

Oil Men Gather For Proration Hearing

Government Radio Station Located Here

Site Leased In City Park Tract; Construction To Begin Soon

SECOND FOR CITY

Dissemination of Weather Reports Purpose of Plant

Construction of a high-power radio broadcasting station here by the United States department of commerce is scheduled to begin in the near future as the result of negotiations between federal, city and Chamber of Commerce officials. The government has leased a two-acre strip of land, 100 feet wide, within the city tract known as City Park, south of town. The station will be a part of a system being built for the purpose of handling weather reports. Four full-time men will be retained here. Two 125-foot towers and a 25x30-foot building with full basement will be included in the construction, in addition to the large amount of radio equipment. Although the station will be operated primarily for benefit of the flying public, the reports it receives and distributes will be open for use of the general public. This station will cover the territory between Fort Worth and El Paso. Chamber of Commerce officials in Big Spring and other cities in this section recently were informed of the plan to erect a station in this section.

(CONTINUED ON PAGE 5)

HOME TOWN TALK

By BEDDY

Something is going to blow out tomorrow down at Austin in that proration hearing.

The pressure from and in several directions has grown so strong something is going to break and when it does the report is going to be pretty loud.

East Texas says we won't prorate. Oklahoma City says we'll quit it if you don't begin. President Hoover and Secretary Wilbur say the East Texas field is potentially an agent to complete the wreck of the industry.

South Texas continues to nominate 100 to 105 per cent, despite state-wide proration. Upton, Crane and Reagan counties continue practically untouched by proration.

And above the whole row the cry for reduction of imports and imposition of a tariff on them is heard.

Dr. Bristow, in an interview to be published tomorrow, points out that it is when imports are cut off that a heavy potential for East Texas, even though proration, could serve as an excuse for continuing to hammer the market.

There are records and statistics that pretty accurately show the actual domestic supply of petroleum does not exceed the demand. It is true, of course, that oil can be produced in Venezuela and delivered at American ports cheaper than it can be produced in the United States.

It is plain, therefore, that by hiding the home market price and shipping more cheap oil into this country the larger concerns that are interested in all angles of the business are tanking up with good supplies at low prices that will enable them to realize plenty of profit. And there is no doubt but that the price of oil is being bought crude if there was no demand for it.

The automobile owner continues to pay plenty for fuel. The producer continues to lose money.

This oil tariff question places congressmen of both parties in an unusual position.

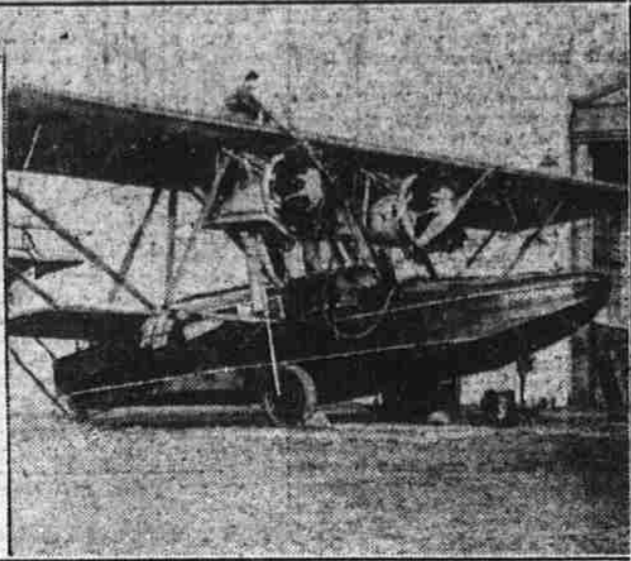

The Republican high proration doctrine is not practiced in this particular case. On the contrary representatives of the dyed-in-the-wool Republican states led the fight against the oil tariff.

Meanwhile the Democratic members from southwestern oil states find themselves parted between the time-honored party doctrine of free trade and a cry from their constituents for a high protective tariff on oil.

BALCHEN HEADS VIKING RELIEF EXPEDITION

Bernt Balchen (inset), Norwegian-American flier, accepted the task of piloting the giant Sikorsky amphibian, shown above, on a relief expedition into the north to carry food and medicine to victims of the explosion of the sealer Viking off Horse Island, Newfoundland. The flight will be from Boston to Halifax and then to Harbor Grace.

A. L. Houston, 76, Pioneer Of Stanton, Dies

Founder of First National Bank Succumbs To Pneumonia

A. L. Houston, 76, pioneer resident of Stanton, and widely known banker, stockman and oil owner, died at the family home at 7 o'clock Sunday night. Pneumonia was given as the cause of death. Funeral services will be held at 4 p. m. today at the home. The Rev. W. C. Hines, pastor of the Methodist Church of Lamesa, will conduct the rites. Burial will be in the Stanton cemetery. Mr. Houston is survived by his widow, five sons and one daughter. The children are Mrs. H. G. Spruce of Dallas; W. Y., S. C., W. C., H. A., and A. R. Houston, all of Stanton. Two sisters, Mrs. Dewey of Mineral Wells, and Mrs. Elizabeth Kolt of San Antonio, and a nephew, C. M. Houston of Stanton, also survive.

Mr. Houston was born Jan. 25, 1855. He moved from McCulloch County to Martin County in 1885 and had been a resident there since that time. In 1906 he organized the First National Bank of Stanton. At the time of his death he was president of the institution. For a number of years he was a director in the First National Bank of Big Spring. He served as a county commissioner and school trustee of Martin County for a number of years. He also was a steward and trustee in the Methodist Church of Stanton, which he joined in 1908.

He was one of the best known cattlemen in West Texas. At the time of his death he owned one of the finest ranches in this section located in Martin county. He had been engaged in the cattle business since he first came to Martin County.

During his lifetime he contributed materially to the growth of Martin County and Stanton.

Palbearers will be Jim Tom, John Enley, John B. Lewis, W. T. Paley, J. Estes, E. P. Woodward, John Poe and E. B. Dickerson.

SON IS BORN

Mr. and Mrs. W. T. Boadle announce the birth of a son at the Big Spring Hospital Saturday night.

FROM MIDLAND

Paul and Elliott Barron and wives of Midland visited friends and relatives here Sunday afternoon.

