

What does the cook-book say about making cream puffs?
It is most important to add the eggs, one at a time, to the flour and water mixture so you can control the beating process. By roasting coffee a few pounds at a time, Hills Bros. control the roasting process and secure an unusual, uniform flavor.

Millions
of tastes have approved
the matchless flavor of
Hills Bros Coffee

No COFFEE has so many friends in the great western empire as Hills Bros. A remarkable tribute indeed to Hills Bros. patented process of Controlled Roasting! For it is this precise method of roasting a few pounds at a time, in an even temperature, that gives Hills Bros. Coffee a flavor that is supreme in its deliciousness.

Let a steaming, fragrant cup tell you of the goodness of Hills Bros. Coffee. Each sip has a drink-some-more appeal such as you never experienced.

Ask for Hills Bros. by name and look for the Arab on the tin. Send for our beautiful free booklet, "The Art of Entertaining." Address Hills Bros., 2525 Southwest Boulevard, Kansas City, Missouri.

News Notes From Other W T Fields

Winkler County Wells

The Southern Crude Purchasing Co.'s No. 103 topped the lime the first of the week at 2630 getting gas show, and are drilling ahead a few feet.

The Gulf Production Co. is drilling on four of their locations and have two producers. They are now preparing to build two 80,000 barrel tanks near their big gusher for storage purposes, having cleared the ground and received part of the material.

The Llano well is running a string of 8 1-4 inch casing to 3094 feet and are to drill deeper. They cased off their oil show found a few weeks ago as it failed to show big.

The Champlin well is shut down with the pipe frozen and are waiting on a casing crew.

The White Eagle is also shut down with the pipe frozen and are working to get it loose.

The Humble Hendricks well is drilling around 750 feet fighting their way through the heaving sand driving their pipe as they go.

The Pure Oil Co. No. 2 is waiting orders to cement their casing. The No. 1 location is also shut down and are fishing for their underreamer they lost the first of the week, recovered it, and lost it again.

The Independent well No. 1 pumped forty barrels of oil the other day, and have a small well. The No. 1-A is fishing for tools, and No. 2-A is waiting on tools.—Pecos Enterprise

Test Well in Sterling County

The drill is now going in lime around 1100 feet at the Little No. 1, 1-2 miles southwest of here. It is only a matter of days when the depth of the pay sand will be reached.—Sterling City News-Record.

Crane County Oil News

A number of completions and many new locations were made in the University and Gulf-McElroy Oil fields last week.

The big well of the week is the Gulf-McElroy No. 12, which came in with a flow of 2375 barrels the first twenty four hours, being pinched back eight hours of this time. It is now making a natural flow of 200 barrels per hour, making it a five thousand barrel producer.

The Magnolia Petroleum made four completions during the week. Hardwick-University made four completions during the week. Hardwick-University No. 4 flowed 1200 barrels the first twenty-four hours. O'Keefe University No. 7 swabbed 800 barrels. O'Keefe-University No. 9 flowed 275. Hardwick-University No. 7 is drilling at 200 feet. Hardwick-University No. 9 is rigging up. Hardwick-University No. 8 is rigging up. Lassiter No. 4 is also rigging, and Lassiter No. 7 is rigging.—Ector County News (Odessa).

Location in Howard

Wichita Falls operators are reported to have made location in Howard County, in section 42, block 31, township 1 north, T. & P. Ry. Co. survey. The other reported location in Howard County is by Denver and Wichita Falls operators, approximately in section 3, block 34, township 3 north, T. & P. Ry. Co. survey. Six thousand acres are under lease on the line of Howard and Martin Counties.—Dallas News.

Marland Buys in Howard

Marland Oil Company has paid \$20,000 in cash and \$15,000 in oil for sections 10, 11, 14 and 15, block 33, township 1 south, T. & P. Ry. Co. survey in Howard County.

Marland also has bought the northeast quarter of section 23, township 1 south, T. & P. Ry. Co. survey, at \$7.50 an acre, and section 34 and the southeast quarter of section 38, block 32, township 1 south, T. & P. Ry. Co. survey. The price was \$15 an acre.—San Angelo Standard.

Seismograph Proves Existence of Oil Dawson, Andrews, Gaines, Borden and Lynn Counties in the South Plains are to get oil tests. The Humble Oil and Refining Company has worked out of Lamona for the last two months making torsion balance surveys in these counties. The Texas & Pacific Coal and Oil Company is now surveying the north part of Dawson and the south part of Lynn County. The Permwell Company

SICKLY, PEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

CUNNINGHAM & PHILLIPS

has a contract for a 3000 foot test, 14 miles northeast of here. Westheimer of Ardmore, Okla., is drilling 33 miles west of here in Gaines County. Some 30,000 acres have been leased in Dawson County and many times this amount is blocked in adjacent counties, according to local oil leasers.—Amarillo Daily News.

New Wildcat for Reeves County

Making of a location on the Edging ranch twenty miles southeast of Pecos, means the testing of an entirely new area in Reeves County, where no wildcats have been drilled before. The nearest wells is the Benedum-Trees some thirty miles south.

The Deep Rock well in western Reeves is drilling in the Delaware sand with a total depth of 3750 feet. They have only a few feet of sand in their log so far.

The Humble Oil Co.'s Flores No. 1 on the Reeves-Jeff Davis line is cleaning out the hole, which started crooked, making a 24 inch hole of the test. They have cleaned out down to 200 feet.—Pecos Enterprise.

Another Test for Glasscock County

The Landreth Production Company is building the derrick for its No. 1 Houston in Glasscock County, 330 feet from the east and north lines of the northwest quarter of section 12, block 35, township 2 south, T. & P. Ry. Co. survey. Landreth acquired 28,000 acres with a drilling obligation from Mann & Freel of San Angelo, who retain an interest in the block.—Dallas News.

Oil Industry Not in Bad Shape

"There is only one sore spot in the oil industry today and that is Seminole, Ok.," J. D. Collett of Fort Worth told a gathering of Dallas and Fort Worth oil men at a luncheon at the City Club Friday.

"The trouble with us oil men," he continued, "is that we are giving the public a false impression about our business. This industry has passed through several worse crises than this during the last twelve or fifteen years. The oil industry really is in much better shape than the public has been led to believe from the actions of some oil men and from the matter that has been printed in the papers."

"Another thing that is wrong with us is that we are a bunch of bad merchants. The prices of most commodities in 1925 were all the way from 50 to 100 per cent higher than they were in 1913, but gasoline, our principal product, was only 18 per cent higher last year than it was the year before the World War started. And this is true in the face of the fact that the consumption of gasoline in 1926 was nine times as great as it was in 1913."

Mr. Collett is president of the Texas division of the Mid-Continent Oil and Gas Association, but he indicated that he was not speaking in his official capacity, but only expressing his personal views.—Dallas News.

Alarm clocks are worth the money when you need one. . . . Cunningham & Phillips.

NOTICE OF SALE OF REAL ESTATE

THE STATE OF TEXAS
County of Howard

In the District Court of Tarrant County, Texas.

H. H. Hardin, plaintiff, against Barbara E. Bauer, defendant. By virtue of an order of sale issued out of the district court of Tarrant County, Texas, on a judgment rendered in said court on the 18th day of April A. D. 1927, in favor of the said H. H. Hardin and against the said Barbara E. Bauer, I did on the 24th day of May A. D. 1927, at three o'clock P. M., levy upon the following described tracts and parcels of land situated in the county of Howard, state of Texas, and belonging to the said Barbara E. Bauer, to-wit:

Six and one-half acres of land out of the SE quarter of section 42 in Block 32, Township one North, T. & P. Ry. Company survey, located in Howard County, Texas, and described by metes and bounds as follows, to-wit: Beginning on the S line of Sec. 42, also on north line of Section 43, Blk. 32, Township, One North in the Center of Locust Street which joins on said section line for the beginning of the survey; Thence North 13 degrees West 350 feet to a stake and a stone mound; Thence North 77 degrees East 760 feet; Thence South 13 degrees East 380 feet to a point in section line where Beal Street connects with section line, stone mound for corner; Thence South 77 degrees West 760 feet to the place of beginning. (The property as above fully described, the defendant has an equity therein valued in the sum of \$1,000.00).

And on the 5th day of July, A. D. 1927, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said Barbara E. Bauer in and to said property.

Dated at Big Spring, Howard County, Texas, this 25th day of May, A. D. 1927.

FRANK HOUSE,
Sheriff of Howard County, Texas.

IMPOSSIBLE TO CAMOUFLAGE

Mr. Ford at one time is reported to have said that he did not object to the prevalence of Ford jokes. Instead, he regarded them as an indication of the intimate and affectionate place his cars held in the hearts of the people. Hence we hope we

may be pardoned for inserting other Ford jokes.

A young man who had taken his car out on a cold wintry day, covering the hood with a blanket. A little boy standing by and looking on, spoke up: "Don't cover it with a blanket. I saw what it was."—Ford News.

**Nurse Advises
BREAK, RUN-DOWN
WOMEN
To Take Cardul**

have known of Cardul for twenty-five years," says Mrs. M. Satterwhite, 1072 Harrison Ave., Houston, Texas. "During that time I have taken it several times and have frequently recommended it to others for it is a splendid remedy for what I told them, and I am glad to give people the benefit of my experience. I have been a nurse for several years and have often come in contact with patients who were run-down and weak. Often I have told them of Cardul, and the way I had been helped after taking it, and advised them to give it a try. Many of them have since written me for what I told them, and I know that other women know about it, too. I took Cardul because I was run-down. I had no appetite and was weak and listless. It helped me to keep going under such conditions, and I looked for something which would help me. I read of Cardul and decided to try it. After taking it, I improved much. I have taken it whenever I needed a tonic." Sold by all druggists.

SNODGRASS, "KING OF THE IVORIES," SHOWS ABILITY
Harry Snodgrass, formerly radio artist, and recognized as "King of the Ivorys" had a capacity audience at the R. and B. Lyric theater Monday evening and gave a delightful musical program of piano selections. Snodgrass showed an abundance of ability in his playing. He played popular numbers which seemed to please his audience very much and each number was responded to with hearty applause.
With Snodgrass, was Witten, his radio announcer from station WOS, Jefferson City, Mo., who helped to make Snodgrass famous. Witten announced the program through a transmitter and the usual performance as over radio was given.
Snodgrass gave his own interpretation of "Three O'Clock in the Morning," and played a number of catchy melodies, fast, but with clear enunciation of all the notes.
Besides the musical program the theatergoers enjoyed "The Tender Hour," featuring Ben Lyons and Billie Dove, a Fox News and Felix, the Cat.
All kinds of money to loan on City Property, valuation on fifty per cent of lot and improvements. American Trust Co., Clyde Thomas, Agent. 9tf
Razor blades and razors. Cunningham & Phillips.
Homan and Joy Stripling lots 6 and 7 in block 2, Morning Side addition.
Mr. and Mrs. J. W. Emfinger sold to O. O. Murray 160 acres of land out of survey No. 2, block 32, tsp. 2N.
Mr. and Mrs. D. A. McClure sold to Nando Henderson lot No. 3 in block 5 in town of Coahoma.
D. W. Logan sold to Nando Henderson lot 17, block 3 in Coahoma.
Mr. and Mrs. Charles C. Foster sold to Fannie Bell Ashton, Clara Foster, Sam Foster and S. E. Foster E 140 acres off SW 1-4 section 17, block 31, tsp. 1N.
Mrs. Bell Ashton et al sold to Charlie C. Foster the W 20 acres of SW 1-4 section 17, block 31, tsp. 1N.
L. C. Harrison assigns to Prairie Oil & Gas Co. lease on S 1-2 section 38, block 34, tsp. 3N.
L. C. Harrison assigns to Prairie Oil & Gas Co. lease on W 400 acres of section 12, block 34, tsp. 2N.
Mr. and Mrs. W. C. Hogan lease to the Prairie Oil & Gas Co. the NW 1-4 of section 22, block 32, tsp. 2N.

**A BOOST FROM CITIZEN TO THE
CITIZENSHIP OF BIG SPRING**
Big Spring Herald,
Mr. Editor:
Knowing how hard and faithful you have worked for the upbuilding and the betterment of Howard County and Big Spring, I want you to know that there is one man who knows that Jordan and Hayden, publishers of the Herald, for many years, have never let a time pass by that they did not do their best to show the advantages of their town and county. Their efforts have been rewarded as the vast improvements in the town and county will show. I would like to see Big Spring a city of twenty thousand, and if the oil fields in the county turn out as good as E. W. Marland and other prominent oil men have predicted it won't be long until Big Spring is a city with that population. Big Spring is based on a solid foundation. Churches and schools are the pride of the town. No city of its size has done more for schools than has Big Spring, and for churches—no city has it bested in churches. Every denomination has its own church and to take Big Spring as a whole, the citizenship is law abiding and I am proud to live among them. Now, as to the element that are not lawabiding most of these have drifted in here from other places. But our wideawake sheriff and his bunch of fine deputies are on the trail of the lawless and is dealing them misery. I am speaking from experience and observation of twenty years in your midst, that the present sheriff is working harder to suppress crime in this county than any sheriff for years. He is going night and day, and if he had the cooperation of the people he would clean it up. I know of but one sheriff in my stay here that had the cooperation of the people and that was Sheriff Satterwhite. He made good and if we all would get behind our sheriff and help him you will see that my predictions are right. He will clean our county of

lawbreakers. Don't wait two or three days after a law breaker has left town and then come up with a tale that you don't see why the officers did not get him—that is the way some people do. The officers can't be everywhere, and the people are I know that Mr. House would appreciate your assistance in putting down crime. I have heard a number of strangers say after being in this

city a short while that Big Spring was the quietest and most law abiding town they had visited and that people were more friendly and sociable than most other towns. Years for Big Spring first, last and all times. M. W. Harwell.

