Maguire Resigns As Judge Served In Post Exactly 1 Year

Corporation Court Judge J. B. Maguire, Jr., announced his resignation this morning in a letter to Mayor Ed Myatt and the Pampa City Commission.

Maguire, whose policies helped eliminate a backlog of some 10,000 overtime parking tickets, had served exactly one year. His resignation becomes effective Thursday.

Maguire's letter, made public by City Manager John Koonz, read: "Since I am a lawyer by profession and actively engaged in the

J. B. MAGUIRE

general practice of law, I feel that I cannot devote the necessary time which the duties as Judge of the Corporation Court for the City of Pampa require. After serving in this position the past year, I find that it demands more and more of my time which will considerably increase in the future. Consequently, I hereby tender my resignation as Judge of the Corporation Court, effective Dec. 28, 1959.

"I want to express my sincere appreciation to each of you for your interest and wholehearted support of my operation of the court, and I hereby pledge my continued efforts, as a citizen and taxpayer of our city, in the future operations of the court."

An answering letter from Mayor Myatt stated:

"The city accepts with reluctance the resignation of Judge J. B. Maguire Jr. We feel that Mr. Maguire has done an outstanding job in corporation court and we wish him every success in the future."

Expulsion Case Reset For Today

A hearing set for Tuesday afternoon on the expulsion of a McLean student from classes Dec. 9 was postponed until 2:30 p.m. today in 31st District Court.

The postponement was granted by Judge Lewis Goodrich when the McLean School Board's attorney was called to a funeral in Oklahoma. About 40 spectators had assembled for Tuesday's hearing when word was received of the postponement.

The hearing was granted a week ago by Judge Goodrich after McLean High School expelled Marsha Andrews for allegedly breaking a school rule on the parking of cars. Marsha's father, Clyde Andrews, sought for and was given a restraining order Dec. 10 against nine members of the board to permit his daughter to re-enter classes.

Soviet Okays Summit Date

MOSCOW (UPI)—Soviet Premier Nikita Khrushchev today accepted the Western invitation for a summit conference in Paris on May 16.

Foreign Minister Andrei Gromyko invited the American, British and French ambassadors to the Foreign Ministry this afternoon to give them Khrushchev's reply to the letters of the three Western leaders of Dec. 28, delivered Tuesday.

The text of Khrushchev's reply was not made public immediately, but it was believed it would be released tonight.

If it comes from a hardware store we have it, Lewis Edwa. Adv.

Paycheck To Be Poorer Friday

WASHINGTON (UPI)—Starting Friday, Uncle Sam will take more from your paycheck for social security taxes.

The 20 per cent hike, which will be felt by virtually every worker and employer in the nation, is designed to bring the government an additional two billion dollars a year in revenue.

It will be the fourth increase in social security taxes in the last six years. The present law calls for three more increases spread over the next nine years.

Higher taxes are needed to cover the swelling costs of the program, which now provides monthly benefit checks to 13,400,000 persons.

Beginning Friday, wage and salaried employees will pay social security taxes amounting to 3 per cent of the \$4,500 in annual earnings. That compares with 2.5 per cent this year.

So if you make \$4,500 or more, your tax next year will total \$144—an increase of \$24 over this year, and \$49.50 more than the tax was in 1958.

Employers will be affected, too, since they must match the contribution of each employee. (See PAYCHECK, Page 3)

Humphrey Throws Hat In Dem Ring

WASHINGTON (UPI)—Sen. Hubert H. Humphrey (D-Minn.) announced formally today that he is running for the Democratic presidential nomination. He will enter primary contests in Wisconsin, Oregon, South Dakota and the District of Columbia.

Humphrey said he would "like to enter other primaries" but is faced with the problem of "limited" financial resources.

"I have no illusions about my quest for the Democratic presidential nomination," he said in a statement at the opening of a news conference. "It will be an uphill fight."

The senator described himself as the candidate of "the plain people of this country."

Humphrey also said he is prompted to seek the 1960 nomination because he believes he can make a contribution to the nation's safety and security through formulation of a foreign policy based on the real strengths of our people.

"Far more is needed than slogans and temporary flashes of activity," he added. "I would draw into the councils of the presidency men and women from every walk of American life—a practice neglected in recent years—searching out every new idea, program and policy that could make a contribution to American foreign policy and the unity of free nations."

"We can no longer tolerate government that reacts instead of taking the initiative. We cannot afford to have an administration that spends all of its time repairing damage instead of building solid, long term programs."

Humphrey, although he has spoken in almost every sector of the nation, never formally declared his candidacy until today. (See HUMPHREY, Page 3)

HUBERT H. HUMPHREY . . . announces

Concealed Blast Is A Possibility Onus On Reds For Effective Testing Ban

PASADENA, Calif. (UPI)—American scientists said today that nuclear tests, once thought un concealable because of their vast force, may be effectively hidden from other nations if conducted underground.

A means of disguising nuclear explosions as earthquakes was reported to physicists meeting here.

The reports followed recent conventional explosive tests carried out by the Atomic Energy Commission in a Louisiana salt mine this fall.

They also coincided with an editorial in the Moscow organ Pravda accusing the United States of conducting underground nuclear explosions. Pravda did not specify whether it claimed the tests took place after the 14-month-old U.S. moratorium on nuclear tests.

President Eisenhower Tuesday refused to extend this moratorium, which runs out Thursday. But he gave assurance that the United States would not resume testing without giving advance notice to the world.

The President's move was seen as an attempt to pressure the Russians into accepting a "cheat-proof" nuclear test ban at the deadlocked Geneva talks or take the blame for any resumption of atomic testing.

There has been considerable pressure for the United States to resume testing in order to perfect tactical nuclear weapons and to explore peaceful utilization of atomic explosions in construction and mining projects.

