

**Largest Plane Carries Cadets**

The world's largest operational aircraft, the XC99, carried 212 cadets from San Antonio to Fort Worth for a tour of the Convair Aircraft plant. It is believed this is the largest group carried on a land-based plane.

**SEEKING 'TRUST'**

**Russia, China Vie For Central Asia**

By WILLIAM L. RYAN  
Associated Press Foreign News Analyst  
Whatever its ultimate aims, the Kremlin unquestionably seeks a relaxation of world tensions at Geneva. The fate of world communism hangs in the balance.

The most suspicious regions in the world—one that still defines pacifism as "an imperialistic trick"—goes to the Big Four conference seeking trust among nations.

President Eisenhower has pinned down the Geneva dilemma: There can be no trust without disarmament, but there can be no disarmament without trust.

The Soviet hierarchy is not likely to renounce the aims of world communism. Probably the Kremlin has decided the only safe course is a waiting course. Yet the longer the Kremlin waits, the more time there is for evolutionary forces in the U.S.S.R. to take their toll.

Ten, or even five, years of world political peace would have a profound effect on Soviet development. The Kremlin leaders who dreamed with Lenin and Stalin of dominating the world with their ideas are well along in years now. In the natural order of things, many of them will give way to younger men with no memory of violent revolution. They will be at the helm of a state vastly changed from the one Bolshevism snatched from the womb of a capitalist revolution.

The question before Western statesmen at Geneva will be not whether Soviet leaders have reformed, but whether the Soviet people will reform the leaders.

Despite the relaxation and air of friendliness recently in Moscow, the leaders still feed the people a diet mixed with hope and fear. One possible conclusion is this: No matter how anxious the hierarchy might be to settle tensions, it cannot go so far as to tell its people the danger of aggression against them is abating. That would remove a prime excuse for the all-out heavy industry program and give impetus to the Soviet public's demand for more and better consumer goods.

This sort of program also raises the question whether the United States is the Soviet Union's only worry. Undoubtedly the Kremlin has been casting some speculative glances to the east and south—first because there is a latent danger of war in Asia, and second because China promises one day to become a mighty powerful neighbor nation sharing a long frontier with the U.S.S.R.

Recently a highly competent source who traveled in China reported indications of a developing Soviet-Chinese mutual distrust in North Central Asia. The Chinese took note of the Soviet program to "open up virgin lands" in Soviet Central Asia. A new Russian colonization is under way in these lands, once ruled by China before the Czars seized them.

The informant reports: The Chinese responded with their own program, calling for emigration of 10 million Chinese into Sinkiang province, bordering Soviet Kazakhstan. For a long time Sinkiang was in the Soviet sphere of influence and the scene of heavy Russian infiltration.

The Chinese program will occupy a delegation from Brady visited here Wednesday to learn of the mechanics of the Colorado River Municipal Water District.

Included in the group, seeking information as a guide for possible creation of a district at Brady, were Joe T. Ogden, manager of the Chamber of Commerce and formerly a businessman in Big Spring; Charles Egge, member of the Brady City Council; A. J. Ricks Jr., member of the Chamber of Commerce board; and Bob Rothe of the Soil Conservation Service.

two to three years, concurrently with the building of rail lines and establishment of collective farms in Sinkiang. It seems obvious 10 million Chinese can do much to stop further Russian infiltration.

The non-Communist diplomatic corps in Peiping is reported convinced, for the most part, that Moscow views China's future with a mixture of awe and dismay. Within 10 years, given no major war, China would be a power with which the Russians would have to reckon in the East.

Some of these diplomats now say the Russians want to relax tensions in their relations with the West because China represents a future danger to the Soviet Union. There is even a suspicion that recent Red Chinese purges were the result of underground Russian agitation to keep China off balance.

There is no sign of any friction in the propaganda pouring from Moscow and Peiping. It insists the Soviet-Chinese alliance is utterly unbreakable. But it is significant that promised Soviet economic aid seems lagged. The U.S.S.R. has undertaken to help China develop 156 major construction projects, but last official word from China was that only half a dozen had been started.

It is also significant that when the summit conference was proposed on world tensions, there was no insistence from Moscow this time that Red China be present or represented.

At the moment the Soviet-Chinese alliance would appear to be of vital concern to both parties. But there are indications Peiping is becoming demanding, seeking a price for continued friendship. The price would be a drain on Soviet resources. Moscow never has and still does not dominate Red China in the sense that it dominates the European satellites.

In the long run, however, Moscow's future with China rests in the hands of Russia's 210 million citizens. If the Soviet consumer's voice becomes more and more demanding, more and more authoritative as time goes by, it is likely to put a crimp in any Moscow efforts to spread Soviet political influence toward Peiping.

Next: Communist Around the World.

**Brady Delegation Studies CRMWD**  
A delegation from Brady visited here Wednesday to learn of the mechanics of the Colorado River Municipal Water District.

Ogden said that they were interested in trying to set up a district which would be empowered to construct a dam across Brady Creek somewhere above the city. This would serve as a flood control measure and also to impound a lake for municipal supplies.

**UNCLE RAY'S CORNER**

The head of gigantic statue of Ramesses II.

It may seem strange that a statue could serve as a "time clock" of any sort, but it is true. A gigantic statue of an Egyptian king has provided facts about sediment left by the Nile River during its yearly floods.

The statue shows Ramesses II, and it was set up at Memphis, Egypt, 32 centuries ago. More than nine feet of sediment collected above the base of the statue. By simple arithmetic, it was found that the Nile River left, on the average, three and a half inches of sediment during each hundred

years before the statue was checked by modern scientists. After learning those facts, scientists used the depth of the sediment to estimate the age of other objects. A stone tool or weapon found at a depth of 27 feet, for example, would have an estimated age of 9,257 years.

That time clock is good for objects found in the Memphis area of the Nile valley. It may be in error since the amount of mud and other materials dropped by the floods must have differed in various places.

Another time clock exists at Niagara Falls. Through thousands of years, the Niagara River has been producing a gorge. The gorge now is seven miles long, and the question is, "How long has it taken for the gorge to be formed?"

Historic records have given some facts during the past century. It is figured that the falls have moved back (due to the wearing away, cracking and tumbling of rock) at an average rate of three feet and five inches a year. With that rate, a seven-mile gorge would form in about 10,800 years.

The Niagara time clock may tell the facts in a rough way, but it is far from perfect. Geologists have found reasons to suggest that the gorge increased in length less rapidly during some periods of the past. Probably the increase was so much slower that the present gorge took 20 thousand years or more to be formed.

Tomorrow: More About Time Clocks.

**60 Escape Crash Injury**

WASHINGTON (AP)—Sixty persons escaped injury early today when an Eastern Airlines Constellation skidded several hundred feet after its right landing gear collapsed on landing at National Airport.

An airline spokesman said many of the 55 passengers were shaken, but that none apparently was hurt. One of the passengers was Rep. Keating (R-N.Y.). The plane carried a crew of five.

The plane was bound from Newark, N.J., to Houston, Tex.

**Passenger Record**

FORT WORTH, Tex. (AP)—The Air Force claimed a new passenger-carrying record today for land-based planes. The XC99 transport landed at Convair's plant here yesterday with 212 persons on a flight from San Antonio.

**Mechanic Gets Snake**

SAN DIEGO, Calif. (AP)—Press Gragg, an auto mechanic for 33 years, has taken a lot of bugs out of cars, but never a snake—that is until yesterday.

Harold Brown brought his car to Gragg "to get the snake out." Gragg tackled the job with a plate of milk and a heat lamp after other mechanics had pulled the seats out of the car without snaring the reptile.

Gragg grabbed the five-foot gopher snake with his hands, when it came out from behind the dash board to sip the milk. He dumped it into a cardboard box to be returned to Brown.

"It's Mr. Brown's car and Mr. Brown's snake," he said.

**Bristow Speaks At Rotary Club**

Oble Bristow of Big Spring, state representative for the 101st District, was the speaker at the Rotary Club luncheon Tuesday.

He discussed briefly some of the activities of the last legislature, told of his experiences in Nevada where he witnessed an atomic blast last spring, and concluded by giving Rotarians a taste of his philosophy.

"It's the little things you do to help others that counts," Bristow declared. "None of us is going to do anything big, but if we do the little things we won't have to worry about that."

Guests at the luncheon included Y. C. Chow, Wei Chow and S. K. Fan, process engineers from Formosa in this country on a study of petroleum processing facilities and techniques; and Rev. Charles Jaekle, chaplain at the Austin State Hospital and for the Texas State Hospital system, and Rev. Clarence Thiele, assistant chaplain at the Episcopal Hospital in Philadelphia, Pa. Both were visitors at the Big Spring State Hospital Tuesday.

**Eyes Peeled On Dixon-Yates**

WASHINGTON (AP)—Sen. Anderson (D-NM) said today the Senate Atomic Energy Committee heads will keep close watch on how the government goes about settling the Dixon-Yates contract.

The committee failed in an effort to obtain from Atomic Energy Commission officials yesterday word as to just how the cancellation will be effected.

Noting that under the law his committee is to be kept informed of everything AEC does, Anderson said AEC is the government party to the contract and should negotiate the settlement.

He declared he had been disturbed about indications that Atty. Gen. Brownell might have charge of the negotiations, and added that if that happened, "there may be a settlement running into millions of dollars and we will know nothing about it."

# Susan Ball Fights Bone Disease Again

HOLLYWOOD (AP)—Susan Ball, a resolute young actress who came back to a film career and marriage after losing her right leg to cancer, is waging a fresh battle against the disease today.

The City of Hope medical center at nearby Duarte disclosed that the petty brunette, 21, has been a patient there since July 5. Her condition is serious.

Little more than two years ago Susan fell on a dance floor. She had just been signed to a movie contract. Nobody thought the injury would keep her from work for long. But she had trouble with her leg, and doctors now think

she aggravated a dormant condition.

The following November she fell again, in the kitchen of her home. This time the injury to the leg did not respond to treatment. A bone graft was tried, but without positive result.

Susan learned soon afterward that she would probably lose the leg. But she never lost her courage.

In 1953 she and actor Richard Long became engaged. Susan's ailment however, interrupted her marriage plans as well as her career. On Jan. 13, 1954, her right leg was removed.

She bounced back to seeming health—in a few weeks she was planning her marriage again, and the resumption of her film work. In a few more weeks she was learning to walk with an artificial leg.

The postponed wedding took place in Santa Barbara April 12, 1954. And Susan walked up the aisle, just as she had said she would.

"I'm going to show the world I can walk," she announced during rehearsals for a TV play in which her husband also appeared. During much of the action she was shown in a wheelchair. But at the play's end she walked.

Then she made a picture, "Chief Crazy Horse." Thereafter she and Long settled into their domestic roles.

"People have asked me how I felt after coming through my experience with cancer," Susan said after the amputation. "I can only say I was never afraid of it. I always thought in terms of being cured; that was my only consideration. The grimmer aspects of cancer never occurred to me."

The City of Hope announcement yesterday came as a shock to all except Susan's closest friends in the movie colony. They knew she hadn't been well.

"Mrs. Long's general condition is considered serious," a hospital spokesman said, "and she is being evaluated to determine a course of therapy."

Another source, declining the use of his name, said Susan's case is not considered hopeless.

## Broom Ineffective For Bear Hunting

LA VETA, COLO. (AP)—A summer resident at Cucharas Camps, southwest of here, found that a broom is a poor substitute for a gun when it comes to dealing with a bear.

Mamie Burns said she stepped from her cabinet yesterday and found a young bear just outside the door. She seized a broom to protect herself, but the bear, instead of heading for the woods, charged her.

She dropped the broom and grabbed a .22-caliber rifle. Her first two shots missed but the third — the last left in the weapon — killed the bear.

## Former Actress Purchases Hotel

HOLLYWOOD (AP)—Marion Davies is now a hotel owner.

The former actress announced yesterday that she has bought the Desert Inn in Palm Springs for two million dollars. The sellers were Earl Coffman and George Roberson.

Miss Davies, who said she will be the sole owner, said, "It'll cost a lot more by the time we get through with it. I plan to develop it into a miniature Rockefeller Center."

## Succeeds Hobby

Marion B. Folsom, President of the Licensed Beverage Association, has succeeded in his hobby of dam building.

There is almost a natural lake site between the Jet and South Mountain and east for a half or three quarters of a mile. Someone else thought of this years ago and built an earth dam and to prove that water was there the old dam washed away. A short dam with concrete core could do the trick. There is also a canyon just north of the old dam and in some places looks to be about 40 feet deep. These could be tied in together and would hold a lot of water which could come in handy sometime.

The people who own this prop-

## Huge Moonshine Industry Claimed

COLORADO SPRINGS, Colo. (AP)—A beverage industry official estimates 78 million gallons of intoxicating liquor are produced by illegal stills in the United States each year.

The figure came from Thomas J. Donovan, executive director of Licensed Beverage Industries, Inc., who addressed the National Licensed Beverage Assn. here yesterday.

Government agents seized 22,913 illicit stills last year, he said, "and it is estimated that for every moonshine still seized, there is another that is not found."

## No More Alamos?

LITCHFIELD, Ill. (AP)—David W. Crockett, 26, of Lake City, Ark., asked Police Chief Ted Rogers if he could rest for a few hours in the city jail. After a little nap, Davy told Rogers he was going to continue his hike northward. He was looking for a job.

## LETTERS TO THE EDITOR

### Resident Sees Possibility For Development Of Lake

To the Editor:

Would anyone care to join me in, possibly, a pipe dream? It's only a thought, but did you know that we could have one of the most beautiful little recreation lakes in West Texas right here in our own back yard? It sounds fantastic and may be. Did you ever look east of the Hiway out by the Jet Drive in theater?

There is almost a natural lake site between the Jet and South Mountain and east for a half or three quarters of a mile. Someone else thought of this years ago and built an earth dam and to prove that water was there the old dam washed away. A short dam with concrete core could do the trick. There is also a canyon just north of the old dam and in some places looks to be about 40 feet deep. These could be tied in together and would hold a lot of water which could come in handy sometime.

The people who own this prop-

erty could add enough to the price of the lake side lots to more than offset the land covered by water. Of course, it would be nice if this was added to our little park. Just think, a place where the kids could fish and the old men could cool their feet in the sky blue waters. The Mayor could proclaim a Park Day and the town could close up and everyone would pitch in and clean the place up. I'll bet that the dirt men and contractors would come in and help for a smaller fee than they would on other jobs. (Getting more fantastic isn't it?)