**When It's 100°
WHITE SWAN
TEA**
Is At Its Best Iced!
**White Swan
TEA** Drives Fatigue Away!

ONLY PART HUMAN

The attorney general of Indiana is being tried by the press for violation of the Volstead Act. The facts are: the Attorney General had two children sick with pneumonia and typhoid. They were hovering between life and death. The doctor prescribed whiskey. The father couldn't get it legally—but he got it. He admitted he procured it in violation of law.

Now comes Dr. John Roach Stratton, pastor of Cavalry Baptist Church of New York City, and says the Attorney General should have let those children die rather than violate the Volstead law. Then there are others who say the children did not need whiskey—but these children were not their children. The father was not a doctor, and he could rely only on what the doctor said about it; therefore, he got the liquor and both children are getting well.

If these had been your children, what would you have done? If you were human, everybody knows what you would have done. Of course, Brother Stratton is only part human and he would have let them die. Everybody, except Brother Stratton, is happy because the kiddies are getting well. The Attorney General is acquitted, so far as we are concerned.

—Sterling City News-Record.
We have this Dr. Stratton type in every community—posing as Christians—but doing christianity more harm than a thousand atheists. When a fellow gets too good he usually wants to make the other fellow follow in his footsteps or get off the earth.

Wayne Cook has returned from Abilene where he was a student in McMurray College to spend the summer vacation in this city with home-folks.

Misses Thelma and Grace Mann visited friends in this city this week.

NO. 899

Guardianship of Frances Payne, et al., Minors.

In County Court of Howard County, Texas.

Notice is hereby given that I, Stella Payne, guardian of the estates of Frances Payne, Tommy Payne, Alexander Payne and Raymond Earl Payne, Minors, have filed my application in the above entitled and numbered cause for order of the County Judge of Howard County, Texas, authorizing me as the guardian of the estates of said wards to make a mineral lease upon such terms as the court may order and direct, of the following described real estate belonging to the estates of said wards, to-wit:

1-2 interest in sections 22 and 27, in Block No. 34, Tsp. 3-North, Certificate Nos. 2192 and 2195, respectively, T. & P. Ry. Co. in Howard and Martin Counties, Texas.

Said application will be heard by the County Judge of Howard County, Texas, at the court house in the city of Big Spring, Texas, on the 14 day of June A. D. 1927.

Stella Payne,
Guardian of the Estates of said Minors.

Back to Normal!

Texarkana, Texas.—"I was in a serious condition of health when I arrived at middle life and as I had heard of so many being wonderfully benefited by Dr. Pierce's Favorite Prescription at that age I decided to try it. It proved to be the proper medicine and I cannot praise it too highly for the benefit I received, for it relieved my aches and pains—saved me a lot of suffering, and left me in good health which I still enjoy."—Mrs. C. E. Shipp, 307 Oak St. All druggists. Tablets or liquid. Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of the tablets and write for free advice.

BIG INCREASE IN OUTPUT OF COSMETICS SINCE WAR

Value of Perfumes and Toilet Preparations Made in United States Placed at \$141,488,000.

New York.—The output of perfumes and toilet preparations in the United States has multiplied six times in the last ten years, according to a summary of progress made public by the American Chemical society.

Chinese women, it was disclosed, are rebelling against native products and are buying American wares to enhance the beauty of their hair and nails.

The area of United States manufacture is confined almost wholly to Eastern and Midwestern states, New York being far in the lead, with Illinois second. The number of plants is between 500 and 600.

Two prominent causes of expansion are "the much greater addiction of girls and women to cosmetics of all kinds than before the World war," and "the rise of artificial and synthetic aromatic compounds."

Cream, rouges, etc., according to the latest figures available, rank first in annual value, their production aggregating \$34,178,000. Dentifrices are second with \$25,498,000. Other classes are rated as follows in a total output of \$141,488,000:

Talcum and other toilet powders, \$21,423,000; perfumery and toilet waters, \$20,544,000; hair tonics, \$9,490,000; hair dyes, \$1,616,000; other cosmetics and toilet preparations not reported by kind, \$3,037,000.

"Our foreign sales of face powders, rouges, creams, etc., have developed promisingly in Latin American countries, led by Cuba," says the summary.

"Men as well as women in these countries are much given to the use of various scents and lotions, and the market possibilities are correspondingly increased.

"In the Far East, Japan has been gradually becoming familiar with our toilet creams and powders, and the American colony in the Philippines has made our trade with those islands of some importance.

"The specialty of the United States, in which it holds the acknowledged leadership in practically all markets, is dentifrices.

"Last year we supplied the world with dentifrices valued at \$5,382,000. By far our best customer for these articles ordinarily is England, which takes nearly a third of the total."

Sea Tragedy's of '60s

Bared in Legislature

St. Paul, Minn.—A tale of a clipper ship that went down in the China sea in the late '60s with loss of all on board save a baby, who grew to manhood and died in Minnesota without known heirs, was related to the state senate finance committee.

A delegation of citizens from Currie, Minn., appeared before the committee to endorse a bill providing that the \$3,500 estate left by the survivor of the disaster be turned over to the town.

The identity of the ship that sank was never learned, the committee was told, but the crew of a whaling vessel which ran into pieces of the wreckage found the baby lashed to the mast.

The whaler took the infant to Korea. When he was twelve years old he came to the United States as a cabin boy on a ship and eventually drifted to Currie, where he took the name of William Hendricks. He never was able to learn who his parents were nor how he came to be on the ship.

Child Artists in Paris

Becoming More Numerous

Paris.—Child art is increasingly common in Paris exhibitions. Lately there have been displays devoted entirely to the younger set. The latest of these displayed water-colors by children from eight to eleven years old from all over France.

Some critics say they see much fine art in the young idea. Others are more conservative. All agree the children do remarkably well for their age. A few caustic ones observe that a child of ten should have little difficulty in producing things as easy to look at or to understand as many pictures made by their elders that get wall space in the large exhibitions.

Mark Historic Spots

London.—Simple artistic road signs revealing hidden historical treasures of English villages and towns are being erected throughout the country.

This Woman Insists That Her Age Is 160

Constantinople.—The Turkish feminist movement has reached the stage where even the claim to being the oldest living Turk has been taken from the mere man who long held it. Zuro Agha, whose age is given as one hundred and fifty-three years, has ceded his longevity title to Fatma Hanem, who has just arrived at Angora from the Thracian wilds, claiming her age to be one hundred and sixty years. Fatma Hanem's ten children are dead, but she has many great-grandchildren living and one four-year-old great-great-grandchild.

NEW BARBER SHOP OPENS

Less Thomas has leased the building formerly occupied by the Bankhead Restaurant on East Third street on the Bankhead highway and this week opened up a four room barber shop in the east half of the building. The building has been overhauled and repaired and all of the equipment placed in the shop is new.

Mr. Thomas is well and favorably known in Big Spring, where he has been in the tonsorial business in former years. His ability is well known and this neat little shop will be a popular place for a long list of satisfied patrons.

The four barbers who will work here are: Abner Thomas, Polie Sanders of Wichita Falls, O. H. Harding and Less Thomas.

The regular meeting of the city commissioners was held Tuesday night but only routine business came up for consideration.

John Schram left Wednesday night for a stay in Hot Springs, Ark. for the benefit of his health and from there will go to Pennsylvania for a visit with relatives.

Marriage licenses were issued to Fred Everett and Natalia Puga on June 11.

A wonderful line of Wrist Watches to select from for the graduate—at Wilke's Jewelry & Optical Shop.

W. O. Kent, of Abilene was here Wednesday in the interest of the Abilene Morning News.

Less Whitaker of Amarillo is working on a proposition to interest Amarillo capitalists in piping gas to Big Spring.

Mrs. W. E. Gilliland and daughter, Miss John of Baird, were guests in our city this week, visiting Mr. and Mrs. Dos Carter.

A. W. Daugherty returned Wednesday from Abilene and has just about decided to locate in Big Spring.

Mr. and Mrs. Dell Hatch returned last Thursday night from a several weeks visit with relatives and friends in Dallas and Waco.

Prickly heat powder Cunningham & Phillips.

K. R. Woodford of Dallas was a visitor in Big Spring last Friday.

Mr. and Mrs. T. H. Johnson and Mrs. A. G. Hill of Fort Worth visited Andrew Johnson and family in San Angelo last week.

Mr. and Mrs. Tom Ashley and Mr. and Mrs. J. L. McWhirter returned Wednesday evening from a hunting trip.

Mrs. Mattie Gallemore, Adolphus Gallemore and Mrs. Lianna Mae Knans spent Sunday in San Angelo visiting relatives and friends.

Mrs. G. E. McNew and daughter, Frances, returned the latter part of the week from Fort Worth, where they have spent the past nine months. Miss Frances has been attending Texas Christian University.

BAPTIST NOTES

The good rain that has fallen today will be of special interest to Baptists as it will provide much water for their convenience. Every one should thank God for the rain and press forward in His service to greater and greater victories.

Brother Sullivan filled his regular appointment at Prairie View Sunday. The writer was with them at the evening service and greatly enjoyed this privilege. This is a splendid country church with a good house well lighted and a fine group of people.

The Revival meeting conducted by the First Baptist Church of Big Spring with Dr. A. A. Dunkin, of Dallas, doing the preaching and Dow Moody, Home Board Evangelistic singer, in charge of the music, came to a close Sunday night. There were sixty five received into the fellowship of the First Church.

Brother Mason is with Fairview in second week of meeting and reports that the attendance is good.

The writer closed meeting at Vealmoor Sunday. This is a young church in a newly settled community. They have a splendid opportunity for future growth. Brother Richburg was with us here Sunday and spoke to a full house at three o'clock. He brought a very helpful message.

The writer is to be with Pastor Conder McGraw in a Sunday school and B. Y. P. U. Institute at Greenwood beginning Monday night. Bro. McGraw will teach a class in B. Y. P. U. work and I will have a class in Sunday school work.

The Worker's Conference of this association will convene on Tuesday after the fourth Sunday at Knott. The executive board will also meet at this time, having at its last meeting voted to have a regular meeting at each Worker's Conference.

The B. Y. P. U. Convention meets with the First Baptist Church, Midland, at 3:15 p. m. Sunday, June 26.

Let us remember these meetings and make our plans to attend by doing so we will be helped and will help some one else.

Will appreciate it, if some one in each church will send me news items of interest concerning your work. My address is 404 Douglas Street, Big Spring. L. A. Thigpen, Associational Missionary.

OIL MEN—We appreciate your trade and treat you 100 per cent square. Wilke, Jewel and Optician.

Robin Goes Bobbin'

With Key to Bank

Columbus, Ind.—The key to the Citizens National bank at Hope was stolen by a robin recently and the robin was chased by a posse of citizens of the town until the key was recovered. Joseph A. Spaug, president, closed the bank and went to the home of Henry Simmons, caretaker of the bank building, to leave it with him, as is his daily practice. Mr. Simmons was in the dooryard at his home and placing the key on the top of a stone post. Mr. Spaug called to Mr. Simmons that he had left the key on the post. Mr. Spaug turned to depart when a robin swooped down upon the post, and taking hold of a string to which the key was attached flew away with it. Mr. Spaug gave an alarm that aroused citizens living in the neighborhood who, with Mr. Spaug and Mr. Simmons gave chase, finally harassing the robin to an extent that it dropped the key, which was recovered.

HISTORIC TREASURY MONEY ROOM WILL BE MODERNIZED

Equipment in Use Nearly Sixty Years Will Be Replaced With Up-to-Date Facilities.

Washington.—With appropriation by congress of \$20,000 to supplement a previously authorized expenditure of \$10,000 for modernizing the cashroom of the treasury, which handles more money daily than any other banking room in the world, equipment in use nearly 60 years will be replaced with more efficient up-to-date facilities.

Ever since it was formally opened, March 4, 1869, when the inaugural ball for President Grant was held there, the cashroom has been recognized as one of the most beautiful chambers in any government building, being finished in eight kinds of marble and having a solid bronze balustrade midway between floor and ceiling.

Marble counters which have survived from the beginning will be left as they are, under the scheme of renovation, but the heavy mahogany and glass fixtures will give way to modern bronze equipment, the antiquated iron wire cages for the tellers will be changed and a better lighting system will be installed. At present the paying teller, who on a normal day must pass out \$1,500,000 to government disbursing officers and local banks, is in such cramped quarters that he must start work in the morning standing in the midst of great piles of coins in bags.

Daily deposits which come to the receiving teller, made up of all sorts of government revenue, such as postal and tax receipts, amount to \$12,500,000, while the change teller handles approximately \$300,000 in units from 1-cent pieces to \$10,000 bills, and the paying teller cashes from 5,000 to 15,000 checks.

In a vault adjacent to the cashroom, under the personal supervision of Charles J. Gates, the cashier, is stored the nation's reserve of about \$1,800,000,000.

It occupies little space, considering the amount, and does not become "cash" until it is transferred across a wall into the money vault. The longer paper currency can be kept in reserve, the better "seasoned" it becomes and the longer it will be able to stand the strain of being handled, once it gets into circulation.

Gwinnett's Ghost Leads to Long-Lost Documents

Atlanta, Ga.—The ghost of Button Gwinnett, one of the signers of the Declaration of Independence, has come back to help Georgia recover valuable historical documents lost for a century or more.

Ever since the state filed claim in New York court to a will, which carries the signature of Gwinnett, sold at an auction last summer for \$22,500, hundreds of the papers have been returned almost as mysteriously as they were taken, says Miss Ruth Blair, state historian.

"No questions asked" is the one condition most of the persons asked in turning the documents. Others mailed them in anonymously.

The Gwinnett will had been in the state's files at one time, the attorney-general contends, and was reported lost about 25 years ago.