New Serum, Taken From Animals Inoculated With Disense; Kills Cancer Tissue In Few Minutes

BY HOWARD W. BLAKESLEE
Associated Press Science Editor
NEW YORK, March 23 (AP)—Cancer tissue growing artificially in glass dishes is killed in a few minutes by a new serum developed in the cancer research laboratory of London hospital, England. Unlike other tumor remedies, this serum is harmless to living tissues except cancer. These discoveries and their possibilities for experimenting with cancer in man are told in the April issue of the American Journal of Cancer by Thomas Lumsden, M. D., director of the London laboratory. The serum comes from animals which have been inoculated with cancer. It is tested upon cells of cancer, of heart, kidney and other body tissues, growing artificially in glass dishes. A start has been made in testing it upon living animals, a few rats having been cured of cancer, and others made immune. "Animals," Dr. Lumsden says, "are capable of forming anti-body

Senate Favors Abolishment of State Ad Valorem Tax; Measure To Exempt Small Homes Passed

AUSTIN, March 23 (AP)—A resolution by Senator Deberry, proposing an amendment to the constitution to abolish the state ad valorem tax after January 1, 1933, was approved by the senate today.

Senator Deberry appealed to the senate to engross the resolution this morning and then, he stated, if opponents wanted to be heard they would have plenty of time at the time it was taken up for final passage or rejection. Deberry said he would give them notice before taking up the resolution. The Deberry resolution carried through to engrossment a committee amendment, which stipulated that in counties and towns where the state had released or remitted taxes for the purpose of paying off bonded indebtedness resulting from erection of dikes, levees or walls to prevent calamitous overflows the state should appropriate a sufficient amount to pay off the bonded indebtedness prior to January, 1932.

Lingle Trial Jury Filled

Counsel Says Reason For Killing Need Not Be Shown

CRIMINAL COURTS BUILDING, CHICAGO, March 23 (AP)—A jury to try Leo Brothers for the murder of Alfred ("Jake") Lingle, Tribune police reporter, was completed shortly before noon today and immediately sworn in. The opening arguments were set for tomorrow.

As the last veniremen were questioned, the prosecution indicated the question of "why was Jake Lingle killed?" might go unanswered. "The supreme court of this state has ruled," said Assistant State Attorney Wayland Brooks, "and I think Judge Sebath will so instruct you, that the state is not obliged to prove why a man was murdered. If we can prove that this defendant fired the shot that killed Lingle, it will make no difference then if we have not shown why he did it."

A special venire of 200 men appeared for the trial but many were excused by agreement of counsel before court convened.

Judge R. L. Murray asked preliminary qualifying questions, to whittle down the venire and only 84 takersmen were left when counsel began examining them. The defense asked each venireman if he had any prejudice against the suspended sentence law. The state made no reference to the death penalty.

H. H. Carr, accepted by both state and defense, became the first juror.

J. F. Goodwyn, second venireman, became Juror No. 2. The next venireman, however, said he had a fixed opinion and was excused. R. L. Carter, the fourth venireman, said he knew Adams slightly but was "not especially friendly" to him. He said he did not understand the suspended sentence law. Howitt, chief of defense counsel, told him how it operated and said "this is one of those cases." Marvin Sculoch, chief of the prosecution, objected to such explanation and waved Carter away by a challenge.

The defense had filed an application for a suspended sentence in event of conviction. O-C BOARD TO MEET
The board of directors of the Chamber of Commerce will meet this evening at 8 o'clock in the offices, Settles hotel building.

\$30,000 Loss Inflicted By Sunday Blaze

Three Conflagrations Call Firemen During Day

FURNITURE BURNED

Structure Belonging To Radford Contained Theater Goods

Climaxing a day in which two fire alarms had already been answered, firemen Sunday night fought for more than five hours a blaze that destroyed a warehouse belonging to the J. M. Radford Grocery Co., burning furniture and theater equipment, and causing damage of between \$25,000 and \$30,000. The warehouse, a large sheet-iron and frame structure, was burned to the ground. Everything in the building was consumed by the blaze. It was located on East First street, just below the Benton street viaduct. The fire started at 9 p. m., and was extinguished after 2 a. m. Monday morning. Origin of the blaze was not known this morning. The opinion was advanced that a cigarette thrown away by a tramp started the fire.

Leased to Barrow
The building was owned by the Radford Grocery company, and was leased to the Barrow Furniture Co. Neither of the firms, however, had anything stored in the warehouse. The furniture company had just recently moved stock from the warehouse to the Runnels street building.

The heaviest loss in the fire was Mrs. Alva Harrington, former proprietor of the Read hotel. Hotel furnishings and personal belongings, valued at \$14,000 were destroyed in the fire. The furniture had just recently been moved from the hotel and placed in storage.

Picture show, furnishing and equipment belonging to the Hughes-Franklin Theatre Co., were destroyed by the fire. They had been taken from the city Lyric theater, East Third street, and placed in storage at the warehouse.

J. Y. Robb, local manager for the Hughes-Franklin concern, placed the damage at between \$10,000 and \$12,000. The loss was partially covered by insurance.

The equipment included a theater cooling system, seats, and other picture show furnishings. J. E. Kuykendall, local manager of the Radford grocery, placed the loss on the building at \$3,500, partially covered by insurance.

At 5:20 p. m. the second alarm was sounded. A two-story frame house belonging to W. W. Larson, and located on North Second street, was badly damaged by the fire. No one was living in the structure, as it had been partially destroyed by fire prior to Sunday's blaze.

The fire was started by railway signal fuses said to have been lighted by boys, according to Fire Marshal Jesse Heffernan.

First Run Is Made Over New Mail Route

The first run by Carrier Howard over the new 59-mile free mail-delivery route, to be known as Big Spring route 2, was made Monday morning with Postmaster E. E. Fabrenkamp as a passenger.

The route covers a wide territory south and west of Big Spring, touching people of Howard, Glasscock and Martin counties. Two hundred and forty families reside daily deliveries. More than 65 mail boxes had been erected Monday morning. Mr. Fabrenkamp urged others to erect boxes and pointed out the economy of placing them on substantial standards. Ernest Lomax was setting a good pattern by placing his new box on a standard set in concrete, five feet deep.

WATSONS RETURN

Mr. and Mrs. C. T. Watson and son have returned from Miles, where they were called by the serious illness of Mr. Watson's mother, Mrs. P. J. Watson. Her recovery appeared doubtful, although she had improved slightly, said Mr. Watson.

