW BIG A peacetime military force we need: what kind of war we can or should fight, with whom, where, under what circumstances, how many men we'll need, what kind of weapons and supplies. In short, they figure what we can and can't or should do. They pump this information into Johnson who advises the President. 2. State Department: Dean Acheson is secretary of state. He has the advice of a staff of specialists on foreign affairs and foreign countries, since the department's representatives are all over the world. He advises the President on foreign policy. So the President has to weigh Johnson's ideas on what we can or should do

against Acheson's ideas on what we can or should do. Then he can sit down with: 3. The National Security Council. This is made up of the President, Vice President Barkley, Johnson, Acheson, and W. Stuart Symington, chairman of the National Security Resources Board to be explained in a moment.

THIS IS THE TOP POLICY-MAKING group in the government. But—the President makes the decisions, since the other members of the security council are only advisers. It meets when the President wishes.

4. National Security Resources Board. NSRB, Symington, former secretary of the Air Force, is chairman of this. Other members of this board are cabinet members. The secretaries of the treasury, defense, state, interior, agriculture, commerce, and labor.

The NSRB's job is to advise the President on the "co-operation of military, industrial, and civilian mobilization." Which means:

It has the job of planning—in case of war—for getting equipment and arms made for the military forces; converting plants to wartime use; and using civilian manpower. It has to plan in such fields as transportation, public utilities, price control, exports, and imports, materials.

THE NSRB IS AN INDEPENDENT agency, under no other agency. Symington reports directly to the President and, as pointed out, is a member of the National Security Council, the top policy group.

5. The Munitions Board. The chairman is Hubert E. Howard, a civilian appointed by the President. The other board members are civilian officials of the three armed services. The job is to buy up and store away, for use in case of war, scarce and strategic materials, and to arrange for plants to switch over to war work. This board is part of the Defense Department and is answerable to Secretary of Defense Johnson.

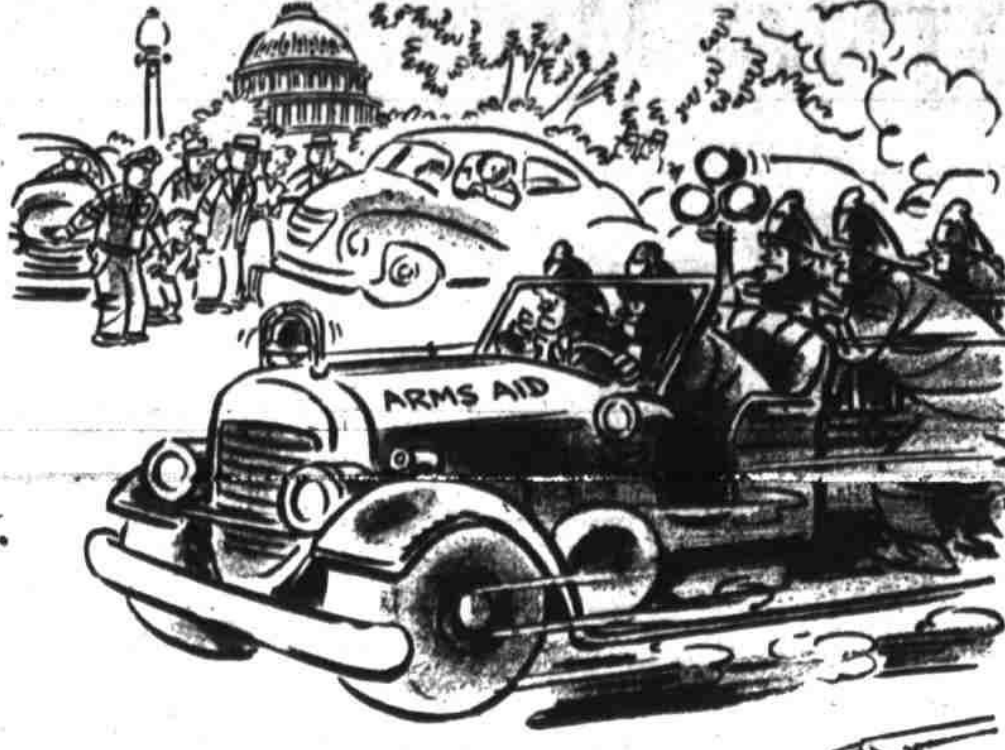

The Research and Development Board is another planning agency and is part of the Defense Department, too. Its job is to arrange for scientific research and development of weapons or instruments for another war.

In addition to all this, of course, the President has the advice of the heads of various departments, his cabinet members, like justice, treasury, commerce, agriculture and so on. All of them would be involved in running parts of a war-time show. They all deal directly with the President.

Piracy In Straits

PENANG, M.—Pirates in the Straits of Malacca struck for the second time this year when they stripped a junk of a \$5,000 rubber cargo 30 miles southwest of Penang. The junk was on its way from Indonesia. The last piracy took place on January 30 when a sailing junk was stripped of rubber and quinine value at \$600.

Merry-Go-Round—Drew Pearson

Truman, MacArthur Coordinate Well Despite Diverse Political Beliefs

WASHINGTON — Considering the fact that they are members of opposite political parties and once rival candidates for the presidency, General MacArthur and President Truman have coordinated on the Korean crisis exceptionally well. In fact, they get along better than some of MacArthur's fellow generals in the Pentagon building, whom "Doug" sometimes treats with highbrow disdain. Two historic telecommunication conversations were held between MacArthur and the White House in the first stages of the Korean war. The first was the night before Truman issued his world-shaking announcement that American forces would intervene. The second was four days later when MacArthur gave an extremely gloomy picture of the Korean military road and asked for permission to land ground troops. When MacArthur made this proposal, Pentagon officials teletyped back the suggestion that he make a formal report. MacArthur replied crisply, "Consider it made." Permission was immediately granted.

MacArthur talked on the tele- com in somewhat the same stilted language he uses in his now famous communications. He did not speak disparagingly of the South Koreans but used such phrases as "the Koreans in their efforts to resist communism" must be helped. Secretary of the Army Frank Pace stayed in the communications room in the Pentagon building during the second conversation with MacArthur and phoned the White House direct for decisions that were over his head. In his first conversation with the White House, MacArthur was full of optimism, and informed Truman that he could "guarantee" success whether Russia intervened in Korea or not. MACARTHUR PESSIMISTIC

In his second conversation held just after MacArthur had flown to Korea, he was quite pessimistic. In fact, much more so than the official communiques issued in Tokyo. MacArthur had already proceeded to bomb North Korea before asking Washington for permission which caused some embarrassment, since when the North Koreans claimed their air base was bombed, Washington had emphatically denied it. It also caused worry in the State Department because of the understandable desire to operate in close co-ordination with the United Nations. However, in the second telecom conversation, MacArthur was given complete authority, including the use of ground forces and the right to bomb North Korea, in order to win the war as quickly as possible. Note—MacArthur also demanded that more divisions be rushed to Japan from the United States plus heavy equipment.

As grim-faced military leaders waited gravely for the latest news from embattled Korea, a dimly remembered screech echoed down the corridors of the Pentagon building. A moment later, a girl rushed out of an office, shouting mournfully: "Rosen just hit a homer with the bases full!" This was the play by which Cleveland defeated Washington that day.