Maybe sometime when we quit pumping from the wells the old big spring will start again. Now please don't ask where we are going to get the water or the money but if it is pleasant to think about. The real young boys with real young fathers should talk this over because I am afraid the older folks will not do much about it. We will go on smoking our pipes, but if you are ever out that way, look it over.

BUCK BOLDING

## Krick Claims Dallas Laurels

DALLAS (AP)—Dr. Irving P. Krick, of Denver, says his "rain-increasing" service is responsible for 21 billion extra gallons of water which has poured into Dallas reservoirs since 1952.

He said yesterday lakes serving Dallas have gained 24 billion gallons since he was hired in 1952, and that of this amount he claims credit for 21 billion at a total cost of \$100,000.

## Vaccine Arrives For Texas Youth

AUSTIN, Tex. (AP)—A shipment of Salk polio vaccine for Texas schoolchildren's second shots arrived by plane last night from Eli Lilly Co., Indianapolis, Ind.

Most Texas cities had arranged for a quick pickup of their share of the vaccine so that the vaccination program can be resumed. An Air National Guard plane flew from Dallas to get vaccine for Dallas County and 14 other North-east Texas counties.

## Conservative Meet Blasts Race Ruling, Labor Leaders

DALLAS (AP)—The Supreme Court's ban on segregation in public schools was denounced and "northern labor leaders" in the Democratic Party blasted at a meeting last night of conservative Texans as Democrats.

But the estimated 200 party members who gathered in a hotel ballroom strongly rejected suggestions they intended to form a "splinter" political group.

"This group xxx is not a splinter group, but the Democratic Party of Texas," declared R. A. Stuart, former state senator from Fort Worth and one of the speakers.

"If we don't keep control of it, the CIO-PAC will take over and become the Democratic Party of Texas."

Gov. Allan Shivers had wired the group he would not attend their meeting and added: "I have always been opposed to splinter political parties and the organization of third parties." He said he had heard the group would not be working within the framework of the Democratic Party.

Democratic state chairman

George Sandlin and Wright Moon, national committeemen from Texas, also advised they would not attend and in doing so stressed working through the regular party.

The group adopted a resolution opposing desegregation in public schools.

## Housework Easy Without Nagging Backache

Nagging backache, headache, arm-ache and pain may come on with over-exertion, emotional upsets or day-to-day strain. And folk who eat and drink unwisely sometimes suffer mild bladder irritation... with that restless, uncomfortable feeling.

If you are miserable and worn out because of these discomforts, Dean's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—tending to increase the output of the 15 miles of kidney tubes.

So if nagging backache makes you feel dragged-out, miserable... with restless sleepless nights... don't wait... try Dean's Pills... get the same happy relief millions have enjoyed for over 50 years. Get Dean's Pills today!

Moist heat of the M-W Drier sanitizes your clothes. You'll find Ward-dried clothes fluff-soft, fluffy. Clothes are damp-dried, ready for ironing in 20 to 35 minutes, or dried completely, ready to put away in 35 to 45 minutes. Reg. 104.95 Deluxe Gas Dryer.....174.<sup>88</sup>

**A Bible Thought For Today**  
Therefore to him that knoweth to do good, and doeth it not, to him it is sin. (James 4:17)

**Editorial**

**Was It The Tone Or The Words?**

At Maryville, Tenn. (near where Sam Houston taught school as a boy) this week, the AP's Hal Boyle discovered and interviewed the champion hog-caller of those parts, a husky citizen named Robert Clark, who obligingly gave Boyle his prescription for successful hog calling. Mr. Clark had just been named champ at the National Hillybilly Homecoming for the third straight time.

"The main thing in getting a pig's attention is to have a loud voice," modestly declared the perennial (regional) master of the art. "The pigs ought to be able to hear you at least a mile away, and come a-running."

Whereas the pig-audience in the contest remained unmoved and appeared to be bored when a rival hog-caller used soft and dulcet tones on them, they came a-running when Mr. Clark gave forth with all he had.

"Piggy, piggy, piggy, OOO-oh-beee, Pig." That is the champ's favored style of calling, in a loud, not too gentle voice.

We wish Mr. Boyle hadn't transmitted that verbatim report of the Clark hog-call,

for it is sure to meet with widespread disagreement among the nation's pig vocalists. Well, every artist to his own taste, and Maryville's Clark has the loving cups to prove his system works.

But that ain't the way he heered Uncle Dan call hogs in the long, long ago. Uncle Dan's hog-calling was strictly business, and no nonsense. He never knew how many piglets had in the hills, but he liked to call 'em up once in awhile to see how they were doing on the mash on which they habitually fed. So he would pick up an ear of corn and stand in the middle of the crows, break off a few kernels, give voice to a call that reverberated through the hills, and start scattering the grain about when the first pig-head poked into view with ears cocked.

And what did Uncle Dan say to his pigs? "Pig-awee, pig-awee! Pig! Pig! Pig!" That's what Uncle Dan said, plain as day. And the pigs came a-running from all directions and assembled around Uncle Dan, who would smile with satisfaction, pocket what was left of his ear of corn, and go back to the gallery to rest his bones.

**Biggest Secret-Biggest Fright**

Ten years ago next Saturday a shot that ushered in a new age on earth rent the sky near Alamogordo, N. M. The time had been set for 4 a.m., but had to be postponed to 5:30 because a violent wind and rain storm swept the area—a fitting prelude to what was to come.

Then someone touched a button, and assembled scientists saw something the eyes of mortal man never beheld before—an atomic fission. Two billion dollars had been poured into a project the success of which no man could predict with certainty until that moment.

It had been history's best kept secret. Not until Aug. 6, when the first bomb fell on Hiroshima, did the world know of the birth of a new age. Looking back on these momentous events, not the least of the miracles was that a finished bomb had been ready for use in 21 days after the first test was set off. The bomb-builders had been pretty sure of themselves, and obviously preparations for the Hiroshima drop were well forward. That, and the one that fell on Nagasaki three days later, convinced even the Japanese warlords that further resistance was unthinkable.

That Alamogordo test had been on the order of 1,000 tons of TNT. That at Hiroshima was spoken of as equivalent to 20,000 tons of TNT. We have now entered the hydrogen age, and tonnage is referred to in millions, not in thousands.

Of necessity, seeing the state the world is in, military development of atomic energy has held the spotlight and attracted most attention, but power development and use of isotopes in medicine and kindred fields have not lagged far behind.

And it might have wrecked the paragraph in the platform that it doesn't even mention Russia or communism or broken agreements.

Why is it being offered at all, on the eve of the Geneva conference which opens Monday?

Pertains to make the Russians a little self-conscious when they meet Eisenhower. And perhaps because there is a strong belief within administration circles that it is worthwhile to keep the hope far from the dynamite of the first

CLAIMING RACE

**James Marlow  
GOP Backed Down On Explosive Promise**

WASHINGTON (AP)—In their 1952 campaign platform the Republicans had two paragraphs on the Russian satellites: one full of dynamite, which made good political propaganda at the time, and the other harmless.

After their election they backed off from the dynamite-laden paragraph. They had failed to carry through on it. Three years later they are pushing for a revised version of the harmless one, with Democrats' help.

The explosive paragraph said the Republicans would "repudiate" all wartime "secret understandings" with the Russians which aid "Communist enslavement."

The other said: "It will be made clear, on the highest authority of the President and Congress, that United States policy looks happily forward to the genuine independence of those captive peoples."

WASHINGTON (AP)—In their 1952 campaign platform the Republicans had two paragraphs on the Russian satellites: one full of dynamite, which made good political propaganda at the time, and the other harmless.

After their election they backed off from the dynamite-laden paragraph. They had failed to carry through on it. Three years later they are pushing for a revised version of the harmless one, with Democrats' help.

The explosive paragraph said the Republicans would "repudiate" all wartime "secret understandings" with the Russians which aid "Communist enslavement."

The other said: "It will be made clear, on the highest authority of the President and Congress, that United States policy looks happily forward to the genuine independence of those captive peoples."

**Walter Lippmann  
Ike, Dulles Talk To Different Audiences**

It was naughty of the subcommittee of the House Appropriations Committee to publish just now what Secretary Dulles told them a month ago about the economic troubles of the Soviet Union. Having been warned by Mr. Khrushchev that the Soviet Union is unwilling to let its concessions be interpreted as weakness, the White House had to announce that Mr. Dulles had not meant what his words said. And in fact, he had not meant what his words said. He had been telling the subcommittee that part of the truth, somewhat ornamented, which he thought would most quickly persuade them to vote the appropriation for foreign aid. He was telling them the kind of truth he thought they would like to hear.

This is by no means the first time that the President and the Secretary have seemed to be saying different things. Again and again, they have been found saying things which differed very much in the tone, and occasionally in the substance. The President, looking at the shining face of the moon, would say it was cheerful; the Secretary looking at the dark side of the moon, would say it was chilly. For this point-counterpoint of Eisenhower hopefulness and Dulles wet blanket there have been a number of explanations:—for example, that Eisenhower never reads the fine print whereas Dulles is an expert on fine print— or that Eisenhower believes in the natural goodness of man and that Dulles believes in original sin.

mean to make the Congress feel that they should vote the money for foreign aid even though the Soviet government was talking peace. Until this year the case for foreign aid had been argued on the basis of the imminent threat of an aggressive expansion of the Communist power. Faced with the change of Soviet tactics, Mr. Dulles was out to persuade Congress that the Communist power is now retreating because of the success of the policy of which foreign aid is an important element.

The question, we might ask ourselves, is whether the President's power at home and the situation abroad have not brought us to a point where it is possible, and indeed necessary to stop talking down to the Congress and to begin talking publicly as informed and responsible men are talking and thinking privately. The great majority in Congress would prefer to be treated sincerely and as adults, and the extremists no longer count for very much.

No good can come of teaching our people to believe that we now have the upper hand, and that we can therefore compel the Soviet Union to make concessions. The Communists are a tough lot. We are, for example, far from having the upper hand in Eastern Asia. We must not delude ourselves into thinking that we have won the race of armaments. And even in the economic comparison, the advantage is by no means decisively with us. To be sure, the American free enterprise system and the mixed economy of Western Europe are stronger and richer than the Communist economy in Russia and in Eastern Europe. But in the vast underdeveloped area of the world the Western way is not regarded as the only way. For free enterprise and democracy are much slower and more difficult than is the strong centralized, ruthless way of Communist dictatorship.

WASHINGTON (AP)—In their 1952 campaign platform the Republicans had two paragraphs on the Russian satellites: one full of dynamite, which made good political propaganda at the time, and the other harmless.

After their election they backed off from the dynamite-laden paragraph. They had failed to carry through on it. Three years later they are pushing for a revised version of the harmless one, with Democrats' help.

The explosive paragraph said the Republicans would "repudiate" all wartime "secret understandings" with the Russians which aid "Communist enslavement."

The other said: "It will be made clear, on the highest authority of the President and Congress, that United States policy looks happily forward to the genuine independence of those captive peoples."

GATLINBURG, Tenn. (AP)—"In saying hill folk live with dignity, I feel that I am not making a misstatement, for indeed they do."

So said a lady here of whom I inquired what peculiar virtues mountain people have.

Jack Huff, a special-back chair, and put his mother on it. She weighed more than 90 pounds, but her son carried her up the steep slopes with her favorite kitten sitting purring in her lap.

He thought it was a privilege to do this for his mother, not a hardship. But it still has left him a deep regret. For the weather turned bad, and his mother spent several days on the peak and her rheumatism finally forced her to come down again, and she died in time, never having seen the sunrise or set from the peak that Jack loved. It was something he had known she wanted to see, — too — and she never did.

Her son has never forgotten. Jack doesn't pack supplies up the trail on his back anymore. His father died four years ago, and now he has to run the big prosperous hotel here in town.

He worries about the service, says it's hard to find people anyone who want to do a job right just because they feel that's the way a job should be done.

Jack takes his exercise now golfing. His doctor tells him his heart isn't what it was 20 years ago.

But his spirit is, and now it's valley-bound. He makes plenty of money, I would guess, but his eyes shine when he talks about the past, and they dull when he talks about the present.

He is a tall, lean, big-eared, courteous, friendly man hungry for yesterday, lonesome for the youthful prime when his mind was free and all his troubles were on his back. He misses climbing, going uphill, building in a new place.

When I asked him about the mountain top, he said: "Up there you never find two days the same. It changes. You can see far. Every moment is different."

Growing older and wealthier in the town below, Jack Huff remembers being happier younger and higher up.

But hereabouts he will always be honored because he once carried his mother up a stony road to watch a sunset she never lived to see. It gives him a respect beyond any bank account.

WASHINGTON (AP)—In their 1952 campaign platform the Republicans had two paragraphs on the Russian satellites: one full of dynamite, which made good political propaganda at the time, and the other harmless.

After their election they backed off from the dynamite-laden paragraph. They had failed to carry through on it. Three years later they are pushing for a revised version of the harmless one, with Democrats' help.

The other said: "It will be made clear, on the highest authority of the President and Congress, that United States policy looks happily forward to the genuine independence of those captive peoples."

**Mr. Breger**

-I think the brakes might need a little loosening...

Over the whole world situation there now impends the enormous, epochal, absolutely unprecedented fact that the modern nuclear weapons, though they cannot be abandoned or abolished, cannot be used without intolerable risks. He would be a bold man who thought he knew the political consequences of this kind of military stalemate. It seems clear enough that both sides are deterred from using these weapons as instruments of their policy. But it is not at all clear what this will do to their policies.

One apparent effect of the stalemate, is, it seems to me, to loosen up the Soviet satellite system in Eastern Europe and the American dependency system in East Asia. The weak countries would be entirely indefensible in world war, and the moral obligation to attempt to defend them is a military liability which almost certainly offsets whatever strategic value they may possess. This is as true of Poland as it is of South Korea and Formosa. They are all hopelessly vulnerable to nuclear weapons. Because of this ultimate and controlling fact, their role as outpost in the great military coalition is diminishing, and their future is more likely to lie outside of the military system of the great nuclear powers.

**Courthouse Atoms**

DALLAS, Tex. (AP)—James Marsh, an amateur uranium hunter, has discovered Dallas' old red granite courthouse is slightly radioactive. Someone suggested a uranium strike might be a good way to get rid of the venerable building.