French Revive Theory That Names Rule Lives

Paris.—Compelling children to grow up "good" by giving them the right sort of names is an old theory given fresh attention. A lawsuit wherein judgment was obtained against an attorney who neglected to prosecute a suit for plagiarism against a rival, brought out these "good" names:

Albert, Alphonse, Pierre, Gustave, Jacques, Paul, Henri and Louis, among many others, for boys. Girls preferably should be christened Jeanne, Agathe, Marie, Berthe, Claire, Genevieve, Therese.

The names banned are Medard, Joseph, Fernand, Benoit, Eldon, Eugene, Zee and Helene.

FANS GIVEN PLENTY OF THRILLS LAST FRIDAY NIGHT

Billy London, the Big Spring favorite, and Yaqui Joe, the sensational Yaqui Indian wrestler from Sonora, Mexico, gave the local fans some real excitement in their finish wrestling match last Friday night at Miller's wrestling arena. The match was no sugar game. From the start to finish both parties used every tactic to down his opponent, and during the first and second falls gave the fans one thrill after another, and the match during these two falls was the most scientific one that has ever been presented on the local mat. The Indian appeared to have the edge on the local grappler throughout the match and presented one of the most wonderful exhibitions of scientific wrestling that has even been demonstrated here and it is believed by the local fans that he would have been the winner had not the match ended as it did. Yaqui Joe gave the fans a new and novel hold when he secured the first fall by using one of the most difficult holds known to the game when he applied a Japanese flying toehold on the local boy after twenty-one minutes of real nip and tuck wrestling. The Indian took the local grappler by surprise when he tripped him off his feet and slid under him to gain this hold with his legs and forced him to pat the mat to secure relief from this hold which is a combination of a toe hold and a leg scissors, applied while his opponent is in the air. The Indian claims that it took him two years of hard work to master this hold.

Both came back with a desire to win in short order and the local bender used a series of flying mares to secure the second fall in thirty-one minutes in which he had the Indian groggy. The match up to this time was full of pep and clean and above reproach, and when the local boy applied several Jui Jitsu tactics on his opponent the Indian asked the referee to stop same, which he failed to do, as in the past few matches that were held here these tactics were allowed, as they furnish the fans plenty of laughs, and are demanded by both fans and fannettes, and the man that has both wrestlers calling his Papa, was trying to please the crowd, as well as the two contestants. The Indian warned London to stop his rough tactics of gouging him in the back and sides and when he failed to stop the Indian took the matter in his hands and forgot for the next few minutes the art of wrestling and adapted the use of his fists, and both parties gave the fans an exhibition of real slugging, and later went to the mat choking each other, and at this moment Matchmaker Faust crawled into the ring and stopped the match, waving both men to their corners, and as the crowd's and the referee's opinion were different as to which one started the choking and in fairness to both parties he ruled it no contest; his decision was criticized by some and others agreed that he did the best that any man could do under the circumstances. The proper ruling would have been to disqualify the one that started the rough stuff, giving the fall to his opponent, and as long as there was a doubt in the minds of himself and the fans he adopted the safest course.

Matchmaker Faust says that this will be the last time that such a thing happens in the matches that he will stage in this city, and states that he will instruct the referee before the fans the rules of the game and will clearly demonstrate to him and the fans the holds that are barred, as he loves good clean sport at all times and assures the fans that all matches will be free from any rough tactics, and will ask the fans to name the referee in future matches. The semi-final, a 15-minute wrestling match between Albert Hartman and Frankie Segal gave the fans some real sport, and lots of laughs. Both boys used plenty of

HOWARD COUNTY LOOKS BETTER THAN EVER

Rev. James Willie and wife returned last week from the great irrigated district in Colorado where they had been since last Fall. Rev. Willie states he is mighty glad to get back and is better pleased with Howard County than he has ever been before. He said with all her sandstorms, drouths and other disadvantages Howard County offered more opportunities to the poor man than any section he had ever visited. Right now with the drouth on and the general late conditions of planting prevailing he is willing to predict that we are going to make it thru better than many sections. In the section where he has been living since last Fall, which is under irrigation and where they do not want to see a rain, they are in worse condition than are the people of Howard County.

They got nothing for their fruit crop last year after deducting the freight and cost of gathering the fruit, and are finding a very poor market for their vegetables this year. With the heavy expense accounts and their high priced land they are worse off than we are and there are very few land owners who would not be willing to trade their irrigated farms—including the heavy mortgages on same—for West Texas land, sight unseen.

As he views it, the Big Spring country is a much better country for a poor man than any irrigated section under the sun. After trying out West Texas, Rev. Willie contends that nine years out of ten any man who will get up and work and not be easily discouraged will come out alright.

West Texas is a mighty fine place after you get used to it and it is difficult to be satisfied anywhere else.

strength and gave each other plenty of trouble in breaking their holds. Hartman secured the first fall in six minutes with a hammer lock, and Frankie took the second fall in three minutes with a half nelson hold, both of the boys came in for their share of the applause and when the time limit caught them, they were doing some real tough scuffling trying to pin each others shoulders to the mat.

The two boxing exhibitions between the youngsters were greatly appreciated and the boys showed some nice science.

IS IMPROVING IN HEALTH
Mr. and Mrs. T. H. Johnson are in receipt of a letter from their daughter, Miss Rose Johnson, who is in a sanitarium at Banning, Calif., and the letter brought them the glad news that she was now able to be up one half hour each day. Miss Rose has been under treatment there the past eighteen months and has been confined to bed the entire time. Now that she is able to be up a short time each day, the doctors believe that she will regain her strength and is on the road to recovery. Her many friends in this city rejoice with Mr. and Mrs. Johnson at the receipt of this good news and hope that Miss Rose will soon be restored to perfect health.

City and farm land loans—long time and low rates, with least of red tape. Clyde E. Thomas, Agent, 39tf

BOY SCOUTS WILL RECEIVE CERTIFICATES AT MEET TONIGHT
The members of the First and Second Troops of the Boy Scouts will receive certificates at the regular monthly meeting at the Y. M. C. A. to be held this evening (Friday), June 17 at 7 o'clock. J. M. Manuel, scout master, will present the certificates to the boys. All are urged to be present.

On last Friday evening the Scouts in Troops One and Two played an interesting game of volley ball on the Y. M. C. A. court, preceding their regular business meeting. J. M. Manuel refereed the game.

The American Railway Express Co. has had an elevated concrete sidewalk built in front of their office here. As one had to be quite active to vault the sea wall and climb a flight to reach the express office the improvement is indeed appreciated by the patrons of the company.

For FLOORS you need a TOUGH FINISH

LOWE BROTHERS FLOOR ENAMEL has the quality of toughness. It sturdily resists scuffing on kitchen, hall and bathroom floors. It is easy to clean. **LOWE BROTHERS FLOOR ENAMEL** has an unusual spreading capacity that makes it very economical. It works easily and dries overnight to a smooth even finish. Also makes an excellent finish for kitchen walls and woodwork.

THOMPSON MAKES RECORD IN "CAL."

Stanley Thompson is but 19 years of age, Cohan explains. He'll be a punching heavyweight if he doesn't get hurt for he loves to fight. Cohan wants him to change his name to Young Jack Delaney. Poor suggestion. Stanley Thompson will mean just as much if the young man keeps on delivering. More, perhaps, for it is distinctive. Ketchel wasn't named after anyone, was he? I wouldn't get excited about what Cohan says of Thompson if he was in the habit of going crazy over prospects. But Morrie is conservative. Gans is the only other boy I ever heard him rave about. The boy doesn't seem to have any manager, adds Cohan. Whenever he wants to sock someone for a loop, he simply shows up at Morrie's office. Money to loan on city property. 8 per cent, annual payments or monthly, as borrower prefers. Clyde E. Thomas, Agent for American Trust Co. 39-1f

by Cohan as being a second Jack Delaney. Furthermore, he looks like the light-heavyweight champion — same size, same dark foreign features, same wild glint in the eye. Thompson has had about 25 fights. Hit? Can he? Opponents don't stop to stagger. They drop dead. His wallop lies in his right. He puts his whole body back of his fist, employs a shift like the immortal Ketchel.

Thompson has won his last 10 fights by knockouts. None went more than three rounds. In two or three of these quick finishes his seconds didn't have time to climb out of the ring before they heard the other fellow drop.

Nobody every taught Thompson anything. It's a gift—that is, he has it. As yet he has no defense, according to Cohan. That will come with experience, if he is not ruined by being sent along too fast. What he needs is a capable instructor.

A CONTEMPTIBLE TRICK

J. T. Parrish is offering a reward for information as to the identity of the party or parties who have been molesting signs he has placed along the highways. He had signs, advertising Cottonwood Camp grounds, placed along the highways and some miscreant has been removing same and placing the signs on churches and other buildings.

A liberal reward will be paid anyone who will inform Mr. Parrish of the one guilty of this contemptible trick.

State National Bank is in very prosperous condition as shown by statement in this issue.

CHRISTIAN ENDEAVOR PROGRAM SUNDAY, JUNE 19,

Leader—Lola Owen.
Topic—Our Need for a Christian Sunday.
Song—In the Garden.
Song—Blessed Assurance.
Prayer—Brother Wingo.
Song—Since Jesus Came Into My Heart.

Scripture—Mark 2:27-28; 3:1-5.
Song—Church in the Wildwood.
Talk—For What Purpose, Besides Rest, Do We Need a Christian Sunday?—Mildred Creath.

Talk—What Place Should the Lord's Supper Have in a Christian Sunday?—Mrs. Dunn.

Talk—What Would You Consider a Conscientious Reason for Being Absent From Church and Christian Endeavor on Sunday?—Evelyn Creath.
Piano Solo—Helen Creath.
Benediction.

Do you "just hate" Sunday? or do you welcome its coming with joy? Why have Sunday, anyhow? Answers—meet us at Endeavor Sunday at 7:00 o'clock and we will tell you why.

LET US DO YOUR HAULING

We are prepared to do all kinds of hauling at reasonable prices. We will also furnish you the best gravel to be obtained. See us or phone 7. Maxwell & Locklar. 30-1f

EASTERN STAR WILL MEET TUESDAY EVENING AT 7:30

All members of the Order of Eastern Star are requested to attend the next regular monthly meeting of the order which will be held at the Masonic Hall at 7:30 o'clock Tuesday evening, June 21. Visiting members are cordially invited to be present.

HEADACHES

Menu For Bridal Tea

- Chicken mousse
- Mint peas in tomato cups
- Clover leaf rolls
- Cheese balls
- Nut and celery sandwiches
- Strawberry parfait
- Frosted Cakes
- Iced Tea
- Iced coffee
- Chicken Mousse

1 cup hot chicken stock (highly seasoned), 1 tablespoon gelatine (level), 1-4 cup cold stock, 1 cup of cooked minced chicken, 1 truffle or 1 pimiento cut in figures, salt and pepper, 1 cup whipped cream.

Chop chicken and pound it very fine. Decorate molds with figured pimiento. Soften gelatine in 1-4 cup cold stock and dissolve in the hot stock. Let cool a little, add meat and fold in cream. Pour into molds and let stand in a cold place until it sets.

Mint Peas in Tomato Cups

2 cups peas, 6 tomatoes, 3-4 cup french dressing, salt, 4 mint leaves. Loosen skin from tomatoes by dipping in boiling water and slipping it off. Scoop out pulp chill, drain peas. Cover with the french dressing. Stir in finely chopped mint and let stand at least thirty minutes. Fill tomato cups, garnish top with parsley or a bit of mayonnaise.

Cheese Balls

1 1-2 cups grated cheese, 1 tablespoon sugar, 1-4 teaspoon salt, Kettle of Mrs. Tucker's Shortening, cayenne, whites of 3 eggs, cracker dust. Mix cheese with flour and seasonings. Beat whites of eggs until stiff and add to first mixture. Shape in small balls. Roll in cracker dust fry in deep kettle of Mrs. Tucker's Shortening and drain on brown paper.

Strawberry Parfait

1 cup sugar, 3 egg whites, 1 cup strawberries, 1 cup water, 1 pint cream. Boil sugar until it threads. Pour on to beaten whites of eggs, add whipped cream and strawberry juice. Pack in ice and salt for four hours. Do not turn in freezer. Place strawberries cut in pieces in bottom of parfait glasses. Add frozen mixture. Garnish with whipped cream.

Vacation Needs

It's summer time and vacation time
What a glorious feeling it is to skip happily away on a trip away from work and worry
Of course to thoroughly enjoy this vacation one must have the proper frock for each and every occasion

YOU CAN HAVE FRIENDS

If you don't contradict people too much.

If you do not pry into the personal affairs of the people you meet.

If you say a good word for things that you may not happen to possess.

If you will assume the spirit of happiness and pleasure in whatever walk of life you happen to be. In other words, don't be a kicker or knocker.

If you will turn a deaf ear to most scandalous and "catty" talk.

If you will respect everybody's religious belief, even if you differ.

If you will keep your attention

more upon others than upon yourself.

Sounds like a large sized order but in proportion as you are able to, you will have your friends.—Scurry County Times (Snyder).

**OIL DEVELOPMENT
MAKING PROGRESS**
(Continued From First Page)

At Work on Oxsheer Well
Work has been resumed on the test well on the Oxsheer ranch, just below the Howard County line in Glasscock County.

Harding Well on Pump
The Texon-Marland well on the J. B. Harding farm five miles south of Big Spring was placed on pump Tuesday.

From the best information we can get this well is pumping around seventy-five barrels.

Robert R. Penn Test
The drill at the Robert R. Penn test well on the W. F. Edwards ranch about 20 miles south of Big Spring is now pounding away in a hard gray lime around the 2815 foot mark. According to the log the formations are running similar to, but a little higher than in the J. B. Harding well, which causes oil men to be of the opinion that this test is quite likely to be drilled in a commercial well.