FRAN GRAHAM'S FRIENDS The Post Office Department is investigating the anti-Negro organizations that mailed inflammatory racial propaganda from New York designed to defeat Liberal Senator Frank Graham of North Carolina. Graham himself, however, doesn't want any post-election investigation — not even by Senator Gillette's Senate campaign committee, which is interested in the reported \$1,000,000 spent by Yankee Republicans and Dixiecrats. What really hurts Graham way deep down is the fact that the millworkers and other poorer people whose cause he has always championed turned their back on him on election day. Apparently they listened to the most vicious racial propaganda since the Civil War days — tons of literature circulated by Alabama Klansmen, anti-Graham propaganda mailed out under the franking privileges of Congressman Quinn of New York. The friend of General Eisenhower and the poisoned-pen diatribes of America's first John T. Flynn inserted in the Congressional Record by Maine's Senator Owen Brewster, Chairman of the Republican Senatorial Campaign Committee.

Apparently the poorer people whom Graham had always championed, listened and believed. For \$6,000 of them who had voted for him in the first primary stayed away from the polls in the second. KOREAN WAR CAPSULES TRUMAN'S CABINET LUNCH — President Truman held an important lunch with his cabinet last week at which he expressed very frank fears about the current situation — especially what Korea might do to the American economy. He was particularly worried about inflation and expressed the hope that no panic-buying or hoarding of scarce materials should take place among the industry for consumers. Truman has ordered the National Security Resources Board to go all-out in planning what must be done immediately if it looks like Korea would develop into a world war. BRITAIN WAKES UP — Up to last week and the British foreign office was putting heavy pressure on France and Egypt to agree to seat the Chinese Communists in the United Nations. Bevin thought this would bring Moscow back into the UN and help compose the world's differences. However, the British Foreign Office is now expected to abandon its misplaced efforts, and withdraw recognition from Red China altogether. BOGGED DOWN IN CHINA — Some of America's top diplomats are secretly fearful that the real motive behind the Communist attack on Korea is Moscow's hope to involve the United States in a military campaign against the Chinese Communists. Moscow is reported to believe that a war between the U. S. and China would last for generations, would sap America's strength to the point where we could not resist Russian advances in other parts of the world. This was one reason Chiang Kai-shek's offer to send troops to South Korea was promptly vetoed. NO MORE DETROITS — By the end of this year, the government will start a limited dispersal of industry. Within a few months, the location of every new factory will be determined by the federal government in an attempt to relieve the dangerous overconcentration of America's industrial might in such cities as Detroit and Pittsburgh. In other words, population under the 1960 census will not depend on such factors as markets, labor supply and raw materials; but on the atomic bomb.

Hollywood—Bob Thomas

Blondell Gives Up Men—So She Says

HOLLYWOOD — Don't mention men to Joan Blondell. She has given them up forever. Or so she says. The bouncy blonde is in town after shedding her third husband, Broadway Producer Mike Todd, in Las Vegas. I made the mistake of asking her if she thought she'd get hitched again. "I don't know why I'm even talking to you," she retorted with a fiery look in her eye. "When I see men, I feel like taking a scythe and swooping away at them." Fortunately, there were no farm implements handy, and her gesture was strictly figurative. But there was no doubt that her late marriage had left her very much anti-men.

"I've tried marriage and it hasn't worked," she said. "The trouble now is that I've got to convince my children that marriage is a wonderful thing." She indicated that will be one of the greatest performances of her career. Miss Blondell recently ended a four year retirement in the little community of Irvington-on-the-Hudson, near New York City. "It's just like a little town," she said. "Nobody puts on airs. If someone can't afford to entertain, their friends bring the drinks and food and come over to sit around the television and have a party. It's fun." But life with Todd soured after four years and she headed for Nevada for the well known rea-

son. Now, she's returning to the gypsy life. "You might say I was frightened by a stove," she observed. "I thought I would like settling down. Coming from a vaudeville family, I had never been in one town for more than a week's stand. I crossed the continent 186 times before I came to Hollywood 20 years ago. "For four years, my husband (Todd) didn't want me to work, or at least he said he didn't. Now I'll go anywhere for a job and do anything—pictures, legit, television, even strip if necessary."

Boys Win Hop Scotch Crown From Girls

EASTON, Md. — Seems the little girl's world is rapidly becoming the little boy's world in these parts. Recently a boy walked away with the hop scotch championship for the area. And now, school officials report, the lads are invading the most hallowed feminine field of all. In a doll show at Easton elementary school, boys entered practically as many exhibits as the girls.

Around The Rim—The Herald Staff

Soviet Can't Afford War, But Nation Must Back Its Leaders

For well over a week now, a good number of people have asked me what I thought of the Korean war situation and whether U.S. intervention there might mean war with Soviet Russia. As a newspaperman, these people felt that my constant watch of the Associated Press wire should give me a fairly well-rounded idea of how things look.

Realizing I'm far from an expert in discussing political matters, I would like to touch upon the Korean situation. At first, however, I had doubts of using this column for my discussion, since we "Gim" writers usually like to touch on the local aspect of news. However, there is no getting around it—the Korean war has its repercussions not just in New York, Washington, Detroit and other big cities. It can vitally affect the towns and hamlets throughout the length and breadth of the nation. Sure, the major-doms in the national capital make the decisions as our duly elected representatives, but what they do there affects all of us. They are first and last, acting in our best interests.

Therefore, when Washington military leaders order American troops to Korea, it has a highly important meaning to us here. Boys from the ranchlands of Texas, from the farms of the middle west, the streets of New York and the dock areas of San Francisco—boys from north and south, east and west, are now upholding American policy in the tiny land of Korea. And who knows, perhaps some boys from Big Spring may be there, too. If not now, perhaps later. Well, as I see the effects of President Truman's policy of intervention, I see it as most Americans do—a justified intervention. Our action is not a part of any imperialistic policy. Rather, our aim is to aid a nation that WANTS our assistance

and is thankful for it. Too, we must remember that South Korea was American-sponsored and just as if we were to defend Hawaii or Alaska, we are morally bound to the defense of South Korea.

Another factor to consider is that under the United Nations charter, the Security Council, after a cease fire order, can dispatch "police" forces to aid the defending nation against an aggressor. Thus, U. S. action, heartily backed by 39 other nations, is "police" action which we are bound to take under the terms of the UN charter which is now a part of our national laws, as well as international law.

As for Russia, she now faces a united coalition of some 40 United Nations members. As big and as powerful as is the Soviet, it is hard to comprehend a global war at this time against so many other nations, big and small. Russia would be forced to fight on too many fronts, and she learned from Hitler's unsuccessful attempts to fight on two fronts that such a course of action is hard.

As the old saying goes, "sticks and stones may break my bones, but names will never hurt me." We can then sum up Russia's world barrage against the U. S. She can't afford to fight us. She won't, I believe, because of the unanimous forces against her. To soothe her feelings she's talking, but so what? Talk is cheap.

But despite my optimism against a war with Russia, I do believe the people of this nation must be awake and there must be unity of action and support of this nation's moves and attempts to secure the peace.

There must be, above all, faith in our government, that it is acting in our best interests. FRED GREENE

Is U. S. Prepared For War?

American Navy Still World's Biggest, But Reds Have Subs

(Third of Five Articles) By ALEXANDER R. GEORGE WASHINGTON, (AP) — The United States Navy is still the world's biggest.