HOOVER STARTING VACATION

President Herbert Hoover, Secretary Patrick J. Hurley and Secretary Ray Lyman Wilbur (left to right) shown as they embarked at Washington for Old Point Comfort, Va., where they boarded the battleship Arizona, to go to Porto Rico and the Virgin islands. The President's vacation trip will last 10 days.

Program For County Contests of Interscholastic League Released; Literary Events Begin Thursday

Natural Gas Tax Opposed In Panhandle

Delegation In Austin To Fight 3-8ths Cents Per 1,000 Feet

AUSTIN, March 23 (AP)—A delegation of Panhandle citizens arrived here today to protest against passage of the bill levying a natural gas tax of three-eighths of a cent per thousand cubic feet. The bill was expected to come up in the house tomorrow on a favorable committee report.

Ray Johnson of Amarillo was chairman of the delegation. The group included E. B. Masterson, rancher; Mack Sanford, rancher and oil-gas producer; Julius Dorenfeld, attorney; Charles Keffer, attorney; Roy Cullum, president of the Texas Automobile Dealers' association; Avery Rush, banker and gas producer; Lawrence Haggs, independent producer; Tex McElroy, president of the Dixon Creek Oil and Gas Company, independent organization; Hugh Allgood, Dixon Creek official; O. V. Vernon, manager of the Amarillo Chamber of Commerce and Maurice Works, attorney, all of Amarillo; Mel Davis, oil-gas producer, and rancher, and Ed Damigan, producer of Pampa and George Briggs, manager of the Pampa Chamber of Commerce; Guy Hill, secretary of the Shamrock Chamber of Commerce, representing Wheeler county producers.

McElroy stated 35 of the Dixon Creek's 75 oil and gas wells would be shut in.

Deep Rock's No. 1 Kuykendall In Andrews County Heads Oil After 600-Quart Shot; No Pipe Outlet

SAN ANGELO, Texas, March 23 (AP)—Heading every six to seven hours into the pit and making an estimated 250 barrels of oil the first twenty-four hours, Deep Rock Oil Company and others' No. 1 Kuykendall appeared today to have been developed into possibly the largest producer in Andrews county by a shot late Saturday with 600 quarts of nitroglycerin from 4,236 to 4,506 feet. Cleaning out still was underway and a 1,000-barrel tank was being erected. Shooting followed plugging back of the well from 4,645 to 4,565 feet. Gas increased to an estimated three million cubic feet. Before the shot the well never showed more than 3,600 feet of oil and was swabbed intermittently. Location is 350 feet south and west of the center of section 24, block 4-45 public school land, about four miles northwest of Fuhrman Petroleum Corporation's No. 1 Ford, largest producer in the county, completed by shooting for 225 barrels a day, initially.

The Weather

WEST TEXAS: Partly cloudy, colder tonight; Tuesday partly cloudy, colder in south and east central portions.
EAST TEXAS: Cloudy, probably showers in east and south portions tonight and Tuesday; cooler in west and north portions tonight; cooler Tuesday. Moderate to fresh southerly winds on the coast becoming northerly Tuesday.
OKLAHOMA: Partly cloudy, colder, probably freezing in north-west portion, frost in west and north portion if wind subsides tonight; Tuesday probably fair, colder in east portion.
ARKANSAS: Cloudy, probably showers in north portion, warmer in extreme east, colder in middle-west portion tonight; Tuesday cloudy, colder.
LOUISIANA: Partly cloudy, warmer tonight; Tuesday mostly cloudy, colder in northwest portion, moderate to fresh southerly winds on the coast.

East Texans Will Oppose Restriction

State Advisory Body To Make Recommendations Tuesday

OKLAHOMA REPRESENTED

Senate Passes Resolution Calling

AUSTIN, Texas, March 23 (AP)—Oil men from Texas and other states were gathered here today for the proration hearing tomorrow before the railroad commission. A large group of East Texans expected to oppose restriction of the new Rusk-Gregg county district at this time but the central proration committee planned to prepare proration recommendations for the new field as well as for the old areas.

Robert R. Pinn, Dallas independent operator and chairman of the central proration committee, was one of the earliest arrivals. With him was W. H. Cooley, California's representative on the oil state's advisory committee. Cleo I. Murray, Oklahoma's representative on that committee, was expected here tomorrow.

Meet Tonight
Penn announced his committee would meet tonight. Its members are George Calvert of Fort Worth, Tom Cranfill of Dallas and Charles F. Roesser of Fort Worth, independent. A. M. Donoghue of the Texas Company, Houston, John R. Suman of the Humble Company, Houston and R. H. Morrison of the California Company, Dallas.

No recommendations will be fixed until the committee meets tonight, Penn said. He again denied any figure had been set for the new field but said the committee would recommend proration of that area. The present statewide figure is approximately 645,000 barrels daily. The railroad commission may approve, change or reject the recommendations of the committee.

Penn took exception to the statement made last week by Representative Long of Wichita Falls, that Hines Baker of the Humble Company was at Penn's side at the Texas proration meeting of the oil states advisory committee. Baker was not at Texarkana, Penn said.

Hearing
Many of the oil men were expected to attend the house committee hearing tonight on the bill to create an oil and gas conservation commission. This commission was recommended by Governor Sterling.

East Texans have opposed proration at this time on the grounds the extent of the new field has not been determined. They said further that domestic proration did little good unless it imports were curtailed. They pointed to the unemployment relief that had been occupied by the oil boom in East Texas and stated thousands would be thrown out of work if the area should be prorated.

\$5,000 Appropriated For Investigation

AUSTIN, Texas, March 23 (AP)—The house adopted today a resolution by Senator Pollard of Tyler and Parrish of Lubbock to appoint a committee to investigate oil and gas conditions and confer with similar committees from other states with the view of adopting a uniform code for the production of gas and oil. The resolution was adopted by the senate last week.

The committee will be composed of the governor, attorney general, chairman of the railroad commission, four senators and five members.

The Weather

WEST TEXAS: Partly cloudy, colder tonight; Tuesday partly cloudy, colder in south and east central portions.
EAST TEXAS: Cloudy, probably showers in east and south portions tonight and Tuesday; cooler in west and north portions tonight; cooler Tuesday. Moderate to fresh southerly winds on the coast becoming northerly Tuesday.
OKLAHOMA: Partly cloudy, colder, probably freezing in north-west portion, frost in west and north portion if wind subsides tonight; Tuesday probably fair, colder in east portion.
ARKANSAS: Cloudy, probably showers in north portion, warmer in extreme east, colder in middle-west portion tonight; Tuesday cloudy, colder.
LOUISIANA: Partly cloudy, warmer tonight; Tuesday mostly cloudy, colder in northwest portion, moderate to fresh southerly winds on the coast.