One of the recommended areas of testing was underground, to keep the atmosphere free of fallout. Several physicists spoke here on the subject of underground tests.

They said that by muffling a blast in a deep earthen cavity scientists could make it appear as far-away seismicographs that an earthquake was occurring.

Dr. Harold Brown of the United States Atomic Energy Commission said in an editorial in the Communist newspaper Pravda.

The paper accused the United States of conducting underground nuclear tests which were "against" the Geneva talks. It did not make clear when the alleged atomic explosions were supposed to have taken place.

The editorial said the U.S. refusal to extend the formal moratorium "can hardly be considered an indication of a love of peace."

It said the Geneva talks were stalemated "by faults of the Western powers."

Eisenhower coupled his announcement with an attack on what he called the "politically guided Soviet experts" at Geneva. He accused them of being "intemperate" and taking a "technically unsupportable" position.

The State Department promptly followed this up by accusing Russia of making "distorted and misleading" claims in opposing U.S.-British proposals on underground A-test detection.

The Geneva negotiations are bogged down on the issue of hard-to-detect underground nuclear explosions.

Hometown Salute For 'Mr. Speaker'

SHERMAN, Tex. (UPI)—More than a score of Congressional leaders and at least 500 other guests were on hand for a "hometown salute" today for Sam Rayburn, the Democratic warhorse who has served longer than any other man as Speaker of the U.S. House of Representatives.

A delegation headed by Sen. A. S. (Mike) Monroney (D-Okla.) flew 1,096 miles from Washington to Perrin Air Force Base Tuesday night in a U.S. Air Force Constellation. Others were by auto and private plane.

Rayburn's upper chamber colleague, Senate Majority Leader Lyndon B. Johnson, was already on hand. They were guests of honor at a party at a private home last night.

Rayburn is spearheading the movement to draft Johnson as Texas' favorite son and boom him for the Democratic presidential nomination.

On the plane with Monroney were Sen. E. L. Bartlett (D-Alaska) and seven House members. Democratic House Whip Carl Albert of Oklahoma and Texans Homer Thornberry, Joe Kilgore, Walter Rogers, Omar Burleson, Frank Icard, and Jim Wright.

Also on the guest list were Rep. Hale Boggs of Louisiana and Sens. Eugene McCarthy of Minnesota, John Sparkman of Alabama, and Thomas J. Dodd of Connecticut.

The senators all served as House members under Speaker Sam.

Rayburn will be 78 on Jan. 8, the day the second session of Congress begins. He will be starting his 48th year in Congress.

Today's appreciation banquet, sponsored by eight Sherman civic clubs, was set up as a non-political event to honor Rayburn's service to his home district.

Mercury Plummets To A Low

United Press International—Texas temperatures dipped to their lowest levels in the past three days early this morning and heavy frost whitened all areas but the coastal region and extreme South Texas.

The Weather Bureau said a slow warming trend would set in today and continue through Thursday, bringing heavy cloud cover and rain to much of the state.

Another blast of wintry air was expected to hit this weekend.

The mercury plunged to 37 degrees at Dalhart before daybreak today. Amarillo had 24, Wichita Falls and Lubbock 28, Texarkana 30 and Brownwood 32. Other lows ranged as high as 56 degrees along the coast.

No rain or snow was reported at major weather stations overnight.

Other morning lows included: Fort Worth 33, Midland, El Paso and Presidio 34, San Angelo 35, Ballas 38, Waco 37, Austin 39, San Antonio 41, Victoria and Houston 43, Galveston 45, Laredo and Brownsville 48 and Corpus Christi 56.

Afternoon highs Tuesday ranged from 42 at Amarillo to 70 at Corpus Christi.

Maine Governor Succumbs Today

AUGUSTA, Maine (UPI)—Gov. Clinton A. Clauson of Maine died early today. He was 64.

Dr. Joseph R. Crawford of Augusta said Clauson was dead when he arrived at the governor's residence at 2:35 a.m. e.s.t. This was corroborated by another physician, Dr. M. R. Guillette.

Crawford said there was no way of being certain immediately of the cause of death, but "in all likelihood it was a heart attack or cerebral hemorrhage."

The veteran state official, who

State Of The Union Message Set Jan. 7

President To Call For \$81 Billion In Spending

By RAYMOND LAHR
United Press International

AUGUSTA, Ga. (UPI)—President Eisenhower will deliver his State of the Union message in person to a joint session of Congress Jan. 7, the vacation White House announced today.

His budget, expected to call for federal spending of about 81 billion dollars, will go to Congress Jan. 18, and his annual economic report two days later.

A White House spokesman denied a "completely cockeyed" columnist's report that Gov. Nelson A. Rockefeller of New York bowed out as a candidate for the Republican presidential nomination under pressure from Eisenhower.

The schedule of presidential messages was announced after Eisenhower conferred with two of his White House aides, Wilton E. Persons and Dr. Malcolm Mook, who flew here from Washington early this morning.

Press Secretary James C. Hagerty said the President and his two aides spent about 2 1/2 hours going over a draft of the State of the Union message.

Hagerty then announced the President will deliver the message in person to a joint session about 12:30 p.m. Thursday, Jan. 7, the day after the Democratic-controlled Congress convenes for its 1960 session.

He said the President had delivered all his State of the Union messages in person except in 1956 when the President was convalescing from his heart attack.

Hagerty was asked about a Drew Pearson column published today saying that Eisenhower passed the word through Thomas E. Dewey to Rockefeller as the GOP presidential nominee.

Hagerty commented that "like most" of Pearson's columns the dispatch about Eisenhower and Rockefeller was "completely cockeyed."