Its active fleets comprise 243 combatant ships. They are generally rated superior in strength to those of any other country. Some 450 combatant vessels tied up in the Navy's reserve would boost that power considerably.

Russia, however, has a larger submarine force—some 250 to 300 according to competent military observers. There are 74 submarines in the U. S. active fleets and 92 in the reserve, a total of 166.

Some of the Russian submarines (but reportedly not a major portion of them) are the new high-speed snorkels. The snorkels are equipped with breathing tubes which enable them to operate under water a long time.

Russia is also known to have a mighty potent defense fleet for use along its own shores. Admiral Forrest P. Sherman, chief of U. S. Naval Operations, said in a recent speech at the Naval Academy that Russia "does in truth possess a very powerful navy designed for its own unique geographical situation."

In the same speech Sherman said: "We must remember that in two wars we and our allies have suffered heavy losses from enemy submarines and that, much development has taken place in submarines and more can be expected."

Some military experts have said that Soviet emphasis on submarine power is aimed primarily at control of the Mediterranean Sea and its shores. With that control Russia could protect the southern flank of a Red army driving west across Europe.

Sherman, however, said submarines might launch guided missiles against U. S. coastal cities. The aircraft carrier has replaced the battleship as the backbone of the American fleet. The U. S. has 11 carriers in the active fleets and 17 in the reserve, not including three of the 12,000-ton Essex class now being modernized.

According to naval sources here, the Russians have no aircraft carriers unless they have recently converted other ships. A few months ago Sherman said Russia had added new, high-speed, heavily armed cruisers and many destroyers to its fleet. The Russians have three or four old battleships.

The United States has one modern battleship, the Missouri, in active service. In the reserve are 14 battleships and two battle cruisers.

Eighty-seven of the U. S. Navy's active combat ships were in the Pacific recently, according to Navy reports, and 156 were in the Atlantic and adjacent waters. Two 27,000-ton carriers, the Valley Forge and the Philippine Sea, are in the Pacific.

The Valley Forge spearheads the 20-ship Seventh Fleet, which in the Korean crisis was put under the operational command of General Douglas MacArthur, supreme allied commander in Japan.

The Philippine Sea will head on a new task force which will be based on Pearl Harbor to support the Seventh Fleet. The three big 45,000-ton carriers, Franklin D. Roosevelt, Midway and Coral Sea, are in Atlantic waters.

Some military experts have said that Soviet emphasis on submarine power is aimed primarily at control of the Mediterranean Sea and its shores. With that control Russia could protect the southern flank of a Red army driving west across Europe.

Today's Birthday

HARRY FORD SINCLAIR, born July 4, 1876 in Wheeling, W. Va., son of a druggist. Oil magnate, he was educated as a druggist, went out as a druggist, went shoeing, became a millionaire before he was 35, and figured in the Teapot Dome scandal.

Parliament Votes Big Korea Support

LONDON, July 6. (AP) — Britain's policy of aid to South Korea through the United Nations has won smashing support in parliament. The house of commons roared its approval last night of Britain's

quick action in sending ships to help American forces and Australian planes in the conflict area. There were only a few dissenters. Their remarks drew ironic laughter and cries of "shame."

Officer Answers With Warrant

CHICAGO, July 6. (AP) — "Do you know who I am?" shouted lawyer Andrew Leone. He was having a little trouble at a police station yesterday getting information he wanted for a client. Officer William O'Connor's ears pricked up. "Come to think of it, I do," responded O'Connor. "You're Andrew Leone, 4318 Cortez, and I've got a warrant for you." He then served the attorney with a warrant charging him with not appearing in court to answer the accusation of a cab driver that Leone hadn't paid an \$8.50 taxi bill. Leone was released after posting a \$50 bond.

Two New Names Added In Texas

WASHINGTON, July 6. (AP) — The U. S. Board on Geographic Names today approved the following names for towns, resorts and settlements for use on official maps and papers: Texas — Beech Grove, Jasper County; Curtis, Jasper County.

Local Scouts Taking Sight Seeing Tours

Scouts from Big Spring attending the national Boy Scout encampment at Valley Forge, Pa., were treated to a number of sight-seeing tours while enroute to the national meeting. They were conducted through Washington, D. C., by Rep. George Mahon, of Colorado City and the 19th Congressional district, and also made a tour of New York City. While in the latter city, several of the scouts from the Big Spring area took in a baseball game at the Ebbets Field, home of the Brooklyn Dodgers. The group stopped in St. Louis where they had a basket lunch on the way to the encampment. From there, scouts went to Pittsburgh, to Harrisburg, Pa., and then to Baltimore, Md. From Baltimore, they journeyed to Washington, thence to New York City and Valley Forge. Arriving at the camp they were greeted with a pageant reenacting the Valley Forge story. Visiting in Philadelphia, they toured Independence Hall and viewed the Liberty Bell.

INJURED MOTHER, DAUGHTER REUNITED—For the first time since a tragic Mother's Day auto crash injured them, Mrs. Marjorie Murphy sees her daughter, Patricia, 12, in Tucson, Ariz. Patricia has been in a trance-like coma ever since and Mrs. Murphy still is convalescing from critical injuries. With them at their reunion are a younger daughter, Carol, and the father, Edwin T. Murphy, who has visited Patricia every day trying to get her to speak to him. (AP Wirephoto).

British, Chinese Reds Exchange Fire

HONG KONG, July 6. (AP) — British police and Chinese Communist soldiers exchanged fire briefly today across the Hong Kong border. No one was injured. Police described the incident as "purely local."

Liaison On Formosa

TAIPEI, July 6. (AP) — A 10 man U. S. naval team arrived today to set up a radio signal center for speedy liaison between the Chinese Nationalists and the U. S. Seventh Fleet. The fleet is patrolling Formosan waters.

BUS STRIKE

Strand Thousands At Oklahoma City

OKLAHOMA CITY, July 6. (AP) — Thousands were left stranded at bus stops in this city of 242,000 this morning by a strike of 400 drivers and maintenance employees of the city bus company. The strike was voted unanimously at 3:30 o'clock this morning after drivers completed final runs, Gordon Malone, union business representative said. The center of the city was a chaos of stranded motorists. Malone, an independent firm, and the Amalgamated Assn. of Street Electric Railway and Motor Coach Employees of America (AFL) expired at midnight June 30. Agreement of both parties extended the contract for five days. Drivers seek wage increases and other contract provisions, including insurance and pension plans. C. T. Emory Tulsa, federal labor mediator, recommended another five-day truce. Malone said the union felt it could not grant the request because the company had failed to avail itself of negotiation. "We likely would be willing to settle for less than a 35-cent hourly increase which was discussed," Malone said, "but the company has made no effort to negotiate." "By this we believe the company was not in a position to do so under the circumstances we do not feel that we can continue our contract." Malone said drivers received an average of \$1.13 hourly with maintenance man receiving from 87 cents to \$1.26 hourly. Malone said this wage scale was lower than other cities of comparable size. Company officials were not immediately available for comment.

Dallas Hospital Reports 123 Polio Cases Are Admitted

DALLAS, July 6. (AP) — Parkland Hospital here reports that 123 polio patients have been admitted to its polio ward this year. Three babies were admitted yesterday, raising to 11 the number of new cases during the preceding 48 hours.