SAND BELT GOLF ASSOCIATION IS ORGANIZED

Several years ago Charley Robertson, wearing a Chicago White Sox uniform, walked to the mound and twirled a no-hit, no-run game against Detroit. It was his major feature while in the majors. The Texan had attained the supreme desire of a baseball chucker. Today Robertson is a free agent. In his pocket is an unconditional release handed him by the Milwaukee club. He can go where he cares to, when he cares to, and how he cares to. Maybe it was a moment that hot summer day when he set the Chicago fans on their respective ears and earned the title, "No-Hit Charley." He still has that to look back on, regardless.

Cowden Named President Of Loop

Six Clubs Members of Newly Organized Golf Association

The Sand Belt Golf Association, composed of six West Texas towns, was organized at a meeting of country club officials, held here Sunday.

Towns included in the loop are Big Spring, Midland Snyder, Colorado Lamasa and Teton.

Snyder's berth is not permanent, representatives of the town being undecided. The matter will be submitted to officials of the Snyder club.

Ellis Cowden of Midland was elected president, Bob Scott of Colorado, secretary and treasurer, of the organization. The board of directors will be composed of the presidents of the various clubs in the league.

Play will start April 12. The permanent schedule has not been adopted, but will be arranged within the next few days. Each team will play 12 matches, meeting each opposing club twice during the summer.

The teams will clash every other Sunday.

Mike Hall Passes Choctaw to Capture World's Richest Horse Classic Purse

AGUA CALIENTE, Mexico, March 23 (AP)—Mike Hall, a thoroughbred which rose from the ranks of the platers, today at the age of seven was the second Agua Caliente handicap champion, giving his owner, Robert M. Eastman the world's richest stake of \$100,000.

The big bay son of Hourless virtually came from retirement to win the second renewal of the classic which started in 1917 as the Cof-f-rath handicap to double his total earnings in six years of turf activities.

Mike Hall staged a gallant drive yesterday to win from the Choctaw of the Audley Farm Stable, Miami, Fla., after leaving the barrier in the mile and a quarter test the last of the ten starters. Plucky Play from the Northway Stable, San Jose, Calif., was third, less than three lengths back of the victor.

Caught in the pack on the first stretch, Sun Beau was forced to check his pace frequently and Joe-hey Frank Colletti was never able to get him in line for a good run until his stretch was spent.

Mike Hall hit the half distance in ninth place, but then moved rapidly to the front, passing Choctaw in

the last sixteenth of a mile. Mike Hall paid \$20.80, \$6 and \$4.20 on \$2 pari-mutuel tickets. The Choctaw was good for \$6.60 and \$4 to show, while Plucky Play paid \$14.20 for third.

EXHIBITION BASEBALL

- At Houston, Texas—New York (N) 10, Chicago (A) 4.
- At San Francisco—Chicago (N) 2-5, Pittsburgh (N) 2-4, first 11 innings.
- At St. Petersburg, Fla.—Boston (A) 9, New York (A) 2.
- At Miami, Fla.—Tolosa (AA) 8, St. Louis (A) 7.
- At Tampa, Fla.—Cincinnati (N) 6, St. Louis (N) 5.
- At New Orleans—Cleveland (A) 6, Baltimore (CL) 3.
- At Los Angeles—Detroit (A) 9, Los Angeles (PCL) 5.
- At Woodland, Calif.—Detroit (A) 2-4, Seattle (PCL) 1-4 (two games).
- At Biloxi, Miss.—Washington (A) 5, Louisville (AA) 7.
- At Pensacola, Fla.—Boston (A) 14, House of David 4.

Three Day Net Meet Begins Tonight

NEW YORK, March 23 (AP)—A three-day international tennis team match, beginning tonight, gives the United States a chance to recapture a few of the laurels which France's three invaders, Jean Borotra, Christian Boutsar and Pierre Landry, won in the national indoor championships last week.

The matches will be handled in the same way as the Davis Cup matches which they closely resemble. Four singles encounters and one doubles match make up the program. The American team which faces the Frenchmen is composed of Frank Shields, second ranking American player, Berkeley Bell, conqueror of Shields and runner-up to Borotra in the indoor singles championship, and the Davis Cup stars, John Van Ryn and George Lott. Bell was added to the team partly as a reward for his brilliant showing last week and partly because John Doeg, first ranking American player, did not believe he was in condition to play.

Tonight's schedule sends Borotra, who won the American indoor title

Income Tax Receipts Downward Trend

WASHINGTON, March 23 (AP)—Income tax collections continued their downward swing today when the treasury statement for March 20 showed that \$44,105,514 was collected that day as compared with \$75,475,289 on the same day of last March.

The income tax collections for March 20 made the total for the month \$383,228,295 as compared with \$460,323,715 for the same period of last March and a total of \$2,454,008,500 for the fiscal year as compared with \$1,712,962,807 for the same period.

The collections for the month now appeared certain to drop nearly \$200,000,000 below the amount collected in March last year and much below the amount expected.

The decrease Friday may be changed either way by returns to be received for the rest of the month, but with the reports so far materially below those of last year it is doubtful if the remaining days will show any increase.

Mr. and Mrs. J. D. Bliss are spending the week in Fort Worth. Ask for Powell's Golden Crust Bread.—Adv.

Legalized "Home Brew" Not Beer, but Gas

Every Big Spring citizen is realizing that Couden Liquid Gas is an unusually high grade gasoline and each likes its premium performance.

Some of our people figure that it is good business to use Couden Liquid Gas, pointing out that it stands behind our largest industrial payroll, besides taking 5,000 barrels of crude from our local oil field daily, and forming the load for 5,000 tank cars leaving Big Spring monthly via T. & P. Railway.

Others, realizing the help that the Couden Refinery is to our community as a whole, feel it an expression of gratitude to demand its products.

We pledge ourselves to take care of this growing demand for that pure, peppy, and powerful Couden Liquid Gas if we have to put every unemployed man in Big Spring to work to do so.

Pure, unadulterated Couden Liquid Gas can be had only through pumps displaying Couden Globes.