**Around The Rim  
Things To Do When You're In A Wreck**

When you read about them in the paper, or see one in the street, it's easy to shrug off those "minor" traffic accidents. But when you get involved in one, it's not so easy to disregard. In fact, it probably ceases to be a minor incident, even if it did result in nothing more than your fender being ripped. Mine, for instance, got to be a major worry. I didn't know for sure what you were supposed to do, although I had heard that wreck reports had to be filled out, etc.

For people like me, the Chicago Bar Association has compiled a list of "what to do in case you're in a wreck." Your insurance company probably will give you similar advice. In case it hasn't, here's what the lawyers recommend:

First, stop. Come to a halt as close to the scene of the collision as possible without blocking traffic more than necessary. Failure to stop is a violation of the law, which may be on your side.

Next thing, look around for any injured and help them the best you can. Call a doctor and ambulance and try to make the injured person as comfortable as possible. If you don't know what you're doing, an injury may be aggravated.

Then, call the police, if someone hasn't

best you to it. And remain at the scene until they arrive. Give your name, address, etc, to the injured person, driver of the other car, officers.

For your own benefit, write down the same information about the other driver, and get the name of his insurance company. Jot down the names of any witnesses you can locate, and, if possible get statements from them concerning details of the accident.

Make a note of anything the other driver might have to say, and record time, location of traffic signals, road conditions, length of skid marks, position of cars, and extent of damages.

Avoid all arguments.

Discussion may hinder recovery of damages or weaken your own defense against a claim. Don't sign anything.

After the officers have completed their investigation, see your doctor to be sure you weren't hurt. Then file the required accident reports and notify your insurance company. The insurance adjuster will guide you the rest of the way, unless you need a lawyer. If you do, pick a good one, need a lawyer. If you do, pick a good one, need a lawyer. If you do, pick a good one, need a lawyer.

—WAYLAND YATES

**David Lawrence  
Soviet Could Take Action To Show Good Faith**

WASHINGTON — President Eisenhower said the other day that the kind of peace "That will allow people to be really tranquil and confident in their daily pursuits" will be achieved only when nations have achieved "mutual trust."

It's no state secret. That's the core of the problem at the Big Four conference to be held next week at Geneva. How, therefore, does any nation, any government, any head of a state set about to "achieve mutual trust"?

The answer is to be found in applying the dilemma to the affairs of individual human beings. For, in their relations, they do not differ materially from those of nations.

If an individual has repeatedly violated his word, if he has broken contract after contract, if he has schemed behind his partner's back to undermine him, if he has entered an association designed for specific objects and then has deliberately plotted against all the other members of that association, what can such a person do to regain the trust and confidence of his neighbors and his fellow men?

Usually an individual who commits a crime confesses it and repents. He tells why he has done wrong and asks the rest of the community to forgive him and restore to him a place in the esteem of his fellow citizens.

Can governments ever admit they were wrong? Can they repent of their sins? Isn't that difficult, it will be asked, for them to do if they have pride: The oft-used expression of diplomacy — "saving face" — is invoked and it is usually suggested that some method of glossing over the wrongdoing be accepted as a substitute. Hence public confession by a government is politically difficult even in a totalitarian country.

An alternative method would be performance — actual deeds that show rehabilitation. This could be accomplished by undoing the wrongs which the Soviet Union has committed since 1945.

Thus the Moscow government pledged itself to permit free elections in Poland and Czechoslovakia and in the other satellite countries. It was a pledge given first in the Atlantic Charter signed by Stalin.

Free elections everywhere would solve the East German problem, too, and permit German reunification.

Another step would be to release all the prisoners of war the Soviets have retained in their custody since 1945. There

is not the semblance of a sign behind those acts and it would be a sign of regeneration if the captives were allowed to go to their respective countries.

Then there are the prisoners held by Red China in violation of the Panmunjon armistice agreement. If they were given their freedom, the world would understand that a new era had arisen and that sincere efforts were being made to establish "mutual trust."

Red China, too, should permit free elections uncensored by military force. There would be no question of admission to the Security Council of the U. N. for a representative of a unified China if the Chinese on Formosa and the Chinese on the mainland could pick their own parliament and their own rulers, and if the new China government were to achieve and practice complete independence of the Moscow yoke.

Another step would be the unification of Korea. This can be achieved if the Communists would permit the United Nations to hold free elections so that a new government might emerge to govern all of Korea as a country independent of Red Chinese or Soviet coercion.

The key to "mutual trust" is to be found in free elections everywhere so that the people can rule. There would be no fear of war if dictatorships were not in power in countries that have the military might and the resources to menace the peace of the world.

All this will seem difficult to accomplish but only because evil men do not choose to reform or repent. Maybe that's because they no longer believe in God, and worship instead the false gods of their own fallacious authority. Men who have learned to surrender to the will and guidance of a supreme being have not been troubled about "saving face" and admitting wrong.

If the Soviet rulers mean to win trust and to be themselves truthful they have only to undo the many things they have done since 1945 which have brought on the "cold war." Then, indeed, will a conference of the heads of states mean something. If there's no "mutual trust" only an uneasy truce can ensue — a postponement of the crisis until the aggressor feels strong enough to start a war. Meantime, spiritual power and moral force mobilized by free peoples can seek to reach the oppressed peoples and encourage them to get rid of their evil rulers — it may be the only way to prevent a catastrophe from happening.

**Business Mirror  
Geneva Advantage: Economic Strength**

NEW YORK (AP)—President Eisenhower will be leading from economic strength at Geneva. Figures out this week show production in this country reaching new record highs. And industrial output of the United States' allies in Western Europe is making even more sensational gains over last year.

Whether the Soviet economic system is threatened with collapse, as some Washington officials have been suggesting, or whether it is healthy, as top Russian leaders insist, there is concrete evidence today that the Western world is economically stronger than ever.

This, of course, is just what the Reds hadn't counted on. Ever since the end of the war they've been predicting that capitalism would run into a postwar depression, which would give the Communists a fertile field for subversion.

But this week the Department of Commerce, after taking a second look at the total production of goods and services in the United States last year, reports that despite the much talked about recession, output slipped only 1 per cent below prosperous 1953.

And this year the total output has been climbing steadily into new high ground. President Eisenhower goes to Geneva with this nation's economy stepping forth at a record clip of nearly 860 billion dollars a year.

The United Nations Bulletin of Statistics reports this week that the world outside the Soviet bloc states and the mainland of China had a record first-quarter total output in manufacturing and mining last year.

NORFOLK, Va. (AP)—The Navy has activated its largest communications station here, a \$12,500,000 project to cover half the globe. At least temporarily much of the station's radio power will be held in reserve status, but it can contact points as far distant as Pearl Harbor and Naples.

# Money In Banks Subject To Tax, High Court Rules

AUSTIN (AP)—Money on deposit in banks is subject to taxation as property, and state law requires Texas taxpayers to render such property, the Supreme Court ruled today.

On the basis of this ruling, the court reversed lower court decisions and ordered new trial of a Harrison County tax case.

The decision could have statewide application. It could be bad news for people who have not been rendering for tax purposes cash in the bank as personal property, and good news for governmental agencies which may now decide to levy on this source.

The trial court and 6th Court of Civil Appeals had granted judgment to the state of Texas and other taxing units which sued D. E. and R. J. Whelan for unpaid and delinquent property taxes for 1950, 1951 and 1952.

The Whelans won reversal on their argument that the trial court erred when it refused to admit evidence showing the amount of taxable bank deposits omitted from the Harrison County tax rolls. They claimed there was a deliberate, arbitrary and systematic omission of the deposits totaling about 18 million dollars from the tax rolls.

The defendant taxing authorities did not deny that bank deposits had escaped placement on the tax rolls but argued that such deposits are not taxable. Even if taxable, they said, the failure to tax such deposits would not be a basis for relief for the Whelans.

The court said in an opinion written by Associated Justice Robert W. Calvert:

"We full well realize the practical difficulties and problems to be encountered in taxing bank deposits, but to hold that they are not taxable would require us to fly in the very face of the Constitution and the statutes of this state. This no court is at liberty to do."

The Whelans also contended that while their producing oil and gas properties and other real properties in Harrison County were assessed at a minimum of from 30 to 33 1-3 per cent of reasonable cash market value, other property interests were assessed, arbitrarily, at a much lower percentage of value.

Justice Calvert said the record disclosed rather clearly that "all non-producing oil and gas leases in the county were assessed at an arbitrary flat rate of one dollar per acre, wholly irrespective of actual market value."

He said cattle were assessed at an arbitrary flat rate of approximately \$15 per head, wholly irrespective of actual market value.

"This method of assessing non-producing oil and gas leases and cattle was clearly contrary" to the requirements placed on taxing authorities by the Constitution and laws of the state, Calvert wrote. He said the law requires that assessed valuations be arrived at on the basis of reasonable cash market value.

However, the court added, the Whelans will be entitled to relief only if they are able to prove upon retrial of their case that the assessed valuation of their properties is grossly excessive or that they have suffered substantial injury under the taxing procedure.

The court quoted at length from the Constitution and state laws to support its ruling that bank deposits of Texas citizens are taxable, whether in or out of the state.

The Constitution says that "all property x x x shall be taxed." State statutes define personal property as including "all goods, chattels and effects, and all moneys, credits, bonds and other evidences of debt owned by citizens of this state."

Another statute defines the term "money" as including "every deposit which any person owning the same or holding in trust and residing in this state, is entitled to withdraw in money or demand." Another law specifies that in rendering property for taxation, the taxpayer is to include "money on hand or on deposit, in or out of the state."

(It has not been general practice in Texas to render money in the bank for tax purposes.)

The court noted that the total assessed valuation of property on the Harrison County tax rolls for the years in question was from \$1 to \$9 million dollars. The general plan of the Board of Equalization was to assess at one-third of value.

If the Whelans could prove their contention that 18 million dollars in bank deposits had been deliberately omitted, the county's assessed values would be increased by one-third that amount or 6 million dollars.

The court said addition of 6 million dollars in assessed valuation "should have resulted in a substantial reduction of (the Whelans') taxes, either through reduced assessed valuation of the property on the tax rolls or through a reduced tax rate."

A proportionate reduction of assessed valuation would have meant a \$6,479 cut in taxes owed by the Whelans to all taxing authorities and a \$2,264 reduction in the amount they owed the county alone, the court said.

"It can hardly be questioned or doubted that on the record before the court the proffered evidence, if undisputed, would have shown substantial injury as a matter of law in that (the Whelans') taxes were excessive to the extent indicated," Justice Calvert's opinion stated.

Duncan Coffee Co. Declares Bonus For All Its Employees

The Duncan Coffee Company of Houston has declared a 10 per cent bonus for all of its hourly-wage employees for the first six months of this year.

Announcing the bonus, Duncan said, "In appreciation for the loyalty and sincere efforts which our employees have repeatedly demonstrated, it has been decided to give this mid-year 10 per cent bonus. This will make 37 consecutive years in which the company has given at least a 10 per cent extra bonus to its employees. We are proud of this record."

The Duncan Coffee Company was founded in 1918 and is now one of the world's largest importers and roasters of coffee.

Virginian New Leader Of Elks

A Virginia attorney was unanimously elected Grand Exalted Ruler of the Elks at their annual convention in Philadelphia.

John L. Walker of Roanoke, Va., was to be installed at the closing business session this morning. He succeeds William J. Jernick of Nutley, N. J.

Oliver Cofer and R. H. Snider made the trip to Philadelphia to represent the Big Spring Elks Club. Cofer is the local club's exalted ruler.

Retiring Grand Exalted Ruler Jernick told the convention that Elk membership showed a gain for the 16th consecutive year. This year's increase of 26,810 brought the Elk total membership to almost one and a half million.

Scouts Feast On Watermelon

Approximately 75 persons, including Scouts and parents, took part in a combined watermelon feast and Court of Honor Tuesday evening at Wesley Methodist Church.

Members of Troop No. 9, sponsored by the church, had earned a large number of advancements. Included were Ronnie Aaron, tenderfoot; Tommy Selkirk, James De-figaugh, Richard Williams and Keith Campbell, second class; Donald Kalsched, Larry Moore, Leahmon Bryant, Emmett Morgan, Ronnie Hamby and Alvin Utley, first class; Richard Long, Jerry Gilmore, Star; and Arlen Bryant, life.

Camping awards went to Arlen Bryant for 30 nights; to Emmett Morgan, Larry Moore, Ronnie Hamby, Jake Glickman, Ray Alexander and Leahmon Bryant and Nelson Clemow for 20 nights and a large number for 10 nights.

Earning merit badges were Arlin Bryant, Leahmon Bryant, Richard Long, Donald Kalsched, Woody Keith, Emmett Morgan, Larry Moore, Jerry Gilmore. The troop is headed by Charles Rathmel, Scoutmaster, with Chester Abernathy and Lt. Jim Lankton as assistants. The Tuesday meeting was Lt. Lankton's last one.

Methodist Laymen Plan For Family Night At Merkel

Methodist laymen of the Big Spring District will observe a family night affair July 21 at the new Butman Camp southwest of Merkel.

Dr. O. W. Carter, district superintendent, said a large attendance is anticipated and that a definite count on reservations was due early next week.

Dr. Willis Tate, president of Southern Methodist University, is to be the speaker for the occasion. A catering service out of Abilene will serve a barbecue dinner to the men, their wives and families.

Site of the gathering is on the 234-acre tract which Sam Butman Sr. gave to the Methodists for development of an encampment in the picturesque foothill country south of Merkel.

Dr. W. A. Hunt, Big Spring, district lay leader, is to be in charge of the program.

Singing Convention To Be Held Sunday

The Howard County Singing Convention, is scheduled to be held Sunday at the Mt. Zion Baptist Church at NE 10th St.

The convention meets quarterly and is open to all who like to sing. New books have been purchased and a large turnout is expected, according to Emory Parish, president. Jean Nance is secretary of the convention.

Dawson 4-H Club Encampment Set

LAMESA — The Dawson County 4-H Club camp will open here Friday at 9 a. m. with club boys from all over the county coming in for a day of fun.

After softball, horseshoe pitching, etc. at Forrest Park, they will go to the brakes and stay overnight, returning after breakfast Saturday. During the county encampment, boys will be chosen to take part in the district camp at Lubbock.