Asked about the announcement this morning that Sen. Hubert H. Humphrey (D-Minn.) would seek the Democratic presidential nomination, Hagerty replied, "You (See MESSAGE, Page 3)

SWIMMING IN DECEMBER — Ruthie Rice, secretary to Coronado Inn Manager Stu Kines, dipped a wary finger in the Inn swimming pool this morning which was heated overnight to about 60 degrees. In the background is part of the 99-room hotel which will be officially opened Jan. 18 and 19. Asked if the water was warm enough for a December swim, Mrs. Rice said it was—"for polar bears." (Daily News Photo)

Candidates Geared For Early Texas Primaries

By LLOYD LARRABEE
United Press International

AUSTIN (UPI)—Texans get a new look in politics in 1960 but with the same familiar faces leading the way.

The Lyndon Johnson for President boom, Gov. Price Daniel's future political plans, and moving up primary elections almost three months were top items on the political calendar as 1960 neared.

Daniel will make known his political plans in a statewide radio speech the night of Jan. 4. Most political observers expected the governor to announce for re-election to a third term.

Two new laws favorable to the "Johnson for President" drive were enacted by the Legislature earlier this year—but they will have widespread effect on all candidates—plus the voters.

The major change, as far as the voters are concerned, moves up the primary elections by 11 weeks to the first Saturday in May and the first Saturday in June. In 1960, the first primary will fall on May 7 and the runoff primary on June 4.

It will be the first time in more than 40 years that primary election dates have been changed. In 1918, the Legislature set the pattern of primary elections on the fourth Saturdays of July and August which has been followed to the present time.

Under the new law, candidates will be required to file for office by Feb. 1—rather than in early May as in the past.

In addition, the state convention—at which Texas delegates to the national Democratic convention will be selected—was moved back from May to June. In 1960, (See CANDIDATES, Page 3)

Nine Dead, Damage High In East Blow

BOSTON (UPI)—Nine persons were dead and property damage exceeded one million dollars today from a savage nor'easter which lashed New England.

Hundreds of persons were forced to flee their coastal homes in Maine and Massachusetts when abnormally high tides added through streets, inundating cellars and yards.

A second storm added another three inches or more of snow behind the tempest which dumped up to 16 inches of snow in northern New England and ravaged coastal areas Tuesday with gale-whipped record high tides.

New England was belted by the northern half of a storm which had raged through the Midwest and then split in two as it whirled East.

Heavy, wet snow downed power lines and stalled traffic in central and northern New England but it was the higher-than-normal moon tides backed by winds up to 40 miles per hour which spread havoc along the region's coastline.

Boston, spared heavy snowfall by temperatures above freezing, was hit by the highest tides since (See DEAD, Page 3)

Ramsey To Run For Sixth Straight Term

AUSTIN (UPI)—Ben Ramsey, who marks in 1960 a decade as Texas' lieutenant governor, announced Tuesday he would try for an unprecedented sixth term.

The tall Texan, a San Augustine lawyer and son of a district judge, thus gave impetus to speculation that Gov. Price Daniel would also announce for re-election next week when he holds a press conference to reveal his plans. It had been expected that Ramsey would either run for re-election or possibly for governor.

"I am grateful," Ramsey said in his brief statement announcing candidacy, "to the people of Texas for the confidence they have shown in me. I have tried to merit that confidence by helping them to maintain sound state government. This I will continue to do."

For a time he was also state Democratic national committeeman for Texas.

Vandals Open Fire Hydrants

Vandals opened ten fire hydrants early yesterday morning in the vicinity of 24th and 25th avenues, and flooded the area with more than gallons of water.

E. S. Lowry, superintendent of the water department, said the losses could not be gauged until the water probably today.

Water rose to a depth of eight inches before the prank and closing of the valves.

All For A Pal

Miamian Charged In 'Chimpnapping'

MIAMI (UPI) — For 40 grueling days, Robert Tomarchin was shipwrecked on a deserted atoll 125 miles from Pitcairn Island in the South Seas with only a baby chimpanzee to keep him company.

Tomarchin and his chimp lived on fish and bananas during their stay on the island. He refused several offers to be rescued because the skippers of passing ships would not take his companion aboard.

Motorist Injured In U.S. 60 Wreck

An Oklahoma City motorist, Jasper B. Robertson, 45, suffered cuts across the top of his head Tuesday evening in a two-car crash 1.7 miles west of Pampa on U.S. 60.

Highway Patrolmen Standley Schneider and Travis Underwood said Robertson's 1958 Plymouth rammed the rear of a 1958 Edsel as both cars were headed west toward Kingsmill. Damages were heaviest to the Plymouth which veered off Highway 60 into a farm post following the collision.

Driver of the Edsel, Richard Lee Summers, 27, living at 861 E. Fredric, escaped injuries.

In county court this morning Robertson entered a plea of guilty to a charge of drunken driving. He was fined \$100 and court costs and sentenced to three days in county jail.

CANDIDATES

(Continued from Page 1) It will be held on June 14.

The new law will permit Johnson to win renomination in the Democratic primary to a new six-year term as U. S. senator from Texas before going to the Los Angeles national Democratic convention — likely as head of the Texas delegation.

Daniel, a close friend of Johnson, has repeatedly endorsed the Senate majority leader for the presidency and has urged that Johnson be named to head the Texas delegation to the national convention.

Johnson is regarded as a shoo-in for re-election to the Senate. No major opponent has announced against him.

A second law passed by the Legislature this year, known at the time as the "Lyndon Johnson bill," allows a nominee for statewide office to be shown on the general election ballot twice—for the state office and for president or vice-president.

If Daniel runs for re-election, he will have at least two opponents — Jack Cox, Breckenridge independent oilman, and Marshall Formby, Plainview attorney and former member of the State Highway Commission.

Atty. Gen. Will Wilson was expected to run for governor if Daniel doesn't run. If Daniel does, Wilson was expected to run for a third term as the state's legal officer.