Personal To Women With Nagging Backache

As we get older, stress and strain, over-exertion or merely a sudden change in position sometimes shows down kidney function. This may lead many folks to complain of nagging backache, legs of pop and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions. If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 40 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief — help the 15 miles of kidney tubes and shunt flush out waste. Get Doan's Pills today!

NEW OFFICERS TAKE POSTS—New officers elected a week ago will be installed tonight by the Big Spring American Legion post. Roger Miller, left, will assume the office of commander, while Foy Dunlap, second from left, is the new first vice-commander, Johnny Ray Dillard, second from right, and Frank Hardesty, right, were commanders during the past year, with Dillard taking over a few weeks ago when Hardesty resigned.

AT CLUBHOUSE

Legion To Install Officers Tonight

Installation ceremonies for new officers elected last week will be held at tonight's regular business session of the Big Spring American Legion post.

The meeting is set for 8 p. m. at the Legion clubhouse. Roger Miller, a World War II veteran, will assume the post of commander. He will succeed Johnny Ray Dillard, who has served in that capacity during the unexpired term of Frank Hardesty, who resigned several weeks ago. Hardesty probably will preside at the installation ceremonies.

Criminal Lawyer Asks Trial To Absolve Himself In Birth Case

George T. Davis, noted criminal lawyer and former northern California campaign manager for President Truman, today asked a speedy trial to absolve himself of charges he was involved in a \$100,000 Chinese birth certificate racket.

Negro Preacher On Arkansas Bailout

LITTLE ROCK, Ark., July 6.—The name of a Negro preacher will be on the Democratic ballot as a candidate for city alderman in Little Rock.

Federal Judge Thomas C. Trimble yesterday ordered the county Democratic committee to place the name of the Rev. J. H. Gatlin on the ballot for the July 25 primary. The order set a precedent for Arkansas.

Two Top Hollywood Executives Resign

HOLLYWOOD, July 6.—Joseph M. Schenck, president and board chairman of United Artists theaters, and Henry Ginsberg, vice president and general manager of Paramount Studios, are resigning. Schenck, who founded United Artists in 1925, said he is quitting because of a recent federal ruling which requires that the production and exhibition branches of the film business be separated.

The meeting is set for 8 p. m. at the Legion clubhouse. Roger Miller, a World War II veteran, will assume the post of commander. He will succeed Johnny Ray Dillard, who has served in that capacity during the unexpired term of Frank Hardesty, who resigned several weeks ago. Hardesty probably will preside at the installation ceremonies.

Other officers to be installed are Foy Dunlap, first vice-commander; Tommy South, second vice-

commander; Paul Soidan, third vice-commander; the Rev. Bill Boyd, chaplain; Charles Reidy, sergeant-at-arms; Fred Stitzell, finance officer; Kay Bugg, historian; and Cula Grigsby, service officer. Mrs. Bugg and Grigsby were re-elected to their posts at last week's election.

Tom J. Goss III, zone commander from Colorado City, is scheduled to visit the local post briefly tonight. He will be en route to Stanton for a visit with the Legion post there.

Local Legion officials have urged a good attendance for the installation ceremonies tonight to help stimulate "confidence and inspiration" for the new officers.

Davis, whose clients have included the late Tom Mooney, convicted in the 1918 preparedness day parade bombing in San Francisco, said he had helped seven Chinese apply for birth certificates but was guilty of no personal wrong doing.

Federal investigators said the indictments of Davis this week and of another prominent attorney last week followed a three-year investigation into how Chinese, shortly after World War II, got passports back to China after having entered this country illegally.

Posse Looking For Calf Roping Team

A calf roping team, to be sponsored by the Big Spring Sheriff's Posse, is being organized by a three-man posse committee. Dalton White, Kent Morgan, and Freddy White were named to organize the team and they have issued a call for ropers interested in performing on the team. M. H. Bennett, president of the organization, has announced. Tentative matches have already been arranged for the team with similar groups from other Sheriff's Posses in West Texas. Teams are to be made up solely of amateur ropers, Bennett said.

The local Sheriff's Posse voted recently to adopt new summer uniforms which are now being ordered for the organization. Members hope to have the uniforms in time for the Big Spring rodeo parade in August.

Airlines May Soon Bounce Passengers

WASHINGTON, July 6.—The airlines have asked authority to put passengers off planes or cancel advance reservations when necessary to meet demands for emergency military or other government travel. M. F. R. d'Arca, secretary of the Air Transport Assn., said today. The request was filed with the Civil Aeronautics Board in anticipation of demands resulting from the Korean military situation.

County AAA Meets

The county committee was in session at the local AAA office Wednesday, having met for the purpose of adjusting wheat allotments for the county.

Transplanted Kidney Case is Doing Well

CHICAGO, July 6.—Mrs. Howard Tucker, 48, who had a dead woman's kidney transplanted into her body is "doing very well" attendants at the Little Company of Mary Hospital said today.

The operation was performed June 17. Mrs. Tucker was suffering from a kidney ailment. One kidney was not functioning, the other at only 10 per cent. Doctors removed the useless organ, and replaced it with a kidney from a woman who had died minutes before, of the same blood type, age, and general physical characteristics as Mrs. Tucker.

Mrs. Tucker was reported yesterday as sitting up for her meals.

CHARM IN THE AIR

Peru Girls Want To Be Stewardess

DALLAS, July 6.—The airline hostess said she just stood there, mouth agape, starting at 14 of her passengers suddenly acting like crazy.

"They call for coffee and water and I bring it. And they start dipping their fingers in and sprinkling each other—and just giggling. And they wrap themselves up in blankets and they put on little hats they make out of newspapers."

"All the time just giggling and talking in Spanish. They're 14 doctors from Cuba."

"And you know what it is all about? We were crossing the equator. They pretend like we're on a ship."

occasionally. But there's nothing mixed up about the light tan beauty and charm of the 21-year-old girl.

Rita gets her English mixed up

to me for three months. Rita is a Braniff hostess. She speaks Spanish in her home, taught herself to speak English and understands Portuguese, though she speaks it little.

Leopards are occasionally all black or albino.

Here's New Way To Water Horses

NEW YORK, July 6.—Ever since warm weather came, the American Society for the Prevention of Cruelty to Animals has been worried about the horses in New York City.

Altrusa Club Will Have Formal Dinner

Organizational meeting of the Big Spring Altrusa Club will be held Saturday night at a formal dinner in the ballroom of the Hotel. The dinner will begin at 8 o'clock and husbands of charter members will be guests. President of the local senior service clubs and their wives will also be guests, as well as Altrusans from

King And Queen Are Hosts To Formal Ball

LONDON, July 6. (Sp) — More than 1,000 guests danced to the early morning hours today at a ball given by King George VI and Queen Elizabeth in Buckingham Palace. The royal couple opened the ball with a fox-trot and ended it with a waltz. In between the Queen danced often, sipping once with Douglas Fairbanks. The King danced little, mostly chatting with his smartly dressed guests. Guests included top society, business, political, diplomatic and theater leaders.