Marland Pays \$48,200 for Lease
The Marland Oil Co. of Texas paid \$35,000 for a lease on four sections of land a few miles south of Big Spring; the deal carrying a drilling contract.

The land secured was sections 10, 11, 14 and 15 in block 33, township 1 S. T. & P. Ry. Co. survey. The \$48,200 is to be paid \$20,000 in cash and \$28,200 to be paid in oil. The land is owned by the Connolly estate and adjoins the J. B. Harding farm on which the Texon Oil Company recently secured a commercial well.

The Marland Company has also purchased the northeast quarter of section 28, block 33, tp. 1S, T. & P. Ry. Co. survey for \$1,200, and section 34 and the southeast quarter of section 38, township 1 south, for \$12,000.

GUESTS OF MR. AND MRS. BITTLE
Mr. and Mrs. D. R. Harris of Henderson, Texas, were the guests of Supt. and Mrs. P. B. Bittle on Tuesday evening. Mr. and Mrs. Harris were on the special train taking the editors to the State Press association meeting in El Paso, and during the hour's stay in this city they visited the Bittles. Mr. Harris, editor of the Rusk County News, is a prominent citizen of Henderson and he is an ex-president of the State association.

The visitors were favorably impressed with our city and were agreeably surprised as to the size and population of Big Spring.

H. B. Robb Jr. of Dallas is here for a visit with his grandparents, Mr. and Mrs. Dell Hatch and Mr. and Mrs. I. J. Robb.

VISIT TO CENTER POINT ENJOYED BY CROWD FROM BIG SPRING

A program of interest was given at the Methodist Church in the Center Point community, ten miles northeast of Big Spring last Friday evening and a fine crowd of farmers and town people attended the get-together. In response to an invitation from the Literary Society of Center Point Community, the business men of Big Spring accepted a part on the program which the literary society, under the direction of B. T. Halbert arranged. After some band music by the Big Spring Municipal Band, county commissioner, W. B. Sneed, gave the words of greeting to the assemblage. Several talks were made by Big Spring folks, principal among these were: "Our County's Most Valuable Asset," by Superintendent P. B. Bittle; "Building Our Community," by J. B. Pickle, and "Some Things We Would Like to See in Howard County," by C. T. Watson, secretary of the Chamber of Commerce. Assisting the rural communities with their problems is one of the things the Chamber of Commerce likes to do, according to Mr. Watson, and he urged the people of this community to call on them when they needed aid, or he could help them in any way. He also urged the farmers to work in close cooperation with the business men in matters of county wide importance, stating that greater things could be done if the united efforts of all were directed along some progressive channel instead of some knocking every proposition or being backsliders, or assuming an indifferent attitude.

It was a pleasurable evening for the visitors and the hospitality accorded them by the citizens of the Center Point community was a most cordial one. Getting acquainted with more people was an enjoyed feature of the evening together with the interesting and helpful program and those who were unable to attend the meeting missed a royal good time.

**METHODIST CHURCH
June 19**

Say did you go to Sunday school last Sunday? If not, why not? Do you think God will receive your excuse if you were not there?

The time for Sunday school is 9:45 a. m.

The theme that has been selected for two sermons is: "Life."

At 11:00 a. m. "The Investment of Life."

At 8:30 p. m. "The Voyage of Life."

These sermons will be delivered by the pastor.

All have a special invitation to attend; but we urge especially that the young be present.

65 RECEIVED INTO BAPTIST CHURCH DURING MEETING

Sixty-five persons were received into the fellowship of the church during the Duncan-Mooney revival meeting conducted in this city and which was brought to a close Sunday evening. Much spiritual good resulted from this ten day revival and large attendance marked most of the services.

Dr. A. A. Duncan of Dallas was in charge of the preaching during the meeting and he most favorably impressed his listeners with his good gospel sermons. The vital message that he brought to the Big Spring people during the meeting will be instrumental in causing a general re-awakening among church members, and many will devote more time and effort to the work of the Lord.

M. Dow Mooney, evangelistic singer and musician, conducted the song services during the meeting and much of the success is attributed to the splendid music and singing. Mr. Mooney is cordially received by every congregation where he assists in a meeting, and he is recognized all over the state as a most able gospel singer and worker. His part in the meeting was enjoyable and aroused enthusiasm among those attending the meeting.

This evangelistic team closed this successful meeting on last Sunday with most pleasing results.

DO YOU RECOGNIZE THIS HOME?

In a day when frenzied families are frantically faring to the famous flats (one room apartments of today, where they "live and move and have their beans" in a space of 12x16 ft.) it is restful to the eye and to the spirit to pass on Scurry street, set well back from the dust of the highway, a magnificent American home, built on broad lines of elegance, comfort and beauty. It is the center of a small forest of tamarisks and cedars, soft masses of green, furnish a fitting background for so spacious and beautiful a dwelling. To the right lie the western Yuccas, waving rosy arms of welcome. Masses of enormous, shasta daisies surround the large front porch. The lawn is a velvet sward and the picture of this charming scene will linger long in the memory of those who pass this sylvan spot. It is one of the most attractive homes in the state. If it is unknown to you walk slowly up Scurry and take a long look.

Mrs. Emmett Morris visited her parents, Mr. and Mrs. W. P. Young, in this city a few days this week.

N. W. McCleskey returned Monday from a vacation trip to points of interest in California. Mrs. McCleskey and children will spend the summer there.

DAILY VACATION-BIBLE SCHOOL IS BEING WELL ATTENDED

The daily vacation Bible school being conducted by Mrs. T. F. Huggins, assisted by other able teachers, opened at the First Presbyterian Church Monday morning and the first meeting was marked with a good attendance. Interested groups have continued to attend the school each morning this week, and new students enroll every morning.

The Bible school is given for all of the children of Sunday school age, through the intermediate grades and is proving to be instructional and interesting to those attending.

It is not too late now to enroll. The Bible school will continue through two weeks, so you still have an opportunity to reap the golden benefits of such instruction. Come and bring a friend with you. You are welcome and you are wanted. You will obtain information and knowledge from these lessons that you may never get elsewhere—so it will be your loss if you fail to attend.

READ THIS OUT LOUD

Yes, it looks like the other fellow is always to blame. The neighbor's little boy is always in the wrong; your neighbor's religion never comes up to par; your business associate doesn't do his part of the work; the parents next door let their daughter act simply awful; the pastor doesn't know how to retain the respect of his members; no man in the community does as much as you do toward its progress and they have such fool ideas about what should be done; the other political party is just too corrupt for words; if the people don't arouse themselves and take to following your example this old world is going blooey some of these days. O, hum! Wish people weren't so allied out in their ways, so opinionated and contrary!...Moral: Welle Index.

Better read it again if you failed to find your toes have been stepped on.

It's a pity the great State of Texas is too poor to fix up a few parks after the citizenship donated ideal sites. Just imagine the number of Texas folks who would find comfort and pleasure stopping a few days at the 200-acre park just south of our city which was donated to the State by the City Federation. It would not require a great outlay to add a few buildings and conveniences so that motorists could find a little shelter. Some day, perhaps, we shall see the State Parks improved and maintained so they will prove a credit to Texas.

We all realize that a home building and loan association would be a splendid proposition for our city and we would like to see it put over, providing the other fellows would put up the necessary time, effort and money. If ever team work was needed in a city, it is needed in Big Spring.

Pound paper and envelopes to match.....Cunningham & Phillips.

Mr. and Mrs. Geo. L. Wilke and daughter Mary Alice left Wednesday for a vacation trip to Denver, Colo.

Mrs. E. L. Hague after a week's visit with her parents, Dr. and Mrs. T. M. Collins left Sunday for her home at Abilene.

John Currie returned last Thursday evening from Dallas where he had been to receive his handsome new Packard and to drive it to Big Spring.

Miss Opal Pitman has returned from Abilene where she has been attending Simmons University to spend the summer vacation with homefolks.

Miss Eliza Hinds has returned from Abilene where she was attending McMurray College to spend the vacation time in this city with her parents, Rev. and Mrs. W. C. Hinds.

Would want ads get results.

EXPRESSIONS

We wish to thank dear friends and many kindly words when we suffer the loss of our dear and sister. Our hearts stand what each to the bereaved. We gratefully in our hearts you each and every thoughtfulness. Thank you for the offerings.

May the Almighty and keep you in Mr. and Mrs. and family.

The Big Spring Herald
BY T. E. JORDAN
\$2.50 A YEAR OUTSIDE COUNTY
\$2.00 A YEAR IN COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 8, 1897.

Big Spring, Friday, June 17, 1927

NOTICE TO THE PUBLIC: Any erroneous reflection up the character, standing or reputation of any person, firm, or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

We are about in the shape of that Englishman who was ready to exchange his kingdom for a horse. While we wouldn't have much use for a horse we would swap most anything else we had to spare for a big general rain.

We are all so busy dreaming of getting rich that we are failing or refusing to pull together for the good of the city. We may awake to find that other places were up and doing while we were permitting selfishness to blind us.

The old rule or ruin policy injures no one except he who follows this policy. A man who is too narrow to give the other fellow a chance to think for himself is to be pitied. The other fellow may have as much right to his opinion as I have for mine.

We certainly ought to iron some of the kinks out of our sidewalks. There are quite a few ups and downs that we are going to be compelled to put up with but there are other places where the kinks could be smoothed out and accidents thereby prevented.

Some men of means looking for good investments are due to appear in our city about the time oil development gets going again. And we welcome their coming for we are going to need outside capital to provide many things for our growing city and which local capital is too timid to provide.

Physicians of Texas issued 487,184 prescriptions for medicinal liquors during the last fiscal year. These prescriptions called for 60,579 gallons of whiskey, 53 gallons of wine, 40 gallons of brandy, 85 gallons of gin and 45 gallons of alcohol. Here's \$1,500,000 the sick folks spent to get a little nip. Just imagine what well folks paid to get theirs.

Nettleton Shoes

This is the time of year to step out in a pair of light-weight Nettletons, that will still be in service this time next year. \$12.50 to \$19.

A. P. McDonald & Co.
Big Spring, Texas

If we could build a concrete track up the scenic drive road it would be a good investment. The rough and rocky road that must be travelled, takes most of the enjoyment out of a visit to the mountain top. It's asking quite a bit of a fellow to make the trip over the present road.

An optimist is a man who can stand in the face of a parching west wind, with not a cloud in the heavens, and predict rain. Some call that kind of a man either a fool or a newcomer, but we call him a public benefactor. He can drive away more blues in an hour than a sand-storm can pile up in a day. We love the fellow that always sees the bright side of things.—Lynn County News (Tahoka).

A LETTER FROM HOGGS
Editor Big Spring Herald:
The closing hours of the "Special Session" did not materially change the atmosphere that has been hanging over the Capitol for the past several days. Even the heavy rains which have fallen here have not dampened the enthusiasm of some members of the Legislature who seemed determined to "kill" any and all legislation that bears the stamp of the Governor's approval.

The Civil Service bill is dead, the Penitentiary bill, the text book changes, the bill providing a board for higher education, and Baumes Model Criminal law bill are all "deceased" bills, along with several other administration bills of lesser importance and it is being fully predicted that all four of the Constitutional amendments, to be voted on in August will be voted down.

It is possible that some of the administration bills would have stood a much better chance of passing had they been introduced earlier in the session, but all of us waited until the appropriation bills were cared for, before introducing other bills. I saw the "handwriting on the wall" and did not introduce any of my bills as they would have gone the way of the majority of other bills.

The defeat of so many administration bills ought not to be construed as a repudiation of Governor Moody, as some writers seem to feel in the case, but it is just the restless membership and the letters we receive from all over Texas to not enact any new legislation.

The three cent gasoline tax which added about \$12,000,000 annual taxes for the people to pay (and the increase in the salaries of so many State officials) and the judiciary reform bills have caused the most criticism, many feeling that too many radical changes have been attempted for one session or one term. Governor Moody is silent and has assumed the "watchful waiting" attitude and takes the defeat of bills as mere "happenings" of the Legislature and really they mean no reflection upon Governor Moody's integrity or popularity.

As the closing hour drew nearer and nearer we all breathed sighs of relief and time delaying technicalities and dilatory tactics met with a very cool reception. Then when the "gavel" fell for the last time we wildly clapped our hands like a lot of school boys off on a vacation.

While opponents claimed that the "Economy bloc" often met defeat, yet as a whole, it saved Texas tax payers several hundred thousand dollars and telegrams and letters from North, South, East and West Texas have expressed appreciation of our efforts.

Respectfully submitted,
J. Herschel Boggs,
Representative 91st District

DROP THEM
Nine out of ten men simply drift into an evil life. The jail and gallows are pathetic in their witness to the fact that the round-up of sin is as often unanticipated as it is tragic. Every day the blessedness of the man "who walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of scornful" is endorsed by a world which, whether it cares for the moralizing of the psalmist or the warnings of the Wise Man, tactfully admits the destructive influence of evil associates. "Show me your company, and I will tell you what you are" is not a proverb of Solomon, but is none the less apt. A man who lives in a moral morass can't escape plague. A man who associates with fast, lewd, unprincipled companions can't be clean and upright any more than an oak tree can thrive in a swamp. Young man, if you have commenced to run with those who scoff at virtue, mock at sin, and who think a "crook" a game of draw poker or a bawdy house is the acme of manhood, shake your company. "Escape for thy life: look not behind thee, neither stay thou in all the plain. Escape lest thou be consumed." "For the end thereof is the ways of death."—The Battery Man.

Scientifically balanced—swung low to the road—and with the body resting on chrome vanadium steel springs that are 88% as long as the wheelbase—the Most Beautiful Chevrolet provides the most astonishing riding and driving comfort ever offered in a low-priced car.