SEAMEN TO GET WAGE HIKE

NEW YORK (UPI)—About 10,000 seamen will get a 4.5 per cent wage boost Jan. 1 under contract terms agreed upon Tuesday by the National Maritime Union and 39 tanker companies.

Since the automobile made its first appearance, 2,500 different makes have been produced in the United States.

Jordan Announces Candidacy

Gray County Sheriff R. H. (Rufe) Jordan has authorized the Pampa Daily News to announce his candidacy for the office of sheriff of Gray County, Texas.

In a statement to the News today Jordan said:

"I have announced my candidacy for re-election as sheriff of Gray County, I do so with the thought of giving you the same efficient administration that I have given you in the past.

"We realize that the business in the office of sheriff has increased considerably in the past six or seven years, especially in civil work, and we have kept the cost of operation at a minimum compared to the sharp increase in business.

"I have surely enjoyed serving you as sheriff for the past nine years, and I would like very much to continue serving you, the people of Gray County, in the same capacity."

He said he and the deputies that came into office with him in 1951, welcome and solicit the support and cooperation of Gray County citizens. Jordan said he is familiar with the problems of the office and will do his best to give the citizens of Gray County the service, courtesy and protection they deserve.

He said, "If you are in accord with the policies of impartial law enforcement that have prevailed in the past, I ask your continued support of this program in the future."

Jordan was born and reared in Gray County and attended county schools. He finished high school in Pampa in 1931, and married Viola McAnally in 1934. They have one daughter, Mrs. Ann McMurtry of Silverton, Tex.

Mission Well Fire Reignited

MISSION, Tex. (UPI)—Houston firefighters today purposely reignited a gas well that exploded and burned all day Tuesday.

An oilfield roughneck was killed in the explosion about 3 a.m. Tuesday. Two others were injured.

The roaring fire unexplainedly went out before dawn today, apparently because the well casing collapsed below the surface. But gas started hissing out of the casing again about 8 a.m.

Firefighters said they had to re-ignite the gas because they weren't ready yet to cap the well. They were waiting for additional equipment to arrive from Lafayette, La.

The firefighters, employees of the Red Adair firm at Houston, had planned to hoist an insulated keg of dynamite over the casing mouth this morning and detonate it in an effort to snuff out the flames.

The explosion killed Carl, Albrecht, 28, of Alice, Tex., and injured Benny Schooler, 28, of McCamey, and Donald Baxley, 21, of McAllen.

HUMPHREY

(Continued from Page 1) A Humphrey-for-president committee has been working on his behalf for months however.

Humphrey said everyone wants prosperity but it "must not be lopsided." He said "we all want peace" but it "must be enduring, must have deep roots."

He said that to win enduring peace "the forces of freedom and decency must wage a war on the common enemies of mankind: poverty, hunger, disease and illiteracy."

Humphrey is chairman of the Senate Disarmament Committee, a member of the Foreign Relations Committee, and a leading Senate authority on agricultural matters.

He said he has "taken a clear cut position on each of the major issues facing the American people" and will take definite positions on new ones as they may arise.

Bird sizes vary from 300 pounds for the ostrich to less than one-tenth of an ounce for the tiny hummingbirds.

Reed Infant Rites Today

Graveside services were to have been held for Randy Ross Reed this afternoon at 2 in Baby Gardens, Fairview Cemetery, with the Rev. Therman Upshaw, pastor of Central Baptist Church, officiating.

The infant, born Dec. 10 died Monday 8:34 p.m. in Deaf Smith County Hospital, Hereford.

He is survived by parents, Mr. and Mrs. D. R. Reed, who reside 15 miles west of Hereford; one brother, Edward Lewis; one sister, Patricia; grandparents, Mr. and Mrs. W. L. Ferguson of Pampa, Mrs. Robert L. Reed of Hereford; and great-grandmother, Mrs. Maggie McCathern of Pampa.

More Privacy For Agency Interviews

Interviews with Social Security representatives at the VFW Hall will be conducted under better conditions of privacy in the future, Hal Golden, manager of the Amarillo district office, said today.

Golden offered thanks to John Koonz, Pampa city manager, and to E. O. Wedgeworth, chamber of commerce manager, for their aid in securing two screens to divide interviewing space.

He said that in the past, interviewees were forced to discuss personal history information within earshot of others not concerned.

Admits Hit, Run

Cecil Dell Sanders, Lefors, was charged today with failure to report an accident after admitting being the driver of a vehicle that struck a parked automobile Monday.

Sanders told police that he was the driver of a 1955 Dodge pickup that struck a 1959 Chevrolet station wagon belonging to police officer P. E. Bailey in the 300 block N. Somerville, then left the scene.

Bailey's vehicle suffered approximately \$290 damage, while damage to the pickup amounted to about \$45.

Stolen Auto Found

A car stolen Monday night from the Alamo Hotel was recovered today.

Police Chief Jim Conner said the vehicle was found stuck in a mud-hole one-quarter mile east of the Clarendon highway, two miles south of Pampa.

When stolen the car contained an electric saw, a new .22 caliber rifle, electric sump, two tires and electric drill.

Conner said all the articles were missing except the electric saw. The car belongs to R. H. Hardin.

No Kiwanis Meeting

There will be no regular Kiwanis Club luncheon meeting Friday, but members may sign the attendance register at 12 noon in the basement of the Methodist Church.

Arthur Aftergut, club president, reminded directors today of the monthly meeting at Lovett Memorial Library Jan. 7.

BLAST

(Continued from Page 1) versity of California's Livermore Laboratory told a meeting of the American Physical Society that in underground explosions only seismic signals could be used for detection.