Firemen Auxiliary Has Regular Meeting

Ina Richardson, president, presided when the City Firemen Auxiliary met at the WOW Hall Wednesday afternoon. Following a business session, a social hour was held. Refreshments were served to Alice Mims, Minnie Barbee, Minnie Skalkicky, Annabelle Lane, Lois Hall, Berdie Adams, Gladys Davis, Beckie McGinnis, Beanie Powers, Louise Cunningham, Florence Rose, Lindora Fandelin, Marvin Louise Williams, Stella Johnson, Inell Smauley, Sarah Griffith and Ian Richardson.

MENU FOR TOMORROW

FRIDAY FARE
Broiled Scallops
French-fried Potatoes
Sliced Tomatoes and Cucumbers with Special Dressing*
Bread and Butter
Fresh Fruit Cobbler
Beverage
(Recipe for Starred Dish follows)
SPECIAL DRESSING
Ingredients: 1/4 bunch watercress, 2-3 cup sour cream, 1/4 cup creamed cottage cheese, 1 tablespoon lemon juice, 1/2 teaspoon onion salt, sliced tomatoes and cucumbers.
Method: Wash, dry, and chop watercress medium fine. Mix sour cream, cottage cheese, 1 lemon juice and onion salt thoroughly. Add watercress. Serve with sliced tomatoes and cucumbers. Dressing makes about 1 1/2 cups.

Basque Bolero Dress

This sun-back has something rather special in the way of cover-up — a bolero with a big scalloped collar! Nice, too, the beautiful lines of the dress, the long pleat in the skirt.
No. 2143 is cut in size 10, 12, 14, 16, 18 and 20. Size 16-18 and bolero, 5/4 yds, 35-in.
Send 25 cents for PATTERN with Name, Address, Style Number, and Size. Address PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.
Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.
THE SUMMER FASHION BOOK — Just off the press — presents the best in warm weather styles, all easy to wear and easy to make! Over 150 pattern designs for all ages and occasions, including vacation varieties; cool and comfortable fashions for town, country, home; smart styles for the season's newest cottons and poplin sheers. Send for your copy now. Price just 25 cents.

Sewing Club Meets In R. Boykin Home

Mrs. Ross Boykin entertained the members of the Stitch A Bit Club in her home, 101 Jefferson, Wednesday afternoon. Sewing comprised the entertainment. Refreshments were served. Arrangements of red, orange and cream myrtle were placed at vantage points in the reception rooms.
Those attending were Mrs. G. G. Morehead, Mrs. Merrill Creighton, Mrs. Ray Smith, Mrs. Raymond Covington, Mrs. Herk Agee, the hostess, Mrs. Ross Boykin and one guest, Mrs. John Caffee.

King Starts Trend For Colorful Dress

LONDON, July 6. (Sp) — Saville Row buzzed today—King George VI was wearing a checkered handkerchief in his breast pocket instead of the usual white.

The handkerchief had small dark checks on a white background. It peeped out of the breast pocket of the King's morning jacket yesterday when he attended a fashionable May-fair wedding with Queen Elizabeth and Princess Margaret.

It is an attractive innovation and is likely to become popular, commented one London fashion arbiter.

King George recently started a vogue for more colorful dress wear by appearing in a tartan dinner jacket.

Oil Man Succumbs

CLEVELAND, July 6. (Sp) — Warren G. Black, 65, long associated with the oil processing industry died last night.

Baptist Friendship Class Has Breakfast

Mrs. Riley Foster entertained the members of the Baptist Friendship class of the First Baptist church with a "Come as you are" breakfast in her home, 607 W. 16th, this morning.

Co-hostesses at the affair included Mrs. C. O. Isbell, Mrs. Kelly, Brown and Mrs. R. E. Jones. A farewell gift was presented to Mrs. L. Y. Johnston by the class members. Mrs. Johnston is moving to Amarillo to make her home in the future.

During the business session presided over by Mrs. R. E. Jones, Mrs. Archie Clayton, Jr. was elected class minister. Reports were heard from the class officers. Secret Pal names were revealed and new names were exchanged. Guests at the breakfast included Mrs. Charlie Tompkins, Mrs. W. F. Taylor, Mrs. Kenneth Morrison, Mrs. C. W. Mahoney, Mrs. T. F. Horton, Mrs. Archie Clayton, Jr., Mrs. Loy House, Mrs. B. V. Mabe, Mrs. Paul Estinger, Mrs. Ross Boykin, Mrs. L. V. Johnston, Mrs. Lois Bartlett, Mrs. C. O. Isbell, Mrs. Jack Euhank, Mrs. Jack Irans, Mrs. Roy Worley, Mrs. B. T. Faulkner, Mrs. Jack Y. Smith, Mrs. Lonnie Coker, Mrs. Kelley Brown and Mrs. R. E. Jones.

Mr. and Mrs. W. C. Hardin and sons of Andrews visited Mr. and Mrs. Bill Hutchins the 4th of July. Mr. and Mrs. Otha Conway are building a new home here.

Meadolake Goes For Dime—If It's A 1940 Dime

On July 1 the federal tax was removed from margarine, but Mrs. Tucker has gone Uncle Sam one better. The dear old lady of shortening fame is celebrating this tax removal by offering a pound of her golden yellow Meadolake Margarine for only ten cents, if the dime is a 1940 dime.

The reason for the 1940 dime is that 1940 was the year Meadolake was first colored for general distribution, and Mrs. Tucker is commemorating this important event with a saving sale that should long be remembered. Calling it "The Margarine Bargain of the Century," Mrs. Tucker is using 92 newspapers to tell her housewife friends they may have four quarter-pound sticks of golden yellow Meadolake for a dime, if it's one of 1940 coinage.

108,119,827 dimes were minted in 1940 so there is plenty of opportunity for folks to get Meadolake, which has long been featured in this newspaper's advertising columns as "The Better Spread for Our Daily Bread." Dealers are advised by Mrs. Tucker to give their customers a pound of Meadolake for each 1940 dime presented. They, in turn, forward these dimes to Mrs. Tucker through distributor or direct for their full retail price of the margarine. The offer continues until September 30, 1940.

So, don't spend a dime until you look at its date. If it's a 1940 dime, it buys a pound of Meadolake Margarine all by itself.

Port Neches Singer To Attend Singing At Mt. Zion Church

Burl Carter well known song writer and quartet manager from Port Neches is scheduled to attend the singing tonight at the Mt. Zion Missionary Baptist church. Among other guests expected will be the Midlanders quartet from Midland. The singing will begin at 8 p. m. The Mt. Zion Church is located on Northeast 10th street in Big Spring.

Cox Family Has Reunion And Barbecue In Garden City, Other News Events

GARDEN CITY, July 7. (Sp) — Mr. and Mrs. J. H. Cox entertained with their annual fourth of July reunion and barbecue Tuesday. Guests present were Mr. and Mrs. Steve Calverley, Harry L. O'va, Anita, Larry and Dennis, Mr. and Mrs. J. B. Calverley, Theora and Jo Melinec, Mrs. Olive Dee Schafec, Mr. and Mrs. W. J. Gibson and Bill, Mr. and Mrs. Charlie Cox, Mrs. C. T. Hightower, Donald Cox and Lester Smith of Texas Technological college, Lubbock, Mr. and Mrs. J. H. Cox, Frances and Mary Jo and Helen Cunningham.

Mr. and Mrs. Roy Huffmyer of Cisco were holiday guests of Mr. and Mrs. I. L. Watkins.