REUEL LEMMONS, Evangelist

THE PETRIFIED WARY

so rooted in caution he can't move a muscle

The WARY is a manufacturer who thinks the advertising field is strewn with booby traps.

He gets buck fever swatting a fly — and wouldn't crawl out on a limb two inches from the ground.

The WARY plays it so safe he's left stranded on base while the competition runs away with the game.

Fortunately the WARY is a rare creature.

Most manufacturers realize that business is highly competitive and that half-way efforts will get them precisely that far.

They believe in backing their products with strong, sound advertising. They believe, for example, in saturating a market to gain dominance; in testing markets to obtain answers to sales potentials.

Naturally they use newspapers—because newspapers blanket any market with maximum impact, creating mass action at the retail level.

Smart manufacturers start—and keep—their national advertising at the local level—in newspapers!

All business is local...and so are all newspapers!

Brings Tips From Africa

Lovely Dana Wynter, England's newest gift to Hollywood, passes on some complexion secrets she learned in Africa. Dana is now working on "The View From Pompey's Head" at 20th Century-Fox.

HOLLYWOOD BEAUTY

Complexion Secrets Of A British Actress

By LYDIA LANE

HOLLYWOOD — Dana Wynter studied medicine because she intended to follow in the footsteps of her father who was a doctor, but in college she dabbled in amateur theatricals and ended up on the New York stage instead. "My mother was an actress and was very happy to have me follow in her footsteps," Dana told me when I met her at 20th Century-Fox on the set of "The View From Pompey's Head." "But I think medicine is fascinating," she added.

This beautiful English girl was educated in South Africa and has lived in many countries. "But I've never seen women so beautiful as they are here," she remarked. "They are always spic and span. American women keep their hair so neat, and they are so alive and talk so animatedly. Americans are wonderful to strangers. I will never forget how warm and friendly everyone was when I came here," she said earnestly. "Since Dana was giving the Americans such a build-up, I thought it time to toss in a few bouquets to the English for their lovely complexions. "Olive oil and avocados are my secrets," Dana confided. "I learned this trick in Africa. The climate is quite drying there and one day when I was driving back to college after a holiday, my companion, a woman several years older than myself, saw a roadside stand where avocados were being sold. I stopped the car while she bought some. Then she did a very strange thing. She peeled one, ate half of it and the other half she spread over her face, working it in with her fingertips. "She smiled at my amazement, explaining that these natural oils are wonderful for the skin. A native woman had told her about it. "Then she told me about olive oil and what it does for the skin," Dana added, "and I've used it ever since. I use it to remove my make-up and as a lubricant. My face never feels drawn or tight. "It keeps my eyebrows soft, too, and occasionally I massage some warm olive oil into my scalp before a shampoo. "And if you wear sheer hose," she added, "a little olive oil rubbed into the heels of your feet will keep them soft and will help prevent snags. "You must use literally gallons of it," I laughed. "Oh! I almost forgot something," she said, grinning back. "There's nothing like it for keeping your cuticle soft and your fingernails from breaking."

COMPLEXION AID

You'll be rewarded with a lovely skin regardless of your age when you learn the secrets in leaflet M-30, "The Way to Maintain a Beautiful Skin." Included is information on foundation, cleanliness, cleansing, blackhead treatment, care of muscle structure. Added, at no extra cost, "Giving Yourself a Manicure." Get a copy of this vital leaflet by sending only 5 cents AND a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald.

Officers' Wives To Have Swim Classes

Eleven members of the Officers' Wives' Club were present at a meeting Wednesday afternoon to register for swimming classes to be offered twice a week at the base pool. Mrs. J. P. Theumel, who will be one of the instructors, was hostess for the group. Mrs. B. T. Walker will be the other instructor. Classes will be offered on Monday and Friday, with the advanced and intermediate swimmers coming at 10 a.m. Beginners will be taught at 11 a.m. The first class will meet Monday. A charge of 50 cents per lesson will be made for the instruction. Registrations may be made by calling Mrs. Theumel at 4-5817, or Mrs. Walker at 4-5859.

Lamesa Study Club To See House Plans

LAMESA—The Senior Woman's Study Club is to meet at 8 p.m. today at the Chamber of Commerce to review final plans for the new clubhouse. Architect Howard Allen is to present the sketches for the proposed building which will be erected in Park Terrace. Mrs. M. B. Jones and Robert of Newark, Conn., are visiting here with Dr. and Mrs. E. G. Fausel at the VA Hospital.

MORNING PEEPERS

By Joyce Cannaway

When you call the ladies on Washington Boulevard between 8:30 and 9:15 in the morning, you can expect to find all kinds of activity. At least I did when I called about 40 homes in this area this morning.

Yesterday's West Texas weather had messed up the lawn furniture at the Eben H. Hatch residence, 100, so Mrs. Hatch was giving the furniture a good washing.

Mrs. Jordan Grooms, 101, was preparing an early lunch because Rev. Grooms had to go out of town to conduct a funeral.

At 102, Mrs. Harold E. Hatch was out working in the yard while her neighbor, Mrs. Reagan E. Easley, 104, was fixing breakfast.

"I had just finished hanging out my washing," Mrs. Maggie Black, 104 1/2, exclaimed.

Mrs. William A. Bonner, 105, had gone to California. Also fixing to leave, but only to go down town to attend to some business was Mrs. Augustus C. Bass, 106. There was no answer at the Loy Acuff home, 107.

Griselda, Mrs. Robert P. Kountz's Persian cat, had gotten out and when we called at 202 Washington, Mrs. Kountz was chasing her. Mrs. Kountz was also explaining the yard duties to a hired boy.

No one was home at the Ottis W. Graft home, 204. Mrs. Archie A. Marchant, 205, was ready to leave for the grocery store.

"I was doing the usual chore at this time of the morning, washing the breakfast dishes," was the reply of Mrs. Jack Y. Smith, 206.

Mrs. Merrill Creighton, 206, was ripping a collar out of a dress so she could send it to the tailor shop. At 200, Mrs. Lee O. Rogers was out of town.

Two jobs at once describes Mrs. Justin Holmes, 301, who was washing the family clothes and mowing the lawn.

Mrs. Alvin H. Shroyer, 306, was washing, cleaning house and getting ready to go to work. The Marvin Woods 309, and the Bernice E. Freemans, 403, were not at home.

Mrs. Arvie E. Walker, 404, was expecting company and breaking in a new maid. Her neighbor, Mrs. Stephen R. Nobles, 405, was listening to the radio.

The phone was not answered at the Marvin R. Sewell residence, 407. After working hard, Mrs. Jesse J. Wilbanks, 408, was just sitting down to have a cup of coffee.

Don McNeil and "The Breakfast Club" was coming in by radio when we called Mrs. Mary Talbot, 409.

No one could be found at the Thomas L. Griffins, 502.

"My guest and I were drinking coffee," said Mrs. Norman Read when she answered the phone. Mrs. Joseph L. Wood, 510, was cleaning the house to get ready for her children from Monahan and Haskell who plan to visit her.

At 514 Washington, the Isadore Weiners were not at home. Mrs. Joe Hamby, 601, was fixing to take her children to San Angelo. Henry G. Carpenters, 608, did not answer the phone.

The house at 605 was receiving a good cleaning by Mrs. Ollie J. Anderson, but the Cecil D. McDonalds, 606, and the Cecil Guthrie, 608, were not at home.

A busy signal was the only answer at the Oscar Glickman home, 700. Mrs. James M. Meek was watering the lawn.

BPO Does Initiate Mrs. J. Templeton

Mrs. Jack Templeton was initiated into the BPO Does Lodge at their regular meeting Wednesday night at Elks Hall.

A report on the national convention held in Kansas City, Mo., was given by the local delegates, Mrs. Jo Clark, Mrs. Bill Ragsdale and Mrs. Leslie Jenkins.

Announcements were made that Fun Night will be July 23. The Does will be entertained with a lawn party next Wednesday at 8 p.m. at the home of Mrs. S. V. Jordan, 206 E. 6th. Co-hostess will be Mrs. Dewie Gilliland. Sixteen attended.

Sew And Chatter

Sew and Chatter Club rolled bandages for the Red Cross Wednesday afternoon when they met at the home of Mrs. Sam Weaver, 904 Abraham. Ten members were present.

Mr. and Mrs. Mack Underwood and daughter, Lynda, of Los Angeles, Calif., accompanied by Mary Jo Crozier, are visiting here this week with Mr. and Mrs. Lloyd Kinman, Mr. and Mrs. Jones Lamar, and Mr. and Mrs. Roy Holley Sr. Mack Underwood is the son of the late Hub Underwood, for many years head of maintenance at the Howard County Courthouse.

On Wedding Trip

A-1-C and Mrs. Phil W. Holland are on a wedding trip to Minnesota and Michigan after their marriage, July 9, at Webb Air Force Base chapel. When they return to Big Spring, they will be at home at 411 Bell. The bride is the former Lorraine Overby, daughter of Mr. and Mrs. Harold Overby of St. Paul, Minn. The bridegroom is the son of Mrs. B. Holland of Detroit, Mich. (Photo by B&J Photographers)

Forsaners Return From Vacations

FORSAN—W. T. Creelman has returned home from his vacation to Yellowstone National Park and other places of interest in the West. Mr. and Mrs. R. D. Garrett were visitors with friends at Colorado City Lake. The Garretts have had as their guests Mr. and Mrs. J. H. Hendrix of Monument, N. M. Hospitalized this week in Medical Arts Clinic at Big Spring with a reaction from a broken leg is S. J. Willis. M. M. Hines, ElRay Scudday and Earl Hughes have been fishing at Possum Kingdom Lake on Sunday. Mrs. W. A. Willis and son, Theo, of Abilene visited here in the S. J. Willis home. Mr. and Mrs. Frank Swiger were in Seminole Sunday to visit Mr. and Mrs. Jeit Green, Mary Ann and Barbara. Bob Honeycutt was home recently from North Texas State College in Denton where he is attending summer school. Pat and Mike Honeycutt have returned home from a visit in Big Sandy with their grandparents, the F. P. Honeycutts Sr.

Installation Planned

Installation of Indoor Sports and Good Sports officers will be held this evening at the Girl Scout Little House. The event, which will be a covered dish dinner, will begin at 7:30 p.m. with the ritual to follow. May Spence of Plainview will be installing officer. She is the national vice president of Indoor Sports.

Mrs. Bristow Is Speaker For Planters

At a meeting of the Planters Garden Club Wednesday afternoon in the home of Mrs. U. E. Dickens, Mrs. Obie Bristow conducted a workshop on flower arranging.

Members brought arrangements for criticism, and Mrs. Bristow gave various points necessary for blue ribbon winners in flower shows. She told the group of the composition of modern arrangements, stressing the importance of planning the lines of an entry.

The center of interest in a bouquet can be placed last of all, members were told. Use of color was also discussed by Mrs. Bristow, who warned against employing more than three colors in one arrangement.

Plans for a bazaar to be held Nov. 19, were made, and it decided to have a meeting each month to work on the articles to be sold. Mrs. E. L. Cochran is chairman of the committee, with Mrs. Warren Sparks and Mrs. C. W. Neefe as assistants.

Mrs. Neefe won the plant, which was given as a special prize. Ten members attended, with four guests.

Elbow HD Ladies See Demonstration

A demonstration on care of new fabrics and good laundering principles was given by Elizabeth Pace, county home demonstration agent, at the meeting of the Elbow Home Demonstration Club Wednesday.

Miss Pace displayed garments of synthetic fabrics and tested samples of water for hardness.

Mrs. B. J. Petty was in charge of the meeting. A council report was given by Mrs. J. C. Ray.

The group met in the home of Mrs. Jack McKinnon and 12 members were present. Refreshments were served by the hostess.

Next meeting will be July 27 in the home of Mrs. T. M. Dunigan.

Margie Cook Feted With Bridal Shower

ACKERLY — About 93 attended a bridal shower recently honoring Margie Cook, bride-elect of Ray Weaver, in the home economics department at the school.

Delores Mabry and Wanda Williams played music during the party.

Pink punch and cookies were served from a table covered with a white cloth with a floral arrangement as the centerpiece.

Hostesses included Mrs. J. Archer, Mrs. J. V. Bristow, Mrs. Chester Ingram, Mrs. J. C. Ingram, Mrs. J. L. Rudeseal, Mrs. Lewis Etheredge, Mrs. Tommy Horton, Mrs. Jake Harry, Mrs. A. H. Smith, Mrs. Dolph Raspberry, Mrs. Alfred Herrin, Mrs. Ed Hall, Mrs. Bill Hambrick, Mrs. Jack Grigg and Mrs. J. L. Billingsley.

Howard Educator Takes Art At TSCW

DENTON — Ruth Haggard, 835 Paisley, Denton, was one of the classroom teachers enrolled in Dr. Mabel Maxcy's Art Workshop at Texas State College for Women for the past three weeks. Teachers learned new methods for presenting art in their classrooms next fall.

Miss Haggard is a first and second grade teacher in the Center Point and Howard County schools in Big Spring. She received her B. A. degree from North Texas State Teachers College.

Celebrates Birthday

Mrs. Lillie A. Read, resident of Big Spring since 1894, celebrated her 90th birthday Tuesday with a party at the Read Hotel where she lives with her son, Earle A. Read. Her two other children are Mrs. J. H. Church and Mrs. Gladys Whipple of Cleveland, Ohio. A life-long member of the Christian Church, Mrs. Read was the first one to play the organ in the new church at 900 Galled. She is the widow of H. Clay Read who died in 1942.

Ackerly Families Visit Relatives

ACKERLY — Mr. and Mrs. Jimmy Belt, accompanied by his sister, Mrs. Carra Harris of Santa Monica, Calif., and a brother and his wife, Mr. and Mrs. Buddy Belt from Midway, have been visiting relatives in Altus, Okla. and Ballinger.

Visiting this week with her sister, Mrs. and Mrs. Fred Thomas, is Mrs. J. M. Robertson of Lubbock. Zenobia Crain visited a few days recently with Mr. and Mrs. L. D.

Crain and Carol in Big Spring. Mrs. Leon Bodine is visiting with a sister, Mr. and Mrs. Millard Blair of Andrews.

Mrs. Tommie Myles visited with her parents, Mr. and Mrs. John Rudeseal. Her son, Stanley, who has been visiting his grandparents, the Rudeseals and Mrs. Ira Myles, accompanied her home.

