ting Administation. Ospects for stable or rising TV Antennas Here To Stay!

NEW YORK (UPI)-Remember not too long ago when people were putting up antennas just to make it look as if they owned television sets which they didn't?

Those days are gone because practically everyone has a set. So now, the problem comes up of how to get rid of that unsightly antenna on the chimney before it blows down or has to be replaced.

There are two ways one might ne tax season in full get rid of the old rig. One is to ng, we asked H. B. Hamill, build the antenna into the "skin" istrative officer of the Am- or the house similar to the anteno IRS office, to furnish a list has on our supersonic military aire most common taxpayer craft. The other is to have the rs in filing 1959 tax returns: antenna built into the set on the order of present day radio sets.

straw pill box.

would have known what to think worn by Mabel Dockery fashioned tricot nylon in champagne beige with deeper champagne shade of imported lace trim. Mable later modeled a dressy shirtwaist classic with a pure silk bodice and a floral silk organza skirt.

Frances Cree and Jean Duncan rovided a light and gay touch appearing together in a selecon of Mix Or Match co-ordinates blue arnel denium sharkshin. Frances was adorable in jamaica shorts with rick-rack trim and a midriff top; and Jean was eyecatching in clam-digger pants with a blue and white striped blouse. Another eye-catcher was the white and orange capri pants worn by Mrs. Cree, They were beautifully fitted, tapered pants with a matching companion skirt comple-

mented with a blouse of egg-shell Later in the show, Mrs. Cree modelled a darling black and white dress-up frock with a silk crepe jersey top and tie-silk skirt.

And it would be difficult to keep your eve on the sport-at-hand, if you saw the white sports capri set Jean Duncan fashioned. The "fresh as a summer breeze" two-piece summer white capri set was outstandingly dramatized with a multistriped bag.

worn also by Jean Duncan fashoned in rose-splashed imported Egyptian cotton.

These were only a few of the selections modelled at the show through the courtesy of Behrman's. And if Martha knew then what

Claunch, Perez, Tedder, Pind Lose; Odessa In Team Lead

Wilhelm of Pampa, fighting for the Corpus Christi region, will meet Gary Watt of Levelland here tonight in the welterweight finals of the state Golden Gloves boxing tournament,

Watt, the Amarillo region representative, beat another Pampa welterweight, Charles Snider, in the regional finals to reach the state meet. In Monday's state semifinals he defeated Cruz Rangel of Odessa.

Wilhelm reached the finals with a decision Monday night over one of the most highly-regarded fighters in the tournament, Burton Gilliam of Dallas.

The Watt-Wilhelm battle might possibly decide the team title in the tournament. Through Monday night, Odessa had won 12 fights, Amarillo 11 and Corpus

Amarillo just managed to break even Monday night, winning three fights and losing three. Corpus Christi also won three and lost three.

Johnny Claunch of Pampa, fighting for Corpus Christi, lost a unanimous decision to John Marshall of Odessa in the lightheavyweight semifinals Monday night. With Claunch's loss, Wilhelm is the only Pampa fighter still in the tournament,

An Amarillo region fighter, Elmer Clement of Canyon, will meet Marshall tonight in the light-heavy finals, Clement gain-ed a decision Monday over Adalberto Santos of Austin. An Amarillo middleweight,

Martin Berzewski, decisioned Donald Cook of Sherman to reach tonight's finals. He will fight Gene Gilliam of Dallas, Berzewski, an exchange airman from and Kilgore Junior College, 21 years ago they do everyt Germany, had won his previous fights by knockouts, but Cook went the distance by going into

ilson with 1196.

will be held March 25.

lightweight, both semifinals and finals will be fought tonight. Amarillo fighters losing quarterfinal bouts were Dale Gardner, 112; Albert Cavazos, 118, and Manny Perez, 136. For Corpus Christi Johnny Lynch, 119, and

In quarterfinal fights Monday

in the lighter weights, Amarillo

lost three; straight decisions,

while Corpus Christi won two

fights and lost two. In the divi-

sions from flyweight through

Humberto Barrera, 112, won decisions but Billy Pina, 126, and Wayne Tedder, 135, lost.

Gardner, Cavazos and Perez all lost close decisions for the Amarillo team. Any one of those three fights could have gone the other way. Gardner lost to Stephen Armesto of Odessa. Cavazos to Charles Caram of Fort Worth Wichita Falls.

The losses of Pina, an Andr fighter, and Tedder, a Boi boxer, were among the big sets of the tournament—as Claunch's loss. All three were fending state champions

Pina lost to Paul Saplen Dallas, Tedder to Reggie Da of Sherman, Barrera defea Frank Esparza of Wichita P and Lynch won over Joel redondo of Wichita Falls.