"Uncle Jake," Texas sports writer for 15 years on the Dallas Journal, has resigned, maybe. At any rate within a few days "Uncle Jake Sports News," a weekly newspaper, will make its appearance. Owlin K. King, which is Uncle Jake's Sunday name, will be sole owner and operator.

The Abilene Elephants, they tell us are going to be extremely hard to get along with in the ensuing months. Dewey Mayhew, probably hungry for a state championship team, has his Eagles gathered around his knees and is telling them bedtime tales. Mayhew has collected a most scintillating array of ball toters. Already the Eagles have developed into the potential champions of the Oil Belt district. Within another week they will have clinched the bi-district affair and give them a couple of months and they will have the semi-finals and the state championship safely tucked away in the haversack. Well do we recall the Eagles of 1930—green but growing. We saw them play at the fair park stadium. They were inside and we were outside endeavoring to convince four ticket sellers and eight ticket snatchers that we really weren't One-Eye Connelly in disguise and there were no ulterior methods in our madness to get on the inside instead of arguing on the outside. Had not a brilliant expert happened along we probably would still be standing there.

Alan Gould, Associated Press sports editor, seemingly has solved the oft debated question of who originated the football-under-the-jersey play. It was John W. Heisman and not Pop Warner, avers Mr. Gould. It was while Heisman was coaching at Alabama Poly in 1895 that the ball was tucked, the player trotted, and a new play was given the football world. Heisman, in a letter to Gould, tells of the play. It follows as the night: "What Mr. Warner saw of Auburn's play he says he observed when he scouted Auburn in 1896. But that was just one year too late, because I invented the play in October, 1895, and my Auburn team of that year played it successfully against Vanderbilt at Nashville in that same month and year."

"That same year—still 1895—we played the University of Georgia, with Mr. Warner coaching the latter team, at Etchings Park, Atlanta, on Thanksgiving Day. The second half of that game we again pulled the play and Harry Smith, left halfback, this time ran 40 yards with the ball under his jersey for a touchdown.

"It happened, however, that Georgia was offside on that very play and the ball had to be called back, with Auburn awarded 10 yards for the offside play. In those days, you will recall, one could not decline the penalty.

"Where Mr. Warner's attention was riveted on that particular day and occasion I can have no idea, but certain it is that the Georgia voters yelled very derisively when the referee called the touchdown off and shame-faced Harry Smith was thereby forced to pull the ball out from under his jersey."

"The ball was actually hidden under his clothing—right next to his stomach. We played it from a close formation lineup by huddling in a ring, as Mr. Warner says. When and where Mr. Warner first had the ball under his clothing I cannot say."

The San Angelo Bobcats, strong contenders for state track honors, added another cup to the trophy chest Saturday. They galloped to the front in taking the Eden tournament. As is usual in such cases,

Sixth Trial Ends In An Acquittal For San Saba Man

GEORGETOWN, Texas, March 23 (AP)—Tried for the sixth time for the slaying of Fred Bolinger, bachelor recluse, Will Edmondson, San Saba county ranchman was acquitted today by a jury in district court here.

Bolinger was described in testimony as an eccentric man of some wealth who lived alone in a small house with no windows and only two doors for openings, was afraid of banks and suspicious of people. He was found shot to death the morning of Nov. 10, 1928. Several guns were found in his house and amounts of money had been hidden about the place.

Edmondson sought to establish as an alibi that he did not leave home on the night preceding the finding of Bolinger's body.

The state advanced testimony to prove its theory that Edmondson bore malice against Bolinger due to quarrels between them over land and hogs.

Edmondson was tried twice in San Saba county, twice in Llano and once in Williamson county, at the January term of court this year. At the last trial, the jury was discharged because one of the jurors became ill.

Smokey Brothers did most of the dashing. What things that Indian is going to do in the state contest this year.

The Midland scribe declared several weeks ago that Midland football players were being tampered with by Mineral Wells. It's peculiar how these towns learn so quickly. A couple of years ago Mineral Wells would have been content to use the home town products. But after a couple of years association with such towns as Ranger, Breckenridge and Cisco, the Mountaineer solons have learned that he who laughs last is either dumb or doesn't care. Mineral Wells learned what was going on when they woke up one morning and found that Chuchabuck Bird had been dragged from their midst by attractive offers from Ranger. It was that moment that the barriers were thrown down, and ethics cast to one side. But why bother with Midland players? That is the baffling query.

San Angelo has always used the home-grown boys, not because it looked better, but because San Angelo sportsmen wouldn't dig down deep enough to give the eggs and whatnot to prospective gridsters.

Athletics, Although Still Retaining Favorite Place, Seem In Need of Just A Bit of Something Which Is Lacking

NOTE: This is another of a series of Associated Press stories on major league baseball prospects.

BY ALAN GOULD
FORT MYERS, Fla., March 23 (AP)—The development of the Philadelphia Athletics in their spring training camp has left some-thing to be desired, to judge from performances, even though nothing has occurred serious enough to dislodge the world's champions as favorites in the forthcoming pennant race.

Although there is no pay-off on the results of exhibition games, the defeat of the A's in three out of four games with their world's series rivals, the St. Louis Cardinals, did not prove enjoyable to Connie Mack and his associates.

With the start of the season only about three weeks off, Mack's principal concern is these:

(1) The ability of the club's veteran infield to withstand the wear and tear of another full campaign effectively.

(2) The ability of Grove and Earnshaw again to shoulder the pitching burden to the extent of winning 50 games between them, besides saving a flock of others.

(3) The annual task of signing Al Simmons; the club's pre-emptive punch, complicated by reports that the famous outfielder intends to demand a \$100,000 three-year contract.

Only the run of the season will furnish the answer to the first items, Mack has several promising youngsters for infield replacements if Dykes, Boley and Bishop fail to meet expectations or suffer mishaps. These reserves, however, are still short of big league requirements in experience. The A's gained a third sacker, but lost their best utility man when Dykes was assigned to regular work.

In seeking support for the twin hurling aces, the A's have uncovered two unusually promising recruits in Hank McDonald, the California boy, and Lew Krausse, an 18-year-old product of Philadelphia suburban diamonds.

If Mack can get winning results from one of these youths this year, he will be well fixed, for he counts on consistent work from Rube Walterberg, Leroy Mahaffey, Eddie Rommel and Bill Storey in support of Grove and Earnshaw.