Dorothy Nell Gregg of Lubbock was home as guest of her parents, Mr. and Mrs. Tom Gregg and Thomas.

Carroll Crain is spending a few days this week with her grandparents, Mr. and Mrs. Bruce Crain and Zenobia.

Forsan Residents Entertain Guests

FORSAN—Clifton Ferguson, who is attending the summer session at Texas University, was here Monday.

Mr. and Mrs. Charlie Alston and Tim Anglin were recent visitors in Roby.

Monday visitors with Mr. and Mrs. W. J. White, Arlen and George, were Mr. and Mrs. John H. White and children of Freeport.

Mr. and Mrs. D. E. Jacobs and Lucie had as their visitors, Mr. and Mrs. Dean Bailey, Brenda Jan and David of New Mexico.

Now visiting in Abilene are Mr. and Mrs. Frank Phillely and Jennie.

Mrs. Jeff Pike has been a patient in Big Spring Hospital.

Recent visitors with Mr. and Mrs. L. W. Moore and family were Mr. and Mrs. Truett Stone and children of San Angelo.

Guests here for the weekend from San Angelo with the J. P. Kubeckas and the Keiths were Mrs. Aula West and Haroldine.

## 3 Boys Held In Extortion Try

ANNISTON, Ala. — Three small boys were recovering today from a six-hour ordeal during which they were held prisoner by a Negro who demanded \$8,000 for their release. They were not harmed.

## Thunderstorms Cover Texas

Hit - and - miss thunderstorms roamed across Texas during the night again but a warm sun set skies to clearing Thursday morning.

## 29 Feared Lost In Sea Disaster

VERACRUZ, Mexico — The crowded coastal passenger boat La Storm sank last night in the storm-tossed Gulf of Campeche 40 minutes after sailing from Veracruz. Twenty-nine persons were feared lost.

## Catholic Chaplain Assigned To Webb

Rev. Lt. William J. Ludlum, who recently returned from duty in Thailand, Greenland, was assigned to Webb AFB last Thursday as Catholic Chaplain. This post had been vacant at the base for over six months.

## Springfield, Ill. — Somebody stole all four hubcaps from William Romack Jr.'s 1955 automobile a couple of nights ago.

President Eisenhower and Mrs. Oveta Culp Hobby sit side-by-side in the President's conference room in Washington, D. C., at a special news conference called by Eisenhower to announce Mrs. Hobby's resignation as secretary of welfare. She is leaving the Cabinet post on Aug. 1. Marion B. Folsom will succeed her.

# BUT NO LOADER County Purchases Scraper, Tractor

The county commissioners purchased two pieces of road equipment, but turned down a request of the county engineer for a third item Wednesday.

Purchased were a used hydraulic scraper and a used tractor, the latter to be used for pulling road rollers and brooms.

# Guardsman To Bayonet School

Sergeant First Class Weston B. Mitchell has been ordered to the 36th Infantry Division Bayonet Instructor School at Ft. Hood.

The school is being conducted during the 1955 encampment of the 1855th Regiment of the "T-Patchers," famed Texas National Guard division. Sgt. 1C Mitchell will represent Battery B, 132nd Field Artillery Battalion, was chosen by his battery commander, Capt. Thomas A. Harris Jr., and by the battery first sergeant, Jesse B. Wood, due to his leadership qualities and overall soldiering ability.

# 7 Cases Filed In County Court

Seven cases were filed in county court this morning. Two of the cases were filed against one man alleging he passed two worthless checks.

Robert R. Robinson is charged with passing two worthless checks to Lowell M. Knapp, each in the amount of \$10. One of the checks was passed July 2 and the other July 7. They were drawn against the First National Bank in Big Spring.

# Firemen To Finish A&M Short Course

Three Big Spring firemen will graduate Friday from the 26th annual Firemen's Training School being conducted at Texas A&M College.

They are Fire Chief H. V. Crocker and firemen O. W. Laws and Howard Dodd.

# Mail Boxes To Go Red, White, Blue

The Post Office division has decided that the drab olive-colored street mail boxes are not patriotic enough. Post offices will soon be instructed to paint the boxes red, white and blue the next time a paint job is needed.

# Three Named In Forgery Charge

Three people were arrested here and charged with forging an \$82.32 check which was passed at the Mike Moore Liquor Store.

Those accused are Howard Willis, Robert Lawrence Livengood, and Ruth E. Livengood.

# Big Springer Wins Snyder Bronc Event

David Rushing of Big Spring won first place in the bareback bronc riding event at the opening of the annual Snyder rodeo Wednesday night.

# Dawson Farm Bureau Queen Entries To Appear On TV

LAMESA—Twelve of the entries in the Dawson County Farm Bureau contest, slated here July 22, will appear at 8 p. m. today over a Lubbock telecast.

# Jobs Available On VA's Staff

Several positions are still open at the Veterans Administration hospital, according to Hayes Bacus, personnel officer.

Bacus said several kitchen helpers and nursing assistants are needed. Those interested in these positions can file for civil service exams at the hospital. Only male veterans will be considered, Bacus said.

# New Webb Pool Is Progressing

Despite the delay in correcting a construction error, the work on the new Webb AFB swimming pool is progressing satisfactorily, reported the Webb project officer.

The contractor misunderstood about making the scum gutter extend completely around the pool and it was necessary to rip out a portion of the retaining wall to make a correction.

# 826th Engineering Battalion Transferred

WASHINGTON — The transfer of the 826th Engineering Aviation Battalion from Wolters Air Force Base, Mineral Wells, Tex., to MacDill Field, Tampa, Fla., was announced today.

The transfer, to be made immediately, involves 750 officers and enlisted men.

# Firemen To Finish A&M Short Course

Three Big Spring firemen will graduate Friday from the 26th annual Firemen's Training School being conducted at Texas A&M College.

They are Fire Chief H. V. Crocker and firemen O. W. Laws and Howard Dodd.

# Leaders Needed In Recreation Program

Volunteer leaders are needed to direct activities of the younger set in the summer recreation program at the Kate Morrison School, Grover Good, YMCA executive secretary, reported today.

# DWI Suspect Is Released On Bond

Sam Brady Jones was released from county jail Wednesday on a \$500 bond. He was charged June 28 with driving while intoxicated. Jones is from Hobbs, N. M.

# Inquiries Received On PR Short Course

The Chamber of Commerce has received numerous inquiries concerning the public relations course to be offered at the junior college next week. Jimmie Greene, manager, said several persons have signed up to take the course and others have indicated that they would be on hand to register Monday, the first night of the four-evening course.

# Calling For The Gal

A cartoon I saw recently showed a boy apologizing to his date's father for ringing the doorbell. "I'm sorry," he said, "but my horn won't work."

I chuckled and discounted it as pretty far-fetched, but funny. That very evening as I was sitting on the front porch, a car screeched to a halt and my teen-aged neighbor bade her date goodnight, got out alone, and walked up the front step and inside as he burned off.

**Survive Mountain Disaster**

Peter Smith, 13, (left), Philadelphia, and Tony Woodfield, 16, Rye, N. Y., relax after escaping with minor injuries in the avalanche on Mt. Temple near Banff, Alta., which claimed the lives of seven teen-age companions. The boys, all Americans, were trapped in a snow avalanche while on a climbing expedition.

**BOOKS • MUSIC • ART • DRAMA**  
**CRITIQUE**  
By Glenn Coates

Walt Disney, already a recognized master of cartoons and true-life features, reached a new peak in family entertainment with his production of "Lady and the Tramp."

This full-length cartoon feature is showing at the Ritz Theater through Saturday and a record number of kids and grown-ups jammed the theater today for the first showings.

Only once in a very great while does a movie come out of Hollywood so carefree and happy that it makes you forget your worries entirely. It's not just a kid show

but one to warm the heart of even the most skeptical adult.

The animal characters in "Lady and the Tramp" literally come alive with remarkable examples of animation that only Disney and his staff can produce. The flawless movements set in the wide sweep of CinemaScope and beautifully colored in Technicolor make "Lady and the Tramp" the most modern Hollywood attempt in many years.

Disney would settle only for the best and selected Peggy Lee to sing and help write some new, fresh songs for the film. He also went to great pains in selecting the voices for the animals. He held many days of tests to be sure the voice fitted the character.

Too, the studios didn't just dream up the way the characters should look. Disney conducted a wide search for real live specimens to finally come up with satisfactory originals.

Lady, a well-bred cocker spaniel, is the heroine of the film and the epitome of animal beauty. She could have her pick of the wealthy "collar" set but she is attracted to none other than the rascally-looking Tramp. He is a soldier of fortune type who has had a bit of experience in just about anything you could name.

The supporting "actors" are Jock, a Scotty with a brogue, and Trusty, a wealthy old hound dog who has lost his sense of smell. Also there are the boys in the back room of the dog pound who howl in harmony to favorite tunes, and Peg, a one time member of the Dog Follies.

All these and Si and Am, a pair of mischievous Siamese cats, round out this show. On the same bill with "Lady and the Tramp" is another Walt Disney production called People and Places. This is one of a series of short subjects in which Disney's cameras travel to interesting and beautiful places.

In this one, Switzerland is the subject of interest. This feature shows all of the quaint customs and breathtaking scenery that Switzerland is famous for.

**FHA Handles 143 Loans For Howard, Glasscock Farmers**

The Farm Home Administration handled 143 loan applications for Howard and Glasscock County farmers during the fiscal year ended June 30, according to Sylvan H. Pederson, county supervisor.

These loans approved by the county committee approximated \$360,000. These were for equipment and livestock needed to place small farms on an efficient operating basis, for other operating expenses and to improve family-type farms. Emergency loans are included in the total.

B. M. Newton has been installed as a new member of the Howard County FHA committee, succeeding Charlie Nichols, whose 3-year term expires at the end of the fiscal year. Under FHA regulations, a committeeman can not succeed himself after having served one term. Other members of the county committee, which must pass up on all loan applications before funds can be advanced, are William J. Rogers, chairman, and J. L. Baugh. Both Rogers and Baugh have about 20 years of farming experience. Newton has been farming around 30 years.

In Glasscock County the committee is composed of A. C. Hoelscher of St. Lawrence, who succeeded Isidore Hoelscher whose term had expired; Edward Teele, chairman, and Edwin Bednar of St. Lawrence. Teele has been ranching 30 years and Bednar has been farming for the past eight. Hoelscher has been a St. Lawrence farmer for 10 years.

The FHA makes loans only to farmers who cannot obtain adequate credit at reasonable rates and terms from other private or cooperative credit institutions. Borrowers are expected to refinance their loans with other lenders as soon as they are in a position to do so.

The FHA gives assistance to borrowers in record keeping, budgeting, and preparing financial statements with the idea of developing ability to handle and make good use of credit, said Pederson. Frequently, the equipment, livestock and improved land and farm buildings which farmers acquire through FHA helps improve their position when applying for private credit.

Rogers pointed out that if landowners would give longer rental agreements to tenants (3 to 5 years) there would be more loans made

to purchase farm equipment and livestock.

Under one type of FHA loan, farmers may obtain funds to buy land. The agency also lends money to farmers to establish and carry on approved soil and water conservation practices. It makes emergency loans but only in areas designated by the Secretary of Agriculture as being in need of emergency loans due to some calamity.

Both Howard and Glasscock Counties have been designated for these emergency loans. Pederson pointed out that interest on this type of loan would be at three per cent for the 1956 fiscal year. During the past fiscal year it was raised to five per cent, a two per cent increase over the former rate.

**Dallas School Board Impatient Of Pressure**

DALLAS (AP)—The Dallas School Board says it is studying "fair and equitable methods" of desegregating public schools but will be "impatient with any undue pressure."

Board President Dr. Edwin L. Rippey read a two-page statement outlining the problems of erasing color lines in public schools at a board meeting last night.

Kenneth Holbert, secretary of the local chapter of the National Assn. for Advancement of Colored People, told the board the NAACP will be "impatient and disturbed by any prolonged delay."

**'Copter Burns At Heliport**

NEW YORK (AP)—A helicopter crashed and burst into flames yesterday while taking off from the 17th-floor heliport of the Port of New York Authority Building in downtown Manhattan.

The pilot and the only passenger were injured as they tumbled out of the burning craft seconds after it crashed on the 16th floor. It then dropped to a narrow setback of the 15th floor.

Port Authority officials said the pilot apparently forgot to unplug a 30-foot "booster" cable, often used to energize the starter. As the craft rose from the heliport, the cable became taut and jerked the machine down over the side of the building.

Debris and burning gasoline showered the traffic-jammed street below, but there were no injuries there.

Port Authority employees and firemen quickly quenched the smoldering skeleton of the craft as it hung precariously on the narrow ledge above 9th Avenue near 16th Street. The helicopter was later hoisted to the 16th floor.

The pilot, Marcel O. Chevalier, 39, suffered a concussion and scalp laceration. He was reported in fair condition.

The passenger, Arthur Truss, 33, a Port Authority photographer, suffered a concussion, fractures and multiple abrasions. His condition was listed as critical.

The heliport is a table-like structure 10 feet above the 16th floor of the building.

**Bodies Of Crash Victims Recovered From B47 Bomber**

SHREVEPORT, La. (AP)—The bodies of four men were removed from an Air Force B47 Stratofort bomber which crashed 10 miles south of here early today, officials at Barksdale Air Force Base said.

A crash crew and civilian authorities reached the wreckage of the bomber about three hours after it crashed and burned shortly after midnight.

The bodies of the three officers and an airman were brought to Shreveport. Names of the victims were not disclosed.

The six-engine jet bomber crashed on the banks of the Red River. Part of the plane was submerged. Wreckage was strewn over a wide area.

The plane crashed about three miles south of Lucas, which is about 10 miles southeast of Shreveport.

Officers at Barksdale said a investigation at the scene was being hampered by a driving rain. The Barksdale public information officer said two civilian witnesses said the plane burst into flames before it struck the ground.

Bill Bailey said he saw a "bright flash. The whole sky just lighted up. The brightest light I ever saw at night. It looked like the sun in late afternoon. About six or seven seconds later, there was a big tumble."

Joel Brown said he saw the flames from a drive-in theater. He said he saw a "red flash followed by a big red ball and then came a terrific explosion."

Barksdale officials said the plane was attached to the 316th Bomb Wing.