At every speed up to wide open throttle, it holds the road with a surety that is a revelation—while rough stretches are negotiated in perfect comfort. You can drive for hour after hour, mile after mile, over any road, without the slightest sense of forcing or fatigue.

This exceptional riding and driving comfort has been engineered into Chevrolet cars as a result of the most gruelling road tests ever conducted in connection with the development of an automobile.

Hour after Hour over any Road -and always in Comfort!

CROSSING SAFETY

The American Railway Association has begun its annual drive to promote care and safety at railroad grade crossings. Along with the increase in the use of automobiles during the past year, the number of railroad crossing fatalities increased from 5,479 to 5,921, and the list of injured from 6,555 to 6,991.

Saving the lives of automobile drivers and preventing loss of property, is of course, the major benefit from this campaign. But it also means greater protection for those who travel on trains. An automobile wrecked at a railroad crossing is a potential source of a train wreck also. Not much of the wreckage of an automobile is required under the pilot or wheels to send a fast-moving locomotive toppling off the rails with the train after it. Only through the care of the individual driver, in the last analysis, can the railroad grade crossing be made absolutely safe. Warning bells, lights and even safety gates, can not always stop the heedless and reckless.

Grade crossings, however, must be eliminated wherever possible and as fast as possible. As population increases it will be economy for both the railroads and the State to cooperate in abolishing them, as the railroads themselves have done in many large cities. Until that can be done, safety crusades like that now under way, by slogan and poster, should help to reduce accidents. — Port Worth Star-Telegram

Eliminating the grade crossing on Gregg street in Big Spring is about the best piece of business the city and railroad can do for our citizenship.

When the clouds began to weep Monday morning it made everybody happy. A rain can spread more joy in West Texas than anything else under the sun. The more it rains the better we like it.

BAPTIST MINISTERS ARE OPPOSED TO SENSATIONALISM

One of the heartening signs of the times, is the action of the Baptist ministers in a gathering from all over Texas, in which they unsparingly condemn the use of lurid stories and obscene language by the professional evangelists. To all of which the Record says amen. Under a Fort Worth date line of June 4, the Dallas News reports the action of the meeting as follows:

Fort Worth, Texas.—Evangelists who use lurid stories and obscene language in the pulpit was castigated by several speakers Friday during a round table discussion on "Worldliness in Our Churches," which concluded the three-day meeting of Baptist ministers from over Texas at the Southwestern Baptist Theological Seminary. The playing of Jazz music in churches to swell attendance also was condemned.

The true course of evangelism consists in preaching against specific sins and not in generalizing, and in using the approved hymns of the church, Dr. F. M. McConnell, Dallas, executive secretary of Baylor University, declared.—Ex.

SNAKE VICTIMS RECOVER

Dr. Everitt has discharged both of his rattlesnake bite patients, over whom the town and county were deeply concerned last week. Little Lyle Currie, Jr., the Doctor's thirteenth rattlesnake bite patient which he has successfully treated in this county, was thought to be almost hopeless from the start. After 22 hours of suffering, serum was received from San Antonio and immediately administered to the sufferer by Dr. Everitt. Within a short time after the serum treatment the lad began to rally and continued to improve, and is now thought to be out of danger. — Sterling City News-Record.

THE MONEY HOG

There can be some allowance made for the glutton and even for the drunkard, but the money hog stands condemned of all men. There are some people whom a single piece of gold will blind to all consideration of friendship, duty, love and honor. The prospect of gain far less than the thirty pieces for which Judas sold his master into the opposite side of the scale body and soul of the worshipper of Mammon. Beware of greed of gain, which saps the foundations of truth and manhood. It brings that which is cast in the image of the Creator down to a

distorted caricature that is a tonishment to lost spirits as well to seraphs. As Solomon says: "taketh away the life of the creature thereof." The spirit of covetousness is fatal to all but animal existence. Even that must be shortened considerably, for we frequently see men that are "too mean to live" is a wonder really, how some of these mosquito-souled beings find themselves space to breathe. — Battery Man.

Ninth Prize Winning Essay

ESSAY

By Lois Cochran

"Joe," came the judge's voice
from behind the smoke-screen of
his cigar. "our conversation on
early marriages recalls my own.
Did I ever tell you about it?"

"No, but please do," I entreated,
eager for one of his witty and in-
teresting narratives. This remi-
niscence sounded particularly prom-
ising, so I encouraged him.

"Mandy's and my married life
has been a success as far as I can
tell," he began. "for though
we've never had a single quarrel,
reared eight children, and been
married forty-five years, we
aren't tired of one another yet.
We've done very well, though I
reckon we married most as young
as anyone—fourteen and eighteen
you know. Of course, we didn't
know all the hardships of early
love. We were so very blissfully
unconscious of those hidden dan-
gers."

"I suppose you remember Mr.
Purser—No, I don't know, per-
haps you were too young—of the
Purser Hardware Company. He
was my only guiding hand. To-
gether we mapped out some plans
that under his experienced guid-

ance would keep us on our feet
and together. He advised us, if
the girl was willing, to marry and
help each other.

"I did not rest until I had laid
the plans before her for considera-
tion. With her arms around my
neck and her eyes, tear misted,
gazing into mine, she very simply
said, 'Why of course, George.'"

"With the plans thus approved,
we were married. When the cere-
mony was over, we stumbled
blindly down the parsonage steps
to a little Whippet—wedding
present from my boss of the
'Willys-Overland Motor Com-
pany'—parked at the curb.

"In view of the fact that I was
totally unaware of our holding
hands for all the world to see, my
being pinched for parallel park-
ing and over being comically imi-
tated by a crowd of street urchins;
I must admit that we were pretty
cray over one another. I was
aware only of the lovely trust-
filled eyes raised to mine.

"Two sandwich clowns, herald-
ed by much noise and more paint,
happened along just then, pro-
claiming to the world the virtues
of L. E. Coleman's Electrical

Service, the Big Spring Hardware
Company's hardware; the brake
services of the Buick Garage, and
the permanent waves of the Vogue
Beauty Shoppe, and bringing to
Mandy and me out of our rose-
petal fancy to grim reality.

"We bestired ourselves and
went to the Busy Bee Cafe. Over
our food which we pretended was
an elaborate wedding breakfast, I
told her I had arranged a balance
sheet of our financial standing
with liabilities of: owing for
flowers from Couch Greenhouse;
pressing of suit at Campbell's;
gas at Ideal Service Station, and a
fire from the Big Spring Wreck-
ing Company—all wedding ex-
pense—and assets of this month's
salary of one hundred and thirty
dollars, a good, steady job and
the dearest little wife in the
world as a helper. Mandy was
satisfied to start that way.

"We opened accounts with the
Allen Grocery Company, and
Creath's for a few groceries and
pieces of furniture. I think we
have succeeded in living a peace-
ful, happy life, but it might have
been a wreck for the help of
these good friends."

DEATH CLAIMS G. D. GRIFFICE

In the death of George Dallas Griffice our city has lost an honest and upright citizen and our citizenship has lost a true and tried friend. Mr. Griffice died at his home in this city Thursday evening, June 9 at 5:30 o'clock. He had been in ill health for the past year or more. He was 77 years and 26 days of age and had made his home in Big Spring for many years. Up until ill health caused his retirement, he had been in charge of the G. D. Griffice & Son blacksmith and woodworking shop. He was industrious and dependable and had won the respect and esteem of all who knew him. He was a friend in need, and was ever ready to aid or encourage those who needed a lift. He endeavored to treat his fellowman as he would like to be treated, and many friends mourn the loss of one deeply esteemed.

Funeral services were conducted at the family home in the south part of Big Spring at 4 o'clock Sunday afternoon by Rev. J. D. Boren and the remains were laid to rest in Mt. Olive cemetery. The following served as pall bearers: Jim Cauble, S. C. Lamar, B. H. Settles, Leo Nail, G. E. McNew and Riley Lovelace.

Mr. Griffice was the father of sixteen children of whom eleven survive: Sixty grand children and twenty-nine great grandchildren survive. Thirty-five grandchildren attended the funeral.

The surviving children, four sons and seven daughters are: Sol Griffice of Ranger; Dee, Grover and Garland Griffice of this city; Mrs. Edna Coats of this city; Mrs. Hardy Jones of Iowa Park; Mrs. R. E. Tamplin of Snyder; Mrs. Jess Haney of Snyder; Mrs. Lucille Cauble and Mrs. Dan Greenwood of this city and Mrs. Ben Halford of Shawnee, Okla. Mrs. Halford was unable to attend the funeral.

We join the entire citizenship in extending to the bereaved relatives our deepest sympathy in their hour of sorrow.

BIG SPRING TEAM WINS TWO MORE GAMES

It was the seventh consecutive victory for the Big Spring T. & P. baseball team when they defeated Lamesa here last Sunday 8 to 5 after taking Saturday's game up there 17 to 11.

The game at Lamesa Saturday was a regular hitting bee for both sides with Big Spring having the edge with twenty-three blows after the bombardment was quelled and the results totaled. No less than five home runs were collected in the affair, one each by Sain, Williamson and Gressett for Big Spring and Bill White and Barley White for Lamesa. D. Graves, newly acquired outfielder for Big Spring, led the maulers with five hits out of six trips. Hand-some Payne did excellent mound duty for Big Spring after Wild Jessie Vick was pounded out in the fifth round. With the scores tied at nine all in the eleventh inning Big Spring started a rally that netted eight runs. Lefty Davis did not fare very well for Lamesa after he took High's place on the mound in the tenth inning.

The boys went in the hole financially on that trip but "Thanks to Doc Cauble," they say, he not only took a carload of boys up there but the dinner after the game was on Mr. Cauble. There is not a boy on the club but what would fight for the Doc at any time.

The game in Big Spring Sunday was better than the one in Lamesa Saturday but it was marred by some costly errors on both sides. Manager Sain for Big Spring, and Bill White for Lamesa again clouted the apple out of the lot. Lefty Wood pitched a good game for Big Spring and the score would have been less had it not been for the errors. Roe took Davis' place on the mound for Lamesa in the sixth after all the runs had been scored.

Saturday's Game—

	AB	R	H	E
Lamesa	48	11	17	3
Big Spring	53	17	23	4

Batteries: Big Spring, Vick, Payne and Lane; Lamesa, High, Davis and White.

Roe	1	0	0	2	0	0	0

Home runs, Sain, B. White; two base hits, Johnson; sacrifice hits, Woods, G. Graves; strike outs, Wood, 7, and Roe 1.

The Big Spring team travels to Midland next Sunday for another conflict with that club. The Big Spring boys have not forgotten the beating they got the last time they were up there and they're out for revenge. Big Spring has not lost a game since that encounter and Midland has won three and Big Spring two out of the five games played this season between them. These are probably the best two clubs in West Texas. Get your whoopie out and go along Sunday for this game.

Field and garden seed. The White House.

W. W. Crenshaw returned Wednesday from a business trip to Dallas.

Mrs. J. B. Hodges and son Jack left Thursday morning for an auto trip to points in California.

Mrs. James Campbell and children are visiting her parents, Mr. and Mrs. J. D. Castle, other relatives, and friends at Knott this week.

J. B. Burleson, a former teacher in the Big Spring schools, is now working with the Lincoln National Life Insurance Company, with headquarters at San Antonio.

A. A. Williams and a bunch of fishermen returned Wednesday from a most successful fishing trip to Fort Stockton. They brought home a string of their luck, that would reach almost around the car.

Those who had crops up, and were fortunate enough to be in the rain belt this week are certainly to be congratulated. There is a chance for them to make something with mighty little help in the way of showers from here on out.

M. B. Hair, teacher of languages in the Port Neches High school arrived home Monday morning and is teaching in the summer school at the high school here. When the term closes Brown will tour Mexico in further pursuit of his Spanish knowledge. In September he will return to Port Neches to resume his work in the language department of the high school there.

A. W. Daughtry enroute from Deaf Smith County to Abilene was greeting old time friends here the first of last week. Mr. Daughtry has worked in seven states since he left here seven years ago and he has yet to find the place where all the coons were up one tree. He said West Texas was about as good an all-around country as any place he visited.

Chautauqua starts in Big Spring Friday, June 24. Buy a season ticket and enjoy every number on the program. Fourteen entertainments, all high class and clean. A season ticket costs you very little—an average of a little more than twenty cents per number.

Mr. and Mrs. C. E. Talbot returned Friday from Dallas, where they had been to visit their daughter, Mrs. Manly Cook. Their son, Harold Goyle, remained in Dallas with his sister for a longer visit.

We are now running four repair benches to keep up with our ever increasing Watch and Jewelry Repair business. We give you the best service possible, and at reasonable prices. WILKE'S Jewelry & Optical Shop.

REVIVAL AT FIRST CHRISTIAN CHURCH BEGINS JULY 10

A. B. McReynolds, B. A., M. A., Brite College of the Bible Evangelist. A living link for Russell C. Hill, San Antonio, Texas, through the Texas Christian Missionary Society. The Tithing Evangelist of the Christian Churches of Texas.

Some of the meetings held by Mr. McReynolds recently:

Ballinger, Texas..... 50
Yuma, Arizona..... 56
San Antonio, Texas..... 60
Marshfield, Oregon..... 82
Athens, Texas..... 105
Marshall, Texas..... 107
East McKinney, Texas..... 117
Luling, Texas..... 135
Dallas, Texas..... 160

In all the above places and in many others offerings have been greatly increased. The greater majority of the places he ministers the offerings are increased 100-800 per cent.

A man with a message filled with pep, force, power, and conviction. No church large enough so far to hold his largest audiences during his meetings.

Miss Annabel Hall (Step-sister to Bro. McReynolds) A girl that all the young people love. A person who can get the children to love her and because they love her they sing. Her junior choir are a big part of the meeting. Miss Hall has a sweet voice that all will love. She leads the general singing in a way that makes every one want to sing.