Mr. and Mrs. H. A. Haynes and Lu spent the fourth of July in Abilene as guests of her parents.

Out of town guests attending the Sunday evening revival services at Union were Billy Berryman, Weldon Low, Jimmy Floyd, Joanne Touchstone, Laverne Trollinder, Marvin Trollinder, Muriel McGuire, Joe Waldrop, Peggy King, Mrs. W. D. Lovelace and Billy Big Spring; and Mrs. K. E. Renfer and children of Dallas.

Mr. and Mrs. J. W. Ashbill of San Angelo and Tod Henry of Christoval were Sunday guests in the Tom Ashbill home.

Mr. and Mrs. George Strigler and children visited in Christoval Sunday.

Common Folk Have Superior Manners

WOODSTOCK, Eng., July 6. (Sp) — The Duke of Marlborough opened his ancestral Blenheim Palace to the common folk again today after a bunch of blue-bloods had all but torn the place apart at a charity ball.

The Duke lent the palace Tuesday night for a charity affair and later indignantly declared that some 1,800 high-born Britons romped through the halls spilling drinks on tapestries and burning cigarette holes in priceless carpets. The charity ball raised \$16,800 for the Oxfordshire boys' club.

He gets two shillings six pence (35 cents) a head when the commoners go through the place and says they behave much better than those blue-bloods.

The duke uses the tourists' fees to help pay his huge taxes.

Mr. and Mrs. W. E. Chaney was a week end visitor here. Wanda Smith of Abilene accompanied Mrs. Chaney on the trip.

Marshall Cook has purchased half interest in the Ratliff and Houston hardware store. Lester Ratliff who sold the property will move to a ranch near Rankin during the month.

ECTOR COUNTIAN Ranchman Setting Crop Growth Mark

ODESSA, July 6. — Crop growth records to make a farm belt native gas have been reported by an enterprising Ector county ranchman.

He is Cowden Ward, a great grandson of one of two brothers who made the name Cowden a big one over a wide sweep of

OIL WELL

(Continued From Page 1)

evacuated when the fire was blown out yesterday.

The fire which broke out June 10 in flames that killed Jack M. Bristol, Monahan geologist, was the worst in Permian Basin history. Estimates had placed its wild production at some 250 barrels of oil per hour and more than a million cubic feet of gas daily.

Veteran fire fighters were assisted by an Army recoilless rifle. Three thousand feet of aluminum pipe can be moved from location to location over the field by two men in three hours.

Ward says each square foot of his field gets the equivalent of three inches of rain every two weeks. Three inches is close to what Ector county as a whole has received during 1950 to date.

The project is being enlarged with 18 acres now being planted with Sudan grass and an additional 200 acres slated for clearing, planting and seeding. Ward says he figures the sewage plant as presently operated cannot handle more than 318 acres and give adequate watering.

The project was put into motion last July when Ward started clearing mesquite, bear grass and other vegetation from a 100-acre plot. He then planted a mixture of oats with perennial hay crop, alfalfa.

By early December the growth was high and thick and he placed 100 yearling heifers on it. The animals fed and fattened for 120 days, gaining an average of 234 pounds by April. They were sold to an Omaha, Neb., buyer for a premium price.

Ward is cutting the first crop of oats mixed with some of the longer alfalfa. It was to be baled and sold for feed in this area. He expects two more cuttings of alfalfa before late summer or early fall when he will again seed oats.

LEGAL NOTICE

NOTICE OF ELECTION THE STATE OF TEXAS, COUNTY OF HOWARD, CITY OF COAHOMA.

To the resident qualified electors of the city of Coahoma, Texas, who own taxable property in said city and have duly rendered the same for taxation:

Take notice that an election will be held in the City of Coahoma, Texas, on the 14 day of July, 1950, on the propositions and at the place more particularly set forth in the ordinance adopted by the City Council on the 27 day of June, setting said election, which is as follows:

"I, the Mayor of the City of Coahoma, Texas, do hereby certify that an election on the question of the issuance of \$20,000 of bonds for improvement and extension revenue bonds; and on the question of the issuance of \$20,000 of city hall bonds.

Whereas the City Council of the City of Coahoma, Texas, deems it advisable to issue the bonds of said City for the purposes hereinafter mentioned.

Be it resolved and ordered by the City Council of the City of Coahoma, Texas:

1. That an election be held in said City of Coahoma, Texas, on the 14 day of July, 1950, at which election the following propositions shall be submitted:

PROPOSITION NO. 1 "Shall the City Council of the City of Coahoma, Texas, be authorized to issue bonds in the amount of \$20,000 for the purpose of improving and extending the Waterworks System for said City, to be issued in accordance with and secured in the manner provided in Article 111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended, each bond to be conditioned that the holder thereof shall have the right to demand payment of said obligation out of funds raised or to be raised by taxation levied on a pledge of the net revenues from the operation of said system."

PROPOSITION NO. 2 "Shall the City Council of the City of Coahoma, Texas, be authorized to issue bonds in the amount of \$20,000 for the purpose of improving and extending the Waterworks System for said City, to be issued in accordance with and secured in the manner provided in Article 111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended, each bond to be conditioned that the holder thereof shall have the right to demand payment of said obligation out of funds raised or to be raised by taxation levied on a pledge of the net revenues from the operation of said system."

PROPOSITION NO. 3 "Shall the City Council of the City of Coahoma, Texas, be authorized to issue bonds in the amount of \$20,000 for the purpose of improving and extending the Waterworks System for said City, to be issued in accordance with and secured in the manner provided in Article 111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended, each bond to be conditioned that the holder thereof shall have the right to demand payment of said obligation out of funds raised or to be raised by taxation levied on a pledge of the net revenues from the operation of said system."

PROPOSITION NO. 4 "Shall the City Council of the City of Coahoma, Texas, be authorized to issue bonds in the amount of \$20,000 for the purpose of improving and extending the Waterworks System for said City, to be issued in accordance with and secured in the manner provided in Article 111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended, each bond to be conditioned that the holder thereof shall have the right to demand payment of said obligation out of funds raised or to be raised by taxation levied on a pledge of the net revenues from the operation of said system."

PROPOSITION NO. 5 "FOR THE ISSUANCE OF WATERWORKS IMPROVEMENT AND EXTENSION REVENUE BONDS."

"AGAINST THE ISSUANCE OF WATERWORKS IMPROVEMENT AND EXTENSION REVENUE BONDS."

PROPOSITION NO. 6 "FOR THE ISSUANCE OF CITY HALL TAX BONDS."

"AGAINST THE ISSUANCE OF CITY HALL TAX BONDS."

Concerning each proposition, each voter shall mark out with black ink or black pencil one of the above expressions thus leaving the other as indicating his vote on the proposition.

A substantial copy of this resolution signed by the Mayor of said City and attested by the City Secretary shall serve as proper notice of said election. Notice shall be given by publication in the City of Coahoma, Texas, in accordance with Article 111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended, and directed to have a copy of this notice posted at the City Hall and at two other public places within said City not less than five days prior to the date fixed by holding said election. He shall also cause said notice to be published on the same day in each of two successive weeks in a newspaper of general circulation within said City, the date of the first publication to be not less than four days prior to the date set for said election. Except as otherwise provided, in said Article 111-1118, as amended, the manner of holding said election shall be governed by the laws governing general elections, the date of which is set in Article 111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended.