"It therefore becomes a question of what characteristics the seismic signals from earthquakes have which may help in the present or future state of knowledge to distinguish some of them from nuclear explosions," Brown said.

If a large-enough cavity could be constructed, Brown said, it would be possible to conceal a nuclear explosion from any international team established to detect secret blasts.

MESSAGE

(Continued from page 1) weren't expecting a comment on that."

He reported that after today's meeting with Persons and Moos the President wanted to take two days off from work. Although the temperature this morning was in the 40s, Hagerty said the President planned to play golf today.

Fined For Swindling

Kenneth M. Huckabee, 412 Ross was fined \$10 and court costs today in county court on a charge of swindling with a worthless check.

Huckabee was charged with passing a worthless \$9.36 check at the Hi-Lo Gas Mart Nov. 15. Resitution has been made.

As the bouffant hairdo goes out, it's succeeded by the hair-style with height. Whether wrapped smoothly or curled, the new look in hairdos is tall. Shown here are some examples by Antoine of Paris. His beehive silhouette rises high (left) and is puffed out at the back of the head. The hair shows soft waves rather than obvious curls. Very sophisticated is this version (center) in which the hair is wrapped into smooth, polished bands next to the face and combed high at the back. Modification of the high hairdo (right) is this pretty version for shorter hair. Hair is curled high at the back and combed into a half-bang at front. Basis for all of these new hairstyles is a permanent which supplies the necessary fullness.

DEAR ABBY...

By Abigail Van Buren

DEAR ABBY: I met a nice looking man about six years ago. He told me he wasn't married and I believed him. He gave me his telephone number and told me that if I ever called him and a woman's voice answered to hang up because it was his sister and he didn't want her to know his business. He said he loved me and he begged me to marry him. I was about ready to say yes when I was pulled into a big scandal. He was married and his wife was suing him for divorce and she said I was the cause of it. I didn't know this man had a wife. He's dirtied up my name in town. What can I do to him to teach him a lesson? I am 59 and he is 65.

RUTH MILLETT

"For every henpecked husband you can show me I can point out at least 10 chick-pecked mamas," says a reader, in reply to a recent column on henpecked husbands. If you want to know what a "chick-pecked mama" is, my reader explains that it is a mama whose children rule the roost. "These chick-pecked mamas are easy to spot," claims my reader. "You can usually tell them by such remarks as these: 'Joe says the children ought to do the dishes, and I guess he's right, but I've found it's easier to do them myself than to listen to them fuss.' 'Joe is going to raise the roof when he finds out I bought Susie another formal. But she said if she had to wear the same old dress to the next party she was going to stay home.' 'I really didn't approve of Anne's going to that out-of-town game with a boy I don't even know, but she said everyone was going and that I'm just old-fashioned, so I finally gave in.' 'I'll be up until 1:30 or 2 a.m. again, waiting for Peggy to get in from the dance. Of course, the school dances end at 12 but all the kids meet somewhere afterward for hamburgers.' 'I can't insist on Peggy's coming straight home when the others don't, even though it makes it hard when I have to be at work at 8.'"

thing at home. They say that unless parents are on welfare nobody pays room and board more. It seems like WE are paying THEM to stay with us. Are we crazy or are they? MA AND PA: They are crazy — like a couple of foxes. BOYS don't pay room and board — but MEN do. If your sons think they can get room, board and laundry for less than \$25.00 a week, let them try it.

What's your problem: For a personal reply, write to ABBY, care of this paper. Enclose a stamped, self-addressed envelope.

CONFIDENTIAL TO UPSET MOTHER: Don't believe everything you hear about "school" and "teachers". The public school doors are open to parents who wish to visit any time without notice. If you too had some parents prefer to stay at home and believe the worst

Leadership And Ability Make Feminine Volunteers Valuable To Community

By GAY PAULEY
UPI Women's Editor

NEW YORK (UPI) — Volunteer work has been part of the American woman's life since pioneer days. But she no longer is an amateur at doing for others," said Mrs. Oswald B. Lord. "She has turned pro."

Mrs. Lord, the United States representative on the United Nations Commission on Human Rights, believes this change is the most important one in the woman's world in the last decade, perhaps since World War II.

"The volunteer no longer is the 'lady bountiful' sharing her largesse indiscriminately," she said. She is "a professional who has to have training, know how to handle people, have sense of responsibility."

And her financial status has little to do with her ability to fit into some facet of welfare work and into community and national projects.

Mrs. Lord is this year's winner of the Eminent Achievement Award, presented annually since 1931 by the American Women's Association, a group of women in business and the professions.

In an interview before presentation ceremonies recently, Mrs. Lord talked of a woman's contributions in the last decade.

"I think," she said, "that the change in the woman volunteer must have started with World War II. Women by the thousands replaced men in industry and other women had to take their place to develop such things as day care centers."

"Today, women are put on boards of museums and hospitals and charity organizations, not just because they can contribute money, but for the leadership they can give. They have more time than men; they know how to shape policy."

Mrs. Lord, a slim attractive brunette with blue eyes, is the former Mary Pillsbury of Minneapolis. She graduated with honors from Smith College in 1927 and began her own career as a volunteer in social work in her home town. She moved to New York in 1929 when she married, and since has been active in a variety of projects — the Metropolitan Opera Guild, the Community Service Society, UNICEF, The National Health Council, Community Chest and Civil Defense.

President Eisenhower named her to the UN in 1955.

What directions does she expect woman's role to take in the 1960's?

"We women will go even further with our individual contributions to the community," she said. "We will participate to an even greater extent in national life, in all kinds of jobs. Political included."

"It is a rare girl now who doesn't want to prepare for a career as a volunteer or in a profession."

"When I went to Smith, I was the exception."

MATURE PARENT

By MRS. MUREL LAWRENCE

In a psychoanalytic session a patient accused herself of having been a very "sulky" child.