This team will be in Big Spring, Texas, July 10-24 to assist in a meeting at First Christian Church. A daily Vacation Church School will run during same period. The church with the coolest auditorium in town. A fellowship with a hand shake that makes you feel at home. Subjects of Pastor leading up to meeting are:

June 19, Morning: The Value of a Boy; night: What Will You Do With the Christ. June 26, morning: Look and Live; night: Why Stand Ye All the Day Idle? July 3, morning: Add On Your Part; night: The Wages of Sin Is Death. Praise God from whom all blessings flow, praise Him all creatures here below.

Claude Wingo, Pastor First Christian Church. We are still in the market to buy your cream. Bring us all you have. East Side Grocery and Market.

CONTRACT LET FOR COLLINS BUSINESS BLOCK ON SECOND
Dr. T. M. Collins has let the contract for the construction of a business building at the corner of East Second and Rannels streets. John P. Walkup of Lubbock was the successful bidder. Work is to be started immediately and the building is to be completed within forty-five working days. The building is to be a one story brick 50x90 feet, arranged for four business spaces facing on East Second street.

This is to be a modern and well arranged building and being especially favorably located, the owner, Dr. T. M. Collins, will have no trouble in securing and retaining occupants for the building.

WHAT'S DOING IN WEST TEXAS

By the
 W. T. Chamber of Commerce

Ablene — One hundred and twenty nine outstanding West Texas business leaders and professional men have been named by President R. W. Haynie of the West Texas Chamber of Commerce to serve on the eleven active bureaus of the regional organization for the year 1927-28. Appointments embrace representatives from towns and cities in every district of the West Texas Chamber territory and the bureaus embody every phase of activity necessary to continued growth and prosperity of the West. Two new bureaus created include the Oil and Gas Bureau and the Highways and Transportation Bureau.

Ralls — Tractors and graders are at work on construction of the Ralls-Post highway. This work is being financed by the road district which voted bonds several months ago and is under supervision of County Commissioner Early Long and the commissioners' court.

McLean — The McLean Chamber of Commerce has already gone on record as favoring a delegation to the 1928 meeting of the West Texas Chamber of Commerce at Fort Worth.

Stamford — Plans are under way in various towns and cities for entertainment of the West Texas Chamber of Commerce motorcade during the first ten days of July. The trip will touch the most scenic and picturesque spots of the resort section of West Texas and Eastern New Mexico. All those desiring to make the trip are requested to write the West Texas Chamber of Commerce office at Stamford immediately.

Stephenville — Plans are being perfected here for erection of a modern tourists park. The project is under the direction of the local chamber of commerce.

Miami — When the 1927-28 school term opens here, Miami students will be housed in a new \$65,000 school building. Contract for the structure has been awarded and preliminary work is underway.

Alpine — A large cotton oil mill will be erected here in July, to be completed by opening of the fall season. Arrangements for building the structure are now underway by representatives of the Pearsall Company who are to build the plant.

San Saba — Deal has been closed with the Hokenbury Hotel System, Inc., of Harrisburg, Pa., to sell stock for erection of a 35-room hotel in this town. Local committees are completing sale of stock, and work on the modern hotel is expected to start at an early date.

Coahoma — Rapid progress is being

made by the pipe line crew working near here on a line from Midland to Ranger. Local business concerns are enjoying increased business due to presence of the crew in the Coahoma trade territory.

Levelland — The first wheat crop of any consequence was sown in Hockley County this season. Every indication points to the fact that this country is well adapted to the growth of that grain, and the acreage planted is in good condition.

Bledsoe — A new \$100,000 combined high school building and grammar school building will be opened formally here next September when 175 pupils of the Bledsoe district and a faculty of ten teachers start off the 1927-28 school year. Bledsoe schools have leaped from 7 pupils and one teacher in 1925 to almost 200 in 1927.

OUR OLD HOME TOWN

To us, it's the greatest town on earth, seems to us like it's located in the most ideal spot on the globe, and in all the thirty years that we have resided here, we've never had a falling out with it, and it just makes us so doggoned mad when hear the knocker sound a low note about it. It seems to us like the hills and the valleys and the creeks, the gorges and ravines are all sacred, especially designed by the Master Architect. It seems to us like the grass is greener, more luscious, yes, it seems to us like the flowers are more fragrant, the birds sing sweeter, the skies are bluer and the air is purer than any other place in the world. In other words, we are perfectly satisfied with the country and the old home town. It seems to us like the best folks on earth live here, seems to us like we have the best schools, the best churches, the handsomest men and the prettiest women, the cutest babies, the fattest beef and the plumpest pullets, the juiciest peaches and the winest grapes, the best yellow jam potatoes and corn pone, the sweetest lasses, the whitest biscuits, just fairly melt in your mouth, etc. All these are the back ground of the old home town, hence we are stuck on it, don't want to move, don't want to sell out, perfectly satisfied in every particular. Of course we know it ain't New York nor London town, in territorial scope or numbers, but to us, it's the greatest town to the square inch ever builded. True, we ain't got no skyscrapers, are galleries, museums, big town halls, boulevards, artificial parks, city prisons, police guards, have no slums, no hell's half acre, no gambling resorts nor houses where the soiled doves hang out their signs, don't have any riots nor bread lines, but just a good old fashioned homey town, where we know everybody, and everybody knows us. No, the clang of the street cars, the whistle

of the factories, the rumbling of a vast commerce over cobble stones do not disturb us, and when one gets sick, the whole town knocks at the front door to make inquiry, offer words of condolence, then when a fellow dies, the whole town turns out to pay their last respects, and to lay sweet smelling roses on his new made grave. Yes, in the old home town individually counts for something, hello Dick, how are you John, good morning, Miss Mary, and how are your aches and rheumatic grandma and grandpa? Just one big family and we are all concerned about each others welfare, the weather and the crops, and when anyone comes around us knocking the old home town, we don't like 'em a darn bit.—Albany News.

T. P. & L. WINS PRIZE

Dallas, Texas, June 10.—The Texas Power & Light Company, serving more than 200 cities and towns, was awarded second prize of \$3,000 at Atlantic City today in the contest of the National Electric Light Association for having rendered the greatest service to home industry during the year 1926, according to word received at the company's offices here.—Dallas News.

With John W. Carpenter as president the Texas Power & Light Co. is due to win first prize for 1927. Mr. Carpenter is a real builder and believes in lending every cooperation towards building up the communities his company serves.

Don't Be Embarrassed By Skin Diseases

Use Blue Star Soap to clean the affected parts, then apply Blue Star Remedy. It penetrates the skin, kills out the germs, stops the itching at once, and restores most cases to a healthy condition. Eczema, Tetter or Cracked Hands, Poison Oak, Ringworm, Sore Blistered Feet, Sunburns, Old Skin Sores—all of these have yielded to its wonderful healing power. 60c and \$1.00 a Jar. Soap 25c, at

J. D. BILES

Ready made and painted trellises, Rockwell Bros. & Co. 38-21

J. B. Harding and his weather chart are in bad standing at present. J. B. has been telling 'em all that it wasn't going to rain any more until July 4. A certain fortune teller here several weeks ago said it was going to rain a flood in a few days. She missed her guess and left town. We don't know what J. B. proposes to do.

We take subscriptions for all magazines, Courtney Davies, Shine Parlor and News Stand. 34c

A. G. Hall arrived Saturday morning from Culver, Indiana, where he has been attending Culver Military Academy, to spend the summer vacation in this city with his mother, Mrs. Sam Hall.

Lesson for June 19

PETER TEACHES GOOD CITIZENSHIP

Temperance Lesson.

LESSON TEXT—I Peter 3:11-17:1-4.

GOLDEN TEXT—Love worketh no ill to his neighbor.—Rom. 13:10.

PRIMARY TOPIC—Peter Tells Us How to Behave.

JUNIOR TOPIC—Rules for Right Living.

INTERMEDIATE AND SENIOR TOPIC—What Makes a Good Citizen.

YOUNG PEOPLE AND ADULT TOPIC—The Character of a Good Citizen.

In order to get an intelligent grasp of today's lesson, one must get a view of the entire epistle as to its purpose and method. The purpose was to establish all who were passing through suffering and testing (see ch. 1:7, 3:14, 4:12, 5:10-12).

The principles of Christian behavior set forth in the text of this lesson are of broader scope than citizenship. They embrace:

1. Behavior as Pilgrims and Sojourners (vv. 11, 12).

Christians are merely sojourners on the earth. They have not here their permanent home but are journeying through the earth on their way to the eternal home in the heavens. Our heavenly citizenship (Phil. 3:20) should constrain us to the maintenance of conduct consistent with our high calling.

1. Abstain from fleshly lusts (v. 11).

The term lusts includes the entire array of unclean forces springing from our carnal natures. They are enumerated in Gal. 5:19-21. These war against the soul. The Christian should not be under the sway of carnal passion.

2. Behavior as citizens (vv. 13-17).

While the Christian's true citizenship is in heaven he has a responsibility as a citizen on the earth.

1. Obey all requirements of civil rulers (v. 13).

Fidelity to Christ is shown by loyalty to civil authority. The intelligent Christian recognizes the necessity of government and graciously submits to those in authority over him regardless of the form of government.

His duties as a citizen he performs as the Lord's free man—not through servile fear. Government even of a low order is better than anarchy.

2. Honor all men (v. 17).

We will see in every man the image of God and therefore give honor to him. This applies to all relations wherein we touch human life.

3. Love the brotherhood (v. 17).

The Christian has a peculiar love for those who are of the same household. The brotherhood is composed of those who are children of God by faith in Jesus Christ.

4. Fear God (v. 17).

Honor the King (v. 17).

This has a peculiar significance because in all probability the wicked emperor was then reigning as emperor.

11. Behavior in a World of Opposition (I Peter 4:1-5).

1. Armed for the conflict (v. 1).

Christians are engaged in a tremendous conflict with evil forces within and without. Satan and his angels bent on the believer's defeat and destruction. The only way to keep from being overcome with his darts is to arm oneself with the mind of Christ.

2. The salutary effect of suffering (v. 1).

Suffering has a remedial effect upon the children. The one who suffers with Christ as an example will have the consciousness that it is his identity with Christ that calls forth the redemption of the world.

3. God's will, the regulating force of his life (v. 2).

4. The lusts of the flesh, but the will of God is the directing force of his life.

5. The consciousness of a wasted life (v. 3).

Since the flesh has so long had sway over the life, God is entitled to see rest of the believer's energy. Looking back upon a wasted life in service to the lusts of the flesh will move you to give no more time to serving the old master.

6. The attitude of the world toward the one who separates himself from it (v. 4).

The world speaks evil of those who do not go its way. The world not only wonders at the life of the Christian who separates himself from its sources, but will heap upon him names and reproach.

7. Account shall be given (v. 5).

The Christian should so live as to be able to render an account to God.

The Joy of Christ

O believer, the joy of Christ is within you: give it room, let it spring up, then you will be like a well of living water, and you will rejoice in the Lord always, and again rejoice.—G. H. C. Gregory.

Praising God

When you find that a man has got a praising God it is a good sign. Oh, let us get to personal love, to personal praise! That is what is wanted in the church today.—D. L. Moody.

PHONE SWINDLE SOON THWARTED

Soft-Spoken Thief Dupes Commercial Operator to Get Aid in Fraud.

New York.—In these days of highly specialized endeavors rogues have kept pace with the trend of the times, as is proved by police records. Cracksmen meet protective skill with destructive cunning, highwaymen utilize latest methods of transportation to swoop upon victims and so on down the calendar of crime where brain is pitted against brain by forces for good or evil.

Among criminal free companions who patrol the highways and byways of cities there was one swarm which invariably shunned the clash of arms while obtaining their sustenance through illegal practices. Actuated by the age-old theory that the world owes them living, they collected by stealth, and with little effort, from public booth boxes of the telephone companies. They were a mild herd of thimblebiggers, as a rule, with ingenious minds and faint hearts, willing to accept what could be pilfered with the least risk. In recent years they pulled several novel swindles from their bag of tricks, but each time the companies have been prompt to curb these frauds and turn the perpetrators over to justice.

Among the ranks of these shrinking knives were some of persuasive tongues and fascinating manners. To these came the greatest harvest. It was only when the hand of the law, as represented by the efficient police of the telephone company, closed upon them that they tolled or spun as walled-in wards of the state.

The plan of operation employed by the more ambitious of the telephone-box thieves, who were often graduates from the school of poorbox raiders, was based on romance. A nimble-footed, wavy-haired youth made the rounds of the community dances until he became acquainted with a girl who worked on the switchboard of some big commercial establishment. Then he grew attentive and the wooing sped.

Dupe Selected Carefully.
The selection of a dupe was made with care, for the plainer the maid the greater the impression. He was an ardent suitor, and in a short time waxed pathetic over his inability to read and have a little home enshrined in chairs, curtains and scatter rugs. He had the promise of a good job, only a small sum was needed, and, furthermore, he had a plan by which love would find a way.

The girl listened to soft words, basked in tender glances and reached the point where she was willing to join in with any scheme as a short-cut to their goal. Then he got her thousandth pledge of undying affection and first vow to perpetual silence on the particular project which he was about to broach and the stage was set.

"All you have to do," began the tempter, then went on to unfold the following procedure: Tomorrow morning at ten o'clock he would call up as he had done often during the last week or more. Yes, of course, he would tell her how much he loved her, but this time she must not cut off the wire until he gave the word. That might be for a half hour or so and she was to connect all calls that came over her wire to any destination through the switchboard. There might be a great many of them, but caution was the watchword, and therefore let none know what she was doing.

The following day this graceful youth walked into a telephone booth in one of the busiest terminals in the city where there was a line of folk waiting to make a call and a getaway.