City of Coahoma, Texas. R. A. Marshall, Mayor. City of Coahoma, Texas. R. A. Marshall, Mayor.

CUB CAMP — Over 100 Cub Scouts and 40 leaders participated in the annual Day Camp held recently in the Big Spring city park.

Howard County Well To Run Surveys In Decision To Complete Or Deepen

Shell No 1 E. T. O'Daniel, north-eastern Howard county Pennsylvania strike, was to run a variety of electric surveys today before deciding whether to complete or deepen.

Two recovery from a 40-minute drillstem test in the yet unidentified formation was 42.9 barrels. Of this, 37 barrels came during the testing period, and when the test was pulled, drill pipe unloaded an additional 5.9 barrels. Open flow-

ing bottomhole pressure was 3.205 to 3.298, and shut-in bottomhole pressure after 15 minutes was 3.785. The gas meter failed and no gas was had on the volume. Operators are circulating currently. Some geologists were inclined to call the formation the Straw. Gravity of oil was 47.6 at 74 degrees Fahrenheit.

Location of the well is 660 from the south and 1,980 from the west line of section 2-30-1n, T&P.

Operators were digging cellar and pits and moving in materials for Brinkerhoff Drilling No. 1 E. Jones, et al, 14 miles northwest of Big Spring and in the Knott community. This 9,000-foot exploration to the Pennsylvania is to be 660 feet from the north and east lines of the northeast quarter of section 18-34-2n, T&P. John Darden, Midland, blocked the spread out of leases held by a number of large operators and turned part of it to Brinkerhoff.

Eight miles southwest of Goll and seven miles north of the Good pool, Amedeo No. 1 Johnson, C. SW NE section 45-32-5n, T&P, swabbed six barrels fluid per hour, 48 per cent water and 52 per cent oil. It recovered a lost swab line, released rotary and had a work-over unit moved in to test.

Pork Price Bounces Up

By The Associated Press Retail pork prices jumped 2 to 10 cents a pound in many competitive markets this week. Other meats and poultry held mostly unchanged. Top quality eggs advanced two cents a dozen in several areas.

The pork advance was attributed mostly to sharply higher livestock quotations late last week. Hog prices scored the biggest rise of the year when growers curtailed shipments. Agriculture Department marketing specialists said farmers apparently held back shipments partly because of the Fourth of July holiday, and partly because they expected bigger returns when the Korean war scare sent most commodities higher.

Authorities also pointed out, however, that the bulk of the fall pig crop now has been marketed, and the pigs fattened this spring won't reach livestock centers in volume for a few weeks.

Biggest news from the produce departments was that tomatoes—exceptionally high-priced recently—were starting to get cheaper as supplies from nearby gardens picked up. Tomato have been scarce because unfavorable weather delayed plantings.

Doakies Cancel Friday's Meeting

The regular stated meeting of the Doakies, set for Friday evening, has been cancelled.

Next stated meeting will be on Aug. 4. The Knights of Pythias, however, will hold their regular meeting Tuesday evening. New officials estimated to be installed. In addition, rank of page is to be conferred on 12 awaiting initiation. About an equal number are awaiting work in the rank of esquire and knight.

Holiday Influences Small Cattle Run

The holiday influenced a small run of cattle at the Big Spring Livestock Auction company's sale Wednesday but the market remained strong.

Heavy bulls were bringing 22.00, fat cows 18.00 to 21.00, butcher cows 15.00 to 17.00 and fat calves from 24.00 to 28.00.

Stocker steer calves sold for 25.00 to 27.00, heifers up to 26.00 and hogs ranged to 20.50.

Mrs. Kinney Body Due Here On Friday

Body of Mrs. Zoe Kinney, 83, who died in Dallas Tuesday, is to arrive here via train Friday morning.

Last rites will be said for Mrs. Kinney at the Eberley chapel at 2 p. m. Friday. Burial will take place behind the grave of her late husband, William Henry Kinney, in the local Masonic cemetery. Rev. Gage Lloyd will be in charge of services.

Columbia University's varsity crew averages 180 pounds and stands six feet, two inches per opener against Rutgers, Sept. 23.

No. 2-A Holley Tops The Reel, Will Run Pipe

Hoyer & Heard No. 2-A Holley, second well west of the discovery Southeastern Borden county, has topped the reef and is preparing to run pipe.

Top was picked at 6,830, which is 4,483 feet below sea level. Total depth is 6,975. This 15 feet low to the H&H No. 1 Holley. Location is 667' from the north and 653' from the east lines of the south half of the northeast quarter of section 52-25, H&TC.

Cosden No. 1-B Holley, an east offset to the Castleman & O'Neill No. 1-A Griffin, the pool's west extent was below 803 feet. Cosden was running potential today on its No. 1 McNeil, two locations east of the discovery in section 52-25, H&TC.

Amr No. 1 Jones, northeastern Howard deep wildcat, 2,014 from west lines of section 36-26, H&TC, was at 5,618 feet in lime and shale.

Sunray No. 13 Wilson, 1980 from the north and 660 from the east line of section 18-27, H&TC, which flowed 15 barrels per hour in a zone 492 feet above pay in the East Vealmoor pool, neared the regular horizon. It was coring from 7,448-60. Brown No. 1 Brannon, two miles south and 652 from the west and 667 from the south lines of section 18-27, H&TC, was at 7,062 feet in lime.

J. W. Murchison No. 1 Womack, 660 from the south and east lines of the northeast quarter of section 13-38-1n, T&P, northwestern Mitchell county, was testing to complete. On the latest return it made 116 barrels of salt water and 65 barrels of oil in 24 hours.

CHW No. 1-E-D Glass in south-western Martin County drilled east quarter of section 13-38-1n, T&P, Sparta No. 1 Wolcott, in league 251, Ward C&L, drilled at 12,190 in Devonian topped at 11,940. This gave it a datum minus 09,947, which some geologists said was 119 high to the Stanolind No. 1 Mabey, an abandoned deep test eight miles north.

Southeast Dawson county got another completion in the deep Spraberry pool. Seaboard, et al, No. 2-D W. J. Stanfield, 1,747 from the east and 3,984 from the north lines of section 37-34-5n, T&P, rated 388.87 barrels on a 24 hour test. Gravity was 38 degrees, the gas oil ratio 548-1. The zone from top of pay at 6,463 to bottom at 6,763 was shot with 564 quarts of nitroglycerin. Casing was set at 6,451.

Plymouth moved in for its No. 1 TXL, west Sterling county, 2,500-foot wildcat and drilled to 325 feet.

Southwest of Lamesa, Manning & Pay No. 1 Huddle drilled to 4,427 feet. Barnard No. 4 Wilson, northwest outpost to the East Vealmoor pool of south-central Borden, was below 5,552 in shale.

Jamboree To End On Brotherhood Note Tonight

VALLEY FORGE, Pa., July 6. — The Boy Scouts end their mammoth national jamboree tonight on a note of world brotherhood.

Already the exodus of some 47,000 boys and leaders to their homes in nearly every part of the world is ready to start.

A note of sadness dimmed the jamboree spirit with the announcement that one scout, ill with poliomyelitis when he arrived at the camp, had died.