Long-Time Customers

The three men getting trimmed here have all been steady customers of Bart Wilkinson, the barber at the far right, for the entire 36 years Wilkinson has been in Big Spring. In the first chair is J. T. Johnson with barber C. E. Parnell; in the middle is Fred Martin and barber Fred York; and Bob Parks in the last chair shown with Wilkinson. Standing at far right is Lois Madison who was a barber in the shop in 1922 and is now a farmer near Tarzan.

## Veteran Barber Marking 36th Year In Big Spring

By LaDOYCE LAMBERT  
One of Big Spring's pioneer barbers, Bart Wilkinson, is currently celebrating his 36th year in the city and his 45th year as a barber.

As an old-timer, he has seen the city grow and his charge books look like city directories with pages and pages of prominent citizens, both past and present, who have patronized his shop.

Wilkinson has seen the price of haircuts gradually rise from the 85 cent variety in the early 1900's to the \$1.25 clipper charge which recently went into effect here.

Wilkinson began barbering in a barbershop in Stanton on the day after Christmas, 1910. He recalls that he had been shining shoes there for some time and began barbering as a substitute for some barbers who had done too much Christmas celebrating the day before.

After spending nearly two years in the Army in World War I, he decided to move to Big Spring. In August of 1919 he bought a half interest in the City Barber Shop. He remained a partner with Bill

Battle for 24 years before Wilkinson became sole owner of the shop he still occupies at 120 Main St.

The period from 1924 until the depression struck is considered by Wilkinson to be his most prosperous years. At that time the shop was much larger and had seven chairs of the old wooden type which had to be raised and lowered by a foot pedal.

His most popular staff, he says, consisted of Carl and Lois Madison, "Bronc" Winslow, Frank Merrick, Bill O'Neill, L. Z. Marshall and Bill Battle, most of whom are still area residents.

Wilkinson says that he has several men who have been faithful customers ever since he began his career. One of his staunchest customers, however, is John Hix of Midland who comes down every Saturday for a shave and haircut by Bart.

Wilkinson said that his shop has been a union shop the entire time he has been here, and until recently the shop possessed one of the oldest union cards in West Texas. The union president recently order-

ed all old cards replaced with new ones.

Bart has been very active in the local union. He served as president in 1949 and 1950 and then took office as secretary which he still holds.

Wilkinson was born in Stonewall County in 1892. He married shortly after moving to Big Spring and has two married daughters and two grandchildren. He lives at 701 Lancaster.

### Fair Warning

HOBBS, N.M. (AP)—This notice has been posted on the wall of Municipal Judge Robert L. Benning's office at City Hall:

"While in this office, speak in low, soothing tone and do not disagree with me in any manner. "Please be informed that when one has reached my age, noise and nonconcurrence cause gastric hyper-peristalsis, hyper-secretion of hydrochloric acid and inflammation of the gastric mucosa, and "BECOME UNPLEASANT."

## Public Hearing Scheduled On HCJC Budget

Public hearing on the proposed budget for 1955-56 for the Howard County Junior College has been set for 5 p.m. Aug. 11.

Trustees fixed this date at their meeting Tuesday afternoon at the college. At that same time they indicated another session would be held soon for trustees to go over proposals submitted by Dr. W. A. Hunt and the faculty for next year's fiscal guide. This session could come July 25 when bids will be opened for caretaker cottage improvements; Dr. Hunt indicated it might be earlier.

In one of the closest margins on record here, D. & H. Electric Company was awarded contract for electrical work on the student union building. The proposal was for \$414.50, only half a dollar under the bid of R (Rowe) Electric Company. Other bids ranged up to a top of \$645.

The president was given authority to proceed with flooring and wainscoting in the student union building. He had received one estimate but said he would seek others. Earl Bryant Jr., business manager, said so far that removal of petitions in the building which formerly housed the caretaker, had been accomplished and the interior refinished for \$1,615 thus far. Indications were that there would be about this much more expense attached.

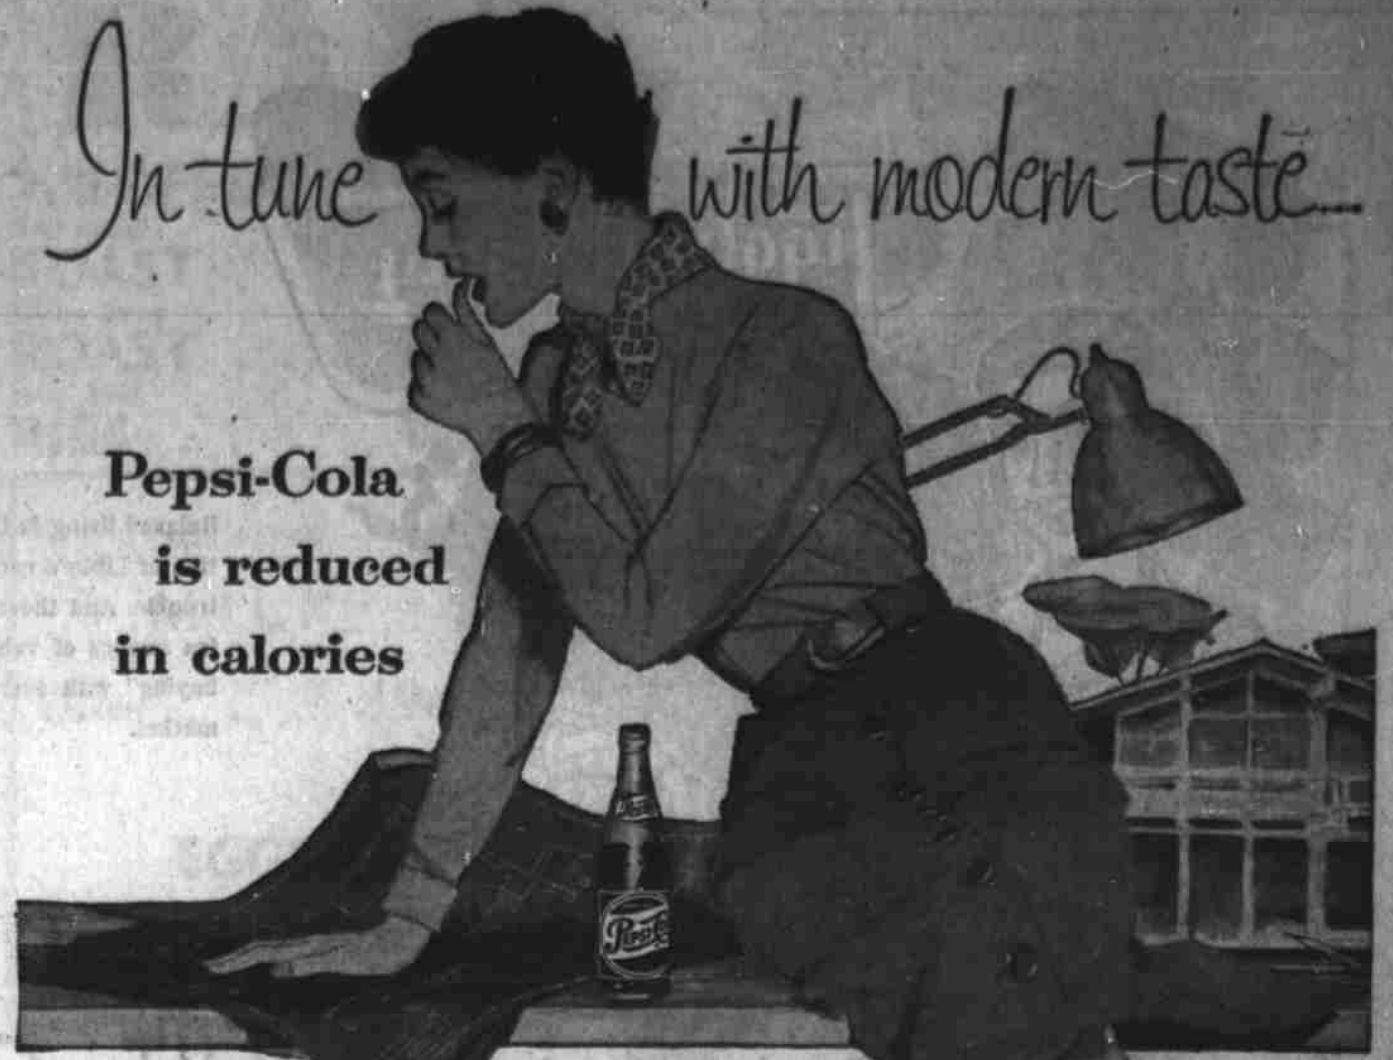

Approval of a final payment to Wolfe Nursery for landscaping was approved after the area around the gymnasium had been replanted. The amount was \$162. Also approved was payment of \$3,000 to Henry Seay Company for having handled proceedings in connection with the recent issuance of \$600,000 for improvements.

Action was postponed on a recommendation by the president that the college pay the entire four per cent of the Social Security charge for the year. The College, after a vote of the faculty, is entering the plan. However, action on this suggestion was delayed until the next meeting. Dr. Hunt estimated that the total cost of the Social Security would be \$4,496.52. If employees are required to pay their two per cent this will be \$2,248.26 for them and for the college.

Jess Wade, Dallas, member of the tax department for Seaboard Oil Company, attended the meeting. He said that Seaboard as the county's largest taxpayer, was interested in the college and would like to be of assistance when possible. Dr. Hunt distributed the American Junior College Newsletter in which Dr. Jesse F. Bogus, executive secretary, commented favorably on his visit to the college and its plans for improvement. He also paid a tribute to the board.

In tune with modern taste

Pepsi-Cola is reduced in calories

BEST INSURANCE for a happy future is the way modern people take care of themselves!

So it's no accident that their modern taste is for lighter, less filling food and drink—to the benefit of their waistlines and their health.

And today's Pepsi-Cola, the modern, the light refreshment, has kept up with modern taste. Never heavy, never too sweet, reduced in calories, it refreshes without filling. Have a Pepsi.

**Polio Therapy**

Tom King, physio-therapist from Midland, demonstrates various therapeutic measures for polio patients, using David Martino as a model. Looking on is David's mother, Mrs. O. S. M. Martino, and Howard County Health Unit nurse, Jewel Barton. King visited Big Spring Tuesday evening and helped local workers in their current program of warm water assistance at the Westward Ho Motel pool. Approximately 20 patients were on hand with YMCA swimming instructors playing with the children in the pool. The youngest patient was Linda Crump, 16-months-old daughter of Mrs. Clyde H. Crump. The group meets regularly on Monday, Wednesday and Friday of each week for the swim.

**Annoyed Customer Peppers 4 Children With 'Rat Shot'**

SAN ANTONIO (AP)—Four children selling tickets to a church charity bazaar suffered minor wounds yesterday afternoon when an annoyed potential customer fired a .22 caliber rifle loaded with "rat shot" at them. The four youngsters, part of a group selling the tickets in a house-to-house campaign, told police they fled when the man appeared with the rifle at his doorway. One child was in the front yard and the others had fled across the street when the shot was fired, they said. The man, who said he wanted to "scare" the children, told officers he had been "robbed" several times. Police ordered him and the children to report to juvenile authorities today for further questioning. None of the wounded youngsters requires hospital treatment.

**\$98 Million Held In U. S. Oil Leases**

NEW ORLEANS (AP)—The federal government today held bids of more than 98 million dollars in bonuses for leases on the oil rich continental shelf off the Louisiana coast. Less than 4 per cent of the bids received from 35 oil companies and individuals here Wednesday was on acreage in the so-called "twilight zone." Both the state and the United States claim title to the dispute area covering the region from 3 to 10 1/2 miles offshore.

**HERALD WANT ADS GET RESULTS!**

**Drought Study Set By WTCC**

WICHITA FALLS —The West Texas Chamber of Commerce this week called for intensified research and study to find answers to some of the problems caused by recurring drought.

Forwarded to Lincoln, Neb., headquarters of the 16-state Great Plains Agricultural Council, were excerpts from a letter previously addressed to the Secretary of Agriculture by J. C. Porter, chairman of the WTCC's Agriculture and Livestock Committee. Porter is assistant vice president and agriculturist of the First National Bank here.

"Our West Texas Chamber of Commerce committee has felt that a better understanding of the underlying problems through an intensified research approach would permit us to devise and initiate agriculture programs so that the detrimental effects of climate can be cushioned if not eliminated," the letter stated.

"There are five general situations which need clarification through study and research if the people of this area are to be able to devise programs to soften the effects of recurring drought.

"1), the economic aspects of drought on farming and ranching and small business that is dependent upon agriculture. 2); some information on livestock and feed balances; 3), stabilizing and maintaining the productive capacity of farm and ranch land with particular study being made on the economies of converting some of the windblown cultivated land back to permanent cover; 4), systems of farming that will include rotation of legumes and grasses adapted to this area that will insure a permanent agriculture. 5), conservation and efficient use of water resources."

**Legion To Choose State Delegates**

Members of the American Legion, some 4,000 strong, will meet in San Antonio July 21-24 along with the Auxiliary and the "40 and 8", for their 37th annual state convention.

George Zachariah, commander of the Howard County post, announced that he had already received confirmation of room reservations in San Antonio and the local post will select delegates to the convention at its meeting Thursday night. The Auxiliary, with Mrs. Johnny Griffith, president, also will select a delegate to the meeting. There is no "40 and 8" organization in Big Spring.

### Howard County Tax Office

The Howard County tax assessor-collector's office is one of the busiest in Big Spring. Four major "rush" periods each year keep Viola Robinson and her six assistants on their toes. In January, there is a poll tax and ad valorem tax rush simultaneously. From February to April, automobile registrations keep the entire staff busy. In October of each year, the office takes in more money than

In all the rest of the year combined, as it is the first month for paying ad valorem taxes. Last year over three-quarters of a million dollars was paid in the office. The employees pictured here are (left to right) Genevieve Cass, Leta Metcalf, Sophie Corcoran, Dorothy Taylor, Helen Stanley, and Martha Hall. The inset at right is Mrs. Viola Robinson, Howard County's tax assessor-collector.

## Workers Busy In County Tax Office

By GLENN COOTES  
Have you ever wished for more hours in the day so that you could get everything done? Then you have an idea how the employees in the Howard County tax collector's office feel almost every day.