"Hello, dearie," he crooned when he had deposited his nickel and heard the girl's voice. The usual passionate patter took place, then he instructed her to answer the rest of the calls like a regular telephone operator with the rising inflection of tone. This bit of art completed, he slipped a tiny black wedge of wood underneath the hook of the receiver. In this way he had baited his trap and departed to await returns.

Calls Go Through Accomplish.
A steady stream of calls came from the booth, local and long distance, all of which were guided by the patient girl at the commercial switchboard, who considered the work a labor of love. Each of these had been paid for at the regular toll rate in coins ranging from a nickel to a quarter.

Now the coin box in a telephone booth, which seems so human to the lay mind, both in efficiency and obstinacy, is a wonderful bit of mechanism, but it functions according to its lights, no matter who derives benefit. The coin is dropped into the slot designated; if it is a nickel it traverses an irregular chute, rings one bell, short and sharp, and drops on to a horizontal plate, where it is held in abeyance until the conversation is finished.

Should the call go through, per schedule, and the person who is telephoning hangs up, the operator at the switchboard, advised of this by a light at her desk, presses a black button and the toll passes to the company's bank, which is at one side of the telephone appliance. But if there is complaint of a wrong number or busy signal the money drops into the return

and the quarter one resonant chime. So much for technique.

When the pseudo-sultor had loitered about for a half hour or so he slipped into the booth and spoke to his gentle accomplice. As a rule by this time she was aware of what was going on, but to her, at least, love could do no wrong. After an interchange of cooing he bade her fond farewell and the line was plugged out. Then he garnered the harvest.

Taking the tiny wedge from under the receiver hook, the thief juggled this hook impatiently. The operator in the telephone office, who had failed to notice the extent of the call, answered with a query regarding the trouble.

Pockets Returned Coins.

"I can't get my party," he complained; "trying here for almost half an hour. Gimme information, please." No sooner said than done, the button pressed to release his nickel and immediately a shower of coins, which had been awaiting disposition, jangled into the return slot and the seeker for easy money strolled on his way, with several dollars more than he had before. In his waistcoat pocket was the little wedge, which prevented the hook from clicking a connection with the central exchange, but whose use was not suspected by the booth patrons.

Although unlike the bee in industry, the indolent thief improved each shining hour according to his own standard and he usually had several temporary fiancées working under his guidance in the manner described above. Sometimes his earnings amounted to \$40 a day, until the inevitable crash came or his instinct warned him it was on the way, and he fled to another city to play the same role over again.

Captures could be traced to observant operators in the telephone companies' exchanges who noticed coin-box stations in use for long periods. Detectives were sent to watch booths recording prolonged calls and the miscreant was arrested as he collected coins.

Cases have been known where gangs have worked with girl confederates, who were of their number. These obtained positions in large business houses and were expert telephone operators. They quit their jobs before the monthly check-up of telephone bills was made, for, in the last analysis, the commercial concerns were the losers by all this roguery, as the calls had been charged to them as they passed through their switchboards.

Another Type of Swindler.
Another knave who was decidedly in the lower stratum of crookdom, but still refused to sully his hands by honest toil, was the man who gained a livelihood by plugging up the coin boxes in telephone booths. This undesirable citizen napped out a route, much the same as the farmer has in a pear orchard and trudged about each hour or so to see what fate had cast in his way.

The initial procedure in this bit of petty larceny was to knead tissue paper into clinging pulp and press it into the opening where nickels, dimes or quarters roll when the patrons have received wrong or busy numbers. These obstructions were so placed that they were not noticed.

Entering a booth which had been marked for just a busy business man, or pretty debutante, as the case might be, made a call and perchance encountered a busy number. Quite naturally it was expected that the money would be returned. When this failed to materialize there was a raucous complaint sounded. A satisfied customer is ever the aim of the telephone company, so the impersonal voice of the operator urged the angry patron to give her the name and address and a check for the amount deposited would be forwarded.

At the same time the conscientious employee informed the "trouble department" that there was something wrong with that particular telephone. Sometimes the mechanics arrived before the plug had been withdrawn and the 15 or 20 cents collected. In that case the sleuths would hurry over to await until the self-appointed collector arrived. Then it was up to him to tell it to the judge.

Worms Infest Wooden Leg of Jail Prisoner

Boise, Idaho.—One of the inmates of the Idaho jail must sit helplessly by and watch the worms consume one of his legs—a wooden one.

United States Marshal Frank Breshers received a request to send a new wooden leg for a prisoner, who reports that worms have developed aavenous appetite for his wooden member. Marshal Breshers has decided to send a woodpecker along as a watchdog if the new peg is furnished.

No Ship in 15 Years: Just Hears Czar's Fall

Petrozavlovsk, Kamchatka.—News of the overthrow of the czar and the establishment of a Soviet government in Russia has just reached a large island in the Bering strait, between Siberia and Alaska, with the arrival of the first ship in fifteen years. The Slav and Eskimo residents of the island were much astonished to learn that Russia no longer is a monarchy. They said they last previous contact

miles plus

DON'T expect a good average number of miles from a tankful of Summer Conoco Gasoline. Expect more.

And you won't be disappointed! Summer Conoco is especially refined to give you mileage—to cut down your cost per trip—to deliver real power under all motoring conditions.

So why not use the extra miles that are packed into Summer Conoco Gasoline?

Just make sure you are getting it by filling only where you see the Conoco sign—at service stations and garages.

REFRIGERATED FOOD SPELLS SAFETY FOR BABIES

Ice will solve the principal problems of 2,000,000 mothers of infants in the United States, now faced with the difficulties of getting their babies safely through the hot-weather—a time of low vitality and digestive upsets, says Dr. M. E. Pennington, household refrigeration expert.

"Babies die in great numbers in Alaska, for lack of milk, and in Mexico, for want of ice," Dr. Pennington asserts. "But the fortunate children of the United States are in a country of pure milk and abundance of inexpensive ice—Baby's two best friends."

Mothers, however, sometimes fail to realize that milk, soup and fruit juice, upon which a baby is dependent for nourishment, are foods when they are properly handled and poison when they are not.

Certified milk is obtainable almost everywhere. Soup and fruit juice are perfect when first prepared. But all three are perishable, and no mother should take chances when she can get ice at a cost of a few cents a day and be sure of keeping the food in proper condition. Though milk is of the best quality and has been kept on ice until it is delivered at the home, without refrigeration it begins at once to deteriorate.

The cleanest milk obtainable has a content of 4000 bacteria to the cubic centimeter. Unless bacteria number more than 10,000 to the cubic centimeter of milk, they are not considered harmful. But in a warm temperature an army of bacteria develops quickly; in 24 hours at a temperature of 60 degrees, 10,000 bacteria will increase to perhaps 1,500,000; in 48 hours to 33,000,000; in 72 hours to 326,000,000; in 96 hours to 926,000,000. Some of these bacteria may represent dangerous diseases, typhoid or tuberculosis. Boiling will kill them for the time being, but it also destroys the freshness, flavor and some of the food value of milk. Similar bacteriological conditions prevail with other foods.

Laboratory tests show that vegetable soups may be bottled and kept safely in the refrigerator for 72 hours, and that meat juices and soups remain in good condition two to three days.

All these foods for the baby should be kept in the coldest part of the refrigerator, the food chamber directly beneath the ice, where the temperature, in a good refrigerator, is about 45 degrees.

When summer heat arrives it invariably lowers the vitality of very young children. Their digestive systems become unusually delicate, and the matter of nutrition requires exceptional care. A good refrigerator in the home, kept well filled with ice, is the one great protection, essential to guarding the health of ev-

GULF PIPE LINE NEARING COMPLETION

The Gulf company's trunk pipe line to the West Texas oil fields is nearing completion and this 305 mile extension will soon be transporting oil to the loading terminals on the Gulf coast. This line will serve the Crane, Winkler, Howard, Glasscock, Mitchell, Jones and other producing fields along the Texas & Pacific railway.

The portion of the line in Howard County was completed this week and the ditching and pipe laying machinery was shipped to other points.

Just how many barrels of oil this ten inch pipe line will transport each day we do not know but it is safe to wager that it is not going to be sufficient to handle the production when West Texas development is going at her best pace.

UPTON COUNTY TAXES GET BIG OIL BOOST

Rankin, Texas, June 13.—Upton County will realize this year a heavy taxable valuation from its oil field development, with the rendition raised from about \$2,800,000 last year to between \$12,000,000 and \$17,000,000 this year.

A firm of tax specialists is assisting the county in the placing of values on the oil development.

MATSUDA IS BACK AGAIN

Matty Matsuda, the peerless Jap, holder of the world's welter weight title and belt, arrives in Big Spring Friday morning after a successful invasion of the Pacific coast, where he defended his belt and title against all comers, and is now ready to meet any one in the middle west desiring his title and belt, especially the world's greatest bally-ho artist and claimant of the championship, Jack Reynolds who has been barnstorming throughout the middle west for the past few weeks, throwing his challenge to the four winds. Matty is here and ready to establish his claim to the honors and demands that Reynolds put up or shut up. Also meet

some of the boys that are real top-notchers as he is ready to demonstrate his art and ability at any time. Sam Faust, the local matchmaker, has a little surprise in store for the wily Jap and offers the fans of Big Spring a real top-notch who makes them all side-step him in matching Mike Reid, the Chicago iron man, against Matsuda. He puts together two of the world's very best welter weight wrestlers and assures the fans lots of action, real demonstrations of the science of wrestling and the development of super strength. Mike Reid is acclaimed the strongest man in the welter weight class, 142 pounds, and a model of a perfect man, a wonderful wrestler, and Faust states that the Iron Man will make the Wily Jap "chaw his wax" harder than he has in any of his many ring battles. Reid hails from the land that made buttermilk famous, Bulgaria, and during the war was an athletic instructor in the Marine Corps, while quartered in France. He is an all-around athlete, a good clean sport and a real tough wrestler and will give the Jap the hardest match he has had in recent years. Faust says that it is a match of super-strength against super-science so the fans are assured lots of good clean sport and a match that will please every one.

Raymond Cruz and Johnnie Ibanez, two local Mexican boys, who recently wrestled to a draw will be on the semi-final and will give their many friends plenty of thrills, as the fans have been crying for a return match between these two boys. There will be lots of fun in the boxing exhibitions between the local boys, and

WANTS TO TAME THE LOCAL BOY
Kala Pasha, the Turkish champion middle weight wrestler, also wrestling instructor for Simmons University at Abilene, Texas, has sent a challenge to Matchmaker Faust to throw the local favorite wrestler, Billy Londos, twice in 75 minutes or forfeit his share of the gate receipts. Kala Pasha takes a delight in working over the local favorites and claims the Texas championship honors, and states that he will not be satisfied until he puts the local boy's shoulders to the mat in 75 minutes.

Kala is a big favorite all over the state and loves the mat game for the honors only and Faust is to let the fans decide on the matchmaking for his Friday night. This match is a Greek against a Turk and although the war is over they have no love for each other on or off the mat and the fans will not see a petting party by any means.

RELIGIOUS DISCUSSION TO BE AT CHURCH OF CHRIST

A religious discussion will be held at Big Spring at the Church of Christ tabernacle, beginning June 17. The question to be discussed is the Campbellism question, and the disputants will be Elder W. A. Kille, missionary Baptist of Putnam, and Elder J. D. Boren, pastor of the Church of Christ.

The question is divided into two propositions, as follows:

1. History teaches that the Campbells were the originators and founders of the doctrine and the church you and your brethren teach, and that doctrine never was taught before Campbell's day, and therefore you are a Campbellite.
 Affirmative—W. A. Kille.
 Negative—J. D. Boren.

2. History teaches that the Campbells were not the originators and founders of the doctrine and the church held by me and my people and that the doctrine was taught before the Campbell day and therefore we are not Campbellites.
 Affirmative—J. D. Boren.
 Negative—W. A. Kille.

The first proposition will be discussed Friday and Saturday nights. The second one will be discussed Sunday morning and Sunday night. Remember the dates Friday night, June 17 at 7:45, and the Saturday night and Sunday following. Place: Church of Christ tabernacle, at the rear of the Methodist Church.

This debate is not being held because of personal malice but simply to clear up a much disputed question. Both disputants are gentlemen and will conduct themselves as such. Everyone is cordially invited to come and hear these discussions.

HIT THE BALL

Pick up any newspaper circulating in West Texas nowadays and you find only optimism.

In spite of the uneasiness caused by the weather, the cities and towns of West Texas are going ahead with their building programs. Almost every paper you pick up carries the picture of some new hotel or office building that would be a credit to any large city. Road building programs are being carried out; water projects are under way; bond issues for various public improvements are voted with regularity; and building permits continue at a steady pace.—Colorado Record.

There is no use in whining when you can't change conditions. The only sane thing to do is to try to see the silver lining of the cloud.

COTTON MADE BIG YIELD AFTER JUNE TWENTY-FIFTH 1924

Coleman Wells says everybody is getting scared too soon. Cotton can be planted very late here and still make a big crop. "There was no rain here from October, 1903 till June, 1904," Mr. Wells said Wednesday to a representative of the News, "and yet I remember that J. H. Cowan planted ten acres of cotton after that date and made four bales. He had it ginned at Big Spring. There was no gin here then. In 1923 Henry Reed's crop was hailed out and he replanted. He finished replanting on July 6 and made a half bale per acre. There is plenty of time for cotton yet, if we don't have an early frost," Mr. Wells declared.—Lynn County News (Tahoka).

OUR BOOK REVIEW
 It's out again.

The Southwestern Bell Telephone Co.'s June Telephone directory for Sweetwater has been passed around to the 1000-odd subscribers in Sweetwater. It is a pretty little book, printed in the city of Dallas in such a style that would do credit to even the best print shops in Roscoe or Blackwell, and it is chuck full of advertising of Sweetwater business firms.