TREASURY DEPARTMENT, Office of the secretary, Washington, D. C., March 6, 1931.—Proposals are hereby solicited, to be opened in the office of the supervising architect, treasury department, Washington, D. C., at 9 o'clock a. m., on April 10, 1931, for the sale or donation to the United States or preferably a corner lot containing approximately 31,500 square feet, with a dimension of approximately 170 lineal feet, on the more important of the two street front-

ages, centrally and conveniently located, and suitable for a federal building site at Big Spring, Texas. Upon application, the postmaster

RADIO DAY by DAY

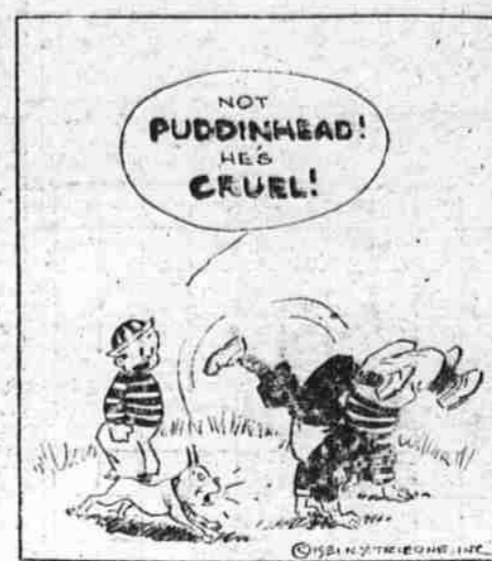

by C.E. BUTTERFIELD

(Time Is Central Standard Throughout)
NEW YORK, March 23 (AP)—Radio's going to try to get funny in a program the night of All Fool's Day.

But outside of the fact H. Warden Wilson, radio impersonator, is to be in the half-hour stunt to start on WJZ and stations at 8:03 p. m. April 1, little is being revealed. It is announced the program is being arranged to demonstrate the variety and the wide range of radio entertainment.

is announced the program is being arranged to demonstrate the variety and the wide range of radio entertainment.

They had to break off the story hour the other night right in the middle of the dramatic close because the time was up. The rather abrupt ending was due to a necessary change of studios because of the failure of facilities in the first broadcast room.

Helmuth H. Hellmut's first broadcast to Germany, tentatively set for Tuesday morning, has been postponed until Wednesday because arrangements for the picture from the State of Illinois could not be completed in time.

The first of this year's special radio concerts by the Philadelphia Orchestra, directed by Leopold Stokowski, comes on Easter Sunday via WEAF and others. Ruth

Nichols, ace woman flier, is billed for an interview on WEAF and stations Wednesday night. With Graham McNamee officiating, The opening American League game in New York between the Yankees and the Boston Red Sox goes on the WEAF air at 1:45 p. m. April 14.

Try these on your radio tonight: Addresses by Mrs. Herbert Hoover on work of Girl Scouts in connection with unemployment, combined WEAF-WJZ chains at 6:45; Maria Jorjica, opera prima donna, singing seven numbers as guest-artist on WABC and others at 7:30; American Legion program from Montreal, Canada, reception to Ralph T. O'Neil, national commander by Montreal post, WJZ and WABC at 8:30 in place of Real Polka.

Insular program of the District network of CBS from WBT, Charlotte, N. C., at 9:00.

Sherlock Holmes adventure, "The Lion's Mane," WEAF and one group at 9:00, repeated for the Pacific Coast at 10:00.

KCMO Allowed To Deliver Bonds

WASHINGTON, March 23 (AP)—The Kansas City, Mexico & Orient Railroad today was authorized by the interstate commerce commission to deliver \$5,000,000 worth of 6

per cent gold bonds to the Atchison, Topeka & Santa Fe Railroad to repay that company for money advanced for new construction work.

A Five-Billion-Dollar Concern

ALEXANDER GRAHAM BELL has been dead only nine years, and his telephone patent was issued only fifty-five years ago last month...

The net gain of telephones installed last year, the company's annual report shows, was 122,500, while the operating revenue for 1930 over 1929 was \$33,000,000.

The first telephones were crude affairs, uncertain in performance and unruly in disposition.

Southwestern Bell ranks second among the associated companies in the value of its common stock, with a total of \$154,968,000.

THE CRIME IN THE DUTCH GARDEN

SYNOPSIS: Jimmie Howell's ruse traps Lionel Duckworth as the murderer of Annabelle Querdling and the poisoner of Green.

When they called on me about those letters, had they determined then what they meant to do? I think Evelyn was in love, and Duckworth impressed with the idea of marrying a rich wife...

Chapter 29 MENED ROMANCE

"You remember," said Jimmie as Nancy Donald and the superintendent followed him eagerly, that Duckworth had told us of seeing a woman pass outside the house on the night Miss Querdling was killed...

"Probably it was," said Richmond, "but few would have thought of it. I did suspect him for a moment when he mentioned the woman. I thought he might have imagined her. But it proved to be true."

"Exactly. Then the singing all the time. Did that suggest nothing? The lovers were alone together, yet there were no affectionate glances, only continuous singing in that powerful voice audible in the adjoining rooms. Hardly natural, was it? Yet it was consistent with a desire to make people think there was no interval or break."

"Why did you hesitate?" asked Donald. "It is not easy to believe that a pleasant-looking girl can be at the same time capable of deliberate and cunning murder. Had it been Duckworth alone, there might have been no reason for hesitation. But Evelyn was implicated as deeply as her lover."

"Every one seemed to realize the matter of motive so far as Marjorie was concerned, but as I pointed out to you only two or three times it was identical the same with Evelyn."

"Well, we reached rather a deadlock until the night Green was found dying with his supposed confession by his side. Then things seemed to happen all at once. I came across Stirling and Marjorie love-making and was compelled to change my route. And to Leslie Howard the studio speaks as pure an English as any on the screen...

Ministers Raise Fund For Bandit Victim's Widow and Children: SAN ANTONIO, March 23 (AP) - Three Baptist ministers today were raising a fund to aid the widow and five children of Paul Kardow, 33, killed by a robber Saturday night while he was capturing the man with the aid of L. R. Graham, owner of the store where Kardow was employed.

Why Worry--when your car won't start? Phone 61 FLEW'S Service Station Generator - Starter - Battery Service Homer Wright in charge of this department

her garden. She smiled at him. "Ah, Mr. Howell," she said, "When two young people are in love and don't know it, what should you do about it? Bill and Audrey have been pals so long that they seemed to get to the brother-and-sisterly stage. Then this trouble came and they did not meet often. Audrey came to me, and I could see she was just miserable without Bill. As to Bill--the sore-headed bear was by comparison a docile pet. So what should be done?"