"When do you first remember yourself as 'sulky'?" her doctor asked.

"There's a picture of me in the family album taken when I was five years old," the patient said. "I'm sitting on a pony in the picture. We'd gone to the park and I wanted to watch some children sailing boats instead of taking the pony ride. But mama had the man put me on the pony anyway. That's when Papa took the picture."

"Whenever I see it in the album, it gives me a funny feeling. There I am in my white dress, my face set so sullen and sulky under my new spring hat. I can still hear mama saying, 'Can't you even smile for your picture, Miss Sulks?'"

"Had you ever ridden a pony before?" the doctor said.

"No," said the patient. "I'd never even seen one."

"Then perhaps," said the doctor, "you weren't being sulky at all but just frightened of riding the pony."

The patient stared at him—and burst into tears. "How do you know that?" she wept. "You're right, I was frightened. I was terribly frightened of the pony. But I knew nobody would listen if I said so. Nobody would listen."

I do not report this segment of a psychoanalytic session to suggest that all sullen children are scared of pony rides. I report it to suggest that a chronically sullen child is one who has given up all hope of our interest in his feelings.

And like the patient the child is no longer aware that he feels fear, hurt or anger but accepts our misjudgment of all his protesting feelings as ugly "sulkiness."

A NEW way to use holiday leftovers is always welcome. This turkey bake is not only an economical dish but memorable one.

Cook's Nook
Puffed Turkey Bake Proves Leftovers Can Be Wonderful

By GAYNOR MADDOX
NEA Food and Markets Editor

Let's make 1960 a year of better family eating. How? By reading well-edited newspaper food columns and new cookbooks to learn better ways to prepare old familiar dishes and recipes for newer and more interesting ones. A good working knowledge of the fundamentals of modern nutrition is essential to better family meals.

Leftovers can become delicious ingredients in interesting dishes if you use imagination. Here are two examples:

PUFFED TURKEY BAKE
(Yield: 6 to 8 servings)

One (no. 1) can condensed cream of mushroom soup, 1/3 cup water, 1 1/2 cups cubed cooked turkey or chicken, 1 1/2 cups leftover seasoned bread stuffing or packaged bread stuffing mix, 1/2 package frozen French style green beans, cooked and drained; 4 eggs, separated; 1/2 cup French fried onions.

Combine undiluted soup and water in a 2-quart casserole. Add turkey, stuffing and beans in layers. Beat egg yolks until light. Beat egg whites until stiff and fold them into egg yolks. Pile fluffy egg topping over layers in a casserole. Bake in a slow oven (300 degrees F.) for 40 minutes. Sprinkle onions over top and bake another 5 minutes. Serve immediately.

MACARONI BEAN BAKE
(Makes 4 to 6 servings)

One and one-half cups (6 ounces) elbow macaroni, 10 1/2-ounce can cream of mushroom soup, 4 ounces grated American cheese, 8-ounce can tomato sauce, 3 tablespoons catsup, 1 teaspoon kitchen bouquet, 2 one-pound cans kidney beans, drained; 2 ounces grated Parmesan cheese.

Use cooked leftover macaroni if preferred or cook according to package directions and drain well. Add soup and grated American cheese which have been blended together. Blend together tomato sauce, catsup, kitchen bouquet and mix with drained beans. In a well-greased 2-quart casserole, place half of the macaroni mixture, then half the bean mixture. Add a layer of macaroni, then top with beans. Sprinkle with Parmesan cheese. Bake in a preheated 450 degree F. oven until very hot and top is lightly browned, about 45 minutes. Cut in squares to serve.

TOMORROW'S DINNER: Tomato juice, puffed turkey bake, buttered carrots, crusty bread or rolls, butter or margarine, apple pie, hazelnut cake, coffee, tea, milk.

Polly's Quiz

By POLLY CRAMER

Dear Polly: I'm looking for new living-room lamps. I'm not mad about old coffee grinders or pitchers with ruffled lamp shades. But our living room is Early American with maple and pine furniture, print slip covers, a braided rug and white café curtains. So what about lamps?—Mrs. H. L. P.

Dear Mrs. H. L. P.: You're right. Coffee grinders are good for grinding coffee but they make poor lamps. You'll find brass, copper, pewter and natural wood lamps in the shops. These come in sound designs with plain drum shades. And they're always in good taste.

Dear Polly: My dining room furniture is old and sad. I thought of painting it but don't know if this is the right thing to do. What do you suggest?—Worried.

Dear Worried: You're on the right track. Painted furniture is popular once again. First, remove any gingerbread carving that's glued on and thus simplify the lines. You might use a satiny black, antique white, dark green or lacquer red.

Try marblizing design. Old design. Old china cabinets turn from sad to smart when the glass in

Try A CLASSIFIED

English Believed

King Henry VIII was given a blood disease because Cardinal Woolsey whispered in his ear so often.

Dear Mrs. M. C.: Parlor sets want out of style about the same time as antimacassars. You need to update your thinking. And have a little fun spending that money.

Start with a beige and green textured weave for your sofa. Have a pair of twin lounge chairs in green, beige and persimmon stripes. Now that you're really cooking, get rid of those drab tan walls. Treat them to a coat of pale, pale beige paint.

Then you're ready for some pale beige draw curtains with green-and-persimmon braid down each inside edge.

Know

Blood diseases CANNOT BE TRANSMITTED in any such manner but CAN BE REMEDIATED by consulting a reliable PHYSICIAN and doing as he suggests.

Red Griggs ★ the pipeline

The final NCAA football statistics show three men and one team hogging the honors for the 1959 football season. The team is, as you might guess, Syracuse. The three men are backs Pervis Atkins of New Mexico State and Chris Norman of Stanford, and end Chris Burford of Stanford.