Just what amount of money the Southwestern Bell Telephone Co. mailed out of Sweetwater to its Dallas office, as profit on their 38-page book with its circulation of less than 1500, we do not know. It amounts, however, to approximately \$750. Not being able to get in touch with the company's local manager, who lives in Abilene, we couldn't verify the amount, but that sum will hit it pretty close.

The book is a pretty little affair. It's typical of the company that publishes it, especially the Sweetwater branch. Sweetwater, you know, is the town where the telephone "service" is, well—you know, and where the exchange is under the management of an Abilene man. And Dallas prints the company's directory and a few Sweetwater firms send their money away to get an ad in the book. It appears to the News that if the company can get \$750 in advertising out of Sweetwater it could spend \$150 in the city to have the directory printed.

We have always urged citizens to spend their money at home, with merchants that are aiding in the building of Sweetwater. We have done our share, as have all other Texas newspapers, to combat the mail order house. But, frankly, we believe that if a merchant will spend his advertising money out of town, and get in return only what they got in the case of the Southwestern Bell Telephone Co.'s pretty new June 1927 directory, if they do that then they should remain ever silent if the public sends to Sears & Roebuck, Montgomery Ward and the National Cloak & Suit Co. for its merchandise.—Nolan County News.

It seems that the Southwestern Bell Telephone Co. is a better advertising grabber than the local printer. Anyway its OK if the local merchants want to donate to this wealthy corporation. If the company spent a little more effort in giving the telephone patrons service—for which they are greatly overcharged—we might not have felt so peeved about the proposition. They are charging for first class phone service and we are getting about third class—when the old worn out equipment permits us to secure service at all.

San Antonio Light delivered every Sunday...Cunningham & Phillips No. 2.

\$10,000 DAMAGES ASKED BY MAN HIT BY DELIVERY CAR

A suit for \$10,000 damages was filed in District Court this week against Chester L. Freeman of the Quick Service Grocery by V. Earl Earp as attorney for J. W. Haggard of Scurry County.

The suit grew out of an accident at Oak and Second streets in April when Haggard was struck by a Quick Service delivery car. He sustained a broken leg. The brief alleges that no warning was sounded by the truck or driver.—Nolan County News (Sweetwater).

Carry home some ice cream.... Cunningham & Phillips.

MELLON APPROVES REDUCTION IN SIZE OF PAPER MONEY

The plan to reduce paper money by one-third of the present size has been approved by Secretary of the Treasury Mellon.

The present size of 7 7-16x3 1-8 inches, will be cut to 5 1-8x2 5-8 inches. The bill will be aged three months before being put into circulation. New size dollar bills will be the first issued.—Ex.

Of course Andy and the other rich guys would be in favor of smaller bills. But if one dollar bills were as big as horse blankets it wouldn't bother us to "tote" our bankroll around.

Kill your mice and rats... We have the poison... Cunningham & Phillips

Here's hoping conditions will loosen up since the rains have started. You may not realize it but it seems to us that things were getting pretty tight. Folks are already coming out of the kinks and looking with confidence towards the future.

Waiting and hoping will never equal getting up and hustling in community building. There are a number of propositions we should be hustling to land while we are waiting for oil development to "pop" up.

Dolls...Ninety eight cents for mamma dolls....Cunningham & Phillips.

That big celebration to be staged in Big Spring on Monday, July 4, under the auspices of the American Legion, is going to be a stem-winder. Invite friends and relatives from other points to be here on that date and take part in the merrymaking.

We are informed that another building, or at least the upstairs portion, is to be fitted up for office rooms. This is good news and a good move, as there is going to be a demand for office spaces when oil development catches step.

Baseballs and supplies of all kinds...Cunningham & Phillips.

REFRIGERATION DEMONSTRATION AT HIGH SCHOOL MONDAY

Mrs. Linzza of Houston, demonstration agent for the Southwestern Ice Manufacturers Association, gave a lecture at the high school on Monday afternoon to an interested group of men and women. The demonstration was given under the auspices of the Southern Ice and Utilities Co. of this city, and Mrs. Linzza is making a tour of all of the cities who have membership in this district. E. A. Kelley, local manager, is president of this district.

Mrs. Linzza is a representative of the American Refrigeration Company, and with her she brought her own refrigerator for demonstration purposes.

"Refrigeration used to be given only a passing thought," Mrs. Linzza said, "but today, it is a subject of vital importance to every housewife."

One of the greatest problems of the housewife used to be how to handle food to keep them from spoiling. We know today that all foods must be precooled in order to be preserved, consequently large refrigerating cars have been perfected for this purpose. These cars carry from one to ten tons of ice and they are a wonderful help to the nation in preserving meats, fruits, vegetables, etc. That is why we can buy these fresh things in such good condition.

"Ice is the cheapest assurance for health for you and for your family," Mrs. Linzza said, "and it will do wonders for you. What is needed more than ice in a sick room, what helps to make the party a success more than ice, and isn't ice one of the daily comforts of life?"

"Insulation in refrigerators is a most important point to consider when you go to buy one. Cork insulation is safest and best. There are three grades of cork. First and best is the solid sheet cork; second, granulated cork and third, pebble cork. Then the best refrigerators today have a solid brass or nickel plate lining. These are the best that money can buy, according to the expert.

"There is air circulation in a refrigerator and it is this current of air that protects your food. Some do not know how to place food in a refrigerator to prevent them from absorbing odors. Under the ice is the coldest place. Reserve this place for your milk, beverages, fresh meat, etc.; the next shelf is for neutral foods which have no odors, and

the third or last shelf is for the food with strong odors. You can safely put anything in your refrigerator, without spreading the strong odors, if you place it in it correctly," Mrs. Linzza said.

Points from the lecture, Mrs. Linzza especially stressed were:

1. Do not blanket your ice. Expose as much surface as is possible to retain a low degree of temperature.
2. Keep your refrigerator filled with 50 per cent of its capacity at all times.
3. Keep your refrigerator clean. Scald with hot water and salt soda at least once a week.
4. Keep food out of ice compartment.
5. Remember to be particular about placing foods.
6. Keep your refrigerator level, so that it will always have a good air current.

MAKING FINE PROGRESS ON CRAWFORD HOTEL

Day by day the new Crawford Hotel continues to climb skyward and we expect to see a seven story hotel—as fine a hotel as is to be found in any man's city—opened to the public along about the middle of September.

Traveling men state that the new Crawford Hotel is Mr. Crawford's hobby and he is going to spare no expense in making this as fine a hotel as is to be found anywhere and the service is going to be just a little bit better than folks are accustomed to. It certainly speaks well for Mr. Crawford and his hotel that the traveling public are already boosting for the Big Spring hotel since it is this sort of good will which insures success for the institution.

Big Spring people are indeed proud of the structure Mr. Crawford is erecting, and they are going to have reason to be proud of the kind of a hotel he is going to cause the new Crawford to be.

Visitors are very much impressed with the building and affirm that it is going to prove a big asset to our city.

C. A. Ruhrup is planning a modern brick apartment house on his lots at the corner of East Fifth and Runnels St. This is to be a two-story structure equipped with all modern conveniences. It will be arranged to accommodate four families.

BUILDING PERMITS ISSUED

The City Secretary issued building permits for the following buildings and improvements the past week.

J. O. Foley for J. W. Couch a dwelling on Nolan street. Estimated cost \$3150.

Miss T. Jabor an adobe dwelling in northwest portion of city. Estimated cost \$700.

Miss Willie Saunders building a sleeping porch at her home on Runnels street.

E. Reagan returned Thursday morning from a business trip to Dallas and Cisco.

John Currie, Mrs. Bob Currie and Miss Agnes Currie left Thursday morning for a visit with relatives and friends in San Angelo.

Mrs. C. A. Ruhrup arrived Saturday night from El Paso to join Mr. Ruhrup and they will make their home in this city. At present they are occupying the residence of Mr. and Mrs. Ralph Rix on Runnels and Eighth street.

CARD OF THANKS

With gratitude in our hearts we wish to sincerely thank each and everyone for the many loving deeds of kindness and words of sympathy extended us during the illness and death of our beloved one, Miss Eula Pearl Hurley. Your thoughtfulness in this sad hour will ever be remembered and it is difficult to express in words our appreciation for all you have done for her, and for us.

May God's richest blessings be yours is our prayer.
R. R. Hurley.
J. A. Ledbetter.
M. C. Willis.

CARD OF THANKS

We wish to extend our sincere thanks to our dear friends and neighbors for their thoughtfulness during the sickness and death of our dear brother, Amos Lee Moore. Your kindly acts and comforting words helped to lighten our sorrow and we appreciate everything you did for us.

May God's richest blessings be yours.
Mrs. S. L. Moore and children.

RESOLUTION OF RESPECT

Whereas, the Death Angel has visited the home of one of our dear brothers, J. H. Reeves, and has taken from him his precious daughter, Patry Belle, we, the members of the I. O. O. F. lodge wish to comfort him and extend our deepest sympathy in this dark hour of life. We trust that the love and peace of the Almighty Father will mend these broken hearts and bring sunshine into their lives once more.

Be it resolved that a copy of these resolutions be spread on the minutes of our lodge, and also appear in the weekly issue of the Herald.
O. J. Welch.
L. E. Crenshaw, Committee

RESOLUTION OF RESPECT

Whereas, it has been ordained by the Master on High to take from his earthly home one of our loyal and most highly esteemed members, George Dallas Griffice, we, the members of the I. O. O. F. lodge wish to extend our heartfelt sympathy to the bereaved family and ask that they seek comfort in the Lord, who knows and does what is best.

Be it resolved that a copy of these resolutions be spread on the minutes of our lodge and also appear in the weekly issue of the Herald.
O. J. Welch.
L. E. Crenshaw, committee.

Keeps Her Home Ready for Coming of Christ

Auburn, N. Y.—It is labeled on a big sign The Capitol of the World, but to the hundreds who daily pass the green structure at Orchard and Jefferson streets it is known as the House of the Thirteen Doors.

Twelve of the doors apparently lead to the apartments of tenants, but the thirteenth, that at the top of an outside stairway, gives access to the rooms of the owner, Mrs. Harriet A. Phelps, a native of the village of Locke and for forty of her seventy-two years a resident of Auburn. She has a simple religious belief, outwardly expressed in signs proclaiming her home not only the capitol of the world, but also as the site of the Thorne waiting rooms.

To her neighbors Mrs. Phelps is an industrious, kindly woman, given to good deeds for the neighbors and as a worker who has toiled at various occupations during her lifetime to acquire the money wherewith to purchase the Capitol and two other houses.

To herself, however, Mrs. Phelps is the last prophet of the world, a link between heaven and earth, and she appears to believe that at the dawn of the millennium Christ will return, appearing at the house Mrs. Phelps keeps to await his coming.

The white-haired, kindly woman, with her Bible and her cats, keeps vigil in their own rooms of the eighteen which the house affords. She has firm faith in her belief that Christ will return, but she is not intolerant of the beliefs of others.

Mrs. Phelps evidently seeks no following, nor does she attempt to impress her beliefs upon others. To her the big signs on the house are simply the outward acknowledgment of her faith.

Telephones for Smyrna

An agreement was made between the city of Smyrna, Turkey, and the L. M. Ericsson company granting the Swedish concern a concession for 55 years for the installation and operation of a telephone service in Smyrna and the surrounding district. A special company with a capital of about \$212,000 has been formed, with the city of Smyrna and the Ericsson company as shareholders. The first telephone station, which will be automatic, will begin with 2,000 lines, to be enlarged later to 10,000.

HEADACHES

Your eyes are probably the cause—see Dr. Geo. L. Wilke, Registered Optician, for a free examination.

Not being able to take care of a great many visitors, due to a lack of hotel accommodations, Big Spring has not been making much noise in an effort to induce folks to visit our city. When our new hotels are completed will be the time to start the publicity campaign.

Alarm clocks are worth the money when you need one. . . . Cunningham & Phillips.

Plans for a modern garage, one hundred and fifty feet, on one of the principal business corners in Big Spring are now being prepared. It is quite likely that we can give further information relative to same in the near future.

Mr. and Mrs. Chas. E. Lowry of Midland visited homefolks in this city Sunday.

"ADVERTISEMENT"

Well folks, we have just returned from a scouting trip, and here is what we found: The McDowell well No. 1 is drilling past 800 feet; Penn-Edwards drilling past 2750 and formation breaking high; Martin No. 1 drilling past 1850, formation also breaking high; Green Oxsheer No. 1 drilling around 400 feet, and Skelly Oil Co. drilling fast.

Do you know all the above wells are very important to the Meriwether Oil Co.? Yes sir, we have leases near enough to all five that either one would greatly enhance the values on our lease.

My friends, this McDowell well is going to surprise the oil fraternity and is going to put the Meriwether Oil Co. on the front page, and now is the opportune time to step into line as such opportunities do not knock at your door every day; either one of these wells may go over the derrick, then it will be too bad for the fellow that did not join the Meriwether Oil Company.

We don't believe you can beat this as an investment in the oil business; we are right here where you can check up on us every day if you desire, and we have no secrets from our shareholders.

While lady luck is flirting with you, fill out the blank below, attach your check, and fill it in.

MERIWETHER OIL COMPANY,
Big Spring, Texas.

I herewith make application for _____ shares of stock at One Dollar per share, par value, fully paid and non-assessable.

These cars stand up

EVERY General Motors car is built to last throughout its life. Whether its purpose is to be used up by one owner or many owners makes no difference.

That is the reason for the high reputation of the current series of the General Motors cars. It is also the reason why USED General Motors cars offer real opportunities.

General Motors dealers are dependable and will give you, if you wish, the advantage of the low cost GMAC Plan of time payment.

The price ranges of the new General Motors cars are given below. Pick out the one that interests you most. Then clip and use the coupon. We want to tell you all about our cars and also why General Motors cars are new, offer real value to their purchasers.