Mrs. Viola Robinson, county tax assessor and collector, and six assistants handle all the ad valorem taxes, vehicle registrations, poll, occupation, beer and liquor license fees in the county. And there is more to the job than just taking the money over the counter.

Probably the most extensive part of the work is the innumerable files and records that must be kept to keep track of the taxes paid. An extremely complicated system of "books" must be maintained to adequately record the various types of taxes that are collected. Five categories of ad valorem taxes are received.

Valuation taxes are collected for the state, the county, the junior college, the common school districts,

and one independent school district. A description and the value of each tract of property in the county must be kept on record, Mrs. Robinson said, as well as a record of the amount of taxes paid. This money represents a sizable figure each year. Last October, the first month for paying ad valorem taxes each year, the office collected approximately \$750,000. In one day alone, the receipts totaled over \$130,000.

The ad valorem tax rush usually occurs in October. Mrs. Robinson pointed out, because taxpayers receive a three per cent discount by paying in that first month. The discount is two per cent in November and one per cent in December. The taxpayer has until Jan. 31 to pay the ad valorem taxes.

However, real estate must be rendered between Jan. 1 and May 20 each year. This declaration is made the first half of the year in which the taxes are to be paid. It is especially important that persons claiming homestead status render their property each year, the assessor-collector said, in order to avoid losing tax exemption.

Ad valorem tax rates are fixed by law and charged on the basis of each 100 dollar valuation of the property. The state receives 42 cents per \$100 valuation, the county 98 cents; the junior college 50 cents (soon to be raised to 60 cents); the common school districts (except Gay Hill), \$1.50; (Gay Hill, 75 cents; and the Knott Independent School District, \$1.50.

The last two weeks in January has a double rush period in the tax office, Mrs. Robinson said. It is the final weeks in which ad valorem taxes and poll taxes must be paid.

Poll taxes must be paid during January of each year. In an election year, the office is practically swamped, Mrs. Robinson said. The traffic is so heavy that extra help is sometimes brought in to assist the regular tax office employees. The poll tax is \$1.75 for persons between 21 and 60 years of age. The larger portion, \$1.50, goes to the state and 25 cents to the county. Disabled persons pay only \$1. Persons over 60 years are exempt from the tax and persons just turning 21 years old are exempt.

There is no rest for the employees after the ad valorem and poll tax rushes are over. Feb. 1 is the first day that automobile licenses are available. For two months, until the April 1 deadline, the tax office is rushed with local drivers obtaining new tags. This is perhaps the longest continual rush of the year, Mrs. Robinson said.

It is so heavy that extra employees are brought in to help when needed, she said. The charge for automobile license tags is determined by the weight of the car. Similar to the ad valorem taxes, the rate is applied to each 100 pounds. The weight of the car is obtained from the owner's certificate.

For cars weighing up to 2,000 pounds the charge is 28 cents per hundred pounds. From 2,001 to 3,500 pounds, 36 cents per hundred; 3,500-4,500, 48 cents; and 4,500-6,000, 50 cents. In addition to this charge, there are other charges for various transactions.

New residents of Texas must pay a \$15 "use tax." On used cars, there is a transfer fee of 50 cents, when the car is sold to another person. There is also a 75 cent fee for each title application. A sales tax of 1.1 per cent of the purchase price is affixed when the car is sold.

Issuing licenses over the counter and taking in the money is only a small part of the job, Mrs. Robinson said. The large amounts of money must be accounted for and safeguarded at all times. Bank deposits are made each day and the office obtains an escort from the sheriff's office or police department to accompany the money to the bank.

The total tax levy last year was over \$800,000 and with that much money, careful records must be kept to make sure the cash is in balance. Mrs. Robinson said that the tax office books are audited continually to see that the money is properly accounted for. Both state and county auditors have access to all the tax office records. On a recent audit of the books, they came within 28 cents of being perfect.

Assisting Mrs. Robinson in the office are Chief Deputy Helen Stanley in the automobile registration section and second deputy Sophie Corcoran in the tax section. Other deputies are Dorothy Taylor, Martha Hall, Genevieve Cass, and Leta Metcalf.

## Ranchmen Fight Sheep Disease

SAN ANGELO (AP)—Bluetongue, a sheep disease, had spread across most of the West Texas sheep country this week and ranchmen were taking steps to control the outbreak.

Dr. W. T. Hardy, superintendent of the Sonora Ranch Experiment Station, said the outbreak was similar to those of 1953 and 1951.

CHECK ON OUR EVERYDAY PRICES

Advertising  
helped make  
the difference

FARMERS DON'T RECKON with real horsepower any more — a tractor can do the job better. Today's farm is an open-air factory with a specialized machine for every task. And America's mechanized farming produces more food... and better food... than any other country in the world.

But to mass produce the millions of tractors, plows, combines, pickers, cultivators that are found on modern farms, manufacturers must be able to sell them by the millions. Only by advertising can a manufacturer talk to millions of farmers at the same time.

ADVERTISING TELLS the story of new farm machinery and equipment — and helps sell it. The more it sells, the more must be made — keeping the production lines and the jobs going. The result: newer, better farm machinery at prices more farmers can afford to pay. Advertising helped make the difference — in farming, and in our American way of life.

ALBERTA GRIFFIN . . .  
... Just take a pinch of this and a dab of that

## Alberta Griffin Does Cooking 'By Instinct'

A cherished member of the G. H. Wood family is Alberta Griffin, who has been with Dr. and Mrs. Wood for almost 23 years. She is housekeeper, manager, adviser, and there was a time when she was baby-sitter. That was until "the babies" got old enough to do without a sitter.

Coming here from Fort Worth, she joined the family, which was just a newly-married couple, then, and took over the housekeeping. "Berta is one who 'cooks by instinct,' and her biscuits, made in this way, are 'just as light as pie crust.'"

Try to get the recipe from her, and it comes something like this. "Just reach in your finger and get this much," — that is for the measure of baking powder, salt and soda. Shortening is also measured with the fingers. As for the buttermilk — "well, you put in enough to make it damp enough to stay together."

On her days off, Berta goes to the beauty shop, or she goes shopping or maybe she entertains some

of her many friends in her cottage near the Wood home. She is a diligent worker in the Mount Bethel Baptist Church.

Two dishes that Berta prepares are made by following recipes. They are pancakes, made by a recipe from Mississippi, and a lemon-filled cake. The latter is quite a favorite with "her family" and never "lasts longer than a day and a half."

For the pancakes, which she always beats by hand, she uses two eggs, beaten into two cups of buttermilk. She sifts into this, two cups of flour, two teaspoons of baking powder — she has her favorite kind, too — one-half teaspoon soda and the same amount of salt, with one-fourth cup of sugar. After beating thoroughly, she adds one-fourth cup of melted shortening, which has been slightly cooled.

And here's the recipe for her Lemon-Filled Cake:

Ingredients:

- 1/2 cup shortening
- 1 cup sugar
- 1 teaspoon vanilla
- 1 teaspoon lemon extract
- 2 eggs
- 2 cups cake flour
- 1/4 teaspoon salt
- 1 tablespoon baking powder
- 1/4 teaspoon soda
- 1 cup sour milk

Method:

Cream shortening and sugar. Add eggs, one at a time, beating after each addition. Sift dry ingredients together and add alternately with the sour milk. Bake in two layers in a 350 degree oven for about 30 minutes. Put together with Lemon Filling, made as follows:

LEMON FILLING

Mix 1/2 cup sugar and 2 tablespoons flour with 3/4 cup of cold water. Blend thoroughly and cook until slightly thick. Mix with a beaten egg, the juice and grated rind of a lemon and two teaspoons of butter. Cook over low heat until it thickens. Cool before adding to cake. Frost entire cake with Seven-Minute Frosting.

## Yam Orange Salad Is Gelatin News

The following recipe shows the flexibility of gelatin — its use with vegetables, and fruits.

**YAM ORANGE SALAD**

- 1 3-ounce package orange flavored gelatin
- 1 cup hot water
- 1/2 cup pineapple juice
- 2 tablespoons lemon juice
- One-third cup cold water
- Dash cloves
- 2 medium sized cooked yams, peeled and diced
- 1/2 cup drained canned pineapple tidbits
- 1/2 cup minced celery
- 2 teaspoons unflavored gelatin
- 1/2 cup cold water
- 1/4 cup hot pineapple juice

Method:

Dash salt

2 cups creamed cottage cheese

Dissolve orange flavored gelatin in 1 cup hot water. Add 1/2 cup pineapple juice, lemon juice, one-third cup cold water and cloves. Chill until slightly thickened. Fold in yams, pineapple tidbits and celery. Meanwhile, soften 2 teaspoons unflavored gelatin in 1/2 cup cold water. Add 1/4 cup hot pineapple juice and salt; stir until gelatin is dissolved. Chill until slightly thickened; fold in cottage cheese.

In an oiled 1 1/2-quart mold pour one-third of the orange gelatin mixture; chill until firm. Spread a layer of half the cottage cheese mixture on top of the yam layer. Chill until firm. Repeat layers until all ingredients are used, ending with orange gelatin layer. Chill until firm after each layer is added. Chill several hours in refrigerator. Unmold and surround with crisp salad greens. Makes 6 servings.

## Barbecued Fish Make Tasty Burgers

Barbecued fish is an unusual dish but here is a recipe for barbecued fish burgers.

**BARBECUED FISH BURGERS**

- 2 cups flaked fish, salmon or tuna
- 1/2 cup sifted flour
- 1/4 cup corn meal
- 2 tablespoons non-fat dry milk
- 1 1/2 teaspoons salt
- 1/4 teaspoon black pepper
- 2 eggs unbeaten
- 1 6-ounce can tomato paste
- 1 6-ounce can water
- 1/4 cup unsulfured molasses
- 1/4 cup vinegar
- 10 drops tabasco sauce
- 1/4 cup chopped onion
- 2 teaspoons salt

Thoroughly mix all first seven ingredients; shape into 8 3-inch cakes. Brown on both sides in hot, greased frying pan. Mix all ingredients for barbecue sauce (remaining ingredients). Pour over the patties, cook until sauce has thickened (about 10 minutes). Serve between corn meal griddle cakes. Yields 8 servings.

## Eggnog Makes Good Summer Drink Also

Eggnog, usually served at Christmas also makes a good summer drink. This recipe is a refreshing combination of orange juice, eggs and milk. The eggnog's bright color and zesty flavor combine to make it a perfect drink for any occasion.

**ORANGE EGGNOG**

- 2 eggs, separated
- 1 can frozen concentrated orange juice
- 1 quart milk
- 3 tablespoons sugar
- Grated orange rind

Combine egg yolks, orange concentrate and one tablespoon sugar, mixing well. Beat egg whites until they will hold a soft peak; beat in the remaining two tablespoons of sugar gradually. Fold egg whites into egg yolk mixture. Divide evenly in four tall glasses. Fill glasses with milk. Sprinkle top with grated orange rind. Serves four.

## Like Rhubarb Tart Flavor? Here's One

Those who like the tart flavor of rhubarb will like this rhubarb pie.

**RHUBARB PIE**

- 1 pound rhubarb, cut in 1 1/2 inch pieces
- 1 1/2 cups sugar
- 3 tablespoons flour
- 1 egg, slightly beaten
- 1 teaspoon vanilla

Sift flour, measure, combine rhubarb and remaining ingredients. Place filling in unbaked pie shell. Roll out remaining pastry and cut into five equal triangular shaped pieces. Place over filling with points toward the center. Bake in a hot oven (450 degrees F) for 30 minutes; reduce temperature (350 degrees F) for 20 minutes.

## Meat Loaf— Bake One, Freeze One

When you turn the oven on this summer so you can bake a meat loaf, give yourself an extra dividend. Make up enough of the meat mixture for two loaves; serve one right away, freeze the other to have on hand when you are going on a picnic or cookout.

Our freezer meat loaf is made with ground beef, fine dry bread crumbs, eggs, condensed tomato soup, onion and salt. It will keep well for two months or more in the home freezer.

For outdoor eating, take the baked meat loaf out of the freezer when you start your outing. The loaf will be thawed in 2 1/2 hours or so — depending on the temperature. For a picnic, you can slice and serve the loaf in sandwiches made on the spot. For a cookout, you can grill the slices in a little butter or margarine in a skillet over the outdoor fire and serve on toasted buns. Here's a menu on which to feature the meat loaf under the trees, on the beach.

- OUTDOOR LUNCH**
- Sliced Tomato Meat Loaf with Toasted Buns or Bread
  - Pickles, Celery and Radishes
  - Potato Salad
  - Brownies
  - Fruit Beverage
- TOMATO MEAT LOAF**
- Ingredients:
- Two eggs, 3 pounds ground beef, 1 cup fine dry bread crumbs, 1 can (10 1/2 ounces) condensed tomato soup (undiluted), 1/4 cup very finely chopped onion, 1 teaspoon salt.
- Method:
- Beat eggs in a large mixing bowl until yolks and whites are combined. Add ground beef, bread crumbs, undiluted tomato soup, onion and salt. Mix thoroughly with your fingers. Pack mixture into 2 loaf pans (each about 8 1/2 by 4 1/2 inches measured across the top and about 2 1/2 inches deep). Bake in moderate (375 degrees) oven 1 1/2 hours. Turn out meat loaves; gravy may be made from drippings.
- Note:
- To freeze meat loaf, remove from pan and cool quickly in refrigerator or on ice. Wrap in moisture-vapor-resistant paper — heavy aluminum foil or cellophane for example. Seal package and label. Freeze at once at zero temperature or lower.

## Here's Hamburger That's Three Deep

If you have hard-to-fill youngsters, here is a recipe for hamburgers that are sure to do the trick.

**THREE DECKER HAMBURGER**

- 2 pounds lean beef, ground
- Salt and pepper
- 1/4 pound blue cheese
- 1/4 cup minced onion
- 1/2 teaspoon Worcestershire-sauce
- Few drops tabasco sauce
- Strong, cold coffee

Season beef with salt and pepper. Form into 12 thin patties. Break up cheese; add onion, Worcestershire sauce and Tabasco. Beat until well blended. Add enough coffee to make soft, spreading consistency. Spread between hamburger patties, sandwich fashion. Broil, turning once. Serve on hot, toasted hamburger buns. Yields 6 servings.