The Syracuse team is the first squad in history to take the lead in five of the major departments—total offense, total defense, rushing, scoring, and rushing defense.

The awesome Orange gave way only to Mississippi in goal-line defense, Stanford in passing offense, Alabama in pass defense, and Brigham Young in punting.

Syracuse set a record for yardage advantage, gaining 451 yards per game while allowing only 96, for an advantage of 355 yards per game. They made 313 yards per game on the ground, and 138 yards average through the air. They scored 390 points, an average of 39 per game. The Orange allowed only 193 yards on the ground, for an almost incredibly low average yield of only 19.3 per game.

Even in the one offensive department Syracuse didn't dominate, forward passing, the Orangemen have the best clutch record. They threw the most touchdown passes, 21, and had the best completion average, .581.

Texas may have almost as rough a game in the Cotton Bowl as most Southwest Conference teams give them.

Ole Miss Goal-Line Defense Tops

While Syracuse hogged most of the honors, Stanford, Mississippi, and LSU also got into the act.

Stanford, with the passing combination of Norman to Burford, set an all-time record for the number of completions and the most passing yardage. The Indians completed 178 for 3,278 yards.

Norman was the nation's total offense leader, with 2,018 yards, and the passing leader, with 152 completions for 1,963 yards. Burford led the pass receivers, with 61 catches for 756 yards.

Mississippi had the best goal-line defense in more than 20 years, allowing only 21 points on three touchdowns and three extra points.

LSU was far behind. The Tigers also allowed only three touchdowns, but also yielded three field

Sun Bowl Matches Terrific Teams

In the individual departments, Atkins, New Mexico State's speedy tailback, was the outstanding man. He was the only player in the country to exceed 100 points in scoring, with 107 (although three others had exactly 100). He led the nation in rushing with 971 yards and a 7.4 average, and in punt returns with 16 for 241 yards.

Other leaders were Don Perkins of New Mexico in kickoff returns, with 19 for 520 yards; John Hall of Kansas in punting with a 45.8 average; and Pat Hall of Marquette in total yards run, with 395.

Several bowl-bound teams figure in national football statistics, but no teams, with the exception of Syracuse, appear so prominently in so many departments as Thursday's Sun Bowl game rivals, New Mexico State and North Texas State.

As if having the country's rushing and scoring leader isn't enough, New Mexico State also has the nation's number two man in total offense and number seven in passing; Charlie Johnson. He has made 1,684 yards, 1,449 of them through the air.

As a team, the Aggies are 13th in the nation in total offense, 13th in rushing, second in scoring, and seventh in forward passing. They've scored 332 points, and made 375 yards per game, 218 on

Shooting Keeps PHS on Top

SMU, A&M Meet In Tourney Finals

By KYLE THOMPSON
United Press International

HOUSTON (UPI) — Southern Methodist and Texas A&M, a pair of top-rated teams who've lived up to advance billings, square off tonight in the finals of the Southwest Conference pre-season basketball tournament.

SMU and the Aggies are so evenly rated that no solid favorite has been established for their championship clash which appears likely to involve into a scoring duel between Steve Strange of Mustangs and Carroll Broussard, the Aggies' brilliant sophomore.

The unbeaten Aggies, paced by Broussard and Wayne Lawrence, beat Texas 84-74 to move into the finals Wednesday while SMU advanced by downing Arkansas 67-56 before the second straight sellout crowd of 6,200.

In afternoon consolation round games, Baylor, led by 6-5 senior Carroll Dawson, beat Texas Tech 78-58 and Texas Christian overcame Rice 83-72. Baylor and Texas Christian will play it off in the consolation finals today.

Broussard put on another sharp-shooting show Tuesday by hooping 29 points to pace the Aggies' win, a performance that tied him with Texas Tech's Don Perkins

Sun Bowl Game To Be Broadcast

Thursday's Sun Bowl football game, between North Texas State and New Mexico State, will be carried at 2:45 p.m. over station KPND. Kern Tips will broadcast the action over an 18-station network.

Two former Pampa Harvester players will be going for opposing teams in the Sun Bowl. Robert Langford will be a starting linebacker for New Mexico state. Bill Kirbie is a tackle on North Texas' alternate team.

Cal, W. Va. Clash Tonight

By FRED DOWN
United Press International

A strong claim to the top national basketball ranking will be at stake tonight when California and West Virginia replay their NCAA title game in the finals of the Los Angeles Classic and Cincinnati faces Iowa in the championship game of New York's Holiday Festival.

The California - West Virginia game is rated a toss-up despite the Bears' 71-70 victory last night while Cincinnati is a right-point choice to top 13th-ranked Iowa, the surprise team of the Holiday Festival. The finale in Los Angeles features a personal duel between California's Darrall Imhoff and West Virginia's Jerry West but the question in New York is whether Iowa can keep Oscar Robertson from running amok.

California overcame a six-point deficit in the last minute and 35 seconds to win out eventually over Southern California, 65-61, in overtime. Imhoff scored a field goal and free throw in California's tying drive and then put the Bears ahead to stay, 63-61, with a layup in the overtime period. Imhoff, hobbled by three early fouls, scored 15 points while Johnny Werhas had 21 for Southern California.

West Virginia reached the title round with an 87-73 victory over UCLA, as West connected for 30 points. West scored 17 points during the first half which ended with the Mountaineers ahead, 41-38, and UCLA never drew closer than five points. John Berberich scored 17 points for UCLA.

Robertson scored a total of 77 points in Cincinnati's first two victories and needs "only" 19 to night to set a new Holiday Festival record. Iowa, which upset previously unbeaten New York University in the semifinal round, is expected to throw up an unusual zone defense to contain Robertson.