The victim was Gordon Taylor, 15, of Rock Springs, Tex. Two other boys were hospitalized for what medical authorities termed mild polio attacks. Their names were not disclosed but their parents were notified.

For all that the jamboree was in its last hours, the scene at George Washington's 1777 headquarters remained as colorful and action-filled as ever, with the yipping, yo-yo-twirling youngsters in a final frenzy of swapping everything from horned loads to watermelons.

"It's a combination of Coney Island on the Fourth of July and the stock exchange in a bull market," declared one news photographer, weary and footsore after pursuing the darting scooters on foot from one end of the 625-acre encampment to the other.

But the boys' behavior came in for praise on every side.

"Old John"—that's the only name he uses—frankly admitted that he has had halloons and pennants at public gatherings throughout the country for 5 years—says the scouts are the best-behaved group he ever saw.

"You could put your watch down anywhere and nobody would steal it," he declared.

Negro Is Candidate For Demo Judge Post

NEW YORK, July 6. — Tammany Hall, Manhattan's Democratic organization, has picked a Negro as candidate for a \$28,000-a-year general sessions judgeship in next fall's elections.

The naming yesterday of Harold A. Stevens, now a state assemblyman, marked the first time a Negro has been designated to run for the general sessions bench by either major party.

Showers Hit Part North Of County

Cooling showers dripped into parched soil in some area of North Howard county Wednesday afternoon, but for the most part precipitation was spotted.

Rainfall estimates in localized areas ranged upwards from three quarters of an inch north of Big Spring, and reports were that the fall was heavier around Knott.

Stanton Youth Enlists, Is Sent To Lackland Base

M-Sgt. Thomas H. Bunch of the Big Spring Army and AAF recruiting station has announced the recent enlistment of Albert A. Johnson, 17, son of Mrs. Vergie Johnson of Stanton, in the US Air Force for a period of four years.

Johnson attended Stanton high school, graduating this year. After his enlistment at the Abilene recruiting main station, the Stanton youth was sent to Lackland Air Force base in San Antonio, where he will receive his basic training.

Upon completion of this phase of his training, he will be authorized a short leave before being permanently assigned to ordered to a technical school.

Washington Families Learn From Deaths

WASHINGTON, July 6. — Last Friday three small children smothered to death in an abandoned ice box in nearby Fairfax County, Va. To help prevent such a thing happening again, the Washington Post printed a list of agencies which would remove unused boxes to places where children couldn't get to them.

One big moving company, which offered to do the job free, reported last night that

Quality Meats Are Specialty Of Local Store

Whether you're in the mood to prepare a roast for guests at dinner or sandwiches for a picnic, you can find the desired grade and cut of meat at the Douglass Grocery and Market, located at 1018 Johnson street in Big Spring. Dale Douglass, owner and manager of the concern bearing his name, has always specialized in handling the best beef and pork made available by the packer for the consumer.

Especially popular at this time of year are the watermelons and cantaloupes stocked by the Douglass concern. Such melons come ripened and are ready to eat.

Every kind of fresh vegetables, shipped direct from the lush Texas Valley and Southern California via fast express, can also be purchased at the Douglass store. The Douglass store supply is replenished several times regularly.

All types of frozen foods, especially popular during summer's hot weather, are sold by the local concern, ranging from choice pieces of chicken suited for frying or broiling to strawberries and broccoli.

Douglass maintains a delivery service to any point within the city and environs, such service being morning and afternoon.

There is also plenty of parking space for the individual who prefers to shop in person at the store.

Business telephone number of the Douglass store is 78.

CONSTRUCTING FINE BOOTS—K. G. Smith, bootmaker at the Christenson Boot shop, is putting together another pair of fine, shop-made boots for which the local firm is noted. Christenson's specialties in all types of leather work, from shoe repairing to fancy hand-made items. (Culver Photo).

Local Glass Firm Broadens Service

Western Glass & Mirror Co., headquarters for all types of glass needs in this area, is broadening its service to builders and homeowners.

The special service of the company, located at 909 Johnson, is glass and allied products. But additional items are now being offered for convenience of those with building needs.

For instance, metal casements are provided for beauty and ruggedness. They offer, among other advantages, a permanence in fit and performance. The type of design is varied to meet different needs.

Of course, the stock of glass is almost limitless—for the home, for commercial buildings, and for automobiles. Window panes may be had promptly either in standard or double thickness. Plate glass is stocked to supply an increasing demand, both for the clear and for the various tints which reduce glare and which add to beauty.

Mirrors are made to specifications by experienced craftsmen in special rooms and by a precision process. Here again the tints offer some elegant treatment.

Glass construction blocks are available in the standard rectangular patterns as well as with curved corners.

Square Dance Set For Sterling City

A benefit square dance is set for Friday evening at Sterling City. The festival will start at 8:30 p. m. in the Sterling Motel with top callers of this area presiding. Hubbard's band of Big Spring will furnish the music, and dancers and spectators are urged to participate.

Proceeds from the affair will go to the improvement of the Sterling City community center.

Vacationers Need Liability Insurance

Most states in this country now have financial responsibility laws, which should be considered by vacationers before they make trips across state boundaries.

This tip comes from R. B. Reeder, who heads the insurance agency operated under his own name in Big Spring.

"In most cases, claims on liability cases are running much higher than in previous years, according to reports made available to insurance men," said Reeder. "Often, suits in such cases now range from \$25,000 to \$50,000 instead of \$10,000 to \$20,000, which was the former average."

Consequently, Reeder, is advising his clients to provide higher limits of liability, which gives the insured protection in the event of traffic mishaps.

Some states are very strict in their enforcement of financial responsibility laws, he cautioned. However, liability insurance can be provided by Reeder to meet all requirements, and he and his staff stand ready at all times to discuss insurance problems with people in the Big Spring area.

Also recommended for vacationers is a medical payment policy, which may be obtained at a slight

"Do-do" is French meaning back to back, but in want ads you are face to face with buyer and seller.

TESCO Testing New Generators

Within 30 days another 45,000 horsepower in current generation at the Big Spring doorstep will be available.

The Texas Electric Service company's new steam generating plant at Colorado City is being put through its paces preparatory to regular service. One unit has been on and another is being brought up.

The addition will help TESCO serve its ever increasing demands

for a growing area and for a population that daily uses more electricity for more things.

In a score of years, C. S. Blomshild, district manager pointed out, the demand load for TESCO has more than quadrupled. At the time Blomshild came to Big Spring the system demand was for about 70,000 horsepower. This year it is due to reach 325,000.

To handle this, TESCO has raised large generating units, two in this particular sector. The Monahans plant shouldered a big load in the extreme western belt and now the Colorado City plant is to furnish energy for the booming east end.

Rules Make It Slow For Young Flier

LOS ANGELES, July 4. (AP) — Mary Glee Cheney finally cleared the way for her pilot's license after four years of flying.

Not that it took Mary that long to learn. She just had to wait until regulations caught up with her ability.

Mary started flying when she was 12. She couldn't solo until she was 16, however, and she had to solo to get her license. Yesterday she waved goodbye to her father, Leo Cheney, and took off for the first time alone. She landed successfully, a full-fledged fly girl.

The answer to every child's dream is a bicycle. If you have one not in use, sell it for cash thru an inexpensive want ad.