## Summer Squash Treat

Summer squash takes to tomato sauce, but cut it into slices first and cook it in a small amount of boiling water. If you like you may add a little lightly browned onion to the cooked drained squash; but don't do so if the tomato sauce has a noticeable amount of onion in it. Final treatment: turn the squash and tomato sauce into a shallow baking dish, sprinkle heavily with grated cheese and heat in the oven or broiler.

## Indoors Or Outdoors, Cook With Skewers

By CECILY BROWNSTONE

Skewer cookery is catching on. When we're traveling around the country recently, young married folk told us they use skewers indoors as well as out, under the broiler as well as over the fire-place grill.

In some families, Dad takes over the business of preparing and cooking the skewered meat. We notice he usually has a special marinade for the meat — and the recipe is a top secret. On these occasions, we never try to pry. We taste a few times, ponder, taste again. Sometimes we hazard a guess as to what has gone into the sauce. If we're wrong, he can't help correcting us — and the secret's out.

After all the guessing games, we've discovered marinades for skewered beef usually have a base of salad oil and vinegar or lemon juice. Seasonings are likely to be a couple of the following: oregano, thyme, bay leaf, onion, garlic. When lamb is to be put on the spit, the base will be the same plus a couple of such seasonings as oregano, allspice, cumin, onion, garlic.

Here's a pleasant marinade for skewered beef. Try it the way it is, then subtract or add. Make up your own secret sauce. Serve the dish to family and guests. Delight — and maybe confound — recipe seekers!

To make life easy, serve your skewer meal picnic style. Put the beef under the broiler, bake some potatoes in the oven. Have a big Armenian-style salad ready — lettuce, tomato wedges, green pepper,

black olives. Crusts of olive oil and wine vinegar should stand beside the salad so each eater can add his own dressing. Salt and a pepper-grinder will be needed, too.

All the food goes on a kitchen counter beside a stack of dinner plates, knives, forks, napkins. Family and guests help the m-selves, eat any place they like. Everyone brings his empty plate to the counter when he's finished eating. Dad does the stacking.

Mother brings on the dessert. At this time of year, what's better than sponge cake layers filled with loads of strawberries and diced fresh pineapple and topped with whipped cream?

If this menu appeals to you, there's one alternative we suggest you try some time. Instead of the baked potatoes, serve buckwheat groats with a mushroom sauce. Nowadays you can buy the groats in package form in most large supermarket chains. Just follow the package directions for steaming the groats. You can get them ready early in the day and reheat at serving time. We've reheated the groats in our electric skillet with great success; use a double boiler if you haven't one of these skillets. The topping for the groats should be made from sautéed fresh mushrooms and a thin cream sauce; this, too, can be prepared ahead and reheated.

## Frozen Pies Can Be Made Right In Tray

Refrigerator cakes have long been popular, but homemakers are only now seeing the possibilities of ice cream or frozen pies. Some of them can be made right in a refrigerator tray. Most important ingredient of all for a frozen pie is, of course, the crust.

**CHOCOLATE CRUST**

**ICE CREAM PIE**

- 1/2 package chocolate dots
- 4 cups corn flakes or 1 and two-thirds cups, coarsely crushed
- One-third cup brown sugar, firmly packed
- 7 tablespoons hot melted butter
- 1 quart vanilla ice cream

Chop chocolate fine, reserving 1 to 2 tablespoons for garnish, if desired. Add crushed corn flakes and sugar and mix well. Then add butter and mix thoroughly. Pack on bottom and sides of 9-inch pie plate. Chill in refrigerator 2 hours or longer. When ready to serve, pack ice cream firmly into pie shell and sprinkle with reserved grated chocolate. Makes 6 to 8 servings.

## Entertain Like Swedes— Try Serving Smorgasbord

Entertain a scrumptious Swedish way! Assemble an array of foods — most of them cold, a few hot — and then let guests walk around and help themselves to the Smorgasbord.

Webster says Smorgasbord means hors d'oeuvres. But we say that's putting it mildly. Smorgasbord is a collection of foods so piquant and varied that your guests can feast like kings and have a wonderfully satisfying meal.

Does the idea of Smorgasbord scare you? Sound like a lot of work? Wait a minute. It needn't really take any more cooking effort than the usual company supper.

Among the cold fare for the Smorgasbord, have foods that require no cooking at all — smoked salmon, marinated herring, sardines, anchovies, a variety of cheese, cold ham or smoked tongue. The ham may be canned, the tongue the pre-cooked sort that comes in see-through wrapping and is deliciously ready to slice and eat.

Stuffed eggs, celery filled with a Roquefort or Blue Cheese spread and shrimp are other cold foods that often appear as part of the Smorgasbord.

Salads, too, belong among the cold dishes. Choose among cole slaw, potato salad, herring salad with apple and beet, tossed greens with tomato and cucumber. You also ought to have one molded salad. In New York Scandinavian restaurants, the molded salad is often made of raspberry gelatin and chunks of canned fruits. You can offer this, if you like. But we strongly urge you to try a recipe that we came on recently via a Swedish visitor; it is one of the grandest molded salads you can eat. Made of a base that tastes like old-fashioned boiled dressing, it contains unflavored gelatin, unpeeled red apple, canned pineapple, celery and whipped cream. It looks beautiful in a ring mold, as we direct in our recipe, but it may also be put into small fancy molds or custard cups. Because it is chockful of fruit, it crumbles a bit when cut, so there is some advantage to molding it in individual servings. These, of course, do not have to be disturbed until willing

eat. For the hot Smorgasbord, small meat balls and scalloped potatoes are almost musts. The potatoes are particularly delicious and traditional if they are seasoned with minced onion and chopped anchovy fillets. Cabbage rolls and veal with a dill sauce are other possibilities. Dill is a seasoning that appears frequently in Scandinavian cookery, and now that a California spice packer has made superb dried crushed dill leaf available, it ought to get its due in this country.

Rolls and sweet butter are good with Smorgasbord. But by all means have on hand some of the thin crisp rye crackers that are of Swedish origin. If there is a Scandinavian bakery in your neighborhood, you may be able to get Kim's that interesting rye bread whose sweetish taste comes from molasses and orange rind. Or you can bake Limpa yourself.

For dessert after Smorgasbord, small delicate pancakes with lingonberry sauce are traditional. But fresh fruit with butter cookies or rich ginger snaps are fine.

**SWEDISH APPLE SALAD**

Ingredients:

- One can (20 ounces) crushed

## Try Peaches 'n Cream For Delicious Drink

Cream combines with ginger ale and fresh or frozen peaches to make a cool, delicious drink for an energy pick-up.

**PEACH CREAM**

- 1 cup heavy cream
- 1 cup fresh crushed peaches
- Ginger ale
- Fresh mint

Combine cream and peaches. Divide among four tall glasses. Fill each glass with ice cold ginger ale. Stir gently to mix. Top each glass with a spray of fresh mint.

pineapple, 1 envelope unflavored gelatin, 2 eggs, 1 1/2 teaspoons prepared yellow mustard, 1 1/2 teaspoons elder vinegar, 1/4 teaspoon salt, 1/4 cup heavy cream (whipped), 1/4 cup diced celery, 2 red Delicious unpeeled apples (one diced and the other cut into 8 lengthwise wedges), salad greens.

### Red Cross Swim Classes Slated

Olen Puckett, Red Cross life saving and swimming instructor, will open his annual two weeks course at the municipal swimming pool Monday afternoon.

Both junior and senior students will be accepted for the course, with the minimum age to be 12 years, said Puckett. The instruction is open to boys and girls.

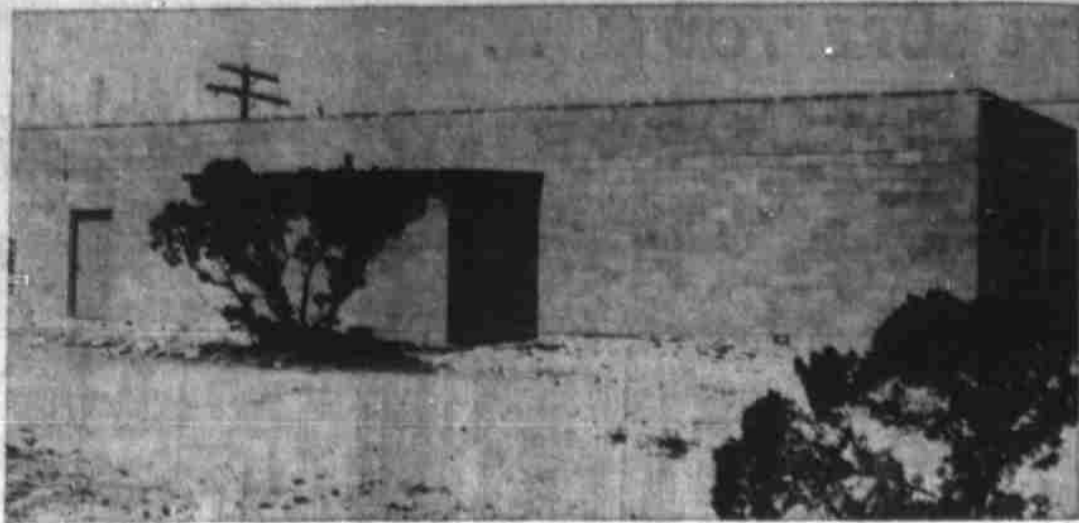

Classes will start at 5:30 p.m. Monday through Friday, until the 15-hour course is completed.

Puckett said Boy Scouts who finish the training will qualify for merit badges in both swimming and life saving. Students may register at the first class Monday afternoon.

### Coahoma Revival To Open Sunday

The Rev. A. R. Posey, pastor of the Baptist Temple in Big Spring, will conduct a revival at the First Baptist Church in Coahoma July 17-24.

Services will be daily at 7 a.m. and 8 p.m. R. B. Hall from Westside Baptist, will lead the singing. Mrs. Ronny Wood will accompany at the piano.

NEW AMERICAN LEGION STRUCTURE  
... first permanent home in 36 years

## Legion Dream Realized In First Permanent Home

By CLIFTON LAWHORNE  
A 36-year-old dream of the American Legion is fast becoming a reality. The organization is get-

ting a permanent home in Big Spring.

This home is in a 27-by-60-foot structure now being completed on Highway 87 just south of the city.

The building will be the first permanent home ever owned by the local post, and it represents over a year and a half of actual planning and building.

Though the trim work and painting must yet be done, members of the Legion have already held three meetings in the building. Last Thursday night was the first since the installation of electric lights.

The new American Legion home is just across the highway from the Baptist encampment grounds, on a two-acre plot at the intersection of Highway 87 and the Silver Heels Road.

Ed Fisher, immediate past commander of the American Legion, appraises the new structure, without the land, at \$9,000. Hack Wright, commander before Fisher, obtained the land from the city at \$200 per acre.

The building is completely fire-proof, and it was constructed without windows to cut down the possibility of burglaries.

The floor is concrete, walls are of concrete blocks, and the ceiling is of reinforced steel. The only wood in the building consists of two inside doors leading to rest rooms.

Dedication of the new building is now being planned by the executive committee of the Legion post. It is expected to be held at a barbecue installation of George Zachariah as the new president.

Legionnaires point out that the building is only the first of several structures planned on the two acres. A sizable auditorium is one of the projects slated for the future, and wings will probably be added to the present building.

As soon as funds are available a concrete slab will be poured near the new building for outside dancing, it was announced.

Ground breaking ceremony for the new structure was on Jan. 18, 1954. At that time the Department of Texas Commander, L. E. Page, dedicated the structure to God and Country.

Work parties were organized by Legion members following the ground breaking, and cactus and brush were cleared from the land. Members later gathered to dig the cess pool and ditches, help lay the concrete floor, truck in and unload the concrete blocks, install the doors, do the plumbing, and install electricity.

Everything that the Legionnaires could do themselves, they did. And merchants in town cooperated by

letting them have materials at cost.

"Some of them lost money on things they sold us," Fisher said. Neil Rudd handled the general masonry work. Jess Bailey installed the steel beams for the roof, and West Texas Roofing handled the top. Douglas Beams, master electrician, installed the wiring.

Raymond Dyer of City Plumber, and Clyde McMahon furnished the concrete. Western Glass and Mirror Company furnished glass blocks which allow light into the building.

Most of the work was coordinated by Foy Dunlap and Jack Pearson, and it is reported that the budget was so close that Dunlap had only \$4 left when the structure finances were pledged.

Plans call for moving the American Legion artillery out to the new building next week, and installation of a flag pole is forthcoming.

American Legion members and auxiliary members who have equipment belonging to the organization are asked to contact Mrs. Erna W. Steward. This equipment will be moved to the new building as soon as the paint job is completed.

The auxiliary is planning to install accordion partitions in the building so that women can meet at the same time the men do. These partitions can be pushed back following the meetings.

In the future only one meeting will be held per month, but a number of recreational gatherings are planned. Meetings have been held every Thursday night recently during the building of the organization's new home.

Meetings recently have been held at the old Morales Cafe on West 80 and before that in a club house belonging to the Legion which is on Webb Air Force Base.

For 36 years the meeting place has been moving from yard to yard, from house to house and from building to building, Fisher explained.

### Senterfitt Gets Ready

SAN SABA (S)—Reuben E. Senterfitt, two-term speaker of the Texas House of Representatives and the only announced candidate for governor in 1956, will set up his state campaign headquarters here.

### Atom Energy Sales

SCHENECTADY, N.Y. (S)—The Atomic Energy Commission today announced plans for the first government sale of atomic-produced electric energy and said it would be introduced into the Niagara-Mohawk Power Corp.'s public utility system "in the near future."

### Youngster Beats Baby To Death With Perfume Bottle

HOUSTON (S)—A 2-year-old girl beat a 5-month-old baby to death yesterday with a perfume bottle, a baby's milk bottle and a stick.

The victim was Joyce Elaine Smith, infant daughter of Mrs. Dorothy Smith, 24, who works as a night restaurant cook.

Police said Mrs. Smith had left Joyce with another woman and was asleep at the time of the killing. Officers said the other woman left Mrs. Smith's baby and her own three children in her house and returned later to be told of the

beating by her 3-year-old daughter. An autopsy was ordered by Peace Justice W. C. Ragan.

### Rebellious Pavement

BANKS, Idaho (S)—Edward J. O'Toole, 34, of Nampa, drove his cement truck onto a soft shoulder of the highway near here yesterday and plunged 80 feet down a rocky gorge into the Payette River. He clambored out with only a few cuts and bruises.