52nd Year THE PAMPA DAILY NEWS
WEDNESDAY, DECEMBER 30, 1959 5

Allen Wise Takes Free Throw Lead

A quick look at the shot chart shows why the Harvesters have managed to win nine straight games this year, despite the fact they are only one returning regular from last year's state championship team.

The answer can be summed up in two words — "good shooting." Although Coach Clifton McNeely has used reserves liberally in the last few games, the Harvesters have a shooting percentage from the floor of .473, and a .754 average from the free throw line.

The next test of Pampa's "shooting eye" will be against Denton here this Friday and Saturday. After the Denton series, Pampa opens its District 3-4A competition against loop favorite Borger, at Borger Tuesday.

In their last effort, against Quana last week ago, the Harvesters boosted their floor shooting average nine points, from .464, and their free throw percentage, five points, from .748.

Craig Winborn continues to lead Pampa in most departments. He is top man in total scoring, field goals, free throws, field goal percentage and rebounds. He's hit the nets for 192 points, an average of 21.3 per game, and has a floor shooting percentage of .562. He has accounted for 56 free throws, 94 rebounds, and 68 field goals.

Allen Wise is the only player to break Winborn's monopoly. The 6-2 post man has connected on 33 of 41 free throw attempts, for an average of .805 — five points better than Winborn's .800.

Guard Pat Carter is the number two man in scoring and field goals and the number three man in free throw percentage. Carter has tallied 137 points, an average of 15.2 points per game. He has made 58 field goals, and has a floor shooting percentage of .487. From the free throw line, he has a .750 average.

Phillip Gist is the Harvesters' number four scorer, with 53 points, two points less than Wise's third place total of 55. Joe Timms is the fifth scorer, with 48 points. Timms has a field goal shooting percentage of .429 and a free throw percentage of .706.

Hershel Terrell, who has been scoring in or near double figures in almost every game in which he's appeared, is the highest scoring reserve, with 42 points. He has a shooting percentage of .410.

Larry Stroud has scored 28 points during his limited playing time, and has the third best shooting percentage on the squad, .474. His free throw average, .533, is better than that of any regular, but he hasn't shot enough to qualify for the leadership.

Lester Stanfield has played for only a few minutes, but has been about as effective as it's possible to be in that length of time. He hasn't missed a shot yet, making three straight field goals and two straight free throws.

Don Curry has a perfect free throw percentage, with four-for-four, but has missed his only field goal attempt. Bill Neslage has scored 12 points, but his main claim to fame has been on defense. In his limited amount of playing time, he has stolen the ball from the opposition several times.

'Ring' Widens Title Split

NEW YORK (UPI)—The Ring magazine today widened the split in the middleweight crown.

It proclaimed Gene Fullmer the world's "outstanding" middleweight and dropped Sugar Ray Robinson to third place in its annual ratings, but it conversely continued to recognize Robinson as world champion.

Officially, Fullmer of West Jordan, Utah, is recognized as champion by the National Boxing Assn. and Robinson still is billed as champion in New York state and Massachusetts.

It was the first time in 17 years that the magazine dropped a champion in any division down to third place in the ratings. Freddie (Red) Cochrane, when we'll remember because of inactivity.

The Ring today ranked Fullmer and Spider Webb of Chicago above Sugar Ray because of the once-great champion's inactivity. Robinson had but one bout — a non-title affair—in 21 months.

Georgia To Carry Defense, Balanced Attack Into Bowl

MIAMI, Fla. (UPI)—Georgia's Sinkwich and Charlie Trippi developed, there were standouts. All-Conference quarterback Francis Tarkenton, a junior, led the Bulldogs in passing percentage.

Junior halfback Bobby Walden became the Bulldog workhorse and still averaged 60.3 yards per kick. Sophomore fullback Bill Godfrey led the Bulldogs in rushing. And halfback Bobby Townsend led the SEC in pass receiving.

Georgia's fine showing came as a surprise to just about everybody — including veteran coach Wally Butts who moaned in September that he had only losses, no gains, from his 1958 squad that posted a 4-6 mark.

Butts, starting his 21st season as Bulldog coach, had reasons for his pessimism: All-Conference fullback Theron Sapp and four top tackles had graduated, linebacking ace Dave Lloyd had turned pro, and the '58 frosh had been below standard.

While no stars of the magnitude of former Georgia greats Frankie Wilks Rolls 660

Mims, Tiger Meet Tonite

CHICAGO (UPI) — Middleweights Holly Mims of Baltimore and Dick Tiger of Nigeria clash tonight in the year's final Wednesday night TV bout.

Tiger, a comparative newcomer in American boxing circles, holds the British Empire middleweight title and was ranked a slight favorite over his more experienced opponent because of his aggressive style and knockout power.

Although 30 years old, Tiger has had only 30 pro fights, winning 19, losing nine and drawing two. Ten of 19 victories were by knockouts, and in his last Chicago appearance he scored a convincing triumph over Joey Giardello.

Enough to win," he said.

If they reach that potential New Year's Day, Missouri could be in for a mighty rough afternoon.

Citizens Bank In Tourney Win

PERRYTON — Citizens Bank advanced to the semifinals of the Perryton basketball tournament Tuesday with a 90-47 win over Borger Red-Mix. Citizens Bank had a 51-13 halftime lead, and had four men in double figures. James Lee scored 20, Dean Evans 19, Sam Condo 16 and Don Feagin 12. For Borger, Oates tallied 13.

Amarillo Takes Tripleheader

Amarillo teams made a clean sweep Tuesday night of a basketball tripleheader against Oklahoma teams. The Tascosa Rebels stopped Norman 47-37, Palo Duro's Dons whipped El Reno 64-53, and Amarillo high downed Stillwater 94-49. Amarillo now stands 9-3 for the season. Tascosa is 7-4, and Palo Duro is 10-2.