Amarillo and Odessa right seem to be in the best posit to take the team title. Od has four fighters left in the t nament, but only one is in finals. Amarillo has three fiers remaining, all in the fin Corpus Christi also has "survivors" in the tourna but only one is in the finals,

Ammonia increases maize, wheat yields

W. O. GROVES of Spearman, Tex. reports maize yield up to 97.5 bu. per acre with 100 lbs. ammonia.

"A pre-plant application of 100 pounds of Phillips 66 Ammonia helped make an average of 97.5 bushels of maize per acre. Wheat has averaged 41.3 bushels per acre following pre-plant application of 75 pounds ammonia," according to W. O. Groves, who farms 480 "For several years Phillips 66 Ammonia has been

used successfully. I'm stepping up my rate of application each year. Even on dryland wheat, in years with very little rain, Phillips Ammonia has produced up to 10 extra bushels per acre," he says. Thousands of Texas farmers are now using Phillips

66 Ammonia to help assure top net profits per acreon irrigated or dryland fields . . . in wet or dry years. Actual field reports prove that Phillips 66 Ammonia (1) produces more high grade lint (2) increases sorghum grain yields (3) boosts wheat and small grain yields (4) stimulates pasture growth for more meat and milk.

See your local Phillips 66 Agricultural Ammonia Distributor now. You can make more money this year with this 82% nitrogen fertilizer. It can be applied by you or your distributor.

Let's Suppose There Were

No Production Jobs Fred G. Clark and Richard Stanton Rimanoczy explains how there will a ways be plenty of

Better Jobs

Year motive in this manner. "For some time to come many of American's production workers will worry needlessly about their jobs.

jobs no matter how much auto-

The reason for this is the 'new" threat called automation, which, carried to extreme limits could conceivably result in completely automatic factories.

"This could not possibly hap pen quickly or even in our lifetimes, but, to explore its mean ing, let's assume that it will, and see what its effect would mean. "To get some perspective on this, let's start back 100 years in

our history and see what happen--that of farming "In the year 1860 agriculture

employed 68 per cent of the work force in the United States. "Today less than 10 per cen from war today because of laws of American jobs are to be found

on farms.

'This meant that about six out of every seven jobs in agriculture were "automated" out existence by the cotton gin, the controlled the tribes and clans.

3. When nations were formed, wars began between nations, but ceased or dimished between cities was now virtually disappeared, so far as we can learn.

If we do wish sincerely to put a stop to national conflict, then a stop to national conflict, then a stop to national conflict. The confidence is the advantage of most cities reaper, the thrasher, the confidence is confidence. The confidence is the advantage of most cities reaper, the thrasher, the confidence is confidence. The confidence is to attack other cities, war between bine, the hayer, the tractor, the seeder, the electric milker, and many other "miracle" machines. "What happened to the people a stop to national conflict. reaper, the thrasher, the com-

work? "They got better (and in most cases) easier jobs, performing some needed and valuable service that could not have been performed had these workers not

"The retirement of John L. Lewis as head of the coal miners brings to mind what has happened in that field,

been "released from the land."

"Since 1938, through "automation", the number of production workers in coal mining has dropped from about 450,000 (earning about 75 cents per hour; to about 200,000 (earning more than \$3.00 April 5 and May 3.

"And the 200,000 coal mining jobs that remain are more pleas-

"John L. Lewis encouraged this mechanization, discouraged featherbedding, and made the coal miners prosperous. "What heppened to the 250,000

men who would have had coal mining jobs had not machinery taken over? "They have good jobs doing

some needed (and more pleasant) work that could not be done had the men been kept in the

"These two examples give us a clue to what would happen if, by a miracle, all of the some 15 million production jobs in the United States were to be gradually "automated" out of existence.

'On past experience it would simply mean that about 25 per cent of the American labor force would be freed to go into sales, service, engineering, merchandisgovernmental, clerical, educational, medical, dental, legal, and many other needed types of work, most of which would be more pleasant and more rewarding.

We have tried to show that nathe products of various tribes tional political leaders, just as could be brought together in one "The human race will never run political leaders at all other levels, place (the city) where trading out of useful work just because of the elimination of drudgery through better tools. respecting possible courses of ac- Thus, for a time, it seemed tion open to them. And we have that man's propensity to mis-judge

"From anything that we now know, this utopia of fully automatproduction will never come but we must not try to hold back the trend because of needless

And we must remember that American progress in automation is our best hope for staying out ahead in the grim production struggle with Communist Russia.

'It is going to be hard enough for management to get the billions of dollars needed for these wonder tools without having to worry about what kind of welcome they will receive in the

Who Told Russians About Surrender Of Kesselring

Russian education was at zer in 1917 and most of the tiny n nority of educated aristocrats and literate government clerks had been killed or driven into exile.

Russian education could not hav made great progress by 1945 wher the great war ended because the government and the people were portations of whole regional popu lations, sabotage and many lesser wars. But it is an accepted fact that the present school system was established by Stalin in 1936, only five years at most before Hitler attacked Russia. There is mystery in the preten

sions of the Soviet Union and of American alarmists who claim that the Russian population nowa days is educated to a higher de- (Signed) gree than ours. It is impossible to make accurate comparisons, but to start with, it seems incredible that in such a vast, inefficient country worthwhole progress could have been made by 1930.