Jimmie's eyes twinkled. It was indeed a comedy that the young people should dissemble their love for her sake, while she, discerning it at the precise moment when it was officially in abeyance, should be worrying as to how she was to bring them together.

"You say Audrey called? Did you hint at anything?" "No, I left her in my room a half hour ago and told Bill there was some one for him. I did not say who it was, but I pushed him in and locked the door. I am wondering what I ought to do next."

As she spoke, Bill and Audrey suddenly appeared, arm-in-arm, round the corner of the house. "You forgot the window," he told his mother.

"My dear Bill," she retorted, "It took you a half hour to remember it." "Looks as though I'm in the way," Jimmie was grinning. "I have only one ambition left--to kiss the bride now, in case I am not asked to the wedding."

After more discussion, finally the superintendent rose to go, extending his hand to Jimmie. "I cannot say, sir, how much I owe to you. But for your help it might have taken me a precious long time to puzzle it out."

At last the time came for Jimmie to say good-bye. "I seem to hear London's peace and innocence calling me. These country places are too exciting, but there is one call I want to pay before I go. It is Mrs. Netherton."

So, a clap of the hand for Donald, a kiss for his pretty wife, and the homeward way began. Jimmie was wondering how things would go with Bill and Audrey. That their engagement would be renewed there was little doubt, and, of course, sometime in the future they would marry.

When he reached Corner Cottage Mrs. Netherton was standing in the garden. She smiled at him. "Ah, Mr. Howell," she said, "When two young people are in love and don't know it, what should you do about it? Bill and Audrey have been pals so long that they seemed to get to the brother-and-sisterly stage. Then this trouble came and they did not meet often. Audrey came to me, and I could see she was just miserable without Bill. As to Bill--the sore-headed bear was by comparison a docile pet. So what should be done?"

Flasher of Life: (By The Associated Press) NEW YORK--Helen Cahagan and Malvyn Douglas, who make love to each other on the stage, do so in real life also. They are to be married Easter Sunday. In the play an opera singer is enamored of a handsome youth who she thinks Gigolo. She reveals her affection and then learns he is an operatic impresario.

BLUESONNET CLUB: Mrs. G. Y. Miller will entertain the Bluesonnet Bridge Club Wednesday afternoon in place of Mrs. P. H. Lathery, who will be out of town.

GOOD MAYONNAISE DEPENDS UPON THE WAY OIL IS ADDED: Likewise, Flavor Development in Coffee Depends Upon Roasting Process

Housewives sometimes can add oil to mayonnaise ingredients in large amounts and not see the mixture separate. But in most cases there is disappointment. "A little at a time" is the best way.

Occasionally big batches of coffee can be roasted to perfection, but this result cannot always be depended upon. Because of this, Hills Bros., after years of study, originated and patented Controlled Roasting--a continuous process that roasts only a few pounds at a time.

A constant stream of the blended green coffees is introduced into a series of roasters in accurately measured lots--about three pounds. As it passes through in a steady, automatically controlled flow, the heat, which never varies, roasts every berry to uniform perfection.

No other coffee tastes like Hills Bros. Coffee because none is roasted the same way. It always comes to you fresh, because Hills Bros. pack their coffee in vacuum cans. By this process, air, which destroys the flavor of coffee, is taken out of the can and kept out. Coffee does not stay fresh in ordinary cans, even if air-tight, because there is air inside the can. Grocers everywhere sell Hills Bros. Coffee. Ask for it by name and look for the Arab--the trade-mark--on the can.

Hills Bros. Coffee, Inc., Kansas City, Missouri.

Easter Flower Show

April 2 and 3--3 p. m. 'til Midnight

All visitors to the Flower Show may enter our "Word Contest" secure blanks and information at the Show. See how many words you can make of the letters in "Ribble the Florist."

THREE GRAND PRIZES

Dutch Oven Goodness

The secret of Dutch Oven cooking was not lost--just forgotten for a while because women don't have the time to take the infinite care which old-fashioned Dutch Oven cooking requires.

But modern women have found a way to duplicate the famous goodness of Dutch Oven cooking, and less time is required than in ordinary cooking. The Westinghouse Flavor Zone Oven cooks foods in a retained heat that gradually recedes. It cooks automatically, without the slightest bit of attention. No basting, no tending, no watching--just place the food in the oven and the automatic clock will start the food cooking at any time you choose.

Cooking by electricity is the simplest, best and most satisfactory way of preparing foods.

Only \$10.00 Down and 18 Months to Pay

Liberal Trade-in Allowance on Your Old Stove

The QUICK COOK Unit 30 to 50% faster platform cooking, with 10 to 20% more efficiency. This new unit gives you boiling and frying heat with a speed and efficiency never equaled before.

Big Spring Men Go To City Building Confab

Big Spring is represented in the southwestern conference on town and city building problems, in Dallas today, by C. E. Talbot, city commissioner; V. R. Smitham, city manager, and Shine Phillips.

Messrs. Phillips and Talbot went to Dallas Sunday on the American Airways ship, Mr. Smitham going by train Sunday evening due to inability to obtain a reservation on the ship.

The conference is being sponsored by the Kessler Plan Association of Dallas, assisted by the United States Chamber of Commerce.

One of the principal items of discussion will be city zoning. Methods of developing communities

Business Men's Bible Class Is Organized

Reorganization of the Business Men's Bible class of the First Methodist church and the outlining of a program for larger attendance and more interesting programs were effected Sunday morning.

B. F. Bogony was made president, Hayes Stripling, vice-president and R. L. Bull, secretary-treasurer.

Rev. W. G. Bailey taught the morning's lesson in interesting fashion. The class meets at 9:45 o'clock Sunday mornings in the church, Fourth and Scurry streets.

'Broadway' Motorcade To Spend Night Here

Big Spring has been designated a night control point for the 1931 Broadway of America motorcade to the annual convention of the Broadway of America Association in Hot Springs, Ark., April 20-21.

The motorcade will stop here the evening of Friday, April 17.

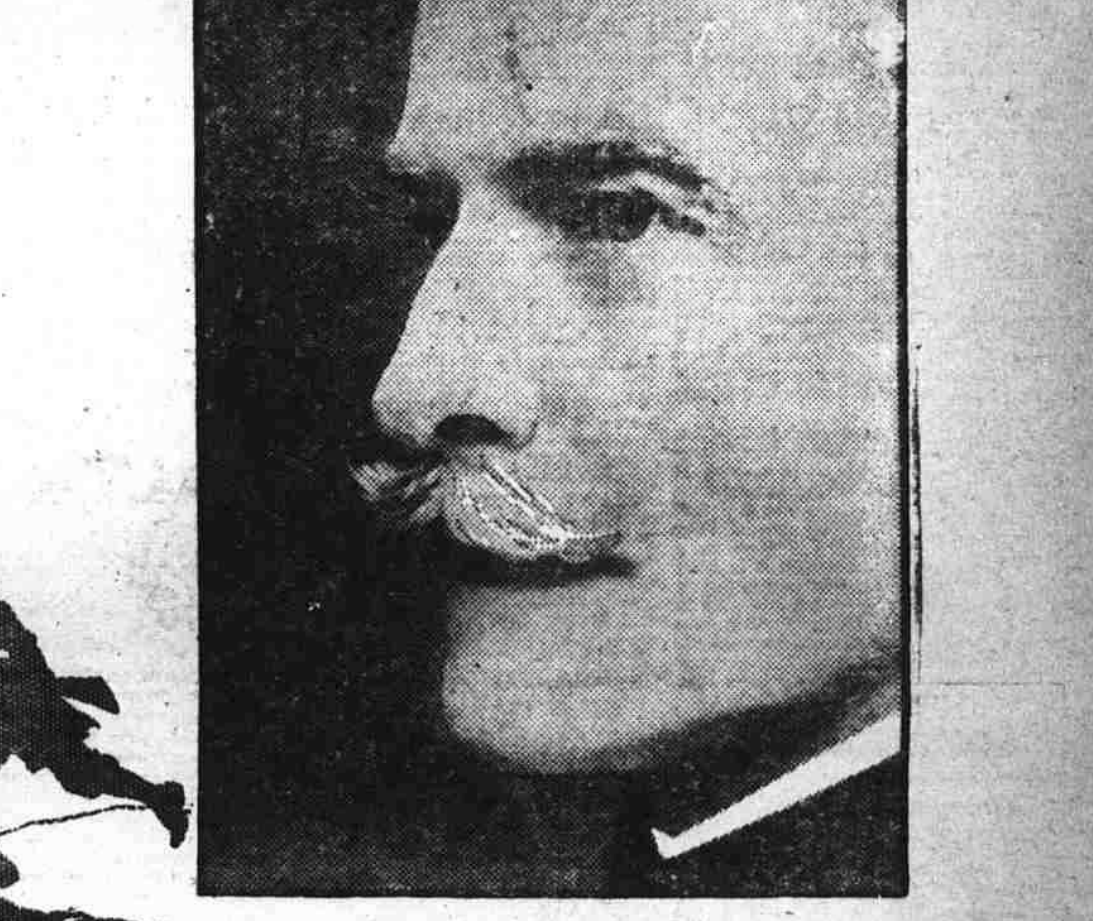

Revival of the Broadway of America movement for exploitation of the transcontinental route of which the Bankhead is a part is scheduled to occur at the convention.

The motorcade will originate in San Diego, the western terminus of the "Broadway" and gather members along the route. Designation of Big Spring as the first stop east of El Paso followed a recent re-

Lion-Killing Job In Big Spring Country Wanted By Texas Man

Who has ever large wild lions that need to be captured? The Chamber of Commerce received a letter Monday morning from a Mission, Texas man who said he had four fine lion dogs with which he had captured several big ones in the border and valley country.

"I've been reading about five stock being killed in your section by mountain lions and would appreciate information to determine whether I could make a killing in that region with my dogs," he said.

Essay Contests Announced For District Meet

Additional prizes, which will be offered to individuals at the district meeting of Texas Federation of Women's Clubs, are announced as follows:

Mrs. J. C. Coleman, of Alpine, offers to school girls from 14 to 18 years, three prizes for the best essay describing a house according to the requirements listed below.

Contestants are to be school girls from 14 to 18 years. Age, name and address must be enclosed with essay in a sealed envelope and mailed to chairman before April 10.

Mrs. J. T. Baker of Fort Stockton, Texas, Americanization chairman, is offering a prize of five dollars to American children of foreign parents, for the best essay on "Why and How Be Good Citizen."

Mrs. G. E. Kelly of Chico, Texas, Sixth District District chairman, Texas Federation of Women's Clubs, is offering a prize of five dollars to club women in district, for the best essay on "Women's Service As Citizen."

Rules: All essays must be written on one side of paper in long hand, or typed, and must not be more than five hundred words long. Name and address must be enclosed in sealed envelope with essay. They must all be mailed to their respective chairmen by April 10.

Style Show And Health Lecture For Hi P.T.A.

The high school P.T.A. will meet tomorrow at the high school building at four o'clock for the regular March meeting.

A splendid program on the subject of health has been prepared. Dr. Charles K. Bivings will give the main address.

There will be several musical numbers. A style show will be given by members of Miss Helen Fay Bonner's class in home economics.

Every parent is asked to be present because the meeting will be of wide-read interest.

Account of China Inland Mission Conducted By Mr. and Mrs. Taylor

The chief speakers at the fifth Monday meeting which will be held next week at the East Fourth Baptist church will be Mr. and Mrs. F. Howard Taylor, of the China Inland Mission.

The West Texas Baptist Standard, of Abilene, makes the following comment on Mr. and Mrs. Taylor and their work:

"West Texas has been blessed during the past few days with visits from Dr. and Mrs. F. Howard Taylor, two of the world's outstanding missionaries, connected with the China Inland Mission.

This mission, founded 64 years ago by Dr. Taylor's father, Dr. Hudson Taylor, is one of the most remarkable missionary enterprises launched since the apostolic days.

The mission has 1,200 missionaries employed, and there is room for 200 more on the field at this time. The mission is inter-denominational, being supported by voluntary contributions from Christians all over the world.

Since its founding the mission has expended \$20,000,000 in mission work. The organization has never had a deficit and there has never been a public collection taken for it.

Dr. Taylor states that these wonderful results. This mission should be a challenge to our religious bodies everywhere to go back to God's ordained way of carrying out the work of evangelizing the world."
